

Eternal Life 661

Chapter 661: Big Commotion (2)

Bam.

He failed again.

The third time.

Shen Ping continued to observe at the same time, but three chances were really too few. He could only vaguely understand what his problem was, but he could not figure it out clearly. He also did not know why the other party could use the Great Dao fluctuations so perfectly.

It was still a failure.

After leaving the mist, his eyes were also filled with joy, because he already understood what this Dao Platform was.

No wonder the black-robed artifact spirit said that Dao Platform could let him understand himself very well. On it, no matter what secret techniques, divine powers, magic treasures, and so on, the Dao Platform could use the same method to counterattack. This was equivalent to an opponent who cultivated the same secret techniques, divine powers, and magic treasures as him. Moreover, this opponent could perfectly unleash them.

It was simply equivalent to a standard answer. As long as one continuously fought with it, they would know their shortcomings and flaws. This was the true help.

One had to know that the path of cultivation was bound to be filled with confusion. If one had a teacher to guide them at this time, they would be able to avoid many detours. This was also why many cultivators wanted to join sects. It was extremely difficult for rogue cultivators to grow because they lacked guidance. Unless they had a strong comprehension ability, once they went astray, they would regret it for the rest of their lives.

The higher one cultivated, the harder it was to discover their shortcomings. Shen Ping walked the Beast Spirit lineage. Even the Venerable Sovereign had said that other than giving pointers on the Great Dao, he could only rely on himself.

Now that he had a Dao Platform, he could fully understand his shortcomings through it. This way, he would know which direction to improve and make up for it.

“Fourth, Ling Hao of the Spirit Race.”

When Ling Hao entered the mist, the other Immortal Venerables of the human race all asked Shen Ping what the Dao Platform was. Shen Ping explained his speculation. Immortal Venerable Qi, Immortal Venerable Nanji, and the others could not help but widen their eyes, “I-Is this true? Could it be that if we use our Great Dao methods, the opponent of the Dao Platform can also use it?”

“This... I don't know.”

Immortal Venerable Yao said expectantly, “We'll know later. However, if it's true, this Dao Platform will really be of great help.”

All the Immortal Venerables nodded repeatedly. At their level, they knew very well how important it was to have an evenly matched opponent, let alone an opponent who used the same method.

As the strongest prodigies entered, everyone had the same expression when they came out.

Everyone understood how magical the Dao Platform was.

And at the 23rd place, it was the Immortal King's turn. The 24th Beast Spirit prodigy could not help but ask. In the end, he was told that he had not even comprehended the Great Dao of Heaven and Earth and was not qualified to enter.

Some of the Beast Spirit prodigies hurriedly asked what could be considered as enlightenment. The black-robed Artifact Spirit said that once one entered the scale armor level, they would be able to comprehend a little and become a true Beast Spirit. These words immediately made all the Beast Spirit geniuses helpless.

The first Immortal King lasted for more than 30 breaths, longer than all the Beast Spirit prodigies who were ranked at the top. After he came out, his eyes revealed a rare excitement. Clearly, he had gained a huge harvest.

The anticipation in the eyes of the other Immortal Venerables of the human race became even stronger.

Time passed slowly. Each Immortal King lasted longer than the other, especially those who had cultivated for a long time. They could last for five minutes, but still, no one could pass the first level.

It was finally the human Immortal Venerable's turn.

First was Immortal Venerable Qi. He lasted for a full thirty minutes. After coming out, the other Immortal Venerables hurriedly asked.

Immortal Venerable Qi suppressed the excitement and joy in his heart and smiled. "Shen Ping is right. The opponent on the Dao Platform is indeed using the methods I'm good at, especially the use of the Heaven and Earth Great Dao. It's amazing. I never thought that the Heaven and Earth Great Dao could be used like this. I originally thought that I had walked far in the Heaven and Earth Great Dao and was only a step away from Venerable Sovereign. Now, I know that this step is very far away!"

Immortal Venerable Control said, "Congratulations, Fellow Daoist Qi. It seems that you've found a direction to improve!"

Immortal Venerable Qi shook his head. "It's not that fast, but I know my flaws. As long as I do it a few more times, I believe I will definitely understand the direction of my improvement. Previously, an Immortal Venerable asked how to reach the end. With such an opponent, it's definitely perfect on the Great Dao of Heaven and Earth."

When the other Immortal Venerables saw Immortal Venerable Qi's opinion, they could not wait. Another hour passed.

It was Immortal Venerable Nanji's turn. He took even longer, almost an hour. When he came out, his eyes were filled with joy, "Haha, this Dao Platform is indeed worthy of being a Great Dao Platform!"

When it came to Immortal Venerable Yao, she actually directly passed the first level, completely shocking all the Beast Spirit geniuses and the Immortal Venerables and Immortal Kings of the various races.

Even Immortal Venerable Qi, Immortal Venerable Yu, and the others were shocked. After experiencing the Dao Platform, they all understood how difficult it was to defeat their opponent. In the end, Immortal Venerable Yao actually passed!

Immortal Venerable Yao only lasted for thirteen breaths before coming out of the second floor. The other Immortal Venerables could not help but ask her. Immortal Venerable Yao smiled and said, "The secret technique I used is rather special, and my understanding of this secret technique's fusion with the Great Dao of Heaven and Earth is almost perfect. The opponent... Well, let's call him the Dao Protector for the time being. Although he perfectly displayed the mystic technique I used, he lacked changes. In the end, I found a flaw and defeated him."

When everyone heard this, they immediately understood. Immortal Venerable Nanji even said, "I didn't expect that among us, Immortal Venerable Yao's progress in the Heaven and Earth Great Dao is already far ahead!"

"That's right. To be able to pass the first level of the Dao Platform, her lead is not just a little."

The other Immortal Venerables could not help but sigh.

Although Qi and Yu were the strongest among the human Immortal Venerables, and Immortal Venerable Nanji was only second, this was all comprehensive strength. However, the Heaven and Earth Great Dao was the most important because this was the path to Venerable Sovereign.

Originally, they thought that Qi, Yu and Nanji were closest to Venerable Sovereigns and would be the fourth Venerable Sovereign of the human race, but from the looks of it, Immortal Venerable Yao was the closest.

Immortal Venerable Yao smiled and was not modest. After all, the Dao Platform could indeed directly show the extent of one's mastery of the Heaven and Earth Great Dao.

The Immortal Venerables of the Devil Clan, the Spirit Race, and the others also wanted to ask how Immortal Venerable Yao had passed. Unfortunately, they knew that the human race would not say it. Next, Immortal Venerables entered the Dao Platform, but none of them passed.

Senior, can you enter this Dao Platform every day?" An Immortal Venerable asked. If he could enter the Dao Platform every day, his improvement could be imagined.

The black-robed artifact spirit shook its head, "The Dao Platform is open every day. You could only enter without any conditions for the first time. If you want to enter again, you'll need three beast blood's essence and 10,000 strange stones. In addition, the top 10 of the Beast Spirit Ranking will have an additional free opportunity to enter every month."

As soon as he said this, the Immortal Venerables frowned. Strange stones were easy to obtain. They were all in the underground palace of the Strange Beast Gate. It was fine to let the Beast Spirit geniuses collect them, but the essence of beast blood was incomparably precious. When it appeared in the palace previously, the various races only obtained about a hundred, and it was even less in the hands of every Immortal Venerable.

Furthermore, the Beast Blood's Essence was related to Beast Spirits.

Shen Ping's heart skipped a beat. He had a lot of beast blood's essence. Now, he had more than 700 in stock. Every beast spirit had fused very little of this. However, if there was no follow-up, it would not be used many times.

It was very difficult to improve on it just by relying on the Dao Platform a few times.

"Senior, can beast blood's essence only be obtained in the palace?"

"That's right."

"How long will it take for the next palace to appear?"

"You will naturally know when it is born."

The Immortal Venerables were speechless. They originally did not value the essence of the beast blood too much. After all, they did not want to become Beast Spirits. They only needed to have the qualifications to enter the Strange Beast Gate. However, now that the essence of the beast blood was related to the Dao Platform, they had to value it.

Moreover, once the Dao platform appeared this time, all the races would urgently need the Beast Pattern Golden Fruit. Venerable Sovereigns would also be tempted. This thing was very likely to be effective on Venerable Sovereigns. As the light enveloped them again, all the Beast Spirit geniuses were expelled. After the news spread, the upper echelons of the myriad races were shocked.

The immortal kings, Immortal Venerables, and even Venerable Sovereigns who had yet to become Beast Spirit geniuses all asked their races for the Beast Pattern Golden Fruit..

Chapter 662: Venerable Sovereign Level (1)

Ever since the palace was born, the Beast Pattern Golden Fruit was not as rare as before. All the races basically had reserves. There were originally very few for humans. Even Immortal Venerable Qi and the others relied on Shen Ping to become Beast Spirit geniuses. However, they still had some reserves now. Despite that, compared to the number of top experts of the human race, this reserve was undoubtedly a drop in the bucket.

It was fine with Immortal Venerables. After all, there were only more than ten of them. However, there were more than a hundred Immortal Kings.

