Chapter 1421: Get your wish

Li Si is now in a dilemma.

Give it, it will be a bit embarrassing; don't give it, Ye Fan calls on the strong to attack the Mausoleum of the First Emperor, which may cause disaster.

How to break?

Ye Fan shouted, "I'll give you a minute to think about it, don't let me down."

hateful.

Liz gritted his teeth.

At this time, Li Xin said through a sound transmission: "Since he wants a metallic water-type treasure, give it to him."

"what?"

"Don't worry, I will plant demon seeds in the baby. Ye Fan uses the baby to cultivate the Five Elements Divine Body. He must be integrated with the baby. At that time, the demon seeds can play some role, and even assimilate Ye Fan and alienate him into a Demon, driven by me."

"it is good!"

Bai Qi and the others were overjoyed.

Li Si shouted: "Ye Fan, to be honest, I'm not at all afraid of you calling the strong to attack the First Emperor's Mausoleum, because the First Emperor's Mausoleum is invincible and not something that a small **** can break through."

"but!"

"You cultivate the Five Elements Divine Body, that is your own death. I am very willing to let you go further and further on this dead end."

"So, I'll give you a metallic and water-type baby. I hope you don't let me down. You must go to the end, hahaha."

Soon.

Two beams of brilliance came flying.

Ye Fan grabbed it.

One is a golden bell, which exudes a sense of grandeur and is extraordinary at a glance.

The other is a seed.

This seed has no form, just like water, it changes constantly.

Li Si explained: "The golden bell is the treasure that our Daqin Immortal Kingdom once hung in the palace. It was used to summon ministers. When I heard the bell, it was like an immortal emperor opening his mouth!"

Ye Fan nodded secretly.

I see.

No wonder, this golden bell has a sense of majesty.

"The second seed was bred by the Quicksand River, and the Quicksand River is a river that runs through the entire sky."

"Tianwaitianliushahe?"

Ye Fan was puzzled.

Ganji said: "Tianwaitian is a world independent of the ancestor star, but it exists depending on the ancestor star. In ancient times, the sky outside the sky was the battlefield of the saints. Because, in the ancestor star war, the ancestor star will be destroyed, and the outside world will be destroyed. The sky is extremely strong, so if the saints want to confront each other, they will go back to the outer sky."

Evan understood.

Sure enough, they were treasures, but he also knew that Li Si couldn't easily give these two treasures to him, there must be something tricky.

Big game!

Great Prophecy!

At the same time, Ye Fan contacted Fang Rui, and the technology light brain was also calculating.

One thousandth wonderful.

There is news.

Fang Rui said through voice transmission: "Xiaofan, among the two treasures, hide this devil seed, you have to be careful not to be alienated."

Sure enough.

Ye Fan also had some guesses.

Li Xin wants to alienate him into a demon, it's really stupid and ridiculous, a mere demon seed, what can he do!

Ye Fan calmly put the baby away.

"Very good, next time if you need anything, I'll come back, you guys should be mentally prepared."

"what!"

Li Si was furious.

And Ye Fan and Han Yan had already entered the world of heaven, and the gate of heaven disappeared.

Bai Qi sneered: "Ye Fan is still complacent, but he has already been calculated by us."

Meng Tian said, "Li Xin, are you sure that the devil seed will not be discovered by Ye Fan?"

Li Xindao: "No, it is the original demon, extremely powerful, and it was bred and appeared in the origin of the demon world. It is illusory, colorless and invisible, and Ye Fan can't find it. When he finds it, it means that the original demon has been Invading his body, it's too late for him to get rid of it. Ye Fan will definitely turn into a demon!"

"Hahaha, well, it's really heartwarming."

"Continue to practice."

"Strive to break through the Dao Primordial Realm as soon as possible, so that we can sweep the world."

...

Heavenly World, Central Hall.

Ye Fan and Han Yu found Fang Rui, and the three sat down with the Golden Bell and Quicksand Water Seeds in front of them.

"How to get rid of demon seeds?"

"Great Dispelling Technique?"

Ye Fan asked because he really couldn't find the devil seed himself.

Fortunately, Fang Rui's scientific and technological light brain is now strong enough to show terrifying power of speculation.

Fang Rui's head flashed with a halo, her eyes were bright, she said, "I have found the location of the devil's seed, it's really scary, it turned out to be the original seed of the devil, and it was conceived by the origin of the devil world. Xiaofan, if you don't pay attention, really will meet."

"Sister, can you get rid of it?"

"You help me!"

Fang Rui drank lightly, her eyes bursting with divine light, falling on the golden bell and the quicksand water seed respectively, and then, only to see two treasures trembling frantically, and a black seed with the owner's monstrous demonic energy emerged.

That seed, as if it had a soul, fled wildly inside.

Unfortunately.

Fang Rui's eyes of God made them invisible.

"Go!"

Fang Rui reminded.

Ye Fan and Han Xun shot together, trapping the original demon seed; and Fang Rui, with the spread of spiritual power, slowly took out the two seeds and placed them in the small Qiankun bottle.

This small Qiankun bottle was once obtained from a child of the Protoss.

"seal!"

Ye Fan showed his supernatural powers.

Finally solved the trouble.

Fang Rui said with a smile: "The devil's original seed is very precious. It can help me to study the devil, and even, through the original seed, spy on the devil's world; find the coordinates of the devil's world."

"real or fake?"

Ye Fan's eyes brightened.

Li Xin's greatest strength is that he can summon demons.

If so, go to the Demon Realm by yourself, suppress all the demons, and destroy the Demon Realm.

That.....

Isn't Li Xin dead?

Ye Fan could even imagine that at that time, Li Xin shouted majestically to summon demons, but none of them came.

That picture...

Must be wonderful.

"Sister, work hard, find the coordinates of the demon world as soon as possible, I'm going to sweep a wave."

"I just said it is possible, the success rate is not big, but I will try my best."

"Okay!"

Ye Fan and Han Yan left.

Now, the Five Elements Treasures have been raised, and Ye Fan is ready to start practicing.

Different fire!

World tree seedlings!

Rest in the soil!

Golden Bell!

Quicksand water!

Appeared in front of Ye Fan.

"Everything is a treasure, you have it all, it makes me envious."

Ye Fan laughed.

first.

He used the Fire God Technique to assist with doubts, only to see that the Fire God power erupted violently.

In the sky, a red mark was formed.

Below is the world tree seedling.

Wood magic works.

This time, it was much harder.

Because Yihuo has always followed Ye Fan, and Ye Fan was the first to practice Chidi Fire God, so he should be more familiar with it.

Therefore, the mark of the Vulcan can be condensed so quickly.

Three days later.

Finally, the World Tree seedling trembled, and with the wood divine power, in mid-air, the imprint of the Wood God condensed.

Immediately after.

It is the mark of the Golden God, the mark of the earth **** and the mark of the water god.

It took Ye Fan three months, and it was all successful.

The five imprints are mutually reinforcing and revolving slowly.

"receive!"

Then, Ye Fan shouted loudly.

The imprint of the Five Elements fell and was printed on her chest. For a time, Ye Fan's body trembled.

The body is turned upside down.

The qi and blood burst out involuntarily, sending the scorpion flying directly.

"What a strong blood!"

Dry stammered, surprised and happy: "This guy's physical body has been strengthened again, and he is truly invincible in the realm of gods, and may be able to compete with monks in the realm of Hunyuan."

"what!"

Ye Fan screamed.

He felt that his body was about to explode, the energy was too violent and turbulent.

He rose into the sky.

He kept waving his fists and unleashing the divine power of the Five Elements, and the heaven and earth shook and resonated.

"Ye Fan, leave the heavenly world!"

Drought cry.

Because, he found that Ye Fan actually started to use the Five Elements Law, which has the hope of breaking through to the realm of Primordial Yuan.

Heavenly world, where the avenues are incomplete.

Only Zuxing's Dao Law is complete.

It is easier to get opportunities in Zuxing.

Ye Fan rushed out of the heavenly world, and he still kept waving his fists, venting the energy in his body.

Every punch can wipe out a mountain.

The void is exploding.

Indistinctly, the general trend of heaven and earth was affected, and some strange power was wrapped around the fist.

Ye Fan was very surprised.

Is this the power of the law?

really.

Using the power of the law, the power will skyrocket, and this is the terrible thing about the powerhouse of Hunyuan.

"Give me a breakthrough!"

Ye Fan poured out all the divine power of the Five Elements, covering thousands of miles around.

Everything begins to change.

There are five elements in heaven and earth, and they are balanced. Suddenly, there are so many divine powers in the five elements, which disturbs the balance of the five elements in heaven and earth. Naturally, a big change occurs.

Thousands of miles around, a catastrophe occurred.

Almost subverted.

"The disaster subsides!"

"Catastrophe!"

Ye Fan uses supernatural powers, a catastrophe technique, which can create disasters and naturally quell disasters.

The disaster subsided.

At the same time, Ye Fan was bathed in divine light, and he sensed his own powerhouse, and even sensed the existence of the law.

Everything is within reach.

"Hun Yuan!"

Two words, such as thunder.

Shake the universe.

Ye Fan has improved in an all-round way, and his strength has skyrocketed, because at this moment, he has entered the realm of Primordial Yuan.

"kill!"

Unexpected.

The void split, and several lore came.

"It's you!"

Ye Fan's face was cold.

The ones who suddenly came out were Bai Qi, Meng Tian, Wang Jian, and Li Xin, the four generals of the Great Qin Dynasty.

The four of them turned out to be in the Primordial Realm.

"very good!"

"I just broke through, and you think I'm weak? Stupid and ridiculous. I don't have a weak period. Now, it's when I'm the strongest. I just need to practice my hands, and you've come just in time!"

"Vulcan Fist!"

"Earth God Fist!"

"Golden God Fist!"

"Wood God Fist!"

The four fists, penetrating the sky and the ground, slammed against the lore of the four of them.

The bombing blasted the void into a huge black hole that could not heal for a long time.

The four of them flew away.

"How is it possible, why is there no period of weakness!" Meng Tian couldn't believe it, they were going to go to the Daxia Palace to arrest the queen.

