Chapter 1171: The Korean Team's Mentality is Shattered

"This team fight could very well decide the outcome of this game—it's crucial!"

At the event.

As a seasoned player, Huang Youjie commented on the team fight over the Canyon Pioneer.

This was a 5v5 team fight, with both teams' bot lane duos reaching the vicinity of the Canyon Pioneer. However, according to Xiong Jiahao's estimation, his ADC was slightly faster than the opposing ADC.

Thus, leveraging this slight edge in timing, Xiong Jiahao seized the opportunity and initiated the team fight.

Since two of the Big Tiger team's players were still engaging the Canyon Pioneer before the fight, although they were pulling back, their attention was somewhat divided.

Moreover, FY team's players were near the dragon pit at Canyon Pioneer, adding considerable pressure on the players of the Big Tiger team.

And in these gradual moments, FY team's top laner, Wang Shilin, took the lead and charged into the dragon pit, rushing towards the two Big Tiger team's players who were trying to take down the Canyon Pioneer.

The battle was about to explode!

Almost simultaneously, mid-laner Yao Jing, jungler Qian Yu, Xiong Jiahao's ADC, and Feng Jin's support, a group of four, quickly supported top laner Wang Shilin.

A perfect initiation by FY team ignited this ten-player battle.

"Well initiated!"

Upon seeing top laner Wang Shilin initiate, Ding Yue couldn't help but praise him.

After all, Ding Yue was also a veteran player, and from a god's eye view, he could instantly tell that his own FY team had the upper hand in initiating the fight.

First was the advantage in numbers.

The opposing ADC, having just cleared the minion wave, was slower to arrive at the Canyon Pioneer compared to Xiong Jiahao's ADC.

As such, while Xiong Jiahao had already engaged in the team fight at the river, the Big Tiger team's ADC had just arrived at the mid-lane area.

Therefore.

The battlefield saw a 5v4 situation unfold in a short span, especially as several FY team players had already secured their first mythic items, making their combat potential formidable.

"This initiation was brilliant, we can see..."

Accompanied by the passionate commentary, the team fight kept the global audience on the edge of their seats.

"Big Tiger team's jungler is the first to fall, instantly taken out!"

"ADC enters the fray, coordinating with the support and mid-laner to cripple FY team's mid-laner... Pioneer, we can see, was snatched—oh my, FY team's jungler got the Pioneer! Could Big Tiger team's top laner make a retreat, no he can't escape!"

"Oh my gosh, FY team's mid-laner, just before dying, cast a spell on himself and flashed forward, pulling his ultimate out and catching three of the opposing players!"

Finally, at this moment, an astonishing maneuver occurred.

Everyone thought FY team's mid-laner, after being crippled, would flash over the wall planning to retreat towards the mid-lane tower. However, against all expectations, this mid-laner didn't flash over the wall to retreat but instead, circled the orb around himself and flashed forward.

This was a career-risking flash!

But he made it, Yao Jing's mid-laner Orianna, with a career-risking flash, pulled his ultimate as he was about to die, directly hitting the opposing bot lane duo and the mid-laner.

At this moment, how could Xiong Jiahao and his teammates miss the opportunity provided by their teammate's career-risking flash?

In an instant, they rushed in. The three players caught by Orianna's ultimate already had low health, and the combined efforts of Xiong Jiahao, Yao Jing, and Qian Yu, supported by their support, immediately turned the tide into an irreversible rout for the Big Tiger team.

"Played beautifully!"

Seeing this, Ding Yue couldn't help but smile.

Because anyone familiar with this game knew that the current situation indicated that the outcome of this great team fight was already clear.

Indeed.

Big Tiger team's bot lane duo and mid-laner had already been taken down by two, with only one ADC left trying to create some distance and escape from the battlefield.

However, FY team's players were not about to let any of Big Tiger team's players leave and began a relentless pursuit.

Two players chased Big Tiger team's ADC, while the other two chased the Big Tiger team's top laner.

This way, the situation of this team fight became clear.

Big Tiger team fell into a state of collapse, with three kills scored by FY team, while only losing their mid-laner Orianna.

"It looks like the ADC won't escape!"

As the commentator's words fell, Big Tiger team's ADC, in the process of escaping, was still chased down by FY team's two players, and ultimately, their kill was secured by FY team's ADC, Xiong Jiahao.

Though Big Tiger team's ADC had attempted to take down Xiong Jiahao in a last-ditch effort before dying, Xiong Jiahao was healthier and nearly got traded off by this ADC.

After Big Tiger team's ADC perished, their top laner almost met the same fate, but fortunately managed to retreat back from the jungle to the second tower on the top lane, ultimately FY team's two players lacked the abilities to continue the chase and had to give up.

Chapter 1172: The Korean Team's Mentality is Shattered

Otherwise, if they continued to chase to the second tower on the upper lane and forced a kill under the tower, it was very likely that they could get traded two for one; and if that happened, it would have been a disastrous loss.

Eventually, the team battle initiated by Canyon Pioneer ended with an absolute victory for FY Team, trading one mid-laner for four enemies, a huge advantage that secured the win.

Not only that, FY Team's jungler even snatched the Canyon Pioneer, making this round a massive win!

"This game is in the bag."

After the team battle, as Ding Yue wrapped up, he couldn't help but feel overjoyed and remarked.

Suddenly having gained four kills plus a Canyon Pioneer, and with the enemy nearly wiped out, FY Team's players ravaged the jungle like bandits.

The advantage widened once again.

As the team battle concluded, Xia Country's audience in front of the live stream couldn't help but burst into cheers, and the live audience in Xia Country celebrated joyfully.

In contrast, Korea's live audience was all sighing continuously, lamenting how poorly the Big Tiger team had played this game.

In reality, the team battle was not because Big Tiger Team played terribly, but rather because FY Team seized a really good opportunity.

FY Team found a brief one-to-two-second window of advantage and mid-laner Yao Jing even gambled his career's Flash; because of that, FY Team, as the dark horse, won the team battle.

After this battle, Big Tiger Team was at a disadvantage for the rest of the game.

