Chapter 971: Sky-swallowing beast

Overlord.

Ye Fan remembered that, Zhu Ying told him stories about the ancient and pre-Qin period, and mentioned some of the strongest ethnic groups.

Among them is the overlord.

As the name suggests, this ethnic group is refining, extremely domineering, and extremely mighty. A pair of iron fists shakes the universe and establishes the position of the strongest ethnic group.

However, Ye Fan did not expect that the Tyrant Clan would practice Tyrant Body Jue.

What the big demon said, it should be true.

The Ba Ti Jue is the Ba Clan's body refining method, Ye Fan finally understood, knowing the root cause, it can be regarded as the Ba Clan's inheritance.

"You are not of the Tyrant's blood."

The big demon said to himself, a little disappointed.

"Yes, the Tyrant clan gradually withered in the ancient times, too strong to be jealous of the heavens. Nowadays, how can blood be passed down. It is gratifying that the Tyrant Body Art has not been lost."

"Senior, I am indeed not of the Tyrant bloodline. I am a pure human race. I accidentally obtained the Tyrant Body Jue cultivation method and embarked on this path." Ye Fan said.

"Human race is a general term, and many races are actually humans. For example, the overlord are also humans, but they have the name of their own race."

"For example, the Nether tribe, the Shura tribe, etc., are not very different from humans in form; only some special tribes are strange and strange."

"In the ancient times, some great monsters cultivated to a certain level, and they all aimed to transform into a human form. This is enough to show that the human form is the most perfect form."

"God is fair. Some special races can get talented supernatural powers at birth, but Humans don't have it, but the human form is perfect."

Ye Fanmao said, "Senior, I have been taught."

"Senior, I don't know why you caught him here. What needs me to do."

"I felt the aura of the overlord body and thought it was the blood of the overlord, so I wanted to see it. In ancient times, my clan was the guardian beast of the overlord."

"Clan guardian beast!" Ye Fan shook, and it was enough to be exciting and exciting.

Moreover, Ye Fan also understood why resuscitating the domineering body could block the mental impact of the cry.

How could the guardian beast of the overlord clan hurt the blood of the overlord clan; he cultivated the overlord body art, and he was considered half of the blood of the overlord clan.

"Senior, now this world is completely different from the ancients, and it's withered. The secrets of the ancients are not clear. You inherit the memory of the bloodline, and you must know something about the ancients. I don't know if you can talk to the juniors."

The big demon is very happy.

He has been suppressed here for many years. It is too lonely. He is too happy to have someone chat with him.

"Senior, as the guardian of the overlord clan, one of your clan must be very powerful. I don't know how it compares to such big monsters as the Golden Winged Roc, Kunpeng, and Colorful Sky Swallowing Python?"

"I am different from them."

The big demon said leisurely: "These are the top big monsters you are talking about. In ancient times, they all existed in the sky and the earth, but very few."

"There are many types of Peng clan. Golden-winged Roc, Leihuo Tianpeng and Haotian Qingpeng are the strongest. However, the stronger the bloodline, the more difficult it is to inherit. Therefore, the number of these three types of Peng clan is extremely rare, but they are not There is only one."

"I am different, I am a congenital spirit seed, born by nature."

"Nurtured by nature?"

"Yes, there is no ethnic group bred from heaven and earth. Innate spirit species are limited. Because they all have unique tails, we are also called tail beasts."

"My name is Sky-Swallowing Beast."

Ye Fan screamed, this name, oh my god.

"Senior, since they are born by nature, how can there be blood inheritance?"

"To be precise, it should be inherited from the origin." The big demon explained: "The previous Sky-Swallowing Beast felt that the end was approaching, and it would strip off a part of its origin and seal the

memory. The next Sky-Swallowing Beast was conceived and between the origins. There will be induction and inheritance memory. In this way, the cultivation will be faster."

"I see."

"Senior, how many years have you lived again, how were you suppressed?"

This is the most important question.

The Sky-Swallowing Beast was so powerful that it was suppressed here and could not leave.

"Ugh."

The sky-swallowing beast sighed.

"I don't know, I was here when I was conceived, and I got the memory of the original inheritance, and started a boring practice; this huge secret realm space was devoured by me and became desolate."

"I haven't eaten for ten years. I consume my stored energy. If I continue, I'm afraid I will fall."

"Is there any way to break through the barrier?" Ye Fan asked.

"I can force a breakthrough, but the consequence of doing so is what you see, my tentacles are cut off. If I have resources, I can restore my tentacles, but now I can't. I only have three tentacles left."

The sky-swallowing beast's tone was mixed with deep exhaustion, and sighed: "I'm afraid I am dying here."

"Senior, don't say that."

Ye Fan was a little unbearable. Just think about it. He was suppressed here when he was born. He didn't know how many years he had never seen the world outside. How sad it was.

"Senior, I practice Tyrant Body Jue, so I am considered half of the Tyrant Clan. When I am strong enough, I will surely rescue Senior."

"I understand your heart. It's a pity, I'm afraid I won't be able to wait for that time."

Sky-swallowing beast is very pessimistic.

Only he knows his situation, it is almost exhausted.

"Since I have encountered it, I have a destiny in the dark. In order to prevent the original inheritance of the Sky-Swallowing Beast from being severed, I will strip away a trace of the original source, and store some memories in it and give it to you. If I fall in the future, a new Sky-Swallowing Tail The beast is bred, and I hope you will hand over the original memory to him."

"The most reward, I pass on one of your Three Thousand Great Dao magical powers, the Great Swallowing technique. This is the top magical power."

"Great Devouring Technique!" Ye Fan was pleasantly surprised. He didn't expect to have this kind of luck. Before being pulled in, he thought he would definitely die.

After a while, the Sky-Swallowing Beast stripped out a mass of origin, merged into Ye Fan's body, and stored it in the Dantian.

Suddenly, the tyrant's blood trembled.

In the pubic area, originally, he used his essence and blood to suppress the flames of the heart of the earth and the different flames, but now he has become a younger brother with the essence and blood.

No matter how strong the tyrant is, it is not the opponent of the Innate Spirit Seed Tail Beast, the gap is a bit big.

The origin of the sky-swallowing beast is entrenched in the dantian, underneath him, the three legs of blood, the heart of the earth, and the flames of the different flames stand.

This picture is very harmonious.

At the same time, Ye Fan also felt that the origin of the Sky-Swallowing Beast entering the body would also affect his body subtly.

This effect is good.

Think about it, the essence of the Sky-Swallowing Beast is also extremely precious, and the slightest breath that escapes can improve Ye Fan's physical body.

At this time, the source burst out with a ray of light, which was a fragment of memory, entering Ye Fan's mind.

"Top-level magical powers, the cultivation method of the Great Devouring Technique." Ye Fan trembled with excitement, "Thank you, senior!"

"Don't be happy too early. The Great Devouring Technique is very difficult to practice. The representatives of the Devouring Avenue are Kungeng and the Sky-Swallowing Beast. Kungeng can also use the Great Devouring technique; but it is different."

"Kungeng devours talent, simply swallowing it, turning it into nothingness; while my big swallowing technique is swallowing, which can refine any resources and feed back the body."

"Comparing the two, there are strong and weak."

"Kunpeng's devouring talent is more lethal, swallowing it into nothingness; in comparison, my big devouring technique is less lethal."

Ye Fan thought of something.

One's own physical supernatural powers are gone after being swallowed.

"Senior, look at me."

Ye Fan spread out his palm, and suddenly, a whirlpool rose up, and a swallowing force spread.

The Sky-Swallowing Beast said in shock: "This is...a bit similar to Kunpeng's Devouring talent, turned into nothingness."

"How did you cultivate?"

"I don't know, my genetic change gave birth to this physical supernatural power."

"Gene?"

Swallowing the sky tail beast said: "The means of the technological tribe?"

"Technology group?"

"Don't you know that in the ancient times, there were also ethnic groups who studied and studied science and technology. They had glorious scientific and technological civilizations. They focused on transforming the body through external means, creating countless transformations of people, which was very powerful. However, after the transformation of people rebelled, there was a big rebellion. Disaster. The technological community declines and finally perishes."

"Genetic modification is indeed a way, but there are too many unknowns. I don't know much about the technological community in my memory, and I can't tell you too much."

Ye Fan was amazed. In ancient times, he was famous for its brilliant science and technology, which is simply unthinkable.

But thinking about it now, many unsolved mysteries in the world, such as Maya civilization, such as Atlantis, also show that there was an advanced technological civilization.

Thinking about it this way, it coincides with what the Sky-Swallowing Beast said, which is really wonderful and reverie.

Chapter 972: Phagocytosis

The next Sky-Swallowing Beast had a lot of conversations with Ye Fan. Ye Fan told the outside world. After learning that science and technology are now known to rule the world, the Sky-Swallowing Beast was particularly shocked.

In his opinion, it is unbelievable that the technological group, which was not even considered as the strongest clan in the ancient times, is now ruling the world.

The sky-swallowing beast has been suppressed here for too long.

He doesn't understand the outside world at all.

When did he think about paying some price, such as being cut off some tentacles, in order to catch some people to understand the situation, but it was not worth it.

This time, I thought that Ye Fan was of the bloodline of the Tyrant Clan, so I couldn't help but tentacles, and the price was very huge.

The Sky-Swallowing Beast had six tentacles severed.

Ye Fan told the situation outside, and the Sky-Swallowing Beast was not stingy, telling the secrets of ancient times in his memory.

Zhu Ying also studied the secrets of ancient times, but compared with the swallowing sky-tailed beast, it was almost one in the sky and one underground.

Ye Fan listened with gusto.

The Sky-Swallowing Beast also seemed to have something to say, and talked to Ye Fanting about the Xeon Clan, the great powers of the ancient times, the magical powers of the Three Thousand Great Dao, and the typical wars that broke out in the ancient times.

It can be said to give Ye Fantai an initiation.

This is also a practice.

I don't know how long it took, Ye Fan's head was in pain. This should be because he had received too much knowledge and information, and his brain was waiting. People couldn't bear it.

Under the teaching of the Sky-Swallowing Beast, he began to practice, calmly, and practiced the theory of Big Swallowing Technique.

"look!"

The sky-swallowing beast himself performed the big swallowing technique.

Suddenly, this space seemed to collapse and be swallowed; that kind of scene was really terrifying.

If you have to describe it, it should be a black hole in the starry sky, devouring everything.

Ye Fan found that in front of the Great Devouring Technique, he was very small.

This picture, Ye Fan deeply imprinted in his mind, can help him understand the Great Devouring Technique.

Ye Fan entered a state of enlightenment.

He wasn't in a hurry, because there was such a powerful existence teaching as the Sky-Swallowing Beast, it was a great opportunity, so why did he leave in a hurry.

"The flesh swallows the method and turns into nothingness. I don't know if the two can be merged in the Great Devouring Technique."

Ye Fan pondered secretly, but he didn't know that he was born into a physical body to devour supernatural powers, which was very helpful to the cultivation of the Great Devouring Technique.

The Sky-Swallowing Beast could feel Ye Fan's progress, and was very surprised, "It's really a very strong understanding, it seems that there is a special secret technique in operation, what is it."

The Sky-Swallowing Beast wanted to see clearly, but couldn't see it through, which made him feel incredible.

This is naturally the effect of the mysterious technique.

Ye Fan entered a deep level of enlightenment, forgetting time, immersed in it, and couldn't extricate himself.

He tried to fuse and cultivated a complete swallowing technique, which could not only swallow into nothingness, but also swallow and transform energy, and start as fast as he wants.

This phenomenon was discovered by the Sky-Swallowing Beast and exclaimed, "This kid is so courageous!"

"It's a pity that the Great Devouring Technique, one of the top ten methods of the Three Thousand Great Dao magical powers, can't be changed by a small martial arts monk; unless he can cultivate to a very high level, Ye Fan said that in the current world environment, he is afraid It is impossible to cultivate to that level at all."

"It's sad, is this world already withered like this? It's incomprehensible, it's only two thousand years. There are faults in history and it's wiped out by the powerful, it should be so!"

Sky-swallowing beast muttered to itself.

Ye Fan also found that the fusion did not work, or that he was too weak to achieve it; he gave up temporarily and concentrated on practicing the Great Devouring Technique.

...

On the weak river, infernal affairs.

Three days have passed.

Nalanruo and his party became more anxious and worried. They didn't know whether Ye Fan was alive or dead, but they didn't leave, and they were still waiting for Ye Fan.

You Shisan is also lurking.

They are not in a hurry, they can't eat hot tofu in a hurry, hunters need patience.

There are still competing in weak water.

However, none of them were able to land ashore. After all, You Thirteen was tricked in secret, and no one was spared.

this day.

The Dark City ushered in three young men, two men and one woman. They were surrounded by mist or brilliance. They were different, their breath was like a deep prison, and they were very powerful.

They came to Infernal Affairs.