Although these Immortal Kings had the intention to become geniuses of the Beast Spirit geniuses, they did not have any special desires. The main reason was that they knew that their race would definitely prioritize outstanding juniors. This was because the lower their cultivation levels, the better it would be for them to become Beast Spirit geniuses.

Since the Dao Platform appeared, these Immortal Kings couldn't help it. They were already in the initial stages of comprehending the Great Dao of Heaven and Earth, and they were at a level where they were confused and didn't know how to improve quickly. Therefore, the Dao Platform could be said to be the greatest opportunity for Immortal Kings.

Immortal Venerables were the same.

This caused the competition for the Beast Pattern Golden Fruit within the human race to be very intense.

Even though after the Myriad Spirit Ranking, the human race gradually gathered together under the pressure of the Devil Clan, the Flame Race, and the other alliances of the four races, that was only on the surface. Now that it involved the huge benefits ahead of the opportunity, the Immortal Venerables and Immortal Kings ignored their usual friendship. In less than three days, they restored the five major factions of the past.

Among them, the four major factions, Immortal Venerables Nanji, Qi, Yu, and Yao, were fighting fiercely. Other than the four Immortal Venerables, others were still maintaining harmony. The factions they belonged to were just short of falling out. If not for the Venerable Sovereign, these immortal kings and the various immortal cities under them would probably fight each other.

Those who could cultivate to the immortal king realm all understood the essence of cultivation. To put it bluntly, it was a competition for resources. If you didn't fight, the resources wouldn't fall into your hands at all. In that case, you would be a step slower than others. Everyone understood this logic.

Unless it was a cheat.

Misty Peak.

Venerable Sovereign Tian Hong looked at the Immortal Venerables who were arguing endlessly and felt a headache. There were a total of 12 beast pattern golden fruits in the reserve. They were all obtained by the Immortal Venerables from the palace. In addition, Shen Ping had contributed a few, but these were far from enough.

The method of supplying a portion and waiting for the next portion would not work anymore. This was because everyone knew that the earlier they came into contact with the Dao Platform, the earlier they would know their flaws and shortcomings.

Besides, Venerable Sovereign Tian Hong could not wait to take a look at the Dao Platform, so he understood the thoughts of these Immortal Venerables and Immortal Kings.

“Everyone, don’t forget that just the Beast Pattern Golden Fruit is not enough. It also requires the essence of beast blood and strange stones. If we all enter the Dao Platform, then the resources we need in the future will be a considerable amount. How can our human race afford it?!”

“That’s right. In my opinion, it’s better to supply us Immortal Venerables first. After we completely understand the Dao Platform and reserve a portion of resources, we’ll supply the Immortal Kings one after another!”

“I have no objections to supplying Immortal Venerables, but we also have to consider Immortal Kings, especially those Immortal Kings who are close to breaking through to the Immortal Venerable Realm. If we let them enter the Dao Platform, our human race might be able to increase the number of Immortal Venerable experts again!”

“That’s right. What Immortal Venerable Bing said makes sense. It’s far from a day for us Immortal Venerables to advance and break through. We might as well give the opportunity to the Immortal Kings!”

“The current environment of the myriad races in the Immortal Dao is complicated. The Devil Clan, the Spirit Race, and the other four races have been keeping an eye on our human race. This time, they will definitely provide the Immortal Kings first. Our human race is already behind. If we don’t catch up, I’m afraid the territory will shrink again!”

The Immortal Venerables of the four factions had different opinions. They were mainly divided into two types. One was to agree to immediately supply Immortal Venerables and wait until there were enough resources in the future before supplying Immortal Kings in turn. The other was to supply Immortal Kings first.

However, no one asked Shen Ping to contribute anymore. After all, Shen Ping was already a disciple of a Venerable Sovereign. Although he was an in-name disciple, his status was no longer the same as before. Moreover, a Venerable Sovereign was the strongest faction among the five major factions.

Venerable Sovereign Tian Hong frowned, and the voices of the other Immortal Venerables instantly disappeared. They received the news at the same time. The Spirit Race’s Venerable Sovereign had already entered the Strange Beast Gate’s Realm Sea Peak. Moreover, he had passed eight levels in a row and stopped at the ninth level! The Devil Clan’s Venerable Sovereign also passed the eighth level. The other Demon Race, Flame Race, Winged Race, and other Venerable Sovereigns failed on the eighth level.

The Dao Platform had a total of 33 levels.

This news not only shocked the myriad races, but even Venerable Sovereign Tian Hong’s pupils could not help but constrict.

This was a Venerable Sovereign. The peak existence of the Immortal Dao who had comprehended a complete Heaven and Earth Great Dao had actually only reached the ninth level at the highest. He was so far from the 33rd level.

However, after returning to his senses, the anticipation in Venerable Tian Hong’s eyes intensified. The greater the difference, the more it meant that there was definitely a long way to go above the Venerable Sovereign Realm.

He could not sit still anymore. He looked at the many Immortal Venerables below, “Let’s put aside the matter of the Beast Pattern Golden Fruit for the time being. I’m going to the Dao Platform and will discuss it when I return.”

“Yes, Venerable Sovereign!”

The Immortal Venerables naturally did not dare to have any objections. Moreover, they really wanted to know how many Dao platforms Venerable Sovereign could pass.

The news that a human Venerable Sovereign had entered the Strange Beast Gate spread throughout the myriad races. In less than five minutes, a large number of Beast Spirit geniuses arrived at the Strange Beast Gate. Shen Ping was no exception. Among the myriad races, Venerable Tian Hong was far stronger than the other Venerable Sovereigns. Otherwise, it was impossible for him to resist the Venerable Sovereigns of the Devil Clan, the Spirit Race, and the other four races alone..

Chapter 663: Venerable Sovereign Level (2)

As Venerable Sovereign Tian Hong entered the mist barrier of the Dao Platform in Realm Sea Peak, an armored figure appeared in front of him. “Use your strongest attack. If you defeat me, you can go to the next level!”

A smile appeared in Venerable Sovereign Tian Hong’s eyes. How many years had it been since he had encountered an opponent who made him use his full strength? Now, he had encountered one on this Dao Platform. “Then you have to be careful!”

Boom! As his aura exploded, the vast and mighty pressure made the entire space of the Dao Platform tremble faintly. Time and space completely froze at this moment, as if even the Great Dao of Heaven and Earth had stopped operating.

Bam.

Venerable Sovereign Tian Hong did not make any fancy moves. He only raised his hand and pressed down on the Dao Protector. It was as if endless space and time were crushed towards the other party.

The Dao Protector’s armor instantly shattered, and his figure turned into annihilation. Venerable Sovereign Tian Hong was stunned for a moment before revealing a thoughtful expression. He looked up and saw the mist barrier disappear. The second level of the mist barrier lit up and he walked towards the second level.

He did not use his full strength again on the second level of the Dao Platform. Instead, he slowly increased the power of the Heaven and Earth Great Dao he grasped. At first, it was only 10%. The Dao Protector also used 10% of the Heaven and Earth Great Dao methods. The two were equally matched. As a Venerable Sovereign, he had long mastered the Heaven and Earth Great Dao he grasped at will. He naturally grasped it perfectly.

Then, it was 20%. When it reached 30%, the Dao Protector was easily defeated.

“I see.” Venerable Sovereign Tian Hong immediately understood the strength of the Dao Platform’s guardian. In the next three levels, he constantly increased his power until he reached the ninth level. The power of the Heaven and Earth Great Dao that the Dao Protector could unleash had also risen to 90%. Not only could he use it perfectly, but he could also reveal a method that was close to the essence of the Great Dao. It could be said that at this level, the Dao Protector’s strength was even stronger. He could use many techniques that Venerable Sovereign Tian Hong had grasped.

It was not like before, where it only knew mechanical standards to activate the Heaven and Earth Great Dao.

Venerable Tian Hong knew where the two Venerable Sovereigns of the Devil Clan and the Spirit Race had lost. Even if he used the complete Heaven and Earth Great Dao, it would be difficult for him to defeat the Dao Protector. This was because the other party had already understood the essence. Its power was not something that could be compared to someone who had also grasped 90% or even a complete Heaven and Earth Great Dao.

Although he did not have enough analysis of the essence, he had been studying it attentively for so many years and had taken another path. It was precisely because of this that his strength far exceeded the Venerable Sovereigns of the Devil Clan and the Spirit Race.

Soon, he passed the ninth level. He stepped onto the tenth Dao Platform. Even with Venerable Sovereign Tian Hong's temperament and will, he could not help but feel a little expectant and nervous.

"Bring out your strongest technique. After defeating me, you will be able to proceed to the next level." The Dao Protector's voice was cold. Venerable Sovereign Tian Hong slowly raised his palm and pushed out. This palm was the strongest eruption he had accumulated since he started cultivating. It had fused with the complete Great Dao of Heaven and Earth and another method. Even the two Venerable Sovereigns of the Devil Clan and the Spirit Race would be injured. Boom. A palm print instantly appeared on the Dao Protector's body. In the next moment, a palm print appeared on Venerable Sovereign Tian Hong's body. A voice sounded in his ear, "You lost." As his voice fell, he was expelled from the mist barrier. However, Venerable Sovereign Tian Hong did not move. He stood on the spot and lowered his head to look at his body. The palm print had long disappeared, but he stared at it. His eyes went from confusion to realization to joy. He stood there for half a year and did not even notice that he had been expelled by the Realm Sea Peak's light. "The same complete Great Dao of Heaven and Earth and the same methods can actually be used together like this... Hahaha, the path I took before was right!"

