

Elegant SS 471

Chapter 471: Wild people slaughter-Mengchuan!

"Director, what's the matter?"

"It's actually very simple. We don't have any evidence of Meng Yao's collusion, and we can't punish Meng Yao just by relying on some intelligence."

"Then what you said at the dinner party..."

"It's just a bluff." Meng Li laughed and explained: "The first step made Meng Yao nervous and thought I would show evidence; in the second step, Meng Han came forward to stop me, creating the illusion of supporting Meng Yao as a prince."

"Before I left, I told Meng Yao to give the evidence to the king. This is the third step, to anger Meng Yao."

"From Meng Yao's point of view, the prince will take care of him, and he will definitely become a prince. At this time, he will cherish his feathers, and I will never allow me to show the evidence to the king."

"Regardless of whether the so-called evidence in my hand is positive and too guilty, Meng Yao will not allow it. Because it will damage his image in the eyes of the king."

"If my guess is right, Meng Yao is now desperately thinking about ways to deal with me, and will even contact the supernatural person."

Speaking of this, Meng Yi clapped his hands, suddenly realized, and said: "Director, you are trying to make Meng Yi make mistakes and create evidence without evidence. If my guess is good, you must arrange for someone to stare at Meng Yao and his palace. The wind is blowing."

Meng Li said: "Yes, as long as Meng Yao dares to contact the supernatural person, he can catch it upright."

Ye Fan smiled and said, "This is a one-handed psychological warfare."

"You can say that, it depends on whether this fellow Meng Yao is cruel. If he is cruel, he might open the door to the supernatural person. Everyone who leads Lucifer to the country will kill me!"

"What!" Meng Yi's eyes widened, "It's impossible, no matter how courageous Meng Yao is, he won't be able to do this."

"He has no retreat."

Ye Fan opened his mouth and explained: "The Sixth Prince basically sent you and Meng Yao to fight for the crown prince. The Zixia Mountain Range murdered, and the rift he saw with you can no longer be repaired."

"If you sit on the prince, he will not end well. Therefore, Meng Yao must ensure that he can successfully sit on the prince seat. All obstacles, in his opinion, must be eliminated."

"Unfortunately....."

Ye Fan sighed, patted Meng Yi's shoulder, and said, "Unfortunately, the balance of fate has already tilted toward you, and Meng Yao has almost no hope of winning."

"Brother Ye, what do you mean by this?"

"Since Prince Menghan is willing to cooperate with the director in acting, his attitude is already very subtle. Doesn't this mean anything!"

At this moment, Meng Yi's face freezes.

Then, a wave of blood rushed directly to the top of his head, shaking with excitement.

Meng Fei laughed: "Brother Yi, you are going to be the prince."

"Speak carefully!"

Meng Yi said solemnly: "Everything is still unknown now. The establishment of a prince is a matter for the father and the king. You can't just talk nonsense."

"But I won't let everyone down."

"I have experienced a life and death in the Zixia Mountains. I have some insights. Just as the nine princesses said, I can break and stand up a little bit and enter the final half step to become a master of Heng Lian, so that I have a complete chance of winning."

Meng Yi's eyes are burning, his voice is like iron, very firm.

Meng Fei said, "If you say it breaks and then stand, I will be more thorough. My muscles and veins are broken all over my body. As long as it is repaired, it will definitely be thicker and tougher than before.

This is true.

Generally speaking, the meridians of the whole body are completely broken, which is equivalent to waste.

But fate coveted, Meng Fei met Ye Fan.

"Brother Ye, I have to trouble you more."

"Small things, not enough."

At this time, Meng Yi said: "Director, Meng Yao and Brother Ye have discussed each other, and I always feel that there is something tricky and unreasonable."

"I also thought of this." Meng Li frowned and asked: "Ye Fan, what do you think?"

Ye Fan has nothing to say, but he always feels something is wrong with his body.

At this moment, a rough shout came: "Meng Yi, Meng Fei, I'm back!"

"It's father!"

Meng Fei was overjoyed and hurried out.

After a while, he came with a burly, tall, mighty man in a black armor.

Seeing this person, Ye Fan's eyelids jumped wildly.

What a strong breath!

Better than Mengli and Menghan.

This is Mengchuan, the Grand Marshal of Soldiers and Horses, the number one master of the kingdom, and the nickname "Wild Man Tu"!

Chapter 472: Scarlet Merit

The wild people slaughtered Mengchuan.

No one on the mainland knows that no one knows.

Ten years ago, there was a conflict between the Kingdom of Bemun and a large tribe with a population of 3 million.

What kind of bloodline research does that tribe engage in, hunting down the Bimong tribe.

At that time hundreds of Bemun were hunted down.

This immediately angered the Bimeng tribe.

You know, the Bimong people have difficulty in reproducing. Although they are the core leading race of the kingdom, they have a population of less than 100,000.

Every death or injury of a member of the tribe is a major event.

Not to mention being hunted down by hundreds or thousands.

The entire Beimeng Kingdom was murderous, and Meng Chuan was still only a general, not a general, he took the initiative to invite Ying, with a hundred thousand soldiers to attack.

With one's own power, behead the enemy's top ten horizontal training masters.

Completely defeated the self-confidence of Xie Yue tribe.

Afterwards, Meng Chuan slayed 500,000 prisoners and killed all the soldiers of the Xieyue tribe, leaving only the old, young, women and children, as well as some young and middle-aged people who were defeated by their self-confidence.

A large tribe with a population of three million has fallen directly.

That day.

Blood flows into a river.

A mountain was stained red with blood.

Half a million people were decapitated, and then thrown into the huge ditch that was dug out, so that the ditch was called: the ditch of the dead.

If you look now, you can find countless Bai Sensen's bones.

That battle.

Mengchuan became famous as a barren continent.

In the following year, he was promoted to the first rank and was canonized as the Marshal of the Army and Horse.

In the entire Kingdom of Bimeng, Mengchuan is more frightening than King Bimeng.

"Ye Fan."

Meng Chuan looked over, his eyes sharp as knives, as if he could penetrate Ye Fan's body and see through all the secrets.

"I have seen a good man."

Ye Fan responded neither humble nor overbearing.

Meng Chuan nodded and smiled: "What a great kid, you can't find a few in the world at this age. It's really a super evildoer."

"The handsome man is overwhelmed."

"I don't care who you are, what identity you have, or what purpose you have. You saved Meng Yi and Meng Fei, and that is their benefactor. As long as you are not too much, you are our friend."

Meng Chuan said it very directly.

At the same time, he also showed extreme self-confidence. It seemed that Ye Fan could be a spy of the Daxia War Department, he could keep it under control.

Ye Fan smiled and said, "I also want to make friends with the Kingdom of Beamon."

"good."

Meng Chuan laughed, patted Ye Fan on the shoulder, and said, "Today is too late, we will have a good drink tomorrow."

"Then I will go to rest first."

After Ye Fan left.

Meng Li asked: "How is it?"

"Monster."

Meng Chuan sighed, then gave Meng Fei a kick and screamed: "Compared with Ye Fan, you are a big trash, and you have been abolished all the meridians. It really loses my face to Lao Tzu."

"Dad, that's Lucifer, an SSS super power evildoer, three high-level abilities, I am a half-step horizontal training master, or am ambushed, not dead is not bad." Meng Fei said with a sad face.

"Marshal, A Fei was seriously injured to save me, but it doesn't matter, Ye Fan's medical skills can help A Fei restore his veins. After breaking and standing, A Fei can go further." Meng Yi said.

Meng Chuan had a deep gaze and said quietly: "Such a person cannot appear for no reason. It is natural to save you by such a coincidence. It is naturally purposeful. The hope is really just to make friends with the kingdom."

"In addition, whether Ye Fan is a member of the Daxia camp is still a question. I have the opportunity to ask the Daxia War Department for verification."

