

## Elegant SS 791

Chapter 791: Put Ye Fan on the Dragon Slaying List

"Kang Dang."

Ye Fan rushed out of the bedroom.

Later, Yue Linglong killed him and shouted angrily: "Ye Fan!"

Su Muyu came after hearing the news.

"What happened?"

"Sister, he bullied me." Yue Linglong wiped her mouth and said angrily.

Su Muyu looked at Ye Fan, who was running away, and noticed the bright strawberry print on his neck.

She thought that what Yue Linglong said about bullying meant that.

So Su Muyu persuaded: "Linglong, you are so beautiful, which man can stand it, Xiaofan is full of blood, it is inevitable that he will be rude on impulse, don't be angry, slowly run in, there is still time."

"Sister, it's not... Oh, forget it, don't say it." Yue Linglong went back to her room and brushed her teeth. Just now, I thought Ye Fan would let her do that. Unexpectedly, Ye Fan slapped her stinky feet on her face, angry. She's choking.

Ye Fan left Tianzun Mansion and sent a message to Nalan Ruo, which basically meant to let her do her own activities in the Northern Wilderness, and he had to postpone it for two or three days before arriving in the Northern Wilderness.

Tianzun Temple.

Capital headquarters.

Located in a large natural manor in the suburbs, Ye Fan came here, Xing Tian was commanding operations.

The Corpse Man has two strongholds: one in Cangzhou and the other in Tianzhou.

Both places went to war.

Xing Tian was in the command room. Watching the live broadcast, the picture exploded.

"Boss, you are here."

"How is the battle?"

Xing Tiandao: "We attacked suddenly, naturally we have the upper hand. The battle in the stronghold in Tianzhou is coming to an end, and it can be said that it was completely destroyed, but there are not many people in the stronghold."

Ye Fan said, "This is natural. The Dragon Slaying Plan has begun. The strong corpse-man organization must have gone out to perform tasks, and will not stay in the stronghold."

At the right time, news came from Cangzhou, Xing Tian was overjoyed, and the report: "Cangzhou also has a great victory."

"good!"

"See if you can grasp the leader of the stronghold and force the location of other strongholds."

...

The destruction of the two strongholds is a big loss and a big event for the Corpse Human Organization.

The depths of Kunlun Mountain.

The first stronghold of the Corpse Organization can also be said to be the headquarters.

In the central black hall, the parliament hall is full of people. They are all grandmaster-level existences, and they are members of the organization's headquarters.

Ba Gu is among them.

He did seek a position and a half.

At this moment, everyone's face shone with anger.

"Fight back!"

"We must fight back!"

"It's so arrogant, dare to destroy our organization stronghold, this is Daxia's revenge against us."

"It doesn't have to be Daxia."

"There is secret information, it was Ye Fan's power who started it!"

"Ye Fan?"

"It's Ye Fan, who is the supreme arrogant, who killed the eight peak old monsters? Didn't he fall? Is he still alive."

"It's alive indeed!"

"Good guy, our organization didn't slaughter him, so he dared to die. My emperor once said that he was killed by Ye Fan, but he was not included in the list. I suggest that Ye Fan be officially included in the list of dragon slaying. ."

"agree!"

"agree!"

All MPs reached an agreement.

At this time, a giant said: "Secret intelligence, Ye Fan can intercept and kill if he wants to go to the Northern Wilderness."

"Properly."

...

Two days later.

During this period, Ye Fan did not return to Tianzun's Mansion, and stayed with Tang Ying and took care of her.

Today Tang Ying finally wakes up.

"Ahem."

Tang Ying was very fragile. She slept for a month, and now she is very afraid of the sun.

"Am I in hell?"

"sister."

"Xiao Fan?" Tang Ying was at a loss, unable to turn her head.

Ye Fanrou said: "Sister, you are doing well, this is the capital."

"I'm not dead?"

"Why, if the Lord Yan accepts you, I also want to enter the Yin Cao dynasty and \*\*\*\* you back."

Tang Ying chuckled.

But the body was very painful and weak, and the whole face was twisted.

Ye Fan exhorted: "Sister, your injury is very serious. Now the main thing is to heal your injury. Don't think about other things. My sisters don't know that you were injured. This is the mansion where the medical sage Bianque beat him, not the Tianzun mansion."

Tang Ying couldn't lie down at all.

After sleeping for a month, she felt that her body was very strange, and she urgently needed to walk around to help.

Ye Fan had no choice but to get out of bed with his arms around Tang Ying; he gradually adapted to the environment and came to the yard.

Bian Que also came to see Tang Ying.

Although he is a medical sage and has a high status, he dare not neglect Tang Ying.

These two days.

Ye Fan taught Bian Que some medical skills again. Because Tang Ying awakened, he was going to the Northern Wilderness. Next, he needed Bian Que to help Tang Ying recover from his injury, so Ye Fan gave a lot of instruction.

Ye Fan also told Tang Ying what happened during this period.

Tang Ying was very worried when he learned that Daxia and Yingguo were fighting and the Northern Wilderness was in chaos.

She is Daxia Houye and wants to go to the battlefield very much.

"Sister, you know these things, don't worry, someone will take care of them."

"You must be careful when you go to the Northern Wilderness. The pseudo-god among the supernatural beings, the super powers are mysterious and unpredictable, don't be careless."

"I see."

"If you want to go, go as soon as possible. I have the medical saint's treatment, no problem; you quickly go to the Northern Wilderness to kill the enemy, you are needed over there."

"I will leave tomorrow."

Tang Ying is weak, unable to move for a long time, and is easily sleepy.

When she fell asleep, Ye Fan and Bian Que came to the secret room.

There are small furnace tripods and many medicinal materials here.

"let's start."

With an order from Ye Fan, Bian Que caught fire and began to throw medicinal materials into the furnace in an orderly manner.

This is alchemy.

Chapter 792: You're done

Before leaving, Ye Fan wanted to refine some Pei Yuan Dan for Tang Ying to help recover his injuries.

I once went to Shiwan Dashan with a family of Chinese medicine practitioners, and found the Dongfu of the Inheritance of Medical Dao, and obtained the thaumaturgy of medical Dao: Pei Yuan Shu.

The role of this thaumaturgy is to consolidate the foundation and strengthen the body.

It is also alchemy.

The refined medicine is naturally Pei Yuan Dan.

At the beginning, Meng Qingyin had eaten the "perfect pill for cultivation" found in the inheritance of the Dongfu, and he was reborn and became the master of martial arts.

Of course, Ye Fan is still unable to refine the perfect Yuanyuan Pill; in the past two days, he and Bian Que studied the cultivation technique together, and tried to refine them, without a doubt all of them failed.

Gulugulu...

The concoction was boiling in the furnace.

Ye Fan continued to throw medicinal materials into it, each of which was a rare and precious medicinal material.

These were provided by Daxia Longge to Tang Ying to recover from his injuries, anyway, he didn't need to pay for it out of his pocket, Ye Fan was very willing.

"Boom!"

Suddenly, there was a muffled sound.

Then a pungent black smoke rose from the furnace.

Bian Que smiled bitterly, "Master, the fryer has failed again."

"Go on, I still don't believe it can't be done. You continue to control the heat, and I control the proportion of medicinal materials."

Ye Fan was not convinced.

In fact, Bian Que is also very motivated. He is also learning the cultivation technique.

Once the alchemy is successful, he will also master this secret method, and his medical skills will surpass Hua Tuo and Guigu.

"boom!"

"boom!"

"boom!"

After the fryer, the whole secret room was full of black smoke.

Ye Fan and Bian Que have gray heads and faces.

But the two did not give up.

Time passed, and it was the next morning, Bian Que and Ye Fan were very embarrassed and numb.

I don't know how many times the fryer has been in the fryer, and both of them are almost deaf.

At this moment, the two are very nervous.

The furnace ding is boiling, and the most critical time has been reached, as long as you cross this step, it will be done.

Both of them held their breath.

Ye Fan felt that this was even more nervous than killing the eight peak old monsters.

One minute, two minutes, three minutes...

A quarter of an hour later.

The movement of the originally boiling furnace gradually weakened, and finally became extremely calm.

Next second.

A scent of medicinal incense diffused out of the pot.

"It's done!"

The two yelled in unison, and then the master and apprentice hugged each other and almost cried bitterly.

too difficult!

Special code, it's really too difficult.

Finally succeeded.

"Master, lift the lid to see what the refining looks like."

"Wait, let it brew for a while." Ye Fan was very excited. This was his first alchemy.

In fact, in the "Tai Shang Medical Classics" he studied, there are also alchemy methods, but it is too profound, he has not yet studied and enlightened.

Alchemy is a handicraft of Chinese medicine.

It's not fantastic.

There are records in the historical data of Daxia, and there were sorcerers who made alchemy in ancient times.

The simplest is to rub the balls.

Then, on this basis, deepening, and through the evolution of thousands of years, there is today's alchemy.

"All right."

Ye Fan took a deep breath and uncovered the lid, and Bian Que picked up the pill with a clip made of red sandalwood.

