

Elegant SS 861

Chapter 861: Surprise for Ye Fan

"Report!"

A warlord hurried over.

"Enjoy the commander, the court historian has arrived."

"Yes."

Gai Jiuyou secretly said that Ouyang Jing is quick to do things, and smiled: "Hurry up and ask. Ye Fan, your reward is here."

Ye Fan is looking forward to it.

The court historian, dressed in brocade clothes, was a master, strode in, and clasped his fists, saying, "Participate in the generals."

"You're welcome, but the general manager asked you to bring the baby."

"Yes."

The court official presented a box made of huanghuali wood and said: "The chief executive said that Mr. Ye understands the righteousness and fights for the country. This spirit is commendable. Hereby, I send a batch of treasures to Master Ye. I hope Master Ye likes it."

Ye Fan said, "Trouble the Yushi to bring a message to the Chief Executive, and someone from Ye would like to thank you for your reward."

"Farewell."

The court official completed the task and left without staying much.

Gai Jiuyou placed the yellow rosewood box in front of Ye Fan and said, "Open it, it should surprise you."

"Could it be that the Peerless Medicine has been applied for?"

"That's not it."

Ye Fan curled his lips, "There is no peerless medicine, that's a surprise."

Gai Jiuyou snorted: "Why do you only have treasure medicine in your eyes, open it and take a look."

垮嚟。

Open the box.

A scent of medicine permeated.

Um?

Gai Jiuyou was taken aback.

Why is there a smell of medicine? Does Ouyang Jing really approve the peerless medicine without authorization, or does it mean that His Majesty has returned to the palace?

The **** of water bit his red lips, not feeling in his heart. Ye Fan got the peerless medicine again, and he was about to transform and become stronger again, which is not a good thing for the supernatural organization.

Ye Fan's mind was fiery.

Lifting the lid, I couldn't help but rejoice. There is indeed a treasure medicine, but it is not a peerless medicine.

Gai Jiuyou said: "Ye Fan, don't be too greedy, it's not bad, this glazed fruit is a semi-peerless treasure, and it is also very precious."

Ye Fan was very disappointed.

For him, the semi-peerless treasure medicine does not have a great effect; you must know that such advanced treasure medicines as Sanye Qinglian and Earth-centered Fire Bamboo can only advance the progress of Dacheng Hegemony.

Semi-peerless, which is so much worse than Sanye Qinglian and Fire Bamboo at the heart of the earth, is simply not enough to condense the progress of growth into a hegemonic body.

"It can be used to condense physical inscriptions."

Ye Fan changed his mind.

In addition to the semi-peerless glazed fruit, there is also a yellow book and a silver-white robe.

Gai Jiuyou picked up the yellow book, his face changed, and said: "The chief executive is really willing to teach you this master's unique knowledge."

Ye Fan glanced at the four cursive scripts on the yellow book:

Great Seal Technique!

hiss.

Ye Fan was inexplicably cold, and took a breath.

Gai Jiuyou said: "This great seal technique is one of the most mysterious and unpredictable skills that His Majesty has mastered, even I haven't learned it."

"Ye Fan, you need to engrave the cultivation method of this great seal technique in your mind, and then destroy it, you must not leak it out."

"I see."

"Next look at the surprise I prepared for you, this silver-white robe."

Gai Jiuyou took out the robe and gestured to Ye Fan, which was very suitable.

"It is inevitable that the clothes will be wiped out during the war, which is very embarrassing. This robe is made by Tiangongji, using the most advanced technology and materials. Although it is very soft, it is extremely tough and has a strong defense."

With a flick of Gai Jiuyou's fingers, the qi turned into a sharp blade, cutting on the robe, but leaving no trace.

Ye Fan was stunned, and even thought that this robe would make him like it more than a semi-peerless treasure.

"Thank you, General Marshal, you are interested."

"Yes, you can agree to send troops, I am very grateful. In fact, I understand that the semi-peerless medicine has little effect on you now, but I guess it is a personal gift from the general manager. The peerless medicine will still be given to you later Apply, and I will definitely send it to you when your majesty returns."

Gai Jiuyou saw that Ye Fan couldn't wait, and smiled: "Go, put on your robe and learn about the Great Seal Art. Time is running out, and it will take a few days to get to Bermuda. You can leave tomorrow."

Back to the residence.

Ye Fan put on the silver-white robe for the first time, feeling incredibly comfortable, soft and elegant, as well as refreshing and concentrating.

Later, Ye Fan branded all the Great Seal Technique cultivation methods into his mind, and burned the yellow book according to Gai Jiuyou's instructions.

"First condense the physical inscription."

Ye Fan swallowed the colored glaze fruit, the Tyrant Body Jue revolved, and he began to condense the inscription.

In the flesh and blood, those lines appeared again.

These lines are crisscross and extremely complex, but there are 108 important nodes, which are the 108 inscriptions that need to be condensed.

Each time an inscription is condensed, a physical node will be filled.

These 108 nodes also have attributes and laws.

Every 12 is a group.

The most densely divided parts are the arms and legs, each of which has a set, which means that the limbs have 48 nodes in total.

"First condense the inscription on both arms."

"The attribute of the inscriptions of the arms is to increase the strength. This is the most intuitive manifestation of the enemy. Each time you condense one, the strength is the strongest. If all the 24 inscriptions on the arms are condensed and complete, the strength can be increased by about three times."

"This is already very scary."

After half an hour, Ye Fan completed the condensing of the first physical inscription, which was not very difficult.

However, Ye Fan felt a little bit.

The first condensing is simple, and the more difficult it becomes later. Now the semi-peerless treasure medicine can condense one, and gradually, the resource requirements are becoming more and more advanced.

"Headache."

"The Tyrant Body Art is indeed strong, but it is a bottomless pit. It consumes too many resources, and it must be a top-level resource."

"I hope that the Emperor of Humanity will return soon, so that I have a high chance of obtaining a peerless treasure from the Royal Treasury. It must be a high-level one, and it should help me successfully build a hegemonic body."

Ye Fan looked forward to it. After adjusting his breath for a while, he began to comprehend the Great Seal Art.

This secret technique is indeed unpredictable.

Profound level, not much worse than Xuanmen Secret Art, Ye Fan entered a state of deep enlightenment, forgetting the time.

...

In a blink of an eye.

the next day.

Approaching noon.

Gai Jiuyou came to the courtyard, and the **** of water was watering the flowers in the courtyard.

"Grand Marshal, you have been here three times, and Ye Fan is still cultivating. If he leaves the customs, he will find you by himself."

"Nevertheless, I am impatient."

Gai Jiuyou paced back and forth in the yard, worrying: "The Great Seal Technique is profound and unpredictable, Ye Fan won't be able to comprehend it, right?"

It's best to get caught up in it.

The water **** thought secretly, and continued to water her flowers.

At ten noon, in the bedroom, Ye Fan opened his eyes leisurely, pinched the seal with both hands, and shouted in a low voice: "Great Seal Technique."

Nothing happened.

Failed.

Ye Fan smiled bitterly: "It's worthy of being one of the emperor's most proud of geniuses. It's really hard to cultivate."

After checking the time, Ye Fan secretly said that it was late, and briefly washed it before coming to the yard and seeing Gai Jiuyou closing his eyes on the stone bench.

"Grand Marshal."

"Um."

Gai Jiuyou woke up, wiped his face, and said, "Everyone I'm waiting for is almost falling asleep. It's noon, Ye Fan, please pack up and leave. The latest news, the Eagle Nation War Headquarters has taken action. Arrangements have been made. An aircraft carrier, three large cruisers, eight medium cruisers, and twelve small cruisers escorted members of the Anti-Bone faction."

Ye Fan slapped his tongue: "This lineup is a bit strong."

Gai Jiuyou said: "My thought is, if you try your best, if you can't, then give up the rescue. You can't get on the Tianzun Temple in order to rescue the members of the Anti-Bone Sect. The gain is not worth the loss."

The God of Water came over and said seriously: "Although it is cruel, I still want to say. You can't save all the members of the Bones. It is enough to save some of them. Gulot has so much potential, you must save him."

Ye Fan and Gai Jiuyou glanced at each other and laughed strangely: "I know, I will definitely save your lover. But I have to remind you that saving him does not mean I will release him. It is likely to be imprisoned for life, or Destroyed, what do you think?"

"Ye Fan, what are you going to say!"

"Be mentally prepared. If you want your lover to live and be free, you still need to pay more and reveal more secrets we want to know."

The fair face was flushed with water.

Ye Fan waved his sleeves, his silver hair danced, his robe screamed, and he fisted at Gai Jiuyou.

"Marshal, goodbye."

"Take care, I'll wait for you to return in triumph."

Chapter 862: Walk with Nalan

The Water God stayed in the City Lord's Mansion.

Gai Jiuyou sent Ye Fan to the airport. At this point in time, Nalanruo arrived unexpectedly.

"What are you doing here?"

"You are going to Bermuda, I can go there."

Ye Fan looked suspicious, staring at Nalanruo, and said weirdly: "You are not in love with me, are you."

Gai Jiuyou smiled and said nothing.

The peak master of Tongyougu Wangqing Peak moved Fanxin, which is interesting.

"What nonsense are you talking about!"

Nalan Ruo was sullen and coldly shouted: "I have my own business, but the main purpose is not to deal with the Eagle Nation's military forces with you."

Ye Fan shrugged and said, "Well, since you want to be together, I have no objection."

"Take care of yourself."

Gai Jiyou watched the Thunder fighter leave.

City Lord's Mansion.

Water God looked at the disappearing fighter plane in the sky, with a deep light shining in his eyes, and murmured: "Ye Fan, I don't know if you can come back, please ask for more blessings."

...

It would take two days to get to Bermuda, even if it was the speed of the Thunder fighters, it was still early.

"How is the study of the Netherstone?"

"It is of great benefit to my extremely cold body practice, and I found that..." Nalan Ruo paused.

Ye Fan cheered up, which showed that Nalan Ruo had made a major discovery.

Nalanruo took out the Netherstone, placed it between the two, and said, "This Netherstone can absorb energy, but it is a bottomless pit."

"Is there such a thing?"

Ye Fan played out the power of qi and blood.

Sure enough, it disappeared when it touched the Netherstone, and it was obviously absorbed.

This attribute is amazing.

"I have a devouring method. This Netherstone is a bit like the devouring method."

"Think bigger, there are enough Netherstones to create a suit of armor and wear it on the body, what will be the effect."

If Ye Fan and Nalan look at each other, there will be a picture in their minds, that is, other people's energy hits on the body, it has no effect, and it will be absorbed by the Nether Armor.

Isn't this invincible?