And when it came to economically snowballing, FY Team was no slouch, not giving Big Tiger Team any chance to find another opportunity for a team battle while FY Team kept them economically suppressed.

Thus, with their significant advantage, FY Team once again eliminated the opposing jungler in the jungle, taking down one kill, and then leveraged their economic advantage for equipment superiority, almost consistently overpowering Big Tiger Team in the game.

Eventually, FY Team won the final team battle, completely dismantling Korea's Big Tiger Team and took victory in the first game!

"Let us congratulate FY Team for a great start, leading one to zero against Big Tiger Team!"

When the commentator mentioned this, the excitement in his voice was quite evident.

At this moment, Xia Country's millions of netizens were all thrilled, unanimously praising FY Team after winning the first game.

"FY Team is awesome!"

"Leading one to zero, let's hope we can deliver a three to zero to Korea and shut out Big Tiger Team!"

"Awesome!"

"This game was played so well."

"Watching it was truly satisfying!"

"Amazing, congratulations to FY Team, this year we've got a great chance to win the championship!"

"Damn, FY Team is really strong, Big Tiger Team got totally outplayed!"

"After FY Team wins the championship, I'm definitely spending money to buy the champion skins!"

"Waiting for FY Team's champion skins!"

"That Orianna's Flash-ult was really clutch."

"Yao Jing gambling his career's Flash, legendary!"

The audience was full of remarks, while the audience from Korea was blaming Big Tiger Team for their unsatisfactory performance in the first game.

Indeed, ranters exist in every country.

Even after losing one game, the netizens in Korea vehemently criticized their own team, making one wonder how the players of Big Tiger Team felt under such criticism.

As for other internationals, after watching the first game, they remarked on LPL's young FY Team's remarkable strength.

Previously, Europe and America's GG Team even posted on Twitter, stating that their loss to FY Team in the semifinals was indeed deserved!

It must be said, Europe and America's GG Team is quite distinctive; they enjoy their flashy play and are also very straightforward, admiring whichever team is strong.

Moreover, GG team had helped teams from the LPL region in previous years to take away strong opponents from the Korean team several times during the S World Championships, and then to deliver the world championship title to the LPL region teams, which made them "one of us" now.

The post-game review session after the first match ended.

Director Jian Zihao continued to analyze the weaknesses of the Big Tiger team with FY team's Xiong Jiahao, Feng Jin, Yao Jing, Qian Yu, and Wang Shilin.

As long as they seized the opportunity revealed by the Big Tiger team, they could use it to suppress them, thereby gaining an advantage and ultimately winning the match.

"Remember, even though the Big Tiger team is strong, they cannot avoid making mistakes forever. I've noticed that after previous matches, their condition has not been adjusted to a perfect peak, just like the last game. As long as you look carefully and patiently for opportunities, you can find the weaknesses shown by the Big Tiger team and exploit them to beat them," he said.

Jian Zihao truly was a top-tier team coach, having a firm grasp of the Big Tiger team's situation and being able to devise strategies against them.

"Then we still take the initiative in our formation, and we need to have a bit of an advantage in the mid-game," said top-laner Wang Shilin.

At this point, FY team's captain Xiong Jiahao also nodded and added, "Right, we need to open up the game when our team is strong in the mid-game."

"But what if during the mid-game, the Big Tiger team still defends tightly and gives no chances?" Yao Jing, the mid-laner, voiced her concern.

"Then it's time for the jungler and support to set the tempo," Jian Zihao said, stroking his chin. "Qian Yu, how about bringing out your secret weapon?"

"No problem!" Qian Yu nodded immediately.

Before the start of this S World Championship, Qian Yu had prepared his secret weapon jungler, this time playing Lion Dog.

"By doing so, we aim to break open the game in the mid-game, and then collapsing the mental state of the Big Tiger team is naturally the best outcome," Jian Zihao said with a laugh.

"Okay!" The members of FY team responded in unison, full of confidence.

On the other hand, the Big Tiger team had been slightly affected mentally after losing the first match.

After the review, the coach of the Big Tiger team decided to stick with the previous game's strategies and tactics, but asked the players to play at their own pace and not be led by the nose by the opposing team.

Just like that.

The second match began.

Because FY team came up with a surprise by having their top lane play an aggressively strong Jax, and the jungler playing Lion Dog, it completely baffled the Big Tiger team.

The appearance of these two heroes was something Big Tiger team had not anticipated at all.

The performance of these two heroes after they appeared made Big Tiger directly shocked.

This jungling Lion Dog played like a ghost, making every player in the Big Tiger team tense, and most importantly, this Lion Dog seemed too agile, making it not easy to trouble him. Instead, he controlled the game and revealed the vision, playing the Big Tiger team into a gradual mental collapse.

"Damn! This Lion Dog really feels like the tycoon from back then."

"In my lifetime, I didn't think I'd see Jax and Lion Dog teamed up again. Can this get a pentakill?"

"This Lion Dog is too annoying, hahaha, but I find it satisfying. Big Tiger team is completely being led around by the Lion Dog!"

"The jungler is getting hyped!"

"FY team really brought out their secret weapon, awesome!"

The advantage is significant now, as long as they don't get wiped by a zero-for-five teamfight, they can essentially claim this game," they said.

"Big Tiger team's mentality must have collapsed by now."

Chapter 1173: Championship!

Ding Yue was intently watching the second match throughout.

The five players of his FY team were incredibly meticulous, and their execution was flawless, leaving the Big Tiger team from Korea with no opportunities.

Most importantly, the top laner Jian Zihao was playing like a sword immortal, constantly dominating the top laner from the Big Tiger team.

Then there was the jungler Qian Yu's Lion Dog, haunting like a ghost, nearly breaking the morale of the opponents.

Thus, by the mid-to-late game of the second match, the footing of the Big Tiger team was completely disrupted, terrified by the Lion Dog and Jian Zihao; they had to retreat immediately upon encountering either of these two champions.

Even though the Big Tiger team was desperately avoiding conflict, trying to recover economically before engaging in a decisive battle with the FY team,

the FY team did not grant the Big Tiger team that opportunity.