Go deep into it.

Along the way, they strolled leisurely in the courtyard, and the wind couldn't help them at all; in a short while, they arrived at the storm barrier.

"break."

The woman in the middle opened her mouth, pointed her finger a little, and burst out a finger light, disintegrating the storm barrier and directly collapsed, unable to condense for a long time.

hiss!

The grand master and the beast emperor present took a breath.

So strong.

Who is this person, so fierce.

No one can see the shape of the three of them, only feel that there is a strong majesty of the superior, and can't help being in awe.

"Quickly, follow up and have a look."

Seeing the three of them go deep into Infernal Affairs, the Grand Master Beast Emperor hurriedly followed.

After a short while, I saw the weak water river.

Three people stood on the bank of the river.

"There is an ambush on the other side." The man on the left spoke, his voice slightly hoarse and very harsh.

"I sensed the aura that disgusted me. Could it be the Nether Clan, haha, interesting." The man on the right had a sharp voice, like a sword, and sneered.

They communicate by sound transmission, don't worry about not hearing it.

The woman in the middle said through a voice transmission: "It seems that the so-called birth of the giant treasure is a trap arranged by the Nether Race. I don't know what the purpose is."

The husky man asked: "The Nether Clan was born by a named Nether Thirteen, leading a group of Nether warriors. It is not a concern. The three of us joined forces to suppress it."

The sharply sounding man nodded, "Cross the Weak River, and meet You Shisan for a while, I don't know how much the Nether Clan creatures still have strength after so many years."

The woman in the middle said: "Don't be reckless, You Shisan sets up traps, it's naturally extraordinary. Let's wait."

"What can you wait for this."

"Be careful to sail the ship for ten thousand years. The Nether clan is noble as the strongest clan, and it is more powerful than ours. The Nether thirteen will not be easy."

The two men looked at each other and didn't say much.

The three disappeared on the bank of weak water, not knowing where they were hiding.

As the storm barrier collapsed, more and more monks and fierce beasts rushed here and saw the raging weak river.

Across 1,800 meters, shrouded in mist, it was invisible and terrifying.

Some were bold, jumped off the weak water river, and began to practice.

It is indeed a good way to use the impact of weak water to polish the roots.

Secret realm under the weak water river.

Ye Fan hasn't awakened yet, and three more days have passed. Finally, Ye Fan pinched his hands and shouted: "Great Swallowing Technique!"

Woo woo woo.

The gust of wind suddenly rose, the void seemed to be torn apart, and a swallowing force spread.

It lasted for three seconds, then disappeared and returned to peace.

"very nice."

The Sky-Swallowing Beast exclaimed: "You can get started in such a short time, which is enough to show that your talent is amazing, and you deserve to be able to successfully cultivate the Overlord Body Art. I am very optimistic about your future and work hard."

Ye Fan was in full bloom.

Mastered another magical power, still a top-level magical power.

The Big Seal Technique, the Big Swallow Technique, the Dao Fist, and the Killing Heart Curse, these four methods are Ye Fan's biggest killing methods at present.

Dadaoquan, Ye Fan feels that the potential is endless, and he is not lost to the top supernatural powers; and the Killing Heart Curse is not to mention, this is the secret technique created by the Human Race Great to restrain the aliens. How can the Great Emperor's secret technique be weaker than the top supernatural powers To be powerful, but Ye Fan can't exert his power now.

"Show the overlord body, let me see. As the guardian beast of the overlord clan, I am very familiar with the overlord body, maybe I can give some pointers."

"It's good to dare to love."

Ye Fan immediately recovered his domineering body.

The power is vigorous, and the flesh is squirming.

boom!

The emperor phantom rose up.

Rushing...

The inscriptions all over the body are blooming and dazzling.

"scold!"

The eyes were bound, and the purple light flickered.

At this moment, Ye Fan recovered his physical body to the extreme.

Full blow.

Ye Fan's punch as the pinnacle.

Show it at this moment, bombarding the invisible barrier.

"boom!"

This fist struck the barrier sturdily, but it shook Ye Fan away, leaving the barrier motionless.

Ye Fan was shocked all over.

He shook his arm and gritted his teeth and said: "This barrier is too strong."

The Sky-Swallowing Beast smiled and said: "If you could break it, I would have gone out long ago, and I will wait until now."

"Speaking of which, at your level, it is very good and very good to be able to fight such a killing. But..."

"But what, seniors said it's okay, what are the shortcomings, please indicate clearly."

"It's not inadequate...Ah!" The Sky-Swallowing Beast sighed, "The environment is restricted, it has nothing to do with you. In today's cultivation environment, you are the leader of the younger generation; however, in the ancient times, it is not a blow to you, you are just ordinary Goodness, at

best, it is called a genius. The evildoers may not be able to touch it, let alone the glory of the leader Tianjiao, let alone the leader, there is the glory of the young supreme!"

Chapter 973: Extreme human body

"Ye Fan, although your physical body is strong, there is still a lot of room for development. Don't think that you have already developed your physical body to the extreme by cultivating the Overlord at this stage. In fact, it is far from enough."

"Senior, what do I need to do?"

"What is a tyrant? The so-called one force breaks ten thousand laws. The core of the tyrant clan's cultivation is strength, the ultimate strength, two fists break the universe and the stars."

As the Sky-Swallowing Beast spoke, Ye Fan's heart spontaneously gave birth to a magnificent scene. In his mind, the branded fragments of Dadaoquan flickered, flickering continuously.

boom!

In front of Ye Fan's eyes, a sun, moon, mountains and river appeared.

Punched through the sky and reached the starry sky.

One grab crushed the stars and gave birth to a black hole.

The world was wiped out with a palm, and nothingness was in it.

There seemed to be shadows in the starry sky, enemies, coming to kill.

The enemy is so terrifying, as huge as a star, and every gesture can set off a starry sky storm.

However, the stalwart man with his back to the sentient beings shot, slowly pushing his fist, yes, it was a Dao Fist.

Fist Mengtong forever, kill the enemy in the blink of an eye.

The terrifying extraterritorial enemy was pierced and exploded in a blast, stunning and stunning, setting the stage.

"Wow!"

Ye Fan recovered.

He immediately entered the state of enlightenment, his understanding of Daoquan became crazily deep, and an inexplicable meaning flowed out.

The Sky-Swallowing Beast said in shock: "Good boy, this talent is so amazing, he has realized his sense of fist."

"Daoquan is the core of the overlord's unique knowledge. Only with the intent of the fist can it exert some great power."

"If Ye Fan comprehend the fist intent deeply, the power of Dao Quan will skyrocket. I underestimated this guy, even if it is in the ancient times, it should be called an enchanting...No, no, now in this world environment, it's very bad. He has made such achievements at his age. If he is placed in the bright cultivation environment of the ancients, it may be unpredictable. Something that can become a young leader is at least at the highest level of Tianjiao."

A few more days passed.

Ye Fan's **** spirit around his body became stronger and stronger, and finally set his shape, condensed but not scattered.

"Dadao Fist!"

Ye Fan shot, coordinated with his fist, and bombarded it out.

boom!

The distant mountains were blown up.

Ye Fan nodded secretly, very satisfied. Let's put it this way, the power of Ye Fan's full blow of the Dadao Fist just now is the same as the power of Ye Fan's casual blow with the fist.

Simply put, Quan Yi increased the power of Dao Quan by half, and now Ye Fan is very sure that even at the half-step overlord level, as long as there is no life-saving card, he can kill with one punch.

Even if you encounter an ordinary martial arts overlord and dare not say suppression, at least you can fight, and you won't be as embarrassed and miserable as fighting against Shangguanhong.

"Thank you senior for your advice."

"It has nothing to do with me, it is your own achievement, you are very good, I am very optimistic about you."

Expectations flashed in the huge eyes of the Sky-Swallowing Beast.

"Before, I didn't think you could save me, but now I have a glimmer of hope."

"Senior don't worry, you and I are destined. I will definitely work hard to improve my strength as soon as possible to break the barrier and let you regain a new life."

"Good boy!"

The sky-swallowing beast laughed.

Then, he got serious and said solemnly: "Actually, I can strip away a trace of your roots again and force you to improve some strength, but this is facilitating you. It seems to be powerful in the short term, but it has planted the roots, and there will be changes in your cultivation in the future."

Ye Fan said, "Senior, cultivation requires one step at a time. I understand what you said."

"Yeah, but I still want to pass on something to you. The Great Swallowing technique is one of them, and the other is I'll pass you a secret recipe."

"Secret recipe?"

"Yes, the secret recipe for body refining is one of the most precious treasures of the overlord. The people of the overlord follow the path of refining, but if you want to climb to a very high level in the future, you need to be indestructible from an early age. Basics. Children of the Tyrant clan, from an early age have to take medicated baths and exercises to assist in refining."

Ye Fan was not surprised. In ancient times, there were abundant resources and there were many ways to refine the body.

If he has a lot of resources now, he will also take medicinal baths to nourish the flesh and blood, and slowly refine and cultivate.

But conditions do not allow it.

"For the Tyrant Body, simple medicated bath exercises don't have much effect, so there is a secret recipe for the extreme realm."

"Secret Recipe of Extreme Realm?"

"Yes, the young children of the Tyrant Clan will work hard to reach the extreme level of the human body, so that they can cultivate to a higher level in the future. The so-called extreme level of the human body is to develop the strength to the strongest level."

The sky-swallowing beast explained.

"The criterion for reaching the extreme state of the human body is to obtain one hundred thousand catties of power from the physical body before being promoted to the heavenly tyrant body."

"???"

Ye Fan had a question mark on his face.

"Senior, are you kidding me, 100,000 catties? Do you know how much 100,000 catties are?"

"Don't judge the ancients with your eyesight." Sky-swallowing beast said harshly: "The brilliance of the ancients is not what you imagined."

Ye Fan was shocked, recalling the picture that had just appeared in his mind, the special size of the sun, the moon and the stars could explode, and one hundred thousand catties of huge force was indeed nothing.

The sky-swallowing beast continued: "Of course, one hundred thousand catties of huge power should not be underestimated. It requires pure physical power and needs to be promoted to the sky overlord body. That is to say, at the peak of the overlord body, it has to reach one hundred thousand catties. Strength. Otherwise, the opportunity to impact the extreme state of the human body will be missed."

"Don't think it's easy. The first few levels of the Tyrant Body Art are all about laying the foundation. Only when you step into the realm of the Heavenly Tyrant Body can you truly embark on the road of domineering. In my memory, the young children of the Tyrant Clan are the most At the age of eighteen, reaching the peak domineering level in adulthood, the next step is to hit the heavenly domineering realm."

"Eighteen years old?"

"Yes, it's a standard to complete the foundation at the age of eighteen. If you exceed this age, it doesn't mean it's a waste. It's just that, relatively speaking, future achievements will be lowered. So, by comparison, your current age, your tyranny is still good. If you haven't fully matured, you don't know how old you are when you reach your peak dominance."

"Before the age of eighteen, do you think it is easy to polish the power of the physical body to 100,000 catties? It is not easy, it can be said that it is difficult to go to the sky. In my memory, few Tyrants can reach the extreme state of the human body."

"The reason for telling you this is to spur you on the one hand, and on the other hand, I also want you to try it. Polishing your physical strength to the best of your ability will bring you infinite benefits."

"This is the secret recipe of the extreme realm. It is a secret recipe that assists in polishing the strength of the physical body. The design is very complicated. You can see for yourself."

The sky-swallowing beast threw out a fragment of memory, which fell into Ye Fan's mind. Suddenly, Ye Fan had a splitting headache.

The secret recipe of the extreme realm is too complicated.

There are too many ways for the Tyrants to polish their physical strength, and all of them are fused into the secret recipe of the extreme realm, causing Ye Fan to faint directly.

Not long after, Ye Fan woke up, his head groggy.

It took a long time for Ye Fan to slow down.

There are 12,600 methods, large and small, in the secret recipes of the extreme realm, but it would be a pity that ninety percent of the nine Ye Fans can't understand and can't realize it, because it involves ancient resources, and it doesn't exist at all now.

However, what surprised Ye Fan was that some small secrets were actually related to the "Tai Shang Yi Jing" he had learned.

This is a big discovery.

"To polish the power of the physical body and develop the human body, you must first understand the physical body, and learning medicine is the best way to understand the physical body."

"These secret methods use medical techniques to develop the power of the physical body. It is very good. It seems that I need to focus on studying the classics of medical science. This is the sacred book of medical techniques passed on to me by the old man. Could it be that it is also handed down from ancient times. ?"

Ye Fan is extremely grateful to the old man.

All his achievements today are attributed to the old man, and all his skills are learned from the old man.

I don't know where he is now, how is it?

Ye Fan returned to his senses and said, "Senior, thank you for teaching the secret recipe of the extreme realm and telling me about the extreme realm of the human body. I will definitely try to impact and live up to expectations."

