#### Chapter 2771: Fire Lion changes owners

Ever since his conversation with Hades, Chen Xiaobei had a bold idea!

He was going to use the merit points he had to manipulate the price of the merit points book!

Originally, this was just an idea. He didn't expect that it would actually come true today!

Through refining and exchanging, Chen Xiaobei had turned the high-grade heavenly dog biscuit, which was originally very rare in the human world, into a common item that could be found everywhere!

As a result, he directly controlled the exchange price of the high-grade heavenly dog biscuit in the merit book!

"I want to continue exchanging!"

As Chen Xiaobei made his decision, the merit points ledger also gave him a response!

[ Suan ni high-grade heavenly dog biscuit: one merit point for one biscuit! ]

Please select the exchange amount!

"Hahaha! As expected, it had dropped to the lowest point! It's so cool!"

Chen Xiaobei was so excited that it was as if he had been injected with chicken blood, "one merit point for one high-grade heavenly dog biscuit. If I want to, I can even turn everyone in the city into loyal dogs!

Without a doubt, with the manipulation of the merit points ledger's price, it would be much easier for Chen Xiaobei to conquer cities in the future!

If he could subdue an enemy normally, he would do so normally!

If he couldn't subdue the enemy normally, he would just feed them dog food and force them to submit!

This time, Chen Xiaobei had successfully used his intelligence to activate a whole new cheat!

"I'll exchange it for 100 million first!"

Chen Xiaobei activated his godly tycoon Halo!

[ Suan ni required: 100 million ]

You have successfully exchanged for merit points. 100 million merit points have been deducted!

Yingying's current merit points are 6.515 billion (charm: 651.5 million, luck: 651.5 million!

Without a doubt, with these 100 million high-level heavenly courts, Chen Xiaobei could save himself a lot of trouble and kill a lot less!

This was a good thing for both public and private interests!

"Your Majesty, what are you laughing at?" E huoyunshan asked with a face full of doubt.

“It’s nothing!” Chen Xiaobei could not hide his smile. “Go! Go and feed dog food with this King!”

.....

City Lord’s mansion, central hall.

No. 8 Luban had already gathered all the officials, the leaders of the major forces, and the elders of the major families in the city.

Over 3,000 people were gathered together, but No. 8 Luban did not say anything.

Everyone just sat there, and as time passed, many of them couldn’t help but doze off on the spot.

“Everyone!”

At that moment, No. 8 Luban suddenly stood up and said, ” “I see that everyone is tired, so I’ll give everyone a snack later to help everyone refresh themselves!”

Chen Xiaobei walked into the room. He was wearing a human-skinned mask, so no one could recognize him.

Chen Xiaobei passed a piece of high-grade heavenly dog biscuit to each of them.

Everyone at the scene was dumbfounded. They couldn’t figure out what the ‘city Lord’ was trying to do.

First, he called everyone over, and then he didn’t say anything! After sitting there for half a day, he asked an unfamiliar young man to give everyone snacks?

This was too strange!

However, even though everyone felt that it was strange, no one dared to challenge the authority of the city Lord, e huoyunshan!

Everyone knew that e Huo Yunshan was e Huo Yuntian’s younger brother, the second strongest warrior in the fire cloud region, and also the highest ruler of the fire Lion City!

Even if e huoyunshan asked them to eat a big piece of poop, they would still obediently follow his instructions, let alone a small snack!

“Alright! Everyone should have a piece of dessert in their hands, right?” No. 8 Luban smiled and waved his hand, ” “Let’s all eat together! After you’re done, we can talk about serious business!”

As soon as he said that, everyone in the hall did as they were told and swallowed the high-grade heavenly dog biscuit!

A main city-level force would usually only have one seven-star earth-god expert in charge!

In other words, under e huoyun mountain, no one could reach the seven-star earth-god level!

As soon as the high-grade heavenly dog biscuit was consumed, the medicinal effect immediately took effect, and everyone naturally entered a state of recognition!

Chen Xiaobei took off his human skin mask and walked over to them to make them acknowledge him as their master, turning them into 100% loyal dogs!

Seeing the scene before them, e huoyunshan and Zhang chuteng were both dumbfounded, their scalps tingling!

“Heavens! His Majesty actually has such a powerful technique!”

“The higher-ups of the fiery eight ramparts are all e Huo Yuntian’s trusted aides, and some of them are even core upper echelons of the ehao family!”

“The 3000 people here are all the same! They were all loyal to e Huo Yuntian, and would not surrender, much less betray him! I didn’t expect that it would be so easily settled by Your Majesty’s ‘little snack’! ”

“Your Majesty! You’re simply too, too, too awesome!”

E huoyunshan was also dumbstruck, as he said in disbelief: taking down these three thousand people is equivalent to taking down the huge power and network behind them. It’s almost equivalent to taking down half of Fire Lion main city!

“As long as Your Majesty can subdue all the troops in the city, the entire Fire Lion City will be in your possession!”

.....

hehe! Chen Xiaobei chuckled. hehe! Before I came here, they all said that Fire Lion City is the most difficult city to break into other than fire cloud City! But in the end, didn’t I settle it in one day?”

As soon as he said this, not only e huoyunshan and Zhang chuteng, but all the three thousand people at the scene shouted in unison, ” “Your Majesty’s heavenly might is unparalleled! He was invincible! Ever-victorious! He’s invincible!”

.....

What happened after that was much simpler.

Chen Xiaobei took out 17 million pieces of advanced heavenly dog biscuit. Starting from Chengmen, No. 8 Luban made the five million firelion heavy-armored guards consume the advanced heavenly dog biscuit and acknowledge Chen Xiaobei as their master!

After that, the generals who had eaten the dog food gathered all their soldiers and ate the dog food as well, acknowledging Chen Xiaobei as their master!

With that, the remaining 17 million soldiers in Fire Lion City had all become Chen Xiaobei’s loyal dogs, loyal soldiers under the Royal flag of beixuan!

As long as Chen Xiaobei gave the order, they would fight with all their might!

However, Chen Xiaobei did not ask them to fight immediately. Instead, he asked them to stay in the city. Everything was as usual, and no one could tell that Fire Lion City had changed hands!

“Your Majesty! There are only five days left before the war between the two countries ...”

even if you don’t send the fire Lion Army out, you should at least release the news that Fire Lion City has changed hands. At least it can disrupt the enemy’s morale! Zhang chuteng said in a deep voice.

“What’s the hurry? Isn’t there still five more days?”

“I’m going to take down the remaining seven major cities of the eight fiery ramparts in five days!” Only in this way can we throw the Huo Yuntian into a state of confusion!”

five ... Five days to take seven cities!? Zhang chuteng swallowed his saliva and was shocked to the depths of his soul.

### Red Envelope Group of the Three Realms

#### **Chapter 2772: decisive battle**

It was obvious that no one would believe such a Grand claim of conquering seven cities in five days!

One had to know that those seven main cities were all within the ranks of the eight walls of the fiery flame!

In the seven cities, there were first-class Warriors in the entire fire cloud region. They were the most loyal to the higher-ups of fire cloud capital city, and they had the most powerful city-guarding arrays!

Not to mention attacking the city, even if they took turns to tour the seven main cities within five days, they might not even make it in time!

So, when Chen Xiaobei said those words, no one could believe it!

But five days later, Chen Xiaobei had successfully achieved his goal!

The seven main cities were all under the flag!

In fact, this was completely within reason!

One must know that Fire Lion City was the most difficult to break through among the eight fiery ramparts! The remaining seven main cities could not even compare to Fire Lion main city!

Chen Xiaobei had used the same strategy. First, he used No. 8 Luban to get close to the castellans of the various cities, and then he killed the nascent soul cultivators with his body!

Next, he used No. 8 Luban to summon all the big fish and prawns in the city. One dog food for each of them, and they became loyal dogs!

This way, Chen Xiaobei would have control over seven main cities!

Finally, he could use the high-level heavenly dog biscuit to turn all the Warriors in the city into his own Warriors!

After settling the Army, Chen Xiaobei would have the military power of seven cities!

With the military and political power in Chen Xiaobei’s hands, the seven main cities were naturally under bei Xuan’s control!

After this operation, Chen Xiaobei had not only taken over the seven cities, he had also gained a lot!

First of all, the nascent soul cultivators of the seven main cities had all become Chen Xiaobei’s ghost slaves! All of them were mid-tier seven-star earth-god level cultivators. Although their physical bodies

had been destroyed, their dharmakayas had been completed, and their cultivation levels were not reduced at all. To Chen Xiaobei, this meant that he had gained a powerful combat power!