"The prince has become a master of Heng Lian, Meng Yi, you have to work hard. In the days to come, you will take care of your injuries and practice, and break through as soon as possible."

Meng Yi's eyes were firm, and he clasped his fists and said, "I understand, I will never let the general and the director down."

Chapter 473: Ye Fan crisis!

Ye Fan returned to his residence.

Bai Zhan, Luo Hong and Chaos all fell asleep.

in the room.

Ye Fan began to use breathing techniques to breathe and adjust his breath while observing his own changes.

Since fighting Meng Yao, he has always felt that something is wrong with his body.

But I can't tell what went wrong.

"what happened?"

Suddenly, Ye Fan frowned and stopped breathing.

He touched his chest.

Actually felt a trace of chest tightness.

This has never happened before.

Intuition told Ye Fan that something happened to his body.

"Poisoned?"

Ye Fan self-examined and found that the Nine Dragons Shen Needle was used, and there was no toxin and no poisoning.

However, the feeling of heart palpitations and panic, as if a catastrophe was imminent, became more and more intense.

at the same time.

Ye Fan also felt some soreness all over his body, and a sense of exhaustion rushed to his heart, and a sense of weakness followed.

"Oops!"

Ye Fan's face changed drastically.

"Old Bai!"

"A Hong!"

"chaos!"

Three cries in a row.

There was a sharp breath in the next room.

Having lived and died together for many years, the three Bai Zhan could hear some meanings from Ye Fan's tone.

This is Ye Fan encountered a crisis.

"boom!"

The three broke in.

"Boss!"

"Brother Fan!"

The three rushed up.

At that time, Ye Fan's whole person was not well.

I have a splitting headache, aches all over my body, arrhythmia, body function disorders...

"puff!"

Ye Fan spouted a mouthful of blood.

"Has three o'clock hand."

He forcibly used this emergency medical technique for himself, and his condition improved a little, and he would not faint, but Ye Fan was still very bad.

Luo Hong and the three were very worried.

But it's more calm.

Ye Fan is so powerful, but in the face of disaster, the enemy must be terrible; they must now fully guard and protect Ye Fan without a trace of panic.

"Brother Fan, what's the matter, who is it?"

"do not know."

Ye Fan shook his head, took a deep breath, and said with difficulty: "I haven't figured out what's wrong with my body, it's not poisoning... I know the suspect is the prince Meng Yao!"

"Asshole!" Chaos whispered.

"Since I played against Meng Yao, I have felt something wrong, and now it's finally happening."

Ye Fan smiled bitterly, more puzzled.

"This is Meng Yao's successor, no wonder he is so confident. He must have had contact with Lucifer, and this method may have been given to him by Lucifer."

"Then what should I do now?" Bai Zhan asked.

"Boss, we have to leave here immediately and return to Tianzun Hall. This is absolutely safe." Chaos said.

Ye Fan shook his head, "I can't go back. Meng Yao and Lucifer will definitely intercept them halfway. I can't take action now, and the three of you can't stop them."

Luo Hong groaned: "Brother Fan, you are really helpless. I don't know what's wrong with your body?"

"I don't know."

"Then you can only catch Meng Yao or Lucifer, otherwise, you will be very dangerous. However, with the three of us, it is almost impossible to catch Meng Yao in the country. Lucifer, the three of us can't deal with it..." Luo Hong Beautiful and tightly locked, this seems to be a dead end.

What should I do!

Ye Fan's eyes flickered, and he ordered: "Don't tell other people about my situation, including Meng Yi and them."

"But you are in the Kingdom of Beamon, you must seek help. Chaos, White Slash, you go to Marshal Meng Chuan, let him come over in secret, don't disturb others."

"Okay, let's go."

The two left in a hurry.

Luo Hong finally blushed, holding on to the frail Ye Fan, and said: "Brother Fan, how do you feel, there won't be any trouble, right?"

Ye Fan faintly smiled and said, "Don't worry, I won't die for the time being. In recent years, have I experienced few life and death crises? My life is hard and God can't accept me."

Early in the morning.

Meng Chuan came quietly and found Ye Fan's state, and asked in shock: "Boy, what's the matter?"

Ye Fan's face was pale, extremely weak, and he smiled bitterly: "I have been calculated and suffered a catastrophe. Please come here. First, he believes that he will not harm me. Second, he will ask him to solve the matter for me. In the current situation, it is impossible to make a move at all."

Meng Chuan's face was solemn.

If an enchanting like Ye Fan, an important figure in Da Xia, died here, Da Xia War Department would not be mad.

The Kingdom of Beamon has already become the Eagle Kingdom. If you add a big summer, it will be extremely dangerous.

Meng Chuan took a deep breath and said, "You are the benefactor of Meng Yi Mengfei, how can I fail to save you. Come on, what do you want me to do?"

Ye Fan said, "If I guess right, Lucifer has already come to the capital and has contact with Meng Yao. I have fallen here and have a relationship with them."

Chapter 474: A needle

"This happened!"

Meng Chuan's face was covered with frost.

Bringing the supernatural powers, and the SSS-level super, can bring evildoers into the capital, this is simply to lead the wolf into the room, it is a big crime.

"I need a commander to catch Lucifer."

"If you don't say that I will do it too." A fierce stern flashed in Meng Chuan's eyes, and he hummed: "Lucifer dares to enter the capital of our country, then there will be no return."

"Ye Fan, leave this to me."

"How are you? How long can you hold it? Do you want to send you away?"

Ye Fan shook his head and said, "I can hold on for a few more days. The commander will catch Lucifer in three days. Meng Yao also has to stare."

"I see."

Meng Chuan handed Ye Fan a cell phone.

This is a mobile phone dedicated to the Kingdom of Bimon, other international mobile phones cannot be used in the Kingdom of Bimon, and the signal is blocked.

"If you have any situation, please contact me at any time."

Mengchuan confessed a few words and left in a hurry.

Luo Hong said, "Brother Fan, why don't you leave. Since Marshal Mengchuan speaks, he will definitely send a fighter to **** him. We don't have to be afraid of Lucifer's interception."

Ye Fan said: "I have a hunch that only Lucifer, or the Eagle Nation Ability Organization, can solve my physical problems.

Bai Zhan said: "Boss, I will stare at the Grand Prince's Mansion, and I will contact you when there is news. Chaos, you and A Hong will stay and guard the boss."

This night.

Ye Fan was in pain.

An unprecedented encounter, the first time he suffered so much when he grew up.

In just one night, Ye Fan lost his weight.

Luo Hong shed tears distressedly.

Chaos also blushed.

"Damn it!"

Chaos smashed the table with a punch, and roared: "Lucifer, this bastard. When this matter is resolved, we will go to the Bermuda Islands and destroy the Eagle Country's ability adaptor base, and kill everything at all costs!"

Luo Hong's eyes also flashed with intense murderous intent.

at the same time.

The Grand Prince's Mansion.

In the secret room, Meng Yao looked at the man sitting opposite, and said dissatisfied: "Didn't you say that it was a killer? Why hasn't there been any movement in Meng Yi's mansion until now? Is it reliable?"

The man was wearing a silver-gray defensive armor, and it was Lucifer.

He smiled and said, "Don't worry, Ye Fan will die."

"Are you sure? That guy is the second martial arts master of the transformation realm, and his physical body is at the level of a horizontal training master. Can he kill him? What kind of poison is that?"

"poison?"

Lucifer smiled disdainfully, and said: "That can't be called poison, it's an invulnerable means of killing."

Meng Yao frowned and said in a deep voice, "What the **** is it?"

"Fine, let me tell you."

Lucifer took a sip of tea, cleared his throat, and said slowly, "That's called gene cutter."

"What's the meaning?"