Among the five players of the FY team, top laner Wang Shilin's hero was strong, jungler Qian Yu's Lion Dog was agile, and the mid laner was very stable, securing two kills in several team fights and gaining an advantage.

Regarding the bottom lane duo, as the captain, Xiong Jiahao was well aware—considering how strong his teammates were, he didn't need to dominate his position, he just needed to hold steady and go even with the opponents.

True enough, Xiong Jiahao's ADC and Feng Jin's support held the Big Tiger team's bottom lane duo to an even fight.

However,

this evenly matched bottom lane duo was the best-performing section for the Big Tiger team.

The other three positions suffered—due to the advantage FY team had, the mid lane of the Big Tiger team was suppressed.

As for the top lane and jungle, there's not much to say; the aggression from FY team's top laner and jungler meant that the Big Tiger team's corresponding roles were significantly weaker.

"One can see that the only option for the Big Tiger team now is to avoid conflicts with FY as much as possible; otherwise, they are very likely to get crushed in one sweep,"

"Yes, but FY team's offense is very dominant!"

"We can see that FY team has now taken down the Baron, after all, the high ground..."

"They've started the fight!"

...

The commentators, who were young men from the Mist City Arts and Sciences University E-sports Game College, handled the commentary pace of the entire match very adeptly.

FY team initiated a fight at the high ground, executing a one-for-two trade, crucially taking out two carries from the opposing side.

With that, the remaining four players of the FY team continued to advance.

Since the Big Tiger team had lost their two carries, they basically couldn't clear the minion waves and the remaining three players didn't dare to engage FY team in another team fight.

Thus, the Big Tiger team's three lanes of high ground were swiftly taken by the FY team.

After FY team had demolished the three lanes of high ground crystals of the Big Tiger team, the two carries of the latter revived at this time.

Unable to continue pushing due to the disadvantage in numbers, the FY team had to retreat.

"Yue, we already have a huge advantage; it's basically impossible for them to turn the tables now,"

said Huang Youjie excitedly upon seeing the situation.

"Indeed,"

Ding Yue nodded in agreement.

It wasn't out of overconfidence, but mainly because Ding Yue really believed in Xiong Jiahao and the other four players.

Such a huge advantage, in their hands, basically meant that they had already won this match.

Even the netizens from Xia Country believed that this was absolutely a match they could win.

And indeed, that was the case.

FY team, holding such a significant advantage, did not give the opposing side any chances.

Even during the Dragon Soul Group War, where a two-for-two trade happened, the Big Tiger team still couldn't make any significant waves.

In the end,

FY team, during their push, initiated another fight, leveraging their massive economic and equipment advantage to completely crush the Big Tiger team.

It wasn't just the in-game situation that collapsed, but the mentality of the Big Tiger team also completely broke down.

"Let us congratulate FY team on winning another round, successfully securing the match point!"

As the base of the Big Tiger team exploded, the commentators also congratulated the FY team.

The second match was successfully secured!

Ding Yue breathed a sigh of relief, feeling very happy.

Looking at the situation and rhythm, there was a chance to clean sweep the Korean Big Tiger team three to zero!

"Two to zero now, we are about to win!"

Wen Ruohan said excitedly, this time daring not to say anything about a reverse sweep for fear of jinxing it again.

If she jinxed it again, she guessed Principal Ding might hang her up and thrash her?

"Now we have the psychological and situational advantage on our side. I need to go cheer everyone on properly,"

said Ding Yue before standing up from the spectator seats.

"Yue, are you heading to the team's lounge?"

Huang Youjie asked quickly upon seeing this.

"Yes!"

Ding Yue nodded.

"Let's go together."

Huang Youjie also stood up and walked towards the team's lounge with Ding Yue.

As Ding Yue was the financier behind the FY team, he could go to the team lounge at this time. After communicating with the staff and team coach Jian Zihao, Ding Yue and Huang Youjie quickly reached the FY team's lounge.

Chapter 1174: Winning the Championship! _2

"Principal Ding."

"Principal Ding!"

When the members of the FY team saw Principal Ding arrive, they all stood up to greet him.

"Please, sit down, everyone, sit. Both matches were played very well!"

Ding Yue said with a smile to Xiong Jiahao and Wang Shilin.

Despite losing the advantage at the start of the first game, with the efforts of Jiahao and the others, they managed to turn the tide and secured a victorious start.

In the second game, capitalizing on their psychological advantage and deploying a mysterious lineup, they clinched the second game, likely causing the opponents' mental state to implode.

Since the opponents couldn't decipher what lineup the FY team would present in the third game, they were even wondering if the FY team had other mysterious lineups in store.

Just like the previous game's top laner Jax and jungle Lion Dog, it was utterly baffling!

Hearing Principal Ding praise the first two games, everyone laughed heartily, feeling complimented.

"Director Jian, the third game is also very crucial. If we win it, we'll clinch the championship. If we don't, the Big Tiger team might regroup and rally," he said.

Ding Yue looked earnestly at Director Jian Zihao.

The third game was indeed pivotal. In the past, during the semifinals between Big Tiger team and Dragon City LC team, everyone thought Dragon City LC would sweep Big Tiger team three to zero. However, Big Tiger team rallied, winning three consecutive games and achieving the classic comeback of overcoming a two-game deficit at the S World Championship!

"Yes, Principal Ding, we will do our utmost to deny Big Tiger team any chance to rally," Director Jian Zihao replied confidently.

Confidence was a good sign, indicating that Director Jian Zihao and the five FY team players still held some trump cards unrevealed.

As long as it wasn't blind confidence.

"So, how do you plan to approach the next game?"

After hearing this, Ding Yue curiously asked, promptly adding, "I'm just hearing you out; I won't interfere with your battle plan."

Ding Yue knew that as the owner of FY team, probing into the battle plan at this moment could easily affect the coach's or players' arrangements for the third game.

So Ding Yue clarified.

He would not personally engage in micro-operation of the battle plan, as masters of micro-management often met grisly fates.

