

## Ex-Wife 1883

Chapter 1883

"Adie..."

Well, he..." Chase hesitated, but when he saw Quinton's menacing expression, he hurriedly said, "Adie said that he was happy on the island and didn't want to come home. He even asked US not to disturb him." "What?" Quinton, Leia, and the others were stunned.

"Adie was kidnapped -he's not there on vacation! How could he possibly be having fun? Was there some sort of misunderstanding?" Leia asked in disbelief.

"I'm sure Adie didn't send that!" Quinton glared at Chase.

"You're useless.

You couldn't handle such a small thing, and you're now trying to lie to US? Get lost!" "No, Boss... Adie did say that!" Chase quickly took his phone out and pointed at a text with a picture sent by Adie.

"See? That's Adie, right? He even took a selfie, and he looks... happy." Everyone gathered around Chase to read the message.

There was a picture of Adie attached to it, and in it, he was sitting on the beach and staring out at the ocean.

He looked rather relaxed for someone who had supposedly been kidnapped.

"This picture proves nothing.

Even if Adie looks fine, he might have been threatened to do it to fool US.

We can't be careless." Justin was quite concerned about Adie's safety.

After thinking about it, he said solemnly, "I think we should send people there right away.

We should rescue him!" "That's right!" Quinton waved and ordered Chase, "What are you waiting for? Get people there to rescue Adie now! If not, you'll have to answer for it!" Chase looked miserable.

'Boss, we did do that.

Our men have gathered around the island, but Adie warned US not to get on the island without his permission or he'll jump into the sea.

We can't act impulsively, which is why I came to ask for advice." They had to be on guard in case Adie did write that text-they couldn't bear the consequences if Adie jumped into the sea and something bad happened "I'm waiting for your decision, Boss.

If you ask me to get on the island, we'll do it right away.

If not, we'll wait for now," Chase explained.

"Get on the island!" Quinton barked instantly.

"I'm sure he's being threatened.

Get on the island now and bring Adie back...  
and put that woman in the Carmine Pawnshop jail.

III question ner myself! Okay! Chase too a deep breath and nodded