"As the name suggests, the reagent has the effect of cutting off the gene sequence and changing the gene code. How can a normal person not die if his genes are changed indiscriminately?"

hiss.

Meng Yao sucked in air, as if falling into an ice cellar, his whole body was cold.

Yesterday, he met with Lucifer, got a needle from Lucifer, and let him fight Ye Fan at the next banquet, pierced Ye Fan's skin, and beheaded Ye Fan.

Unexpectedly, there is a "gene cutter" on the needle, which directly acts on the genetic code, which is simply terrifying.

"Except for my Eagle Nation Ability Organization, no one in the entire world can solve it. If Ye Fan's genetic code changes, his body will collapse first, and the lamp will die. Of course, Ye Fan is very strong, I guess he can handle it. One or two days. Within three days, Ye Fan will die. This is beyond doubt."

"The prince, you did a good job. For reward, I will give you another needle. You can assassinate Meng Yi, solve the trouble of heartache, completely control the position of prince, and become King Bimen in the future."

Lucifer smiled but took out a small piece of glass with a needle sealed in it.

Looking at this needle, Meng Yao's hair was horrified.

This is a big killer!

Chapter 475: Mengchuan shot

Meng Yao walked out of the secret room, the housekeeper of the palace came and reported: "The prince, the marshal is back."

"Oh?"

Meng Yao was excited.

The butler said again: "Someone from the general's mansion came and said it was the general who wanted to see you."

This makes Meng Yao even more nervous.

"when?"

"now."

With a heavy heart, Meng Yao squeezed the small bottle given by Lucifer in his pocket, a flash of cold light flashed in his eyes.

Mengchuan, if you dare to deal with me, don't blame me for being cruel and sending you on the road.

Soon after Mengchuan left the palace, a group of soldiers wearing black and gold armor surrounded the entire palace.

The butler rushed out and shouted: "What are you doing! This is the mansion of the prince. Who dares to surround it. Who sent you?"

"It's me."

A strong word exploded.

The housekeeper looked intently and knelt on the ground with a thud, shivering, "The villain sees the handsome!"

"Humph."

Mengchuan snorted coldly and walked towards the palace.

The housekeeper asked, "Marshal, didn't you summon the prince, why are you here? The prince has already gone to the marshal's mansion."

"Why, I have to explain to you when I do something?"

Mengchuan lowered his eyebrows.

Sen's cold eyes made the butler almost faint.

Mengchuan walked into the palace.

At that time.

Lucifer just walked out of the secret room, his face darkened when he heard the movement outside.

Ding dong.

Ding dong.

Ding dong.

The phone kept ringing, and the two subordinates sent a lot of messages.

"Team leader, retreat quickly, Mengchuan led troops to surround the palace, it should be to arrest you."

"It's too late when it's late."

Lucifer gritted his teeth secretly, never expecting Mengchuan to come so fast, and so upright, to directly surround the palace, not playing with the virtual.

Is this the "savage slaughter"?

Sure enough, extremely overbearing.

"If you want to catch me, it's so easy." Lucifer sneered, and was about to leave through the back door, only to find two cold glows coming.

"I think it's easy to catch you, what do you think?"

Mengchuan's joking words exploded in Lucifer's ears.

Lucifer's face changed drastically.

"Huh!"

He burst out all his strength in an instant, and rushed out of the garden at a fast speed.

Facing Mengchuan, Lucifer did not dare to entrust him.

This is the savage slaughter, the top group of powerhouses on the road, the peak of Master Heng Lian.

The ability organization has done an analysis: Lucifer's "reverse blood" and "soul-storing" abilities are not very effective for the horizontal training masters of the pinnacle realm.

Because those who can cultivate to the pinnacle level are those with strong willpower and a strong Taoist heart, and it is difficult for them to be "souled" to influence their spirits.

As for the "Blood Reversal", the pinnacle Master Heng Lian was so terrifying that it would be difficult to reverse the flow of blood.

Or.

If he can't reach it at all, he will be bombarded and killed by Mengchuan Iron Fist.

certainly.

Lucifer is still very young, and his advanced abilities can be upgraded.

The "Blood Reversal" ability is currently only Level 1, if it is upgraded to Level 3, Lucifer will not be afraid of Meng Chuan.

"Boy, when this commander is looking at you, do you still want to escape? What's more, you are still in the capital! You are so brave, dare to enter the capital!"

The sound of Mengchuan is thunderous and intriguing.

boom!

A fist wind swept over.

This style of fist is almost comparable to the fierce qi of a martial arts master.

This is the horror of the pinnacle horizontal training master, with every gesture, the hurricane that is set off is like a sword, extremely fierce.

Feeling the murderous intention behind, Lucifer was furious, he suddenly turned around and punched Meng Chuan.

"Boom!"

Lucifer was beaten into the air.

Meng Chuan just shook his body, then sneered: "This power is not bad, use all your abilities, show me. Otherwise, you won't have a chance."

"court death!"

Lucifer knew that one's escape was useless.

This is the capital of the country.

Even if he escaped from the palace, it was of no avail.

Moreover, there are so many soldiers outside, with live ammunition, although he is an SSS-level ability, but he can't handle so much firepower.

If you can't escape, kill it!

"Desperate!"

This ability is level two.

Seize the soul in the air.

When Lucifer was on display, Meng Chuan was in a daze.

In this second, Lucifer had already reached Meng Chuan and slapped Meng Chuan's forehead and chest.

"Anti-blood!"

In an instant, Meng Chuan's body was surging, blood surging.

But nothing more.

Meng Chuan sneered and said: "Inverse blood, a very good ability, but unfortunately the level is too low. If you are upgrading two or three levels, I will have some trouble. Now, you can't do it."

boom!

The Mengchuan tiger's body trembled, and Lucifer was shaken off.

Next second.

Mengchuan was faster than a cannonball, and his feet broke the bluestone slabs of the entire courtyard, and he appeared beside Lucifer in the blink of an eye.

Lucifer is also a good player.

Take advantage of nothing.

The body twisted strangely, stood still in the air, and landed steadily.

"boom!"

However, Mengchuan also stopped instantly.

At the moment Lucifer landed, his fist had already struck Lucifer's abdomen.

"puff!"

With a punch, Lucifer's blood spurted wildly.

Lucifer's defensive armor immediately disintegrated and collapsed.

Meng Chuan closed his hand and said faintly: "Boy, I'm pretty young. Although it is an SSS super monster, but you still need to upgrade it, if your ability is at full level, it will be amazing, and now you are too far behind. ."

Huhuhu.

Lucifer's breath became violent.

Eyes are red.

Meng Chuan said in surprise: "It's a bit interesting, but it can also improve combat power, very good. In addition to contemplation and blood reversal, there are any advanced abilities. Use them, let me see."

"as you wish."

Lucifer's voice became hoarse and low.

He has three advanced abilities.

In addition to the blood and soul, there is a trump card.

only.

This trump card cannot be played easily.

"Mengchuan, die!"

Lucifer growled.

"boom!"

With a blast, the sky and the earth are vast.

"not good!"

Mengchuan screamed, set off a gust of wind, blowing away the smoke.

Where is the voice of Lucifer.

"Stealth fighter!"

Meng Chuan suddenly raised his head to look at the sky, his eyes were like radar, and a monstrous breath poured out.

"The wind is like a dragon!"

woo woo woo woo--

The hurricanes rise from the ground, like a long dragon, densely blocking the sky.

"boom!"

The stealth fighter seemed to have been hit, and sparks appeared in the sky.

Mengchuan shouted: "Call me!"

Boom boom boom...

The soldiers outside opened fire in unison.

Because of the fire and the thick black smoke, the stealth fighter cannot be invisible.

This is one of the most advanced stealth fighters of the Eagle State War Department and even the world, named: "Lightning Eagle M23".