"Well, Principal Ding, for the third game, we have two plans. The first plan is to use a current popular lineup, either focusing on operations or lanes against the Big Tiger team," Jian Zihao responded.

"The second plan is to bring out another mysterious lineup. This lineup has very clear advantages and disadvantages," he added.

"Oh? How so?"

Ding Yue asked curiously.

"If executed well, the opponents will practically be powerless, just like the last game. But if not, it's almost impossible for us to turn the tide," Jian Zihao took a deep breath and replied, "It's a very risky mysterious lineup."

"Indeed, both options are tough choices. Using the first lineup, what are the odds in a matchup against the opponents?"

Ding Yue asked further.

"If everyone performs well, it might be sixty-forty. But typically, it's fifty-fifty. If we get the popular lineup, it means the opponents can get a popular lineup too," Jian Zihao analyzed.

Given the current game version, several popular lineups exist, and it's impossible to ban all during the selection phase. Thus, if both teams secure popular lineups, the situation would be similar to that of the first game.

The Big Tiger team must now pull through, or they would lose. If it comes to popular lineups, the situation does not necessarily favor the FY team.

Although the FY team had already won two games, boosting their morale, the Big Tiger team was also formidable.

The most crucial point was that the Big Tiger team was facing a do-or-die situation in the third game. In such a scenario, the fighting power of the Big Tiger team could surprisingly become stronger.

"Hmm," Ding Yue nodded thoughtfully and said, "The opponents are indeed facing a do-or-die battle, and our pressure isn't small either."

"Principal Ding, we are more inclined to use the second mysterious lineup," Jiahao, the captain of FY team, suggested at that moment.

"Hmm... Use a lineup that you are comfortable with and play to your peak potential. As for the choice, I won't make any suggestions," Ding Yue nodded and told Jiahao.

At this moment, Director Jian looked at the FY team members, seemingly seeking the players' opinions.

After exchanging looks with his teammates for a moment, Jiahao instantly understood his teammates' intentions.

"Coach Jian, we want to use that lineup," Jiahao said to Coach Jian.

"Yes, I'm in great form!" mid-laner Yao Jing nodded.

Having weighed the options, Jian Zihao nodded and said, "Alright, we'll use that lineup for the third game, hoping everyone can win the match!"

"Right!"

The members of the FY team responded in unison.

At this moment, the Big Tiger team was also making their final rally.

Clearly, the coach of the Big Tiger team used the do-or-die situation to motivate the players.

Chapter 1175: Winning the Championship! _3

The five players of the Big Tiger team felt a little rattled, but facing a do-or-die situation, they were inevitably going to give it their all.

A little while later, the third game began.

Ding Yue and Huang returned to the spectator seats.

Watching the game from the stands was still more exciting, especially since they could see the big screen.

When the FY team brought out that lineup, Big Tiger team certainly hadn't anticipated it, causing the Xia Country spectators, and even the global audience, to exclaim in astonishment.

And Big Tiger team didn't hold back either.

They also revealed their secret lineup.

Between the two teams, only six out of the ten characters chosen were commonly seen in regular matches. The four remaining were quite unusual, with each team picking two each.

Both teams had revealed their secret lineups, looking like they were preparing for a desperate fight.

As soon as the battle started, FY's Big Tiger team showcased their signature styles. This game had many fights and was incredibly fierce.

"Okay, we can now see that after just two minutes in, Big Tiger team has gained an advantage in the bot lane."

"And in just a short two minutes, the advantage has been taken back by the FY team."

"Level six is critical!"

Under the passionate commentary, the audience was thoroughly enjoying themselves.

Before level six, there were eleven kills in total between the two sides, an unbelievable count. Many teams couldn't amass that many kills in an entire S World Championship game.

But this third match between FY team and Big Tiger team was just too intense.

Especially after reaching level six, both sides went for a full ten-player team fight, bringing the kill count up to eighteen.

That's right, in this level six team fight, seven players died in total.

Three from the FY team side, four from the Big Tiger team, but one of Big Tiger's carries survived, so it didn't look like a loss for them.

"Damn! What an exhilarating fight!"

"This game is truly great to watch."

"Both sides are going full throttle with their moves."

"This is the kind of battle befitting of the S World Championship finals."

"I hope Big Tiger team wins this one and then plays two more games like this, going the full distance would just be awesome."

"Damn, this is really thrilling to watch!"

"Come on, FY team, you have to crush Big Tiger team!"

"Big Tiger team's vitality is incredibly tenacious!"

"Exciting, the commentators are dumbfounded, this game is just non-stop action, and what's critical is that neither side has neglected their jungle resources."

This thrilling battle had brought the audience's emotions to a peak.

With their peak performance and coordination in team fights, the FY team players, through one splendid battle after another against Big Tiger team, managed to secure quite the advantage.

In the end.

FY team turned this advantage into an offensive trend and signaled the charge for the attack.

Big Tiger team might have been able to withstand FY team's offensive, but a mistake from Big Tiger's mid laner occurred.

Seizing the moment, the FY team went straight for a two-for-five trade!

"Team wipe!"

"Another chance!"

"The wave's here, they can end it!"

The commentator was beside himself with excitement as he saw Big Tiger team wiped out.

The players from FY team were also ecstatic, constantly shouting "End it, end it"!

Sure enough.

The three remaining players of FY team, together with their minion wave and without any opposition, pushed forward and finally took down the enemy's crystal base!

"Let us congratulate FY team! Congratulations on their championship! The S World Championship trophy has once again been brought back to our LPL region! Congratulations to these five young lads, let's all shout together—FY rules!"

Chapter 1176: NTS Reports and Congratulations from Players Nationwide

Trending #1: FY Wins the Championship!

Attention Score: 93,647,807

Discussion: 5.731M

The moment the S World Championship curtain fell, a celebration belonging to the eSports realm of Xia Country had arrived.

FY, a professional team formed by university students from a college club in Xia Country, fulfilled their mission and successfully defeated their old rivals, Big Tiger team, in the final match of the S World Championship, clinching the title.