Venerable Sovereign Tian Hong's laughter spread. After leaving the Strange Beast Gate, he immediately announced that he had entered seclusion. This time, he had gained a lot on the Dao Platform. Not only did he confirm the direction he would take in the future, but he also confirmed his path.

The human Immortal Venerables revealed looks of joy.

Venerable Sovereigns rarely went into seclusion. Most of them retained a portion of their consciousness to manage their race. After all, it was difficult for someone at his level to improve for hundreds of thousands of years. Now that he had actually announced that he was in seclusion, he had undoubtedly gained a lot.

After the news spread, the expressions of the Venerable Sovereigns of the Devil Clan, the Spirit Race, and other clans darkened. Although they had gained something on the Dao Platform, they had not reached the stage of seclusion. They did not expect that not only had the human Venerable Sovereign passed the ninth level, but he had also entered seclusion.

"Prepare the beast blood's essence and strange stones quickly!"

The Venerable Sovereigns of the two races entered the Dao Platform again.

In the City Lord Manor of Gray Stone City, Shen Ping chatted with his master, Lian Xuejin, as he took a walk on the corridor of the pavilion by the lake. "Venerable Sovereign passed the ninth level, but as his disciple, I can only last for more than ten breaths on the first level. The difference is simply like the difference between clouds and mud!"

"Disciple, how long have you cultivated? Your strength is only at the Tribulation Transcendence realm. It's normal for you to be inferior to a Venerable Sovereign. You have to adjust your mentality!"

Hearing his master's gentle voice, Shen Ping smiled and said, "Master, I'm just a little emotional. The help of the Dao Platform is indeed huge. Master, you have to improve the Beast Scripture as soon as possible. As long as you can comprehend the level of the scale armor, you can enter the Dao Platform. At that time, be it the Great Dao of Heaven and Earth or the many methods you have grasped, you can see the shortcomings and flaws."

Lian Xuejin said helplessly, "Don't worry about me. I know my limits. I'm afraid it will take a long time to enter the scale level." She then changed the topic and said, "Disciple, many higher-ups have wanted to buy the Beast Pattern Golden Fruit and the essence of the beast blood through me. No matter what your needs are, they are willing to exchange the corresponding resources with you." As the Venerable Sovereign entered seclusion, many immortal kings could not sit still anymore. They began to contact Lian Xuejin, wanting to trade with Shen Ping, as everyone knew that Shen Ping definitely had a lot of stock on him. Instead of competing with the other immortal kings and Immortal Venerables for the few beast pattern golden fruits in their race, it was better to think of a way from Shen Ping.

"I don't have much need at the moment." Shen Ping naturally knew that he could not avoid it. Moreover, he still had some beast pattern golden fruits on him. They were originally prepared for his wife, concubines, Dao companions, and descendants of the bloodline. But his dao companions had no use for it, and his descendants of the bloodline were even further away, so it was better to use them to trade.

After thinking carefully, he suddenly said, "Master, tell those seniors that if they want to trade for the Beast Pattern Golden Fruit and the essence of the beast blood, they have to use the Chaos Origin Stone."

"Chaos Origin Stone?"

"Yes."

In the race's treasury, the Chaos Origin Stone was relatively precious. The contributions required by the race were not small, and the Chaos Origin Stone was helpful to the World Pearl.

Among the treasures he could use now, only the World Pearl had a huge support. It could allow his consciousness to study the Great Dao of Heaven and Earth inside, and the Soul Parasite talent could also be used inside.

Although he did not know the specific function of the World Pearl, Shen Ping had a feeling that this thing was definitely very useful. Otherwise, it would not be more valuable than a supreme treasure.

"Sure."

Not long after, Immortal Venerable Nanji, Immortal Venerable Qi, and the others knew Shen Ping's request.

"Chaos Origin Stone, what does he want this for?"

"The Chaos Origin Stone can only be found in the Realm Sea. There aren't many of them. At the moment, I only know that it's a rare material forged by a supreme treasure. Could it be that he wants to forge a supreme treasure?"

"What a joke. His cultivation level is only at the Tribulation Transcendence realm. Isn't it too early to forge a supreme treasure? Moreover, isn't that armor supreme treasure on him?"

"No matter what he uses it for, it's fine as long as it can be traded. Although this thing is precious, it can't compare to the Beast Pattern Golden Fruit and the essence of the beast blood."

The Chaos Origin Stone was indeed a material for forging supreme treasures, but the problem was that the forging of supreme treasures required other things. Immortal Venerables and Immortal Kings could not gather them at all. When they gathered the other materials, they could go to the Realm Sea to find the Chaos Origin Stone.

Therefore, Immortal Venerable Nanji, Immortal Venerable Qi, and the others quickly contacted Lian Xuejin to discuss the exact price of the transaction. After a few rounds of wrangling, Shen Ping finally agreed to exchange a Chaos Origin Stone for a beast pattern golden fruit and beast blood's essence.

However, Immortal Venerables and Immortal Kings did not have many Chaos Origin Stones in their hands. It would take hundreds or thousands of years to go to the Realm Sea. Therefore, only twelve stones landed in Shen Ping's hands in the end, but this was already a huge gain for him..

Chapter 664: The Fifth of Ten Special Physiques (1)

In his sea of consciousness of the World Pearl, Shen Ping took out the twelve Chaos Origin Stones he had obtained.

The World Pearl was like a shark that had smelled blood. The void power around the deserted island surged over crazily and devoured all twelve Chaos Origin Stones. In almost the blink of an eye, the valuable Chaos Origin Stones transformed into powder and dissipated.

After absorbing the energy in the Chaos Origin Stone, the World Pearl immediately changed. First, the deserted island seemed to have come to life. The rocks became harder, and green plants grew in some places. These plants were like stone ringworms, absorbing the void power around the deserted island, gradually expanding it.

The Living Soil of Nine Heavens that was originally thrown in also quietly changed at this moment, slowly corroding the rocks into soil. This kind of soil was spread by the Living Soil of Nine Heavens. If some natural treasures were planted inside, not only would they grow quickly, but their quality would also be top-notch.

Of course, the greatest change was still the flow of time.

Shen Ping could only sense the difference in the flow of time in his consciousness. After trying it now, he realized that even when his body entered, he could maintain the acceleration of time. It was about seven times. In other words, a day outside is equivalent to seven days inside.

Although it was far inferior to the acceleration of time in his consciousness, this change made Shen Ping feel inexplicably surprised. What he lacked now was actually time. Other prodigies could enjoy a hundred or even a thousand times the acceleration of time in the immortal Dao territory, but he could only use the Taiyi Void Immortal Talisman to maintain ten times the acceleration.

Usually, it was nothing. However, now that the Dao Platform was open, it would take a long time to study and improve the Great Dao of Heaven and Earth. He urgently needed treasures that accelerated time.

In addition, if the World Pearl could maintain a hundredfold increase in speed, his wife, concubine, and Dao-companions would also improve at a faster rate.

All along, Shen Ping was very clear that his wife, concubine, and Dao companions felt guilty and blamed themselves for being too weak to help him. Even female cultivators like Luo Qing and Pei Huoyu felt even more tortured in their hearts. If he did not occasionally counsel them, they would definitely take things too hard.

"Twelve Chaos Origin Stones increased the acceleration of time by seven times. Then, more Chaos Origin Stones will definitely increase it!"

Looking at the expanding area of the deserted island, his eyes lit up. He felt increasingly anxious about the need for the Chaos Origin Stone. However, it was really not worth it to exchange it with the contribution points of his race. He could only continue to exchange it with the Beast Pattern Golden Fruit and the essence of beast blood.

Fortunately, he had a lot of beast blood's essence reserves.

After leaving the World Pearl, he immediately contacted his master, Lian Xuejin, and increased the price. Two Chaos Origin Stones could only be exchanged for one Beast Pattern Golden Fruit and Beast Blood's Essence.

When the Immortal Venerables and Immortal Kings of the Immortal Dao Domain heard this, not only did they not think that Shen Ping was asking for too much, but they became even more anxious. This was because they felt that it was very likely that Shen Ping did not have much reserves left. After all, the Beast Pattern Golden Fruit and beast blood's essence were rare resources. Even a race like the Spirit Race and the Devil Clan, who had many beast spirit geniuses, had limited reserves.

Therefore, they all thought of ways to get Chaos Origin Stones.

Some even ran straight into the Realm Sea. Although this thing was rare, it could also be found at the edge of the Realm Sea. It would only take a long time. Some immortal kings knew that they were not competitive, so they simply placed all their hopes on the Chaos Origin Stone.

In the blink of an eye, a hundred years passed.

Shen Ping used the beast pattern golden fruits and beast blood's essence to exchange for ten Chaos Origin Stones one after another, increasing the time flow of the World Pearl to 15 times. Now, he would go into the World Pearl every day to cultivate in seclusion. The original Taiyi Void Immortal Talisman was given to the descendants of the bloodline.

