

Fake Marriage 1401

Chapter 1401: The Last Battle (36)

Mu Huan thought that since this virus was man-made, they must have wanted to make a fortune from a disaster. Now that a drug that could effectively control this virus had appeared out of nowhere, the next step should be to have a vaccine. After the vaccine had earned enough money, there would be a drug that could completely cure this illness.

If they wanted to earn money in time, they must have prepared these drugs and vaccines long ago. In other words, there were drugs that could cure this illness right now!

If this super virus was made by Sen Da, then the medicine and the vaccine would definitely be in his hands. The virus itself didn't have to be much, but to provide medicine to so many people, each country would definitely have to prepare a lot. No matter how cautious Sen Da was in not producing such medicine in Country F, Country F would definitely have some stock now.

Up until now, although they had developed a drug that could effectively control the illness, it would still take time to develop a drug that could completely destroy this virus. If there was a drug that could directly treat this virus, of course, they would first get it and see what it was! If there was no problem, they would let her husband use it first. They would talk about other things after her husband had recovered!

As long as her husband was not well, her heart would always be in her throat. Even if she was relaxed, it would quickly rise. Her nerves were always tensed.

At the thought of this, Mu Huan immediately called the leader's eldest son and told him about her conjecture. She asked him to find the medicine.

Then, she called Yu Hansheng and wanted him to check on Mr. Liu and his son. She felt that Mr. Liu and his son definitely had medicine with them. They had to be prepared. The earlier they found the medicine, the better!

Country Y...

The huge underground waterway was like a maze. If it was just big and messy, it would be difficult to find an exit. A person like Yu Hansheng would not be afraid. But he had a trauma. He was like someone who was claustrophobic. In a dark and sealed place, they would be afraid and unable to breathe.

Yu Hansheng was the same. This was especially so since there were creatures he hated the most here. Just thinking about them made him feel disgusted. Rats! Their existence made his body stiffen and his breathing become irregular. It made his judgment plummet by 80%, making him inferior to an ordinary person. He even thought that he might die in the sewers and be...

That kind of image disgusted him. He could never accept dying like this and letting that possibility happen!

He couldn't accept this. This disgust made him do everything he could to find the exit! Finally... he found the exit!

Yu Hansheng felt that he had spent a long time to find the exit from such a dark and disgusting place.

Don't ask him how he had endured all this time. He wouldn't tell anyone!

This time, the time he spent in the sewers had made the shadow in his heart worse. He thought that in the future, just hearing the words "sewer" would make him want to explode!

The moment he closed his eyes, he'd feel nauseous!

Previously, Yu Hansheng had no signal in the sewers, and the locator on him was useless. His men could not find him no matter what. No matter how much they pestered Ouyang Xiaoxiao to ask about their master's whereabouts, Ouyang Xiaoxiao did not say anything. Furthermore, because they knew that their master would not be safe, they did not dare to force her to tell them. They could only search around anxiously.

When Yu Hansheng climbed out of the ground with difficulty, because of the signal, his whereabouts were immediately indicated on the team leader's watch.. A few people hurriedly drove over.

Chapter 1402: The Last Battle (37)

Yu Hansheng felt that he had spent a very, very long time to find the exit and crawl out. That was indeed the case. It had been two days and two nights!

For two days and two nights, Yu Hansheng's stamina could withstand the mental torture. After he climbed up, he collapsed to the ground in exhaustion.

When the team leader and the rest got off the car and looked at the disheveled person lying on the ground, whose white clothes had turned black and whose body was still in tatters, they wanted that person to be their master. At the same time, they prayed in their hearts that it wasn't their master. If their master was in such a miserable state, they would suffer for half a year!

However, no matter how much they prayed, that person was still Yu Hansheng, their master.

When the team leader met Yu Hansheng's eyes, he, who had seen many storms, shuddered. He really wanted to turn around and run, pretending that he did not see their master.

However...

He could only think this way. Even if he was going to die in the next second, he had to go forward.

He stepped forward cautiously and asked, "Master, are you alright?"

