

Fake Marriage 1371

Chapter 1371: The Last Battle (6)

Mu Huan: "..."

These words...

Should she thank him for saying that she had been blind?

Country F...

Although Mu Huan and Bo Junyan had arrived in Country F in secret, Sen Da found out about their arrival the next day.

When he received this news, Ling Wei was discussing something with him.

When she heard that Bo Junyan and Mu Huan were here, she frowned. "They must be coming for me!"

Both of them were vengeful people.

Although they did not say it explicitly last time, Bo Junyan and Mu Huan should have guessed something and had gone to investigate. They would definitely not let her off! This time, they were definitely here to deal with her.

"Of course they'll deal with you, but I think they were also invited by Lin Tai to deal with me," Sen Da said in a low voice.

His previous premonition was right. Lin Tai had been secretly taking action all along. Bo Junyan must be an external aid that he had invited.

"The two of them are scourges. We have to get rid of them as soon as possible. Otherwise, it will definitely spoil our plan." Ling Wei then said, "Didn't you say we should let the Liu father and son release a super virus? Have they released it?"

"They haven't had the chance to take action yet," Sen Da said regretfully. Then, he added, "But it's not too late to release the virus on Mu Huan and Bo Junyan here."

"Yes." Ling Wei nodded. She thought of something and said, "But Mr. Liu's side shouldn't waste this chance. Have them release the virus in a crowded city center!"

"Why do you say that?" Sen Da's eyes darkened.

"Didn't you research this super virus to make a fortune? The medicine and the vaccine for treating this virus should have been prepared, right?" Ling Wei raised an eyebrow. He couldn't have researched such a virus just to deal with Mu Huan and the rest.

There was no point pretending with her.

San Da snapped back to his senses and smiled. "You're always so smart."

So soon, she could think of everything.

Ling Wei smiled. Then, her eyes became more ruthless. "Actually, we can go all out. If we want to do something, we should do something big!"

She had said those words to lure him into this plan.

"What do you mean?"

"Once the Liu father and son have released the super virus in the center of Country Y, very soon, many people will become infected. When that time comes, it will become a pandemic that will spread throughout the world. Under such circumstances, it won't be unusual for Leader and Sen Tai to be infected with such a disease and eventually die from it."

Ling Wei looked at Sen Da with a face full of meaning.

Sen Da indeed understood what she meant.

"If something were to happen to the leader and Sen Tai, most of the people would also suffer from this illness. At that time, the situation in the country would definitely be a mess. That's when you step forward bravely. First, you'd take out the medicine that can effectively control this illness. When the time is ripe, you'll take out the vaccine to provide free vaccination for your own people. This way, you'll be the savior of all the people!

"Then, you'll become the most prestigious person in the country! You'll have a more legitimate position as the leader!"

Sen Da looked at Ling Wei and sighed. She was really smart and vicious.

He got someone to research a super virus because he wanted to make a fortune from a disaster, but he really didn't want to use it on his two half-brothers. He didn't want them to die from such a virus so he could then use his good reputation as a savior to become the leader.

However, after hearing her words, he felt that this was the most appropriate and best method!

Chapter 1372: The Last Battle (7)

This was because even if he used Ling Wei to get all the power from Sen Tai and use it to completely take the position of leader, he'd still have a tough battle to fight. But if he did this, he could win without spending a single soldier!

And just like what she said, with a more legitimate status, he could sit on the leader's seat and be more stable!

"Why? You don't dare to do it?" Ling Wei, who did not get a response from him, raised her eyebrows. Her face was full of disbelief.

Sen Da snapped back to his senses and smiled. "There's nothing in this world that I don't dare to do!"

"That's good," Ling Wei said with a smile.

If he really did this, she could end everything quickly! She was really tired of this life!

Sen Da reached out and picked her up. "You're so smart. I really regret letting you marry Sen Tai. After he dies, I'll do plastic surgery for you. When the time comes, you can marry me and be the wife of the leader. How about that?"

Such a smart and capable person had to be kept. In the future, she could help him do many things.

"Alright. As long as you don't dislike me, I can't ask for more..." Ling Wei said coquettishly.