Apart from that, his wife, concubines, and Dao-companions were also cultivating in the World Pearl.

During this period, the myriad races were calm. The Devil Clan and the Spirit Race no longer targeted Shen Ping and focused their attention on the Dao Platform. However, there were not many people who had the strength and resources to go to the Dao Platform often. Basically, those ranked in the top would consume a free opportunity to enter every month.

Even so, after a hundred years of exploring, the Immortal Venerables and Immortal Kings had all figured out the exact level of the Dao Protector. Almost every level's comprehension of the Heaven and Earth Great Dao kept increasing. The first level grasped 10% of the Heaven and Earth Great Dao. No matter what divine power the challenger used, the Dao Protector would use 10% of the power of the Heaven and Earth Great Dao to execute this method.

Therefore, in just a few decades, the Immortal Venerables of the various races passed the first and second levels one after another. After all, Immortal Venerables had basically grasped more than 30% of the Heaven and Earth Great Dao. For example, Immortal Venerable Nanji, Immortal Venerable Qi, and Immortal Venerable Yu had grasped 50%.

After familiarizing themselves with the Dao Protector, they passed to the third level. Only Immortal Venerable Yao passed the fourth level.

However, the more they understood the Dao platform, the greater the demand of the Immortal Venerables and Immortal Kings for beast blood's essence.

There were already Immortal Kings in the human race who had secretly increased the price to the level of three Chaos Origin Stones for one beast blood's essence.

They had no choice. Beast blood's essence was too important. Even though only three beast blood's essences and 10,000 strange stones could give one a chance to enter the Dao Platform, as long as they, Immortal Kings, entered once, they would have a considerable improvement.

In the mist barrier on the first level of the Dao Platform of the Realm Sea Peak, Shen Ping kept teleporting and dodging the attacks of the third level of the Primordial Chaos Spear used by the Dao Protector. Compared to the first time he entered, he could already withstand five minutes. It was probably the same as the first time those Immortal Venerables entered. The improvement could be

said to be quite great. Most importantly, he was already extremely familiar with the use of the Heaven and Earth Great Dao fluctuations..

Chapter 665: The Fifth of Ten Special Physiques (2)

By now, he already understood that the Great Dao fluctuation of the world was not even at the entry level. It was only a little more than the scale armor level, but the fluctuation was a necessary way to come into contact with the Great Dao of the world.

Simply put, the fluctuation was the appearance of the Great Dao of Heaven and Earth. If one could not even sense the fluctuation, they would definitely not be able to comprehend the Great Dao of Heaven and Earth.

Under normal circumstances, Immortal Kings who had just broken through to the Immortal King Realm could sense fluctuations. After completely familiarizing themselves with the realm, Immortal Kings could quickly grasp the fluctuations and enter the threshold of the Great Dao of Heaven and Earth.

Therefore, one could imagine how unbelievable it was for a Tribulation Transcendence cultivator like Shen Ping to come into contact with the fluctuations of the Heaven and Earth Great Dao. This was the strength and specialness of the Beast Spirit lineage.

Bam.

As the purple spear tip pierced through Shen Ping's body, his consciousness was expelled out of the mist barrier when it collapsed. He looked at the Dao platform and muttered, "In another hundred years, I can completely begin to understand the Great Dao of Heaven and Earth!"

Compared to the other Beast Spirit prodigies, he came to the Dao Platform more often. However, he did not dare to come once a month. This was because if he came too often, it would not have much effect. Only every time he improved in his comprehension, entering the Dao Platform was the most efficient.

Even so, he had spent more than 200 beast blood's essences in a hundred years.

After leaving Realm Sea Peak, he went to the first level of the Heavenly Palace and spent a few months with Yin Ting. Then, he continued to search for strange stones in the Heavenly Palace. In the past, there were many Beast Spirit geniuses in the Heavenly Palace. Most of them wanted to obtain Beast Spirit Treasures and other resources. Now, there were even more. Almost every day, more than a million Beast Spirit geniuses stayed in the Strange Beast Gate for the sake of strange stones.

More than 10,000 strange stones. A Beast Spirit prodigy would have to work hard for decades to accumulate them. This was the Heavenly Palace. If it was in the underground palace, there would be even fewer.

He returned to the City Lord Manor. Just as he walked out of the quiet room, his expression suddenly changed. He looked up at the sky and saw the clouds gathering. Immortal spiritual energy surged rapidly towards a quiet room. "It's Ying Yue. I didn't expect her to break through to the Body Integration realm so quickly."

A few days later, lightning tribulation surrounded her and kept descending, but they were all blocked by the immortal formation. The remaining lightning tribulation poured into Ying Yue's body, causing her physique and magic power to constantly transform.

"Congratulations, Sister Ying Yue."

After the wives and concubines received the news, they came out of the World Pearl one after another. Other than congratulations, they were also envious. Now that they had the World Pearl to accelerate time, their cultivation speed was far faster than before. After all, they had to consider the consumption of Taiyi Void Immortal Talismans in the past. However, they did not have to worry about any consumption now.

Joy flickered between Ying Yue's beautiful brows. The Body Integration realm could be considered a top cultivator in the five continents and four seas. In the past, the Supreme Elder of the Moon Lotus Holy Sect was only at the peak of the Body Integration realm. Now that she had also entered this level, she finally did not let down the Sect Master's expectations.

"Thank you, husband. If not for your help, Ying Yue would not have advanced so quickly!" Even though she had the World Pearl to accelerate time, the many precious resources provided by the True Treasure Pavilion were the key. Especially the supplementary treasures from the immortal Dao territory, they greatly increased the effect of cultivation. For example, a calming immortal pill could allow a cultivator to abandon distracting thoughts at the fastest speed and reach a meditative cultivation state. Moreover, the speed of the circulation in her body was several times faster than before.

Shen Ping smiled and said, "You're my Dao companion. It's only right for me to help you."

Ying Yue's eyes were filled with tears, and her red lips moved. "Husband, I have to serve you with all my heart tonight."

The two of them could be considered an old couple. They were extremely clear about every inch of their skin. Shen Ping's interest did not decrease at all. In recent years, he had focused on the Great Dao of Heaven and Earth and did not have much interest in sex.

Soon, the lights swayed. This Holy Maiden of the Moon Lotus Holy Sect had moist skin. Moreover, because of her special cultivation, the deep layer of her skin revealed a strange flower petal fragrance. This kind of flower petal was helpful to the relationship between sex. Coupled with the fact that Ying Yue knew all kinds of methods, and her physique had increased again, making Shen Ping very happy.

Dozens of days passed.

Shen Ping held Ying Yue's fair and slender waist. When he was lying down to rest, he opened the virtual interface in his eyes. Ever since the black crown appeared on the interface, there had been almost no change. Today, Ying Yue's virtual interface had changed to purple.

This made him involuntarily glance at Ying Yue, who was sleeping soundly. Initially, he thought that it would be at its limit to reach gold. He did not expect it to reach purple.

The virtual frame suddenly shook, and then all the purple frames on it flickered with purple light. This purple light even surpassed the deep darkness of the black crown and the dazzling seven-colored light. After dozens of seconds, the purple light actually surged into Shen Ping's pupils, causing them to flash purple.

"Wang Yun, Luo Qing, Mu Jin, Bai Yuying, Yue Lingluo, Ying Yue. The six purple frames seem to have reached a certain transformation, awakening my exclusive virtual talent, the Purple Eye Divine Pupils!"

Shen Ping looked at the third page that appeared in the virtual frame. There was only one line of words inside. Purple Eye Divine Pupils—it could discover and sense a Dao Companion with a special physique.

His eyes immediately revealed joy. The reason why it was difficult to find a special physique was mainly because the probability of it being born was too low. Even if he was proficient in the content

of the Views of the Gateway in the Moon Lotus Scripture, he had to come into contact with it to discover it. This was also the reason why he had yet to encounter the fifth special physique. Now that he had the purple eye divine power, the chances of discovering the ten great physiques would undoubtedly increase greatly.

Shen Ping attached great importance to the strange beast talent that appeared in the ten physiques. He was able to survive until now under the pressure of the Devil Clan, the Spirit Race, and the other four powerful races because of his strange beast talents, enhancement, teleportation, the Pupil of Sea Beast, and the Soul Parasite, contributing greatly. Without these four strange beast talents, no matter how strong he was, it was impossible for him to resist the targeting of the four races.

There was no hesitation. He immediately activated his Purple Eye Divine Pupil talent. The purple light that appeared in his purple pupils covered the entire City Lord Manor at an extremely fast speed. This made Shen Ping frown slightly. If it was only such a small area, the chances of finding it were relatively low. He could not possibly search every city.

Right. Pupil of Sea Beast. Thinking of this, he directly activated his two talents and immediately discovered that there was no interference. In the energy phantoms seen by the Pupil of Sea Beast, even the Purple Eye Divine Pupils could discover female cultivators with special physiques. This was because the energy he saw was clearly different from others.

