#### Chapter 1271: Mother and Son

[The calamity is going to hit Qing-Yun Realm... I am the hidden superior cultivator... I have to show up and save the world...]

[I am not in the martial world anymore, but my legend never dies!]

[This is a pretty good reason for me to set my foot in the battle...]

Ye Xiao rolled his eyes while thinking, and then nodded. "I see. I will go with you, brothers!"

Zhan Yunfei and Zhu Jiutian both felt relieved when they heard Ye Xiao's answer.

[It's lucky he said yes.]

[Otherwise, if we go back to the sect without the three grand elders' dear disciple, we will be beaten up hard once again...] They trembled while thinking about it.

It was too horrible to imagine...

Two days later.

Yue Gongxue and Ye Nantian finally made it back to the Town of Ye.

When Yue Gongxue saw the town, which was familiar to her, she was excited, almost running toward the house of Ye Clan. Ye Nantian couldn't even catch up with her.

However, when she was getting close to the gate of the Ye Clan house, she slowed down and then stopped.

She froze in front of the gate.

"What is it?" Ye Nantian asked.

He didn't understand why Yue Gongxue suddenly became hesitating.

"I am thinking..." Her eyes turned red because of the tears, "I haven't seen my son for many years. I haven't been a mother staying with him. Will he hate me? Will he refuse to accept me..."

Tears shed from her eyes and dripped down over her cheeks. "I am not a good mother... I am too irresponsible to gain his love..."

Ye Nantian tried to console her, "Xiao Xiao is a good kid. He misses you all the time. He asked me about his mother thousands of times, again and again... He will be the happiest to see you back. I am certain."

Yue Gongxue was still hesitating. She wouldn't step ahead a bit.

Others couldn't wait to get home after leaving for a long time, yet she actually hesitated to return—to return to her son!

At this moment.

The gate of the house suddenly opened.

Behind the door, there was a long passage, which was covered by a red carpet with petals all over it. The yard, the walls, the houses, even the sky seemed to be red because of the flowers.

However, there was nobody inside the courtyard, which made it feel less lively.

Yue Gongxue held her own mouth and shed tears. She was so happy.

What was shown in front of her was the welcome of her son.

Nobody was greeting her, but she didn't need any.

The others were also shocked.

What Ye Xiao did wasn't that unexpected, but pretty experienced. When the gate was opened, all that ran into their sight was the color of red. It definitely had spirited them up.

On the other side of the red carpet.

In the world of red.

A white shadow flashed.

A young man in all white clothes was slowly walking out from inside, who had a face like warm jade, tall, handsome as if he was from the heavens.

He slowly walked on the floor, casual, elegant, and graceful. Step by step, he didn't walk any differently than usual, but it felt like the entire world was moving with him as if the world was a part of him!

As the young man showed up, the red color instantly became lively.

It looked like a painting became a movie.

What a dreamlike scene!

The young man looked pretty excited. In his eyes, there was an impulsion.

Ye Xiao!

When he showed up, Yue Gongxue exclaimed because of shock. She was shaking. Her eyes were blurred by the tears, which kept shedding out and dripping down off her cheeks.

[Is that my son?]

[That is my son!]

[So pretty... So handsome... So graceful... My son! He is my son!]

Her tears ran out without a pause. The bond between mother and son was showing up in the heart.

The tears had blurred her eyes, but she was sure the person on the other side of the carpet was her son!

[That is my son!]

She would recognize him at first sight, no matter where or when Ye Xiao showed up!

[He is a part of me!]

When Ye Xiao saw Yue Gongxue, he was shocked. He used to think that he wouldn't be moved because he was powerful enough not to.

However, the truth proved him wrong. When he saw his mother, he couldn't keep calm anymore. No matter how he tried, he couldn't stop the emotion.

[She my mother in this life, isn't she?]

It wasn't the first time he met Yue Gongxue. When he helped the couple in the previous life, he had watched them from afar. Although he didn't see them face to face, he had still seen Yue Gongxue's face through his spiritual mind!

However, all the memories about Yue Gongxue didn't matter at the moment. All that filled his heart was one thought, [Mother! That is my mother...]

Ye Xiao knew that it wasn't himself shaking. He knew that it was the broken piece of the soul of the young Ye Xiao.

Although the foppish young lord Ye Xiao was unable to accomplish anything, there was one thing he had never given up—to see his mother—because he hadn't seen his mother since he was born.

For any child, it was a life regret.

That was why Ye Xiao, Xiao Monarch, didn't try to suppress the emotion. Instead, he decided to let go of it. His eyes turned red and seemed he was going to cry his heart out like Yue Gongxue.

When he only walked to halfway, Yue Gongxue already ran over to him like a blow of breeze and held him in the arms tight. She held him so tight, sobbing with tears. Ye Xiao felt her tears soaking his clothes immediately.

"Xiao Xiao... My son..." Yue Gongxue was quivering.

She had been yearning for this moment so much that she couldn't control herself anymore right now.

The grief, love, concern, and longing all blended in tears!

Eighteen years, Yue Gongxue missed him every day. She had been asking questions about her beloved son in her own head, [How tall is he? He should wear clothes for an adult man now, shouldn't he? What does he look like...]

Again and again, she had imagined the look of her son.

### [Realms In The Firmament](#)

#### **Chapter 1272: Reunion**

Since Yue Gongxue was confined in the palace, she had never stopped thinking about Ye Xiao. Day after day, month after month, year after year, there was nothing else that could occupy her mind.

Now that she finally saw her son, she finally realized that whatever she had imagined was pallid compared to the real person. As she held Ye Xiao in the arms, she felt like she was holding the entire world.

If Ye Nantian knew what Yue Gongxue was thinking, would he be more comforted, or more jealous?

No matter what, Yue Gongxue only felt happy and consoled at the moment...

She was smiling, but with her tears shedding out, she completely lost control of her emotion.

After a while, she finally calmed down a bit, yet she still kept holding Ye Xiao's hand and watching him as if she couldn't stop looking at him.

Ye Xiao could feel his soul cheering up.

It was not just the piece of the soul of the young Ye Xiao, but also Xiao Monarch's heart which was touched. [Finally, I am a man with parents now...]

He had been an orphan since he could remember. Now, he finally got to know the feeling of having both a father and a mother. Now, he finally had a family. It was happiness.

It was the root.

It was reliance.

Even though his parents were weaker than him, even though they could only provide limited support, as long as they were there, he could feel that he had someone to rely on. In this world, he was no longer a child without a family.

The remaining piece of the young Ye Xiao's soul had finally become a part of Ye Xiao's own soul. At this moment, the two parts were connected by the joy and prosperity...

Yue Shuang and Yue Han were jealous of him while watching him being hugged by his mother.

[Brother has his mother now. He is so happy...]

[As for us...]