Secondly, Chen Xiaobei had obtained a total of seven seven-star earth-god mid-tier magical treasures from them! He also chose the water-element water-splitting mysterious knife and the earth-element earth-suppressing battle hammer to activate the five elements great Dao!

The remaining five talismans were like chicken ribs in Chen Xiaobei's hands. They were tasteless and he decided to melt them all down.

The huge amount of spirituality that was produced could help to upgrade many of his trump cards.

After that, Chen Xiaobei went through all seven of their central Treasuries and took all the resources!

These seven treasure vaults were slightly smaller than Fire Lion main city's treasure vault, but the resources inside were also extremely rich! After all of them were charged into the Treasury of beixuan, the amount of resources they had would increase by at least ten times!

In the next twenty to thirty years, the royal city of beixuan would not have to worry about resources! He could reward his heroes and nurture talents as much as he wanted!

Apart from the basic resources, there were five billion upper spiritual stones in the seven Treasuries!

After taking all of them, Chen Xiaobei had 6.16 billion upper spiritual stones in his vault!

Previously, the total wealth of the royal city of beixuan was only 5.5 billion. After this round of operations, their wealth had more than doubled!

No wonder people with power loved to start wars!

This was because they could quickly gain huge benefits from war!

In the end, they found a total of 30 treasure chests in the seven main cities!

Ten of them were of little value to Chen Xiaobei. Although they were high-level treasures, they had no practical use and were immediately refined by Chen Xiaobei!

The other ten treasure chests were for this rare earth-god item. Although Chen Xiaobei had no use for it, he could keep it and sell it at the Dongsheng Chamber of Commerce for a good price!

The last ten treasure chests contained medicinal herbs, metals, and ores. Not only were they of high grade, they were also extremely rare. Most importantly, Chen Xiaobei might need them in the future! Of course, Chen Xiaobei had to keep these things with him at all times!

.....

Not only did Chen Xiaobei take down seven main cities in five days, but he had also made a huge profit!

He had returned to Fire Lion City!

In the city Lord's mansion's meeting hall!

Chen Xiaobei, Liu xuanxin, Xiang Yu, Ying Zheng, the nine Grand Wizards, and Zhang chuteng were all here!

In addition, Jia Sheng, Jia si, e huoyunshan, Huo Ming, Huo Zhao, Huo Yao, Yan mang, Yan Hui, Yan Feng, and Yan Ren, the nascent soul realm experts of the seven major cities, were all present!

the firecloud Army will arrive at huge axe city tomorrow!

Chen Xiaobei sat on the main seat in the middle and said, "After a few days of hard work, I've successfully taken down the eight fiery ramparts! He had over ten thousand battle generals and one hundred and thirty million mercenaries! Countless wealth and resources! I think I can fight the firecloud Army head-on!"

"Your Majesty is right! We've been holding back for so long, and it's time for us to fight the firecloud Army to the death!"

Xiang Yu stepped forward and said with a strong will to fight, "I've trained the five million Fire Lion heavy-armored guards that His Majesty gave me for five days. The front line is at its peak, and I'm willing to be the vanguard to break the enemy!"

Upon hearing this, Ying Zheng immediately said, "Your Majesty, I've trained the twelve million soldiers of the fire cloud Army well. They're all full of fighting spirit, like wolves and tigers! Your Majesty, please allow me to lead the Army and be the vanguard!"

let me be the vanguard ... Let me be the vanguard ... at the same time, the nine Grand shamans also scrambled to stand up, each of them holding back their energy, all of them wanted to make the first contribution in this decisive battle!

"Everyone, quiet down! We don't need a Vanguard in this battle!"

Suddenly, Chen Xiaobei smiled evilly and said, "I've already asked Bai Feng Chang Yi to tell e Huo Yuntian about the news of the eight fiery ramparts being broken through!"

e Huo Yuntian was furious. He immediately ordered the remaining troops in fire cloud capital city to move out in full force. Before sunrise tomorrow, they will kill their way to Fire Lion City!

.....

Everyone was shocked by his words!

"What? Why is Your Majesty doing this?"

Xiang Yu's brows furrowed and his face was full of surprise. "We've been keeping this a secret for the past five days and didn't let the outside world know that the eight fiery ramparts has changed hands! It's all for the sake of suddenly attacking e Huo Yuntian's rear during the final battle!"

His Majesty has leaked the secret. Not only have we lost the opportunity to launch a surprise attack, but we'll also turn from offensive to defensive, from active to passive!

"Yup! Your Majesty, what are you thinking?"

Zhang chuteng was also very puzzled, 'fire cloud capital city has 50 million troops! Only 10 million people are going on this expedition! If the remaining 40 million troops go all out to attack Fire Lion City, we won't be able to defend it at all! Even if we send reinforcements from the other seven cities, we won't be able to make it in time!"

"Who said I'm going to send reinforcements?"

"Do you still remember?" Chen Xiaobei smiled. I've said it a long time ago that the day of the final battle will not be my end, but the day of the change of ownership of fire cloud capital city!"

When everyone heard this, they were all puzzled.

Liu xuanxin was the only one who knew the entire plan. "Your Majesty! Are we going to set out overnight?"

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2773: the mountain has no master**

set off overnight?!

The crowd was even more confused after hearing Liu xuanxin's words.

"Miss Xuan Xin, what do you mean by that?"

Zhang chuteng said anxiously, "early tomorrow morning, e Huo Yuntian will personally lead an Army of hundreds of millions and arrive at huge axe city!" Fire cloud capital city's Army of 40 million will also reach Fire Lion Capital city!"

"The war is imminent! We should be thinking about how to defend now! How to break the situation! How can you still take the initiative to go out?"

"Yeah!"

in order to recover the fiery eight ramparts as quickly as possible, e Huo Yuntian has sent out all forty million soldiers in huoyun Royal City! Ying Zheng said worriedly.

"And right now, we only have 20 million soldiers guarding Fire Lion City! We might be able to fight if we defend the city, but if we abandon the main city and fight outside, we will lose without a doubt!"

Everyone nodded in agreement.

However, Chen Xiaobei did not seem to hear her and ordered, " Xuan Xin, take the verdant Emperor's divine gourd and pass on my order. Gather all the soldiers and get them into the verdant Emperor's divine gourd to prepare for battle!

"Yes, sir!" Liu xuanxin took the verdant Emperor's divine gourd and left.

Seeing this scene, everyone was completely confused! They could not understand what Chen Xiaobei was up to.

"Your Majesty! General Ying Zheng has clearly stated that the enemy has come out in full force, and there are as many as forty million of them!"

As the most senior Grand shaman, Grand shaman yaoshu couldn't stand it anymore. on the other hand, we only have 3.9 million Warriors from huge axe city and 17 million Warriors from Fire Lion City!

"Excluding the odd-job soldiers, the total number of troops is less than twenty million! Within Fire Lion City, they could still barely hold on by relying on the defense of the city! But if we go out of the city and fight them head-on, we'll be seeking our own deaths!"

Upon hearing this, the other Grand shamans also started to persuade him.

"Your Majesty! The 40 million Warriors of fire cloud capital city were all the most elite warriors in the entire fire cloud region! Even the fire Lion heavy armor guards could not compare! We really can't go out of the city and fight them head-on!"

"Your Majesty! Tomorrow was the day of the decisive battle! Huge axe city was in danger! If we can't defend the eight fiery ramparts, tomorrow will be our doomsday!"

"Your Majesty! You've been planning this for so long, you can't make a single mistake and lose the whole game!"

No one could understand Chen Xiaobei's decision. They were all worried that this decision would ruin the good situation that they had worked so hard to create!

However, Chen Xiaobei smiled and said, "Seeing you guys so worried, I can rest assured!"

"What?"

When everyone heard this, they were all dumbfounded.

Everyone looked at each other, completely confused. What was wrong with His Majesty today?

Making a rash decision would ruin the good situation! Seeing his officials so worried, he actually put on a good mood!

This was too cynical!

"Alright! Don't look at me like that! I'm going to tell you my entire plan now!"

"I've taken down all the cities in the eight fiery ramparts in the past five days! However, I kept it a secret from the outside world, and only revealed this information to e Huo Yuntian tonight, all in order to catch him off guard!"

Everyone was even more confused. "Your Majesty, what do you mean by this? Your decision just now clearly caught us off guard! How is he related to e Huo Yuntian?"

"That's right!"

yes! Chen Xiaobei nodded. when I said I was going to attack, all of you panicked and even told me to stay in the city!

"From this, it can be seen that my sudden decision has indeed caught you off guard! I've messed up your state of mind and made it impossible for you to think calmly. You've even ignored the simplest question!"

