Words:2138    Update:23/04/30 18:33:20

The arrival of the two Heavenly Dao Saint Artifacts instantly changed the tide of the battle.

For some reason, the two Heavenly Dao Saint Artifacts made Su Zimo's heart palpitate. At the same time, they made him feel extremely disgusted.

This feeling of disgust seemed to originate from Chaos Qinglian's inherited memories.

However, after fusing with the Creation, Karmic Fire, and Karmic Virtue Lotus, his inherited memories were not complete. He could not see what had happened back then.

However, Chaos Qinglian's destruction must have had something to do with these two Heavenly Dao Saint Artifacts!

Another strange thing happened to him as well.

Even when the Space-Time Sacred Lord and the Yin-Yang Sacred Lord arrived, the Zhuzhao and Youying Sacred Stones did not react.

However, after the two Heavenly Dao Saint Artifacts arrived, the Zhuzhao and Youying Sacred Stones seemed to have sensed something. They suddenly hid their auras and did not reveal any energy waves.

Even when Su Zimo tried to activate them with his Divine Will, the two Sacred Stones did not react at all.

After ascending to the Greater World, the two Sacred Stones clearly showed a different state from the Lesser World and Middle World. They even awakened their spiritual consciousness and could cultivate on their own.

Because of this, Su Zimo deduced that the Zhuzhao and Youying Sacred Stones should have come from the Greater World.

Now, under the suppression of the two Heavenly Dao Saint Artifacts, the two Sacred Stones went into hibernation!

Su Zimo looked at the Mountain Elder and the Evil Lord in mid-air with a worried expression.

The Mountain Elder's Sacred Domain had been shattered after taking on the Taiji Diagram. He was already injured.

The Evil Lord was injured by the two Sacred Lords and was suppressed by the Heaven Earth Black Yellow Pagoda. He was in an even worse state. It was unknown if he could survive the next attack!

He did not expect that the so-called opportunity in the Forbidden Land of Time would drag the two Great Sages into it. They might even be killed!

Su Zimo and the others were just small fries. The Sacred Lords did not even take them seriously.

The Great Sages were the real targets of the five Sacred Grounds!

The Yin-Yang Sacred Lord looked down at the Mountain Elder with the Taiji Diagram above his head. He said coldly, "Gu Shen, you should have died more than six billion years ago!"

"You should be satisfied that you have lived to this day."

The Space-Time Sacred Lord held the Heaven Earth Black Yellow Pagoda. He was not in a hurry to attack.

He wanted to see if the Demon Lord and the others would show up.

Unfortunately, from beginning to end, the Demon Master and the other two did not show up.

The Space-Time Holy Lord looked at the Evil Lord with eyes full of pity. He said indifferently, "Those three are really heartless. They watched you die without doing anything."

The Evil Lord did not reply. He merely looked at the Mountain Elder on the other side and said expressionlessly, "In this life, it's time for you to make a choice."

"You are the first human to be born in this world. You cultivate the Great Dao of Man. You are not only the Sacred Lord of Life, but also the Lord of Human Dao!"

Everyone was in an uproar!

Su Zimo and Die Yue were shocked when they heard this!

The two looked at each other and thought of the same thing at the same time.

Back then, when Die Yue was severely injured, the human path that leaped into the six abysses of the Netherworld appeared in Tianhuang Mainland.

There were also all sorts of strange things about Tianhuang Mainland.

Not to mention, there were many races on Planet Tianhuang.

The many treasures that appeared in Tianhuang Mainland alone were enough to shock anyone!

Even treasures that originated from the Greater Thousand Worlds such as Illumination and Nether Glow were gathered in Tianhuang Mainland.

If Tianhuang Mainland was formed from the shards of the Human Dao that the Sacred Lord of Life cultivated, everything would make sense.

That was because the birth of Tianhuang Mainland originated from the Greater Thousand Worlds!

Back then, the Sacred Lord of Life was severely injured and her Human Dao was shattered. A shard fell into a minor world and formed Tianhuang Mainland later on.

