

Chapter 3344

Words:2137 Update:23/04/20 13:34:36

Forbidden Space-time Zone.

The Mountain Elder had become a Supreme Sage. Without saying a word, he crossed the void and appeared before the Yinyang Sacred Master. He raised his Saint Domain and suppressed the Yinyang Sacred Master!

The Yinyang Sacred Master's words had truly angered him!

Boom!

The Saint Domains of both sides clashed with a loud explosion!

On the other side, the Evil Lord faced the Space-Time Sacred Master once again.

The battle between the Supreme Sages had begun again!

The four Saint Domains clashed in the Forbidden Space-time Zone. They devoured each other, causing the Great Dao in this area to become chaotic and chaotic. A Great Dao storm was formed!

The Mountain Elder had just become a Supreme Sage. Although he looked old, his battle strength was shocking.

The two sides had just clashed, but the Mountain Elder's Saint Domain was already suppressing the Yinyang Sacred Master!

Although this place was called the Forbidden Space-time Zone, it was still the Life Sacred Land.

And the Mountain Elder was the owner of this place!

The Stone of Life emitted a five-colored divine light that entered the Mountain Elder's Saint Domain, giving it an endless supply of energy!

The Yinyang Sacred Master's Saint Domain started to shrink under the Mountain Elder's attacks.

On the other side, the Evil Lord had just been injured by the Space-Time Sacred Master and the Yinyang Sacred Master. Now that he was facing the Space-Time Sacred Master alone, he didn't have any advantage.

Of course, after cultivating to the Supreme Sage level, the difference in battle strength wasn't that big.

Even if one side had the upper hand, it was impossible to completely suppress the other side in a short period of time!

Boom! Boom! Boom!

The battle between the Supreme Sages continued.

The four Saint Domains had been pushed to their limits. Each of them released their own light that filled the entire area.

Apart from the people in the Forbidden Space-time Zone, the living beings in the Great Thousand World couldn't see what was happening inside through the spatial node.

In the Forbidden Space-time Zone, the Great Dao storm swept in all directions.

The spatial node had already been destroyed.

Su Zimo, Die Yue, Monkey, and the others were forced to stay here and watch this earth-shattering battle!

Die Yue frowned and murmured, "Luckily, the remaining three Sacred Masters didn't appear. Otherwise, the Evil Lord and the Mountain Elder wouldn't be able to hold on."

Su Zimo pondered deeply. "Could the three Lords of the Sacred Grounds be wary because they're worried that the Fiend Lord, Ghost Mother and the Lord of Hell would do something?"

"That might not be the case."

The Monkey seemed to have thought of something and said, "There is another possibility, which is that the Space-Time Sacred Master and the Yin-Yang Sacred Master have absolute confidence in suppressing the Evil Lord and the Mountain Elder. Thus, the remaining three Sacred Masters naturally do not need to act."

Su Zimo frowned slightly.

The monkey's words made him feel a little worried.

After Mountain Elder became a Supreme Sage, the Space-Time Holy Lord and the Yin-Yang Holy Lord were a little surprised. However, they didn't seem to take it to heart and still acted as if victory was in their hands.

"Hmph!"

At this moment, the Time and Space Holy Lord showed a trace of impatience and said coldly, "Evil Lord, you were only a Saint back then and didn't have the chance to try this Sacred Artifact. Today, I'll give you a chance!"

Before he finished speaking, the Spacetime Sacred Lord pointed forward.

Rumble!

The void above the Evil Lord's head suddenly split open as a mysterious yellow nine-floored pagoda descended from the skies, emitting an endless amount of pressure as it came crashing down heavily!

When this pagoda appeared, the heavens and earth let out a sorrowful wail!

Not to mention the Supremes present, even the Nine Heavens Saints revealed a trace of fear in their eyes when they saw the pagoda.

This mysterious yellow nine-story pagoda seemed to contain a supreme might of heaven and earth.

In fact, this level of majesty had already surpassed that of a Great Sage!

The Evil Lord's face was grim as his figure suddenly disappeared.

The starlight in the sky flowed into a river. On the river, a huge spiritual boat floated quietly, carrying countless dream realms.