Yu Hansheng's eyes instantly turned even more bloodthirsty. Did he look like he was fine!

He was like this now, and he was still asking if he was alright!

The team leader immediately realized that he had said something wrong. He hurriedly reached out to support Yu Hansheng. "Master, let's go back first."

"A bunch of useless trash!" They actually couldn't find him for so long!

Yu Hansheng could not help but curse, but the moment he opened his mouth, the stench entered it. Instantly, he felt nauseous!

He did not dare to say another word!

He had to kill Ouyang Xiaoxiao! He had to!

He returned to his place and washed up a hundred times. When he came out to eat, Mu Huan called.

“No matter what, don’t bother me!” Yu Hansheng had picked up the call.

He was in a terrible mood!

“It’s an urgent matter,” Mu Huan said.

Although Yu Hansheng was in a bad mood right now, at a critical moment, he, as a senior brother, would not ignore her urgent matters. “What’s the matter?”

“I suspect that Mr. Liu has a drug that can treat this virus. If you have the time, go and investigate it yourself. Get me some!” Mu Huan said.

“Are you so useless? You haven’t cured a cold even now!” Yu Hansheng was in a bad mood and was also poisonous. He described this super virus as a small cold.

“Yes! I’m useless. I can’t even cure such a cold. Senior Brother, please. You’re the best! You’re the best in the world!” Mu Huan could tell that he was in a bad mood and immediately patted him on the back.

She was a person who could bend and stretch.

Yu Hansheng snorted.

“After Senior Brother finds it, get someone to take a private jet and send it over to me,” Mu Huan said.

“If I’m in a good mood, I’ll go look for him. If I’m in a bad mood, I’ll wait for Bo Junyan to die!” Yu Hansheng said coldly.

“Don’t. That’s your junior sister’s husband.”

“Get lost! I’m annoyed to see the two of you!” Yu Hansheng said as he hung up!

Freaking hell! Initially, Mu Huan’s situation had been similar to his. He was struggling in pain and had gained a companion. When he saw that she was also in pain, he felt better. In the end, their luck turned!

And he was in such a miserable state! And now, she even wanted him to help her! He was really frustrated!

After he hung up, Mu Huan did not call again. She knew that no matter how upset he was, he would eventually do this.

Yu Hansheng hung up and went to eat with a scowl.

Chapter 1403: The Last Battle (38)

However, the moment he reached the dining table, he felt that he was smelly all over. Hence, he took a few more baths until his body was red. The perfume that he had sprayed on him was so fragrant that it made one want to sneeze. Only then did he sit down to eat.

After picking up his chopsticks, he put them down again. "Go, go to the Liu family to find the cure for that virus."

After Yu Hansheng said that, he suddenly thought of something. "There's no need. I'll go by myself later."

Although Mu Huan said that she was suspicious, she must have been confident that he could find the drug. In other words, this virus was not a natural disaster but a man-made disaster. If there was a drug, there must be a vaccine. He would go and look. If he could find a vaccine and confirm that there was no problem, he would inject it into the mother and son first.

He suddenly stopped thinking!

That damn Ouyang Xiaoxiao had treated him this way, yet he still wanted to do something for their own good and even personally find a vaccine for them!

Was he crazy?!

For the first time in his life, Yu Hansheng felt that he was a masochist.

Country F...

Sen Da saved Ling Wei before the leader's eldest son, Sen Sun, came to capture her. Although he was very angry with Ling Wei, he still had some feelings for her. Furthermore, he would keep her for now. Perhaps she would be useful one day.

"I already said we can't send people to attack Mu Huan, but you still insisted on doing that. What happened in the end? If I hadn't saved you in time, you would have been caught! Do you think you're the only one with some connections? Do you think everyone else is weak?"

Ling Wei felt that Sen Da was not treating Mu Huan and Bo Junyan as his enemies, and Sen Da felt that Ling Wei was thinking too simplistically. She did not think that no matter how powerful Sen Tai was, he would not be able to win against the leader. Sen Tai's death could encourage those people to attack Mu Huan. However, once Sen Sun stepped forward to stop them, it was useless. Even if he fanned the fire behind them and made them fight in the end, it would be useless.