Nalanruo said: "What you said is good in theory, but it is very difficult to implement. The Netherstone is produced in the Kunlun Forbidden Area Nether Cave, where the pinnacle giant entered the nine deaths. Thank God for bringing out a Netherstone. You still want to bring it out. A lot of them came to build battle armor, and I was dreamed of."

Ye Fan said: "If you are strong enough, you can naturally come and go in the Nether Cave freely. Kunlun, I will definitely go, I will go to the Nether Cave. But I have to wait for my physique to become more confident."

"By the way, what are you going to do with me in Bermuda? What can you do in Bermuda? Don't mess with me."

"Who has added chaos to you?" Nalan Ruo gave a blank look and said: "If there is a big battle, there will naturally be huge casualties. The blood from those corpses can be used to fill the Netherstone."

"Although I still don't know what effect filling the Netherstone will have, there should be no harm."

Ye Fan was a little unnatural.

Nalanruo said: "Indeed, although it is a corpse, it is a human being after all. The extraction of human blood is against humanity, but I don't care about it. I am taking the ruthless way, don't forget."

Ye Fan knew that he couldn't dissuade Nalanruo, and sighed: "Let's do it, I can't interfere with you, but for one thing, only the blood of the deceased of Eagle Nation fighters is allowed to be drawn, and the soldiers under my command are not allowed to draw."

Nalan Ruo dissatisfied: "The war is chaotic, how can I care so much."

"No, this is my bottom line. The bones of my soldiers will be transported to the savage continent afterwards for collective burial. I don't want my soldiers to become corpses after their deaths, and there will be no peace under Jiuquan. "

Ye Fan's attitude was very firm, and his tone was as sharp as a knife.

Nalanruo felt Ye Fan's determination and nodded: "Okay, I will pay attention."

"Understand more."

"By the way, you take the earth-centered fire bamboo. I think your extremely cold body is strong and stronger, and your realm is more solid."

Nalanruo was very satisfied with her results, and said, "Indeed, I used the yin atmosphere of the Netherstone to harmonize the extremely yang qi of the fire bamboo in the center of the earth. It was very successful and my strength increased a little."

"congratulations."

"I have to practice, you are free."

Ye Fan headed into the bedroom.

If Nalan was really speechless, Ye Fan was either cultivating or on the way to cultivating. No wonder he had such an achievement at a young age.

The scary thing is not lack of talent. It's not hard enough.

It's a talented person who works harder than you, harder than you, you are not angry!

In the bedroom.

Ye Fan was not eager to practice, but introspection.

Sort out everything about yourself.

In terms of the martial art realm, it is still the double peak of the transformation realm.

In terms of the physical body, half a step to become the overlord body, open the emperor's shadow method, and open the physical inscription to condense the method.

Control the power of the earth, the power of qi and blood, the two true meanings of martial arts.

"At this stage, I need to do a lot."

"For example, the method of transforming energy and blood, comprehending the power of heaven, and condensing the realm to break through the three levels of transformation, continue to comprehend the true meaning of martial arts, mysterious techniques, and practice the three emperor's unique skills..."

"Also, the memory fragments of inability to punch in my mind also need time to impact and try to shake. This invincible punch is too strong, and now I can't actively use it, I can only use my luck and passively, which is very uncomfortable."

Ye Fan was also very impatient.

With so many to-do items, I really want to make it to the sky in one step, and all are fulfilled.

At that time, it was truly invincible.

Of course, this is a dream.

"Don't worry, haste means nothing."

"During this period, I am advancing by leaps and bounds, and I must slow down. Take your time. With the progress of the Dacheng Hegemony, my comprehension of the Qi and Blood Transformation Method has become more profound and easier, and it won't take long to succeed."

"Break through this first."

Ye Fan closed his eyes and began to practice.

...

On the far Atlantic Ocean.

The vast sea is filled with loneliness, desolation, and sorrow.

The sea is like that.

After staying for a long time, there will be a desperate thought, and even depression.

In the boundless waters, dozens of cruisers are cutting through the sea and galloping; among these cruisers is a huge aircraft carrier, mighty and extraordinary.

There are tens of thousands of people on this aircraft carrier.

Three thousand of them are prisoners, that is, members of the anti-bones.

They were all injected with "gene blockade" reagents, and they were no longer able to perform supernatural powers and became ordinary people.

They are all detained in concentration camps.

"Woo, let me go, I was wronged..."

"...Help, who will help me."

"I never betrayed, why kill me!"

"Dirty and despicable bugs, I curse you, you will not die, you will fall forever, and will not enter heaven..."

"woo woo woo woo....."

Concentration camps were so miserable.

Some corner.

Some men and women with high-level temperament gather, they are the middle and high-level anti-bones.

Among these men and women, there is a gray-haired old man who is the backbone of the faction.

In the early years, I traveled in Daxia.

Therefore, he gave himself a Daxia name and called it Warburg.

"Old Hua, do you think of a way, are we really just waiting for death like this?" said a man in power gritted his teeth.

"Yes, Mr. Hua, you can get Gulot a place to participate in the god-making plan, and you will surely save us. You talk to Lord Cronus."

"Old Hua!"

Everyone's eyes were bloodshot, and they kept begging.

Warber's eyes were half-open and half-closed, and he lamented: "I was wrong. I shouldn't use the only useful secret I know in exchange for Gulot to participate in the god-making project. I thought that Gulot would have a different status when he became a demigod. Now, we are going up. We never expected..."

"Gulot's talent is so scary that it makes other factions jealous and unites to frame me and wait."

"Talk to Lord Cronus? There is nothing to talk about. You think he didn't know that we were framed, but he still came to the verdict. This shows that Cronus was about to destroy us."

The faces of this group of men and women are ashamed.

Watching the concentration camp wailing everywhere, Warber's heart is like a knife twisted, and the old tears are raging.

"Do we really have no way to survive."

"I'm not reconciled. We didn't do anything. Why did we lose our lives in vain. Let's go the other way and make a **** way."

"How to kill? We are all hit by 'Gene Blockade', we can't use abilities, we don't have any combat power."

"Even if we were able to perform abilities, we would not be saved. The soldiers on the aircraft carrier are well equipped and can easily shoot us; there are dozens of cruisers outside..."

"We have a dead end, there is no way to survive."

"No! There is still a way to survive!" Warber suddenly said, his old eyes widened, and he burst into light.

Staring at him one after another, Warber said word by word: "Gulot breaks the genetic blockade, restores his supernatural power, and captures the aircraft carrier, and we can be saved. However, this probability can be described as one in ten thousand. The organization is for stability, not only Gulot was injected with genetic blockade reagents and drugs, and Gulot was still asleep. We can only pray that Gulot's strong will will wake up and break the genetic blockade."

Chapter 863: God's will

Warburg's words made the seniors look bitter.

Gulot forcibly wakes up and breaks the genetic blockade, is it possible? Unless God strikes a miracle.

The other side far away.

There are also a group of warships, but the Hades War Department and the Heaven War Department.

In addition to Luo Hong and Bai Zhan, Chaos, Taotie, Yinglu, and Qiongqi also came.

Headquarters.

Everyone gathers together.

On the LCD screen in the center of the round table, the image of the Eagle Nation Fleet marching is shown.

"Beidou is really powerful, and it can break through the signal blockade of the Eagle Nation."

"This is also carried out without the Eagle Nation knowing. If the Eagle Nation knows in advance, there will be countermeasures."

"Anyway, with Beidou's support, it will be easy for us. According to the other party's marching speed, it will take tomorrow night at the earliest to arrive in Bermuda."

"Almost, the boss has already contacted me, and can join us tomorrow night or the next morning. According to the battle plan, some of the soldiers of the Yama War Department will land in the Bermuda Islands to hide."

"A Hong personally leads."

"Okay, then I'll be one step ahead."

...

The combat deployment was issued one after another, and everyone knew in their hearts that this was a tough battle and it was not easy to fight.

time flies.

The Eagle Nation fleet has gradually approached Bermuda.

at the same time.

The Thunder fighter was only five thousand miles away from Bermuda, and it could be reached within two hours. The fighter turned on the stealth mode.

Ye Fan stopped practicing.

He is full of energy and self-confidence, and a powerful majesty is born from the inside out, which makes people unable to help being in awe.

Bai Zhan synchronized the Daxia Beidou monitoring information to the Thunder fighter, and Ye Fan clearly saw the route of the Eagle Nation fleet.

"Boss, are you here to join us?"

"That's not necessary. If you hit you, I'm going to kill the demigod. There must be demigods in the Eagle Nation fleet. I have to pay attention."

"clear."

"Remember, don't expect to save them all. That is an almost impossible task. Just one batch as much as possible to reduce the casualties of our brothers."

Ye Fanqian exhorted him, and talked about a lot of battle plans with Bai Zhan.

soon. The LCD screen shows that the Eagle Nation fleet has arrived at the outskirts of Bermuda.

The cruiser patrolled the surroundings.

The aircraft carrier docked.

The Bone Opposition members began to be escorted out and rushed to the center of the island; because there was a huge pit in the center.

It was caused by the last attack and destruction by the living dead. The pit was big enough to hold enough corpses.

"No, God, save me."

"Do not kill me."

"Woo, I was wronged, let me go, you demons, beasts..."

Ghost crying wolf howling reappeared.

The resentment is overwhelming.

Hate is surging.

Everyone of the Anti-Bone Sect members had red eyes, and this breath of resentment condensed, making the heavily armed soldiers a little hairy.

"Warburg, there is no hope."

"Gulot hasn't awakened, and there is no way to survive. I am not reconciled. Why did I fall to this point."

"I curse Cronus, I will be beheaded by the powerful Daxia, and I will never live beyond my life."

"I curse Cronus' gene collapse, fall to the altar, and fall from heaven to hell."

"I curse Cronus..."

More and more people are cursing, with a hideous complexion, and there is a certain mysterious power in the dark, which makes a man full of majesty, shrouded in light, and unable to see his face in the headquarters of the distant supernatural organization to feel a chill.

He is Cronus.

The real creature, one of the three masters of the supernatural organization.

Here is the temple of the gods.

Below him, there is a demigod, many of whom are comparable to Zeus. They are majestic and powerful.

All the demigods felt, and looked at Cronus on the high seat.

"The Anti-Boneists are blasphemy, rebellious, and there is no place to be buried when they die."

"When burned after death, there is no bones left."

"Fell into boundless hell."

"..."

A demigod spoke, very angry, and they guessed that it was a member of the Anti-Bone Sect who was cursing.

The gods are aloof and unpredictable.

Possess strong perception ability.

The vicious curse of thousands of people should be felt in the dark.