On the way, I saw Ye Fan going crazy and started to break through.

In order to make sure nothing goes wrong, they waited for Ye Fan to break through the moment of weakness.

Must be able to kill.

But now, it is completely different from what they expected.

Ye Fan is not weak, but at his peak, how could this be!

"kill!"

"Five Elements Divine Fist! The power of law!"

They couldn't bear to think too much, Ye Fan's unique skills came, and the colorful fist, mixed with the power of the law, was a ferocious mess.

"not good!"

The four of them were shocked.

They tried their best, but they were still sent flying. Although the injuries were not serious, blood was still gushing out.

"That's all you have?"

Ye Fan tore open the light curtain and walked in the air, like an emperor, invincible, looking at all directions.

Chapter 1422: Calculate

"Damn it!"

The four of them were shocked and angry.

Ye Fan's power was beyond their expectations, and he actually used the law of the five elements. You must know that he has just broken through to the realm of Primordial Yuan, and he has mastered the power of the law. What kind of speed is this?

Meng Tian said: "Li Xin, Ye Fan has mastered the Five Elements Law. It seems that he has integrated the Five Elements magic weapon. The Golden Bell and the Quicksand Water Seeds have the original devil seed you planted. Immediately stimulate them to make trouble for Ye Fan, so that we can kill Ye Fan. !"

Li Xin nodded and said, "I need time, you can hold me for a minute."

"Can!"

The trinity of Bai Qi, Meng Tian and Wang Jian turned into a monstrous demon and attacked Ye Fan.

Li Xin began to cast a secret technique.

"Devil's door, open!"

"Grand Summoning!"

"The devil in the Primordial Realm, obey the Lord's order, pass through the gate of the world, and come!"

The dry man's face changed.

only see.

The Devil's Gate trembled frantically, and then, a huge head came out, which was a demon of the Primordial Realm.

Next are two more.

Three demons of the Primordial Realm.

This is the limit that Li Xin can summon at present.

"Hahaha, okay, the three major demons, join forces with us to kill this son!"

"Roar!"

Demon howls.

The three demons turned out to be a trinity, a super demon that transformed into a god, and their combat power skyrocketed.

"kill!"

The demon fist smashed down.

Crashed.

Ye Fan's face was calm, Gu Jing had no waves, and he also threw a punch.

Good Fortune!

With the power of the Great Purification Technique!

"boom!"

fist bump.

The big devil flew out and screamed at the same time, because the power of the great purification technique was at work.

"Avenue Fire Fist."

Ye Fan quickly threw a second punch.

With this punch, a terrifying strange fire shrouded the big devil and burned the big devil.

the other side.

Ye Fan used the power of the Five Elements Law to fight against Bai Qi and the three of them without losing the slightest.

"Damn, how can this kid be so strong!"

"Don't worry, just hold on, and wait for Li Xin to use the secret technique to activate the original demon. At that time, Ye Fan will definitely have a big change."

At this moment.

Li Xinxin said something and performed a secret technique, and he himself turned into a demon. In his body, there was a seed.

Demon Mother Breed.

With this mother species, he controls the demon world, and at the same time can contact and activate other demon species.

"It seems!"

Finally, Li Xin burst out drinking.

at the same time.

Ye Fan's body trembled, and then his breath became disordered, and a mouthful of blood spurted out.

"Hahaha!"

"Ye Fan, today is your day of death."

The three of them laughed.

at the same time.

A dazzling light rushed over from afar. It was Li Si. He was holding the Human Sovereign Pen, and he was already setting it up.

"The heaven and the earth."

Li Si blocked the world, so that Ye Fan could not escape.

even.

Not even the gates of heaven can be opened.

"Ye Fan, you must die!"

"kill!"

The three Bai Qi, the big devil, and Li Xin all attacked.

Drought discoloration.

He couldn't understand that Ye Fan had already taken out the original demon, how could he still be affected.

The situation is not good.

"boom!"

In an instant, the drought revives the body of the **** of fire.

The void seemed to melt.

"Merely at the pinnacle of God Transformation, dare to intervene and kill me!" Li Si drank, and the Human Sovereign Brush turned into an extremely sharp long sword, slashing and slashing.

Ganji can only fight against Li Si and cannot support Ye Fan.

core battlefield.

Ye Fan was a little embarrassed in the face of the besieged and killed by the four Bai Qi and the big devil, but he was also invincible.

Bai Qi sneered: "Ye Fan, I really didn't expect that you can persevere, but how long can you persevere."

Meng Tian said: "Your ending is doomed, you will surely die!"

"What have you done to me!"

Ye Fan was shocked.

Bai Qi and the others weren't stupid, they didn't say anything about the original demon, they were just madly attacking.

Ye Fan was losing ground.

"Open Heaven Axe!"

"cut!"

At a certain moment, Ye Fan got a breather, and used his talent to split the space.

The death sneered: "Ye Fan, it's useless. Although the opening axe is strong, the human emperor's pen is not weak. I have been brewing for so long. Even if you can split the seal, it will take time. There's no time left!"

"boom!"

The big devil punched and bombarded Ye Fan, causing Ye Fan to spurt blood and fall.

Drought is very anxious.

However, his situation was also very dangerous. He possessed ancient methods and ancient techniques, but Li Si also possessed them.

"Open it for me!"

Ye Fan roared, and the opening axe was shining brightly.

an axe.

Split the void into a gap.

"what!"

Li Si was shocked, and immediately shouted: "Quick, stop him!"

"go!"

Ye Fan grabbed the drought and rushed into the space crack.

It was too late for them to stop it.

"Damn!"

Li Si was very aggrieved.

Unexpectedly, Ye Fan could split the seal.

Li Xin quit the demon state and said, "It's okay, now that Ye Fan is no longer afraid, let's go to the Daxia Palace."

Li Si shook his head and said: "It's useless, if Ye Fan escapes, he will inevitably take the Queen of Daxia away, and even everything will enter the world of heaven, we can't catch it."

"What now?"

"Although the queen can leave, the Great Xia Luck cannot be taken away, and is still in the palace. We have to find a way to transfer the Great Xia Luck to the First Emperor's Mausoleum. This will activate our palace, and even allow the palace The old dragon veins below, regain some vitality."

"It's just that we are still in the Primordial Realm, and we still can't transfer the luck of Daxia. No matter what, let's take a look first."

Li Si and his party went to the Daxia Palace.

And Ye Fan.

already in the palace.

He Jin entered the world of heaven, passed through the gate of heaven, and appeared directly in the palace.

"what's wrong with you?"

"Installed."

Ye Fan grinned.

Han Yan was startled, and immediately understood, "You are so black-bellied, you want to go to the devil world and take away Li Xin's lair, right?"

Ye Fan nodded; "Yes, you must take down the Demon Realm first, so that Li Xin and the others will be cut off. Otherwise, they can't beat me, so they can go to the Demon Realm to hide."

"Man'er, clean up, the palace is temporarily abandoned, and all the treasures of everyone are transferred to the heavenly world."

Queen Ying Man'er nodded: "Understood!"

ten minutes.

It's all transferred.

Ying Man'er looked at the sea of clouds above the palace, where the huge golden dragon of luck was churning.

How magnificent!

"Unfortunately, the luck cannot be transferred. Brother Fan, Li Si and the others, will they cause harm to the luck?"

"Will not."

Ye Fan shook his head.

"The reason why Li Si and the others want to arrest you is actually to seize the throne of Daxia, and use this as a springboard to find the immortal kingdom of Daqin. Li Si and the others also need the luck of Daxia, and will only protect them. Unfortunately, they are not from Daxia. Lord, without the Nine Dragons Jade Seal, it is impossible to take advantage of luck."

"Don't worry, let's withdraw."

Ye Fan and the others had just left for ten minutes when Li Si and the others arrived, and they sensed Ye Fan's breath.

Bai Qi said aggrievedly: "Damn, let that kid take the lead, everything has been transferred, only luck is left."

Li Sidao: "Luck is the most important thing, enough."

Chapter 1423: Mixing

Heavenly World.

Ye Fan found Fang Rui and asked, "Sister, do you have any clues? Li Xin has already been able to summon demons in the Primordial Realm. If he doesn't punish him, he will get out of control and he must go to the demon realm as soon as possible."

Fang Rui said: "There are indeed clues, but they are not accurate. At present, there are only approximate directions."

"Let's make an estimate on the way."

"Alright."

On this day, the super star warship was launched.

This time, Ye Fan left the earth with only Fang Rui and Ganji.

Travel through the stars.

Ye Fan stood at the head of the battleship, looking at the magnificent and vast universe, a sense of insignificance and humility was born spontaneously.

indeed.

For the vast universe, he is really too small in the Primordial Realm.

Even a saint cannot explore everything in the universe.

Even if it is the Great Emperor, I am afraid that he has not reached the end of the universe.

Fang Rui kept calculating.

The route became clearer and clearer.

But not long after, they encountered the Starry Sky Travelers, and three battleships came galloping.

Forming a swaying entanglement.

"boom!"

"boom!"

"boom!"

Above the three battleships, the breath of the three gods of the peak burst out, accompanied by a loud shout: "Quickly stop the battleship and accept the inspection, we are Xingguan."

Ye Fan's mouth twitched.

Star pass?

There is a customs in the secular world, and these robbery star-crossers have created a customs. They are quite qualified and know the law.

"roll!"

one word.

Shake the sky.

The three battleships swayed as if they were about to explode. The battleships were just sailing, and many creatures were seriously injured and vomited blood.

Even the three cultivators at the peak of the gods turned pale, and their primordial spirits were injured.

So strong!

What is this existence!

Could it be, the boss of the Primordial Realm!

"Senior, calm down, we don't mean to offend, we'll leave now."

"and many more."

Suddenly, Ye Fan called out.

The faces of the three god-turning peak leaders changed greatly, and they knelt down in panic, "Senior, spare your life!"

"come over!"

The three leaders did not dare to disobey, and came to Ye Fan, still kneeling on the ground.

