

Chapter 8

Eva closed her eyes and sucked in a deep breath to calm herself as she pulled the robe to cover upper body and slowly opened her eyes back.

Turning away from the mirror. There was still a lot for her to do so she decided to put last night incident behind the back of her head and focused on the present. She glanced at her torn black dress which was placed on the bed, there was definitely no way she was going to wear that torn dress out of here.

Eva grabbed her cellphone and dialed a number. "Hello, Gwen. Can you get me some new set of clothes. Make it a long sleeve and turtle neck and a new pair of shoes and lady undies." Eva quickly ordered immediately the call connected.

"Oh my God! Eva! Where have you been since last night. I heard about what happened to you. Are you-"

"I'm fine, just get me what I asked you to." Eva said interrupting Gwen sentence

"Okay, where do you want me to bring the dress to?" Gwen didn't bother to pry any further and asked. 1

"Grand land Hotel. And don't bother going to get me those clothe from my apartment am sure that place is already

swarming with those greedy reporters, make sure that no one follow you here, okay?" Eva instructed.

"Grand land Hotel? Alright, I understand. I'll be there in a short while." Gwen said, although she was surprised by what she just heard from Eva, she decided to bottle up her curiosity and carry out the task first before she asked for an explanation.

"Thanks." Eva said and disconnected the call.

After the call ended, Eva grabbed a towel and started drying her wet hair. When she was done she laid down on the bed waiting for Gwen to bring her new clothes to wear.

In the parking lot, Damien walked out of the elevator beside him was his personal assistant as he strolled towards the black car that was parked a few meters away from him.

One of the bodyguard bowed and opened the back seat car door for him when he got closer to the car. Damien enter the car while his personal assistant turned around and sat down in the passenger seat next to the driver before the car left the hotel. A car that was filled in front of them and nThey w

After a few minutes drive away from the hotel. "Shane, who was the woman you sent to my room last night?" He asked all of a sudden surprising both Shane and the driver but he kept shut and continued driving.

"Boss, why did you ask all of a sudden?" Shane asked in curiosity as he turned to look at Damien in the back seat.

"That's not an answer." Damien remarked in cold tone.

"I-I have no idea about her identity." Shane immediately replied. Last night when he was in a hurry to find a woman he came across Eva who was about to enter her room. Without thinking twice he grabbed her after muttering an apology to her and shoved her into his Boss room. He had no clue about who she was.

"Investigate everything you know about that woman for me." Damien ordered in his usual voice was cold and indifferent.

He couldn't get Eva off his mind no matter how he tried. Normally, when women see him they couldn't wait to be with him, yet the woman he had shared an intimate exercise, instead of clinging onto him she was trying to get rid of him.

He had to admit, she was truly beautiful. She was definitely the most beautiful woman he had ever laid eyes on not even the most beautiful celebrities could match her beauty.

However, it wasn't her beauty that caught his attention, it was her unique personality. No one has ever dated to raise their voice or had the guts to speak to him in the manner she did.

Surprisingly, he wasn't disgusted by at all, instead he found

her interesting.

Without realizing his mind wandered off to last night. At the social gathering, he knew his drink had been drugged by Simon and little vixen. That was the reason why he called his assistant and ordered him to change his hotel room, because he didn't know when Simon had drugged his drink.

When the gathering ended, he headed straight to his hotel room after noticing the sudden change in his body. It was a burning temperature he had never felt before.

He took a long shower hoping it was going to ease the feeling, but it didn't work. That's was when he finally realized that he had been drugged with aphrodisiacs.

As much as he loated been in close contact with the opposite sex, he couldn't deny how he feeling, and that was how he ordered Shane to find him a woman.

He also tried to resist and hesitated at the idea because he's never been with a woman before. But he figured that he would just use the woman and offer her a huge amount of money she wouldn't be able to resist and shut her up.

When Shane tossed a woman into his room, his normal mind went wild from her scent and the softness of her skin. She had a scent of natural roses unlike other women who wore strong perfumes. Because of his burning lust and desire, he casted the idea that she was some ramdom woman and didn't hesitate to devour the woman.

He planned on just doing it once but didn't realize when he had his way with the woman rounds after round.

It was his first time in his thirty years of living, he was sharing the same bed with a woman. And it was he didn't know.

But his stupid body wasn't cooperating with his mind. So much for him having high EQ and IQ.

It wasn't until 4am before the drugs effect wear off and he closed his eyes in exhaustion. When he finally woke up he was pissed at himself and planned to just get up and leave, however, when he glanced at the woman beside him, he came to realize that that woman he had spend an entire night with was a virgin based on the bloodied bedsheets cover.

Seeing that she was fully naked and she still had her heels on, he decided to take them off for her.

Since he hadn't done this kind of task before, it took him a few minutes of struggles before he was able to take off her heels.

For some unknown reason he felt at peace just by watching the beauty sleep next to him. He felt nothing else mattered at the moment.

After covering her up with the blanket, he laid down back on the bed, wrapping his hand around the naked woman, while
