Chapter 1301: Spring-autumn Mustard Art

A dishonorable man thought that the others were all dishonorable. Wu Tian thought Zhan Yunfei and Zhu Jiutian ran away because Xiao Monarch was losing. Zhan Yunfei and Zhu Jiutian had done an excellent job in escaping from a dangerous fight like this. It was impressive that they actually seized such perfect timing to leave!

However, Wu Tian wouldn't let them leave, would he? Although the two disciple brothers couldn't help Ye Xiao in the fight, they were still on Ye Xiao's side. Wu Tian was a man who would seek revenge for the smallest grievance, so he definitely wouldn't let them leave. Even though the disciple brothers had seized a great timing, they were too weak to run away from Wu Tian!

Ye Xiao and the two ladies were all focus on Wu Fa. Wu Tian believed the three of them wouldn't help Zhan Yunfei and Zhu Jiutian, because they had just betrayed Ye Xiao!

However, things became more unexpected the next moment. Yue Shuang and Yue Han both rushed over with their swords in hand. The two rays of sword light became a twirling line blocking Wu Tian's way to chase the fleeing men. If Wu Tian kept rushing ahead, he would fall into the two ladies' sword attacks.

Wu Tian hadn't fully recovered from the severe injury after all. If he got hit by Shuang and Han, he might die right there. He surely wouldn't take that risk, so he shouted angrily and turned around, shouting, "Fcking btches! Go to hell!"

Yue Shuang and Yue Han raged in fury when they heard Wu Tian's dirty words. Their sword lights suddenly shot over to Wu Tian to make a lethal strike.

Wu Tian was injured by Ye Xiao, so he was almost half dead. Although he also had a fifteen minutes rest, he couldn't recover from the damage that was caused by the East-rising Purple Qi. In fact, it was getting worse on him. He was now not a rival to the joint force of the two ladies. Even though he had a tremendous power inside him, he wasn't able to activate it anymore.

Suddenly, things went pretty nasty on Wu Tian's side. There was nothing he could do but made a few angry shouts.

Ye Xiao had fallen into a pretty dangerous situation too.

In fact, he was in a much worse situation than Wu Tian!

After all, on his own, he had to face the world's most powerful cultivator, Wu Fa!

He had thought of this when he was making the plan though. He knew that Wu Fa might be able to hear his voice even though he was talking through the mind connection.

Wu Fa had mastered the power of both Tittle Phase and Cage Phase, which meant it was difficult to hide anything from him.

After all, he had set up his spiritual mind detecting energy during the fifteen minutes.

If Ye Xiao had told the other four every detail of the plan, it would be a disaster.

That was why he shouted out the first order so soon.

Zhan Yunfei and Zhu Jiutian might be surprised too, but they would do as he said.

It was suicide not to follow Ye Xiao's order after all!

The two disciple brothers took reaction first and leaving no time for Wu Tian to take precaution. Besides, Yue Shuang and Yue Han were powerful enough to at least stall Wu Tian for some time.

A few seconds were enough for the two men to escape!

So far as things developed, the first step worked out well.

Maybe because Wu Tian was wounded, or because the enemy didn't hear Ye Xiao's plan, Wu Tian couldn't stop the disciple brothers. Aside from that, he was encircled by the two ladies!

However, the plan wasn't perfect, because Ye Xiao would fall into a dangerous situation.

When he rushed out, he operated the full power of himself. The Stars Sword started to shine blinding lights like a tiny sun in the sky. He tried to hide behind the glaring lights.

Xiao Monarch's Nine Laughters, the nine moves were performed at the same time, striking upon Wu Fa. It was his first time to make such an extreme attempt.

He never tried this before, because it was risking his own life!

One strike contained the power of nine. It must be horrendous. The sword lights instantly blocked the way ahead of Wu Fa.

If Wu Fa wanted to stop Zhan Yunfei and Zhu Jiutian, he would have to force through Ye Xiao's sword attacks. It was the only way.

Wu Fa half closed his eyes and stared at Ye Xiao, who was rushing over.

He was solemn.

The two hands that he had kept behind the back moved out. The ten fingers started to twirl and shoot out countless shots of energy flow. The energy flow cut through the air like a sharp knife and shot over to Ye Xiao like a rainstorm.

- Dang, dang, dang... –

The finger shots of Wu Fa seemed to shoot out disorderly, but in fact, each shot accurately hit one stream of Ye Xiao's sword lights, making the sound of clashing, echoing in the sky.

Ye Xiao was making millions of rays of sword light!

However, Wu Fa just stood there, twirling his hands, shooting out rays of energy flow, accurately hit the sword lights.

That was Tittle Phase!

It was the Tittle Phase capability of the world's most powerful cultivator. No matter what Ye Xiao did to attack, Wu Fa saw every detail.

The rays of sword lights were all in his sight. He knew exactly which arrived first and which later, to block the sword lights one after another. Even though he was making millions of finger shots at the same time, he did it orderly.

He was doing it casually!

When Han Bingxue made the ultimate attack with his Seven-to-one Mergence, Wu Fa operated the same power. However, he did it to attack when fighting against Han Bingxue, while to defend himself this time. Nevertheless, they were the same power. He did it to stop the attack that was approaching!

How delicate! How deliberate! What an expert cultivator!

Ye Xiao finally understood what the Spring-autumn Mustard Art was!

To make seasons into one mustard seed; to make the great world into a grain; everything was in his grasp.

The Spring-autumn Mustard Art was exactly Wu Fa's Tittle Phase!

Such a great martial art!

Ye Xiao was still rushing forward, getting closer and closer to Wu Fa. However, his wrist started shaking.

Wu Fa was so powerful. He was not only blocking Ye Xiao's attack by making the finger shots but also trying to kill Ye Xiao. The energy flow shot out casually, yet each ray of the flow was forceful like a one thousand kilogram hammer thumping down! It was domineering like a falling mountain!

...

[Realms In The Firmament](#)

Chapter 1302: Lofty Tower

If it were one forceful shot, Ye Xiao wouldn't be so surprised. However, millions of such powerful shots were exhausting him out. His hand was getting numb.

He knew that the situation became worse, so he took a deep breath. Suddenly, his eyes seemed to shine with some purple glow, and he shouted, "Lofty Tower!"

It was as loud as a thunderclap.

In the Boundless Space, Erhuo knew that it was a crucial moment, so it didn't dare to hesitate, commanding the purple qi to rush into Ye Xiao's Jing and Mai.

The glaring sword lights started to shine, and the next moment, a nine-story-high tower appeared from nothing!

The nine-story tower was piercing the clouds. Each story of the tower was formed by the splendid sword light, which was covered by the amazing purple qi. The next moment, the tower fell upon Wu Fa.