In just half a day, he really found a few female cultivators with special physiques. However, these were not the ten great physiques, but physiques like the Ice Muscle Jade Body and the Inner Charm Fire Body. When he was weak, he urgently needed female cultivators with such physiques, but now, he was no longer interested.

Shen Ping searched for half a year in a row and searched all the cultivation places in the entire Western District. He found many special physiques, but he did not find a single one of the ten special physiques. This made him sigh with emotion that the five continents and four seas were really a strange place. "Perhaps it's related to the strange beast. The five continents and four seas suppress the strange beast, and the few strands of the ten special physiques born from the living beings inside will naturally increase!"

He guessed this. He might as well bring Ying Yue, his wife, and his Dao Companions to the five continents and four seas to relax. He would look for female cultivators with the ten great physiques. He had done this last time, but this time, with the Purple Eye Divine Pupil, the coverage would be wider and he would not miss anything.

Unfortunately, he still did not obtain anything.

In the hundred years after he returned to seclusion in disappointment, he happened to encounter the fifth female cultivator with the ten special physiques when he went to the Dao Platform!!

Looking at the beautiful, tall, and extraordinary woman in front of him with wings as thin as cicada wings on her back and spirit runes on her forehead and eyelids, the corners of Shen Ping's mouth could not help but twitch.

Spirit Race's Immortal King!

Needless to say, she was definitely one of the Immortal Kings of Spirit Race who had just obtained the Beast Pattern Golden Fruit and entered the Dao Platform. This was because he had long seen the other Spirit Race's Immortal Kings, but he had not discovered anything abnormal from their appearances and characteristics.

The Spirit Race already had conflicts with the human race and territories. If it was the Winged Race, he could still force it, but it was the Spirit Race, and an Immortal King at that.

Shen Ping could only sigh helplessly..

Chapter 666: Arrogant Junior (1)

“You are the strongest prodigy of the human race, Shen Ping, right?” The female Immortal King of the Spirit Race had a hint of interest in her eyes. She sized up Shen Ping and smiled slightly. “As expected of a human, to be able to catch up to the strongest prodigy of our Spirit Race in a thousand years and even kill many Golden Immortals in the Abyss of Supreme Darkness alone. Your potential is extraordinary. If you’re willing to change sides, our Spirit Race will definitely do our best to nurture you. Even the Venerable Sovereign will take you in as a disciple.”

Shen Ping was about to speak when the female Immortal King continued, “Are you trying to say that those who are not of our race must have different intentions? To us cultivators, although our race is important, improving our own strength is the most important.”

The corners of Shen Ping’s mouth twitched. He didn’t expect the Spirit Race’s Immortal King to recruit him. However, he quickly understood that the other party was probably just saying it casually and didn’t expect him to agree at all. Of course, if he really agreed, the upper echelons of the Spirit Race would wake up laughing in their dreams. “May I ask who you are, senior?”

“Immortal King Die, you can also call me Senior Ling Die.”

Shen Ping smiled and said, “I’ve always admired the women of the Spirit Race. Senior Ling Die’s appearance is considered to be among the most beautiful among us humans. If Senior Ling Die is willing to be an immortal couple with me, I’ll definitely use all the resources I have. I think I can let you break through to the Immortal Venerable realm as soon as possible. It might even be possible to reach the realm of Venerable Sovereign.”

The Spirit Race’s Immortal King in front of him was not angry. Instead, her eyes narrowed slightly, and then she quickly chuckled. “How interesting. You’re a Tribulation Transcendence junior of the human race, but you actually dare to covet my body. Could it be that you think that this is the Realm Sea Peak and that I can’t do anything to you?”

Immortal King Ling Die released her aura. Although it was quickly neutralized, the deterrence of his aura still made Shen Ping’s face turn pale. Yet he still said fearlessly, “If not for the Realm Sea Peak, I wouldn’t even have the right to say a word.”

“Hmph, at least you have some self-awareness. Humans are arrogant. A junior like you is even more arrogant.” With that, she did not say anything else.

Shen Ping glanced at the other party and directly entered the Dao Platform. If the other party was a human Immortal King, he might be able to think of a way. However, since she was an Immortal King of the Spirit Race, there was basically no hope. However, he was not too disappointed. With the Purple Eye Divine Pupils, he believed that he would discover the other ten special physiques sooner or later.

As the fourth Beast Spirit Ranking was about to open, the demand for the Beast Pattern Golden Fruit soared. This was because the opening of the ranking meant that the fourth palace would appear. In the world where the palace appeared, one could obtain the essence of the Beast Blood and the Beast Pattern Golden Fruit. Those cultivators who had not become Beast Spirit geniuses would naturally want to enter.

Even Golden Immortals, Mystic Immortals, and other higher-ups of the Immortal Dao who had not comprehended the Great Dao of Heaven and Earth were the same. After all, if they entered the palace world earlier, they could store the essence of the beast blood and prepare for the future.

“The Realm Sea Peak is more like a transcendent faction. Be it the Strange Beast Gate, the Myriad Spirit Ranking, or the Beast Spirit Ranking, they seem to be absorbing geniuses and nurturing Beast

Spirits. Now that the Beast Spirit lineage is constantly strengthening, even the Venerable Sovereigns and Immortal Venerables of the various races can be called the Beast Spirit lineage.”

Listening to his master’s lament, Shen Ping nodded in agreement. To be honest, Realm Sea Peak was indeed like a top sect. Everything was to attract cultivators and find suitable Beast Spirits among them. Just like the True Treasure Pavilion that his master had established back then, they built True Treasure Pavilions in every region of the five continents and four seas to absorb skill geniuses and find suitable inheritors.

However, Realm Sea Peak was even more chaotic and had a wider range.

“Disciple, if you need Chaos Origin Stones, you have to hurry. Once a large amount of beast blood’s essence is born in the palace, it will be very difficult for you to trade with the higher-ups of the immortal Dao in the future.” Lian Xuejin reminded him.

“I understand.”

No one was a fool, not even the higher-ups of the Immortal Dao. The reason why they were willing to offer more was mainly because they were anxious to enter the Dao Platform. Coupled with the fact that there were indeed very few resources in the Human Race at the moment, he naturally dominated this place.

There were still 50 years before the Beast Spirit Ranking opened. Some of the Immortal Kings who had gone to the Realm Sea returned one after another. They quickly traded with Shen Ping, and Shen Ping also obtained more than 20 Chaos Origin Stones, increasing the time flow of the World Pearl to 20 times faster.

Another two years passed. The fourth palace was born. All the Beast Spirit geniuses immediately entered the palace. This time, Senior Artifact Spirit only said a few words before disappearing. This puzzled Shen Ping and the other Beast Spirit geniuses. Some of them even guessed that the appearance of the palace this time was not as important as before.

That was the truth.

After the Beast Spirit Ranking ended, the palace officially opened. The palace world was actually similar to the first time. Although the environment was different, they still dug out strange stones to exchange for Beast Blood Heavenly Spirit Liquid, Beast Pattern Golden Fruits, Beast Spirit Pills, supreme treasures, top-notch Beast Spirit Treasures, and many other resources.

Shen Ping’s reserves in this area were almost empty, especially the Beast Spirit Pills and the Heavenly Spirit Liquid. He could take this opportunity to collect another wave.

With his previous experience, his efficiency in digging the strange stones was higher, but the Devil Clan and the Spirit Race knew that Shen Ping seemed to have special methods. Therefore, in this palace world, they constantly sent Beast Spirit geniuses to interfere with Shen Ping. If not for his teleportation technique, he might have lost everything this time. Even so, the resources he exchanged for were greatly reduced compared to last time..

Chapter 667: Arrogant Junior (2)

In the end, he only exchanged for 30 bottles of Beast Blood Heavenly Spirit Liquid, 15 bottles of Beast Spirit Pills, 10 Beast Pattern Golden Fruits, and a top-notch Beast Spirit Treasure. He no longer had enough strange stones to exchange for treasures.

The number of Beast Spirit geniuses in the human race this time could be said to have soared compared to the first time, there were 60 to 70 more. Moreover, most of them were Immortal Kings

and Immortal Venerables, but they relied on the number of prodigies to dig out the strange stones, so they did not have the advantage at all.

Therefore, until the end, these Immortal Kings and Immortal Venerables did not obtain much. At most, they distributed a few Beast Pattern Golden Fruits and Beast Spirit Pills.

Venerable Sovereign Tian Hong glanced at the gradually disappearing Exchange Palace and frowned slightly. In the end, the human race had started too late. They actually did not even obtain a supreme treasure this time.

“Damn the Devil Clan and the Spirit Race. If they hadn’t interfered with Shen Ping, one of the three supreme treasures would definitely be ours!”

“It can’t be helped. The rules of this palace world are too beneficial to the Devil Clan and the Spirit Race. Previously, Shen Ping could still catch them off guard, but now that they know Shen Ping’s methods, they will naturally be on guard.”

“According to this situation, the next time the palace appears, it might be the essence of beast blood. The next time after that might be a Great Dao secret technique!”

“Great Dao secret techniques are incomparably precious. Even a place like Realm Sea Peak probably doesn’t have many!”

“Who knows? To us, Great Dao secret techniques are precious, but not necessarily in Realm Sea Peak. Don’t forget the Dao Platform. It has 33 levels. Since it has been built, there might really be experts who have reached the end!”

