Chapter 741: News from Ye Linger

"Yanan, look at this?"

"It's useless." Cai Yanan shook her head and sighed: "It's too strong. The existence of giants is not something we laymen can resist."

"Cai Zhenye and the others are taking the blame."

"Master Ye didn't directly kill him. He was already merciful. He took four areas and must be thrown into the deep mountains and old forests to give them some punishment."

"That's good, rub their sharp edges, so as not to bring disaster to the Cai family."

Cai Yanan didn't know that the Cai family was already facing a huge disaster, but whether she knew it or not, she couldn't stop it.

Ye Fan grabbed the four major areas, and indeed threw them into a mountain range on the outskirts of Yongchuan.

Then drove the beast to attack.

Life or death depends entirely on their good fortune.

Early the next morning.

Some celebrities who came to visit the old man in Cai's house were dumbfounded. This is the Cai's...

???

What's up!

Why are there only four central courtyards left in the huge Cai's house? It looks like it's been uprooted, what's the matter!

Cai Yanan and others said nothing about this.

At nine o'clock in the morning of the day, the Lu family held a press conference, claiming to fight against the Cai family, with sharp and aggressive speech, which caught Cai Yanan by surprise.

That's it!

The Cai family is over.

Cai Yanan realized that Ye Fan was going to bring down the Cai family through the Lu family, which was a blow and a humiliation.

"Cai Zhenye, he is a sinner in the Cai family, and his death is not a pity."

"Yanan, you can't sit and wait for death. Go to Lu's house and find Master Ye, and beg him to let us go to Cai's house."

"Cai Zhenye can't represent the Cai family. Cai Zhenye's fault shouldn't be the responsibility of the entire Cai family."

"Yes, Yanan, go quickly."

Cai Yanan hurried to Lu's house, but was turned away by Lu Kaifeng, and did not see Ye Fan.

When she returned home, Ye Fan fell from the sky.

"Puff."

Cai Yanan immediately knelt down with awe, and said, "The villain has seen the grandmaster!"

For Cai Yanan, Ye Fan was not hostile.

He said coldly: "If there is a cause, there will be an effect. This is the effect your Cai family needs to bear. What are your complaints?"

Cai Yanan's body trembled.

Since Ye Fan said that, he would definitely not take it back.

Whether it can survive this catastrophe depends on the good fortune of the Cai family.

Cai Yanan sighed deeply.

"Sir, our Cai family is willing to be punished."

"Okay." Ye Fan nodded, "I'm here to ask something, do you know Ye Ling'er?"

"Ye Ling'er, I heard my father mention it, but I don't know it."

"Go and see the old man."

If Ye Fan wanted to come, he had to wake up the old man and ask him.

Compared to last night, the face of the old man was much better, and Ye Fan used his "Pushing Dragon Hand" again, which lasted for half an hour.

Finally, Mr. Cai trembled and opened his eyes leisurely.

"Am I in hell?"

"Father!"

Cai Yanan threw herself at the window, tears in her eyes.

"Yanan?!" The old man was startled, and then smiled bitterly: "It seems that I am not dead yet. I didn't expect my life to be so hard."

"Father, Master Ye saved you."

"Oh?"

The old man looked at Ye Fan, first was stunned by Ye Fan's peculiar appearance, and then he saw Ye Fan's extraordinary appearance, and his face became solemn.

"Thank you, Mr. Ye, for helping me. The old man is grateful."

"I won't say anything extra. You are the Patriarch of the Cai family. My aunt said you are her friend. I'm here to find Ling'er."

"Your aunt?"

Elder Cai shocked and lost his voice: "Is Jiang Ying your aunt?"

"Yes."

"You are from Ye..." The old man's voice stopped abruptly and did not continue.

Only his face became respectful.

"Little friend, you are here at the right time, you have to save Ling'er as soon as possible."

"what happened!"

"Seven days ago, I received a distress signal from Ling'er and arranged for someone to check it out. Ling'er was taken away by a middle-aged woman, who also injured many of my people; and threatened to go to one hundred thousand mountains to pass the valley if she refused to accept it. Find her."

"Hundreds of thousands of mountains lead to valleys." Ye Fan muttered silently, seeming to be a sect.

Elder Cai said: "What I said is absolutely true and absolutely nothing false. It was because Ling'er was taken away, I became anxious, and my body deteriorated rapidly. However, I could not contact Jiang Ying, and my daughter Yanan was in a low state. There is no way to go to the rescue through the valley."

"I see."

Ye Fan motioned to his father to rest well, and then left Cai's house.

Cai Yanan told the old man what had happened.

After listening, the old man sighed: "Nicky barrier, it's really an evil barrier!"

"Father, since you and Aunt Ye Daren are good friends, if you ask for mercy, you should be able to save the Cai family from disaster."

"no need."

The old man shook his head and smiled bitterly: "The Cai family is destined to bear this blow. Even if I intercede, Ye Fan spares the Cai family. Those **** in Zhenye will still cause trouble in the future."

"Let the Cai family experience the baptism of blood and fire as soon as possible. It may be considered a good thing for the people in Zhenye to experience hardship."

Cai Yanan was thoughtful and felt that what the old man said was not unreasonable.

This is the disaster of the Cai family, and it can also be an opportunity for the Cai family to be reborn from the ashes.

...

Ye Fan did not delay.

Contact Su Muyu and say that there is something outside, and will not return to Xingyue Palace for the time being.

He directly killed one hundred thousand mountains.

Tongyougu, I haven't heard of this, I don't know where.

Ye Fan only knew about the Brahmins and the corpse chaser and corpse refiner in the hundred thousand mountains.

"Go to Qianjia Miao Village first."

Ye Fan decided to pay attention.

The last time I went to Miaojiang with Chinese medicine and the three major Chinese medicine families to find the path of medicine and inherit the Dongfu, there was a mother-in-law who led the way.

That mother-in-law is also a strong person, unfathomable, and very familiar with Miaojiang and Shiwan Dashan, and she should know where Tongyou Valley is.

"The mother-in-law should be in Miaojiang."

At that time, the mother-in-law told the story of "the king of corpses and a human woman fell in love", and the heroine was herself; Ye Fan said that she could save the king of corpses, so she promised to be the guardian of Ye Fan, and later went to Youzhou Xiangxi generation and said yes To solve the corpse family.

There has been no news.

afternoon.

Ye Fan arrived at Qianjia Miao Village and inquired about it. Fortunately, his mother-in-law was in the village.

After a while, Ye Fan saw her mother-in-law.

"Grandma."

"Huh?" Grandma was startled, "Are you Ye Fan?"

"Yes, it's me."

"The change is so great, the aura is strong, your current strength, I am afraid that I am not your opponent." Grandma exclaimed.

"Grandma, are you hurt?"

"I can't die." The mother-in-law said indifferently: "I went to the Xiangxi area to deal with the corpse family, and suffered some injuries."

"I'll show you first."

The mother-in-law did not refuse.

She knew Ye Fan's medical skills.

After an hour, the mother-in-law felt refreshed, full of energy, and laughed a lot, "Awesome! I have heard of your deeds too, it can be described as a genius."

"What's the matter with me?"

"Mother-in-law, I want to ask if you know where Tongyougu is? My cousin was taken away by people from Tongyougu, and I have to go and save it."

"Through the valley!" The mother-in-law's eyes flickered a few times, and she said: "It's a bit troublesome, it's not a good place."

"Since it's your cousin, I must save it. Let's go, leave immediately, and talk to me on the road."

The walking stick in the mother-in-law's hand knocked, and a big bird flew up in the backyard, which was a beast king.

Leaving the Miao Village with the two.

Chapter 742: Tongyougu

On the way to Tongyou Valley, Grandma and Ye Fan made an introduction—

Tongyou Valley is an extremely dangerous place in the central core area of Shiwanda Mountain.

It is said that there was no way to pass through the valley at the beginning. It was because a few peak beast emperors fought and collapsed in that area before they formed the valley.

Fifty years ago, the Wangqing Sect, one of the 72 cases in Zhongzhou, changed.

Wangqingzong pays attention to cutting off the seven emotions and six desires, practicing with one heart, and they are all women.

But the suzerain at that time joined a man in the secular world, and it was later discovered that he was removed from the position of suzerain, and the elders secretly executed the man.

The suzerain who heard the news went violently and broke out of Wangqingzong.

Coincidentally, that Sect Master was so lucky that he encountered several peak beast kings who had fought before, and they were all dying.

The Sect Master killed them all, thus obtaining countless resources, and the speed of cultivation skyrocketed.

Three years later, he became a giant, returned to Wangqingzong, and killed more than a dozen elders.

"Because of this, the strength of Wangqingzong has plummeted. Originally, Wangqingzong does not ask about world affairs, and is dedicated to cultivation. There are many strong people. It is the second-ranked sect, second only to Wushen Temple."

"Fifty years, the Wangqingzong hasn't slowed down, and it has now fallen to the middle of the 72nd zong ranking."

"Grandma, what happened later?" Ye Fan asked.

"Later, the Sect Master returned to the Shiwan Mountain and lived in seclusion in that valley. He was called Tongyou Valley to the outside world, and he was also known as the real person Tongyou."

"Is the Zongmen sect established?"

"Yes, there are many disciples in Tongyougu, and there are many strong ones. It is not easy for us to go to the dignitaries here, we need to be very careful."

"When the time comes, I will do it, mother-in-law, you don't have to come in. I feel that the people who pass through the valley will not hurt Ling'er if they take Ling'er. Instead, they will take Ling'er's talent and accept it as a disciple."

"It's possible, but..." The mother-in-law paused and said quietly: "Tongyougu is divided into two schools. One school, like Wangqingzong, advocates cutting off the seven emotions and six desires without any emotions; the other school does not have this requirement. If Ling'er is caught by someone from the Forgetful Faction, it would be a bit dangerous."

"What's the danger?"

"Humans are born with seven emotions and six desires, even the ancient sages dare not say that the six roots are pure. Therefore, if you want to cut off your emotions as soon as possible, you need some special means."

Ye Fan felt a little bit in his heart.

The mother-in-law said: "There is a secret recipe in Wangqingzong. After being processed in the same way, people's emotions will gradually decrease and become cold and ruthless. This kind of secret recipe is very strange, if it is explained by modern medicine, it is likely to act on the emotional area of the human brain. , Destroy it."

"Tongyougu also has this kind of secret recipe. You said Ling'er has been arrested for seven days, and it is very likely that this kind of secret recipe has been used, and the consequences are somewhat unpredictable."

Ye Fan pursed his lips, a little worried.

Huh!

The big bird **** its wings and speeds up.

When the sun went down, the mother-in-law patted the big bird and fell into the virgin forest.