Ye Fan said: "I see a hint of devilish aura on you. Could it be that you have been to the devil world?"

A leader said: "Don't say it well before, we have been to the demon realm a few days ago, but the demon realm has changed a lot now, and a demon in the realm of Hunyuan has been born. We can only flee in a hurry. Come with us. In the past, there were actually five war generals, and two warships were lost in the Demon Realm."

Ye Fan and Han Yan looked at each other and smiled.

It's really hard to find a place to break through the iron shoes, and it takes no effort to get it.

"Sister, you don't have to guess."

Ye Fan's voice transmission.

Fang Rui came out and also sensed the devil's breath, and asked, "Give me the coordinates of the devil world."

"As ordered."

A message conveyed.

After digesting it, Fang Rui said, "The direction I calculated is correct. The demon world is a little far away from us. Let's make a wormhole jump."

Ye Fan nodded and asked again, "What happened to you in the demon world?"

"I don't know, it's just that there were no demons in the Primordial Realm in the Demon Realm before, but now, a group has suddenly appeared, which is very terrifying. Seniors need to be careful when they go to the Demon Realm."

"Go."

Ye Fan waved his hand.

"Thank you senior for your forgiveness."

The three of them left quickly as if they had been granted amnesty.

Ye Fan also started wormhole jumping. A month later, a huge planet filled with chaotic dark magic appeared in their sight.

This planet is really big.

The earth is not so big. Of course, the earth is still recovering, and it will definitely become the first planet in the universe in the future. After all, the earth is the ancestral star.

"What a powerful energy fluctuation."

Before entering, Ye Fan felt that there was a lot of tyrannical aura in the demon world.

Obviously, they are all demons in the Primordial Realm.

What's happening here?

What happened to the demon world, and a group of demons in the Hunyuan realm suddenly appeared, which is obviously unreasonable.

"We have to be careful."

"Great Invisibility!"

Ye Fan used his magical powers to make the entire battleship invisible. Now he is a powerhouse in the Primordial Realm and can achieve this level.

After entering the demon world.

The three found that the air was filled with strange energy.

"not good!"

Ye Fan's face changed.

This strange energy, he is really too familiar, is the kind of power that invades the **** world, it is unknown, it is red hair.

Has the demon world been invaded too?

But.

The three Primordial Demons summoned by Li Xin did not seem to notice the strange power and red hair.

The battleship galloped between heaven and earth.

Ye Fan didn't act rashly. When he was investigating the situation in the demon world, three days later, he grasped the general situation.

Most of the demon world has been invaded.

There is still some pure land left.

What Li Xin summoned was a demon from the Pure Land, so he was not alienated; however, the contaminated area was invaded by red hair, and the demon's strength skyrocketed, which led to the emergence of a large number of demons in the Primordial Realm.

It is said.

The current strength comparison is:

There were originally nine demons of Hunyuan in the Pure Land, but Li Xin summoned three of them, and they fell, leaving six.

In the strange area, the Primordial Demon has reached eighteen.

Six to eighteen.

Three times the difference!

The Pure Land is about to fall.

"Xiaofan, what are you going to do? The contaminated area of the Demon Realm is too large to evolve. We cannot save the Demon Realm."

"I suggest that the devil be captured."

"I think so too."

Fang Rui and Ganji commented.

Ye Fan nodded and said, "Sister, give me the original devil."

"what?"

Fang Rui was very puzzled.

It was immediately understood that Ye Fan was trying to use the original demon so that he could have a demonic aura and mix into the demonic camp.

"Be careful, the original demon seed is not easy. If it invades your body and penetrates deep into the marrow and soul, it will be very troublesome."

"I have it in my mind."

Ye Fan grabbed the devil's original seed, and then cast a big transformation technique to transform into a devil.

He came to the Pure Land camp.

"Who!"

The six demon commanders were discussing countermeasures, and they were greatly surprised to see a demon descend.

"Are you newly promoted?"

"good!"

Evan nodded.

"Okay, there is one more battle power, but the gap is still obvious."

"We couldn't contact the Demon Lord, and he also summoned three brothers, I don't know what happened."

"Ugh."

The demons sighed.

Ye Fan said: "I have a way to deal with those alienated demon brothers, but I need you to lead them all out."

"Oh?"

The six Primordial Demons were in shock.

Ye Fan burst into breath, coercing the audience, and the six Hunyuan demons were shocked.

"I got the great fortune, and it is inconvenient to say more. Now I will pass on a magical power to you."

"Big Killing Technique!"

The six Primordial Demons obtained the Great Killing Technique, and they were extremely pleasantly surprised. The use of this Dao supernatural power could enhance their combat power by a few points.

Ye Fan said: "You should have no doubts now. Immediately practice the big killing technique, and then lead out the alienated demon brothers. We will suppress them all. Then, we will take you to seek fortune. That's it, don't ask anything, time is running out."

"it is good!"

Six Primordial Demons are meaningless.

seven days later.

Ye Fan was impatient to wait.

These demons are really stupid. With his guidance, they are still so slow in cultivating the Great Killing Technique.

Stupid home.

Finally, on this day, six Primordial Demons were dispatched.

Chapter 1424: All repression

The six primordial demons attacked the demonic soil directly, and the contaminated demonic soil had many alienated troops.

At this moment suffered a disaster.

The six demons seemed to vent all their anger these days.

Break through that side of the world and turn it into a vacuum ruin.

"Roar!"

Finally, an earth-shattering roar exploded, and the monstrous demonic energy swept in.

The alienated Primordial Demon is here.

There are six.

Without further ado, he shot directly, mixed with this strange power.

"Big Killing Technique!"

The six Primordial Demons immediately entered a state of slaughter, their combat power greatly increased, and they gained the upper hand.

He even showed the means of thunder, and quickly severely injured an alienated Primordial Demon, almost killing it.

"The treasure of recovery!"

The six great demons shouted in unison.

I only saw that a huge treasure rose up, it seemed to be an abyss, exuding a chilling atmosphere.

"Devil Abyss!"

"recovery!"

For a time, the earth shook.

The huge magic weapon, radiant, and the majestic energy poured down, suppressing the alienation demon.

at this time.

Another six alienated demons were killed.

"boom!"

They joined forces to strike and slammed into the demon abyss, and the abyss was shaking.

"puff!"

The six great demons vomited blood together.

The six alienated demons that have been killed are more powerful, however, they are not covered.

"The mouth of the abyss!"

I only saw that the huge abyss magic weapon was buckled upside down to trap all the twelve alienated demons.

Ye Fan sensed that this abyss magic weapon is not simple.

The power that has been deducted is really terrifying, and the twelve alienated demons have become extremely ferocious, roaring again and again, and roaring more and more.

Black air erupted from them.

A strange power erupted.

Attack the Demon Abyss.

"boom!"

Twelve to strange energies, gathered together, turned into a divine pillar, and rushed into the demon abyss.

Stop the demon abyss from coming.

The situation was so stalemate and anxious.

"scold!"

But at this time.

The void is torn apart, and in the void crack, there are six peerless figures.

Those are the six most powerful alienation demons.

"In the middle stage of the Primordial Yuan, it is about to break through to the later stage. It's amazing! The red hair is really scary. It can stimulate potential and improve the speed of cultivation, but it will only make the living beings into chaos. If there is no such symptom, then the red hair is simply a cheating tool for cultivation!"

"Or rather..."

"The red hair was originally a cheating device for practice. The reason for the confusion is that the consciousness is too weak to withstand the test of the red hair?"

Ye Fan suddenly had this conjecture.

If it does, it's terrible.

That shows that the red hair is not bad, but the red hair is too demanding on the host.

If the will is strong enough, can the red hair be used?

Ye Fanyuan trembled.

He woke up, he didn't expect to have such thoughts!

You must not try it without thoroughly researching the red hair, it will cause big problems.

"Brother, if you don't make a move, when will you wait?"

When the six demons saw the appearance of the most powerful alienation demon, they all changed and screamed wildly.

at the same time.

The six statues of the alienated demon in the middle of the Hunyuan shot.

"Shh!"

Six black fists killed him.

A close call.

Ye Fan appeared above the demon abyss, facing the six fists, his body trembled, and five-colored rays of light shot up into the sky.

Five Elements Divine Fist.

Gold, wood, water, fire and earth.

There are five fists to meet, and there is still one more left, so it is naturally Ye Fan who hit the good luck fist.

"boom!"

"Boom boom boom..."

Twelve fists collided and exploded.

In the middle of the Six Great Primordial Demons, the complexion of the demon changed, his eyes gradually became red, and his breath began to be disordered.

In this state, their combat power will increase.

"Heavenly Overlord!"

"Jiuyang Divine Body!"

At the same time, the Nine Suns Divine Physique revived, and nine huge suns appeared behind him.

The incomparably hot breath swept the world.

The light shines.

Bright and radiant.

Demons, very monstrous light; the entire demon world is dim, and at this moment, this world is extremely bright.

"Riot Black Flame!"

Ye Fan cast a different fire.

This is the third-ranked different fire. Under the blessing of the fire spirit, the power erupts.

The sea of terror swept the world.

Burn everything.

"what!"

Immediately, the twelve demons below were affected and screamed, with minor or serious injuries.

The demon abyss took the opportunity to sink a distance, but the twelve alienated demons burned blood and fought desperately to resist.

Above the Demon Abyss, Ye Fan moved.

Great teleportation.

In the blink of an eye, he appeared in space Li Feng, which shocked the alienated demon.

This speed is too fast!

Since he cultivated the power of the Five Elements, many of Ye Fan's magical powers have grown, and the Great Teleportation is one of them.

"boom!"

A lightning-like punch knocked an alienated demon into the air.

This punch.

How terrible.

The devil in the middle of the Primordial Yuan Dynasty, his chest was sunken, blood spurted wildly, and his injuries were not light.

Step up challenge!

Ye Fan has just broken through to the Primordial Realm, which is the initial stage, but his combat power has already reached the mid-term level.

Plus the same level of invincibility.

Therefore, the middle period of Hunyuan is not his opponent.

But.