The Sky-Swallowing Beast said: "Hope, you have a lot of time here, and it's time to leave."

"Senior, where is the exit?"

"There is no exit, I will use a tentacle to send you into the weak river." Sky-swallowing beast sighed, he only has three tentacles, and now he will lose another one.

Ye Fan was touched, but didn't say much.

Only the Sky-Swallowing Beast can send him out.

"boom!"

Suddenly, this space shook violently.

The huge body of the Sky-Swallowing Beast moved and became violent, and Ye Fan was almost suffocated by the endless fierce might.

This is the sky-swallowing beast deliberately protecting Ye Fan, and did not let the breath impact Ye Fan, otherwise Ye Fan would die on the spot.

The gap is too big.

At this time, the barrier was blooming brilliance, and it was necessary to suppress the Sky-Swallowing Beast to prevent him from causing chaos.

"puff!"

A black tentacle, like the Optimus Pillar, bombarded the barrier, and the barrier was trembling.

Immediately afterwards.

The tentacles were surrounded by weird brilliance, and a swallowing force exploded, swallowing a hole in the barrier.

"go!"

The tentacles instantly entangled Ye Fan and rushed to the weak water river high in the sky.

Ye Fan saw that the big hole that had been swallowed was being repaired, and when the repair was completed, this tentacle was cut off.

"open!"

The sky-swallowing beast roars.

The tentacles finally broke the mysterious power and entered the Weak River; the tentacles sent Ye Fan to the top, and then said: "Ye Fan, I am waiting for you!"

The next second, the tentacle collapsed.

Ye Fan settled down, his mind was still echoing with the Sky-Swallowing Beast's words, his face was solemn, and he swore that he would rescue the Sky-Swallowing Beast.

This is a big help for myself.

He was considered a half-tyrant, once the Sky-Swallowing Beast was born, he would definitely be his own.

Wow!

Ye Fan looked up and found that there were creatures struggling to ferry in the weak river.

"I don't know how long it has been. Did Nalan and the others have left? Are You Shisan still lurking?"

"what?"

Ye Fan's eyes were shining with purple light. In the water, he found and saw a hint, with three tyrannical auras.

"interesting."

"Weanshuihe is so lively here."

Ye Fan didn't make a big move, he restrained his breath and went ashore quietly.

After waiting for so many days, Nalanruo and his party completely gave up, and there are more and more strong people here in Weak River, and they are also worried that there will be danger.

So planned to leave.

"This is."

Suddenly, if Nalan senses something, she practices the scent tracking technique. This secret technique is a simplified method of the magical power tracking technique, so she is very sensitive to breath.

Nalanruo quickly found Ye Fan.

At the same time, Ye Fan also sensed Nalanruo and his party. He transmitted voice: "How many days have you been waiting for me!"

"Always waiting!"

Chapter 974: Haudao, mighty bone beads!

Have been waiting.

The four words moved Ye Fan.

He smiled and said, "How many days have it been?"

"Nine days."

"So long." Ye Fan was stunned and moved with his family. Nalanruo and his party waited for nine days without giving up on him.

"Thanks a lot."

Ye Fan looked at everyone arguably.

The little virgin was eccentric, and said with a smile: "Brother Ye Fan, it is Aunt Nalan who has always held on to hope."

Ye Fan looked at Nalanruo, a little embarrassed.

It's really amazing to say that in the valley of one hundred thousand great mountains, he and Nalanruo became attached to each other, and then they met in the Northern Wilderness together and experienced so much.

It can be said to share life and death.

Ye Fan was wondering, could it be that Nalanruo's Dao heart really cracked, and he fell short of success in practicing the ruthless Dao?

"Don't think too much."

Nalanruo took the lead and asked: "Where have you been in these nine days? What's on the bottom of the weak river?"

Ye Fan said: "This is really what I want to say. I am not at the bottom of the weak water river, but under the weak water river, there is a huge secret realm. I met a terrifying big demon in it, which is an ancient innate spirit seed. Sky-tailed beast; me and him..."

Ye Fan briefly described some of the circumstances these days.

Did not say too much.

Nalanruo was surprised when they finished listening.

"Brother Fan, your luck is too strong, and you have been valued by the terrifying monster and taught you magical techniques." The little virgin sighed with emotion.

Others have few adventures in their lives, and Ye Fan is better off, one on the left and the other on the right.

Ye Fan said, "Don't talk about it, let me talk about the situation of the weak river in the past nine days. I have found many strong people, and there are still powerful people watching in secret."

"Yes, there are more and more strong people, but no one has successfully crossed the Weak River. This is obviously an attempt by You Thirteen in the dark to prevent landing. It seems to be waiting for something."

"Ye Fan, what are you going to do?"

If Nalan could see that Ye Fan was in very good condition, it seemed that his strength had increased a bit; according to Ye Fan's temperament, it was impossible to just retreat like this.

The little virgin said: "Brother Fan, my plum blossom mark did not respond, indicating that there is no danger. Let's do it."

"Pull it down."

Ye Fan rolled his eyes.

"Your plum blossom mark for predicting good, bad, bad, and fortune is not 100% accurate. Nine days ago, I was taken away by the swallowing sky-tailed beast. The plum blossom mark showed that it was a big evil omen. This is not the case. I got a great opportunity."

"Huh, I hate it."

The little virgin made a small mouth.

Ye Fan looked at the weak water river covered with mist, and said deeply; "Just leave like this, it will be too boring, I must do a lot of work. Moreover, I want to see the big people hidden in the dark."

"Now we need a fire to disturb this quiet situation."

"I am willing to make this fire."

Nalanruo said, "Is this too risky? You may be attacked by a group, just take it easy."

Ye Fan smiled and said: "No, after communicating with the Sky-Swallowing Beast, I found that I still lack something, that is, the state of mind. I have to be strong enough to be able to reflect the path I have taken."

"If you want any conspiracy, just do it, Ye Fan is not weaker than others, so why be afraid!"

"Your safety is the most important thing, just watch the changes, I will go too!"

Ye Fan stepped into the Weak River.

That boldness, infinite.

Gulot and the Water God looked at each other, and they were very moved. They had a foreboding that Ye Fan would become one of the pillars of the Daxia martial arts world in the future.

Nalanruo's eyes sparkled.

Ye Fan did give him great surprises and expectations. She had never seen such a talented and domineering man.

咚咚.

Suddenly, Nalan Ruo's body trembled.

There seems to be a crack in Dao Xin.

Ruthlessly.

How can you be tempted without emotion.

Nalanruo's brows were frowned, and she extinguished distracting thoughts without thinking about it.

Let's talk about Ye Fan.

He entered the weak river and began to move forward.

He had discovered the hiding place of the creatures of the Nether clan before. This time, he was familiar with the road; and You Thirteen could not find him.

Ye Fan learned to be clever, and used the mysterious technique to cover all exploration.

"what?"

"Why is this breath so familiar? Ksitigarbha Bodhisattva, good fellow, Buddhism bald donkeys are also mixed in it."

Ye Fan did not flinch, but was very happy.

They are also very good in Jizo, so that they can catch them all in one go, saving him from looking for them in the future.

"Solve you first."

Ye Fan stared at the Ksitigarbha.

Compared to You Shisan, Ye Fan was actually not sure of suppressing it instantly.

The Sky-Swallowing Beast told him a lot of ancient secrets, and Ye Fan had more knowledge of the ancient Xeon group.

The Nether Race is terrible.

Strong foundation.

You Shisan is a young master of the Nether Clan, and he must have a hole card.

The Sky-Swallowing Tail Beast layer said that the most powerful of the Nether Clan is the top-level supernatural power catastrophe technique, the Blood-Activating You Thirteenth Society.

"The catastrophe technique, disasters, weird and unpredictable, have to be careful." Ye Fan was on guard, but he also thought about it carefully.

If you can get the catastrophe technique, it's simply amazing.

Three thousand great powers, the more you get, the better, these great powers are treasures, how can we not ask for them.

Ye Fan didn't use the Prospective Qi technique, fearing that it might startle the snake.

He gradually approached the other side and found some clues, and he couldn't help but frightened:
"There is an ancient killing formation, great!"

Ye Fan was about to suppress the Ksitigarbha Bodhisattva, but suddenly discovered that there was a pool of blood in which a bead was ups and downs.

In an instant.

Ye Fan himself couldn't control the unspeakable excitement of his domineering body recovery.

"not good!"

Ye Fan's face changed.

The overlord's recovery, isn't this directly exposed.

Without any hesitation, Ye Fan landed abruptly, used the world to move around, came to the blood pond like lightning, and grabbed the bead.

"Bold!"

You Shisan shouted angrily.

He was furious, and someone evaded his detection and landed ashore to **** the mighty bone beads.

"It's you, Ye Fan!"

You Shisan saw the visitor clearly, it turned out to be Ye Fan, and he was shocked again.

at the same time.

The Nether warlord reacted very quickly, and the ancient killing formation was revived.

"Hahaha, Ye Fan, I knew you would come, because you were greedy enough. As expected, you fell into a trap."

"Mighty Bone Bead, how can you get it."

"Come here."

The Nether Thirteen Bloodline summons.

This powerful bone bead shook, freed from Ye Fan's suppression, and flew towards You Shisan.

The Mighty Bone Orb is made from the powerful bones of the Nether Race. After You Thirteen is obtained, it uses its own blood to nourish and pour.

"There is nothing I can escape from."

"Great Seal Art."

Ye Fan pinched the seal and sealed the Mighty Bone Bead, cutting off the connection with You Shisan.

At this moment, You Shisan panicked.

"recovery!"

You thirteen roared.

He wants to revive the mighty bone beads.

A violent force, as if an ancient great demon was about to wake up, Ye Fan's scalp was numb, he swallowed the mighty bone beads without saying a word.

This scene made You Shisan dumbfounded.

The Nether warlords are all petrified.

That's a mighty bone bead, Ye Fan swallowed it unexpectedly, yet he didn't explode and die.

"Ha ha ha ha."

You Shisan laughed angrily, he stopped resuscitating the mighty bone beads, and at the same time ordered the killing formation to operate but not attack.

He looked at Ye Fan sighfully and said: "I don't know what you think, Jin Ranran swallowed the Mighty Bone Bead. As long as I revive the Bone Bead, your body will explode and you will die. Ye Fan, Mighty Neng. Bone beads are not something you can fight against, that is to say, your life and death are already in my hands."

Ye Fan was very calm.

You Shisan didn't know that the Great Bone Bead had been suppressed.

That's right.

Ye Fan swallowed the Mighty Bone Bead and sent him to his dantian, where he was immediately suppressed by the origin of the Sky-Tailed Swallowing Beast.

You Shisan was still triumphant, thinking that he was in control of his life and death, which was really ridiculous.

But Ye Fan didn't expose it.

As soon as he rolled his eyes, there were thousands of tactics, and he decided to deal with You Shisan, play, and get some benefits.

"Ancient Buddha, Ksitigarbha, what else is there to do, come out."

"Huh!"

Burning eyebrows, burning heart and Jizo appeared.

Ye Fan smiled and said: "There is also a tyrannical aura. It should also be a buddhist person, which ancient Buddha?"

"Good boy, so sensitive."

The ancient Buddha Rantua appeared and praised: "You are Ye Fan, yes, you are indeed a young leader. Burning eyebrows are deflated in your hands, and it is understandable. The poor monk is called Rantua, Amitabha."

Ye Fan I IE I IE surprised.

This burning Buddha ancient Buddha should be a half-step overlord.

"It's a great honor to usher in the favor of a half-step overlord and ancient Buddha, and deliberately rushed to deal with me from the distant Tianzhu. I died without regret."

Ye Fan glanced around and asked, "You Thirteen, your purpose is me?"

"Of course, there can be anyone besides you."

"In order to kill me, such a big movement is really an honor."

You Shisan snorted: "Ye Fan, don't talk nonsense, don't have any thoughts. I can instantly revive the powerful bone beads to kill you."

Ye Fan said, "Listen to what you mean, can I have a chance to survive?"

"Yes, as long as you are honest and obedient, it is not impossible to keep you alive." You Shisan said straightforwardly: "The Great Sealing Technique, the Killing Heart Curse, and your body refining method, invincible Hand over all the punches."

"Tsk tsk, say I am greedy, you are more greedy than me."

"Hehe, this is not a deal, but an order. If you want to survive, you just hand it over. It's just a secret technique and a magical secret technique. Isn't it more important than your life."

Ye Fan blinked, "What is the idea of the ancient Buddha Rantuo?"

Ran Tuo said: "I'm shocked, you actually have a top-level magical power seal technique, this magical power is incredible, and I won't miss it."

You Shisan's face sank, and he said dissatisfied: "Ancient Buddha Rantuo, this is not appropriate, Ye Fan was suppressed by me, and it has nothing to do with you. If you open your mouth, you need a big seal technique, which is not in compliance with the rules."