When everyone heard this, they realized that their performance just now was indeed anxious and flustered. They were completely unable to think calmly!

“You are not ordinary people! But now, you’ve all been caught off guard by me!”

of course! Chen Xiaobei grinned and said, “If e Huo Yuntian knew that the eight fiery ramparts had fallen into my hands, he would definitely lose his cool! So, I’m sure that he will be like you all, overlooking the most important issue!”

what’s the problem?! Everyone perked up their ears, waiting for Chen Xiaobei’s wise opinion.

“Lure the Tiger away from the mountain, the mountain has no master!”

“I suddenly revealed the news Tonight, e Huo Yuntian didn’t even have time to think about it!” In the midst of the panic, he ordered the 40 million troops in fire cloud capital city to come out! Come at us!”

“From this, it can be seen that e Huo Yuntian only wants to quickly take back the eight walls of the fiery flame! However, I forgot that my lair is already empty and no one is guarding it!”

“And you? You only wanted me to defend Fire Lion City to the death, but you forgot that it’s even bigger than Fire Lion City! Higher level! The more valuable fire cloud capital city!”

Chen Xiaobei’s lips curled into a devilish smile and he said, “At this moment, fire cloud capital city is already a land without an owner! The moment I arrive, I will be its new master!”

.....

A stone that caused a thousand ripples!

Chen Xiaobei’s casual words had a nuclear impact on everyone’s heart!

Everyone was dumbfounded. They felt as if they had been electrocuted by Chen Xiaobei’s words. They were so shocked that they were trembling!

“Your Majesty is truly a divine strategist!”

no wonder His Majesty ordered us to take down the eight fiery ramparts six days ago! said Ying Zheng excitedly. it turns out that he was preparing a super bait! Lure out all the watchdogs that e Huo Yuntian left in fire cloud capital city!”

“Brilliant plan! What a brilliant plan!”

Shaman Lord yaoshu rarely complimented others but now, he was full of praise for Chen Xiaobei. “Your Majesty has broken through the eight fiery ramparts, which is equivalent to cutting off the flesh on e Huo Yuntian’s heart! To reveal the news on the night before the decisive battle, even someone as strong as e Huo Yuntian would definitely not be able to keep his cool!”

“It’s more than just a brilliant plan! It was killing two birds with one stone! It’s the best of both worlds!”

Xiang Yu was also very excited, “We can take down fire cloud capital city tonight! As long as the news reached the front line, e Huo Yuntian would definitely rush back to help! At that time, huge axe city’s crisis will be resolved!”

Everyone finally understood Chen Xiaobei's plan. They all gave him a thumbs up and praised him!

"Let's go!"

hehe! Chen Xiaobei grinned and said, " come with me to take over huoyun Kingdom!

### Red Envelope Group of the Three Realms

#### **Chapter 2774: smooth takeover**

"His!"

In the pitch-black night, the demonic Qi of Burning Sky Warhawk was like a raging fire. It left a long afterimage in the air and directly landed in the palace of fire cloud capital city!

No. 8 Luban jumped down from the back of burning Warhawk and had already transformed into the first Prince's e Huo Lian ran!

The main hall of the Royal Palace!

After all, it was the night before the final battle. Dozens of people who looked like civil officials were gathered in the hall, anxiously waiting for the latest battle reports from the two battlefields!

The outcome of the war would directly determine the future of the entire fire cloud region! It was destined that many people would not be able to sleep tonight!

"Continuous burning? What are you doing here?"

A middle-aged man with a strong aura fixed his eyes on No. 8 Luban, who had appeared at the entrance of the hall.

"Third uncle!"

No. 8 Luban gave the middle-aged man a faint smile.

E Huo Yuntian had a total of two younger brothers, the second brother E Huo Yunshan and the third brother E Huo yunjiang!

At present, e Huo Yuntian had already gone to hundreds of millions of li away. Thus, all the affairs within fire cloud capital city, big and small, were handed over to e Huo yunjiang to manage!

"I just came back from hitting on some girls!" No. 8 Luban said with a smile. I saw that the main hall was brightly lit, so I came over to take a look!"

"You! When can I change this lecherous habit of mine!" E Huo yunjiang's face was filled with disappointment. He was very clear about e Huo Lianran's weakness of being lecherous.

"I'm destined to never change this habit of mine!"

No. 8 Luban smiled cynically, " "I was born without any great ambitions. I only want to pick up the most beautiful girls, drink the strongest wine, and be carefree for the rest of my life!"

"You little brat! As expected, it hasn't changed at all!" E Huo yunjiang didn't know whether to laugh or cry.

Obviously, Chen Xiaobei was the one who had used the wondrous sound perception to say those words behind her back!

Chen Xiaobei had learned about the e fire combo from Burning Sky Warhawk!

As such, after he had finished speaking, he had immediately dispelled the wariness of everyone present, including e Huo yunjiang!

In everyone's eyes, No. 8 Luban was the lecherous and useless e-Huo Lianran!

Without his wariness, everything would be easy to handle!

"Are you guys planning to wait for the news all night?" No. 8 Luban asked.

"Isn't that so?"

E Huo yunjiang said in a deep voice, "we're fighting on two fronts. Huge axe city and fire Lion City will have a huge battle tomorrow!" The situation of the battle is ever-changing. We have to wait here for news so that we can take the first step!"

"That's really tough!"

"I have some desserts on hand. They're really good!" No. 8 Luban said with a smile. Do you guys want to try it? Just treat it as a way to freshen up and get through this long night!"

"What snack?" "This kid's mouth has always been the most crafty!" E Huo yunjiang said curiously. If it wasn't a top-tier delicacy, you wouldn't even try it!"

"Of course!"

"Of course it's a top-tier dish!" No. 8 Luban laughed. I can guarantee that none of you have eaten it before!"

"Alright!"

E Huo yunjiang nodded and said, "there's still a few hours before daybreak. Since I'm free, I might as well try some of your snacks!" I'll just kill time!"

"Alright!"

No. 8 Luban grinned and began to distribute the high-grade heavenly dog biscuit to the crowd.

"It's indeed delicious!"

E Huo yunjiang was the first one to eat the dog food. He praised, "When chewed in the mouth, it's crunchy! Are there any more? Give third uncle more ... More ... More ..."

However, before he could finish his words, e Huo yunjiang's eyes became dull and lifeless. His voice also became stiff and cold.

Immediately after, about a dozen people at the scene also ate the dog food and entered a state of recognition.

However, there were still dozens of people at the scene who hadn't had time to eat the dog food. They all exclaimed and asked, "What's going on? His Royal Highness! What was going on? How did third master and the others suddenly become like this?"

"Woof! Buzzzzzz! Buzzzzzz! Yi ..."

Chen Xiaobei took off his ghost mask and revealed himself. He took out the verdant Emperor's divine gourd and released Liu xuanxin, Xiang Yu, Ying Zheng, Zhang chuteng, the nine Grand shamans, and the ten ghostly slaves!

you ... You, you, you ... You're Chen Zhufeng?! The remaining dozens of people looked as if they had seen a ghost. Their pupils contracted uncontrollably, and their bodies and minds trembled.

"That's right! I'm Chen Zhufeng!"

Chen Xiaobei scanned the crowd and said, "The biscuits in your hands taste really good! Hurry up and eat it! Don't waste my good intentions!"

"No! We're not eating!"

Hearing this, those dozens of people decisively refused, "You are a great enemy of our fire cloud capital city! Third master and the others have just finished eating your food and they look like idiots! You still want to trick us into eating? Stop dreaming!"

"I'm not lying to you! I'm just advising you to eat!"

"If I'm not mistaken, all the generals who stayed behind in huoyun Kingdom have already left the city! Now, only you civil officials are left in the city! If you listen to my advice, you can live. If you don't, then you can go die!"

"Clang! Clang! Clang ..."

As soon as Chen Xiaobei finished, Xiangyu and the others drew their weapons. Burning Sky Warhawk also gathered his ethereal force, and the ten ghost slaves were ready to kill!

"This ..."

The dozens of people were instantly dumbfounded.

Just as Chen Xiaobei had said, not only did the 40 million soldiers in huoyun Kingdom Come out, but all the generals had also left the city.

Among the dozens of civil officials present, the highest cultivation base was only at the five-star earth-god level. They were not even enough for Xiang Yu to play with.

"Eat ... We'll eat ..."

These officials knew very well that they were fish on the chopping board, waiting to be slaughtered by Chen Xiaobei.

In order to survive, they all ate the dog food in their hands.

After that, Chen Xiaobei walked over and made all the officials in the hall recognize him as their master. They were now 100% loyal dogs!