However, she sneered in her heart. A man's mouth spews nothing but lies. This was a nice way to put it. When he became the leader, it would be good enough if he didn't kill the donkey after the millstone was removed. Why would he marry her?!

She could guarantee that a few days ago, he must have regretted choosing her for making him provoke enemies like Bo Junyan and Mu Huan.

In terms of intelligence, Ling Wei was really a smart person. Originally, her life was really glorious, and her stats in all aspects were really good. It was just that even if she was such a person and God had given her such good cards, she played them until she was in this state.

Who was to blame? Heaven or her enemy?

She could only blame herself for not having a good heart. She would only become more and more crooked and miserable.

"Why would I despise you? Everything you do is for me." Sen Da really didn't despise Ling Wei. He didn't care about women. It didn't matter if a woman was clean or not as long as she was useful!

All he cared about was power!

"Speaking of which, since we're going to do this, tomorrow is a good opportunity!" Ling Wei was even more anxious than Sen Da to kill Sen Tai and the rest.

Sen Da was young and handsome, so it wasn't a big deal for her to interact with him like this. Sen Tai... It was really hard for her to explain in a few words. It was getting more and more unbearable!

"Why is tomorrow a good opportunity?"

"Lin Tai asked Sen Tai to go out tomorrow. I guess they want Mu Huan to take a look at Sen Tai and see what's going on with him. Sen Tai listens to me, and this has long made Lin Tai suspicious." Lin Tai had been coming to look for Sen Tai recently and had often probed him when she wasn't paying attention.

"That might really be their motive for this trip." Sen Da nodded.

"Lin Tai is a big hindrance. If you can make him suffer from such a disease, then your path to becoming a leader will be even smoother. If they gather together tomorrow, we can wipe them out all at once!" Since he wanted to do it, he could just kill them all!

With all the obstacles gone, there would be no resistance at all. He could easily take over, and she would be able to rest easy.

"Do you know where they're going to meet?" Although the super virus that his research laboratory had developed was transmitted through the air, the closer one was to it, the higher the chances of success. If

one was too far away, the air would dilute it. Furthermore, some people had abnormally high immunity.. Even a rare super virus would be easily killed by their immune system and would not cause illness.

Chapter 1373: The Last Battle (8)

“I don’t know. I just heard that they have an appointment to meet. Sen Tai’s eldest daughter will bring Sen Tai over there tomorrow.” Those two daughters from Sen Tai’s ex-wife were very wary of Ling Wei. This was especially so after they returned from their tribulations. Sen Tai listened to everything she said, making them even more wary of her.

As they were Sen Tai’s biological daughters, Ling Wei could not control them if they wanted to bring Sen Tai there. If they did not say where they were going, it would not be good for her to force a question, lest someone found out.

Sen Da thought for a moment and said, “Alright, you don’t have to worry about this matter. I’ll handle it.”

“Okay, I’ll wait for your good news.” After saying this, Ling Wei suddenly thought of something. “I haven’t asked you about the effects of this super virus. Will it definitely cause death?”

They had made such a good plan. If this virus did not work, they would have been happy for nothing.

“I can’t say that it’s 100%, but the pathogenic rate and mortality rate are the highest among all viruses. The first batch of people to come into contact with such a virus has a high mortality rate!” Sen Da said.

“It can’t not be 100%. We have to be 100% sure. We can’t give Bo Junyan and the rest a chance to live!” Ling Wei said viciously. Then, she said, “Why don’t we use poisonous gas and poison them to death!”

“Even if it’s chemical poison, there’s no guarantee that it can kill someone immediately. Besides, they’re all people with status. How can we deal with the aftermath if we poisoned them to death? I know you really want them to die, and I really want them to die, but we could only make them die by accident. If they die that way, no one can say anything. It’s not good to just poison them to death.”

What he wanted was power and status, not to desperately take Bo Junyan and Mu Huan’s lives. He still had to think about the future.

If Mu Huan and the rest died from illness, this would be an accident. No one could do anything about it. If they died from poison, he would be in endless trouble in the future.

