Chapter 2471 – 2471 Burning

the City!

2471 Burning the City!

The Heaven Slaying Sword Qi and Earth Slaying Sword Qi burst forth at the same time!

The many Heaven Immortal experts who were initially surrounding Su Zimo could no longer hold on and dissipated, escaping everywhere!

Thousands of Heaven Slaying Sword Qi streaked through Absolute Thunder City.

...

A soaring serpent formed from sword qi appeared underground. In the skies, sword qi and divine dragons roamed everywhere and cultivators that were struck by it could not defend at all and died on the spot!

The Heaven and Earth Slaying Swords were extremely sharp and swept through everything, causing extremely strong killing damage that could destroy the world!

Su Zimo stood in midair and looked at the Heaven Immortals who were escaping in panic around him. His gaze was cold as he stared at these Exalted Immortals who were once high and mighty in the city.

For hundreds of thousands of years, the Hunting Meet had been held countless times in Absolute Thunder City.

Each Hunting Meet would gather tens of thousands of Black Immortals who had ascended from the lower worlds. There might even be a hundred thousand of them. However, only a hundred of them could survive in the end!

In reality, this was a meticulously prepared killing feast for Yuan Zuo, the City Lord of Absolute Thunder City and the Exalted Immortals in the city!

Over the years, countless living beings of the lower worlds had been buried deep underground in Absolute Thunder City.

The lives of the living beings of the lower worlds were like grass and ants to the Exalted Immortals in Absolute Thunder City—no one cared!

Su Zimo would always remember the faces of the Exalted Immortals around him when he stood in the square above the Ten Absolute Hell and surveyed his surroundings.

All the living beings of the lower worlds that entered the Ten Absolute Hell were merely their toys.

These Exalted Immortals were the true hunters!

This massacre between the living beings of the lower worlds was a game for them.

These Exalted Immortals were long used to taking joy in this.

They were high and above as they looked at the hundred thousand living beings of the lower worlds in the square. They chatted and laughed brazenly without concealing the disdain and coldness in their eyes.

Back then, Su Zimo was only a puny Black Immortal who had ascended not long ago.

The weakest Exalted Immortals were Earth Immortals and there were even many Heaven Immortals.

At this moment, Su Zimo stood in midair above Absolute Thunder City. The once high and mighty Exalted Immortals were all trembling beneath his feet!

“It's him. I know him. He was a lowlife who entered the Ten Absolute Hell back then!”

“He managed to cultivate to such an extent in just a few thousand years!”

“W-What is he trying to do?!”

In Absolute Thunder City, countless cultivators looked up at the figure in midair with horrified expressions.

Su Zimo's expression was cold. Suddenly, four balls of flames appeared beside him with an extremely high temperature.

The Immortal Dao Fire, Fiend Dao Fire, Buddhist Dao Fire and Southern Mingli Fire fused rapidly in front of him, forming a gigantic fireball!

The fireball appeared above Absolute Thunder City like a blazing sun that was extremely close!

Many structures in Absolute Thunder City began to burn and flames surged into the skies.

Green smoke began to billow from the ground and city walls as well.

“What a terrifying flame!”

Even on the ground, many Earth Immortals could sense the searing heat of the fireball and began to escape out of the city.

“Let it burn.”

Su Zimo said indifferently and released his hands. The gigantic fireball that was synthesized from four balls of flames in his hand fell towards Absolute Thunder City.

At the same time, an Essence Spirit Fire was released from Su Zimo's glabella and entered the fireball.

Boom!

When the fireball landed in Absolute Thunder City, it exploded and an even more terrifying flame spread in all directions rapidly, burning everything!

It was only then that the cultivators in the city realized that a calamity had arrived and fled outside wildly.

Even Heaven Immortal experts could not withstand the Pancadhi Dao Fire, let alone the Earth Immortals in the city.

Nobody dared to attempt to fight against the flames.

The Pancadhi Dao Fire spread rapidly and engulfed the entire Absolute Thunder City before long, as though it had transformed into a gigantic flaming Hell!

Many cultivators who escaped from Absolute Thunder City looked back with lingering fear.

A figure stood in the skies of the flaming Hell. He was bathed in flames and was insufferably arrogant, like a god!

Everyone knew that after today, this ancient city that had once suppressed Feng Cantian and buried countless living beings of the lower worlds would no longer exist and turn into ruins, returning to dust!

Above Absolute Thunder City.

After this battle, the Dragon Phoenix body was already dilapidated.

Although the Dragon Phoenix body condensed by the Jade Pure Jade Manual had the shape of a Taboo Dragon Phoenix, its strength was significantly inferior without the Dragon Phoenix's bloodline and Essence Spirit.

After a huge battle, the Dragon Phoenix body could no longer hold on.

Su Zimo's spirit consciousness moved and the Jade Pure Jade Manual returned to his consciousness.

The Dragon Phoenix body dissipated as well.

Waving his robes, he put away the storage bags of the many Heaven Immortals. He also collected the badges of more than 200 Heaven Execution Guards before tearing the teleportation talisman given to him by Yun Zhu to leave the Great Jin Immortal Kingdom.

Zi Xuan Immortal Kingdom.

Duanya City, an ancient city at the borders.

Yun Zhu escorted Feng Ziyi and Perfected Immortal Burial Night. When they arrived at the Zi Xuan Immortal Kingdom, they entered the teleportation formation and arrived at this ancient city after a few consecutive teleportations.

She escorted their carriage out of the city and stood still at the city gate.

“Guys, I won't send you off any further. After leaving the city, head north from here and you'll arrive at the Immortal Fiend Abyss.”

Yun Zhu said, “The Fiend Domain lies beyond the Immortal Fiend Abyss.”

The curtain of the carriage moved and Feng Ziyi walked out. She nodded to Yun Zhu expressionlessly and said softly, “Thank you.”

“How is Perfected Immortal Burial Night doing?”

Yun Zhu asked.

Feng Ziyi lowered her gaze and shook her head.

Perfected Immortal Burial Night could no longer hold on and was in a comatose state—he could die at any moment!

“We'll be leaving now. Farewell.”

Feng Ziyi was silent for a moment before saying.

Yun Zhu turned back and could not help but ask, “Do you guys want to wait a little longer?”

“For?”

Feng Ziyi asked.

“Someone.”

Yun Zhu said, “He's probably rushing over as soon as he can to send you guys off.”

Feng Ziyi knew that the person Yun Zhu was referring to was Su Zimo.

“Where did he go?”

Feng Ziyi asked.

Just as Yun Zhu was about to reply, her heart skipped a beat. She turned back and saw a figure speeding over. In the blink of an eye, he arrived—it was Su Zimo.

Using the teleportation talisman, Su Zimo replied directly to the capital of the Zi Xuan Immortal Kingdom.

Thereafter, he did not rest at all and made use of the teleportation formation in the capital to teleport to Duanya City before rushing over.

“Did you succeed?”

Yun Zhu looked at Su Zimo and probed.

“Yes.”

Su Zimo nodded without saying anything more.

He went on a massacre in Absolute Thunder City. After burning the city, he used a teleportation talisman to rush here—news of what happened there had yet to spread.

Yun Zhu thought to herself that he was amazing.

At that moment, she did not know the details of what happened in Absolute Thunder City and thought that Su Zimo merely assassinated Prince Yuan Zuo.

“Let's go and visit Senior Burial Night.”

Su Zimo said and boarded the carriage.

Yun Zhu pondered for a moment and followed.

The carriage was extremely spacious and could accommodate more than ten people.
