### Chapter 491: Shen Ping's Advantage (2)

Shen Ping used the same trick again and flashed to the stone house. He sat cross-legged and circulated his cultivation technique again until the magic power in his body was completely recovered. He activated the first form of the silk blade, Falling Rain, and instantly killed more than a thousand. Then, he used his spear to rush in and kill more than two thousand before teleporting away.

This was repeated twice. Tens of thousands of bull-like creatures were killed. He looked at the immortal seal divine runes on his arm.

Total ranking: 103,526

Ranking on the third level of the underground palace: 1,785.

He could not help but look surprised. From the moment he walked out of the stone house to killing all the wild bull-like creatures, the entire process did not even take an hour. Although he had wasted some time in the stone house, he thought that his killing speed was already fast enough. He did not expect that his ranking would still be so low. Moreover, even among the Beast Spirit geniuses on the third level of the underground palace, he was actually only ranked more than a thousand! "I can't underestimate any genius!" He sighed.

Light immediately surged into the sky from the stone house.

Shen Ping returned to the stone house in a flash. Two doors appeared in the room, one emitting a purple light and the other a blue light. The blue light revealed a familiar aura, as if it led to the underground palace, while the purple light was deep and mysterious. "I see. Blue is to return, and purple is to continue."

He resolutely stepped into the purple door. When he appeared again, it was also a simple stone house covered in moss. Since he knew the rules, he pushed open the stone door without any hesitation.

They were still tens of thousands of bull-like creatures. The difference was that these creatures had strange beast patterns on their horns, and the magical power aura they emitted was stronger.

Falling Rain!!

Swish, swish, swish.

First, a round of silk blades swept across. Then, Shen Ping teleported to the edge of the black curtain to recover his magic power. With his current physique, as long as he did not enhance and teleport, as well as use the Eye of Sea Beast at the same time, the burden on his body was relatively low. If he only used teleportation, he could use it more than ten times in a short period of time.

Falling Rain swept over.

Soon, only a thousand of the tens of thousands of Barbaric Bull-like creatures with stronger auras were left. Shen Ping did not recover his magic powers. Instead, he went forward and used the low-grade Beast Spirit Treasure spear to sense the strength of these creatures.

Puff, puff, puff!

The golden spear shadows continuously erupted with the might of the magical power of the strange beasts. Every spear shadow was accompanied by the fall of a Barbaric Bull. In just five minutes, thousands of creatures were killed.

“It looks like it’s about the same strength as an early-stage Nascent Soul Beast Spirit genius, but there’s no order in its attacks. There’s only instinct.”

The might of a strange beast at the level of beast hide, coupled with 50% of the concept of the beast form, allowed him to easily erupt with the power of a low-grade beast spirit treasure. He would not have any pressure killing Beast Spirit geniuses of the same cultivation realm, let alone these creatures that only had instincts.

Even the Beast Spirit geniuses on the second level of the underground palace could pass through the second stone house grassland safely.

Psst.

The stone house lit up again. When Shen Ping flashed past, he casually glanced at his arm.

Total ranking: 31,250

Ranking on the third level of the underground palace: 378th.

Tsk, tsk. The effect of using the first form of a high-level Beast Spirit Treasure was not bad. However, he did not feel excited. After all, the rankings in the early stages were meaningless. After walking into the stone house, he stepped into the purple door again.

Under the ancient tree of the Spiritual Race, dozens of figures emitting vast auras floated and sat cross-legged. Each of their faces had different shapes and patterns. Some had translucent wings on their backs, but at this moment, they frowned in unison.

“It’s been more than an hour since the Beast Spirit Ranking opened. Regardless of whether it’s on each level of the Underground Palace or the overall ranking, the Realm Clan firmly occupies the top three. There’s no place for our Spirit Clan!”

“I wonder what’s going on in the competition. Even if the prodigies of my Spiritual Race can’t occupy the first place, they should be in the top three!”

“There’s no need to be anxious. It’s still too early to make a conclusion!”

In the core territory of the Devil Clan.

The Devil Clan’s Venerable Sovereign had a smile on his face. “That’s right. The prodigies of our Devil Clan are quite hard working. Although they aren’t in the top three, there are still quite a number of people in the top ten and top twenty. As long as we can maintain it, it will be a great contribution to our Devil Clan!”

The group of Immortal Venerables under him congratulated him. “Congratulations, Venerable Sovereign. Congratulations to the Devil Clan!”

The atmosphere in the entire hall became lively.

The Flame Clan, the Winged Clan, and the Devil Clan's Beast Spirit prodigies were ranked in half. This was because the top 30 were almost occupied by the Realm Clan, the Spirit Clan, the Devil Clan, and the Skeleton Clan. Only two of the Winged Clan had entered the top 50.

As for the demons, they were even worse. They did not even enter the top fifty.

In the human Misty Peak.

The Beast Spirit Ranking had opened. No one from the upper echelons of the Immortal Dao went into seclusion to cultivate. They were all gathered at the peak.

"Immortal Venerable Qi's ranking is very ordinary. He didn't even enter the top 10,000. He's an Immortal Venerable. Although his comprehension of the Beast Scripture isn't high, his experience in all aspects far exceeds the beast spirit geniuses of the various races!"

"That's right. As the saying goes, one step ahead of the other. If you don't enter the top 10,000 at the beginning, it will probably be very difficult to rush in."

"Genius Shen is not bad. Although his overall ranking is very low, he's still not bad on the third level of the underground palace. There are races with innate advantages like the Realm Clan, Skeleton Clan, Totem Divine Clan, and so on. It's already a pleasant surprise to be able to enter the top 500."

Several Immortal Venerables discussed in low voices.

There were many Beast Spirit geniuses that the other races could watch, but there were only two of them in the human race. Moreover, none of them had entered 10,000. It was really a disgraceful thing. However, they had no choice. If it was before the appearance of the Myriad Spirit Ranking, they naturally could not tolerate such a situation. However, they were already used to it now.

The human Venerable Sovereign glanced at it and said indifferently, "It's still early. Just watch."

On the grassland of the second stone house, Yin Ting's figure continuously flickered in the air. Every time she flickered, sword blades would burst out and easily kill the barbaric bull-like creatures. Moreover, she could take advantage of the intervals between attacks to recover her magic power, allowing the magic power of the strange beast in her body to maintain a healthy state at all times.

She looked at the decreasing number of creatures below. Thoughts floated in her mind. If she had a high-level beast spirit treasure, with her comprehension of the concept of strange beasts and the power of strange beasts, it would be even easier.

Not long after, light surged out of the stone house. When she walked in, she glanced at her arm.

Total ranking: 45,721

Underground Palace Ranking: 463

"I can't be too fast. The creatures in front are weak. I have to try my best to figure out the weaknesses of these creatures. As long as I can continue, my ranking will

continue to advance." As her thoughts drifted, Yin Ting could not help but think of Shen Ping. She wondered how he was doing.

In front of the door of purple and blue light, on the grassland of the third stone house, Shen Ping's expression was slightly solemn. This time, the barbaric bull-like creature was even stronger. It was already equivalent to a late-stage Nascent Soul Beast Spirit genius. If he did not activate the power of the silk blade and relied on the low-grade spear to fight in close combat, he would find it a little strenuous.

He had no choice. He was very lacking in spells and combat experience.

With the same amount of magic power consumed, the number of creatures he killed could not be compared to other Beast Spirit geniuses. Fortunately, he had a high-grade Beast Spirit Treasure. The power he activated was enough to easily kill Void Refinement Realm Beast Spirit geniuses who did not have strong defense.

"The creatures in the next stone house will probably advance to the Divine Transformation realm. There's a risk of injury with early-stage Nascent Soul realm magic power. If not for my teleportation talent, I definitely wouldn't dare to continue. From the looks of it, the next stone house should be the dividing line between all the Beast Spirit geniuses!"

The third stone house was the one he had just passed. As long as he could unleash the full power of a low-grade beast spirit treasure and had rich combat experience, he could pass it after spending more time. However, the next one was different.

Without exceeding the level of comprehension of the complete beast form, it was very difficult to pass.

Shen Ping took a deep breath and stepped into the purple door with a determined gaze. Swoosh. He quickly appeared in the fourth stone house. He glanced at the immortal seal divine runes on his arm.

Total ranking: 21,370

Ranking on the third level of the underground palace: 164th..

## Chapter 492: Final Ranking (1)

"20,000. Yin Ting said that if one want to enter the top 10,000 on the Beast Spirit Ranking this time, they have to at least reach the level of beast bones' scales. If they want to reach the level of beast skin, they have to reach more than 30% of the Strange Beast Concept."

In the stone house that was mottled with moss, Shen Ping was not in a hurry to leave and charge for the rankings. Instead, he sat cross-legged and adjusted his magic powers and mental state. He thought about the ranking competition this time. "I'm only at 50% of the beast form in terms of the strange beast concept. I only comprehended the Talisman Beast Scripture's beast skin. I haven't

comprehended a trace of the true beast scripture, let alone the concept. I can rush to this level so quickly because of my teleportation talent and high-level beast spirit treasure.”