This is a black pill.

Ye Fan's brows furrowed, and this ball looked wrong.

He has seen Pei Yuan Dan.

The whiter the color and the better the gloss, this black ball...

"You eat it and try it."

Ye Fan stuffed the pill to Bian Que.

"Master, Tu'er is not young anymore and can't stand the toss. It's better for you to eat."

"Don't worry, if something happens, I will have me, and I will save you."

"I see goodbye, or give it to the rhubarb in the backyard and see how he reacts."

now.

In the backyard, a big yellow dog who molested the tabby cat was suddenly excited, feeling uneasy, and ran away.

The tabby cat seemed to be having trouble playing, so he chased it up.

Ye Fan and Bian Que came to the backyard.

"Eh, where's the rhubarb?" Bian Que looked around, but didn't see the shadow. "The little flower is gone, where did he go!"

"Stop the ink, come on, God's will."

"Master, this..." Bian Que wanted to cry without tears, tangled again and again. He closed his old eyes and swallowed the pill.

After a while, Bian Que became nauseous and retched, and his whole body felt like fire.

"Master, save me!"

"You can't die, continue to observe and observe, don't worry."

Bian Que almost cursed.

In a moment, the symptoms gradually subsided, and Bian Que plunged into the toilet.

It took half an hour to come out.

"How about it?"

"The pill is effective, but the process is a little uncomfortable, and then I have to pull a big bubble of black papa, which smells terribly, and almost killed me. Hou Ye is a fairy-like character, and it is not good to pull black papa. I don't think it can be given. Lord Hou eat."

"Thanks a lot."

Bian Que wiped his cold sweat.

Ye Fan concluded: "But it is not without gain, at least we can successfully refine the pill, and we need to improve it step by step."

"Yes, it's a big step for success."

"I'm going to the Northern Wilderness. Next, you will try to refine the pill, and strive to refine the white pill for pill cultivation when I come back."

"Master, I will try my best."

Bian Que is very serious. This is a task that will test him very much. If it succeeds, he will surely go down in the annals of history.

Ye Fan came to bid farewell to Tang Ying.

Tang Ying recovered quickly, and now she can get out of bed and walk around by herself.

Afterwards, Ye Fan returned to Tianzun Mansion.

Su Muyu scolded him badly, saying that he had died outside these days and would not go back, and that Linglong had not planted any seeds.

Ye Fan was ashamed, took the opportunity to slip away, took a private fighter plane, and left the capital.

The fringe area of Central State.

On the top of a mountain, twelve black-robed men stood there, all giants.

"From the capital to the northern wilderness, the nearest sky route must pass through this area."

"Secret intelligence said that Ye Fan has left the capital."

"Then let's wait quietly."

"Today is the day when Ye Fan fell, and I can't save him!"

Chapter 793: Manufacturing gap

On the fighter plane, Ye Fan did not slack off, but was ready to fight.

He had an intuition that the journey to the Northern Wilderness this time was not stable.

The two strongholds have been taken, and the strong corpse man organization must have known it. As for whether he can investigate it, it is not yet known, but Ye Fan has to guard.

In fact, the fighter can turn on the stealth mode, which can completely avoid the detection of the corpse man organization, but after careful consideration, Ye Fan did not plan to do so.

He decided to confront the corpse man organization head-on, and if he could capture the authority alive, he might ask the corpse emperor for some clues.

Three hours later.

The fringe area of Central State.

The pilot suddenly said: "Tianzun, the thermal scanner image feedback, there is an ambush ten kilometers ahead."

"good."

Ye Fan nodded and said: "Open the cabin; you turn on the invisible mode and find a place to wait for me."

"Tianzun be careful."

The pilot admired him very much and watched Ye Fan step out of the cabin, flying out of the sky.

Subsequently.

The Thunder fighter was invisible and disappeared.

Ye Fan landed and approached the ambush spot, and soon found some weapons and equipment.

"Good guy, eighteen cannons, it is suspected to be equipped with a few missiles. This is too immoral."

Ye Fan cursed secretly, and then reluctantly solved the ambushing group of living dead soldiers.

All weapons and equipment were also destroyed.

Continuing to explore, Ye Fan found twelve giants on the top of the mountain in the distance.

"Good guy, you can count on me so much, the twelve black-robed men, this should be to use the earthly dragon slaying formation, and directly triple the combat power."

"Be careful."

Ye Fan didn't have the impulse. It's not worth the injury here. You must solve a few first, so that they can't form a combined attack.

The top of the mountain.

The twelve giants were unaware.

"Calculate the time, it should be almost here."

"Later, let the ambushing soldiers use firepower to kill a wave, even if they can't kill, Ye Fan will not feel good; then we will use the combined attacking method to crush and kill strongly, don't talk nonsense, and avoid accidents."

"Yes, don't talk nonsense, just shoot."

"The villain died of talking too much!"

At this moment, several fierce beasts of the Beastmaster level rushed to the top of the mountain, roaring again and again.

People in black robes disdain.

"Little Beastmaster, dare to provoke and seek death!"

A giant punches.

But these beast kings were very flexible and vigorous, hiding in the past, and then launched a counterattack.

"Naughty animal, look for death!"

The giant shouted angrily, took a step, jumped ten feet, and captured a beast king.

at the same time.

In the mountains and forests, a finger light shot like lightning, and instantly submerged into the black robe man's eyebrows.

Died unexpectedly on the spot.

The beast king rushed forward and divided the black-robed man into his body.

"not good!"

The other giants awakened.

"Enemy attack!"

The eleven people yelled together, and the atmosphere of giants broke out in an all-round way.

boom!

A big golden seal appeared, carrying the true meaning of "Zhenhai".

Suppress a black-robed man with all his strength.

"what!"

The black-robed man's legs clicked, and could not bear the pressure and broke.

"scold!"

Immediately afterwards.

A fist gang carrying Fengrui's true intention to "open the mountain" struck.

"presumptuous."

The three tycoons closest to this person were furious, and they all tried to stop them.

But it couldn't stop the cutting of the true meaning of "opening the mountain", and the unique knowledge was defeated.

However, the power of Ye Fan's punch was also weakened. He could have killed the black robe, but in the end he only flew it and severely wounded it.

"Ye Fan!"

"Grass, it's Ye Fan!"

Everyone finally reacted.

They didn't expect this result, Ye Fan quietly killed and attacked, killing and wounding.

The Twelve Earthly Branch Dragon Slaying Array could not be formed anymore.

This is bad news.

The ten black-robed men have ugly faces. They are not the peak giants. Some of them are close to the peak giants, and the rest are medium-sized giants.

Their confidence is the weapons and missiles ambushed in the mountains and forests, as well as the earthly dragon-slaying array.

Judging from the current situation, the large formation could not be formed, and the ambush in the forest should have been wiped out by Ye Fan.

The situation is not optimistic.

Ye Fan appeared, wandered to the top of the mountain, grew up and said with a smile: "Everyone, how is my strength?"

"How did you find us?"

"It's not easy. The fighter I'm riding in has a thermal scanner, which is calculated into an image by scanning the feedback information. To me, your ambush can be seen at a glance."

"Impossible. Our black robes are specially made to shield all scanning; the living dead soldiers in the mountains and forests also wear black robes and cannot be scanned."

"This is due to my advanced technology." Ye Fan is very proud, the technology and equipment of the Tianzun Temple is very advanced.

As one of the world's three warplanes, the Thunder fighter is a treasure of the Tianzun Temple, equipped with world-class functions.

It is true that these black robes can block scanning, but there are still leaks.

In fact, the Thunder fighter scan found that there were only a dozen living dead in ambush in the forest, but in fact there were dozens.

There is a big error.

This also shows that the black robe equipment of the corpse man organization does have a lot of shielding ability.

"Don't talk nonsense, do it quickly, don't die of talking too much."

"kill!"

The ten were very decisive and did not procrastinate.

Ye Fan smiled and said: "I can even kill eight peak old monsters. None of the ten of you are peak giants, and you dare to shoot at me, don't you know how to write death."

"Ye Fan, don't talk about it. You used a fierce storm in the mountain range where Wang Qingzong is to kill the old monster. It has nothing to do with you."

"Oh? The news is pretty good."

Ye Fan was not surprised.

He estimated that after Nalan Haizhu was expelled from Wangqingzong, he was dissatisfied, so he burst out this secret, weakening his reputation; but Nalan Haizhu did not reveal the news that he was still alive, which surprised Ye Fan.

"Form a formation!"

The boss roared.

When Ye Fan saw the ten people forming a combined attack formation, his eyelids twitched, and then sneered: "What a combined attack formation is this, there are so many loopholes."

"Although it is a broken earthly dragon slaying formation, it can also double our combat power. Ye Fan, we don't believe that we can't kill you!"

"Long Sword!"

"Om."

The world trembled and hummed.

A huge knife appeared in the sky, it was a hundred meters long, and seemed to be able to cut through the sky.

"cut!"

