

Chapter 21:

Aurora's POV:

Elle texted me earlier to say that she is coming over and to wear something nice but never specified what we would be doing. Actually it could be having dinner together considering that she said she wanted to do that for valentine's day.

I didn't really know how to dress for the occasion, so I put on lingerie underneath my blue dress, just incase.

*ding**dong*

She here.

I went to open the door and as I did she stood there with flowers in hand. God she's perfect.

"Hey." she said gazing down at the floor. "Umm I was thinking that you could come over to mine for once?"

"Yeah of course." I said.

I have never actually been to Elle's house but I have never asked her why. I just assume she didn't want me to see her house or meet her parents or something.

~~~~~

Elle's POV:

"I know that my house isn't like as nice as yours." I said kind of scared what she will think.

"Elle, I don't care it's your home, it's lovely." she said as she reached her hand to my cheek, pulling me in for a chaste kiss.

"Umm thanks," I blushed, "I guess just make yourself comfy whilst I finish cooking."

"Okay." she kissed me on the cheek before sitting down on the sofa.

My nerves have calmed down a little bit now but I'm glad my parents are out for there dinner, meaning that I have the whole had to myself for the night. I need to try and play it cool tonight though because of what I'm going to tell her.

Once I finished cooking, I plated it on the table with a bouquet of flowers in the middle.

"Hey it's ready." I said walking into the lounge where Aurora was.

"It smells delicious." she smiled, making me blush.

Keep your cool Elle.

I walked round and pulled out a chair for Aurora to sit on and pushed her in before sitting opposite her. The candle lit room really brought out the colour of her eyes.

Throughout the dinner it was mostly small talk but I didn't mind it, the conversation just flows naturally with her, like the words just spill out of my mouth, like I could tell her anything.

A er we had both finished I moved the plates back into the kitchen to wash up, when I felt familiar hands snake around my waist.

"Hey." she whispered into my ear.

"Hey back."

She spun me around so that her face was only centimetres away from mine and I could feel her warm breath against my face.

"Soooooo..." I raised an eyebrow, "I didn't really know what to wear tonight so I may or may not be wearing some lace perhaps." she teased.

"Oh really?" I questioned as I began to take her upstairs to my room.

Once in my room, Aurora pulled me in for a searing kiss which quickly became heated. She slowly backed me against the bed so that I feel backwards onto it, supporting myself with my elbows I looked up at her. Her hands moved to the zip at the back of her dress, slowly unzipping it, her hands then moved to the straps that rested on her shoulders pulling them down, resulting in her dress forming a puddle around her ankles, leaving her in a matching lace set.

"What do you think baby?" she asked seductively as she walked over to where I was on the bed.

All I could do was nod at this moment in time.

She climbed on top of me, straddling my lap as she lowered her head down to connect our lips. Her hands tugged on my top as she said the words:

"Too many clothes." she panted.

Obeying her command, I quickly took the top half of my clothes o .

"Better?" I asked, disconnecting our lips for a split second.

"Much." she whispered against my lips.

As the kiss started to deepen, she started to grind slowly on top of me. But before it got any further I needed to tell her something.

Moving myself so that I was now sat upright, I moved my head back, moving my hand to cup her face, our faces inches apart.

"I love kissing you." I mumbled against her lips. "I love the way your body reacts with mine." I husked as I made my way down her neck. "I love the way you look at me." I murmured against her neck causing her to release a small moan of pleasure. Moving my hand down to her core, I ran my two fingers through her wet folds before slowly dipping in two digits, I then moved my fingers into my mouth before she moaned at the sight. "I love the way you taste. You know what I also love?" I asked.

She shook her head.

"You." I answered.

Before I knew it I was lay on my back as she kissed me rawly, full of emotion, conveying everything that she felt for me. I pulled away slightly, wanting to know how she felt.

"Elle," she cupped my face, "I love you too." she said before bringing me in for another kiss.

Grabbing my hand, she pulled it down to her centre.

"I want to ride you Elle." she husked.

Moving my fingers to her dripping hole, I slowly slide two fingers into her, giving her time to adjust before I moved them. She started to rock her hips against my two fingers slowly as she kneaded my breath with her hand.

This wasn't like the sex that we normally have, it was slow and meaningful.

I moved my thumb up to her clit, circling it slowly.

"Yeah...r-right thereee." she moaned.

I used my hips as leverage to be able to go deeper, to reach the spot that she needed, curling them at the right spot.

"I'm...!m....fuck cum." she moaned as she connected our lips again.

Honestly I could cum just by looking at her, and the feeling of her shuddering on top of me was enough to send me over the edge.

"I'm..." I panted.

"That's it baby, cum with me." she whispered against my lips, slowing down her hips.

A er coming down from our highs, we lay down next to each other. Once we had both caught our breaths back she rolled onto her side to face me.

"I love you." I smiled.

"I know baby." she stated as she lent in for a chaste kiss.

-----

A/N:

**Hey guys hoped you enjoyed that chapter, sorry I didn't update sooner but I had my mocks as I said but they went bad but what did I expect considering it was maths 🤔🤔🤔**

**Anyway feel free to vote or leave a comment xxx**