Ye Fan didn't care too much, because in front of him was the middle stage of the Six Primordial Primordial Statues.

"kill!"

The divine power of the Five Elements exploded, and at the same time, the Five Attribute Treasures were born.

"when!"

The golden bell vibrated.

The terrifying spiritual attack drowned the alienated demons, causing their primordial spirits to turbulent and cracks appeared.

"puff!"

The quicksand water seed spurts a stream of water.

This water flow is extremely strange, and the realm directly penetrates the body of an alienated demon.

"Buzz!"

at the same time.

World tree seedlings and saplings are in full force.

Xi soil exudes an incomparably thick power, accompanied by the power of the world that erupts from the seedlings of the world tree.

Directly pierced the chest of an alienated demon, the body was torn apart, and he died directly.

Such a tyrannical sofa method, the six demons who maintain the demon abyss are truly terrified.

"Is he really a devil?"

"No, he's not a demon!"

Indeed, these demons are not fools, no demon can control such energy.

Just that strange fire, the devil can't control it.

Absolutely not.

So, it's not a demon, it's a fake.

What is his purpose!

But even if they knew the truth, the six demons couldn't leave, because they needed to maintain the demon abyss and were still fighting with the twelve alienated demons below.

"Repression!"

Ye Fan is extremely strong.

It can almost be said that it was pressing the six alienated demons in the middle of the Primordial Yuan Dynasty, and finally.

Ye Fan once again beheaded an alienated demon.

The remaining four demons in the middle of the Primordial Yuan were frightened and turned around and ran away, but where could they escape from Ye Fan's palm.

Their injuries were not light, and they were easily suppressed by Ye Fan.

Great Seal!

After the seal, they were thrown on the starship battleship, and Han Yu and Fang Rui used the Conferred God Platform to suppress them.

Immediately.

Ye Fan turned around suddenly and looked at the two sides who were fighting.

He punched, and the twelve alienated demons of the elephant were severely injured, sealed and suppressed; then, he grabbed the demon abyss.

The six demons were furious: "You are not our kind at all, what are you doing!"

"Shh!"

Ye Fan returned to human form.

He was expressionless, no matter how the six demons struggled, to no avail, he was still suppressed.

So far.

All the demons were taken.

Chapter 1425: surrender

Suppressing all demons, Ye Fan can be said to be a great harvest, these demons can be subdued and become their own combat power.

By the time.

Li Xin summoned again, and found that there was no Primordial Demon, and he didn't know what his expression was.

certainly.

What Ye Fan has to do is to control the entire demon world. It is not enough to just subdue these demons in the Primordial Realm. He is not satisfied.

But Ye Fan was not in a hurry.

When there is no end, it is to immediately surrender the demon of Primordial Primordial, otherwise, once it wakes up, it will cause chaos.

After a meal of coercion and temptation, the six Primordial Demons without alienation quickly signed a blood contract and became Ye Fan's servants.

As for the dozen or so alienated Primordial Demons, Ye Fan needed to use the Great Dispelling Technique and Great Purification Technique to help them get rid of the red hair before they could surrender.

three days.

More than a dozen alienated Primordial Demons were sober, and after being beaten by Ye Fan, they also signed a blood contract.

"See master."

Before beheading a few, now there are a total of twenty Primordial Demons, which is a force that cannot be underestimated.

Ye Fan said: "I need to go to the origin of the Devil Realm, presumably you should know where it is!"

"Yes, please come with us, master."

Not long after, Ye Fan and Han Yan came to a huge magic mountain, which was really too big.

Up to a hundred thousand feet.

This is the largest mountain in the demon world, and the top of the mountain is the gateway to the origin of the demon world.

When he came to the top of the magic mountain, Ye Fan could see infinity from afar.

"The strange atmosphere is spreading."

"Yes, master, if the strange aura spreads to the demon mountain and invades the origin of the demon world, it will be completely over."

"Fortunately, the master is here. This is God's blessing. I hope the master can save the demon world."

Ye Fan sighed in his heart.

His current methods cannot remove so many strange auras.

"The devil world is dominated, you should know that you can be summoned."

"It's true, but the master, we haven't even seen it, we can only obey the call. If the master wants to control the demon world, he needs to solve the master."

"Go to the source to see."

Hunyuan Demon said: "Master, the Demon Abyss can open the portal of the origin!"

Ye Fan took out the Demon Abyss and instantly transformed into infinity.

The demon gave Ye Fan the use of the secret method. For Ye Fan, he did not learn it in an instant.

"Boom."

The Demon Abyss has revived.

The entire magic mountain resonated with it, which made Ye Fan guess that this 100,000-zhang magic mountain might also be a treasure.

even.

The treasure that may surpass the abyss of the devil is the most terrifying treasure in the devil world.

only.

He can't charge.

The magic mountain is really too heavy, and Ye Fan feels that even if he becomes a **** in the future, he may not be able to take away the magic mountain.

"Wow!"

Just then, the door opened wide.

Ye Fan entered the source land with a raven and a group of demons.

The origin of the demon world is very powerful, and Ye Fan also discovered that there is a statue in the vortex of origin.

It was the statue of Li Xin.

That is domination.

Of course, it does not mean that by breaking the statue of Li Xin, you can cut off the connection between the devil world and Li Xin, and you can **** the devil world.

This will not work.

Li Xin has integrated the origin of the Devil Realm. Unless he gives up voluntarily, no one else can **** the Devil Realm.

Just like the heavenly world.

Unless Ye Fan gave up, no one else could take it away.

This is also why, when Ye Fan was still trapped in Xianshan, and the prince of the ghost race entered the heavenly world, he could easily go to the origin of the heavenly world, but it was impossible to control the heavenly world.

anyway.

Ye Fan has other means, and that is the world tree seedling.

The existence of a world must require the power of the world and the branches of the world tree.

In the origin of the Devil Realm, there is a branch of the World Tree.

Ye Fan used the seedlings to shake the world, and gradually, he wanted to erase the spiritual imprint of Li Xin on the branches.

Li Xin, who is far away from the Imperial Palace of the First Emperor of the Earth.

Suddenly feel uneasy.

"what happened?"

Li Xinxin was restless, as if he was about to lose something.

He told Li Si immediately.

Everyone came, Li Si said, "Could it be that Ye Fan is going to attack us?"

Li Xindao: "Ye Fan has been hit by the original demon seed. My mother seed sensed that the original demon seed was intact. It means that Ye Fan has not solved the original seed of the demon. How could he dare to attack us."

Li Sidao: "Don't think too much, maybe you're stressed out, take a good rest."

Li Xin was silent.

In the origin of the demon world, the spiritual imprint of Li Xin on the branches of the world finally disappeared.

Ye Fan's spiritual brand is engraved in it.

"not good!"

Finally, Li Xin sensed something.

The mental brand has been erased, and if you still can't sense it, you are a fool.

"There's something wrong with the devil world!"

"what!"

Li Si and others were shocked.

The demon world, which is their biggest backing and backing, must not have an accident.

"Could it be Ye Fan!"

White guess.

Li Si's eyelids jumped wildly, "Impossible, how could Ye Fan find the Devil Realm!"

Li Xin's face changed greatly, and he said, "There is a woman under Ye Fan who has a technological brain. It may be inferred that the demon world is located through the original demon. We need to rush to the demon world immediately."

"It's not too late, leave now."

"Devil's Gate!"

Li Xin was instantly alienated, turned into a demon master, and opened the door of demons.

However.

With his current strength, it is impossible to cross the starry sky and reach the demon world in an instant.

The Devil's Gate is only a space jump.

"puff!"

Li Xin spit out a mouthful of blood essence, poured down the blood, and performed a secret technique.

"go!"

Shuh, the group entered the Devil's Gate and disappeared.

At this moment.

Ye Fan punched the statue of Li Xin.

He also knew that if the spiritual imprint was removed, Li Xin would sense that as long as he was not stupid, he would definitely guess that something was wrong in the demon world.

Li Xin and his party will definitely come.

therefore.

Without any scruples, he directly exploded the statue, which caused Li Xin, who was jumping in space, to tremble and spurt blood.

"hateful!"

"The idol I left in the origin of the demon world was blown up! Ye Fan, it must be him!!"

"Ahhh!"

Li Xin roared angrily.

Burning the blood essence of life again, speeding up the space jump.

in the source.

Ye Fan shaped his own idol and smashed the branches of the world into the idol.

In doing so, it can only be said that the power of the origin of the demon world can be used, but it is not controlled.

"I still have to kill Li Xin!"

"They came just in time. In the demon world, you can have a good fight without any scruples."

"You guys stay here for me!"

Ye Fan left the twenty Hunyuan demons in the origin, although they all signed a blood contract and became slaves.

But.

After all, Li Xin is the master of demons. He is worried that Li Xin will use secret techniques to make these Primordial Demons turn their backs.

In that case, suddenly adding twenty Hunyuan opponents, plus Li Sibaiqi and others, Ye Fan could only retreat.

"Ok?"

But at this time.

He had an epiphany and was promoted to the realm of Hunyuan.

"boom!"

The monstrous sea of fire spreads.

Vulcan body revives.

The whole person of Hanyu has changed a little, and he is more majestic, and even his appearance is a little more beautiful.

A pair of beautiful eyes, the pupils turned out to be red.

Captivating.

Chapter 1426: kill

It is undoubtedly a great help for the promotion of Hanyu to the Primordial Realm.

Ye Fan was very excited.

at the same time.

The demon world was torn apart, Li Xin paid a huge price, and finally, quickly rushed to the demon world.

"Evan!"

At the top of the magic mountain, Li Xin saw Ye Fan and Han Yan.

"It's really you!"

Ye Fan was surprised.

I didn't expect Li Xin and the others to come so quickly.

But the drought has successfully broken through, and it has no effect.

"You came just in time, Li Xin, I want to control the demon world, and I must kill you."

"Insanity!"

Li Xin was furious.

But Li Si discovered the changes in the demon world and said, "Look, this is a strange mist!"

"what!"

Only then did the four Bai Qi feel the strange mist, and their faces changed greatly.