"Tongyou Valley is just ahead. Let's walk through the mountains and forests to avoid attracting attention."

Grandma asked Big Bird to find a place to hide.

It's just an ordinary Beast Emperor, and deep in the core where Tongyougu is located, the Beast Emperor is at least medium.

The alien beast king rushes into the territory and will be hunted and eaten.

For the Beast Emperor, the sovereign consciousness of the territory is extremely strong, which is the nature of animals.

Under the leadership of the grandmother, she soon came to the entrance of Tongyou Valley.

The entrance is natural danger.

There is only this channel.

Ye Fan was discussing the plan with his grandmother, and suddenly a group of people came from a distance.

All women, old and young, are very powerful, among them there are several giants with a strong lineup, but everyone is wounded.

"Damn, that guy is really strong, so many of us went to ambush, plus the two Beast Kings, we didn't keep him, let him break out of the siege."

"It doesn't matter, he has suffered a serious injury, and he can't make any big waves. I have notified several Beast Kings to chase and kill him, and he can't escape."

"Speaking of which, the woman caught this time is really beautiful, she is still naturally charming."

boom!

When Ye Fan heard this word secretly, he was shocked: Born to be charming, Yue Linglong?

No way.

Linglong was also caught?

"In their conversation just now, they said it was ambushing someone, not the Forest King."

Ye Fan murmured secretly, cursing that the Forest King was ill, and he brought Linglong to the depths of the hundred thousand mountains to do.

Really think that the world is invincible.

"Do you know the woman who was born that day?" Grandma asked, noticing the change in Ye Fan's face.

"Suspected my friend."

"It seems that we are going to save two people, and it is even more troublesome." The grandmother frowned.

At this time, several figures flew out of Tongyougu.

It's a man.

After talking a few words with a group of women who came back, they all returned to Tongyougu.

"Tongyougu also recruits men?"

"Tongyougu is not the Wangqingzong, why can't you recruit men. I told you about the two major factions before. Most female disciples are from the Wangqing faction, and men are obviously from the other faction."

"You'd better act quickly. Naturally charming men are so attractive to men. Maybe your friend is attracted by some men."

Ye Fan nodded, grabbed some black leaves, woven them into clothes and split them on his body, because the white clothes and silver hair were too conspicuous.

"Grandma, don't go in, and give me a lookout outside."

"good."

Ye Fan flickered and entered the natural danger channel.

From the back, the mother-in-law saw Ye Fan step tens of meters, her pupils contracted.

"The power of the earth! Good guy, this kid is fully developed, it's really unreasonable."

Then the grandmother's eyes became fierce.

Looking at Tongyougu, he muttered to himself: "I haven't been back for many years, and I don't know what is happening in the valley now."

When the words fell, grandma disappeared.

ten minutes later.

A black-clothed man appeared on the periphery of Tongyou Valley. This person was Qitian.

There are still blood stains on his body, but his eyes are extremely fierce.

Coming from Kunlun to a hundred thousand mountains, Qi Tian wanted to subdue the powerful beast king, so he went in deeply and was attacked by the violent Titan Great Ape.

The aftermath of the war attracted people from Tongyougu and quietly captured Yue Linglong.

Qi Tian chased him all the way.

Smashed into the Tongyou Valley.

However, the strength of Tongguo was too strong, and he was forced to escape out helplessly, always trying to save people.

"Sizzle."

Qi Tian was holding a huge heart in his hands, biting and chewing, looking terrifying.

The two beast kings who were chasing him were smashed by him, swallowing the blood of the beast king, and his heart was not let go.

The flesh and blood of the Beast King is of great benefit to cultivation, and it can also replenish body energy to the maximum.

"If there is anything unexpected for Linglong, let Tongyougu follow along with the funeral."

Qi Tian's eyes were gloomy and cold. He swallowed the Beast Emperor's heart cleanly and entered the state of adjusting his breath. He must repair his injury as soon as possible and perform rescue operations again. The longer it drags on, the more dangerous it becomes.

Chapter 743: Coming to Hongchen Peak, Ye Fan's severe warning!

Ye Fan followed the trail into Tongyou Valley very smoothly, which also showed that Tongyougu's self-confidence and arrogance was not at all defensive, thinking that no one would dare to break in without permission.

Tongyou Valley is very big, at least Ye Fan can't see it.

Now Ye Fan has a problem, is he quietly inquiring and exploring, or is he overbearing directly to the door?

Quietly inquiring about the chairman of the time, lest Ye Ling'er and Yue Linglong are in danger; if he is domineering, he may not be able to suppress all the strong people in Tonggu, even if the suppression is suppressed, the other party tears the ticket, and it is even more regrettable.

"It would be great if you could learn the brahman master's disguise technique. There are thousands of people and thousands of faces, and you can travel freely in the valley."

Ye Fan has a headache.

At this moment, the sound of fighting came from a mountain forest not far away.

Bang bang bang.

Several young men and women are dealing with a teenager.

The young man was about eighteen years old, but he was already a genius, and he was considered a genius. Several other young men and women were about twenty years old, and they were all energies.

Several people pressed the young man to beat.

After a while, the boy was hit, vomiting blood and flying upside down.

"You bastards!"

The young man was resentful.

He finally obtained a treasure from the outside, which could be used to polish his body, but he didn't want to be targeted shortly after entering Tongyou Valley. Several guys have been chasing after him.

"Yi Yan, I've seen you upset for a long time, so I got caught this time."

The headed young man sneered and said jokingly; "To tell you the truth, I will not only steal your precious medicine, but also destroy you."

"you dare!"

"If you dare not, just say that you were looking for a treasure outside, and you encountered a beast, and you were beaten and scrapped."

Yi Yan's eye canthus is about to split.

Several people hit Yi Yan with a heavy blow.

In the end, the headed young man sneered: "Don't play anymore, let me be a useless person, and dare to fight against Lao Tzu. If you didn't do my good deeds last time, Lao Tzu had already given the younger sister!"

boom!

The young man punched his abdomen to destroy her dantian and her meridians.

Yi Yan closed his eyes in despair.

However.

I haven't waited for a fist for a long time.

Yi Yan narrowed his eyes into a slit, and was surprised to find that several people were all lying on the ground, unconscious.

what happened?

"Don't be in a daze."

Suddenly, a laugh came from behind, and Yi Yan was startled.

Looking back, I found a handsome silver-haired man standing behind him, standing with his hands in his hands, ethereal and extraordinary.

"You, who are you?"

"You saved me?"

Ye Fan smiled and said, "Are there anyone else besides me?"

Yi Yan wiped the blood from the corner of his mouth, endured the pain, stood up, clasped his fist and said, "Thank you, senior, for helping me. The junior is grateful."

It is definitely a powerful figure to be able to solve a few inner strength warriors silently and instantly.

Moreover, Yi Yan could feel a strong sense of oppression in the dark; it was as if the person standing in front of him was not a person, but a god!

"Junior Yi Yan is a disciple of Elder Tongyougu. Dare to ask who is Senior? Why haven't I met you."

"I came to Tongyougu as a guest."

"A guest?"

Yi Yan looked suspicious.

Suddenly, Ye Fan exudes a breath, making Yi Yan almost suffocated to death like being struck by lightning.

He has only felt this kind of momentum among those in power. Is the silver-haired man in front of him a great master?

Oh My God!

Yi Yan knelt down on one knee and said in awe: "See your lord, please redeem the younger generation for the offense just now."

"It's okay."

Ye Fan shook his head.

"I heard that Tongyou had caught two beautiful women, one of whom was still naturally charming, so I came to be a guest and wanted to win the two beauties. After all, I'm still single."

Yi Yan suddenly realized.

"I did catch two beauties, one named Ye Ling'er and the other named Yue Linglong."

"but....."

Ye Fan's heart tightened, and he asked, "But what?"

Yi Yan said: "Then Ye Ling'er, you may not be able to take it away, because the peak master of Wangqing Peak has already cut off the seven emotions and six desires."

hateful!

The worst case happened.

Ye Ling'er was really concocted by a secret recipe and was affected, and she didn't know if her medical skills could be cured.

One of the factors that distinguishes humans from animals is that they have rich emotions.

Cut off the seven emotions and six desires and become a machine that does not have emotions but only cultivates. Can this be called a human being.

What's the point of this?

Ye Fan's face was deep.

Yi Yan broke out in a cold sweat and cautiously said: "Senior, although Ye Ling'er has no hope, Yue Linglong, with your strength and status, still has hope to get it."

"Yue Linglong is currently in Hongchen Peak, but I heard that the owner of Hongchen Peak wants Yue Linglong to be his wife."

"This happened!" Ye Fan snorted coldly. To Yi Yan, it was Nine Heavens Profound Thunder.

The head is trembling and painful to death.

There are two main veins of Tongyougu: Wangqing one and Hongchen one.

There is a mountain in both veins, which is called Hongchen Peak and Wangqing Peak.

The peak master is the controller of the two veins, and the status is equivalent to that of the deputy valley master and the top elders.

As for the Valley Master of Tongyougu, no one knows who it is.

Currently, Tongyougu is jointly managed by the Presbyterian Church and the two main peak owners.

"Senior! You can discuss this with the peak owner, please don't get angry."

"Is Yue Linglong sure to be in Hongchen Peak?"

"Yes, in the Mandarin Duck Tower of Hongchen Peak, I heard that the owner of Hongchen Peak is ready to get married."

"Okay, I understand."

Ye Fan's qi and blood poured into Yi Yan's body, making Yi Yan's complexion red, and his injuries were recovering.

Now Ye Fan's qi and blood are all energy, for a little inner strength warrior, it is definitely a treasure.

"boom!"

Suddenly, Yi Yan's body trembled, and his breath skyrocketed from generation to generation.

Broke through.

Great inner strength.

Yi Yan was overjoyed, "Thank you, sir."

Ye Fan said: "Let's go, let me go to Hongchen Peak. I want to see the Master of Hongchen Peak, who dare to **** women from the deity."

Yi Yan was a little worried.

If the two giants fought, it would be terrible.

But this is not something that his little disciple can consider.

"Senior, come with me."

With Yi Yan's leadership, it will be unimpeded.

Yi Yan's master has a lot of status in the Presbyterian Church. Although he is not a giant, he is a master of the dual realm.

In addition, Yi Yan is a genius, so it is easy to take Ye Fan into the Hongchen Peak.

"Senior, have you seen it. The pavilion on the top of Hongchen Peak is the Mandarin Duck Tower, and Miss Yue Linglong is among them."

Ye Fan knew it in his heart. He turned his eyes and said, "That great hall is the main hall of Hongchen Peak."

"Yes, the ruler of the red dust lives in it."

"good."

Ye Fan waved his hand, and Yi Yan felt the sky spin, away from Hongchen Peak.

