

## **Elegant SS 481**

Chapter 481: Go to war

"Bang~!"

The desk was photographed as a fan.

Lei Gaopeng and other princes, marshals, and senior officials were silent.

On the first seat.

Thunder King's face was gloomy, anger filled the entire conference room.

"big eater!"

"waste!"

"Didn't you say that you are guilty? Well, apologize for yourself!"

Thunder King scolded angrily.

Lei Gaopeng gritted his teeth and suddenly pulled out a knife.

Suddenly, the expressions of other princes, generals, and senior leaders changed drastically and stopped Lei Gaopeng and interceded for him.

"The king calms down his anger, this can't be blamed on the third prince, because the Kingdom of Bimen is too insidious. Who would have thought that it would suddenly attack the Wuleishan base."

"Yes, the third prince is also very sad."

"To blame Lucifer's trash and daring to sneak into the capital of the Kingdom of Bemun, isn't this looking for death? Our Wuleishan base was destroyed and suffered heavy losses."

A group of leaders was indignant.

At this moment, a piece of information came--

On the Guna River, the Eagle Nation War Department withdrew its troops, and Williamston gave up fighting for the Zixia Mountains.

boom!

The news made the conference room dead.

The Thunder King's face twitched, and he roared: "Asshole, Williamston is playing tricks on me!"

The princes and generals were also angry.

Originally, they had cooperated well. On the Guna River, Williamston had controlled Mengchuan, and their Thunder Kingdom was waiting for the opportunity.

Flip the front and back, how can the Kingdom of Bimen remain immortal!

it's good now.

The Eagle Nation War Department withdrew.

The Zixia Mountain Range was taken by the Bimeng Kingdom, so many resources are equivalent to hundreds of Wu Lei Mountain resource areas.

The Kingdom of Bemun has made a lot of money, and its national strength has greatly increased; plus the "Hurricane Series" missiles...

The Thunder King didn't dare to think further.

Just now he was preparing to assemble the army and prepare for war and go to war with the Kingdom of Bemun, but now this idea is extinguished.

"My lord, what should I do now?"

"What is it!"

Thunder King took a deep breath and calmed down.

"The Kingdom of Beamon will not fight us yet. Even if a full-scale war starts, they will not get any benefits."

"I thought it would be invincible with Hurricane series missiles? What a joke."

"If my guess is correct, although Williamston will withdraw, he will definitely support us in secret, and cooperation will continue. Soon, a batch of sophisticated equipment will be delivered."

The words fall here.

The Thunder King received the encrypted message, which was sent by Williamston.

After a glance, the Thunder King laughed: "I was right. Williamston has made arrangements. Within seven days, the first batch of advanced weapons will be delivered, including the 'Knight Series' missiles."

"what!"

Lei Gaopeng and others shook, and immediately rejoiced.

The hurricane series is simplified based on the "Dongfeng Express" of Daxia Country;

The Cavaliers are simplified based on the Eagle Country "Peace Defender", which is almost the same level as the Hurricane series.

"The first batch is not large, only a hundred, but it is enough, it has the effect of deterring the Kingdom of Bemun."

Thunder King was very satisfied.

"My lord, let's go to war!" At this time, Lei Gaopeng suggested, "Wuleishan base can't be destroyed just like that. If we don't go to war, the face of our country will not be preserved and it will become a big joke."

"Yes, I agree with the third prince's opinion, go to war!"

"There must be war!"

"Now that we have knights, we are not afraid of the Kingdom of Beamon. We can go to war, but we can't go to war in an all-round way. We only need to control a degree and get back the ground."

Everyone babbled and expressed their opinions.

The Thunder King pondered for a moment, then made a final word, and said sharply: "Okay, then publish the battle book to notify the entire continent."

"National mobilization, seven days to prepare for war."

"Lei Gaopeng, I order you to take charge of this military operation for the purpose of conquering the generals.

Lei Gaopeng clasped his fists and said confidently: "The king can rest assured that he will fulfill his mission and complete the mission."

Chapter 482: Kill Ye Fan with one look!

The Thunder Kingdom released the battle book smoothly.

Countries are alarmed.

The mainland undercurrent is raging.

The most unlucky thing is the tribes near the two countries, large and small tribes are accelerating their migration.

"Special code, fight an egg fight, it is us who suffer!"

"These bastards!"

"Don't be forced, follow the big army, maybe the battle will be on the verge of going, you can't get away even if you want to run."

From the point of view of satellite monitoring, hundreds of large and small teams are migrating, like long dragons, which are extremely spectacular.

Of course, this is for a powerful country.

For the people of these tribes, they are forced to leave their hometowns, they are forced to abandon their peaceful days, and they are wrapped up in a life of displacement. This is a great suffering.

But there is nothing to say about this. The Wild Continent is the weak and the strong; even the outside world, all kinds of biological chain systems on the entire earth, are like this.

The Kingdom of Bemun, the capital of the country.

Lucifer was escorted back.

Marshal's Mansion.

Seeing Lucifer, Ye Fan smiled and said, "We meet again."

Lucifer's face was deep, and his heart was very unwilling, very ashamed and angry, and he lost completely in the confrontation with Ye Fan.

Taking a deep breath, Lucifer said: "If you want to kill, you have to pluck it, listen carefully. Don't want to get any secrets from my mouth, this is wishful thinking."

"In addition, I know that you captured two supernaturalists, dug up the human bombs in them, and asked them to submit to you."

"Presently it's useless to me."

Ye Fan was surprised: "Really? There are other organs in your body? You should be. You are an SSS-level super monster, a high-level member of the ability organization, and you know too many secrets. It is impossible not to take special care of you in the organization. Maybe in the distant Eagle Country, you can control your life and death."

Lucifer said: "What you said is true. The lives and deaths of some supernatural beings are indeed controlled by the organization and can detonate human bombs at any time. However, I am an SSS-level super monster, and my dignity is not allowed to be controlled by others. life and death."

"Ye Fan, don't think about making me surrender, I want to commit suicide, you can't stop it."

"Either let me go, or a corpse."

"Do you figure it out by yourself?"

When the words fell, the majestic qi fell, knocking Lucifer into the air.

"puff!"

Lucifer spurted blood.

Ye Fan smiled and said: "As an SSS-level super evildoer, it should be a pity. Why should I kill you! Why don't I play with you?"

"Boom!"

With another punch, Lucifer was hit tens of meters in the air.

"boom!"

Falling down, smashed a big hole in the ground.

"what!"

Lucifer screamed.

His body is strong, but he can't handle such a blow, and he feels his bones are about to fall apart.

Emotions of resentment erupted violently.

Lucifer's eyes were red.