The two ladies were jealous and also grieved at the same time. [She is our brother's mother, which means she is our mother too. But we can't say that...]

Ye Xiao turned around and looked at the grievance in the two ladies' eyes. The only thing he could do was to make a sigh. No matter how dominant he was, there was nothing he could do to help the two ladies on such an issue...

That night, the Ye Clan was holding a feast. Waves of laughter and cheerful voices filled the whole clan.

Every member of Ye Clan was smiling, sitting in tables, which had occupied the main hall and the courtyard.

Ye Xiao sat between Yue Gongxue and Ye Nantian. Yue Gongxue had never looked away from Ye Xiao since they had the reunion, not even a second.

Her eyes were filled with love and regret...

It seemed she wanted to make it up for the lost eighteen years to Ye Xiao in the shortest time as possible as she could.

"Xiao Xiao, try this..."

"Xiao Xiao, what do you think?"

"Don't worry. I will make a new dish for you later."

"This one too..."

Ye Xiao was stunned when he saw the food piling up high in his plate. Yue Gongxue almost gave him everything that was tasty on the table. She was going to provide him with all the food she could reach!

Ye Xiao believed that a dragon would be stuffed by the food in his plate...

Ye Nantian saw him embarrassed, so he said, "Xue-er, you are going to get him stuffed to death. How is he supposed to finish all those food? Even a pig can't eat that much!"

Yue Gongxue clapped her own head and said, "That's true. Xiao Xiao can't eat that much. Well... Let him eat those that are still warm... You can finish the rest."

She started to move the food from Ye Xiao's plate to Ye Nantian's, leaving the most delicious to Ye Xiao. She said, "Xiao Xiao, eat the warm ones and give the cooled ones to your father."

Ye Nantian rubbed his beard, speechlessly looked at the leftovers in the plate, and felt cold in the heart.

He was jealous now.

When there were only Yue Gongxue and him, they were such a loving couple, who only had each other in the eyes... He felt happy with her...

As for now, she had totally pushed him away and stayed only close to their son.

She had stopped to love her son immediately.

[Am I going to eat leftovers now? Am I really this pitiful?]

[Am I just like a pig to you?]

Ye Xiao could feel the fever in Yue Shuang and Yue Han's eyes. He helplessly smiled and said, "Come on you two... Share with me." Then he gave them some of the food in his plate.

Ye Nantian was surprised.

[Xiao Xiao is such a smart boy! Yet why did he do such a stupid thing?]

[No matter how tasty the food is, it is in your plate! Your chopsticks touched it!]

[Besides, your mother took it to your plate...]

[Even though you are being polite and respectful to the two superior cultivators, you should at least give the two ladies some food from the table...]

[This is embarrassingly discourteous! You are humiliating the two influential figures of the world!]

However, what happened next totally astonished Ye Nantian. Yue Shuang and Yue Han both lit up their eyes and said, "Thanks! Thank you!" Then they took over the food and started to swallow. They were actually happy to take that food!

They weren't acting. Not at all.

Although the food was from their mother, it was from their brother's mother. For them, it was almost like the food from their own mother.

When they ate the food, they actually tasted the love of a mother. That feeling was something that the two ladies had been earnestly longing for. When they ate the food, their eyes were blurred by tears.

Yue Han made a sigh, chewing the food, and said, "Lady Ye loves the kid so much. Your love for him is enviable... We were abandoned by our parents since we were born... We have never seen our mother's face... To have our mother picking food to us is never an experience of us... I guess we owe the kid for what is happening right now!"

Yue Shuang wanted to stop her from talking the weird words, but she also didn't want to ruin everybody's good mood.

When she heard what Yue Han said, she made a long sigh too.

### [Realms In The Firmament](#)

#### **Chapter 1273: He's Alive**

Suddenly, everybody felt a bit sad for the two ladies.

Ye Xiao thought for a while and said, "There is nothing we can do about it. Qing-Yun Realm is a world where bigger fist represents the law. Maybe cultivators don't have to worry much about making a living, but ordinary people are mostly poor. This is not as good as the Land of Han-Yang... Masters, you two were born in a time which was even worse than the present. People are living difficult lives. I think your parents should be reluctant to abandon you. Perhaps they had their reasons, such as having trouble to make enough money to raise you..."

"It is a constant occurrence in the world..."

He continued, "We should live now and let go of the past, not to trouble ourselves in the sadness."

The others all started to console the two ladies.

It was the second time for Zhan Yunfei and Zhu Jiutian to sit around the same table with the two ladies, but this time, they felt much more relaxed than the first time.

Zhan Yunfei sighed and said, "Little disciple brother is right. Life isn't easy. I have seen too many families torn apart... Four hundred years ago, when I went to the lower world for traveling, a famine which only occurred once in a thousand years occurred there. That was hell.

"I saw people giving their children to others only because they couldn't afford to raise them. They didn't want them to die starving, so they considered it a good idea to send them to somebody else's family..."

They were lucky because they found people who had enough money to feed the children. At least, their kids were going to survive...

"Most of the people just threw the kids away... Kids couldn't work. They were only a burden to the family. People were in pain when they threw their kids away, but at least they didn't need to spare food for the kids. Instead, they might be able to save more food for the rest of the family... There are always tough choices to make in life..."

"When we saw what was happening to those people... we were saddened, but we can't help every one of them, can we? We didn't have the power to save them all..."

"They always said that we were gods to them. However, we know that we aren't. With our power, we can destroy their world, but not save them all!"

"When their land was too dry to plant grains, maybe we can crack the mountain and draw the river over to water their fields. However, what happened that time was flooding... There was a flood everywhere... It truly was difficult to help..."

"After all the hard work, we eventually led the water away and ended the flood, and the people all got down in front of us to show their gratitude. However, I knew that we didn't really save them from the disaster!"

Zhu Jiutian sighed and said, "Elder Shuang, Elder Han, you shouldn't be holding the grudge. Perhaps your family survived something terrible because you two were abandoned..."

Yue Shuang was surprised. She said, "If our family have to abandon us to survive... we would accept it..."

Yue Han sneered, "Well, why us? Why didn't they throw away other kids? Why? Aren't we their children?"

"Master Zhan was right. Life is always not easy. We are girls after all... and we were born disabled..." Yue Shuang tried to smile and console her sister, "It was the best option to abandon us, wasn't it? Besides, if we weren't abandoned, how did we become family with our brother afterward. If we didn't meet our brother, we..."

"Well, are you telling me that it is our good luck to be abandoned?" Yue Han sneered, "It is a shame that I haven't gotten any information about our family... If I know who they are... Humph!"

Zhan Yunfei bitterly smiled and said, "Elders, forgive my interrupting. I am afraid it would be a rare chance that you two could meet your family again."

The others all nodded.

Whoever abandoned their children must be in a rather unfortunate situation. Since they were living in such a difficult life, they should never be able to become a cultivator.

