

The Eternal Supreme - Chapter 391 - 400

391 Three martial emperors

Yuwen Xun jumped in shock and said in a panic, ” “Calm down, calm down! I’m just saying it. Besides, there are as many beautiful men as there are hairs on an ox in this world. I definitely won’t offend you for a man. Since you’ve said so, even if that li Yunxiao is as beautiful as you, I won’t have any thoughts about him.”

Looking at the pervert in front of him, Yunxiao felt a burst of anger for no reason as he scolded, ” “First, give me the moon Pearl! Put it on the ground and move back 100 meters. I’ll get it myself!”

Yuwen Xun didn’t dare to offend him, afraid that his wish would come to nothing. He did as he was told, putting down the moon Pearl of the eastern sea and retreating a hundred meters.

Pointing his fingers, Yunxiao gathered some water elements in the air and washed the moon Pearl a few times before he took it. Upon contact, a very familiar feeling surged into his body, as if it was a part of his body.

Under the moon Pearl’s detection, a few of his acupoints began to emit a faint white light. Startled, Yunxiao hurriedly put the Pearl back into his ring to avoid Yuwen Xun from noticing the strange phenomenon.

Sure enough, a look of confusion flashed through Yuwen Xun’s eyes. He frowned, as if he had sensed something. However, this didn’t matter to him. The most important thing now was to flatter the other party and hope that mad hero would change his gender for him.

Yunxiao, on the other hand, was quickly making plans in his heart. If he could make use of this freak, he asked, ” “How long have you been in the south of the city? did you feel anything unusual?”

“It’s been seven days,” Yuwen Xun frowned,”and the biggest change is that there’s been a lot of experts sneaking in recently. I can’t even figure out the details of some of them, and it feels like a storm is coming. My original mission was to kill Yunxiao, but it’s because more and more experts are appearing that I’ve been biding my time and wanted to find out more about him.”

Although he was a freak, he was not a fool or a waste. On the contrary, those who could cultivate to the rank of martial honor were all extremely talented and intelligent.

“Other than Empyrean one Pavilion, there are also people from the four extremes sect. There seem to be a few other mysterious forces that even I don’t know about.”

Yunxiao’s pupils constricted as he said in a deep voice, ” “There are other forces besides the Empyrean one Pavilion and the four extremes sect?”

Yuwen Xun nodded. the communication methods and personnel of the Empyrean one Pavilion and the four extremes sect are easy to recognize. The rest of the powers are probably more obscure existences. That’s why I didn’t recognize them at first. He’s not very strong, at least not stronger than your Empyrean one Pavilion.”

not bad! Yunxiao suddenly smiled and said, ” as expected of an expert from the death god Palace. As long as you do me a few favors, not only will I ask master to change your gender, but I’ll also give you a handsome man to enjoy.” Tang Jie’s figure appeared in his mind.

“A beautiful man?”

Yuwen Xun’s brows twitched, and he laughed, ” “I wonder how he is compared to you?”

What he valued now was only the change in gender. As for handsome men, with his strength, he could have as many as he wanted.

Yunxiao trembled and said angrily, ” “You’re not allowed to joke around with me in the future, and you’re not allowed to have any thoughts about me!”

Yuwen Xun laughed awkwardly, ” “I’m just joking. I won’t dare to do it again.”

A martial honor expert had actually bowed down to him for such a ridiculous and perverted matter. However, Yuwen Xun’s heart was boiling with anger. He snorted, ” You can be as arrogant as you want now! When I become a real woman, I’ll definitely capture you and torture you. I’ll let you have the honor of being my first man after changing my gender!

How could Yunxiao not see the dirty thoughts in his heart? he sneered and said, ” “Now, help me find out something. The skeleton mercenary group has captured a man called Tang Jie, and the captain of the rookie mercenary group is called mu Wu. Help me find out where these two are being held.”

Yuwen Xun revealed a suspicious look, saying, ” “Many experts have come to your Empyrean one Pavilion recently, right? why do you still need me to do this kind of thing?”

Yunxiao’s eyes turned cold as he snorted. even you can see the identity of Empyrean one Pavilion. How can the skeleton mercenary Corps not know? ” he asked. It’s the best for you to take action now. Moreover, that Tang Jie is quite good-looking.”

“Tang Jie?” Yuwen Xun muttered to himself. “Could they be from the four extremes sect?” he asked.

that’s right, ” Yunxiao said with a smile. he’s the eldest young master of the four extremes sect.

A Savage smile flashed across Yuwen Xun’s face as he chuckled, ” “Not bad, not bad. I’ve never played with a man of this status. When I find out, I’ll go to the Empyrean one Pavilion’s gathering place to find you.”

no! Yunxiao hurriedly said. no! Now that my identity in Empyrean one Pavilion has been exposed, I’ll be living alone outside for the time being. If you have any news, come to the inn to find me. ”

He left an address, and the two of them exchanged a few more words before they went their separate ways.

Yunxiao found an Inn to stay in. He did not expect the situation in the south of the city to be more complicated than he had expected. It seemed that Tang Jie’s appearance had attracted the attention of many other forces besides the Empyrean one Pavilion. At this time, the most important thing was to recognize the situation. Otherwise, if they rushed in all at once, they would become cannon fodder.

This was especially so when he had encountered Yuwen Xun. It was as if a meat pie had fallen from the heavens. He had originally come to kill him, but now, he had become a great help. With Yuwen Xun’s strength, he could be considered a top-notch expert in Chengnan. Moreover, although these people were abnormal,

they were all assassins. Their strength was far more tyrannical than those of the same rank, and they were best at acting in the dark.

He didn't need to worry about anything now. He just had to wait for the news.

Just as he calmed his mind and was about to cultivate, he suddenly frowned as he felt several powerful forces approaching him.

There were a total of three of them, and they were all at the Martial Emperor realm, but their levels were not high. The three of them were all one-star martial emperors. They seemed to think that he was easy to bully. They didn't even need to hide their figures and directly appeared in the room with a swagger. All of them stared at him with cold smiles.

Yunxiao found the arrogant looks of the three men very funny. "The three of you barged in without knocking. Don't you pay attention to your manners? The image of a gang?"

The three of them were stunned when they heard this. They thought that the other party would definitely be on guard, but they didn't expect him to be completely unconcerned. The leader frowned and said, "Who are you?"

This time, it was Yunxiao's turn to be stunned. He had thought that since they had come here, they must know him. "The three of you don't know me, so why are you looking for me? And who are you?"

The man on the left had an angry look on his face as he shouted, "What nonsense are you spouting? answer whatever I ask you, or I'll teach you a lesson!"

In order to prove that he could teach Yunxiao a lesson, he instantly unleashed the aura of a one-star Martial Emperor and pressed down on Yunxiao. A cold and arrogant look appeared on his face, as if he was saying, 'let's see if you can stand it or not.'

Yunxiao was speechless for a moment. Then, he said with a wry smile, "Very well, if you have anything to ask, please feel free to ask."

The man in the lead asked, "Who are you?" Who was that expert you separated from just now? what's your purpose in coming to the gentle song forest?"

Yunxiao thought for a moment and said, "that man is a killer. He came to the gentle song forest to kill me. As for me, I'm the leader of noob mercenary group's eighth team."

"You're from the rookie mercenary group?"

The three of them were shocked. The one on the left said angrily, "Nonsense! the captain of a rookie mercenary group is at least a peak Martial Emperor. You're only a peak martial King. You're not even qualified to be a commander. Do you think we're easy to fool? " If I don't teach you a lesson, you won't tell me the truth!"

He suddenly strengthened the pressure on his body and smashed it hard on Yunxiao.

Yunxiao only felt a gust of wind, and it was warm and comfortable as it pressed on his body. He smiled bitterly and said, "I'm telling you the truth, but you don't believe me. May I know who the three of you are?" Can you reveal it? Everyone should be honest with each other."

The man on the right felt a little strange and said, "there's something strange about this man. He's actually fine under the pressure of a Martial Emperor!

The man on the left had noticed it as well, and he had noticed it a long time ago, but he was too embarrassed to say it out loud. He had been strengthening his pressure, but Yunxiao just laughed it off, as if he was a little sleepy.

The man in the middle suddenly had a bad feeling. His face turned cold and he said, "Since you won't tell the truth, then there's no need to say anything more. You know of our existence, so you must keep it a secret. Only the dead can keep a secret!"

The three of them suddenly moved. Just as they were about to attack, they saw an ancient Bell appear in Yunxiao's hand, and it rang with a tap.

"Dang!"

As the sound wave spread out, the three of them instantly felt their minds go blank and lost consciousness for a short while. Although they recovered quickly, they found that they were no longer in the room, but under a clear sky.

“?! What was going on? Where is this place?”

The three men were taken aback. They soon saw Yunxiao standing in the air in front of them with a smile on his face. Although they did not know what was going on, they had a bad feeling.

Soon, the three of them lost their combat power and lay on the ground, covered in blood. Their eyes were filled with fear.

A man said in horror, ” I understand! This is the interior of Noah’s ship! Could you be Tang Jie from the four extremes sect? How could it be? you clearly don’t have the yin key, so how could you have obtained Noah’s ship? and you don’t have that thing, so how could you refine it on your own?”

When the other two men heard that, they were stunned at the same time. They looked around at the endless space, and when they thought of Yunxiao’s unpredictable means just now, the three of them completely collapsed with just a lift of his finger.

Yunxiao’s heart stirred as he walked down from the void with a smile and said, ” “It seems that you guys really have some material. I didn’t let you in for nothing. Let’s talk about your origins.”

The man in the lead looked dejected. His aura was dispirited as he said, ” “You’ve already obtained Noah’s ship, so what else do you have to say? kill me or cut me up.”

Yunxiao chuckled and said, ” I won’t kill you. I’m sure you’ve been watching the man who separated from me for a long time. I’m sure you’ve been keeping an eye on him. I wonder if you guys know what his special interests and hobbies are?”

392 The descendant of a peerless Martial Emperor

When the three of them heard this, they immediately trembled uncontrollably, each of them revealing a look of resentment.

“You, you can’t do this to us, you demon!” One of them said, trembling.

Yunxiao stared at him coldly and snorted. “You think you can’t just because you say so? Who Do You Think You Are? I’ll give you three breaths to consider. Otherwise, I’ll have that person interrogate you. He’s not as bad-tempered as me, and he’s always been very gentle to men.”

The three of them trembled even more violently. Yuwen Xun had been under their surveillance the entire time, so he naturally understood what kind of fetish he had. His face turned extremely pale.

“I, I say, you must not let that person deal with us!”

The leader finally broke down and said dejectedly, ” We are from the temple of Holy Fire.

the temple of Holy Fire? ”

After thinking for a while, Yunxiao asked suspiciously, ” “Is there such a sect in the Western regions? I don’t think there’s one in the realm of heavenly martial arts, right?” In the realm of heavenly martial arts, some of the forces that were slightly famous, even if they had never come into contact with them, they at least knew about them. Since the other party could send out three martial Royal realm experts casually, they would not be a trashy gang.

“Could it be that you’re a hidden sect?” he asked.

“Yes,” the man said. We are the descendants of the peerless martial sovereign ye Tiannan.”

Yunxiao’s face flickered as he said in surprise, ” “Ye Tiannan? Then, the purpose of your appearance this time is to be Wufu?”

A desolate look flashed across the man’s face as he said bitterly, ” “It’s this Noah’s ship, but I didn’t expect you to have it. However, Yingluo, how could this be possible? It’s impossible to find Noah’s ship with just the Yang key. Even if you’re lucky enough to find it by accident, how can you refine it for your own use without that thing?”

The shock in Yunxiao’s heart was indescribable. He did not expect that the legendary Noah’s ship would actually appear. Ye Tiannan was the peerless martial sovereign who had refined this Supreme grade profound level weapon. It seemed that Tang Jie had come to the gentle song forest for the yin key.

in that case, the yin key is with you people from the temple of Holy Fire, ” he said calmly. what else do you need to refine this Noah’s ship? ”

The man was about to say something when someone next to him nudged him. He immediately shut up.

