

Elegant SS 941

Chapter 941: Fire Palace in the heart of the Earth, strange fire beasts

The Fire Palace in the heart of the Earth is the secret place of the Xiang clan, the core practice site.

However, because the temperature in it is too high, those who can successfully enter the Fire Palace have certain strength.

Xiang Peipei didn't dare to go in even if she was wearing a thermal insulation suit, and sent Ye Fan to the door.

"Brother Ye Fan, go in by yourself, I don't dare to go in, it will burn my skin."

"Okay, I should be cultivating inside for a while, you don't have to wait for me and leave by yourself."

"Brother Ye Fan, the center of the Earth Fire Palace is very large, and there is a center of the Earth Fire. You should know that the center of the Earth is fierce. This is not an ordinary flame; therefore, you should be careful not to go deep. In addition, the center of the Earth Fire Palace. You still have to pay attention to the fire beast."

Ye Fan came interested, "Fire Beast?"

Xiang Peipei said: "Yes, it is said that in the old days, this place was occupied by a group of fire beasts. Later my clan migrated here and fought against the fire beasts, and finally reached an agreement to survive together."

"Years have changed, our clan and the fire beasts have coexisted peacefully and interdependent. It's just that the number of fire beasts is getting fewer and fewer. According to my father, there are now only a hundred fire beasts in the fire palace."

"The reason why the fire beasts are weak in reproduction is because they have most of the bloodlines of pre-Qin alien species in their bodies, which are incompatible with the environment of heaven and earth. If they were not hiding in the fire palace, they would have been extinct long ago."

It is very scary to preserve most of the blood of the Xianqin alien species.

The Xiang clan still has this kind of background.

Ye Fan walked into the door.

Oncoming is a scorching breath, this breath is not ordinary heat, it is unique, it seems that it can go deep into the soul, burn bones and blood, and burn everything.

The heart of the earth is hard to come by.

This is the core flame of the earth's evolution for countless years, so it has the ability to burn all things.

After passing through the lengthy passage, you can truly enter the Earth's Fire Palace.

As Xiang Peipei said, the Fire Palace at the heart of the earth is so big that Ye Fan couldn't see the end as far as Ye Fan could see it.

The entire underground palace is red.

really beautiful.

Even the rock barrier was burned to red, shimmering with brilliance, eye-catching.

The temperature is really high.

The temperature in this marginal area is already on Baidu. I don't know how much the temperature in the central core area has reached?

"I don't know how many fires are in the center of the earth?"

Ye Fan was looking forward to it. It was said that the purely broken Earth's heart fire was difficult to extinguish, and even the strong wind could not blow it out.

If there are enough fires in the heart of the earth, Ye Fan is ready to take a ray of flames, which will have infinite magical uses.

Go forward a kilometer.

Good guy, the temperature has risen to 160.

Ye Fan is not afraid, but sweating profusely.

At 1,800 meters, the temperature reached 200. At this moment, Ye Fan's whole body was hot, even if the qi shielding body and the power of qi and blood enveloped the body surface, he could feel his skin being burned.

However, it is far from reaching the central core.

interesting!

Ye Fan fully recovered the domineering body, stretched his ground into an inch, and galloped forward.

Three kilometers, 250.

Four kilometers, 300.

Finally, Ye Fan saw the raging flames, and his eyes were violent.

"wrong!"

Ye Fan shook his head secretly.

"This is not a pure fire at the heart of the earth, it is another flame; if there is such a turbulent sea of fire at the heart of the earth, then the entire Xiang clan will be wiped out."

The temperature of 300 is still acceptable for Ye Fan, who has fully recovered his domineering body.

Ye Fan is sure of his body, and the ultimate endurance should be 500 degrees.

This temperature will seriously hurt him.

Therefore, as long as it is around 400 degrees, no matter what happens, Ye Fan has the confidence to retreat all over.

You can also move forward.

Ye Fan took a step and entered the sea of fire.

In an instant.

The temperature skyrocketed, and even at a distance of less than 100 meters, it climbed to 380 degrees.

It's worth it!

Ye Fan became vigilant.

He cautiously moved forward 100 meters again, this time it was relatively better, there was no skyrocketing, but it had already reached 420 degrees.

Ye Fan stopped.

This is the safety limit, and if it continues, it will be dangerous.

Moreover, Xiang Peipei said that there was a fire beast in the Fire Palace at the heart of the earth, and Ye Fan was not sure whether the fire beast would attack him, so he had to spare some energy.

"Huh!"

Suddenly, Ye Fan's body became tight.

In the sea of fire, something seemed to flash past, it was a fire beast, for sure.

next moment.

A big mouth appeared in front of Ye Fan, wanting to swallow him.

too suddenly.

Ye Fan was shocked.

In a hurry, Ye Fan saw that the fire beast was covered with fiery red scales, forming a unique scale.

It's not too big, about the size of an adult elephant, but not as fat as an elephant, and the body is roughly thick.

The fire beast landed on its two feet, and its two forelegs were relatively short...

If it is an analogy, it is a bit like Tyrannosaurus rex among dinosaurs, a reduced version of Tyrannosaurus rex.

This is the impression that Huo Beast gave Ye Fan.

The big mouth of the blood basin is close at hand, covered with hundreds of sharp and sharp teeth.

"Fuck!"

Ye Fan couldn't help but breathe fragrance.

He reacted swiftly, his footsteps changed, and he shrank into an inch with the power of heaven and earth, instantly disappeared in place, and moved tens of meters horizontally.

However.

Before Ye Fan could stand firm, a fire beast sprang from behind again, biting and killing it.

"field."

Ye Fan displayed the domain and pulled the Fire Beast in. It did have an effect, and the Fire Beast looked in a trance.

Killing curse!

This is the secret technique of the great emperor against the alien race.

Isn't the fire beast also a foreign race?

Suddenly, the fire beast was struck by lightning, his eyes bleed, and it made a painful cry.

It wants to escape.

Where did Ye Fan let it do as he wished, grabbing the fire beast's neck.

Zi Zi Zi...

Suddenly, black smoke rose from Ye Fan's palm.

Ye Fan succumbed to the pain, and quickly retracted his hand, only to find that his palm was bloody.

"It's terrible temperature. The temperature of this scale armor is at least 500 degrees. It's a fire beast."

Ye Fan was shocked.

The world's great wonders.

The fire beast was carrying such hot scales, but he was fine. I really couldn't figure it out, and the current science couldn't explain it.

At this time, the strange sounds came and went one after another.

Ye Fan's expression changed and the fire beasts rushed over. Once surrounded, it would be very troublesome.

From the brief confrontation just now, Ye Fan had some understanding of the fire beast's strength.

The first is that the scales are extremely hard and extremely hot and cannot be touched.

"puff!"

At this moment, a series of rockets and fire dragon bombs came and killed them.

Ye Fan didn't dare to be careless.

These fire beasts are not only physically strong, but also manipulate flames.

"Huh!"

A stream of qi and blood swept over.

Ye Fan felt that the qi and blood of the fire beast contained the power of burning, and if it was contaminated, it would be troublesome.

Looking at it in general, these fire beasts are good.

"Boom!"

Ye Fan smashed a fire beast with a fist and knocked it into the air, but he didn't hurt it.

You know, although Ye Fan didn't use the secret technique, but the physical power used 60% to 70%.

This did not hurt.

"Roar!"

The fire beasts roared, it was Ye Fan who hit their partner and was extremely angry.

Only see.

These fire beasts surrounded Ye Fan in groups, seeming to be using a certain formation or innate supernatural power.

"not good!"

Ye Fan felt the crisis.

A devastating burning power is used, which may be the power of the fire in the heart of the earth.

"sorry."

Ye Fan used the Dao punch to make a gap, but he also severely injured the witty fire beast, which made the other fire beasts crazy.

Ye Fan quickly slipped away.

The fire beasts did not chase out of the sea of fire, and stared at Ye Fan angrily at the edge of the sea of fire, and kept roaring and roaring.

"Ruined."

Ye Fan was very distressed, and originally wanted to cultivate and forge his body in it.

Now that I have offended Fire Beast, once I get in, I can't settle down and how to practice.

However, Ye Fan did not leave directly. Although he could not enter the sea of fire, but the fire palace was so big, he could still stroll around.

Soon, Ye Fan discovered the treasured land of resources.

There are many yang-attribute medicines growing here, and there are several peerless medicines.

"Xiang Qiankun clan leader said, I need resources to provide me, then I'm welcome."

Ye Fan also suffered some injuries in the Great City Battle, and now he can just recover with peerless medicine.

Pluck a fruit, just bite it.

Ordinary quality medicine is a treasure, but to Ye Fan, it is just stuffing his teeth.

He now needs a very high level of resources to make progress. For him, general resources are just recovering from his injuries and have no effect on improving his strength.

This is the difficulty of cultivating the Overlord Body, a bottomless pit, and I don't know how many resources are needed to pile it up.

Ye Fan sat cross-legged and entered a state of recovery.

Chapter 942: Grand curse

On the edge of the sea of fire.

A group of fire beasts looked at Ye Fan in the distance, gritted their teeth, their eyes flashed with fierce light.

"This kid is terrible. Let's go out and eat him. His flesh and blood are really delicious."

"We can't leave the fire."

"Hurry up and go back, there shouldn't be any big problems."

"Don't act rashly. This kid should be a friend of the Xiang clan to enter the Earth's Fire Palace, and it's not easy for him to be so young and strong."

"I was impulsive just now. I smelled his physical aura and couldn't help but want to swallow him." The first fire beast to attack Ye Fan sighed, a little self-blaming.

"Don't pay attention to that kid, the son of God will return soon, the fire in his body should be strong enough to help us break the blood seal."

When it comes to the blood seal, the fire beasts are full of frustration and helplessness.

An old fire beast, which seems to be the patriarch, said leisurely: "The bloodline seal prevents us from leaving the heart of the earth. If this continues, the heart of the local fire is extinguished, and our clan is also extinct. Fortunately, the dragon is born in nature. Accompanied by fire, it is simply God's favor. We have waited for 25 years, and now that Xiaolong has learned something, he can finally rescue us from the abyss."

The other old fire beasts also sighed with emotion.

"Yeah, it's so **** my clan."

"In the memory of bloodline inheritance, those who are born with fire are the sons of gods, and they will definitely be the emperors of this great world, and we will protect the road for the little dragon."

"Eh, how does that kid compare to Xiaolong?"

The young Fire Beast said immediately: "What is that kid? How could he be able to compare with the emperor's appearance in the son of God."

The patriarch said: "No, this kid is extraordinary, the punch just now was amazing enough."

"Patriarch, what do you mean?"

"Think of a way to suppress that kid and solve a rival for Xiaolong."

The fire beasts looked at each other, and they all agreed.

Xiang Rulong cannot be lost, it is related to the life and death of the fire beasts. At the same time, they will follow Xiang Rulong to help him become an emperor.

so.

All obstacles must be clear.

"Patriarch, we can't leave the sea of flames, how can we do it?"