“Your Majesty, what should we do next?” Liu xuanxin asked.

“The next step is simple!”

all of you! Chen Xiaobei grinned. all of you, go down to the bottom level. Bring your subordinates and comfort the people!

“Yes, sir!” The dozens of civil officials immediately accepted the order and retreated.

Each of them was a high-ranking official in the core of the city. Under them, there were more than 100000 officials in charge. They were all over the city, so naturally, they could appease the people!

“Everyone else, follow me to the East Gate to set up a defense! Prepare for battle!” Chen Xiaobei said.

“Your Majesty, why are we only guarding the East Gate?” Everyone was puzzled.

“Stupid!”

“E Huo Yuntian’s Army is at the huge axe city in the West. It’ll take at least seven to eight days for them to return!” And the 40 million troops attacking Fire Lion City are in the East. They will be able to kill their way back in a day!”

“So, we’ll guard the East Gate first, then the West Gate! Two battles to settle the situation!”

### Red Envelope Group of the Three Realms

#### **Chapter 2775: turn of events**

The night was as dark as ink, deep and quiet! The River of Stars scattered down, gorgeous and beautiful!

It was destined that many people would not be able to sleep tonight!

On the eve of this decisive battle that would decide the future of the entire fire cloud region, no matter how beautiful the starry sky was, it could only be overshadowed and could not attract any admiring gazes!

Huge axe city, East City Tower!

Zhao Yun and Lu Bu had not rested for three days and three nights, and had not even left the room!

Diao Chan, Nezha, Hong Hai ‘er, and Lin Nan also took their weapons and went to the city gate tower, ready to fight!

“Did you hear that?”

Sister Yun closed her eyes and took a deep breath. “The enemy’s footsteps are getting closer! If they rush through the night, they’ll be able to reach the city before sunrise!”

“Yup ...”

Lu Bu's brows furrowed, and his eyes were like that of a ferocious Tiger as he stared ahead, "billions of soldiers are coming like tides. Every breath they take can raise a hurricane! Every step he took could shake the earth! The final battle ... Is already right before our eyes!"

"Still no news from bro bei? How can we break out of this dead end?" Nezha was anxious and worried. there are only six million Titan Warriors left in huge axe city ... We'll lose for sure once the enemy forces arrive!

"Idiot!"

Red Boy pouted and sighed. "We won't just lose this battle! If bro bei can't break out of this, we're all going to die!"

"What ... What should we do ..."

Lin Nan swallowed his saliva and said awkwardly, "My Lin family is still waiting for me to carry on the family line ... I don't even have a partner, I don't want to die yet ..."

"Don't be so pessimistic!"

Little Marten Chan blinked her watery eyes and said confidently, "Xiaobei Gege will never sell out his teammates! I believe that he will definitely think of a way to break out of this situation and protect all of us!"

that might be true ... But bro bei is still a mortal, not a God ...

Lin Nan frowned and said worriedly, "The enemy's Army of hundreds of millions, once formed into a battle formation, will be able to erupt with the power of a divine immortal! Only a true divine immortal can fight against it. Do you think bro bei can?"

this ... as soon as he said this, everyone's expression dimmed and they fell silent.

In front of a heaven immortal, how could a mortal survive?

.....

East of the fire cloud region.

On the main road to Fire Lion City, 40 million fire cloud troops were marching at their fastest speed!

These 40 million soldiers were all one-star earth-god level and above, and they were moving at an extremely fast speed!

If their journey was smooth, they would be able to arrive at Fire Lion City before sunrise the next day!

"Woof! Buzzzzzz! Yi ..."

On the ground, an Army of 40 million soldiers was charging! In the sky, there were five thousand powerful battle generals!

The cultivation of these battle generals was above three-star earth-god level. They were either standing on flying swords or riding birds. They were like a terrifying storm that covered the sky and earth!

And flying at the front of the battle generals were a total of ten seven-star earth-god experts!

Although these ten people were all under e Huo Yuntian and were subjects of fire cloud capital city, any one of them would have the ability to build a major city-level force if they were placed in other places!

Originally, e Huo Yuntian had wanted the ten of them to cooperate with e Huo yunjiang to guard fire cloud capital city!

However, in order to quickly take back the fiery eight ramparts, e Huo Yuntian had ordered them to move out in full force! With the force of a tsunami, they crushed over and took back their lost land in one go! He would not give Chen Xiaobei any chance to catch his breath!

“Great general fan! Do you think Chen Zhufeng is out of his mind? He can’t even defend huge axe city, yet he still dares to attack the eight fiery ramparts. Isn’t he digging his own grave?” A general said in a deep voice.

General fan smiled coldly and said, “Deputy general Shi, we just need to crush them and kill all the enemies! Why would you care if Chen Zhufeng’s brain was damaged? Or was his head kicked by a donkey? Isn’t the ending the same?”

“Right! General fan is right!”

Deputy general Shi grinned and nodded, “With great general fan and nine Tiger General, who awes the entire fire cloud region, we’ll be invincible! Beixuan’s Army would be defeated! Oh no! We’ll definitely be wiped out!”

As soon as he said this, great general fan and nine Tiger generals both laughed proudly.

the ten of us will fight together. Nine against a few million beixuan soldiers is like using a dragon-slaying knife to kill chickens. If they don’t die, I’ll just kill myself!

“Ha, the king gave us seven days to take back the eight walls of the fiery flame! In my opinion, three days should be more than enough!”

“Why three days? Tomorrow, I’ll behead Chen Zhufeng and bring him to every city. The soldiers in the city will be so scared that they’ll cry and surrender!”

“That’s right! As the saying goes, to capture the bandits, first capture the king! Beixuan’s soldiers were a motley crew! If we kill Chen Zhufeng, they’ll be like a pile of loose sand and surrender without a fight! Within a day, the eight walls of the fiery flame will return to our hands!”

At this point, great general fan and nine Tigers general were all beaming with joy and were extremely proud! He even began to fantasize that he would be rewarded handsomely after taking back the eight fiery ramparts!

.....

In the southwest of the fire cloud region.

On the main road to huge axe city, hundreds of millions of soldiers were also marching rapidly!

Among them, ten million soldiers of the firecloud Army were at the forefront!

The remaining thirty-four main cities each sent three million soldiers, a total of one hundred and two million soldiers, following closely behind like a tide!

As for the thirty-fifth city, the main city of Mount Han, because their entire clan was poisoned by the fire, they were unable to send troops!

However, a few days ago, the cold Mountain City Master had offered up ten thousand high-rank spirit tool-grade firecloud armors to help in the battle!

Among them, there were 5000 high-quality sets that had been equipped on the captain or commander of the fire cloud battle team!

This could also be considered the contribution of the cold Mountain City to the war. For this, E Huo Yuntian even made an exception and praised the cold Mountain City!

“My King! With our current speed, we can surround the city walls before dawn. Not even a fly can escape!”

A man who looked like a military counselor stood on a flying sword and sneered, “When the time comes, as long as His Majesty gives the order, none of the Beixuan soldiers will be able to escape! Even the huge axe villagers who betrayed the king will be slaughtered!”

At the side, a middle-aged man in a Crimson Dragon robe was sitting cross-legged on the head of a huge winged red python with his eyes narrowed!

This person was the fire cloud Supreme King, E Huo Yuntian!

“Completely slaughter them! Don’t leave a single one!”

E Huo Yuntian slowly opened his eyes. He looked ahead with a murderous look, “In this battle, I’m not only going to get rid of the enemy, but I’m also going to slaughter the entire huge axe city! Let the entire fire cloud region remember the consequences of betraying this King!”

“Your Majesty is wise!”

Of course! The military advisor smiled sinisterly and said, “As long as we kill everyone in huge axe city, no one in the fire cloud region will dare to be a traitor for the next few hundred years!”

“Right! This is the result this King wants!”

E Huo Yuntian’s eyes narrowed, and he spoke word by word, “No one, no matter what, can change this result!”

“Not good! King! It’s bad!”

At this moment, a general flew over in a hurry and said anxiously, “We just received an emergency report! Fire ... Fire cloud Kingdom has fallen ... Chen Zhufeng has ... Completely taken control of the city!”

what???

E huoyuntian had just finished speaking, and no one or anything could change the result he wanted. But now, he was slapped in the face on the spot, "Retreat! Retreat! All of you, return to save the palace!"

### Red Envelope Group of the Three Realms

#### **Chapter 2776: brilliant chain of plans**

"My King! Please calm down! This matter is very strange!"

yes! the military advisor furrowed his brows. a few hours ago, we received a report that Chen Zhufeng himself is preparing for battle at Fire Lion City! At the same time, all the combat generals in huge axe city stood on the city walls all night, not even daring to sleep!"

