

## Chapter 3322

Die Yue's eyes flashed coldly at the mention of this. She said, "Under the suppression of the Tian Fa Holy Land, not only the human race, but also the plant race. Even if someone becomes a Saint, they will be punished by Tian Fa."

As expected!

Previously, Su Zimo had thought that the so-called Heavenly Punishment that Uncle Feng mentioned might have something to do with the Heavenly Punishment Sacred Ground.

Su Zimo said, "A Dao Lord of the Ancestral Fire Sacred Ground once told me that Saints would be tainted by karma and be punished by the heavens for killing living beings below the Saint realm. Now, it seems like it's not that simple."

If Tian Fa was not the rule of heaven and earth but was controlled by someone or a force, there would be too many variables!

Tian Fa's existence was no longer fair.

It was entirely possible for someone to control Tian Fa and kill others out of selfishness!

Die Yue said, "This rule was made by the Tian Fa Holy Land after the turmoil more than six billion years ago.

"This rule seems fair and protects the weak from being killed by the Saints, but in fact, it is a method used by the Tian Fa Holy Land to intimidate the other races.

"If any Saint disobeys the Tian Fa Holy Land, the Tian Fa Holy Land will use this rule as an excuse to send down Heavenly Punishment and kill the Saint!

"As long as one becomes a Saint, whose hands are not tainted by karma?"

"Over the years, the Tian Fa Holy Land has used this as an excuse to kill all the Saints of the human race. Over time, no one dares to try for the Saint Realm.

"As the Great Path Saint position is occupied by the Saints of other races, the chances of humans becoming Saints become fewer and fewer."

"Great Path Saint position?"

Su Zimo was confused.

Die Yue explained, "Once you step into the Saint Realm, the Saint Realm is the Dao. If someone occupies a Great Path, no one else can become a Saint on this Great Path. "

Su Zimo was enlightened.

The Saint Realm was the Dao, and the Dao was the Saint.

Take the Great Path of Chaos for example. If he became a Chaotic Saint, it would be impossible for others to integrate the Great Path of Chaos.

Because he was the Great Path of Chaos, how could others integrate with him?

There were 3,000 Great Paths, but there were limited numbers.

The more Saints there were, the fewer paths others had to take to become Saints.

Therefore, after ascending to the Great Thousand World, the step of Path Manifestation was extremely important.

If one wanted to become a Saint and condense a Dao seal, one could not have a Saint.

Otherwise, as long as the Saint of this Great Dao did not die, the living being who condensed this Great Dao would never have any hope of becoming a Saint!

Die Yue said, "However, the situation in the Great Thousand World has changed over the years."

"In the war between the Five Great Holy Lands and the Four Daos in the 33 Heavens, some of their Saints perished, causing some of the Great Dao Sages to become vacant. All the Paragons who have a chance to break through to the Saint Realm are eager to make a move. Some human Paragons are also interested. "

"Aren't you afraid of incurring divine punishment?"

Su Zimo asked.

Die Yue said, "The Five Great Holy Lands and the Four Paths are like fire and water. They could start another war at any time. The Human Race has always been neutral. Tian Fa Holy Lands may not choose to deal with the Human Race at this time. This may be a chance for the Human Race."

Su Zimo pondered for a moment before asking, "Tian Fa Holy Lands set such a rule, did the other four Holy Lands not object?"

Die Yue smiled and said, "These rules are meant to intimidate the living beings outside the sacred grounds. All the rules set by the Five Great Holy Lands are meant to deal with ordinary people. There are no restrictions on the people of the Holy Lands. "

"What happened more than six billion years ago?"

Su Zimo asked again.

"I don't know either."

Die Yue shook her head and said, "Perhaps only the Mountain Elder knows what happened back then."

After Su Zimo came to Xuan Mi Mountain, he had heard a child mention the Mountain Elder's name. He asked, "What was the Mountain Elder's cultivation?"

"Paragon."

After a pause, Die Yue continued, "I heard some elders of Xuan Mi Mountain say that the Mountain Elder might have been a Saint more than six billion years ago."

"His cultivation dropped?"

Su Zimo was somewhat surprised.

If the Mountain Elder had been a Saint, he should have been severely injured, causing his cultivation to drop.

From another perspective, the Mountain Elder could keep his life, but only his cultivation dropped. He must have had some extraordinary qualities.

Su Zimo asked, "What's the relationship between this Mountain Elder and the Life Sacred Land?"

"I'm not sure."

Die Yue shook her head and said, "No one here knows the Mountain Elder's background, but the Five Great Holy Lands seem to be quite polite to him.

"Something happened back then. A human Paragon of the Thirty-Six Grotto-Heavens had a conflict with a Paragon of the Sacred Race. He was severely injured and fled here. The Mountain Elder appeared and resolved the matter.

"The two sides did not fight. The Sacred Race left and did not pursue the matter.

"Xuan Mi Mountain is not among the Thirty-Six Grotto-Heavens and Seventy-Two Blessed Lands. However, most of the human experts have been taught by the Mountain Elder and are extremely respectful to him."

Su Zimo nodded thoughtfully.

At this moment, Die Yue smiled and said, "Your cultivation is a bit slow. You've been left behind by me again."

"Huh?"

Su Zimo was stunned.

He was overjoyed to reunite with Die Yue after a long time. He only felt that he had endless things to say and did not even think to check Die Yue's cultivation.

When he heard Die Yue mention this, he scanned Die Yue's Spirit Consciousness with his Spirit Consciousness and was shocked.

A perfected Dao Manipulation Realm Supreme expert!

His journey after ascending to the Greater World was rather smooth. He obtained the Merit Golden Lotus and the inheritance memories of the three lotus seeds but he only managed to cultivate to the perfected Dao Comprehension realm.

Su Zimo smiled bitterly. "Back when I saw you die, I even said that I would protect you after you reincarnate. To think that ..."

"Seems like I'll have to protect you from now on."

Die Yue pinched Su Zimo's palm gently.

The two of them exchanged glances and smiled.

On second thought, Su Zimo understood the reason.

The reason why his cultivation was slower than Die Yue was because he stayed in the Middle World to suppress the Netherworld for 60,000 years.

However, more importantly, it was because of Die Yue's talent.

80,000 years was enough for Die Yue to cultivate to this level!

In reality, all the paragons and monster incarnates he met on his path of cultivation, be it the Emperors of the Middle World who created eras and illuminated the past or the Blood Demon of Tianhuang Mainland and Monk Daming ...

If they were born in the Greater World, they would most likely be able to cultivate to this level in 80,000 years as well.

The reason why they did not achieve much was because they were born in different realms and at different heights.

"Did you take the mountain elder as your master?"

Su Zimo asked.

"No," Die Yue replied.

"The mountain elder is very strange. Many people came to learn from him but he taught them everything he knew. However, he was unwilling to be anyone's master."

"Don't underestimate him just because he's a Supreme. His understanding of the Dao far surpasses his peers."

"The mountain elder should be taking an afternoon nap right now. I'll bring you to see him later on. If you can get some pointers from him, it might be of great help to you."

"There's no hurry. We'll talk about it in the future."

Su Zimo smiled.

He had just reunited with Die Yue and only wanted to be with her at the moment. How could he be in the mood to meet a strange old man?