Lofty Tower was a unique technique that Ye Xiao had created after he entered Tittle Phase and went through all the he had learned in both of his lives. Although it was still a faulty new technique, it somehow seemed to be of the power of Cage Phase already. Whoever was hit by the tower would be trapped inside. Whoever was captured only had two options. One was to break out the tower, while the other was to be ground into pieces inside!

It was even more potent than Xiao Monarch's Nine Laughters, which used to be Ye Xiao's most powerful technique!

"Nice play!" Wu Fa finally moved aside a little when he saw Ye Xiao's new martial art. He took a half step to the left and slightly turned aside while waving his hands to shoot out hundreds of energy flows from the fingers.

At the same time, he lifted the right foot and stamped fiercely.

Suddenly, everybody heard the sound of something breaking into pieces.

Ye Xiao felt cold in the heart all of a sudden when he was trying to kill Wu Fa with the last strike.

When Wu Fa stamped, the space in front of Ye Xiao actually broke!

A dark hole of spatial fissures filled the gap!

Ye Xiao and Wu Fa could see each other, but none of them was able to get through the dark hole.

It was like an abyss that separated the two sides into two different worlds.

Ye Xiao clearly knew why Wu Fa would do this.

Wu Fa had been invincible for so many years that he had made one mistake in the fight.

He could correctly avoid getting harm from Ye Xiao's Nine Laughters, but he hadn't thought that Ye Xiao still had a stronger technique, the Lofty Tower!

In fact, Wu Fa should be right. After Ye Xiao made that ultimate Nine Laughters strike, he had already run out of spiritual energy. It was impossible for him to make another dominant attack.

In fact, Ye Xiao didn't use Lofty Tower until the end exactly because he hadn't had enough energy to activate it.

How come he still did it after the Nine Laughters?

Anyway, Wu Fa believed Ye Xiao had no power to make another strike. He believed that he would take over the initiative soon after Ye Xiao finished the Nine Laughters.

That was why he was calm and casual.

However, things were always difficult to predict. Ye Xiao had the energy support from his Boundless Space, from Erhuo, which made the impossible possible!

Wu Fa couldn't stay calm anymore, so he decided to dodge. He had been standing still until the Lofty Tower showed up. Now that he finally moved, he had completely lost the initiative.

If he were hit by Lofty Tower, he would not only get caught but also be severely injured.

Ye Xiao might get even more severely injured at the same time, but Wu Fa clearly didn't want an internecine result. After all, it disgraced him.

That was why he activated the power of his Cage Phase again, cracked the space into pieces by a stamp, and created the dark hole to keep Ye Xiao away.

He was still casual though.

Now the dark hole took place for Wu Fa to hold the damage from the Lofty Tower.

Ye Xiao had used the purple qi to create the tower, yet it turned out falling into the dark hole. He felt like he had prepared for a long time yet disappointingly punched the air. He staggered, feeling sick. The next moment, the dark hole blurred and disappeared. The space returned to normal.

In the end, the murderous Lofty Tower, which Ye Xiao had meditated deeply on, actually failed just like that!

Wu Fa did deserve his fame. After losing the initiative, in the suppression of the tower, he could still easily do some change to defuse Ye Xiao's ultimate attack. Wu Fa was indeed the most powerful cultivator in Qing-Yun Realm! He deserved the title!

"Xiao Monarch, you do have the capability to laugh upon all heroes. I nearly fell right there!" Wu Fa's vicious voice sounded. Ye Xiao raised up hushed and saw Wu Fa's black robe. Wu Fa had come close.

Apparently, he wanted to attack and finish the fight as soon as possible this time!

Ye Xiao moaned and showed a pair of glaring eyes. The rising qi covered his body.

"Tittle Phase huh?" Wu Fa said, and then casually cast a look to somewhere far away. It seemed Zhan Yunfei and Zhu Jiutian were gone, but he didn't care that much. He didn't care if the two men live or die. The only reason he wanted to capture those two was to control Ye Xiao more easily. He wouldn't mind letting them go.

In fact, he was more interested in observing Ye Xiao's Tittle Phase power. "Tittle Phase varies on different people. Everyone knows some tricks, yet everyone does the trick differently. Xiao Monarch, let's see what your Tittle Phase is like."

He opened his arms, and suddenly, a lot of shadow claws flew in the air. The energy flows from the fingers kept shooting out. As he turned his hand upside down, seventy-nine hits continually rushed to Ye Xiao.

Ye Xiao knew what was going to happen to him. He performed his Tittle Phase power immediately and let the purple qi fill his eyes. Suddenly, everything in the world was in his sight.

He could see the pattern of the movements of everything.

The space in front of him was like a huge mirror, through which he could see precisely how Wu Fa raised his hand, clawed with his fingers, and pushed the sharp energy flows.

...

[Realms In The Firmament](#)

Chapter 1303: A Serious Problem

The flying shadow claws must be another unique technique.

What followed the shadow were the finger shots. Fu Fa kept moving his ten fingers, twirling the hands like a spinning flower. Only in a blink, hundreds of rays of energy flow shot over to Ye Xiao.

The next move was a wave of palm strikes.

Claws, fingers, and palm.

I felt like Wu Fa casually lifted his hands, yet he had already made three waves of attacks.

Every energy flow of the attacks was clearly seen in Ye Xiao's eyes.

Ye Xiao could see which arrived first while which later.

What surprised himself was that he felt incredibly confident about how to deal with all those attacking energy flows. He already had a plan on how to swing the sword, in what power level, how it could stop the attacks most efficiently!

Suddenly, he started to swing the sword, which shined the splendid lights.

The beautiful sword made a curve in the air and created a fissure silently. All the attacks from Wu Fa were like mud sculptures falling into a running river.

Theoretically, Ye Xiao wasn't powerful enough to do this, yet he did it!

He did it beautifully!

The air flows that were from Wu Fa's palm hits disappeared when Ye Xiao swung the sword. After the attacks were all defused, Ye Xiao stood straight up. His face looked pale, but he was totally uninjured!

Wu Tian and the two ladies were all shocked!

They were stunned!

Wu Fa's eyes turned vicious, and his voice sounded oppressive, "Ye Xiao, is your Tittle Phase skill... disassembling?"

After blocking out the attacks from Wu Fa, Ye Xiao felt something breaking in his heart. He realized that he had a significant improvement again. At this moment, he truly became one of the most potent figures!

He was now... one of the best in Qing-Yun Realm!

When the young Lord Ye's cracked soul left the body, Ye Xiao's soul and mind got improved. However, it wasn't the key to the improvement of his real power. What happened just then was truly great progress!

He was thrilled, so when he heard Wu Fa's question, he humphed and answered, "Yes. So?"