How did ordinary people live for hundreds of years?

Yue Han knew it, but she just had to say some harsh words to vent the grudge in her heart.

"Anyway, we owe our brother a lot for whatever we have achieved now..." Yue Shuang drank up and glanced at Ye Xiao.

Ye Xiao was expressionless.

Zhan Yunfei and Zhu Jiutian knew who their brother was, so they both felt terrified when the two ladies mentioned him. They prayed in the heart, [Please, sisters! Stay calm and sober. Don't go crazy. If you have to get drunk, don't kill us.]

After all, the ladies' brother, Xiao Monarch, and Cold Moon Palace were sworn enemies!

"Oh, right. You haven't heard yet, have you? Xiao Monarch is back. He didn't truly die." Ye Nantian looked at Zhan Yunfei and Zhu Jiutian, who looked like having constipation. Ye Nantian continued, "I guess I should let you know. It must be important for you two."

"What? What... What did you just say?" Zhan Yunfei and Zhu Jiutian both stood up in shock. Their faces both turned dark.

They stood up so abruptly that the table nearly got lifted over.

"Xiao Monarch is alive, and Master Fierce Blade, Li Wuliang is alive too." Ye Nantian said, "On our way back home, we saw them both with our eyes. We met Xiao Monarch years ago, so I know him. If he didn't show up and help us again this time, I am afraid the six of us would all die."

Zhan Yunfei and Zhu Jiutian were so astonished that their eyeballs nearly popped out. "How is that possible?"

They both couldn't believe that Xiao Monarch was still live. They both witnessed his death after all.

[This is ridiculous!]

Ye Nantian started to tell them everything about how Li Wuliang and Xiao Monarch helped them sweep off a bunch of superior cultivators. In the end, he looked at Ye Xiao and said, "In fact, there was a third guy who was staying with the two heroes... The man is the Unique of the World, the Frost Sword, Han Bingxue, who showed up with Xiao Monarch in the forest... I think he looks at least eighty percent like the friend you brought back home not long ago, Xiao Xiao."

Yue Shuang, Yue Han, and Ye Xiao were all shocked.

They all started to curse Han Bingxue in their minds. [F\*cking pretentious stupid prick! Now you have made huge trouble because of your pretentiousness!]

[Bastard!]

## [Realms In The Firmament](#)

### **Chapter 1274: Problem Solved or No**

Ye Xiao kept thinking fast in his mind, but he acted calm and casual. He spoke in a deep voice, "Is he? I haven't met that Frost Sword ever, but I have heard about the story of him... such a unique and dominant figure in the world..."

[It is lucky that I was cautious enough. If I didn't force him to change his face a bit, he would definitely get exposed.]

Ye Nantian looked solemn all of a sudden as he said in a deep voice, "Xiao Xiao, you told me that the friend of yours has given you the spiritual dan beads. Is there anything you didn't tell me?"

"No, there isn't. When I left Cold Moon Palace and traveled in the martial world, I met Brother Han with luck. We became friends to each other just like that. We became good friends for the first sight. It is not a big deal that he gave me some dan beads..." Ye Xiao said.

"Not a big deal? Kid! You are still too young! You don't know what you were talking about. I have shown the dan beads to the two ladies and your mother on the way back home. Do you know what they said about the dan beads? You got to be honest with me. Those dan beads are rare even in Qing-Yun Realm! Any one of those dan beads could lead to a war in the martial world! You have received such a huge gift from him, yet you talked like it was nothing!" Ye Nantian scolded.

Yue Gongxue interrupted, "Why are you talking like this? Xiao Xiao is still a kid. He doesn't know the value of the dan beads..." Then she talked to Ye Xiao, "Xiao Xiao, I have to say something about this though. Your friend must be really nice to you. I heard that you used to shout at him a lot. Don't do that again. He is a good friend. Do you understand?"

Ye Xiao, Yue Shuang, and Yue Han were all shocked. [What the hell do they have in mind? How did things develop to this end?]

Ye Nantian said, "Xiao Xiao, did you just call him Brother Han? I think it answers many questions. I am weak in cultivation, but I am experienced in the martial world. I know what I see. That man is not some ordinary cultivator. He is indeed much weaker than Master Han, the Frost Sword, but his qi feels so similar to Master Han. His face is younger, but still much like Han Bingxue. Perhaps he is Master Han Bingxue's child!"

Yue Shuang added right in time, "I have heard that Han Bingxue has a grandson... who is terribly spoiled... It seems he is also a talented cultivator who could be one of the best among the young generation."

Ye Nantian nodded and said, "It's true then. Brother Han is Master Han Bingxue's grandson."

Ye Xiao nodded to agree and said, "That bastard! He never told me he was Han Bingxue's grandson. When I see him next time, I will definitely ask him about his grandfather. There should be no lies between friends!"

Ye Nantian showed him a dark face again. "You fool! What are you thinking? He just doesn't want to show off! That is called decency! What man keeps telling stories about his father or grandfather? If you dare to shout at little Brother Han again, I will give you a lesson with good punches!"

Yue Gongxue glared at Ye Nantian and said, "Stop shouting now! Xiao Xiao was just speaking! When did he shout at others?" She paused and then talked to Ye Xiao again, "Xiao Xiao, he must be really nice to you. Remember not to break his heart!"

Ye Xiao promised but didn't think the same. [What the hell is this? The fool, Han Bingxue, takes all the benefits in the end... He must be nice to me, huh? Of course he is! Wait, it sounds weird!]

He didn't feel right to talk about it this way, but the two ladies couldn't stop laughing.

He took a long breath out and finally felt relieved. No matter what had just happened, the truth was that his parents believed Han Bingxue was Han Bingxue's grandson...

That was weird.

Han Bingxue was going to be like an idiot!

After the conversation about Han Bingxue's grandson, Ye Xiao's new friend, they started to talk about the news that was important to Cold Moon Palace!

Zhan Yunfei and Zhu Jiutian cared about Xiao Monarch and Li Wuliang's return. If the two of them returned and made a team with Han Bingxue and Jun Yinglian, it was going to be an incredibly dominant team that even Cold Moon Palace couldn't defeat!

Ye Nantian and Yue Gongxue had a strong connection with Jun Yinglian and Xiao Monarch, and Ye Xiao had become an excellent friend to Han Bingxue's grandson... It was such a dim situation for Zhan Yunfei and Zhu Jiutian!

[Even though Ye Nantian and Ye Xiao may not turn against us, they have to stay at least neutral, which means we will never get supports from Misty Cloud Palace and Qiong-Hua Palace through Ye Clan.] They were worried!

Ye Nantian seriously said, "For me, Xiao Monarch and Fierce Blade are both heroes in the realm, who have the manner and kindness of knights... Now that they returned with more dominant powers... I think they are already two of the most influential figures in the world..."