"Dear Lord Cronus, please allow me to call the fleet to torture and kill all the members of the Anti-Bone Sect, and not let them die. This is the price you should pay for blasphemy."

"allow."

Cronus uttered a word.

This word seems to have magical power, impacting the hearts of all the demigods present, shocking them.

Cronus was warning and shocking.

tell them.

Whoever dares to blaspheme the spirit will be judged.

The demigod hurriedly withdrew from the temple of the gods and sent a message to Bermuda.

In the aircraft carrier command room on the Bermuda side, several men and women watched closely the scenes of escorting members of the Anti-Bone Sect to the Great Keng.

The foremost is a middle-aged man.

Holding a trident.

The breath is like the sea, and the majesty is like a god.

Awe flashed in the eyes of the demigods behind.

This existence is close to the true god.

There are currently three major gods in the organization, and this one is one of the most promising beings to become the fourth god.

"Didi."

Just then, the communicator rang.

The middle-aged man opened it, and words rang out from the other end: "Poseidon, the Anti-Bone Sect members cursed Lord Cronus, blasphemy, and the sin is unforgivable. With the permission of Lord Cronus, the Anti-Bone Sect members must be tortured and killed, and they cannot be allowed to die. "

"To kill?"

Poseidon frowned.

"Why, do you have objections? This is Lord Cronus's will."

"I see."

Poseidon turned off the communicator.

After a few seconds of silence, he said indifferently: "The will of the gods must not be violated. You think about some methods of killing, and pass on the order."

"Yes."

After half an hour.

Three thousand members of the Anti-Bone Sect were all driven to the edge of the big pit.

Behind is a line of soldiers, loaded with high-level guns in their hands, ready to shoot at any time.

Among the Thunder fighters.

Ye Fan was talking with Bai Zhan and Luo Hong, and he was sure to make a move, so he couldn't wait.

Three thousand people seem to be too many, but after a few rounds of shooting, they can all be shot.

"Go ahead."

Ye Fan's words fell.

Suddenly, the picture changed.

The Bone Opposition members scattered and fled, the soldiers did not shoot.

Bai Zhan and Luo Hong also knew about this change.

"Boss, what's the situation?"

"Lao Bai, hold on first, don't take action; A Hong, you secretly rescue, the more the better."

"clear."

After ending the call, Ye Fan stared at the monitoring screen closely, unable to guess what it meant.

The center of the island.

Three thousand people burst into tears, unexpectedly there was a glimmer of hope of alive.

Just now, the high-ranking generals arrived and said that they would be given a quarter of an hour to escape, and whether they could escape or not depended on their ability.

It's really blessed by God.

"Boom!"

Suddenly, a gunshot sounded.

The world is quiet.

All the fleeing anti-Bone faction members stopped.

A man was headshot, half of his head exploded directly due to the power of the gun, and he fell into a pool of blood.

"what!"

The exclamation rushed into the sky.

The senior general laughed ferociously: "Run away, the hunt begins."

"boom!"

Another shot.

A woman was hit in the heart, and a fist hole appeared in her heart.

"These beasts."

Warburg vomited blood out of anger.

This is slaughter.

This is of course their prey, to play with them alive.

They had seen a glimmer of hope for survival, and once again fell into the endless darkness, and the hatred that was more turbulent than before burst out.

"I fought with you."

A group of people recoiled, desperately fighting the soldiers.

The high-ranking general picked up a submachine gun and fired at it. Dozens of people were shot and dead.

"You group of sinners who betrayed by the organization and betrayed the country. It is a great gift to let you run away and give you more time to live."

"This general repeats it, immediately run for my life and start the hunting game; otherwise, I will burn you alive."

"boom!"

Dozens of muskets shot.

The raging flames swept away, and the hot breath burned some of the nearest people, scorched their whole bodies, and rolled and wailed on the ground.

"brute!"

In the fighter plane, Ye Fan couldn't stand it anymore.

Contact Luo Hong and Bai Zhan, patted the table, and shouted: "No need to hide, no tactics, go to war, go to full-scale war."

Bai Zhan had already waited for this sentence.

at the same time.

The battleships of the Tianzun Temple attacked, and missiles were launched one after another; although the Eagle Nation Fleet detected it when it was launched, it was too late to anti-missile.

boom!

The first loud noise.

A small cruiser exploded, and a raging fire rushed into the sky, turning into a sea of flames, covering the sky and the earth.

Chapter 864: Outbreak, full-scale war!

"kill!"

The battle started in the sea, and Luo Hong also shot on the island.

The sudden coverage of firepower caught the five thousand Eagles in the island off guard.

But they were well-equipped and well-trained. After losing hundreds of people, they immediately stabilized and began to counterattack.

"Shoot the members of the Anti-Bone Sect, shoot them all first."

"quick!"

The senior general roared wildly.

At this time, the members of the Anti-Bone Sect were dumbfounded.

Only Warburg and other high-level officials reacted in time and knew that a force was taking action and wanted to save them.

"The sky never stops me."

Warburg and others roared mournfully, and howled with excitement.

"Rumble."

Thirty thousand soldiers from the battle department of the Yamas came out, mighty and vigorous; even if the Eagles were well-trained, they were quick to face the wolf-like soldiers of the Yamas.

Luo Hong took the lead.

Yi Gao people are bold.

She is already the big master of the Second Layer of the Transformation Realm, she is protected by a gas shield, and is dressed in a high-level defensive armor made by Wanbaozhai. In order to build her prestige, she has been brewing for a long time and displayed the martial art of "Sky Splitting Palm".

The palm prints that cover the sky and the sun fall from the sky, fascinating.

boom!

After being slapped, hundreds of Eagle Nation soldiers died tragically.

Warber was surprised and delighted, and shouted: "It's Daxia warrior, Daxia saved us."

"Daxia Country?"

Others have complicated eyes.

However, Luo Hong shouted: "I am a member of the Tianzun Temple, not a warrior of the Great Xia Kingdom."

"Tianzun Hall!"

The three words shocked Warber and others, and even the Eagle Nation fighters.

Luo Hong shouted: "What are you doing in a daze? Don't withdraw quickly."

A word awakened the dreamer.

Warburg greeted everyone and moved to the rear of the Yama's soldiers.

"Damn it!"

"Tianzun Hall, you dare to oppose our country and look for death!"

The general is not light.

The difference in the number of people made him dare not contend head-on, so he could only retreat while the firepower impacted.

"support!"

"Request support!"

The general shouted frantically at the communicator.

...

Outside the island, there was a fierce war.

Compared with the fighting on the island, the sea is completely a battle of thermal weapons.

The surrounding islands were exploded one after another.

The waves are overwhelming.

Tianzun Temple is always so domineering.

Even in the face of Eagle Nation, it was the same, without flinching.

Bai Zhan commanded dozens of warships to kill the Eagle Country cruiser, colliding at close range, playing hard.

The warriors in the Temple of Heavenly Sovereign are extremely wild.

The reason why the Temple of Heaven has risen so quickly is because of battles. After countless battles, no one is afraid of death, and every soldier is extremely eager to fight.

On the aircraft carrier, the demigod received the request for help from the island and immediately arranged 10,000 soldiers for support, and at the same time ordered the fighter planes to move and the chariots to appear on the field.

"Beidou Intelligence, the other side dispatched about 10,000 soldiers to support the island battlefield."

"Beidou Intelligence, the other side dispatched 500 fighters, of which 100 are the most advanced fighters of the Eagle Nation, the Lightning Eagle M23, to support the island battlefield."

"Beidou Intelligence, the other side dispatched 100 armed combat vehicles to support the island battlefield."

Information gathered one by one.

Tensed and depressed.

Bai Zhan smiled and said, "Finally, my Heavenly King War Department can show off."

"According to the order, the Uranus War Department dispatched 1,000 fighters, including 100 Thunder fighters, to support the island battlefield."

"Yes."

One thousand fighters, this is an extremely terrifying number.

Island battlefield.

The senior general who had been waiting for support was relieved, but his face changed drastically when he discovered that a dense group of fighters from afar had come.

"The strength of the Tianzun Temple is so strong, these thousand fighters are already comparable to the national defense strength of a small country." Some high-level anti-Boneists praised and excited, because the stronger the Tianzun Temple, the greater their hope of survival.

"Look, there's a confrontation."

In the sky, there is a fair duel.

One hundred Thunder fighters VS one hundred Lightning Eagles.

Both are world-class fighters, and they are equally competitive in terms of performance, and they compete with the pilots' operational standards.

Huh!

Huh!

You come and I go, break through the sky.

How magnificent this picture is.

Luo Hong retracted his gaze, retreated to the rear to direct the battle, and at the same time approached a group of high-level officials such as Warburg.

"I have arranged for the warship to be over there, head over there, board the ship and leave."

"Thank you heroine."

"By the way, who is Gulot?"

Luo Hong remembered Ye Fan's admonition that Gulot was the most important person. All other members could die, and Gulot must be rescued.

Warburg sighed, "Gulot is not here?"

"Where is he."

"We don't know that Gulot and we are not detained in the same place. It is possible that Gulot is still in the aircraft carrier. It is also possible that Gulot was secretly executed."

Luo Hong's face sank.

She waved her hand and said, "I can't think about that much now. You can withdraw first."

Warburg led the members into the forest.

Luo Hong had long arranged for a team of a hundred people to pick up and lead them to board the ship.

"I want to save them, I'm crazy. Even if I board a warship, I still can't escape Bermuda."

An indifferent voice vibrated.

Luo Hong's face changed, he was half god.

"call."

as predicted.

A demigod descended, staring straight at Luo Hong, and sternly said: "Tianzun Hall, haha, dare to fight our country, it will be a death to end. Let's take the knife from you first."

Luo Hong is not afraid. The demigod is theoretically comparable to the three giants of the transformation world, but the exact superpower depends on it.

There are some junk superpowers, and the threat is not big.

"Catch the claws."

Luo Hong displayed his fascinating knowledge.

Ye Fan didn't hide his nine-day stunt, and it was passed to the backbone of the Tianzun Hall early.

"Niezha, dare to take action against the god, presumptuous."

"It's so ridiculous, I really think I'm a god, something nondescript will die for me."

Luo Hong is very fierce.

The big master of Huajing Second Layer Grandmaster, his body is not bad, although he hasn't reached the level of Master Heng Lian, it is not much different.

As a warrior, the commander of the Yama War Department, how could his body be weak.

The demigod was furious, and he bombarded with a punch, breaking his paw prints.

"what!"

Luo Hong's eyelids twitched, and he didn't expect this demigod to be so powerful.

The demigod's blow boosted morale.

The high-ranking general shouted: "Kill, counterattack and counterattack, kill them without stopping."

