Chapter 17: Sharp Rock Bull

A weak sound echoed from the originally quiet shed, and it immediately attracted Lin Yuan's attention.

Lin Yuan turned around and couldn't help but use his hand to slap his thigh agitatedly.

When using True Data, the information of the fey had immediately appeared.

[Fey Name]: Sharp Rock Bull

[Fey Species]: Horned species/Bull species

[Fey Grade]: Elite (10/10)

[Fey Type]: Earth

[Fey Quality]: Epic

Abilities:

[Rock Horn]: After applying a rock layer on the horns, disregard injuries and smash into the enemy with full strength.

[Sacrifice]: When the contractor is injured, automatically split the damage with the contractor.

Lin Yuan was excited because this Elite X fey's quality was Epic!

It also meant that if this Sharp Rock Bull was healed, it would be able to reach bronze-grade with Epic quality, allowing the contractor to choose one exclusive skill among three skills.

Most importantly, this Sharp Rock Bull was a defense-type fey, and Chu Ci could use it.

Yang Mingkai had also heard the mooing sound, so he walked over and grabbed some stover for the Sharp Rock Bull.

He then said to Lin Yuan with an unbearable tone, "This Sharp Rock Bull has been the precious baby of our breeding base. No one expected for the Sharp Rock Bull's horn to break during the disaster. The value of this Sharp Rock Bull isn't because of its Epic quality but its elite-grade skill. This Sharp Rock Bull comprehended a rare ability that is exclusive to the Sharp Rock Bulls, Sacrifice. Our breeding base has nurtured over 1,500 Sharp Rock Bulls during the past years, but only this Sharp Rock Bull comprehended Sacrifice."

Lin Yuan had also noticed the ability, Sacrifice, which could halve the damage for the contractor. He really liked the ability.

If his younger sister contracted a fey that possessed Sacrifice, it would definitely be able to protect her better, making it the best meat shield.

However, Lin Yuan had a feeling that this Sharp Rock Bull didn't look too smart. Rock Horn was considered a suicidal charging attack that disregarded injuries. Sacrifice was an ability that helped to endure damage. This Sharp Rock Bull was simply a brave bull that was not afraid of bleeding and death. It was a top-class iron fool, not just a normal fool.

"I wonder how much you are willing to sell this Sharp Rock Bull for?"

If this Sharp Rock Bull was healthy, even Lin Yuan's current pots of Elite Usneas wouldn't be able to purchase 1/3 of the Sharp Rock Bull. After all, this Sharp Rock Bull was a masterpiece.

Yang Mingkai looked at the Sharp Rock Bull's broken horn and thought for a long time before speaking. "When this Sharp Rock Bull was healthy, I was preparing to sell it for 1.5 Radiance dollars. But if Young Brother wants it, I can sell it to you for 200,000 Federation dollars.

"Young Brother, I have to say something first. It isn't just this Sharp Rock Bull, the two Web-Spraying Spiders are also in the same condition. I have looked for a Healer to check on them and discovered that the three feys have injured their roots. Regular Healers won't be able to do anything. Only Creation Masters are able to heal them."

Lin Yuan wasn't concerned about this point.

Before this, Lin Yuan had experimented with his spirit qi's ability to evolve feys, using a pot of Jasmine Lily as a test subject.

Lin Yuan had cut off half of the Jasmine Lily's stalk. If it were left alone, the Jasmine Lily would definitely wither unless a Creation Master helped to nurture it with full attention.

However, after Lin Yuan had channeled his spirit qi into the Jasmine Lily, its injury had recovered automatically.

Therefore, Lin Yuan was certain that his method to evolve feys with spirit qi was able to heal feys that had injured their roots.

There was a point that Lin Yuan didn't guess wrongly, and it was the price of the Sharp Rock Bull, which was astronomical.

The Federation dollar was the Radiance Federation's lowest class of currency, and it was mainly produced for most of the ordinary people who couldn't sense spirit qi.

The Radiance dollar was the Radiance Federation's high-class currency, as high-grade feys were invaluable. The prices during transactions would easily reach tens of millions in Federation dollars, so the Radiance Federation had created the Radiance dollar.

A single Radiance dollar would be equivalent to 1,000,000 Federation dollars, and it was mainly used between spirit qi professionals.

If this Sharp Rock Bull was healthy, it would be sold for 1.5 Radiance dollars, which was 1,500,000 Federation dollars. It was a price that Lin Yuan couldn't afford right now.

However, the severely injured Sharp Rock Bull cost 200,000 Federation dollars, and Lin Yuan was able to afford it.

"Big Brother Yang, I know, but I still wish to trade. Why don't you come to my place and take a look at the quality of my Elite Usneas before we talk about the trade?"

Lin Yuan had already made the decision to buy both the Web-Spraying Spiders and the Sharp Rock Bull, so he couldn't wait to complete the trade.

Lin Yuan would still need to heal the Sharp Rock Bull's injuries after the trade. If he were too late, he wouldn't have enough time to catch the last train that headed for Chu Ci's school today.

Lin Yuan had already spent three hours away from his home. He might be able to sense spirit qi, but his body had yet to completely recover.

He felt that his head was getting increasingly dizzy as he had not slept for an entire night and had been searching for feys on the marketplace for over two hours.

When Yang Mingkai heard Lin Yuan extending the invitation to visit his house for the second time to check on the Elite Usneas' quality, Yang Mingkai immediately agreed.

Lin Yuan might have promised that the Elite Usneas were well-developed, but Yang Mingkai had to check on the quality before he could relax.

Yang Mingkai wanted to use the Elite Usneas and clone them to produce Usnea saplings. Therefore, the quality of the Elite Usneas must be great and of a strict standard.

Yang Mingkai already planned ahead in his mind. After he saw Lin Yuan's Elite Usneas and realized they were not up to his standard, he would negotiate for the price based on the Star Web's price.

If these Elite Usneas didn't reach the standard to conduct cloning, Yang Mingkai could only resell them, and it would be a waste of time and effort.

However, due to his good impression of Lin Yuan, Yang Mingkai had already decided to carry out this deal.

"Young Brother, wait for a moment. I will pack up this stall and leave with you. Since you are taking all three of those severely injured feys, there is no need for this stall to continue existing."

Lin Yuan felt great after hearing Yang Mingkai's words as it was a feeling of being trusted. Yang Mingkai had yet to see his Elite Usneas, and the two Web-Spraying Spiders and the Sharp Rock Bull would only last for a few more days too.

Packing up the stall is definitely a sign that Yang Mingkai trusts me. Even though Yang Mingkai hasn't seen the Elite Usneas' quality, he has already decided to make a deal with me. Otherwise, he wouldn't pack up the stall as the three severely injured feys wouldn't be able to endure harsh conditions outside of the shed.

"Big Brother Yang, let me help you."

Lin Yuan then picked up the housekeeping tools at the stall and started to clean up the stall's miscellaneous items. Yang Mingkai didn't stop Lin Yuan and was speaking as he tore down the shed.

"I just happen to have some Ostrich Logistics' custom boxes to store feys. Later on, we can use them to store the Sharp Rock Bull and the Web-Spraying Spiders. It will save us a lot of trouble."