"I know Cold Moon Palace has joined the war against Xiao Monarch. However, Xiao Xiao told me that you only showed up in the battles... There is a grudge between you and Xiao Monarch, but it is not unsolvable... After all, you have left the other two great sects not long ago..."

"I know I am not in the right position to talk about the business between you, but I still have to say that it is better to get rid of the enmity than to keep it alive. If Cold Moon Palace can sincerely apologize to Xiao Monarch, I think he will forgive you! He is such a generous man after all!"

Ye Nantian said with a smile, "However, perhaps I am just being naive here... It is your business to take care of, and your decision to make after all... What I do is just giving my personal opinions..."

Ye Xiao was glad when he heard Ye Nantian talking about Xiao Monarch. [Well, he is quite a good judge of character. He only met me twice, but has a correct image of me... a hero with the manner and kindness of a knight...]

Erhuo, who was also listening to the words, felt sick about Ye Xiao enjoying the flattering. [Pah! You have always been a cunning, shameless, and despicable person with a narrow mind! Since when did you misunderstand yourself as a generous man?]

[If it is Li Wuliang we are talking about, I will believe it. You? Do you really believe it?]

Zhan Yunfei and Zhu Jiutian were shocked.

It would be an excellent thing for Cold Moon Palace if the enmity could be resolved!

## [Realms In The Firmament](#)

### **Chapter 1275: There is Hope**

Qing-Yun Realm was swaying in the midst of the raging storm. Cold Moon Palace was going to face the calamity like the others. If they had to face more powerful enemies, Xiao Monarch, Fierce Blade, Han Bingxue, and Jun Yinglian while they were dealing with the secret organization, they might lose hope on surviving the difficulties.

They could be wiped out.

Even though the enemy of an enemy didn't have to be a friend, it could be an ally. Xiao Monarch and his people were all individual cultivators. What if they cooperated with the secret organization to deal with the three factions?

"We definitely want to resolve the enmity... We would love to show our sincerity first..." Zhan Yunfei bitterly smiled. "The problem is... I have no idea if Xiao Monarch and Fierce Blade would love to do the same or not... They are both dominant figures in the world... Chief Ye, are you sure the men you saw were really Xiao Monarch and Fierce Blade?"

Yue Han was annoyed. "Zhan Yunfei, what does that mean? We are all there. We saw them and heard them. How could that be fake? He is our brother."

Zhan Yunfei and Zhu Jiutian's eyes lit up when they heard Yue Han.

The two of them stared at Yue Shuang and Yue Han with fever in the eyes. It was hope and expectation.

For Cold Moon Palace, it seemed to be impossible that they could be forgiven by Xiao Monarch. However, the two dear sisters of Xiao Monarch were right here with Zhan Yunfei and Zhu Jiutian, weren't they?

There had to be somebody to do the mediation between the two sides.

Whoever it was, it must be somebody important, who could influence both sides, especially the side with the initiative.

When Ye Nantian suggested reconciliation, Zhan Yunfei and Zhu Jiutian didn't consider proceeding with it, no matter how much they wanted to. After all, Ye Nantian was too weak to talk to Xiao Monarch!

However, if Yue Shuang and Yue Han agreed to help, things were entirely different.

The ladies had a more important relationship to Ye Xiao!

Before this, Zhan Yunfei and Zhu Jiutian had never thought about making peace between Xiao Monarch and Cold Moon Palace. The enmity was unsolvable.

How could they forget about the deadly enmity?

After all, the three factions had killed Xiao Monarch and the Fierce Blade, which meant Jun Yinglian, Han Bingxue, and the two ladies had also become sworn enemies to the three factions, including Cold Moon Palace! The grudge would never be forgotten!

However, things were different now. Xiao Monarch was alive. Fierce Blade was also alive. The two men who were assumed dead had returned to the world. It seemed the enmity wasn't as implacable as they thought.

At least it was possible now!

As long as Cold Moon Palace showed enough respect and sincerity, it was possible to resolve the enmity.

Zhan Yunfei swallowed as he stared at Yue Shuang with fever in the eyes, veins on his hands popping out.

However, he just couldn't say it out.

Zhu Jiutian was the same.

They both wanted it so much, yet neither of them dared to make the decision for the Cold Moon Palace. Besides, it didn't feel good to beg for other's help!

They surely would love to do anything for their sect, but there was a problem they had to consider... If they talked to the ladies and made an agreement, but it turned out the Cold Moon Palace refused it, the situation would only become even worse.

Suddenly, they had no idea what to do.

Yue Shuang and Yue Han were both members of a sect, so they knew what was troubling the two men. However, the ladies decided not to cast a look at the men, not to mention talk to them. [Humph! Well, if you want our help, you better show your sincerity.]

[To be honest, it is not the best choice to ask for our help. The most important person is sitting right here with us. He even talked about it first. It is a shame that you can only think of us...]

[If we stand out and take any benefits from you, he will take them away from us and even scold us for accepting it.]

[We are not going to do that. We aren't fools!]

Ye Xiao smiled and said, "Brothers, relax. Things will get better. I agree with my father's opinion. Xiao Monarch is such a generous person, a great hero, a man with grace and honor. As long as Cold Moon Palace shows enough sincerity, the enmity isn't implacable."

Erhuo was speechless. [Holy hell. He is addicted to boasting. Why do I have to follow a master without a sense of shame?]

Zhan Yunfei hesitated for a while, made a sigh, but didn't say anything. He looked sullen.

Yue Shuang and Yue Han also felt sick about Ye Xiao boasting, but they understood Ye Xiao immediately. Yue Shuang smiled and said, "The world is going to face a calamity together. If there's a chance to talk to our brother, we will say some nice words for you... I guess our words at least mean something."

Zhan Yunfei was thrilled, and he couldn't stop saying thanks.

Ye Xiao rolled his eyes. [I made the compromise and wanted to give my father credit. How come it ends up to be the two girls' credit...]

Well, Ye Nantian had no idea what was really going on!

In the middle of the feast, people talked about the disturbance in the martial world, which was a sign of the calamity to come. Everybody looked sullen while talking about it. Zhan Yunfei took the chance to tell everybody else that the three grand elders had asked him to take Ye Xiao back to the sect safely...

It was dangerous outside the sect, and Ye Xiao was the future of Cold Moon Palace. The secret organization might be planning to kill him... It should be safer to stay with the three grand elders...

Yue Gongxue was reluctant to be parted from her son. She had only gotten back to her son for no longer than one day after all. How could she accept the fact that Ye Xiao was going to leave her soon? However, Zhan Yunfei was right. Yue Shuang and Yue Han agreed too.

Even Yue Shuang and Yue Han didn't have the confidence to stay safe in the current situation, how could Yue Gongxue believe her son could survive it in Ye Clan? It should be the safest to stay around the three grand elders just like Zhan Yunfei said!