As soon as he said this,

Even Venerable Sovereign Tian Hong’s pupils constricted. He was still at the tenth level and was extremely far from the 33rd level. In his realm, every small step required countless time.

Soon, the fourth palace disappeared.

In the narrow wooden house at the core of the Nine Continents Tower, Shen Ping saw Venerable Sovereign Tian Hong’s projection again. “Greetings, Master!” He bowed.

Venerable Sovereign Tian Hong’s projection casually waved his hand. “These are a hundred Chaos Origin Stones. Take them. Don’t make this matter public. Although the Chaos Origin Stones are precious materials, they’re not very useful to me.”

Shen Ping’s face immediately lit up. A hundred stones was more than what he had traded. “Thank you, Master!”

Venerable Sovereign Tian Hong shook his head. “I forcefully ended my seclusion this time because of the appearance of the palace. I didn’t expect it to be like this. However, since I’m here, I can prevent the Venerable Sovereigns of the Devil Clan and the Spirit Race from bullying us humans and cutting off our exchange rights.”

Shen Ping hurriedly said, “I was useless and couldn’t exchange for treasures for the race.”

Venerable Sovereign Tian Hong waved his hand. “There’s no need to blame yourself. You’ve already done very well. Moreover, you obtained a supreme treasure last time. For someone at my level, a few supreme treasures are enough. Moreover, no matter how many supreme treasures the Devil Clan and Spirit Race get, they’re not my match.”

His words were filled with confidence. Although the Dao Platform did not directly reflect one’s strength, it could show one’s mastery of the Great Dao of Heaven and Earth.

“Disciple, how’s your comprehension of the True Book of Dao Origin?”

“I’ve already comprehended the second diagram.”

Venerable Sovereign Tian Hong nodded in satisfaction. “Not bad. You’ve improved so much in just a few hundred years. Your talent and comprehension are the best I’ve ever seen. The first page of that top-notch Great Dao secret technique is at the entry level. Moreover, it involves the essence. As

long as you completely master it, you can comprehend Heaven and Earth Great Dao. Your comprehension in this aspect won't be slow in the future."

Then, the Venerable Sovereign explained some more difficult questions to Shen Ping before disappearing.

He returned to the City Lord Manor. Shen Ping sighed in his heart. He knew that his progress was not slow, but compared to his previous progress in comprehending the Beast Scripture, it was already very slow.

In 500 years, he had only comprehended the second diagram and had yet to completely master it. One had to know that there were six diagrams on the first page. Now, he had only comprehended the rainwater diagram.

"The further I go, the more difficult it will be to comprehend. According to the current speed, I'm afraid I'll need more than ten thousand years of cold and summer to completely understand all the diagrams on the first page. This is even with the acceleration of the World Pearl!"

When he thought of the World Pearl, he took out a hundred Chaos Origin Stones. This was simply a timely rain for him. He directly entered the World Pearl and threw in all the Chaos Origin Stones. The deserted island expanded rapidly. It was twice as large as before, and the vegetation on the deserted island was even lusher. It felt like a paradise.

The wives, concubines, and Dao companions who were in seclusion were used to this.

After testing the flow of time, it increased from 20 times to 30 times. Although it was still inferior to the 100 times time acceleration that Yin Ting enjoyed in the Winged Race, it was obtained by consuming a lot of resources. This World Pearl did not consume much. It only needed Chaos Origin Stones.

"Thirty times the acceleration of time. A thousand years outside, thirty thousand years inside the World Pearl!"

Shen Ping looked at his wife and concubines. The lowest cultivation level among them was at the peak of the Divine Transformation realm, and the highest was Yue Lingluo, who was already at the mid-stage of the Body Integration realm.

Compared to most cultivators, Wang Yun, Yu Yan, Mu Jin, Luo Qing, Bai Yuying, and the others had no advantage in terms of talent and aptitude. The only thing was that they had sufficient resources. Even so, they had only cultivated for less than 2,000 years.

Most of the 2,000-year-old cultivators had reached the end of their lifespans.

In the blink of an eye, another hundred years passed.

Wang Yun, Yu Yan, and the others had all broken through to the Void Refinement Realm and their lifespans had reached more than 20,000 years. Moreover, due to their strong foundations, their strength far exceeded cultivators of the same level.

"Hehe, I can finally spend more time with my husband!" At the pavilion by the lake, Bai Yuying sat on Shen Ping's legs and wrapped her fair arms around her neck. Her face was filled with joy.

Although a Divine Transformation cultivator had a lifespan of ten thousand years, Shen Ping was a Tribulation Transcendence cultivator. Sometimes, he might go into seclusion for tens of thousands of years. They had always been worried that one day, their husband would end his seclusion and they would all look old.

Now that they had broken through to the Void Refinement Realm, there was no need to worry. After all, with such a sufficient lifespan, they would definitely be able to continue breaking through to the Body Integration or even the Mahayana Realm.

"Husband, should we arrange for An'er, Ling'er, and the others to enter the World Pearl to cultivate?" Wang Yun asked. Currently, the eldest son of the Shen family, Shen An, was already at

the late-stage Divine Transformation Realm. It was just that his cultivation speed had slowed down. The rest were basically at the Nascent Soul and Divine Transformation Realm. There were even some juniors who had already died.

After nearly two thousand years of reproduction, the Shen family had long become a huge cultivation family. Although they had the True Treasure Pavilion, the Shen family was very strict about the allocation of resources. Some juniors really didn't have any talent at all. If they didn't work hard, it was inevitable that they would die.

Shen Ping could not care about everything. He could only give each junior a fair distribution of resources. At the very least, they would have the ability to form their foundations and form their cores.

"There's no need. The World Pearl is the Shen family's greatest cultivation resource, unless a true genius is born in the family." Shen Ping thought for a moment and shook his head. The eldest son of the first wife was indeed different from the descendants of other bloodlines, but Shen An's talent was not outstanding. The Taiyi Void Immortal Talisman was enough.

Wang Yun stopped talking about this and changed the topic. "Sister Lingluo, I heard that Fellow Daoist An Zhi went to the eastern district to establish the True Treasure Pavilion a few years ago. I wonder how she is doing now?"

Yue Lingluo said as she ate her spirit fruit, "I'm not sure either. Speaking of which, ever since Fellow Daoist An Zhi went to the East District, she hasn't sent any messages. The East District and the West District are separated by the sea of stars. It's a long journey and we can only rely on jade slips to send messages. It's very inconvenient.

"However, I heard that the cultivation environment in the Eastern District is even worse and more chaotic than in the Western District. If there's no news after a while, I'll send an elder over to take a look."

When Shen Ping heard this, he couldn't help but say, "Since that's the case, why don't we go together? Just treat it as relaxing."

"Husband, are you ready to move?" Bai Yuying rolled her eyes. "Or are you worried about An Zhi?"

Shen Ping pinched Bai Yuying's face. "Ying'er, if you continue to be naughty, be careful not to be beaten by me!"

The reason why he wanted to go to the Eastern District was mainly because comprehending the Great Dao of Heaven and Earth was indeed very tiring. He wanted to relax. In addition, he wanted to see if there were any ten special physiques in the Eastern District..

Chapter 668: You're Already Experts (1)

The Eastern District of the Supreme Darkness Abyss.

After crossing the Starry Sea Pier was the famous Su River. This river, which looked like purplish-blue water, spanned almost the entire eastern region. Therefore, most cultivators in the eastern region traveled by magic treasure ships. Not only was it fast, but it was also safe.

On the deck of a ship on the river, Bai Yuying, who was wearing an embroidered pink dress, a white muslin sleeve, and purple jade beads on both sides of her hair that was tied up, had bells tied to her wrists. She stretched her arms and closed her eyes as she thought about the wind blowing on the river.

Not far from her, the melodious sound of the zither was distant and elegant, making one feel refreshed.

Shen Ping, on the other hand, was wearing a simple set of plain white robe. There were Dharma treasures embroidered with purple and black dragon patterns on his chest and waist. He was wearing cloud boots at the immortal artifact level. As he enjoyed the spiritual fruits handed over by Wang Yun and Luo Qing beside him, he admired the sound of Qiu Ying's zither.

The right side was still filled with the fragrance of the immortal tea. It had been a long time since Shen Ping had experienced such a comfortable life of cultivation. If it weren't for Bai Yuying's suggestion to conceal their aura and relax as ordinary human cultivators, they would have arrived at their destination, Sujiang City.

Suddenly, the river surface rolled. Bai Yuying opened her eyes and looked at the river in the distance. She pointed ahead with her fair finger. "Husband, look, it's a flood dragon! Wow, so many!"

Flood dragons were relatively rare for ordinary cultivators, but to them, they were nothing. However, it was still relatively rare to see dozens of flood dragons at once.

"It should be the Devil Clan's flood dragon lineage."

Many ships on the river surface moved out of the water. Shen Ping didn't want to cause too much trouble. He steered the ship towards the edge of the river. The Devil Clan and the Dragon Clan were two different races. Although they quarreled endlessly for the sake of the same origin, the Dragon Clan could be considered a branch of the Devil Clan. As long as the flood dragon didn't transform into a dragon, it belonged to the Devil Clan. Only by transforming into a true dragon could it be accepted by the Dragon Clan.

