

## Ex-Wife 1884

Chapter 1884

Renee's calmness surprised the others.

"How do you know that Adie was the one who sent the message?" Quinton read the message over and over again and couldn't see anything unusual.

He frowned in concern.

"But we can't just let him be.

Leave this to me I'll bring Adie home safely." Quinton knew that Renee wouldn't recover well as long as she was worried about Adie...

but Renee seemed strangely unbothered about the situation.

"Adie always adds exclusive codes to his messages, and if you decipher them, you'll find out his true thoughts..." Renee inhaled deeply and explained, "You won't be able to bring him back unless he wants to come back.

You'll just be troubling yourselves, so I suggest waiting for him.

Once he sees things through, he'll come home." In the past, Adie had gone to Beach City and even snuck into Hunt Enterprise on his own.

If he could survive that, he could survive being kidnapped by an ordinary woman.

Given Adie's capabilities, Renee was more worried about Tiffany's mother.

"Are you sure?" Quinton was still worried.

"Yes." Renee nodded, looking calmer than before.

"Let Phoenix rest then.

I'm sure Adie's fine, so let's just calm down.

""Justin chose to take Renee's side; he believed that Adie could handle the situation.

"Okay, then." Quinton turned to Renee, who looked weak.

"Rest well.

Tell me right away if there's anything you need." The stars were scarce on the deserted island.

Adie, Tiffany, and Madelyn sat around a campfire quietly.

"It's been a few days, but your parents haven't come to look for you.

How pitiful..." Madelyn looked at her watch, surprised that Adie's parents hadn't contacted her since she told them that Adie had been kidnapped.

It made her pity the handsome and smart young boy.

"I didn't expect that my daddy and mommy wouldn't care about me either..." Adie held a branch and poked at the campfire indifferently.

"My mommy loves my daddy too much; if it came down to me or him, she'd pick him.

I'd expected that she wouldn't come to me...

but I didn't expect that my daddy wouldn't do anything either." He had sent that message to pretend he didn't care, but he actually wanted to see Renee and Stefan risk everything to look for him.

He wanted to feel valued.

However, when neither of them came for him, he only felt disappointed.

"It's fine.

If they don't come for you, I'll let you go.

Can you find your way home?" Madelyn felt sorry for Adie so she tried her best to comfort him,  
"Just taken that I've brought you here for a trip.

Look at the nice scenery on this island.

Isn't this great?" Tiffany had been quiet the whole time but she noticed that Adiel was ups  
upset

on !

She tugged at Adie's clothes, trying to console him.

"Yeah, Adie.

Be happy.

Maybe your daddy and mommy have  
some difficulties like my mommy

Adie looked up at Madelyn

"I'm curious though...

Why do you want to kidnap Tiffany and I?"