His eyes flickered. “Although the chances of entering the top 10,000 are not high, I have to do my best to fight for it!”

The Beast Spirit Ranking was very important. Shen Ping just did not know what it would affect, but he knew that the higher the ranking, the better. Both his master and Yin Ting had told him this.

After adjusting, he stepped out of the stone house and looked at the barbaric bull-like creature on the vast grassland. He took a deep breath and went forward.

Rumble-

The speed of the creature in the fourth stone house was even more shocking. It only took ten breaths to reach the stone house from the distant grassland. In other words, if Shen Ping relied on his teleportation talent this time, he would only have ten breaths to recover his magic powers.

Compared to the third stone house, the energy of the strange beasts here was even richer and more violent. It only took seven breaths for his Nascent Soul magic powers to completely recover.

In this situation, he could easily unleash the power of the form of a high-level beast spirit treasure.

Falling Rain!

Thousands of tiny silk blades swept through the bovine-like creature like a storm. Every silk blade could pierce through the creature’s scaled head.

However, Shen Ping discovered that the power of a high-grade beast spirit treasure was actually a little difficult to deal with the fourth Barbaric Bull creature. After a round of explosions, he had killed less than a thousand Barbaric Bull creatures. Although only thirty or so were not dead, it undoubtedly meant that the defense of the Barbaric Bull creatures was getting stronger.

It could be seen from the gradually increasing number of scale patterns on these creatures.

“The situation is even worse. Not only has the strength of the barbaric bull-like creature soared, but the defense of its scales has also increased rapidly. From the looks of it, my previous estimation will be greatly reduced. It’s very likely that I won’t even be able to pass the seventh stone house!”

After continuously using Falling Rain to successfully pass through the fourth stone house grassland, Shen Ping felt the pressure. But he had no choice. He could only grit his teeth and continue charging!

The strength of the barbaric bull-like creature in the fifth stone house had already reached the late-stage of the Divine Transformation Realm. The scales on its entire body exceeded 50%. Its speed was very shocking. It only took seven breaths to go from the black curtain to the stone house.

He had no doubt that if he dared to use his spear to fight in the herd of Barbaric Bulls, his outcome would definitely be extremely miserable.

Enhancement!

In the end, Shen Ping still used his other strange beast talent. Under the enhancement state, his magic powers at the early-stage Nascent Soul realm directly soared to the early-stage Divine Transformation realm. His magic powers increased greatly, and the power of his high-grade beast spirit treasure form increased correspondingly. Originally, a round of Falling Rain could only kill more than 700 bulls, but after the enhancement, he killed another thousand.

He passed the fifth round!

He looked at the immortal seal divine runes on his arm as he stood in front of the blue and purple door.

Total ranking: 13,842.

Ranking of the third level of the underground palace: 67th.

Shen Ping's speed of killing the barbaric bull-like creature was already fast enough. After all, he had teleported to recover his magic power and then used high-level beast spiritual treasures to kill in groups. His efficiency was extremely high, but he still did not rush into the top 10,000. He had only entered the top 100 on the third level of the underground palace.

Clearly, those Beast Spirit geniuses ranked in front of him basically had high-level Beast Spirit Treasures. Moreover, their efficiency in killing them was not inferior to his. It was very likely that they were all prodigies of various races.

"The sixth one..." He hesitated when he looked at the purple door. The strength of the next Barbaric Bulls would definitely surpass the Divine Transformation Realm and reach the Void Refinement Realm. In his enhanced state, he could kill them with Falling Rain. However, he had to consider one thing, and that was speed. Once the Barbaric Bull could cross the black border to the stone house in two to three breaths, his teleportation advantage would completely disappear.

No matter how fast he was, he also needed time to react.

"The fifth is seven breaths. The sixth is very likely to be four breaths, or even less!" Shen Ping gritted his teeth and looked conflicted. To be honest, he was very unwilling to give up on charging into the rankings now. He also understood that he could reach this stage was all because of his enhancement talent.

In the end, he chose to continue. If it was really dangerous, he could only use the defensive Scarlet Flame Blood Shield to slowly grind down those Barbaric Bull creatures. If it really didn't work, he would use the high-grade palace-type beast spirit treasure.

Whoosh.

After stepping into the purple door, it was still a stone house. However, the strange beast energy in the air had reached an astonishing level. He sat down cross-legged and circulated it for a breath. The magic power in his dantian was instantly filled to perfection.

Moreover, even if he used enhancement to increase his magic powers to the early-stage of the Divine Transformation Realm, it would still take him a breath to completely consume them and recover.

This made Shen Ping look happy. Magic powers were the foundation. As long as he had magic power, he could use it to attack and defend with ease. He pushed open the stone door. The moment he stepped out of the threshold, the stone door closed.

The Barbaric Bulls wandering on the grassland in the distance seemed to have sensed something. They turned towards the stone house and rushed over crazily..

## Chapter 493 Final Ranking (2)

Shen Ping could determine the speed of these creatures from the extent of their scale patterns as he passed through five stone houses in a row. These Barbaric Bulls covered in 70% scales only needed three breaths to rush over from the grassland to the stone house. This meant that there was a buffer time of five breaths from the black border to the stone house.

It took two breaths to recover his magic power and unleash his explosive power. It was enough!

Falling Rain.

A round of form power erupted. The silk blades swept through the air. However, he did not kill a single Barbaric Bull.

He was already prepared in his heart. He activated his teleportation talent and flashed to the border of the black screen. After recovering his magic power, he activated Enhancement and used Falling Rain again. 700 of them were severely injured and 300 were slightly injured.

Such a powerful defense shocked Shen Ping. There was no time to think as he quickly teleported to the stone house and looked at the herd of Barbaric Bulls in the distance with a solemn expression. "The defense of the Barbaric Bulls in this stone house has increased a lot, but it's not bad news for me!

The speed of the heavily injured Barbaric Bulls had clearly decreased. As long as another round came, he would definitely be able to kill them. However, if their speed increased sharply, there would not be enough time for him to teleport and react.

Falling Rain, Falling Rain.

Under the continuous eruption of the power of his form, Shen Ping's control of the silk blade became more and more free. However, after continuous enhancement of teleportation, the burden on his body gradually increased. During this period, he could only use teleportation to dodge and recover his body.

It took him twenty minutes to pass through the sixth stone hut grassland. When the stone door opened, Shen Ping flashed in and sat cross-legged to rest. He stayed for ten hours. Only then did the burning sensation in his body disappear. He looked at the immortal seal divine runes.

Total ranking: 8,576

Ranking on the third level of the underground palace: 18.

He grinned. It was not easy! He finally made it into the top 10,000. He even made it into the top 20 on the third level of the underground palace. Moreover, he had rested for a long time this time.

Those who were slowly charging towards the rankings later had also rushed up one after another. Therefore, this ranking would basically not change much.

Even if he left now, he would still be ranked among the top ten thousand.

“The sixth stone house grassland is indeed difficult. The power of my enhanced form can only severely injure them. If other Beast Spirit geniuses want to kill one, not only do they have to have a high-grade Beast Spirit Treasure, but they also have to be able to activate the power of the second form!”

In the dense herd of Barbaric Bulls, even if he could unleash the power of the second form, he could only obtain a temporary opportunity to catch his breath. Therefore, Shen Ping knew very well that to be able to pass through the sixth stone house grassland, he had to comprehend the level of beast bones, 30% of the beast skin concept. Of course, if it was only the level of the beast skin, he had to reach more than 50% of the concept.

He got up, walked in front of the blue and purple door. This time, Shen Ping did not hesitate at all and stepped into the blue door.

The sixth round was his limit. If nothing went wrong, the strength of the Barbaric Bulls would definitely be at the late-stage of Void Refinement. Its speed would also be reduced to about three breaths. This was only secondary. The most important thing was its defense. It was very likely that even if he used Falling Rain, the Barbaric Bull would not be injured.

In a complicated maze-like valley, the Realm Race with twelve arms pushed open the simple wooden door and looked at the large number of scorpion-like creatures rushing over from different directions. There was no trace of panic on his face.

“Not only are these poisonous scorpions covered in scales, but their charm has also increased to 30%. It’s still a little difficult.

Swish, swish, swish. The scorpion-like creature crossed hundreds of kilometers in a sprint and pounced at the Realm Race member in the blink of an eye. Almost instantly, he faced tens of thousands of densely packed poisonous scorpions.

Psst.

A strange beast scale pattern suddenly surged out of the Realm Race member’s body. His twelve arms were like cold long knives that waved in the group of scorpion-like creatures. His entire body was like a real strange beast that had descended. Every attack, the magic power that erupted condensed into a strange beast image, making it difficult for tens of thousands of scorpion-like creatures to approach within a hundred feet of him.

A moment passed, the valley was filled with the corpses of scorpion-like creatures. He passed the seventh wooden house valley. There was a faint smile on his face as he flashed into the wooden house and resolutely stepped into the purple door. The divine runes on his arm were shockingly ranked first!

in the same valley, a prodigy of the Spirit Clan with a face and forehead filled with strange patterns looked at the densely packed scorpion-like creatures charging over. A feather fan appeared in his palm. As he controlled it, the feather fan was like a peacock spreading its tail, erupting with more

than ten thousand beams of light. Every beam of light could easily kill Body Integration cultivators. This was only the activation of magic powers at the early-stage Nascent Soul realm. If he was not restrained, even Itinerant Immortals would not be able to withstand the power of this light.