Those people had been settled by Sen Sun's men in the end. They were dealt with in one day. Not to mention destroying Mu Huan, that laboratory did not even suffer any major losses.

Ling Wei's expression darkened. She was in a terrible mood. She did not expect that she would not be able to kill Mu Huan even after using such a team. "Why did that damned Sen Sun help Mu Huan?! Shouldn't he think that his father was killed because of Mu Huan's treatment plan?"

If it weren't for him helping Mu Huan, Mu Huan would have died long ago!

Damn it!

Ling Wei felt that it wasn't that she was thinking too simplistically. Under such circumstances, if there weren't any accidents and if there wasn't that fool helping Mu Huan, Mu Huan would definitely be dead!

He could have killed her in an instant! But he didn't let her die!

This made her want to vomit blood!

"He's not a fool. You could even think that it was me who did it, so how couldn't he!" Sen Da rolled his eyes at her.

Ling Wei: "...!!"

She understood him and knew all his actions. Hence, she could guess that it was him. That Sen Sun did not know about his preparations! How could he definitely guess that it was him?!

Even if he could guess, it was because he, Sen Da, was not careful enough!

However, she did not dare to say these words because she had to rely on Sen Da to survive. "What do we do now?"

"Two important obstacles have died, and only I'm left to fight with this yellow-haired boy, Sen Sun. Then we can just fight openly!" Sen Da now felt that since he had killed his two half-brothers, he had won more than half this round.

"What about Bo Junyan and Mu Huan?" Ling Wei was only concerned about the two of them.. She only wanted to know when they would die.

Chapter 1404: The Last Battle (39)

She had no choice now, so she really wanted to know if he had a way to make the two of them die and let her see some light in life.

"Since I have power now, do you still need to be afraid of the two of them?" Sen Da raised an eyebrow. Couldn't she see beyond this? She was always conflicted about the two of them. She only wanted the two of them to die and didn't think about anything else.

Ling Wei: "..."

He couldn't even find Bo Junyan or kill Mu Huan, and he still thought that he had power. He really knew how to daydream.

Just as she was about to say something...

Sen Da said, "You can't let go of Mu Huan and only want her to die. Actually, there's another way. Right now, even if Sen Sun knows that I was the one behind his father and Sen Tai's deaths, the people don't know. To most of the people now, Sen Tai and the leader died because Mu Huan's treatment plan went wrong. I'd even made a few seriously ill people die and made it look like it was because of Mu Huan's treatment plan. Hence, the people are very dissatisfied with Mu Huan now. Furthermore, Rui Hui had illegally tested the medicine.

“If the two of them are working together, it can be said that Mu Huan, be it in the past or now, doesn’t care about the safety of others. She tests drugs when she can’t even guarantee it won’t cause the person who took her treatment plan to die!

“We’ll incite the public’s anger and get them to attack the laboratory. Then, we’ll find some people to sneak into this crowd of people and take the opportunity to kill Mu Huan. When that happens, the law won’t punish the masses.”

“I’ve used this method last time. The chances of success are very low. Mu Huan didn’t even die when she was poisoned, let alone now that she’s fine.” Ling Wei didn’t want to use that useless method again.

“Even if she won’t die, it’s good enough to create trouble for them. If you don’t want to do it, I’ll get someone else to do it,” Sen Da said indifferently.

He said this to help Ling Wei, but in fact, he wanted to create trouble for Mu Huan and delay their experiment progress.

Ling Wei snorted and said, “Up to you.”

He didn’t do what she asked him to do, but he did what she didn’t want him to do. Seriously...

He could do whatever he wanted.

However, he didn’t do things for the sake of success. It looked like he was a little arrogant because of Sen Tai and the leader’s deaths. He felt that he had already succeeded by more than half. He had nothing to fear.

“Stay here and don’t do anything else. Sen Sun is currently hunting for you all over the city,” Sen Da said.