“What if they don’t die?” Ling Wei was uneasy if it wasn’t 100%.

“After they get sick, I’ll see how it goes. It should be easy for our side to tamper with the medicine if they get sick here,” Sen Da comforted.

“But...” Ling Wei wanted to say something else.

“Alright, it’s settled,” Sen Da said forcefully.

Country Y.

Mr. Liu was about to ask Liu Changfeng to take action when he received a call from Sen Da.

“Bo Junyan and Mu Huan are already in Country F. Your part of the plan has changed. Go and release the virus in the city center where the traffic is the greatest.” This way, the infection would explode on a large scale. Soon, it would become an infectious disease with a high mortality rate.

Mr. Liu was stunned. “Release it in the city center?”

“Yes.”

“But...” Mr. Liu understood what he meant. However, when he thought about the mortality rate of this super virus, he suddenly felt a little timid.

“What’s wrong? Didn’t you want to make a fortune from the disaster?” San Da raised an eyebrow.

“I do, but...” If it was released in the city center where the traffic was the greatest, the power of the virus as it exploded would be unimaginable. By then...

“Don’t forget, you don’t have a way out now. You’re only temporarily bailed out at home. Once it’s confirmed that you’re going to jail, the assets you transferred will have all been returned to Mu Huan. Do you want to have neither money nor freedom for the rest of your life?”

Sen Da’s voice was like a devil’s temptation, shaking Mr. Liu’s last bit of conscience.

He had worked hard his entire life. He thought about how high and mighty he used to be, how hard he had worked for Rui Hui for his entire life, and how, in the end, he had ended up in such a state. He was indignant! Really indignant!

Chapter 1374: The Last Battle (9)

No one would care about his life or death. No one would care what he would do. Why would he care about the life or death of others? What of them?

So what if the disease rate was high and the death rate was high? As long as it wasn’t him who died, who cared who died?! Or how many died?!

However...

“Can the effects of the vaccine and the medicine to treat this virus be 100% confirmed?” To make a fortune from a disaster, one had to confirm that the vaccine and the medicine to treat this illness were effective. If a global epidemic was created and the vaccines and medicine would not be effective, their lives would be in danger!

“Of course!” The virus had of course been developed with the assurance that there were treatment drugs available and that the vaccine was effective. Otherwise, he would be afraid that he would also get such a disease.

“Alright!” Mr. Liu made himself agree without hesitation.

This matter was settled!

If one wasn’t ruthless to others, then one was being ruthless to oneself! This was his only chance to turn things around. He had to grab it!

“Oh, right. What about Mu Huan and Bo Junyan?”

“Since they’re here, I’ll deal with them. You don’t have to worry about them.”

“Since you want a large-scale outbreak, then you didn’t give me enough vaccines. I still have many relatives and friends. Give me some more.” Sen Da had only given him five vaccines.

“Think of a way to get them to hide somewhere else first. When Mu Huan is confirmed to have suffered, I’ll get someone to send them to you. It’s not suitable for them to do anything now.” Before they were sure Mu Huan would suffer, it was better if they didn’t do anything yet.

“Alright.” Mr. Liu hung up.

Just as he hung up, Liu Changfeng walked in.

“Dad, I’m going.” As this was a matter of great importance, they could only succeed and not fail. Hence, their original plan was to get Liu Changfeng to go to Mu Huan’s house and talk to her. Then, they would take the opportunity to release the air that contained the super virus.

“There’s no need to go. Mu Huan and Bo Junyan have gone to Country F.”

Liu Changfeng was stunned. Then, he asked, “What do we do now?”

“There’s no need to do anything. Sen Da is in charge of them. We don’t have to worry about anything.” Mr. Liu did not tell Liu Changfeng that the super virus was going to be released in the city center.

Once he heard such a plan, he would be swayed. Even he didn’t want to do it. He felt that it was outrageous, let alone his son, who had a better conscience than him.

If he learned of this plan, not only would he not do it, but he would also not let him do it.

When Liu Changfeng heard this, his tensed nerves instantly relaxed and he heaved a sigh of relief. Although he had been angered by Mu Huan last time and had decided to completely destroy her, after getting the virus in his hands and thinking that this might cause her death, he had been struggling.