"Go to the central core, use our talents and supernatural powers, trap him in the heart of the earth, and cooperate with the many resources we have accumulated, burn it, and refine it into a pot of best medicine. When the dragon returns, it will be given to him. Great gift, help him to a higher level, it is not impossible to directly promote to the overlord of martial arts! Hahaha!"

...

The scope of the sea of fire is not small.

With a radius of about three kilometers, the temperature of the core geocentric fire has reached eight hundred degrees.

This is still because the heart of the earth has decayed.

The vicissitudes of life, the once majestic heart of the earth, now only have thick arms, and the terrifying temperature that once burned the sky and boiled the sea has now declined to eight hundred degrees.

The fire beasts gathered.

Make a circle.

They have a bloodline seal, and if they leave the heart of the earth for a long time, their bodies will undergo changes, and they will die suddenly.

They don't know how this seal appeared.

It's too long, the blood is thin, and the memory of inheritance has naturally appeared to be incomplete.

They knew that the Fire Beasts followed a great figure who reached the sky and the earth in the ancient and pre-Qin period.

They are a noble race.

It's a pity that there are only more than a hundred people from the tribe. If Xiang Rulong doesn't appear, they will be extinct in a hundred years or so.

For Xiang Rulong, for the ethnic group, such as clearing obstacles.

"call!"

The old patriarch took a deep breath, sprayed two white breaths from his nose, and asked, "Are everyone ready?"

"All right!"

Many fire beasts responded.

"Well, we must use our full strength, after all, so far, the effect will be weakened. Once we fail, the kid will run away and leave the Fire Palace, and we will have nothing to do."

"Start now!"

The old patriarch's eyes instantly became sharp.

All the fire beasts burst out mysterious powers at this moment.

Under the control of the old patriarch, this mysterious power turned into an invisible scary handprint and left the sea of flames.

Ye Fan is still cultivating.

He swallowed three peerless treasure medicines in succession, and his thoughts were still unfinished. The treasure medicines that grew up here were all masculine and rigid attributes, which were in line with his path, so he was immersed in cultivation.

He is comprehending the Great Sealing Technique, the Watching Qi Technique, the Killing Heart Curse, and the Mystic Art.

The incomplete esoteric technique is incredible. The more Ye Fan understands it, the more he feels frightened, and it seems to be able to drive all the esoteric techniques.

This secret technique seems to be prepared for cultivation, and it is universal.

With the assistance of the Xuanmen Secret Art, Ye Fan learned about the Great Seal Art, the Watching Qi Art, and the Killing Heart Curse, making it easier, like a fish in water.

Sudden.

Ye Fan sensed a huge crisis.

The physical instinct is revived.

He opened his eyes and saw nothing. However, every cell in his body could feel the terrible energy coming.

"The world moves around!"

Ye Fan was shocked to find that this method had failed.

At the core, the old patriarch sneered: "Big arresting technique, blocking all the opportunities of the world, there is no way to escape."

"Dadao Fist!"

At the moment of crisis, Ye Fan broke out with all his combat power.

The arm inscription revived, bloomed with brilliance, and punched the Dao punch.

This punch should have caused the underground palace to shake violently, and could even penetrate the underground palace.

However, the underground palace did not move.

Ye Fan's face changed wildly.

What kind of method is this to block everything, even the energy of Dao Fist can be blocked.

"Dadao Quan, such a powerful boxing technique, this kid is really extraordinary, I doubt he has the posture of an emperor."

"Okay, we met, it should be God who wants us to get rid of this kid me and clear the obstacles for Xiaolong."

"The great deterrence performed by my clan, even Xiang Qiankun can't escape. This kid still wants to break and escape. It's just a dream."

"bring it on!"

"bring it on!"

The old patriarch is calling.

After grabbing the invisible handprint, Ye Fan felt that his whole body was restrained, and he couldn't get rid of it.

Damn it!

Who is making the shot?

Fire beast?

What kind of method is this!

Ye Fan didn't believe it, why didn't even Dadao Quan have any effect.

This is an invincible boxing technique.

"Break it for me!"

Ye Fan roared, the phantom of the emperor rose up, and he broke free of some restraints.

"Dadao Fist!"

Ye Fan was not convinced, the invincible fist in his hand should break everything, and no one could stop it.

How can the mere fire beast deal with him.

"Rumble."

Finally, there was movement in the underground palace, and the sand and stones rolled down, but the movement was not big.

The fire beasts were shocked.

The old patriarch exclaimed: "What a powerful little devil, he can force the blockade power of Dashu Nashu. However, it is a pity that how can one's power be able to compete with our whole clan."

"bring it on!"

"bring it on!"

Ye Fan howled wildly.

However, to no avail.

He was captured after all.

"Come on!"

The fire beasts shouted together.

Ye Fan was taken from the air and appeared in this core area.

"what!"

Ye Fan suffers from eating.

The high temperature of eight hundred degrees made his body almost melt.

"You beasts!"

"It's all about attacking me inexplicably, and now I'm going to die!"

"Just now, I shouldn't be merciful, I should kill your beasts!"

Ye Fan yelled, really angry.

Unprecedented anger.

Even if he was chased and killed by so many powerful people in the ancient relics of the Northern Wilderness; even if the ancient Shangguan tribe tried to catch him somehow; even if...

After so many experiences, none of what the fire beast did at this moment made Ye Fan angry.

This group of beasts is simply unreasonable!

"Little ghost, blame you for having the posture of an emperor. Our clan does not allow anyone who threatens Xiaolong to exist."

"so."

"You must die!"

Chapter 943: Heaven and earth oven

Roaring and roaring are useless.

Ye Fan calmed down.

The Huo Beast clan had the mind to kill him, and the look in his eyes knew that he was very determined.

Therefore, negotiations will not work either.

Ye Fan was silent.

He is thinking about countermeasures.

The old patriarch sneered: "Little devil, don't think about it, it's useless, it's **** by the big curse, it's the power of our whole family, even if you are a martial arts overlord, you have to be restrained."

"Dashu Nashu, such a powerful secret technique."

"Secret technique? No, no, no, this can't be said to be a secret technique, but a magical power."

"Supernatural powers?"

"Little devil, my knowledge is short-sighted. In the ancient and pre-Qin period, the powerful people used magical powers. Now the so-called martial arts are rubbish, and compared with magical powers, it is like a cloud of mud."

"Of course, some of the powerful martial arts nowadays are derived from supernatural powers. For example, the genius Bahuangquan of the Xiang clan has a trace of supernatural power overlord's power."

Ye Fan rolled his eyes and said coldly: "Don't blow, what magical powers, now in this environment, your fire beast clan is almost extinct, do you still have the ability to display magical powers?"

The old patriarch shouted angrily: "My clan will not be extinct, the son of God is about to return, and will break the blood seal of my clan"

"It turns out that you have a blood seal, so you can only hide in this sea of flames. Who sealed it? Could it be the legendary Fengtian clan?"

"Little devil, you actually know the Fengtian clan, and you have some insight. Yes, we speculate that it may be the blood seal planted by the Fengtian clan, and only the Fengtian clan has such a strong sealing method, but this is just speculation. Our inheritance memory is incomplete. Not sure about the authenticity."

"The core knack of the Fengtian clan is the Great Seal Technique, is it also a supernatural power?" Ye Fan deliberately talked about it.

The fire beasts laughed, and their tone slowly became mocking.

The old patriarch said: "Of course it is a supernatural power, and it is also a top supernatural power. As its name suggests, the Fengtian clan is powerful enough to confine the heavens and the Jedi. It is one of the strongest tribes in the ancient pre-Qin period."

Damn it!

Make a big profit!

Ye Fan was excited, he actually mastered a top-level magical power.

It's a pity that in the current environment, even if he masters supernatural powers, he can't exert his true power at all.

"Little devil, I have told you so much, I know you are delaying time, it doesn't matter, because I am confident enough that you can't escape the shackles of big detentions."

"Although the current environment cannot display the power of magical powers, our bloodline purity is half preserved. In comparison, our clan can exert a trace of magical powers with all my best. This is the reason why we can arrest you. Your boxing technique is amazing, it may also be supernatural power, but it can't break the power blockade of Dashu Nashu."

Ye Fan really couldn't break free.

He has given up.

The power of big custodial technique is too terrible, blocking everything, nothing can be passed out.

No one will come to rescue him.

His clothes had long since disappeared, and his whole body was flushed red, as if he was about to melt.

"Little devil, you are very good. Facing death, you can still be so calm. I admire this courage."

"Don't expect anyone to come to rescue you. Even if Xiang Qiankun comes, I will protect you and I will not give in."

The old patriarch's eyes were sharp, and he wanted to really break Ye Fan into the heart of the earth.

Ye Fan spoke and asked coldly, "Can I know why? Why are you targeting me so much?"

"Little devil, I respect you, and I will talk to you for the first time. Xiang, the young master of the Xiang clan, is like a dragon. The fire is born in his body. He can break the seal of our blood. He has the appearance of an emperor and will dominate in the future. The world."

"Your potential is endless, and you also have the posture of an emperor. Therefore, you must be eradicated to clear the obstacles for the little dragon."

"Do you understand now?"

Ye Fan smiled bitterly, but he didn't expect that he would be cheated by the young master who had never been masked.

If Xiang Qiankun knew that he was dead like this, he would not be able to obtain it through his cultivation method. I don't know if Thunder will be furious.

"Boy, go down."

"The power of the great custodial technique will always restrain you, and you don't even have the ability to explode."

The old clan leader drank it, and drove Ye Fan into the heart of the earth.

Subsequently.

The fire beasts vomited out their own blood, which gathered together and gradually evolved into a huge oven under the control of the old patriarch.

"Little devil, see clearly, this is the furnace of heaven and earth, and it is also a kind of magical power."

"In ancient times, the real heaven and earth oven, it was so terrifying, burn the sky and boil the sea, it is not a problem, now to refine you, you should feel honored."

The old patriarch laughed loudly, and while pushing Ye Fan into the oven, he said, "I will refine you into the best medicine, and help Xiaolong go further."

"The luck is endless, and the good fortune is extraordinary."

"You are also the emperor's posture. If you swallow you, the little dragon will gain your luck. When the two are stacked, there is no need for the little dragon to go against the sky. The future must be the supreme heaven and earth."

"Everyone should not slack off, refining together."

The old patriarch told the fire beasts.

Later, he took out most of the treasures of these years, and all kinds of rare resources piled up like a mountain.

Aside from other resources, there are only 20 peerless medicines, of which eight are high-quality, and three are semi-extreme.

If this is put outside, it will definitely set off a **** storm.

Even the overlord of martial arts can make a move to **** it.

The old patriarch said: "These resources, combined with this kid's vitality, flesh and body, will definitely be able to create a truly superb medicine. Blessed is Xiaolong, hahaha."

...

The world is in the oven.

Ye Fan was very difficult, the whole person almost lost consciousness, even if it was conscious, it was useless, the power of the big detention technique had been restrained, making it difficult for him to move.

The high temperature of eight Baidu, and the refinement of the heaven and earth oven, even if it is a great master.