Yunxiao’s eyes turned cold as he grinned hideously and said, ” “You’re not being honest. It seems that I’ll have to ask my companion to serve you.”

The three of them shivered in fear, feeling the chill in their chrysanthemums. They crawled back with all their might, trying to get as far away from the demon in front of them as possible.

I’ll talk, I’ll talk. I just hope that you can give us a quick death after I’m done. Don’t hand us over to that demon!

The first person was in complete despair. He said bitterly, ” “The yin key is with our sacred fire Hall’s young master. If you want to refine Noah’s ship, you must obtain a Divine Art. This Divine Art was left behind by the Martial Emperor ye Nantian.”

So that was how it was!

Yunxiao immediately understood. The divine realm tablet also had a corresponding divine technique of the great realm. Since Noah’s ship was known as a Supreme-grade Mystic artifact, it was normal for it to need a corresponding divine technique to refine it.

After asking a few more questions about the temple of Holy Fire, he disappeared in a flash, leaving the three of them on the spot, feeling uneasy. They were afraid that the pervert would punish them, but they didn’t have the courage to commit suicide.

Yunxiao’s mind returned to his room in the inn. He muttered to himself, ” even the descendants of Noah’s ship and ye Tiannan have appeared, and the demon clan seems to be getting restless. I don’t know where di Jia, who is in Mount Xumi, came from. Also, why does it feel like the heavenly martial realm is going to be in chaos? ”

The demonic Dragon’s voice resounded in his mind. it’s none of your business. Speaking of Noah’s ship, I remember something else. Do you remember when Lu Qingyu invited you to participate? ”

a transcendent-grade Mystic artifact? ” Yunxiao was moved. a transcendent-grade Mystic artifact? ”

that’s right, ” the demon Dragon said. back then, Lu Qingyu was the same as ye Tiannan. He had the ambition to refine a Supreme grade profound level weapon. Your amazing performance in the small spirit sky made him want to pull you in. Hmph, who would have known that the astral Slash sword that you refined in little spirit sky was just an inferior transcendent-grade profound level weapon!”

As soon as the demonic Dragon mentioned this, he seemed to be full of complaints. He said unhappily, you f * cking merged three ninth-tier Mystic artifacts into one through the torrent mystic gold and used my power to control it so that it wouldn’t break. You’ve deceived the powerful existences of the sea of soul formation and the demon race.

Yunxiao smiled wryly. there was no other way. You know the situation at that time. However, I do have some experience in refining Supreme grade profound level weapons. If I can get Noah’s ship this time and dismantle it, I think it will be a great harvest!”

As he thought of this, his eyes shone.

“Stop dreaming!”

The demonic Dragon said disdainfully, ” other than the descendants of Martial Emperor ye Tiannan, the four extremes sect, Emyrean one Pavilion, the skeleton mercenary group, and the mysterious rain are also watching Noah’s ship. These are the forces that we know of. God knows what else we don’t know. With your current strength? Hmph, I don’t want the divine realm tablet to be snatched away by others!”

He paused for a moment before he continued, ’if I can recover to my peak condition, I can help you. It’s a pity that I’m only a wisp of my soul now, and my power is less than 10% or 20%. The little stone had improved quite quickly, but it was not so easy to enter the eight desolation realm. As for your other demonic beast, the DarkThunder, its talent is far inferior to little Shi’S. I’m afraid it’ll only be able to reach the rank of martial honor at most in its lifetime.”

Yunxiao was also very vexed. “The newbie mercenary group is not bad, but it’s a pity that shaohuang isn’t here, so I can’t control it. Otherwise, helping me fight for Noah’s ship would be a great help.”

“That kid’s improving pretty quickly. He’s about to break through to the martial Supreme realm. Who knew where he was hiding? I think that hai beifei should know about it. He’s just hiding it from you.”

he’s not the only one who knows, ” Yunxiao snorted coldly. if I’m not wrong, the people of the rainstorm mercenary group and the skeleton mercenary group know about it, and they must have gone to cause trouble. Otherwise, I’d made such a big scene in the west of the city, breaking the balance that they’d had for so many years, and they wouldn’t have even let out a fart. They must have sent a large number of experts to encircle and annihilate the young Emperor.”

“Aren’t you worried?” the demonic Dragon asked in surprise.

Yunxiao’s face was cold as he said, ” “Which Martial Emperor doesn’t stand out from all kinds of difficulties? this is the young Emperor’s own business, and I believe he can solve it. If he could not even deal with these small fries, he would not be able to reach the peak of the martial Supreme realm even if he broke through to the martial Supreme realm. These situations are a great test for him, but also an opportunity!”

There were no shortcuts on the path of martial arts. All the difficulties and challenges were the stones that blocked the way, but at the same time, they were also the capital to step on.

The demonic Dragon was silent for a while before saying, ” “What do you plan to do now? Are we going to the temple of Holy fire’s base, or are we just going to wait for news from that pervert?”

Yunxiao seemed to be lost in thought, and he looked a little absent-minded. Suddenly, he said, ” “You’re right. I’m indeed very weak now. He would probably be at the bottom of the list in this competition. I’ve thought of a way to temporarily increase my strength.”

“What?” the demonic Dragon was stunned.

Yunxiao did not explain. Instead, he appeared directly in the divine realm tablet and came to Gu Yuesheng.

Gu Yuesheng, who was quietly cultivating, was shocked. He stood up and said angrily, ” “What do you want to do?”

Yunxiao walked toward him step by step and said indifferently, ” “It’s fine. I’m just borrowing your immemorial heaven’s eye.”

“What?”

Gu Yuesheng was taken aback, and he immediately saw Yunxiao’s Red pupils losing consciousness.

Yunxiao’s fingers turned into a claw and clawed at Gu Yuesheng’s left eye. Suddenly, a huge eye popped out of the left side of his face, shining with a fierce light and looking terrible.

Yunxiao’s face was filled with confusion. He grabbed the eyeball and pulled it out. Countless veins ran through Gu Yuesheng’s body, and his face turned extremely terrifying, completely losing its human shape.

A huge eyeball was caught in his hand, and dozens of blood vessels kept dancing in the air, like an octopus, as if it was trying to grab something.

“Don’t tell me you’re trying to imitate that pervert and implant this thing into your body?” the demonic Dragon asked in shock.

not really, ” Yunxiao snorted. I’m just borrowing it. That madman Jie was quite capable. These immemorial heaven’s eyes were already dead, but he had implanted the Brahma bug in them and used it to control the heaven’s eyes ‘movements. The Brahma bug had extremely strong parasitic properties and could be implanted into the human body at the same time. However, the Brahma devouring bug has to constantly feed on human blood essence. This Gu Yuesheng is a good seedling. It’s a pity that he became the crazy man’s disciple.”

At this moment, Gu Yuesheng had lost his primordial heaven’s eye, and one side of his face had become extremely terrifying. But, with a few incantations from Yunxiao, his face began to gradually recover.

The blood vessels on the immemorial heavenly eye kept dancing in the air, and soon discovered Yunxiao’s existence. They immediately hardened and pierced into Yunxiao’s body like needles.

But, Yunxiao was prepared. Besides, they were in the divine realm tablet, and not even a Martial Emperor could do anything to him. He blew lightly, and the dozens

of blood vessels stopped in the air. They were so stiff that they could not move forward at all. Then, they broke apart and turned into dust that was blown away.

After the immemorial heaven's eye lost those blood vessels, its pupils slowly drooped down, turning into a dead object.

Yunxiao gathered his spiritual power and gazed into the heavenly eye. He wanted to fully understand the structure of the heavenly eye and then use it.

The demonic Dragon stared at him for a long time before saying, "I understand. So you want to refine this thing into a profound level weapon. Your idea is even crazier than that madman Jie's!"

an Alchemist should act like an Alchemist," Yunxiao snorted coldly. there is nothing in the world that can not be refined!

He placed the eyeball in the air and continuously injected all kinds of rule force into it. The storage ring in his hand flashed with green light, and countless heavenly materials and earthly treasures appeared in the sky, spreading out one by one.

If you find any errors (broken links, non-standard content, etc..), Please let us know via our discord so we can fix it as soon as possible.

393 Purple and green qi

Yunxiao's eyes swept over the eyeball, and with a thought, dozens of various materials flew over and were distributed around it in a strange posture. He waved his hand again, and countless flames surged out from the ground and soared into the sky, swallowing all the materials and roasting them.

The demonic dragon's eyes glowed with a strange light. your soul power is only at the fifth rank, but you can use the rules of heaven and earth in the divine realm tablet and display the true Phoenix Fire limitlessly. Can you refine a higher level profound weapon? "

Yunxiao explained as he cast a magic art, "At most, I can refine it to the sixth-tier, and it's limited by my own strength. So what if I can refine it to the ninth-tier? Moreover, you also know that when refining seventh tier and above profound armaments, there will be a heavenly rule-Thunder tribulation. In my divine realm tablet, there's no thunder tribulation. Even if it's a seventh-tier Mystic weapon, it

can't be compared with a seventh-tier Mystic weapon that has experienced the Thunder tribulation.”

It was easy to understand this situation. A Martial Emperor who had also reached the level of a Martial Emperor but had been cultivating in seclusion would definitely be far weaker than a Martial Emperor who had been fighting outside for years.

In the divine realm tablet, he was almost an invincible existence. He could adjust the rules of the realm at will, so he could replenish his soul power extremely quickly, and it would not consume much energy to refine it.

The eyeball was being roasted by the true Phoenix Fire. Otherwise, it would have been turned into ashes after being dead for so many years.

The various materials were instantly dissolved by the true fire and absorbed into the eyeball. The eyeball's color became brighter and brighter, flashing with golden light as if it was alive. His pupils seemed to have a mind of their own as they opened and closed, constantly releasing a strange power. It was mental power.

The demonic Dragon also came out of the purple shadow Sword, shrinking dozens of times into a tiny dragon. It sat quietly beside Yunxiao, watching the refining process. The true Phoenix Fire burned from a distance, and the godly state intent it emitted was also very beneficial to him.

Yunxiao's hands moved faster and faster, and his body glowed with a golden light. Tadpole-like characters kept emitting dense mist and dissipating in the air.

In the end, the golden light from the eyeball became stronger and stronger, so piercing that it was difficult to open one's eyes. A wave of weapon intent gradually formed.

“Retreat!”

let's go! Yunxiao cried out, and the Phoenix true flame that filled the sky quickly receded back into the earth. With a wave of his hand, the materials that filled the sky were all kept into his ring.

In the sky, the Golden Eye floated quietly. It was very agile, and its pupil flashed and released spiritual fluctuations.

“As expected, it’s a Grade 6 item!”

and this spirit is as strong as yours, ” the demon Dragon complimented. tsk, tsk. I won’t have to be so pathetic against Mr. Yu now.

However, Yunxiao’s brows were tightly furrowed, as if he was extremely dissatisfied. “It’s a pity that I don’t have enough materials on me, and I can only reach this level. The ancient heavenly eye clan was truly impressive. Even after countless years, this eyeball still possessed such a powerful force. However, it’s still far from enough to deal with the rain!”

A golden light flashed between his brows, and the eyeball in the air suddenly flew down and entered his brows.

Soon, a Golden Eye appeared in the middle of his eyebrows. It flashed with a strange light and then disappeared.

don’t be so ungrateful, ” the demon Dragon said. the other party is an eighth-tier Alchemist, and he knows all kinds of secret techniques. You only refined one eye, and you want to suppress him? how can he continue to live? ”

Yunxiao was a little worried. A beam of light flew out of his hand and turned into a long sword. He held it in his hand and began to examine it carefully.

It was the purple shadow Qing suo sword. After it had exchanged dozens of blows with Tang Jie’s Vermillion Bird saber that day, it was already covered with large and small nicks. It was extremely broken. Furthermore, the artifact reserves that were being transmitted out had become extremely unstable, as if they could collapse at any moment.

The ninth-tier Mystic artifact was a combination of two swords, and it had only been able to stick them together for a long time under Yunxiao’s powerful control. Now that the sword was damaged, the power of the combination was gradually weakening.