However, when it landed on the scorpions, it only severely injured thousands of them.

“The defense of these scorpion-like creatures is getting stronger and stronger. Moreover, with the enhancement of the charm of the strange beast, they no longer instinctively use their scales to resist. It’ll only take a little more effort.” After killing the scorpion, he glanced at his arm, which was ranked fourth. He immediately frowned. “In the entire myriad races, only the two geniuses of the Realm Race are stronger than me. And the difficulty of this sixth wooden house valley is not low. Even I have to spend some time. Could it be that the Realm Race has hidden geniuses? Or are they from other races?”

“Damn it! No matter who’s hiding, I’m definitely going to fight for first place on the Beast Spirit Ranking this time round!”

In the valley of the fifth wooden house, the strongest prodigy of the Devil Clan looked at the immortal seal divine runes and could not help but sigh. He did not even enter the top ten. This made him feel a little frustrated. Although the Venerable Sovereign did not have high expectations of them this time, if there was no place for the Devil Clan in the top ten, one could imagine the Venerable Sovereign’s anger. After all, the Devil Clan was in the top five on the Myriad Spirit Ranking. “I have to continue charging!”

On the grassland of the fourth stone house, Yin Ting looked at the last barbaric bull-like creature that had fallen, and a smile appeared on her face as if she had been relieved of a heavy burden. She had finally passed this one. If she went any further, although she could give it a try with her strength, the possibility of her being injured or even dying was very high.

“If I had a high-level beast spirit treasure, I would definitely be able to pass the fifth one!” She sighed as she returned to the stone house. Although she was a first-grade Beast Spirit genius, it was mainly because of Shen Ping that she could raise her status. She had not really enjoyed the treatment of resources for long. This time, she could only stop at the fourth round.

Under the ancient tree of the Spirit Race, the majestic figure that was hovering in the air exuded a vast aura. However, their expressions were getting uglier and uglier. Since the opening of the Beast Spirit Ranking, most of the rankings were close to stabilizing. Many of the rankings of the Beast Spirit geniuses had not changed, which meant that many Beast Spirit geniuses had been eliminated. From the information they had obtained, the fourth stone house grassland was a dividing line. This time, more than 99% of the Beast Spirit geniuses had stopped at this one.

Therefore, the rankings could basically be seen now. However, the Spirit Race’s geniuses did not enter the top three! Even though there were three prodigies from the Spirit Race in the top ten, the top three were the key.

“The prodigies of my race are still trying to break through the rankings. I believe they will definitely win first place!

Many Immortal Venerables announced. They didn’t believe it themselves, but no one dared to say anything that would offend him.

The Venerable Sovereign’s expression did not change, but he sighed in his heart. In the end, the Realm Race still had too much of an advantage. It seemed very difficult to surpass them in terms of bloodline.

“The World Deity Mountain is located in the realm sea, and the Realm Race has always been mysterious. Even if we pull in the Venerable Sovereigns of the Devil Clan, the Flame Clan, the Winged Clan, and the other races, it will be difficult for us to gain an advantage from them.”

At the Venerable Sovereign level, they did not care about the power of the strange beast. The reason why they valued the prodigies of their race was most importantly for longevity. So far, they only knew that there was a secret of longevity in the Strange Beast Gate, but they did not know what it was. The Realm Race was different. They were born in the realm sea, and it was rumored that at the end of the realm sea was longevity and eternity.

Therefore, the Spirit Clan, the Devil Clan, the Flame Clan, and even the once glorious Human Clan all wanted to find the Worldly Deity Mountain and obtain the secret of longevity from the Realm Clan. Even a trace of it was fine..

#### Chapter 494: Bestowment from the Beast Spirit Ranking (1)

The Beast Spirit geniuses who stepped into the blue door would return to the White marble square. There were already more than 90,000 Beast Spirit geniuses gathered in the square on the third level of the underground palace. The Beast Spirit Ranking had yet to end and they had to stay here. Most of the living beings were staring at the Beast Spirit Ranking hanging high in the air.

“The geniuses of the Realm Clan are too strong. Whether it’s the overall ranking or the top three rankings, they’ve occupied most of it!”

“That’s right. In the past, the Realm Clan’s prodigies rarely appeared. Although I knew that they were very strong, I did not understand the difference. Now that the Beast Spirit Ranking has appeared, they are far ahead. It simply makes people despair!”

“The prodigies of the Devil Clan, the Spirit Clan, and the Flame Clan are famous, but they’re far inferior to the prodigies of the Realm Clan!”

“The prodigies of the Stone Clan, the Skeleton Clan, and the Totem Divine Clan are also ranked very high. Looks like after the Beast Spirit Ranking opens this time, the top ten clans of the myriad clans will change!”

“That’s right. The Devil Clan, the Spirit Clan, and the other races are just relying on the fact that there are many Beast Spirit geniuses in their clan, while the Realm Race and the other races are too few. Otherwise, how could the Devil Clan and the Spirit Race have a share in the top three of the Myriad Spirit Ranking?”

“You can’t say that. The Realm Clan is born with the bloodline of strange beasts. It is said that after every clan member matures, they can comprehend the level of beast bones. This is an innate talent. How can the other clans catch up?”

Many Beast Spirit geniuses were discussing. Among them, the Beast Spirit geniuses of the Devil Clan, Spirit Clan, and Flame Clan were very angry at these discussions. However, facts were better than words. Other than individual rankings, they did not have a place in the top three.

Among these living beings, Yin Ting, who was wearing purple and green soft armor, was staring at the rankings. Her beautiful face was filled with shock and complicated emotions. She had never thought that Shen Ping, who had had countless sex with her and was so familiar with each other that every inch of his skin was as clear as the patterns on his palm, had not only rushed into the overall ranking of 10,000, but also entered the top 20 of the third level of the underground palace.

Before the Beast Spirit Ranking opened, she had even comforted Shen Ping, saying that if he worked harder in the future, he might be able to enter the top 10,000. In the end, the other party had such results in the first competition. It was simply unbelievable.

It had to be known that there were more than 20 clansmen from the Realm Clan, the Stone Clan, the Skeleton Clan, and the other mysterious clans on the third level of the underground palace. Almost every one of them had reached the level of beast bones, let alone outstanding first-grade beast spirit geniuses like the Devil Clan and the Spirit Clan.

“How did he do it?!” Yin Ting could not understand. Even with a high-level beast spirit treasure, Shen Ping’s comprehension of strange beasts was only at the beast form level. It was already very good that he could pass the fifth stone house grassland.

“Sister, your foresight is really extraordinary. No one in the clan thinks highly of the Beast Spirit genius of the human race. Yet he actually managed to rush so far to the front in this Beast Spirit Ranking this time around. This is truly shocking.”

At this moment, a woman walked over from Yin Ting’s left. She also had a pair of white wings. Although her appearance couldn’t be compared to Yin Ting, she was charming and enchanting. Her voice was even more charming, especially her butt, which appeared round and plump under the restraint of the armor.

“Yin Yan.” Yin Ting’s brows furrowed slightly as she looked at this clan sister who appeared to be promiscuous. She said perfunctorily, “Your ranking this time is not bad either.”

Yin Yan took a few steps closer and said with a smile, “I can’t compare to you. I also passed the fourth stone house grassland, but it took a long time. I’m five to six thousand places behind you. If I

could have your luck and get to know this human Beast Spirit genius, I think my ranking would be higher this time.”

Yin Ting could hear the sarcasm in her words. This time, the number of first-grade Beast Spirit geniuses in the third level of the underground palace was basically within 20,000. However, she was outside of 20,000. The main reason was that the time she had spent to become a first-grade Beast Spirit genius was too short.

She did not respond. Yet Yin Yan continued, “Speaking of which, I’m very envious of you. Although the ranking this time isn’t very satisfactory, the clan will probably value you even more. They might even give you the treatment of a prodigy.”

Yin Ting remained silent. She understood what this clan sister meant. Shen Ping had rushed so far to the front of the rankings the first time he fought for it. It could be seen that his potential was extraordinary. The clan would definitely use her to continue maintaining a relationship with him.

Swoosh. A figure suddenly appeared in the plaza. In the eyes of the other Beast Spirit geniuses, this was nothing unusual. However, Yin Ting quickly noticed it and her eyes revealed a hint of joy. Just as she was about to go over, she thought of her clan sister beside her and immediately restrained her expression.

However, Shen Ping quickly found Yin Ting and quickly walked to her side.

“This must be a fellow Daoist of the human race.” Unexpectedly, Yin Yan reacted quickly and walked forward to welcome Shen Ping. She said enthusiastically, “I’m Sister Ting’s clan sister, Yin Yan. I’ve always heard her mention you. It’s only today that we can meet.”

The fragrance on her body filled the air. There was a special smell that could stimulate Yin and Yang and make the blood of male cultivators boil. This was a unique fragrance of the Feather Race and was very loved by the clansmen.