The giant knife slashed down fiercely.

Ye Fan was excited, this blow was comparable to the full blow of two peak giants.

"Swallow."

A vortex appeared in Ye Fan's palm, swallowing the qi, weakening the power of the giant sword.

This scene made the black robe giant incredulous and screamed:

"How can it be possible to swallow the qi?"

"Everything is possible."

Ye Fan attacked against the sky.

The domineering body wakes up.

Zhenhai with one hand, and mountain with the other.

Fused together.

These two true meanings are fused, and Ye Fan has already used them more skillfully, with a high success rate.

Thick and sharp.

The fusion of the two contradictory attributes produced a qualitative change.

Only see.

Ye Fan grabbed the giant knife with one hand.

Although his body was falling rapidly, he stopped when he was 100 meters above the ground.

"This kid is too enchanting, we need to work hard, don't hide anything, hurry, hurry."

"Puff puff."

Ten people vomited blood together.

This seems to be a taboo secret technique, which is their natural essence and blood, integrated into the giant sword.

In an instant, the giant knife evolved from white to crimson at a speed visible to the naked eye.

Power greatly increased.

The giant knife sank one centimeter, which meant that the blade plunged one centimeter into Ye Fan's palm.

"Great!"

Ye Fan secretly admired, he frantically used the devouring method, but the giant knife suddenly violent.

"Boom!"

The giant knife exploded and turned into a spear.

To nail Ye Fan in the air.

Chapter 794: Overturned in the gutter? State Border Patrol

This incident caught Ye Fan a little by surprise, his body trembled, and his blood rushed.

However, this spear was blessed by essence and blood, and it was fierce, piercing Ye Fan's blood, and bombarding Ye Fan's body.

"puff!"

Penetrate into three centimeters.

Ye Fan was furious, and with a backhand punch, the badly injured black-robed man was wiped out.

???

He squeezed the scarlet spear, but he didn't expect another one to appear in the air.

"Ye Fan, ten of us spent our lives and blood desperately killing you, you can't escape."

"We are going to \*\*\*\* your body with sore holes."

"Huh!"

"Whhhhhh..."

For a time, the blood-colored spears condensed continuously, and the ten spears gleamed with blood-colored light across the sky.

Ye Fan touched the wound, there was nothing serious, but it pierced the muscle, if one centimeter deeper, it would be dangerous, and it would pierce the internal organs.

After recovering from the last serious injury, Ye Fan obviously felt his physical strength increased by one point.

This is breaking and then standing.

Ye Fan is not afraid of injury, on the contrary, he is eager to fight in blood.

"Come!"

One word shakes the universe.

Ye Fan grabbed the Scarlet Spear.

"Arrogant!"

The black-robed man controlled a spear and assassinated Ye Fan from all directions, at a tricky angle and fierce.

Puff puff.

In a short while, a dozen wounds appeared on Ye Fan's body, with blood flowing, and blossoms of blood appeared in his white clothes.

The black-robed man was also secretly shocked.

"How can this little devil's body be so strong that it can't be pierced? It's stronger than the body of a high-level corpse king."

"Catch this kid alive and refine it into a living dead. I think he will be the strongest, chasing the zombie kings and ministers."

"Then we have done a great job."

The scarlet spear was built into a cage, covering Ye Fan, trapped on the top of the mountain.

After that, the power of the ten domains was suppressed, layer upon layer, and reached a terrifying level.

Ye Fan's body was trembling, and the mountains below his feet began to collapse.

"Comfortable."

Ye Fan secretly said in his heart.

He simply sat cross-legged, letting the power of the domain hit his body.

With every impact, his body kept trembling, blood rushed in his body, and his internal organs were shaking.

Ye Fan enjoyed this feeling very much.

At the same time, a sharp force cuts the power of the domain, which is the true meaning of the mountain.

"Suppression!"

The ten giants madly increased the power of the domain, and confronted Kaishan Zhenyi.

Ye Fan is also sharpening his true intentions.

Now he is just getting started. If he can achieve a small success, his power will be greatly improved, and it will be even more terrifying if he merges with Zhenhai's true meaning.

Persevered for a quarter of an hour.

The leader shouted: "Something's wrong, this kid is using us as a sharpening stone."

"what!"

"Damn boy, don't stand in a stalemate, you have to kill him desperately."

The ten people looked at each other and nodded at the same time, spitting out blood.

Rumbling.

In an instant, there was another change.

The blood-colored spears exploded one after another, turning into five black and red skull claws, and they grabbed Ye Fan's head and limbs to divide Ye Fan into five horses.

The blood-colored skull claws were extremely powerful, and Ye Fan's clothes were wiped out before they arrived.

His white robe was made with a lot of money in the Tianzun Hall. It was extraordinary, and it was the most advanced material in the world.

Even if it was bombarded by gang gas, it was relatively intact.

But now.

Instantly disappeared.

Predictably, the horror of this scarlet skeleton hand.

Dense bloodstains appeared on Ye Fan's whole body. He woke up, roared, and waved his fists madly.

"Boom!"

"Boom!"

"Boom!"

Three skeleton hands were defeated by him.

However, the remaining two grabbed his legs, and a violent force surged in, and Ye Fan felt that his legs were about to be squeezed.

"Swallow!"

A vortex appeared in the palms of Ye Fan's hands, covering the skeleton hands, absorbing energy frantically.

The complexion of the people in the black robe changed drastically.

"This kid is absorbing the energy of our life's essence and blood, my god, can he absorb any energy, this is not invincible in the world."

"Do it!"

They couldn't help it anymore and dived down and launched a fierce attack.

Ye Fan had already got rid of the skeleton hand, but his legs suffered varying degrees of loss.

"Shrink to an inch."

He moved tens of meters across.

In the next second, he launched a counterattack. This was Ye Fan's angry killing, instantly knocking the two black-robed men into flight.

"You guys are playing well, it's mine."

Relying on the method of shrinking the ground, Ye Fan cut the opponent's defense with the true intention of opening a mountain, suppressed the opponent's restricted movement with the true intention of Zhenhai, and launched a brutal bombardment with the power of blood.

Bang!

Puff puff.....

Within minutes, a few people were beaten up again, and the sky was stained with blood, and the situation reversed.

"Surrender and not kill."

Ye Fan shouted four words domineeringly.

However, the boss sneered and said: "Still crazy, you are afraid that you don't know that you are in a desperate situation."

"Um?"

Ye Fan was inexplicably uneasy.

At this moment, the leader pinched his hands and drank: "Blood entanglement."

Wow!

I only saw that the blood sprinkled on Ye Fan by those black-robed men just now had all come to life.

All are connected and turned into "tentacles", entwining Ye Fan tightly.

Ye Fan could not move.

Oops!

Ye Fan was shocked, he realized that he couldn't get rid of these \*\*\*\* tentacles.

The leader sneered: "This is the \*\*\*\* taught by the emperor, how can you crack it."

"Boss, the villain died of talking too much, stop talking, just cut it off."

Someone reminded.

The boss's face was solemn, and a blood-colored spear was condensed again.

"Open the mountain!"

Ye Fan exhausted all the remaining strength to cast the mountain... In fact, he was very exhausted just now even flipping and displaying his true meaning.

True intentions are effective when used, but the consumption is also huge.

The true meaning of the mountain opened, and immediately cut open a series of tentacles.

The leader was startled, and the spear in his hand was quickly thrown out to pierce Ye Fan's head.

Ye Fan's hands didn't break free, and the spear arrived so quickly that he had no choice but to resist.

All the qi, qi and blood are mobilized to the front of the head and turned into a shield.

"Boom!"

With a bang, the scarlet spear exploded.

Ye Fan was blown up.

The mysterious power that struck suddenly exploded the \*\*\*\* spear.

"Who!"

The black-robed man warned Dasheng, stood guard, looked around, and at the same time opened up the gas shield.

"Bang bang bang."

Somewhere in the sky, a fighter plane swooped down and fired at them.

This is an air cannon.

Compressed air, ejected, is a new type of weapon.

The lethality is good, but the scope of lethality is small, and it is environmentally friendly. It is widely used in urban public security. Now many urban public security bureaus use high-end air guns.

More than a dozen air cannons bombarded, the gas shield exploded, and the black-clothed giant flew into the air.

Ye Fan was surprised.

He thought it was a Thunder fighter, but he didn't think it was a gorgeous fighter. He didn't know it.

"Black Robe, are you dressed up from the Corpse Organization?" Amidst the gorgeous fighter, a woman yelled.

"Little girl, the corpse organization dare to mix things up, do you want to die? Get out of here now!"

"Looking for death, look at my air cannon."

The woman punched the red button and the air cannon kept firing.

Although a single air cannon has little effect on the giants, there are too many, and they are swept in densely.

"Boss, what should I do?"

"This is the Daxia State Boundary Patrol Team. I am afraid that other patrol fighters will also come over. You can't get entangled, you have to leave immediately."

"Then Ye Fan?"