However, he was helpless. The prison uniform on his body had a mini-bomb. As long as Ye Fan pressed the button, he would be blown to pieces.

"Ye Fan, this world will eventually be notified by the Eagle Nation, and the ability organization will also destroy the Daxia Martial Dao and the Wild Refining Body Dao, and the ability holders are the masters of this world."

"The army of abilities can be created immediately!"

"Your physical body is strong, you can join our supernatural power organization, I can recommend you, the organization will vigorously train you, give you the best genetic medicine, so that you can transform into an SSS-level super monster."

"Ye Fan, this is the right way."

"Kill me, it doesn't make much sense to you, but will completely become a mortal enemy with the ability organization."

"Although I am an SSS-level super monster, I rank twenty in the organization, which is much better than me. The guys on the head have terrifying abilities. It is almost like being there, and one look can kill you!"

Chapter 483: The end of science is metaphysics?

"One look can kill me?" Ye Fan looked funny, but his heart was a little turbulent.

"good!"

Lucifer stood up, wiped the blood on the corners of his mouth, and solemnly said: "The guys who organize the head are the real strong. Compared with them, I am insignificant."

"You may not be able to defeat me. If you face those head evildoers, you can expect to be killed in a flash. Killing you with one eye is not a mere talk. If you see it with your own eyes, you will know what I said is true."

"The martial art has an end, the physical training road has an end, but the supernatural power has no end. As long as there are enough biopharmaceuticals, genes can continue to be strengthened and improved, and more power can be obtained."

"Chasing the gods! Comparable to the gods! Beyond the gods!"

"These are the three major steps of the organization."

"At present, the first step has begun to mature, and it won't be long before the strength of the supernatural player will rise to a big level."

"Now some abilities are very low-level, such as power abilities, their power is limited..."

"But soon, these power-type abilities will be greatly improved, and they will become Hercules in the true sense!"

"Furthermore, the abilities controlled by the abilities are still within the scope of comprehension; but soon, the abilities will completely become myths in people's imagination."

"In the ancient mythology of Daxia Kingdom, those magical spells of immortals are not impossible..."

"Fuck you code!"

Ye Fan kicked Lucifer into the air.

"You tell me a little bit about your sister!"

"ignorance!"

Lucifer laughed loudly, and said sarcastically: "Ye Fan, you are still strong because of you, but your vision is so short-sighted."

"Why is it impossible!"

"The end of science is metaphysics. In the future, those with supernatural powers will control supernatural powers and will awaken elemental abilities."

"You know, all things in the world are made up of elemental substances. Wind, rain, thunder and lightning, mountains, rivers and trees, everything in the final analysis is the condensation of elemental substances."

"Once the organized experiment is successful and the elemental abilities can be awakened, then why can't you worry about the wind and the rain, turning stones into gold and throwing beans into soldiers!"

Lucifer was crazy, his eyes were frantic, and even trembling with excitement.

"At that time, how bright the earth will be!"

"Our country is unified, and genetic modification will be promoted on a large scale. After a few decades, everyone will be like a god, and the earth will evolve from a technological civilization to a spiritual civilization."

"This is a groundbreaking feat!"

"And you, Daxia martial arts and barbaric physical training are hindering the progress of human civilization in every possible way. You are human sinners!"

"Ye Fan, join our organization, become a \*\*\*\* in the future, call the wind and rain, dominate the world, what a glorious glory it will be!"

The whole courtyard is quiet.

In addition to Ye Fan, Bai Zhan and others, Mengchuan, Mengli, Meng Han, Meng Yi, and Meng Fei were all there.

Seriously, everyone's hearts are choppy.

The end of science is metaphysics.

This sentence is too shocking.

"Papa."

With applause, Ye Fan smiled and said: "Lucifer, you are really a natural speaker. I admit that your words are exciting, and even I think they make sense."

"So Ye Fan, you agreed to join the organization."

"If you are not in my clan, their hearts must be different." Ye Fan shook his head and solemnly said: "For the time being, it is reasonable to think that the end of science is metaphysics, but the path taken is definitely not genetic modification."

"I always believe that everything depends on myself."

"Through years of arduous practice, to gain strong strength, this is the right way to comply with the rules."

"The so-called genetic modification, not to mention the sequelae, can be said that you can no longer be called humans, but just a tool. You are equivalent to guinea pigs. Even if you control the supernatural power, you will definitely be controlled, without your own. Soul and thought are like walking dead."

"God is fair. One step and one step to the sky will inevitably lay the roots of the bane. Your efforts, worthy of your rewards, and a clear conscience will enable you to gain a foothold in the world."

Ye Fan's voice was sonorous and powerful, and there was an aura of righteousness on his body.

Meng Chuan and others were shocked.

This breath is too noble to make people dare not blaspheme.

Stronger than Mengchuan, Menghan, and Mengli, they are also a little embarrassed and dare not look directly.

Lucifer's face changed.

Ye Fan's body was long and jade, his eyes were deep, and he said leisurely: "In addition, there is one point I need to correct."

"Whether there is an end to martial arts and physical training, it is not your turn to say."

"No one is sure if there is an end to this road."

Chapter 484: Suppress Lucifer

Do martial arts and physical training have an end?

If it were before, Ye Fan would feel that there was an end.

But ever since I met Ye Potian in the Abyss of Sin, and felt the power of Ye Potian, both his physical body and his realm seemed to have broken his limit.

Moreover, Ye Fan was given a way to find a stronger body refining method, which all showed that there was a mystery above the so-called "end point".

"Ye Fan, you are right."

Suddenly, Lucifer's face was solemn, and he told a great secret.

"There may indeed be some mysteries in martial arts and physical training. As far as I know, Daxia Kingdom has secretly explored this field for a long time, and the main force of exploration is the four great saints."

"Some of our organization is a strong head, and he once fought against the Dharma Sage, one of the four great saints of Daxia."

Ye Fan's heart moved.

Among the four great saints of Daxia, Dugu is the strongest.

"Fasheng has discovered something, and the road of martial arts has gone very far. Even the head evildoer of our organization is very praised."

"Thank you for telling me this, but it won't redeem your own life." Ye Fan asked with a grim face, "Let's talk about it, the problem of gene cutting reagents."

Lucifer laughed and said jokingly: "Ye Fan, in fact, your destiny has been decided, and that is death."

"Gene cutting reagents have no antidote at all, and the organization also regards this as a taboo. Only SSS-level super monsters and high-level organizations can contact."

"Once you are recruited, the gods can't be saved."

"Your physical fitness is strong, so you can hold on for a while, but you will die within three days."

"Ye Fan, it would be nice to have an evildoer like you buried with me, I have no regrets."