These beasts!

Ye Fan didn't expect to die so uselessly. It's unclear, it's really bad.

gradually.

The heart of the earth penetrated Ye Fan's body, burning the internal organs.

But when the flames touched the dantian, the mutation took place, and the natal blood that had been entrenched in Ye Fan's dantian, under the great demon hegemon, was revived at this moment.

"Take the blood!"

Ye Fan was overjoyed and saw a glimmer of hope.

"Recover completely!"

Ye Fan was roaring in his heart.

In a daze, Ye Fan heard a dull dragon chant, which was different from the high-pitched dragon chant, it was a voice unique to Ba Xia.

The blood has completely recovered.

A phantom of the tyrant emerged and wrapped Ye Fan. Ye Fan immediately felt extremely comfortable and gained a complete sense of security.

Good good.

Ye Fan laughed wildly in his heart, unexpectedly turning around.

The willows are dark and bright.

Under the protection of the phantom, he is not in danger of his life, and even the force of the arrest is isolated.

Ye Fan sat cross-legged.

He wants to slowly forge his body with the fire of the heart of the earth. This is an unforgettable opportunity.

Ye Fan couldn't absorb the blood of the tyrant. At this moment, under the fire of the heart of the earth, it turned into a trace of pure energy to nourish Ye Fan.

You know, the Great Demon Hegemony is so powerful that even a nuclear bomb can't kill him, but can only smash his tortoise shell; this kind of existence is the overlord of heaven and earth.

Ordinary martial arts overlords can't help but under the Great Demon Overlord.

Therefore, the traces of the blood of the tyrants, the energy is too turbulent and pure.

Ye Fan was wrapped in energy.

Gradually, Ye Fan's injury was getting better.

Within an hour, Ye Fan's injury recovered as before, but he lost almost half of his blood.

"Can not do it."

Ye Fan has a sense of crisis.

"After the tyrant's essence and blood are consumed, I will have no protection, and I will still be refined to death."

"This is how to do?"

When Ye Fan was anxious, three peerless medicines fell in front of him.

"..."

"??"

Ye Fan looked at the treasure medicine in front of him with a question mark...

Chapter 944: The suffocating operation...

Why did you suddenly drop the treasure medicine?

God opened it to him behind his back? This is unethical and non-compliant.

Ye Fan was at a loss.

At this moment, he heard the voice of conversation outside——

"Patriarch, it's been an hour. No matter how strong the physique of that kid is, it has turned into a pool of blood under the forging of the furnace of heaven and earth and the burning of the fire in the heart of the earth."

"Yes, there is no more movement."

"Now throw resources into the heaven and earth oven. Let's work together to make a big medicine. We can't be careless. It would have been difficult for us to use the heaven and earth oven. If we are a little careless, the oven will explode, and everything will fall short."

"The patriarch can rest assured that we must maintain the normal operation of the oven."

"Okay, let me throw resources. I have already thrown three treasures. Next, throw some rare ores. These ores come from a long time ago and are rare now. Each one is a treasure. After the calcination melts, Mixed with the concoction, it can create an invincible body for the dragon."

Ye Fan finally understood.

It turned out that the treasure medicine was thrown in by the old beast.

"This group of idiots will never expect to have the blood of the big demon tyrant in my body, and protect me well."

"You give Xiang Rulong the refining medicine, but I don't know, all of them are cheaper for me."

Ye Fan really broke his mouth with a smile.

If the old beast knew the situation in the furnace of heaven and earth, he would not know if he would die of anger.

Of course, it's too early to be happy, Ye Fan won't be stupidly exposed too early, he wants to take the opportunity to practice.

"I have 108 physical inscriptions all over my body. Once all of them are filled, the Dacheng Ba body can be said to be fully mature at that time."

"At that moment, I may have the power of the overlord level!"

"Zhengshou has no resources to fill in the inscription. This group of beasts really surprises me. I'm not welcome."

Ye Fan swallowed three precious medicines.

Once he had the resources to practice, Ye Fan blocked his dantian to prevent the hegemony's blood from being burned by the heart of the earth and spilling energy.

This is a good thing, the biggest treasure, keep it, and maybe you can save your life in the future.

Cultivation is very simple now.

Easy.

real.

The heart of the earth is one of them. The biggest effect is the forging of the heaven and earth oven. You don't even need to refine the energy of the treasure by yourself. The heaven and earth oven will help Ye Fan solve it.

The magical power of Tiandi Baking Furnace was a cheating tool used by famous clans to forge disciples in the pre-Qin period.

Throwing the disciple in, forcing forcibly, reborn.

This is the horror of top supernatural powers.

"Om!"

Soon, the inscription nodes on Ye Fan's body were dazzling, blooming one by one.

nowadays.

Ye Fan's arms, feet, and limbs were all filled with inscriptions. Ye Fan felt that his limbs had inexhaustible power.

Next is the torso and head.

"Wow!"

The second batch of resources has arrived.

This time the treasure medicine resources are much less, mostly rare ores, which is also a good thing.

As the old patriarch said, these minerals are handed down from a long time ago and are very precious. They can be refined into water, refined into the body, and strengthen the body.

"What stone is this?"

Ye Fan grabbed a simple stone from a pile of resources, which contained a bright red ribbon.

This red ribbon seems to be blood.

As the flame burned, the stone began to melt and gradually became thinner; the red ribbon in it was revealed.

Suddenly, a domineering breath burst out.

In a daze, Ye Fan saw the birds that have been traversing the sky and the earth, spreading his wings to cover the sky and obscuring the sun, his claws could smash the mountains, his tail was surrounded by flames, and no grass could grow anywhere he passed...

In a moment, Ye Fan recovered.

He understood that this stone was stained with the blood of the ancient great demon, and he didn't know what time it was, and it has been preserved to this day.

Because it is nourished by blood, this stone is definitely a gem.

After a quarter of an hour, these ores were smelted into a puddle of water, which can be used to refine into the body, which can definitely enhance physical fitness.

But Ye Fan hesitated a little, worried that something would happen.

But just abandoning it like this, Ye Fan is also very distressed. If he has a weapon, he can be refined into the weapon, and it can definitely improve the quality of the weapon.

Before, Ye Fan had the weapon Xuantian War Halberd, but unfortunately, Ye Fan's strength increased too fast, and the Xuantian War Halberd could not meet Ye Fan's needs, so he stayed in Tianzun Mansion.

In the end, Ye Fan refines this pool of mineral water into his feet.

"Good weight!"

Ye Fan gritted his teeth.

At this moment, his feet seemed to be heavier by a thousand catties, but the gratifying thing was that after the mineral water was refined, the hardness of his feet was beyond imagination.

With the forging of the heaven and earth oven, the feet gradually returned to normal, and the flesh and skin of the feet did not become stiff and numb because of the mineral water.

Ye Fan tried hard to feel that there was no effect on his feet, which was very good.

This is peace of mind.

Next, the third batch of resources arrived.

Ye Fan was full of energy.

Outside, the old patriarch looked at the heaven and earth oven very satisfied, he seemed to smell the fragrance of medicine and the vigorous energy.

"Hahaha, it made me drool."

"It seems that we still need to work harder. Throw in all the treasure medicines."

Wow!

The resource rushed into the furnace of heaven and earth, drowning Ye Fan.

Ye Fan didn't realize it.

His current state is very strange, his physical body is improving on its own.

The Tiandi Baking Furnace refines the resources, and energy flows into her body, and under the action of the Tyrant Body Art, the inscription of the flesh is filled.

Ye Fan is practicing the Great Seal Technique.

Since the old beast said that the Great Seal Technique is a top-level magical power, Ye Fan couldn't wait to cultivate some achievements in the Great Seal Technique.

The more you comprehend, the more shocking it is.

This is really an extremely profound and terrifying magical power.

Ye Fan felt that it was too difficult for him to cultivate. In other words, in the current cultivation environment, his magical powers could not be successfully cultivated, at best he could only cultivate a little bit of fur.

Hum!

The light was shining, and a group of 12 flesh inscriptions were filled, and Ye Fan's flesh was strengthened again.

Ye Fan opened his eyes.

Looking at the full resources, he was numb and calm.

There are 108 physical inscriptions, 12 in a group, a total of nine ancestors; now, six groups have been filled.

Four groups of limbs.

A group of predecessors.

One set on the back.

There are still three groups left without filling, but these three groups are the most important, they are: a group of 12 for the spine; a group of 12 for the top of the skull, and a group of 12 for the eyes.

There are 36 in total.

Needless to say the importance of the back, supporting the body.

As the saying goes: the back is like a dragon.

From a person's back, one can tell whether that person is tough or not.

The inscription on the top of the head, this is to enhance the spiritual strength, willpower, and naturally it is extremely important.

The inscription on the eyes is to develop the eyes.

Of course, he couldn't get the heavy pupil ability like Guihai Qianjun, a dead ghost, but simply strengthen his eyes.

Ye Fan estimated that if the inscriptions on both eyes are filled, some common illusions and blind eyes can be seen through; and if the foundation of the eyes is laid, he can also practice the pupil technique in the future.

It is not easy to practice pupil technique, and it has great demands on both eyes.

At this time, the mystery of the Tyrant Body Jue is manifested. Whether you are ashamed or not, let's lay the foundation for you first.

"The next 36 inscriptions require incalculable resources."

Ye Fan had a headache. Looking at the remaining resources in front of him, he guessed that he might not even be able to fill in an inscription.

after an hour.

Resources are exhausted.

Sure enough, an inscription node in Ye Fan's left eye appeared and disappeared, not filling up.

It's a bottomless pit.

Ye Fan desperately wanted a pair of good eyes.

For example, in the first giant city, being assassinated by killers, those killers disappeared instantly, it must be a blinding method.

Once you have a good pair of eyes, you can see through the falsehood, and the killer has nowhere to hide.

"It is not extravagant that both eyes are filled with 12 inscriptions. At least one eye is filled with one. Let's strengthen the eyes a little."

Ye Fan muttered.

He waited for a long time, but did not see the old beast continue to throw resources.

"Is it gone?"

"This can't work, I have to find a way to continue to cheat."

Ye Fan secretly guessed.

Outside.

The old patriarch has prepared a jade pot made of special minerals, which will be used to store the potion refined in the heaven and earth oven.

"Patriarch, is it really refined into the best medicine?" A fire beast said suspiciously, "Why is there no medicine?"

"this."

The old patriarch choked.

The best medicine, it is definitely the fragrance of the medicine.

"Will it be close?"

"Impossible, we have already thrown half of our treasured resources. Isn't it impossible to create the best medicine with so many?"

"Would you like to go in and take a look?"

When Ye Fan heard this, he was immediately anxious.

Come in and look at your sister, isn't this exposed.

He rolled his eyes and controlled his body, and his heart beat suddenly violently and fiercely.

Boom!

Boom!

Boom!

The sound was dull and powerful, as if beating a drum, and it was conveyed. The earth was shaking, and the fire beasts were very palpitated.

"what happened?"