Ye Fan said: "It seems that you also know this strange power and red hair."

Li Sidao: "Back then, when I left the Great Qin Immortal Kingdom, it was because of the strange mist. This was the biggest calamity that led to the decline of Zuxing. Your Majesty left to find the source of the strange mist."

I see!

Ye Fan understands, but now he doesn't want these, but wants to suppress Li Si and the others.

"Come on, don't talk nonsense."

Ye Fan took the lead.

"Fengshentai!"

Throw out the treasure of the Fengtian family, and cooperate with the Great Sealing Technique to block this space.

Subsequently.

Ye Fan also broke out without reservation. The Heavenly Tyrant Body, the Nine Sun God Body, the Five Elements Divine Power, etc., combined with the Great Expansion Technique and the Great Blessing Technique, the combat power was terrifying to the extreme.

"Creation Fist!"

One punch opens up the world.

Li Si et al.

"Li Xin, you retreat!"

White shouted.

Ye Fan's biggest target was Li Xin, and because Li Xin rushed over quickly, the price he paid was not small, and his injuries were not light.

Where is Ye Fan's opponent.

Li Sidao: "Find a way to mobilize the source power of the demon world and use it to kill Ye Fan. We are invincible."

Li Xin quickly retreated.

However, the scorpion stared at him.

"Vulcan Fist!"

Drought is very fierce.

Li Xin couldn't take it anymore and was knocked flying, blood spurting wildly.

"hateful!"

Bai Qi and the others wanted to support Li Xin, but Ye Fan was extremely fierce and sneered: "Your opponent is me!"

"Ye Fan, you really think the world is invincible." Li Si's face was extremely gloomy, and he waved the Human Sovereign Pen in his hand.

Painting out of heaven and earth.

However, Ye Fan played the law of the five elements and ripped the net of heaven and earth directly. He roared wildly, and the huge power of the primordial spirit poured down.

"Heart Killing Curse!"

The Great Secret Art.

At this moment, the power of terror is displayed.

Bai Qi bore the brunt of it, and the seven orifices bleed and fell; Meng Tian, Wang Jian, and Li Si also swayed.

Ye Fan didn't give them a chance to breathe.

"Open the sky!"

An axe fell like this.

Li Si turned pale in shock, and hurriedly waved the Human Sovereign Pen to resist.

Kaitian Axe and Human Emperor Pen collided.

Crashed.

The aftermath knocked all three of Bai Qi into the air.

"The five elements of heaven and earth, the sun and the moon are yin and yang."

"Only I control it!"

The fusion of the divine power of the five elements and the power of yin and yang has undergone a qualitative change, and a terrifying power that makes Li Si's scalp numb erupts.

How terrible this is.

The entire magic mountain is shaking.

The entire demon world seemed to be shaking.

"puff!"

Bai Qi was beaten through.

A huge blood hole appeared in his chest.

"White up!"

Meng Tian and the others screamed.

At this moment, Bai Qi looked at his chest in disbelief, and his internal organs suffered a huge blow.

Broken seven, seven, eight, eight.

"what!"

White screamed.

Then, the whole body was torn apart.

The power of the fusion of the power of the five elements and the power of yin and yang is too overbearing, and even Bai Qi's fleshly body cannot withstand the tearing.

"Do not!"

Li Xin roared sadly.

Li Si, Meng Tian and Wang Jian Petrochemical.

White rose and fell?

impossible!

This is the killing **** of the Great Qin Immortal Kingdom, how could it fall!

"Shh!"

A light shot out.

It was a wisp of primordial spirit left by Bai Qi.

Seeing this, Li Si was overjoyed, and hurriedly collected the primordial spirit and hid it in the Human Emperor Pen.

"Ye Fan, you collapsed Bai Qida's body and damaged your primordial spirit. I want you to die without a burial!"

Li Xin roared.

It turned into a demon master.

Liz was worried.

Li Xin was injured, and now he has transformed into a demon master, which is a great burden on his body.

"The origin of the devil world, listen to my orders, come out!"

Li Xin screamed.

The magic mountain trembled, and the portal of the source opened wide.

The turbulent source power is mobilized.

at the same time.

Twenty Primordial Demons also appeared.

"kill!"

Ye Fan ordered.

Twenty Primordial Demons attacked in unison, and they were caught off guard by Li Si.

"what!"

Meng Tian's body collapsed.

"Do not!"

Li Si growled sadly.

Fortunately, just like Bai Qi, there is still a ray of primordial spirit left, and he was included in the human emperor's pen.

Wang Jian was also seriously injured.

"Bang!"

Drought took advantage of the loophole.

The Vulcan Sword split Wang Jian in half, his body exploded, and even the primordial spirit was unfolded.

"Ahhh!"

Li Si is really going crazy.

He performed a secret technique, spit out blood essence, and used it to nourish Wang Jian's broken Yuanshen, which was collected into the imperial pen.

in a blink.

Only he and Li Xin were left.

"Bastard!"

Li Xin was furious.

"You waited to obey Ye Fan, courting death!"

As the master of demons, he controls all demons, how can he think that these demons will betray.

"Death to me!"

Li Xin growled.

Immediately, a Hunyuan demon with seven orifices bled, suffered a change, and was dying.

"Ok?"

Ye Fan's face sank.

Although surprising, it was not unexpected.

because.

Li Xin is the master of demons, controls all demons, and can decide the fate and even life and death of these demons.

"Do not!"

The other Primordial Demons screamed.

"Master save me!"

Of course Ye Fan would not stand idly by.

"Li Xin, these demons are already my subordinates. You dare to touch my subordinates, you are killing me!"

"Han, stop Li Si for me, I'm going to kill this guy today!"

The power of yin and yang in Ye Fan's left hand and the divine power of the five elements in his right hand merged directly, and a terrifying ball of energy appeared.

He grabbed the energy ball and rushed towards Li Xin.

At this moment, Li Xinhuan's hair stood on end. He was worried that if he was hit by his energy ball, it would definitely be wiped out.

"Magic Mountain!"

"start up!"

At a critical juncture, Li Xin wanted to shake the magic mountain.

At this moment, the 100,000-foot-long magic mountain is swaying, and it seems that it is really going to be controlled by Li Xin.

"Repression!"

Ye Fan took out the soil and sprinkled it out.

The earth, the mother-in-law, is extremely heavy, and falls on the magic mountain, instantly suppressing the magic mountain.

Make the magic mountain unshakable.

"what!"

Li Xin was shocked.

And Ye Fan was already in front of him, the energy ball hit Li Xin's head, causing Li Xin to explode.

Primordial spirits were wiped out.

Completely lost.

"boom!"

The demon world trembled.

It seems that the **** is lifted.

"I rule for the devil!"

Ye Fan is sublimated to the extreme level, establishing a close relationship with the source, feeding back his energy, and improving his strength by leaps and bounds.

The middle period of Hunyuan!

Late Hunyuan!

Peak of Primordial Yuan!

Ye Fan's coercion almost made Li Si's body burst, and he was terrified to the extreme.

Li Xin was killed just like that!

The demon world is under the control of Ye Fan!

After a brief absence, Li Si turned and fled.

Now, he is Ye Fan's opponent; then, he can't break free from Ye Fan's powerful pressure.

above the sky.

Ye Fan was in a mess. He looked down at Li Si and said contemptuously, "An ant!"

"People who don't belong to this era, you are destined to be destroyed, stay here, I have taken a fancy to the Human Emperor Pen."

Li Si's eyes were split.

Ye Fan's big mudra slapped down, leaving Li Si no way to escape.

"Human Emperor Pen!"

In desperation, Li Si could only throw out the human emperor pen and sacrifice the primordial spirits of Bai Qi, Wang Jian and Meng Tian.

"Prime Minister!"

The primordial spirits of the three screamed in horror and anger.

In the blink of an eye.

It disappeared.

The power of the sacrifice of the three primordial spirits activated the Human Emperor Pen and split the big mudra covering the sky.

Ye Fan grabbed the Human Emperor Pen and looked again, Li Si had disappeared.

Chapter 1427: Solve the mist

How powerful is Ye Fan now. At the peak of the Primordial Realm, he felt that he was simply an invincible existence.

To become the controller of the demon world, such a great fortune, rushing to the peak of Primordial Yuan, is also expected.

At this moment.

Ye Fan began to reminisce.

The huge demon world seems to be controlled by him, even those places that are infected by the strange mist.

"Try it."

Ye Fan muttered to himself.

He remembered that the seedlings of the World Tree were the way to solve the strange mist.

Now.

The World Tree sapling is integrated with him, and he is the master of the demon world.

is equivalent to.

The world tree seedling takes root in the demon world.

"Explode!"

Ye Fan roared and took out the World Tree seedling.

into the source.

"Boom."

good guy.

A branch of the world tree can support the origin of a big world.

Now, the completed world tree seedling enters, how terrifying.

The demon world trembled.

The whole world was shaking and breaking out.

The rich vitality rose into the sky, like rivers and lakes, spreading out with the magic mountain as the center.

"boom!"

A phantom rushed out from the source.

That is the phantom of a big tree, that phantom is really too big, that big tree is the world tree in its complete form.

Really across the world...

Do not!

The world is too small to hold the World Tree.

It seems to run through the universe!

"Woooooo!"

A world storm centered on the magic mountain, swept out, and touched a strange mist in the blink of an eye.

World storm and strange mist confrontation.

Ye Fan was very nervous.

This is the only way.

At first, they were evenly matched, but gradually, a strange mist retreated.

this means.

The world tree seedlings are indeed able to fight against the strange mist.

"Good good!"

Ye Fan is overjoyed, this indicates that the demon world will return to its original state, and he once again controls a world.

three months later.

The strange mist was all forced back.

The demon world is back to normal.

Even those alienated demons, the red hairs in their bodies were washed away by the power of the world storm and returned to normal.

"Master mercy."

The demons in the Primordial Realm took the lead, and countless demons knelt down, towards the top of the magic mountain, Ye Fan knelt down.

The power of endless faith surged forth.

Ye Fan felt full of power.