Bai Zhan angrily shot Lucifer flying.

However, at this moment Lucifer seemed to know that Ye Fan would not let him go, so he broke the jar, it didn't matter.

"Hit it, hit me to death."

"What I said is true, there is no cure, Ye Fan, you will die... By the way, there is another possibility."

Luo Hong used "claws of the sky", grabbed Lucifer, and asked: "Say it!"

"The principle of gene cutting reagents is to cut the gene chain and change the gene code, thereby causing fundamental damage to the human body; however, there is also a one in ten million chance that the accidental collision will not die, but will gain super powers. , Become extremely powerful!"

"So Ye Fan, you can bet on the chance of survival for one in ten million."

"asshole!"

Luo Hong shot Lucifer on the ground with a palm.

Lucifer was scarred, but laughed constantly, seeming to enjoy the pleasure.

"Boom!"

Luo Hong shot one after another.

In the blink of an eye, Lucifer was beaten to many fractures all over his body, dripping with blood, falling into a pool of blood, unable to laugh.

"okay."

Ye Fan stopped and said, "He is still worthwhile, but he can't die."

Bai Zhan also stunned Lucifer's two confidantes and tied them with chains.

"Marshal, how about leaving these three to me?"

"Can."

Meng Chuan nodded without thinking.

"Lucifer staying in our hands is also a hot potato. Surely you are leaving?"

"Yes, since Lucifer said there is no cure, then I have to survive on my own."

Ye Fan's face was extremely solemn.

With a probability of one in ten million, it is difficult to cover up winning the lottery.

But now Ye Fan has no other choice.

Meng Chuan said: "I hope you can survive this catastrophe. If you succeed, your achievements will be limitless in the future."

Clan Ling Menghan said: "If you succeed, you will get super powers. At that time, you will gather martial arts, physical training and super powers, three ways."

"hiss."

All the people present took a breath.

Meng Li said with emotion: "The three ways are gathered on the same person. I don't know where they will end up. I really want to see, Ye Fan, help you succeed!"

"Thank you all!"

Ye Fan gave a wry smile, he was not sure.

After half an hour.

The military airport outside the capital city.

Meng Chuan and others sent Ye Fan to board the plane and stood at the door. Ye Fan suddenly turned around and said, "Everyone, I lied to you about something."

"I know, you are not from the Great Xia War Department."

Mengchuan spoke.

Ye Fan was a little surprised, and Meng Chuan said again: "I changed to Daxia War Department yesterday for verification. Although Daxia did not say your identity, I think it must be extraordinary."

Meng Han said: "We Bimeng would like to call you this friend."

Ye Fan laughed.

Walking into the cabin door, a word came out: "Everyone, if you have the opportunity to welcome to the Hall of Heavenly Sovereign, the deity will treat you well!"

Temple of Heaven?

boom!

Suddenly, Meng Chuan and others shook, their faces were shocked, and their hearts were shocked.

Ye Fan comes from Tianzun Hall.

Moreover, with the title of "the deity", could it be said that Ye Fan is...

Lord of Tianzun Hall!

"call out!"

At that time, the fighter plane had already broken through the air.

Seeing the fighter planes gradually disappearing into the sky, Meng Chuan smiled and said: "Compared to the Great Xia War Department, our friendship with the Tianzun Temple is more worthy of joy."

"That's right." Meng Li said excitedly: "Daxia War Department represents a superpower and has many concerns. Even if we cooperate with us, it will not be fair. For example, the Eagle Nation War Department and the Thunder Kingdom are secretly cooperating."

"Tianzun Temple is different."

"This behemoth has no scruples and no fetters. As long as we form an alliance, we can fully support us."

Meng Chuan said: "It is too early to say that the alliance is formed. It is just to make friends, but it is enough. The poor Thunder Kingdom declares war like us. If we know that we have a relationship with the Tiansun Temple, I don't know what expression it will be."

Meng Han suggested: "Thunder Kingdom dares to declare war, and it will definitely get the excellent equipment provided by Williamston."

"There must be some Cavaliers series missiles, and maybe a batch of Lightning Eagle M23 fighters."

"We have a hurricane and don't have to be afraid of a knight. But in terms of fighters, we can't come up with the fighter against the Lightning Eagle M23. Only the Dongfeng A91 fighter from Daxia Country can compete with it."

"Do not!"

Meng Chuan spit out a word and said with a brilliant expression: "Except for the Dongfeng A91, the Thunder fighter in the Tiansun Palace can contend with it."

"Hahaha, use the Thunder fighter to fight the Thunder Kingdom. This is interesting. Let's go back. Tomorrow, Ye Fan will go to the Tiansun Hall. We will contact him to buy a batch of Thunder fighters."

Several people in Mengchuan happily returned to the city and went directly to the palace to report the good news to King Bimeng.

rear.

Meng Yi and Meng Fei were still in an incredible mood.

Ye Fan is the lord of Tiansun Hall?

That galloping wild continent... should be the pinnacle of the world! The master of the world's number one power!

"Brother Yi, my idol is Tianzun. I knew it earlier. He must sign me and take a photo."

Mengfei regrets it.

Meng Yi smiled and said: "What's the hurry, let's go to the Tianzun Hall to play after a while. You still need Tianzun to renew your veins."

...

The Wild Continent is huge, and it takes a day for fighters to fly at supersonic speed from the Kingdom of Bimen to the Temple of Heaven.

Ye Fan arrived at Tianzun Hall.

His condition is getting worse.

"You are dead, you want to survive and join our superpower organization. I will take you to the organization's headquarters and request the organization's high-level treatment. Although you can't be cured, you can live a few more years."

"To shut up!"

Luo Hong slapped Lucifer into the air.

"Cool!"

Lucifer grinned, staring at Luo Hong, and said coldly: "Beauty, it's best not to let me run away, otherwise I will catch you in the future and will insult you to death."

"You are looking for death!"

Bai Zhan was furious.

Luo Hong is his goddess, the object of his admiration, Lucifer's provocation, he can't bear it.

"Don't make trouble."

Ye Fan motioned to Bai Zhan to calm down.

"Boss!"

At this time, Min Dong, Taotie, and Ying Xiao rushed over.

"how so!"

Everyone was so sad and indignant that they all blushed.

"I will kill you!"

Min Dong roared wildly, enveloping Lucifer with murderous intent.

The gluttony and the 棋机 are even more fierce.

Lucifer was shocked when he saw so many powerful men, he didn't even know that Ye Fan was the lord of Tianzun Palace.

Ye Fan glanced coldly at Lucifer, his two confidantes, and Puden and Lena who were the first to be caught.

"These five guys have research value, don't do it."