But Ye Fan rushed to the Mandarin Duck Building without any hesitation.

Grab people directly, without wordy.

Ye Ling'er had been killed by the secret recipe, and he was still a closed disciple of the peak master Wangqing. There was no danger. Ye Fan could only leave Ye Ling'er here temporarily.

First, he was not sure whether he could restore Ye Ling'er and take away the useless, but instead would be worried by Tongyougu, which would cause trouble.

Second, he can't help both of them at the same time.

Ye Fan planned to go back to Zhongzhou to contact Wangqingzong, catch a disciple to study and study, and then plan to rescue Ye Linger.

"Who!"

When Ye Fan was still a kilometer away from the Mandarin Duck Tower, a sharp shout exploded.

So keen.

I found out so soon.

Ye Fan secretly said that the Red Dust Peak Master is a powerful person, but he didn't stop, but broke out without scruples.

For a time, the situation changed.

"Catch the claws!"

Ye Fan reached out and grabbed to Yuanyanglou.

In the main hall, a red figure rushed out, shouting angrily: "Come on to my Hongchen Peak to go wild, looking for death!"

A palm print hits the paw print.

Ye Fan snorted coldly, strode one after another, shrank into an inch, and descended to the top of Hongchen Peak.

At the same time punch out.

"boom!"

The palm print broke apart.

at the same time.

Catch Heaven Claw grabbed the Yuanyang Tower and uprooted it directly; in the tremor, the Yuanyang Tower began to collapse.

Ye Fan's eyes flickered, and he quickly found Yue Linglong among the sand and rocks, and grabbed him.

At this time Yue Linglong was still a little at a loss.

When she saw Ye Fan, she rubbed her eyes and was pleasantly surprised: "Brother Fan, why are you!"

"It's not me, do you count on that unreliable guy?" Ye Fan rolled his eyes, Qi Tian was very dissatisfied, but it was fine, so he took Yue Linglong back.

With Ye Fan, Yue Linglong felt relieved.

Woo woo woo.

The breath crisscrossed.

All those in charge of Hongchen Peak slammed out and surrounded Ye Fan with murderous aura.

The most powerful is the red figure.

He is wearing a big red robe, with lotus marks dotted around his eyebrows. She was wearing lipstick and powder, her eyes flashed with cold light.

Ye Fan almost couldn't tell whether it was a male or a female, so he couldn't help but cursed: "You are the peak owner of Hongchen Peak. I thought you were a big man, you turned out to be a girl!"

Hongchen Peak Master opened his eyes wide, thinking that he had misheard, and how dare someone humiliate him like this.

Ye Fan said with a warning: "I don't know that the country is currently cracking down on the nymph culture, the entertainment industry is all killing it, and you're a nymph. Remember, the martial arts world is not a place outside the law. Please respond immediately. The country calls on to be a good citizen who obeys discipline and law!"

Chapter 744: Make a fuss

Hongchen Peak is completely silent.

The people in power are fascinated by the fact that they say that the peak master's mother cannon is a taboo in the valley.

Once an elder scolded like this secretly, the peak owner learned that he directly abolished it.

The disciples who spoke bad words behind their backs even directly killed them.

"Pouch."

Yue Linglong couldn't help laughing, Ye Fan was really too bad, and her words were too sharp.

"You still said others, don't you want long silver hair?"

"Look at what you said, what is the relationship between the length and color of the hair and the female gun. I am on the road of a tough guy. You see that his orchid fingers are up to the sky, this is unbearable!"

Ye Fan shouted again: "Have you heard what I said? As a citizen of Daxia, how can you not respond to the call of the country? I order you to immediately put down your little finger."

The main face of Hongchen Peak has a few hideous faces.

The power of the giant didn't burst out in the slightest hidden, and he made a bold move, really long-winded.

"Dog men and women, die for me!"

"Brother Fan, be careful, this guy is very strong, not to be underestimated." Yue Linglong reminded.

How could Ye Fan be careless? To become a peak master, he must be great; and this guy is very young, just wearing makeup, so people can't guess his age.

But judging from the timbre of the voice, it is definitely not more than forty years old.

"boom!"

The first collision shook the mountain.

The people in power had a heavy face and shouted: "Peak Master, hitting the Red Dust Peak here will be ruined."

Even the red carp had no scruples.

Ye Fan's words made him completely crazy, and he had not been so humiliated for many years.

"Kill, kill, kill, kill, kill."

Even the red carp roared, but his voice was sharp.

Ye Fan responded, saying, "I'm afraid this guy is not a mother-in-law, so he may have cut the basket. No, if he cuts the basket and marry you, he won't be able to use it."

Yue Linglong said with a black face: "Brother Fan, be more serious, don't be distracted."

"It's just very curious." Ye Fan laughed, his eyes bloomed with fierce brilliance, and his fist blasted through the unique knowledge.

He was not entangled.

Must take Yue Linglong out of Tongyou Valley as soon as possible.

"Sleepy Dragon Array!"

However, the eight masters below joined forces to display the formation.

Eight people in one, double the combat power.

The qi is like a sea wave, blocking the world, turning into a cage, and besieging Ye Fan.

"Drive me!"

Ye Fan fisted and bombarded, but he couldn't blast open the qi cage, causing his eyelids to jump. What a powerful formation.

In fact, all the eight masters were full of blood, almost bleeding.

"Peak Master, this son is powerful, and it's a quick fight."

Even the red carp and Dahongpao bulged, making extremely sharp sound waves.

"what!"

Yue Linglong screamed, her face pale.

Ye Fan quickly wrapped Yue Linglong with the power of qi and blood to block the sound waves.

And he himself roared at Lian Hong Carp: "Ang!"

The vigorous sound wave rippled away.

The two sound waves collided, and the invisible energy exploded, causing huge damage to the surrounding area of Hongchen Peak.

Such a big movement, the Presbyterian Church and Wangqing Peak have also noticed.

Tongyou Mountain.

This is the seat of the Presbyterian Church.

"What is even the red carp doing, and who are you fighting with?"

"Looks like a young man."

"No, look at that white hair, it should be an old monster, but it looks a bit tender. How can a young man be so enchanting, it is inextricably difficult to distinguish between the red carp fight."

"Beauty is a disaster."

Many elders watched the fishing fires quietly and did not plan to take action. This was Hongchen Peak's business, and they didn't need to blend in.

The internal struggle in Tongyougu was also fierce.

On Wangqing Peak, a middle-aged woman stood on the edge of a cliff with a long sword on her back, sneered and said: "Lian red carp is really getting more and more useless."

A woman next to her smiled and said: "Peak Master, even the red carp is getting more and more women. It's good for us. Maybe we can assimilate it. In this way, we are the only family in the same line through the valley."

Peak Master Wangqing retracted his gaze and asked, "How is Ling'er?"

"Ling'er is very talented, and Wangqingjian has already started."

"Okay." Peak Master Wangqing was very satisfied, and then frowned: "I didn't think she was the young lady of the Ye royal family, or the granddaughter of Ye Gongye Potian in a direct line."

"Peak Master, this is indeed a trouble."

"No, I'm not afraid of Ye Potian. Ye Ling'er's talents are all excellent, but they have not been fully developed yet, and will shine under my guidance. However, if you want the sword of Forgetfulness, she needs Do one thing."

The women present were all taken aback.

Peak Master Wangqing said with no expression on his face, "Zhanqin sacrifices sword."

"Ling'er needs to kill a close person, preferably with the same blood."

"Peak Master, what do you mean?"

"Ling'er's elder brother Ye Chen, this is the best candidate. After Ye Chen is cut, Ling'er's Forgetfulness Sword can be successful."

The women are a little worried.

Ye Chen is the eldest grandson of the Ye royal family, with a noble status. If he is beheaded, the Ye royal family will not give up.

But after thinking about it, even if the Ye royal family retaliated, it would be fine, one in Zhongzhou and the other in Shiwandashan, separated by a hundred and eight thousand miles.

Besides, Tongyougu's strength is no worse than Ye Royal Family.

"Look for Ye Chen's trace as soon as possible, and when the Linger Wangqingjian Xiaocheng is completed, we must carry out the slashing operation."

"clear!"

...

Ye Fan and Lian Red Carp are still fighting.

After so long, Ye Fan discovered that there was no one from Tongyougu Presbyterian Church and Wangqing Line, which made him feel little pressure.

It's just a matter of esteem that can't keep him.

"The Qitian you mentioned, came in to save you, how did you get beaten and run away in embarrassment? It's just the same degree as Hongchen's line, right?"

"He's not as smart as you, so he came in stupidly and went straight to Tongyou Mountain. Isn't this just hitting a group of elders in the face? He was just beaten away."

Yue Linglong said irritably.

"But Brother Fan, the elders will definitely be watching. Although we don't take action now, they will definitely not let us leave Tongyou Valley. Don't be careless."

"I know it in my heart."

Ye Fan and Lian Red Carp have fought hundreds of moves, and no one can do anything about it. This Red Carp is about to be promoted to the pinnacle of giants, which is incredible.

Below, the eight masters couldn't bear it, and the formation collapsed.

"go!"

Ye Fan quickly moved towards the exit.

Even Red Carp was furious and chased after him, but he couldn't catch up with Ye Fan.

Rumbling.

Suddenly, the world surged.

"The power of heaven and earth!"

"Among the elders, there is a Heng Lian master in the realm of harmony between man and nature!"

Ye Fan was surprised.

No, there is more than one, good fellow!

Tongyougu's background is really strong.

A piece of the power of heaven and earth blocked him, and a piece of bound him, making him seem to be trapped in a swamp.

"Dog men and women, die!"

Even the red carp was killed, and the strongest blow was performed.

Ye Fan gritted his teeth.

"open!"

His power of qi and blood has reached the extreme, his domineering body has also awakened, and even the "Zhenhai True Meaning" is evolving in his mind, with an unparalleled domineering aura bursting out.

Forcibly split the power of heaven and earth.

"Good boy."

The elder who secretly shot was alarmed.

And here, the violent Ye Fan vomited blood from even the red carp and flew upside down.

"Yue Linglong is my woman, you dare to deal with me if you catch my woman, you want to be destroyed by the valley."

"Boy, speak wildly, whoever gives you the courage, who can destroy me through the valley."

Several elders came from the sky.

There are people in the sky and underground, and Ye Fan has no retreat.

Yue Linglong asked nervously, "Brother Fan, what should I do? Or, let me go."

"What a joke."

Ye Fan glared, while trying to exude power, he was thinking about retreat.

boom!

Knuckles on the eye.

A loud noise alarmed everyone.

What came from Tongyou Mountain seemed to have happened.

"not good!"

"Boy, you still have a helper!"

"Even the red carp, you must deal with the matter of the mortal family by yourself, and be sure to suppress them."