The old patriarch was startled and hurriedly ordered: "Everyone, be careful, try to keep the heaven and earth oven running, and you can't fall short."

Wow!

At the same time, a brilliant brilliance rushed out and turned into a beam of light, which lasted for a long time.

The old patriarch was shocked.

Suddenly, the old man burst into tears, and said excitedly: "Is this a legendary medicine refining vision. It is said that in ancient times, there were alchemists who refined the invincible pill, and there would be a vision."

"Although I am not refining pills, but I am refining medicines, there are also visions, hahaha, well, it is definitely the best medicine."

As soon as the voice fell, the light dimmed.

Now that the old patriarch laughed, he said in a panic: "How can the vision last so short? Is there anything wrong?"

A fire beast yelled: "Patriarch, I said it was a bit short, continue to throw some resources, the last step, let's rush!"

"Yes, take a wave."

The old patriarch once again grabbed a batch of resources and threw it in; it seemed that he still felt unsteady, his heart was cruel, and he shouted: "Everyone listened to my order and all forced a drop of natal blood into the furnace of heaven and earth. Since the fire is added, Then add a big one, in one step!"

"Yes, patriarch!"

More than a hundred fire beasts forced out a drop of natal blood, more than a hundred drops, turned into a stream of blood into the torrent of heaven and earth.

Ye Fan, already moved to tears...

Chapter 945: Return of Xiang Rulong

Here comes another batch of resources, the most precious thing is this life-blood, which is too powerful, Ye Fan is grateful, and screams good guys.

Under the refining of the heaven and earth furnace, these energy rushed into the inscription node of Ye Fan's left eye, filling it frantically.

"boom!"

The beam of light was shining again.

The old patriarch outside laughed: "Well, keep brewing, don't worry, don't worry, it's a merit to be able to refine such a great medicine."

Gradually, Guanghai converged.

The Fire Beast clan did not slack off and continued to maintain the operation of the heaven and earth oven.

...

In a blink of an eye, the next day.

Xiang Peipei came to the entrance of the Earth's Fire Palace.

It's been a day, Ye Fan hasn't come out yet, and don't know what's going on inside, she invites Xiang Hao to let him go in and have a look.

But Xiang Hao said, "I'm not going. That guy had better be burned to death in there and eaten by the fire beast."

Xiang Peipei said angrily: "Brother Ye Fan was invited back by my father. He is a friend of the Xiang clan. Your attitude is really enough."

"Peipei, you are really stupid or lacking in your roots. Ye Fan's talent may have the emperor's posture, and Long Brother, you know, also has the emperor's posture. One mountain cannot tolerate two tigers, Ye Fan must be Long Brother's obstacle. Shi, it must be suppressed, how can you make good friends with Ye Fan."

Xiang Hao shook his head and left.

Xiang Peipei thoughtfully.

Xiang Rulong is her own brother, and she certainly hopes Xiang Rulong will go well.

Although he had some admiration for Ye Fan, Ye Fan was nothing compared to his brother.

Xiang Peipei figured it out, looked at the Heart of the Earth Fire Palace, and muttered to herself: "Ye Fan, ask for your own blessings. It's best not to confront my eldest brother. My eldest brother is very powerful."

After that, Xiang Peipei also left.

As soon as he returned to the comfort zone, Xiang Peipei heard the news--

——Xiang Rulong is back!

The Xiang clan is boiling.

Men, women, young and old, as well as many people in power, all rushed to the entrance of the ancestral land to welcome the young clan leader. They wanted to see how far Xiang Rulong had grown in the past three years.

The entrance and exit of the ancestral land.

Xiang Rulong stride the meteor.

Compared with his father Xiang Qiankun, Xiang Rulong's body is not so burly, but has a back to the basics, similar to Ye Fan's body, very well-proportioned and heroic.

He wears black soft armor, black hair and long hair, his face is resolute and handsome, his eyes are as deep as the starry sky, and there is a hint of vicissitudes. This is the calmness honed by traveling around and hard cultivation, and it is very rare.

Xiang Rulong's breath is very convergent.

However, he can still give people a sense of oppression between walking, which is the extremely powerful performance of his physical body. In addition, there is an extremely hot breath in the dark.

That is the fire in his body.

It was born with fire, and now the fire has bloomed, and Xiang Rulong's body is forged all the time, how can it not be strong.

This is a tyrant! !

The eyes of the Xiang clan flashed with awe, even some people in power were amazed, feeling that they were no longer Xiang Rulong's opponent.

"Little Dragon!"

"Little Dragon!"

"Brother Long!"

"Young Master!"

The voices of greetings sounded one by one, Xiang Rulong's face was lightly smiled.

"Big Brother."

Xiang Peipei puffed up.

Xiang Rulong's eyes were full of spoiling, holding his sister in his arms, squeezing Xiang Peipei's face, and then looking at the others and nodding.

"Long time no see. I'm back."

"Boom boom boom..."

At the gate of Ancestral Land, fireworks rushed into the sky.

This is a welcome ceremony for Xiang Rulong prepared by some young people in Xiang Hao.

"welcome back."

Everyone is very moved.

Three years, say that long is not long, and that short is not short.

A lot has happened in the past three years.

The world is about to be in chaos.

Xiang Rulong's eyes are long, and he is also very emotional. The three years of hard practice and travel outside are not easy. He has also encountered a life and death crisis.

Returning to the family now is like returning to a safe harbor, giving him enough peace of mind and comfort.

A group of people crowded Xiang Rulong into the ancestral land.

People of the older generation have not mixed up, and if they want to ask anything, they have to get Xiang Qiankun to return; now a group of young people like Xiang Rulong and Xiang Hao are mixed together.

"Boom."

Xiang Hao was thinking about getting into the deaf and punched his chest twice, and slapped his tongue: "What a strong body, Brother Long, what level of your cultivation are you now? I feel a huge sense of oppression. I won't have become the overlord or possess the overlord. The level of combat power."

The young people were quiet, staring at Xiang Rulong together, waiting for the answer.

Xiang Ding and Xiang Mu are very nervous.

The Xiang clan is one piece, but it does not mean that there is no competition.

Except for Xiang Rulong, they are the strongest; therefore, they are in a complicated mood. They hope that Xiang Rulong will guard against the sky and lead the Xiang clan to climb; in addition, they don't want Xiang Rulong to be too strong, so they can't breathe. .

However, Xiang Hao didn't think so. They belonged to Xiang Qiankun's faction, and hoped that Xiang Rulong was stronger and better.

But facing the look everyone was expecting, Xiang Rulong did not respond, but said mysteriously: "This is hard to say, you will understand it in the future."

"Cut, it's still sold out."

Xiang Hao curled his mouth, his heart itching.

He had an idea, pretending to be sullen and said: "Brother Long, do you know what happened in Kunlun recently?"

Xiang Rulong nodded: "I understand, the Nether Clan is born."

"anything else?"

"I heard that the leader of Yutai Mountain was taken down by Ye Fan." Xiang Rulong thoughtfully.

The leader of Yutai Mountain has been placed for a long time, and no one has gotten involved.

Not not to take it but not to dare.

People in Kunlun all know that the people of the top ancient tribe did not take action, such as Xiang Rulong, such as the eldest son of the ancient Shangguan tribe...

The throne of leaders is destined to belong to these top heroes.

However, Xiang Rulong and the great son of the ancient Shangguan clan existed and restricted each other, so they all wanted to continue to increase their strength and wait until they were strong enough to win the leader's throne.

This is foolproof.

Unexpectedly, Ye Fan was stunned. He just came to Kunlun and didn't understand anything, so he won the leader's throne.

When Xiang Rulong returned to Kunlun, he heard that it was uncomfortable.

"Yes, that's Ye Fan, arrogant can't do it. Long brother, don't you know, Ye Fan is in our clan, in the Fire Palace in the heart of the earth."

"Oh?"

Xiang Rulong was surprised.

Xiang Hao gritted his teeth and said, "That guy Ye Fan is too arrogant. He came to our ancestral land and he was not honest and beat us up. Look at the big guy, the injury is still not healed."

Xiang Ding added: "Ye Fan deceived me that there was no one in the Xiang clan."

Suddenly the sentiment was excited.

"Ye Fan is too hateful."

"Brother Long, you must teach him a little lesson, let him know that there is a heaven and a human being outside the sky."

"Play the style of my Xiang clan."

Xiang Rulong frowned, but the existence of a character like him, the emperor's posture, could not be influenced by others.

He said lightly: "I understand, I went to the Heart of the Earth Fire Palace to have a look, and it happens that I also want to talk to the Fire Beast clan."

"Well, Brother Long, go now." Xiang Hao couldn't wait, wishing Xiang Rulong to fight Ye Fan immediately.

In this way, Xiang Rulong's strength can be seen, and Xiang Hao firmly believes that Xiang Rulong will be able to suppress Ye Fan.

must!

Chapter 946: Big bang, Ye Fan is out!

The news of Xiang Rulong's return was conveyed by the great figures of the Xiang clan into the Fire Palace in the heart of the earth. The old patriarch of the Huo Beast clan learned that he was joyous, and the old cried.

"The dragon is finally back."

The old patriarch wiped a tear.

"Everyone will continue to keep the heaven and earth oven running, and give Xiaolong Tianda a gift later. I will meet Xiaolong and talk about fire and blood sealing."

"Patriarch, go with peace of mind."

The fire beasts were excited, thinking that they would be able to break the bloodline seal immediately and leave the dark cage and roam the vast world outside. They couldn't ask their own monsters to scream.

"Duck goods!"

"Duck goods!"

Some two hundred and five, unexpectedly once again forced out their life essence, into the furnace of heaven and earth.

Xiang Rulong entered the Earth's Fire Palace.

When I came to the edge of the sea of fire, I saw the old patriarch waiting.

"Patriarch."

"Little dragon, you are finally back. Well, well, I can feel the strength of your physical body. Even if you don't have the power of the overlord level, you will not be much worse; in a few years, you should be able to catch up with your father. At that time You are less than thirty years old."

"Thirty years of martial arts overlord, although it is not a big deal in the ancient pre-Qin period, you are definitely the first person in this cultivation environment."

"In the future you must dominate the ups and downs of the world!"

Xiang Rulong smiled.

He has listened to these words since he was a child.

These fire beasts have been bragging about him since he was a child, and he can hear the cocoon in his ears.

Xiang Rulong sharpened his mind and was firm, and would not be swayed by these words; he deeply understood the difficulty of martial arts practice, and the more difficult it became as he went on.

If you want to be promoted to the martial arts overlord, if it is so easy, then the overlord is not a Chinese cabbage, in fact, there are only a handful of overlords.

"Xiaolong, how is Tinder developed?"

"look."

Xiang Rulong opened his mouth and spit out a ray of flame, and the temperature of this area rose sharply.

The old patriarch was overjoyed, "Okay, it seems that the fire has grown into a pinch of flames. You can peel off a trace of the flame. You can use it easily, which is very good."

Xiang Rulong swallowed the flame.

In his dantian, there is a small flame, but the breath it exudes is awe-inspiring, and the scalp is numb.