Rantuo Ancient Buddha said: "Neither, nor, we act together, and that is a whole. We share the resources of Ye Fan. I not only want the Great Sealing Technique, but also the Killing Curse and Body Refining Technique. ."

"you!"

The quiet thirteen qi extremely.

This old bald donkey is really greedy.

Ye Fan said, "Oh, this is troublesome."

"It's no trouble, it's okay with you. Don't think about instigating discord. Ye Fan, you will now burn all the methods you know." Ksitigarbha Bodhisattva walked up and threw down some bamboo slips, then sneered at Ye Fan.

"Fighting and fighting, you lost in the end. Ye Fan, you beat me so badly, I won't make you feel better."

"It will keep you alive, will not let you die easily, squeeze your value out, throw you into the eighteenth hell, and taste the taste of hell."

Ye Fan said expectantly: "I heard that under the Tianzhu Lingshan, there are eighteen layers of hells, mountains of swords and fiery seas, cooking in oil pan, everything, I really want to see and see."

"If you don't see the coffin, you won't cry."

Ksitigarbha Bodhisattva snorted coldly, and shouted: "You Thirteen, first revive the mighty bone beads, and give this grandson a taste."

"I think so too." You Shisan was about to cast a spell, Ye Fan shouted: "Wait, I have something to say."

"Hahaha, be scared."

"Snapped."

Ye Fan slapped the Ksitigarbha Bodhisattva with a backhand, cursing: "What's the matter with you, Luo Li is boring."

Chapter 975: Play and fight against Ran Tuo!

The Ksitigarbha Bodhisattva was even beaten up, and fell to the ground with his head and face.

Burning Heart Ancient Buddha was furious: "Ye Fan, you dare to be fierce when you die!"

"Ye Fan!"

Jizo Bodhisattva jumped up, his face was stubborn, and he was about to vomit blood in anger.

Ye Fan said, "This is my business with You Shisan, you guys don't beep, be careful, I will shoot you to death. I think You Shisan would be happy for me to do this."

As soon as this remark came out, Gu Buddha was alarmed.

Yes.

You Shisan didn't want to share the spoils with them, and would naturally be happy to see Ye Fan fight with them, besides, he was still in the killing line now.

The ancient Buddha Rantuo was very confident in himself. Although You Shisan was the young master of the Nether Clan, he was a young man after all. Couldn't he still be able to deal with it?

But just now he felt the chilling breath of the power bone beads about to recover, he was a little cautious.

The Mighty Bone Bead is not easy, maybe it can be countered, and it is indeed a bit difficult to cooperate with the killing formation.

"Hmph, Ye Fan, don't sow discord. We and the Thirteen Young Masters are allies. How can we be disintegrated by you in a few words." Burning Heart Ancient Buddha said.

"That's right, Ye Fan, don't have any intestines." Burning eyebrow ancient Buddha said.

The ancient Buddha of Rantuo had a cold face and said, "Thirteen Young Masters, Ye Fan is very tricky. I suggest that he abolish him first, and then he is forcing him to learn secret techniques."

Ye Fan sneered and said, "You are an ancient Buddha. I didn't expect to be a stupid person. If I became a useless person, wouldn't it be equivalent to killing me? Physical training."

You Shisan waved his hand, a little impatient, and felt that the four of the ancient Buddha Rantuo were too noisy.

This has nothing to do with them, but it is still jumping up and down.

"I'll take care of it."

The four words blocked the mouth of the ancient Buddha of Rantuo, making the ancient Buddha of Rantuo very uncomfortable.

You Thirteen said: "Ye Fan, what do you have to say?"

"I heard that the Nether Clan has top-level magical powers and catastrophe art. I wonder if you can learn something?"

"Unexpectedly, you know a lot about the ancient Xeons. Indeed, our tribe possesses the great catastrophe technique, and the three thousand avenues are ranked in the top ten with magical powers. I am not inferior to the Great Seal technique. Why do you ask this?"

"Use the catastrophe technique in exchange for my great seal technique."

"What?" You Shisan had big eyes and said funnyly: "You are sick, what are you talking about."

Ye Fan said: "You just say you can't change it."

You Shisan sneered: "I will only agree to you when I am sick. Ye Fan, you are not qualified to bargain now. As for my catastrophe technique, what are you going to do? Do you still want to practice? Are you kidding. You will definitely die, just You honestly will let you live longer."

"Don't care if it's useful, I just want to see the Great Disaster Technique. Nether Thirteen, the Great Seal technique is very important to you. The Nether Clan is abundance in the Nether Cave. If you practice Great Seal Technique, you can shake it. Seal, release your people."

"Ye Fan, I admit that what you said is indeed reasonable. It is impossible to exchange magical powers. If you want to see the catastrophe technique, I can show it to you."

You Shisan turned around, pointed to a beast emperor who was struggling to cross the Weshui River, and said: "Look carefully, the catastrophe technique, as the name implies, creates disasters."

"boom!"

You thirteen spells.

In the next moment, the Beast Emperor who was struggling for crossing seemed to vomit blood out of some kind of accident, and then was hit by the turbulent weak water, dying of his life, and the body sank.

The Ksitigarbha is horrified.

This is too weird to prevent it.

"It deserves to be a top-level magical power. It's really amazing." The ancient Buddha Rantuo admired, a trace of fire flashed deep in his eyes.

You Shisan was very proud and proud.

The catastrophe technique, the top ten supernatural powers, is known as an unstoppable disaster. Unless you have a large body protection technique, you can contend against a wave.

"Ye Fan, see it now. No one can stop the power of disaster. No one can predict the power of disaster. The power of disaster requires awe."

"amazing."

Ye Fan gave a thumbs up.

"It's so awesome, then I want to learn and enlighten more, you just can't exchange it."

"You...really stubborn!"

"So what, anyway, the big seal technique is in my mind, if you meet my requirements, then don't think about it. Don't think about torturing me and torturing me, if you are in a hurry, we will die together."

Ye Fan looked like a rogue, making You Shisan gritted his teeth.

Ye Fan thought it was decided.

Because he was sure that You Thirteen needed the Great Seal Technique, which would help to open the seal of the Nether Cave. This was a big deal.

However, at this time, the ancient Buddha Rantuo said: "The thirteen young masters don't need to be upset, in fact, Lao Na can solve this matter."

"What's the advice of the ancient Buddha?"

"Thirteen young masters should know that among the three thousand great avenues of magical powers, there is a great Purdu technique!"

Suddenly, You Shisan's face darkened.

"Now Buddhism has the Great Purdue technique? Will you know the Great Purdue technique?"

"That's natural."

Ancient Buddha Rantuo smiled and felt very comfortable to see You Shisan so jealous of him.

Ye Fan's face also became solemn.

During the exchanges between the Sky-Swallowing Beast, although not all the three thousand avenues' magical powers were spoken, 60% of them were spoken out.

Among them is the Grand Purdue technique.

This is one of the core faculties of ancient Buddhism.

The Great Purdue technique has a degree of effect. For example, if you use procrastination on someone, you can convert to Buddhism.

You Shisan's face changed uncertainly, and he used the Great Purdu technique on Ye Fan to save Ye Fan. At that time, Ye Fan was indeed obedient.

However, Ye Fan listened to the words of the ancient Buddha Rantuo.

"Thirteen young masters don't have to worry. Although Ye Fan has been transformed and obeyed my Buddhism, Ye Fan still has powerful bone beads in his body, and his life is still in your hands. We will take Ye Fan away forcibly, and you can kill. Dead Ye Fan. Therefore, after the conversion, we will share the spoils with the young master."

"good!"

You Shisan agreed.

The Grand Purdue technique is also terrifying, especially the ancient Buddha of Burning Tuo is still a half-step overlord level, and its standing power is amazing.

Buddhism still cannot offend.

You Shisan looked at Ye Fan and sneered: "Ye Fan, looking at your face, you should know that the Great Purdue technique is powerful. You hate Buddhism, but now I am letting you convert to Buddhism and become a Buddhism running dog. I don't know what the mood is."

"puff!"

Ye Fan is very simple.

The catastrophe technique is no longer available, and he absolutely cannot be saved, so he immediately took the big killer.

The ancient killing formation was presided over by ten nether warlords. Ye Fan targeted them and killed three with a punch, and then exploded the core blood pool.

The sudden riot shocked You Shisan and Gu Buddha.

Unexpectedly, if Ye Fan didn't shoot to death, he would dare to be ruthless and arrogant.

"Ye Fan, you really don't shoot to death!"

"It's you who died."

Ye Fan's eyes were like electricity, and he fisted at the Ksitigarbha Bodhisattva with fist; this could scare the Ksitigarbha Bodhisattva out of fright.

With this punch, the breath alone suppressed him immovably.

How can it be!

How did Ye Fan become so terrible.

The ancient Buddha burning the eyebrows and the ancient Buddha burning the heart are also disfigured. They are right next to the Ksitigarbha Bodhisattva and are also shrouded in the fist.

"not good!"

The ancient Buddha Rantua reacted quickly and quickly displayed his mastery in the Buddha Kingdom.

However, some are too late.

Buddhism in the palm of the hand did not completely block the fist, and this fist blasted the three people of Ksitigarbha.

"Ahhhhhhh!"

The three screamed, all seriously injured.

hateful.

Ye Fan rushed to regret, but the ancient Buddha of Ran Tuo interfered, resulting in no successful bombardment and killing.

He did not linger, trampled to death a few Nether warlords, and swept towards the distance.

"Ye Fan, die for me!"

The ancient Buddha Rangtuo was so angry that Ye Fan dared to commit a crime and almost killed two ancient Buddhas and Ksitigarbha Bodhisattva in front of him.

If he was really bombarded and killed, the loss would be great, and the Buddha would have to punish him.

At this moment, the ancient Buddha of Burning Tuo did not hide, he knew Ye Fan's evildoer, and he would escape if he was careless.

The strength of the half-step overlord is vividly demonstrated.

Ye Fan is not afraid. If he had trouble before, it is different now; of course, he has to go all out.

"Boom boom boom."

The domineering body has recovered and fully recovered.

Ye Fan's backhand was a punch, causing the pupils of the ancient Buddha Rantuo to shrink. He was caught off guard and flew upside down.

"what!"

You Shisan was shocked, Ye Fan actually beat the ancient Buddha Feirantuo, good fellow, what kind of combat power is this.

His face was gloomy and suffocated.

But he didn't make a move. Ye Fan and the ancient Buddha Rantuo fought just like him, and in the end they both lost.

In this way, he can suppress even the ancient Buddha of Burning Tuo, and it is not impossible to force the Great Purdue technique to come out.

"evil creature!"

The ancient Buddha Rantuo was furious and killed him back.

This time, he was prepared, the treasure was solemn, the big day Tathagata, and the Buddha kingdom in his hand.

At the same time, the power of the domain spread away.

Ye Fan was originally going to cross the weak river, and then he thought about it, he might as well fight here, because there are more powerhouses lurking on the other side, some of which are not weaker than the ancient Buddha of Rantuo, and he is suspected of being a half-step overlord.

Maybe they will be besieged as soon as they go ashore.

Thinking about it this way, Ye Fan turned around and killed him. He laughed: "Rangtuo, you think that the overlord can eat me to death in half a step, but I don't know that I am going to kill the Buddhism bald donkey today. You are the first one."

"Niezha, look for death!"

"Six secret techniques, animal seal!"

The ancient Buddha Rangtuo made a hideous seal, which Ye Fan was familiar with, and the ancient Buddha Rangmei had used it before.

Ye Fan directly fisted.

"chant!"

"mum!"

"Hum!"

This is the six-character mantra, mental attack.

Three golden light characters came from the suppression, Ye Fan screamed: "Heart-killing curse!"

It is also a spiritual secret technique.

The six-character mantra, amazing, one of the top secret techniques of Buddhism; but is the killing curse ordinary? This is the emperor's secret technique.

boom!

The collision of spiritual power spread, affecting the remaining Nether warlords, as well as Jizo pizza, burning eyebrow ancient Buddha and burning heart ancient Buddha.

Even the contenders in the weak river and the opposite bank were affected.

"what!"

The remaining four Nether warlords screamed, and the seven orifices bleed and fell in a pool of blood.

The three people with burning eyebrows were seriously injured. At this moment, they were affected, and they were also miserable.

"Little devil, you can't escape, accept the baptism."

With the ferocious roar of the ancient Buddha Burning Tuo, Ye Fan became cautious, and his spirit was highly concentrated.

The so-called reduction should also be a mental attack.

Hypnotizing and brainwashing on the spiritual level, isn't this just forcible.

This secret technique is really vicious.

No wonder Buddhism disgusts many people.

"Great Purdue Technique!"

At this moment, the ancient Buddha of Burning Tuo displayed the secret technique, and suddenly, a bright Buddha light illuminates this space, and you disperse the mist on the weak river.