A few elders left their words and hurried to Tongyou Mountain.

Ye Fan was confused, who was helping him, could it be grandma?

"boom!"

Suddenly, there was another loud noise.

This time it was not Tongyou Mountain, but Hongchen Peak. It exploded directly, and the mountain was cracked.

"what!"

The powers of the mortal veins have a canthus.

What is going on here?

Ye Fan's eyes lit up, and he recognized the breath as Qi Tian. This guy finally used his brain, it's really a touch of magic.

Chapter 745: Fudge Dafa

"Yue Linglong, I will give you the last chance to leave this miscellaneous hair and come over to me!"

Lian Red Carp flew back with a red spear in his hand. The spear was an incredible weapon. It was already "spear-like", and it gave people a very strong sense of oppression.

Yue Linglong was startled, and said, "Brother Fan, be careful. I heard that Wangqing line is good at using swords, Hongchen line is good at using guns, and each has a treasure of weapons."

"The spear is definitely the treasure of Hongchen Peak."

Ye Fan looked at the spear, the blood-red color looked very strange, as if he had been salvaged from a sea of blood; besides the spear position, there was also a chilling breath.

That breath made Ye Fan chill all over.

Good gun!

Ye Fan secretly admired.

"Yue Linglong, if you hear it, I will come over immediately!"

"Even the red carp, don't you need to point your face, you are almost forty years old, and you want to eat tender grass, this lady doesn't like you at all, you have to die of this heart." Yue Linglong did not. A polite counterattack.

Ye Fan said, "What's his name?"

"Even the red carp."

"Fuck, even the name is such a mother. It's really bare buttocks into the ice cellar, mother is dead."

puff.

Yue Linglong covered her mouth, trying not to let herself laugh, but she couldn't help it.

Lian Red Carp roared: "Little devil, I will smash you into ten thousand pieces."

scold!

The spear cut through the sky like lightning, and immediately slammed in front of Ye Fan.

"hiss."

Ye Fan felt a chill deep into his bones, this spear was too extraordinary.

If it is stabbed, the cold energy will penetrate deep into the body, which will be very troublesome, and even frostbite the internal organs immediately.

Ye Fan landed on the ground.

"Shrink to an inch."

One step is tens of meters.

The spear didn't stabbed, and it blasted a ten-meter-diameter crater in the ground.

"Catch the claws."

Ye Fan grabbed the red spear.

Ye Fan rolled his eyes and stared at the huge distant mountain, Wangqing Peak.

Disaster?

Perhaps taking advantage of the chaos, he could find Ye Ling'er.

Ye Jiangying showed Ye Fan a photo of Ye Ling'er, and he could find it; even if he hadn't seen the photo, Ye Fan could tell the difference. Ye Chen and Ye Ling'er are brothers and sisters, and there must be similarities between the two. .

This similarity may be subtle, I am afraid that ordinary people cannot see it, but for Ye Fan's existence, it can be distinguished at a glance.

Yue Linglong seems to have seen Ye Fan's thoughts. She is a guy who fears that the world will not be chaotic. She said excitedly: "Go to Wangqing Peak, hurry up, and completely disrupt Tongyou Valley."

Ye Fan no longer hesitated, and rushed towards Wangqing Peak.

Even Red Carp's eyes flickered, and he didn't expect Ye Fan to go to Wangqing Peak, but at this moment he could no longer take care of that much.

The two veins have been fighting, and the peak master of Wangqingfeng has been suppressing him, just to take this opportunity to destroy Wangqingfeng.

Even if Peak Master Wangqing came to the door, he could throw the pot to Yue Linglong.

Isn't it beautiful?

Thinking of this, even the red carp did not reserve the slightest, and displayed the most powerful and seldom-used faculty.

"boom!"

A huge phantom appeared, like a demon god, with mighty power, the phantom grabbed the spear and killed Ye Fan.

at this time.

The Lord Wangqing is not there.

Something happened to Tongyou Mountain, she went to find out.

Therefore, when Ye Fan caused trouble, Wang Qingfeng fried the pot directly.

"asshole!"

"What can we do? Even the red carp has performed a taboo and utterly absurd knowledge. We can't resist it!"

"I'm coming!"

"Quick! Call the peak master back!"

Those in power who have forgotten their emotions have appeared one after another, forming a joint attack formation, waiting for them.

A woman in the lead shouted: "You two dare to cause trouble, move immediately, otherwise don't blame us for being rude."

Ye Fan smiled and said, "Sisters, I am also forced to be helpless. If you are to blame, I will blame Lian Red Carp. Don't say more, let's stop Lian Red Carp's lore together."

The face of the incumbent who forgets the emotions is livid.

Never seen such a brazen man.

Of course, they also feel like a mirror, knowing that even the red carp might use this to attack Wangqingfeng.

So it's useless to target Ye Fan.

"If that's the case, let's fight back Lian Red Carp together. If you dare to play tricks, it will be death."

"Sister, don't worry, let's unite the front."

Ever since, Ye Fan and Yue Linglong fell on the top of Wangqing Peak peacefully, and they united on the front with a group of women, looking very weird.

Yue Linglong really admired Ye Fan's Fudge Dafa.

There is nothing he can't do.

"Sisters, let's start, I'm willing to be a forward and take action together." Ye Fan yelled, his power was like a rainbow, which shocked these women, and a trace of awe flashed in his eyes.

Anyone will have the awe of the strong.

Even if these women cut off the seven emotions and six desires, they are all red emotions and do not involve other emotions.

Ye Fan made a big move.

This made a group of women think that Ye Fan was really in the early stage, leading them to fight against Lian Hongli.

As everyone knows, Ye Fan is just thunder but not rain.

The momentum is very large, in fact, not much work.

"These women have cut off their seven emotions and six desires, how can they feel that their IQ has also been cut off? They are so foolish."

Ye Fan secretly cheered.

With minimal consumption, he led a group of women with all their strength and bombarded the phantom of the demon **** who had been killed.

"boom!"

Collision in pairs.

The red spear collapsed and flew, the ghost of the demon **** was pierced, and slowly disintegrated, and even the red carp vomited blood and flew upside down.

There was also a mess on Wangqing Peak.

Many buildings have collapsed, and many people in power have been injured, all of which are in jeopardy.

Sand and rocks covered the sky, blocking the view.

Ye Fan immediately hugged Yue Linglong and disappeared to the edge of the cliff with "shrinking the ground into an inch".

He had to take the opportunity to find Ye Ling'er as soon as possible.

"Brother Fan, what are you doing?"

"My cousin Ye Ling'er was caught at Wangqing Peak. I have to look for it. I heard that she was also beheaded."

"That's bad, cut off the emotions and desires, many emotions are thin or even disappear, even if you find her, there is a high probability that you will not be able to go with you."

"Always see each other. If it doesn't work, we will withdraw."

Ye Fan's words fell, and the sky was shaking suddenly.

A breath of forest permeated.

Peak Master Wangqing is back?

no!

Ye Fan saw that in the direction of Tongyou Mountain, a blue-gray air column rushed out and went straight to Xiaohan.

The breath escaping from the air column was too cold and frightening.

"Ahhhhhhh!"

Countless screams came from a distance.

The children near Tongyou Mountain were killed by the cold, and some powerful children were also seriously injured.

"No, the extremely cloudy spring is broken. How could this happen? This will be a catastrophe." On the edge of the cliff, a person in power screamed, his face pale.

Even the red carp was frightened and landed quickly. He didn't dare to be in the sky for fear of being invaded by the extreme cold; he unwillingly glanced at Wangqing Peak, and then rushed to Tongyou Mountain.

Once the extremely cloudy spring could not be sealed, the entire Tongyou Valley would be destroyed, and even spread to the entire one hundred thousand mountains, and even a wider area.

Many people in power have also gone.

"Extremely Yinquanyan? It seems that the cold breath rushes out from that spring. It is terrifying. Even if it is a giant, it will be seriously injured or even killed if it is impacted."

Ye Fan shuddered.

Due to the abnormal changes of Tongyou Mountain, the entire Tongyou Valley was chaotic.

Qi Tian took advantage of the chaos to arrive at Wangqing Peak and met Ye Fan and Yue Linglong.

"I didn't expect you to come!" Qi Tian looked at Ye Fan, a little uncomfortable. It should be his hero who saved the United States, but Ye Fan took the lead.

"I'm counting on you if I don't come?" Ye Fan snorted coldly.

"I just made a strategic mistake..."

"Okay, don't explain." Ye Fan said, "There is no danger now, you can leave Tongyou Valley at any time."

"Linglong leave it to me."

"Linglong is not a commodity, so how can I give it to you?" Ye Fan glared at him and said, "It's all about you, why should I go."

"let's go."

Ye Fan led Yue Linglong to the depths of Wangqing Peak, Qi Tian frowned, and in the end there was no action. It is not wise to grab someone with Ye Fan now.

He thought for a while and headed to Tongyou Mountain.

Abnormal changes are generally accompanied by good luck. If you are lucky, maybe you can get good things by fishing in troubled waters.

At that time, Ye Fan would be his opponent.

Chapter 746: See Ye Linger

"Hey, what about the silver-haired man and Yue Linglong? Why are they missing?"

"It must have escaped!"

"Although it is even the red carp's main responsibility, that kid can't escape the relationship."

"Forget it, there is no need to care about them. Extremely cloudy eyes are the biggest problem."

"..."

Wangqingfeng, some of the remaining power holders talked a lot, and in the end they all thought that Ye Fan and Yue Linglong took advantage of the chaos to escape from Tongyou Valley.

Ye Fan didn't go far, listening to their discussion, his face was covered with black lines, and he muttered: "It's really true, IQ is cut in half."

Yue Linglong smiled and said: "Don't talk nonsense, if the IQ is cut in half, why do they practice faster? Look at the age of those in power, most of them are under the age of 40, but they have become masters and are all geniuses. I heard that the peak master Wangqing is only thirty-six years old and is already a peak giant."

"Damn, so awesome?"

"Yes, the peak master Wangqing is the strongest person in Tongyougu. Although the elders of the Presbyterian Church are also the peak giants, they are not as good as the young people like the peak master Wangqing."

Ye Fan was shocked by Tongyougu's strength. There were many masters, and there were two peak giants.

You know, in the Ye royal family, excluding Ye Potian, who is not seen by the dragon, the pinnacle giants are Ye Xingzhi and the great elder.

But the number of masters, the Ye royal family can't compare to Tonggu.

Other royal families are similar.

Not to mention the 72 cases in Zhongzhou.

In other words, from the current point of view, in addition to the Corpse Human Organization, Tongyougu is the strongest force.

But he has always been unknown.

Hidden in the depths of the hundred thousand mountains, not very born, it is really incredible.

