

Chapter 3374

Words:2258 Update:23/05/06 19:40:05

The five Taishi Primordial Spirits were shocked when they sensed this!

The five of them joined forces to confront Saint King Samsara, and they were evenly matched, barely maintaining a balance.

With another Heavenly Dao Saint King joining the battlefield, the balance was bound to be broken!

This meant which side Su Zimo was on.

Which side would have a great chance of winning this Battle of Saint Kings!

This battle would also determine the future of the Three Thousand Worlds!

"Araki Takeshi!"

The Yin Yang Primordial Spirit suddenly said, "Samsara is extremely ambitious. If you help him win, the Three Thousand Worlds will fall into an irreversible catastrophe!"

The moment he became a Heavenly Dao Saint King, Su Zimo calmed down instead. He just looked at the Saint Kings on the battlefield and was not in a hurry to make a move.

At this moment, the initiative was in his hands.

He still had to clarify some things.

Su Zimo said, "Samsara wants to kill all the Saints in the world and establish the Six Paths of Reincarnation, rewarding the good and punishing the evil. If this is his ambition, it's not bad."

The Heavenly Punishment Primordial Spirit said in a deep voice, "He doesn't just want the lives of the Saints, he even wants to kill all the Great Saints, including us Taishi Primordial Spirits!"

The Ancestral Fire Primordial Spirit also said, "When we six Taishi Primordial Spirits ruled the Three Thousand Worlds, there were checks and balances between us. Once we are killed, Samsara will be the sole ruler, and that will be a disaster for the Three Thousand Worlds!"

The Time and Space Primordial Spirit said, "The Infinite Calamity of Living Beings cannot threaten us at all. If Samsara only wants to kill the Saints, we will not interfere."

Su Zimo nodded.

This was the reason for the Battle of Saint Kings back then.

He had previously thought that since the Infinite Calamity of Living Beings could not threaten the Taishi Primordial Spirits, why would they participate?

Because what made them feel threatened was not the Infinite Calamity of Living Beings, but Saint King Samsara!

"How did Chaos Qinglian and Life Saint King fall?"

Su Zimo asked again.

In the Battle of Saint Kings back then, the five Taishi Primordial Spirits had the upper hand and might have won in the end.

But to completely kill Chaos Qinglian and Life Saint King.

With the power of the five Taishi Primordial Spirits, they might not be able to do it.

An existence like the Heavenly Dao Sacred King was on par with the Taishi Primordial Spirit. Unless it was a higher level of power, it was impossible to completely annihilate them!

However, there was no such expert in the trichilocosm.

Unless ...

Nirvana Primordial Spirit said, "In the battle back then, Chaos, Life, and Reincarnation joined forces, but they were no match for us. Chaos and Life saw that the situation was over ..."

When he spoke up to here, the Nirvana Origin Spirit stopped for a moment, and he seemed to have recalled the scene from all those years ago. An extremely complicated expression surged onto his face, and there was resentment, rage, unwillingness, and terror ...

The Nirvana Origin Spirit took a deep breath and said slowly, "At the last moment, chaos and life joined forces and chose to challenge the three thousand worlds! They are lunatics! "

Su Zimo was slightly taken aback, but immediately understood.

The moment he became a Heavenly Dao Sacred King, he could sense that there were cracks in the entire Three Thousand Worlds.

These cracks were left behind when Chaos Qinglian and the Life Holy King joined forces to attack the trichilocosm.

With the power of Chaos Qinglian and Life Holy King,

Of course, it was impossible to destroy the trichilocosm.

Their goal was to leave cracks in the trichilocosm!

The five Taishi Primordial Spirits were born from this universe. When cracks that could not be repaired appeared in this universe, the injuries of the five Taishi Primordial Spirits could not be healed.

As for the Reincarnation Holy King, he was a Heavenly Dao Sacred King and would not have this hidden danger.

Chaos Qinglian and Life Holy King knew that the situation was over, so they made this choice. They sacrificed themselves to pave the way for the Reincarnation Holy King and usher in this generation's Sacred King Battle!

Only the trichilocosm that had evolved over countless years had the power to destroy Chaos Qinglian and Life Holy King.

As they spoke, the confrontation between the five Taishi Primordial Spirits and Reincarnation continued.

Su Zimo's gaze turned and looked at the Reincarnation Holy King.

Unlike the five Taishi Primordial Spirits, the Reincarnation Holy King did not ask him to help him.