"All of them are detained in the dungeon, guarded strictly, guarded 24 hours a day, there can be no mistakes."

"By the way, there are human bombs in these three bodies, which can be detonated at any time. Be careful. Detain them into an explosion-proof chamber."

After the five Lucifer sent away, Ye Fan was a little unable to hold it, his body was extremely weak, cold sweat was like rain.

Come to the highest level of Tianzun Hall.

Tianzun Hall.

This is Ye Fan's residence.

"Has Tong Di come?"

Ye Fan asked.

Tong Di, the leader of the "Black Feather Alliance", the world's number one hacker organization, had previously been in Changning City, Daxia, where Ye Fan was called to study Hongmeng chips, and he has been conquering this problem.

Now summoned by Ye Fan.

Chapter 485: All world-class organizations come together!

"There was news from Emperor Tong just now, and he will arrive in the evening." Min Dong replied.

Ye Fan asked again: "Where are the others?"

Min Dongdao: "They are all on the road, boss, don't worry, there are many heads of major organizations, who dares not follow the order of heaven!"

"I need treasure medicine, Yang attribute, the more precious the better."

After speaking, Ye Fan fell asleep.

"Boss!"

Everyone was shocked.

Luo Hong stayed beside Ye Fan and took good care of him.

Everyone else is in action.

To be precise, the entire Tianzun Temple is operating.

All over the world, branches in various cities are operating, looking for the purchase of yang-attribute medicines.

How powerful is the power of Tianzun Hall.

Countless treasure medicines gathered.

The leaders such as Min Dong and Bai Zhan were not idle either.

In terms of resources, the outside world is not comparable to the vast savage continent. The major tribes and kingdoms that have survived for countless years on this continent have a rich heritage, and there must be a storage of treasures.

Therefore, Min Dong and the others came forward in person and contacted the major kingdoms and tribes.

This evening.

The first batch of treasure medicine has arrived.

Each one is auctioned outside, and the value is tens of millions.

However, this kind of treasure medicine worth tens of millions of dollars was abandoned by Min Dong, Bai Zhan, and others. They were sifting and selecting the best to supply Ye Fan.

Seven o'clock in the evening.

Tong Di arrived with his team.

"How is Boss Ye?"

"Still in a coma."

Tong Di came to Tianzun Hall and looked at Ye Fan. Since he was not a doctor, he couldn't do anything.

"As for the gene cutting reagent, it shouldn't be too late. Let's study and crack it now." Tong Di's face was solemn.

Min Dong took the Tong Di team to the core science and technology research chamber of the Tianzun Hall, and said: "There are reagents on the table, but you can relax and don't mess around. Soon, the heads of major organizations will arrive and study together."

"learn."

Tongdi does not believe that he can crack the gene cutting reagents by himself.

You know, this is the product of the Eagle Country's Ability Organization, and represents the current highest technological means.

Time passed by every minute and every second.

It's eight o'clock.

A steady stream of precious medicines were delivered, and Chaos, Gourmet, and Pang Tiao rushed to choose them.

at the same time.

At the airport to which Tianzun Temple belongs, fighters arrive from time to time.

Every fighter that gets down is a world-class giant, an absolute big man.

"Report!"

A subordinate came to Tianzuntang to report.

"General Manager, the controller of Yuanzi Group and the team has arrived!"

Everyone was overjoyed.

Yuanzi Group is the world's super biological research group, and its biological research results can be ranked among the top five in the world.

"Save!"

"The controller of the Kaitian Group and the team arrived."

It is also a super group, a leader in the field of scientific and technological biochemical research. The group is strong, with 100,000 soldiers, and it is the top superpower in the world.

"Report!"

"The head of the Vulcan organization, the team has arrived!"

This organization is unpredictable, and not many people know it. Only the top leaders in the world know and deeply understand the horror of this organization.

Externally, the Vulcan organization has shown strong enough combat power to suppress countless wars and turmoil in the non-mainland.

However, what I don't know is that the core of the Vulcan organization is the study of human anthropology, and it has achieved sufficient results. It is supported by many countries in the European continent, and most of its organization members hold important positions in the biological field of European countries.

This time, in response to the call of the "Tian Zun Order," Vulcan secretly summoned members of the organization to quietly come to support.

"The brain organization is here!"

"The new club is here!"

"Superstar Group is here!"

"..."

Every organization, trade union, or group is a world-class existence, and stomping one's feet can set off storms all over the world.

Usually, the masters of these big forces, even if they are invited by the monarch of a country, are not easy.

And now.

A Tianzun order.

They all get together! !

Chapter 486: Tell the funeral!

The members of the major organizations arrived, and the science and technology research chambers were full of people, each of whom was a super elite.

"Everyone, I trouble you, no matter whether you succeed or not, please do your best to crack the mystery of the gene cutting reagent."

"We must go all out!"

Everyone is very determined.

These people, or these organizations, groups, have more or less accepted the favor of Tianzun Temple and Ye Fan.

Take the Vulcan organization.

The reason for having such a powerful force is the help of the Tianzun Temple, and the boss of the Vulcan organization, Vulcan, has been instructed by Ye to teach martial arts and unique skills.

"Everyone, let's get started."

Vulcan shouted, he was very anxious, worried about Ye Fan's accident.

"good!"

Everyone is busy.

Min Dong withdrew from the secret room, he received news from Luo Hong that Ye Fan was awake.

Tianzun Hall.

Many core backbones are there.

Xing Tian also came from Daxia Capital.

At the same level as Xing Tian, Alexander, who was seated at the headquarters of the Eagle Kingdom Tianzun Hall, also came.

At the overseas teaching base, Michelle, known as the "devil leader", is also here!

Min Dong, Xing Tian, Alexander.

Bai Zhan, Luo Hong, Michelle.

Chaos, gluttonous, 棘机, or recovering some awkward odds from the injury.

One master and two halls, three kings and four evil spirits, the devil leader.

Except Jianglong, all are there.

"You are all here."

Ye Fan coughed a few times, and his whole body lost weight again. Michelle looked very distressed.

"Boss, Tong Di, Vulcan have all arrived, they are studying, and there must be results soon."

"You are holding on for a few days."

"We have searched for a lot of precious medicines, look, how about these?"

Ye Fan glanced around and said, "Not bad!"

"Boil it."

"My time is running out, no matter whether I succeed or not, I have to arrange something."

"Do not!"

Everyone is sad.

Michelle and Luo Hong both cried.

Ye Fan smiled and said, "What are you crying? Lao Tzu is not dead yet. When Lao Tzu is dead, you will have time to cry."

"Boss, your lucky person has a natural appearance, and you can definitely carry it."

"Who knows."