As a cultivator who had experienced countless storms, Shen Ping could easily resist this fragrance. He glanced at Yin Yan and his peripheral vision landed on her flat abdomen. He immediately understood that she did not have a special physique. Although she looked rather charming, she was not very attractive to him.

They cupped their hands and exchanged a few pleasantries. He walked past Yin Yan and arrived beside Yin Ting.

“Fellow Daoist Shen, congratulations on entering the top ten thousand!” Yin Ting’s red lips carried a smile, and she couldn’t help but feel happy.

Shen Ping said humbly, “I was lucky enough to pass the sixth stone house grassland..”

Chapter 495: Bestowment from the Beast Spirit Ranking

(2)

“Luck is also a part of strength.” Yin Yan beat him to it and said, “Fellow Daoist, you rushed to the top 10,000 on the first time the Beast Spirit Ranking opened. Your future is promising!”

As the saying goes, one should not slap a smiling person. The other party was so respectful, so Shen Ping did not want to look at her coldly either. He replied casually. During this period, he tried to find out some news about the Beast Spirit Ranking rankings, but Yin Ting and Yin Yan did not know.

As time passed, the number of Beast Spirit geniuses that appeared in the plaza decreased. After a few hours, all the Beast Spirit geniuses in the entire third level of the underground palace had returned. From the looks of it, the number was ten percent less than when it was opened. Clearly, they had died in the stone house grassland.

“The speed of those bull-like creatures is too terrifying. Fortunately, I cultivated a good escape divine power and barely passed the fourth.” From time to time, Yin Yan would talk about the situation of her battle in the stone house grassland.

Occasionally, she would ask Shen Ping how he had passed. “I’m really envious of Fellow Daoist Shen for having a high-grade beast spirit treasure. In this Beast Spirit Ranking competition, high-grade beast spirit treasures have a huge advantage.”

Shen Ping agreed with this sentence. “Indeed, having or not having a high-level beast spirit treasure is completely different. If the two of you have one, it won’t be a problem for you to pass the fifth stone house grassland.” Yin Yan said faintly, “Sister Ting and I don’t have the strength to obtain a high-level beast spirit treasure from the Heaven Ascension Hall. In the future, we can only rely on our luck in the Heavenly Palace.

“It’s said that the probability of high-level beast spiritual treasures appearing in the first three levels of the Heavenly Palace is very low, but after the third level, they will appear every hundred years.”

The Heavenly Palace was different from the underground palace. It did not have to be in the Heaven Ascension Hall to have high-grade beast spiritual treasures.

They chatted for a while more before the huge Beast Spirit Ranking hanging above emitted a light.

All the Beast Spirit geniuses looked over and saw the light quickly converging into lines of divine runes. “The Beast Spirit Ranking will open every 500 years. Those ranked within 10,000 in the overall ranking can obtain a spot to enter the Realm Sea Palace. Those ranked within 1,000 can obtain two chances. Those ranked within 100 can obtain five. The top 10 Beast Spirit prodigies can obtain ten times. Those ranked in the top three can obtain 15 times. Those ranked first can obtain 20 times.

“The Beast Spirit geniuses in the top 20 of the individual ranking can obtain a Beast Pattern Golden Fruit. The top three will obtain an additional high-level Beast Spirit Treasure.”

After ten minutes, the immortal seal divine runes split into wisps of light that enveloped the entire square.

Shen Ping quickly realized that one of the rays of light had landed on his body and converged on his arm to form a strange beast pattern. There was actually a space in this pattern. In the space, other than a beast pattern golden fruit, there was also a translucent token. The words Realm Sea Palace were engraved on the token.

The other top 20 and Beast Spirit geniuses ranked in the top 10,000 also absorbed the light.

“Beast Pattern Golden Fruit! As expected of the Beast Spirit Ranking. To think that it would be bestowed with a Beast Pattern Golden Fruit!” Yin Yan’s eyes were filled with envy. They, the Beast Spirit geniuses, did not need the Beast Pattern Golden Fruit, but the Immortal Dao seniors in the clan had a huge demand for the Beast Pattern Golden Fruit. In the Winged Clan, one Beast Pattern Golden Fruit could be exchanged for several high-grade immortal artifacts.

And this was only the bestowment based on ranking. The Realm Sea Palace in the overall ranking would definitely be better.

Yin Ting was also envious, but she was more happy for Shen Ping.

At this moment, a repulsive force suddenly surged out of the square. Before all the Beast Spirit geniuses could react, they were expelled out of the square by this repulsive force and returned to the third level of the underground palace.

Shen Ping looked around and realized that there were no Beast Spirit geniuses. His vigilance decreased a little. He looked at his arm and immediately felt a faint connection. He subconsciously raised his head and saw that a mountain enveloped in multicolored light had appeared in the sky above the underground palace.

Palaces could be vaguely seen on the mountain peak.

“Realm Sea Palace? That should be the Realm Sea Palace!” As he muttered, hundreds of streaks of light leaped towards the mountain peak. Before they could reach the mountain peak, they were blocked by a layer of light. But several streaks of light entered the mountain peak without any obstruction. Seeing this scene, Shen Ping was stunned for a moment before he urged the magical power of the strange beast in his body to quickly rush towards the mountain peak.

“What? It’s actually a chance to enter the Realm Sea Palace!!”

“How is this possible? That’s the Realm Sea Palace. Back then, many Venerable Sovereigns gathered to open the Realm Sea Palace’s array formation. Now, we can enter just by reaching the 10,000th place on the Beast Spirit Ranking?” When the Spirit Race’s Venerable Sovereign heard the news, his dignified face revealed ripples. The other Immortal Venerables’ emotions fluctuated violently. Surprise, shock, and astonishment appeared one after another. They had all been to the Realm Sea.

Although they had not stepped into the Realm Sea Palace, they knew what it meant. Those Connate cardinal treasures and strange beasts were all there.

Even Immortal Venerables like them did not have this chance. However, the Beast Spirit geniuses of the Strange Beast Gate who were only little fellows in their eyes actually had such an opportunity.

Jealousy.

Even though they had lived for countless years, they could not help but feel a little jealous. After all, that was the Realm Sea Palace!

The Venerable Sovereign swept his eyes and seemed to have guessed the thoughts of these Immortal Venerables. He said indifferently, "What kind of place is the Realm Sea Palace? Even if these Beast Spirit geniuses can step in, they'll most likely only go to a special palace to nurture them."

Hearing this, these Immortal Venerables finally reacted and nodded repeatedly. They had long deduced the purpose of the Strange Beast Gate. They panicked when they suddenly heard it just now. Now that they heard Venerable Sovereign's words, they calmed down. That's right, the Realm Sea Palace was not an ordinary place. Even Immortal Venerables could not step in, let alone those little fellows.

"No matter what, being able to make a trip to the Realm Sea Palace is already a huge opportunity. However, my Spirit Race did not enter the top three this time. It really disappoints me. There are five opportunities between the top ten and the top three. There are ten opportunities between the top ten. Hmph!" A vast aura spread out.

The Immortal Venerables' faces turned pale as they bowed. "Venerable Sovereign, we are guilty."

They were responsible for nurturing the prodigies. Moreover, many prodigies were their disciples. They had nurtured them with all kinds of resources and Connate cardinal treasures that accelerated time. They had paid too much of a price, but in the end, they were not even in the top three.

"The Beast Spirit Ranking opens once every 500 years. This time, I'll let you off for now. If the results are still the same next time, you can ask for punishment!"

"Yes!"

The Venerable Sovereign actually knew that he could not blame the geniuses for being disappointing this time. It was mainly because the geniuses of the Realm Race and the Stone Race were too dazzling. In the past, he did not know the exact difference. Now that he knew, he could continuously narrow the gap. This was also the reason why he gave them another chance.

The results of the prodigies of the Devil Clan, the Flame Clan, the Winged Clan, and the other clans did not meet expectations.

They had no choice. Who asked the Realm Race and the Stone Race to occupy 70% of the top ten of the rankings? However, they still noticed the results of the human Beast Spirit genius. Although it was not worth mentioning compared to the prodigies of their race, he had only entered the Strange Beast Gate for a short period of time and had actually rushed into the top 10,000. His growth potential was really too shocking.

“After the Beast Spirit Ranking this time, the human race will definitely protect that Beast Spirit genius at all costs. If we increase the power of the lower realm, we might not be able to get what we want. I think we should let the clansmen of the western district of the Abyss of Supreme Darkness take action and eliminate the human cultivators!”

“The upper echelons of the Immortal Dao of the various races are not allowed to interfere with the cultivation environment of the lower realm. I don’t think humans dare to break this rule.”

“It’s worth a try.”

In the human Immortal Dao territory.

The Misty Peak was filled with celebration. In this Beast Spirit Ranking competition, Immortal Venerable Qi’s ranking was relatively ordinary. He did not even enter the top 20 in the competition for the top floor of the Heavenly Palace. It was mainly because he had comprehended the Beast Scripture for too short a time. However, no one expected Shen Ping to miraculously rush into the top 10,000!

“It’s the fortune of the human race. It’s the fortune of our human race!” Immortal Venerable Qi and the other Immortal Venerables could not help but look happy.