He didn’t even know why he had come this far.

Why would he use such a virus to harm the girl he liked?

Although she had caused his father to end up like this...

Strictly speaking, his father deserved it. No matter how much he sided with his father, he knew that Mu Huan had given the Liu family enough.

But he knew that since things had come to this, he could only do this.

However, he couldn’t get over his conscience, so he kept struggling.

Now, there was no need for him to do this. The huge mountain pressing on his heart instantly disappeared. He was so relaxed that he could finally breathe normally.

“Alright, go and rest,” Mr. Liu said.

“Okay.” Just as Liu Changfeng was about to turn around and leave, he suddenly turned back. “Dad, do you think Xiao Huan will die from this illness?”

Mr. Liu: “What do you think?”

Chapter 1375: The Last Battle (10)

Sen Da wanted Mu Huan to die, and he was asking if Mu Huan would die.

After a long silence...

“Dad, how did we end up like this? We originally had 35% of Rui Hui’s shares, and we earned hundreds of millions a year. We were living a high and mighty life, but now...” His father was currently incarcerated at home. After the evidence of the crime was confirmed in a few days, he might have to go to jail for many years.

He had worked so hard and put in so much effort, but in the end, not only did he not get the assets he had transferred, but he had also lost his original shares. He had suffered a double loss and even lost his freedom!

What’s more, they were now going to do something that would kill others...

They...

Why? Why did it come to this?

These days, Liu Changfeng had been thinking about this question. Why did they end up like this despite having such a good life?

Why?

It was true. One could not take a wrong step in life. One wrong step would lead to one wrong step after another, and one would be wrong for life.

“All of this is Mu Huan’s fault! If it weren’t for her being ungrateful, scheming, and vicious, how would we have come to this point?!” Mr. Liu really felt that Mu Huan was ungrateful. Back then, if it weren’t for his son bringing her into NST and supporting her so strongly, how would she have had the chance to develop a life-extension drug?

All these years, if it weren’t for him protecting Rui Hui, how would she have had the chance to inherit it?

Both father and son could be said to be her benefactors, but she had schemed against them and made him go this far!

“No, Dad. If it weren’t for our insatiable greed, we wouldn’t have come to this...” His father was greedy for the whole of Rui Hui, and he himself was greedy for Mu Huan.

Because of their greed, their thinking went astray. They believed that their thinking was right and that Mu Huan had let them down. That was why they had come to this.

Actually, he knew.

He had always known that their so-called kindness to Mu Huan was not kindness.

All these years, without his father, Rui Hui would have collapsed. However, his father did it for him. It was because he wanted to get Rui Hui that he had worked so hard. If that was the case, what right did he have to let Mu Huan inherit this favor? And the reason he let Mu Huan enter NST was that NST needed a Chinese medicine genius like her. The life-extension medicine that she had developed had brought huge wealth to NST.

Initially, their goal was not to help her, but in the end, these things helped her.

He had long known this. It was just that he didn't want to think about it, so he thought that it was Mu Huan's fault. Only then could he deal with her.

If he couldn't have her, there was nothing he could do about it. He could only watch her be happy with another man.

However...

Now that he had come this far, he thought that this might kill her.

He suddenly regretted thinking about all of this. Although he shouldn't be thinking about it now, he couldn't help but...

None of this was her fault.

"What's the point of saying this now? Are you trying to pull back from the cliff?" Mr. Liu asked.

Liu Changfeng: "..."

"It's useless for you to think about anything now. It's too late. Now, we've already reached the point where either she dies or we die. We have no chance to turn back!" Only if Mu Huan died and no one dealt with him and pressured the higher-ups would he have a chance to escape punishment.

Only then would he have the chance to use this epidemic to make up for his losses and continue living a high and mighty life.

He definitely did not want to go to jail for the rest of his life. Hence, he could only let Mu Huan die!

Chapter 1376: The Last Battle (11)

Hence, he would definitely not stop now!

Liu Changfeng was silent for a while before saying, "I understand."