The championship trophy had once again returned to the LPL region!

At this moment, the internet was almost entirely filled with cries of "FY rocks!" which echoed similarly amongst the dorm buildings of Mist City Arts and Science University.

Dorms across the nation burst with sounds of celebration!

This time, an LPL region team capturing the championship, which had been years since the last time LPL won, snatched back the League of Legends eSports dominion from Korea once again.

What most moved the netizens was that this year's championship team, FY, was formed by Mist City Arts and Science University, a private institution, specifically by students pursuing professional eSports player majors at the E-sports Game College of Mist City Arts and Science University.

Their eSports dreams merged perfectly with their university dreams and in their debut year, they advanced from LPL to the world competition, ultimately grasping the global championship.

For all those ardent young men harboring eSports dreams, this victory was an immense inspiration.

The championship FY team had won was bound to unleash another frenzy. According to major news outlets and statistical organizations, there was still a talent shortage of hundreds of thousands in the eSports field, indicating a substantial need for more talent to push the industry forward, with plenty of job opportunities available.

Those with dreams in eSports, even if they cannot play professionally, still have other eSports positions they can pursue.

After all, the eSports industry has become increasingly mature, generating more and more job positions; the students of the E-sports Game College at Mist City Arts and Science University, as long as they graduate successfully, are believed to have no trouble finding jobs in eSports in light of this championship victory.

Millions of netizens from Xia Country were celebrating.

At that moment in Korea, at the competition site, the audience from Xia Country also burst into joyous cheers.

"Yue, we got the championship!"

"Principal Ding, we are the champions!"

"We won the championship, we won!"

At Ding Yue's side, Huang Youjie, Wen Ruohan, and Sun Chengkang were all immensely excited at that moment; the championship stimulated everyone's thrill, most notably the five players of FY, along with their coach Jian Zihao.

Of course, there were also FY team's two substitute players, Ming Qiang and Zhou Genshuo.

It was precisely because of the strong substitute players, Ming Qiang and Zhou Genshuo, that Xiong Jiahao, Feng Jin, Yao Jing, Qian Yu, and Wang Shilin could play so confidently—as they had powerful backups, there was no pressure while they were starting.

"Yes indeed!"

Ding Yue also cracked a smile and said, "We won, we got the championship. From now on, the E-sports Game College of Mist City Arts and Sciences University can soar high."

Turning an emerging college department like the E-sports Game College into such a success was likely unmatched by any other institution worldwide than Ding Yue's Mist City Arts and Sciences University.

Actually.

Before Mist City Arts and Science University, there were already colleges that offered majors in eSports, but none carved out a separate department for eSports and the eSports majors offered by these universities were not intended to train professional players but talents related to the eSports field.

Now, after this battle, the E-sports Game College of Mist City Arts and Science University was naturally set to become the top institution for eSports in the minds of people from Xia Country.

Moreover, the E-sports Game College of Mist City Arts and Science University not only trained talents in the eSports field but was also capable of discovering and nurturing top professional players from amongst the youth.

Xiong Jiahao, Feng Jin, Yao Jing, Qian Yu, and Wang Shilin were the prime examples of this.

At the scene.

When the FY team successfully defeated Korea's Big Tiger team that moment, the players of FY were thrilled, huddling together in a group.

At the same time, coach Jian Zihao, substitute players Ming Qiang, and Zhou Genshuo, too, mounted the stage and hugged the players tightly.

At that time, Ding Yue also wanted desperately to rush onto the stage to embrace his players and celebrate this thrilling moment of glory.

Unfortunately, the spot where Ding Yue was located was at a considerable distance from the competition stage, and rushing there now would be too late.

Since the award ceremony was about to begin shortly.

But that was okay, even from his seat in the spectator's area, Ding Yue could still feel this electrifying moment, as the cheers at the venue hadn't ceased till now.

At this time, photographers from Korea couldn't help but give Ding Yue another close-up shot.

This close-up shot formed a stark contrast with the one they gave to Ding Yue when his team was first blooded in the first round of today's final match.

However, the netizens weren't concerned about this anymore; FY team had won the championship, and all they cared about was to excitedly celebrate it.

Chapter 1177: NTS Report and Congratulations from Players Nationwide _2

As expected.

When Ding Yue took out his phone and casually browsed through various social media platforms and Twitter, he was greeted by a sea of "FY rules" messages.

Ding Yue felt a surge of joy upon seeing the social media platforms and Twitter at this moment, but he kept his composure, refraining from laughing out loud on the spot.

"Xiao Wen, prepare well for tonight's celebration banquet, and also arrange for the school to prepare a bonus of ten million RMB."

Ding Yue immediately instructed his secretary, Wen Ruohan, on a few matters.

These were all things that had to be done after the FY team's championship victory.

First was the celebration banquet.

The players and coach Jian Zihao of the FY team had spent the year training tirelessly whenever they had time, putting in a lot of hard work.

Over the year, aside from one loss at the Mid-Season Championship, the team had been virtually unbeatable and finally emerged victorious against formidable opponents on the world championship stage.

The path to victory had been anything but easy.

Therefore, the celebration banquet was essential!

Then came the bonus. Ding Yue had promised the FY team players that if they could win the S World Championship, he would grant them a generous bonus.

This bonus was in addition to the original prize money from the S World Championship, personally given by Ding Yue.

Of course, it also represented the rewards from the club, the school, and the company for winning the championship.

Under normal circumstances, when a team of five players won the world championship, the multimillion-dollar prize money would go to their club, and then the club's owner would distribute it among the players, coach, and other club staff. Undoubtedly, the club would also take a share.

But Ding Yue wouldn't do that.

He decided that the club wouldn't take a single penny of the world championship prize money; it would all be distributed among everyone who had worked hard for the club throughout the year.

This included the staff, coaches, and players, such as the very important substitute players, Ming Qiang and Zhou Genshuo.

And that's not all.

Ding Yue also took out a bonus of ten million RMB to reward everyone on the FY team!

In this world, it would be tough to find another club owner who was as bold and generous as him.