“Clang”

Yunxiao placed the sword in the air and flicked it lightly with a finger. It let out a crisp sword cry and suddenly split into two, shooting out two streams of sword Qi of different colors, one green and one purple, flashing in the air a thousand meters away.

However, that powerful ninth-grade tool accumulation had been reduced to the seventh-grade.

this purple shadow Qing suo sword is indeed a good profound level weapon. Unfortunately, it's not suitable for my stellar sword intent. It's better to refine a sixth grade profound level weapon myself.

With a single thought, the true Phoenix Fire once again rose from the ground and gathered towards the two swords, burning them.

what a waste! the demonic Dragon said. you actually want to reduce the level of materials that can be used to refine ninth tier profound armaments to the sixth tier? ”

Yunxiao's face was as calm as water as he said lightly, ” “After I forcefully refined the astral Slash sword in little spirit sky, I had an idea in my mind. After obtaining the great expansion divine technique, the possibility of this idea being realized has increased. The only thing I want to do now is to disassemble Noah's ship. I believe I can make a real Supreme grade profound level weapon.”

as for these two swords, they don't match my stellar sword essence in terms of material or creation. What's the use of them? ”

With a casual wave of his hand, the two seventh tier profound armaments began to melt under the true Phoenix fire's heat. It was a pity that the divine realm tablet couldn't condense the Thunder tribulation. Otherwise, he could directly refine a ninth-tier profound artifact by sending down the rules of heaven.

Purple and green auras kept flowing out of the two swords, illuminating the sky into two distinct halves. Under the Phoenix divine fire, everything could be turned into nothingness. The azulet swords were made of ninth-tier materials, but their impurities had been burned away, and they had condensed into a gaseous state.

Then, there was a sound on the ground. The stone beast's body kept emerging from the ground. It raised its head to take a look, then flew into the sky and stood in the middle of the two swords.

Yunxiao's face began to turn serious as he controlled the purple and green gas to slowly surge toward the stone beast.

The demonic Dragon's pupils contracted as he exclaimed, " "You're crazy! You're not thinking of refining the little stone, are you? These two auras are extremely overbearing and powerful. Xiao Shi will die!"

A crazed look flashed in Yunxiao's eyes as he snorted, " "I'm only refining his body, not his soul. The stone beast was an extremely strange existence. Its body was made of stone, and it would not die as long as its heart of stone was not injured. As long as I fuse the purple and green qi into his body, even a ninth tier profound armament would not be able to hurt him! In addition, his physical body can absorb the power of the earth and continuously recover. This is my ultimate trump card to suppress rain!"

His face was filled with ruthlessness. He formed a seal with both hands and the purple and green qi rushed into the stone beast's body. As soon as they came into contact, the stone beast's yellow body began to collapse like a clay slab. It had no power to resist and turned into dust.

A pained expression appeared on the stone beast's clumsy face, and it opened its mouth wide to wail.

But, under Yunxiao's order, he did not dare to move. He just stood there dumbly, enduring the pain of his body collapsing.

Soon, the red heart of stone was also revealed. It was beating like a heart, as if it was very afraid of the purple and green gas that was devouring his body. It shrank carefully. Meanwhile, the body of the heart of stone shattered into pieces, turning into powder under the purple and green gas.

his body has completely collapsed, " the demon Dragon said in a deep voice. the difference in level is too great. There's no way to fuse it! His physical body had been nourished by the Earth's growing soil and had a lot of room for improvement. If the fusion fails, he can only find another body, and his strength will be greatly reduced. Furthermore, the purple and green qi are ninth-grade items. If it's not controlled well, it's extremely likely to accidentally injure his heart, and that would be fatal!"

With a cruel look on his face, Yunxiao said, " "If I can't merge it with my body, I won't be able to withstand a single blow from the rain. He could only give up on him completely, or keep him as a pet, and give him away when he flirted with girls in the future. If you want to become my assistant and step into the peak of the martial Dao with me, this little bit of training is nothing! Which unparalleled

expert didn't walk through life in this way! Evil Dragon, when did you become so long-winded? If you continue to be so long-winded, I'll refine you too!"

The demon Dragon was silent for a while. Yunxiao's words were very reasonable. If he could succeed, the benefits to the stone beast would be unparalleled. Besides, he also knew that all alchemists were lunatics. Although Yunxiao looked normal, when it came to alchemy, he was no different from those lunatics in the sea of soul formation.

Yunxiao's body was shining with the light of the great expansion divine technique, which was as brilliant as the sun. One divine technique after another was sent into the stone beast's body, and soon, it collapsed to the point where only its heart was left. His movements slowed down, and his brows furrowed.

Just as the demonic Dragon had said, the stone beast's current state was unable to withstand the refinement of the purple and green qi. It could only be turned into ashes.

After he pondered for a while, a ray of light slowly rose from his hand. A small purple cauldron slowly flew out. All kinds of strange patterns were engraved on it, ancient and profound.

Under the pressure of the purple cauldron, the demonic Dragon's pupils shrank and he held his breath. He felt a sense of oppression in his heart.

"Open!"

Yunxiao gave a loud cry and thrust his palm forward. A spirit light flashed in his hand, then turned into a rune and imprinted itself on the purple cauldron.

The purple cauldron was pushed into the air by the power of the runes, but it was still dead. There was no weapon essence spreading out, and it was like a dead pig. No matter how much water was used to heat it, it was still a dead pig.

Yunxiao cursed angrily, 'damn you! I don't believe I can't open you in my divine realm tablet!"

He pointed a finger, and the power of laws appeared in the world, pressing down on the purple cauldron. The space was compressed at this moment, and countless weights were condensed at that point.

“Boom boom boom!”

The purple cauldron finally let out a rumbling sound as it suffered a great impact. The huge belly of the cauldron rumbled as if it was resisting the infinite weight.

394 Refining the stone beast

“Good! Let’s see how long you can last!”

burn! Yunxiao cried out. true Phoenix Flame, burn!

A sea of fire immediately appeared in the sky. The terrifying flame aura covered the sky and the earth, swallowing the purple cauldron and burning it.

The two forces of territory, which were in the divine realm tablet, were exerted to their strongest extent and stacked together. The purple cauldron finally couldn’t bear it anymore. A purple light spread out in the flame, and the body of the cauldron suddenly became golden. The strange patterns on it lit up one by one, and the brilliance flowed, and the spiritual Qi was overwhelming.

Yunxiao’s eyes flickered with fierceness as he appeared in front of the purple cauldron in an instant and performed a refining technique. It was the illusive waves technique he had created. All kinds of incantations were thrown into the purple cauldron like raindrops, trying to start it.

However, those spiritual arts were like raindrops falling into a sea of fire. They evaporated before they could even enter. No matter how powerful Yunxiao’s illusive waves heavenly Sutra technique was, it could not break into the purple light.

“Your sister!”

Yunxiao roared as a golden tadpole-like character gradually condensed in his hand. It was the same one he had seen in the passage of Mount Meru. He did not understand the meaning and rules of it, so he only roughly condensed it and let it shine in his hand.

“Bang!”

He struck out with all his might, passing through the thick purple Qi and hitting the cauldron.

In an instant, a golden light shot out from the top of the cauldron, and the patterns on the body of the cauldron became even more vibrant. The surrounding purple gas gradually dispersed and began to shoot out rays of golden light. It was a dazzling sight. The three ancient characters on the body of the cauldron, cauldron of mountains and rivers, also appeared more and more ancient.

After Yunxiao's palm landed, he felt a huge backlash that almost crushed him. However, he was in the divine realm tablet, and any power was limited by the rules in the tablet. When the recoil reached his body, it dissipated directly.

“Now!”

Yunxiao was overjoyed to see the cauldron of mountain and river activated. He hurriedly summoned the purple and green qi and placed them into the cauldron.

After that, the materials in his ring spread out in the sky again. Instead, he threw in all the materials that he found pleasing to the eye. In an instant, more than half of them were consumed, and there was not much left. Finally, he pointed at the extremely weak stone beast, which had stopped in the distance, and slowly flew towards the cauldron of mountain and river.

The stone beast returned to its original body size in a short time. However, the earthen yellow color on his body had become extremely dull, and he appeared listless and dispirited.

“If we throw him in like this, he'll really die!” The demonic Dragon said in a deep voice.

‘You talk too much!’ Yunxiao snorted. If I truly wanted to refine him to death, why would I need to waste so much effort to create that dead pig cauldron?’ He focused his gaze and with a thought, streaks and streaks of yellow light appeared above the cauldron of mountain and river. They were emitted from a small dot and grew bigger and bigger. They were half the size of a fist.

After the small dot appeared, the entire space was distorted to a certain extent. With the small dot as the center, it pressed down. It was as if an endless weight was directly bending the plane.

Even the cauldron of mountain and river below was affected by the power. However, it did not move forward. Instead, it retreated. It seemed to be intelligent enough to avoid the power.

Within the ball of light was a small piece of the Earth's growing soil, a priceless treasure.

“With the living earth protecting his heart of stone, he won't die no matter how he refines it! As for how far he can go, that will depend on his luck!”

When the stone beast's exhausted body entered the large cauldron, the Earth's growing soil also fell down with it.

The cauldron of mountain and river seemed to have sensed the power of the breathing earth and became excited. It was colorful, like the center of fireworks. The colors covered the sky and lit up the entire sky, extending into the distance.

As the light shone down, a warm feeling spread in all directions, giving off a sacred and inviolable feeling.

“This bi an ...”

Yunxiao was stunned by the huge phenomenon. He had been an Alchemist for so many years, but he had never been able to produce such a large-scale phenomenon while refining. It was as if he had entered a world of blurred colors.

Not only him, but the demonic Dragon, Duan Yue, Yue jiulin, and the others who were trapped in the stele all turned their eyes in one direction at the same time, and they all saw the light of the purple cauldron.

The Dragon had followed Yunxiao for many years, and although he did not know anything about magic, he had seen a lot. “Could it be that this cauldron is also a Supreme grade profound level weapon?”

It was only then that Yunxiao came back to his senses. He shook his head and said, “I don't know. But how could there be so many transcendent grade profound level weapons in the world? The only thing recorded in the history of the continent was Noah's ship. However, hehe, this phenomenon really does exceed that of an ordinary ninth-tier purple cauldron!”

you've never used such a peerless treasure before," the demon Dragon said worriedly. "Will the small stone be dangerous?"

He and the stone beast both came from Mount Meru, and they seemed to have a very close relationship with the latter. Even if the latter didn't have much spiritual consciousness, at least they were from the same hometown. For countless years, he was a companion.

Yunxiao grinned and said, "I don't know. I'll leave it to fate. Fortunately, I wasn't the one in there."

The demonic Dragon's face darkened.

Although Yunxiao said it in a relaxed manner, he was very worried in his heart. He seemed to have no idea where to start with this mysterious cauldron.

"Fuck you, don't tell me you're refining inside?"

The light on the cauldron of mountain and river changed unpredictably, as if it was following some kind of rule. From time to time, all kinds of strange lights would flash out, but the strange phenomenon of each light was across the vast sky, illuminating the heaven and earth.

"Can't you fucking keep a low profile?"

Yunxiao was a little dumbfounded. He cursed a few times, but there was no reaction. But no matter what, he was once a ninth-rank existence. After a moment of contemplation, he began to display a set of extremely simple movements. It was the most basic refining technique, the thirty-six forms, and the twelve forms of Flying Flowers and falling snow that he had created himself.

All the refining techniques in the world were derived from these most basic techniques. These 48 basic refining techniques contained all the alchemy techniques that all the alchemists in the realm of heavenly martial arts could comprehend.

Perhaps the size of the art was not as simple as the forty-eight basic techniques, but these were all the rules that the experts of this world had comprehended after countless years of accumulation.

Sure enough, with every move Yunxiao made, the cauldron of mountain and river seemed to be affected and changed slightly.

Even so, Yunxiao was still very nervous and had no confidence at all.

Fortunately, there was the breathing earth inside, which should be able to ensure that the stone beast's heart would not be refined. After all, the soil of breath was the mother of the earth, which evolved all things. Its level was even higher than the true Phoenix Fire. He really did not know what in this world could refine such an existence.