"Brother Fan, didn't you go find Ling'er?"

"and many more."

Ye Fan is very patient.

In about ten minutes, he finally caught a man who was alone in power.

Ye Fan captured it effortlessly.

"You haven't left!" The middle-aged woman was shocked. "Asshole, you still have plans. You really don't know how to live or die."

"Snapped."

Ye Fan didn't have pity for Xiangxiyu, the woman who slapped her with gold stars in her eyes and her cheeks were swollen.

Feeling Ye Fan's fierce murderous aura, the woman finally persuaded, and said fearfully: "What the **** are you going to do? My peak owner is a peak giant, not even a red carp. Once the peak owner comes, you can't escape, I Advise you to let me go and leave Tongyougu as soon as possible."

Ye Fan asked, "What's the matter with Tongyou Mountain, and what is Extreme Yinquanyan?"

"This has nothing to do with you, you can find out what this is for."

"Snapped."

There was another slap in the face, and the other side of the woman's face was also swollen.

The woman gritted her teeth, but she explained: "Jiyinquanyan, as the name suggests, is a spring, at the bottom of Tongyou Mountain."

"It is said that it was discovered by several peak beast emperors fifty years ago. In order to compete for the spring eye and a melee, this valley was played."

"I don't know how the extremely cloudy spring was formed, but there is extremely cold water inside, brewing extremely cold and extremely cold air."

"Did you see the air column?"

"That's the cold air rushing out of the extremely Yinquan."

"Our founder of Tongyou Valley, Mr. Tongyou, sealed the spring. I don't know why it suddenly broke today. Once it can't be blocked, the extremely cold air will spread, and the entire Tongyou Valley and even the 100,000 mountains will be frozen."

Ye Fan and Yue Linglong were frightened.

Here, you can see that the original lush Tongyou Mountain is now white, as if it was frozen by ice.

"I've said everything that should be said, now you can let me go."

"I heard that Tongyougu caught two beauties, one is Yue Linglong, now in my hands; the other is Ye Ling'er, where is she?"

The woman shouted: "You are so daring, you dare to make the little master's idea. Ling'er is a disciple of the peak master, you better not covet it."

Ye Fan smiled and said: "It's here all here, you have to see each other, and witness the beauty of Miss Ling'er. If you disagree, chatter..."

A string of lustful laughs sounded in the woman's ears, Ye Fan squinted his eyes and deliberately breathed quickly, pretending to be a hungry wolf.

"You look good, and you are just right, I like a woman like you."

"I don't know if I took you and defiled your body. Will it affect you?"

"Dare you!" The woman was extremely angry and terrified at the same time. As a disciple who loses her affection, she will definitely be severely punished once she loses her body.

Ye Fan looked around for a few times and said, "There is a small forest over there. Let's go to the field. Linglong, use a mobile phone to record. I want all the disciples of Tongyougu to see it."

"Bastard!"

"You pervert! This is illegal!"

"You kept saying to Lian Hongli, let him be a law-abiding citizen, but you are lawless, I want to sue you."

"You are even worse than the red carp!"

Ye Fan shrugged, and said indifferently, "No one knows anyway, you can still condemn me for offending me."

The woman didn't dare to bet, and finally compromised and said: "Don't mess around, I'll take you to see Ling'er."

"really?"

"Don't worry, I won't lie to you. But I advise you to give up thinking carefully. Ling'er has already cut off the emotions and six desires and cannot be with you; if you are forced, Ling'er will definitely kill herself. She cultivates the sword of emotionlessness, and her temperament will also change. Strong."

Forgetfulness Sword!

This made Ye Fan feel that the situation was even worse.

The woman led Ye Fan to a secret room at the bottom of Wangqing Peak and said: "Ling'er is practicing in it, but I can't open the secret room."

"Snapped."

Ye Fan called out with a big mouth and cursed: "I can't open it, I don't know how to call it, let Ling'er open it from the inside."

The woman said angrily: "What do I call?"

"Why, let my mouth teach you?" Ye Fan's eyes widened, making the woman shiver.

Yue Linglong smiled and bloomed.

The woman swallowed, took a deep breath, and shouted, "Ling'er, something has happened in Tongyougu, don't practice in retreat, come out quickly. The peak master is calling."

It's really useful.

For more than ten seconds, the stone door of the secret chamber vibrated and slowly opened.

A graceful woman came out.

The woman is beautiful.

Qingli.

There is a feeling of a sister next door, but it is a pity that there is an indifference and coldness between the eyebrows, and it is thousands of miles away.

In fact, it is not the first time Ye Fan has dealt with Ye Ling'er.

As early as in Changning, he had chased Ye Ling'er, and Ye Ling'er went to the ruins of the Ye family in Changning to burn incense and worship. At that time, he almost caught Ye Ling'er.

But Ye Ling'er was wearing a mask at the time, and he couldn't see his face.

Right now.

Ye Fan's instinctive feeling is very cordial. Although he has no blood relationship, he is his cousin after all.

Moreover, Ye Chen and Ye Ling'er became orphans due to his father's change at that time, and Ye Fan was actually very sorry in his heart.

"Ling'er."

Ye Fan called out.

Ye Linger looked at Ye Fan and said in doubt: "Who are you, I don't seem to know you."

"you do not know me?"

It stands to reason that Ye Ling'er must have known herself without hiding her appearance during the chase in Changning.

Ye Fan guessed that it might have cut off the seven emotions and six desires, which had some impact on memory, so he didn't know it anymore.

"I'm your cousin, and my name is Ye Fan."

"Cousin? Ye Fan?" Ye Ling'er muttered, and then instinctively resisted, his expression even colder.

When the woman next to her heard it, she couldn't believe it. Is this Ye Ling'er's cousin?

Thinking of what the Peak Master Wangqing said before letting Ye Linger "slash the family and sacrifice the sword", the woman's mind became active.

My cousin is also related by blood!

Killing Ye Chen, the eldest grandson, feared that the Ye royal family would get angry and get into trouble; but killing Ye Fan would be different. He is only Ye Ling'er's cousin, and his status in the Ye Royal Family is lower than Ye Chen. If he is cut off, the Ye Royal Family should not be angry with Tongyougu as an enemy.

And Ye Chen didn't know where he was, but Ye Fan was right in front of him.

It's all effortless.

The woman stepped back quietly, and then pressed a mechanism on the stone wall. Suddenly a big hole appeared under Ye Fan's feet, and He Yue fell unconsciously.

Ye Fan reacted swiftly, grabbing Yue Linglong, and rushing forward; the woman had long been brewing, and with a full blow, Ye Fan's momentum was interrupted.

"boom!"

At this time, the exit is closed.

Ye Fan and Yue Linglong were trapped.

The woman pulled Ye Ling'er and rushed out and said, "Ling'er, the peak master said, you need to cut the sword, so that the sword of forgiveness can be successful. Ye Fan is your cousin, and it is just right. I will inform the peak master, you Go to the main hall and wait. Don't worry, although Ye Fan is strong, the trap is not simple, enough for them to drink a pot."

Chapter 747: Midi

After Ye Fan and Yue Linglong fell into the trap, they were hit by many agencies.

They were forced to land downward.

It sank a full three hundred meters before landing, and the surrounding area was white.

"It's cold!"

Yue Linglong held her body in her hands, shaking constantly; Ye Fan was also tight.

This seems to be an underground palace, sealed by ice, and the cold breath whistles.

Ye Fan noticed that this cold air was the same as the cold air erupting from the extremely cloudy spring eyes outside.

"Oops, we may be in big trouble." Ye Fan's face was heavy, he punched and bombarded the stone wall of the underground palace, and found that the underground palace was extremely strong.

Moreover, he punched and bombarded, shaking the underground palace, the ice was broken by a corner, and the coldness became more intense.

Yue Linglong said, "Brother Fan, don't do it. Don't let the cold aggravate, I can't stand it anymore."

Ye Fan opened the qi shield, the power of qi and blood enveloped Yue Linglong, blocking the cold air.

"We follow the direction of the cold to find the source, maybe we can find an exit."

"we can only do this."

Ten minutes later, Ye Fan discovered that the coldness of the underground palace had seeped from a rock wall.

He pressed his palm on the stone wall, his blood exploded, and there was a sudden shock. The stone wall was broken, revealing a passage.

"Huh!"

Ye Fan immediately walked away.

A torrent of cold air burst out from the passage.

"hiss."

Ye Fan was still contaminated, and his right hand was directly frozen, almost unconscious.

Fortunately, Ye Fan was full of blood, and the ice was shaken open, and the blood in his body quickly circulated, activating the veins and veins, otherwise it would be completely necrotic.

After a few minutes, Ye Fan got better, his right hand was able to move, but it was still a little stiff.

"It's so terribly cold."

Ye Fan slapped his tongue, if this could be used, it would be a killer weapon.

Yue Linglong said: "Brother Fan, the torrent disappears, we can go now."

"To be honest, it's quite dangerous. We don't know if the torrent of cold air will appear again. It is troublesome for me to resist, and I may not be able to keep you."

Ye Fan was very worried.

Yue Linglong smiled and said: "Brother Fan, I am not afraid of what you are afraid of. We are all people with great fortune, and we won't die here. I doubt that this passage can lead to the extremely Yinquan Eye."

"Oh?"

"If it's really the same as I guessed, we might be able to seize the opportunity, search the Jiyinguan, and maybe find some treasures."

Ye Fan's eyes brightened.

Digging treasures, snatching treasures, stealing treasures, stealing treasures...As long as they are related to treasures, he is interested.

Yue Linglong looked at Ye Fan's eyes glowing green, and she couldn't help but laugh: "Whenever you mention the baby, you feel refreshed."

"Walk around, hurry up."

Ye Fan hugged Yue Linglong and swiftly galloped through the passage.

Twists and turns, twists and turns.

Ye Fan's head was dizzy.

This passage is very long, it has been speeding for several kilometers, and the end has not been seen yet.

"Rumble."

Suddenly, the channel vibrated.

Ye Fan's face changed drastically, "No, the second wave of cold air is coming."

"What to do!" Yue Linglong turned pale with fright, like an octopus, instinctively wrapped around Ye Fan, not dare to let go.

"boom!"

Ye Fan bombarded the stone wall with his fist, smashing a hole, he threw Yue Linglong into it, and guarded himself at the entrance of the cave.

The domineering body wakes up.

The blood is surging.

The gas is also gushing.

Ye Fan was ready to meet this challenge. At this moment, he was not afraid, but rather excited.

Rumbling.

At the same time, a torrent of cold air rushed in.

"what!"

Ye Fan's body was instantly frozen by ice, and his domineering body was constantly trembling, with a unique frequency.

This kind of tremor drives the blood in the body to run wildly.