"What do you mean by that?" E Huo Yuntian's eyes narrowed as he asked in a deep voice.

"Your Majesty, think about it!"

The military advisor thought he had seen through everything and said, " "If Chen Zhufeng has a way to take down fire cloud Kingdom! The beixuan general in huge axe city would not be able to sleep! You should be sleeping at home without any worries!"

you mean this latest military report is fake? " E Huo Yuntian's brows were tightly knitted together. He was somewhat shaken.

"It must be fake!"

of course! the military advisor smiled confidently. Chen Zhufeng is a cunning man. He might have caught a spy in our Army and sent back a fake report! The purpose is to trick Your Majesty into retreating! Solve the crisis of huge axe city!"

"Hmm, you do have a point ..."

E Huo Yuntian nodded and said, "it's precisely because the crisis hasn't been resolved that the beixuan general in huge axe city doesn't dare to sleep!" If they knew that fire cloud Kingdom had fallen into Chen Zhufeng's hands, they would not be so nervous!"

"That's right! This is all Chen Zhufeng's plan!" "I'm willing to use my head to guarantee that fire cloud capital city will be safe and sound!" The military advisor said with certainty. We will never fall into Chen Zhufeng's hands!"

"Good! Fortunately, he had Sir's reminder! Otherwise, I would have fallen into Chen Zhufeng's trap!"

E Huo Yuntian let out a sigh of relief and shouted, "Pass on my order! Stop retreating! Continue to attack huge axe city! Even if the sky is falling, you have to arrive before sunrise! We'll slaughter the entire city, not leaving even a chicken or dog alive!"

Ding Ling Ling Ling

At this moment, e Huo Yuntian's phone rang.

The screen displayed e Huo Yun River.

“Hahaha! It’s a call from third brother!” that’s right! e Huo Yuntian praised, “ third brother is in charge of guarding fire cloud capital city. If he calls to report that he’s safe, it proves that the military report just now was indeed Chen Zhufeng’s trick! Military counselor, you’re really a divine strategist!”

“Many thanks for the king’s praise!” “Hurry up and answer the call. Don’t let third master wait too long!” The military advisor smiled proudly.

“Alright!”

E Huo Yuntian nodded and answered the call.

The other end of the phone had just said a sentence, but e Huo Yuntian’s face had instantly turned ashen, and then completely black!

A frivolous and playful voice came from the other end of the phone. “E Huo Yuntian, don’t ever doubt your ears! I am Chen Zhufeng himself! E huoyun River has already fallen into my hands, and fire cloud capital city has also fallen into my hands!”

“Chen Zhufeng! You’re Chen Zhufeng?” E Huo Yuntian’s entire face became distorted. Just a second ago, he was still making a solemn vow that even if the sky fell, he would kill his way to huge axe city! In that second, Chen Xiaobei had smacked his face!

“What’s wrong? You don’t believe in my identity?”

I’m sitting in your Palace right now. I’m going to open your Treasury and take everything you have! Chen Xiaobei laughed.

“Impossible!”

E Huo Yuntian roared, “this king’s palace is heavily guarded!” How could you possibly enter! This King’s Treasury is in an extremely secret place, how could you know its location!”

“Are you stupid?”

of course! Chen Xiaobei laughed. all the generals and soldiers in fire cloud Kingdom are attacking Fire Lion kingdom! There were only a few dozen officials in the palace. Not only did they not stop me, but they also told me that your Treasury was hidden in a Xumi space in your Palace!”

“This is impossible! This is impossible!”

E Huo Yuntian was dumbstruck. His eyes were opened so wide that it seemed as if his eye sockets were about to burst. The veins on his forehead were protruding as if they would burst at any moment, “Only third brother knows the secret of the Treasury! He would never betray this King!”

“I think you’re really stupid!”

“If e huoyunjiang didn’t tell me, how would I have known?” Chen Xiaobei sneered. Of course, you can choose not to believe it! I’ll think of a way to break the formation you used to seal that Sumeru space and take everything you have with you!”

“You dare!” E Huo Yuntian was extremely furious when he heard this. He had completely lost control of his emotions! His eyes were bloodshot and he looked like a ghost! It bared its fangs as if it wanted to eat people and devour their souls!

Without a doubt, if the fire cloud capital city was the most precious treasure of e Huo Yuntian, then the fire cloud Treasury hidden in the Meru space would be the lifeblood of e Huo Yuntian that he absolutely could not lose!

E Huo Yuntian had managed the fire cloud region for millions of years, and all the benefits he had plundered were in that National Treasury!

If Chen Xiaobei really did unseal the storage space and take away the entire Treasury, e Huo Yuntian’s life would have been in vain!

It was precisely because of this that e Huo Yuntian was so furious that he had lost his mind!

This was exactly the effect that Chen Xiaobei wanted!

Originally, e Huo Yuntian was a fierce tiger, very, very dangerous!

However, this Tiger had lost his mind. Although it was still dangerous, he would make fatal mistakes that he would never make when he was calm!

“Pass on my order! Retreat and save the Imperial City!”

E Huo Yuntian suddenly roared. He paused for a moment and then said, “At the same time, order fan de Tong! The 40 million strong Army quickly retreated and returned to the capital before sunrise the next day! Full force attack! Kill Chen Zhufeng! Take back the control of the Imperial City!”

“My King! What ... What is going on?” The military advisor asked with a blank look.

“Chen Zhufeng! This extremely cunning fellow! He’s using a chain of schemes!”

E Huo Yuntian’s entire face was contorted. He was so angry that he was about to vomit blood, “He took down the eight fiery ramparts long ago! But it was only tonight that this King was informed of the news!”

“In a moment of desperation, I sent out 40 million troops to attack Fire Lion City overnight! We’ve fallen for the first trick of luring the Tiger out of the mountain!”

“Then, Chen Zhufeng pretended to defend Fire Lion City! He had even kept it from the beixuan generals in great axe city and made them worry all night! This is the second plan!”

“Chen Zhufeng abandoned Fire Lion City and took fire cloud capital city while we were unprepared! Then, you deliberately made this phone call to anger me and force me to retreat! This is the third plan, besieging Wei to save Zhao!”

E Huo Yuntian was filled with hatred, “in just one night, Chen Zhufeng used three tricks to trick me like a monkey!” This kid is so cunning at such a young age! How detestable! How hateful! This is unforgivable!”

“My King!”

The military advisor swallowed his saliva and advised, " "Since you know that Chen Zhufeng has many tricks up his sleeve! Aren't you afraid that he will come up with a fourth, fifth, and sixth trick after these three?"

"Nonsense!"

E Huo Yuntian's eyes widened in anger, and he was even more depressed than if he had eaten a piece of cake: "Of course, I know that Chen Zhufeng has more tricks up his sleeve! But this King has no choice but to return!"

"My King! Please don't be impulsive! You must think twice before you act!" "If you jump into Chen Zhufeng's trap, the consequences will be unimaginable ... Ugh ..."

The military advisor quickly advised. Before the military advisor could finish his words, he suddenly felt a chill on his neck!

His throat was wiped by a stream of true essence, and his head fell to the ground!

"Idiot! You still dare to mislead this King!"

E Huo Yuntian glanced at the headless corpse and said coldly, " "There's no consequence worse than losing the entire Treasury! So, even if I know it's a trap, this King can only bite the bullet and jump in!"

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2777: decisive battle begins**

Huge axe city.

"Report! The latest military news!"

A guard rushed over with a face full of surprise and reported, " "Fire cloud capital's hundreds of millions of troops have all retreated! And it's an extremely fast retreat!"

"Is the information reliable?" Lu Bu's brows furrowed in disbelief.

"He's reliable!" "Our spies saw it with their own eyes!" The guard said excitedly. The enemy is retreating so fast that even the scouts can't catch up!"

Sister Yun squinted her eyes and said in a wise manner, "It seems that something serious has happened at the enemy's rear!"

"So, we don't have to die?" Lin Nan felt as if he had been granted Amnesty, and his entire body relaxed.

"That's great!" Nezha was so excited, I'm guessing that bro bei's luck must be off the charts! He must have brought us good luck too!

"Well said!" of course! Red Boy nodded heavily. bro bei stopped the battle at huge axe city. He's brought a better life to the people! His luck was at its peak! It also brings us good luck, so it's reasonable!"

Chan 'er, everyone is very happy. Why do you still look so unhappy? " Lu Bu asked with concern.

Little Marten Chan furrowed her brows and pursed her lips, " logically speaking, this should be a good thing, but I have a bad feeling about this ...