Furthermore, he also noticed that the light emitted by the cauldron of mountain and river did not seem to be as simple as light. The constant changes seemed to contain some kind of rule.

This discovery shocked him greatly. In this world, the only existences that could bear the weight of the rules were those legendary transcendent grade profound armaments which had surpassed the ninth grade!

His forehead was covered in cold sweat. Did he get another transcendent-grade profound level weapon? But how was this possible?

There was only one item recorded in the history of the continent, and now it had become a street stall?

Moreover, he gradually understood that if he wanted to refine a transcendent grade profound level weapon, he had to master the corresponding deity tier spiritual art. Where would he find the deity tier spiritual art in this empty cauldron? They might have been lost in Mount Meru.

Without the divine Art, it could only be an ordinary purple cauldron. It was even worse than an ordinary cauldron that could be controlled at will.

Yunxiao felt dizzy, and his throat was a little dry.

He pushed away these distracting thoughts and began to immerse his body and mind into it. He developed the 48 basic techniques and tried his best to control the cauldron of mountain and river to avoid any accidents that he could not control.

After an unknown amount of time, the light emitted by the cauldron of mountain and river began to converge. It became smaller and smaller, as if the refinement was nearing its end.

Yunxiao's face turned white as well. Although he was in the divine realm tablet, the consumption was not something he could bear at will, and it was far beyond his imagination. If it was outside the divine realm tablet, there was no need to think about activating it. Unless one had a Divine Art, it was absolutely impossible!

“Boom boom boom!”

Continuous rumbles came out from the cauldron of mountain and river. As the light disappeared, the golden light disappeared and turned back to purple Qi. It stopped moving and floated in the void. It turned back to the dead pig. It was dead, as if it was never alive.

Yunxiao breathed a sigh of relief as well, and he released his aura. At this moment, a wave of wholehearted energy gradually gathered in his body from all directions, constantly filling his body and meridians. His dantian had also undergone a certain change, becoming more abundant and powerful.

This power was not the power of the rules of heaven and earth in the divine realm tablet. Instead, after he had activated the cauldron of mountain and river, he had broken through the barrier that was as thin as a cicada's wing and finally stepped into the six directions realm, a martial Grandmaster!

When other people broke through a major realm, the biggest problem was not the accumulation of vital Qi, but the comprehension of martial arts. This was the main reason why martial artists were eliminated layer by layer.

The accumulation of Yuan Qi could be achieved through continuous cultivation, but martial arts comprehension required great wisdom, comprehension, and even luck. This was unless one could find the most precious treasure in the world, the martial will Dao fruit. After taking it, one could directly comprehend all the martial essence of that major realm, and break through with irresistible force.

But for Yunxiao, his understanding of martial arts had long reached the peak of the Martial Emperor realm, and what he lacked the most was the accumulation of primordial Qi. And because of his Constitution, the amount of Heaven Earth Yuan Qi He needed to break through every star and realm was several times, or even dozens of times, that of ordinary martial artists.

Although his progress was already incredible and incomprehensible in the eyes of ordinary Warriors, Yunxiao still felt that it was as slow as a snail, and he was very dissatisfied.

The demonic Dragon flew over and said with lingering fear, ” “Is little Shi still alive?”

395 Soul battle technique

you’re asking me? ” Yunxiao rolled his eyes at him. who should I ask? ” He beckoned with his bare hand, and the cauldron of mountain and river began to spin and fly back.

He patted the cauldron, and a rhythm spread out from it. A ray of light rushed out from it and shot into the sky.

Then, the cauldron of mountain and river turned into a miniature form, flew into Yunxiao’s hand, and disappeared.

The demon Dragon and Yunxiao hurriedly looked up at the light and saw a black sphere floating in the air, like a piece of coal.

“Turned into ashes?” the demonic Dragon exclaimed.

Yunxiao was dumbfounded as well. Oh my God! Where’s my breathing earth? it can’t be gone, can it? ”

At this moment, the black coal in the air started to move slowly. It was like a Rubik’s Cube, spinning in different directions. It was as if it was combining. Every time it spun, its size would increase by a bit. Furthermore, the color of its body was constantly flashing. Just like the cauldron of mountain and river, it was colorful and extremely gorgeous. Soon, it stretched out its arms and legs, and a stone beast that was completely different from the previous one appeared in front of the two.

“This bi an ...”

The two of them were completely stunned. The stone beast was now only half the height of a man, and its body was round and clumsy. Its limbs were very short and

thick, and its shape was unusually cute. Other than the blank look on his face, he had completely changed.

why are you so kawaii?!

What made the two of them dizzy the most was that one of the sesame-sized eyes was purple, while the other was green.

The demonic Dragon madly circled in the air for a while before saying in a daze, ” “This, can this look be used for fighting? Does he still have the strength to fight?”

Yunxiao wiped the cold sweat off his forehead and said in embarrassment, ” “I don’t expect him to fight anymore. I just hope that my breathing earth hasn’t been refined, right?”

With a thought, he sent an order over.

The stone beast’s eyes glowed with purple and green light, and its round belly swelled up again. Its face became extremely uncomfortable, and it turned brown. He roared and spat out the small piece of breathing earth. It flew out of his body and floated in the air.

After this process, the stone beast’s body changed again. However, its appearance did not change. It only shrank a few times, from half the height of a person to the size of a basketball. That round belly and the head had completely turned into a treasure gourd.

Yunxiao stared at the breathing earth for a while, then suddenly cried out, ” “Damn it, it’s so much smaller! Some of it has really been refined!”

“How is that possible?” the demonic Dragon was shocked. The living earth was a Supreme treasure that had existed since the creation of the world. How could it be refined? Could it be that the little stone absorbed it?”

Yunxiao’s heart stirred as well. He stared at the stone beast and gave an order, ” “Now, attack me with your most powerful attack. Let me see if you’ve become stronger!”

Purple and green gas burst out of the stone beast’s eyes, cutting through the sky like two sharp swords and piercing through Yunxiao’s body.

Yunxiao's heart trembled. The sword Qi of the purple shadow Qing suo sword had actually been refined into the sharp Qi in his eyes. Even as a fifth-tier Alchemist, he felt his spiritual sea shake.

Immediately after, the stone beast's adorable face turned ferocious. It bared its fangs and roared loudly, causing the surrounding space to tremble and show signs of collapsing! The sound of stones grinding together could be heard from his entire body. At this moment, his body size continued to increase. In the blink of an eye, he had turned into a giant and returned to some of the domineering appearance he had before he was refined. He roared and threw a punch.

The wind from the punch was so overbearing that it caused the air pressure to explode continuously. All kinds of spiritual pressure made sharp hissing sounds, and there were purple and green qi lingering around his body. His entire huge body appeared in the purple and green qi, and he was invincible!

The demonic dragon's eyes were filled with joy as it said, "So domineering, so handsome!"

Yunxiao was overjoyed as well, but there was also a hint of horror in his eyes. Under the punch, he could clearly feel that the power of space around him was constantly being squeezed, and it was about to collapse.

the peak of a Martial Emperor! He's definitely beyond the peak of a Martial Emperor!

Yunxiao could clearly sense the power of the punch, which was far beyond the peak of a Martial Emperor, but the aura of the stone beast was still that of a Martial Emperor, which was a little difficult for him to understand. He gently stretched out his hand, and the rule force directly gathered in front of him, freezing the stone beast's full-force attack, making it unable to advance any further.

"What's going on?" the demon Dragon asked. I also think that this punch has long surpassed the Martial Emperor realm, but why is his aura still that of a Martial Emperor? and why does he not have the domain power that a martial honor should have?"

Yunxiao did not say anything. He could not explain the situation. He directly gave the order for the stone beast to withdraw its fist.

The ferocious look on the stone beast's face immediately melted away, and it returned to its cute and silly appearance. Its body size also shrank from a giant to the size of a basketball before it stopped.

your whole body is like a gourd, ” Yunxiao looked at him and said, ” but when you punch, you're like a guardian deity, indestructible. I'll give you a name. I'll call you the gourd Little King Kong.” He thought for a moment and said, ”demonic beasts usually have very low intelligence and it's very difficult for them to learn human martial arts.” I'll teach you the simplest, but most practical move-Vajra fist. I wonder if you can comprehend it. ”

Suddenly, the idea of letting demon beasts learn martial techniques came to Yunxiao's mind. Since demons could learn martial techniques, why couldn't demon beasts? Although there was a huge difference in their intelligence, it should not be a problem to teach some of the simplest things. The calabash Little King Kong was best at swinging his fist and smashing people, which had the same effect as the king Kong fist.

He could communicate with the gourd Little King Kong through spiritual thoughts. He immediately imprinted the essence of the king Kong fist into the gourd Little King Kong's mind. Although it was the most elementary martial arts technique, under his understanding as a martial Supreme, he was able to deduce it very thoroughly. In fact, the most basic martial technique contained the most basic laws of heaven and earth, but it could only be understood after a certain realm of comprehension.

The gourd Little King Kong's face immediately revealed a puzzled look. It stood there in a daze, motionless, like a statue. Its distressed color and furrowed brows were vividly imitated.

The demonic Dragon swallowed his saliva and said with a bitter smile, ” “I'm afraid you're the first person in history to teach demonic beasts martial arts.”

not necessarily, ” Yunxiao said. some powerful demon beasts will gradually gain intelligence as their strength continues to improve. For example, Yao Jinliang's year burier beast's intelligence was not below that of an ordinary human, so it must have mastered an extremely high level of martial arts. It's also said that if a demonic beast can reach godhood, it's extremely possible for it to take human form, making it invincible against those of the same cultivation level.”

The demonic Dragon sneered disdainfully, "demonic beasts entering the godly state?" Hmph, stop dreaming. After the martial sovereign realm, the most important thing was the comprehension of the laws of heaven and earth. With the intelligence of demonic beasts, it was basically impossible for them to enter the godly state. Moreover, there are no records of any human who has reached the godly state in the history of the continent, let alone demonic beasts."

it's up to you, " Yunxiao said with a smile. it's up to you. There are indeed many outstanding talents in the history of the continent, but the number of outstanding figures still depends on the present."

The demonic dragon's heart skipped a beat. The human in front of him was no less powerful than any of the great figures recorded in history. He suddenly found Yunxiao staring at him with a smile, and he was taken aback. "Why are you staring at me? Your gaze is strange!"

you can see that? " Yunxiao asked in surprise. you can see that? " You've been with me for so many years." He grabbed at the air and a force immediately bound the demonic Dragon, pulling it towards him.

The demonic Dragon had a bad feeling and struggled to say, " "What do you want to do?"

But in the divine realm tablet, no matter how he struggled, it was useless.

I've finished refining the gourd Little King Kong, " Yunxiao said with a smile. now, I'll naturally start refining you.

"What?"

you bastard! the demonic Dragon was enraged. you want to refine me?! In addition to anger, there was also a trace of fear in his heart.

Yunxiao looked at him with no malice on his face, only a teasing look. "Do you remember that in the Western Region, there's a big sect that has a very magical cultivation method?"

The demonic Dragon's face was still filled with anger. His brows were furrowed, and his pupils suddenly shrank as he cried out, " are you talking about the soul battle technique of the soul Devourer clan?!"

‘That’s right!’ Yunxiao said seriously. I’ve noticed this technique a long time ago. It can greatly increase a martial artist’s combat power. Although the flaw was also very obvious, the soul Devourer race had relied on this cultivation technique to become one of the seven major forces on the continent. And you are precisely the best material to cultivate this soul battle technique!”

The demonic Dragon’s expression turned silent, and the anger and fear on his face gradually disappeared. He pondered and said, Do you know that this may affect your soul power cultivation base, and it will be a great obstacle for you to recover to the ninth-tier Alchemist Realm? ”

of course, ” Yunxiao said. I wouldn’t have refined it in the past. But now, the deeper he understood the great expansion divine technique, the more he could understand the profoundness of soul cultivation. Even if I cultivate that soul-based technique, it won’t cause me any substantial harm. Besides, don’t forget that I still have the Kunwu Divine Tree.”