Boom boom boom.

Ye Fan's heartbeat was three times faster than usual, dull and powerful like a drum.

The functions of the internal organs involuntarily awakened and began to become extremely active.

An ordinary person, his organs are actually not fully used.

Scientific research shows that only one-third of the kidney function of ordinary people is used, and there is still a lot of waste of resources; this is why, if a kidney is removed, people can still live normally.

The body refiners, internal organs and other organs have been polished, and they can maximize their awakening functions, and their vitality is stronger than ordinary people. This is one of the reasons why the life span can be increased.

"Wow."

Yue Linglong was horrified to find that the sound of the river rushing out of Ye Fan's body.

That's blood flowing.

Flowing turbulently, violently, and quickly.

It's just appalling.

Most people's blood runs so fast, they've long since exploded and died, and their organs can't bear such a load.

However, Ye Fan can.

However, with such a large degree of blood circulation, Ye Fan was also in pain, and his teeth almost broke.

"Brother Fan."

Yue Linglong cried.

Half of Ye Fan's body was already frostbitten.

How terrifying the extremely cold air is, there is no doubt; Ye Fan is fighting with it, and through the extremely fast blood circulation, the cold air cannot frostbite the flesh and blood.

"call!"

Finally, a minute later.

The torrent disappeared.

Puff through.

Ye Fan fell to the ground, his face pale and extremely tired.

Every time the body is fully awakened, it is actually a huge exhaustion.

"Brother Fan, are you okay." With tears in her tears, Yue Linglong rolled up Ye Fan's sleeve, only to find a large piece of skin was brought out.

"what!"

Yue Linglong screamed, Dou Da's teardrops rolled directly down, full of guilt and self-blame.

Ye Fan grinned and said, "It doesn't hurt at all to cry, I'm numb now."

"Go ahead and don't delay time. If there is another torrent of cold air, I'm afraid I won't be able to hold it."

"quick!!"

Ye Fan's right body was still in a state of numbness, and his activities were very difficult. He could only carry Yue Linglong on the left.

This time, they finally saw the end.

"Rumble."

Unfortunately, the time is up.

The torrent was launched again.

"Grass."

Ye Fan couldn't help but explode, and went crazy with a normal burst of speed.

At the moment of rushing out of the cave, a torrent of cold air came.

Ye Fan's action is still a bit stiff now, and he can't resist it for a while.

"Swallow."

In desperation, Ye Fan displayed this fascination.

Sure enough, the torrent of cold air can be swallowed.

But the torrent is too big and too strong, and the devouring of **** is still in its infancy.

Yue Linglong rushed into Ye Fan's arms and burst into tears, "Brother Fan, I thought you were going to die and scared me to death. I'm sorry."

"How old are you, like a child, wipe away your tears and don't cry, isn't it good for me?"

Ye Fan is very optimistic.

In fact, his injury is not minor.

At that moment, he broke through the torrent and his whole body was shocked.

Although the blood flowed rapidly, protecting the flesh and veins, the skin was completely frostbitten.

With a little tugging, you can rip off a large piece.

Extraordinarily horrible.

Ye Fan said: "Let go, hold it so tight, the skin will fall off."

"what!"

Yue Linglong was taken aback. Seeing Ye Fan's frostbite, she felt a great pain in her heart.

Ye Fan didn't care too much.

His body functions are strong and his metabolism is fast. Even if his skin is torn off, he can grow as good as before in ten and a half months. It may not take that long, just one week.

"What is this place?"

Ye Fan began to look at this space, the temperature was very low, estimated to be minus 100 degrees.

Ordinary people can't bear it, but for powerful people like Ye Fan and Yue Linglong, it's not bad.

But this is not the temperature of extremely cold air, just the slightest aura that is diluted in the space. The extremely cold temperature is far below minus 100 degrees.

"Brother Fan, look."

Yue Linglong pointed to it, and Ye Fan also discovered the situation. There was a force of heaven and earth condensed above his head, setting off a stream of spring water.

It's like the Shuiyue Cave Sky of the Ye Royal Family.

"I see."

"The above is the spring water in the eyes of Jiyinguan, we are below, in other words, we are in the eyes of Jiyinguan."

Chapter 748: The hero is not old, the beauty is late!

This result shocked Ye Fan.

Unexpectedly, I encountered another structural space similar to Shuiyue Dongtian.

Ye Fan felt that the power of heaven and earth above his head was not weaker than that in Shuiyue Cave.

It's just that the extremely yin spring water may be too powerful, and it can slightly penetrate the barrier condensed by the power of heaven and earth, but the force of heaven and earth also evaporates the spring water, forming a torrent of cold air.

The space must be full of cold just now, and he opened the channel, which is equivalent to opening a catharsis, and then there is a torrent of water washing down the channel.

Now, the torrent of cold air has disappeared.

Thinking of this, Ye Fan felt aggrieved. Just waited for more than ten minutes, it wouldn't be so miserable.

"Under the Wangqing Peak, how can there be a passage leading to the inside of the extremely Yinquan Eye? It's incredible." Yue Linglong muttered to herself.

"The Master Wangqing has a big secret. No one else should know this secret. We didn't think we discovered it. It was a mistake."

Ye Fan was full of emotion.

The Peak Master Wangqing went to Tongyou Mountain, and the many strong people in the Tongyou Valley of Lianhe Tongyou were able to seal the Jiyinguanyan, and the group should not rush back for a while.

"This space is not small, let's explore and explore, maybe we can find the baby."

"Brother Fan, are you okay?" Yue Linglong was still worried.

"It's okay, as the blood moves, the skin gradually warms up." Ye Fan was very satisfied, and the recovery speed was much faster than expected.

"and many more."

Suddenly Ye Fan grabbed Yue Linglong, he held his breath, and led Yue Linglong into the ocean of the power of heaven and earth, and he heard someone talking on it.

...

Tongyou mountain bottom.

The vast underground palace was filled with extremely cold air.

Many great masters joined forces to suppress the cold; at the same time, suppress a monster above the spring.

Above the eyes of the extremely cloudy spring, there is an ice coffin, and a man stands in the ice coffin.

No, I can't call it a man.

It should be the corpse king.

This is a forged corpse king, frozen in the ancient coffin, and now it has recovered, and the ancient coffin has been moved, which caused the extremely cloudy spring to break open and the torrent of cold air washed out.

"Roar!"

The corpse king roared, the roar shook the sky, and the trembling Tongyou Mountain was shaking.

He is very handsome, his face is as sharp as a knife, and he is wearing a set of black armor, and he looks so majestic.

However, the red eyes and the two fangs about three centimeters long at the corner of the mouth tell people that this is an extremely dangerous existence.

"evil Dead!"

Peak Master Wangqing said with a solemn face, and said: "This corpse king has been frozen here for decades, and forged by the extreme cold, his body is almost indestructible and has undergone mutation."

Lian Hong Carp said: "Fangs, how can fangs grow? This is no longer a corpse, but a stiff."

The white-haired elder said in shock: "Zheng, does this kind of creature really exist!"

Wang Qingfeng said: "Sufficient environmental conditions can be mutated. However, he should be said to be a zombie, and he has not completely transformed into a dead body."

"Without a complete transformation, it is actually so powerful? This zombie has the level of a peak giant!" Lian Hongli's face changed, incredible.

"Decades of forging, it is strange to say that there is no level of peak giants." The Wangqing peak master is not afraid, but very excited, "If we can surrender this zombie, we will have one more peak strength through the valley! "

"Surrender? Nalanruo, you actually want to surrender the zombie? You may not be able to beat him, what are you blowing." Lian Hongli said indignantly.

"Even the red carp, you are not just a waste, you can't even use your brain."

"What do you mean!"

The two were fighting each other, and the elder had a headache, and quickly said: "When are they all, they are still lying in bed."

Nalan Ruo snorted disdainfully, and then said: "The ancient coffin town has been sealed here. It hasn't changed for decades and suddenly broke. Don't you think it's weird?"

Lian Hong Carp said: "What's weird about this. The corpse king mutated into a zombie king, and his strength rose greatly. After resuscitation, he broke the ancient coffin, causing the spring eye to break."

Nalanruo squinted and said sarcastically: "So I said that your brain is not working well, and normal people's recovery will be a gradual process. A zombie, not a human, a ghost, and an unconscious existence, how can it suddenly recover and break the seal."

"Under normal circumstances, there should be a slight change, a small part of extremely cold air gushing out, attracting our attention, rather than such a big movement like now."

The elder said: "Nalan, you mean?"

"Yes, someone must have opened the ancient coffin to make the zombie king resurrect in advance. That person, presumably, is here."

"what!"

Lian Hongli and others were shocked.

One by one, his eyes were on alert.

Nalanruo shouted: "Your Excellency, do you still want to hide? If you can enter here, it means that you are very familiar with Tongyougu. Your purpose is so strong, you have a connection with the zombie king in the ancient coffin."

The space is quiet.

Immediately afterwards.

In the darkness, one person walked out slowly, surprisingly grandma.

She was clutching a cane, seemingly injured, but her eyes were sharp at the moment, and she said lightly, "The little girl is clever."

"Nalanruo, I have seen Master Uncle."

"Uncle Master?" Even the red carp was dumbfounded, this is all awkward.

The elder sighed: "You are back, and have not seen you for many years, where have you been?"

The grandmother said: "I didn't go anywhere, just in Miaojiang, and occasionally go to Xiangxi and take a walk."

Nalanruo said, "Uncle Master, what are you going to do?"

Grandma turned to look at the zombie king trapped in the ancient coffin, a trace of pain flashed in her eyes.

Then he sighed deeply, and said: "I didn't expect a corpse transformation, and it was still on the verge of recovery. Originally, I just wanted to open the ancient coffin and take a good look, but it caused him to completely recover and wound me."

"Fortunately, he just recovered, his consciousness was confused, and he didn't run around, otherwise he would have rushed out of Tongyou Mountain a long time ago."

"It's simple to seal Jiyinquanyan. Suppress him first. If necessary... it can be destroyed!"

The last four words, grandma said very hard, seeming to be the most difficult decision made.

Lian Hongli was very upset and whispered: "Nalanruo, what is going on, she is your uncle?"

"good."

Nalanruo nodded.

She was brought by Tongyou Zhenren, the founder of Tongyou Valley, and she was a disciple of Tongyou Zhenren.

And grandma is the younger sister of Tongyou Zhenren.

Nalanruo had seen it when he was a child.

"Master Gu's junior sister?"

"Yes."

"Then what's going on with this zombie king?" Lian Hong Carp said.

Below, Ye Fan and the two also pricked their ears and waited.

He didn't expect his grandmother to have such an identity, hiding it deep enough.

"Let me do it."