“It’s just a premonition, don’t take it seriously!” ” of course! Zhao Yun smiled indifferently. now that huge axe city’s crisis has been completely resolved, everyone can relax!

“No! We can’t relax yet!”

At this moment, Jiang Ziya and old Wang arrived at the top of the city wall at the same time. “Although the crisis in huge axe city has been resolved! However, our Emperor is about to face a terrifying battle!”

“What? Elder Jiang! What do you mean by that?” Everyone was stunned, their eyes filled with anxiety and worry.

At this time, Jiang Ziya would not joke with them!

This meant that Chen Xiaobei was in a very, very dangerous situation!

“His Majesty just called!”

“His Majesty has just taken complete control of fire cloud capital city and made a phone call to enrage e Huo Yuntian, which is why the hundreds of millions of Allied forces retreated at high speed, ensuring our safety!” Jiang Ziya said in a deep voice.

As soon as he said that, everyone came to a realization!

Red Boy frowned and said, ” so it wasn’t luck that we managed to escape! It’s all thanks to bro bei’s help!”

Lin Nan swallowed his saliva and said awkwardly, ” “Bro bei is using himself as bait to lure the enemy away! We might be safe, but bro bei is in danger!”

“Yup ...”

The more Zhao Yun thought about it, the more anxious she became, the ones who retreated were the hundreds of millions of firecloud troops and the forty million troops who attacked Fire Lion City! The other 34 main cities might even have more reinforcements! I’m afraid that hundreds of millions, or even billions of troops will attack fire cloud capital city!”

“Oh my God ...”

Lu Bu sucked in a cold breath, such a force is enough to completely raze fire cloud capital city to the ground! His Majesty’s actions were equivalent to completely plunging himself into death! I’m afraid it’s a sure death!”

“We really can’t think of any way to break out of this situation ...”

however, His Majesty is not someone we can compare to, ” Lao Wang said in a deep voice. perhaps he already has a countermeasure!

“That being said ... What if Xiaobei Gege doesn’t have a plan? Are we just going to wait for death there?” ” I’m going to help Brother Xiaobei! Diao Chan said worriedly.

“Diao Chan! Stop right there!”

“His Majesty said it on the phone!” Jiang Ziya said. The few of us have to continue to guard huge axe city. If the enemy comes back, we’ll have to protect the people in this city!”

“No! I have to go and help Xiaobei Gege!” “ if anything happens to Xiaobei Gege, I’ll never be able to rest in peace! Marten Chan said stubbornly.

“Little Diao Chan! You listen to me!”

Jiang Ziya frowned and sighed, “ “If anything happens to His Majesty, none of us here will feel good! However, even if we leave huge axe city behind, what can we do to help His Majesty?”

this ... heart Diao Chan was instantly speechless.

It was obvious that none of them could compare to Chen Xiaobei in terms of intelligence or Trump cards! Even if they all rushed to fire cloud capital city, they would not be able to provide any substantial help to the battle!

There was basically no difference whether he went or not!

He might as well stay in huge axe city. At least he could protect the people in the city and let Chen Xiaobei focus on the battle!

“Your Majesty’s decision is absolutely correct!” Jiang Ziya said in a deep voice. In the current situation, everything can only be left to Your Majesty!”

Everyone fell silent. They all agreed with Chen Xiaobei’s decision!

However, no one left!

Even though the crisis in huge axe city had been averted, everyone was still standing on the city wall, looking towards the east and praying for Chen Xiaobei!

.....

The East gradually brightened, and the red sun was born!

It was supposed to be a gentle and quiet morning, but the curtain was drawn with the thunderous footsteps of the Army!

General fan de Tong and nine Tiger generals led an Army of 40 million soldiers and successfully arrived at the east side of fire cloud capital city!

At the same time, Chen Xiaobei personally led 20 million troops to guard the East Gate!

The two armies confronted each other, and the confrontation was imminent!

From their auras, both sides were full of fighting spirit and their blood was boiling.

But those with discerning eyes could see that this battle had no suspense at all!

That was because the difference in numbers between the two sides was more than double! On average, the firecloud Warriors were also stronger! Similarly, the weapons and equipment of the fire cloud Warriors were superior!

On the other hand, only the 900000 Jiuli Warriors and the five million Fire Lion heavy-armored guards stood out in the beixuan Army! However, in terms of individual combat power, none of them could compare to the fire cloud Warriors!

Weak combat strength! The number of people was small!

The outcome of such a battle was already clear at a glance!

“Chen Zhufeng! You’re really sick in the head!”

General fan de Tong stood on the back of a huge black Bull with six horns and three tails. He used his true essence to spread his voice to the entire area, even the entire city!

All of a sudden, tens of millions of eyes were focused on him!

Even the three billion people in the city perked up their ears and paid attention to any changes in the battle!

what? ” fan de Tong said disdainfully. you, Chen Zhufeng, took the palace last night. You could have robbed the palace and ran away! But you’re foolishly waiting for me to arrive, and you still want to fight me? He’s really stupid!”

“You’re wrong! I, Chen Zhufeng, did not attack the city for money and resources! It was to end all the wars in this region! In order to let the people of this region live a better and happier life!”

Chen Xiaobei stood on top of burning hawk’s head and said, ” “That’s why I won’t run away after taking the benefits! I want to defeat you fair and square! Only in this way can I achieve my goal of stopping the war!”

As soon as he said that, the tens of millions of soldiers on the battlefield were all touched!

The three billion people in the city were even more touched! His state of mind was even more shocked!

One must know that they were living under e Huo Yuntian’s command, with heavy taxes on their bodies, and being bullied by the powerful, their lives were unspeakable!

With Chen Xiaobei’s words and huge axe city’s tax exemption, the people of huge axe city could live and work in peace! It instantly ignited the fire of hope in the hearts of the people! It gave them a glimmer of hope for a beautiful future!

“PAH!”

Hearing this, fan de Tong said with even more disdain, “A little trash like you wants to stop the battle with a battle? Stop dreaming!”

“Am I dreaming? You’ll know soon enough!” Chen Xiaobei smiled and said, ” “Start the battle!”

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2778**

2778 Heavenly evil flames

“Boom boom boom ... Boom boom boom ... Boom boom boom ...”

Under Chen Xiaobei's command, the 20 million strong Army immediately marched forward, moving quickly and rhythmically!

It was obvious that they were going to form the "four phases absolute killing battle formation" and combine everyone's strength to resist the strong enemy!

Among them, 900000 Jiuli Warriors and 3 million huge-axe Warriors had long been trained by Xiang Yu and Ying Zheng, and they had already memorized the battle formation thoroughly!

The remaining 17 million Warriors of Fire Lion City had also practiced the deduction of the battle formation in the past six days!

The main point was that these 17 million people had all eaten high-level heavenly dog biscuit and were absolutely obedient to orders. Therefore, they were extremely serious when they were training. Although their speed of forming the formation was slightly slower, they would definitely succeed!

"Great general fan! The enemy is getting into formation!"

Seeing this, the battle generals of fire cloud couldn't sit still. "Let's quickly attack! Disrupt the enemy's formation and prevent them from successfully forming their formation!"

"If they can form a formation, can't we?"

"I have the [Flaming Cloud heavenly evil battle formation], which is also at the heavenly immortal stage!" Fan de Tong said disdainfully. "We have more soldiers, and our average cultivation is higher. Once they get into formation, we will crush them!"

Everyone was still worried and tried to persuade him, "General fan, don't forget! Without Your Majesty's fire-stabilizing blade, the flaming Cloud heavenly evil battle formation can't be used to its full potential. I'm afraid it's no match for the beixuan Army!"

Fan de Tong didn't care about the Army of bei Xuan at all. He sneered, "Heh, the beixuan Army is just a motley crew. They might not even be able to unleash the full power of their own battle formation! Moreover, our [heavenly evil fire cloud battle formation] also possesses a heaven-defying ability!"

It was because of this that the surrounding battle generals fell silent and did not say anything.

"Boom boom boom ... Boom boom boom ..."

With a wave of fan de Tong's flag, the 40 million fire cloud Warriors began to move into formation, ready to fight with the North Xuan Army!

Whoosh ... Whoosh ...

Soon, the two battle formations were formed almost at the same time, and they emitted two terrifying waves of true essence!

The fire cloud Army's true Yuan burned like a raging fire, and the vast 40 million people interweaved into a blazing sea of fire that seemed to drown the entire world!

Beixuan's true essence had four colors-green! White! Red! Blue! The four-colored true Qi did not mix with each other, but they came from the same source and could complement each other, helping each other grow! Although its power had yet to show, it was enough to shock the entire world!