Only the "Lightning Eagle M23" can break through the sky monitoring of the Kingdom of Bemun, evade countless radars, fly over the capital, and save Xifa.

At the same time, the firepower of the Lightning Eagle M23 is also very powerful.

The sky full of defensive interceptor bombs was launched, like a barrier, protecting the Lightning Eagle M23 from leaving.

"Marshal, what should I do?"

"The Lightning Eagle has been hit and can't fly far, so I immediately dispatched a fighter plane to pursue it, and I must bring Lucifer back to me."

"Yes!"

Chapter 476: Meng Yao confided the truth

The Lightning Eagle M23 stealth fighter is galloping in the air.

In the cabin, there was a nervous haze lingering.

The fighter was hit, breaking the invisibility function, which was equivalent to a live target; the fighters of the Bemun Kingdom were chasing after them, but there were not many interceptor bombs.

When the interceptor bombs are used up and the firepower is covered, the "Lightning Eagle" is afraid that it will become a "fighting chicken".

"Unexpectedly, Mengchuan is so strong."

Lucifer had lingering fears.

"It's worthy of being a savages, the pinnacle level of horizontal training master, I have to upgrade my ability by two levels before I can fight him."

"Team leader, the situation is critical!"

A subordinate shouted: "The Kingdom of Beamon has sent a hundred fighters, and there are also fighters in other places. This is to encircle, chase and intercept. The Lightning Eagle has been damaged and it will not last long."

Lucifer said solemnly: "Go north."

"north?"

"Yes, the North is the Thunder Kingdom. Our War Department has long established cooperation with the Thunder Kingdom and will help us."

Lucifer told the big secret.

The Thunder Kingdom is the closest to the Bimon Kingdom. Although it has been peaceful for many years, it has a strong competitive stance.

Recently, contradictions have also appeared.

If the two kingdoms are too close, there will naturally be frictions due to resources.

It's just that the strength of the Thunder Kingdom is inferior to that of the Bimeng Kingdom, and the top powerhouses are not as good as Bimeng Kingdom.

A while ago, secretly reached a cooperation with the Eagle Nation War Department.

In fact.

As long as the Beamon Kingdom and the Eagle Nation War Department fight on the Guna River, the Thunder Kingdom will immediately send troops to attack the Beamon Kingdom.

Fringe back and forth, the Kingdom of Bemun will be defeated.

"Marshal, Lucifer and the others are heading north. It is very likely that they are seeking help from the Thunder Kingdom."

In the fleet of fighters chasing the Lightning Eagle M23, a huge master fighter is sending a message from a general of the level of a master of horizontal training.

at this time.

The Kingdom of Beamon, Airspace Command.

"Sure enough!"

Mengchuan sneered, his eyes cold.

"The secret cooperation between the Thunder Kingdom and the Eagle Kingdom War Department can now be 100% certain."

"Marshal, what are we going to do?"

"Continue to chase, but don't chase too closely. Let Lucifer leave the kingdom's airspace and force the Thunder Kingdom to dispatch a fighter plane to rescue Lucifer."

"Marshal, you want to..."

"Instead of being passively restrained, it's better to take the initiative to provoke the incident and unexpectedly disrupt the plan to let the Thunder Kingdom and the Eagle Nation War Headquarters. Besides, we have reason. The Thunder Kingdom intervenes in our pursuit without authorization. They have to endure no matter what they do. , Otherwise it will be a full-scale war."

Meng Chuan seemed to have seen everything through, and sneered: "Thunder Kingdom's wolf ambition, let's give him a cruel hand first."

"I have notified the border defense that fighters will be dispatched to support. You may pursue and kill the Thunder Kingdom."

"clear!"

Afterwards, Meng Chuan left the headquarters and he needed to go to the palace to report to and discuss the following matters with King Beamon.

The commander of the guards came and said: "Marshal, there is news from the mansion that the prince is furious and wants to leave the mansion."

"Hmph, before we catch Lucifer, let his teacher stay and forbid him to leave the commander's mansion. If he is fooling around, he can take coercive measures."

"good."

The commander of the guards immediately communicated the order.

Mengchuan rushed to the palace...

And in the thirteen palaces.

Bai Zhan came back with some news.

Ye Fan said, "Meng Chuan is really decisive. Now Meng Yao is under house arrest and Lucifer has escaped, making it more and more interesting."

Luo Hong said worriedly: "Brother Fan, if you can't catch Lucifer, what about your body?"

"Lao Bai said that the Lightning Eagle M23 has been hit, and it is impossible to escape the airspace of the Kingdom of Beamon. Lucifer will definitely be captured."

Ye Fan got up and said, "Go, let's go to the Marshal's Mansion."

"What are you doing?"

"Talk to Meng Yao."

Ye Fan brought the three of Bai Zhan to the marshal's mansion.

Outside, I heard roars from time to time, which was Meng Yao's voice.

"Mr. Ye."

The generals guard did not stop Ye Fan, obviously Meng Chuan had already explained it.

This made Ye Fan feel that Mengchuan was not only terrifying by force, but also amazingly intelligent. No wonder he could become the top powerhouse in the Wild Continent.

"Take me to see the prince."

"Mr. Ye come with me."

The housekeeper took Ye Fan to the backyard and saw Meng Yao was in a very bad state, with a disheveled hair, and the backyard was beaten in a mess.

Ye Fan shouted: "The Great Prince."

boom!

Meng Yao was shocked, turned his head, his eyes were cold, and roared: "Ye Fan, it's you!"

"die!"

Meng Yao came to kill.

"presumptuous!"

Bai Zhan shot.

A punch will fly Meng Yao.

He has long been a master of martial arts, mastering the powerful martial arts taught by Ye Fan; and it hasn't been long since Meng Yao became a master of horizontal training, where is Bai Zhan's opponent.

"The prince should calm down. In this situation, anger is of no use, but it will make you in a more dangerous situation."

Meng Yao was horrified.

After a moment, he calmed down and said hoarsely: "What do you mean?"

Sitting in the pavilion, Ye Fan smiled and said, "The prince, I think we need to have a good talk."

"We have nothing to talk about."

"Not necessarily." Ye Fan shook his head and said solemnly: "Lucifer discovered in your palace that this crime alone is enough to abolish you as a prince, and let alone compete for the crown prince."

"As far as I know, Marshal Mengchuan has gone to the palace."

This sentence changed Meng Yao's color.

A wave of fear surged into my heart, cold sweat like rain.

"So the prince, you should know the seriousness of the matter and the urgency of time. Are you sure you don't sit down and talk to me?"

Ye Fan smiled.

Meng Yao didn't hesitate anymore, sat down stiffly and said, "I know what you want to ask. You are not poisoned, but gene cutters."

"Gene cutter?"

"This is a gene-cutting reagent. I fought with you last night and pierced your skin with a small needle. The reagent entered your body. You guessed it became the way it is now."

Meng Yao said five to ten.

"Cut your genetic chain, and even change the genetic code. This is fundamentally destroying your father's body. Except for the Eagle Country's supernatural organization, nothing else can be solved. So Ye Fan, you let Master Mengchuan catch me. use."

"Cut the gene chain! Change the gene code!" Ye Fan also felt chill on his back.

This method is already too forward.

Presumably this kind of technology cannot be completely controlled by the Eagle Nation Ability Organization. There are many unstable factors. Once it has matured and is widely used in combat combat, it is simply terrifying and unimaginable.

"Ye Fan, I have said everything I should say, can you contact Marshal Mengchuan and let him spare me once."

"I can guarantee that I will draw a clear line from the supernatural person. Everything I have done is just for the prince's position, and it has not harmed the national interests."

"I think it can be forgiven!"

"As long as you help me, we will turn fighting into jade, and you will be my brother in the future."

Ye Fan shook his head and said coldly: "Not enough!"

"what?"