Ye Fan sat cross-legged, began to operate the breathing method, breathe in and adjust the breath.

For a moment, his face improved slightly, but he was still weak in speaking.

"Listen well."

"The Temple of Heavenly Sovereign is too big, it's a giant, it's not unreasonable to say that it's a small country."

"In the past few years, the Tianzun Temple has crossed the world, won countless glory, but also forged countless enemies."

"Once the news of my fall spreads out, the Tianzun Temple will probably be under siege. So, first point, if I die, I will not be mourned!"

Min Dong and others were silent with red eyes, gritted teeth.

Ye Fan continued: "I remember if I lost my mourning, including Tong Di and Vulcan who are studying in the secret room, I can't tell. People are unpredictable, so I have to guard against it!"

"I have fallen, the dragons in the Heavenly Sovereign Palace have no heads. This is not acceptable."

"All the time, I've almost thrown away my hands as the shopkeeper, and Lao Min takes care of all the internal affairs; therefore, if Lao Min is the lord, you should have no opinion, it is reasonable!"

"Boss."

Min Dong finally couldn't help it, and knelt down on one knee.

Boom boom boom!

Bai Zhan and others all knelt on one knee.

Inside the huge Tianzun Hall, there is a haze of sorrow.

"Lao Min, your realm is not enough, you must cultivate to the second peak of the transformation realm as soon as possible, and then go to the Northern Wilderness of Great Xia Country."

"Ye Potian told me that in a ruin in the Northern Wilderness, there is a super refining method, and you need to get the practice. When you have a little achievement, the martial art realm will enter the third stage of transformation. At this time, you can truly show the world Declare that you are the master of the Tianzun Hall!"

"Ahem."

Ye Fan coughed again, his breath languishing.

"what!"

Suddenly, Michelle exclaimed and shouted: "Boss, your hair, your hair..."

When everyone looked up, they discovered that Ye Fan's hair was all white at some point.

Hair is like snow.

Unspeakable weird.

"Destroying genes is really a vicious method. Killing from the root causes powerlessness."

Ye Fan smiled bitterly.

Although his hair turned white, fortunately his appearance was still young.

"Boss, stop talking."

Min Dong's tears couldn't stop streaming.

Ye Fan waved his hand and said, "In fact, I am not too worried about the Tianzun Temple. The one I can't let go of is my seven sisters."

"Boss, don't worry, your sister is our sister. They are the queens of the Tianzun Temple. We will protect them to the death and we will never let them suffer any harm."

Everyone swears, swears.

Ye Fan nodded and then sighed, "I wanted to go back and see my sisters, but now it seems that there is no time. Forget it, when there is always a difference, the tone will add sadness, it is better to simply."

Words fall.

Ye Fan stood up.

At this moment, he was like a white-haired god.

Even if he is extremely weak, he still gives people an invincible self-confidence, watching the world, I am going!

Chapter 487: Devil leader

The treasure medicine was cooked, and everyone backed out.

Ye Fan sat in the medicine barrel, and in an instant, a strong masculine energy attacked his whole body, and the endless medicinal power penetrated through the skin pores, bringing huge energy to the whole body.

However, these cannot restore the gene chain and gene diffusion.

At this moment.

Ye Fan was thinking, the medical skills in his mind were running fast, thinking, deducing, and seeking a cure.

Sudden.

There was a flash of light in his mind, and he couldn't help but use the "cultivation technique", and he found something strange.

This surprised Ye Fan extremely.

The cultivating technique is the effect of consolidating the essence and cultivating the primordial essence. The thaumaturgy obtained in Shiwan Dashan is very impressive.

Now it actually played a role.

"It's a lot worse."

Not long after, Ye Fan understood.

Pei Yuan Shu does have some restoration effects on the gene chain and genetic code, but it is a pity that it is very small; and Ye Fan has a deep understanding of Pei Yuan Shu in the Ministry of War, so he still can't save himself.

However, it is good to be able to recover a little.

"Wow."

The whole medicine barrel is boiling.

Ye Fan gritted his teeth and grunted, enduring the suffering.

His weak body gradually recovered some energy, but his hair was still white; his face was slightly rosy, with some blood.

The dungeon of Tianzun Temple is more than 100 meters long.

At the deepest point, Lucifer was being held.

Michelle came here alone, and said solemnly: "Open the prison door."

"this."

The guards are embarrassed.

"Master Mi, we can't open it without the commander's command. The SSS-level super monster inside is very dangerous, you still don't go in."

"I let you open it!"

Michelle stopped drinking, her beautiful eyes gleaming with strange light, making the guards dazed.

Afterwards, the guards opened the gate.

The one-meter-thick air-raid shelter door slowly opened, and Michel walked in; at this time, the guards were sober and found cold sweat like rain.

"How to do?"

"It's worthy of being the devil leader, who is born with the ability to fascinate."

"Report to the chief executive."

Michel did not control the actions of the guards.

The cell was very large, and Michelle saw Lucifer through the arrangement of a series of institutions.

"Who?"

Lucifer looked up suddenly, then his face froze.

"It's you!"

"it's me."

Michelle looked deep and motionless, looking at Lucifer calmly.

"What the \*\*\*\* is this place?"

"Tianzun Hall."

boom!

Lucifer was shocked, and then understood.

Everything figured out.

"Hahaha."

Lucifer suddenly laughed wildly, "It turns out that Ye Fan is the lord of the Tianzun Temple. It really surprised me. I killed the world-famous Tianzun. Even if I died, it was worth it."

Suddenly.

The laughter stopped abruptly.

Lucifer suddenly became crazy, and said angrily: "Michel, you betrayed the organization for Ye Fan?"

"why!"

"I didn't lose to Ye Fan, but Ye Fan lost when I fought with me. I was arrested entirely because of the Kingdom of Bimeng. I didn't lose to Ye Fan!"

"What if he is Tianzun? It's not that he can't save his life, and it's not certain that he will die!"

"For Ye Fan, you ignore me and even betray the organization, Michel, you are confused, it's not worth it!"

Michelle's eyes flickered, memories like flowing water.

Scenes from the past emerged before us.

She was born into a nobleman in the Eagle Country and was a proud princess; Lucifer was also like a noble prince.

Lucifer has been pursuing her.

later.

The ability organization chooses the "Awakened", and both of them are selected and stayed at the ability base.

The so-called "awakened person" is a type of celestial gene mutation, who should have mastered supernatural powers, but is hidden and is not awakened.

Once awakened, he will be referred to as the "Innate Ability Person".

In the ability base, there is a huge technology altar.

Every awakened person will stand on the altar of science and technology and begin the awakening ceremony.

That is an opportunity to change destiny.