Wu Fa's face looked sullen. "Well, then there is no reason that I should spare your life! If you don't die now, you will become serious trouble of mine. Ye Xiao, today is the day of your death!"

Suddenly, he jumped up, and his robe suddenly became a dark cloud. He became like a phantom, flying around Ye Xiao, making continual attacks.

Wu Fa realized that Ye Xiao had reached the greatness of cultivation under the suppression.

However, Ye Xiao only reached it for a short time. It was still possible to kill him. However, after this, when Ye Xiao stabilized the ultimate power, Wu Fa would never be able to kill him.

Wu Fa was an expert cultivator who mastered Tittle Phase for a long time. He knew that Ye Xiao's Tittle Phase power was a bane to all martial arts in the world. If he could disassemble the opponent's attacks, he could easily defeat the opponent.

He knew that Ye Xiao would become a severe impact on his position in the martial world!

If Ye Xiao thoroughly mastered his Tittle Phase skill, Wu Fa would not be a rival to him.

Ye Xiao's Tittle Phase was incredible!

[I will not let Ye Xiao leave alive!] Wu Fa was raging up, [I, Wu Fa, the one true most powerful cultivator in the world! An eternal legend!]

Though he was emotional, his attacks didn't become reckless. Every hit was so forceful that Ye Xiao had to block it in a tough way. Ye Xiao's spiritual energy was losing into the attacks. Even though the Boundless Space was supporting him, it was still not enough.

He was not going to last long consuming energy like that to difficultly defend himself.

He would never choose to deal with the attacks in this way if he had an alternative. However, Wu Fa's attacks were all area-effect attacks. Even if Ye Xiao kept dodging, he would fall to a truly passive situation.

All of a sudden, Ye Xiao was in a muddle. He was in danger.

Yue Shuang and Yue Han were winning the fight against Wu Tian, so they kept an eye on Ye Xiao's fight. As they realized Ye Xiao was in a dangerous situation, they wanted to go to help Ye Xiao.

However, Ye Xiao abruptly shouted, "Go!"

That was the second order.

Yue Shuang and Yue Han didn't want to go, because their brother was in a pretty dangerous situation. They were both in good condition. How could they be willing to leave? However, they remembered what their brother told them, so they had to follow the plan, no matter how reconciled they were.

"Brother! Take care!" Yue Shuang fiercely stabbed out her sword toward Wu Tian.

"Brother, if you die here, we will kill ourselves, follow you to the heavens! Humph! I am not joking!"

Yue Han cried out, making a fierce sword attack on Wu Tian as well. The two ladies made a joint attack, which was unbelievably powerful. Even Wu Tian had to step away to avoid getting hurt. The next moment, the two ladies rushed up to the sky and flew away fast.

“No way!” Wu Tian was pissed. He had been pressed in the fight by the two ladies, yet now the ladies just left as they wished. Wu Tian felt ignored, so he started to chase them with grievance.

“Stop! Look at you now! You can’t catch them!” Wu Fa viciously said, “Let’s focus on Ye Xiao! Together, we shall kill him in this fight! He will be our serious problem in the future! If Xiao Monarch dies, where do you think Yue Shuang and Yue Han can go?”

Ye Xiao’s significant progress in Tittle Phase had truly scared Wu Fa. He was now a serious problem for Wu Fa.

Under such a circumstance, Wu Fa didn’t care about dignity and honor anymore. He just wanted Ye Xiao dead.

The most important thing was to kill Xiao Monarch as soon as possible!

“Wu Fa, the so-called world’s most powerful figure. How shameless! How dishonorable!” Ye Xiao sneered.

“You sent away your people! You asked for this!” Wu Fa actually felt ashamed. He stopped talking now.

He surely knew that it was despicable to let Wu Tian join the battle.

As the world’s most powerful cultivator in Qing-Yun Realm, he actually needed help to fight against Ye Xiao. He was extremely disgraced and shameful. However, even though he knew it was improper to do this, he had to seize the opportunity to kill Ye Xiao before it was too late!

Once the opportunity was gone, he wouldn’t be given a second chance!

...

[Realms In The Firmament](#)

Chapter 1304: The Last Strike!

Wu Tian was confused.

[It is quite obvious that you are winning. Ye Xiao has no power to do any defense. Why do you want me to join you now? That is... It doesn’t make sense! That is unreasonable!]

[I won’t say a word if you want to be disgraced, but please don’t disgrace me... I don’t want to lose face...]

However, the Wu Fa was the elder brother, so Wu Tian had to hurry forward, but hesitatingly.

“What is this for? Hurry up!” Wu Fa glared at his younger brother and shouted. He did push Ye Xiao to a really nasty situation, but he knew that it was a sure win yet. Ye Xiao was still dodging. Ye Xiao’s every move was accurate. If Wu Fa kept attacking, he might be exhausted.

After all, his attacks were all area effective attacks. It consumed his energy hugely. Every hit consumed a lot of energy.

“Do not use special techniques of Tittle Phase or above!” Wu Fa waved his black robe and flew up in the sky while talking to Wu Tian. He knew how powerful Ye Xiao’s Tittle Phase was. Since Ye Xiao could disassemble Wu Fa’s Tittle Phase and Cage Phase skills, he could also dissemble Wu Tian’s. If Wu Tian used any unique techniques, Ye Xiao might seize the opportunity to turn over the battle situation.

“Why?” Wu Tian was surprised. He couldn’t understand it.

He was always proud to have his own unique skills. The Tittle Phase skill was almost in his instinct. It was a barrier between top-level cultivators and super-level cultivators. He just couldn’t understand why he couldn’t use it anymore!

“Just don’t waste time on the meaningless question. Put him down! Force him to fight tough! Kill him once and fall all!” Wu Fa angrily should.

[Why is Wu Tian acting like a f*cking idiot? Why does he have to ask so many questions? Can’t he just follow my instructions? Do I have to explain everything now?]

Wu Tian knew that Wu Fa was annoyed, which meant they were in a pretty crucial moment. Although he was still confused, he had to go as his brother said.

However, he wasn’t so happy. [F*cking hell. Is it my bad day today? Look how I got injured... Are you sure you still want me to put on a hard fight? Don’t you care about me? Are you my elder brother or not? This is ridiculous!]

No matter what he thought, he did add on more pressure on Ye Xiao as he joined the battle. Things were getting more dangerous for Ye Xiao.

Wu Tian was not in good condition, only sixty percent of his power left, yet he was still an experienced and excellent rival in the battle. He was doing an excellent job to try to hit Ye Xiao. Ye Xiao was already losing the fight against Wu Fa, now he had to fight the two twin brothers at the same time.