The Buddha's light poured out, very warm and gentle.

However, there is a hidden murderous intention.

Chapter 976: Grand Purdue

The gentle Buddha's light hides strong murderous intent, which confirms the goodwill on the surface of Buddhism but it hides evil intentions.

Ye Fan's body was tight.

He felt that his brain began to encounter pressure and shock, and his mental consciousness seemed to be inserted into a mysterious space to be baptized.

Forcibly, how vicious, it is inhumane.

"Ye Fan, under the Great Purdue technique, you have no escape, accept baptism and conversion, and take refuge in my Buddhism, Amitabha."

"idiot!"

Ye Fan responded with only two words.

Although the Buddha's light was dazzling, it was not inconsistent, and Ye Fan performed a great seal technique.

This is a top-level supernatural power, and the Three Thousand Avenue ranks in the top ten, which is extraordinary; although the Great Purdu technique is powerful, it does not make it into the top ten.

When the Great Seal Technique is cultivated to its peak, it can be said to be the Heaven and Jedi.

Nothing is sealed.

Buddhism can also be sealed naturally.

Ye Fan took action and blocked most of the Buddha's light. However, his great seal technique has not yet been mastered, and it is not enough to completely block it. Moreover, the blockade is limited in time and has little effect, so he can only breathe a sigh of relief.

This tone is enough.

"Swallow!"

Ye Fan displayed his physical supernatural powers.

The huge vortex rises up, swallowing the Buddha's light and turning into nothingness.

In fact, Ye Fan's birth of the flesh-eating supernatural powers has always been powerful, although the flesh is strengthened.

The so-called physical talent supernatural powers are similar to the talent supernatural powers of some ethnic groups.

In ancient times, the technological race was also a human being, and regretted that human beings were weak but were born without talents and supernatural powers.

Only then began genetic modification, using external means to obtain innate magical powers.

For the sake of that, the technological community was extremely prosperous.

It's a pity that more and more people are being transformed, and they are getting stronger and stronger, leading to disasters; many ethnic groups can only join hands to destroy the technological ethnic group.

anyway.

Ye Fan's physical devouring supernatural powers have been increasing, and the power is good, but it is rarely used because of scruples.

Because after he swallowed it, he didn't know where the energy of those things went, and he was always worried, thinking that it might be a hidden bomb.

Now the Sky-Swallowing Beast narrated the truth, which was similar to Kunpeng's Devouring Talent, which was directly transformed into nothingness without any side effects.

Therefore, Ye Fan felt relieved.

"Swallow me!"

Ye Fan once again created a vortex, combined two by two, turning into a black hole, crazy devourer Pudu Foguang.

The dazzling Buddha light decreases at a speed visible to the physical eye.

"How can it be!"

The ancient Buddha Rantuo was dumbfounded and unbelievable.

"Swallow, this is a great devouring technique! Ye Fan, you still have this magical power, how come you have so many top magical powers!"

Ran Tuo ancient Buddha exclaimed.

You Shisan was also frightened, and became more and more jealous of Ye Fan, but for a second, he thought, the mighty bone beads were in Ye Fan's body, and what was terrifying about Ye Fan's life and death by himself.

No matter how strong Ye Fan is, he can never suppress the Mighty Bone Bead!

"kill!"

Purdue Buddha finally disappeared.

Ye Fan fiercely slew out of the engulfing black hole, as if an eagle was catching a chick, and Tianwei took a photo with the palm of his head.

Although he didn't hit the ancient Buddha of Burning Tuo to fall, he was stupefied for a second.

In this second, Ye Fan had already come to the ancient Buddha of Ran Tuo.

Close combat, this is Ye Fan's strongest method.

"Boom!"

With one punch, the ancient Buddha of Ran Tuo vomited blood.

Buddhism Arhat's golden body was cracked.

Competing for power, where is Ye Fan's opponent, Ran Tuo Ancient Buddha, he wants Ye Fan to keep away.

How could Ye Fan be as he wished.

Constantly entangled, while using the power of heaven and earth to wrap up, the two of them constantly displayed the universe and moved around, taking the ancient Buddha of Rantuo to relocate the land, making the ancient Buddha of Rantuo overwhelmed and at a loss.

Peng Peng Peng.

After encountering heavy blows one after another, the golden body of Luohan estimated by Ran Tuo finally collapsed.

"what!"

He was photographed falling into a weak river.

Without the protection of the golden body of the Arhat, the body of the ancient Buddha Rangtuo was very fragile, and the bones of his whole body were damaged by the impact of weak water.

"what!"

The ancient Buddha Rantuo screamed and rushed out in horror, but in the next second, he stepped on the top of his head and stepped him abruptly into the weak river again.

You Shisan's face was solemn, thinking that the ancient Buddha of Rantuo and Ye Fan would lose both, but never thought that one move swallowed magical powers and cracked the Great Purdue technique, and the ancient Buddha of Rantuo defeated by Ye Fan could not fight back.

Can't wait anymore.

Once the ancient Buddha of Rantuo fell, he would be left alone and helpless.

Taking action now and rescuing the ancient Buddha Rangtuo is also considered to have a good relationship with Buddhism. Buddhism is a powerful enough force, which may be helpful to the Nether Clan in the future.

You Shisan wanted to understand, and shouted: "Ye Fan, let go of the ancient Buddha of Burning Tuo."

"Why!"

"Just relying on my ability to control your life and death, the Mighty Bone Bead, give me resuscitation." You Shisanda yelled, wanting to revive some of the power of the Mighty Bone Bead, and Ye Fan suffered a blow.

However.

What puzzled him, Ye Fan was safe and sound.

There was no movement from the Mighty Bone Bead.

"recovery!"

You Shisan shouted again.

Still nothing happened.

Suddenly, he found that Ye Fan was looking at him with a smile, his eyes full of sarcasm and contempt.

not good!

You Shisan was shocked.

He finally realized that except for the big problem.

A young leader like Ye Fan is definitely not a fool. If he can swallow the powerful bone beads, he should be sure to suppress it.

Damn it.

You Shisan gritted his teeth. He believed in the power of the Mighty Bone Bead. He didn't expect that, how could Ye Fan suppress the Mighty Bone Bead.

At this moment, You Shisan was panicked.

Without the Mighty Bone Bead, would he be Ye Fan's opponent?

Can't bear to think too much, You Shisan made a move, now he and the ancient Buddha of Rantuo have lost their lips and teeth, and they must ensure that the ancient Buddha of Rantuo will not die.

"Catastrophe!"

"All disasters, all blessings, Ye Fan, die for me!"

At this level, You Thirteen still had the thought of using the Great Seal Technique, and he couldn't wait to kill Ye Fan immediately.

He is angry, he is embarrassed.

He thought he was in control of the whole situation, but Ye Fan was playing with him.

Ahhhhh.

You Shisan roared in his heart, his anger attacked his heart, his throat squirmed, and a mouthful of blood was forcibly pressed down.

The power of disaster swept across.

Ye Fan performed the devouring method again, however, he found that he could not swallow the power of disaster.

"Ye Fan, the Great Swallowing Technique is not invincible. The power of disaster is everywhere. Heaven and earth coexist. How do you swallow it. Unless you can practice the Great Devouring Technique to the peak and swallow the sky and the earth, then you will not be afraid of the power of disaster. . Now, you are still far away."

"Blessing!"

You Shisan breaks to drink.

The power of disaster fell on Ye Fan.

at the same time.

You Shisan also used the fascination of the Nether Clan, turning the resentment on the Weak River into resentment, and blessing Ye Fan.

Resentment can invade luck.

You Shisan believed that the reason why Ye Fan was advancing by leaps and bounds and never stiffened was because his luck was too strong.

Only by polluting the air transport and suppressing Ye Fan's air transport can Ye Fan be truly killed.

Sure enough, after being blessed by resentment, Ye Fan felt uncomfortable.

Wang Qi technique cannot look at oneself.

If Ye Fan could see his own "qi", he would definitely find that the majestic dragon-like purple qi, at this moment, there appeared a series of black pilates, entwining the purple qi dragon, polluting the golden dragon of Qi Luck.

Misfortune never comes singly.

The power of disaster has also begun to work.

This power is weird and unpredictable.

Disasters are everywhere.

Ye Fan suddenly discovered that there was a problem with his heart, which seemed to be a blockage of the cardiovascular system, commonly known as myocardial infarction.

No way, Ye Fan could only retreat.

The ancient Buddha Rangtuo rushed out. He was no human or ghost. He had been impacted by weak water for so long and suffered huge damage. Some of his bones had melted, but not much. After all, he was an ancient Buddha and had this background.

However, it is also very miserable.

"Ye Fan!"

"Ye Fan!"

"I won't die with you!"

The ancient Buddha Rantuo had a hideous face and roared frantically, but he did not move because he was afraid and was beaten by Ye Fan for fear.

Who knows what magical powers Ye Fan has.

At this time, Ye Fan was very uncomfortable, and disasters were brought into his body, and various diseases began to appear, making him miserable.

Outside, the weak water was surging, and it rushed towards him madly.

"Can it really be impossible to resist the power of disaster? You can only resist it hard." Ye Fan didn't believe it. There was nothing in the world that could not be resisted.

Everything grows and restrains each other.

Ye Fan thought of the Great Body Protection Technique, which is the supernatural power of absolute defense, which should prevent the invasion of the power of disaster.

"Dadao Fist!"

Ye Fan's body recovered to the extreme, and he felt better, resisting the disease.

This is not a real disease.

This is created by the power of disaster, as long as the power of disaster disappears, it will return to normal.

Ye Fan wants to kill You Shisan.

"Netherworld."

You Shisan was not afraid, and used this magical method of transferring energy.

This trick was previously performed in the Yutai Mountain Heroes Association, which can transfer energy; however, there was a big gap between Ye Fan at that time and Ye Fan now.

Now this Dao Fist is powerful and powerful, and You Shisan's face is changing, gritting his teeth, frantically maintaining the shady.

"Transfer me!"

You Shisan hissed, blood spurting out.

Finally, the shady swallowed the power of Dao Quan, and the next moment, it was transferred to the opposite bank 1,800 meters away.

boom!

With this punch, the other side collapsed.

The creatures on the other side have been watching. Although the fog is obscured and the process of the war cannot be seen, it is very strong.

Also knows that Ye Fan is disturbing the wind and rain.

They look forward to it very much.

Fortunately now, a large-scale fist bombarded it, and many creatures died in unfavorable circumstances, and even the strong hidden in the dark were affected.

"Huh!"

Ye Fan moved.

The reason why he didn't go to the other side was because he was worried that the hidden powerful groups would attack him. Now it's alright, You Shisan transferred the power of Dadao Fist to the opposite bank, causing chaos on the other bank.

This is the best time to land.

The weak water didn't have much impact on Ye Fan, and quickly came to the other side.

You Shisan realized that his hand actually helped Ye Fan to escape. He vomited blood again and roared: "Everyone on the other side, Ye Fan has taken the giant treasure. Stop Ye Fan and kill Ye Fan!"

This roar made the opposite bank instantly calm.

At this moment Ye Fan just landed on the shore.

"Stay."

At the same time, three tyrannical auras formed into the horns to kill. These are the three young half-step overlords who have been hiding.

They arrived nine days ago.

Tolerate temperament.

Has been lurking, the purpose is to deal with You Shisan; now Ye Fan won the giant treasure, they plan to get married.

They have heard of Ye Fan's name.

Kunlun has been spread, it is difficult to know whether or not to know.

Moreover, the three of them had a clear view of the battle just now; they had a unique method that could see through the mist.

Ye Fan possesses the Great Seal Technique and the Great Devouring Technique, which are simply heavenly treasures and must be obtained.

Chapter 977: Demons

Ye Fan had felt these three strong auras long ago, but he didn't expect to be a young half-step overlord.

Which top ancient tribe's leader is this?

At this moment, Ye Fan can be said to have reached the most dangerous time, but fortunately Nalanruo and his team took the shot.

The extremely cold air is frozen, and the sword air is vertical and horizontal. Although it can't split the half-step overlord, it can interfere.

at the same time.

The water **** casts the spell with all his strength, disturbing the bodies of the three of them.

The three half-step overlords raised their brows, feeling the strangeness of the body, and at the same time Ye Fan's attack also arrived.

Of course Ye Fan would not sit still.

"Heart-killing curse!"

"Swallow!"

What Ye Fan didn't expect, the Heart Killing Curse had an unexpected effect, causing the three half-step overlords to snorted, and the attack was a pause.

"You are alien!"

Ye Fan confirmed his identity.

If it is a human race, the effect of the Heart Killing Curse will not be so strong, it is definitely a foreign race.

what!

Alien creatures!

The other strong people present were alarmed.

They are also planning to besiege Ye Fan together, but if these three half-step overlords are foreign races, then they can't be with them.

In the human blood, there is a firm belief.

Non-my family, its heart must be different.