The human Venerable Sovereign also smiled warmly, “I’ve long heard from his master that Shen Ping has always been a genius in the Nine Continents Tower. His speed of comprehending the Beast Scripture is astonishing, and he keeps giving people surprises. Now that he’s at the Strange Beast Gate, this surprise hasn’t changed!”

“Haha!”

“Venerable Sovereign is right!”

“It’s good that the surprise came!”

The Immortal Venerables smiled in praise. After saying a few more words, the human Venerable Sovereign’s expression turned solemn. “After this Beast Spirit Ranking, the various races will definitely value our Genius Shen again. At that time, there will be some dark methods.. Everyone, you have to be extremely vigilant!”

## Chapter 496: Ownership of Beast Pattern Golden Fruit (1)

The Gate of the Strange Beast.

On the peak of the Realm Sea Palace.

After Shen Ping crossed the layer of light that blocked the other Beast Spirit geniuses, he appeared in front of a palace. There were already many living beings with different appearances around him. They were all Beast Spirit geniuses in the top ten thousand this time.

Among them were the prodigies of the various races he had seen on the third level of the underground palace.

“It’s a human.”

“He’s quite capable. He can actually enter the top ten thousand.”

“It’s said that this person has only entered the Strange Beast Gate for less than 200 years. To be able to stand here with us, the potential of the human race is really shocking.”

“It’s a pity that his hiding place has already been known. It won’t be long before he dies.”

He listened to the discussions in his ears. Shen Ping frowned and quickly closed his eyes to rest. This palace was the same as the Beast Spirit Ranking Square. There was a layer of restriction and suppression. Other Beast Spirit geniuses could not make a move at all. He did not have to worry about his safety.

A moment later, the noise suddenly disappeared. He subconsciously opened his eyes and saw that the attention of all the Beast Spirit geniuses around him was focused on a Spirit Race prodigy who had just appeared. He held a seven-colored feather fan and was wearing a white soft armor made of green gold. He looked handsome and suave. Not only did the patterns unique to the Spirit Race on his face not destroy his overall appearance, but it also gave him an ethereal aura.

“It’s Ling Hao, the strongest prodigy of the Spirit Race who is ranked fourth this time!”

“I heard that he has already comprehended the entire strange beast concept and the might of the strange beast. I thought that he would be the undisputed number one, but I didn’t expect him to only obtain fourth place.” “Comprehending the bloodline of the strange beast is only the foundation for us. The real difficulty is to perfectly fuse and unleash it. As for the Realm Clan, Stone Clan, and the other clans, they have innate talent in this aspect.

Naturally, they can occupy the top three!”

“It can’t be helped. After all, the Realm Clan is the descendant of a strange beast!”

When Ling Hao walked to the circle where the prodigies of the Spirit Race were gathered, the prodigies of the other races began to discuss in low voices. They were not afraid that Ling Hao would hear them. After all, this was the truth.

After a while, the Realm Race’s strongest prodigy had entered.

Shen Ping could not help but size up these prodigies curiously. Although the Realm Race was the descendant of strange beasts, their appearance and form were very perfect, as if they were natural living beings. Especially this strongest prodigy, his entire body seemed to have a natural charm of strange beasts.

As the 10,000 Beast Spirit geniuses of the various races gathered, the palace door slowly opened.

Swish, swish, swish.

Many Beast Spirit geniuses rushed in, with Shen Ping following closely behind.

The palace was very empty, but it was clearly divided into eight areas. There were different lights enveloping it. The white light at the front was followed by seven colors. Most of the Beast Spirit geniuses walked to the third area, which was where the yellow light was enveloping. If they went further, they would find that they could not cross those light screens.

As for the outstanding prodigies of the various races, only the two prodigies of the Realm Race and one prodigy of the Stone Clan could enter the green light area.

This made the pupils of Ling Hao and the strongest geniuses of the various races constrict.

Clearly, they had all guessed that this area of light was divided according to the degree of comprehension of the strange beast. Those who could stand in the green light area had comprehended the beast blood or even the entire beast blood, but the green light had exceeded this level.

However, other than the geniuses of the Realm Race and the Stone Race, Shen Ping was also very eye-catching. This was because he was the only one who could only stand in the red light area, which was the first area.

“Impossible!”

“How could this human have only comprehended the beast form?”

“Even if one comprehended 90% of the strange beast concept at the beast form level, or even a perfect concept, it would be very difficult for them to charge into the top 10,000. Could there be a mistake in the Beast Spirit Ranking?”

“How could the Beast Spirit Ranking be wrong? It must be because this human has a special method. Don’t forget, during the competition for the Beast Pattern Golden Fruit some time ago, this guy snatched the Beast Pattern Golden Fruit from the hands of all the races!”

Many of the Beast Spirit geniuses found it unbelievable, but the truth was right in front of their eyes.

Shen Ping stood there expressionlessly. He did not expect the palace to be differentiated by the degree of comprehension. He had indeed only comprehended the beast form. Although he had comprehended the Talisman Beast Scripture, he was still far from comprehending the true beast scripture.

Boom!

The light screens in the various regions suddenly trembled and turned into threads of light that quickly surged into the bodies of every Beast Spirit genius. Almost instantly, every Beast Spirit genius realized that they had seen a real strange beast. They even came to the ancient strange beast battlefield and watched the strange beasts fight.

Pouncing, whipping, stomping, horns colliding... Each of their movements contained the Great Dao of Heaven and Earth. Under such close observation, the comprehension of these Beast Spirit geniuses instantly improved qualitatively.

“This is the true level of beast skin!”

“Wrong. I was wondering why it had been progressing so slowly. It turned out that it was the wrong direction.”

“Beast blood flows and circulates. It’s actually so clearly displayed in front of me. Haha, there’s no longer any obstruction to the level of beast blood!”

One by one, the Beast Spirit geniuses were either excited or excited. They greedily felt the instinctive art of strange beasts’ killing.

Shen Ping was the same. He could clearly see the strange beasts from the Talisman Scripture through his Sea of Consciousness, and he could also see the true image of the strange beasts when he had sex with those who had a special physique, but that was still a glimpse from afar. He could not seem to possess the strange beasts like now. He could feel their scales trembling, their hooves roaring, their blood flow, and their single horn charging as if he had personally arrived.

After an unknown period of time, the light screen in the palace dissipated..

#### Chapter 497: Ownership of Beast Pattern Golden Fruit (2)

All the Beast Spirit geniuses woke up from their intoxication.

“What’s going on?”

“Ahhh, I’m just a little bit away. I’m just a little bit away from stepping into the level of beast blood!”

“Is this the Realm Sea Palace? It’s too magical. Comprehending it here is comparable to ten thousand years of bitter cultivation!”

All the Beast Spirit geniuses were reluctant to leave. They really wanted to enter that state again. Even the Realm Race’s prodigies standing at the front were no exception.

The palace door opened again. A powerful repulsive force was produced and every Beast Spirit genius flew out of the palace uncontrollably. When they came back to their senses, they had already returned to their respective underground palaces and heavenly palaces.

Shen Ping looked at the mountain peak enveloped in multicolored light, and his heart fluctuated. The headquarters of the Nine Continents Tower’s True Treasure Pavilion also had the Beast Scripture Pavilion that assisted in comprehension, as well as the stone tablet forest. However, the effect of comprehension was far inferior to this Realm Sea Palace. Just once, his comprehension of the Beast Scripture’s beast form had increased by 30%. Moreover, he had a direction to comprehend on the level of the beast skin.

“There are only two chances in the top 1,000! If I want to enter again, I can only wait for 500 years and try my best to enter the top 1,000!” He couldn’t help but envy the top ten geniuses for being able to comprehend it several times. If they were at the top of the rankings, they could enter twenty times. With these twenty times, the other party’s improvement would probably be even more shocking. “One step ahead, always ahead!” He sighed.

A few days later, Yin Ting, who was wearing purple and green soft armor, stood in front of Shen Ping. When he went to the Realm Sea Palace, Yin Ting had stayed in the underground palace to search for strange stones while waiting for him.

“So, I’ve been in the Realm Sea Palace for a month?”

Yin Ting nodded. She was a little curious about what opportunities Shen Ping had in the Realm Sea Palace, but in the end, she did not ask. Instead, she talked about other things. “Fellow Daoist Shen, my clan sister is quite devoted to you. If you want, you can communicate with her.”

Shen Ping was stunned, but he quickly reacted and said with a faint smile, “Do you want me to admire your clan sister’s white feathers?”

Yin Ting blushed. “I-I don’t know. However, my clan sister is more casual by nature. She has interacted with many clansmen.”

When Shen Ping heard this, he knew what Yin Ting was thinking. He hugged the thin waist of the purple and green soft armor and said gently, “Compared to your clan sister, I like to admire your white feathers more. Although it’s not much, it’s very soft. It’s light pink and has a fragrance when it falls.”

Yin Ting bit her red lips. Her soft armor trembled slightly, and the magical power in her body seemed to be on the verge of losing control.