Xiang Rulong still doesn't know what it is. Even the development of fire is passive and he can't control it; but the benefits that flames bring to him are too big, forging his body all the time, thinking about it. I think it's scary.

"Patriarch, do you know what kind of flame this is? At first, I thought it was a fire in the center of the earth, but now it seems that it is not a fire in the center of the earth."

"It's really not the heart of the earth."

The old patriarch shook his head, also very puzzled, "But what is certain is that this flame is absolutely extraordinary, it must be an ancient flame."

"Ancient Fire?"

"In the ancient times and the pre-Qin period, it was too mythical. There were everything. There were even thousands of flames. These flames have different powers and different effects, and they are divided into many levels. A complete geocentric fire can be ranked high. , Is also called a different fire. Your flame should also be a different kind of fire, but now it is very small and invisible. It will definitely reveal the true landscape in the future. Don't worry."

Xiang Rulong nodded secretly.

"Patriarch, how can you crack your bloodline seal? I don't know about these."

"Not in a hurry."

The old patriarch patted Xiang Rulong on the shoulder and said with a smile: "I'll give you a big gift. Maybe it can make you promoted to the overlord of the martial arts. At the last time, you can really have the power of the overlord; or you can re-development. The ancient fire in your body."

"what?"

"Follow me."

The old patriarch took Xiang Rulong into the fire.

Xiang Rulong's body is very strong now, but the high temperature of eight hundred degrees will also burn his body; the old patriarch used means to protect him.

"Heaven and earth oven!"

Xiang Rulong was slightly shocked when he saw the huge, working oven. He knew it, Huo Beast told him a lot of knowledge, this was supernatural power.

The old patriarch said: "Heaven and Earth Baking, Daju Nashu, these two magical powers, it is time to pass on to you. Before that, you are baptized."

boom!

At this moment, the furnace of heaven and earth trembled, and the strong brilliance washed out.

The old patriarch laughed: "Hahaha, it took me countless resources and the life and blood of my whole family to finally refine the best medicine, Xiaolong, blessed you."

"Something's wrong!"

Xiang Rulong's perception is very keen, especially for his physical body. In the oven of the day, there is an extremely overbearing physical aura.

This is definitely not the best medicine.

"not good!"

Xiang Rulong's face changed suddenly.

"Quickly retreat!"

"Quickly retreat!"

"The oven of heaven and earth is going to explode."

Xiang Rulong roared and withdrew one after another; the old patriarch was also taken aback and reacted quickly, and swept away more than one hundred people.

at the same time.

Big explosion in the oven...

boom!

The explosion energy was too violent, most of the fire beasts that impacted spit out blood, and the old patriarch was affected.

Xiang Rulong ran the fastest, but it had no effect.

"Do not!"

The old patriarch shouted.

This is the great medicine she used countless resources and the whole clan's blood to refine, how could it explode like this.

"open!"

The old patriarch didn't believe in evil, he roared, and used his powerful faculty to split the sea of fire abruptly.

In the next second, all the fire beasts were petrified.

What did they see?

In that central core, stood a young man, who was naked, but his flesh was like God's craftsmanship. The golden ratio was so perfect that he couldn't pick out any flaws.

The key is.

Young people are not affected by the fire in the heart of the earth.

A big demon phantom enveloped him, and even his entire body's hair was intact as before.

Three thousand silver hair swayed frantically.

Yes.....

Ye Fan!

The fire beasts can't believe it.

Ye Fan, not dead? How can this be! It's absolutely impossible!

The earth-centered fire was boiled in a heaven and earth oven for a day, even if the martial arts overlord had to die, how could Ye Fan survive?

"scold!"

Abruptly, Ye Fan opened his eyes.

A purple-golden light burst out, seeming to be able to see through the red dust, reaching the depths of the soul.

Ye Fan woke up.

Under the pile of so many resources, his left eye's six inscription nodes are all filled, and his left eye has been successfully opened.

At this moment, in Ye Fan's left eye, the world was so clear that even the finest hairs on the scales of the distant fire beast could be seen.

This eye surprised Ye Fan.

Although only one eye was opened, it was a bit different, but for Ye Fan, it was enough.

"Om."

Ye Fan's body trembled.

The blood spread, turned into armor, and wrapped his body.

"What a strong body."

Xiang Rulong muttered to himself, his body trembling, this was not fear, but excitement, extremely excitement, and blood boiled over.

Is this Ye Fan?

Sure enough, it is qualified to be able to press the leader's throne.

"Ye Fan!"

The old patriarch's heartbreaking roar.

"Why are you still alive, how is it possible, are you a man or a ghost!"

"Old beast, you can kill me, it's ridiculous. Thank you for so many resources and natural blood, for helping me reborn and strengthened."

Ye Fan's words are full of sarcasm.

puff!

The old patriarch shook his body, his anger attacked his heart, spouting blood, his eyes were splitting.

Making wedding dresses for others?

"puff!"

It was another bite of blood, and the old patriarch was really going crazy.

Too annoying, too humiliating.

Not only didn't refine this kid, but wasted so many resources to help Ye Fan improve his strength.

Ahhhhhhh!

The old patriarch roared.

"kill!"

With an order, all the fire beasts were killed in anger.

Ye Fan sneered. Now he was not afraid of anything. He smashed out a punch, the emperor exploded, the sea of fire was exploding, and the fire beasts were lifted off.

"Catch the claws."

"No, Ye Fan, this wicked animal is going to take away the heart of the earth, **** it, stop him!" The old patriarch's pupils shrank, and Ye Fan is just a bold man.

Now Ye Fan's physical body can almost withstand the high temperature of eight hundred degrees, so he wants to get the heart of the earth.

For the Fire Beasts to do this, he has no scruples, even if Xiang Qiankun comes, he will not necessarily be suppressed.

"Come to me!"

Ye Fan caught the fire of the earth.

"Leave!"

The old patriarch roared and used a big arrest technique to arrest Ye Fan and suppress it again.

Ye Fan sneered: "Old beast, not to mention that you are alone in performing the big shackles, even if your whole clan does it, you can't suppress me. I am completely different from me yesterday."

"open!"

Ye Fan didn't even use Dao Fist, he fought the Emperor Fist, with the true meaning of opening the mountain, and smashed the power of Da Shu Nashu.

The old patriarch was alarmed.

"I won't accompany you to the end, there is no earth-hearted fire, you beasts wait for death slowly." Ye Fan sneered.

About to leave, but found a fist blocking the way.

Xiang Rulong said solemnly: "Ye Fan, just let you go, isn't my Xiang family very shameless!"

Ye Fan looked back, his eyes bright, and said calmly: "You must be Xiang Rulong, the chief of the Xiang clan. It's really time to return."

Chapter 947: Break through the palace of fire, and the earth will be turned upside down!

Xiang Rulong and Ye Fan looked at each other.

When the young people in the posture of the two emperors met for the first time, there was indeed a battle between them, which was instinctive.

As the saying goes: There is no room for two tigers.

The two sentiments are rising steadily.

For a moment, Ye Fan let out a chuckle, and under the shocked eyes of Huo Beast and even Xiang Rulong, he opened his mouth and swallowed the heart of the earth into his abdomen.

this?

Xiang Rulong was puzzled.

He is always forged by ancient fires, and his body can tolerate high temperatures, but he doesn't dare to swallow the heart of the earth.

Why can Ye Fan.

In fact, Ye Fan blocked the heart of the earth in his dantian, using the remaining hegemonic blood to suppress the heart of the earth.

This is also a risky attempt.

Facts have proved that he succeeded.

As long as he is inside him, unless he is killed, the heart of the earth cannot be taken away. This is also a great good fortune, and the use of the heart of the earth in the future is also a big killer.

The fire beasts have their eyes cracked.

There is still no guarantee that Xiang Rulong will be able to crack their bloodline seal 100%.

"Xiaolong, suppress him!"

The old patriarch shouted.

The war is about to start.

Ye Fan and Xiang Rulong were very excited, their instincts to fight were gushing, and the two of them also began to fight physically.

boom!

boom!

The two of them fought hard, each flying upside down, qi and blood surged.

This time, both of them probably knew how strong each other was, and their expressions became serious.

"It's worthy of daring to win the throne of leadership. You surprised me." Xiang Rulong's face flashed with excitement, and his physical aura broke out completely. "In Kunlun, there are almost no young generations who can be my opponents by purely cultivating the flesh. Today, today It is a pleasant surprise for me to meet a good player like you."

"To each other."

"Then it's a good fight."

"Come!"

In an instant, they collided again.

The underground palace exploded.

Coax coax...

The fire beasts were lifted off again, the underground palace kept moving, and suddenly fell, and some places began to collapse.

"what happened?"

There was also a big movement on the ground.

With an underground palace as the center, it seems that a major earthquake has occurred in a radius of ten miles.

The Xiang clan was alarmed.

Those in power rushed over.

"What a strong energy fluctuation, there is a big battle below. I heard that Xiaolong has entered the Fire Palace in the heart of the earth, and it is impossible to fight the fire beast. Could it be that Ye Fan!"

"I had expected Ye Fan and Xiaolong to have a battle, but I didn't expect it to be so fast."

"If you continue to fight like this, the Earth's Fire Palace will collapse. How can we stop it?"

"I don't think it is necessary. Xiaolong can unlock the blood seal of the Fire Beast clan, and the collapse of the Fire Palace in the heart of the earth does not matter. Anyway, the fire in the heart of the earth will not be extinguished. Take it, let Xiaolong come, this is the best way."

"I agree, Xiaolong suppressed Ye Fan, and the one who beat Ye Fan was submissive, and he would definitely be willing to hand over the cultivation method."

"Retreat, the two should be able to play out of the underground palace. We will maintain the ancestral land and prevent it from causing major damage."

Those in power are scattered.

In minutes, the emperor exploded, two violent auras rushed out of the clouds, Ye Fan and Xiang Rulong shot out.

Fortunately, the two were fighting frantically.

Bang bang bang...

The brutal collision of the flesh made the scalp numb of a group of people in power. They were amazed that the two young men were too strong in combat.

Those in power are dispelling the aftermath of energy.

From afar, everyone in the Xiang clan was watching the battle, especially the younger generation, very nervous and passionate.

Xiang Ding slapped his tongue and said: "This Ye Fan, who is able to fight so madly with Brother Long without falling to the wind, is so strong."

Xiang Hao hummed: "This is just the beginning, and Brother Long will be able to suppress Ye Fan right away, for sure."

Although he said so, Xiang Hao was playing drums in his heart.

Ye Fan's breath is too powerful, and Xiang Rulong is no different, and it collides fiercely, the bigger and the more fierce.

Both breaths were washed out.

The difference is that Ye Fan's blood is normal red, while Xiang Rulong's blood is fiery red.

The two colors are not the same.

The power of qi and blood is also colliding, overwhelming the river and the sea, covering the sky and obscuring the sun. Although the power holders are working hard to disperse the aftermath, there is still a breath that spreads to the distance.