- Bang! –

Ye Xiao eventually stopped dodging facing the attacks from two powerful enemies. Helplessly, he had to hit back on Wu Tian’s palm hit. Wu Tian had been injured, so he wasn’t that powerful, but Ye Xiao was pretty worn out. As the two palm hits crashed, they both spat out a mouthful of blood and stepped backward immediately. Wu Fa suddenly flashed and showed up behind Ye Xiao. With a wicked smile on the face, he fiercely hit Ye Xiao on the back!

Ye Xiao was staggering back when Wu Fa showed up. He didn’t expect Wu Fa could be so dishonorable, and there was no room for him to dodge the palm hit, so he took a deep breath and forcibly tried to block the hit by another palm hit.

He would be killed if he didn’t try... It was better to try something than to do nothing!

As the palm hits crashed, more palm attacks were made by both sides... They made over ten palm hits continually at the same time. When they made the last hit on each other’s hand, Ye Xiao moaned and flew out like a flying ball, spitting out blood, in which there was even a bit pieces of viscus...

His both hands and arms were crashed and twisted... His shoulders were cracked. A few ribs were broken...

Wu Fa only staggered for a while and then moved forward to catch Ye Xiao immediately.

In his eyes, there was excitement.

Maybe Ye Xiao was pretending. Perhaps he wanted Wu Fa to be reckless. However, it would be too much a sacrifice to ruin his own arms to achievement such a purpose!

Therefore, Wu Fa had a conclusion—Ye Xiao was defeated!

Finally, he got the chance to kill the man who would become a threat to him in the future!

Ye Xiao moaned when he saw Wu Fa. Suddenly, he took a turn in the air.

All the hidden weapons that he hadn't used yet all shot out from his hairs and clothes!

The flying knives, and the flying needles!

The weapons flew out from all over his body. As he moved his head, some rays of lights shot out from the hairs... As he moved the chest up, a few beams of lights shot out...

From his sleeves, the lower hem of his clothes, under his shoes, behind his ears, his waist...

Over a hundred needles and twelve knives were shooting over to Wu Fa, aiming at his important parts.

He hadn't used the hidden weapons for a long time. In fact, since he arrived in the Qing-Yun Realm, he hadn't used them even once. However, he had been sharpening them, using all kinds of materials to enhance them. Now the knives and needles were already a set of weapons that was one of the three most deadly hidden weapons!

Now as he stroke them out when he was already in such an excellent cultivation level, the shooting weapons were horribly lethal.

"Shooting weapons? Haha! You have run out of your tricks! Why struggle when you are surely going to die?" Wu Fa humphed and stroke on three knives. When the knives were hit, they instantly became ashes. How horrible was Wu Fa's powerful palm hit!

Wu Fa's sword suddenly became a shield of lights covering him inside as he was still moving fast forward. All the needles and knives were turned into ash when touched by the light. As the storm of hidden weapons was gone, he finally grabbed Ye Xiao. With a cold smile, he said, "Ye Xiao, stop..."

After the starting several words, he suddenly exclaimed and moved backward.

Before he finished talking, Ye Xiao abruptly raised up his head and spat out a mouthful of blood again.

Wu Fa raised up a hand when the blood was out on him, but soon he felt numb on that hand.

He hurriedly checked the hand and found a black needle sticking on it. The needle was like a phantom which surprisingly appeared from nowhere!

He didn't know where the needle came from, but then he was enlightened. It was from Ye Xiao's blood! Ye Xiao hid the needle in the blood!

The surprise and anger of Wu Fa rose up as if they could burn the entire world!

...

[Realms In The Firmament](#)

Chapter 1305: Disappeared

[Bastard! He actually hid a poisonous needle in his mouth!]

[He shot it out when he spat that blood! Treacherous sh*t!]

Ye Xiao had used one hundred and seven needles out of the one hundred and eight he had been hiding, and all the knives were stricken out!

Every piece of the needles and knives was a precious treasure, a great weapon to cause significant damage on the enemy. However, Ye Xiao planned to shoot them all out in waste, because all those needles and knives were to relax Wu Fa's vigilance and made sure the last needle hit!

Only the last needle contained all the energy Ye Xiao could have used on an attack.

If Wu Fa dodged away from the needle, Ye Xiao would have been killed!

He wouldn't have time to do anything else to keep himself from getting killed by Wu Fa!

Luckily, the last strike hit Wu Fa!

Wu Fa was the most powerful cultivator in the world after all. Even though he was hit, he still seized the chance to make another wave of attacks! As he angrily waved his hand, a lot of needles shot out like raining cats and dogs!

Well, those were some bloody needles! All the needles were red!

It was Wu Fa's unique shooting weapon, Scorching Needle!

Ye Xiao was already exhausted. He didn't have any power left to make the doge. The needles were about to hit him on the chest.

If he were hit by the rain of needles, he would at least be broken down even not get killed.

"Meow!"

Suddenly, a little white cat quickly appeared in front of Ye Xiao, making a weak moan. It flashed over fast in the air.

The hundreds of needles were mostly swept away by the cat! Only over ten of the needles eventually hit Ye Xiao.

Erhuo showed up right in time. When Ye Xiao was almost going to get killed, it swept away most of the shooting needles. However, even though only a small part of the needles rain hit Ye Xiao, it hurt him pretty bad.

Ye Xiao moaned and shouted, "Go!"

That was a third order he had made in the battle.

The first two orders, he wanted the other four people to go. This time, he wanted Erhuo to leave with him together!

Erhuo meowed and then suddenly disappeared. Ye Xiao was gone too! Suddenly, they were all gone.

Apparently, that was Ye Xiao's last strike.

To enter the Boundless Space!

Entering the Boundless Space meant traversing to another world. No matter how powerful Wu Fa was, he was never able to chase him to another independent space!

...

On the other side, Wu Fa stepped backward quickly and stroke the needle rain. He was so powerful that when anything unexpected happened, he always worried about losing rather than thought about winning. That was when he realized his arm was numb!

He was frightened! Normally, only a few kinds of poison in the world could affect a cultivator at the top of Dao Origin Stage!

Some poison started working when the person got hit, while the other took quite a long time to take place. When Ye Xiao helped Shangguan Zhuifeng of Black Ride Alliance, the poison on Shangguan was the latter. However, a poison that was used in a battle was mostly the former one. It worked immediately!

When the poison started working, it was easy to tell how powerful it was. The more pain it caused, the less strong it was. On the contrary, if it only felt itchy or numb, it must be something terrible!

When Saint Sunlight Sect attacked Yue Shuang and Yue Han in the Dark Forest, they used Cream of Frosty Land, the unique poison of Misty Cloud Palace, which was the most powerful poison in Qing-Yun Realm!

However, even if Wu Fa got hit by Cream of Frosty Land, he should feel at least something, instead of nothing but numb!

Unless... the poison on Ye Xiao's needle was even more horrible than Cream of Frosty Land!