In the quiet room of the City Lord Manor in Gray Stone City, Shen Ping did not immerse himself in gentleness for too long. The comprehension of the Realm Sea Palace had benefited him greatly. After leaving the Strange Beast Gate, he began to enter seclusion. It took him two years to completely digest and stabilize the comprehension effect.

“80% concept of beast form and the might of strange beast in the beast skin. This increase is indeed huge, but it’s still a huge difference from the first-rate prodigies of the various races!”

After experiencing this Beast Spirit Ranking competition, he knew that there was a huge difference between him and those geniuses, especially the strongest genius of the Realm Race at the top of the list. The difference was simply between heaven and earth. The other party’s realm had surpassed the geniuses of the various races who had comprehended the entire strange beast.

Although he had the help of the virtual interface, Shen Ping knew very well that it would not be easy to catch up in a day. Moreover, the other party had twenty chances to comprehend the Realm Sea Palace.

“If I use a Talisman Dao Mystique, I might be able to pass the seventh stone house grassland. However, it’s very difficult for me to enter the top 1,000!”

He had learned from Yin Ting that only by passing through the first wooden house valley could one enter the 1,000 ranking. If one wanted to pass through, they needed 50% concept of the complete beast skin and comprehend the might of the beast bone, hoof, and claw. This level of comprehension could already erupt with the power of the third form of the spiritual treasure.

Actually, the reason why he did not continue at that time was mainly because he felt that he was not confident. The danger was too great. In addition, he had already entered the top 10,000, so there was no need to continue taking risks.

He walked out of the talisman room.

Shen Ping came to the pavilion by the lake in the residence to relax. After all, cultivation requires relaxation. Even if he wanted to catch up to those prodigies, he would not force himself to immerse himself in cultivation.

Not long after, his wife, Wang Yun, came over. She sat beside Shen Ping and gently and carefully peeled the spiritual fruit for him before personally feeding it to him.

“Yun’er’s cultivation has improved again.” He praised her.

Wang Yun said gently, “I cultivate the bloodline technique. Unlike the other sisters, my progress is naturally faster.”

Shen Ping could not help but think of the beast pattern golden fruit in the strange beast mark space. This was the second time he had obtained it. If he gave it to his wife to consume, with him providing the strange stone and beast spirit treasure, she would be even stronger.

However, the Beast Pattern Golden Fruit was too important.

Even though he wanted to give it to his wife and concubines, he knew that the human race needed this beast pattern golden fruit more. Moreover, it was all thanks to the seniors of the human race who had fought a bloody battle at the edge of the starry sea in the Western District that he could cultivate safely in the Abyss of Supreme Darkness.

“Let’s give the second one to the race.”

Through the Resplendent Crystal, he contacted his master. After talking about the Beast Pattern Golden Fruit, his master’s gentle voice clearly heaved a sigh of relief. “Disciple, I’m very happy that you can think of your race. The Immortal Dao seniors have actually discussed the Beast Pattern Golden Fruit many times during this period of time. Most of them want you to take it out. A small number of them said that you fought for it yourself and should keep it for yourself.”

Shen Ping was mentally prepared for this. He asked, “Master, I wonder what the final decision of the race is?”

“The race wants you to take it out. If our race adds another Immortal Venerable Beast Spirit genius, our ranking will definitely be higher. Of course, our race will respect your decision.”

Seeing his master say this, Shen Ping teased, “Master, you said the last sentence, right?”

Lian Xuejin was silent for a moment before sighing. “You’re smart, but regardless of whether you have the last sentence or not, the tribe will listen to your opinion.”

Shen Ping nodded. “Master, I was originally prepared to give this Beast Pattern Golden Fruit to the race. However, if I have the chance to obtain the third and fourth fruits, I will keep them for myself. Please tell the immortal Dao seniors of the race about this.”

“Okay.”

Misty Peak.

Many Immortal Venerables praised Shen Ping for taking the initiative to take out the beast pattern golden fruit for the race. However, when they heard that he wanted to take the third fruit for himself, these Immortal Venerables did not say anything.

Benefits move one’s heart.

The value of the Beast Pattern Golden Fruit was extremely great, and it was even related to the secret of longevity. Moreover, the top 10,000 on the Beast Spirit Ranking could actually directly enter the Realm Sea Palace this time. Just this alone tempted the Immortal Venerables. Those juniors did not know about the opportunities in the Realm Sea Palace, but they knew very well that even if they could not obtain the opportunity to comprehend it, they could just stay on the Realm Sea Mountain for a moment.

However, with the human Venerable Sovereign around, the Immortal Venerables did not say anything. They only suggested that they consider this matter at length.

“Immortal Venerable Yu, you can consume the Beast Pattern Golden Fruit this time. Your comprehension talent is not inferior to Immortal Venerable Qi. I hope that after you become a Beast Spirit genius, you can comprehend the Beast Scripture as soon as possible!”

The Immortal Venerables revealed envious expressions. Immortal Venerable Yu was first stunned, then he revealed a look of joy and hurriedly said, “Thank you for the gift, Venerable Sovereign!”

“I didn’t give it to you. It was Genius Shen. If not for him, our race would still be ranked at the bottom of the Myriad Spirit Ranking. As for protecting his safety, it’s what the race should do.” The human Venerable Sovereign said calmly.

The other Immortal Venerables’ hearts skipped a beat. They knew that these words were a warning to them. Although they didn’t think much of it, they still had to follow the Venerable Sovereign’s words on the surface and didn’t dare to disobey. After all, they were mainly a race now, unlike before when they didn’t have much concept of a race and fought each other for benefits.

Immortal Venerable Yu bowed and said, “I will remember Venerable Sovereign’s words. When that Genius Shen ascends to immortality, I will definitely thank him personally.”

Immortal Venerable Qi hurriedly said the same thing. The human Venerable Sovereign smiled and said, “It’s good that you have this intention. The Beast Spirit Ranking opens once every 500 years. The two of you can comprehend the Beast Scripture in peace during this period of time. There’s no

need to care about the race and the miscellaneous matters in your territory. I'll get the other Immortal Venerables to help you deal with them.”

“Yes, Venerable Sovereign!”

The human Venerable Sovereign looked at the Immortal Venerable Nanji again. “Nanji, no matter what you need in the Abyss of Supreme Darkness, you can go to the clan vault to get it.”

“Yes..”

## Chapter 498: Large Attack (1)

A few months later, in a remote mountain range, Shen Ping looked at the disappearing Beast Pattern Golden Fruit in his hand and revealed a relaxed expression. Just now, his master had told him that the human race had already agreed that if he obtained the third Beast Pattern Golden Fruit, he would keep it and deal with it.

This also caused him to have some strong expectations for the second Beast Spirit Ranking Competition 500 years later. As long as he could enter the top 20, he would be able to obtain the Beast Pattern Golden Fruit again. At that time, he would be able to allow his wife, concubine, and Dao companions to possess the power of a strange beast.

Of course, in his heart, he wanted to increase his strange beast talent as soon as possible and search for the source of the branch.

Back in Graystone City, his life was once again on the right track. Every day, he would comprehend the Beast Scripture and absorb the strange stones to cultivate at a fixed time. At night, he would have sex with his wife and concubines. Occasionally, he would stroll around the city and the cultivation city where the surrounding branches were located.

Time flew by.

In the blink of an eye, sixty years passed.

On this day, the branch of the True Treasure Pavilion in the Yanling Market not far from the Flame Ice Lake welcomed the flying ship's supplies once every half a month. It was Mu Jin who was personally escorting them. She had just broken through to the mid-stage of the Nascent Soul realm, but her mental state was a little unstable. Yu Yan asked her to stay in the Yanling Market for a period of time to relax and deal with some chores in the branch.

Shopkeeper Xiao personally waited with the members of the pavilion.

As the flying ship landed, Mu Jin slowly alighted from the flying ship. The aura of her Nascent Soul was restrained, but she had an extraordinary temperament. Her pink shawl and dress accentuated her figure, and her face was covered with a white veil, making her look mysterious and agile.

“The cultivators of the Yanling Branch Pavilion greet Senior Mu!”

Hearing the respect in his voice, a faint smile appeared on Mu Jin's lips. “Fellow Daoist Xiao, you don't have to stand on ceremony. I came with the flying ship this time and won't interfere in the affairs of the branch pavilion.”

Shopkeeper Xiao heaved a sigh of relief in his heart, but he still maintained a respectful expression. They entered the market. There was an endless stream of cultivators on the streets, and the shops on both sides were lined up. The liveliness was not inferior to the main street of Gray Stone City.

Looking at the Foundation Establishment cultivators passing by, and even some low-level cultivators, Mu Jin suddenly felt as if a lifetime had passed, as if she was in the Cloud Mountain Parlour.

“Senior Mu, most of the descendants of cultivators with ordinary spiritual roots gather in Yanling Plaza. However, in recent years, many cultivators from other cities have come to settle here. Therefore, compared to a few years ago, this place is much more lively.” Shopkeeper Xiao smiled and said.

Realization flashed in Mu Jin’s eyes, and then she said, “Did they escape from the east of Yanling?”

