Chapter 1721: No Luck in this Life?

Ye Xiao nodded and said, "I see. I promise I will do this."

"Our great martial arts are in these two jade pendants. When we leave, you can read them as you like and use them as you wish. We know that you have been cultivating something even more powerful, so you may not really want our martial arts. However, our martial arts may help you better understand other martial arts! There is one thing we want you to promise. Please, do not give all our martial arts to a single man."

Ji Qingxiao said, "They won't be able to carry forward the greatness to have them all..."

Ye Xiao stayed silent for a while and then said, "I see. People are limited. It is always better to focus on one thing. Not everyone has the capability to take two or more courses concurrently."

Ce Xingchen looked impressed. He said, "That's correct."

"Please, Monarch Ye. We are counting on you. We don't want our works to be wasted. It doesn't matter who you choose to learn our martial arts."

"There is one more thing we must ask for your help. It is something the two of us want the most."

Ce Xingchen made a long sigh and said, "We want to know what is the stage beyond the Supremacy."

"We have spent our lives trying to reach the stage beyond the limit of this world. When the Divine Choice came to us, we gave up the opportunity. We never had a second chance afterward. We could see things that would happen millions of years later, and things that had happened millions of years earlier. However, we never saw the answer we wanted."

"We lost the opportunity to reach the upper stage, and we never regretted it. However, we want to know what it is. When we used up every bit of our spiritual energy to see the future, we saw something beyond the Heavenly Dao that could go against destiny and fate of the Human Realm Upon Heavens."

"Something beyond the Heavenly Dao?" Ye Xiao was surprised.

"That's right. It is you. You will go beyond the Heavenly Dao." Ji Qingxiao said, "We see your past, but we can't see your future."

Ye Xiao was lost in thoughts.

"We are sure that if there is somebody in the world who can go beyond the limit of the world without destroying the world, it is you. Nobody else!"

"That is why we put our fate in you."

Ce Xingchen smiled and enthusiastically stared at Ye Xiao.

Ye Xiao seemed to be enlightened. He widely opened his eyes and said, "Was it you? My rebirth! Did you save the last bit of my soul back then? Was it you?"

Ji Qingxiao bitterly smiled and said, "No. Monarch Ye, you are overestimating us. We do have the power to see the past and the future, but we can't do things that reached beyond the great power of the Heavenly Dao! When we got to know that the world had to die if we wanted to survive, we didn't accept it. We thought we could find an answer in the future, so we searched the future for it. Then we found you, who lives one hundred and eighty thousand years after us. We just found you, and it cost all our energy. We were like two onlookers who spent everything we had on this opportunity."

Ye Xiao was confused. *'They didn't do anything to me? Somebody else did? What does the Heavenly Dao mean anyway? The Great Dao, the Heavenly Dao... I don't understand.'*

"After that, we lost our soul power. All that was left with us was our cultivation power which kept us breathing. We didn't die, but we would die soon. In the end, we decided to have that final battle. After all, our cultivation power still influenced the world.

"The last thing we want... Please, Monarch Ye. When you break through the limit of this world, please tell us the truth." Ji Qingxiao sighed.

"We didn't destroy the world, so when we truly leave, our souls will be a part of the Heavenly Dao in this world. When you break the limit of the world, just think about us. We will sense it." Ce Xingchen said, "Please, it is the thing that we want the most.

"We just want to know what is beyond the Human Realm Upon Heavens. We want to know what is beyond the Heavenly Dao of this world!

"Please."

Ji Qingxiao and Ce Xingchen both smiled with the purest sincerity.

It was the purest!

Ye Xiao felt warmth in his heart.

The great heroes loved the Dao of martial art, but they weren't totally lost in it.

Their hearts were pure. They were obsessed with the great martial arts, but they didn't do anything excessive for their goals!

They truly impressed Ye Xiao!

"Our spiritual minds should only stay in this world for just a few minutes. Luckily, your brilliant Boundless Space helped us stay for a long time. However, now it is time for us to disappear in the world forever."

Ji Qingxiao blandly said, "Monarch Ye, take care."

Ce Xingchen looked at Ye Xiao and said, "Take care."

Ye Xiao felt heavy in the heart. He had only spent a short time with the two Supreme Masters, but now he was already loath to part with the two great men.

When he watched the two great men prepare to leave the world forever, he felt upset.

“I mean... Is there another option other than disappearing forever?” Ye Xiao asked. “Like you just said, your cultivation was the reason why you had to face the Divine Choice. Now that you are dead, and these are only a bit of your spiritual minds. Is the divine punishment going to follow you even though you are just some spiritual mind? You only have a bit of soul which carries your memory and wits. It shouldn’t be difficult for you to go to your next life. Right?”

Ji Qingxiao bitterly smiled and said, “You are talking like you are a nonprofessional. You have faced the Divine Choice yourself. Once you have the power which was over the limit of this world, you can’t stay. Even if we are reborn to our next lives, we will have to suffer the divine punishment anyway. We can’t escape it.

“We are going to be destroyed sooner or later.

“Besides, we have used every bit of our soul power to search the future, and to build the secured area for our descendants, and we have saved the last bit of our spiritual minds in the two jade pendants. Even if the Heavenly Dao wouldn’t punish us, what energy do we have to go to our next life? Our soul power is completely used up.”

[Realms In The Firmament](#)

Chapter 1722: Meet You in Eighteen Years!

“After today, Ce Xingchen and Ji Qingxiao will disappear in this world! We won’t meet each other again!”

Ji Qingxiao bitterly smiled.