Who was Wu Fa? The world's best! He was shocked but didn't lose his mind. With one sword strike, he chopped off his own arm off the shoulder. Half of the shoulder and the entire arm were chopped off!

Blood ran out like a waterfall.

The blood wasn't dark, which meant the poison hadn't reached the shoulder yet. Wu Fa was such a tough man. He actually chopped off the entire arm of himself, stopped the poison from invading the other part of the body! It must be painful, but it was the best way to do!

He didn't have time to worry about the pain, did he? When he looked at Ye Xiao, he was shocked. Even though he was a calm and steady person, he was astounded at the moment!

[What the f*ck? Why is there a cat?]

[Unbelievable!]

[How could a cat move so fast? This is impossible! Why is this cat so capable?]

[I shot out those needles in such a short distance! Even myself couldn't sweep away most of the needles! How?]

[The cat did it! Why?]

[Doesn't it mean the cat is faster than me?]

[Is this a joke?]

What happened next astonished him much more... Suddenly, the cat and Ye Xiao were both gone as if they were melted in the air! No trace was left behind!

Wu Fa used to think that nothing in the world could ever terrify him. However, he was terrified now!

He was terrified and furious at the same time, shouting, "Where the f*ck are they?"

He suddenly remembered the day when he chased after a white shadow... In the end, what he got was a white robe, on which there was a hair...

A white hair...

Wu Fa's fury was going to burn the world!

"That's it!"

He looked around but only saw dust rolling up everywhere. The battle had caused great damage to the land. There was nothing else he could see. The severely injured Xiao Monarch was gone just like that.

The twin brothers looked at each other. Neither of them could believe what had just happened.

...

[Realms In The Firmament](#)

Chapter 1306: Peculiar Poison; Severe Injury

All of a sudden...

"Oh heavens... What is going on?" Wu Tian exclaimed.

Wu Fa looked around, and the cold sweat ran on his back.

It had been years since he last shed cold sweats. What he saw terrified him again!

In the sky, the arm of him that he had chopped off was falling from high in the air. Before it touched the floor, the arm started to smoke. The dark smoke kept rolling up, and the entire arm instantly melted into some watery blood... At last, even the blood disappeared.

“What poison is it?” Wu Fa kept holding the wound on the shoulder and felt the chill in his heart.

As an expert in cultivation, he knew well how horrible the poison was. In fact, it was appalling. He knew how strong his body was, yet it only took a few seconds for the poison to completely destroy his arm. How appalling was that?

He was lucky to cut off his arm decisively. Otherwise, he would be melted into watery blood just like the arm. Maybe he could operate his spiritual power to fight the poison inside the body, but was he truly able to deal with such peculiar poison?

He didn't dare to think about how horrible the poison was anymore! He didn't dare!

However, he couldn't understand. [Why does Ye Xiao have such a vicious and horrible poison with him?]

Wu Fa and Wu Tian didn't know that the poison wasn't from Qing-Yun Realm. In fact, it was from somewhere much higher upon this realm. That was why it was so particularly terrifying.

It was impossible that the twin brothers didn't feel scared.

“Brother, your arm...” Wu Tian asked.

“I am fine.” Wu Fa's face was dark. He hurriedly operated the martial art, and a cloud of dark smoke quickly rose up from his body. The wound on his shoulder started to smoke too!

Basically, Dao Origin Stage cultivators had the capability of regrowing amputated limbs, but different people needed a different length of time. For a cultivator on Wu Fa's level, it was just a piece of cake. A few days was all he needed to regrow the arm. Besides, he had the demonic power, which allowed him to regrow his arm within a short time!

However, after fifteen minutes, when the dark smoke spread away, the two of them surprisedly realized that only a small part of the shoulder had grown out.

It was not even close to getting his entire arm back.

“This poison... is insufferable!” Wu Fa gritted his teeth and spoke with a dark face, “I have cut off the arm before the poison could invade my body... but it still has affected me... I am afraid it is going to take me at least one month to recover. I can't believe there is such vicious poison in the world!”

“Are you okay?” Wu Tian asked carefully.

“I'll live!” Wu Fa looked sullen as he fiercely said, “We have to find Ye Xiao. I don't believe he could just disappear like that! He is severely injured. He can't go far...”

“Let's go!”

“We have to find him and kill him. I don't care if we have to dig down ten meters into the ground... We can never have any peaceful days before he dies!” Wu Fa looked fierce.

“Is he really that important? I can see how powerful his poison is... But... I guess we should just be more careful...” Wu Tian didn't understand.

“He will become the biggest threat to both of us in the world!” Wu Fa spoke in a deep voice. In his eyes, the demonic flame was flickering.

“Seriously?” Wu Tian was scared.

“Cut the nonsense. Go get him now!” Wu Fa shouted.

Wu Fa’s heart was already torn with anxiety. [Ye Xiao has only entered Tittle Phase, yet he is already this capable. If he gets significantly improved later, what can I do about him?]

[If not that I am this experienced and skillful in Cage Phase... If I didn’t perform the spatial cages in time and block his tower attack... I might get killed already... Besides, he still had that insufferably vicious poison...]

Wu Fa decided not to think about it anymore. If he kept thinking about it, he might lose faith in himself and become frustrated.

“Okay!” Wu Tian answered. Although he was not in good condition, he had to start looking for Ye Xiao. The purple qi kept hurting him from time to time inside his body, but he couldn’t lose alert on such important matter. Though he was disgruntled, he had to do it with his wounded body.

Neither of the twin brothers knew that Ye Xiao wasn’t in the same world with them anymore, but they were right that Ye Xiao was in a severe situation. As he entered the Boundless Space, he completely lost consciousness.

He was too severely wounded to stay awake. Wu Fa’s continual attacks were too overwhelming to defend!

Over twenty fractures on his body and his inner organs were all destroyed.

He had been stalling the fight to hold Wu Fa and Wu Tian until the other four people safely left the battle. Before that, he had fought under a great suppression that nobody could ever imagine.

He had to face the twin brothers on his own, two most powerful cultivators in the world! It was Ye Xiao who did everything possible to hurt Wu Tian in the first place.

He had been fighting without resting. Even an iron body couldn’t last that long in a continuous fight like that. That was why he eventually fell to unconsciousness when he entered the Space.

Luckily the space was filled with spiritual qi, and Erhuo didn’t stop taking care of him. Otherwise, he would have died instantly!

Erhuo meowed casually, looked at Ye Xiao, raised a paw to rub its own cheek, shook its head, and sighed in the end.

It turned over its paw, took out a dan bead, crawled up on Ye Xiao’s chest, raised the dan bead, and rudely push the dan bead into his mouth. After that, it stayed low on his chest, with its ears flickering from time to time, watching him quietly.