"I didn't get any substantial benefits. You just told me the reason for my physical changes, but there is no solution. It's a pity that I can't help you."

Ye Fan got up, ready to leave.

Meng Yao was in a hurry.

Now only Ye Fan could help him, because Meng Yao was keenly aware that the reason why Meng Chuan went to his palace to catch Lucifer was because of Ye Fan.

Obviously, Ye Fan's importance in Mengchuan's heart.

"and many more."

Meng Yao suddenly stood up and shouted: "Ye Fan, I have something for you."

"Oh?"

Ye Fan turned around and saw Meng Yao pull out a small bottle.

"Lucifer gave me two needles. One was used for you, and the other was originally intended to deal with Mengchuan. Now I will give it to you. There are gene cutting reagents on the needles, and you can send them to the Daxia War Department for research. I think, with Daxia's advanced technology, there is a great chance that it will be able to crack and save you!"

Chapter 477: Wulei Mountain

Ye Fan was very excited when he got the small bottle.

Because this can indeed be done for research, if there are some results, it will be a big gain.

The Eagle Nation's ability to organize this kind of technology must be guarded, otherwise there will be a real war in the future, and no one will be able to contain the Eagle Nation.

Tianzun Temple must be prepared in advance.

There is no shortage of technical talents in Tianzun Palace.

Among the top ten technology companies in the world, there are two Tianzun Temples. These are big secrets and unknown.

In addition, there are also many organizations that have good relations with the Temple of Heavenly Sovereign, such as the Black Feather Alliance, the number one blocker in the hacker world.

Tong Di, the leader of the Black Feather Alliance, has been conquering half of the Hongmeng chip, and has always been rewarded.

Tongdi's team can also participate in the project of researching gene cutting reagents.

These are things to follow.

At this time, Ye Fan put the small bottle away and said: "Don't worry, the prince, I will talk to Marshal Mengchuan, but I hope you will do what you say and draw a clear line with the eagle country supernatural powers."

"That is for sure."

Meng Yao nodded.

Ye Fan left the marshal's mansion and immediately contacted Mengchuan.

At that time.

Mengchuan was in the palace, waiting for King Beamon's call.

Hearing Ye Fan's news, he replied: "I didn't intend to talk to the king about Meng Yao. As for the research on gene cutting reagents, Ye Fan, I want to join the Kingdom of Bimeng."

"This is not in a hurry, wait a minute. The most urgent task now is to catch Lucifer."

"Lucifer can't run."

Meng Chuan's tone was very positive, and then he said: "The king summoned, I won't talk to you."

After hanging up the phone, Meng Chuan walked into the chamber.

There are two people in the hall, one of them is Ling Menghan, and the other is naturally King Bimeng.

Unlike Menghan and Mengchuan, they have a strong aura and a burly figure, but King Bimen is very thin. Although he is majestic, his aura is not as fierce and fierce as the two of Mengchuan.

King Beamon is very handsome.

Seeing Meng Chuan coming in, he waved his hand and said, "Lao Chuan, you are finally back. You are facing off against Williamston in the Guna River these days. Thank you for your hard work."

"This is my duty."

Meng Chuan sat down, glanced at Meng Han, and said, "You are not in the clan mansion, what are you doing here?"

"Can't come?"

Meng Han snorted coldly.

Both of them have been rivals since childhood, and they are also competitors.

A woman whom both of them fell in love with at the time, and then Meng Han embraced a beautiful woman, which kept Meng Chuan in his heart.

Although he doesn't deal with it, he doesn't know the enemy.

On the contrary, in front of the big things, they are all surprisingly unanimous.

"There was a big move in the Meng Yao Palace just now, what's the matter? I haven't received any news. You blocked the news."

King Beamon asked.

Meng Han immediately said: "Mengchuan, you are bold, doing things under the eyes of the king, and blocking the news, what crime should you be!"

"You don't say anything, no one treats you as dumb." Meng Chuan squinted, and then handed a piece of information to King Bimeng.

King Beamon glanced aside and said, "Lucifer, an SSS-level super evil evildoer, nearly killed Meng Yimengfei in the Zixia Mountains. It's really amazing."

"He sneaked into the capital and was discovered by me. He is being arrested." Meng Chuan said.

At this time, Meng Han mocked and said: "You, a great man of the kingdom, let a young boy escape from his hands. You are not ashamed."

"It was indeed my carelessness. I didn't expect the Lightning Eagle M23 to appear. However, the Lightning Eagle was hit, but it was a dying struggle. It is a certainty to catch Lucifer."

"I came here because Lucifer fled towards the Thunder Kingdom, obviously seeking help from the Thunder Kingdom."

"My lord, I decided to have a fight with the Thunder Kingdom; turn the passivity into the initiative and disrupt the plans of the Thunder Kingdom and the Eagle Kingdom War Department."

The atmosphere in the chamber suddenly became heavy.

Meng Han's face became solemn.

"Unexpectedly, the Thunder Kingdom really cooperated with the Eagle Nation War Department secretly. Alas, this is tantamount to seeking a tiger's skin. The Thunder Kingdom is really confused!" King Beamon sighed, but the depths of his eyes were filled with murderous intent.

Meng Han said coldly: "The Thunder Kingdom is looking for death. Then, as Lao Chuan said, use the capture of Lucifer to attack the Thunder Kingdom. As long as they dare to send a fighter to rescue Lucifer, they will all be destroyed!"

The two Mengchuan looked at King Beamon, waiting for a reply.

King Beamon got up and walked to the window, looking at the blue sky, and said nonchalantly: "What airspace is Lucifer walking in?"

"Over there in the endless grassland."

"Notify the fighter group to push the Lightning Eagle M23 to Wulei Mountain."

Meng Chuan and Meng Han looked at each other and said, "Wu Lei Mountain is one of the important resource areas of the Thunder Kingdom. It is full of troops. Forcing Lucifer to go there will be very dangerous to our fighter group."

King Beamon said: "Since I want to fight, then let me fight and razing Wu Lei Mountain to the ground."

"what!"

Both Mengchuan were surprised.

Once Wu Lei Mountain is razed to the ground, the Thunder Kingdom will go crazy and it is likely to go to full scale war.

"My lord, are you sure?"

"Order it."

King Beamon nodded, beyond doubt.

Meng Chuan was not an indecisive person either. The Kingdom of Bimen was not afraid of the Kingdom of Thunder. He immediately contacted the general of the presiding fighter group and conveyed the order.

Rumbling.

The group of fighter planes began to change their flight routes.

On the Lightning Eagle M23, the captain shouted: "Team leader, the fighters behind us are changing course. We are flying in a straight line and are the fastest to cross the endless grassland and reach the Thunder Kingdom; changing the course will increase the time. Those **** are going to die. US!"

"How long can the Lightning Eagle last?"

"About an hour."

Lucifer was furious. Suddenly, he looked at the radar map and discovered the mystery.

"This direction is to Wulei Mountain!"

"Hahaha, there is no end to me!"

"The group of idiots behind actually forced us to go to Wulei Mountain, which is the resource of the Thunder Kingdom, where countless soldiers are stationed. We can be saved by going there."

"Fly at full speed now!"

at the same time.

The Frontier War Department of the Kingdom of Bemun began to dispatch, and chariots were speeding on the endless grassland, carrying heavy weapons.

In addition to the nearly 100 pioneer fighter groups that hunted down the Lightning Eagle M23, the Frontier Defense Department dispatched another 300 fighters.

Killing Wu Lei Mountain mightily.

After half an hour.

The commander of Wuleishan Headquarters looked at the radar map with a solemn expression.

"Marshal, that is the Lightning Eagle M23 of the Eagle Country, shall we intercept it? Behind are nearly a hundred fighters from the Bemun Kingdom, which seem to be hunting down the Lightning Eagle."