“Okay.” Ling Wei hummed lightly and sat down.

He could not count on her, and she was already at her wit’s end. There was no need for him to say anything. She would not go and would not do anything.

Mobilizing Sen Tai’s men to attack the laboratory and kill Mu Huan was already Ling Wei’s last move. That battle was her last battle. Even with this, Mu Huan wouldn’t die.

She had no chance to turn the tide.

She could only look to Sen Da now. If he could win and his daydream could come true, she could still live. If he lost, she would die. However, she felt that Sen Da was a little too overconfident now. If he was like that too early, the chances of him succeeding were not high.

She could even be said to be sitting and waiting for death. She thought that sitting and waiting for death would be a terrifying thing, but when she reached this point, she felt that it was actually nothing.

She was no longer anxious.

Sen Da saw how she was so calm now when she wasn’t before. He felt that there was something wrong with her. However, at this stage, he did not have the time to think about what was on her mind.

Chapter 1405: The Last Battle (40)

Sen Da said a few more words to Ling Wei before turning around to leave.

After he left...

Ling Wei looked at the fallen leaves outside the window.

She judged that she would die in either autumn or winter.

...

"Hubby, how are you feeling now?" Mu Huan was video-calling Bo Junyan.

"Much better." Bo Junyan sat up and smiled.

With the effective medicine and his good constitution, he, who was originally sicker than Li Meng and Wu Xingye, had recovered better than the two of them.

"I got someone to find the medicine. Since they've made such a move, we should be able to find the medicine quickly. We'll find it and test it. It'll be fine. You'll be fine after taking the medicine," Mu Huan said.

"Okay." Although Bo Junyan was sick, he had been informed of the news. He knew that this was a man-made disaster, not a natural disaster.

Initially, he'd already felt that it was strange. This was because the people who were talking with them that day were the first to contract this illness. With their status, they rarely interacted with people outside. They should be people who could avoid even an infectious disease. However, they were the first to get sick. No matter how he thought about it, there was something wrong.

However, as Country Y had also developed such a disease, he thought that he had made a wrong judgment.

From the looks of it now, they were trying to make them think that they had made a wrong judgment. They were also trying to expand the area and make a fortune. That was why they had developed this illness in Country Y.

"Since there's already a ready-made medicine that can be used, don't work too hard. Sleep a little more. Look, your eyes are blood red." Bo Junyan looked at her eyes and spoke with heartache. He had eaten, drank, and slept here, and he was even being served, but his wife was busy! He was really... For the first time, Bo Junyan felt that he was useless!

"There's red in my eyes?! You must be seeing things!" Mu Huan had maxed out the camera filters. Even her eyebags looked white. It was impossible for her husband to have seen the redness in her eyes.

"I got someone to send me your current appearance. I know that you've turned on your camera filters." Besides, even a filter couldn't hide the redness.

Mu Huan: "...!!"

That nosy person actually passed on her current appearance to her husband!

Bo Junyan continued, "Don't work too hard. My condition is already improving. I'm sleeping much less now. Most of the time, I'm awake and don't have a fever. Don't worry."

"Don't worry about me. When it's time to rest, I'll definitely rest. I'm not working so hard now."

"Okay." Bo Junyan was about to say something else.

Suddenly, Mu Huan's phone became shaky.

"What's going on?!" Bo Junyan's expression changed.

"I don't know. Someone must have thrown something at me while sleepwalking. It's fine!" Mu Huan said with a smile.

Bo Junyan frowned and felt that the likelihood of that was not high. He heard the sound of glass shattering and was about to say something.

"Hubby, I'll get back to work. Bye! Muacks, I love you!" With that, Mu Huan hung up.

Her urgent hanging up made Bo Junyan feel even more that something had happened on her side. This made him so anxious that he wanted to get off the bed to look for Mu Huan. However, his body was so weak that he couldn't walk far. And as he wasn't fully recovered yet, he was still highly contagious. He couldn't move and walk around.