It's like a punch that can knock out the sun, moon, and stars.

Han Yan said with a smile: "It seems that your experience is very strong, so now, let's go to battle the world."

Ye Fan grinned, "I think so too."

this day.

A star warship comparable to a powerhouse of Primordial Primordial, sailing out of the Demon Realm.

This was designed by Fang Rui and created by the devil.

The demon world is rich in resources.

With so many demons in the Primordial Realm, it is not easy to build a starship battleship.

This time.

Ye Fan put on ten Hunyuan demons.

but.

still have a question.

That is, when Ye Fan leaves, the seedlings of the World Tree will naturally be taken away, which greatly weakens the defense of the demon world.

Although the strange mist has receded.

But there's no guarantee it won't make a comeback.

Of course, Ye Fan is now the ruler of the demon world. If the demon world is invaded by a ghostly mist, he will sense it.

at the same time.

He also mastered the Devil's Gate.

You can travel through the stars and come back in the shortest time.

"Master, where are we going?"

"Do you know the coordinates of the big world?"

"Master, some weak worlds are not interesting, we control the coordinates of a powerful world."

"Tell me."

"That is, the bright world!"

Han Yan's eyes flickered, "The Great World of Light, in ancient times, was the top ten terrifying worlds in the heavens and the world. Among them, there are many Buddhist monks!"

"Fomen!"

Ye Fan's eyes narrowed.

"Then go to the Great World of Light and see how the Buddhist monks are there! Maybe, you can get the treasure of the Buddha!"

"Let's go!"

The star warship enters the wormhole.

Start crossing.

And here.

In a certain star field in the universe, in the central area, the bright light reflects the starry sky, and this is the bright world.

But.

Now part of the bright world is shrouded in darkness.

in the big world.

The beacon blazes everywhere.

"Kill, kill all the **** in the dark world. We must not let them conquer our city."

"kill!"

A huge city is undergoing a tragic offensive and defensive battle.

There are indeed many Buddhist monks in the light world.

Not only human beings can cultivate Buddhahood, but even demons and ghosts can also. Therefore, a huge magical beast shot out the palm of the Tathagata.

In front of him are the creatures of the dark world.

This is a strange creature, with a dark body, only green eyes can be seen, strange and terrifying.

They exude a dark aura all over them, and seem to be able to restrain the light aura.

The world of light and the world of darkness.

They have been hostile since time immemorial.

The strength is about the same.

But now, the master of the light world has left the great world of light, and this news was sold to the dark world by the traitors of the light world.

As a result, the Dark World Lord led the army to attack, which led to the fall of part of the Light World.

but.

Now the bright world has also gained a firm foothold.

Start a counterattack.

This is destined to be an extremely tragic world war.

In the center of the big world, there is a huge holy mountain called the Holy Mountain of Light, where the Lord of the Light Realm lives.

However.

The moment is invaded by darkness.

Before the Temple of Light, a group of strong men were covered in blood, staring at the distant sky, the existence in the darkness.

That is the Dark Lord.

There is no shape at all, it looks like a black pattern.

"Dark World Lord, retreat immediately. Our World Lord may return at any time. At that time, it will be your death!"

"Since I'm here, how can I leave so easily. I'm bound to collapse the Temple of Light, and at the same time, kill all of you!"

"Insanity!"

In the middle of the Hunyuan period, the bright world powerhouses headed by him shouted angrily. He practiced Buddhism, and the bright Buddha light appeared in the back of his head.

"You are only in the late stage of Primordial Primordial. You are in a hurry. We will all burn. Even if we fall, don't think about it better."

"Just because you want to burn the jade with this seat? It's a big joke in the world."

The Dark Lord laughed contemptuously.

"All right!"

"So much time has been wasted, it's time to send you on your way!"

"Dark Sky!"

Hei roared, only to see that a huge dark sky descended, covering the entire holy mountain of light.

Under the shroud of the dark sky, the powerhouses of the light world are under enormous pressure, and even their combat power has been suppressed by 20% to 30%.

"kill!"

The Lord of Darkness stopped drinking.

But at this moment, an extreme cold light appeared, the dark sky was cut open, and then it collapsed.

"puff!"

The blood of the Dark World Lord spurted wildly and flew out.

He couldn't believe it.

His unique skills were shattered!

who is it!

Has the Lord of Light is back!

"Boom."

A huge star warship slowly emerged, and the dark world master and the light world powerhouse were all dumbfounded.

what's the situation?

In front of the battleship, Ye Fan, Han Yu and Fang Rui stood side by side.

"Is this the core of the light world!"

Ye Fan looked at the Temple of Light and nodded secretly, the temple itself is a magic weapon.

"Shhhhh!"

At this time, the ten demons of the Hunyuan realm dispatched and shouted: "The Lord is coming, don't kneel down and pay homage!"

Chapter 1428: Kill the Dark Lord

A group of uninvited guests came, and the lineup was so terrifying. The Dark World Lord and the powerhouses of the Light World were all shocked.

"demon!"

The bright world powerhouse screamed.

The Dark World Lord was horrified, "You are the creatures of the demon world, how could you come here!"

The top ten Primordial Demons looked at the audience coldly.

In front of the battleship, Ye Fan said lightly: "I didn't expect that the dark world and the light world are fighting, or you can all surrender to me."

"Insanity!"

The Dark Lord was furious.

He stared at Ye Fan and felt Ye Fan's strength, but he was not afraid, because even if he lost, he had the confidence to retreat.

"You are the ruler of the demon world, you are a human being! It's ridiculous. A human being has become the ruler of the demon world. Has the demon world been reduced to this level?"

"presumptuous!"

The ten demons in the Primordial Realm are monstrous and angry.

"Master, can we make a move?"

"Can."

Ye Fan nodded lightly.

Among the top ten Hunyuan demons, there are four in the middle Hunyuan period and six in the early Hunyuan period.

These four are in the middle of Hunyuan, and they have accumulated enough, and they will soon be able to break through to the later stage of Hunyuan.

because.

When the ten major demons joined forces, the combat power was terrifying, and Rao, the world master of darkness, was also cautious.

"The world is in chaos!"

"Law of Chaos!"

The ten demons roared, exerting the power of the law.

The Devil Race mainly cultivates the Law of Chaos, the Chaos Dao, which is a very terrifying Dao.

"Tips for carving insects!"

"The world is dark, the law of darkness!"

"Submerge everything!"

The Lord of Darkness sneered and exerted the power of the law of darkness. Suddenly, the boundless darkness struck, about to drown the world.

Once shrouded in darkness, it will be suppressed.

not only.

All five senses are affected.

Vision is almost lost.

This is the terrible thing about the law of darkness. Among the three thousand avenues, the dark avenue is also the top 100 tyrannical avenues.

"Chaos Tongtian Fighting Fist!"

"kill!"

The top ten demons are not in a hurry, they are not afraid at all, because they have Ye Fan as their backing.

The Dark World Lord is only in the late stage of Hunyuan, and Lord Master is the peak of Hunyuan.

Killing the Dark World Lord is not a matter of one punch.

Therefore, the ten major demons are confident, and even use the Dark Lord as a grinding stone.

In particular, the four demons in the middle of the Primordial Primordial Demon, with fierce fighting spirit, want to find an opportunity to break through through the battle with the Dark World Lord.

Ye Fan ignored the battle between the top ten demons and the Dark World Lord, it was all trivial matters.

It's enough for Ganji and Fang Rui to pay attention.

Before he descended on the Temple of Light, he glanced at the powerhouses in the Bright Realm, and there were quite a few in the Primordial Realm.

But there is not a late Hunyuan period.

There are only three middle-stage Primordial Primordial, and they have received serious injuries, which really cannot stop the Dark World Lord.

"See Demon Lord!"

The Great Elder of the Temple of Light, who is currently the temporary leader of the Bright World, was the first to greet him.

Most importantly, he is human.

Practice Buddhism.

Ye Fan is also a human, because the Great Elder of the Temple of Light felt cordial, and he muttered in his heart, this demon master should not touch them!

"I didn't expect that there are many human beings living in the bright world. Your Buddhism and Buddhism are much stronger and more complete than Zu Xing."

"Zu Xing?!"

The elder was shocked.

"Master, you came from Zuxing?"

"indeed."

"I don't know what Zu Xing looks like." Many experts in the bright world are looking forward to it.

Ye Fan asked, "Where is the Lord of Light?"

The Great Elder said: "Returning to the Lord, the World Lord left the Light Realm and went to work. I don't know when to come back. Because of this, the Dark World Lord led the army to invade."

"The villain dared to ask the Lord to help me in the Bright World. When the World Lord returns, there must be a heavy thank you."

Ye Fan smiled without saying a word.

He looked at the towering Temple of Light and said, "Can I go in and visit?"

"This..."

The elder was a little hesitant.

Then nodded and said: "No problem, the master comes with me!"

Rumble.

The temple opens.

An air of majesty came over him.

Ye Fan confirmed at first glance that this Temple of Light is a treasure that should not be underestimated.

"Master, come here to see, this is the statue of my Bright World Lord." The temple is very vast, it is simply a small secret realm, and in the center of the first floor, a huge statue is erected.

Glittering brilliance.

Ye Fan narrowed his eyes and said in surprise: "The Lord of Light is also a human being!"

"good!"

The first elder said proudly: "Our human race, with branches in the heavens and the world, is the largest ethnic group and the most perfect race. The Buddha Dharma of the world master has been cultivated so deeply that it can even see through a corner of the future!"

"what!"

Ye Fan was shocked.

Seeing through a corner of the future, isn't this something that can only be done by a big prophecy?

The Lord of Light will also have great prophecy?

Ye Fan stared at the statue, and suddenly, his interest came, and he quietly operated the big prophecy.

In an instant.

In his mind, a picture emerged.

Ye Fan's face changed.

But silently.

The elder did not notice, he continued to lead Ye Fan to visit.

The Temple of Light has a total of nine floors.

"Master, I'm sorry, I can only show you to the sixth floor. The upper three floors, even I can't go up. Only after the order of the world master can I go up."