Lucifer succeeded.

He reached the level of awakening, reached the SS rank, and directly became a noble innate superpower.

And Michelle failed.

Awakening is not 100% successful, there is a 5% failure rate, and Michelle happened to meet it.

Subsequently.

Michelle was labelled as an "adapter".

The awakened and the fit are completely different.

The fitter is completely used as a reserve talent to train people who build super fighters in the future.

In Michele's view, this is a completely manipulated tool.

Biological reagents changed the genetic code, which was unacceptable to Michelle, so she took out the ability base.

Therefore, she was hunted down.

That year, when she was besieged, Ye Fan passed by in despair and saved her life.

that moment.

Michelle will never forget.

White clothes are like snow, extraordinary heroism.

Raise your hands and feet to suppress everything, such as the emperor and god, dominate the world, the stalwart cannot be estimated.

Michelle's heart was also handed over to Ye Fan at that moment.

Later, she followed Ye Fan's footsteps, and finally moved Ye Fan and became his subordinate.

Although the awakening failed, Michelle still possesses some unusual abilities, such as pupil surgery!

Michelle's eyes are very strange.

Her eyes can confuse people, so she has the title of "devil leader".

"call!"

He breathed out deeply, and his thoughts returned.

Michelle looked at Lucifer with pity, and sneered: "Back then, you said that if you don't be a tool of those people, you still abandon your promise in the end."

"I do not have!"

"No? Huh, you were SS-level when you awakened, and now you are SSS-level. Didn't you use biological reagents to improve gene diffusion in exchange for strength?"

Lucifer gritted his teeth and said: "This is just an aid. As long as it is strong enough, it won't become a tool. Only those with low-level abilities are cannon fodder and tools. I am not!"

"Michel, although you failed to awaken at the beginning, I have asked the organization to try to give you a chance to re-awaken. At that time, the most advanced biological reagents will be used, and the awakening will be successful."

"You are confused, why did you want to escape from the base. Even if you are afraid, you run away, it's okay. At most, it's just a reprimand. After all, your family has the strength, and the high-level base will take special care of it."

"But!"

"Why did you steal confidential documents!"

Lucifer thought of something, her pupils contracted, and he said hoarsely: "Michel, for the sake of our relationship back then, listen to me, don't tell me the documents are handed over to the Temple of Heaven."

"As long as you take me away and hand over the files to the organization, I will definitely contact other SSS-level super monsters to intercede for you. You can return to the organization."

"Today is different. Now Tissue Gene Technology is much stronger than it was in the past. You can re-awaken and have a 100% success rate."

"Your original talent was much higher than mine. Once you awaken, you will be able to become the head of the organization, controlling supernatural powers, just like a god!"

"Xiaomi, listen to me."

Lucifer was panicked.

He was worried that Michelle would surrender the confidential document, because it was some of the research results of the base, and part of the secret of the genetic cutting was designed.

Michelle scrutinized Lucifer and said coldly: "The world's major biotech organizations have come to the Temple of Heaven. The Kaitian Group, the Vulcan Organization, the Black Feather Alliance... they gathered together to overcome the problems."

"I will send the files, and they must be able to achieve results. As long as the gene cutting technology is conquered, then the entire genetic modification program can be spied on, and the secrets of the supernatural organization will be released to the public."

"boom!"

Lucifer was furious.

"die!"

In the face of the lover he once pursued, Lucifer did not show mercy.

When the Kingdom of Beamon fought against Mengchuan, he didn't use the third super power.

Now, he is doing it.

This is Lucifer's biggest hole card, used to kill Michel.

"Lucifer!"

Michelle screamed, she didn't expect Lucifer to be in a badly injured state and still perform that kind of super power.

"Do you want to die! Your body can't hold it, it will collapse, and you will die."

"Let's die together."

Lucifer grinned and said: "Michel, you have been cold and indifferent to my pursuit back then, but I have been infatuated with you. For so many years, I have not forgotten you. Now, if I can die together, I will die. I'm sorry."

"madman!"

Michelle turned around and fled.

Lucifer's face was savage, his seven orifices were bleeding, and his body was trembling. Although he was about to collapse, he opened his mouth wide and shouted, "Gravity!"

Two words blasted loudly.

Michelle paused, her face changed drastically.

"Three times the gravity!"

"Four times the gravity!"

"Five times the gravity!"

Lucifer roared one after another, his skin cracked and blood gushing.

Michelle couldn't bear it, being pulled by an invisible force, she pressed \*\*\*\* the ground, bleeding from her mouth and nose.

Chapter 488: Chip hidden in the chest

"what!"

Michelle screamed.

Lucifer also suffered "five times the gravity", he was seriously injured, and now more miserable than Michel.

His bones were more fragmented, his internal organs were beginning to break, his skin exploded, blood spurted, and he was totally unrecognizable.

However, Lucifer laughed grimly: "Michel, my heart for you has not changed. In the past few years, I have been searching for you secretly, but I have found nothing. I didn't expect to see you here, but what makes me angry is, You actually surrender to Ye Fan and become another man's maid!"

"The woman I love so much that I can't help but is actually someone else's maid subordinate!"

"Ahhhhhhhhhhhhhh!"

Lucifer was furious, and the flames of jealousy were burning.

He couldn't bear it.

"Six times the gravity!"

"puff!"

Michelle spurted blood, convulsed all over, spit out beautiful eyes.

Six times the gravity, it sounds nothing, some people even think that it is equivalent to carrying a heavy object of dozens of hundreds of catties, as for vomiting blood!

not like this.

Carrying a hundred catties of heavy objects will act on the muscles and bones.

And gravity acts on the whole body.

Everything in the world is under gravity. For the human body, the internal organs are also pulled by gravity.

Originally, the human body reached a balance, and the internal organs were familiar with the original gravity; suddenly it exploded to six times the gravity...

This is equivalent to suddenly tying a big stone to your organs, will your heart, liver, spleen, lungs and kidney suffer?

If it wasn't for Michelle to be a strong man, he could still insist, instead of ordinary people's internal organs would have been exploded long ago, and he would have died.

"Xiaomi, I'm sorry for making you suffer so much. Six times the gravity is my limit, but in order to make you less painful, I am willing to pay the price of my life, display seven times the gravity, let's die together, and be lovers in the next life. ."

There was love and compassion in Lucifer's eyes.

then.

He shouted: "Seven times the gravity!"

boom!

A burst of anger came to kill, mixed with an angry roar: "Lucifer, you are dying!"

puff!

Lucifer was beaten into the air.

Gravity returned to normal, and blood was gushing in Michel's mouth.

"not good!"