The demon Dragon’s miniature form gradually grew larger as it slowly swam around Yunxiao, seemingly hesitating.

what are you hesitating for? ” Yunxiao asked with a smile. what are you hesitating for? ”

Demonic Dragon’s face was filled with desolation as he sighed, ” “Forget it. I’ve been your sword spirit for so long, so what if I become your beast soul? Besides, I’ll be the one who benefits the most this way. Even you don’t care, what am I even more afraid of?”

Yunxiao nodded slightly and said, ” “I said that I would help you rebuild your body and return your freedom. From now on, you shall be nourished in my soul!”

He made a few hand seals and formed a green circle in front of him. It was covered with all kinds of strange symbols and emitted a soft light. The symbols were actually in the form of demonic beasts. They were extremely life-like as they ran around the circle.

If you find any errors (broken links, non-standard content, etc..), Please let us know via our discord so we can fix it as soon as possible.

Suddenly, spots of white light flickered on Yunxiao's body, and an image that looked exactly like him walked out of it. It beckoned at the demon Dragon and said, "Come over!"

The Dragon was very cooperative as it slowly passed through the green circle. Yunxiao's Phantom reached out a hand and slowly placed it on the Dragon's forehead.

A white light appeared on both of them at the same time, growing stronger and stronger. The Dragon's forehead slowly penetrated Yunxiao's palm, and its body gradually sank into it.

Yunxiao's real body and his shadow frowned at the same time, and a strange look appeared on their faces, as if they were not used to it.

Soon, the demonic Dragon's body was completely in his palm. The shadow stretched out its fingers and made a hand seal in the air before gradually returning to its body.

Yunxiao grunted lightly and began to quickly perform incantation gestures. Golden tadpole-like characters emerged one after another, and the great expansion divine technique appeared in the sky.

Each of these golden tadpole-like characters seemed to contain a different law within it. Up until now, although he had seen dozens of these characters, he had only truly mastered a limited number of them.

However, these few words were enough to benefit him.

At this moment, the demonic Dragon was slowly moving forward in his sea of consciousness, trying to merge into the deepest part of his soul.

Yunxiao sat cross-legged in the sky quietly, but beads of sweat the size of beans were rolling down his forehead. He was obviously in great pain.

The perverted part of this soul battle technique was to absorb the soul of a demonic beast and integrate it into one's own soul. From there, one could obtain a part of the demonic beast's power, and in battle, one could display the demonic beast's ultimate skill. This way, not only would there be a huge increase in strength, but the two would also share soul power.

Therefore, the soul Devourer clan kept a large number of high-level demonic beasts in captivity. They would take the souls of the demonic beasts and integrate them into their own souls according to the strength level and talent of the disciples. This way, it could allow the martial artist's cultivation base and soul power to increase by several levels in an instant.

However, the disadvantage was also very obvious. It was very difficult to separate it after fusing with a beast soul. If they were forcefully separated, the two would suffer soul injuries at the very least, or even die on the spot. The soul-devourers' common method of extracting beast souls was to manifest the beast souls and shatter them into pieces.

Even though this would result in severe internal injuries, at least the martial artist would be able to keep his life. However, after losing the beast soul, his soul was greatly damaged, and it was difficult to merge with it a second time.

Therefore, the choice of a beast soul was very important. It was basically a one-time choice, and one would have it for life. The disciples who were extremely talented would be fused with higher-grade beast souls after they had reached a certain cultivation.

The reason why the demonic Dragon said that he would benefit more from it was because he shared the soul power attribute. As a soul and a demonic beast, he couldn't cultivate the soul refining technique of humans. He could only let time pass and slowly recover his soul. He wasn't even confident that he could completely recover before he died.

But, it was different after sharing his soul power with Yunxiao. He could recover his strength through Yunxiao's great expansion divine technique. Although becoming a beast soul was an extremely humiliating thing for a true Dragon's descendant like him, it was a good thing that the sword spirit had been doing it for so long, so it didn't matter.

Soon, Yunxiao's face gradually twisted in pain. He suddenly shouted, stood up, and threw a punch.

The clothes on his arms instantly turned into dust. A colorful fist light streaked across the air, and a Dragon's Shadow faintly appeared in the fist light.

On his bare arm, the shape of a demonic Dragon appeared. It emitted a green light, as if it was a tattoo.

“Not bad, the initial stage of the fusion has been completed. Your punch just now was at least as powerful as a Martial Emperor’s!”

The demonic Dragon’s voice came from the depths of his soul, ” “The key to soul battle techniques is still the soul Fusion technique, which seems to be divided into many levels. You and I have already completed the initial stage. I can enjoy the nourishment of your soul power, and you can also use my power.”

“En!”

Yunxiao had felt a great force pouring into his soul from the punch just now. Now, even if he was barehanded, he was confident that he could fight a Martial Emperor with just his cultivation of a one-star martial Grandmaster. And as the fusion continued to deepen, the power he could use would also become stronger. At the same time, the demonic Dragon was recovering faster and faster.

This was definitely a win-win situation, but the headache was how to separate in the future. They didn’t care about this anymore. They just had to take one step at a time.

After fusing with the demon Dragon, Yunxiao began to cultivate quietly. He had not stopped refining the immemorial heavenly eye since. Although they were in the divine realm tablet, they still felt a little overwhelmed.

The great expansion divine technique that had appeared in the sky had completely fused into his body. His body emitted a faint golden light, constantly nourishing his soul power.

After a few hours, he suddenly opened his eyes, and his gaze flashed like lightning.

With a thought, he disappeared from where he was and suddenly appeared in front of the three people from the temple of Holy Fire.

When the three of them saw him suddenly appear, they were all startled. One of the men’s face instantly turned pale, and a green light flashed in his hand.

Yunxiao stared at the ring in the man’s hand and said, ” “What was that thing just now?”

The man’s forehead was covered in cold sweat as he said, ” “No, nothing!”

you're very disobedient! Yunxiao said. you're very disobedient! He pointed his finger down, and the ring on that person's hand emitted an intense light. With a "bang", it exploded, and a large number of things appeared in the sky.

"Eh, there's quite a lot of good stuff!"

Yunxiao waved his hand with a smile, and all the high-grade items were put away. One of the round objects fell directly into his hands. It was actually made up of many parts and was not a simple profound level weapon. In the center of the round object, a pointer was constantly shaking.

He frowned and said, "a sensor?" "What an exquisite profound level weapon."

The three people's expressions all changed drastically, revealing looks of fear.

With a flip of his hand, Yunxiao put the ring away and disappeared from where he was. "It seems that ye Nantian is indeed a master in making Supreme grade profound level weapons. This kind of sensor can actually travel through space and reach here."

In the next moment, Yunxiao appeared in the room of the inn. He spread out his divine sense and immediately sensed several powerful auras pressing down on him, and one of them was a martial Supreme!

Several men suddenly appeared in the room. There were seven of them in total, and most of them were martial emperors. However, the auras of two old men made Yunxiao feel extremely suppressed, and they were undoubtedly martial Venerables.

After the seven people's eyes swept over him, they didn't care about him at all, as if they didn't regard him as an existence at all, all of them minding their own business and investigating their surroundings.

A handsome young man was holding an identical sensor in his hand, frowning as he looked at it, "What's going on? It's clearly here, but why is there no one?"

A martial Royal realm expert who looked like a middle-aged scholar also looked around and said, "Could there be something wrong with the sensor? Or did the three of them escape into the void?"

One of the two old men who made Yunxiao feel extremely uncomfortable snorted with a few sparse white hairs on his head. “There’s no one hiding in the void within a thousand meters.”

The few people believed his words without a doubt. The handsome young man walked up to Yunxiao with a frown and said, ” “Young man, did you see three men with unfathomable cultivation?”

Yunxiao found it funny and shook his head.

He was already sure that these people were from the temple of Holy Fire. He did not expect rabbit to come to him on his own accord. However, those two martial honors seemed to be very powerful and he could not deal with them.

The handsome young man’s worry grew even heavier. He turned around and asked the two old men, ” “Two venerable Lords, what should we do now?”

These people from the temple of Holy Fire seemed to have been away from the world for too long and were somewhat ignorant of the world.

The thin-haired martial honor elder frowned and said, ” “There’s something wrong with this young man!” He stared at Yunxiao for a while and said slowly, ” “He didn’t show any signs of panic when he saw us come in. He was neither humble nor arrogant, and his eyes were as calm as water. Also, at his age, how could he have the cultivation of a Wu Zong?”

Especially the last part, even he himself was shocked, and his eyes immediately widened.

The other six people were also shocked. They all looked over with disbelief.

A person’s external appearance could be changed, but under a martial artist’s divine sense, one could directly sense their bone age. This was absolutely impossible to fake!

it seems that I have to check out, ” Yunxiao said with a wry smile. I’ve only been here for a short time, and I’ve been disturbed one after another.

“What do you mean?” the young man asked in surprise. Could it be that you’ve seen those three before?” “How dare you lie to me?” he said angrily, his face darkening.

His aura instantly pressed over and locked onto Yunxiao as he snorted, ” “Tell me everything you know, or else ...”

I’m not lying to you, ” Yunxiao said with a smile. I did see three men. However, their cultivation is only at the level of one-star martial emperors, so they’re not unfathomable.”

The handsome young man was taken aback. He had thought that Yunxiao was only a one-star martial Grandmaster, and even if he saw the three men, he would not be able to know their cultivation base, which was why he said that they were unfathomable.”Where are the three of them now?”

they’re guests at my house, ” Yunxiao said with a cunning smile. they’re here as guests.

The handsome young man’s mouth was wide open. He did not seem to understand. The temple of Holy Fire had always been reclusive in their cultivation. They rarely moved around the continent and had very few contact with people, so they were somewhat clumsy in communication.

young master, there’s obviously something wrong with this kid. Why are you wasting your breath on him? ”

The middle-aged man strode forward and tried to grab Yunxiao. He was in charge of the affairs outside the hall and was experienced. Naturally, he would not be as stupid as the others.

Yunxiao’s pupils constricted, and he immediately realized that the handsome man in front of him was the young Master of the Temple of Holy Fire.

When the middle-aged man made his move, he also moved.

“Pupil technique-moon deficiency!”

He directly used a spiritual attack, and his eyes instantly turned into a Blood Moon. His body grabbed at the handsome man.

397 The temple of Holy Fire

How could the young lord of the sacred fire Hall have known that the other party would launch a sudden attack? his experience was limited to begin with, so he fell for the attack in an instant. A sharp "buzz" went through his head, and he was dumbfounded. He was caught by Yunxiao and held hostage.

what do you want to do?!

A few voices rang out at the same time, and the other six people from the hall of Holy Fire turned pale with fright. Their faces were filled with anger and killing intent as they stared at Yunxiao.

Especially the middle-aged scholar, his body suddenly stopped, and his hand that was raised in the air also froze. He saw Yunxiao smiling at him in a friendly manner, but his fingers were clasped on the young master's throat. As long as he touched it lightly, he would definitely die on the spot.

I should be the one asking you this question, right?" Yunxiao laughed. First, you barged into my room for no reason, then you questioned me for no reason. This big brother even wanted to bully me for no reason, and now you're asking me what I want to do? Can I swear?"

"Quickly release the young master! How dare you offend the young master! You have already committed a capital crime, and your crime is unforgivable!"

Another old martial honor said in a deep voice.

He had been standing there quietly without saying a word. He was dressed in gray linen clothes and his entire body was in tatters, like an ascetic monk. However, the faintly flickering aura on his body was even more powerful than that of the other dry-haired revered martial artist.

When the middle-aged scholar heard this, he immediately felt dizzy. These people were usually reclusive cultivators, so their words were straightforward. Who would let him go with such words?

Yunxiao also felt that these people were so innocent that they were a little cute. He smiled and said, "Since you've already committed a capital crime, you can't be forgiven. Then I'd rather die than find a scapegoat. I'll kill this young master first before I die. It'll be a worthy death, a worthy death, and a scapegoat."

The hemp garment revered martial artist was shocked and hurriedly said, "Stop! Although you can't avoid the death penalty, as long as you let the young master go, I can still grant you an intact corpse."

The middle-aged scholar finally couldn't bear to listen any longer and hurriedly said, "Little brother, don't be impulsive. As long as you let go of the young master, we won't hurt you. We'll definitely let you leave safely."