The strongest aura of the dozens of flood dragons in front of him was at the Body Integration realm. Most of the others were at the Void Refinement and Divine Transformation realm. It was a huge formation.

Bam! Bam! As the flood dragons approached, the waves they stirred up pushed most of the ships to the shore. The aura they emitted alone made many ships set up defensive arrays.

"Oh? It's actually a human!"

When they saw Shen Ping, a few flood dragons opened their mouths and spat out a large number of water dragon waves that rushed towards the ship where Shen Ping was. Although these water dragon waves were not top-notch spell techniques, their power was not small. Even a Void Refinement Realm expert would have to resist them with all their might.

The ship's defensive formation easily dispersed the water dragon wave. Bai Yuying said angrily, "These flood dragons of the Devil Clan are too much. We've already cleared the water surface, yet they still attacked us."

Mu Jin said softly, "I've long heard that the cultivation environment of the humans in the Eastern District is extremely harsh. Now it seems that the rumors are true. The surrounding ships belong to other races, but our ship belongs to the humans. These flood dragons are bullying us human cultivators."

Ying Yue, Wang Yun, Yu Yan, and the others nodded. They were not afraid of these flood dragons at all, but they did not retaliate.

Shen Ping watched indifferently and did not move. With his current strength, he really could not be bothered to argue with these flood dragons. Fortunately, these flood dragons only attacked for a while. They seemed to have something urgent and did not continue.

They drove along the Su River. Half a month later, they stopped at Maple Mountain Town. Sujiang City was not built on both sides of the Su River, it was rather far from the river bank, so they had to

set off from Maple Mountain Town and pass through dozens of markets to reach it. The journey was not too far, but the middle area was relatively chaotic.

There were many cultivators from various races in Maple Mountain Town. Many independent cultivators and cultivators from their families and sects often traded here to buy resources.

“This Maple Mountain Market is much bigger than the Cloud Mountain Parlour we’ve stayed in before. There are actually three main streets alone.”

Walking on the street, Bai Yuying, Wang Yun, Luo Qing, Mu Jin, and the other women looked around. From time to time, they would go to some stalls and shops to ask questions.

“The prices of medicinal pills, Dharma artifacts, talismans, array discs, materials, and other resources are not high. The purchasing power of spirit stones here is still very strong.” Yue Lingluo scanned the area and said, “Why didn’t Fellow Daoist An Zhi build a branch here? This place is convenient for transportation and can be used as a transfer station. They can quickly contact Starry Sea Pier and contact the Western District.”

Shen Ping nodded slightly. Under normal circumstances, a transfer station should be built here. After all, although Sujiang City was a large cultivation city in the surrounding area, there should be branches in some markets.

“Slaves.” Wang Yun suddenly stared at the alley in front of her and said. Shen Ping and the others looked over and saw rows of cultivators standing there. Among them, there were the most humans, and most of them were female cultivators. They were only wearing some cloth pieces that simply covered some important parts. The rest of their skin was completely exposed.

Men were in an even worse state. They were practically half-kneeling on the ground. There were restrictions on their necks and wrists. However, judging from the fluctuations of their mana, the highest was only at the late stage of the Foundation Establishment realm.

“It’s the disciples of the Myriad Cloud Sect. I heard that their sect was destroyed some time ago. Almost all the high-level elders of the sect are dead. These low-level disciples can only become prisoners.”

“A core disciple of the Myriad Cloud Sect offended a descendant of a noble flood dragon of the Devil Clan. The group of flood dragons from before went to surround the remaining grand elder of the Myriad Cloud Sect..”

Chapter 669: You Are Already Experts (2)

“The taste of human female cultivators is quite good. It’s fine if it’s male, but it’s not much use to refine them into puppets.”

Some human cultivators shook their heads as they watched.

Wang Yun, Bai Yuying, and Luo Qing couldn’t bear to see this. They remembered when they were at the bottom of the hierarchy. However, even if they bought them, these cultivators wouldn’t end up well. After all, the strongest among them was only at the late-stage of the Foundation Establishment realm. Unless they followed them all the time, they might be caught again.

On the other hand, Yue Lingluo was very calm. “Cultivators fight, those who lose become prisoners, this is the law of the jungle. This is cultivation.”

“If you don’t want to buy it, move aside.” The demon cultivator in charge said coldly. Many human cultivators left in a hurry. There might be some sympathizers among them, but no one dared to help, let alone buy nearly a hundred disciples. It was not a small sum.

“Husband.” Bai Yuying grabbed Shen Ping’s hand and said weakly.

“Lingluo, give it three top-grade spirit stones.” Shen Ping said.

Yue Lingluo immediately understood what Shen Ping meant. She immediately took out three top-grade spirit stones and handed them over. The group of Myriad Cloud Sect disciples raised their heads, their eyes filled with hope.

The demon cultivator's eyes suddenly lit up as he chuckled. "Fellow Daoists of the human race, you're too generous. These cultivators are all yours. You can do whatever you want with them. The restrictive formation is here."

After the transaction was done, the demon cultivators left. On the other hand the eyes of many foreign races flickered, as if they had their eyes on Shen Ping and the others. Wang Yun, Yu Yan, Luo Qing, and the others had all used disguise methods, but their auras were still extraordinary. Even if they were at the Void Refinement Realm, they were nothing in the eyes of these foreign races.

"Let's go and find an inn to rest first."

Soon, everyone arrived at the inn. The disciples of the Myriad Cloud Sect had undergone a simple combing, and they were much less disheveled. This was especially true for the female cultivators, who had all changed into spruce robes.

"Senior, thank you for saving us! No matter what instructions Senior has, we will do it."

Although Shen Ping had directly removed the restrictions on their bodies, none of these Myriad Cloud Sect disciples left.

One of the late-stage Foundation Establishment disciples reminded him, "Senior, you have to be careful. The demon cultivators will definitely not let us off easily. You've probably already been targeted by them since you used top-grade spirit stones to buy us. No one dares to make a move in the Maple Mountain Market as this is the territory of the Spirit Race, but as long as we leave Maple Mountain Town, we'll be in danger."

Shen Ping waved his hand. "It's fine. Since I saved you, I'm not afraid of being targeted by the other alien races. On the other hand, what are your plans for the future?"

The late-stage Foundation Establishment disciple smiled bitterly and said, "Our sect has been destroyed, and the other human sects don't dare to take us in. In the future, we'll become wandering cultivators and can only find opportunities to cultivate again in Maple Mountain Town."

He could tell that these people in front of him were not ordinary cultivators and had no intention of making them work for him. Therefore, even if he wanted to befriend them, he would not say it. The other female cultivators of the Myriad Cloud Sect were also silent. Many of them wanted to follow Shen Ping and the others, but they could not say anything.

"Here are some spirit stones and medicinal pills. You can split them among yourselves." He waved his hand. Hundreds of bottles of medicinal pills and spirit stones floated in front of these Myriad Cloud Sect disciples. "What happens in the future will depend on your own luck."

The late-stage Foundation Establishment cultivator hurriedly bowed and said, "Thank you, Senior. May I know your name? If I have the chance to meet you ' again in the future, I will definitely thank you."

The other disciples said the same thing.

"There's no need to mention my name. You just need to know that I'm from the True Treasure Pavilion."

With that, the late Foundation Establishment cultivator of the Myriad Cloud Sect was stunned.

"True Treasure Pavilion? Could it be the True Treasure Pavilion of the Western District?"

Yue Lingluo couldn't help but ask, "You know about the True Treasure Pavilion?"

"Of course I do. Some time ago, the True Treasure Pavilion's branch in Fengshan Town was destroyed. Even the shopkeeper and some guest elders were hunted down. Speaking of which, our

Myriad Cloud Sect even received the help of a senior from the True Treasure Pavilion. It was precisely because of this that our sect's Supreme Elder successfully escaped."

Shen Ping looked at the other Myriad Cloud Sect disciples and they all nodded. This kind of thing couldn't be hidden.

"From the looks of it, Fellow Daoist An Zhi should have encountered some difficulties." Yue Lingluo looked at Shen Ping, then at the Myriad Cloud Sect disciples and asked, "Which race destroyed your sect and the True Treasure Pavilion's branch?"

"It's the Purple Silkworm Flood Dragon Race that's entrenched in this part of the mountain. They have several Body Integration experts in their race, and the Spirit Race in Maple Mountain Town has to be polite to them. Be it humans or other races, they have to pay spirit stones to travel.

"Over the years, the human race has been in a slightly better situation. I heard that seven to eight hundred years ago, our human sects sealed our mountains and did not dare to leave the sect. The rogue cultivators were even worse. They could only stay in the city."

Seven or eight hundred years ago. It was the time when the defense line in the sea of stars was being attacked. The Eastern District had completely cut off all contact with the Western District. Shen Ping and Yue Lingluo asked a few more questions before letting the Myriad Cloud Sect disciples leave.