If she let him leave, she would have to be parted from her son.

If she objected to it... who was going to protect her son anyway?

She didn't know what to do now.

### [Realms In The Firmament](#)

#### **Chapter 1276: Future Plan**

"There are signs of the calamity, but it hasn't hit us yet, has it? We can stay here for a while..." Zhan Yunfei was pretty considerate, "I don't think we have to interrupt your reunion... Haha..."

Ye Nantian laughed, tried to ease the atmosphere, but in his eyes, he looked as sullen as Yue Gongxue.

After all, he had been parted from Ye Xiao for a long time. Even though he was calm and steady, he didn't feel good when thinking about Ye Xiao's departure.

That night, the parents and son were having a conversation in Yue Gongxue and Ye Nantian's room.

Yue Gongxue couldn't move her eyes away from Ye Xiao. She liked the boy so much that she wished she could hold him in her arms all the time. Ye Xiao wouldn't agree to that, would he? No...

Xiao Monarch, the lawless man, blushed because of it.

Ye Nantian laughed out loud, "Come on, Xue-Er!. Our son is a grown man now... Are you sure you want him to sit on your knees? That is impossible... Hahaha..."

Yue Gongxue glared at him and replied, "My son! I can do whatever I want to him! I will hug him if I want to! It is not your business! Do you have a problem with this?"

Ye Nantian begged, "Fine. I don't have a problem. Please. As you wish! As long as you are happy..."

However, she realized her son wasn't willing to be held on her knees. After all, Ye Xiao was a man, not a kid. Holding him in the arms like that was inappropriate.

The family of three was having a great time talking to each other until late in the night. Yue Gongxue was getting more and more excited as if she wouldn't be able to sleep.

After a while, Ye Xiao said, "I wonder what you two think about the future?"

"Future?" Yue Gongxue was surprised. She didn't understand why her son would ask such a serious question.

Ye Xiao felt embarrassed all of a sudden, so he explained, "I mean... as a cultivator... You know... The path of cultivation... Ahem. It is said there is a world, Human Realm Upon Heavens, beyond Qing-Yun Realm. It is where the true superior cultivators stay..."

Yue Gongxue didn't hesitate and only shook her head. Ye Nantian shook his head too.

The couple gave the same response at the same time.

They looked at each other and understood each other's thought. Yue Gangue gently said, "We have the same thought. I guess you should do the talking then. You always have a clearer mind than I do."

Ye Nantian showed a complicated expression in the eyes and said after a second thought, "I used to dream about going up to the Human Realm Upon Heavens... and becoming a legend of Qing-Yun Realm... I never gave up the dream since the first day I went on the path of cultivation until I met your mother."

He spoke in a deep voice, "After all that has happened... after all the years we were parted... I think I don't need an influential position in the martial world. I don't care if I can be a dominator of the world. Nothing is more important than having a happy family of my own."

He continued in a low voice, "Human Realm Upon Heavens is too far from me. Your mother and I gave up on it a long time ago. Even if there is an opportunity for me to go up there, I won't take it. We both have been through the days when we seemed to be some pretty important figures in the world! We had that experience already! In my life, I have lost something, but I also achieved something. Asking for more means giving up more! What we have now, the happiness we have right now, is hard earned. We just want to stay together for as long as we can. We want to live a peaceful but happy life. All that we want is to enjoy the rest of our lives together."

"We have been through so much that we are exhausted now. If we need to live the difficulty at the bottom of the society in the Human Realm Upon Humans... if we need to climb to the top step by step from the lowest level... if we need to bend our knees to face the stronger people..." he paused for a while and then continued, "we just don't want any of it anymore."

"We just want to stay in Qing-Yun Realm... in Oracle District... in the Town of Ye... and live peacefully. We won't give up what we achieved in cultivation because we don't want to get bullied. We will cultivate to protect our happiness..." He looked at his wife while she was looking back into his eyes at the same time. They looked at each other and smiled. "No, we don't want to go up there. We have had enough now."

It was decisive.

Ye Xiao didn't say a word.

Ye Nantian was only in his forties. With his experience, intelligence, and capabilities, he was definitely a genius in cultivation. In Ye Xiao's opinion, even Xiao Monarch was no better than Ye Nantian. It was a waste of his talent to give up the opportunity to ascend to a higher realm!

Yue Gongxue was the same. She was the successor of the Moon Queen in Qiong-Hua Palace, which meant she must be a great cultivator. Otherwise, the Moon Queen wouldn't let her be the next Moon Queen.

Ye Nantian and Yue Gongxue were so talented and excellent in cultivation that they didn't need Ye Xiao's dan beads to reach the top of Qing-Yun Realm sooner or later!

However, what Ye Nantian said was the truth in both of their hearts.

They had been through too much and never wanted to live the difficulties again.

Ye Xiao was listening to Ye Nantian and only felt consoled and jealous.

A cultivator's goal was always to reach a higher level, to break through the boundary between stages. For people in the Land of Han-Yang, Qing-Yun Realm was the higher realm, while for people in Qing-Yun Realm, the destination was the Human Realm Upon Humans. Cultivators kept moving forward!

Some cultivators spent their lives and eventually died in the same place because they had no talents or opportunities. However, Ye Nantian and Yue Gongxue, who had both talents and opportunity, just gave up on moving up to the next realm!

For them, it was better to have a peaceful life in love with each other than going up to the heavens.

"I see. I understand. I know why you would make such a choice. It is also a great achievement to have the one you love and live in peace for the rest of your lives."

Ye Xiao took a deep breath, and his eyes looked determined. He said, "However... I want to keep going on the path of cultivation. I hope that my parents can support me."

### [Realms In The Firmament](#)

#### **Chapter 1277: True Tittle Phase**

Ye Nantian and Yue Gongxue both pretended to be mad. Ye Nantian said, "How old do you think you are, little thing... What do you know about love... Listen, we honestly don't want you to live the difficulty on the path of cultivation. However, you have the opportunity to go further on the path. No matter how much we don't want you to go, we have to let you go! It is the only way to reach the top of your future in the upper realm!

"Your mother and I would rather live ordinary lives because we have been worn down by the difficulty in our lives. However, we won't stop our son to chase something greater... It would be irresponsible to stop you."

Ye Nantian and Yue Gongxue smiled. It seemed they didn't feel sad about their son's leaving.

Apparently, they thought that Ye Xiao would have to stay in Qing-Yun Realm for hundreds of years before he could ascend to the upper realm no matter how talented he was. They believed they still had plenty of time to stay with him.

So they changed the topic and started to talk about something else.

Unexpectedly...

They never knew that the day their son would leave was so near. When the day came, and they were told Ye Xiao was leaving, they couldn't bear to see Ye Xiao go. They would never forget the pain in their hearts.

It was late in the night, Ye Xiao quietly walked through the corridor to his room.