It could provide the best support for Ye Xiao to stay on his chest.

As it stayed on his chest, the purple qi in the space seemed to finally get a connection to Ye Xiao. The massive purple qi seemed like the water in a lake running out through a hole into Ye Xiao's body.

...

[Realms In The Firmament](#)

Chapter 1307: In A Dream?

As the purple qi get closer to his body, it started to run wildly into him through his mouth, nose, ears... and even the pores on the skin.

It didn't only happen for a short time. Instead, the purple qi kept running into him as if there was no end.

The injuries inside started to heal slowly when the purple qi entered the body.

Erhuo just kept sitting on Ye Xiao's chest without moving a bit.

It pressed right on Ye Xiao's broken ribs, with its tail under its butt as a cushion. Actually, its two little legs crossed each other making it like a man sitting in meditation with its two forepaws in front of its chest.

In fact, it didn't look like a cat, but more like a squirrel...

Sometimes, it used a forepaw to grab its whisker like a wise old man lost in thoughts. Sometimes, it used the other forepaw to scratch its neck, moving its head like a spinning top. Well, it looked pretty caring and worried.

Finally, when Ye Xiao's face turned red from the color of a dead man, Erhuo cheerfully meowed and waved its tail.

Ye Xiao didn't know how long he had been lost in a coma. He felt like he had a weird dream.

In the dream, he went to many places that he had never been before. However, he traveled to those places not as a human, but as something inside a bit of shining ball of light.

Nobody saw him, but he saw everything. He kept floating in the air aimlessly for a long time until one day, he flew over a cloud.

When he moved through the clouds, he saw a world among the clouds, like a grand manor.

It was strange and astounding.

He thought the clouds were fake, but the manor felt so real. It was hundreds of acre, with all kinds of rocks, grasses, trees, and flowers, which were the most usual things in the real world.

However, these normal things made the owner of the manor extraordinary. Among the layers of clouds, a grand manor with all sorts of ordinary objects was hidden up in the sky... The clouds couldn't even hold up a stone, yet the manor was far more than hundreds of million pounds!

How did it work?

Impossible! Unbelievable!

Suddenly, a lady who was beautiful like a fairy showed up among the flowers and walked out. As she showed up, everything in the world lost the gloss. Her beauty made all that were called beautiful in the world colorless.

As she walked along the road, the flowers on both sides became dim. It seemed the flowers were self-abased in front of her.

When Ye Xiao saw the lady, his eyes were fixed. He had never seen any women more beautiful than this lady!

Jun Yinglian and Bing'er might have equally pretty faces, but they both lacked the mysteriousness, the casualness, and the indescribable charm of this lady.

"Are you Ye Xiao?" The mysterious lady looked at Ye Xiao and smiled. "Good lad indeed."

"I am sorry. Who are you?" Ye Xiao wondered.

"Me? I am just a normal woman." The lady smiled.

Ye Xiao twisted his lips, [You are just a normal woman?]

[Come on! Do you believe it yourself?]

[I must be the most foolish person in the world if I believe that!]

[What kind of a normal woman lives upon the clouds?]

[What kind of a normal woman has such a grand manor?]

"Senior, did you lead me here?" Ye Xiao asked. That was what Ye Xiao wanted to know first.

"No. Somebody else did. I heard about you a long time ago. So I guessed I should come and see what you look like." The lady smiled. "You seem to be a heroic teenager, don't you? Come with me."

Ye Xiao was speechless.

He wanted to say something, but only kept the words in mind, [A heroic teenager? Is that supposed to be sarcasm?]

However, the next moment, he realized that he was following the lady. In fact, he was flying fast behind the lady because he couldn't control it.

He was dazed by the reflection of all kinds of things as if he was going through many different worlds.

He surprisingly realized that he had misjudged about the hundreds of acre... It was far larger than hundreds of acre!

The manor was even broader than the Land of Han-Yang...

Although the Land of Han-Yang was a low realm, it was still a huge world. However, the manor was even broader than a world! Wasn't it tremendous?

Aside from that, Ye Xiao found that the medicinal plants were all rare and precious. Ye Xiao wasn't an ignorant person. After all, he had a lot of unusual plants in his Wood Space, and all those collections from the Mountain of All Medicines. However, he felt like he was an ignorant fool at the moment!

Why would he feel that way? Because he was shocked!

As he moved forward, he suddenly noticed a bunch of naked kids fighting each other. Some were crying, some were screaming, some were waving their fists, some were cheering, while the others were trying to stop the mess. Oh, there was one or two trying to make some sneaky attacks and get away from the fight...

There were dozens of them.

Kids were naughty. It wasn't anything special. Maybe the lady owned a kindergarten. He didn't know, did he? When the kids saw Ye Xiao, they all suddenly disappeared with an exclamation.

That was weird. However, maybe the kids were disciples of some extraordinary cultivators, so they were good at moving skills. It was a bit farfetched, but it was possible, wasn't it?

When Ye Xiao looked carefully, he found that after the kids were gone, there were dozens of pink-and-white ginsengs.

...

[Realms In The Firmament](#)

Chapter 1308: People in the Clouds!

The ginsengs each had a flower blooming on the top, stretching out a few green leaves. Each leaf was like an eye staring at Ye Xiao in alarm.

Ye Xiao was not a fool. He saw through it right away.

Those were not kids, but a bunch of ginseng!

They were all at an ultimate level, so they had their own consciousness, and were able to transform into ginseng babies!

Thinking about how the ginseng babies played around on the ground, Ye Xiao took a deep breath and said, "How many years did it take to raise such a bunch of magnificent ginseng? How much spiritual energy..."

That was incredible.

The truth was right before his nose, yet he still couldn't believe it!

When he passed by, the noise of the kids started again.

"That was not done yet! You threw the sick worm under your feet onto my leaf! How unacceptable! How dispiteous! This is not going to be forgotten!" A clear voice sounded.

"I didn't mean to... I really didn't... I am not dispiteous!" Another voice sounded.

Some others, "I saw it! You did it on purpose! You did!"

“That’s right! It wouldn’t be so accurate if you didn’t mean to do it! What could it be!”

“You must be thirsty for a fight! You lunatic!”

“Wow! A huge green worm...”

“This is not going to end easily. You two should have a real fight... Go, brothers, be inginseng!”

“Oh yeah!”

...

Hearing the centurial debate of the ginseng babies, Ye Xiao nearly passed out. He realized how limited his comprehension was.

[You are all ultimate ginseng babies! Do you really have to care about such a trifle? A worm? Really?]

[What does inginseng even mean? As inhuman?]

The beautiful lady turned around and gently said, “Stop it now. Look at you all... Don’t disgrace yourselves in front of the guest.”

“Oh heavens... The lady talks...”

“She is talking to me! Me!”