The grandmother looked at the roaring zombie king and explained: "My senior sister and I have walked the same path, but I fell in love with the zombie king, but the zombie king has a hint of self-consciousness."

"When Wangqingzong learned about it, he originally wanted to severely punish me, but I thought of the relationship between me and my senior sister. They were worried that my senior sister would lead me and kill Wangqingzong again, so they only expelled me from the sect."

"Later, I was chased by the corpse-driving and refining clans in western Hunan. In order to protect me, the corpse king disappeared, so I had nowhere to go to the senior sister through the valley."

"Later, with the help of my senior sister, I recovered the corpse king. I was seriously injured at that time, and my consciousness was about to collapse. Senior sister suggested that the corpse king be frozen and suppressed on the eyes of the extremely cloudy spring, and the extremely cold air is always used. Forging his body imperceptibly."

"This is fifty years."

"It's true!"

"Senior Sister is nowhere to be found, and I am also old and in poor health."

Grandma looked at the zombie king with tenderness and sadness in her eyes.

"And you are still the same, so handsome. Unfortunately, you have become a zombie, I am afraid that the last ray of sober consciousness will be dissipated."

"I can't let you go. If you go outside, you will cause huge damage, and your life will be disgraced."

"sorry."

Speaking of this, my grandma is already in tears.

Once, she was also a genius and beauty, with a national beauty, but she never married in order to persevere.

in the end.

The hero is not old, and the red face is late.

The most sad.

At this moment, the red eyes of the zombie king left two lines of clear tears.

But under the blowing of the extremely cold air, it dissipated in an instant, and no one saw it.

These two lines of tears seem to be the last farewell.

The eyes of the zombie king became more blood red than before, and the violent aura rose steadily.

Thoroughly adapted to the state of recovery.

"Boom!"

The ancient coffin made of special materials under the feet, which has not been destroyed by the extreme cold for 50 years, exploded.

The powerful air wave blasted all the Grandmasters of the First Stage, and the Second Stage Grandmasters also squirted blood.

Only the grandmother and the others at the front could hold it, but their complexion changed drastically, unexpectedly.

Chapter 749: The zombie king is born

The scene is out of control.

The sudden rage of the Zombie King's combat power exceeded everyone's expectations.

"Huh!"

Suddenly, the zombie king rushed in.

The speed is too fast.

Even the red carp's pupils shrank and he felt a crisis of terror, so he quickly displayed his fascinating skills.

However, the power of the Zombie King was too terrifying, and the bombardment of his unique skills had no effect at all.

You know, this is an invincible physical body that has been forged for fifty years by the extremely cold air, and it's really indestructible.

"The universe moves around."

At the critical juncture, the two elders of the triple level horizontal training master level Lianhe shot, and quickly moved Lian Hong Carp around to avoid being hit by the zombie king.

That kind of horrible body, once hit, even the red carp exploded and died.

"Others go to suppress Quanyan, we suppress this guy."

Grandma gave orders.

Tongyougu's strength can be described as formidable, and twenty-eight masters of one and two levels have gone to suppress Quanyan.

On the other side, eight people, including Grandma, Nalanruo, Grand Elder, and Lian Hongli, deal with the zombie king.

Good guys.

Eight giants, of which grandma, grand elder and Nalanruo are still at the peak level.

This lineup is terrifying.

"Hey."

At this moment, Nalanruo's sword came out of his body, the cold light was pressing, and the air was frozen.

"Flowing water is merciless."

Nalanruo's swordsmanship is superb, the sword aura is like flowing water, it is endless, and the sword aura is extremely cold, with a very cold smell.

Lian Hongli's face was solemn.

He looked at the red spear in his hand, and his breath was not as good as the sword in Nalanruo's hand.

This is a pair of weapons built by the real person Tongyou back then. It is said that they were built using extremely cold air and immersed in extremely cold spring water, so they carried the aura of the forest.

It stands to reason that the two weapons are similar.

"Damn it, maybe Master Tongyou taught her other methods in private, no wonder she practiced so quickly."

Even the red carp was very dissatisfied.

He is not a real disciple of Tongyou. He joined an elder in Tongyougu at the age of eighteen. It has only been twenty years now.

The elder died early, he had no backing, but he struggled with his talents and methods to get to his current position.

Lian Red Carp's biggest goal is to take Nalanruo and unify the valley.

"boom!"

The eight giants joined forces and finally contained the zombie king, but it was only contained and could not be suppressed.

Suddenly, the Zombie King gave out a blue-gray aura, and Nalanruo's countless sword auras were directly sealed by ice.

"Extremely cold!"

"He has mastered the extremely cold air, please be careful not to be contaminated."

Grandma stopped drinking, her face ugly.

She feels uncomfortable in her heart, the former lover is now facing each other with swords.

However, in order to prevent beings from being overwhelmed, this must be done, and it must be suppressed.

Release of such a terrifying and unconscious zombie king would be a disaster for the entire Daxia.

"what!"

Some of the masters who suppressed Quanyan suffered a blow, and instantly turned into ice sculptures, extinguishing all their vitality.

It turned out that the purpose of the Zombie King was not to deal with them, but to prevent Quanyan from being suppressed.

"puff!"

The spring eye was destroyed, and the extremely cloudy spring water rippled out and splashed onto the grandmaster's arm.

The arm froze immediately, and then fell crisply.

Crunch and crisp.

The zombie king actually wanted to draw the spring water out, making the faces of grandma and others changed drastically.

Nalanruo said: "Shoot him out, you can't stay here. Tongyou Valley also has thermal weapons in stock, which can kill him."

The great elder danced wildly with white hair, pinched his hands, and a large and square cauldron emerged, buckling down.

"quick!"

Grandma shouted.

The two elders opened their eyes wide and shot with all their strength, shouting: "The universe has changed."

boom.

Tongyou Mountain exploded a hole.

Forcibly moved outside.

"Boom!"

The big cauldron exploded, and the zombie king got out, knocking grandma into the air with a lightning punch.

Then he opened his mouth and expelled a large amount of extremely cold air, forcing Nalanruo and others to retreat.

"He wants to go!"

Lian Red Carp exclaimed.

At the same time, in the secret forbidden area of Tongyou Valley, some modern technological weapons are stored here.

"boom!"

A small missile was launched and turned into a streamer to catch up with the zombie king.

Grandma's eyes sparkled.

Goodbye!

No one can contend missiles with their bodies.

"call."

However, the Zombie King expelled extremely cold air and directly sealed the missile into ice, turning it into a dumb cannon and falling down.

Boom boom boom...

A dozen reserve missiles were launched.

The blood in the eyes of the zombie king seemed to be extremely angry, he opened his hand, centered on him, the extremely cold air spread, and by the way, everything was frozen.

Although those missiles were powerful, they couldn't withstand the impact of the extremely cold air. They directly extinguished the fire, and even the elements inside were destroyed. Even if they hit the zombie king, they couldn't explode.

"What to do?" If Nalan had a sense of powerlessness, it was simply incomprehensible.

The low temperature that current technological weapons can withstand is limited, and the extremely cold air has broken through absolute zero, and no thermal weapon can produce effects in this environment.

In the sun, the black armor of the Zombie King shone with dazzling brilliance, standing in the sky like a demon.

Grandma is unwilling, if he keeps his sober consciousness, it will be another result.

Want to come.

If you are sober, don't look down on old monsters like her.

Huh!

The zombie king broke through the air.

"Uncle Master, is this?"

"never mind."

The grandmother shook her head and sighed bitterly: "There is a certain number in the world, and we can't suppress it. These promises are because he is not exhausted. Let him go. I hope he will not kill innocent people."

Nalanruo nodded.

Grandma said again: "Go back, Zhenfeng Quanyan."

...

Below the spring water.

Although Ye Fan and Yue Linglong didn't see them, they could still imagine those scenes in their minds after hearing everything.

"Zombie King? Interesting. So many giants failed to suppress, let him escape, I don't know if it was a disaster."

"Nalanruo, the great elder, and the grandmother Fan you mentioned, the three peak giants, plus two masters of the unity of heaven and man, plus the three giants such as the red carp. Isn't the zombie king invincible?" Yue Linglong said with lingering fear.

"Not so much." Ye Fan shook his head and said, "The hidden dragon and crouching tiger in the martial arts world, it is not the turn of a zombie king to dominate, such as the mysterious corpse king, I feel better than the zombie king. I even suspect that there will be a battle between the two sides."

"Hey, there is another movement? Grandma and the others returned to Zhenfeng Quanyan. When it is over, if Nalan is about to return to Wangqing Peak, we are running out of time, and quickly explore this space."

Ye Fan and Yue Linglong act separately.

This space is square, about 800 meters in vertical and horizontal, and the area is still very large.

I don't know how this was formed, could it be that Nalanruo excavated it?

Not long.

Yue Linglong had some gains, and she unearthed a few precious medicines, but she was not a peerless medicine that could be reborn, and she was a little disappointed.

then.

Ye Fan found a small pond, only ten meters in diameter. There were some fish in the pond.

These fish are silvery white, palm-sized, and there are not many in number, less than twenty.

"The fish that can survive here can't be simple."

"I'll grab one and take a look."

Yue Linglong moved quickly, raising her hand to catch a small fish.

The next second, a painful call was made.

Ye Fan was shocked and found that Yue Linglong's hands were severely frostbited, and he quickly moisturized with the power of Qi and blood.

"Brother Fan, this little fish is cold and biting. It's terrible. If you weren't here, my hand would be useless."

Long Xin Yue Ling had lingering fears, but fortunately, Ye Fan's vitality and blood had a strong effect, slowly resuscitating her frostbitten flesh and blood, and regaining vitality again.

"I suspect that this little fish lived in extremely cloudy spring water. It was caught by Nalanruo and kept here." Ye Fan guessed.

"But what's the use? Is it possible that she can eat such a terrifying fish?"

"There must be her means. We can't take this fish, nor can we take it away. Continue to see other places."

Ye Fan is more and more interested in this space, but time is urgent, unable to explore the details.

Leaving the fish pond, Ye Fan and Yue Linglong found nothing along the way. They were unwilling to leave like this and returned to the pond again.

"Brother Fan, didn't you say you can't take it away?"

"Have you noticed that the fish is cold and biting, but the water in the pond is normal."

"It's really strange. It stands to reason that these dozens of small fish are enough to make the water in the pond fall to Baidu, and even freeze the pond." Yue Linglong was puzzled and thoughtful.

Ye Fan walked around the pond a few times, suddenly patted his thigh, and said weirdly: "Why are we bothering with this brainpower? Just take the pond water with you."

Yue Linglong also found the small wooden barrel and said, "This must be used by Nalanruo to hold fish."