"There are so many chances to kill him, we can't let ourselves in. The Northern Wilderness is very dangerous, Ye Fan will not get better, the pseudo-god of the ability organization will look at him."

"go!"

The black robe giant quickly left.

The woman did not chase, but slowly landed the fighter plane and jumped off.

Chapter 795: Super frequency

This woman was in her twenties, dressed in a gorgeous police uniform, heroic, with a trace of majesty in her delicate face, and the most eye-catching thing was her waist-length ponytail.

Ye Fan grabbed a bunch of leaves and wrapped them with qi to cover his body.

Still a little awkward.

"With silver hair, it seems that you are Ye Fan, the most prestigious Tianjiao in the martial arts world recently."

"That's right, it's me, beautiful, your name?"

"Jane Wei."

"Thank you Miss Jian for the timely action, otherwise I will be in big trouble."

Unexpectedly, Jian Wei squinted her eyes and snorted coldly: "Isn't it rumored that you killed the eight peak giants? How can you train a group of black-robed men who are not peak giants to deal with? I think you, the arrogant one, are a bit miserable."

"Um, this..." Ye Fan said awkwardly, "It's careless, I didn't expect that there are so many corpse organization methods. Miss Jian, I owe you a favor, do you want to leave a contact information, if I need my help in the future You can contact me."

"No, if I encounter a difficult problem, someone will help me, I don't need you."

Jian Wei said righteously, word by word; "I am the captain of the state patrol. This mountain forest has been destroyed and needs compensation. The people of the corpse organization escaped, so I can only find you."

"Does this still need compensation?"

"Of course, if the forest is unscrupulously destroyed, it will take a few years before the environment becomes bad. This is a major matter related to mankind."

"It's reasonable." Ye Fan asked, "How much do I need to compensate?"

"I roughly estimate that it will need three hundred million yuan. Specifically, there will be a Senleng Public Security audit later."

"Don't bother, I'll give you five hundred million. You take the more than that. It's my little care." Ye Fan laughed and said, "But I have nothing and can't pay compensation. Do you have any paper and pen, I will write you a note, you can go to the capital to ask my brother for it."

Seeing Jian Wei's suspicion, Ye Fan said with a smile: "How can I say that I am also a celebrity, so I won't fall back on the bill."

Jian Wei returned to the plane and took out paper and pen; Ye Fan wrote down Xingtian's telephone number and Tianzun's address.

"anymore question?"

"Okay, you can go now." Jian Wei put away the pen and paper and walked into the fighter plane, not forgetting to remind: "Be careful, there won't be such luck that someone will save you next time."

boom!

The fighter plane broke through the air.

Ye Fan smiled bitterly, he was actually despised by a little girl.

"Fuck, you can't be careless in the future, and blame the corpse man organization for the weird secret technique."

"You can't underestimate the world!"

Ye Fan's mood changed a little and became more calm.

During this period of time, he has been fighting and killing, making continuous progress and breakthroughs. It is inevitable that he will be impetuous and arrogant; after all, he is a twenty-two-year-old young man, full-blooded and domineering.

After a few blows, it naturally became calm.

This is actually honing.

Ye Fan found the Thunder fighter and changed into new clothes; it would take a day to go to the Northern Wilderness, enough for him to heal his injuries.

...

In Beiliang City, the flames of war rose again.

The second wave of the power army has launched. This time, their firepower is stronger than before, and their defensive equipment is more complete.

This doubled the pressure on the defenders of Beiliang City.

"Deputy commander, look quickly."

On the head of the city, a general suddenly pointed to the distance and shouted, it was a turbulent yellow sand.

Cover the sky and cover the sun, sweeping over.

The deputy commander was shocked: "No, it's a false \*\*\*\* who can control the sand. Quickly, blow up the yellow sand. Once it spreads over and is submerged, the consequences will be disastrous."

Boom boom boom!

The bazooka was launched frantically, exploding the yellow sand with all kinds of holes.

But.

Healed in a short while.

Because there is yellow sand everywhere outside the customs, this is endless.

"Deputy commander, what should I do?"

"Rain."

The deputy commander is a three-star warrior who is very astute. He analyzed: "Rainfall can make the yellow sand heavy, and the false \*\*\*\* should be out of control."

"Deputy marshal, you can use freezing bombs."

"No hurry." The deputy shook his head, "There is not much storage of frozen bombs. This is our killer feature and cannot be used easily unless it is a last resort."

"Quick, artificial rainfall."

"Yes!"

After a while, dozens of rain bombs exploded.

For a while, dark clouds rolled.

Immediately afterwards, the torrential rain poured down, and the yellow sand became extremely heavy when it encountered the rain.

An army camp with distant abilities.

The earth \*\*\*\* gritted his teeth, sweating, and shouted: "No, it's too heavy, I can't control it."

A false \*\*\*\* said: "I didn't expect those Daxia soldiers to be quite smart. If the wind \*\*\*\* is there, you can use the power of the wind to assist you."

The earth \*\*\*\* stopped, gasping for breath.

"By the way, Fengshen and Qishen led a part of the army to kill the ancient relics of the Northern Wilderness. What's the situation now?"

"The news just came back that Fengshen and Qishen introduced some of the giants of the Northern Wilderness monuments into traps and trapped them."

"The God of Water has already set off to support the Northern Wilderness monuments."

When it comes to the \*\*\*\* of water, everyone's eyes are shining with awe.

Among the pseudo-gods brought by Zeus, the gods of air and water are the strongest.

Gas is everywhere.

And water, 70% of the human body is water.

Controlling the water is terrifying to think about.

The earth \*\*\*\* smiled and said: "With the water \*\*\*\* in the past, the battle has been established, and those who are strong in the ancient relics of the Northern Wilderness will be killed."

"We are also working hard to break through Beiliang City as soon as possible, and we can't let the Qishen guy underestimate us."

"I'll take a break before taking action. I don't believe they have a steady stream of rain bombs."

"Let's change this time."

A man and a woman came out, they looked almost exactly the same, they were twins, and they all gained the same abilities. The two looked at each other, nodded, and then displayed super powers.

Beiliang City.

When the soldiers saw the yellow sand falling, they breathed a sigh of relief and cheered for joy.

"The deputy is still witty."

"Cattle!"

"Don't be careless, the opponent has a lot of false gods, who will make the move next?"

Everyone is tense.

gradually.

Everyone felt the heat, and the armor was almost out of place, and they were panicked.

"hot?"

"temperature?"

The deputy commander was horrified, suddenly raised his head and shouted: "It's the light, control the light? Impossible."

A general guessed: "It is impossible to generate light out of thin air. It should be through super energy to project more sunlight."

"What is the temperature now?"

"40 Celsius."

The temperature in the Northern Wilderness is already high, it is 37-8 degrees all year round, so the soldiers in the Northern Wilderness are very heat-resistant.

Forty degrees is still within the tolerance range.

However, the sunlight is getting stronger and stronger, and the temperature is getting higher and higher; moreover, because the sunlight is so dazzling, the soldiers on this side of Beiliang City can't open their eyes.

Without sight, it is a headless fly.

How to fight?

"withdraw."

The deputy commander acted decisively, Mingjin retreated.

The army of supernatural powers chased after him, and suddenly Beiliang City suffered heavy casualties.

"boom!"

The army of supernaturalists began to bombard the city gate.

The deputy commander shouted: "The firepower will cover them and drive them back."

"Also, how many goggles are there in the city?"

"Deputy commander, the sun is too dazzling, and the goggles are useless."

"It can cover some, but some."

"Okay, I'll do it now." Several generals hurriedly left the city.

The deputy commander squinted and looked at the sky.

The sun seems to have become more than ten times bigger, and at the same time, the temperature has risen to 45 degrees.

Chapter 796: The power of Frozen Bomb!

Beiliang City is going through the most difficult time, the temperature has risen from 45 to 50 degrees.

Many fighters are dizzy and dizzy, not to mention the combat effectiveness, it is good not to faint.

"Deputy commander, we can use rain bombs to create dark clouds and blind our eyes."

"No, rain bombs need to deal with yellow sand, and dark clouds will not last long."

The deputy commander retracted his gaze and asked, "How many frozen bombs are there?"

"Ten."

"Okay, launch three to frighten the other side."

The corners of the soldiers' mouths twitched.

But think about it carefully, this is indeed a good way.

The Frozen Bomb is a new type of weapon produced by the Tiangong Division. It has never appeared in the world, and the Eagle Country should not know it.

Then give the other side a big surprise.

Moreover, firing frozen bombs, in addition to lowering the temperature, can also give a devastating blow to the army of supernaturalists. At the same time, it will create difficulties and obstacles outside the frozen city, and it is even more difficult to attack under the city gate.

Missile launch base.

The freeze bomb has been assembled and everything is ready.

"three!"

"two!"

"one!"

"emission!"

...

Power camp.

The earth \*\*\*\* smiled and said: "Awesome, light, almost incomprehensible, let's see what Beiliang City uses to counterattack."

"What is the temperature now?"

"50 degrees."