In this mountain range, the beast trembles.

"who is it?"

"What a strong qi and blood, what a strong body!"

"who?"

In the vast mountain range, a sleeping ancient beast emperor woke up, and they smelled delicious blood.

These beast kings can all be called old monsters. I don't know how long they have lived, and the end is coming. In order to survive, they buried themselves in the ground and fell into indefinite sleep, so as to slow the passage of vitality.

Today, they wake up one after another.

They moved.

Smelling the blood.

The whole mountain is boiling.

Such a big movement naturally spread quickly, like a hurricane, spread to the giant city and become big news.

Some people speculate that the ancestral land of the Xiang clan has changed.

Some people speculate that the change is related to Ye Fan.

Someone guessed...

In short, there are many discussions.

However, despite their curiosity, the monks dared not go to the ancient mountain range where the Xiang clan was located, fearing the majesty of the top ancient clan.

Miscellaneous people are not allowed to approach, otherwise they will be killed without mercy.

But the ancient beast king has no scruples. Firstly, their own strength is terrible, and secondly, the end is approaching and they are about to die. They are afraid that this will not happen.

On the contrary, if it can swallow such a powerful source of qi and blood, it is enough to increase life span, and can live a few more years, wouldn't it be beautiful.

In fact, in the vast Kunlun, there are many ancient beast kings, and at least half of them are sleeping around the ancestral land of the Xiang clan.

Why?

Because of the Xiang family refining body, the stronger the body refiner, the better the physical training. For the fierce beast, it is a great medicine for the human body, and it wants to swallow it in dreams.

Many ancient beast emperors focused on Xiang Qiankun.

If you swallow a body refiner at the level of martial arts overlord, you will benefit infinitely.

But Xiang Qiankun is too strong, they are not opponents, so they are sleeping around the ancestral land of the Xiang clan, once there is a chance, such as Xiang Qiankun encounters unexpected events, they will take action.

anyway.

The Xiang clan, as well as Ye Fan and Xiang Rulong, didn't know that their qi and blood attracted many ancient beast kings to kill.

They are still fighting fiercely.

Ye Fan's qi and blood cover his naked body, but he can still see it. There are nodes in his body that are shining brightly, and they are all inscriptions, all reviving.

The power of every fist and every kick of Ye Fan was so terrifying that Xiang Rulong felt the pressure.

And Xiang Rulong, also naked, also covered his body with qi and blood.

No clothes can exist in this kind of war.

Xiang Rulong, indeed looks like a human-shaped tyrannosaurus, every time he shakes his fist, he seems to hear the tyrannosaurus roar.

"Overlord Fist."

"King Shi Huangquan."

The two began to use their utmost knowledge.

This fight became more terrifying and fierce, and Xiang Rulong rushed into the higher air to prevent the ancestral land from being affected.

Ye Fan followed closely behind.

Huhuhuhu, all the Fire Beast clan came out, they were very anxious, Xiang Rulong must suppress Ye Fan as soon as possible, otherwise they would have an accident.

The bloodline seal is about to move.

"I knew I had passed the Dashu Nashu to Xiaolong, and if he used Dashu Nashu, Ye Fan would surely be able to easily suppress Ye Fan." The old patriarch regretted that he did not fully trust Xiang Rulong, and planned to wait for Xiang Rulong to seal his blood. , Then taught him the magical secret technique.

"Believe in Xiaolong, he will definitely be undefeated."

"That's natural, Xiaolong's ancient strange fire can completely make Ye Fan have no power to fight back. Although Ye Fan collects the heart of the earth, he can't use it."

Chapter 948: Strong collision

Ye Fan and Xiang Rulong hit a kilometer in the sky.

Here they can act unscrupulously, and the impact on the ancestral land below is very small, almost none.

"kill!"

"kill!"

The two shouted loudly, shaking the sky like thunder.

Ye Fan can be said to be full of radiance, his domineering body revived, and his power is ferocious than before, and the emperor's phantom is even more majestic.

At this moment, Ye Fan seemed to merge with the emperor's phantom, he was the emperor, and the emperor was him.

Ye Fan slammed a fist, and Emperor Xuying also slammed his fist, the huge fist hit Xiang Rulong directly.

Xiang Rulong is naturally extraordinary.

"Change!"

He spit out a word.

I only saw that his blood turned into a giant dragon hundreds of meters long, and he was hidden in the giant dragon.

Shenlong changed.

This is the body refining method used by the Xiang clan.

It is said that this is the ancient super body refining method, which is extremely terrifying, but it is severely incomplete, and it will end when it reaches the level of Xiang Qiankun.

The confrontation between Emperor Zun and Shenlong.

Ye Fan threw a fist.

The emperor phantom kept bombarding the dragon, and the dragon was tossing in the sky, facing the giant fist of the emperor phantom.

This is spectacular.

Below, the people of the Xiang clan looked in a trance, and the fire beasts were all blinded.

Xiang Rulong actually practiced "Dragon Change" to this point. It's amazing. It really is three or five years later that he has the hope of becoming the overlord of martial arts.

At that time, there will be two overlords of the Xiang clan, how magnificent it will be, and who can contend with the ancient Kunlun clan.

Ye Fan's strength is also shocking.

The majestic and majestic emperor's phantom, my god, gave people a huge shock, and his gestures seemed to make the world surrender.

This is the young leader who has the posture of the emperor.

The older generation of strong men will cry.

People are more popular than others.

They have worked so hard for a lifetime, and no one is as good as a young man, so there is no reason to go here.

"what!"

"what!"

Two shocking shouts.

Shenlong and Emperor Zun collided together.

boom!

Both collapsed.

Xiang Rulong and Ye Fan both flew upside down, blood staining the blue sky; but the next moment, the two stabilized their figures and charged again and collided.

Bang bang bang...

It is the cruelest melee.

"One punch opens the world, and there is no one in the world."

Xiang Rulong gritted his teeth and blasted his fist towards Ye Fan's chest and then went away.

"The world is like an emperor, raise your hands to set the world."

Ye Fan's face was stern, and he struck up with a punch.

Puff puff.

The two spit out blood, but they laughed.

"Come on, keep on fighting!"

"Just to my liking."

Ye Fan and Young Master Xiang Rulong used all their mastery and secret skills, and with every blow they played invincible style.

The spectators below were trembling, uncontrollable excitement.

How lucky to see such a battle.

"Ye Fan!"

Xiang Rulong's words are thunderous, and he laughs wildly: "It's cool, so many years, the best game today, you are a good opponent."

Ye Fan was also heartily, "With each other, this is the first time I met someone who could compete with me like this."

"Fighting like this will undoubtedly hurt both sides in the end, presumably you and I don't want to see it." Xiang Rulong said.

"What do you want?"

"Fight once, and one move will determine the outcome."

"Can."

Ye Fan nodded.

This is indeed the case. He and Xiang Rulong are both physically equal, and continue to fight like this. In the end, both of them will die alive.

The two gradually calmed down.

But the atmosphere became more tense.

Those who watched the battle also knew that the next thing was the highlight, and the peak combat power of the two was going to compete, and whoever wins and who loses will be watched once.

"You must win."

The fire beasts were praying in their hearts, and they were very nervous, and their hearts were raised in their throats.

The old patriarch has a sharp eye and is secretly brewing. He has the best solution. Once Xiang Rulong fails, he will immediately take action, cast a big arrest technique, arrest Ye Fan, and abolish it directly.

"Brother Long, it's about the face of my Xiang clan, you can't lose." Xiang Hao squeezed his fist and stared at the sky battlefield closely.

Those in power also held their breath.

This is simply more exciting than the battle of martial arts overlords, and it will be exciting.

Xiang Rulong represents the air luck of the Xiang clan. Once defeated and deprived of air luck, Ye Fan will fly into the sky, and the Xiang clan will suffer a blow.

Qi Luck is illusory, but it exists objectively and is unpredictable.

But if you can defeat a young leader who has the posture of an emperor, it will inevitably deprive him of luck. This is undoubtedly.

There is a destiny in the world.

"coming!"

A fire beast exclaimed.

Ye Fan made a move, and they knew very well that Ye Fan would use that invincible boxing technique.

Yesterday, Ye Fan used the Dao Fist, and they were embarrassed. Today, Ye Fan's strength has soared. What kind of power will Ye Fan use the Dao Fist again?

"The avenue is boundless, and the boxing technique is invincible."

"Dadao Fist."

Ye Fan launched this punch.

Xiang Rulong is horrified.

He felt an irresistible force.

The power of the avenue.

What is Tao?

The avenues are complicated, with kendo, boxing, killing, Buddhism, martial arts...

These are indescribable.

Ye Fan's Dao Fist seems to be the method of invincible boxing; and in the oven of heaven and earth, it is reborn again. The **** shards in his mind are once again brightened, that is to say, the power of Dao Quan has increased a lot. .

"A strong boxing technique."

Xiang Rulong's body was tight, but he was not afraid.

He could almost burst out fire from his eyes.

"Shaking the Dragon Claw."

Xiang Rulong also played his own top-level knack, and a terrifying dragon claw appeared out of thin air, which seemed to be able to catch the sun, moon and stars.

Ye Fan's pupils contracted.

Because he saw that when Xiang Rulong performed this trick, his arm changed, and it really turned into a dragon claw, covered with scales, very weird.

"What power."

Ye Fan felt once again that Xiang Rulong's move contained mysterious power, which was enough to contend with Dadaoquan.

Dao Quan VS Dragon Claw.

The two forces were colliding and squeezing, as if no one was convinced.

finally.

exploded.

Ye Fan flew upside down and they were evenly matched.

"It seems that we have to continue." Xiang Rulong smiled and wiped the blood from the corner of his mouth.

Ye Fan shed blood and saliva, his face serious.

Below, the elder of the fire beast clan was overjoyed, "Ye Fan lost, Ye Fan lost. Dadao Quan is Ye Fan's strongest skill, and his backing. Dadao Quan is blocked by Heaven Shaking Dragon Claw. Next, Xiaolong will display ancient strangeness. Fire, and Ye Fan doesn't have the strength to fight back."

The fire beasts began to cheer.

The members of the Xiang clan were all driven, and they all believed that Xiang Rulong had won, and the victory was established.

"Ye Fan, do you know the ancient fire?"

Xiang Rulong breathed out a ray of flame, and in an instant, the temperature within a kilometer of a radius rose sharply, seeming to have entered a sea of magma fire.

"This is your companion fire?"

"good."

Xiang Rulong seemed to be looking at his child, his eyes softly staring at the beating flame in the center of his hand.

"It is precisely because of the accompanying fire that forges my physical body all the time, so that I can practice smoothly."

"It took me three years to make the fire grow into a flame, and I can successfully peel off a strand of fire to use against the enemy."

"I can remind you that I used this flame to kill an ancient beast emperor in the depths of the Qinling Mountains. The beast emperor used to be the overlord level, but the deadline is approaching, with half of his foot in the tomb. But it still has a combat power comparable to the dominant level."

Xiang Rulong speaks surprisingly.