Although it is far away, it is punishable.

You Shisan and Rantuo Ancient Buddha rushed over and were shocked when they heard Ye Fan's shout.

Especially You Shisan, a look of fear suddenly appeared on his face, and he even screamed, "Devil creatures!"

Mo zu.

These two words shocked everyone.

Ye Fan's face darkened, and he didn't expect that they were actually demons, which was remarkable.

Mo zu is a collective term with many branches.

For example: First Demon Race, Sky Demon Race, Earth Demon Race, Zombie Demon Race, Flame Demon Race, Shadow Demon Race...

This is like a monster race, there are countless types of big monsters, all lose to different races.

However.

Although there are countless branches, in certain periods, these ethnic groups will unite, and the stars are unified demons.

At this time, the power is extremely terrifying.

Demons, monsters, zergs, humans, etc., these are super big clans with many branches.

But things like the Nether Race and the Dark Spirit Race are different, they are very single.

In ancient times, there were many ethnic groups.

There are ten strong race groups, of which the demons account for two, namely the beginning demons and the heaven demons.

These two races are above the Nether race.

Of course, the three demons that appeared at this time did not belong to the heavenly demons and the first demons.

You Shisan distinguished it, and said in shock: "Shadow Demon, Earth Demon, and Flame Demon, are all three of your tribes born!"

The Shadow Demon Clan creature is that woman.

The Flame Demon Clan creature was the man with a sharp voice.

The creature of the Earth Demon Race was the man with a hoarse voice.

The three are headed by the Shadow Demon Girl.

"Our three clans have indeed been born for a while, and I didn't expect an accident in your Nether clans. It's a pity that there is only a trash like you."

The flame demon man sneered.

The Nether Thirteen is furious. In the ancient times, their Nether race fought against many demons, including these three demons.

"You should not be the young leader of the Nether race, but just a little young master. If the young leader of the Nether race has only your level, then the Nether race can be declared extinct."

"Asshole, you dare to insult me!"

"How can you."

The three people's words contained disdain.

The devilish energy surrounding the three of them also disappeared, revealing their true colors.

Ye Fan thought it was a monster, but he didn't expect it to be similar to a human being, roughly the same shape.

What the Sky-Swallowing Beast said is true. The human form is the most perfect. Except for some special ethnic groups, most of the ethnic groups have evolved and evolved towards the human form.

The female of the Shadow Demon Race is very beautiful, but her face is extremely proud, she can't seem to see everything.

The man of the Flame Demon Race has a hot breath, and his hair is red, and even his pupils are red, seeming to be burning with flames.

As for the men of the Earth Demon race, this race is very weird, living in the underground, resulting in a very rough appearance, but reminded of being burly and domineering.

"call."

At this time, Ye Fan returned to normal.

The power of disaster disappeared.

You Thirteen's catastrophe technique has not been cultivated home, and the time to maintain the blessing of disaster power is limited.

Ye Fan told Nalanruo and his party to retreat and stay away. He decided not to leave for a good time.

The three demon creatures suddenly appeared, how interesting, and they were all half-step overlord levels.

The demon's body is also very powerful.

Especially for the two creatures of the Earth Demon Race and the Flame Demon Race, Ye Fan felt excited and wanted to fight happily.

The other side thinks so too.

The Flame Demon man: "You deal with You Thirteen and Buddhism Bald Donkeys. You have suppressed them and obtained the Great Disaster Technique and the Great Purdue Technique. I came to touch Ye Fan, and his physical body made me very excited."

"To each other."

Ye Fan geared up.

You Shisan said: "Ye Fan wait a minute, we should form an alliance."

"Oh?"

Ye Fan was taken aback, and asked playfully, "What do you mean?"

You Thirteen said: "The Demon Race pays attention to physique. Although your physical body is strong, it may not be able to suppress him. Besides, there are two eye-catching eyes. Now the three of us are the only way out."

At the moment You Shisan was very panicked.

It is impossible for these three major demons to let him go, and he is not an opponent at all; if he has powerful bone beads and confidence, he should be able to escape.

But the powerful bone beads were taken away by Ye Fan.

Now You Thirteen has nothing to rely on, the catastrophe technique? Without training home, there is no way to kill three people instantly.

Heavy pupil?

It's just a development, the effect is there, but the damage is not enough.

Therefore, the only way now is to form an alliance with Ye Fan, otherwise there is no way to survive.

The ancient Buddha Rantua also understood that the situation was serious, and his injuries were serious, and he could not resist any demon creatures at all.

"Ye Fan, there are no eternal enemies but eternal interests. We must form an alliance to have a glimmer of life."

"I can promise that I will not be blamed for what happened just now; even, I can hand over the Ksitigarbha to you, and you will still be at your disposal!"

Ye Fan slapped his tongue and said: "The ancient Buddha of Burning Tuo, you are too cruel. The Potential of the Ksitigarbha Bodhisattva is not small, just sacrifice like this?"

In the distance, the Ksitigarbha Bodhisattva was pale and frightened.

The ancient Buddha said: "He is just a trash, and he will die if he dies. Buddhism has a lot of potential, but he is innocent. In addition, I also promised to give you some resources or give you a secret of Buddhism. Surgery."

"I want the Great Purdue technique, can you give it to me?"

"This..." the ancient Buddha of Rantuo frowned: "Ye Fan, the monks don't talk, the Great Purdue technique cannot be taught to you. But it can be passed on to you other secret techniques, such as the six-character mantra, such as the six-path secret technique."

The six-character mantra and the six secret techniques are also very powerful.

Ye Fan had long been greedy.

"Cash it now."

The ancient Buddha Rantuo was taken aback, and the corners of his mouth twitched and said: "How to cash it now? Don't worry, monks..."

"Come on, you bald donkeys are all good-looking, who would believe your nonsense, either fulfill it or die."

"You Shisan, come here."

Ye Fan beckoned.

You Shisan was overjoyed and quickly approached Ye Fan. Now Ye Fan is undoubtedly a life-saving straw for him.

"Brother Ye, I have offended you a lot before, and I apologize to you again. We didn't have any deep grudges before. We were all misunderstandings."

"It's easy to talk."

Ye Fan smiled and stopped looking at the ancient Buddha Rantuo.

This can make the ancient Buddha of Rantua half anxious. In order to survive, he gritted his teeth and said: "Okay, I will give it to you now."

"That's right."

Ye Fan succeeded, and his heart was excited.

But the Shadow Demon girl sullenly said: "What do you think of us, bargaining in front of us, when we don't exist."

"Beauty calms down, let this bald donkey give me the secret technique first, we will fight again later, don't worry."

"presumptuous!"

The Shadow Demon girl stopped drinking.

Suddenly, the flame demon man shot to kill Ye Fan; the earth demon man shot to suppress the ancient Buddha of Rantuo.

Ye Fan laughed.

With one punch, the Balrog man repelled, and then the ancient Buddha Rantuo was captured.

What is this going to do?

The creatures who were watching from afar were stunned.

Ye Fan is going to fight the three half-step overlords alone, and he is still a demon creature, with strong physique and most of the means.

This is too crazy.

"Ranguo, hurry up and re-enact the six secret techniques, I will support them; You Thirteen, assist me with the catastrophe technique."

Ye Fan really wanted to fight the three demon creatures alone.

This is a challenge for him.

"It's a real death, you think my demons are easy to deal with. You were shot, let me show him some color."

The flame demon man's body trembled, and the hot breath came out vigorously. The strange thing was that his fists were burning with flames.

That flame is not ordinary.

"kill!"

The flame demon man was very fast, appeared in front of Ye Fan in the blink of an eye, the fire fist slammed out, and the air evaporated.

Ye Fan also punched out.

Good guy, I was shocked, and the skin of my fist was burned, very stinging.

The eyes of the fire demon man flickered and his face was solemn.

Unexpectedly, the abnormal fire only burned Ye Fan's skin, not even the flesh and blood was burned and melted.

Ye Fan really should not be underestimated.

"Come again!"

The flame demon man came again.

Give you a face!

Ye Fan snorted coldly, with his fist intent and martial arts true intent on his fist, and when he banged, he shot the Flame Demon man flying.

His tiger's mouth split open.

"what!"

The flame demon man was furious.

Ye Fan had already taken shelter, and his fists were falling like raindrops; the flame demon man was worthy of being a creature of the demon race, and quickly counterattacked.

The battle between the two is in full swing.

Infernal Affairs is shaking, but the strange thing is that no matter what kind of attack, the ancient road will not be damaged.

The ancient Buddha Rantuo reproduced the six secret techniques and shouted, "Ye Fan, it's done."

"Boom."

Ye Fan punched the Feiyan Demon man and put away the stone carvings in the hands of the ancient Buddha.

You Thirteen said: "Ye Fan, I can't go on like this. Give me the Mighty Bone Bead, and I will resuscitate the Mighty Bone Bead, and maybe I can fight back together."

Ye Fan said, "Don't be in a hurry, let me play again, I'm very happy playing."

"You two, come in too."

Ye Fan grabbed the shadow demon woman and the earth demon man, this was simply too arrogant and convinced the monks who wished to watch the battle.

If Ye Fan wins this battle...no, if he can leave safely, he will definitely be even more famous.

"Chi is going to change, and join forces to suppress it."

The shadow demon girl spoke, and immediately cast a spell, screaming: "The shadow is heavy."

Woo woo woo.

Suddenly, a devil-like shadow was born, filling the sky, howling like ghosts, and drowning Ye Fan.

Ye Fan was obscured, and at the same time, a fantasy appeared in front of him.

Sudden.

A heavy blow came, and it was the Earth Demon man who shot it: "Great Earth Fist."

This punch contains the weight and pressure of the earth.

Above the head, a hot breath whizzed, and the Balrog man shot: "Different Fire Purgatory."

Three lore attacks.

Ye Fan was facing a huge crisis, but he didn't panic and took out the Dark Spirit Orb without hesitation. This was the treasure given to him by the Dark Spirit Patriarch.

"open!"

The Dark Spirit Orb blooms with brilliance.

Chapter 978: Three and half-step overlords alone

The Dark Spirit Orb is a treasure refined by the Dark Spirit Patriarch. It can release dark shadows and possess the unique magic of the Dark Spirit Race.

At this moment, recovery.

Mr.'s powerful breath bloomed, rippling away, disintegrating all the lore of the three demons.

Afterwards, a huge dark shadow emerged, and the breath was immediately recognized by You Shisan: "This is the breath of the Dark Spirit Race!"

You Shisan had an incredible face. How could Ye Fan have such a method? Could it be that the Dark Spirit Race was born.

The Nether Race and the Dark Spirit Race have a lot of grievances.

In the ancient times, the Dark Spirit Race was a strong race, and they competed with the Nether Race for the seat of the strongest race, but eventually lost.

Even the Dark Spirit King was beheaded.

Since then, the Dark Spirit Race began to decline, the worst situation fell to the general race, and later rose again to become a strong race.

This kind of grievance belongs to the family feud and cannot be erased.

"Dark Spirit Orb, Ye Fan should have obtained it in some ancient ruins, and the Dark Spirit Race should not have been born." You Shisan comforted herself.

There is no way, who made the Nether clan prosperous and powerful in the ancient times. After fighting this and that, many ethnic groups have been offended, and many ethnic groups have forged indelible grievances.

Besides, there will be dark shadows, which shocked the three demons, but they also have cards.

I only saw that the Shadow Demon girl took out a mirror and recovered. Suddenly, there was a situation in this space, and it seemed that a parallel space appeared.

Two Ye Fans, two You Thirteen, two dark shadows...

It's incredible.

You Shisan exclaimed: "Ye Fan, be careful, this is a copy mirror of the magic weapon of the Shadow Demon clan, and it reproduces exactly the same existence. Those are not illusions."

copy?

Not illusory, is it real?

What a joke.

But the next moment, Ye Fan knew that he was wrong.

The copied dark shadow shot, unexpectedly powerful, making Ye Fan's face changed, and he quickly resisted the real shadow.

boom!

This is actually unnecessary.

Ye Fan was shocked and really copied the entity. This method is also terrifying, no wonder the Shadow Demon Girl is headed by three people.

"You Thirteen, what is going on, how can it be possible to replicate a real entity; even if it can replicate the reality, how can its strength be replicated."

Ye Fan said.

You Shisan explained: "Do you know the innate spirit species?"

"You know, tail beast."

"Yes, there is a tail beast in the innate spirit species, called the mirror, which has the ability to replicate. It is said that the ancestors of the Shadow Demon tribe saved the life of the tail beast Mirror, protected by the mirror, and refined a replica mirror to the Shadow Demon race. ."

"The original copy mirror is the huge treasure of the Shadow Demon Clan, and it is the supreme sage soldier; the woman in her hand is an imitation, but it also has a good copy ability."

"However, the copy mirror also has a time limit, Ye Fan, hold on to it."

Fuck up!