"It's too much involved, I need to report it immediately." The commander contacted the kingdom's senior officials and quickly got the order—

Rescue Lucifer!

In fact, the Thunder Kingdom is also very distressed.

Rescue Lucifer, it will inevitably fight with the Kingdom of Beamon, this is not what they want to see.

But Lucifer was in distress, and the Eagle Nation War Department had received news and asked them to rescue him.

Rumbling.

Three minutes later, nearly a hundred fighters left Wulei Mountain, and soon they saw the Lightning Eagle M23.

"Turn on radio wave transmission, I want to talk to the general of the main fighter on the opposite side..."

"General, don't talk about it, the fighter planes of the Beamon Kingdom have opened fire." The lieutenant shouted in shock, leaving the general dumbfounded.

real or fake?

He suddenly turned to look at the satellite monitoring picture, and he found that the sky was covered by fire.

Damn it!

This special code is too simple!

Hundreds of fighters on the two sides fought in a melee. It would be a big war in any country. Don't you say a few words first?

Start playing directly? !

Chapter 478: Melee

"Call me!"

The general shouted in anger.

The general on the main fighter of the Kingdom of Beamon was also screaming: "Te mother, brothers, do it for me, blow all the grandsons of the Thunder Kingdom to me!"

Da Da Da Da...

Boom boom boom boom...

The firepower collided in the sky, the whole sky bloomed with brilliant brilliance, and the huge movement spread throughout the endless grassland.

Except for the Kingdom of Bemun and the Kingdom of Thunder, all tribes large and small heard the movement and were silent.

"what's up!"

"My God, is it possible that the Thunder Kingdom and the Bemun Kingdom are at war on the endless grassland!"

"It's over. The war between the two kingdoms will definitely affect our tribe. What about this!"

Unbeknownst to the two kingdoms, there was a commotion within a radius of tens of thousands of miles.

Even some small tribes convened an emergency meeting to decide whether to migrate.

"Continue pressing forward, approaching Wulei Mountain, we must approach Wulei Mountain, there is our battlefield!"

"Brothers, don't be afraid of death. Although Wulei Mountain is heavily guarded, our reinforcements will be here soon. Let's pin!"

"Fire me!"

This general was cultivated by Mengchuan himself. He was in his thirties and was brave and invincible. He was a well-known general in the Bimen Kingdom and even the Wild Continent.

He is considered a disciple of Mengchuan.

There are even rumors that Meng Chuan wants this guy to be his successor, but Meng Fei is thrown aside.

"Good fight!"

Seeing that the Thunder Kingdom's fighters were suppressed and several of them were lost, Mundian laughed.

The fighters of the Bemun Kingdom have better performance than the fighters of the Thunder Kingdom, and firepower suppression is also natural.

"Boom boom..."

On the Thunder Kingdom side, one after another of fighters exploded.

Mundian said, "Fight me!"

"I come!"

I saw that Mundian couldn't sit still and came to the cockpit. He personally piloted the main fighter to participate in the battle.

After fighting with Mengchuan for more than ten years, Mengdian had little experience and skills despite his young age.

The lead fighter of the main fighter greatly boosted morale.

The Thunder Kingdom was beaten back steadily.

"Be careful, general!"

The lieutenants screamed when they saw the fire from the opposite side concentrated on killing them.

"I know, don't be surprised. A bunch of rubbish, also want to blow up me, fart!"

The running clouds and flowing water operated by Mundian avoided large-scale firepower while releasing interceptor bombs.

It is different from other fighters.

There was not a single waste of interceptor bombs released by Mundian.

"You guys are playing well, it's time for me!"

The Mundian art master was bold and drove the main fighter into the enemy group.

Damn it!

A group of lieutenants were so scared that Chrysanthemum was convulsing.

"boom!"

A super large flash bomb.

It obscured the sight of the Thunder Kingdom fighter plane. Although there was radar navigation, suddenly this suddenly would definitely have a huge impact on the captain.

And Mundian took this opportunity to break away from the enemy group, bypass them, and slew towards Lightning Eagle M23.

"Da da da da."

After Mengdian left the enemy group, the rear fighters opened fire frantically.

Boom boom boom!

Boom boom boom!

A fighter plane was shot down by a cannon.

"Damn **** damn it."

On the Thunder Kingdom's main fighter plane, the general thundered in shame, and he shouted unwillingly: "Retreat, protect the Lightning Eagle!"

Wuleishan Headquarters.

The commander-in-chief listened to the battle report, his face was livid, and he slapped the table and shouted: "Counter-attack, full-scale counterattack. In the area near Wulei Mountain, we were defeated by the Kingdom of Bemong and passed out, so what a face of our country!"

"All the fighters in the base are dispatched, and I will wipe out all the fighters in the Kingdom of Beamon."

Hundreds of fighters were dispatched one after another.

Densely dense and majestic.

On the Lightning Eagle, Lucifer breathed a sigh of relief when he saw it, "Well, well, it's finally safe now."

"boom!"

After that, one of the wing of the Lightning Eagle was attacked by a cannon, and the entire fighter was swaying, and it was about to crash at any time.

"what happened!"

Lucifer growled.

This is not Mundian's fire, because he has retreated, since he is a technical bull, he can't go deep alone.

"Team leader!"

At this moment, an ability player exclaimed, pointed to the Thunder map, and said: "Look, those teams!"

Lucy looked at her, her face frozen, her hair standing upright.

Similarly, Wuleishan Headquarters.

The commander-in-chief of the base saw the sudden emergence of a fully armed team like a torrent of steel, and his entire brain was blank.

Chapter 479: Razed to the ground

The Border Warfare Department of the Kingdom of Bemun is equipped with technology to shield radar satellite monitoring, so the Wuleishan Command has not found it.

Suddenly emerging from the water, the terrible Wu Leishan's jaw dropped in shock.

"not good!"

Lei Gaopeng, who was the third prince of the Thunder Kingdom in command of the Wu Lei Mountain at that time, changed his face and immediately ordered, "Quickly, the base enters a state of first-level combat readiness, and all forces are deployed and are ready."

"A zone of the base, the armor-breaking vehicle is dispatched."

"Base area B, the missile department is dispatched."

"In Area C of the base, the infantry battalion is dispatched."

"..."

Army orders were issued one after another, and the entire Wuleishan base was instantly restless.

at the same time.

Lei Gaopeng also wanted a report from the top leaders of the Thunder Kingdom, which caused the thunder Kingdom's ruling and opposition parties to shake.

There would be no time for Lei Gaopeng on the side of the Bimon Kingdom.

"boom!"

A super large incendiary bomb exploded, and the sky was covered with flames.

The pioneer fighter group of the Thunder Kingdom was directly submerged, and a large number of fighters fell.

Mundian laughed: "Well, good, good fight, the grandchildren of Thunder Kingdom, it's time to fight!"

The war is downside-down.

The Lightning Eagle M23 hid in Tibet and fell into a circle of encirclement.

Lucifer was furious and cursed: "This group of waste in the Thunder Kingdom, a group of rice buckets."

"Team leader, the situation is not optimistic, the performance of the Lightning Eagle has been depleted by 80%, and it can last for ten minutes at most."

"Ten minutes we must break through, otherwise, we will definitely be caught by the Kingdom of Bemun and become fish on the chopping board, letting others kill."

Lucifer said coldly: "What are you panicking!"

"Wuling Mountain is an important resource area of the Thunder Kingdom. It has a huge force here. The Beimong Kingdom's surprise attack will not bring any benefits. We will continue to hold on for a while."

The Lightning Eagle M23 is worthy of being one of the most advanced in the world, and only the "Dongfeng A91" of Daxia Country can be compared with it.

Even if the performance loss is 80% and it will crash at any time, it is still not the fighter of the Kingdom of Bimeng.

"Huh!"