Those in power were shocked that they had such a glorious record.

Although he is an old beast king who is about to fall, he must have the power of hegemony when he dies to fight back; Xiang Rulong can actually kill him.

"So, you have to be careful."

Before the voice fell, Xiang Rulong shot out the flames.

The flame looked like a little dragon, flickering and appearing, approaching Ye Fan like lightning, carrying the power of destruction.

Ye Fan is dead!

This is the thought in everyone's mind.

Xiang Rulong said, this flame pit killed the ancient beast emperor with hegemonic power. Unless Ye Fan is the martial master, he will not be able to withstand this flame.

Maybe, the ashes that can be burnt in an instant will be wiped out.

Leaders' struggle for hegemony is so cruel.

People of the Xiang clan sighed, Ye Fan is indeed a hero with infinite potential, but unfortunately, due to bad luck, he met Xiang Rulong.

This shows that Xiang Rulong's luck and talents are stronger than Ye Fan's, and the Xiang clan is going to be more prosperous.

The old patriarch retracted his gaze and said confidently: "Everyone, go back, the battle is over."

The fire beasts returned to the broken underground palace one after another.

However, there was no movement in the sky for a long time, a puff of blood obscured the line of sight, and nothing was seen.

Xiang Rulong's hair was horrified.

He looked at Ye Fan blankly and inconceivably, as if he had seen a ghost; because the ray of flame he shot was actually collected by Ye Fan.

this.....

impossible!

This is a different flame that can kill the ancient beast emperor, how could Ye Fan easily collect it?

Ye Fan is so strong, he could have been killed long ago. Could it be that Ye Fan always pretended to be a pig and eat a tiger, teasing him.

Xiang Rulong's heart was shaking and a little unstable, which hit him too much.

Ancient Fire is his biggest trump card.

But now, the biggest hole card was easily collected by Ye Fan. It is conceivable what kind of blow it was, which is equivalent to pressing Xiang Rulong on the ground and rubbing it.

"kill!"

Xiang Rulong's face was cold and murderous.

He stripped a ray of flame again.

You know, there are so many flames. If you can peel off a little, it will be fine, but if it is collected one after another, it will be reduced, which is a huge loss.

But Xiang Rulong couldn't take care of that much anymore.

He didn't believe it.

"Huh!"

When the flame came, Ye Fan's face was calm, he pinched the seal with one hand, and swept towards the flame, and the flame disappeared in the next moment.

puff!

After losing two flames one after another, Xiang Rulong was severely injured. He spouted a bit of blood, and his breath was a little weaker.

"How could this happen, Ye Fan, what exactly did you use?" Xiang Rulong's voice became hoarse.

"It's just supernatural powers."

Ye Fan's tone was flat and seemed to be talking about a trivial matter.

How the flames were collected was very simple. Ye Fan used the great sealing technique to seal the power of the flames, and then sent the flames into the pubic area. Like the fire in the heart of the earth, he was once again suppressed by the blood.

Ye Fan's Dantian is very lively now.

The two flames merged and turned into a flame with a thick thumb; the heart of the earth was a big palm... Originally, the heart of the earth was a big arm, but Ye Fan spent a lot of time that day, so only the palm of the hand was big.

Above a flame and a ball of flame, there is a drop of crystal clear blood.

Before the blood of the tyrant was the size of an egg, don't believe it, a drop of natal blood is the size of an egg for such a huge creature under the big demon tyrant, which is of course different from the content of a drop of human blood.

Now half of it has been consumed, and the blood of the tyrant is only the size of a chestnut.

The three get along very peacefully.

Ye Fan is very comfortable.

If it weren't for the blood, he would not be able to suppress the heart of the earth and the alien flames; although the great seal technique had improved and its power increased, it could only seal the flames for three seconds.

For Ye Fan, three seconds is enough, and he can do a lot of things.

Chapter 949: Change the gameplay!

The Great Seal Technique, the old patriarch of the Fire Beast clan said, is the top supernatural power, the core knack of the Fengtian clan.

Ye Fan decided not to be too high-profile in the future, and to be quiet, lest the knowledgeable old monster **** it.

"Xiang Rulong, are there any flames? Go on, I am very comfortable eating." Ye Fan raised his brows and said with a light smile.

If you can get all the abnormal fire in Xiang Rulong's body, it will definitely benefit infinitely. Now Ye Fan feels that his body is very comfortable.

Although the fire in the heart of the earth and the different flames were suppressed, they were also forging his body at all times, just like Xiang Rulong.

However, Xiang Rulong was already sober and calmed down.

He looked at Ye Fan deeply and said: "Ye Fan, admire and admire him for being able to collect my misfire. I would like to call you the strongest, at least in my opinion for now."

"Thanks."

"It's just that, for the glory of the clan, we have to continue fighting."

"Is victory really so important?"

"It's not important, but my clan has lost a lot. You have gained a lot of benefits. How can you not leave a little bit!"

This makes sense.

But Ye Fan couldn't take out the cultivation method. This was his core cultivation method. Even if the Xiang clan exchanged their cultivation methods, Ye Fan would not agree.

Unique is the best.

In this world, he only needs one overlord body, not the second, third...

"Come on then."

Ye Fan helplessly, the battle started again.

The blood exploded.

Reveal everything.

The eyeballs of the old fire beast patriarch almost popped out, what is the situation, why is Ye Fan safe and sound, nothing?

It's impossible, Xiang Rulong's men are merciful!

"Xiaolong, what are you doing, kill Ye Fan, hurry." The old patriarch shouted vigorously, but Xiang Rulong was very embarrassed.

Beheaded?

Cut a fart.

The different fires have been cracked.

At best, he was invincible. It was basically impossible to suppress Ye Fan.

The old patriarch looked aggrieved, he couldn't bear it, Ye Fan had to die, not only for the heart of the earth, but also to let out a bad breath.

So many resources were carefully treasured by him, and some of the rare ores have been passed down for a long time and are gone.

How can I swallow this breath?

Since Xiang Rulong doesn't kill, then I will kill!

The big eyes of the old patriarch flashed with intense murderous intent. He had prepared a lore and only waited for a chance.

"Boom!"

At this time, Ye Fan and Xiang Rulong had a big collision, and both flew upside down.

It's now!

The old patriarch made a move, and the great curse technique combined with the talent of the fire beast clan, the fire **** arrow, instantly descended in front of Ye Fan.

The big restraint technique restrained Ye Fan, making him unable to resist, and the Vulcan Arrow directly hit Ye Fan's eyebrows.

not good!

Ye Fan had been prepared for a long time, but he didn't expect this old animal to give birth to his blood.

It's nothing more than a big curse, but this Vulcan arrow, with the power of his life's essence and blood, is so fierce.

Life and death are extremely life and death, Ye Fan is ready to transfer the different flames out, to burn the Vulcan arrow, and to break the power restraint of the big custodial technique.

But suddenly.

The Vulcan Arrow was blasted.

It is Xiang Rulong.

He took action to solve the crisis for Ye Fan; Ye Fan didn't hesitate, and immediately shook off the shackles of Dao Nao.

The old patriarch's grand curse technique was far inferior to that performed by the whole clan yesterday, and Ye Fan could completely break free.

"Xiaolong, what are you doing!"

The old patriarch roared angrily. He could definitely kill Ye Fan just now, but he was destroyed by Xiang Rulong.

Ye Fan was also surprised.

The Xiang clan people are very puzzled.

Xiang Rulong bowed his head and shouted: "Patriarch, I respect you, but please respect me. This is a contest between me and Ye Fan. Xiang Rulong does not need anyone's help. Whether we win or lose, everyone has his own life. I'm not someone who can't afford to lose."

These words are sonorous and powerful, and they are low and high in the heaven and earth for a long time.

The old patriarch's eyes were gloomy. Although he was angry, he didn't know what to say, and he was speechless.

The rulers of the Xiang clan nodded secretly, Xiang Rulong's courage and state of mind are very rare.

Ye Fan looked at Xiang Rulong more highly.

This is a respectable opponent.

"Everyone can't figure it out. This is Ye Fan's battle. If you dare to blend in, don't blame me for turning your face."

After Xiang Rulong finished speaking, he looked at Ye Fan and said, "Sorry, I made you laugh, let's continue now."

"I don't think it is necessary."

Ye Fan shook his head, and only Xiang Rulong could hear it.

"Sound transmission? So will I."

Ye Fan didn't feel surprised. Voice transmission is not a magical technique, it's very common.

It hasn't been popularized yet, but it will definitely become more and more popular in the future. It's just like the empire of the sky. In the future, there will not be only the giants of the third stage of the grand master who can fight the sky.

Xiang Rulong said: "What do you mean?"

"If you continue to fight, there will be no results. Neither of us can suppress anyone. What I can tell you is that you still have storage for the abnormal fire, and it is not endless for me to swallow the abnormal fire."

The purpose of Ye Fan's words was to arouse Xiang Rulong's self-esteem.

But it's the truth.

The deeper the enlightenment of the Great Seal Art is, the more it consumes to use it. Like the Daoquan, it cannot be used continuously.

Therefore, Xiang Rulong is really desperate to use the different fire, he will really be very troublesome, and even life and death crisis.

"Are you pitying me?"

"No, what I said is true." Ye Fan's face was solemn, and the sound transmission: "So far, you are my most respected opponent. Instead of fighting here and hurting both sides, let's change to the game."

"What's the gameplay?"

"You should feel it, a lot of powerful auras are coming, some even lurking outside the ancestral land."

Xiang Rulong nodded and transmitted the sound: "I have already felt that those are the ancient beast kings sleeping around our ancestral land. They should have smelled our blood and attracted them, and wanted to swallow us."

Ye Fan smiled and said through the sound transmission: "So, isn't there a fighting game? These ancient beast kings want to swallow us, it is better for us to fight against them. The Xiang clan. I can promise that the ancient beast king killed, I don't want one of them, and all will be given to the Xiang clan."

Xiang Rulong's face changed.

Ye Fan said, "One day is the time limit, and it depends on who kills more. What do you think of this method?"

Xiang Rulong took a deep breath.

He was not a fool, and he naturally understood that the method proposed by Ye Fan was very good and would benefit the Xiang clan.

"good!"

"Hahaha, I'll go first, and meet here a day later. By the way, different levels of beast kings have different values. In short, let your father Xiang Qiankun clan lord judge you."

The people of the Xiang clan below and the fire beasts were all dumbfounded.

They don't know how to use voice transmission. In their opinion, Ye Fan and Xiang Rulong are facing each other and did nothing. Then Ye Fan laughed and left Yukong.

"stop!"

Xiang Hao was the first to shout.

Immediately afterwards, those in power were also ready to move, but could not let Ye Fan go, otherwise Xiang Qiankun could not explain it when he came back.

"Don't move."

Xiang Rulong stopped everything and said, "My match with Ye Fan is not over yet. We will come back one day later. Besides, my father is not in the clan, please inform him to come back!"

After that, Xiang Rulong also left.

Where are these two going to fight?

Everyone is confused.