Ye Fan saw that the duplicates of Ye Fan, You Shisan, and Ran Tuo were killed. Although they did not fully replicate their strength, they also replicated 50 to 60%.

At the same time, Ye Fan had to be wary of the attacks of the three demons. It was really difficult!

Special code.

How the ancient races are so strange and weird, and they have all abilities, it is really weak and limited the imagination.

"kill!"

Suddenly, the Demon Man shot out from behind.

Because it is a mirror space, they are hidden, Ye Fan opened his eyes, only to capture some faint trajectories.

"roll!"

Ye Fan was angry.

Fully broke out, packed all the replicas, backhanded a big seal technique and swallowed magical powers, and killed the Earth Demon man.

But at this moment, the flame demon man appeared in front of him.

not good!

Ye Fan's pupils contracted.

Too unexpected, avoid it.

"Boom!"

The punch of the drowning man is so powerful, it can be described as a full blow, breaking through Ye Fan's gas mask and blood barrier, and bombarding Ye Fan.

puff!

Ye Fan vomited blood and flew upside down.

Fortunately, at a critical juncture, he held the Dark Spirit Orb across his chest, resisting most of the power.

However, they did not give Ye Fan a chance to breathe.

The demon man struck out with heavy punches.

"Catastrophe!"

When You Shisan saw Ye Fan being suppressed, he was very anxious and worried. Now he and Ye Fan are grasshoppers on the same rope.

If Ye Fan is suppressed, he will undoubtedly die.

Therefore, he fully used the catastrophe technique to give Ye Fan a chance to breathe.

Under the influence of the catastrophe technique, the three demon creatures have indeed received a not to be underestimated.

Ye Fan caught the opportunity and blasted the Earth Demon and the Flame Demon.

"Heart-killing curse!"

The impact of mental power makes the mirror space tremble.

Time should be almost up.

Ye Fan screamed, the Dadao punched out, blasting through the mirror space; at the same time, the dark shadows were slaughtered.

The Shadow Demon girl had a cold face, and hummed: "You don't want to play anymore, you can make a quick battle."

The earth demon and the flame demon looked at each other and let out a weird smile, and then the two demons recovered.

The monstrous demon energy spread, and the two seem to have turned into demon gods.

"Ye Fan, just playing with you just now, now we have to be serious. You little human race, where is my opponent of the demons."

"The humble bloodline, let you see the power of the demon clan bloodline."

"The devil is coming!"

The two joined forces to summon the ghost shadow of the demon god, and a strong coercion spread and suppressed everything.

This evening has the power of overlord level.

how to spell?

The general overlord, Ye Fan can still make a move, it seems that this is the demon phantom, summoned by the demon creatures.

You Shisan shouted: "Ye Fan, give me the mighty bone beads, hurry up, now only the mighty bone beads can fight the devil ghost."

Ye Fan hesitated.

I really want to give the mighty bone beads to You Shisan.

The Mighty Bone Orb is a huge treasure, which can arouse the excitement of the Overlord Body, which is obviously of great help to the cultivation of the Overlord Body.

How can I send back what I get.

"Quick!"

You Thirteen thundered.

The ancient Buddha Rantuo was also frightened and shouted: "Ye Fan, listen to the thirteen young masters, otherwise we will all die."

Ye Fan looked at the Dark Spirit Orb in his hand.

This is the treasure given to him by the Dark Spirit Patriarch, and it is absolutely impossible to have only this degree of power.

In other words, the Dark Spirit Orb should also show the power of the overlord level, which is compatible with the identity of the Dark Spirit patriarch.

You know, the dark spirit patriarch is a high overlord, and if the treasure he refines does not have the power of the overlord, it would be better to smash to death.

The Dark Spirit Orb must have a power, how to activate it?

There was no time for Ye Fan to think, the Demon God phantom moved, and the huge demon claws grabbed at him, blocking all escape routes.

"Ye Fan!"

You thirteen eyes were about to split and roared.

The ancient Buddha face of Burning Tuo is like ashes.

It's over, it's completely cool, and it's dead.

"Depend on!"

Ye Fan cursed secretly, and simply threw the Dark Spirit Orb towards the Devil's Claw; only hearing a boom, the Demon's Claw squeezed the Dark Spirit Orb to explode.

In an instant.

The terrifying aura vibrated the square, and a phantom stood in this space, not weaker than the demon phantom.

This is.....

Dark Spirit Patriarch!

"Demon clan creatures, have some demon clan born? It's really interesting." The phantom of the dark spirit patriarch actually spoke.

Ye Fan's face changed drastically.

He knew that he had been pitted by the dark spirit patriarch.

The Dark Spirit Orb was not a treasure at all, it contained a ray of consciousness of the Dark Spirit Patriarch, which could be said to be a monitor.

The dark spirit patriarch probably knew everything that happened during this time, and even the mysterious space under the weak water river and the communication with the Sky-Swallowing Beast.

Damn it.

Old fox, as expected, the patriarch of the alien race is not that simple, and he can't play with him.

Ye Fan gritted his teeth.

However, the advantage is safety.

As a high-level overlord, the dark spirit patriarch has a ray of ideology and is strong enough; he instantly suppresses the ghost shadow of the demon god.

This is not to say that the demons are inferior to the dark spirits.

But the realm of the Earth Demon Man and the Flame Demon Man is not enough, and the summoned Demon God phantom has limited strength.

Chapter 979: Take it all, take it all!

"Dark Spirit Race!"

Did You Shisan scream, his face changed wildly.

"Ye Fan, you did a good job. Bring this You Shisan to see me." The Dark Spirit Patriarch said.

"what!"

You Shisan looked at Ye Fan and said in horror: "You are a member of the Dark Spirit Race, no, no, you are a pure Human Race, you actually do things for the Dark Spirit Race."

Ye Fan said: "It's just a deal, don't make a fuss."

"Bastard!"

You Shisan was frightened and angered, and his body trembled, with a premonition that his death was approaching.

at this time.

The Dark Spirit Patriarch shot, and easily defeated the Demon God's phantom, and the blood of the Earth Demon and the Flame Demon spurted wildly.

The three were suppressed.

"Senior of the Dark Spirit Race, we all have grudges with the Nether Race, the enemy of the enemy is a friend, please be merciful to Senior's hand." The Shadow Demon woman said.

"I don't even bother to deal with juniors."

The Dark Spirit patriarch waved his hand, and the three of them were lifted off, not knowing where they had gone.

Then, the dark spirit patriarch looked at Ye Fan again and said: "Bring You Shisan back as soon as possible, I'll wait for you!"

The phantom disappeared.

Ye Fan returned to his senses without hesitation, and immediately took action to suppress You Shisan and Rantuo Ancient Buddha who were still in shock.

It's very easy.

Then, he grabbed the distant Jizo, Burning Eyebrows and Burning Heart.

It can be described as a catch.

"Hahaha, Brother Fan, I didn't expect to turn defeat into victory. I persuaded them to catch them and catch them all in one fell swoop."

Nalanruo and his party rushed over, and the little virgin kicked Ksitigarbha Bodhisattva's face and snorted with her waist in her waist, "Bald donkey, this time it's in our hands!"

"Miss, forgive me, forgive me." The Ksitigarbha Bodhisattva was already screaming, and was about to lose control of urine and feces in horror.

He has no value anymore.

Ye Fan wanted Buddhism mystery, and he also wanted Ancient Buddha to ask for it; he would, and Ancient Buddha would be a city, so he already felt that Dao's death was approaching.

Not only him, but also the ancient Buddha burning eyebrows and the ancient Buddha burning heart.

The three were terrified.

Nalanruo said, "How do they deal with it? Let's just kill it directly, what variables are there in the province."

"Don't don't don't."

The burning eyebrow ancient Buddha and the burning heart ancient Buddha finally lowered his arrogant head and knelt to beg for mercy: "Master Ye Fan forgive me. We were wrong before. We don't dare anymore. Please forgive us."

Ancient Buddha Rantuo squinted, without pleading, he couldn't protect himself, how could he care about them.

Ye Fan stunned the five with a palm.

"go!"

Without saying much, he rolled them up, greeted them, and quickly left Infernal Affairs.

No one dared to stop the spectators.

Ye Fan is too fierce and prestigious.

There is an alien overlord behind it, which is incredible.

However, there are some people who hold a different view. They cursed: "Ye Fan, this fellow, and a foreign race, this is a betrayal of the human race, it is extremely shameful."

"Yes, Ye Fan has already been enchanted!"

"What are you talking about? Ye Fan cooperates with foreign races and deals with foreign races. It doesn't matter much." There are also people who are on Ye Fan's side. After all, Ye Fan has a lot of fans.

Ye Fan was not interested in these disputes.

They left Infernal Affairs, left the dark city, and found a hidden treasure mountain to settle.

Ye Fan threw the five people on the ground, grinned, his eyes clear, and said, "Next, it's time to squeeze value!"

Everyone was excited.

Catastrophe, Great Purdue...

These are treasures.

Nalanruo flicked his finger, and the extremely cold air passed by, and the five of them trembled and woke up.

"Ye Fan..."

"Kneel down!"

You Shisan, who had just jumped up, knelt on the ground with Bei Yi slapped his knees, his knees almost broken.

You Shisan's eyes were filled with resentment, but he was helpless.

He is now a prisoner.

Ye Fan used the golden needles to seal the eight channels of the odd meridians in their bodies. They couldn't guarantee that they would always be effective. They would not be able to break them in a short period of time.

"I won't talk nonsense with you, if you want to survive, then call out the magical secret technique."

"The Great Disaster Technique, the Great Purdu Technique, the Six-Character Mantra, the Buddha Kingdom in the palm..."

"I want it all!"

Ye Fan's voice was trembling when he said it, he was excited, he could get so many magical powers and secret arts, his strength would skyrocket.

With the improvement of realm and strength, some of the previous martial arts unique skills have little effect, such as the nine-day unique skills: broken sky fist, cracked sky palm, stepping on the sky...

Ye Fan almost didn't use these now.

Because the effect is not achieved.

At present, Ye Fan's magical abilities are the Great Sealing Technique, the Great Swallowing Technique, the Killing Heart Curse, the Emperor's Fist, the Palm of Heaven, and the Master of the King of Ming Dynasty.

However, King Daming's unique learning is no longer enough. Unless King Fudo King's Great Seal is cultivated, he will have great power.

Now Ye Fan urgently needs Dharma supplements.

"Ye Fan, you think I am a fool, you squeeze my value out, and then throw me to the Dark Spirit Race, I will not let you succeed. You kill me, the Nether Race creatures are not afraid of death!"

"Snapped!"

Ye Fan slapped it with a palm.

You Shisan's lower body fell into the Great Emperor, and his knees were directly shattered.

Afterwards, Ye Fan shouted: "Gulot, God of Water, hand it over to you, greet you well."

Gulot and Alice, the **** of water, looked at each other with a little excitement. It was also a unique experience to violently beat the alien creatures of Daxia and the ancient Buddha of Buddhism.

Alice uses her superpowers to extract water from their bodies.

Lack of moisture, their skin cracked and wrinkled, like a pleated skirt, as if they were tens of years old.

You Shisan was originally very handsome, but suddenly turned into an ugly monster.

"what!"

As the moisture continued to drain, the skin was torn abruptly, extremely cruel.

The little virgin and Zhu Ying dared not look.

Alice saw that Ye Fan did not stop, and continued to cast the spell. Gradually, they were dying, dying, and about to die.

"Ye Fan, I said."

Finally, the Ksitigarbha Bodhisattva spoke.

"I say!"

Burning eyebrow ancient Buddha and burning heart ancient Buddha also lost the battle.

Ye Fan was very satisfied, "Nalan, take the three of them to the other side, let them burn the secret technique, and then compare them, as if there is a fake, kill them all!"

Nalanruo secretly said that Ye Fan was brilliant, and he took the three of them away.

Ye Fan looked at You Thirteen and Rantuo Ancient Buddha who continued to insist, and said with a smile: "Don't worry, play slowly. Water God, restore them, then continue, and so on, we don't lack time. Gulot, abolish it. They have limbs."

"Bang bang bang bang."

Gullot's fist struck out with lightning.

Both limbs were interrupted.

"what!"

You Shisan and the ancient Buddha Rantuo screamed sorrowfully, and the two stared at Ye Fan viciously.

"A murderer will always be killed."

"If you want to kill me, how can I be kind to you, enjoy it slowly, I hope you have enough willpower to carry it on."

When the words fell, Ye Fan left.

He came to the top of Baoshan Mountain and took out the six secret arts recorded by the ancient Buddha Rangtuo.

The so-called six ways are the way of heaven and god, the way of humanity, the way of Shura, the way of hungry ghosts, the way of beasts, and the way of hell.

The founder of Buddhism did have big ambitions.

It is necessary to create the six ways of reincarnation, so that all living beings can reincarnate in life and death, live and live in endless cycles, and create the six secret arts.