Suddenly, his mind was in a mess. He actually didn't know what he wanted and only felt disturbed. For an excellent cultivator, such a situation was rare!

There must be a reason!

While he was confused and couldn't think of any possible reason, he couldn't calm down and think about it clearly. He had to let himself stay in such a weird condition. After a while, the first ray of sunshine splashed from the sky. He finally felt relieved. He could clearly feel that there was a bit of spiritual mind which didn't belong to him leaving his body and disappearing in the breeze.

The spiritual mind seemed reluctant to leave, but it eventually disappeared in the wind after moving around Ye Xiao.

"Thank you! Take care!"

Ye Xiao said, "Don't worry. I will take good care of our parents. I will look after them!"

The spiritual mind didn't respond because it had disappeared already.

Ye Xiao knew that it was the Young Lord Ye Xiao, whose soul got destroyed when he was poisoned and murdered, but left the last bit of his mind in the world... It was the obsessiveness of him, which had been buried deep in his soul... He hadn't seen his mother in his life, yet he yearned for it. He wanted to confirm that his mother loved him.

Even though he was a spoiled useless kid... even though he was irredeemable... he was still a son to a mother. He had never seen his mother since he was born, and the yearning to see his mother was deeply rooted in his soul.

On that day, the obsessiveness was gone. He was free.

He had seen his mother, whom he had longed to see.

At the same time, he saw how much the current Ye Xiao cared for his parents. He felt how his parents were proud and happy for the current Ye Xiao... He knew that he himself could never be a better son than the new Ye Xiao...

He felt sad... but also satisfied and relieved.

The last bit of his mind finally disappeared in the first ray of sunshine.

Ye Xiao stood in the sunshine, a weird feeling filling his heart.

When the spiritual mind left his body, he clearly felt his mindset improve to an extremely high position. He felt like he was looking upon the world from up in the heavens. Everything in this world, no matter how trivial it was, was clearly seen in his eyes.

He felt like he could see the patterns of all movements in the world!

His mindset had stopped improving for a long time, but at this moment, he suddenly had a breakthrough!

It felt like a stream of sweet and crystal water suddenly running into the dry lake.

It was a feeling he couldn't describe with language!

At this moment, he perfectly controlled the power of Tittle Phase, one of the three significant phases.

"So this is the Tittle Phase they said." Ye Xiao smiled. "So this is the true Tittle Phase!"

"I am soaked in this feeling, which I have no words to describe... It feels like... I can see all the movements in the world. I can see through everything. I feel like I can control them all!"

"I can crack everything into tiny bits!"

"Everything is under my control!"

When the bit of spiritual mind left his body, he felt his heart had never been clearer before. In the relief and clearness, under the spray of the first ray of sunshine, he mastered the first phase of the three great phases, Tittle Phase!

He was satisfied, contented, and relieved both physically and mentally!

Maybe the first ray of sunshine contained the energy of the purple qi from the ancient time. His spiritual power started to blood in his body like crazy. He realized the spiritual qi inside him had become purple. Some other spiritual qi was entirely suppressed by the purple qi!

The purple qi was flooding up!

The East-rising Purple Qi, which had been silent for quite some time, suddenly started to rise inside his body without a prelude.

Ye Xiao silently felt the purple qi filling up his Jing and Mai. The spiritual qi was running fast inside his body, moving through every part of his Jing and Mai, cleansing them all.

In his body, it started to ring out the sound that only appeared when he was breaking the boundary of a stage.

After a while, he was shocked and only heard an explosion inside his head!

A particular stream of purple qi suddenly rushed down from the top of his head!

At this moment, he suddenly felt the dizziness and ache in the eyes. It seemed two drops of tears fell out. He hurriedly raised a hand to wipe it, but he was surprised after realizing it was not his tear...

It was blood!

Two round drops of blood, which were like two solid drops of pearls, were in his hand. It seemed the blood had been compressed countless times and became solidified.

[Is this my tear?]

Ye Xiao was confused.

At the same time, he could feel that he had been boosted.

His body was so light that he felt like it could float in the air.

### [Realms In The Firmament](#)

#### **Chapter 1278: Weird Things Again and Again**

When he wanted to fly up, he used to have to hold his breath and slightly push the floor by his feet.

Now, however, he only needed to take a breath and fly up by thinking about it when he wanted to!

“Am I going to enter the third level of East-rising Purple Qi? Are these two solidified blood tears an outcome of the breakthrough?”

He took a deep breath out and put the two blood tears into the Boundless Space without hesitation. He didn't know why they would come out from his eyes when he broke through to the new level...

However, he was sure that it wasn't a bad thing.

When he entered his head again, he found a few lines of words appearing in his mind again. The words started to spin and fly over to him.

Every word hit him and then became a massive amount of purple qi, which then would fill his Jing and Mai. A domineering power which made him feel 'I am invincible' was forming up inside him!

'The world is in your hand... Purple Qi Monarch...'

It was the third level of the East-rising Purple Qi, Purple Qi Monarch.

Ye Xiao read the words again and again, and his eyes became brighter and brighter.

He realized East-rising Purple Qi had become a bit weird all of a sudden. The first level had a name, Purple Qi From East, the second level was Purple Qi Descends, and the third level was Purple Qi Monarch.

The second and the third level had similar names, which both seemed to be describing a dominator. However, the two levels had a huge difference.

When he reached the first level, he was only at Human Origin Stage. When he reached the second, he was a Spirit Origin Stage cultivator. However, he had to reach level nine of Dao Origin Stage and cleanse all the impurity in his spiritual mind before he could reach the third level!

The third level seemed to require much more than the former levels. Ye Xiao was a bit shocked.

[From level two to level three, I have been through the Spirit Origin Stage, the Dream Origin Stage, the Dao Origin Stage, and finally reached the peak of level nine of Dao Origin Stage. It wasn't enough yet, because I started to have this special purple qi to rush up to the next level only when the impurity left and the sunshine shined upon me with the stream of ancient purple qi.]

[How much spiritual qi and energy have I collected during the entire process?]

He was shocked only to think about it. He doubted that he could reach such height in East-rising Purple Qi if not for all the things he had been through.

The amount of qi and energy he needed to collect to reach was enough to push a man from the bottom level to level nine of Dao Origin Stage!

In fact, Ye Xiao needed more energy than that.

With such a significant amount of energy he had collected, the East-rising Purple Qi only reached the third level!

The third level was absolutely not the end. Ye Xiao was sure about it. After the third level, there were the fourth, the fifth, the sixth... and even the ninth level!

Nine meant ultimate. [1] East-rising Purple Qi was the best martial art in the universe, so it should have nine levels in total!

However, if there were nine levels, it took him such great efforts to reach the third level. What did he need to get to the ninth level?

Ye Xiao didn't dare to think about it. He was afraid if he kept thinking about it, he would lose confidence in it!