Shopkeeper Xiao looked around and sent a voice transmission, “That’s right. The east of the Yanling is filled with endless war. The Devil Clan, the Spirit Clan, and other foreign races frequently plunder our human cultivators. It’s said that the mountain gates of several sects have been destroyed. Some family cultivators have crossed Yanling and left the place they rely on to survive to come to the Yanling Market. Moreover, the number has gradually increased. Although most of the Golden Core and Nascent Soul cultivators have gone to Yanshan City, many cultivators have chosen to go to the Yanling Market.”

At this point, he paused for a moment and said, “Logically speaking, I shouldn’t say anything. However, the situation recently is indeed not optimistic. Many cultivators in the market are worried that the Devil Clan, the Spirit Clan, and other foreign races will attack the Yanling market. Moreover, some cultivators have already discovered that some Devil Clan and the Spirit Clan are trying to kill us human cultivators at Yanling Valley and Flame Ice Lake.

“Therefore, it’s really not appropriate for you to come here this time. After all, if a war breaks out and affects you, I can’t absolve myself of the blame even if I die ten thousand times!”

Mu Jin said casually, “It’s fine. You won’t be blamed for this. The main pavilion has already noticed the situation here. I came here to deal with this matter.”

Shopkeeper Xiao looked happy. “With the main pavilion stepping forward, I’m relieved.”

Although the chaos on the east side of Yanling had intensified, as long as it was a cultivation city guarded by the True Treasure Pavilion, as well as a market city, no one from the Devil Clan, the Spirit Clan, or other races dared to attack. They did not even disturb the business path. Therefore, with the main pavilion paying attention, the worry in Shopkeeper Xiao’s heart instantly disappeared.

Back at the branch pavilion, Mu Jin first learned about the resource transactions in the branch pavilion, then went to a special wing in the backyard to rest. In the next dozens of days, she personally went to the Yanling Valley to investigate and found that there were indeed cultivators of the Devil Clan, the Spirit Clan, the Flame Clan, and the Demon Clan plundering and killing human cultivators. Even the resource-rich Flame Ice Lake had such a situation.

“Sister Yu Yan, Yanling Market is quite far from Yanshan City. The flying ship has to travel for about three days. Moreover, Yanshan City is very far from Gray Stone City. It takes more than a month to return. It’s the furthest place our True Treasure Pavilion has established a branch. If the Devil Clan, Spirit Clan, and other foreign races take action, they might choose this place.”

“I didn’t expect the situation in Yanling to be so serious. Senior Luo Xia has already said that the Devil Clan, Spirit Clan, and other foreign races will attack the area under the jurisdiction of our Treasure Pavilion sooner or later. Although there has been no movement over the years, the living environment of the humans in the surrounding areas has become worse and worse. All the races have been killed. Sister Mu Jin, you have to be careful. I’ll send a Void Refinement Realm senior over now.”

“Is Husband still in seclusion?”

“Yes.”

She ended the transmission. Mu Jin sighed. She actually wanted to return to Graystone City to accompany her husband, but Shen Ping had been in seclusion for some time, and she didn’t want to disturb him because of her.

In the refining workshop of the Sword Seal City, the Void Refinement and Body Integration experts of the Flame Race gathered and bowed respectfully to the main seat. “Greetings, Elder Pu.”

The thin old man sitting at the head of the table said calmly, “There’s no need to be so polite. Take a seat..”

## Chapter 499 Large Attack (2)

After all the elders sat down, the skinny old man continued, “I’ve called you here this time mainly to say one thing. My clan has already decided to officially attack the True Treasure Pavilion.”

The other elders looked very calm. In fact, they had already guessed this from the various movements in the clan and the news from the Penglai Immortal City.

“Elder Pu, is the matter at Penglai Immortal City over?” A Body Integration elder asked.

The thin old man shook his head. “The humans of the Penglai Immortal City are not weak, but for the time being, the humans can’t spare any strength to support the True Treasure Pavilion. This time, our Flame Clan will cooperate with the Devil Clan, the Spirit Clan, the Demon Clan, and the other clans to destroy the power of the True Treasure Pavilion in one go and completely deal with the sects in Sword Seal City and other cities!

“During this period, the Penglai Immortal City will send a late-stage Mahayana

Realm expert to hold down the fort!”

The elders of the Flame Clan in Sword Seal City immediately relaxed. The reason why they had not attacked the True Treasure Pavilion all these years was mainly because they were afraid of the strength of the master behind the True Treasure Pavilion. Elder Pu and the Mahayana Realm seniors of the other races unanimously determined that this mysterious human was definitely above the mid-stage of the Mahayana Realm.

Therefore, as long as the Penglai Immortal City could not spare any strength, they could only wait patiently.

Now, this day has finally arrived.

“Humph, the person who destroyed our Flame Clan’s merchant fleet’s flying ship last time was definitely that person from the True Treasure Pavilion. This time, we will definitely take revenge!”

“That’s right. Over the years, the True Treasure Pavilion has become larger and larger. Many human sects and independent cultivators have gradually recovered their prosperity under the protection of the True Treasure Pavilion. If we let it continue to develop, in a few thousand years, the human cultivators in the Western District will definitely give birth to new Mahayana Realm experts or even Tribulation Transcendence experts!”

“As long as the human sects in Penglai Immortal City can’t provide support, we will definitely be able to successfully destroy the True Treasure Pavilion!”

The incident with the merchant ship last time had embarrassed the Flame Clan in front of many clans. They could not even raise their heads when they saw their fellow clansmen. They had to hold their anger in.

The Devil Clan, the Spirit Clan, the Demon Clan, and the other foreign races were also discussing the matter of attacking. In fact, the reason why these races often joined forces to deal with the human race was mainly because the human race’s foundation was too strong. The Myriad Spirit Ranking had only appeared for tens of thousands of years and affected the juniors of their race. It did not affect the Mahayana Realm and the Body Integration Realm that had been in seclusion for thousands of years.

A few days later, in the continuous mountain range in the east of Yanling, hundreds of large flying ships were speeding through the clouds. On the deck of the flying ship at the front, the Body Integration cultivators of the various races stood with their hands behind their backs and looked down at the distant mountain scenery.

“Yanshan City is the furthest city under the jurisdiction of the True Treasure Pavilion. I can use this to test the current strength of the True Treasure Pavilion.”

“Tsk tsk, it’s just a True Treasure Pavilion that has only been developed for 200 years. How much strength can it have? Only that mysterious Mahayana Realm expert is a little threatening. The others can be easily destroyed.”

“You can’t say that. The pavilion master of the True Treasure Pavilion is still quite powerful. Otherwise, how could he have killed Shi Hu? Furthermore, there are many Body Integration cultivators guarding the True Treasure Pavilion now. It’s better to be careful!”

“Shi Hu is nothing. He’s just a Void Refinement Realm expert...”

“Who do you think you are? How dare you look down on our Devil Clan? If not for the pavilion master of the True Treasure Pavilion, you would have died if you met Shi Hu!”

As they spoke, the Body Integration experts of the various races started arguing.

The main reason was that the Devil Clan and the Flame Clan did not get along. They were fighting for face. Back then, when the Flame Clan’s merchant ship was lost, they were mocked by the Devil Clan.

The Spirit Race’s Body Integration immediately came out to smooth things over. “Everyone, the Mahayana Realm seniors are watching from behind. Let’s not do anything that will hurt our reputation. No matter what, the True Treasure Pavilion is also powerful to be able to make our races join forces. There’s a price to pay for underestimating the enemy.”

The Winged Race’s Body Integration smiled and said, “Fellow Daoist is right. Although the Winged Race were also participating this time, they would not attack. Instead, they would hold the fort. The other races did not say anything about this. After all, the Wingeds had always had a good relationship with the humans.

“The strongest person in Yanshan City is only at the early-stage Body Integration realm. Currently, he’s also being watched by the Devil Clan. As for the True Treasure Pavilion, there’s only a Void Refinement Realm expert guarding it. In my opinion, we can just let the Void Refinement Realm experts go over. We’ll just watch from the side.”

“Awesome!”

“There are still four or five markets near Yanshan City. Let’s send a flying boat over to sweep them.”

They confirmed the plan of this operation with a few words from their Body Integration experts. As cultivators, they naturally had to use the power of lightning to eliminate the enemy. As for schemes and other methods, they disdained them.

The momentum of the hundreds of large flying ships was very vast, especially since there were Body Integration cultivators on them. The terrifying aura was like a vast tidal wave that made people shudder. This commotion quickly caused Yanshan City and the surrounding cultivators in the market to panic.

“The foreign races are here!”

“The Devil Clan and the Spirit Clan are going to attack the west of Yanling!”

“Damn it, the foreign races really don’t want to let us go!”

Many cultivators who had just escaped here heard the news and continued to fly towards the west. Although they knew that they were only struggling at death’s door, after seeing the strength of the foreign races, no one had the courage to face them head-on.

Yanling City Square.

Dharma artifacts of all sizes soared into the sky and kept leaving the market. The streets that were originally as lively as Cloud Mountain Parlour became deserted in less than 15 minutes.

However, there were also some loose cultivators who were related to or cooperated with the True Treasure Pavilion. Sect disciples, family cultivators, guest elders, and so on came to the True Treasure Pavilion.