It was too late. Even if he regretted it now, he wouldn't be able to return to the past.

"Don't think about anything. Go play games and do something to pass the time. It's useless to think too much." Mr. Liu patted his shoulder.

Liu Changfeng hummed and turned around to leave.

When he reached the door...

Mr. Liu thought of something and hurriedly said, "You definitely can't contact Mu Huan. Don't think about saying anything to her in the end. If she finds out anything, we'll be the ones to die!"

Liu Changfeng: "..."

He was about to go back and give Mu Huan a call.

"Although the pathogenic rate and mortality rate of such a super virus are extremely high, it's not like you'll die after you get it. What do you want to say? There'll be plenty of time in the future. Before the matter is settled, you're not allowed to have any contact with Mu Huan!" Even if it was a virus that was absolutely colorless and odorless, they had to be extremely careful. After all, they were dealing with figures like Mu Huan and Bo Junyan. If they were not careful, they would fail!

Liu Changfeng was silent for a while before saying, "Alright."

"Okay, then, go and rest."

Country F...

Sen Tai's eldest daughter, Mei Lin, carefully brought Sen Tai to the place she had agreed on with Lin Tai.

"Lass, why are you so secretive about coming to see Lin Tai?" Sen Tai frowned.

Mei Lin looked at her father. With such a normal expression on his, there was nothing wrong with his mind. Only, he especially listened to his new wife. He had given her most of his power in such a short time. It was really a headache. She didn't know what the problem was.

She hoped that the person she met today could find out what was wrong with her father.

"We're here to discuss a confidential matter, so we have to be more mysterious." Mei Lin smiled and brought him in.

Sen Tai frowned unhappily, but because she was his biological daughter, he did not say anything else.

When he entered and saw that it was Mu Huan, his unhappiness from earlier vanished like smoke in thin air.

"Madam Bo, about the life-extension medicine that we talked about previously... I don't know how soon I will recover." Ever since he came back with an injury, his body had become worse and worse. He felt that he couldn't wait to get the life-extension medicine.

Mu Huan sized Sen Tai up without batting an eyelid. He'd spoken in a very regulated manner and even wanted the life-extension medicine so much. His eyes were so clear that she could not tell that there was a problem.

Hence, she said, "I forgot to take your pulse last time, so the medicine hasn't been brought out. Let me take a look at your pulse."

Sen Tai hurriedly reached out for Mu Huan to take his pulse.

Mu Huan checked his pulse and observed him up close. She asked Sen Tai many questions, but she did not find any problems.

Lin Tai and Mei Lin knew that she couldn't tell anything from her expression.

Just as they were fretting...

Mei Lin's son ran in with a beautiful bottle in his hand. Then, he raised it and showed it to his mother. "Mom, look at this beautiful bottle!"

Mei Lin, who was in a bad mood, casually said, "Beautiful."

"I want to fill this bottle with something good!" the little boy said as he opened the empty bottle in his hand.

No one in the room paid attention to the child's actions. To them, it was an empty bottle with nothing in it. As long as the child did not cry or make a fuss, he could play however he wanted.

Mu Huan and Bo Junyan's attention was on Sen Tai. No one paid attention to that child.

Chapter 1377: The Last Battle (12)

No one would have thought that this seemingly empty bottle was actually filled with a very thick super virus...

The most powerful weapon in this world was not a firearm but a virus...

Such things were colorless and odorless, invisible and untouchable.

Even a drug expert like Mu Huan could not sense it.

However, it could cause a large number of deaths and disasters.

When Sen Da found out that it was Sen Tai's eldest daughter, Mei Lin, who was bringing Sen Tai to see Lin Tai, he'd immediately thought of Mei Lin's son, who was very clingy to her. This child would stick to wherever Mei Lin went, and Mei Lin especially doted on her child. She would bring him wherever she went.

He gave this bottle to Mei Lin's son and even told him to go to Lin Tai's place. If he could pick up some good things in his house and put them in this bottle, he would give him a reward. The little boy immediately agreed happily.

It was often impossible to guard against someone they knew.

It was also very terrifying.