"I'll try it." Ye Fan controlled a wooden barrel to hold a few small fishes, and as expected, nothing changed.

Although I can't figure it out, why bother with so much, just take it away.

"Brother Fan, didn't you say that this fish is useless?"

"I can't eat it, but it can be used as a hidden weapon." Ye Fan said slyly.

Yue Linglong was startled, secretly saying that Ye Fan was too dark-bellied, this little fish was a hidden weapon, it was terrifying not to be wanted, even if the pinnacle giant accidentally wanted to do it.

"Brother Fan, okay, there are already ten, enough is enough."

"Catch a few."

"How many are you going to keep for me?"

"Leave two or three... Fuck!" Ye Fan was startled, and suddenly turned around to find Nalan Ruo holding a long sword, standing not far away like a frost.

Chapter 750: Each gains

"Nalanruo, why did you come so fast!" Ye Fan said as he pulled Yue Linglong behind him, and handed the barrel to her.

"If I don't come, you will have stolen the extremely yin fish."

Nalan's face was expressionless, but the sword was trembling slightly.

Ye Fan is on the verge of an enemy.

This is the pinnacle giant, and it is still in her turf, it is too difficult to protect Yue Linglong herself!

"You are so brave, sneak into my secret area to steal. Tell me, how do you want to die?"

"Beautiful sister, you can't blame me for this. Your subordinates pitted me. I fell into a trap and fumbled all the way here."

"I heard that you are Ling'er's cousin?"

"Yes."

Ye Fan laughed and said, "Ling'er is your disciple, I am her cousin, and we are our own. I am very interested in this extremely yin fish. Give me two or three, how about?"

"Sister, let's make a friend. Or if you feel that you are at a loss, I'll go out and beat even the red carp. You should not look at that girly cannon pleasing to your eyes, right."

"In short, don't do it. You can't suppress me for a while; and if I try my best, sister, you will not feel good. There is extremely cloudy spring water above it. If the aftermath of the battle makes the spring water surging and breaks through the spring again, the loss will be even greater."

Nalanruo snorted coldly: "It's really a sharp-toothed kid, but you can't change the result even if you talk smartly."

Seeing that Xiaozhi's affection was useless, Ye Fan snorted, "You should have seen my fight with Lian Hongli. I am not a weak person. Are you sure you want to fight me to death and life?"

"just you?"

Nalanruo was full of disdain, and said sarcastically: "Don't compare the **** of even the red carp with me, look at the sword."

Damn, really fight!

Ye Fan hurriedly fought back, the power of blood and blood came out; but Nalanruo's sword was really too sharp.

Rao was multiple obstacles, and was also split by a sword.

Sword Qi fell on Ye Fan's head.

"Boom."

Suddenly, this sword gas collapsed.

"Nalan, give the uncle a face, don't care about this kid."

"Grandma."

Ye Fan breathed a sigh of relief.

Grandma came to the pond from far to near.

Nalanruo asked: "Uncle Master, do you know him?"

The grandmother said: "There is indeed a fate. I thought he would help me treat the corpse king. Unfortunately, there is no chance now. The corpse king has transformed into a zombie king, completely hopeless."

"Not always."

"Um?"

The old grandmother's eyes flickered, her breath locked, and she asked in a low voice, "What did you just say?"

Ye Fan said, "Grandma, I said that I still have a lot of room for improvement in medical skills. In the future, my medical skills may not be able to save the zombie king and restore him to his original sanity."

Nalan Ruo said coldly: "Uncle Master, don't be fooled by this kid."

The grandmother raised her hand, beckoning Nalan not to disturb, she stared at Ye Fan closely, and solemnly asked, "How long will it take?"

Ye Fan said, "To be honest, I don't know. Medical skills are more difficult than martial arts training, but there is at least a glimmer of hope, isn't it."

"You are right, there is at least one hope." Grandma patted Ye Fan on the shoulder and praised: "Good boy, I didn't see you wrong as expected."

Nalan Ruo was a little dissatisfied, and said, "Uncle Master, do you really believe in this kid?"

"Nalan, to be honest, although you are strong, Ye Fan is not a vegetarian. If you really fight, this kid is dead, and you can't help it."

"Extreme Yin fish are indeed precious, and there are many in this pond, so it doesn't hurt to give him a few."

Ye Fan quickly winked at Yue Linglong, who poured out a few extremely yin fish from the bucket, leaving three extremely yin fishes.

Nalanruo frowned, then let go.

Uncle Shi has said so, if she insists on targeting Ye Fan, she will not give Shishu face.

"Well, just listen to what Uncle Master said." Nalanruo put away the sword.

The grandmother looked up at it and sighed: "This is the secret space discovered by the senior sister back then. Cultivating in the power of heaven and earth will have great benefits. At the same time, you can also get extremely cold training."

"Only Senior Sister and I know about it. I didn't expect Senior Sister to tell you. Your sword should have been tempered in the power of heaven and earth for a long time, otherwise it can't be stronger than the long spear of even the red carp."

Nalanruo said, "That's true. I also practice in it occasionally. The extremely cold air diluted by the power of heaven and earth is much less powerful and can withstand it."

Ye Fan came over with a bucket and asked, "Grandma, Peak Master, what is the function of this extremely yin fish?"

A trace of reluctance flashed in Nalanruo's eyes.

I don't know how many years, a small number of extremely Yin fishes were born in the extremely Yin spring; and she has only caught so much effort over the years.

Each one is precious enough.

"Fish is of course for eating, which is equivalent to a peerless medicine."

"What! The equivalent of a peerless medicine?" Ye Fan was taken aback. If so, Nalanruo is equivalent to raising more than twenty peerless medicines.

It's worth it!

The grandmother smiled and said: "It is not as exaggerated as Nalan said. The extremely yin fish is very suitable for women with yin physique for cultivation. trouble."

Yue Linglong asked incomprehensibly: "Mother-in-law, this extremely yin fish is so cold, there may be extremely yin spring water in its body, how to eat it?"

"Yin and Yang reconcile."

Grandma spit out four words.

"There is extremely yin, and there must be an extremely yang. In fact, I am also very confused. When the senior sister found the extremely yin fish, because there was no extremely yang thing to reconcile, she could only stare. Nalan, did you find the extremely yang thing?"

Nalanruo said: "The thing of the extreme sun is a treasure of heaven, material and earth. It is still unknown. I was lucky a few years ago and found a peerless medicine with fire attributes in the Qinling Mountains. I use it to reconcile it. Extremely yin fish."

The grandmother said: "The peerless treasure medicine with fire attributes, ah, although it is not as good as the polar sun thing, it is enough. You practice so fast and have such a solid foundation, it should be because of this."

"Yes, but now the treasure medicine is used up, if I can no longer find the peerless treasure medicine with the fire attribute, I can only stare, and I can't eat the extremely yin fish."

Nalanruo was very distressed.

Ye Fan rolled his eyes and said, "Peak Master, if there is a chance, let's go to the Northern Wilderness Wanzang Mountain in the future, where there are many peerless treasures."

"I've been to Wanzang Mountain, it's very mysterious, and the headless knight in it is terrifying."
Nalanruo seemed to have lingering fears.

Ye Fan invited Nalanruo because he wanted to deal with the headless knight.

"One more person, one more point. I played against the headless knight, escaped in his hands twice, and got two peerless medicines. I am very experienced."

"Oh?"

Nalanruo looked at Ye Fan.

A woman who cuts off her emotions and desires is actually very repulsive to men.

However, Ye Fan said that he had experience dealing with the Headless Horseman, which made Nalan very heart-warming.

Coupled with this level of relationship with the uncle, Nalanruo's hostility towards Ye Fan has been reduced most.

"Let's talk about it later, if there is a chance to make peace, we can cooperate."

"Hahaha, well, time won't be too far."

The world situation has changed now, and I don't know what will happen in the future?

If the world is really chaotic and perilous, the safety of the sisters will be a big problem.

I can't take my sisters everywhere. Besides, my sisters have their own business.

So being strong is the kingly way.

Ye Fan also intends to go to Wanzang Mountain as soon as possible to obtain a few peerless treasures to reinvent his sisters.

"Peak Master, why doesn't this extremely yin fish freeze the water in the pond?"

"The water in the pond is specially prepared by me, mixed with a lot of yang substances, which has a restrictive effect on extremely yin fish."

"I see."

The four of them walked while chatting, and gradually left Wangqing Peak.

Ye Fan didn't mention Ye Ling'er. He wouldn't think that if Nalan talked with him for a while, he would treat him as a friend.

Nalanruo didn't do anything just because of her grandmother's face.

If he proposes to take Ye Ling'er away, it will be trouble again. Ye Fan still follows his previous plan—waiting to go back to Zhongzhou for a visit to Wangqingzong, and personally research and study how to crack the secrets of love cutting.

"You leave as soon as possible, even Red Carp is asking about your whereabouts." Nalanruo reminded.

"Grandma, what about you?"

"The world situation has changed drastically, and the corpse emperor launched the Dragon Slaying Plan. I am worried that it will come to Tongyou Valley and stay here for the time being. You are all careful and working hard to improve your strength is the kingly way."

"Understood, then we are leaving, there will be a period later."

Ye Fan took Yue Linglong away from Wangqing Peak.

Yue Linglong said, "Eh Fan, Qitian is gone, should we ask?"

"Follow him, that guy has a hard life, he won't be planted so easily, let's go first."

"Okay, I hope he's okay."

"Why, fell in love with him?" Ye Fan quipped.

Yue Linglong glared at him and hummed: "I just think Qi Tian listens to a gentleman, and I am very grateful for saving me to enter Tongyou Valley alone."

...

The top of Wangqing Peak.

The grandmother exhorted: "Ye Ling'er, you should accept as a disciple, and practice the sword of forgetting emotions. In the future, you will cut off your sword to sacrifice your life, right."

"Yes."

"Don't hit Ye Fan's idea. I am very optimistic about this kid. He has strong luck and cannot be an enemy."

Grandma finished speaking, and left floating.

Nalanruo thought secretly and agreed with her grandma.

Suddenly, her eyes became sharp, and she became sulky, "Unexpectedly, there is a small bug. Hmph, both cats and dogs come to beat me on Wangqingfeng's idea and look for death!"

A quarter of an hour later.

Qi Tian was soaked in blood, and he ran away from Tongyou Valley cursingly.

"Madan, crazy woman, isn't it just a bird's egg? As for it."

"But I also hid one."

"Holding this way, I'm exhausted."

Qi Tian took out a watermelon-sized bird egg from his crotch, his eyes gleaming, excited.

There were too many strong people in Tongyou Mountain and too dangerous, so he didn't go. Instead, he found three bird eggs on Wangqing Peak. According to his careful research and identification, they were suspected to be the eggs of a Dapeng bird.