However, in the sky.

The firepower of the warplanes of the Uranus War Department is pouring, which has spread a lot of pressure for the Yama warriors.

The demigod has sharp eyes.

Raising his hand was a punch, and a fighter jet exploded with invisible energy.

Luo Hong felt distressed.

The fighter plane was destroyed when it was destroyed, but the pilot died, which was a huge loss.

"Little Heavenly Sovereign Hall, dare to be rampant, stupid and ridiculous. Today, you will all be annihilated."

The demigod continued to punch.

With every punch, a fighter plane blasts.

Luo Hong gritted her teeth, she was also punching.

"Broken Sky Fist."

A tank was hit.

The explosion that was not beaten was just a huge depression, because this tank was the most advanced tank in the Eagle Nation, and it had a very strong defense.

However.

The chariot didn't move anymore, and all the people in it died. They were shaken to death.

"Asshole."

The demigod yelled.

He swooped down and the target was Luo Hong.

"Good job."

Luo Hong is not afraid, and rises to the challenge.

In the first confrontation, Luo Hong vomited blood in his stool and flew backwards, while the demigod only retreated more than ten meters.

Set a verdict on top of one another.

Luo Hong sighed, did not expect this demigod to be so powerful.

"Do you know the gap? It's a pity that I won't take pity on Xiangyu Yu and send you on the road."

"Die."

Crisis.

A burly body flashed in front of Luo Hong, Qiongqi, and a fierce aura broke out in an instant.

It instantly became like a wild beast.

Qiongqi had already practiced the Master Dual Realm, and his physical body had reached a very high level. He roared and blasted against the demigod.

Both of them retreated violently.

Qiongqi sneered: "You're a kid, you're pretty vigorous, go on, see if your grandpa smashes you, you call you father."

"The sin of blasphemy is unforgivable."

"I molest youTM."

Boom boom boom boom...

The two people kept fighting against each other and it was difficult to distinguish.

The battlefield on the island has become extremely chaotic. On the other side, Warber and others have already boarded the ship.

only.

They could not sail out of the strait.

Because an even more terrifying battle is erupting in the outer waters, if you are not careful, the warship will sink.

"My lord, it's the Tianzun Hall that will make another move. This force must have reached cooperation with Daxia, otherwise it will not be possible to attack us suddenly."

"My lord, let's go to war, end the battle as soon as possible, and save the casualties."

Poseidon thought thoughtfully, and said lightly: "Tianzun Hall made a move. I don't know if the mysterious Heavenly Sovereign will come, but I hope to meet him for a while. Go ahead, kill the high level of the Heavenly Sovereign Hall, and force the Heavenly Sovereign to come out."

"Yes."

The five demigods left.

Three battleships to kill the Tianzun Temple, and two to kill the island battlefield.

For a time.

The world changes color.

In the sea, the three demigods joined forces, and the fusion of super powers has undergone a qualitative change.

Wind and rain, lightning and thunder.

Click!

A thick-armed thunder and lightning landed, bombarding the Tianzun Palace battleship, killing more than a dozen soldiers.

Rumbling...

The thunder was rolling, and the sky was covered by dark clouds.

From daytime, it seems to suddenly turn into night, suppressing terror and frightening.

The sea became violent, like a giant beast with its mouth wide open, trying to swallow everything.

Chapter 865: Cut six demigods in a row!

This situation is very bad.

Bai Zhan was worried that more brothers would die tragically, so he hurriedly contacted Ye Fan and said anxiously, "Boss, don't look at it, hurry up and support."

"clear."

Ye Fan originally wanted to wait for an earl of the level of Zeus to appear, but the six demigods in succession were not of that level.

Can't wait anymore.

"Do you need my help?" Nalanruo asked.

"Don't use it yet, hide your hand, after all, there are still strong opponents who haven't shown up."

After speaking, Ye Fan walked out of the cabin.

He first went to the island battlefield.

...

Luo Hong and Qiongqi were in their most critical time.

The three demigods besieged and killed, causing them to retreat steadily. They have already lost their color, especially Qiongqi, with one arm drooping.

"Isn't it crazy just now? Go on. Like an ant, I dare to offend my god, I will let you die without a corpse."

"Why don't talk nonsense, just shoot to death."

"Wait, this woman is good, I want it, I need to enjoy it first when I get it back."

Luo Hong and Qiongqi were full of frost.

next moment.

Qiongqi laughed.

"What a laugh!"

"I laugh you are already dead, reincarnate in your next life and be smart."

"Dare to talk nonsense when you die."

The three demigods are about to shoot.

Suddenly, a breath locked them in, making them like falling into an ice cellar, with their cold hair standing upright, and a death crisis rushing into their hearts.

Look back.

In sight, a silver-haired man in a white robe stood in the air, looking at them calmly and indifferently.

this...

Appeared silently behind them, master, absolute master.

"Boss, you are finally here." Luo Hong helped Qiongqi with a sense of security, "I'll leave it to you."

When the words fell, he turned around boldly, helping Qiongqi to walk into the distance.

"Who are you!"

The three demigods watched Qiongqi and the two walk away, wanting to stop but dare not move, it was instinctive fear.

It seems that once there is a movement, it will immediately die.

impossible.

How could there be such a horrible feeling.

"My question, who are you?"

"Answer my question, I might be able to save your life." Ye Fan said calmly, "Are you willing to betray the supernatural organization to reveal confidential information?"

"What a joke, we..."

"Okay, needless to say, I already know it."

Ye Fan interrupted and said blankly: "Since I don't want to betray, I can only send you on the road."

not good.

In an instant, the hairs of the three of them exploded, terrified.

"Who the **** is your excellency!"

"You don't need to know."

Ye Fan's use of the Emperor's Fist, contains the true meaning of opening the mountain, the true meaning of Zhenhai, and the power of blood.

The terrifying energy made the three demigods fly away, and the suppression was immobile.

"My lord is merciful and has something to say..."

"puff!"

With one blow, the three demigods were blown up.

Blood stained the sky.

In the distance, Luo Hong and Qiongqi had scalp numbness. The two looked at each other and smiled bitterly: "The gap between us and the boss is getting bigger and bigger. I am afraid that we won't be able to help the boss for a long time and become a burden."

"Yes."

Luo Hong sighed.

The two felt uncomfortable.

Killed three demigods with one punch, petrifying the Eagle Nation warriors below, trembling with fright and trembling legs.

Ye Fan glanced at the battlefield and left without paying attention.

At his level, he was not interested in destroying the small pawns. Moreover, now, the morale of the Eagle Nation soldiers has collapsed, the psychological defense line has also collapsed, and there is not much combat effectiveness.

Hell's soldiers can be taken.

...

Aircraft carrier command room.

Seagod's eyelids twitched, and he felt some inexplicable feelings, and his face became extremely solemn.

The true gods have clearly developed the sixth sense and are instinctively sensitive to many things.

Poseidon was already very close to the real god, and although the sixth sense had not been fully developed, the road was halfway there.

"The three of them have fallen?"

"Tianzun shot?"

Excitement flashed in the seagod's eyes.

In the sea, the thunderstorms of the three demigods teamed up to make Bai Zhan very uncomfortable.

The power of nature is too great.

No human can resist.

Even if firepower attacks the three demigods, they will be blocked by the thunder barrier.

"boom!"

There was a loud noise.

A general reported: "Marshal, the Eighth Battleship was overwhelmed and sank."

Bai Zhan gritted his teeth, his heart dripping with blood.

"boom!"

"boom!"

The explosions one after another have shaken the earth, causing the sea to rise up to a hundred meters high.

"Report, the sixth battleship sank."

"Report, the eleventh battleship sank."

"Report..."

Bai cut his eyes to crack.

Give the order: "Temporarily retreat, fire cover."

"not good."

Suddenly, under radar monitoring, a thick bucket of thunder and lightning mixed with purple flames came towards the main battleship.

The interceptor fired like rain.

But it was impossible to stop it, and quickly approached the battleship command room.

"Ye Fan, my brother, hurry up..."

"Stop howling."

At a critical juncture, Ye Fan appeared in front of the command room.

Looking at Ye Fan's back through the bulletproof glass, Bai Zhan cursed secretly in his heart under the tears of tears:

Special code.

Why not get card time.

Isn't it okay to show up early? I like to engage in this kind of routine.

Outside, Ye Fan looked at the thunder flames that had come, displayed his mighty palm, and slapped it out.

The three demigods flew upside down hundreds of meters.

Ye Fan stepped into the sky, condescending, his eyes were like electricity, half-step Dacheng hegemony recovered, and the emperor's phantom rose behind him.

In mind.

The imprint of that invincible boxing technique was trembling.

A trace of instinct blooms.

Ye Fan couldn't help but swing his fist, carrying invincible power, containing the two true meanings of martial arts, as if to blast through the sky and smash the sea.

"not good!"

Poseidon's face changed drastically.

He rushed out of the aircraft carrier and shouted wildly while displaying his superpowers: "Retreat, hurry up and escape."

The three demigods were cold.

Ye Fan's invincible power made them feel as if they were facing the **** of Cronus, without the courage to confront, they flee madly and desperately, and could no longer take care of their faces.

Poseidon, as the name implies.

The sea is his battlefield, in the sea, he is like a fish in water.

In fact, his superpowers are similar to those of the Water God, but they are different. This is also easy to understand, because... The Water God is her daughter.

The endless waves rushed up, condensing a solid defensive wall for the three demigods.

In a hurry, Poseidon could only do this.

However.

Ye Fan's punch made a vacuum.

The strong sea water defense exploded in an instant, dissipating invisible; the power of the fist was unstoppable, and a trace of breath separated the sea and slammed behind the three demigods.

"Do not!"

The three screamed in horror.

"Poseidon save me."

"help me!"

The fist overwhelmed the three of them.

The sound stopped abruptly, and the three of them were wiped out in ashes, and the fists had not yet dispersed, and bombarded a small cruiser, making a big hole.

"boom!"

The sound didn't sound until the light dissipated.

Ye Fan stood proudly in the air, his silver hair danced wildly like an immortal, his eyes half-open and half-closed, coldly with contempt.

This punch halted the fighting.

The world is silent.

It can be said to be: a punch to calm the wind and rain, there is no **** in the world.

Chapter 866: Ye Fan VS Poseidon

Poseidon's thoughts returned.

He didn't get angry, just six ordinary demigods, if they fall, they fall, it's nothing to him.

He stared at Ye Fan with a pair of strange brilliance flowing in his eyes, and said deeply: "The Lord of the Tianzun Temple."

"it's me."

"Unexpectedly, the legendary Tianzun was so young and so powerful, it was beyond my expectation."