"This is the highest temperature that you can currently manipulate."

"Yes, but it's enough. Temperature is one of them, and depriving them of sight is the most important thing. Headless flies are easy to deal with."

The twins smiled at each other.

"boom!"

"boom!"

"boom!"

Suddenly three explosions made the earth shake.

Immediately afterwards.

The false gods found that the shouting and killing on the battlefield had weakened or even disappeared.

Before they could react, an extremely cold breath rushed from afar.

"Earth God, lift up the sand wall with all your strength!"

Zeus rushed out of the main camp Zhang, shouting.

The earth \*\*\*\* reacted quickly and tried his best to ascend across the sand wall of 300 meters and 20 meters high.

puff.

After doing all of this, the earth \*\*\*\* kept vomiting blood and fell into a pool of blood, anger as if gossip.

Zeus flashed to the earth god's side, inspected it, and said: "I'm overwhelmed by my body, so I'll be treated immediately."

Several false gods hurried away with the earth gods.

The twins were in shock.

They are in the forefront, even if there is a heavy sand wall blocking them, the cold air has penetrated in.

A layer of frost formed on them, their bodies stiff, unable to move, and trembling constantly.

Zeus grabbed the shoulders of the two of them and manipulated the bioelectricity in the human body to warm their bodies and speed up the blood flow.

In a moment, the two recovered.

Puff through.

The woman sat down on the ground, and said in horror: "What kind of method is this, is there a terrifying power coming from Daxia?"

Zeus has no words.

He crossed the sand wall, continued forward, and saw the vast frozen world.

He was moved.

Half of the army of 100,000 supernatural powers in this attack was frozen and frozen to death.

Most of the remaining half were frostbited, some were unconscious, some collapsed...

Very tragic.

Zeus was so angry that there was a wave of humiliation in his heart.

He is the leader of the first echelon of the ability organization, leading the army to the Northern Wilderness, but suffered such a big loss.

Pass it back, and other leaders of the organization will laugh at him.

"What is it?"

"Is it true that the strong Daxia came?"

"That's right, a fight."

Zeus's face was cold, and he galloped towards Beiliang City.

"Marshal, don't be impulsive."

Below, the false \*\*\*\*\* shouted, very worried.

But Zeus ignored it.

"The God of Water shouldn't go to the Northern Wilderness Historic Sites. He and the commander will go to Beiliang City together, and he will definitely look forward to it."

"Send a letter to let the God of Water come back, or the God of Qi comes back, one of the two must come back."

"No, this is the Great Summer Zone. Our satellite signals are strongly shielded and can only be transmitted manually, and the time is very slow."

"Special code!"

...

Zeus is close to Beiliang City.

On the head of the city.

The deputy commander was not afraid of danger and shouted: "Zeus, can't you sit still? Ha ha, you thought we were soft persimmons, didn't you expect it, what surprises I gave you?"

"Gai Jiuyou, if you come, come out and see you. Let's fight a game. If you can beat me, I will lead my troops to evacuate immediately."

The voice of Zeus was like a thunder in the sky, spreading into Beiliang City.

The deputy commander's eyes rolled, and he secretly said: Zeus really didn't know the freezing bomb, and thought it was the pavilion master coming. This is a good thing, you can use this to delay time.

"Zeus, although you are the head of the power organization, your position is still weaker in the face of the master of the Great Xia Army Pavilion; if your Minister of the Eagle State Military Department is here, you can talk to our Pavilion Master."

"You can not!"

Zeus's face sank, and he snorted coldly, "God must not be insulted, you are not afraid that I will kill you."

The deputy commander laughed: "What are you afraid of, if you kill me with a big bully, my pavilion will also kill all the false gods. I think it's worth it."

Zeus was too lazy to entangle with the deputy commander, and shouted again: "Gai Jiuyou, come out, don't hide, make people laugh."

The deputy commander hummed, "Zeus, just wait. When the pavilion master wants to see you, he will naturally appear."

"let's go!"

The deputy commander left the city with the soldiers.

In the camp in the city, the generals looked distressed, as well as this strong worry.

"It's been three days. It stands to reason that the pavilion master could have arrived in Beiliang long ago, so why hasn't he shown up until now."

"Pavilion Master won't have an accident on the road, right?"

Chapter 797: Both trapped

"Not only the pavilion master, but also the martial arts army. They also left three days ago, but they haven't arrived in the Northern Wilderness for a long time now."

"This is so worrying."

"I can't, the pavilion master and the hundred thousand martial arts army, what force can stop them?"

The soldiers were frowning.

...

Tianzhou is located exactly north of Daxia.

That is to the rear of the Northern Wilderness.

At this time, Tianzhou was close to the border, in a huge mountain range, a very dangerous place, a group of black-robed men formed a circle to suppress a mighty man in the center.

That person was surprisingly Gai Jiuyou, the master of the Bing Pavilion.

He was actually able to reach the Northern Wilderness three days ago, but he was ambushed here, and it was a corpse man organization.

He is also on the list of slaying dragons.

Gai Jiuyou was anxious.

After three days of delay, I don't know what happened to Beiliang City?

"Gai Shi Huangquan!"

"Tianwei Palm!"

Gai Jiuyou began to make a breakthrough.

In the past three days, he has made dozens of breakthrough attacks, but he has not escaped the trap.

However, these black robe giants couldn't help him, so they were about to trap him here alive.

"Gai Jiuyou, stop struggling, you can't break the suppression, you can't escape."

"It is true that we can't kill you, but we can trap you to death. Compared to three days ago, your arrogance has weakened a bit. Let's see if you can hold on for a few days."

The black robe giants sneered.

Gai Jiuyou's eyes were cold. He hadn't eaten for three days, only drank some dew.

Can still bear it now.

But in a few days, it won't work, the body's stored energy will be exhausted, and it will be hungry, and it will not even have the strength to fight.

"Oh, by the way, I forgot to tell you that the one hundred thousand martial arts army supporting the Northern Wilderness was also intercepted by our army of the living dead."

"In the past three days, there have been more than a dozen frictions, big and small, and the martial arts army has suffered a lot."

This news made Gai Jiuyou furious.

He attacked frantically.

Fierce and mighty.

The black robe giants also shot together, and the two sides had a strong collision.

There are many giants in the Corpse Man organization, but there are almost no peak giants, and the power of these giants is ordinary.

This is because the masters of the Zombie Organization are all cultivated by force, and their foundation is very vain.

If it weren't for the exquisite formation, Gai Jiuyou wouldn't be afraid of these black-robed people at all, but this formation possessed a very strong amount of pressure to suppress him, trapping him to death.

Far away.

This is a battlefield where an army of warriors and an army of the living dead are fighting.

It is worth noting that, like those in black robes, the army of the living dead surrounded the army of warriors, but did not take the initiative to attack, and it seemed to be a siege.

In the camp.

Li Mo is the commander of the army this time, and there are several sect masters following him, but the deputy commander.

"How the living dead appeared here, the state patrol didn't notice at all."

"The army of two hundred thousand living dead, among them many corpse kings, and even high-level corpse kings, are very powerful."

"The breakout of even the turn was unsuccessful. We have lost nearly 30,000 people, but the living dead only lost about 10,000. The gap is getting wider and wider."

Everyone looked solemn and sad.

Li Mo didn't say a word. He didn't expect to encounter this kind of blow the first time he went out as a marshal, a little frustrated, and more angry.

"The signal was also cut off. We were unable to contact the outside world for support. This is the largest primitive mountain range in Tianzhou. It can be described as helpless."

"I think we have to break through and make the noise a bit louder to attract the support of the Tianzhou War Headquarters."

"How about this, the marshal first break out to find rescuers?"

Everyone looked at Limo.

This is indeed a good idea. Eggs cannot be placed in a basket.

Keli Mo said: "In fact, I can leave this encirclement, the key is the danger I face after leaving, whether there will be other ambushes."

Everyone was silent.

For a moment, Limo sighed: "Consolidate the army, and continue to break through once more. If it doesn't work anymore, I will move to rescue the soldiers."

"good!"

Early this morning.

Wan Lai was all silent.

In the darkness, Li Mo led the martial arts army to start the sixteenth breakout.

The war is about to start.

In the primitive mountains, the beasts became excited.

It has been very peaceful here for many years, and now there is such a big battle, it is rare and very interesting for the higher fierce beasts.

Some beast kings are entrenched on the top of the mountain, looking far away, and some are in groups, talking about whether or not to shoot.

"kill!"

In the jungle, an inner strength warrior bombarded a living dead, flying it, but couldn't kill it at all.

The living dead jumped up and snarled and culled.

In other directions, the living dead also rushed forward, drowning this warrior in the blink of an eye.

Such scenes appear in various places.

The difference in number and strength caused the army of warriors to be defeated, unable to break through at all, and could only shrink again.

"boom!"

Limo made a decision, rushed to the sky, galloping towards the distance.

at the same time.

The three black-robed men chased after him.

They are the third commander of the army of the living dead, and they have not appeared, staring at Limo.