From the beginning to the end, he did not even defend himself.

In Su Zimo's opinion, the Reincarnation Holy King's choice back then might not have been wrong.

He wanted to build a fair world and kill all Immortals. Naturally, the five Taishi Primordial Spirits were included in that.

If he only killed a Sacred King and turned a blind eye to the five Taishi Primordial Spirits, then what was the difference between him and those Sages who killed all living beings?

And he himself was an Immortal.

What would he do after suppressing the five Taishi Primordial Spirits?

Su Zimo did not know.

Perhaps the Reincarnation Holy King would become an even greater disaster.

But Su Zimo would not join forces with the five Taishi Primordial Spirits to kill the Reincarnation Holy King because of a possibility.

Moreover, the five Taishi Primordial Spirits wanted to kill him just now, and the Reincarnation Holy King had saved him!

He did not know what the Reincarnation Holy King would do in the future.

But at least at this moment, he had no reason to be enemies with the Reincarnation Holy King.

"Araki Takeshi, what are you still hesitating for!"

The Nirvana Primordial Spirit shouted.

Dong!

The Bell of Chaos rang in response to the Nirvana Primordial Spirit.

Through this bell, the five Taishi Primordial Spirits felt Su Zimo's intentions at the same time, and their hearts sank!

Boom!

In the next moment, the Bell of Chaos above Su Zimo's head descended on the battlefield, blocking the Yin-Yang Primordial Spirits and the Space-Time Primordial Spirits!

Although they were all Heavenly Dao Sacred Kings, the five Taishi Primordial Spirits were injured after all.

Su Zimo was at the peak of the Heavenly Dao Sacred King state, controlling the Heavenly Dao of Chaos. He was not at a disadvantage against two!

On the other side, the Reincarnation Holy King was originally one against five. Now that he was facing three Taishi Primordial Spirits, the pressure on him decreased sharply, and his aura soared!

The three books of Heaven, Earth, and Man were activated to the extreme, covering the sky and the sun, reversing the universe, and exerting the power of the Heavenly Dao's reincarnation to the extreme!

Boom! Boom! Boom!

The battle between the Sacred Kings was earth-shattering.

Not only was the Greater Chilocosm in turmoil, but even the Middle Chilocosm and Lesser Chilocosm were implicated, and natural disasters erupted one after another.

Most of the living beings in the trichilocosm did not know what was going on. They only looked at the blood-red sky and the falling blood rain with faces full of horror.

In the Greater Chilocosm, the battle between the Sages and the Great Sages continued, and it was getting more and more tragic!

Sages fell in the battle one after another.

Even the Great Sages fought until they were covered in wounds, and blood flowed everywhere!

The five Sacred Lords were already at their limit to be able to hold on until now.

They still had a glimmer of hope in their hearts.

They were looking forward to the five Taishi Primordial Spirits winning in the battle between the Sacred Kings, just like back then!

"Ah!"

At this moment, a scream came from above the Greater Chilocosm.

This was the voice of the Heavenly Punishment Primordial Spirit!

The three Taishi Primordial Spirits were still unable to withstand the attack of the Reincarnation Holy King. The Heavenly Punishment Sword was first suppressed by the Earth Book.

Immediately after, the Human Book severely injured the Heavenly Punishment Primordial Spirit. The Heavenly Book descended and directly swallowed the Heavenly Punishment Primordial Spirit!

The Heavenly Punishment Primordial Spirit erupted for a while in the Heavenly Book, but in the end, it was still no match and was suppressed by the Heavenly Book, its body and spirit destroyed!

After suppressing the Heavenly Punishment Primordial Spirit, the Heavenly Book suddenly erupted with a dazzling brilliance. Its entire body was surrounded by lightning, and its aura soared. There was also an obvious increase in power!

The Heavenly Book originally only recorded the 3,000 Great Daos.

But now, there was an additional Heavenly Dao in the Heavenly Book — Heavenly Punishment!

The Human Book had an additional page.

Every page of the Human Book recorded a living being of a race.

And on this page, only one living being was recorded — the Heavenly Punishment Primordial Spirit!

The Earth Book also devoured the soul of a Taishi Primordial Spirit!

Suppressing the Heavenly Punishment Primordial Spirit, the power of the three books was rapidly rising.

The three books of Heaven, Earth, and Man, the three Heavenly Dao Sacred Artifacts were still continuing to grow!

(End of chapter)