That was horrible!

Anyway, no matter how difficult it was to accumulate energy for the East-rising Purple Qi, he didn't have to worry about it at the moment. What he should do was to seize the day. After all, he might need to spend a long time to practice the third level of East-rising Purple Qi that he had just reached. He silently stood in the courtyard, under the warm sunshine, trying to recognize every change that had happened to him...

Time passed.

For every day of the next few days, Yue Gongxue would go to wake Ye Xiao up in the morning, talk to him, and take a walk with him. After that, she would go to the kitchen and cook for her son before she watched him eat.

While he was eating, she would just sit aside with a big smile, until Ye Xiao finished all the food.

For Yue Gongxue, it couldn't be more satisfying to watch her son eat the food that she especially cooked for him. She was soaked in happiness.

Ye Nantian, Yue Shuang, and Yue Han were all jealous...

Ye Nantian was jealous of his son. After all, he had just married Yue Gongxue, yet Yue Gongxue just left him aside. Yue Shuang and Yue Han were jealous of their bother for having a mother. The sisters never had a mother before!

One day, when Yue Gongxue and Ye Nantian were together, they talked to each other about something weird.

“This is strange. Why do I feel... like my body has become lighter? It seems... my skin has become softer...” Yue Gongxue said.

“Hmm? I have the same feeling too... I feel particularly spirited. My face... It seems my face is getting younger... I can’t see the wrinkle behind my eyes...” Ye Nantian said.

A few days before the conversation, early in the morning, when the two of them woke up from asleep, they felt their mouths had some weird scent. Although the scent was gone immediately, they still remembered it. After that, their physical condition started to change.

They were different now!

Ye Nantian was definitely a handsome guy when he was young, or he wouldn’t be able to attract the Saintess of Qiong-Hua Palace. However, after the miserable life he had been through, he was not only weakened in cultivation but uglified by the twenty years of heart-breaking time. Now he was a man in his forties. Yue Gongxue had been imprisoned for eighteen years. Although she still had a pretty face because of her powerful spiritual power, her face was vividly pale because of her age.

She had been staying in a cold place without sunshine for years. That’s why her face looked pale. Usually, it was impossible to change it.

However, within several days, Yue Gongxue found that her face had become red on the cheeks, not pale anymore.

It seemed she was back to eighteen years earlier. How unbelievable it was!

...

——— In ancient China, sometimes nine meant infinity.

## [Realms In The Firmament](#)

### **Chapter 1279: Parting Soon**

“The scars on my body... It seems they are gone...” Ye Nantian touched his own skin and murmured.

How could a man who had been through so many battles not have some scars on the body?

Scars were badges of a real man, a real soldier. However, the most important role he was playing now was a husband. His body didn’t only belong to himself. That was why he cared about his body more than usual. Within the two days, the scars on his body were all gone. His body was young and smooth like a teenager.

Ye Nantian’s skins became like he was a young man, while Yue Gongxue had a much more exaggerated change. Her skins became fair and smooth. When she looked at herself, she couldn’t be more satisfied.

Her skins had never been better even when she was the Saintess of Qiong-Hua Palace before she met Ye Nantian...

“What is going on? Why would all these delightful changes happen to us?” Yue Gongxue happily said, looking at her own skins on the back of her hand in front of the mirror.

“Would it be...” Ye Nantian talked in a low voice, “The Yin and Yang... You know... Man and woman... Together... You know... That thing we did... Did it bring some great influence?”

Yue Gongxue blushed and annoyedly said, “Shameless! Stop the nonsense... Or you will sleep alone!”

...

The topic was over.

They never had the answer to the questions, and they never forgot the questions. Many years after this, they would stay as young as they were at the moment... as if they weren't aging at all...

Even when they were already thousands of years old, they still looked the same...

They actually remained youthful forever!

How did that happen? It was simple. Ye Xiao fed the couple with two supreme Agerasia Dan beads!

Agerasia Dan in supreme level was incredible! Even Wan of the Cloud and Xiu of the Heavens used to be obsessed with it!

To make Agerasia Dan, one needed to have enough wild ten thousand years old snow lotus. It was the material which was nearly impossible to find. Wan and Xiu used to search the entire Land of Han-Yang to find the lotus. They had spent a lot of the stockpiles of the resources of the House of Chaotic Storms, and only to get the dan beads they wanted!

In fact, Ye Xiao never liked Agerasia Dan. After all, it was something only made people look better. If it was at the supreme level, it just meant that it worked longer than normal ones. However, to make such useless dan beads, a lot of luxurious materials must be consumed. What a waste!

Even so, he would love to use them on his parents. After all, when he made the dan beads for Wan and Xiu, he took a few ten-thousand-year snow lotuses. When he went to the Mountain of All Medicines, he had collected lots of materials. Thus, he asked Erhuo to make a few of Agerasia Dan beads one day, one for Yue Gongxue and one for Ye Nantian.

The supreme level Agerasia dan beads more or less brought the same influence to the one who took them—to make them stay young forever.

That was all!

Ye Xiao didn't like it, but it was what all the women in the world, even the women in Human Realm Upon Heavens wanted the most!

That was right! All women were crazy for it!

...

In the small garden of the guest room where Zhan Yunfei and Zhu Jiutian resided, Ye Xiao was talking to them.

“Brother Zhan, did you just say... Brother Yue, our Prime Master, is gone missing with all those cultivators?”

He frowned.

Zhan Yunfei and Zhu Jiutian didn't tell him earlier.

When they told him, he realized things were getting pretty nasty. At least for Cold Moon Palace, it was already a disaster!

[No wonder the three elders want me back so badly.]

[It is pretty dangerous to hang out in the martial world by myself. Any mistake could lead me to death...]

“Chongxiao, when do we leave?” Zhan Yunfei looked at Ye Xiao.

He wanted to take Ye Xiao away for days, but he honestly didn't want to interrupt when the family of the three was enjoying the reunion after eighteen years' parting.

More importantly, Ye Xiao was beyond Zhan Yunfei and Zhu Jiutian significantly, yet the two brothers didn't realize it at all. They could only see things that Ye Xiao wanted them to know.

That was why the two of them thought that Ye Xiao was still a level one Dao Origin Stage cultivator.

A man at such a young age must be unbelievably brilliant to reach level one of Dao Origin Stage. Such a person would absolutely be safe traveling alone in Qing-Yun Realm if it were in usual days.

However, it was an unusual time. Even Zhan Yunfei and Zhu Jiutian had been pretty cautious staying outside, not to mention a level one Dao Origin Stage cultivator. They couldn't stop worrying that some people in black might jump out and kill them both...

If they knew Ye Xiao's real power, they wouldn't have to take him back to the sect. If such a powerful man could be killed outside the sect, it meant he wasn't safe no matter where he went, which meant if he was safe in the sect, he was safe everywhere!