The hemp garment martial honored realm expert frowned and seemed to be a little unhappy. In his opinion, how could those who violated the young master be spared from death? Moreover, he had even allowed him to leave safely. This was too outrageous!

However, the affairs in the temple of Holy Fire were usually handled by the middle-aged scholar. The old man snorted and did not say anything more.

"Let me leave safely? This is my room!"

Yunxiao's eyes bulged as he said, "Each and every one of you is stronger than me. If I let him go, wouldn't you all charge at me and kill me in seconds? I'm not that stupid!"

The middle-aged scholar raised his hands to the sky and swore, "I swear to the heavens that as long as you let the young master go, I will not pursue any responsibility." His face was solemn and he looked very serious, but he was sneering in his heart. 'Even if I don't hold you accountable, there will be others who will.'

Looking at his serious face, Yunxiao could not help but laugh and say, "It seems that all of you are simple and honest people without any ulterior motives. Let's sit down and have a good talk. Perhaps both sides will gain something." He pointed at a square table in the room and said, "Big Brothers, please take a seat."

The few of them felt that something was wrong, but they couldn't tell what was wrong, so they sat down as told.

"What exactly do you want?" the hemp garment revered martial artist asked.

Yunxiao glanced at the handsome man in his hand, who was staring at him angrily, revealing his white teeth and smiling. "I heard that you have the yin key?"

“Swish!”

The five people who had just sat down instantly shot up, each of them revealing a shocked expression. Their killing intent spread out, and the atmosphere in the entire room suddenly became extremely tense. The handsome man who was held in his hand also turned pale.

“Aiya, don’t be nervous, don’t be nervous!”

Yunxiao waved his hand and said, ” “Sit down, everyone. Let’s talk openly and honestly. The south of the city was in a mess now. Who knew how many forces had heard the news and rushed over without even asking for confirmation. Now that Tang Jie has fallen into the hands of the skeleton mercenary Corps, they are the king of the earth here. It is impossible for you to save Tang Jie or exchange the Yang key. Unless he wants to ...”

“Unless you cooperate with me!” He grinned.

“Hmph! You’re just a one-star martial Grandmaster, Who Do You Think You Are? you actually want us to cooperate with you!”

The bald revered martial artist elder was furious and shouted, ” “Let go of the young master and tell us how you know about the yin key. We’ll wait for the young master’s decision!”

Yunxiao’s eyes turned cold as he said, ” “Is your brain damaged again? Your young master will die if I stop taking the medicine.”

He exerted a little force in his hand, and the sound of bones breaking came from it. Then, Yunxiao’s finger pressed down slightly. The handsome man’s mouth was wide open in pain, and his eyes were filled with fear.

“Stop!”

The bald old man was shocked and shouted to stop him. He didn’t dare to speak anymore, but his eyes were filled with anger.

Yunxiao’s eyes swept over the six of them one by one as he said coldly, ” “Although you’re simple and unadorned, you’re not cute at all. If there’s anyone else who will fall ill again, I hope that they can take some medicine now. Otherwise, if your young master is killed by you, don’t blame me. ”

All six of them glared at Yunxiao, but they did not dare to say a word.

that's good," Yunxiao sneered. that's good. He turned the handsome man's head around and said, "I heard that the key was made by the peerless martial sovereign ye Nantian? Tsk, tsk, as a loyal fan of ye Nantian, I really want to see the treasure left by him, so I can admire it."

The handsome man felt his throat relax. The grip on his throat was no longer so tight, and he could speak again. However, even though many of his bones were broken, he still felt an unbearable pain in his throat. He said stubbornly, "Just kill me. Don't even think about getting anything out of me!"

"You have a backbone, I like it!"

but," Yunxiao said coldly, "if you want a backbone, don't even think about it! He exerted more force in his hand. ka ka! A few more pieces of his hyoid bone were shattered. The handsome man's face could no longer maintain its elegant appearance. It turned red, like a duck that had its neck grabbed. His body stiffened and he didn't dare to move. In addition to the pleading look in his eyes, there was also deep resentment.

Terpot was so shocked that he broke out in a cold sweat. The person in front of him looked young and inexperienced, but in fact, he was experienced and vicious. He was really afraid that the other party would accidentally kill the young master, so he no longer dared to underestimate him and hurriedly said, "Little brother, stop! Didn't you just say that you wanted everyone to work together?"

I do want to cooperate, but many people don't agree," Yunxiao snorted. your young master doesn't want to cooperate either.

"Since you also know about the yin key, we won't hide it from you," said the earthen jar with a troubled expression. This treasure was the key to finding and opening Noah's ship. How could everyone accept that you asked about the yin key as soon as you came up? When it came to cooperation, shouldn't they be on a fair and equal basis? Let the young master go first, then we can have a good talk."

His words were extremely sincere, and his face was full of hope, giving people a very reliable look.

Yunxiao smacked his head and wailed, "I'm afraid of pigheaded teammates." He pointed behind the jar. The five people all had cold smiles and anger on their faces.

They wanted to kill him right now. cut the crap! Yunxiao said. answer every question I ask. If you fall ill again, you'll die!

As soon as the word "die" was uttered, his pupils shrank. The profound look in his eyes made everyone's heart tremble and their faces turn abnormally shocked.

Even the two martial honorables were affected, and they didn't hide their aghast expressions.

This wasn't a gaze that a young man should have. They suddenly had a feeling that this young man would really do what he said. He would kill the young master if he was dissatisfied!

"Where is the yin key? Where's Noah's ship?"

Yunxiao asked the two most critical questions.

The jar knew that he couldn't avoid it, so he answered, "The yin key is indeed on us, but Noah's ship is still uncertain. But the young master can sense that if you kill the young master, I'm afraid no one in this world will know the whereabouts of Noah's ship."

It was supposed to be a big secret, but in order to avoid Yunxiao from killing him, he had to tell him.

Yunxiao gave the handsome man a look and was convinced. The jar might lie, but the other people's expressions were too innocent, and they didn't hide their emotions.

"So you came to the gentle song forest just to meet with Tang Jie? Why didn't you choose a safer place? wouldn't it have been better to find a sunny beach or a beautiful village? why did you have to come to this chaotic place?" Yunxiao asked the biggest question in his mind.

At this moment, the gazes of terrine and the others all fell on the handsome man.

The handsome man's face was ashen. He gritted his teeth and said, "Because I sensed that Noah's ship is in the demon land!"

As expected!

Yunxiao knew it. He had the same guess, but he could not prove it. Now that ye Nantian's descendant had said so, he was right. He frowned and said, 'the demon land is so big. Without the ability of a martial Supreme to cross the void, even a martial Supreme would have to fly for more than ten days to reach the end. You can sense the exact location? Also, who else knows that you have the ability to sense things?'

It was also very important for him to ask this. If the various superpowers knew that someone could sense Noah's ship, they would've long since sent their experts to capture him and use him as a guide. It was impossible for the two martial honors and a few martial emperors to be able to survive until now.

As expected, the handsome man gritted his teeth and shook his head.

It seemed that he had done a good job keeping it a secret. He was lucky that such a big pie had come to his door. It seemed that having such a weak and pushy young face was still very advantageous.

Yunxiao felt proud of himself as he said with a smile, "What's the exact location?"

The handsome man was silent for a while before he said, "at present, we only know that it's the North of the demon land. This sense is gradually strengthening. Perhaps Noah's ship has been silent for too long and wants to summon the descendants of our ancestors to collect it. His eyes were filled with hope and joy.

398 Chapter 398-sincere cooperation

don't be so smug," Yunxiao said in a speechless manner. you want to take Noah's ship with your little strength? We're just lucky that it hasn't been leaked on a large scale yet. Otherwise, the entire demon land would be filled with martial Supremes in less than three days. You wouldn't even be able to get in."

The handsome man and the other people's expressions changed drastically, each of them looking very serious.

What Yunxiao said was true. What was Noah's ship? If the news of the only transcendent grade profound level weapon recorded in the history of the continent

were to be leaked, the entire continent would be in an uproar. At that time, even the Holy region would not be able to stop it. In addition, how could the Saints not covet such Supreme treasures?

“Hmph, even if they’re martial sovereigns. Without the ship key, no one can open Noah’s ship!” The handsome man seemed to be unconvinced and snorted coldly.

“Oh, right. I almost forgot about it if you didn’t mention it.” Yunxiao smacked his head, then stretched out his hand and said with a smile, ” “Where’s the yin key? Where was he? Take it out and let me study it. ”

The handsome man almost fainted from anger. He hated himself for speaking out of turn, but he stubbornly said in anger, ” “The key is a precious treasure passed down from our ancestors. Only the direct descendants of the ye family can use it! You despicable man, I would rather die than give it to you!”

The rest of the people also looked angry. The descendant of a peerless martial sovereign had actually fallen into the hands of such a small figure and suffered such humiliation.

Yunxiao, on the other hand, did not take it seriously. Times had changed, and there was no eternal King. Under the immortal state, everything was just an ant. “If you don’t hand over the yin key, I’ll leave it with you,” he snorted disdainfully.

“Hmm?”

Everyone was stunned, unable to react in time. The handsome man also said awkwardly,”you, didn’t you want to snatch it?” Why don’t you want it anymore?”

Yunxiao had nothing to say to these people’s simple-minded minds. With a fierce look on his face, he said ferociously, ” “Since you’ve said so, I’ll take it from you!”

The handsome man felt dizzy again and wanted to slap himself a few times.

“Little brother, may I know which force you belong to?” What was his intention? As long as the target isn’t Noah’s ship, we can consider cooperating.” He had long discovered that Yunxiao was not simple, and at this moment, he was even more certain.

“I’m very interested in Noah’s ship,” Yunxiao said.

Everyone's faces darkened when they heard this. It was no wonder. No one would believe that they were not interested in such a precious treasure.

“However, Yingluo”

I'm an Alchemist, ” he continued. I don't want to own Noah's ship. Even if the news wasn't leaked, the entire continent would be shocked when Noah's ship appeared. At that time, whoever possessed it would be making an enemy of the whole world! I may be conceited, but I'm not stupid enough to fight all the martial artists in the world alone!”

The seven people's expressions also became stern, and their expressions changed greatly. They hadn't thought about this problem before. They were only anxious to recruit Noah's ship so that they could restore the glory of the temple of Holy Fire and rise again on the continent.

don't worry, everyone, ” the handsome man said. after we get Noah's ship, we'll immediately return to the temple of Holy Fire and activate the sect-protecting array left by our ancestors. No one will know.

Only then did everyone's expressions turn for the better. Clearly, they were extremely confident in that sect protecting Grand array.

Yunxiao shook his head and sighed inwardly. 'These people are really ignorant of the world, and their IQ is getting lower and lower.' If they knew that you had Noah's boat, not to mention the sect-protecting array, even if you had the ability to descend the power of a realm and the rules of heaven and earth, they would all be blasted to smithereens.

Even if he hid in the divine realm tablet, Yunxiao was not confident that he could protect Noah's ship.

That thing was really too hateful. In the world, except for a few famous super forces, no one could keep it. So from the beginning, his goal was not to own Noah's ship, but to disassemble it and study it. In the end, he had to sell it.

that's good, ” Yunxiao said. we have the same goal, but we don't have any conflicts. After obtaining Noah's ship, I'll study it for a few days and then give it to you. How about it?”

The handsome man frowned. He felt that it was inappropriate to let him study it for a few days.

Afraid that they would say something to anger this fiend, terpot hurriedly said, ” “That’s good! May I know which force little brother is from and how confident you are in this operation?”

in the light song forest, ” Yunxiao said with a smile, ” there are only two other forces that can compete with the skeleton mercenary Corps. I’m the captain of the rookie mercenary group. I’m in charge of getting Tang Jie out, and you’re in charge of finding Noah’s ship.”

He gave them a condition that they couldn’t refuse, and they were all overjoyed. “Really?”

They had also explored the headquarters of the skeleton mercenary group for many days. There were many experts in the Dragon’s pool and Tiger’s Den, which was why they had been delayed for a long time. And as more and more mysterious forces appeared, he started to feel anxious. The three one-star martial emperors had been outside inquiring about the situation. The seven of them had become nervous after they had disappeared, and they had come out to look for them.