The six secret techniques are very profound.

Ye Fan felt that the six secret arts of the Tianzhu Buddhist School are all in shape and without charm, and he always feels that something is missing.

Not only the Six Secret Techniques, but in fact, Ye Fan displayed his magical powers, and he also felt a little tasteless.

Ye Fan felt that this was due to the environment of the world.

The so-called magical powers should be the methods that can be used by great power, and now their group of warriors can use it, it is like a child playing with a giant axe, what tricks can they play.

No matter what, cultivation is still necessary.

If one day, the environment of heaven and earth improves, and even returns to the shining world of ancient times, the power of the magical powers and mysteries mastered will be immeasurable.

Ye Fan put away the stone inscriptions, who knows whether the burning of the ancient Buddha of Burning Tuo is true or not. If it is false, wouldn't it be madness?

The ancient Buddha burning the eyebrows and the ancient Buddha burning the heart also have six secret techniques.

Ye Fan sat cross-legged, closed his eyes, looked inside his dantian, and saw the mighty bone beads, suppressed by a trace of the origin of the sky-swallowing beast.

The powerful bone beads are gray and white, the size of a fist, this thing can cause excitement in the domineering body, and I don't know what effect it has.

Ye Fan was cautious, trying to get the mighty bone beads out, but found that without this ability, the origin of the sky-swallowing beast was suppressed to death.

After working hard for a long time, I couldn't shake it.

"It seems that I am still very weak, and it is not the time to use the powerful bone beads."

Ye Fan shook his head.

At this time, the little virgin came with a stone carving, which was a stone carving of the six secret arts.

Nalanruo knew Ye Fan very well, so he asked Burning Eyebrow and Burning Heart to burn the six secret arts first.

The burning eyebrow ancient Buddha and the burning heart ancient Buddha are exactly the same, it should be true; a comparison between Ye Fanlai and the burning ancient Buddha.

Special code.

There are a lot of questions, and it turns out to be false.

"Wow, this bald donkey is too nasty. Brother Fan, I'll go tell Sister Alice and let her focus on the bald donkey."

"Go ahead, by the way, explain that Gulot also practiced his hands."

Chapter 980: Get one's wish

The ancient Buddha Rantuo panicked to death.

In Infernal Affairs, some of the six secret techniques he burned were made up randomly.

It's over.

It's going to be cold.

Burning eyebrows and burning heart would definitely not dare to burn fake ones.

The ancient Buddha of Burning Tuo wants to cry without tears.

How did he know that he would be suppressed and caught by Ye Fan, and now he has fallen to this point.

"Sister Alice."

The little virgin rushed over.

The ancient Buddha of Rantuo shook his heart.

The water **** asked: "What's the matter?"

The little virgin pointed to the ancient Buddha Rangtuo, and said angrily: "This bald donkey has a problem with the six secret arts recorded in Infernal Affairs, and deliberately murdered Brother Fan. Sister, you focus on this bald donkey, Brother Gulot, you also practice Practice your hands."

The ancient Buddha's scalp was numb.

In the past hour, You Shisan was taken care of, and the tortured life was better than death, and it was about to collapse.

He didn't want to suffer such suffering.

"and many more!"

"I want to see Ye Fan, I am willing to hand over the Grand Purdue technique. Burning eyebrows and burning heart are not the magical powers."

The water **** stopped, Gulot winked at the little virgin, and the little girl ran out.

After a while, Ye Fan arrived.

"Cogged so soon?"

"People have to bow their heads under the eaves, Ye Fan, I just ask you to let me go, how about?"

"It depends on how much value you paid, whether you can sell you a life."

"Can't the Great Purdue technique buy my life? Ye Fan, you are too greedy."

Burning the ancient Buddha burned in anger.

Ye Fan laughed and said, "Children make choices. Of course, adults do all of them. You have a strong Buddhism background, and it's hard to catch a big person like you, so naturally you have to scrape a layer of oil."

"Randuo, I am already very tolerant, otherwise, depending on your re-creation of the fake six secret arts, I will be able to abolish you."

"Just say if you want to be a waste person."

The ancient Buddha of Rantuo was clever, without strength, and became a cripple. What's the point?

When a person is rich and powerful, let him fall to the bottom of the valley, think of heaven and hell. Such a blow is really too big.

No one can bear it.

The ancient Buddha Rantuo was full of depression and smiled bitterly: "Ye Fan, I have taken it. I have never served a young man, even a talented Buddha. Today I have taken it."

"Buddha? Buddhism young generation leader." Ye Fan said.

"Yes, the Buddha is very strong, he was hid by the Buddha, even I don't know much about it. But what I can tell you is that half a year ago, the Buddha had been promoted to the half-step hegemony level, and the Buddha inherited all the unique knowledge of Buddhism. Secret arts and magical powers, besides that, he himself has been inherited from the ancients outside, and he is very good. So Ye Fan, there are people outside the world, there are days outside the sky, you are not invincible in the younger generation."

Ye Fan is neither humble nor arrogant, nor arrogant, nor arrogant. He said every word: "I am indeed not invincible, but my Taoism is invincible. What about Buddha, I will suppress it when I see it in the future."

The ancient Buddha Rantuo hummed coldly, without entanglement.

He began to burn the Grand Purdue technique.

Half an hour later, Ye Fan got the Great Purdue technique as he wished, and he was very excited.

This great supernatural power, forcibly reducing the obedience and oneself, although vicious, it is indeed easy to use.

The ancient Buddha said: "Ye Fan, in fact, it is useless for you to get the Great Purdue technique. In order for this magical power to not leak, the Lord Buddha must observe the Buddha's relics if he wants to successfully practice the Great Purdue technique."

"Buddha relics, what is this again?"

"The rumor is that it is the relic of the Buddha's death and condensed in the ancient times. It has been passed down. If you want to successfully practice the Grand Purdu technique, you must observe the Buddha's relic. What I said is true."

Ye Fan nodded secretly. This is very reasonable. Otherwise, even if he catches a person, he will be able to ask the core magical power secret technique, which power and ethics are still alive.

At this time, You Shisan woke up and said weakly: "Ye Fan, the catastrophe technique is the same. If you want to practice, you need to be recognized by the origin of the disaster. The origin of the disaster is also the treasure of our clan. You can't touch it. Yes. So, I will give you the catastrophe technique, and you can't practice it, so why bother."

Ye Fan smiled and said: "Now that the show can't connect, it doesn't mean that there will be no chance in the future. Take a 10,000 step back and say, collecting great magical powers, this is also a kind of enjoyment, isn't it."

You Shisan gritted his teeth and said: "Ye Fan, do you have to be so cruel? You dare not kill me because the Dark Spirit Race wants me. If you rush me, I blew myself up. I see how you explain to the Dark Spirit Race."

Ye Fan said, "Are you willing to explode? You finally escaped from the secret realm. Haven't seen this magnificent world yet, are you willing to die? You are not weak, you have a good potential, and you need to be the overlord in the future. Are you willing to die? You escape? When you leave the secret realm, the clan should also give you tasks, such as letting you break the seal as soon as possible and let the entire clan come out, so, can you die?"

You Shisan's face changed uncertainly.

Ye Fan is just like a demon, everything is calculated.

Indeed, what Ye Fan said, he didn't dare to die, he didn't want to die, and he couldn't die! !

"I only need catastrophe technique and don't want other things. This is my bottom line. Think about it. If not, then continue. Anyway, sometimes."

"Me, burn!"

You Shisan spoke, his voice mixed with unwillingness and humiliation.

The catastrophe technique is the core of the Nether Race, one of the most precious, comparable to the origin of the disaster; and now, he has to personally give it to outsiders.

How ironic!

"Ye Fan, if I don't die, I will pay it back ten times in the future, you wait!"

"Also, I'm just the thirteen young master of my clan. There are many older brothers and sisters in front of me, and even some of my younger brothers and sisters are better than me."

"Don't be proud, don't think that you suppress me, and look down on the younger generation of my clan. You never know the power of the Xeon clan."

Ye Fan's face was serious, remembering it in his heart, but his eyes were firm and fearless.

"In the future, when your clan is born, many young masters can come together to kill me, I'm also annoyed, take them all!"

"boom."

A wave of curiosity washed out.

Ye Fan's silver hair was swaying, thinking it was a heroic young God of War, making You Shisan a little dazed and very jealous.

The ancient Buddha of Rantuo sighed secretly, foreseeing that Buddhism had provoked a strong enemy, and he started to beat the drums in his heart, wondering if the Buddha could suppress Ye Fan.

After getting the catastrophe, Ye Fan stunned You Shisan.

At this time, Nalanruo brought the three people of Ji Zang over, and they had already burned all the powerful secret techniques they had learned.

"Is the catastrophe technique also obtained?"

"Yes, but if you want to cultivate, you will not succeed. It needs the origin of the disaster of the Nether race; the same great pursuing technique requires observing the Buddha's relic to practice."

Nalanruo said: "Unexpectedly, as the core supernatural powers of an orthodoxy and an ethnic group, it is impossible to learn it casually. This is a protection mechanism."

Ye Fan thoughtfully.

Haven't the Great Devouring Technique and the Great Seal Technique been learned directly?

Perhaps some magical methods have no protective measures.

"Look at it."

Nalanruo gave the inscription to Ye Fan. There were six-character mantras, Buddha Kingdom in the palm, Arhat golden body cultivation method, mustard steps, and the gate of all beings...

There are a total of twelve methods.

Ye Fan sighed again, that Buddhism has a profound heritage.

The ancient Buddha Rangtuo said: "I learned more than Burning Eyebrows and Burning Heart. I have nothing to record. Now, can we let us go."

"Not yet."

"Ye Fan, you have turned your back."

"Don't get excited." Ye Fan comforted the ancient Buddha of Gantuo, and said: "I am very interested in Tianzhu Buddhism. Tell me about any secrets. For example, the eighteen layers of **** under Lingshan. What is in it to create eighteen. What are the layers of **** doing? Could it be that you Buddhism really want to create six reincarnations."

"We, Buddhism, don't believe in the six reincarnations anymore. It is completely the imaginary of the ancient Buddha. The eighteen layers of **** are actually dungeons and resource places."

The ancient Buddha Nantuo seemed to let go, and sat slumped on the ground, "Give me water, I am thirsty."

Ye Fan grabbed a piece of river water and poured it on the ancient Buddha Rantua.

This guy drank enough, wiped his mouth, and said: "There are accumulated resources that have been treasured by Buddhism countless years ago; the other is that some prisoners are being held."

"It's that simple?"

"What do you think."

Ye Fan didn't believe it, but Buddhism took great pains to create eighteen layers of hell, just to pretend to be resources and to detain prisoners.

Are there so many prisoners?

Nonsense.

Ye Fan didn't ask, he knocked out the ancient Buddha and others.

Nalanruo asked, "What to do? Beheaded?"

"No, no, they are of great value. They can trade with Buddhism in the future and let Buddhism's resources exchange these four guys."

"But taking four people is very troublesome."

"I am going to contact Xiang Rulong and place these four guys in the Xiang clan temporarily. In addition, Xiang Rulong and I also want to make a deal."

Nalanruo's eyes lit up and she smiled and said, "You want great cursive techniques and supernatural powers."

The little virgin rubbed her temples and muttered: "Brother Fan, you are really too greedy, you want everything."

"Hey, there's no way. The Great Disaster Technique and the Great Purdu Technique can't be practiced for a while. I think there should be no protective measures to practice the Great Surgery. The Great Suppression Technique is very dominant against the enemy, and I have to get it. I will use the Great Purdue technique and Xiang Rulong in exchange."

Nalanruo's thoughts turned sharply, and said: "You fellow, with many tricks, exchanged the Grand Purdue technique to the Xiang clan, which is regarded as pulling the Xiang clan into the water. In the future, the Xiang clan will not be able to stand by. Or you will become the overlord in the future. If you want to go to Tianzhu to take the relic of the Buddha, you can also use this to fool Xiang Rulong and go with you, right?"

Ye Fan looked at Nalanruo deeply.

The latter said: "What's wrong, something dirty on my face?"

Ye Fan joked: "You know everything I think, now we have such a tacit understanding. You can relax a little bit, but don't break your own mind. When the time comes, you will be completely self-cultivating."

Nalanruo flipped through the performance and said coldly, "You don't need to worry about this."

"Clean up, let's go to the Xiang clan, and then I will go to Feng Shui-tightly to meet the Dark Spirit Patriarch alone. I don't know if I can walk out of the Dark Spirit Race territory this time, I feel that the Dark Spirit Patriarch will not let me go easily. . "

"Aren't there ancient demons covering you?"

"Who can guess that kind of big man's mind. Being strong is the kingly way. Relying on others to take care of it is not stable after all. I need to be promoted to a half-step overlord as soon as possible, so I am not afraid to deal with ordinary overlords."