"Great general fan, you truly have divine foresight! Beixuan's troops were indeed a motley crew! They've wasted their divine immortal level battle formation for nothing!"

Seeing this, the battle generals of fire cloud's side all relaxed. They even had smiles on their faces and were very proud.

"From the spiritual fluctuations, their battle formation's level is higher than ours! But they couldn't unleash their full power! Judging from the fluctuation of his vital essence, he's only a mid-stage nine-star earth-god, which is about the same power as our battle formation!"

"In a situation where the power is about the same, our battle formation has a heaven-defying ability! It's as easy as turning over my hand to crush them!"

"That's why they say great general fan can predict things like a god! I've already seen through everything, so I'm naturally not afraid of a head-on battle formation!"

"Beixuan's strongest trump card is their battle formation, but we can destroy it! This way of winning was tough enough! It's satisfying enough!"

It was obvious that on fire cloud's side, from the battle generals to the Warriors, everyone was certain that they would win this battle!

All of them were smiling smugly. They had even started to plan how to celebrate after crushing the beixuan Army!

At the same time, the three billion people in fire cloud capital city also understood the situation of the battle through the bright spiritual light and intense vital essence that erupted from the two battle formations!

There was no doubt that there were also experts among the commoners. They could naturally see that the Tian Huan Army had completely leaned toward the huoyun Army!

In this head-on confrontation, the beixuan Army would be defeated without any chance of turning the tables!

At the thought of this, the spark of hope that had just been ignited in the hearts of the commoners was instantly extinguished by a basin of cold water! He could only silently accept his fate and continue to live those miserable days!

Without a doubt, everyone was certain that beixuan's Army was going to be defeated!

But the strange thing was that all the beixuan generals and soldiers looked relaxed, as if what was in front of them was not a sure-lose situation, but a trivial matter that could be solved with a simple move!

This was because Chen Xiaobei had already told everyone the plan when he was setting up the defense last night!

Everyone knew that as long as they followed Chen Xiaobei's plan, they would definitely win this battle!

Because of this, no one in Beixuan was worried about this battle!

Of course, the enemies were kept in the dark. They had no idea about Chen Xiaobei's plan!

"Chen Zhufeng! Are you ready to die?"

Fan de Tong held his head high and said arrogantly, "Don't say that I didn't give you a chance! If you kneel down and kowtow for mercy now, I might spare your lowly life! The motley crew behind you can also escape death!"

"Cut the crap! Let's fight directly!"

Chen Xiaobei said, "I'll say this, if you don't want to die, then kneel! Anyone who is standing, kill without mercy!"

"Boom boom boom ..."

With Chen Xiaobei's words, the power of the four symbols killing battle formation was activated!

The green vital essence transformed into the green Dragon Dharma power! The White vital energy transformed into the White Tiger Dharma power! The red vital essence transformed into the Vermilion Bird Dharma form! The blue vital energy transformed into the black Tortoise Dharma power!

The four elements appeared together, and the world changed colors!

Four ancient and desolate auras instantly gushed out like four mountains, crushing down on the enemy!

"Idiot! Since you're so desperate to court death, this general will fulfill your wish!" Fan de Tong coldly waved the flag and roared, "All troops, attack! Slaughter all the enemy soldiers! Leave no survivors!"

"Boom boom boom ..."

As soon as he finished speaking, the power of the [ Flaming Cloud heavenly evil battle formation ] also burst out!

The true essence of forty million people, through the mysterious operation of the battle formation, gathered at the small formation eyes in all directions, and then through the small formation eyes, gathered at the core formation eye!

In the blink of an eye, a huge pillar of fire shot out of the core array eye like a volcanic eruption!

Below the pillar of fire was a vast sea of fire formed by forty million people!

Above the pillar of fire, even the sky began to burn, turning into a vast sea of fire that hung in the sky!

"Chen Zhufeng! Your death is here!"

Fan de Tong's face was filled with passion as he roared with all his might, "Heavens! Evil! Zhi! Fire!"

[Red Envelope Group of the Three Realms](#)

**Chapter 2779: sudden counterattack**

“BOOM! BOOM! BOOM! BOOM!”

Four deafening and terrifying explosions erupted in the sea of fire above the firmament!

In the next moment, four huge fireballs crashed down. From a distance, it looked like the sun was falling from the sky, about to crush the entire earth into pieces and burn it into ashes!

Seeing this, the soldiers and generals of the firecloud Army became excited as if they were injected with chicken blood!

“The heavenly evil flame! It had been seven hundred years! The heavenly evil flame had finally reappeared! The last time the heavenly evil fire appeared was when another major power at the level of a King City came to attack the fire cloud region!”

“Yup! In the battle seven hundred years ago, our King killed the leader of the forces in the capital city with the heavenly evil fire. That was why the forces in the surrounding capital cities didn’t dare to attack the fire cloud region!”

“Today will be the same. The heavenly evil fire will crush the fire cloud bandits with its super ‘burning special ability’! Let the King of Thieves, Chen Zhufeng, die without a complete body and soul!”

.....

At the same time, the four huge heavenly evil fireballs were already crushing the Dharma laksanas of the Azure Dragon, White Tiger, Vermillion Bird, and black Tortoise!

It was strange to say that the [ Flaming Cloud heavenly evil battle formation ] was slightly lower in level than the [ four phases absolute kill battle formation ], but because there were more people forming the formation, the battle power that erupted from the two was basically the same!

But!

When the flames of heavenly evil came crashing down, the four Dharma beasts were obviously at a disadvantage. They gave off the feeling that they were completely suppressed and could be defeated at any time!

Ordinary people would not be able to figure out why!

Only those who knew about the ‘burning special ability’ would know that the heavenly evil fire had the upper hand because this special ability could burn the opponent’s Zhen Yuan to a certain extent!

Simply put, the power of the two battle formations should have been equal, but the ‘burning special ability’ had burned a part of the true essence of the [ four phases absolute killing battle formation ], and the balance of the two forces was instantly broken!

It was precisely because of this that the firecloud Army was full of confidence in this battle! He was certain that the heavenly evil fire would destroy the four phases absolute killing battle formation through its special ability!

However, they had forgotten the most important point!

Last night, when he was setting up his defense, Chen Xiaobei had already learned about the 'burning special ability' through the Huo Yun River!

It was not an exaggeration to say that Chen Xiaobei's understanding of the 'burning special ability' was one level deeper than the Huo Yuntian's!

Because! Chen Xiaobei had the Dragon's edge!

This was the first special ability of this treasure, the third tribulation, the black Lightning tribulation! It was a heaven-defying ability that could make any power return to Nirvana!

As long as the level of the Dragon's edge was lower than the dragon's own level, it could completely destroy one's vital essence, physical strength, and any other force with one slash!

In comparison, the demonic Dragon tribulation's Nirvana Black Thunder special ability was 108000 levels higher than the heavenly evil fire's 'burning special ability'!

Even the Nirvana Black Thunder Esper ability was limited by its level, let alone the 'incineration Esper ability'!

Chen Xiaobei had already understood this, so he naturally had a way to make the four Dharma forms counter the heavenly evil fire!

The reason why Chen Xiaobei did not attack earlier was to make the enemy let down their guard!

Wasn't this? Seeing the fire of heavenly evil suppressing the four Dharma forms, everyone from fan de Tong to the ordinary soldiers of the firecloud Army was proud of themselves. They thought that they would win for sure!

And this was also the time when they were the most relaxed and least prepared!

"Shaman Lord yaoshu!"

Chen Xiaobei stood on top of burning hawk's head and said, "Let's act according to the plan!"

"Yes, sir!"

Grand shaman yaoshu nodded and raised the ancient staff in his hand high. He quickly chanted some ancient and obscure wizard spells!

At the same time, the 60000 great shamans, shamans, and apprentices of the yaoshu tribe all started to chant the same spell!

"Seven stars and seven luminaries! Four-nine Killing Curse!"

Suddenly, Grand shaman yaoshu gave a low growl. He gripped his staff tightly with both hands and suddenly pressed it down, stabbing it heavily into the ground!

boom boom boom ... Boom boom boom ...

In the next moment, countless cracks appeared on the ground like cobwebs. Forty-nine streams of mysterious curse power spread rapidly from the ground like black tree roots and rushed toward the fire cloud Army!

At this moment, the fire cloud Army was extremely pleased with themselves. They even began to fantasize about how they would celebrate their victory!

“Woof! Buzzzzzz! Yi ...”

All of a sudden, the power of 49 witchcraft curses burst out from the ground!