Min Dong's face changed drastically, "Gravity pulled Mi's internal organs and damaged multiple organs. Lucifer, you're so damned!"

At this moment, Michelle grabbed Min Dong suddenly and said intermittently: "Old Min, all my internal organs are damaged, cough cough...I'm going to die."

Michelle coughed up a stream of blood.

Min Dong's eyes are splitting.

If something happened to Ye Fan, would something happen to Xiaomi too?

"Xiaomi, stop talking, it's just damage to the internal organs. It's not a big deal. I'll take you to the boss."

"do not want."

Michelle clutched Min Dong's collar tightly, shook his head and said, "The boss is too bad, and he can't bother to help me."

"Millet....."

"Listen to me." Michelle spoke hard and pointed to his chest. "After I died, I cut my chest open. There was a chip in it. I hid it for several years."

"That was brought out by me from the supernatural organization. The chip is a confidential document that involves gene cutting technology. I will show it to Tong Di and the others for research. I must crack it as soon as possible and treat the boss."

"Xiaomi, you..."

"I know what you are asking, I'm... it's too late, I'll make a long story short... I was selected by the ability organization, and then I escaped from the ability base... I am very loyal to the Tiansun Temple... After I die, Please take care of my people in the Tiansun Temple...I haven't been back in the past few years, and I don't know how my parents and relatives are doing...cough cough..."

"Millet!"

Min Dong roared sadly.

Seeing Michelle gradually closing his eyes, Lucifer seemed to have lost the last trace of obsession. There was a faint smile on the corner of his mouth, his whole face was dark, and the breath of life quickly passed away.

Chapter 489: Turnaround

"Millet!"

Min Dong saw Michelle in a coma, and his heart was upset.

At this moment, a few golden needles came and landed on Michel; Ye Fan wandered over and used the "Three Points of Hell".

"Boss."

Min Dong was extremely pleasantly surprised.

Afterwards, Bai Zhan, Luo Hong, Chaos and others all came.

Ye Fan uses the cultivating technique, which is a thaumaturgy that nourishes the internal organs and consolidates the essence, and has the most significant effect on internal organ damage.

A quarter of an hour later, Michelle's injury was stabilized.

Subsequently, Ye Fan began to treat Lucifer.

In a short while, Lucifer was also out of danger.

Both of them slowly regained consciousness.

"Where is this, hell, why are you all here... Boss, why are you also here? Are you also..."

"What are you thinking about?"

Ye Fan scolded and said comfortingly: "It's okay, you can rest for a while."

"Boss, your body..."

"It's okay."

Ye Fan is in a good state now.

Lucifer's head returned to clarity, and seeing Ye Fan's state, he exclaimed in disbelief: "Impossible!"

"Ye Fan, why are you still alive? You shouldn't. At this time, you should be dying, languid, dying, and your life will be on the sidelines!"

"I'm disappointed." Ye Fan sneered: "I have mastered a medical thaumaturgy. Although I can't crack the gene cut, there is a slight recovery effect, which is enough for me to hold on for a few more days."

At this moment, Lucifer's face was gloomy as stagnant.

Before, even if Michelle gave the confidential documents to the Tiansun Temple for research, there was no time, and Ye Fan would die.

But now Ye Fan can still hold on for a few days, doesn't it mean that he can wait until the "gene cutting technology" is cracked, and get treatment.

Damn it!

how so.

Lucifer's eyes were bloodshot.

In the end, he still lost completely; even his beloved woman Michelle lost to Ye Fan.

"Don't think about detonating a human bomb."

Seeing Lucifer's emotional fluctuations, Ye Fan issued a cold warning.

"I saved you just now and learned about the working procedures of the so-called human bomb."

"Whether the bomb is detonated or not is linked to cardiac pacing."

"As long as the heart does not beat within 30 seconds, the chip program on the bomb will receive feedback and will directly detonate the bomb."

"Or, if your heart bursts, the bomb does not need to wait thirty seconds, it will detonate instantly. The blood reversal ability allows you to easily use the blood impact to squeeze your heart and detonate the bomb."

"It's a pity that it doesn't work anymore, because the chip on the bomb has been destroyed by my golden needle. It is already a dead bullet."

Ye Fan didn't say a word, and Lucifer's face was gloomy.

In the end, he screamed frantically.

"Just stay here. When the gene cutting technology is cracked, the Tianzun Temple will also carry out genetic engineering. You are very valuable."

"Hahaha, Ye Fan, you keep saying that genetic modification is a crooked way, but don't you want to go this way now?"

Ye Fan was condescending, examining this Lucifer, and said word by word:

"I never thought about taking the path of genetic modification. Martial arts and physical training are my pursuits."

"but!"

"Without a sword in your hand, and not having a sword in your hand are two different things."

"Genetic modification project, Tianzun Palace will definitely study, know yourself and the enemy, in the future, the Eagle Nation will launch a war of supernatural powers, and it will be able to calmly deal with it."

"let's go!"

Ye Fan turned around and strode away.

Rumbling.

The heavy bulletproof door slowly closed, Lucifer roared hysterically: "No!"

"Come back! Come back!"

"Michelle!"

"You betrayed the organization, betrayed the country, you are a sinner through the ages! You will surely be nailed to the pillar of shame!"

"All of your clan will perish because of you!"

Chapter 490: Project start

"Take a good rest."

Ye Fan arranged Michelle in Tianzun Hall.

Seeing Michelle's depression, Ye Fan sighed: "Are you troubled by Lucifer's words? Feeling guilty?"

"Boss, I..."

"Human nature, this is what it should be."

Ye Fan patted Michel's hand and comforted: "The Temple of Heaven is inclusive of all things, and Alexander and Chaos are not from the Great Xia Country. Is it treason to do things for the Temple of Heaven?"

"Furthermore, the chip you gave is the secret of the ability organization, and has nothing to do with Eagle Country. These are two concepts."

"It's like Daxia's martial arts world. This is a completely independent world. To teach the martial arts of the martial arts world to others, is this betraying Daxia?"

Michelle felt a little better.

Ye Fan continued: "Don't feel guilty, you don't feel sorry for anyone, you are just doing your own thing. I will arrange inquiries for your people and take care of them when necessary."

"You take care of your wounds, and you don't need to think about other things."

"Um."

Michelle fell asleep.

Ye Fan prepared some medicine and ordered the maid to wait for Michelle to wake up and give it to her.

Study the secret room.

The elites are in full swing.

Everyone is very excited.

The chips provided by Michelle contained big secrets and ignited the desire for exploration of these tech mad people.

"I have to say that the Eagle Country Supernatural Organization is really a genius, and it can actually research this kind of technical means."

"This genetic engineering is so vast, this is a feat that changes humanity."