On the competition stage.

The award ceremony soon took place.

When the FY team lifted the trophy, their anthem resounded, and the crowd cheered for the FY team once again.

Ding Yue watched his FY team's players raise the championship trophy and felt his eyes well up with tears.

Besides the world championship trophy, there was also the trophy for the MVP of the tournament.

In the end, the MVP trophy was awarded to the outstanding top-laner of the FY team, Wang Shilin!

Wang Shilin's performance in the world final truly warranted the MVP title. Still, Ding Yue felt that the real MVP should have been the FY team's captain, Xiong Jiahao.

As captain, Xiong Jiahao was adept at finding opportunities to fight, and he directed every team battle.

However, awarding the MVP to top-laner Wang Shilin was entirely justified since he had the best statistics and played exceptionally well on the field.

"Quick, let's go."

After seeing that the award ceremony was nearly over, Ding Yue immediately called over Huang, Secretary Wen Ruohan, and Sun Chengkang to head to the backstage rest area.

At this moment, aside from receiving the world championship trophy and glory, what the FY team players wanted most was to see Principal Ding and give him a perfect explanation.

When Jian Zihao led Xiong Jiahao and the others off the spotlighted stage to the backstage rest area and saw Principal Ding,

"Principal Ding, we've won the championship!"

"Principal Ding, we've lived up to your expectations!"

"Principal Ding, we are the champions!"

Each of the players, thrilled, said to Principal Ding.

Ding Yue looked at the players under his wing, satisfied, and then raised his thumb and said, "Well done, all of you!"

Hearing these words from Principal Ding, Xiong Jiahao and the others were deeply moved.

This phrase seemed like a common compliment, but for Xiong Jiahao, Feng Jin, Wang Shilin, and the others, it meant everything.

Without Principal Ding's E-sports Game College at the Mist City Arts and Science University, they wouldn't have been able to achieve the glory of winning the world championship on their professional paths.

"Principal Ding, it was you who gave us the strong motivation."

"Yes, Principal Ding, if it hadn't been for you discovering us, we'd still be lost youths right now."

"Thank you, Principal Ding!"

Xiong Jiahao and the others all expressed their gratitude to Principal Ding.

"This is all a result of your hard work, congratulations to you all. In the future, you will need to continue to strive, to improve yourselves constantly, or to maintain your peak strength."

Ding Yue smiled and said to Xiong Jiahao and the others, "However, tonight and for some time after, winning the championship is definitely something to celebrate. I have prepared a celebration banquet and a prize of ten million for everyone!"

Upon hearing this, Jian Zihao and Xiong Jiahao were all excited and happy.

The prize money of ten million was even more than the S World Championship's prize money.

After all, it's widely known that the prize money for the League of Legends world championship is quite modest, just over one million U.S. dollars, which converts to merely six to seven million "RMB".

And Ding Yue had directly rewarded the FY team with ten million in prize money!

"Thank you, Principal Ding!"

The crowd shouted again in unison.

"Principal Ding, are we going to have the celebration banquet here or wait until we return to our home country?"

At this time, the secretary Wen Ruohan looked at Principal Ding and asked.

"What does everyone think?"

Ding Yue immediately looked at Jian Zihao and Xiong Jiahao and the others, seeking their opinions.

In fact.

From Ding Yue's viewpoint, he felt it would be more appropriate to hold the celebration banquet after returning home.

After all, this is a foreign country, Korea's turf, and there's always a slight unease about celebrating here.

It would feel more like home once they returned to their own country.

"Well, Principal Ding, I think we should return home to hold the celebration banquet," Xiong Jiahao suggested.

Then, Wang Shilin also nodded and suggested, "Yeah, after returning home, it will feel like home, especially when we get back to the school."

"Indeed, I don't feel comfortable at all here in Korea," Feng Jin chimed in with a nod.

After hearing the players' opinions, Jian Zihao looked at Principal Ding and said, "Then, Principal Ding, why don't we go back home first and then hold the celebration banquet?"

"Sounds good!"

Upon hearing this, Ding Yue immediately nodded and agreed with everyone's opinions.

Shortly after the FY team won the world championship, NTS broadcast the news in its evening segment.

The e-sports industry had already matured in the country, and when the IG and Little Phoenix teams won the championship in their time, it also made the news.

Now that the FY team had brought the world championship trophy and glory back to Xia Country once again, NTS also covered the event.

Moreover, this FY team came from Mist City Arts and Science University.

Lately, Mist City Arts and Science University had been appearing quite frequently on NTS broadcasts.

Not just NTS covered the news of the FY team winning the world championship and topping the trending list. Gamers in Xia Country also sent their championship blessings to the FY team and Mist City Arts and Science University!

"Congratulations to the FY team for winning the championship!"

"You are the champions!"

"In this moment, glory is upon you!"

"You are the strongest! Our LPL is the number one league in the world!"

The nationwide gamers' celebration of the FY team formed a trending topic, and the fervor kept soaring as more and more players and netizens joined in to congratulate the FY team on their victory.

Tonight.

In the top ten trending topics, six or seven were related to the FY team winning the world championship.

Tonight, the most echoed sentiment across the nation was undoubtedly—"FY is awesome!"

Chapter 1178: The Aerospace Bureau's Beidou Navigation System

The next day.

At the airport in Korea, a flight bound for Mist City in Xia Country took off. After a journey of several hours, it finally arrived at Mist City Airport.

Ding Yue, the entire FY team, along with Huang Youjie, Wen Ruohan, and Sun Chengkang who had accompanied Ding Yue to watch the matches on-site, were on this flight back to Mist City.

When everyone returned to Mist City Arts and Science University, they were greeted by the cheers of countless students from the university.

This time, after the FY team had clinched the championship at the world competition, it truly boosted the morale of Mist City Arts and Science University.

Even though it was in the context of gaming and esports, it was still exhilarating. After all, expertise in one's field is something to be proud of, and the thrill of triumph is not exclusive to achievements in scientific research.

The five players of the FY team, along with the two substitutes, had made a name for themselves in their professional careers after this battle.

