

MY FINTECH EMPIRE

Chapter 9 [Fang Hong's tricks are right (seeking collection monthly pass)]

Cao Chenghui edited a message and sent it, but he didn't receive a reply after waiting for a long time, which gave him a bad feeling, and the feeling that the wealth code was lost on the eve of getting rich became inexplicably stronger.

At the same time, Fang Hong was running on the school playground, and his mobile phone was left in the dormitory.

It is now during the summer vacation, and he chose to apply for staying at the school, and there are not many people in the school now.

About half an hour later, Fang Hong left the playground and went back to the dormitory after walking for a while. There are not many people in the school now, but there are still some.

I went back to the dormitory, took a shower, and changed into a set of clean clothes.

Fang Hong looked in the mirror, looked at his young face in the mirror and couldn't help but sighed, "It's good to be young, just like the sun at eight or nine o'clock in the morning."

It is said that men are teenagers since they die, and their hearts will never grow old, but the aging of the body has to obey the old.

Traveling through rebirth to 2008, this vigorous twenty-year-old body made Fang Hong feel the beauty of exuberant vitality again.

At this moment, a classic QQ message alert came from the mobile phone.

Fang Hong picked up the phone and opened it to check, and found that Cao Chenghui had sent two messages, so he entered the chat window to check.

[Brother, are you there?]

[Why don't you come to the Internet cafe to play recently?]

Fang Hong laughed, and Cao Chenghui finally couldn't bear it after not showing up for a week.

He had just tasted the sweetness of getting rich, but in the end the experience card was only available for three days. How could he survive this?

This is what Fang Hong wanted.

Cao Chenghui's mentality was tightly controlled by him. He wanted to gain leverage from the other party, but he would never take the initiative to ask for help. This kind of operation showed that his rank was too low, so he deliberately played and disappeared in the past few days.

After a while, Fang Hong edited a text message in the chat window, and then sent it out: [I'm going to increase leverage, I'm trying to get more principal these days, and I'm busy with this matter.]

At the same time, on the other side, Cao Chenghui quickly opened the chat window when he saw the boss' QQ avatar finally jumping and a message came.

The boss finally replied!

When he saw the content of the message, Cao Chenghui immediately replied: [Did you get the money?]

Fang Hong looked at the latest news, with a smile on his calm expression, and immediately sent the edited text calmly: [No, it is summer vacation now, and several friends from college have gone back, and I plan to go back to my hometown tomorrow to find a way to make five Sixty thousand dollars]

On the other hand, when Cao Chenghui saw the news, he was also taken aback on the spot when he saw that the boss said he was going back to his hometown.

Instantly anxious.

Cao Chenghui looked at the content of the message, thought for a while and replied again: [Brother, why didn't you find me? I can still provide 50,000 to 60,000 yuan.]

Seeing the latest news in the chat window, Cao Chenghui gritted his teeth and made this decision.

Can't let the boss run away!

I can't bear to let the child be unable to trap the wolf. If I use this as an opportunity to get acquainted with the boss, let alone five or sixty thousand, five or six million, five or six million, it will not be a dream!

Fang Hong was hardly surprised when he saw the news, because he knew that Cao Chenghui would take the initiative to say so in all likelihood.

This effect is what I want.

But I still have to prevaricate, Fang Hong immediately edited the message and replied: [Isn't it right?]

It is obvious that you want to get money from the other party, and after a wave of routines, it will become that the other party is actively begging you to accept the money.

Cao Chenghui quickly replied to the message: [There is nothing wrong with this, brother, if you recognize me as a friend, I will prepare the money for you immediately, and you can come to me tomorrow, or you can give me an address and I will come to you.]

The buddies all talked about it for this sake, Fang Hong smiled again when he saw the news, and immediately replied: [See you at the Internet cafe at 8 o'clock tomorrow morning.]

Get it done, make it right!

Fang Hong threw the phone aside after sending the message.

At the same time, Cao Chenghui couldn't help but feel refreshed when he saw that the boss agreed.

Finally, the boss was kept, and he let out a long sigh of relief.

To keep the boss is to keep the wealth code, and to get it is a chance to get rich!

However, Cao Chenghui was not in a daze. The market hadn't closed yet. He quickly logged into his securities account, and then transferred half of the money in the account to his bank card. Transfer to bank card.

If you buy stocks, you can close out your position today and transfer to your bank card tomorrow.

...

At the same time, Fang Hong, who had nothing to do, thought of the so-called social reputation system. With a thought in his mind, the interface of the social reputation system appeared in front of his eyes.

"Huh? The reputation value has increased?" Fang Honglue looked at the data changes on the interface in surprise.

【Social Fame System】

【Binder: Fang Hong】

[Current Fame Point: 10]

[Available Achievement Points: 1]

[Note: The item store is open]

"It turns out that it was Cao Chenghui who contributed the fame points..."

Fang Hong couldn't help but suddenly realized that he had established a great influence in Cao Chenghui's mind in the past few days.

After a while, Fang Hong switched to the item mall column with curiosity to see what was there.

There are six kinds of item cards in R\u0026D, Operation, Loyalty, Attributes, Clearance, and Health that can be redeemed in the Item Mall. The exchanged item cards can only be used by the binder and his subordinate team members to produce effects, and other target groups are invalid.

Specifying a target and consuming an item card can improve the ability of the corresponding item card of the target. For example, using the "R\u0026D" item card on the target can improve the target's R\u0026D ability, and using the "Operation" item card can improve the target's operation management ability, using the "Loyalty" item card can increase the target's loyalty to the binder.

And use the "attribute" item card to view the comprehensive attributes of the target, and use the "clear" item card to clear the bonus effect on the target. The item card can clear the research and development ability of the target.

The last "Health" item card can increase the health index of the target.

The R\u0026D, Operation, Loyalty, Attributes, and Clearance of the six prop cards are only valid for the subordinate team of the binder, but not for the binder, while the "Health" prop card is only valid for the binder, not for any other targets. invalid.

"Is that so..." Fang Hong read the functions of the six prop cards and said to himself: "Good thing, it's like adding wings to a tiger. Through these prop cards, you can create a super entrepreneurial team."

Without the assistance of this social reputation system, Fang Hong is also confident that he can build a super business empire from scratch with his own ability, but having this reputation system is naturally welcome.

Fang Hong pays more attention to the so-called "health" item card. After rebirth and another life, he realized that health is the most precious thing in the world. We are getting older day by day, and only after experiencing the natural aging process can we understand how good it is to be young and healthy.

After a while, Fang Hong changed his mind, and the social reputation system interface in front of him disappeared, so he put it aside for the time being.

Because I just looked at the item card in the mall, it takes 100,000 achievement points to redeem one, and it can be redeemed repeatedly.

There is no clear indicator data for the social reputation system, but from the influence Fang Hong has on Cao Chenghui, it seems that after having influence on a person, he can get 10 reputation points and a corresponding achievement point.

In other words, if you want to collect the 100,000 achievement points that can be exchanged for an item card, you have to expand your influence to 100,000 people.

If this is the case, it will definitely be difficult to exchange even one in the short term.

But Fang Hong didn't care too much. Among the six types of item cards, he was most concerned about the "health" item card, but he traveled through rebirth. Now his body is 20 years old, and he is in excellent condition. He definitely has no health anxiety now.