With a confident look, Yunxiao smiled and said, ” in this gentle song forest, if my rookie mercenary group can’t do it, even a martial Supreme can’t do it!

“Good! If you can really get Tang Jie out, we’ll cooperate with you!”

The handsome man seemed to have forgotten that his neck was still in her hands and said excitedly, ” “Indeed, only a rookie mercenary group is most likely to accomplish this!”

Since the conversation was going well, Yunxiao naturally had no reason to take her as a hostage. After letting go, these people from the temple of Holy Fire didn’t blame him. Instead, they were all happy. The problem that had been troubling him for many days had finally been solved. It seemed that Tang Jie and Noah’s ship were already in front of him.

After getting to know each other, they exchanged names. Then, he found out that this young master was ye Nantian’s great-great-grandson, Ye Fan. The two martial honorables were also descendants that had been passed down for generations. The

bald one was called Qi Guang, and the one in hemp clothes was called Feng Zhu. There were a few other people who also reported their names.

In this way, the cooperation could be considered to have begun.

“By the way, young master Yun,” terrine suddenly said. Did you see the three martial emperors we had earlier?”

These people were so engrossed in their conversation that they had forgotten the purpose of their visit. It was only when they heard C’s question that they remembered and stared at Yunxiao.

Yunxiao’s heart sank, and he did not know how to answer. He couldn’t say that he had killed or thrown the divine realm tablet, right? he couldn’t release it, and it was obviously inappropriate to say that he hadn’t seen it. Since they were working together, they couldn’t go back on their word. He said in distress, “Just now, they wanted to attack me, but they were already captured by my men and brought back to the headquarters of the rookie mercenary group. Quality is more important than quantity for this operation. These three one-star martial emperors won’t be able to help much, so let them stay in the headquarters for a while.”

This lie was quite reasonable, and everyone believed it.

Just as they were about to discuss how to save Tang Jie, a wave of energy suddenly came from outside the room. The entire Inn shook and a huge explosion came from the distance, heading towards the headquarters of the skeleton mercenary group!

The power of this explosion was so great that the aftershock spread thousands of meters away, shocking all the experts in the southern part of the city.

“The might of a martial honor!”

Feng Zhu’s face was solemn as he stared at the explosion. I felt the power of an extremely strong domain. There must have been two martial Venerables fighting just now, and it was a life and death battle!

Terpot was also shocked, “could it be that someone broke into the skeleton mercenaries?” Is it also for Tang Jie?”

At this time, there were cultivators flying around in the sky from time to time. Some hurriedly flew away for fear of being caught in the crossfire, while many deliberately flew closer for unknown purposes.

“What do we do? Would someone else have the upper hand?” Ye Fan became anxious, if Tang Jie is saved by others, what should we do?”

These people were indeed lacking in planning and strategy.

Yunxiao’s pupils constricted slightly, but he soon returned to normal and said, ” “Calm down, I’m here, what are you afraid of! That person is definitely not there to save Tang Jie.”

“Why? How do you know?”

Everyone was frowning and looking at him in disbelief. Even terrine did not quite believe it. He said, ” “Do you know something?”

it’s exactly because I don’t know anything that that man is not going to save Tang Jie, ” Yunxiao said with a smile. I’m sure he’s not there to save Tang Jie.

This time, the few of them were even more confused.

if Tang Jie’s value is known to others, Ye fan’s value will definitely be discovered, ” Yunxiao explained patiently. one of you has the Yang key, and the other has the yin key. Do you think it is easy to save Tang Jie? Is it easier to catch Ye Fan?” “Don’t think that you’re hiding in a secret place. I can say for sure that your every move, including eating, drinking, and sh * tting, is under the close surveillance of the three great mercenary groups. The reason why he was still safe was because no one knew of Ye fan’s value. Therefore, Tang Jie’s value is only in his identity as the young master of the four extremes sect. ”

Realization dawned on terrine, and he said, ” “I understand! Therefore, if someone really went to save Tang Jie, it must be someone from the four extremes sect!”

that’s right, ” Yunxiao said. if the four extremes sect can save Tang Jie, it won’t do us any harm. You’ve asked him to come here to negotiate a deal, and things have just gone back to square one. However, I’m sure that it wasn’t the four extremes sect’s doing!”

Everyone felt a little dizzy. They had not fully understood what had happened just now, so how could he be sure that it was not the four extremes sect?

if the four extremes sect is going to save them, ” Yunxiao said with a smile, ” they will definitely make a thunderous strike and be fully prepared. Then the battle should be one wave after another. You see, after the tremor just now, there was no more sound. Therefore, the one who attacked just now must be a single martial honor!”

His pupils narrowed, almost 100% sure that the person just now was that freak Yuwen Xun.

It seemed that the skeleton mercenary group’s defense was stronger than he had imagined. No wonder mu Wu had not returned!

If you find any errors (broken links, non-standard content, etc..), Please let us know via our discord so we can fix it as soon as possible.

399 Chapter 399-disappeared

Although Yuwen Xun was a freak, he was also a famous assassin. They were best at sneaking in and assassinating, and they never got tired of it. With his body as a martial honor, if he wanted to sneak into a base, even the seven superpowers would not be able to find him. However, he had appeared in the skeleton mercenary group and started a battle. It was unknown if he was still alive.

“Who broke in alone?” asked terpot worriedly. Young master Yun, when are you going to gather the experts of the rookie mercenary group?”

He had a worried look on his face, afraid that Tang Jie would be captured if he was too late.

Ye Fan suddenly shouted: ” look! There are many experts going over!

Everyone looked over and saw several rays of light flying into the headquarters of the skeleton mercenary Corps. From the aura coming from the distance, there were at least two martial honors.

Not long after, a few more people flew in.

After waiting for a while, there was no movement. It was as if the people who entered did not encounter any obstacles or danger. At this time, several powerful auras rose from another corner of the city's South and rushed in.

Yunxiao cursed in his heart. Yuwen Xun's matter seemed to have caused a chain reaction, and many forces were afraid that others would take advantage of them. Even though many people didn't know the real situation and didn't even know what they were going to do, they still swarmed in.

young master Yun, ” Ye Fan said in a deep voice. shouldn't we make a move as well? ”

no hurry, ” Yunxiao shook his head. let's wait and see.

“Let's see?”

Feng Zhu couldn't hold it in anymore and sneered, ” “So many people have already gone in. If we wait any longer, we won't even be able to get any of Tang Jie's dregs! Young master, now that Tang Jie has become the target of public criticism, this person doesn't have the ability to save him. We'll act on our own!”

Ye Fan couldn't make up his mind, he looked at the pot. After all, terpot was the most experienced one among them, and everyone was more convinced of his abilities.

Before the jar could speak, Yunxiao snorted coldly and said, ” “Don't worry, they didn't find Tang Jie.”

“How did you know?”

Feng Zhu's eyes widened in dissatisfaction. He didn't like a young boy showing off his intelligence in front of so many adults.

This time, without Yunxiao's answer, the jar said in realization, ” “Not bad! So many experts had gone in, but there was still no trace of fighting fluctuations, which proved that Tang Jie had not been found. It might not be better for us to go. It's better to wait here.”

so that's how it is. Pottery, you are indeed the think tank of our temple of Holy Fire! Feng Zhu praised, and he rolled his eyes at Yunxiao.

Yunxiao patted his forehead helplessly. It was not that he wanted to show off his intelligence or show off, but these people really had a hard time! If it wasn't for the fact that the yin key was with these people, he wouldn't have come with these pig-like teammates.

Soon, the shockwaves of a fight spread, but they were very weak. They should be small friction.

Yunxiao glanced at the crowd, who all looked eager and restless. Even the two martial Venerables 'breathing gradually became rough. Then, he laughed and said, "It's almost time. Let's go in. It seems that they are living in peace. It seems that the situation has changed."

"It is!"

"It's been so long, and they haven't made a move yet. I'm afraid the situation has gone beyond our expectations." Qi Guang could no longer hold back.

what do you think, young master Yun? " the jar looked at Yunxiao and asked.

After spending so much time with these people from the temple of Holy Fire, he had thought that he was very intelligent, but now he realized that he was actually just a tall man among the short men.

I can't find anything else, " Yunxiao said. let's go. I'm afraid things might change. It's impossible for such a large group of skeleton mercenaries to not have any movements!"

"I told you to go in!" Feng Zhu snorted.

The eight of them instantly flew forward and landed in the direction of the skeleton mercenary group's base.

The courtyard of the headquarters was empty. When he spread out his divine sense, he found that many experts were wandering around like headless flies.

Qi Guang and Feng Zhu's figures kept flashing, which turned out to be a very brilliant movement technique. Yunxiao's eyes flickered with surprise. Ye Nantian's inheritance was indeed not simple! Perhaps he had underestimated these people. He began to pay attention.

In a few moments, the two of them stopped in the small courtyard with a serious expression. Qi Guang said, ” “Young lord, other than a few weaker martial artists, there isn’t a single expert in the entire skeleton mercenaries. There are also a few foreign experts, the ones we’ve been monitoring these past few days.”

Yunxiao looked up at the sky and saw a few more beams of light falling. Those people were dressed in strange clothes. When they glanced at the people from the hall of Holy Fire, and their eyes fell on Qi Guang and Feng Zhu, they were clearly taken aback, and a look of fear appeared on their faces. But soon after, he snorted and began to search the headquarters of the skeleton mercenary group.

“Could it be that Tang Jie has already been transferred?” Ye Fan said with a serious expression.

it seems that Tang Jie is very loyal, ” Yunxiao said with a smile. I can’t believe he didn’t tell you your secret. Otherwise, the people from the skeleton mercenary group would have come to find you and you wouldn’t have to worry about not seeing them.”

Feng Zhu said angrily, ”you still have the mood to joke at a time like this!” The entire mercenary group disappeared as if they had seen a ghost. Where are we going to find Tang Jie now?” He bulged his eyes and gave Yunxiao a fierce glare as he said, ” “If you have the ability to find out where they went, this old man will truly be convinced by you!”

I don’t know where they are now, ” Yunxiao said with a smile. but I’ll know soon.

“Really?”

Ye Fan was overjoyed. Although he felt that it was unlikely, for some reason, Yunxiao had a temperament that made him trust him very much. This kind of temperament made people feel very comfortable and kind, worthy of his trust.

you ... Feng Zhu was stunned for a moment. He said in disbelief, ” if you can really give me an explanation, I can grant you Supreme glory and consider taking you in as my disciple.

It’s acting up again, sob sob.

come with me! Yunxiao muttered.

His figure headed east. Although the few of them were puzzled, they still followed him closely.

Suddenly, a voice resounded in the sky, ” “Everyone, don’t be like a headless fly. Everyone came here because of that rumor, right? right now, the skeleton mercenary group has no one other than a few dregs. Why don’t we work together and think of a way? we might be able to find something.”

After a pause, the voice seemed to express its sincerity. “I have a time-fixing plate in my hand, maybe I can help.”

Everyone turned to look in the direction of the voice, and a few of the experts revealed looks of great joy, saying, ”Time-fixing plate? There’s hope now!”

As soon as they finished speaking, a streak of light appeared before them. An old man flickered with light and his presence was released. He appeared before them without holding back at all. He swept his gaze over them and smiled, ”I’m zou Chen. Who are you?”

When they heard this, their expressions changed. One of them cried out, ” “Zou Chen from the king of the southern region’s sword sect?”

Zou Chen chuckled and revealed a satisfied expression, ”I didn’t expect you martial emperors to know me. What did you mean when you said there was hope?”

The few of them did not look too good, as if this person was a taboo.

“Haha, zou Chen, look at how scared you are!”

A green light flickered in the courtyard as a few more Warriors walked over. One of them was a green-haired man who was wearing a Dragon-patterned belt. He smiled and said, ” “Old man zou, it seems like your reputation isn’t that great.”

Zou Chen’s face turned cold as he snorted, ”old monster Kang, is it because your thunder fire Palace has too many disciples that you rushed over to be cannon fodder?.”