It was for this reason that numerous domestic clubs wanted to hire them with high salaries. Talks had already begun with Wang Shilin, the MVP top laner of the world competition, the day after the championship ended.

However.

Would Wang Shilin leave the FY team just because another club offered more money?

That was impossible.

Because Wang Shilin knew that his achievements were thanks to his teammates at FY, as well as the coach Jian Zihao and the sustained support of Principal Ding.

Otherwise, how could he have won the MVP of the world competition?

Moreover.

The esports club that wanted to poach Wang Shilin couldn't necessarily offer more money than Principal Ding, who had taken out ten million directly as a reward for the FY team this time.

"After everyone gets back, rest up for a bit. Tonight, I will prepare a feast at the Fifth Canteen to celebrate our victory," Ding Yue said to the FY team players after returning to Mist City Arts and Science University.

"Great!"

Everyone responded in unison.

Having just returned to Mist City Arts and Science University, the team definitely needed some time to rest.

Come evening, a celebration banquet would be held in honor of the FY team.

After seeing the FY team off, Ding Yue headed straight for the Fifth Canteen.

On such a day worthy of celebration, even though a more luxurious hotel could have been chosen for the banquet, Ding Yue thought it over and decided to hold the event at the university instead. This way, his mother could cook personally, allowing the FY team members to taste even better food.

Not only that, but there were some "chefs" within the university's catering system, including teachers from the culinary arts department and outstanding students.

In recent years, Mist City Arts and Science University had already trained a batch of excellent talent from the culinary arts department.

These culinary students were now "interning" or working in the university's major canteens, because they were aware that having studied at Mist City Arts and Science University's culinary arts department, the best places for them were naturally either the university or Feiyue Group.

Since the Feiyue Group didn't yet have a catering industry, they could only work in the university's canteens for the time being.

In fact, working in the school's canteens also came with very good salary and benefits.

"Son, you're back?"

As soon as Ding Yue entered the Fifth Canteen, he bumped into his mother, Zhang Yuping.

"Yeah, Mom, hurry and tell everyone in the canteen to get ready. Tonight, we're throwing a celebration banquet for the FY team."

Ding Yue immediately nodded and then made his request to his mother, Zhang Yuping.

"Is it for that competition where they won some championship? I don't understand it very well, but people in the canteen mentioned it, and your sister also told me a little about it," Zhang Yuping asked.

"Yes, they've won the world championship on the world stage, which is really significant for our Mist City Arts and Science University," Ding Yue earnestly said. "In any case, Mom, make your best dishes and instruct the chefs here to cook their finest meals!"

"All right."

Although Zhang Yuping didn't understand much about esports, upon hearing her son speak about the importance of the world championship to Mist City Arts and Science University, she naturally agreed to do her best for tonight's celebratory banquet.

Zhang Yuping also felt proud of her son.

After all, the school's team had brought worldly honor to the university by winning the championship!

"I'm going to rest a bit now. I'm exhausted from the long flight. I'll come back later tonight, Mom," Ding Yue said, ready to head back for some rest.

"Sure, go get some sleep," Zhang Yuping nodded.

With that, Ding Yue left the Fifth Canteen and returned to his apartment. Glancing at the time, it was afternoon; a good time to take a nap and wake up refreshed in time for the FY team's championship celebration that evening.

Anticipating a night of heavy drinking and having not slept well on the plane, Ding Yue decided to take that nap.

The reason Ding Yue hadn't slept well on the flight was primarily due to excitement and elation; after all, the FY team he owned had secured the world championship, and such a victory was indeed heartening.

Chapter 1179: The Aerospace Bureau's Beidou Navigation System _2

"Big White."

Before going to sleep, Ding Yue called out to Big White.

"Principal, I am here."

The voice of Big White sounded.

Hearing Big White's voice again, Ding Yue felt an inexplicable sense of closeness.

Having been to Korea these past few days without bringing Big White, to tell the truth, Ding Yue actually missed Big White quite a bit.

"Make sure to wake me up by no later than six thirty in the evening, okay?"

After saying that, Ding Yue headed straight to his bedroom, slipped under the covers, and fell asleep.

And let me tell you.

Ding Yue really did sleep until six thirty when Big White, at the right time, came tiptoeing over and directly lifted the cover of his master's cup, "Principal! It's six thirty now, time to wake up!"

"Mmm!"

Ding Yue, with bleary eyes, responded and then subconsciously said, "Just five more minutes."

When someone is abruptly woken up from a deep sleep, they are bound to be groggy, and their body is also telling them they want to keep sleeping for a bit longer.

"Principal, you have a call!"

Big White said again.

"Ah? Who is it?"

Ding Yue asked groggily.

"It's Director Huang."

Big White replied.

"Answer it."

Ding Yue yawned under the covers, knowing that if it was Huang calling, then he definitely needed to answer the call.

Since Big White was essentially a mobile phone, Ding Yue could let Big White answer the call without needing to grab a phone himself.

"Hello, Huang."

After the call connected, Ding Yue spoke in a sleepy voice.

"What Huang? It's me, Bin. Yue, can't you even recognize my voice anymore?"

The voice on the phone was not Huang's but Bin's.

"Huh?"

Ding Yue suddenly froze, quite confused, wondering why Big White had said it was Huang who called, yet it turned out to be Bin's voice on the line.

"Oh, Bin, what's up?"

Ding Yue, slightly more awake now, asked.

"Yue, didn't you say that we are preparing a celebration feast at the Fifth Canteen tonight? We are all here already, why haven't you come over yet?"

Xu Bin shouted and asked.

"Wasn't I just taking a nap after coming back? The trip to Korea left me feeling a bit exhausted. I've just woken up, I'll be right over. Were you using Huang's phone to call?"

Ding Yue asked after explaining.

"Yeah, when I was heading out, I forgot to bring my phone." Xu Bin answered.

"I thought so, okay, I'm hanging up, I'll be right there."

After speaking, Ding Yue had Big White hang up and he himself prepared to get out of bed.