But the fire beasts panicked. When will Xiang Rulong come back after this trip, what about their bloodline seal?

Say it's a day, who knows.

What if you die outside?

"Patriarch."

The fire beasts were in panic.

Murderous intent in the eyes of the old patriarch, without a word, returned to the underground palace with the fire beasts.

"The **** little beast, ungrateful, doesn't care about us. Fortunately, he didn't teach him the great cursive art and the supernatural powers of heaven and earth."

"Patriarch, what do we do now? I feel the blood seal in my body just about to move. It seems that something is going to happen at any time, and I die suddenly."

"Yes, patriarch, you must think of a way."

"Don't panic!"

The old patriarch said solemnly: "According to past experience, it is safe within three days. Let's wait for a day or two. If Xiang Rulong doesn't come back, then don't blame us for being cruel."

The fire beasts looked at each other.

Good guy, the old patriarch is going to be angry.

...

Ye Fan left the ancestral land of the Xiang clan and immediately performed the Prospect Qi technique.

The effect of casting this secret technique now is much better than before, because Ye Fan's left eye opened up.

In Ye Fan's left eye, there were a series of dormant auras, all of which were very powerful.

Survival of the fittest.

Being able to linger and panting is also a kind of strength. The ancient Beast Emperor who persisted for so long must have been in the world.

Even if it is not the overlord level, it can be called a half-step overlord.

"The hunting game, start now."

Ye Fan can judge the strength from the light and darkness of his breath by looking at the aura. He stared at a person with a dim aura, which showed that this ancient beast king was about to fall.

Unexpectedly, this ancient beast king took the lead.

"Boy, stay."

A giant claw grabbed it, carrying a powerful force, making Ye Fan's whole body heavy, and his actions stopped.

This blow is comparable to Dao Fist.

Worthy of being an ancient beast king.

This guy should know that he is about to fall, so he couldn't help but had to make a desperate bet.

Unfortunately, he made a wrong bet.

"Dadao Fist!"

Ye Fan slammed the giant claw away with a fist, and then used the world to move around and appeared in front of this ancient beast king.

The Beast King was surprised.

Before he could speak, Ye Fan used the Great Seal Technique.

"what!"

The ancient beast emperor screamed, his vitality was originally lacking, and now the only remaining point was sealed, and his body immediately became lifeless.

"puff!"

Ye Fan smashed the head of the ancient Beast Emperor with a fist, and the stench filled his body.

nausea!

Ye Fan couldn't carry such a huge corpse, but he had a communicator. He took a video to prove that he had killed one.

Immediately afterwards, it was the second one.

On the other side, Xiang Rulong is also killing and killing, with a good record.

In the vast mountain range, the earth-shaking roar sounded from time to time, disturbing countless beasts.

For these fierce beasts, it was really terrifying. The ancient beast king who stood high in their eyes was hunted and killed by two young men one after another. Is that fair? ,

Is it plausible! !

They did not dare to stay in this mountain range, and turned into a torrent, leaving the mountain range, forming a tide of beasts, causing big waves to appear outside this mountain range.

The ancestral land of the Xiang clan changed, and the ancient clans and forces were very curious, but no one dared to enter the large mountain range hastily.

Even the Shangguan family of the top ancient tribe did not dispatch.

Now the tide of beasts is surging out, which is even more incredible, but soon someone figured out the reason, and some fierce beasts told the truth.

Chapter 950: Hunting the ancient beasts

"It turns out that Xiang Rulong is back, and he is competing with Ye Fan to hunt down ancient beasts."

"Good fellow, are Ye Fan and Xiang Rulong already at this level?"

"That's it for Xiang Rulong, but Ye Fan fought Badao and the Four Ghosts of Xiangxi in the Great City yesterday. The strength he showed should not be enough to hunt ancient beasts."

"..."

On the periphery of this vast mountain range, monks from all walks of life gathered, among them many people from the ancient tribe.

The tide of beasts continues.

The fierce beasts were panicked, which showed that Ye Fan and Xiang Rulong were really hunting the ancient beasts, and not one or two, they were killing wildly.

This is indeed the case.

Ye Fan can find the location where the ancient beast is hiding very accurately by virtue of the aura of sight, thus launching a surprise attack.

These ancient beast kings used to be very glorious, but now they have declined over the years and are far worse than they were in the past.

Moreover, they are very spared their lives.

There was not much life force left, and he didn't dare to work hard at all. A little bit cruel, the life force would be consumed by a large margin, and the consequences would be disastrous.

Under this kind of psychology, the ancient beasts are afraid of their heads and tails.

Ye Fan became more and more experienced.

"I'm not willing!"

"A hundred years ago, I was half-step overlord, soaring in the vast sky, strangling the behemoths of the deep sea, how brilliant, there is no enemy."

"How can I be beheaded by a kid!"

This ancient beast is going crazy, sublimating in the extreme realm, wanting to restore the charm of the year.

The so-called extreme sublimation is the last means of peace and desperation.

However.

He was hit by the Great Seal Technique, and the short-term seal power made him lack the ability to practice extreme sublimation.

"kill!"

Ye Fan descended and slammed out.

"Your time is long gone, why bother to stay on your side and make yourself suffer; if there is reincarnation in the world, I will send you to reincarnation early, and it will be good for you and me."

"Do not!"

The ancient beast roared, but to no avail.

The punch hit his head, the huge head split open, and then the inside began to explode.

Boom.

The huge body fell down, and there was no breath of life.

"Ingest!"

Ye Fan took out the remaining life essence of this ancient beast, and he could feel the majestic energy, which was really a good thing.

However, he couldn't swallow it directly.

The origin of this life is too old, there are many impurities, and it is also contaminated with strong death.

Ye Fan turned his eyes and sent this group of life origin to his dantian.

"Wow!"

Suddenly, the earth's core fire and different flames in the dantian burned the dead energy of the life source, and the impurities in it were gradually burned clean and turned into pure life source energy.

Ye Fan was delighted, running the domineering tactics.

This pure energy rushed into the inscription node of the right eye.

moment.

That inscription node shined brightly and successfully lit up, which was really a surprise.

There are 12 inscription nodes in both eyes, 6 in the left eye have been filled, and 1 in the right eye. Now there are 5 inscription nodes left.

If these 5 are filled up, then the ability of the eyes will be greatly improved.

"This ancient beast used to be a half-step overlord. It has overlord-level combat power, and certainly not many."

"If I hadn't attacked suddenly and used the Great Seal Technique, I'm afraid it might not be possible."

"He sublimated to the extreme, gained a short-term overlord-level combat power and worked hard with me, and I would even have a great crisis."

Ye Fan did not lose sight of himself, but was carrying out self-analysis, suppressing his restless heart and making his brain clear and calm.

The Great Seal Technique is the same as the Daoquan, which consumes too much; but the difference is that the Daoquan is more overbearing, and many times the exhibition brings a huge load to the body, and even severely damages the foundation of the body.

The Great Seal technique is relatively soft, and too much use will not cause the body to collapse, but it will have a strong sense of weakness.

Being in a period of weakness is also very dangerous.

"The body is already feeling weak. It is a warning. If you continue to use the great seal technique, it will enter a period of weakness."

"It's not a great seal technique, it's much harder to kill ancient beasts. I'm most afraid of the sublimation of ancient beasts and my desperate efforts."

"You must think of a way!"

Ye Fan was secretly surreptitious while resting and recovering.

Now there are many ancient beasts in this large mountain range. Killing enough ancient beasts and ingesting the essence of life to open up the eyes is an unforgettable opportunity.

do not miss it.

One hour later, Ye Fan exhaled a stale breath, and his sense of weakness was reduced a bit.

"Um?"

Ye Fan moved his ears, and heard some big movements, he went away looking for a sound.

Not long after, I saw Xiang Rulong.

At this moment, he was fighting against an ancient beast. The ancient beast should have been attacked, and a blood hole appeared in his chest.

With this blow, Xiang Rulong didn't kill him, but instead angered the ancient beast.

"So strong!"

Ye Fan secretly smacked his tongue.

The ancient beast was seriously injured and advanced to its extreme state in an old state.

"Tsk tusk, fortunately, Xiang Rulong attacked him seriously in advance, otherwise, under the sublimation of the extreme realm, Xiang Rulong would be miserable if he did not die."

"In Ancestral Land, Xiang Rulong helped me once; this time, I will give it back to him!"

Ye Fan's grievances are clear.

He didn't have any malice towards Xiang Rulong, on the contrary he admired him; and even admired the entire Xiang clan.

Xiang Qiankun caught him, but didn't persecute him. On the contrary, he gave him enough benefits.

Only those fire beasts disgusted Ye Fan.

"boom!"

The ancient beast smashed Xiang Rulong to the ground fiercely. Xiang Rulong was in pain, his eyes turned black, and he couldn't stand it.

"Little devil, die, become my belly Chinese food."

"Your blood is delicious and delicious, enough to make me live longer and live for another ten years."

The ancient beast grabbed Xiang Rulong.

Suddenly.

He had a cold hair standing upright and felt a great crisis.

"Who!"

The ancient beast shouted angrily.

The response was not unpleasant.

However, the Great Seal Technique was weird and unpredictable, and it had already hit him. In an instant, his combat power was sealed by 30%.

"not good!"

The ancient beast screamed.

There was a flash in front of him, it was Ye Fan, his face was slightly pale, he became weak because of the forcible use of the Great Seal Technique.

Now, he still has to use Dao Fist.

"kill!"

Ye Fan gritted his teeth and cracked the tiger's mouth, but he still forced the punch.

"Boy, you are looking for death!"

This ancient beast was extremely powerful, and it broke the seal abruptly, and was unable to deal with the Dao Fist in a hurry. It was beaten into the air, and its body was once again punched with a blood hole.

Ahhhhh!

The ancient beast screamed.

Ye Fan didn't have the strength to pursue it anymore. Fortunately, Xiang Rulong rose from the ground. His scaly hand slapped a dragon claw and grabbed the head of the ancient beast.

"No, little friend has something to say..."

"Go talk to Lord Yan!"

"Boom!"

The dragon claw blasted the head of the ancient beast.

The battle is over.

Xiang Rulong and Ye Fan fell, both of them were sweating and gasping for breath.

Both have injuries and are very weak.

Then the two men looked up to the sky and laughed.

"Let's clean up both." Ye Fan said.

"Yes." Xiang Rulong nodded, looked at the corpse of the ancient beast, and said: "This old guy has a lot of life origin, and we can use it."

Compared to Ye Fan, Xiang Rulong was very relaxed, shooting out a strange flame to burn clean the impurity and dead energy of life origin, and then divided half of it and threw it to Ye Fan.

The two swallowed immediately.

Twenty minutes later, the two of them were in better condition.

Ye Fan said: "If this continues, we will not be able to kill many ancient beasts. On the contrary, we may even capsize in the gutter."

Xiang Rulong said: "Yes, we can't underestimate these ancient beasts."

"Do you want to cooperate?"

Ye Fan raised the topic, Xiang Rulong did not refuse, but asked: "Do you have any good ideas?"