"I organized Poseidon for the supernatural power, I don't know the name of Tianzun?"

"The last name is Ye."

"Ye Tianzun, we don't know where to provoke you, why attack our Eagle Nation War Headquarters?"

"The deity still needs to explain to you when doing things?"

Poseidon laughed: "Okay, crazy enough, but you have crazy capital. If that's the case, then ask Tianzun for some tips, how about?"

"I also want to see if the so-called sea **** can really dominate the sea."

Ye Fan stared at Poseidon.

He felt that this sea **** was stronger than Zeus, and might be close to the existence of a true god.

"Wow."

The trident in Poseidon's hand waved, and waves of sea water rose into the sky, turning into water dragons, hovering in the air.

One hundred, one thousand, ten thousand...

Densely packed.

Overwhelming.

Ye Fan admired that the Sea God's light was enough to guard against the sky, worthy of the name, incomparable in the sea.

"powerful!"

"Tianzun is overwhelmed. Please Tianzun to pick me up this trick, Wanshuilong bullet."

Poseidon yelled, and Sancha Street pointed at Ye Fan fiercely.

Suddenly.

The dense water dragons killed Ye Fan, the picture was suffocating, and the soldiers on the distant fleet could not stand steady.

This is really a magical skill.

The means of the gods.

Facing this hand, Ye Fan was of course not afraid. The phantom of Emperor Zun appeared again behind him, and it shattered thousands of water dragons just after it emerged.

Subsequently, under the control of Ye Fan, the emperor phantom moved, waved gently, and the water dragons exploded.

Ye Fan still couldn't fully control the emperor's phantom, so he could only simply wave his arm, but it was enough.

How can the emperor's phantom be so powerful that a mere water dragon can resist it.

"Boom boom..."

"Puff puff puff puff..."

Tens of thousands of water dragons were all broken in a short time.

It turned into rain and fell.

heavy rain.

Poseidon said: "Yes, Tianzun is a good method."

"To each other."

"Then ask Tianzun to take me a second hand, and Jinghai will sink."

The Trident of Poseidon shines.

Ye Fan only felt a trance in front of him, and then the sky and the earth changed.

"A mere cage can trap me?"

Ye Fan smashed out with a punch, but it seemed to be in the cotton, without any waves.

"Um?"

"interesting."

Ye Fan displayed his mighty palm and attacked in a large area, shooting all the cages apart.

However, something strange happened.

There are no waves either.

Ye Fan's face became solemn, he approached the water curtain, opened the gas mask, and stepped into it.

Since it is a cage formed by a water wall, it must have a thickness.

You can get out by crossing the water wall.

However, Ye Fan drove in the water for a long time. According to his estimation, he still didn't come out after several kilometers.

As if there is no end.

what happened?

Speeding for several kilometers without penetrating the water wall, can Poseidon make a water wall for several kilometers or even thicker?

With this kind of strength, wouldn't it be against the sky?

"wrong."

"Jinghai sinks, Jinghai, this is fantasy, isn't it true?"

Ye Fanming Wu.

But how can the fantasy be broken?

Ye Fan displayed the Heavenly Mighty Palm, which contained the true meaning of opening the mountain, cutting claw marks, but it still didn't have much effect.

This caused Ye Fan to be forced to run around.

However, the second paw print was condensed, followed by the third and fourth...

In the blink of an eye, hundreds of claw prints formed, densely covering the entire space, making Ye Fan inevitable.

"What a great magical skill."

Ye Fan also had to be convinced.

At this moment, the seagod's voice sounded: "Tianzun, it seems that you are poor in guilt, and giving up resistance shows that you are convinced."

Convinced?

Ye Fan sneered inwardly.

"Poseidon, I have to say that the sinking of your mirror sea is weird, but it is not enough to convince the deity."

"Well, Tianzun will continue to enjoy it."

Hundreds of paw prints descended fiercely.

Ye Fan took a deep breath, snorted, half-step Dacheng Ba body completely recovered, and the monstrous blood washed out.

These qi and blood did not attack the paw prints, but merged into the water and merged into one.

Bang bang bang...

The paw prints bombarded Ye Fan's body.

But Ye Fan's body is so tough that it can't be shaken by a few paw prints.

"What a strong body."

"What a strong blood."

"I'm going to see how many attacks you can handle."

Poseidon's eyes were sharp, the trident trembled, and the water condensed a spear, piercing Ye Fan's body; the water condensed the sword and chopped; condensed the giant hammer, exploded...

Ye Fan stood still after all the additions.

He continued to spread blood, more and more, and eventually the sea water turned red as far as he could see.

"call!"

Finally, Ye Fan opened his eyes.

The corner of his mouth raised and shouted: "Poseidon, take a good look, how did this deity break your mirror sea and sink into it."

"Break my magic skills, foolish dreams."

"Humph."

Ye Fan sneered.

In the next second, he pinched his hands and shouted, "Qi and blood are transformed into an invincible handprint."

Only see.

The water in the sky and the ground in all directions began to change, and the condensed knives, guns and sticks were all broken.

"what happened!"

Poseidon was alarmed, and he found that he couldn't control it.

The sea water changes rapidly.

In a short while, Ye Fan's eyes flickered, the heaven and the earth regained clarity, and in the sky, a blood-colored handprint that stretched for thousands of meters appeared horizontally.

Half of the sky was shaded, and the sun was dim and shocking.

"Why did you break my mirror sea and sink!"

"It's very simple. You can control the sea water, but you can't control my qi and blood. I will blend the qi and blood into the sea water, and then use the Qi and blood transformation method to get out of your control."

Ye Fan explained that he was also considered lucky. In the two days on the fighter plane, he successfully comprehended the method of transforming qi and blood, which was a trivial matter.

Poseidon's face was uncertain.

The sinking of Jinghai is one of his unique skills.

Few people broke.

Few of the entire power organization can be broken.

Unexpectedly, Ye Tianzun broke for the first time. Poseidon was shocked, but it took a long time to come back and smiled: "It is Ye Tianzun. The blood is strong, otherwise you can't grab control with me."

"indeed."

Ye Fan nodded. The biggest element of this cracking method is that the blood is strong enough and vigorous enough.

With insufficient energy and blood, it is impossible to **** control with the Seagod.

"Can I know exactly how Jinghai Sinking created that effect?" Ye Fan asked, he was curious.

"Enlighten yourself."

Poseidon didn't say much, he took a deep breath, his eyes burning, the trident pointed at Ye Fan, and shouted: "Ye Tianzun, take me in the end. If you can carry it, I will immediately lead the fleet to evacuate."

"up to you."

"good!"

The temperament of Poseidon began to change.

Before it was very peaceful, but now, it has become very fierce.

at the same time.

The sea became violent, and the waves rushed hundreds of meters into the sky, which was extremely frightening.

The fleets of both sides retreated quickly.

Ye Fan is also ready for the battle, Jinghai sinking is so strong, this final lore is definitely unpredictable.

"hold head high!"

A dull and melodious sound, like a roar from distant years, came from the depths of the seabed.

Ye Fan's pupils contracted.

Poseidon laughed wildly and shouted: "Ye Tianzun, I am the Poseidon, dominate the sea, and naturally I will dispatch the creatures on the seabed."

"Now, I will give you a big gift."

"Hey, come out."

As soon as the voice fell, a "small island" appeared on the vast sea. In fact, it was a tortoise shell under the tyrant.

Rumor has it that the dragon gives birth to nine sons, one of which is the dragon tortoise, whose alias is domineering.

It existed in the pre-Qin period and belonged to the great demon; it is also one of the few great demon that has been passed down from generation to generation.

The huge body is simply unmatched by other alien fierce beasts.

Long life span, sit and watch the changes in history.

Gradually, it came out of the sea, and the tortoise shell was comparable to a large cruiser, or even an aircraft carrier.

"hold head high!"

He looked up.

The huge head rushed out of the sea, making a roar similar to the dragon's chant, which is worthy of being a legendary dragon.

A strong sense of oppression swept the Quartet.

Ye Fan was frightened, and Poseidon really gave him a big gift.

It's just that Ye Fan wondered how such an ancient and powerful big monster, Seagod could summon and drive him, and furthermore, the so-called "Baxia" and "Dragon Turtle" were all the titles and records given by Daxia. , The great demon belonging to the Xia State system, has a relationship with the Eagle State.

An outsider drove the great demon of the Xia State system, how did this hegemon feel like a gangster.

Chapter 867: Dead end?

The appearance of Ba Xia made Ye Fan feel very heavy.

If it is a young tyrant, it is not a big deal, he can deal with it; but from the point of view of its size, but the tyrant can no longer be called a different kind of beast, but a real big monster.

Just the giant island-like tortoise shell, Ye Fan felt that he couldn't break it, and didn't hurt it at all.

After the long and loud chanting ended, waves of waves were set off in the sea, making the battleships seem to be lone boats, capable of overturning at any time.

Poseidon proudly said, "Tianzun, what do you think of this hand?"

"Summoning the tyrant, I didn't expect it. Your strength is far inferior to this great demon, how can you drive it?"

"Sansheng was fortunate to have saved his children and grandchildren, so he became a relationship. This is not a driving force, but a face and a small favor for me."

I see.

Ye Fan understood, and felt better.

Poseidon said: "Tianzun, you can use whatever means you have. Of course, you can also surrender. Then the result will be to dominate and disrupt the sea, and your warships and soldiers will be wiped out."

Ye Fan glanced.

Bai Zhan's command of the battleship to evacuate is no longer possible, because such a huge existence can easily disrupt the sea.

Wave after wave blocked the evacuation of warships.

Not only that.

Ye Fan still felt vaguely that there were some sea beasts lurking in the sea, staring at him.

Poseidon seemed to have seen Ye Fan's thoughts and smiled: "As the overlord of the deep sea, he has countless followers. Wherever he goes, there are of course followers. To be honest, there are at least one hundred thousand sea beasts lurking in the sea and can start at any time. Offensive, you can capsize your warship at any time."

"Tianzun, how do you solve this game?"

"If you can crack it, I am convinced. From now on, I will retreat when I meet you, and this aircraft carrier and cruiser will be given to you."

Ye Fan slapped his tongue and said, "Are you generous?"

Poseidon said: "Because I am confident enough, or in other words, I have enough confidence in Hegemony."

"Tianzun, don't worry, I will give you half an hour to break the game. Good luck."

After the words fell, Poseidon entered the aircraft carrier.

The world is very quiet.

Ye Fan stood in the air.

In the sea below, Ba Xia's head sank into the sea again, only the giant tortoise shell leaked out.

How to break?

Ye Fan felt a sense of powerlessness.