This made Bo Junyan once again feel that his body was too useless! He actually dropped the ball at such a critical moment! If he had not collapsed, his wife would not have had to work so hard!

Chapter 1406: The Last Battle (41)

In the future, no matter what kind of black supplement his wife brought him, he would drink it! He could no longer screw up at the critical moment!

After Mu Huan hung up the video call, she stood up and looked out. As she wasn't sure what was going on, she hung up first to prevent her husband from worrying.

She was in the resting area now. The thing that hit her hand had been thrown in through the glass window.

What she saw made her lips twitch.

What the f*ck was going on?

Were they all so unafraid of death? At such a time, they were still gathering and protesting!

"What's going on?" Professor Sam asked as he walked over.

"A group of people has gathered outside to protest. They are saying that we didn't care about the lives of others and used drugs randomly to kill people. They said that I, a dog, can't change my ways and can only eat poop..." Mu Huan's lips curved into a cold smile.

Professor Sam looked at the people outside and broke out in a cold sweat. "Even in a situation where the virus is raging, they're still gathered together to protest. What are they doing? Do they want to get sick?"

"They probably think that now that there's a medicine that can treat this illness, there's nothing more to be afraid of." Mu Huan shrugged.

"This wasn't our fault. There's definitely no problem with the treatment plan. Even the leader's son, Sen Sun, knows that it's not our fault. There's someone else behind it!"

"But these people don't know."

"But what's the point of them gathering to protest? What do they want you to do? Apologize?"

"The enemy is probably taking this opportunity to get someone to sneak in and take my life, or he's trying to take the opportunity to destroy the place and cause trouble. Look, because of the epidemic, they're all wearing thick protective shields. No one can recognize who anyone is. If they did something, there would be so many people that we wouldn't be able to find who it is." Mu Huan lifted her chin and looked over.

Professor Sam broke out in a cold sweat.

This young woman was really... Other than when her husband had collapsed and she was so nervous, she had never panicked, nor was she afraid of anything else.

Suddenly, another brick was thrown in their direction.

Mu Huan hurriedly pulled Professor Sam away.

Professor Sam, who was almost hit, cursed with lingering fear, "What a bunch of brainless people!"

Mu Huan sneered. "That's right. They're brainless!"

"But this can't go on. Look, those people are about to rush in. They'll destroy a lot of things. If they rush in, our laboratory will suffer too!" Professor Sam said worriedly.

Seriously, what was going on? One wave after another came at them. They couldn't even quietly conduct an experiment!

Mu Huan narrowed her eyes, planning to get someone to grab those people who looked like they were stirring trouble and throw them out.

A group of people quickly got out of a car and surrounded the group.

The person who came was Sen Sun.

Soon, his men took control of the entire situation.

After the matter had been settled, Mu Huan immediately called Bo Junyan.

"How's the situation on your side now?" Bo Junyan asked anxiously. He had just learned from someone that Mu Huan was being mobbed by the public.

Previously, there was news that what had happened to Sen Tai, the leader, and some seriously ill patients was being blamed on his wife. They said that there was a problem with her treatment plan, and those people were incited to attack her.

Perhaps it was because people felt that there was already a medicine that could treat this illness that they became bold. There were many people who went to attack his wife's laboratory.. They had smashed many things, although they knew that with his wife's skills, she would definitely not suffer.

Chapter 1407: The Last Battle (42)

However, he couldn't help but worry.

If he couldn't be by her side, he couldn't control his worry.

"Sen Sun's men came to control the entire situation. He even held a press conference and took out the evidence in his hands to prove that his father and Sen Tai's deaths had nothing to do with me. It was Sen Da who had tampered with their medicine that caused their deaths. Furthermore, he had also gotten someone to investigate those seriously ill patients who had passed away. They had passed away because of a problem with the medicine. Now, the people outside the laboratory have dispersed," Mu Huan said.

When Bo Junyan heard this, he said, "This Sen Sun is a fast and capable person."