Bai Yuying said, "Husband, since the Purple Silkworm Devil Clan has Body Integration cultivators, they should more or less know something about the sea of stars. Even if they don't, they will be reminded by the Tribulation Transcendence experts of the Devil Clan in the west. How dare they destroy our True Treasure Pavilion?"

Wang Yun nodded and said, "That's right. Although the East and West Districts are very far apart, it has been seven or eight hundred years since the defense line in the Starry Sea disappeared and the immortal cultivators of the various races left. The reputation of our True Treasure Pavilion should have spread to the Eastern District."

700 to 800 years was almost the lifespan of two Golden Cores.

The lower-level cultivation world could basically be separated by generations. It was normal for them to not know, but it was impossible that the Nascent Soul and Divine Transformation experts would forget about it, let alone Body Integration experts with lifespans of tens of thousands of years. Many upper echelons of the foreign races in the Western District had moved to the Eastern District.

No matter how little information the Purple Silkworm Flood Dragon Clan had, it was impossible for them not to have heard of the True Treasure Pavilion. In fact, this was also the reason why An Zhi dared to bring some guest elders to the eastern district to develop.

Shen Ping said casually, "Some forces are used to being domineering. If they don't really feel pain, they won't be afraid."

Yue Lingluo agreed. "Husband, you're right. If there's no pain in everything, one will indeed feel lucky. The Purple Silkworm Flood Dragon Race is probably such a race. Moreover, our human race is no longer the same as before. We're ranked in the top 50 of the Myriad Spirit Ranking. Many races in the myriad races have regained contact with our human race, yet the cultivation environment in the eastern region is still so harsh. I think there are some stubborn races stirring up trouble behind our backs."

Bai Yuying clenched her fists and said with a smile, "In that case, I must teach this Purple Silkworm Flood Dragon a lesson. If those flood dragons still dare to attack us, I'll catch one and roast it!"

The other girls burst into laughter.

“The flood dragon doesn’t taste good.”

“That’S right. Flood Dragon meat is more fishy. I have to add more seasonings.” “Now that you mention it, I suddenly want to eat the signature dishes of the Virtue Tower in the five continents.” “Hehe, let’s eat tonight!”

As the wives and concubines spoke, they lost their composure. However, from their words, it was true that they did not take the Purple Silkworm Flood-dragon race seriously. Shen Ping could not help but laugh, but his eyes revealed relief. This kind of freedom to relax without fear of anything was truly relaxing. “Let’s go to Sujiang City first. There should be higher-ups of the Devil Clan in Sujiang City. I will personally visit and ask them how bold they are to dare to attack our True Treasure Pavilion.”

Next, he rested for two days in Maple Mountain Town.

The group of people once again embarked on a leisurely journey. As they were not in a hurry to travel, they did not fly directly with their magic treasures. Instead, they rode on the beast carriage and advanced slowly. However, before they could leave the range of Maple Mountain Town, they were surrounded by dozens of Void Refinement Realm and Divine Transformation Realm cultivators.

There was no need for Shen Ping to do anything.

Bai Yuying, Wang Yun, and the others rushed out one by one and used this group of foreign races to test their strength. In less than five minutes, they easily killed more than ten foreign race cultivators.

“So weak! The two Void Refinement Realm experts in the lead couldn’t even withstand a single blow. They fled the moment we attacked them!”

Hearing Bai Yuying’s muttering, Shen Ping smiled and said, “It’s not that they’re weak, but that you’ve already become strong..”

Chapter 670: If You Dare to Provoke the True Treasure Pavilion, You Will Be Killed No Matter How Far Away (1)

From Maple Mountain Town to Sujiang City, they had to pass through more than ten markets of various sizes. These markets were originally established by human cultivation families, but now, they have become the territory of the Devil Clan, the Spirit Race, the Flame Race, and other races. They had even established checkpoints along the way to collect travel fees for passing caravans.

Not only the caravan, but even the traveling cultivators had to pay a toll.

Many cultivators, even foreign cultivators, did not dare to take a detour, because if they took a detour in the surrounding area, they would easily be targeted by the robbery cultivators. It was fine if they were strong, but if they were slightly weaker, they would die.

In particular, the Devil Clan, the Flame Race, the Spirit Race, and other races had specially sent teams to watch the surrounding roads. Therefore, the outcome of taking a detour was very tragic.

Shen Ping and his dao companions had also encountered such treatment. Although they were powerful, these markets involved many factions. If they really attacked, there would be endless trouble along the way. Therefore, after thinking about it, Shen Ping still chose to pay the toll. After all, the spirit stones he paid were not even a drop in the ocean to him.

Of course, if they encountered any robbery cultivators during this period, they would mercilessly accept it. Therefore, not only did they not lose any travel expenses when they were not far from Sujiang City, but they also earned a lot from the robbery cultivators.

But their mood was ruined.

Along the way, they saw too many human cultivators being surrounded and even publicly humiliated. One time, they encountered a faction of the Flame Race that was even more excessive. They actually toyed with some human female cultivators in front of many foreign race cultivators.

That time, Shen Ping had destroyed this Flame Race faction.

“Our human race’s ranking on the Myriad Spirit Ranking is constantly soaring. Those weak races don’t dare to offend us anymore, but the Devil Clan, Spirit Race, and Flame Race are still bullying our human race!”

“And why aren’t any of the powerful sects in the Eastern District stepping forward?!”

“Indeed, even a medium-sized sect like the Myriad Cloud Sect dares to resist, but we haven’t met a single one of those top sects along the way.”

“Among the four major regions of the Abyss of Supreme Darkness, the eastern region is considered the most prosperous and powerful region of the human race. There’s a Heavenly Immortal City here, and it’s a place that ascends to the immortal Dao territory. From the looks of it, it’s far inferior to the western region we’re in.”

Wang Yun, Yu Yan, Mu Jin, Luo Qing, and the others were furious. Anyone who saw such a thing would be furious. Although they had killed many foreign races, it was still difficult to appease the anger in their hearts.

Yue Lingluo said, “The large sects have their own concerns. If they take action, the Itinerant Immortals and the Tribulation Transcendence cultivators of the Devil Clan, Spirit Race, and other races will also take action. When that happens, it will be a war between races. The lives of the low-level human cultivators will be even worse.

“Although the situation of the human cultivators in these dozen or so markets is very miserable, fortunately, such a thing did not happen in the markets. This means that it should be the result of the backing of the large human sects and the contest between the Tribulation Transcendence cultivators and Itinerant Immortals of the Devil Clan and the Flame Race.”

Shen Ping nodded slowly. It had to be said that Yue Lingluo, who had cultivated for a long time, was more experienced and knowledgeable than Wang Yun and Yu Yan. She was also more comprehensive.

Qiu Ying sighed, “Fortunately, we cultivate in the five continents and four seas. Although the life at the bottom is also very difficult, it’s still better than the cultivators in the eastern region. The Myriad Cloud Sect, the small sects, the female cultivators as well as the rogue cultivators had it too rough.”

In the five continents and four seas, many female cultivators did not end up well, but at the very least, they would not be treated as food by the foreign races or even publicly humiliated.

“With the True Treasure Pavilion established by my husband in the Western District, the environment is naturally much better than here. However, before the True Treasure Pavilion, the human cultivation environment was also very harsh.”

As they chatted, they arrived at Sujiang City.

Before they reached the city gate, their eyes revealed a hint of anger. There were several cultivator corpses hanging on both sides of the city gate. These corpses were not covered, but Yue Lingluo could still tell that they were members sent by the True Treasure Pavilion. Among them were Divine Transformation cultivators.

“Shit! These foreign races have indeed attacked An Zhi and the others.” Yue Lingluo said coldly. In fact, ever since they came into contact with the Myriad Cloud Sect, they had already guessed this in their hearts. This was because according to the late-stage Foundation Establishment cultivator of the Myriad Cloud Sect, the True Treasure Pavilion and the Myriad Cloud Sect had offended a big shot of the Devil Clan, not only the Purple Silkworm Flood Dragon Clan.

If An Zhi was safe, there was no way news of her would not have reached the Western District.

They walked to the city gate. Array formations flickered faintly at the huge and thick city gate. On both sides were guards from the Devil Clan and the Spirit Race. There were five of them each, and they were all Golden Core and Nascent Soul cultivators. They seemed to be staring at the corpses hanging not far away, wanting to see if anyone had come to take them away.

“Husband.” When Wang Yun, Yu Yan, and the others saw Shen Ping standing on the spot and looking up, they could not help but look over.

Boom. Shen Ping raised his palm slightly. Then, a mountain-like palm condensed from magic power and spiritual power appeared in the sky above the entire huge city wall. Then, he pressed down heavily in the void. The city wall array instantly shone.

The guards at the city gate were alarmed. Many foreign race cultivators, including human cultivators, looked at the city gate in shock.

How many years had it been?

The city defense array of Sujiang City had never been touched before. Today, an expert actually attacked Sujiang City. This was simply the first time in thousands of years.

Which expert had descended?

Although Sujiang City did not have a Level 9 spiritual vein in the eastern district and the top sects of the various races were not stationed here, it was still a cultivation city after all. It also had a low-grade Level 8 spiritual vein. Therefore, the Devil Clan, the Spirit Race, and other races had middle to late-stage Body Integration cultivators guarding it..