Now that the power demon appears, that is the death period of the power demon.

"Sure enough, staring at me."

Limo gritted his teeth, he lost his direction and could only speed by feeling.

"Where to escape!"

The three black-robed men laughed, very fast, a bit faster than Limo, and the distance kept getting closer.

"Hercules Fist!"

Limo hit with a backhand blow.

Li Shenzong, as its name suggests, focuses on the cultivation of strength, and martial arts are all overbearing, ferocious and heavy attributes.

This move "Hercules Fist" is a masterpiece of Li Shenzong.

Limo is a half-step pinnacle giant, but with this punch, it hit the pinnacle giant.

The faces of the three black-robed men changed, but they were not afraid, but quickly formed a joint attack formation.

"Three flowers gather at the top."

Three black lotus flowers appeared on the heads of the three of them, covering the three of them, with extremely strong defensive power, blocking the Hercules Fist.

However, this punch was too strong, and the three of them were shaken back hundreds of meters.

"Can't let him escape!"

The eyes of the three of them flashed fiercely, spewing blood and condensing three blood-colored spears.

Limo only felt his back hairy.

Looking back, three blood-colored spears shot out like lightning, which meant to crucify him alive.

"King Kong Shield."

Limo played defensive martial arts.

"puff!"

The so-called King Kong Shield didn't hold on for even a second and was pierced by the \*\*\*\* spear.

"Strongly clinging to the sky."

Limo screamed wildly, his hair standing upside down, his upper body clothes exploding, like the muscles of an old tree's roots squirming.

As if his hands had doubled in bulge, carrying the mighty power, he grabbed two scarlet spears and squeezed them alive.

"puff!"

But the third spear pierced his abdomen.

"what!"

Limo screamed and fell from the air into the forest.

The three black-robed men were shocked by Limo's last hand, but after all, Limo was seriously injured.

"He won't die so easily, chase, beheaded completely."

The three swooped down.

No Limo's body was found in the forest, and he was fleeing, but there were traces of blood.

The black-robed man chased after the blood.

Rumbling.

In the sky, the Thunder fighter came through the air, Ye Fan was recovering from his injuries, and his injuries had recovered seven or eighty-eight.

Suddenly, the captain sent intelligence: "Tianzun, thermal scanner image feedback, three kilometers ahead, there are people in Mercedes-Benz; 15 kilometers ahead, there are a large number of ambushes."

"Oh?"

Ye Fan opened his eyes, cold light lingering.

"This corpse organization is not dead! Hmph, open the hatch, and I will go down."

"Tianzun be careful."

The hatch opened, and Ye Fan wandered out.

His facial features were so keen, he immediately noticed the movement of the forest below.

Chapter 798: One person retreats 180,000 troops!

"puff!"

In the jungle, Li Mo sprayed a big blood and fell to the ground.

His injury was too serious, and there was a blood hole in his abdomen. He had reached the limit and could no longer escape.

Swish.

Three black-robed men appeared, forming a horn, enclosing Limo.

"Escape? Why don't you escape?"

"You are bold enough to send the army of the living dead into the territory of Daxia. You are provoking the prestige of the country and you are committing death."

"Stupid and ridiculous, Daxia is no longer the Daxia it used to be. In this world, no one can punish us except our emperor."

"what about me?"

Three words suddenly appeared.

Ye Fan didn't intend to hide, and fell from the sky, with a full blow, instantly killing a black-robed man.

Immediately afterwards, he threw Limo aside.

"Open the mountain!"

"Zhenhai!"

Ye Fan didn't get muddled, and immediately used two martial arts true meanings.

The black-robed man was horrified, but he reacted very quickly.

Unfortunately, he was still injured.

Ye Fan shrank into an inch and came to a black robe man in the blink of an eye.

"White clothes and silver hair, you are Ye Fan!"

"bingo."

"Reward, you go to die!"

Ye Fan exploded and punched the black-robed man in the chest.

Then flashed to kill the last black-robed man.

That person was already scared to death, where there is the courage to confront Ye Fan, decisively burning his life essence and blood to escape.

"Fan Tianyin."

Ye Fan pinched his handprints and bombarded the black-robed man.

"Drive me!"

This black-robed man had two attacks, splitting Fan Tianyin and escaping the suppressed area.

Then use countermeasures.

"Blood entanglement!"

The black robe man was killed just now, Ye Fan's white clothes were stained with blood, and the winding technique immediately worked.

but.

He already had experience, and there was only one person on the other side, instead of the ten people who used to jointly perform this secret technique, so Ye Fan could easily break through.

"Boom!"

All the scarlet tentacles exploded.

The black-robed man was shocked and blood spurted wildly; after a closer look, Ye Fan had already appeared in front of him.

At this moment, he was so frightened and frightened that he begged for mercy on the spot:

"Ye Fan, you are merciful, and you have something to say."

"Go down and talk to Hades."

Ye Fan slapped this person into sludge, the tiger's body trembled, and the air flow turned to clean the blood.

"This is a bit of interest. Who will let you provoke me life and death; moreover, it hurts my sister."

Ye Fan muttered to himself.

Li Mo had been stunned in the distance, and Ye Fan had tortured and killed the three black-robed men he couldn't deal with.

Is this the gap?

"What's the matter with you?" Ye Fan came to Limo and slapped his tongue: "This blood hole hurts a lot. I will save your life for the time being. Remember to be grateful."

Ye Fan came to the Thunder fighter with Limo.

There is a reserve of resources in the fighter plane, and there are a lot of medicinal resources. Ye Fan first stabilized Limo's injury, and then prepared the medicine and applied it to Limo.

"Thank you brother Ye."

Limo clasped his fists and was grateful.

The strength of the martial arts world is respected. Although Ye Fan is younger than him, he is called "brother".

"Three days ago, didn't you bring the martial arts army to the Northern Wilderness to support you? Why are you here?"

"It's a long story at this time..."

Limo sighed, and will briefly repeat the story of the dragon in the future.

"Brother Ye, we have to inform the Tianzhou War Headquarters and let them support it."

"Don't be so troublesome."

Ye Fan walked out of the cabin again and landed on the battlefield, where a strong aura burst out unscrupulously.

Encampment of the Army of the Living Dead.

Rushing out of the five black-robed men, they are the only five remaining great marshals.

"Ye Fan!"

The five were shocked, incredible.

"It's good to know me. The three guys who chased the Killing Power Demon just now have been photographed to death by me. Do you want to reunite with them?"

With a calm tone, speak the most lethal and domineering words.

On the fighter plane, Limo's mouth twitched, which was too arrogant.

But Ye Fan has arrogant capital.

The faces of the five black-robed men were uncertain.

"If you want to be reunited, then come up for a fight; if you don't want to, immediately lead me to get out."

"Give you a minute to think about it."

The black-robed man gritted his teeth, this is simply a huge humiliation.

But hands-on, they have no confidence.

"How to do?"

The four looked at the boss in the middle.

After 30 seconds of silence, the leader squeezed his fist and said, "Withdraw the troops."

The four of them glanced at each other and said nothing.

If they don't withdraw, Ye Fan will start the beheading operation, they don't want to get in.

"Uuuuu..."

The horn sounded.

Rumble!

The army of the living dead began to retreat.

Li Mo was dumbfounded.

One person, retreating hundreds of thousands of troops, didn't even dare to think about it, but Ye Fan did it.

"We are saved."

The army of warriors found that the army of the living dead was retreating, and they were all ecstatic. The suzerain thought it was Limo who had come to rescue the soldiers.

Ye Fan did not show up, he returned to the Thunder Fighter and rushed to the Northern Wilderness.

It's very dawn.

The fighter plane landed in the ancient city in the ancient ruins of the Northern Wilderness.

Ye Fan is not in a hurry, he needs to understand the situation in the Northern Wilderness first, find an inn, and stay with Limo.

There are many paths for news.

When you find a restaurant, there is a warrior discussing things about the Northern Wilderness; in order to know more details, Ye Fan releases the breath of a master and asks a group of warriors to come over and talk in detail.

ten minutes later.

The warrior dispersed, and Ye Fan said: "The situation is not optimistic. The strong man in the northern wilderness is trapped; outside the city of Beiliang, Zeus blocked him and forced Gai Jiuyou out."

Li Mo doubted: "It's not right, if the Bing Pavilion Pavilion Master is really in Beiliang City, it is impossible to hide."

"That's what I'm about to say."

"Could it be that the Pavilion Master, like me, was intercepted halfway and something went wrong?"

"Do not rule out this possibility."

Both Ye Fan and Li Mo felt that the matter was serious.

Gai Jiuyou is the head of the Bing Pavilion, a high-ranking authority, representing Great Xia, and a well-known figure in the world.

Once Gai Jiuyou was beheaded, this would surely shock the world, and it would be a great loss.

"Brother Ye, I think you are the only one who can take action now. You must find the pavilion master. You have to see people when you live, and you have to see the dead when you die."

"There is no clue, it's not easy to find." Ye Fan had a headache and didn't know where Gai Jiuyou was?