Even if the Dacheng Hegemony body is completely built and has made breakthroughs in all aspects, it is not the opponent of this great demon.

Even if it is a missile bombardment, I am afraid it will not be effective.

Dead end? !

At this time, Bai Zhan walked out of the main battleship and shouted: "Boss, you go, leave me alone."

Ye Fan turned around and shouted: "What nonsense, go back!"

"This hegemony is too strong, the deep-sea hegemon, messing up the sea is easy, and the warship can't go out at all. Boss, you go, it's no use staying."

What Bai Zhan said came from the heart.

Rumbling.

Suddenly, soldiers appeared on every battleship, all knelt down on one knee, and shouted: "Please leave Tianzun!"

"Tianzun please leave!"

"Tianzun please leave!"

Ye Fan's eyes were moist, which made him break the game more firmly.

How can I watch my brothers be ruined here!

"kill!"

Ye Fan shot.

Fist like rain, go all out.

But as he had just thought, the tortoise shell was indestructible and could not be shaken at all.

But Ye Fan didn't stop, and shot endlessly.

Finally, Nalan Ruo couldn't stand it anymore, left the Thunder fighter and came to Ye Fan.

In the aircraft carrier command room, Poseidon's gaze condensed, "There is another strong man, but unfortunately, no matter how strong one is, it is useless."

In the sky, Ye Fan was panting.

Nalanruo said: "You take a break first, I'll come."

"This tortoise shell is too thick."

Ye Fan was a little anxious.

Nalanruo brewed for a while, and slashed out with all his strength, the sword energy separated the sponge and chopped on the tortoise shell.

"puff."

Sword Qi collapsed.

Ye Fan said: "No effect, defense is simply invincible."

Nalanruo frowned and said: "The gap is too big, we can't deal with it at all, it seems to be a dead end. Let's go, take away the few people you think are important, the warships and soldiers can only give up, there is no way."

Ye Fan was silent.

It was too cruel, he couldn't bear it, and he couldn't bear it.

Bai Zhan roared: "Tianzun, please leave immediately and I will stay."

"To shut up."

Ye Fan yelled, making Bai Zhan afraid to speak.

Nalanruo sighed and stepped aside.

Poseidon rushed out of the aircraft carrier and stared at Ye Fan in the air. He smiled and said, "Tianzun, it seems that you are poor in skills and can't break the game. If this is the case, it is a pity that your subordinates and warships will sleep in the sea. ."

"Of course, if you want to go, I can't stop it. The hegemon is the overlord of the deep sea, not the overlord of the sky. You can leave, I won't stop it."

Ye Fan's fist turned pale.

I have never been so restrained.

"Tianzun, half an hour, twenty-five minutes have passed, and there are still five minutes left."

Poseidon reminded that the words were mixed with joking.

Suddenly, Ye Fan thought of something...Zeus and Lucifer, the two are in a father-son relationship, and their awakening abilities have blood resistance.

Then the sea **** and water god...

Take a gamble.

Ye Fan took a deep breath, recovered calm, and said lightly: "Poseidon, shouldn't your eldest be married and have children?"

"certainly."

"How old is the child, boy or girl, and like you are also supernaturalists?"

Pride appeared on the face of Poseidon, and said: "I have a daughter who is very good. Like me, she is a demigod. The potential is immeasurable. She will become a true **** in the future."

Ye Fan and Nalanruo glanced at each other, and the corners of their mouths curled up strangely.

"Your daughter is the **** of water?"

"How do you know?" Seagod's eyelids twitched, and he was a little uneasy inexplicably, "Ye Tianzun, speak clearly."

"The God of Water is in the Great Summer Northern Wilderness, following Zeus to attack Beiliang City and the Northern Wilderness historic sites, right?"

"Yes."

Poseidon's face sank.

"Why do you know this!"

"I came from the Northern Wilderness, of course I know this." Ye Fan sold the Guanzi, making Seagod feel up and down.

"Ye Tianzun, listen to what you mean, it seems that something happened to my daughter?"

"You don't know yet?"

Ye Fan asked back.

Poseidon really didn't know anything.

The God of Water is his daughter, who loves her very much, and she is the princess who holds it in the palm of her hand. Before the God of Water followed Zeus to fight in the Northern Wilderness, he sternly refused, worrying about her daughter's accident.

But the **** of water was annoyed that the Lord was shaking in front of his eyes, so he insisted on coming to the Northern Wilderness.

After the water **** was captured, Zeus and Jehovah blocked the news, and did not return the supernatural organization.

They were worried that Poseidon knew that Thunder was furious.

Even if it was the Lord, everyone was afraid of the sea god, even the **** of Cronus, would give the sea **** face and be polite.

Knowing that the water **** had encountered an accident, the sea **** couldn't screw his head.

Therefore, Poseidon was still kept in the dark.

"It seems that Jehovah Zeus didn't tell you, alas, pitiful, as a father, I don't even know what happened to his daughter."

Ye Fan deliberately said yin and yang weirdly.

Seagod's heart and liver mentioned his throat, his body trembled slightly, his breathing became rapid, and he roared, "What the **** is wrong with my daughter, tell me! You tell me clearly!"

"Why should I say, give me a reason." Ye Fan smiled.

"Ye Tianzun, are you bargaining with me? No, this is not equal. I can ask Zeus Jehovah for my daughter's news. They concealed me before, but now I question, they dare not conceal it. You want my daughter's news to force me to retreat, Foolish dreams."

Ye Fan shook his head.

Poseidon shouted: "What do you mean?"

"I'm not bargaining with you anymore, but ordering you to leave, and all aircraft carriers, cruisers and all fighters, tanks and other equipment are left behind."

"Do you think I'm crazy?"

"No hurry, I will give you half an hour now. You call Zeus Jehovah to ask about the water god. Remember, you only have half an hour."

When the words fell, Ye Fan greeted Nalanruo, walked in the air, entered the main battleship, and joined Bai Zhan.

"Boss, Poseidon..."

"Don't worry." Ye Fan said with a smile: "We won this battle, contact A Hong and let her join. The anti-Bone faction members don't have to hide, and come over generously. Seagod was eaten to death by me, The **** of water is indeed a treasure."

Chapter 868: catastrophe?

It's really a turn of events, and there is another village in the dark.

Ye Fan secretly cheered.

It is self-evident that the daughter is important, or to win this victory.

The Eagle Country's aircraft carriers, cruisers, tanks, and fighters are all owned by the Tianzun Hall, which will also be a great harvest.

The other end.

Poseidon was frightened and uneasy, so he immediately contacted Zeus.

At that time.

Zeus is challenging Gai Jiuyou, and the two are about to fight.

He didn't carry a communicator at all.

"How not to answer the phone!"

"asshole!"

Poseidon was anxious, thinking that Zeus had deliberately not answered the phone, and was furious.

A full twenty minutes.

On the Northern Wilderness side, a supernatural general rushed over with a communicator and reported: "Marshal, Poseidon call."

"Poseidon?"

Zeus was slightly startled, he secretly said something was wrong, did the sea **** know that something happened to the water god?

"Gai Jiuyou, that's it for today, and I will fight you someday."

"I am waiting."

Zeus ordered Mingjin to retreat.

He connected the phone, and the sea **** yelled angrily: "Zeus, tell me, what happened to my daughter?"

"this....."

"If you dare to lie, don't blame me, you will never be able to take the second step and become a true god."

Zeus's face was uncertain.

Poseidon's status is respected, and it won't take long for him to become a real presence. When Poseidon obstructs, he may really stop here.

This is what Zeus would never want to see.

no way.

Sell a wave of the Lord.

"Poseidon, the Lord is to blame for this matter, it has nothing to do with me."

"Talk about the point."

"That... the water **** was captured by a martial arts expert in Daxia." Zeus was very nervous and said cautiously.

He didn't dare to say that the Water God was suspected of being tainted by Ye Hei. These words would definitely make the Sea God angry and the consequences would be disastrous.

On the sea.

After a brief calm, the Poseidon roared, and the water waves surged into the sky.

"waste!"

"I told you to take care of my daughter, what do you do, waste, waste, waste!"

Across the communicator, Zeus could also feel the terrifying anger, being scolded as rubbish, and he didn't want to get angry.

Of course he didn't dare to be angry.

Zeus said: "Poseidon, rest assured, although the water **** is captured, there is no danger to his life."

"As for the capture of the water god, I have the responsibility, but the greatest responsibility is Jehovah."

"That's it, Fengshen was arrested, and we and Daxia held a Shenwu Conference..."

Zeus said quickly after passing.

After that, Zeus hummed: "Poseidon, you understand. If it weren't for the arrogance and arrogance of the Lord, the God of Martial Arts would not be defeated, and the God of Water would naturally not be captured. I blame the Lord. I am now rashly attacking the North. Liangcheng, confronted Gai Jiuyou, Marshal of Great Xia Soldiers and Horses, just to save the water god."

Poseidon's anger did not diminish.

He knew that Jehovah pursued the **** of water, and he was also very satisfied with Jehovah.

The young earl, a student of the gods of Cronus, and the family is also one of the top nobles, qualified to be his son-in-law.

But the **** of water didn't catch a cold, so he didn't match up.

Now that Jehovah caused his daughter to be captured, Poseidon's favor with Jehovah disappeared, and he even wanted to teach this conceited kid.

Even if it is a student of the God of Cronus, what about it!

"Poseidon, you calm down. I heard that you are escorting members of the Anti-Bone Sect to the Bermuda Islands for execution. I wonder if it's over now?"

"What's the characteristic of Ye Hei?" Poseidon asked rhetorically without answering Zeus's question.

"Wearing a mask, I don't know what I look like, but I have long black hair that is waist-long. That's all."

Waist-length black hair?

Poseidon looked at the main battleship of the Tianzun Hall, Ye Tianzun also had waist-long hair, but it was silver.

"Is there a powerful woman next to Ye Hei, who should be a giant, a sword repairer, a black dress..."

Poseidon tells the characteristics of Nalanruo.

Zeus recalled.

At the Shenwu Conference, Nalan was fierce, Ye Fan took the rescue, and the relationship between the two was irreversible; Zeus remembered that Nalanruo was a sword repairer, a black dress, and a pinnacle giant.

"There is indeed one, named Nalanruo, Poseidon, ask this..."

"Pattern."

Poseidon hung up directly.

Looking at the main battleship, he was full of frost.

At this time, Ye Fan and Nalanruo came out and asked with a smile, "Seagod, it seems that you have already talked to Zeus."

"You are Ye Hei, and you are Nalanruo."

"Exactly."

"If my daughter loses a hair, I swear, at any price, I will also destroy the Tianzun Temple, level the Beiliang City, and destroy the ancient relics of the Northern Desolation!"