After Mei Lin left with Sen Tai...

Lin Tai looked at Mu Huan and asked, "Could he have been hypnotized?"

"There's no strong hypnotic command that I could detect," Mu Huan said.

"As you can see, Sen Tai's intelligence and memory are fine. If he wasn't hypnotized, why would he listen to his newlywed wife so much? Although he has always liked this newlywed wife and would give her whatever she wanted, he knows what he can and can't do. When it comes to power, he won't cross

the line. But now..." He had handed over more than half of his power. Even the leader had no right to take back his power.

Mu Huan thought about it and said, "Have you done all sorts of examinations? Has the blood test revealed any special composition?"

"Do you suspect that he was drugged?"

"Yes."

"What medicine can make a person whose mind is clear and who knows what they're doing still do irrational things? And only listen to one person?" Lin Tai felt that such a drug couldn't possibly exist in this world. It was too terrifying to have such a drug.

"Although I don't know what kind of drug it is, there are all sorts of strange things in this world. There are also many experts." There were many formidable and capable people in this world. What they didn't know and things that they felt were impossible might really exist.

"I didn't do a blood test specifically for this, but a while ago, Sen Tai just had a cold. I've had a checkup done. I'll get someone to bring those test results over. See if there's any problem."

"Okay."

After Mu Huan had taken a look at those test results, there was only one data that was abnormal. However, though this data was abnormal, there were many possibilities as to why. Hence, she could not be sure of anything at the moment. She had to go back and study it carefully.

"Oh, right. Before coming, I heard from Junyan that you've found evidence that Ling Wei's plastic surgery has something to do with her involvement with Sen Da. What kind of evidence is it? Let me take a look." On the way here, Mu Huan had heard from Bo Junyan that Lin Tai had a lot of evidence.

"I've long prepared it for you." Lin Tai handed Mu Huan the file containing the evidence.

Mu Huan took it and quickly flipped through it. "With these things, we can..."

On the way here, Bo Junyan and Mu Huan had discussed a plan. After looking at these pieces of evidence, she confirmed that their plan was possible, so she told the plan to Lin Tai.

After Lin Tai heard this plan, he said, "That's great! This way, we don't have to investigate what's wrong with Sen Tai. We can just directly take out Sen Da and Ling Wei!"

Chapter 1378: The Last Battle (13)

Mu Huan and Bo Junyan's plan was very good. If it was successful, Sen Da and Ling Wei would really be implicated. However, many times, plans could not keep up with changes!

The super virus that Sen Da had developed this time was especially ferocious. Not only was it highly pathogenic, but it was also very effective!

Mei Lin and Lin Tai had a high fever that night and showed signs of a severe cold.

Bo Junyan had a fever the next morning. Initially, he did not believe that he had a fever. Mu Huan had forced him to take his temperature to confirm.

“Why would I have a fever?” Bo Junyan looked at the thermometer in Mu Huan’s hand and felt that this was unbelievable. He had always been as strong as a cow. When he was young, he rarely fell sick, let alone now. It wasn’t an exaggeration. Ever since he could remember, he had never caught a cold, let alone a fever!

Mu Huan looked at his expression of disbelief and laughed. “Which living human doesn’t fall sick?”

At this moment, she thought that Bo Junyan was only having an ordinary cold and fever and was still in the mood to smile.

“Then...” Bo Junyan was about to say something when his phone rang. It was a call from PA Wang. He said that he had a fever and was dizzy from it. He needed to rest in bed and take a day off.

Bo Junyan approved his leave and hung up the call. Just as he was about to say something to Mu Huan, his phone rang again. It was from Lin Tai. He said that he had started to have a fever late last night. Not only did his fever not subside, but it even made him unable to get out of bed. The plan had to be postponed.

Bo Junyan frowned after hanging up. “Why is everyone suddenly with fever?”

“What’s wrong?” Mu Huan asked as she put away the thermometer.

“Lin Tai and PA Wang have a fever, and they can’t get out of bed.”