"It can be said to be a breakthrough!"

Many people admire it.

Of course, some people have objections.

"Forced reform, there will be sequelae, but there is no outbreak yet."

"I am definitely a crooked way. It can no longer be called a human being. It has become a tool for transformation."

"People are neither ghosts nor ghosts."

"I still firmly believe that Daxia martial arts and barbaric physical training, through the power of self-cultivation, are stable and reliable."

Organized leaders coldly hum: "The vision is too narrow. People are called humans because they are good at making use of everything they can use. Genetic modification is a tool and a tool that serves people."

Another expert echoed: "Yes, the results of the development of human biology are not used to serve people, so what are you doing?"

"As for the sequelae, who dares to say that martial arts and physical training do not have sequelae? No one can be sure. They are crossing the river by feeling the stones. No one is right or wrong!"

"..."

The research chamber is divided into three factions.

One faction insists that martial arts and physical training are the right way; the other is to support genetic modification projects.

In the end, it is naturally neutral.

"What's the noise?"

A cold drink echoed in the secret room.

"Tianzun!"

Everyone was quiet when Ye Fan arrived.

Vulcan said: "Tianzun, you seem to be in a good state, you deserve to be Tianzun, you can last for so long."

"Stop flattering, how is your research?"

"I'll make a report."

Tong Di raised his hand and continued: "There are indeed many big secrets in the chip, which are of great help to our research. It is now certain that we can crack the gene cutting technology."

"What about the time?"

"Well, it will take about half a month."

Luo Hong wrinkled beautifully and shook his head: "Half a month is too long, within three days!"

Everyone smiled bitterly.

Tong Di said: "My beautiful sister, this is the result of decades of research done by the national strength of Eagle Country; if we hadn't obtained the secret chip, we would have to crack it for decades. Now it is shortened to half a month, really Very, very fast."

Luo Hong wanted to say something, Ye Fan waved his hand.

"For half a month, I can wait."

"Then apart from gene cutting technology, can the secrets of the entire genetic modification project be peeked out?"

Yang Kaitian, the controller of the Kaitian Group, said excitedly: "Tianzun, there are results. This chip has directly improved the research progress by 20 to 30 years. I want to set up a genetic engineering research group in the name of Tianzun Temple. I am willing to gather the power of the whole group. , Participate in research."

Yang Kaitian is one of the leaders supporting genetic modification projects.

Then, the New Superstar Group also stated that it agreed with Yang Kaitian's proposal.

The new ball organization also agreed.

Seeing everyone's comments, Ye Fan said: "This project must be carried out. I deliberately admit that Fire God, Tong Di and Yang Kaitian are the three major organizations."

Everyone has no opinion.

Because Yang Kaitian supports genetic modification projects;

Vulcan is firm in martial arts and physical training.

Tong Di is a neutral faction.

The three representatives of the three factions are the team leaders, and they restrict and supervise each other. This is the best result.

"The big mountain behind the Tiansun Temple is called Tiansun Mountain by me. It is hollowed out. I will let Mindong leave the arrangement, arrange it, and use it as a research institute."

"You can come over with all the power under your command, and you can win it completely."

"You have so many scientific and technological genes, enough to be comparable to the head of the Eagle Nation Ability Organization, we will have a genetic research competition. Presumably, we will not lose to the Eagle Nation Ability Organization."

"All the resources needed are provided by my Tiansun Hall."

"In addition, I have to remind you, don't have any thoughts, tell me if you have an idea, make small actions secretly, don't blame the deity for being polite!"

Everyone clasped their fists together and shouted: "Observe the order!"

"Boss."

Bai Zhan came from outside and said, "The nine princesses of the Kingdom of Bimeng have come with a team of scientific and technological talents."

"Oh?"

Ye Fan is slightly different.

He asked Min Dong to prepare for Tianzun Mountain's work and came to the reception hall by himself.

"See Tianzun!"

The nine princesses were neither overbearing nor overbearing, and were shocked afterwards. Before seeing Ye Fan in the country, they felt that they were just Meng Yi's bodyguard.

Having said that, Meng Yi can make Ye Fan a bodyguard, which is worth it.

"The nine princesses are coming here, what's the so-called?" Ye Fan asked with a smile, he was very optimistic about the nine princesses.

Heroic, brave and courageous.

In the face of him, he did not flinch, and he was very generous; in the future, he would definitely be the important leadership of the Kingdom of Bimen.

"Tianzun, I have two things here."

"Tell me."

"First, I want to buy a batch of Thunder fighters."

Ye Fan twitched his mouth and said with a smile: "You're really welcome, there are not many Thunder fighters even in the Palace of Heavenly Sovereign."

The nine princesses said: "Beimeng Kingdom and the Thunder Kingdom are at war. The Thunder Kingdom is supported by the Eagle Nation War Department. It must be equipped with the 'Knight Series' missiles and the Lightning Eagle M23 fighter."

"The only ones that can contend with the Lightning Eagle M23 are the Dongfeng A91 from the Great Xia Kingdom and the Thunder fighter from the Temple of Heaven."

"We can't get Dongfeng A91, so we can only come and ask for the Heavenly Sovereign. The king said that we can share some of the resources of the Zixia Mountain Range with the Heavenly Sovereign Hall."

Ye Fan thoughtfully.

The resources of the Zixia Mountains are also sweet steamed buns.

"I provide a hundred Thunder fighters. Correspondingly, I need half of the Zixia Mountains."

"Half seat?"

The nine princesses were surprised.

But if you think about it carefully, a hundred Thunder fighters are extremely precious, and the price is immeasurable.

"Okay, you can agree."

"readily!"

Ye Fan nodded and asked, "What about the second thing?"

The nine princesses pointed to the people who had brought them, and said, "These are our country's scientific and technological elites. I want to participate in genetic engineering research with Tianzun Temple."

"This is no problem. The more scientific and technological elites, the better. However, there are some secret clauses and agreements need to be signed. In addition, the research results cannot be brought back to the Kingdom of Bemun. If you want it, you will have to buy it in the future; I will give you a huge discount to the Kingdom of Bemun."

"I have to ask the king about this."

"Please."

The nine princesses left.

After a while, she returned and said: "The king said that the Kingdom of Beamon is willing to advance and retreat with the Tianzun Palace, and the research results hope to share."

Ye Fan said: "Let these elites participate in the research first. As for the distribution of results in the future, I will talk about it when the time comes."

"no problem."

"Sign an agreement and the province will create contradictions."

Ye Fan asked Luo Hong to take the nine princesses to sign the agreement.

Cooperation is very pleasant.

After solving this matter, Ye Fan wondered if he should go back to Daxia...