In Tianzhou or Zhongzhou?

Everything is unknown.

"Contact the Tianzhou War Department and let them search. I will look for it alone, no doubt looking for a needle in a haystack."

"You quietly cultivate, I'll go out."

There is no way to contact the outside world on the Northern Wilderness Historic Site; Ye Fan needs to go to Beiliang City.

From a distance, he saw the golden-haired man standing in the sky, and it was Zeus.

Ye Fan remembered the face of Zeus, and now he didn't plan to confront him. He went around a big circle and came to the back door of Beiliang City.

"Who is here!"

Ye Fan threw a token on the head of the city. This was given to him by Limo, the token of the martial arts leader, and the tiger symbol of the martial arts army.

This is issued by the Great Xia Long Pavilion.

Beiliang City has long been notified of the support of the warrior army. The general defending the city saw this tiger symbol and was overjoyed: "It turned out to be the lord, open the city gate."

Ye Fan entered Beiliang City, and several generals greeted him.

"Leader of Limo..."

"Stop, I am not Li Mo, but Ye Fan."

"Ye Fan!"

This is more impactful than Limo.

"Limo and the army of warriors were trapped halfway by the army of the living dead. I took action to help them out. Limo was injured and healed in the ancient ruins of the Northern Wilderness. I came to Beiliang City to tell you that the pavilion master Gaijiuyou is suspected of being trapped. , Contact the Tianzhou War Department to dispatch troops for rescue as soon as possible."

The faces of the generals darkened.

Ye Fan's name is not known to anyone in the martial arts world, and it has also been passed to the military world.

After all, the military and martial arts have blended.

Many warriors are martial arts powerhouses.

For example, these generals are all of the master level.

"What Ye Master said is true?"

"Why, I lied to you? Why is Ye Fan who I am also from Daxia? Elder Ge always deals with me. If it is related to national affairs, I will be a demon?"

"No, no, no." The generals shook their heads quickly, expressions in awe, and solemnly said, "Thank you for coming to inform us. Now the situation in Beiliang City is not optimistic, let's go to the City Lord's Mansion to discuss."

Chapter 799: First encounter with Zeus

City Lord's Mansion.

Ye Fan met the deputy commander of Beiliang City, who was also the deputy city master, named He Ning.

Seeing Ye Fan, He Ning seemed to see a savior.

This is the ruthless man who slayed eight peak old monsters, and could definitely fight Zeus.

From yesterday to now, Zeus has been blocking the city gates. Hening was nervous and did not sleep, because he did not know when Zeus would act.

"Master Ye, you have to help Beiliang City, that \*\*\*\* Zeus killed Marshal Che Hao."

He Ning and the soldiers looked sad.

"Since I'm here, the group will definitely not leave for a while. At least they will wait for the pavilion master to arrive, provided that the pavilion master is safe."

"As for dealing with Zeus, don't worry. Tell me about Zeus's superpowers."

He Ning said: "Control the electricity, and counter-current blood."

Ye Fan was surprised.

He had come into contact with the ability of Nixue, the super evil demon Lucifer, and now Lucifer is still imprisoned in the Palace of Heavenly Sovereign.

As for electricity...

"The human body's bioelectricity, the static electricity between the heavens and the earth, and the electric current of various machines and equipment can be controlled; because of this, the bullet cannot get close to Zeus. He paralyzed the fighter control system with his hands and feet, causing the fighter to crash. Using bioelectricity to paralyze the opponent. "

"Great."

Ye Fan slapped his tongue, he was indeed the head of the supernatural organization.

This supernatural ability is stronger than the Earl Dante he encountered in the Northern Wilderness.

Dante can call Thunder.

The Thunder is electricity and can still be controlled by Zeus.

"Can Reversal Super Power be triggered in the air?"

"Yes, but there is a distance limit; through the battle between Grand Marshal Che Hao and Zeus that day, we speculated that the blood-reverse super power effect was within a hundred meters."

With blood in the air, this is even more terrifying.

Lucifer's anti-blood ability can only be triggered by touching the body.

"In addition to Zeus, we also encountered a \*\*\*\* of earth, who can control sand and a \*\*\*\* of light, who can gather sunlight."

"Yesterday we were tortured to death and alive. Fortunately, there were freezing bombs. Three of them were used to freeze the outside of the city and frighten the false gods. There is no attack for the time being."

Ye Fan became more and more frightened.

This superb is a sci-fi blockbuster.

Is the "God Creation Project" of the Ability Organization so awesome? It's worth it!

He Ning also had a solemn expression, and sighed: "Faced with these supernatural abilities, it is very difficult to deal with; fortunately, there are not many false gods, otherwise it will really be a disaster for us in Daxia."

Ye Fan said: "Don't think too much about it, everyone, we have a lot of strong people in Daxia, and many hidden masters and old monsters have not been born yet."

"According to what I said, immediately contact the Tianzhou War Department and look for the pavilion master."

He Ning said: "I don't know if the communication can be carried out smoothly. Three ice bombs have frozen the city outside, and Beiliang City has also been more or less affected."

Ye Fan rushed to the City Lord's Mansion along the way, and indeed found that everyone in the city was wearing thick clothes.

Over the entire Beiliang City, there was an icy mist lingering, and the mist was at least seventy or eighty degrees, but it didn't freeze.

These low-temperature fog will have a huge impact on satellite signals.

He Ning arranged for the communications department to try its best to communicate.

suddenly.

Zeus's words echoed between heaven and earth: "Gai Jiuyou, I have waited for a day, but you still can't come out. In that case, I can only enter Beiliang City and find you myself."

"not good!"

The faces of the soldiers such as He Ning changed drastically.

"Don't panic."

Ye Fan suddenly got up, his eyes burning, and he said solemnly: "I'm coming!"

...

Outside the city.

The wind was blowing, and the golden retriever of Zeus was flying.

Above the thick ice layer, the false gods also came, neatly lined up in a row, ready to support Zeus at any time.

If you look closely, these false gods are all headed by the middle woman in an ice blue dress.

This woman is the \*\*\*\* of water.

Yesterday she received information and rushed to the Northern Wilderness Historic Site to support Qishen and Fengshen, but a major change occurred here.

Sensitive to the water element, she realized something was wrong.

So turned back.

Today, she appeared here.

The \*\*\*\* of water is very beautiful, with light golden long hair reaching his waist, feet on crystal shoes, and a crystal crown that symbolizes glory.

This crystal crown was awarded to her by the emperor of the Eagle Kingdom, and was blessed by the energy of many leaders of the supernatural organization. It is not only a symbol, but also a powerful treasure.

The water \*\*\*\* exudes a noble aura, holding a crystal scepter in his hand, just like a character from a movie.

In fact.

In recent years, in Eagle Country's Hollywood science fiction movies, there have been many typical characters modeled after the \*\*\*\* of water.

Not only the water god, but other leaders and false gods all have their own characters.

Why are the special effects of Hollywood sci-fi movies so real that other countries can't compare with them? In fact, there are some places where the special effects are not special effects at all.

Superpowers are staged directly by the false gods.

Therefore, there is no way to compare "special effects."

In fact, in Daxia, many years ago, there were also some martial arts powerhouses who acted in TV series of fairy-style.

For example, "The Legend of the Sword and the Fairy", why it is hailed as the pinnacle of the TV series of the Fairy, is because many of the so-called "special effects", "fierce beasts" and "secret treasures" in it are real.

Only later, Daxia Longge, worried about affecting the secular world, strictly forbids martial artists to participate in TV dramas.

So if you watch the special effects of the current movies and TV shows, fifty cents is a lot.

Pulling away.

anyway.

Zeus strolled, approaching Beiliang City.

Several generals on the front of the city immediately ordered an attack, and the sky flooded with firepower.

However.

These are bullets, not missiles, and are useless to Zeus.

Bang bang bang...

Under the action of static electricity in the air, these bullets exploded from a distance.

"launch missile."

A general shouted.

At this time, Zeus was approaching within a hundred meters of the city, and he pointed a little.

The general's voice stopped abruptly.

Qiqiao burst into blood, all his internal organs exploded, and he died on the spot.

"You beast."

The brother beside him has a canthus.

At this moment, a monstrous qi and blood rushed out of the city, dyeing the vast fog above Beiliang City red.

Zeus stopped, raised his brows, and said, "Gai Jiuyou, can you finally stop it."

"I didn't expect you to be able to master the power of qi and blood."

"but."

The blood rushed towards Zeus.

Zeus expressionless, raised his hand and shouted: "Blood!"

"Rumble."

I only saw that the qi and blood changed the reverse direction and returned to the original path.

Ye Fan's face sank, and he didn't expect that the power of blood and energy could be reversed by Zeus. This was simply a natural restraint of the Beast Emperor.

The power of qi and blood was reversed and once again controlled by Ye Fan, he would not be hit back by his own power.

"boom!"

This time, Ye Fan hit the dragon fist.

Carrying Zhenhai and Kaishan the two true meanings of martial arts, it can be said that it is full of strength.