“No! She is talking to me! I am so happy. I need solitude!”

“What? You need solitude? Instead of the lady? Well, she is not talking to you anyway. She’s talking to me...”

“Go away! The lady likes me most! She must be talking to me...”

...

The ginseng babies started to jump on the ground. A while earlier they were fighting, yet at the moment, they were holding each other’s hands, dancing around.

What a bustling scene...

Perhaps they did what they had done just because they wanted the lady to talk to them.

“A bunch of naughty kids...”

The lady held her own forehead and said, “I always fall to it. They get all methods to make me talk.”

Ye Xiao laughed and said, “You must be quite amiable to intentionally fall into it. You just want them to be happy...”

The lady smiled, and then the view in Ye Xiao’s sight started to move fast again.

The lady was gone!

Instead, a while-clothes man standing in front of the entrance of a stately palace.

When Ye Xiao saw the man, he felt difficult to breathe because of the suppression from the man.

The man looked at him and blandly said, "So you are Ye Xiao?"

Before Ye Xiao answered, the man nodded and said, "You have a pretty face indeed. You are almost the same handsome as I did when I was young..."

Then he talked to somebody else, "Xue Yan, was I fooled?"

The voice of that lady sounded with giggling, "No... You said it yourself. He is almost as handsome as you were..."

The man furiously said, "Are you serious? Those bastards told me this guy looked exactly the same as me, at least eighty percent. Why do you think I would let him come... How does he look like me on earth?"

He seemed pissed, continued, "The bastards. They fooled me! They fool the sky, fool the earth, fool themselves, and now they fool me!"

"Well, to be honest, his face doesn't look like you... well, the rest of him... are also quite different. He has a different vibe, different manner. You looked pretty vile in those years, an obvious frivolous person... Well, this Ye Xiao may not be a great man, but he definitely looked more decent than you were. Tell me you are not jealous."

The lady said.

She seemed to irritate the man in white on purpose. The man's face turned greed and gloomily said, "Decent... I don't see any decency on him! And I am not jealous! You better stop the nonsense!"

The lady humphed and said, "You know what's true. Do you have to immerse yourself in your own lies? Really?"

The man in white humphed and answered, "I don't lie to myself... Even if he is pretty good-looking, I was much better... You were charmed when you saw me for the first time! You can't deny it, can you?"

The lady half closed her eyes and said, "Fine. Remember what you said and be responsible for every word you just said to me! I won't wrong you! Remember this! Handsome man!"

The man in white was terrified, so hurriedly apologized as humble as he could.

Ye Xiao twisted his lips and thought, [He is so afraid of his wife. Such a disgrace to all men! I almost got pushed down by the suppression from him. What a humiliation...]

Suddenly, the lady and the man both stopped talking...

"Hahaha..." The lady broke into a laugh, "Mo Xie, what a special day for you. Somebody thinks you are a disgrace to all men... Hahahaha... This is so funny..."

The man looked embarrassed, staring at Ye Xiao, moving the mouth speechlessly.

[He actually thinks of me as that...]

[How dare you!]

[How dare!]

Ye Xiao looked still calm but was totally shocked. [Wait? They know what I am thinking? They can hear my mind!]

“Well, I just wanted to check on him, didn’t trying to suppress him down...” The man smiled awkwardly and rolled up his eyes, “Now we have seen him. I guess I should send him back.”

“Just like that? You can’t just send him back.” The lady said, “You just brought him over. How can you send him back just because you have already seen him? That’s a bit impertinent, isn’t it?”

...

[Realms In The Firmament](#)

Chapter 1309: Give You a Word

“What do you mean? What can I do if not send him back?” The man in white threw up his hands, “Look how weak he is. I don’t even need a little finger to push him to death. I can tear him into pieces with a breath.”

“You become more and more violent these days. Can you behave like a senior? Don’t you think you should at least do something for the boy...” The lady rolled up her eyes and said, “What? Do you become closefisted too? Are you pretending ignorant?”

“Gosh...” The man murmured, “He just said I disgraced all men because I am afraid of my wife... Now you want me to give him a gift? Come on. That’s more like a senior moron!”

The lady laughed bending beneath, “Life is limited. It is a good experience to be a moron sometimes, isn’t it?”

The man speechlessly shook his head and then grabbed something from the air. A strange light started to gather in his hand. Ye Xiao didn’t know what it was, but the man just pushed it into Ye Xiao’s body by a clap. The man said, “Who respects his wife will get a good treat. Here you go, lucky young man!”

The light entered Ye Xiao’s body, and he felt warm and comfortable.

While he was confused, the lady said, “Wait, Mo Xie, how about this young man?”

The man said, “What?”

“You know... They have many people...” The lady gently said with a warm smile, “They always come up together for the fight... A bunch of them...”

The man seemed enlightened. He looked at Ye Xiao from head to toe and said, “Well, he is indeed a bit like me, born in a good clan, used to be a useless foppish prick... What I like the most is that he doesn’t like those guys either...”

His eyes lit up, and he continued, “Pretty well!”

And then he actually friendly smiled to Ye Xiao, “Ye Xiao, I guess I should do you one more favor... I kind of like you now... Hahaha...”

Then he clapped on Ye Xiao's forehead, smiled, "Take care of yourself."

That was such a console to Ye Xiao. Such a peerless cultivator of the entire universe actually cared for him!

Suddenly, he felt some pretty strange power entering his body from the man's palm!

Ye Xiao nodded and asked, "May I have your name, master?"

The man smiled, "You don't need to ask. When the time comes, you will know."

Ye Xiao confusedly nodded.

"It would be great if you can come up soon." The man smiled and said, "Listen carefully now."

Ye Xiao listened with respectful attention.

"The greatness is in the heart!" The man spoke, "Everything comes from your heart! The heart creates everything; the heart contains the firmament!

"The stronger heart you have, the further you go.

"Young man, how strong is your heart?"

The man looked at Ye Xiao was lost in thoughts. The man smiled and said, "Go now."

Then he slightly pushed Ye Xiao's shoulder.

The next moment, Ye Xiao exclaimed and opened his eyes.

That was so loud that Erhuo was scared awake from asleep. Its hair all stood straight up, and he stared at Ye Xiao in shock, didn't even wave the tail.

[What the hell is going on with him? A nightmare?]

Ye Xiao opened his eyes and saw nothing like that grand palace, nobody like that beautiful lady or that powerful man. He was only in his Boundless Space.

He kept recollecting what had just happened and thought, [Wast it just a dream?]

However, he could still remember every detail of it, except the faces of the lady and the man.

He only remembered about the lady and the man that she was beautiful and he was handsome...

Nothing more.

He remembered every word the two people had said as if their voices were still ringing beside his ears...