Shopkeeper Xiao tried his best to comfort them, but it was useless. Helpless, he had to ask Mu Jin to do it. “This is Senior Mu from the main pavilion. With her around, everyone will be fine!”

The other guest elders and cultivators were slightly relieved after sensing Mu Jin’s aura, but they were still worried. After all, the foreign races were clearly attacking on a large scale this time. There were hundreds of large flying ships and it was said that there were Void Refinement Realm experts. Although their goal was Yanshan City, they would definitely send Divine Transformation experts to deal with the market.

“Senior Mu, I wonder if the main pavilion has received the news of the foreign races attacking?” A guest elder could not help but ask.

Looking at these worried members of the pavilion, Mu Jin couldn’t help but think of the situation when she heard about the invasion of the fiends in Cloud Mountain Parlour. At that time, she was like them, uneasy and looking for ways. Fortunately, she finally found her husband and had her current strength and status.

“Everyone, don’t worry. I’ve already sent a message to the main pavilion. In a few days, they’ll send Void Refinement Realm or even Body Integration seniors. The foreign races haven’t dared to attack our True Treasure Pavilion all these years because they’re naturally afraid of our strength. Even if they join forces, our True Treasure Pavilion won’t be afraid!”

Another cultivator asked, “Then, how long can the True Treasure Pavilion resist a Divine Transformation cultivator?”

Mu Jin smiled and said, “With me around, I can hold them off for ten days or half a month!”

Although she was only a Nascent Soul cultivator, she had many good things on her. They were all given to her by her husband. Not to mention a Divine Transformation cultivator whose destructive power was equivalent to a missile, she could even resist a nuclear bomb-level Void Refinement cultivator. Upon hearing this, many guest elders and disciples felt much more at ease. Mu Jin asked Shopkeeper Xiao to arrange for them to rest for the time being while she went to the room and took

out the communication stone. “Sister Yu Yan, have you received the news of the Devil Clan, the Spirit Clan, and the other foreign races attacking Yanshan?”

Yu Yan quickly replied, “I already know. A Body Integration senior has gone over. You have an immortal artifact on you that’s enough to protect yourself. However, the foreign races have come with ill intentions this time. They should be fully prepared. Therefore, if necessary, you have to prioritize yourself!”

Mu Jin understood what Yu Yan meant and nodded. I know.

She ended the transmission. Yu Yan immediately arrived at the City Lord Manor of Gray Stone City. Seeing that Shen Ping was still in seclusion, she hesitated if she should enter the quiet room.

Wang Yun shook her head. “Before he went into seclusion, he specially instructed us not to disturb him. He should be comprehending something important. Although the situation is urgent now, it’s not to the point of exhaustion.”

Yu Yan smiled bitterly helplessly. “Fairy Luo Xia replied that she’s being watched by the Devil Clan’s Body Integration in Sword Seal City and can’t come over. There are also powerful cultivators watching the Cloud Sword Sect, Ancient Moon Sect, and other sects.. If we only rely on ourselves to deal with it, the True Treasure Pavilion will probably be completely destroyed!”

## Chapter 500: Confirmation (1)

While Wang Yun and Yu Yan were hesitating, hundreds of flying ships floated under Yanshan City like huge beasts. The cultivators of the various races beside the flying ships stepped on flying dharma treasures and looked down at the city. At this moment, the entire city had already activated the city protection array.

Boom!

The ten flying ships in the front row shot out energy pillars at the same time and collided fiercely with the array. Layers of energy ripples appeared. The entire array kept trembling, but it did not break.

Many Body Integration cultivators on the deck revealed looks of surprise. Yanshan City was under the jurisdiction of the True Treasure Pavilion. Although there were cultivators from various races here, their jurisdiction belonged to the True Treasure Pavilion. The various races did not have the right to speak. Therefore, this city-protecting array was also built by the True Treasure Pavilion. They did not expect its defense to be so strong. Even the mid-grade sects in Sword Seal City could not withstand the bombardment just now.

“This True Treasure Pavilion is interesting.1’

“I’ll do it!” A Body Integration expert of the Devil Clan smiled faintly and flashed out of the deck of the flying ship. Then, he transformed into a huge poisonous scorpion and slammed into the array formation with a blue halo.

Bam!!

The huge impact was like the destruction of the world, directly shattering the array. Many human cultivators in the city were in a panic. Seeing that the array formation could not even last for dozens of breaths, not only were they afraid, but they also did not dare to stay here and wait for death. Therefore, they took advantage of the time when the array formation was broken and directly activated their Dharma artifacts to escape in all directions.

They wanted to fish in troubled waters, but they did not know that the foreign races were going to kill the human cultivators this time. Every cultivator would not let them off.

Swoosh swoosh swoosh.

The Golden Core and Nascent Soul cultivators of the various races floating on both sides of the flying ship shouted and rushed up as if they were enjoying a hunting feast to kill these fleeing human cultivators.

There were only two places in the city where the cultivators did not move. One was the sect, and the other was a branch of the True Treasure Pavilion. However, in the face of a Body Integration attack, the sect only lasted for ten minutes before all the disciples died. The Body Integration Supreme Elder wanted to escape with all his might, but he was surrounded by three foreign Body Integration experts. In the end, he died in the forest 30 kilometers away from Yanshan City.

Looking at the completely destroyed forest, a Flame Race's Body Integration sneered, "The Body Integration of the human race is nothing much." The lips of the other Body Integration bodies twitched. The three of them surrounded and attacked him. Furthermore, one of them was at the mid-stage Body Integration realm. Any other early-stage Body Integration cultivator would not have the chance to resist. Such sarcastic words were too meaningless. The two Body Integration Bodies of the Spirit and Devil Clans were slightly further away from this Flame Race's Body Integration and really did not want to stay with it.

"Elder, the True Treasure Pavilion's branch hasn't ended yet." A subordinate reported.

The Spirit Race's Body Integration frowned and said unhappily, "The True Treasure Pavilion doesn't even have a Body Integration. Why are you so slow?!"

Let's go and take a look."

Only then did they know that the defensive array of the True Treasure Pavilion's branch was actually at Level 7. It could withstand a full-strength attack from a late-stage Body Integration cultivator. As long as there were enough top-grade spirit stones or spirit crystals, this defensive array could continue to withstand it and even have a repair function.

"This True Treasure Pavilion actually has such a foundation. A mere branch pavilion has a Level 7 array formation. It's quite troublesome!" "That's right. The higher the level of the array, the harder it is. Even the large human sects in the Penglai Immortal City are only eighth-grade arrays. If the True Treasure Pavilion dares to spend so much money, there must be an extremely high-level array master in their pavilion."

"The human race is good at the Immortal Dao Hundred Arts to begin with and far exceeds our race. It's not surprising that an array formation grandmaster has appeared. We should report this matter and get the late-stage Body Integration

Great Elder of the race to deal with it!" Although it was a Level 7 array formation, it was difficult to defend against the continuous attacks of a late-stage Body Integration cultivator. This matter made them a little worried about the subsequent attacks. After all, the defensive array formation of the branch pavilion was already so strong. What about the main pavilion?

If it was a Level 8 array formation, they would have to let the Mahayana Realm take action. As for a Level 9 array formation, no one thought in that direction. This was because there was only one Level 9 array formation in the entire western district of the Abyss of Supreme Darkness, and Level 9 array formations were also called Pseudo Immortal Arrays that could resist the attacks of Itinerant Immortals.

Two days later, two late-stage Body Integration realm Grand Elders came from behind. Before they could attack the array formation of Yanshan City's branch, they heard a subordinate report that an immortal array had appeared in a branch in Yanling City!

The Great Elder of the Devil Clan's Poison Scorpion Clan and the Great Elder of the Spirit Clan were stunned. "Are you sure it's an immortal formation?" They suspected that their subordinates were deliberately exaggerating. Perhaps the Divine Transformation cultivators they sent out did not succeed in their attack, so they said this.

The Divine Transformation cultivator hurriedly said, "I definitely can't be wrong. That array formation is emitting immortal spiritual energy." The Great Elder of the Poison Scorpion Clan berated, "Do you know what immortal spiritual energy is? Have you come into contact with it?" The Flame Race's Divine Transformation expert replied awkwardly, "I didn't. It's just that that aura is extraordinary. It's completely not the fluctuation of an ordinary array formation..."

A Body Integration elder of the Flame Race immediately stood up. "Let's go over and take a look. Although our Divine Transformation cultivator has never come into contact with immortal spiritual energy, he can still sense most of the power of the array formation."

The Great Elder Scorpion frowned. They had just attacked and they had encountered trouble. How unlucky. "Alright, I'll go over. I'll leave this to you guys first."

The distance from Yanshan City to Yanling City Square was not close, but a late-stage Body Integration cultivator would only need a day to arrive by flying at full speed. As soon as Elder Poison Scorpion arrived at the edge of the market, he sensed a pure immortal aura. As a late-stage Body Integration cultivator and the First Elder of Sword Seal City's Devil Clan's Poison Scorpion Race, he was still lucky enough to come into contact with the immortal aura. It was when he met an Itinerant Immortal of the clan who was cultivating in the Penglai Immortal City. It was still fresh in his mind..
