

Things you didnt know about the CEO's EX-WIFE

*Valery and Noah were gonna be a simple happy couple completely in love, he wasnt gonna be a ceo, she wasnt gonna be rich either, they were average and inlove so just an EX WIFE basically

*Noah was going to be so inlove with valery, almost obsessed with her, and they would divorce because Briella photoshopped a photo of Valery cheating on him with another guy, but I thought that was cliche ↩

*Valery's name changed 10 times before Valery had been chosen, at first she was called Vanessa, then Farah, Christen, June, Diane, Gwen, Stephanie, Talia, Avery, and even Briella at one point ↩

*in a di erent plot Valery was gonna end up with Noah, but I hate cliches ↩

*Lucas was gonna die at the end (of one of the many plots I had in my mind) ↩

*Noah would commit suicide or take a bullet meant for Valery (another plot) ↩

* Leah wasnt gonna be in it, meaning Noah wasnt gonna have a child, briella was going to be the only mistress ↩

*Valery was gonna be pregnant with Noah's baby, but I thought it was too cliché

*the book was originally going to be called 'Broken Love'

*Orignally Valery, Noah, and Lucas knew one another in collge land eventually start a business together, they were friends and business partners until Noah would take away Lucas's rights to the company ↩

*Briella was going to named Bethany, and she was going to be Valery's sister ↩

*Aunt Jane and Timothy were going to be Noah's parents, and they were gonna side with Valery and help her move away from Noah

*Valery's parents never died

*The Ceo's Ex-Wife was going to be the total cliché story where the wife falls for the husband again

*Tanner was gonna end up with Briella, but someone guessed it, and I felt like I was being predictable so I decided against it.

*in the original Leah was supposed to also be living in New York, she had her own cafe, where the girls would hang out

*Noah and Valery were gonna reunite a er 2-3 years, a er Valery and Lucas had already been dating for a year

*Leah and Valery were gonna be best friends, I have a so spot for women supporting women, I dont like when women attack the mistress if the mistress had no idea to begin with so thats why I wanted to make her and Leah friends ↩

*Noah was going to be a real ass, he wasnt gonna ask forgiveness, he was gonna be very rude cocky, but I was like nahhh lets switch it up a bit

*Lily and Jade or Rosie were not gonna be in this book

*Valery was gonna be Tanner's assistant, who Tanner sends to represent him while working on the project