Poseidon's murderous aura is like a waterfall, terrifying the sea beasts hidden in the sea.

Ye Fan said calmly, "Will the **** of water hurt the vellus hair? It's up to you as a father."

Poseidon did not hesitate, and shouted to the following: "Hey, thank you for coming. Now you can go."

"hold head high."

Ba Xia let out a roar similar to that of Dragon Yin, and then gradually went deep into the deep sea and disappeared.

"Poseidon, I broke this game."

"Perhaps it is God's will, I would never dream of my daughter in your hands."

Poseidon sighed.

He was in a very high mood, had returned to normal, and asked, "How can I release my daughter?"

Ye Fan looked embarrassed and said, "The God of Water is of great value. Let me let it go. I'm afraid it's unrealistic. Of course, we can talk about everything. Let's sit down and talk if we have the opportunity. We don't have time now."

Sea God said: "I will go to the Northern Wilderness."

boom!

Suddenly, a missile rushed into the sky, alarming Poseidon, Ye Fan, and Nalanruo.

Who fired the missile?

-It was launched from an aircraft carrier.

"Poseidon, you turned your back." Ye Fan was furious, because after the first missile, he saw a dozen of them launched.

The speed is too fast to avoid it.

"Nalan, you go."

Ye Fan flew Nalanruo fiercely, and he exploded, and Poseidon also used super powers to condense the wall of water.

Poseidon said in anger: "There is a problem with the aircraft carrier, and even I attacked."

This is what Ye Fan didn't expect.

"not good!"

"Gulot's will awakened and broke the genetic blockade. I was negligent during the time I contacted Zeus, and Gulot took the opportunity to occupy the aircraft carrier."

Boom boom boom!

After a series of explosions, Poseidon and Ye Fan encountered unprecedented shocks and fell straight to the sea.

"Boss!"

Bai cut his eyes to crack.

At that time, Luo Hong led Yan Wang's soldiers and members of the Anti-Bone Sect to sail out of the strait in a warship.

Just saw this scene.

In the aircraft carrier, Gulot is in the control room. As Poseidon said, his strong desire to survive activated his will, forcibly regained consciousness, broke the genetic blockade, and regained his divine power.

On the aircraft carrier without demigods and sea gods, Gulot came freely and quietly suppressed everyone.

"Fire!"

Gulot believes that all members of the Anti-Bone faction have been executed, hatred is overwhelming, and madness roars.

"Fire! Fire!"

"Destroy everything!"

Gulot roared, his eyes red.

A general found the battleship and the members of the Anti-Bone Squad on the battleship, and shouted: "My lord, look over there. On the battleship, Warber and others, they are not dead."

Gulot looked at it, stunned, and then ecstatic.

"Casefire."

Gulot did not leave the aircraft carrier, worrying that these generals would rebel. He shouted at the speaker, "Opposite, release people immediately, otherwise I will destroy all of your warships."

Warber and others were extremely surprised.

This is Gulot's voice, he is not dead.

Luo Hong immediately asked Warber to speak, and Warber shouted: "Gulot, don't be impulsive, don't hurt your friendly forces. We have been rescued. This is our lifesaver. You are not allowed to open fire."

this?

Gulot was stunned.

But he unconditionally trusted Warber, who was the backbone of the anti-skeletonists. In his heart, Warber was the grandfather; it was also because of Warber that he was given a place to participate in the god-making plan and became a powerful demigod.

The fighting ceased.

"puff!"

Nalanruo rushed into the sea.

Bai Zhan and others were extremely anxious.

Ye Fan and Poseidon did not come out, the power of the missile explosion was too terrifying, even the gods could not hold it.

"Uncle Warburg, if Tianzun has something unexpected, don't blame us for being polite." Luo Hong's eyes burst with murderous intent.

Warburg was very guilty.

"Gulot was impulsive, it was our fault. If Tianzun is unpredictable, I am willing to judge myself."

"Self-decision? Is your life worth the life of my Tianzun?" Luo Hong's voice became hoarse.

ten minutes later.

Still nothing happened.

Nalanruo didn't come up either.

Chaos, Taotie, and Fang decided to go into the water to take a look. Although there are many sea beasts staring at them, they should not attack at will.

Sea beasts are not fools. With so many warships, they dare to attack, and what is ushered in is endless firepower.

Puff puff.

The three went into the water.

Immediately he felt a pair of fierce eyes, twinkling in the dark water, it was because they were well-versed and knowledgeable, and they were also hairy.

Chapter 869: Poseidon retreats, see Gulot

Ye Fan and Poseidon had indeed suffered a lot of trauma, and Ye Fan's half-step tyrant body was cracked.

As for Poseidon, his body is much worse than Ye Fan, but because of his manipulation of the boundless sea water, he has a great buffering effect, and his injuries are relatively better.

The two of them were falling into the ocean. The brains were blank for the first few minutes and almost lost consciousness. Then you gradually eased back.

For the first time, the two clashed.

Ye Fan wanted to capture the Seagod. This was an important figure in the power organization, a real high-level person, and a godlike spirit.

Poseidon wanted to capture Ye Fan in order to rescue his daughter.

The two fought.

But the sea is the world of Poseidon, in the sea, Poseidon is like a fish in water, Ye Fan encountered unprecedented pressure.

This is not over yet.

Driven by the sea god, the sea beast lurking in the depths of the sea surrounded Ye Fan and frantically besieged and killed.

Many of these sea beasts are amazing.

"Ye Fan, I have nothing to do with you outside, but in the sea, you don't want to escape from my palm, let alone you are now severely injured."

"You turned back."

"No, no, no, I didn't break my promise. I said before that if you break the game, I can give you the equipment and let the hegemon go away; but I didn't say that I can't drive the sea beasts to attack you. Enjoy the gluttonous feast."

Ye Fan was furious.

His blood is permeated, and his blood is equivalent to precious blood, which is a huge temptation for sea beasts.

These sea beasts seemed to be crazy, desperately killing them, stepping forward and then fearing death.

"Puff puff....."

Ye Fan kept beheading and killing each sea beast.

However, there were too many sea beasts, and the squeeze of the sea water made Ye Fan restrained.

A Sea Beast Emperor slapped Ye Fan's back, and Ad Ye Fan's wound was torn, blood gushing.

The Sea Beast King, like the Fierce Beast King in the forest, existed at the level of a giant.

"scold!"

Next second.

A sword energy split this Sea Beast Emperor in half.

"Nalanruo!"

The Seagod's expression mocked, "No matter how much it comes, it's useless, it's just giving away heads. All sea beasts, kill me."

Woo woo woo.

The sea beasts overwhelmed the two people.

Not long.

The Chaos trio arrived.

Due to the great movement of the war, the sea beast was bombarded with blood, which obscured the sight. The Chaos trio did not appear as forcefully as Nalanruo, but wisely and quietly killed the Seagod.

However, Poseidon's sixth sense had already been half developed, and he had a premonition of the crisis and reacted.

"kill!"

Chaos trio joined forces.

Attacked from the formation of horns.

"There are three more to die."

Poseidon sneered, without fear, he was confident enough in the sea.

"The sea of mirrors sinks."

In an instant, the three people who enveloped the chaos included Ye Fan and Nalanruo.

"In the sea, the power of Jinghai's sinking is much greater. You are seriously injured now, I don't know if you can defeat my trick."

"You make me angry."

Ye Fan's voice is cold, his eyes are like electricity, and his roar is like thunder.

The sinking sea of Mirror burst open.

Poseidon vomited blood and flew upside down.

"How can it be!"

Poseidon was shocked, unbelievable.

Ye Fan blasted countless sea beasts, and the blood stained this sea area. He walked out of the blood sea and swept away the blood water.

"You can even control the blood of the sea beast. This is impossible." The Seagod is horrified. Does this mean that he is manipulating the blood of the enemy in battle.

The Chaos trio were stunned.

The corners of Nalanruo's mouth rose.

In fact, Ye Fan did not control the blood of the sea beast, but caused resonance, the resonance between the blood.

This is also a method.

In the secret technique of transforming qi and blood, it is not only the evolution of qi and blood, but also some mysterious methods, such as the resonance of qi and blood.

This is like the same frequency resonance in physics.

Powerful qi and blood will affect low-level qi and blood. If Ye Fan succeeds in building a master body, he will resuscitate the master body at that time, and the blood of some warriors who have no physique will be affected. He even died in violent blood.

Just now, Ye Fan used his energy and blood to affect the blood of these low-level sea beasts, thus breaking the secret of the sinking of Jinghai.

Ye Fan is not yet proficient now.

Otherwise, just taking it just now would be enough to kill tens of thousands of low-level sea beasts.

"Come!"

Ye Fan used his claws to catch the sea god.

at this point.

Poseidon was convinced.

He immediately retreated, and Ye Fan couldn't keep him in the sea.

"Tian Zun, or you may call you Ye Hei, I will descend to the Northern Wilderness, step down the Northern Liang, and destroy the ancient relics of the Northern Wilderness."

"Haosheng takes care of my daughter."

"Otherwise, at your own risk, this is my advice to you."

The sound was rippling and the Poseidon had disappeared.

Chaos sneered: "If I can't escape, I dare to speak harshly."

"Pooh!"

When the Seagod left, these sea beasts also dispersed.

Everything is settled.

When Ye Fan returned to the main battleship, he was covered in blood and his injuries were not light.

"Boss."

Bai Zhan and others gathered around.

"Don't worry, you can't die."

Ye Fan turned to look at the aircraft carrier and guessed: "What is the situation with the aircraft carrier? Why did it suddenly launch a missile?"

"It's Gulot."

"Interesting." Ye Fan commanded: "Arrange a team to take over the aircraft carrier, and at the same time tell Gulot, that the God of Water is in my hand, let him roll over and see me."

"Yes."

Three warships galloped away.

In the command room, the Eagle Country general asked: "My lord, do you want to attack and destroy the three warships?"

"No, let them come up. With me in town, some soldiers can't make any big waves."

There are three thousand people in these three warships.

The person in charge is Yan Guang.

He is the deputy commander of the Hades War Department and Luo Hong's confidant general.

Master strong.

Not long after, the warship approached the aircraft carrier.

Yan Guang boarded up single-handedly, was taken to the command room, and said straightforwardly: "My Tianzun has an order, we will take over the aircraft carrier and cruiser."

"The Temple of Heavenly Sovereign is indeed powerful, but I have discovered that your Heavenly Respect is wounded, do you still have the power to deal with me?"

"My family Tianzun said, the water **** is in his hands, let you roll over and see him."

Suddenly, Gulot's pupils contracted.