A moment ago, Ding Yue had been wondering why Big White mentioned Huang was the caller when in fact it was Bin on the line, almost thinking that Big White had some kind of bug. It turned out the reason was simply that Bin hadn't brought his phone and used Huang's phone to call him.

"Get up!"

Ding Yue then sprang out of bed, immediately perking up.

Although one is groggy right after waking up, after a little while, having just rested, one often gradually becomes energetic and alert.

In no time at all, Ding Yue got out of bed, freshened up, put on a fairly comfortable outfit, and, accompanied by his personal robot Big White, went downstairs, heading towards the Fifth Canteen.

At this time, at the Fifth Canteen, all the members of the FY team had already arrived, along with Huang Youjie, Xu Bin, and others, who also came over, chatting with the members of the FY team, congratulating them for winning the S Competition world championship.

The canteen chefs were busily cooking up a storm.

"You guys are in for a treat tonight. Do you know who is personally cooking tonight's celebration feast?"

Huang Youjie said to Xiong Jiahao and the others with a smile.

"Who is it?"

Feng Jin asked curiously.

"Principal Ding's mother, Aunt Zhang. Don't you guys know Aunt Zhang makes the tastiest food at Mist City Arts and Science University?"

Huang Youjie proudly introduced her.

You should know that Huang Youjie had tasted the cooking of every chef at Mist City Arts and Science University, but only the food prepared by Aunt Zhang, Zhang Yuping, was exceptionally delicious.

Somehow, ever since Aunt Zhang started working in the canteen of Mist City Arts and Science University, her culinary skills seemed to have soared incredibly.

The reason Huang Youjie felt this way was because he had tried Aunt Zhang's cooking before.

Before Ding Yue founded Mist City Arts and Science University, Huang Youjie had a close relationship with Ding Yue as childhood best friends, so Huang often ate at Ding Yue's house.

At that time, Huang Youjie knew how delicious Aunt Zhang's cooking was.

Later, when Ding Yue created Mist City Arts and Science University and brought Aunt Zhang over to manage the canteen operations, Aunt Zhang would also often cook meals, of which Huang Youjie had his fair share, feeling that the taste improved significantly with each time.

Ordinary dishes seemed to attain a heavenly flavor under Aunt Zhang's touch – simply divine!

"Oh, I've heard about her, but we've never had that pleasure."

Yao Jing immediately said excitedly.

"Tonight, you will. You guys are the stars tonight. After all, you are the world champions, hahaha."

Huang Youjie laughed as he said.

"What pleasure are you all talking about?"

At this point, Ding Yue had come over, just in time to hear Huang chatting with Xiong Jiahao and the others about some pleasure, main characters, world championship, and the like.

Chapter 1180: The Aerospace Bureau's Beidou Navigation System _3

Understanding that they were world champions was easy since Xiong Jiahao and his teammates were already world champions.

As for the main characters.

This too was easy to grasp, athletes like Xiong Jiahao, Feng Jin, Yao Jing, Qian Yu, and Wang Shilin from the League of Legends, in just a year's time, had advanced from the first division professional league to the LPL, then seized the Spring Game championship, next claimed the runner-up position at the Mid-Season Invitational, and also the Summer season championship, and now had achieved the S Competition World Championship.

With such experiences, wouldn't this be the template for a protagonist in an eSports gaming novel?

But Ding Yue did not understand what they meant by good fortune in terms of food.

"Isn't Aunt Zhang cooking tonight? I was saying they are in for a treat," he stated, chuckling.

"So, we were talking about that; indeed," Ding Yue remarked, immediately smiling and nodding before turning to Xiong Jiahao and his team to say, "Then you indeed are in for a treat tonight. How about it, has everyone arrived?"

Ding Yue glanced around the hall on the third floor, specially cleared out for the celebration banquet. There were quite a few people, but he was unsure if all the backstage and frontline staff of the FY team had already arrived.

At this moment, Director Jian Zihao nodded and said, "Yes, Principal Ding, all the staff from our FY team are here, even the aunts responsible for cleaning the training base."

"Hahaha, good, your FY team has brought the glory of the World Championship to our Mist City Arts and Science University. Each one of you has made a significant contribution!"

Ding Yue said with a hearty laugh and nod of his head.

Apart from all the staff of the FY team, there were also some executives from Feiyue eSports, as well as Miss An, who was in charge of the entire Feiyue Group. Ding Yue had also invited her to come.

Since the FY team had just won the S Competition World Championship, it was definite that they needed to promote the Feiyue eSports brand under the identity of the world champions.

This aspect of the operations would need to be arranged by Miss An.

"Yue,"

Just as Ding Yue finished speaking with the FY team members, Xu Bin came over from not far away.

"Bin, what is it?"

Ding Yue looked at Xu Bin and asked.

"Taking advantage of today's celebration banquet and having a bit of free time, I wanted to discuss with you some of the progress we've made in our computer science department," Xu Bin replied.

Xu Bin had been very busy recently, and it was only because today's celebration banquet was compulsory that he considered attending; otherwise, he had planned to pull an all-nighter working.

"Sure, but looking at those dark circles under your eyes, my goodness, Bin, you must have been staying up quite a bit lately, haven't you?"

Ding Yue said, genuinely feeling a bit sorry for Bin upon seeing his dark circles.

"Although the projects you're handling are urgent, there's no need to push yourself so hard; health is the most important,"

Ding Yue cautioned Bin.

"It's okay, Yue, you wouldn't believe how exhilarating it is when I'm deep into the project work,"

Xu Bin shrugged and said with a smile.

"Still, remember to take care of your health. Later, I'll have the medical school set up a real-time health monitoring team specifically for your computer science department to ensure your well-being,"

After finishing, Ding Yue then asked, "So tell me, what progress has been made so far?"

"Let's start with some breakthroughs in the Internet of Things. We've talked to the Aerospace Bureau about satellites, and given our relationship with the Aerospace Bureau and our Mist City Arts and Science University, the Beidou Navigation System from the Bureau is pretty much confirmed to be integrated into our IoT projects,"

As Xu Bin said this, his face lit up with joy.