Rumble!

The pagoda descended and the countless dream realms shattered!

After a short confrontation, the spiritual boat suddenly exploded and collapsed. The Evil Lord's figure reappeared, but he was covered in blood and his face was even paler.

"Hehe."

The Spacetime Sacred Lord chuckled and said, "How does this Mysterious Yellow Pagoda taste?"

The Evil Lord didn't reply. His figure was already on the verge of collapse. From the looks of it, it was unknown whether he could survive the next attack!

On the other side.

The Yin-Yang Holy Lord suddenly threw out a picture scroll.

This picture scroll started with the Nine Palaces and continued to evolve. It revealed the Eight Trigrams, the Seven Stars, the Six Lights, the Five Elements, the Four Divisions, and the Three Talents. Finally, it stopped at the Yin and Yang!

This picture scroll seemed to contain all the mysteries of heaven and earth and had evolved into the universe.

Rumble!

The Mountain Elder's Holy Region was also crushed by this picture scroll. Even with the Stone of Life, it couldn't hold on any longer!

"Old thing!"

The Yin-Yang Holy Lord sneered and said, "This Taiji Diagram isn't comfortable, right?"

The Spacetime Sacred Lord and the Yin-Yang Holy Lord each took out a Sacred artifact and instantly turned the situation around, severely injuring the Mountain Elder and the Evil Lord!

The Sacred artifacts of the Mountain Elder and the Evil Lord were completely destroyed by the Mysterious Yellow Pagoda and the Taiji Diagram. They lost their light.

"These two Sacred artifacts ..."

Su Zimo felt his heart palpitate!

Even the Sacred Lord's descent didn't give him such a feeling of fear!

Monkey suddenly said, "I heard from Master that the reason why the Five Sacred Lords are so powerful and undefeatable is because they each have a Heavenly Dao Sacred Artifact."

"Heavenly Dao Sacred Artifact?"

Su Zimo frowned.

Monkey nodded and said, "It is said that the Heavenly Dao Sacred Artifact contains the power to kill a Great Sage!"

Su Zimo and the others were shocked!

In a battle between Sages, only victory and defeat could be determined. It was difficult to determine life and death.

The power of a Sage was not enough to destroy a Dao.

As long as a Dao was not destroyed, a Sage would not die.

Only a Great Sage had the power to destroy a Dao!

It was the same between Great Sages.

In a battle between Great Sages, it was difficult to completely kill each other.

However, if what Monkey said was true, then the Sacred Lords of Time and Space and Yin and Yang who had the Heavenly Dao Sacred Arifacts had the power to kill a Great Sage!

Su Zimo said, "If that's the case, the power of the Heavenly Dao Sacred Artifact should have already surpassed that of a Great Sage. How did the Five Sacred Lords get their hands on such a weapon?"

"I don't know."

Monkey shook his head and said, "Master is very secretive about this and doesn't want to talk about it."

Monkey paused for a while and said, "Master is unwilling to fight with the Five Sacred Lords. He must be afraid of them."

"No wonder."

Su Zimo said, "The Demon Lord, Ghost Mother, and Lord of Hell have not appeared. They must be afraid of the Heavenly Dao Sacred Artifacts in the hands of the Five Sacred Lords."

On second thought, Su Zimo was puzzled. He frowned and asked, "Since the Five Great Sacred Lords have the Heavenly Dao Saint Weapon, why did they return empty-handed when they fought against the Four Dao Masters back then?"

"I don't know the exact situation," Monkey said.

"I only heard from Master that the Five Sacred Lords' Heavenly Dao Sacred Artifacts did not seem to be able to unleash their true power in the 33 Heavens."

"Yes."

Su Zimo nodded.

This was also why the Demon Lord and the other two were unwilling to leave the 33 Heavens easily.

The Five Sacred Lords were also aware of this. Therefore, they wanted to use this opportunity to lure the Masters of the Four Dao out.

Unfortunately, the Demon Lord and the other two were unwilling to take the risk.

Only the Demon Lord could descend with his true body!

(End of Chapter)