Yan Guang is very domineering, and he is not afraid to face the demigods, and urges: "Call back immediately."

Gulot's face changed, and finally, he said in a deep voice: "I can give up the aircraft carrier and cruiser to see Tianzun, I hope he didn't lie to me."

"My lord, this..."

"Do you have any objections?" Gulot squinted. The Eagle Nation general was clever and did not dare to speak.

Yan Guang immediately ordered three thousand soldiers to land.

Control the aircraft carrier quickly.

Then, more warships arrived and began to take over the cruiser.

Gulot Yukong came to the main battleship of Tianzun Hall.

"Warburg."

"Gulot, you are too impulsive. Fortunately, Tianzun has not fallen, otherwise we will all have to die."

"I know it was wrong."

"Okay, go to see Tianzun, with a good attitude, not presumptuous." Warburg solemnly instructed.

Gulot came to a secret room in the battleship.

Ye Fan was healing, swallowing the treasure medicine.

Min Dong knew that this battle would be tragic, so he moved many resources from the headquarters to the main battleship, in order to provide healing to the wounded soldiers.

There are many precious medicines among them, and there are three semi-peerless medicines.

Ye Fan swallowed three semi-peerless ones, and his injury got better.

"You came."

"The God of Water is in your hands, it's impossible, how could you catch her."

"It was the water **** who asked me to save you. As for whether the water **** is in my hands, you should have an answer in your heart. You see, the sea **** summons the big monster hegemony, but he can let him go without doing anything, what makes the sea **** retreat?"

Gulot's face tightened.

Even if it is the God of Cronus, Poseidon will not retreat easily. There is only one factor that can make Poseidon abandon the aircraft carrier cruiser and let the big demon go away: that is the daughter.

Gulot said: "Don't hurt the water god, if something comes at me, even if it takes my life."

"Tsk tusk, it is really deep and righteous. In order to save you, the water **** reveals information is equivalent to betraying the supernatural organization; you can also sacrifice yourself for her. I admire this feeling."

"Unfortunately, your status is too low."

"Even if you now have powerful divine power, reaching the level of a young earl, your status and status are not as good as that of Jehovah."

A glimmer of anger flashed in Gulot's eyes, and gritted his teeth: "What the **** are you going to say... Besides, have we met somewhere?"

"You haven't seen who I am."

There was a faint smile on Ye Fan's face.

Gulot's eyes condensed, his memory flooded, and he lost his voice: "Are you... Ye Fan?"

"It's me."

"It's incredible, you are actually the lord of the Tianzun Temple. In the Northern Wilderness a few months ago, you were far less powerful than that."

"You should be respectful for three days. You are also much stronger than before."

Gulot smiled, and then said sternly: "Since we have dealt with before, let's just talk about it, what do you want?"

Ye Fan calmly came to the balcony, blowing the sea breeze.

"Cronus wants to destroy you and kill many people in your faction. It can be described as a sea of blood and blood. Do you still have a sense of belonging to the supernatural organization?"

"You want to instigate me?"

"It's not that it doesn't matter to me to instigate rebellion, but at least it has to be used by me."

Chapter 870: Cronus shot, all annihilated!

"For your use, isn't this still a rebellion?"

"Different."

Ye Fan turned around, leaned on the railing, looked at Gulot, and solemnly said: "You anti-bones can no longer return to the supernatural organization, that is to say, you can no longer advance because you can't get genetic reagents."

Gulot's face darkened, which was indeed the biggest problem.

"However, I have a genetic research institute, and I have already made great achievements. Do you know Lucifer, the illegitimate son of Zeus."

"Do you know this secret?"

"The God of Water told me."

When Gulot heard this, he was wary, "You have a good relationship with the water god, she will tell you everything."

Ye Fan laughed, "Don't worry, I'm not interested in the water god, but I don't rule out that I won't be interested in the future. It all depends on your choice."

"Let me go ahead."

"Once Lucifer conspired, I was hit by the gene cutting reagent, and the gene chain was cut and my life was dying. Later, I gathered the elites of the world's top biotechnology group and established the Institute of Genetic Engineering, successfully cracked the gene cutting reagent and developed an antidote. ."

"Impossible, the gene cutting reagent is very powerful, and it can survive for a month at most. In such a short period of time, I want to crack and make the antidote reagent, which is a foolish dream."

"Then I will mention one more person, Michelle."

Gulot was shocked again and lost his voice: "Michelle, she is a little princess from one of the top nobles in Britain. She escaped from the supernatural organization a few years ago and has been wanted. Is she in your hands?"

"To be precise, Michelle was one of my first subordinates. They were my people. Michelle escaped from the supernatural organization and brought out a chip with genetic engineering technology. Because of this, he was able to be An antidote will be made within a month."

Gulot said, "It makes sense."

Ye Fan sighed: "It's a pity that the chip was five years ago, and the technology has not been updated and iterated. Now my research institute has encountered a bottleneck."

"You should understand. I need you and Warburg. You have a lot of genetic engineering technology and knowledge. You can join my research institute. I provide everything to make genetic reagents. In this way, you can hope to make breakthroughs. , You can hope to transform into a real god."

"Gulot, remember, this is your only evolutionary lifeline. Of course, you don't have to agree. Then I need to hand you over to Daxia. In fact, Daxia also has a secret genetic research institute, Daxia gets you, Just like me, you need to participate in research."

"You have three paths, the first one chooses me, the second one chooses Daxia, otherwise, that's death."

"Three paths, you choose yourself."

After speaking, Ye Fan turned and looked at the magnificent sea.

Gulot is weighing the pros and cons.

In fact, he knew in his heart that choosing Tianzun Hall was the best.

"I need freedom."

"Of course I can. I can give you freedom, but Warburg and the others are not working for the time being. You should understand."

"I understand. Also, the God of Water..."

"I can take you to the Northern Wilderness and let you meet the God of Water, and even live together. If you can instigate against the God of Water, it would be better. I will let you enter the core of the Tianzun Temple and become the backbone. Let's work together to become bigger and stronger. "

Gulot shook his heart and joined the core of Tianzun Hall...

This is a temptation.

In this chaotic world, one's own strength is too weak, and if it is backed by the Temple of Heaven, there will be some safety guarantees.

Moreover, Gulot deeply knew that this time he and Warber and others were rescued, the God of Cronus would never let them go, and would definitely find ways to hunt down and kill them. They needed a backing.

"You are not afraid of the power organization? Are you afraid of the God of Cronus?"

"I have killed several demigods, vomiting blood to the humiliation of Jehovah, and I and the supernatural organization are in an endless state. As for the Cronus gods, he can cover the sky with just one hand, so why be afraid? !"

"You humiliate the Lord and vomit blood? Well, at this point, I promised to cooperate." Gulot was very excited. He had been unhappy with Jehovah a long time ago, but he could only swallow his voice because his strength and status were so high.

Ye Fan smiled and said: "It's not just humiliation, I will kill Jehovah in the future, and I will also be able to solve a big love enemy for you."

"Not much to say, leave here first."

"You and I will go to the Northern Wilderness, Warburg and the others will follow the fleet to the Wild Continent, and my brother will place them."

Guluo nodded characteristically, he left the secret room, found Warber and the high-ranking faction, and narrated these.

Hua Bo said: "I have no objection. We are already lonely and wild ghosts. The Temple of Heaven has saved us and is willing to accept us. This is a gift to us."

A high-level executive said with red eyes: "My wife and child were shot, and there is no whole body. I want revenge. I want to join the Tianzun Temple Genetics Research Institute and give me what I have learned and knowledge. To transform, I want to evolve into a true **** and kill Cronus."

"Cronus, this beast, is our public enemy, and we will never give up. We will pay our debts for blood."

Everyone has no opinion, and is even very grateful to Tianzun Temple.

Gulot said, "Well, Tianzun and I will go to the Great Xia Beihuang. I'm going to see the Water God. She is in the hands of Tianzun. Hua Bo, you go to the headquarters of the Tianzun Hall in the Wild Continent. Tianzun promised me that he will settle down You can rest assured."

After half an hour.

Finished up.

The fleet of the Temple of Heaven, as well as the aircraft carrier and fleet of the Eagle Country, departed Bermuda.

Of course, there are still three large warships left behind, three thousand soldiers of Yama, who need to clean the battlefield and bring the corpses of the brothers back to the wild continent.

"call!"

Nalanruo came floating.

Ye Fan asked, "How is it, how is the blood collected?"

Nalanruo took out the Netherstone, and a cold chill swept through, and Ye Fan couldn't help shaking.

Gulot said: "What a great stone."

Nalanruo said: "I was in the sea and absorbed a lot of the blood of sea beasts, but the Netherstone still showed no sign of filling up; it is worth noting that the power of the Netherstone seems to have increased, and the breath it conveys is even colder. This breath is with me. The extremely cold air is different, it's hard to say."

Ye Fan said: "Study it slowly, there will always be a day when you understand."

Nalanruo went to the island battlefield again, absorbing the blood of the corpse of Eagle Nation fighters.

suddenly.

Ye Fan felt it.

High in the sky, a ray of light passed by, causing a hurricane.

Gulot was surprised: "No, that's..."

"boom!"

The words are not over yet.

In the distant sea, a big explosion occurred, and the water waves soared into the sky, forming a mushroom cloud.

Ye Fan's brain is blank.

The three thousand soldiers who cleaned the battlefield were all petrified.

"Do not!"

Ye Fan roared, hoarse.

He soared into the sky, rushing towards the other side like crazy.

Gulot shouted, "Ye Fan, be careful of the aftermath."

"puff!"

as predicted.

The energy wave after the explosion spread, Ye Fan was already injured, and the powerful energy wave impacted him to vomit blood and fly upside down.

Nalanruo caught Ye Fan, with sword aura, splitting the energy wave, protecting Ye Fan.

Gulot looked red and roared: "This is not a conventional missile, but..."

Ye Fan looked at the place where the mushroom cloud was in despair.

Everything is gone.

Lao Bai, A Hong, Chaos, Taotie, Yinglu, Qiongqi, Warber and others...Hades War Department, Heavenly King War Department...

Gone.

It's all gone.

"Cronus." Gulot roared with murderous intent, "Use HE so quickly, only Cronus has this ability, it's him, it must be him."

Cronus.

Four words popped out between Ye Fan's teeth.

His heart was dripping blood, even bleeding and tears.

However, Ye Fan didn't make a sound. He was sad to the deepest point and choked silently.

Sudden.

With a loud flute, breaking through wind and rain, like the dawn before dawn, came...

"boom!"

Immediately afterwards, it was full of firepower.

These firepower are shooting towards the sky, not attacking any target, but conveying a message—

Without annihilation, there is still survival.