[The man was totally an Erhuo... He took me through who-knows-how-many worlds over to him just because somebody told him that I look like him... After a few words, he sent me back?]

Erhuo thought, [Me? Did you just compare me to that magnificent figure? That is so kind of you. I won't deny it. It is such an honor!] It was elated!

Ye Xiao thought for a while and then cracked into a laugh, murmuring, "That was ridiculous. A bunch of ginseng babies? Inginseng? Haha! That must be a dream. Everything is possible in a dream..."

The next moment, he was shocked.

He realized that he could move his head now!

Everybody could move the head, but he had just been severely injured! His entire body was damaged!

He had at least twenty fractures everywhere. After he was injured, he used the last bit of energy to create a blast to shoot out the hidden weapons! That caused an even destructive injury on his body.

He fell into unconsciousness at the moment he entered the Boundless Space, but before he lost consciousness, he knew that his neck had been broken. However, now it was recovered! He didn't even feel any pain! [What happened to the wounds?]

[Did Erhuo do this?]

Erhuo surely would do anything to cure him, but this time, it was out of Erhuo's capability. It was the best Erhuo could do to use the spiritual qi in the Space to keep Ye Xiao alive. It should take a long time for him to fully recover. In another word, it was impossible that he could heal within a short time.

[I don't feel pain anymore. Why?]

As he opened his eyes, he saw a pair of cat eyes staring at him.

Erhuo was apparently shocked, even terrified!

Its eyeballs nearly popped out of the eye frames and hung down before its nose.

No matter how Erhuo was experienced, it could never think of this. Actually, it wouldn't believe it...

...

[Realms In The Firmament](#)

Chapter 1310: Wonderful Power

Ye Xiao was ninety-five percent possibly dead with all kinds of injuries.

Erhuo had used all that it could use of the spiritual power trying to cure him. It might have saved him from death, but it was impossible for him to recover in a short time. He got too severely injured this time!

However, under Erhuo's eyes that were fixed on him, a miracle happened.

It was such a miracle!

The wounds on Ye Xiao's body were all gone!

The bloodstains were still there, yet the wounds were gone! The crushed bones were all fixed!

His both hands, which were totally wrecked into pieces, grew back!

Erhuo thought that maybe it got a pair of blurred eyes because it wanted Ye Xiao to get well soon too much. However, after rubbing the eyes again and again for a long time, Ye Xiao was indeed recovered!

[What is this?]

Erhuo swore that it had been sitting on Ye Xiao's chest, protecting his heart with its own spirit. It didn't leave the spot, not even moved its eyes away!

It could be sure that Ye Xiao didn't do that to himself because he had been in a coma all the time.

However, when he was unconscious, the wounds were all cured.

There was no sign of it, no reason for it, nothing.

[This is...]

[What is this?]

[Some external power?]

[This is not somewhere anybody could get in, is it?]

Erhuo was sure that even itself couldn't enter the Boundless Space without permission! At least it couldn't get in and out as it wanted!

That was why Erhuo was freaking out!

It just couldn't think it through!

In fact, not only Erhuo but also Ye Xiao felt like going crazy!

He felt what happened on himself more than any other.

He got severely injured, nearly died, lost consciousness, had a weird dream, and then all wounds were healed...

People might beat him to death if he told them what happened.

They might say, "Are you tired of living? How dare you make up a story to fool me?"

"Can it even be more out-dated?"

Well, how did it happen exactly?

Aside from that, there was the other thing that confused him.

Although it was something incredible, yet seemed to be less important compared to the former!

The energy from the inner core of Golden-scale Dragon Fish, and the energy from the Ghose Ganoderma were gradually blending into his body... In fact, it was already high speed.

In fact, the two energies had been slowly transiting to his body. The more he improved in cultivation, the more energies would enter into his body. Recently before this fight, it had slowed down a bit!

According to Erhuo's theory, he had gotten a mixture of three kinds of incredible power. First, it was the inner core of the Golden-scale Dragon Fish, then the eighty percent of the power from the Ghost Ganoderma from Li Wuliang, and then the harmless revamped Divine Ying Yang Fruit. He truly had a tremendous power mixture inside his body!

However, it didn't mean there were no drawbacks from it. Erhuo once told Ye Xiao, "All those powers stay in your body at the same time. They surely will bring you great advantages, but it takes a long time, especially the fruit!"

Ye Xiao didn't understand, so he asked Erhuo about it.

Erhuo only gave him a casual reply, "Simple. You are too weak. The East-rising Purple Qi is at a low level. Your mind power is even worse. When you ate the fruit, your cultivation improvement consumed all the mind power you have.

"The Golden-scale Dragon Fish can provide ten thousand years cultivation. The Ghost Ganoderma is such a blessing from the heavens. You are over occupied at the moment. It is inefficient to digest the energy from all those things. After you ate the fruit and were forced to consume the mind power to improve, you need tenfold longer time to fully digest the power from the core of Golden-scale Dragon Fish. As for the Ghost Ganoderma... Oh man, you should just forget about it. You don't have the power to use it!"

Ye Xiao still didn't understand, "You told me that Li Wuliang would digest all the power from the Ghost Ganoderma in twenty years and become an invincible person in the world. Why told me to forget about it?"

Erhuo twisted the lips and said, "When he took the Ghost Ganoderma, he had already been through the shredding and recovery on his body. He had been through a lot before he started to digest the energy! What do you think?"

"Look at you. You got the energy because of me and the East-rising Purple Qi. The Ghost Ganoderma stayed inside you, only because the East-rising Purple Qi was luckily a bane to it. You are lucky. Do you know that? But you lack experience and suffering because of the great fortune. How could you compare yourself with Li Wuliang? Is it fair?"

"No pain, no gain. I know that sometimes there is gain, but there isn't pain, but trust me, a rainbow after a rain is a better rainbow!"

"So, you can forget about these two powers!"

"At least in the next thousands of years."

That was why he had already decided to give up on the two powers. [I don't have thousands of years for that! I would instead focus on Tittle Phase or Cage Phase first. The East-rising Purple Qi will help me digest them bit by bit anyway!]

However, at this moment, Ye Xiao realized the digesting had accelerated, especially the energy from the inner core of the Golden-scale Dragon Fish. It had been over a hundred times faster than it used to be!

In another word, after talking the fruit, he needed ten thousand years to digest the energy from the fish, but now, it was only ten years!

How incredible!

Why would such a wonderful change happen to him?

Ye Xiao still didn't lose alert. He used the spiritual mind to do a careful self-observation and found that the energy from the fish wasn't being digested by itself or the East-rising Purple Qi... Instead, it was a new power inside his Jing and Mai—something with seven colors.

That wonderful power was forcing the inner core of the fish to melt and turn into some pure spiritual energy. The energy kept running into his body.

...