The Lightning Eagle M23 went retrograde.

Lucifer insisted on going his own way, letting go, trying to hit 10,000 meters in the sky.

"interesting."

With enthusiasm, Mengdian shouted: "Go ahead and let me play with Lucifer. The other fighters don't have to participate in the battle and go against Lei Gaopeng in Wulei Mountain."

"Yes!"

The fighter group shifted the target.

Mundian drove the main fighter alone to kill the Lightning Eagle.

The battle below completely kicked off.

Lei Gaopeng originally wanted to negotiate, but he saw that the vanguard fighter group in the sky suffered a severe blow.

A hundred fighters were almost wiped out.

Also lost a great general.

Lei Gaopeng was angry.

He is a prince, and he is naturally a wise man. The Kingdom of Bimen must be the cause of wanting to capture Lucifer and attack Wu Lei Mountain.

In that case, there is nothing to negotiate.

"fire!"

At the top of Wulei Mountain, thirty-eight cannons were launched all at once.

Standing in front of the command department, Lei Gaopeng looked cold and disdainfully said: "The Kingdom of Bimen really thinks that we are a soft persimmon. We have a geographical advantage. They have a few people, there is no return."

"fire!"

at the same time.

Wulei Mountain is five miles away.

The teams of the Bemun Kingdom also fired artillery together, and the artillery shells of the two sides collided in the air, erupting an earth-shattering roar.

Mushroom clouds rise.

Sound waves rippling.

Convey thousands of miles away.

The tribes large and small were shocked.

"Ruined!"

"Beimeng Kingdom is really at war with Thunder Kingdom. The missiles are arranged directly. Let's run away."

"If this is a missile launched by mistake and come to our tribal city, won't we all have to be buried."

"Susu migration!"

Dozens of small tribes gave orders to migrate.

For many tribes, in addition to the city of daily life, an emergency city will be built somewhere far away.

In the event of a disaster, they will migrate to the emergency city.

When all the dust settles, if the city of life is not destroyed, it will come back again.

Boom boom boom!

While fighting, while migrating and fleeing.

at the same time.

The big news of the war between the two countries is also spreading like a hurricane.

Nowadays, with advanced scientific and technological information, it spread to the great kingdoms, tribes, forces, and warheads of other nations on the wild continent within a few minutes.

"What's the situation? Why did Beamon and Thunder suddenly start doing it?"

"This was in my expectation. I had said that Thunder and Eagle had secretly cooperated. If Beamon wanted to break the deadlock, he had to start with Thunder Kingdom."

"What's the action on the Eagle Country War Department?"

"The situation on the Guna River is tense, and the war is about to break out at any time. Mengchuan and Williamston met at one time!"

"Is this going to start a full-scale war!"

All countries are tense and are preparing intensively.

A full-scale war between Beimeng and the Eagle Nation War Head and Thunder Kingdom is bound to fight, and the country will even be destroyed.

At this time, there are great benefits to be gained.

How can countries give up.

"Lucifer, you can't escape!"

High in the sky, two fighters chase me.

Mundian used an international radio broadcaster to reach the Lightning Eagle M23 and talk to Lucifer.

"Mundin, it's you!"

"Oh, is the name of this general already known to everyone? You know it for young people like you."

"Mengdian, don't be proud, wait until Wuleishan destroys your team, the next is your death date. You really think that a little force is like destroying the Wuleishan base."

"You know what a shit!"

Mundian sneered, not forgetting the firepower during the conversation.

Lucifer said angrily: "Mundin, do you want to die!"

"Tsk tsk, how pale and weak you are in danger. Lucifer, if you are a wise man, you will be able to save your life a little bit; otherwise, the consequences will be very serious."

"Cluster bombs!"

Mengdian stopped drinking and fired a cannonball.

It exploded in an instant.

Countless bullets enveloped the Lightning Eagle.

Although the Lightning Eagle escaped quickly, it was still hit a lot.

"Group leader, the performance is only 10% left!"

"Eight percent!"

"Five percent!"

"Dididi, alert! Alert! Seriously insufficient performance, crash risk alert! Crash risk alert!"

Lucifer gritted his teeth.

Below.

Wars broke out.

Lei Gaopeng did not expect that the Bimen Kingdom's troops were so well equipped, there were so many shells.

"Commander, it's not good, our fighter group has been suppressed."

The lieutenant came to report.

There were 300 fighters from the Border Warfare Department of the Kingdom of Bemun, and nearly 400 fighters under the leadership of Mengdian.

Wuleishan base is also about this number.

However.

The Kingdom of Beamon took the lead here, and there was no solution to this.

"boom!"

When the first shell broke through the blockade and landed on Wulei Mountain, it caused a huge shock.

Lei Gaopeng knew: This incident is serious.

"Great handsome!"

"The twenty-eighth district of Wulei Mountain was bombarded with heavy casualties. Please make your decision."

"Boom!"

"Report, the 19th district of Wuleishan was bombed..."

"Report, the eighth district of Wuleishan was bombed..."

The series of bad news made Lei Gaopeng's eyes black.

impossible!

How did the Beamon Kingdom fighter group break through the interception? How did the missile fall.

"Report!"

"Marshal, it has been determined that the Beamon Kingdom fighters are carrying Hurricane series missiles."

"what!"

Lei Gaopeng's face changed in shock, and finally understood.

The Hurricane series of missiles are the ace missiles of the most mysterious arms organization in the world.

rumor.

The Hurricane series is a simplified version of the "Dongfeng Express Series", the strongest and most advanced missile in the world.

The Dongfeng Express series are capable of cooperating with Yingguo's "Peace Defender Series" missiles. One can imagine how terrible it is.

The simplified version of the "Hurricane Series" is also enough to be famous all over the world.

"How can the Kingdom of Beamon have Hurricane series missiles? He actually did business with that mysterious arms organization!"

"How can it be!"

Lei Gaopeng panicked.

Wuleishan's interception and defense system can't stop the "hurricane series" at all.

"Boom boom boom!"

The second wave of bombing struck Wu Lei Shan shaking, seeming to collapse at any time.

Countless screams came.

The lieutenants came to report that the cannon on the top of the mountain had been breached and the base camp was being bombed, causing heavy casualties.

"Marshal, the Kingdom of Bemun is here prepared, and they account for reason. To capture Lucifer, we intervene, and it makes sense to attack."

"Marshal, we have to withdraw."

"Lucifer, leave it alone, the water is too deep, we can't grasp it. Let the Kingdom of Beamon fight against the War Department of the Eagle Kingdom!"

Lei Gaopeng's eyes were torn apart.

He looked at the Wu Lei Mountain where there were burning beacon smoke everywhere, and the old tears were full of grief and indignation.

"It's over, it's all over."

"This is an important resource land in our country. It has been razed to the ground, and the loss of our country is immeasurable."

"Plus fighters, soldiers, artillery, armor, etc., we can't afford this loss. I should be sanctioned. How can I return to China with the face!"

Lei Gaopeng looked painful, fearful, unwilling and embarrassed.

The lieutenant said: "You can stay in the green hills without worrying about burning wood, and you won't blame you for the big bowl. Commander, please evacuate quickly."

Several confidants forcibly dragged Lei Gaopeng away.

Boom boom boom...

Wulei Mountain has experienced more than a dozen waves of bombing, completely completely beyond recognition. Although it will not be razed to the ground, it has also been completely abolished.

Thick black smoke enveloped the sky, spreading towards the distance.

All countries are paying attention here.

Finally learned that Wulei Mountain was blown up, and couldn't help but sigh.

"Beimeng Kingdom is ruthless!"

"I wonder how the Kingdom of Bimeng did it, and the Wuleishan base is not so weak."

"Can the air defense system not even defend against fighters?"