Because this was a curse and not Zhen Yuan, it did not have a physical body. Therefore, it passed through the protective Zhen Yuan of the without any hindrance!

The black witchcraft power grew like roots and climbed up along the legs of the 49 people. It then turned into vines and firmly entangled the bodies of the 49 people!

“Bang! Bang! Bang! Bang ...”

In the next moment, the black vines suddenly tightened. The forty-nine people who were entangled didn't even have the time to scream before they all exploded and died, turning into pieces of corpses on the ground!

“What's the matter? Why did the formation suddenly change?” Fan de Tong was shocked and quickly asked.

Forty million people, with no end in sight. Even fan de Tong did not know what was happening!

“Don't worry, great general fan!”

The surrounding battle generals had nonchalant expressions. “It was just Chen Zhufeng's sneak attack and he killed more than forty people! To our Army, it's just a drop in the ocean. It's not enough to affect the battle!”

“Heh, Chen Zhufeng is so stupid! You're still putting up such a pointless resistance when you're about to die!” even if I let him have 40000 or even 4 million people, he's no match for me, let alone 40! fan de Tong said disdainfully.

The combat generals around him laughed and nodded, their eyes full of disdain and mockery!

“Whoosh! Whoosh! Whoosh! Whoosh!”

However, their laughter suddenly stopped in the next moment! What replaced it was a scream of fear from the depths of his soul!

It was as if a powerful force had been injected into the four phase Dharma, and it instantly rose up! Not only did it push the four heavenly evil fireballs above his head, but it also tore them into pieces and destroyed them completely!

In other words, in the head-on confrontation between the two battle formations, the [ four phases absolute killing battle formation ] had obtained the final victory! And it was an absolute crushing victory!

Then, the four phase Dharma came crashing down!

Without the protection of the [ Flaming Cloud heavenly evil battle formation ], the forty million people below were like forty million ants! The number of casualties in an instant would be counted in the tens of millions! In three to five seconds, they would all be slaughtered!

spare me ... Your Majesty, spare me ... Please spare me, Your Majesty ...

In the blink of an eye, miserable shrieks filled the air!

40 million people all knelt down!

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2780: subduing all**

For a moment, wails of begging for mercy resounded through the world!

In the face of a test of life and death, most people would instinctively seek survival and would never foolishly seek death!

The forty million soldiers in the center of the fire cloud Army knew very well that a battle formation, especially a high-level giant battle formation, would have to wait for more than three minutes before it could be activated again!

At this moment, the [ Flaming Cloud heavenly evil battle formation ] had been completely broken. The four Dharma forms could kill everyone in a few seconds! They didn't even have three minutes to catch their breath!

Furthermore, even if Chen Xiaobei gave them three minutes to regroup, the power that they could unleash would be much weaker than before!

This was because the 49 people that the yaoshu tribe had cursed to death weren't 49 ordinary soldiers! It was the fire cloud Commander who controlled the forty-nine small formation cores of the [ fire cloud heavenly evil battle formation ]!

Chen Xiaobei had obtained half of the flaming Cloud heavenly evil battle formation's formation map from the huge axe city's Treasury!

Although there were only 49 insignificant formation cores, it was enough for Chen Xiaobei to change the outcome of the battle!

First of all, after cursing these forty-nine people to death, forty-nine holes had appeared in the [ Flaming Cloud heavenly evil battle formation ]. The circulation and convergence of true Yuan had been severely obstructed, and its power had dropped by at least thirty percent! It was a level lower than the four phases absolute killing battle formation!

At the same time, the level of the burning special ability had also decreased. If it was lower than the level of the four phases absolute killing battle formation, the burning special ability would lose its effect!

It was because of this that the four-phase Xiantian was able to rise up and counterattack!

But now, 49 commanders had been killed by the curse. If they were replaced by ordinary Warriors, although they could still form a formation, the power would definitely be reduced!

Even if Chen Xiaobei had given them three minutes, their formation would still be doomed to fail!

In fact, from the moment the yaoshu tribe's curse was successful, Chen Xiaobei's plan had already succeeded. The huoyun Army could no longer change the outcome of their defeat!

The 40 million people knew that Chen Xiaobei could easily kill them all with a single thought, as if they were ants!

Of course, the luck of these 40 million people was very good!

Chen Xiaobei's goal was not to kill! They wouldn't engage in a large-scale massacre!

"This King has said that those who stand will be killed without mercy! Since you've all knelt down, this King will spare your lives for the time being!"

So, at this moment of life and death, Chen Xiaobei raised his hand and stopped the deadly power of the four Dharma forms!

Of course, Chen Xiaobei would not trust these enemies so easily!

Chen Xiaobei opened the merit record and once again began to exchange for high-grade heavenly dog food on a large scale!

[ Suan ni required: 115 million ]

[ Suan ni has been successfully redeemed for merit points. 115 million merit points have been deducted! ]

Youyou's current merit points: 6.4 billion (charm: [ 640000, luck: 640000 ]

Whoosh ... Whoosh ...

Chen Xiaobei then took out 40 million pieces of high-grade heavenly dog biscuit and threw them at the huoyun Army like a storm!

apart from the seven-star earth-god level cultivators, those who want to live, take one pill each! Chen Xiaobei used his ethereal force to transmit his voice to the entire battlefield so that every single soldier could hear him clearly.

At that moment, Chen Xiaobei was standing in an undefeatable position. He had the power to kill everyone. He could kill everyone with a single thought!

Therefore, no one in the crowd dared to disobey Chen Xiaobei's order!

Soon, 40 million high-level heavenly courts were picked up and distributed to each of the fire cloud Warriors!

After that, Chen Xiaobei gave out another 5000 high-grade heavenly dog biscuit to the 5000 combat generals.

After that, all of them recognized Chen Xiaobei as their master. From Chen Xiaobei's enemy, they became his loyal dogs! In this way, their lives would be saved!

In the end, only fan de Tong and nine Tiger generals were left!

The cultivation of these ten people had reached the seven-star earth-god level, so they were immune to the effects of the high-grade heavenly dog food!

But Chen Xiaobei still had a way to deal with them!

That was to make them give up their physical bodies and accept the infinite soul ring's infinite mark in their primordial spirits, turning them into Chen Xiaobei's ghostly slaves!

The benefit of doing so was that they would become 100% loyal slaves!

However, there was a drawback to this. After becoming a ghost slave, their nascent soul would lose the ability to possess a physical body!

Under normal circumstances, even if a nascent soul cultivator's physical body was destroyed, he could still possess or rebuild a new physical body and return to his normal life!

However, once a nascent soul cultivator became a ghost slave, he could only be a ghost for the rest of his life and could never return to his physical body!

In this way, compared to normal nascent Soul Stage cultivators, the ghost slaves lacked the 'armor' of their physical bodies, and they would definitely be at a disadvantage in a battle of the same level!

In other words, if there was a higher grade of dog food to subdue a seven-star earth immortal, he would be a loyal dog with a physical body and a nascent soul, and his combat strength would be stronger than these ghost slaves without physical bodies subdued by the infinite soul ring!

Of course, in Chen Xiaobei's eyes, fan de Tong and the so-called nine Tiger generals were just 10 noobs. It did not matter if they were there or not. So, he could just take them as his ghost slaves. He did not need to take special care of them!

.....

At this point, the first round of the decisive battle had been completely settled!

Not only did Chen Xiaobei win, but he had also taken in ten ghost slaves, five thousand generals, and an Army of forty million!

Most importantly, Chen Xiaobei had won the hearts of the three billion people in the city with this battle!

When the war first started, the people thought that Chen Xiaobei would lose. The fire of hope that was ignited in their hearts was completely extinguished!

But now that Chen Xiaobei had won, the People's hope was rekindled, and it even became a spark! Torch! A sea of fire!

As the saying goes, a single spark can set a Prairie on fire!

Chen Xiaobei's victory was like a spark that ignited a fire in the hearts of the people!

All of them hoped from the bottom of their hearts that Chen Xiaobei would win the final victory! He had successfully taken over the fire cloud domain! He would also bring a better life and a happier future to all the people in this region!

Of course! This was definitely not an easy task!

.....

As soon as the battle ended, Chen Xiaobei gathered all the higher-ups in the palace to discuss their next move!

right now, all the officials, generals, leaders of the major factions, elders of the major clans, and all the soldiers in fire cloud capital city have become my loyal dogs! Coupled with the support of the people, the entire Palace has been twisted into a rope!"

Chen Xiaobei said, " "However, our greatest obstacle has yet to arrive! If there were no accidents, within seven days, e Huo Yuntian would lead a terrifying Army to surround huoyun capital city! This King would like to hear how you all plan to fight?"