When Mu Huan heard this, she frowned. If Bo Junyan had a fever alone, it wouldn’t have been a big deal. After all, people would fall sick. However, the three of them were all very healthy. There were no signs that indicated they would suddenly burn up. This was very strange.

“What’s wrong?” Bo Junyan looked at her. Was there a problem?

“I feel that something is amiss. People do fall sick sometimes, but you guys suddenly have a fever together...” Before Mu Huan could finish speaking, Bo Junyan’s bodyguards walked in and said, “CEO, Madam, a few brothers have a fever. It’s very high. I think we need to send them to the hospital.”

When Bo Junyan and Mu Huan heard this, their eyes instantly turned serious. They both studied medicine. Under such circumstances, there was only one possibility. This fever was not an ordinary fever. They might have contracted influenza!

Bo Junyan snapped back to his senses and hurriedly covered his mouth and nose. He looked at Mu Huan and said, “Hurry up and get out. I can take care of myself!”

He was afraid that he would infect Mu Huan.

“If you were going to infect me, you would have done so long ago.” Mu Huan reached out to grab his hand. If she had contracted this virus, she would have caught a fever with them long ago.

Bo Junyan insisted on covering his mouth and nose. “Perhaps the concentration wasn’t high enough previously. If you inhale too much, it will spread. Hurry up and get out or put on protective measures!”

“Okay.” Mu Huan thought about it and nodded. This was indeed not a joke. If she collapsed, who would take care of her husband?

In the afternoon, Mu Huan realized that the situation was becoming more and more serious. More and more people around them were showing symptoms of a fever. This was very different from the common flu. This was because no matter how fierce the influenza was, it was not this fast.. This one was so fierce, and the illness developed so quickly.

Chapter 1379: The Last Battle (14)

Also, Bo Junyan’s blood test had come out. The data was very abnormal. She got someone to send over Lin Tai and PA Wang’s blood test reports. She realized that their blood test reports were similar. She also had the blood test reports of those feverish bodyguards brought over. They were also very similar. These blood test reports could confirm that they had the same infectious disease. The symptoms that had developed until now were not very similar to influenza. Instead, they were very similar to the initial stage of infectious pneumonia.

She got someone to call Mei Lin and Sen Tai to confirm that they were also having a fever. Seeing who it was that had contracted it made her sure that this virus had a strong pathogenic rate. A large number of them had collapsed!

Usually, infectious diseases that struck people down on a large scale were spread through the air. Not suspecting that the virus would also be contagious during the incubation period, they initially felt that it was just an ordinary cold and fever. They did not put on any protection. During this period, they had interacted with many people, and these people had interacted with many other people...

Among all infectious diseases, infections that were transmitted through the air were the most serious. It really spread like wildfire.

Realizing the severity of the situation, Mu Huan immediately got Lin Tai to get Country F’s epidemic department to activate the most urgent infectious disease plan. They isolated all the sick people and disinfected public areas on a large scale. They urgently enforced wearing masks with the highest protective levels.

That night, Bo Junyan was still having a high fever. No matter what medicine Mu Huan used on him, his fever would not subside.

“This virus is too ferocious,” Bo Junyan said.

“It’s too strange,” Mu Huan said with a frown.

“Are the protective masks in place?”

“The level of the protective masks here isn’t high enough. I’ve already gotten someone to urgently transfer over the highest level protective shield. It’s just that I’m afraid that even if we enforce the highest level of epidemic plans, there will still be more and more people who will get this illness. This is because there’s news from Country Y that the hospital over there is full of people who suddenly have a high fever. I’ve taken a look at the examination report. It’s a type of illness like yours,” Mu Huan said with a heavy expression.

The news from Country Y made her previous guess invalid. Could it be that this was only a sudden infectious disease? Just like back then...

"Don't take care of me. This virus is too fierce." Bo Junyan was afraid that even if she wore a protective mask, it would be useless.

"I really can't take care of you anymore. Just now, the research department called and said that this is a new virus with a mutation. It has a very high pathogenic rate. With such a high pathogenic rate, the mortality rate is definitely... extremely high..."

"Even someone with a strong body like you has a high fever. If this goes on..." Mu Huan clenched her fists tightly and could not continue. "I need to rush to the laboratory immediately. Hubby, wait for me!"