Die Yue said, "Back then, I mentioned to you that many humans in Tianhuang Mainland do not have spirit roots. That's strange."

"Now that I think about it, it's not hard to understand if Tianhuang Mainland was formed from a shard of the Human Dao."

At that moment, some of the doubts in Su Zimo's heart were answered.

It was no wonder why there were only four Daos in the Middle World and no Heavenly Dao or Human Dao.

That was because the Lord of Human Dao was not in the Middle World at all.

Su Zimo lamented when he looked at the white-haired old man.

To think that this old man who guarded Xuan Mi Mountain day and night with a bitter expression was not only the Sacred Lord of Life, he was also the Lord of Human Dao!

However, the Lord of Human Dao did not seem to have a close relationship with the four Daos.

"So what if you're the Lord of Human Dao?"

Sacred Lord Yin Yang scoffed coldly. "Your lifespan is up. What Sacred Lord? Even the title of the Human Master can't save you!"

At this moment, the mountain elder's hand reached into his wide sleeves and slowly took out a tattered book from within.

"Hmm?"

Su Zimo's heart skipped a beat when he saw the tattered book.

He had lived in Xuan Mi Mountain for a few years and each time he met the mountain elder, the latter would always have a tattered book beside him.

At times, he would flip it open and read it. At other times, he would cover his face and take a nap. At other times, he would toss it aside casually.

Although the book looked tattered, Su Zimo was not bothered by it.

At that moment, the mountain elder took out that tattered book ...

Shifting his gaze, Sacred Lord Yin Yang looked at the tattered book and suddenly chuckled. "Oh, I was wondering what else you were relying on. So, it's this Human Book."

"Not bad."

The mountain elder nodded. Looking at the tattered book in his hand, a complicated look appeared in his eyes.

Sacred Lord Yin Yang shook his head and sighed. "The Human Book is also a Heavenly Dao Saint Artifact. It's a pity that it's useless now."

"Why don't you give it a try?"

The mountain elder said calmly.

"Then I'll fulfill your wish!"

Sacred Lord Yin Yang did not waste any time. He took out the Taichi Diagram again and pressed it down on the mountain elder!

Sacred Lord Yin Yang also threw out the Heaven Earth Black Yellow Pagoda toward the Evil Lord.

The descent of the two Heavenly Dao Saint Artifacts shook the earth and mountains!

The mountain elder suddenly threw the Human Book in his hand into the air and released his divine sense.

Rumble!

At the same time, the Stone of Life in the Forbidden Land of Time seemed to have sensed something. It suddenly rose from the ground and fused with the Human Book!

The Human Book shone brightly!

The tattered pages of the book started to heal rapidly after fusing with the Stone of Life.

The power of the Human Book continued to rise!

The Human Book in the air flipped through its pages rapidly. Each page emitted a dazzling light and an endless amount of power. Ripples appeared in the air as it tried to resist the power of the two Heavenly Dao Saint Artifacts!

Boom! Boom! Boom!

Following a series of loud bangs, the light emitted by the Human Book flickered and its aura was completely suppressed!

"Humph!"

Sacred Lord Yin Yang snorted. "Even a complete Human Book cannot resist the power of two Heavenly Dao Saint Artifacts. Do you think your tattered book can resist the power of two Heavenly Dao Saint Artifacts?"

The mountain elder knew this very well.

However, he had no other choice.

The Evil Lord was in a very bad condition. He could not resist the next attack of the Heaven Earth Black Yellow Pagoda.

He could only use the Human Book to resist the power of the two Heavenly Dao Saint Artifacts!

Su Zimo looked at the Human Book in the air and frowned slightly.

After fusing with the Stone of Life, the tattered pages of the Human Book had healed. However, it seemed like it was still a distance away from becoming a real Heavenly Dao Saint Artifact.

Night Spirit suddenly said, "A page was torn out from the middle of the Human Book."

Su Zimo was stunned when he heard this. Suddenly, a thought flashed across his mind.