"Yes! He's very capable! The evidence he took out is simply perfect. It makes one feel that his father's death was actually a trap he had dug for Sen Da! Because if he hadn't known in advance that Sen Da wanted to harm his father, he wouldn't have gathered such perfect evidence." Mu Huan felt that they might have fallen into a palace drama.

No... the situation they were in now was really a palace drama plot. The brother wanted to climb up, and the son wanted to do the same. The brother killed the leader, and the son took the opportunity to counterattack.

Bo Junyan: "..."

"But no matter what, it's fine as long as he's an ally now." Mu Huan didn't want to care, and she didn't want to know too much about the palace drama. She only wanted to quickly treat her husband and then find that damn Ling Wei and kill her! That would be the end.

"Yes."

The press conference that Sen Sun held let everyone know that it wasn't Mu Huan's treatment plan that had killed the leader and Sen Tai. It was someone else who had tampered with his father and second uncle's medicine and killed them. His evidence pointed to Sen Da being the mastermind. He had killed Sen Tai and the leader because he wanted to seize the leader's position.

Furthermore, the evidence that Sen Sun had laid out made people feel that this had something to do with Sen Da. Although they could not be sure, they could not help but imagine many conspiracy theories.

Besides, even if the pandemic had nothing to do with him, he had killed his two half-brothers and wanted to usurp power. This was a crime and he was scum! He should be punished!

Sen Da would never have thought that inciting the public and reporters to surround Mu Huan's laboratory and create trouble for her would become the best stepping stone for Sen Sun to counterattack him!

This made him furious. At the same time, he realized that he had always underestimated this nephew of his. This nephew of his was not ordinary at all!

Sen Sun's press conference had been broadcasted on every station, so Ling Wei naturally saw it.

She looked at Sen Da and sneered. "I told you not to do such a thing, but you insisted on doing it. Who's stupid now? It's more like you've created trouble for yourself."

Before the matter could be confirmed that he had won, he'd already had his head in the clouds and wanted to do some useless things. Now, things were like this.

"Shut up!" Sen Da said irritably.

Ling Wei sneered. Initially, she didn't want to bother about him, but when she thought about how it was Sen Sun who had ruined her plans, she said, "Don't you think that the evidence that Sen Sun took out was too perfect? If he hadn't known beforehand that you were going to lay your hands on Sen Tai and the leader, why would he have such evidence? If he only found out that it was you after the incident, he wouldn't have had such complete evidence."

"Are you saying that Sen Sun already knew that I wanted to harm Sen Tai and the leader, but he didn't stop me and took the opportunity to gather evidence?" Was his nephew so ruthless?

Chapter 1408: The Last Battle (43)

"That must be the case. His method of using someone else to kill another is not bad. He's also very ruthless. You have to be more careful." Although Sen Sun was the eldest, he had not been pampered. His father had doted on his second son more. Hence, Sen Sun was overseas all year round and never returned. She thought that he would remain an abandoned son. She did not pay attention to him. She did not expect him to be ruthless and capable.

Sen Da's eyes darkened and he did not speak further.

...

Mu Huan hung up Bo Junyan's video call and was about to call Yu Hansheng to see if he had an update when her phone rang. It was a call from Liu Changfeng.

She looked at her phone for a while before answering.

"Xiao Huan, I'm very happy that you can still pick up my call," Liu Changfeng said with a smile. He thought that she would hang up immediately after seeing that it was his number.

"What is it?" Mu Huan did not say anything else.

"Right." Liu Changfeng did not say anything else and said directly, "I have medicine here that can treat this virus. I've brought the medicine to Country F. If you want the medicine, come and find me."

Mu Huan: "...!!"

She had asked two groups of people to investigate this drug. Until now, there had been no news, but he, who had the drug, had delivered himself to her doorstep. This...

There were really accidents in life!

"I'll wait for you." Liu Changfeng hung up.

Mu Huan looked at the phone that had been hung up. After a moment of silence, she picked up her coat and looked at the assistant beside her. "I'm going out for a while."

"Shall I go with you?" The assistant immediately put down the things in his hand and stood up.

"No need. Stay in the laboratory," Mu Huan said as she walked out.