She would definitely not let anything happen to him!

"Don't worry." Bo Junyan smiled.

Mu Huan didn't want to leave him at this time, but she knew that the most important thing now was to find a drug that could suppress this virus. Otherwise, his fever would never go away...

"Hurry up." Bo Junyan wanted her to hurry up.

Mu Huan knew that this was a race against time. She couldn't have such a struggle. She stood up and said, "Professor Yan will be here soon. He's in charge of taking care of your illness. If anything happens, he'll inform me immediately. Hubby, wait for me!"

"Okay, don't worry." Bo Junyan asked her to go without worry. He would not be defeated by such an illness.

Mu Huan did not say anything else and turned to leave.

Chapter 1380: The Last Battle (15)

Not only was Mu Huan not sick, but the news of her finding an expert team to study this new virus quickly reached Ling Wei and Sen Da.

Back then, Ling Wei had suggested using poisonous gas, but Sen Da did not use it. Ling Wei had no choice but to think that once Mu Huan and Bo Junyan were sick and Sen Da did not take action, she would secretly kill the two of them.

Unexpectedly, Mu Huan wasn't even sick!

Bo Junyan had collapsed from such a high concentration of the virus, yet she was fine!

Seriously...! She was furious!

"Tell me, why did Bo Junyan collapse instead of Mu Huan? Now that Mu Huan has gone to the laboratory, what if she finds out how to suppress this virus?" Ling Wei asked anxiously.

"I personally participated in the research and development of this super virus. It requires a drug that she can't easily develop for treatment. Even if she can develop it, she'll be almost dead by then." Sen Da sneered.

Bo Junyan was the first batch of people to come into contact with the virus. He had taken in the highest concentration and would die the fastest.

Also, what did she think entailed researching a drug? What drug could be developed in a few days?

“As long as Mu Huan doesn’t collapse, I’ll always feel uneasy!” Mu Huan was too capable. She didn’t even collapse, making Ling Wei unable to feel at ease no matter what. She was afraid that she would figure out something that would allow them to get through this crisis.

“Tell me, why would this virus be effective on someone as strong and immune as Bo Junyan? Why would Mu Huan be fine?” Ling Wei couldn’t figure out why Mu Huan was fine.

“It’s possible that she was born with antibodies to this virus. Besides, it’s not just her. There are other people around them who are fine. You’re a doctor too. You should know that no matter what kind of virus it is, there are always people who are immune to it.”

It was just like how every time there was an epidemic, there would be people who would be fine even if they had interacted with people who were sick.

Ling Wei understood this logic, but it just had to be Mu Huan who was fine.

She had wanted to say that if he had only used poison earlier like she had asked, it wouldn’t come to this. Instead, he had insisted on using the virus. But now, not only was Mu Huan not dying from this illness, but she wasn’t even sick!

However, when she thought that her words would only anger Sen Da and would not do anything else, she could only tolerate it and change her method.

“No matter how I think about it, I feel that Mu Huan is going to be fine. Her counterattack ability is too strong. Besides, she can even develop a life-extension drug. If this virus is successfully studied by her, our efforts will have been wasted!” To someone like Mu Huan, nothing was impossible.

Sen Da felt that her worries made sense. Mu Huan’s talent in pharmaceutical studies was really rare. Most importantly, she was immune to such a virus at present. If she used her own serum extraction research and such, she could really develop an antidote to suppress it. “Then what do you want?”

“Most of Bo Junyan’s people are hospitalized now. As they’re afraid of getting sick, there aren’t many people around him who are in charge of protecting him. Also, Mu Huan doesn’t dare to leave Country F because she’s worried about Bo Junyan. She’s in the laboratory here. You should be able to infiltrate the researchers here.

“This is the best time to take their lives. There’s no need to think about anything else. Just kill them! Under such circumstances, no one will care about their lives!”

From the start, what Ling Wei wanted was Bo Junyan and Mu Huan’s lives. People like them could only be eliminated by taking their lives!

She would not leave any regrets and would not be killed by them.