The green light man Kang Wu laughed, ”it’s not certain who’ll be the cannon fodder.” If that rumor is true, then we might all be cannon fodder.”

Zou Chen's face was cold as he said coldly, "you talk too much, old monster Kang!" I don't like what you're saying. You don't want me to sew up your disgusting, stinky mouth, do you?"

Kang Wu did not mind at all and said, "don't be so fierce in front of me!" If he had the ability, he could be fierce in front of those people in the merchant Union later. As far as I know, the seven permanent members of the Business Alliance have all sent people here. However, brother Zou Chen's cultivation is unrivaled. Naturally, you won't be afraid of them."

"All seven members of the merchant Union are here?" Zou Chen's face changed.

"The key has always been in the hands of the merchant Union," Kang Wu sneered. "If even you know about it, how could their insiders not know? It's not just the merchant Union. I'm afraid those two families have also heard the news, not to mention the other small fries in the Western Region."

Zou Chen's expression changed greatly, a trace of fear flashed through his eyes as he said in shock, "Is this true?"

Kang Wu's expression turned serious as well. He said, "Even you and I can get the news, let alone these two families! It was just that this matter was a little mysterious, and not many people believed it. There have been similar rumors in the past, not only in the Western regions. In the end, it was still a farce. There was even one time when the sanctuary was alarmed, but there was still no result. My thunder fire Palace is only here to watch the show."

Zou Chen was moved, "are you talking about the time when seven martial emperors died on Eastcalm Island?" The major power that spread the news was eliminated overnight. However, Yingluo "

He thought, "but even the people from the seven merchant alliances are here, so at least it's not a baseless rumor." Besides, we're only acting according to the circumstances. If there's such an opportunity, we naturally can't let it go. However, if the situation gets out of control, it's best to back off."

He understood that he could only try his luck and not force it.

The various forces searched the skeleton mercenary group but found nothing. When they heard Zou Chen's voice, they all gathered together. A small courtyard was filled with experts.

Yunxiao and the others from the hall of Holy Fire also changed their direction and followed the crowd to join in the fun.

They attracted the most attention. After all, most of the other forces were from the Western Region and knew each other. Even if they didn't know each other, they had at least heard of each other. But, Yunxiao and the others were all new faces, especially Feng Zhu and Qi Guang, who did not know how to restrain their auras, as if they were afraid that people would not know that they were martial Venerables.

Zou Chen's gaze swept across the crowd, paying special attention to the people from the hall of Holy Fire. Then, he said to the martial Royal realm experts, "Everyone, if there's anything you need my time fixing plate to help with, just say it."

He wasn't afraid of having too many people. Although it was more troublesome to have too many people, it was still relatively safer.

The martial Royal realm experts seemed to be very reluctant to say it. However, under the pressure of the crowd, they soon compromised and said dejectedly, "One of our companions was captured by the skeleton mercenaries. When they found him, he had no blood left. If it weren't for some items and symbols on his body, we wouldn't have been able to recognize him."

The martial Royal realm expert's face turned slightly pale. He seemed to have recalled the tragic state of his companion's death, and his stomach churned.

The others also frowned. Killing people was just a matter of nodding their heads. Which of these people wasn't a fiend who had killed countless people? however, this kind of cruel act of draining the blood of a human body was still very shameless and infuriating.

"My companion has the bloodline power of the ancient demonic Fox clan," the Martial Emperor continued. This was probably the reason why the skeleton mercenary group wanted to capture him. In the past, in order to figure out the

secret of his bloodline, our Scarlet Dragon mansion had also taken some of his blood for experiments.”

Everyone looked at him with disdain and cursed in their hearts. F * ck you, and you said that he drew blood, but you also used your own companion as a test subject, f * ck!

The martial Royal realm expert from the Red Dragon mansion felt a little embarrassed when he saw the disdainful looks from the crowd. He blushed and said, ” “I still have some of that blood on me. If Lord zou has the time-fixing plate, you should be able to find the person who took the blood.”

Zou Chen frowned slightly and said,”the higher-ups of the skeleton mercenary group are more likely to do this kind of thing.” In that case, it was really possible to find them. Try cutting it. ”

A green light flashed in his hand, and an ancient square metal object appeared in his hand. It was covered with flower-like symbols. The Martial Emperor took out a glass container filled with thick black blood, which seemed to have been processed. As soon as the blood was poured into the Star positioning compass, it began to boil. The blood mist condensed into a small round blood bead on the star positioning compass and began to roll. It was a miraculous sight.

Everyone watched quietly, and Yunxiao was also interested. This time fixing plate was indeed a very strange profound level weapon and the method of making it had long been lost. As long as an item with an obvious personal aura was placed on it, this aura could be extracted and pointed to all the existences of this aura in the surrounding area. It was the best weapon for tracking and searching.

“There it is!”

Zou Chen cried out in joy. The blood bead on the star positioning compass rolled to the East, and a needle stood up straight and trembled continuously. The feeling was extremely strong.

“Brother zou Chen, where does this point to?” Kang Wu asked in surprise. How far away?”

Zou Chen looked to the East, and everyone’s hearts trembled. That was the demon Plains! it’s at least a hundred miles, ” Zhou Chen said, staring at the time-fixing plate. I can’t estimate it any more accurately.

a hundred li?!

Everyone was shocked. This distance wasn't much for Yao Yuan, and it should be considered short. However, for a martial artist, it was enough to catch up, even if the hope was slim!

the aura of the two martial honors just now was clearly just a moment ago. How could they travel a hundred miles in an instant? could it be that there are so many martial honors in the skeleton mercenary group? ”

“It's very possible! The fluctuations from the battle just now were most likely a diversion tactic. In fact, they've already quietly moved out!”

“Sister! Such a big gang actually used such a small trick, do they have any moral integrity!”

“Brother zou Chen, please lead the way. Even if I have to go to the ends of the earth, I have to get it!”

Zou Chen nodded and flew out of the city with the time-fixing plate.

Almost everyone rose into the air and followed behind zou Chen. Dozens of powerful auras swept across the air and rushed toward the east with murderous intent. The Warriors in the gentle song forest all looked up at the sky in horror. Some of the braver ones also flew up and followed from a distance, wanting to watch the show.

The expressions of the people of the hall of Holy Fire were extremely ugly. They didn't expect things to get so out of hand. This would increase the difficulty of obtaining Noah's ship by several levels.

Seeing that everyone had left, Ye Fan said: ” “In any case, we must get Noah's ship! For the first time in thousands of years, Noah's ship has been summoned. It belongs to our temple of Holy Fire!”

“Yes! The temple of Holy Fire had been silent for thousands of years, and this moment had finally come. They must not fail! Even if I die, I must obtain Noah's ship for the young master!”

The earthen jar said decisively, as if he had already made up his mind to die at any moment.

The rest of the people were also hot-blooded and excited. They wanted to sacrifice themselves right now to block the muzzle and blow up the bunker!

Yunxiao laughed at an untimely moment and said, "hold on, everyone, don't be anxious. Sit down and drink some herbal tea. We'll recalculate the amount.

"Woof! Your sister's herbal tea!"

"If you had not delayed everyone for so long, I would have rescued Tang Jie long ago!" Feng Zhi said angrily.

Ye Fan was calm, and he had a good impression of Yunxiao. "Young master Yun, what do you think we should do now?"

I think we should catch up, " Yunxiao said. I think we should.

"Tsk!"

Everyone was speechless and revealed a look of contempt.

Ye Fan and Tao can frowned, Tao can took a step forward and asked: "How should we chase?"

of course we can't chase them blindly like they do, " Yunxiao said with a smile. we should take a shortcut!

Ye Fan was overjoyed. I forgot that young master Yun is from the rookie mercenary group. You should be very familiar with the terrain around here. Where should we take a shortcut? "

Feng Zhu said,"no!" That zou Chen had the time-fixing plate in his hand, which was why he was able to track them down. If we don't keep up with them, we'll be completely lost!"

Ye Fan was also worried when he heard that, and he stared at Yunxiao with a questioning look.

what are you afraid of? " Yunxiao laughed. what are you afraid of? " The purpose of the skeleton mercenary group should also be for the Noah's ship, but who in this world really knew the specific location of Noah's ship? Of course it was you, Ye

Fan! Let's go to the right place first. If they go the right way, we'll naturally meet them."

Feng Zhu felt that it made sense, but he immediately shook his head in denial."What if they go the wrong way? Wouldn't that mean we won't be able to meet him?"

yes. Ye Fan seemed to be enlightened. He smiled and said, "if they go the wrong way, that means they can't find Noah's ship. We don't have to worry. Who cares where they go, what does it have to do with us?"

"Not bad!"

Yunxiao smiled approvingly. Ye Fan was also a very smart young man, but he had been with these old men for a long time and had not come into contact with other people, so he had become more and more honest and dull. Now that he was exposed to such a big event, he had become smarter.

"So that's how it is! The young master was indeed intelligent! There's hope for the rise of the temple of Holy Fire!"

Feng Zhu immediately felt gratified and sighed with emotion. The rest of the people were also extremely happy, as if they had seen the rise to the peak of the continent.

Yunxiao said, 'hehe. Everyone, please have some herbal tea first, then follow me. "

He slightly spread out his divine sense, feeling the fluctuations in the air, and began to search the headquarters of the skeleton mercenary Corps. He walked in a straight direction, passing through water and tearing down any house he saw. Soon, he arrived in front of an unremarkable side hall.

"Young master Yun, this is Wufu," Ye Fan said in surprise.

that powerful fluctuation just now must have been caused by a martial Supreme, " Yunxiao said solemnly. I'm sure it's a martial Supreme. Under the surveillance of so many forces, it was impossible for him to disappear for no reason. As for zou Chen's analysis, it was impossible! There were only two possibilities. One was that the headquarters had a secret passage. The second possibility is that they used a teleportation formation to leave!"

He smiled and said, "the secret passage can only lead to the outside of the city. It's impossible to reach a hundred miles away so quickly." Then, Yingluo "

Yunxiao raised his hand and threw a punch as he shouted, " "Then there's only one possibility! If I'm not wrong, the teleportation array that the skeleton mercenaries used to leave is in this side hall!"

"BOOM!"

As the fist force landed, the side hall suddenly exploded. A huge teleportation formation appeared.

The array was also emitting a strong spiritual energy, and the destruction of the side hall spread to everyone.

Ye Fan said in shock, "it really is a teleportation formation! And this spiritual energy is clearly used not long ago!"

Feng Zhu was completely dumbfounded. He stared at Yunxiao blankly, scratched his forehead, and said, " "You, you can even deduce the location of the teleportation formation?" This time, he truly felt that he was weak.

Yunxiao smiled and said, " hurry up and get on. The spatial landmark we just teleported to is still on it. I'm afraid it will disappear if we stay here for too long!

In fact, he didn't know the location of the teleportation formation, but he had caught the extremely sensitive fluctuations of the formation with his divine sense. Ever since he had fused the demonic Dragon into his soul, his soul power had shot up to the sixth rank. The energy fluctuation of this teleportation array was extremely strong, and it was very obvious at a close distance.

The people of the temple of Holy Fire stepped into the array one after another. Yunxiao took out a large number of primordial stones and put them inside to operate the array.

The spatial fluctuations of the last teleportation were still under his perception, and he immediately locked onto their position. The array emitted an intense light, and the eight people instantly disappeared from the array.

At this moment, Zou Chen and the others had also flown several li away. The light song forest was originally the gathering place of the explosive and crazy people.

Most of them weren't afraid of death, but were afraid of not having any fun. Very quickly, a long tail followed behind zou Chen. There were hundreds of people, and the number was still increasing. They were all asking each other what this was about.

Among them, the most annoyed ones were the people from the seven merchant alliances, who had already infiltrated the city. The others might think it was fun or try their luck, but only they knew that the probability of Noah's ship appearing was extremely high!

The entire demon land began to feel uneasy. Some of the demon beasts with premonition headed south one after another, as if they were trying to avoid something.

Yunxiao and the people of the temple of Holy Fire suddenly appeared in a certain space on the demon land. All eight of them fell out of the teleportation and could not stand still in the air.