Just when there was a lot of discussion in various countries, a secret message came out——

The Beamon Kingdom fighters are equipped with "Hurricane Series" missiles.

One stone stirred up a thousand waves.

"What, equipped with a hurricane!"

"real or fake?"

"It's no wonder that the Kingdom of Bimon is so emboldened because it is equipped with a hurricane, which is powerful. With the hurricane, the Kingdom of Bimon has to be improved by a step and become one of the strongest kingdoms on the wild continent."

...

Guna River, pavilion on the bridge.

When Williamson got the information, his face was gloomy, and he said coldly: "Mengchuan, you can do it, you actually got the hurricane!"

Mengchuan smiled.

This news was quietly sent by King Beamon.

In the Chamber, they discussed and took this opportunity to attack the Thunder Kingdom, and at the same time announced that they were equipped with the "Hurricane Series" to shock the nations.

Now it seems that the effect is very good.

"The Hurricane series is nothing more than nothing. Compared with your ace missiles, it's nothing like that."

Meng Chuan said mockingly.

Williamston's face was deep.

Although the "Peace Defender Series" was transported to the wild continent, it only served as a deterrent.

If it is used, there will be a chain reaction.

At that time, Daxiaguo will bring in "Dongfeng Express", and Daxiongguo will bring in "White Poplar Series"...

Evolve to the end, directly lose nuclear buns? !

Chapter 480: Williamston's considerations

"All the hurricanes are used. It seems that you are determined to catch Lucifer!" Williamston said.

"Infiltrating the capital of our country and murdering important people is a serious crime. If Lucifer is not caught, our country's face will not be saved!"

What Meng Chuan said was very firm, and made your Williamston look very unsightly.

For a moment, Williamston said: "It's not that easy to catch Lucifer, or all you get is a corpse."

"Are you willing? It's not easy to cultivate an SSS-level super evildoer." Meng Chuan said with a smile.

"In fact, you can understand our superpower organization, there are many SSS-level super power evildoers, and Lucifer is not top-notch."

Williamston turned around and snorted coldly: "Mengchuan, I remember this time. The Zixia Mountain Range will be let to you, but next time, you will not be so lucky!"

Meng Chuan's eyelids twitched.

Give up the Zixia Mountains?

This is something he didn't expect. How generous is William Sutton?

Not long.

On the other side of the Guna River.

The sky is roaring.

The Eagle Nation War Department began to retreat.

"Really withdrawn?"

Mengchuan was uncertain.

In the same way, the nations are in turmoil.

"Williamston withdrew troops. Is it because of the hurricane. Is the hurricane really so strong? Couldn't it be intercepted by the Eagle Nation War Department?"

"The hurricane is strong, that's for sure. The hurricane is a simplified version of the "Dongfeng Express" series of Daxia Country, and the "Dongfeng Express" Eagle Country cannot intercept it."

"No, Eagle Nation can intercept the hurricane series, but it is very troublesome, or the success rate is not very high. That's why it withdrew its troops."

War Departments of various countries are discussing, and intelligence has been hotspots of public opinion.

Among the retreating Eagle Nation soldiers, in an ultra-luxury military armored vehicle, Williamson closed his eyes in a recliner.

The general next to him asked: "Military owner, why did you withdraw your troops? A hurricane in a mere hurricane, why you are afraid of it. We can intercept it completely. The success rate is 99%, which is enough."

"The hurricane is not a problem, nor is the Kingdom of Beamon. The biggest problem lies in the mysterious arms organization."

Williamston's words shocked a group of generals in the car and understood something.

"That mysterious munitions organization is very strong. It has been fought several times in the non-continental and our war headquarters, and we have not obtained any benefits."

"The arms organization sold the hurricane to the Kingdom of Beamon, indicating that cooperation has been reached. If there is a war, that organization may also participate in the war, which is not good for us."

"even....."

"High-level leaders guessed that the mysterious organization was probably cultivated by Daxia in secret, otherwise it would be impossible to get the mystery of the Dongfeng series and design the Hurricane series."

"Although this is just a guess, as long as there is the slightest possibility, we can't be sloppy. If the Kingdom of Beimeng, the mysterious arms organization, and the Great Xia United are together, it will be a behemoth that we can't eat."

"For the time being, let the Thunder Kingdom and the Beamon Kingdom fight, you can secretly transport a batch of sophisticated equipment to the Thunder Kingdom, on the one hand as a comfort, on the other hand to support them in the war."

"Beacon fires have always existed in the Wild Continent, but it's just a small fight. I hope that the Thunder and Beamon will be the fuse to completely detonate the war on the entire continent."

"To seek profit in war is what our country is best at doing."

Many generals secretly admired.

Williamson deserves to be the commander of the army, and he considered so much in the short minutes on the Guna River Bridge.

"Military owner, Da Xia's development momentum is too strong, I think we must rub Da Xia's vigor and hit hard. We are not afraid of Da Xia at all, so why repeatedly give in."

"not the right time yet."

Williamston shook his head and said in a condensed voice: "Collision with Daxia, injuring one thousand and eight hundred. We need to wait for the research on the supernatural organization to fully mature. As long as we have a thorough grasp of the genetic code technology, then we have mastered it. The destiny of mankind is the top priority."

"This dream is not far away."

"Gene cutting technology has made breakthroughs, and it will not be long before it matures. This can be a big killer on the battlefield."

"In addition, the research on brain genetic code locks is also steadily advancing. Once successful, we can build an army of supernatural powers without any scruples!"

Williamston said, his face flushed with excitement.

There was enthusiasm in his eyes.

Not only him, but many generals are also passionate.

The reason why we control the number of power users now is because we are worried that large-scale builds will be uncontrollable.

then.

A project called "Brain Gene Code Lock" came into being.

As long as you succeed, you can control the army of abilities.

The genetic code lock of the brain, as the name suggests, locks the brain, making it impossible to think independently, just like the corpse of a colleague, it will only obey orders.

"It is said that recently, some high-level factions proposed to cooperate with a weird organization in Daxia."

Williamston sat up, took a sip of red wine, and said nonchalantly.

A general asked: "What organization?"

"It looks like it's called, Corpse Man Organization!"

"This corpse human organization can create a living dead, without its own thoughts, but it can act and attack like normal people. This is exactly the state that the 'brain genetic code lock' wants to achieve."

"Therefore, by cooperating with the Zombie Organization, you can immediately start building an army of supernatural powers."

A general with a stern face, said: "If you are not of my race, your heart must be different."

Williamston nodded and said, "That's true, so some high-level officials disagree with this proposal. The Corpse Organization does not seem to want to cooperate with us. But it is undeniable that this is a way out, and there may be a big future in the future. use."

"By the way, the army owner, Lucifer really didn't save it?"

"Fend for yourself."

Williamson closed his words, lay down, and continued to sleep with his eyes closed.

...

Woo woo woo.

In the vast sky, a fighter jet fell rapidly.

It was a lightning eagle impressively.

After persisting for so long, this fighter was finally unable to carry it, all its performance collapsed, and it was helpless.

"Team leader!"

The two confidants shouted.

Lucifer gritted his teeth and said unwillingly: "Let's jump."

In the distance, Mundian saw Lucifer three parachuting, sneered, and left the cockpit.

"Staring at the three of them, once they land, immediately arrest them, don't hurt their names. Only those who are alive are valuable!"

After half an hour.

Lucifer finally landed.

At this time, hundreds of soldiers were waiting, waiting for the rest.

"Lucifer."

Mundian stepped out and said playfully, "Look, after all, I can't escape from my palm."

"If there is a good fighter, can you catch me?"

"There are so many ifs in the world."

Mundian shrugged and said, "Handcuff them and turn them into prison uniforms."

The so-called prison uniforms are designed specifically for abilities.

There is a mini-bomb inlaid on it. As long as the three of Lucifer have any changes, send them directly to see God!