“Three days. We will go in three days.” Ye Xiao's eyes were flickering, voice deep.

“Good!” Zhan Yunfei and Zhu Jiutian both felt relieved. Finally, it was done.

Yue Shuang and Yue Han were told that their brother would leave in three days, so they decided to join the war in the martial world. What they were going to do was to collect information about the secret organization.

Ye Nantian and Yue Gongxue didn't want Ye Xiao to go, but they knew it was the best for Ye Xiao to return to the sect. After all, Cold Moon Palace should be the safest place for him.

That night, Yue Gongxue secretly gave Ye Xiao almost all the dowry from Qiong-Hua Palace, including four Qiong-Hua Pearls, four Pure Lotus Seeds, and one Ice Essence Soul.

Ye Xiao was shocked. Those were not all of the dowries, but the most valuable part of the dowry. Every piece of it was a rare treasure in the world. His mother actually gave him all! How could he accept it?

Yue Gongxue was annoyed when Ye Xiao kept refusing the treasures, "How come you are as stubborn as your father? Just take it! If I don't give them to my son, whom do I give them to? Besides... your father and I have decided not to set foot in the martial world. Oracle District is so small that we won't need these treasures to live here. Just take them... They may bring you great help... My son is going to gain greatness in the world! Just take some valuable treasures with you, so I don't have to worry too much."

Her eyes turn red with tears in the end.

...

### [Realms In The Firmament](#)

#### **Chapter 1280: Impulsion!**

Ye Xiao felt sad in the heart, so he took the treasures and made a sigh.

"That's my son." Yue Gongxue smiled in satisfaction and kissed him on his cheek. "Remember to come back and see me when you are free... I won't stop missing you, my child..."

Ye Xiao felt like shedding tears but only said, "I will."

Yue Gongxue stared at her son as if she couldn't get enough watching him. She reached out a hand and gently touched his face. "Take care of yourself out there. Be careful. Remember to be safe first... If you marry somebody, just give her one of the lotus seeds that I gave you... Use it as a gift... If you really like the girl, bring her home to me. Can you do that?"

Ye Xiao's heart was melted by the love of her mother. He nearly started to sob, but he forcibly smiled. "If I take an ugly one home, will you be mad?"

Yue Gongxue humphed and said, "My son is handsome. Those ugly women will feel ashamed just by looking at you. How would they approach you? My daughter-in-law must be a gorgeous beauty..."

Ye Xiao laughed.

"Besides... no matter who you will take home, you must remember, it is the most important that you love her... I will love her if you love her." Yue Gongxue sentimentally said while looking at Ye Xiao, "Xiao Xiao, come home and see me from time to time. This is your home. No matter what happens out there, even if the sky falls down on the land, this place will always await you!"

"I will, mother. I won't forget."

Because Yue Gongxue was so unwilling to let Ye Xiao go, the plan was put off again and again. The day Ye Xiao left became ten days later instead of three days.

Ye Xiao was moved by the pure love from the family, so he did something.

He did something which made him live the rest of his life in regret.

For the safety of his parents, after thinking for a few days, he decided to feed Ye Nantian and Yue Gognxue with two Divine Yin Yang Fruits, and he did it when the couple was asleep.

They were both beyond level one of Dao Origin Stage, which meant they were qualified enough to take the fruits. After all, Erhuo was there, who could absorb the energy that was flooded out from whoever took the fruits. It was pretty experienced already. Ye Nantian and Yue Gongxue would never find out what happened to them if not that they would realize the improvement of their cultivation levels!

After that night, they became another two of the invincible cultivators who were boosted by the fruits!

Ye Xiao knew that what he did might have exposed him, but he could only be relieved when Ye Nantian and Yue Gongxue were truly safe.

Therefore, Ye Nantian and Yue Gongxue became two top-level Dao Origin Stage cultivators...

In the entire Qing-Yun Realm, as long as the two of them stayed together, nobody was powerful enough to kill them.

They had decided not to ascend to the Human Realm Upon Heavens, so they would stay where they were. With such power, even Wu Fa, even if all the superior cultivators together fought against the couple, they could still, at least, escape and survive.

Ye Xiao finally took a long breath of relief since his parents were absolutely safe.

He decided to take the risk of exposing himself!

[I have to do it. I won't be relieved if I don't do this.]

[Those are my father and my mother!]

[How can I leave if I don't make sure they will be safe?]

Unexpectedly, Ye Nantian and Yue Gongxue didn't seem to be shocked when they realized their cultivation was boosted to an unbelievably high level. At least, they didn't appear to be.

However, when they looked at their son, Ye Xiao, they looked weird.

Well, in their eyes, there was a sense of questioning, but not so much.

Ye Xiao acted calm and casual but made a sigh in his heart.

It was time for him to leave, and the couple was safe now!

When they heard Ye Xiao was finally going to leave, Ye Nantian and Yue Gongxue were still reluctant, but they also looked a little bit weird when they were told!

They were sad about Ye Xiao's leaving, but also confused by something unspoken.

Ye Xiao was relieved.

His spiritual mind was so powerful that it could scan the area within several hundred miles. When Ye Nantian and Yue Gongxue were having a conversation the previous night, Ye Xiao heard a part of it. Although he only heard a part of the conversation, he got the most important part. That was why he finally stopped worrying about his parents.

"My love, it seems... I am pregnant..." Yue Gongxue hesitantly said, giving out a piece of breaking news.

“What? Really?” Ye Nantian seemed surprised.

“Yes. But... How come it happened so fast? We have been together for only a few days...” Yue Gongxue sounded pretty awkward.

“This is great... This is great...” Ye Nantian was like a fool who could only repeat the same words.

...

After a while, the couple had finished their love sport on the bed.

“My love, have you noticed that our son... Xiao Xiao... I feel that he is surrounded by some mist that I can’t see through. Do you have the same feeling?” Yue Gongxue sounded confused.

Ye Nantian didn’t respond right away.

Yue Gongxue continued, “He is a talented man... but... is it possible that he could improve so fast? Other than that, our physical conditions changed... We were suddenly boosted in cultivation... So many weird things happened...”

“It just doesn’t feel right...” Yue Gongxue frowned, “All the weird things happened after we met our son. Don’t you think it is strange?”

Ye Nantian smiled and said, “Our son is excellent... You should be proud of him, happy for him, shouldn’t you? Doubting doesn’t bring anything good!”

Yue Gongxue said, “Of course, I am happy. However, our son is way too excellent...” Then she lowered her voice, “Haven’t you realize that he is far beyond level one of Dao Origin Stage?”

Ye Nantian stayed silent.

“A few days ago, when we saw him, I could see that he was at level one of Dao Origin Stage. However, since we are suddenly on top of level nine of Dao Origin Stage... When I look at him now, I only see a cloud of mist... I can’t see it clear...”

“What does it mean?”

...