Liu Changfeng stood under a maple tree and waited for Mu Huan. The fiery red maple leaves in the autumn were even redder and more eye-catching under the sunset. However, such scenery was not as good as Liu Changfeng, who was standing there in a long black trench coat.

He had been rated as the most desirable person in the entertainment industry a few times, and with this male celebrity's looks, they were not exaggerated.

When Mu Huan saw him like this, she couldn't help but sigh. He was such a good-looking man and a Best Actor.

In this world, everyone liked to look at beauty. Mu Huan was the same. No matter if it was a woman or a man, she liked them. Whenever she saw a good-looking person go astray, she couldn't help but feel that it was a pity. She was always a little more forgiving toward good-looking people.

"Xiao Huan." Liu Changfeng smiled when he saw Mu Huan.

That smile made him look even better.

Perhaps it was because his mentality had changed or something, but Liu Changfeng's aura was different from before.

"Why are you giving me the medicine?" Mu Huan asked directly.

"I don't want to continue making mistakes." Liu Changfeng looked at the distant mountain.

Every day, the news was reporting about new patients and deaths. All of this was indirectly caused by him.

He could not be as ruthless as his father had requested. He couldn't completely let go of his conscience and be a bad person. He suffered from the torture of his conscience every day. That torture made him wish he was dead. It surpassed the indignation and all the grievances in his heart!

He didn't want this to continue!

He didn't want his father and that person to earn such unjust money!

"I have some evidence here. It can prove that this pandemic was caused by Sen Da," Liu Changfeng said as he took out a data card.

Mu Huan did not speak.

“Xiao Huan, if you can think of a way to only blame this pandemic on Sen Da and leave my father out, the drug and this evidence will be yours.”

Chapter 1409: The Last Battle (44)

Since ancient times, people had always wanted to be loyal and filial. Liu Changfeng couldn't bear the torture on his conscience. However, he couldn't hurt his father with his own hands. If he hurt his father, he would feel even more guilty and pained for the rest of his life.

Hence, he hoped that Mu Huan could resolve this matter. Not only would she be able to help the victims and stop Sen Da's conspiracy, but she would also be able to let his father off and not let him bear such a reputation.

Because once such a truth was exposed, his father would be swallowed up by public opinion and might be tortured to the point of not being able to live.

That was equivalent to him personally killing his father.

“I don't want you to let my father off completely. He should go to jail for all the crimes he has committed. Just don't let him bear the crime of spreading the virus,” Liu Changfeng said as he looked at Mu Huan with pleading eyes.

After a moment of silence, Mu Huan said, “I can get the drug myself. As well as the evidence.”

No matter who it was, they should pay the price for their actions.

Liu Changfeng looked at her and smiled bitterly. “Xiao Huan, I know you're very capable.”

He paused for a moment and continued, “But you also know that the characteristics of this virus can easily mutate. Furthermore, the complexity of the human body could be suppressed by medicine. It can mutate into a new virus at any time. It'll be even more difficult to treat. I think you'll want to end this storm quickly.

“And Xiao Huan, for the sake of our past relationship, can you do this?”

“Besides, my father was only instructed by someone. He's not the mastermind. It can be said that he was only used by someone.”

“Do you believe your own words?” Mu Huan raised an eyebrow. Was that man really just being used?

Liu Changfeng: “...”

After a long silence...

“Xiao Huan, I know that no matter what, nothing can change the fact that my dad did something wrong. But you should know that what's on the market now is only a basic medicine. This medicine can only control the development of the illness and can't completely treat this illness. And to be honest, no

matter how capable you are, you won't be able to find it in a short period of time. You don't have to look for it from my father. He only has a basic medicine with him, and there aren't many vaccines.

"My dad is listening to Sen Da's instructions, and Sen Da is also guarding against my dad. It's only because the medicine has arrived that my dad knows where it is. The few boxes of medicine in my hand that can completely treat this illness were taken by a relative of mine. My dad insisted on them coming over.