Zeus's face was solemn.

"It has a strong meaning, worthy of being the master of the Great Xia Bing Pavilion and the Marshal of Soldiers and Horses."

Zeus laughed.

He opened his hands and saw only grids appearing in the sky, forming barriers.

However, these power grids are not enough to resist Ye Fan's move.

Gangqi can be used.

The true meaning of martial arts is unstoppable.

Zeus screamed and roared: "Gai Jiuyou, you think I can only cast spells remotely, let's take a look at how my body is."

Suddenly, a \*\*\*\* aura appeared all over Zeus, which also seemed to be blood.

His body seemed to be twice as strong, becoming burly and domineering.

at the same time.

Zhenhai's true meaning fell and enveloped Zeus, and he fell on the ice.

The ice beneath my feet exploded.

"Come!"

Zeus roared, his golden hair gleamed with a faint blood halo, and even his azure pupils changed.

Kaishan genuinely bombarded Zeus, cutting a hole, blood flowed, but not deep.

Ye Fan looked incredible.

He has strong confidence in the "True Meaning of the Mountain", even the horizontal training master of the triple realm can cut, but he can't cut Zeus's body.

"The God-making plan has two steps."

"First, obtain supernatural abilities; second, obtain superhuman bodies."

"A true god, in addition to mastering magic skills, should also have an immortal body."

"My body has already taken a big step, so I am one of the closest beings in the organization to the gods."

Zeus looked arrogant and shouted: "Gai Jiuyou, if you want to kill me, you can't use some hole cards."

In the city.

Ye Fan turned to look at He Ning, and asked, "Are there any frozen bombs?"

"There are seven more."

"So many." Ye Fan said: "Fire three, let them feel the power of technology."

"..."

"What are you doing in a daze? What's the reluctance to bear? In addition to Zeus, there are a number of false gods outside, just to catch them all in one go."

He Ning gritted his hands, gritted his teeth, and said, "Let's launch five of them. Come on."

"Properly."

Chapter 800: Smart water god

Frozen bombs cannot be launched at will, let alone five. Once they explode, Beiliang City will suffer a huge impact.

Therefore, the launch site must be carefully selected.

He Ning said: "Master Ye, five special forces teams escorted five freezing bombs from the back city gate. You need to delay at least half an hour."

Ye Fan's mouth twitched, "You really can count on me."

He Ning laughed and said: "There is no way, except you, no one in the city can stop Zeus at the moment."

"In addition, there is news from the Ministry of Communications that it has been in contact with the Tianzhou War Department, and there is an emergency operation over there."

"good."

Ye Fan took a deep breath and felt the pressure.

He can't come forward, he needs to take action in the city, which is very restricted; because once he comes out, Zeus will see through. When he knows that Gai Jiuyou is not in Beiliang City, he will definitely lead the false gods to attack.

A Zeus, he is very troublesome to deal with, if you add many false gods, it can't stop it at all.

"Gai Jiuyou!"

Outside the city, Zeus roared.

Ye Fan had a headache, the power of qi and blood was useless, and he used gang qi to learn. Because the distance was too far, the power of reaching Zeus had been weakened a lot.

"We can only continue to display the true meaning of martial arts."

"Tired."

Ye Fan felt bitter.

boom!

boom!

The two real intentions of martial arts came again, making Zeus's face solemn.

puff!

Another wound appeared on Zeus's body.

In the next quarter of an hour, Zeus had thirteen blood holes in his body.

He was bloody, but it was all skin trauma.

There is no substantial harm.

Zeus sneered: "Gai Jiuyou, you only have this level? Except for this method, there is nothing else? Are you out of skill!"

In the city.

Ye Fan sat cross-legged, his face pale.

He Ning and other soldiers guarded him, nervous and admired.

"Master Ye, take a rest, and I'll go and talk to Zeus."

He Ning bite the bullet and came to the city.

"Zeus, what are you crazy? Sitting in my pavilion's mansion, you can beat you so embarrassed without showing up. You are still clamoring here, you are stupid!"

"Looking for death!" The false gods in the distance were furious and could not hate them, but the water \*\*\*\* did not move and they held back.

"It's ridiculous that you say that my pavilion master is poor in skill. I think you are ordinary."

"The superpowers you control are limited in scope. My pavilion master can beat you into embarrassment in the mansion. Can you attack my pavilion master outside the city?"

"I'll just ask you, okay!"

Zeus's face was blue, and his eyes were cold.

He Ning became more excited as he spoke, mocking: "No way, then what else are you pretending to be."

"What, want to kill me?"

"Then you have to weigh, whether the little brothers behind you can withstand the blow of my pavilion master."

"Do their bodies have your level? If they don't, I'm afraid they will be dismembered immediately."

He Ning's words gave Zeus a wake-up call.

He can resist with his flesh, but the false gods below can't. They have just reached the first step and mastered the supernatural ability.

The second physical level has not yet changed.

Compared with obtaining supernatural powers, the physical body wants to be otherworldly and more difficult.

This is why Zeus can become the head of the first echelon; and the false gods below can only be in power, not the head.

Of course, in addition to the \*\*\*\* of water and the spirit of spirit in the ancient relics of the Northern Wilderness; these two superpowers are too strong and have a high status, and they are the leaders of the second echelon.

"Deputy commander."

At this time, soldiers came to report.

"The army of warriors is here."

He Ning was overjoyed, his eyes rolled and he shouted: "Zeus, we Daxia pays attention to principles. If you are the minister of the Eagle State Military Department, then our pavilion master will have come out to fight with you; but you are just an organization of supernatural powers. The head is equivalent to the leader of our Daxia martial arts world. You and my pavilion master are not in the same position, and the pavilion master will not confront you face to face."

Zeus believed this.

Gai Jiuyougui is the marshal of soldiers and horses, representing Da Xia. Once he makes a move, Da Xia officially declares war.

In fact, Eagle Country also considers these.

Therefore, let Zeus come forward, he is the head of the supernatural organization, and the target should be the Daxia martial arts world.

What he led was not the Eagle Nation military soldiers, but the army of supernatural powers, and the counterattack should be the Daxia martial arts army.

"Zeus, your sudden attack caught us by surprise; but now, my great summer warrior army has arrived."

"My pavilion master said, let the army of abilities and the army of warriors fight, and you and the false gods go to the northern wilderness monuments, and there is the battlefield between you and the martial arts powerhouse."

"It's impossible for the pavilion master to come out and fight you head-on. If you don't leave, the pavilion master will continue to attack you like this, hoping that you have enough blood."

Zeus snorted.

"Anti-blood."

I only saw that the blood flowing out all flowed back into his body.

He Ning was taken aback for a moment, then raised his chin and said, "Okay, you continue to croak."

Coming down from the city, He Ning went to meet the warrior army and made a battle plan.

Ye Fan watched the changes quietly.

At this time, Zeus can be described as a dilemma.

Suddenly the Water God's scepter was waved, and the water in the air condensed into "clouds".

She stepped on the clouds and floated towards Zeus.

"grown ups."

"what's up?"

The water \*\*\*\* said suspiciously, "Something is wrong."

Zeus narrowed his eyes and asked, "What do you mean?"

"Although what the deputy commander said has no loopholes and is very reasonable, but intuition tells me it is not that simple."

"Che Hao is a close friend of Gai Jiuyou, or even a brother. After Che Hao died, Gai Jiuyou came to Beiliang City. It is impossible not to come forward to see you."

"Even if I don't fight with you, I will definitely see you. It's a bit abnormal to stay behind closed doors."

Zeus thoughtfully.

The water god's eyes were shining with wise brilliance, but there was no fluctuation on the delicate face, noble and holy.

"The biggest anomaly is actually time."

"Oh?"

"Che Hao has fallen. It's been three days. Today is four days. Does it take four days to get from Daxia Capital to Beiliang City?"

Zeus's eyes shone brightly.

"It only takes a day at most. That Gai Jiuyou should have been in Beiliang City a long time ago, but why did he make the move now?"

"I suspect that Gai Jiuyou is not in Beiliang City at all. There is another person who just shot."

"Think about it boldly. Gai Jiuyou encountered an accident on the way to Beiliang City. Don't forget, it was the Corpse Man organization that attacked the Bermuda Base. What kind of dragon slaying plan was implemented by this organization. Some top powerhouses in the Xia Wu Dao world. That Gai Jiuyou, also called a dragon, might have been slashed by a powerhouse organized by the corpse man in the middle of the road."

"The above is what I want to say."

"If your lord wants to enter Beiliang City, I can go with you."

Zeus nodded, and the words of the water \*\*\*\* were reasonable and reasonable. He couldn't help but admire that she was really a powerful woman who combined beauty and wisdom.

No wonder the prestige and support are so high.

Zeus was also very coveted for the God of Water, but when he thought that the God of Water was looked upon by that terrifying existence in the organization, he dismissed the idea.

"Well, you are not afraid, what am I afraid of as a man."

"Let's go in and see."