"It's okay!"

Ye Fan nodded and left the Temple of Light with the elder.

at this time.

The battle in the sky continues.

The Dark World Lord and the ten major demons fought frantically, and the Dark World Lord was extremely angry.

I thought that I could solve it quickly, but I didn't expect these ten demons to be so difficult to give birth.

The top ten demons can be said to be more and more useful in war.

Especially the ten demons in the middle of the Primordial Yuan Dynasty, it seems to have a little feeling.

"Kill kill kill!!"

Ten Demons Roar.

Almost ten in one, the powerful aura gathered in the Changjiang River and swept away turbulently.

"court death!"

The Dark Lord was angry.

Really angry.

He has always been hidden in the darkness, and at this moment, he has transformed into a human appearance.

But I can't see the face.

"scold!"

A large black sword appeared in the hands of the Dark World Lord, exuding a strange and heart-pounding power.

The first elder quickly reminded: "Master, that black big sword is the treasure of the dark world, called the dark sky sword. It is said that it was once built by the ancestor of the dark world. With incredible power, your subordinates will be in danger."

"Is it?"

Ye Fan's expression remained unchanged.

The ten major demons said: "Master, let us continue to fight. If we lose, it will not be too late for the master to take action."

"Um."

"Fight as much as you like, everything is mine."

Ye Fan's words gave the ten demons enough sense of security. They roared and roared, madly killing the Dark Lord.

At this moment.

The Dark World Lord is no longer talking nonsense, and the Dark Sky Saber in his hand is simply chopped down without any gorgeous moves.

"puff!"

The sky is torn apart.

A black starry sky crack appeared.

The dark breath and dark power spread, like black poisonous snakes, covering the world.

Puff puff! "

The top ten demons suffered a huge blow, blood spurted wildly, and life and death were at stake, Ye Fan shot.

"Destroy!"

One to the handprint.

All the dark forces collapsed, captured the ten major demons, and at the same time performed a major healing technique to stabilize their injuries.

Everything happened between lightning and flint.

Thriller of the Dark Lord.

"What realm are you!"

"Noisy!"

Ye Fan snorted coldly, reached out his hand again, and simply grabbed the Dark Lord.

"presumptuous!"

The Dark Lord was furious.

This is simply blatant contempt.

"kill!"

"Dark Heavenly Sword, give me strength and slay everything!"

"boom!"

The dark heavenly blade suddenly shone extremely brightly, and the dark rays of light penetrated the sky and the earth.

The Dark World Lord roared, and the Heavenly Sword slashed down.

Ye Fan raised his brows, and the fingerprints collapsed on their own. He stepped out in one step, came to the sky, and then punched out.

"boom!"

The power of the Heavenly Sword collapsed.

The Dark World Lord was penetrated, and the Dark Heavenly Sword in his hand fell.

"boom!"

Another punch.

Good Fortune.

He pierced through the body of the Dark World Lord again and fell on the top of the Holy Mountain of Light.

The bright world powerhouse was stunned.

They thought that Ye Fan was very strong, but they didn't expect to be so powerful that he could defeat the Dark Lord with two punches.

What power is this?

Chapter 1429: Lord of Light

Ye Fan violently killed the Dark World Lord, shocking all the powerhouses in the Light World; however, a mutation suddenly occurred.

The Dark World Lord, who had been beaten to death, was resurrected again.

A series of gloomy laughter erupted.

"Darkness is immortal, it will last forever. If there is darkness, I am immortal and immortal."

"No one can kill me!"

The Dark Lord turned into a black light and wanted to escape.

Ye Fan sneered: "Really? Then look, can I kill you!"

"boom!"

"Bloodline Secret Technique: Yin-Yang Lock!"

This secret technique is aimed at enemies that are difficult to kill.

For example, the undead blood creatures can be reorganized; and the dark world master also has the same effect.

but.

The power of the yin and yang locks covered, and the dark world master could not escape. Not only that, he found that he could not use the power of the dark law, and could not turn into darkness.

"Riot Black Flame!"

Ye Fan burst into flames.

Burn the Dark Lord.

"what!"

A shrill scream resounded through the world.

The Dark World Lord was finally frightened and begged for mercy: "Sir, forgive me, don't kill me, I am willing to dedicate the Dark World to be your slave!"

"unnecessary!"

Ye Fan was extremely cold.

In the raging fire, the Dark World Lord vanished into ashes.

Totally dead.

The powerhouses of the light world are horrified.

This method is really terrifying!

"Sir, thank you for beheading the Dark World Lord and saving me from the Light World and the dire straits."

"You think too much."

"what?"

"I'm not saving the world of light, I'm just looking at the world master of darkness. I will take control of the world of light."

An amazing word.

The face of the bright world powerhouse changed greatly.

Ye Fan is not a virgin. He came to the bright world to control the big world.

"Sir, you are going too far. My Lord of Light can come back at any time."

"so what?"

Ye Fan said disdainfully: "It's about the same level as the Dark World Lord, and I can kill it in seconds! Even if you are stronger than the Dark World Lord, it will not change the outcome!"

"You, surrender!"

"Otherwise, kill without mercy!"

At this moment, Ye Fan's strong coercion burst out, pressing the elders and other strong men out of breath.

finally.

The elders chose to give up their resistance.

In the face of the Dark World Lord, they can still support twice, but in the face of Ye Fan who can instantly kill the Dark World Lord, they have no courage to fight.

If Ye Fan is willing, one punch can kill them all.

A senseless sacrifice is meaningless.

"Where is the gateway to the origin of the great world of light?"

"The highest level of the Temple of Light."

The first elder replied, and then reminded: "However, it is impossible to enter without the secret key of the Bright World Lord. Forced bombardment cannot be opened. The Temple of Light is a treasure, rumored to be the magic soldier of the Holy Emperor of Light in ancient times."

"The Holy Emperor of Light?"

Ye Fan coldly snorted: "At most, it is at the level of a quasi-emperor. It is actually called the Holy Emperor of Light. It's a big breath."

The words fall.

He rose into the sky.

"Open Heaven Axe."

Ye Fan was rude, but he wanted to see how strong the Temple of Light was.

"boom!"

Open the sky axe.

Fiercely chopped on the top of the Temple of Light.

A big explosion of energy.

The sky was cracked, and the entire Holy Mountain of Light shook.

The Temple of Light is intact.

"Come again!"

Ye Fan made a second axe.

then.

The third axe!

Fourth Axe!

Fifth Axe!

Again and again, frantically waving.

There are dense cracks in the sky, space storms are raging, and the holy mountains of light are cracked.

However.

Still haven't cut open the Temple of Light.

Ye Fan did not give up.

He continues, seemingly tireless, with infinite energy.

In fact.

indeed so.

Ye Fan rushed to the peak of Primordial Primordial Realm, and his energy was really too abundant, and he needed to vent.

The Dark Lord is useless.

Now Ye Fan can only vent his energy on the Temple of Light. His fierce and crazy behavior scared the powerhouses of the light world, trembling, and dare not say anything!

Around the Holy Mountain of Light, the energy is raging, and Rao is a powerhouse in the Primordial Realm, so he can't stand it.

They all retreated.

In the entire Holy Mountain of Brightness, only Ye Fan was madly hacking at the Temple of Brightness.

actually.

Every bombardment by Ye Fan was not without effect.

The Temple of Light trembled.

It was conveyed to the origin, and the whole origin was trembling.

And at the core of the vortex of origin, there is a majestic man. The Buddha's light shines on the back of his head, the Buddha's Dharma is boundless, and the Buddha-nature is surging.

This person is the Lord of Light.

He did not leave the light world at all, but hid in the source of the light world to cultivate.

His purpose is to bury the entire light world, or to use the entire light world to fulfill himself.

nowadays.

The Lord of Light is already at the peak of Hunyuan.

He wants to break through, step into a deeper level, and become a powerhouse in the realm of enlightenment.

To know.

The Primordial Realm only controls the power of the law.

And the powerhouse in the realm of enlightenment is the real Tao of enlightenment, and can use some of the power of the Tao.

The power of the Dao is much stronger than the power of the law.

"boom!"

"boom!"

Vibration again and again.

The qi and blood of the Bright World Lord are surging, and Fo Guang is about to collapse. His face is extremely ugly: "Bastard, who is it!"

Now.

He has reached a critical moment, grasped an opportunity, and does not want to give up halfway.

Otherwise, it would have already rushed out of its origin.

The Dark World Lord led the army to invade the Light World, and he knew it well, but he didn't care at all.

Anyway, it will be buried in the light world.

It doesn't matter.

But now, the bright world master can't sit still a little, and the strong man outside actually wants to forcibly split the temple of light and enter the source.

It's worth it!

"puff!"

finally.

After being continuously under pressure, the Bright World Lord spat out a mouthful of blood, and the trace of opportunity he found disappeared.

"Do not!"

"Bring me back! My opportunity, my opportunity to break through the realm of enlightenment!"

"Ahhh!"

"Dog chops!"

"court death!"

The Bright World Lord was furious to the extreme.

He screamed, rushed out of the source, and appeared on the top of the Temple of Light, just in time, the opening axe fell.

"roll!"

The Lord of Light is extremely fierce.

Get a punch.

Glittering gold.

Golden Lion King Kong Fist.

Buddhist secrets.

"boom!"

Kaitian Axe paused and stopped, while the Bright World Lord, his body trembled, and encountered a counterattack.

But no big deal.

Ye Fan put away the opening axe and sneered: "As I guessed, you really did not leave the light world, and you have been hiding in the source to cultivate."

"what!"

The bright world powerhouses are not calm.

The world master has always been in the source, knowing the invasion of the dark world?

Then why!

Do not come out to protect the children!

For a time, many strong people, countless creatures, and their beliefs collapsed.

The Lord of the Light World turned ashen and shouted: "I was trapped in the source and couldn't come out in time. On the contrary, you helped me a lot by hacking the Temple of Light. It helped me shatter the shackles, and I came out proud."

Ye Fan clicked his tongue: "That's a good reason."