"Xiao Huan, I think you definitely want Bo Junyan to recover as soon as possible. I don't think I need to say anything else. You know that the faster he recovers from this illness, the more secure you will be." Liu Changfeng didn't expect himself to use his love rival, whom he really wanted dead, to convince Mu Huan to make the exchange.

There were really accidents in life that were unpredictable.

At the thought of this, he felt bitter.

Mu Huan was silent for a while before extending her hand. "Alright."

Liu Changfeng had wanted Mu Huan to agree to such a condition. But now that she had agreed, the bitterness in his heart instantly drowned him. For Bo Junyan, she had no bottom line.

Liu Changfeng passed the things to Mu Huan. Mu Huan took them and turned to leave.

"Xiao Huan, if it weren't for Bo Junyan, would you have been with me?" If it weren't for Bo Junyan, would she have been with him when he found her and let her enter NST to become the successor of Rui Hui?

"If I say yes and it makes you feel better, then I say yes," Mu Huan said.

Chapter 1410: The Last Battle (45)

Liu Changfeng looked at her and smiled. "You're really patronizing."

Mu Huan looked at him and was silent for a while. "Turn back while you still can. Your future can still be very good. Walk well."

The Buddha said, "Let go of the butcher's knife and become a Buddha."

In the past, she had always felt that this was too unfair. Many people could never become a Buddha after doing good deeds for their entire lives. What right did others have to become a Buddha after letting go of the butcher's knife?

As she grew older, she increasingly understood the importance of letting go of the butcher's knife.

As long as a person had a conscience, they could turn back even if they went astray. If they could stop more harm from happening, they would have a chance to choose a new life.

Liu Changfeng looked at her and couldn't help but say, "Can I hug you?"

Just a hug would do. Just a hug would make him have no regrets and no more thoughts.

"No." If her husband found out that she got hugged by another man, he would definitely be furious.

She didn't care if others would have regrets. She only cared about not making her husband unhappy.

Besides, what's the point of hugging her?

It was useless!

The smile on Liu Changfeng's lips became even more bitter. "Xiao Huan, you look like you have feelings, but most of the time, you're too heartless."

It was just a hug, but she was unwilling to save him from such regrets.

"I'm a heartless bad person. Don't think about me. There are many beautiful flowers in this world. Open your heart and hug them!" There was plenty of fish in the sea, so why should he be single-minded?!

If she were a man and a handsome one, and this woman didn't like her, she would immediately find another lady.

Without waiting for Liu Changfeng to say anything else, Mu Huan left.

Liu Changfeng looked at her departing back and watched her until she completely disappeared from his eyes.

When he first met her, he never thought that things would turn out this way between them.

He liked her so much.

If only life could be redone. If only people could have known and predicted things earlier.

Perhaps all of this would become different.

Liu Changfeng stood there and watched Mu Huan disappear. Only after a long time did he turn around and disappear into the night.

In the laboratory...

After Mu Huan returned, she immediately got someone to analyze the composition of the drug and test its side effects.

"Where did that thing come from?" Professor Sam said.

"It's from Liu Changfeng."

"That child is actually not bad," Professor Sam said with a sigh.

"Yes."

Mu Huan planned to give this drug to Bo Junyan first after confirming that it was safe and effective.

Unexpectedly, before she could finish her experiment on the drug, Bo Junyan, who was originally in good control of his illness, suddenly had a high fever.

After the blood test, Mu Huan's greatest fear had happened. The virus had undergone a new mutation. In other words, even if this drug was safe and effective, it would not be of much use.

Mu Huan was so angry that she wanted to kill someone! When they were creating this virus, did they not think that after going through the human body's complicated system or after using all sorts of drugs on it, it would mutate?!

This made the experts, who had originally heaved a sigh of relief and felt that this storm could end, nervous again.

...

Soon, Sen Da found out about the mutation of the virus.

When he was researching it, he had thought about the characteristics of this virus. However, he had predicted that he would settle everything before it mutated. Unexpectedly, the speed of the virus mutation far exceeded his expectations!

He had just started earning money from the vaccine.