"Boy, don't get off the topic with me, you invaded my light world and hacked the temple of light, are you killing yourself! Leave the light world quickly, otherwise, don't blame me for being rude."

Ye Fan looked at the Bright World Lord and said with a smile: "Primary Peak, I think you are looking for an opportunity to break through. You should have grasped a little bit, otherwise it is impossible not to come out to deal with the Dark World Lord; but you have come out now, It must have been that chance to escape."

The Lord of the Light Realm gritted his teeth.

Ye Fan guessed exactly.

"Who are you!"

The Lord of the Light Realm drank coldly.

The reason why he didn't take action was because he sensed the strength of this young man.

It is not too real to feel at the source. Now, he deeply understands the terrifying pressure and aura.

At this time, the first elder shouted: "The world lord, that is Ye Fan, the ruler of the demon world, who killed the dark world lord in an instant."

"impossible!"

The Bright World Lord shook his head, completely disbelieving.

"My realm is higher than that of the Dark World Lord, and I can completely enter the Dark World, but I didn't do it, because I know that I cannot kill the Dark World Lord. As long as there is darkness, he will never die. He cannot be killed!"

"No, the world master, the dark world master has really fallen, trapped, and the dark talent can't be invalidated. The ashes burned alive by the different fire are gone."

"what!"

The Lord of Light was shocked.

Ye Fan can kill the dark world master, then his bright talent will not work.

because.

If there is light, he is immortal.

Ye Fan smiled and said: "Now, what do you want to do, do you want to take me to the source to see?"

The master of the light world secretly calculated, and then said: "Since you are coveting the source of the light world, well, I will take you to see it, I hope you don't dare to come."

Rumble.

In an instant, a portal appeared above the Temple of Light.

The Lord of the Light Realm rushed in.

Ye Fan smiled, gave Han Yan and Fang Rui a wink, and asked them to watch the powerhouses in the light world, and then walked in the sky and walked into the door.

Swish!

The door is closed!

Chapter 1430: Pure Land of Bliss

The origin of the light world.

Seeing that Ye Fan really came in, the Master of the Bright World sneered: "You are really arrogant and arrogant. In the source, I am the master and can fully mobilize the power of the source. You think that it is too high to fight against the entire Bright World alone. Estimate yourself."

Ye Fan said: "You can give it a try."

"Insanity!"

The Lord of the Bright Realm did not hesitate.

nothing to say.

He rushed into the vortex of origin, his figure became incomparably tall, and at the same time, endless Buddha light spread out.

"Ye Fan, I am the controller of the light world, and at the same time, I have also received some inheritance from the ancient Buddha."

"Now, let me show you the unique Buddhist skills that I cultivate."

this moment.

The entire origin is filled with dazzling brilliance, and the figure of the bright world master is getting taller and taller.

Ye Fan's face did not change.

In fact, the reason why he has the courage to come to the source is because he controls the seedlings of the World Tree, which can be used to **** control from the Lord of Light.

"Dawei Tianlong!"

"World Honored Earth Store!"

"Prajna Buddhas!"

"Boom! Prajnaba!"

The Lord of the Bright Realm shot out a Buddha Dharma dragon, which swept over, and it was aggressive and unstoppable.

"Die!"

The Lord of Light is very confident.

This blow, even if it can't kill Ye Fan, it can still hurt him.

Ye Fan smiled and said, "Compete with me in Tianlong? Yes, let's compare!"

"Dragon Vein!"

"hold head high!"

A high-pitched dragon roar shook the entire origin.

There are also many dragon veins in Ye Fan's body. He got some on Earth, and he got a complete dragon vein in the root style of the demon world.

Now.

There are a total of nine dragon veins in Ye Fan's body, one large dragon vein is the main one, and eight small dragon veins are supplemented.

The power of the nine dragon veins burst out at this moment, converging into a terrifying dragon.

It is more than ten times larger than the Tianlong played by the master of the light world.

"what!"

The pupils of the master of the light world contracted, unbelievable.

"Dragon veins enter the body, how is it possible! There is only one dragon vein, it turns out to be nine dragon veins, how can your fleshly body bear it, how can you bear it!"

"Frog at the bottom of the well!"

Ye Fan's face was full of disdain.

"boom!"

At this moment, the Dharma Heavenly Dragon collapsed suddenly, but the dragon that Ye Fan played was still advancing bravely.

The Lord of the Light Realm looked ugly, and shouted: "Purdu all sentient beings fist!"

This punch comes with the power of the Great Purdue Technique.

Ye Fan was slightly surprised.

This guy knows great Purdue, is a dangerous person and must be dealt with!

Guangming's next punch really knocked the dragon out.

Available in the next second.

Ye Fan's Good Fortune Fist had already killed him, with many supernatural powers attached, such as the Great Cutting Technique, Great Poison Technique, Great Chaos Technique and so on.

Now Ye Fan has more than 100 kinds of Dao magic powers, which is really amazing.

But.

This punch did not hit the Bright World Lord. He was hidden in the vortex of origin and changed positions at will.

But this punch, hitting the vortex of origin, made the vortex of origin turbulent, and it was pierced, and the power of origin was weakened a little.

This is a huge blow to the world of light.

Outside.

The world of light trembled, countless earths cracked, countless mountains and rivers ran, and some weak creatures died tragically.

"Ye Fan, I admit that you are very strong, but I am undefeated!"

"Emperor can disappear, and you, a little Primordial cultivator, dare to say that you are undefeated! How ridiculous, how stupid!"

Ye Fan stepped forward.

The Heavenly Tyrant Body and Jiuyang Divine Body erupted, and five divine pillars rushed out from behind, which was the divine power of the Five Elements.

The powerful fleshly breath is overwhelming.

The Bright World Lord finally knew why Ye Fan could withstand the nine dragon veins, because his body was really terrifying.

"Five Elements Divine Power!"

"How is it possible, do you have gathered the ancient five emperors' divine arts, and want to cultivate the five elements?"

"good!"

Ye Fan nodded without denying it.

The lord of the light world sneered: "It's arrogant, Ye Fan, you are seeking your own death. No one has cultivated the Five Elements Divine Body since ancient times!"

"If others can't do it, it doesn't mean I can't do it. I'll be the first person in eternity, so what!"

"You are so arrogant!"

The bright world master sneered, he also burst into the light **** body, and at the same time, came with a Buddhist golden body.

This made his whole person golden.

Brilliant.

"Ye Fan, you are so young, I guess you have only reached such a strong level in recent years, right!"

"What's the meaning?"

The bright world grinned and said: "That's good, I will pull you to the point where you have to once, make you a weak ant, and I will crush you at will!"

Ye Fan's eyelids jumped.

Immediately.

what came to mind.

"Don't try to escape!"

"Hahaha, the Buddha said, all beings are equal, great equality!"

The bright world master shouted.

In an instant, a force enveloped Ye Fan and the Bright World Lord, and the two were connected.

Immediately after.

The Bright World Lord shouted again: "The realm is going backwards!"

Crash.

I only saw that the realm of the original Hunyuan peak of the light world master, quickly fell, the middle of the Hunyuan, the early stage, the peak of the gods, the later stage, the middle stage...

Nascent Soul Realm!

The realm of Taoism!

In the end, the realm of the bright world lord fell to the realm of the sea of suffering.

To the point of just getting started!

On the opposite side, because of the Great Equality Technique, Ye Fan's realm must be equal to that of the Bright Realm, and he was also forced to fall into the realm of the sea of suffering.

"Hahaha, Ye Fan, how do you feel! Isn't it shocking! This is one of the most powerful techniques of Buddhism, and it is more domineering than the Great Purdue Technique!"

"Now you are in the same realm as me, but in the realm of the sea of hardships, I have already shaped the golden body of Buddhism, and at the same time have mastered many unique skills. As for you, you must be just a fledgling yellow-haired child!"

"interesting!"

Ye Fan had recovered from the shock at the beginning.

Just now, he also guessed that it was the Great Equality Technique, an extremely overbearing magical power that forced the opponent's realm to be equal to his own.

This is a cheat for leapfrog challenges.

Forcibly pull the opponent's high realm to a realm equal to his own.

only.

Ye Fan and the Bright World Lord are both at the peak of Primordial Primordial. He did not expect that the Bright World Lord will also perform the Great Equality Technique, so it turns out that the realm can be regressed.

This secret technique is also very surprising.

"Ye Fan, do you have any last words! If you hand over all your magical powers, secret techniques, and cultivation methods to me, perhaps, I can spare your life!"

"yes?"

"Yes, I practice Buddhism and don't lie. As long as you leave everything to me, I will definitely not kill you!"

"You are so sure that you can kill me?"

"Hehe, Ye Fan, you really don't cry without seeing the coffin. If that's the case, then there's nothing to say, just die!"

The bright world took the initiative.

Turned into a streamer, killing like lightning.

"Golden Lion King Fist!"

"Dao Fist!"

Ye Fan waved his fist, shattering the punch, and the shocked light world master flew out.

"how is this possible!"

"Bitter Sea Realm, how can you have such great power and physical body!"

"Who told you that I am weak in the realm of the sea of bitterness! It's all your own imagination. Of course, if you continue to lower my realm, maybe I will really know the way. But, I guess, lower the realm to The realm of the sea of bitterness is already the limit!"

"hateful!"

The face of the bright world master is ugly.

"Ye Fan, you are sure to die, let me show you what the real secret of Buddhism is!"

"Boom."

The Lord of Light roared.

Behind him, there was a sky curtain, which seemed to be a big world, in which countless creatures evolved mysteriously.

"Buddha in the palm of your hand?"

Ye Fan was surprised.

The master of the world of light sneered: "Ye Fan, I didn't expect you to know the unique skill of the Buddha Kingdom in your palm, but unfortunately, this is not the Buddha Kingdom in your palm, but a more powerful and advanced, Pure Land of Bliss!"

"boom!"

Before the words fell, the huge sky curtain poured down, swallowing Ye Fan into it.

The Lord of the Bright Realm sat cross-legged and roared, "Ye Fan, sink into the Pure Land of Bliss and become my believer!"