No matter how broadminded they were, as they were going to disappear forever, they were loath to accept death.

Ye Xiao sighed.

He had no right to tell them what to do, and he did not have the power to change anything.

However, Erhuo suddenly talked to Ye Xiao through mind connection.

Ye Xiao had an idea, and he was spirited up. With a smile, he said, “The Heavenly Dao is unpredictable, but it always protects people with kindness. Masters, you two are good men. Maybe there is another option...”

“If there is another option, we wouldn’t come to this end, would we?” Ce Xingchen bitterly smiled.

“You couldn’t save yourselves, but it doesn’t mean I can’t save you. You don’t need to find your disciples. I will keep your martial arts, and maybe I will use them from time to time. However, they will eventually return to yourselves.” Ye Xiao smiled and said with confidence.

“Why do you say so, Monarch Ye?” Ji Qingxiao asked.

The two Supreme Masters knew what Ye Xiao was saying, but they just couldn’t believe Ye Xiao could actually do that!

Ye Xiao said, "Have you noticed? You have come to this place for quite some time now, but you are still as energetic as you just came out from the jade pendants."

"That's true. This place is amazing. However, I don't think it can save us from disappearing. We know the best about ourselves. We can sense the tiny changes in our status. Our power is losing. We disappear hundreds of times slower in this place than in the outside world, but we will eventually become nothing."

Ce Xingchen smiled and said, "We have done what we wanted to do. We don't care much about life or death anymore. Monarch Ye, you don't have to worry about us either."

Ye Xiao said, "Masters, you are great heroes. You have been waiting for me for one hundred and eighty years. Now, it is my turn to wait. What do you say if I await your return in eighteen years?"

The two masters didn't understand what that meant. As they looked at Ye Xiao, Ye Xiao waved his hand.

A gate in the Boundless Space opened. A green and continual flow of qi rushed out. The next moment, a bird that was colorful flew out and chirped in front of Ye Xiao's face.

Ye Xiao was talking back to the bird and making gestures. The two masters couldn't hear what they were saying.

The bird kept chirping. It was waving its wings up and down fast. It seemed to be quite excited. It must be fighting the absolute power of Ye Xiao.

After Ye Xiao said something, the bird suddenly stopped chirping. It turned around and stared at the two Supreme Masters for quite a while.

Ye Xiao continued to say something. It looked like he was urging the bird.

The bird was annoyed. It chirped and lowered its head. After that, it pulled off two feathers from its own body.

The two feathers weren't like the colorful feathers on its body. These two were purely white, which looked so sacred.

The two Supreme Masters didn't make a mistake. They saw the colorful feathers of the bird. The bird's feathers all had colors, none of which was white. However, as the bird pulled off one, it was purely white. It seemed like the two feathers didn't belong to the bird. The two masters were shocked.

They had extremely sharp eyes for sure. However, how did the bird play the trick that fooled them both?

Afterward, it felt like the entire space was shaking. A long qi in different colors started to run over and get into the two purely white feathers.

After that, a little cat that had been sleeping tight on the floor suddenly stood up. After a few elegant paces around, it opened its small mouth and blew out a flow of marvelous purple qi. The purple qi blew to the two white feathers.

The feathers started shaking, and then became two colorless drops of water.

While the two drops of colorless water appeared, Ce Xingchen and Ji Qingxiao started shaking. They couldn't help it.

They both felt the purest qi of soul in the water drops!

If they got the water, they had the power that could push them to transmigration!

Such soul power was the masterpiece of gods. It should exist in the world of human beings. Where was it from? They saw the feather turning in to water... They were not sure if they saw an illusion at the same time!

They were two conquerors who had ruled the Human Realm Upon Heavens for a long time in history. At this moment, they couldn't control their emotions anymore. They were actually swayed by considerations of gain and loss.

Ye Xiao casually waved his hand, and the two water drops entered the two masters' incorporeal bodies.

Their incorporeal bodies actually became solid after that.

At the same time, they both flew up in the sky.

They immediately understood! The power was truly the purest soul power with special capacities. It offered them the power to reshape themselves!

Ye Xiao smiled and waved his hand. He said, "Masters, the Heavenly Dao runs under certain rules. You will have to fulfill your own dreams. I will keep your martial arts for you..."

"See you in eighteen years."

Ye Xiao finished talking. A dark vortex suddenly showed up in the space. The two great men didn't even have time to say anything before they were sucked into the vortex.

The sound of one word sounded from the vortex.

"Thank..."

The vortex disappeared in the end. The tunnel to transmigration couldn't exist in the Boundless Space for a long time!

Ye Xiao finally took a breath of relief.

"I hope this is not the wrong thing to do." Ye Xiao murmured to himself.

Afterward, he started to check the secrets in the two pendants carefully.

As he realized what they really were, he was shocked.

He was overjoyed!

...

[Realms In The Firmament](#)

Chapter 1723: Timely Rain; Martial Art?

In each of the jade pendants, there were thousands of different martial arts including some fist techniques, sword techniques, movement techniques, and all the other weapon techniques... There were also perceptions about every level in cultivation...

There was everything.

The two pendants were like two superb all-purpose books!

They recorded all martial arts...

There were martial arts Ye Xiao could think of, and there were more he couldn't!

"It turns out I got substantial profits from this." Ye Xiao breathed a long sigh and said, "I was worried about the weak foundation of cultivation techniques of our people in the Monarch's Hall... We will meet a lot of difficulties if they don't get stronger soon. With these techniques in the pendants, it is no longer a problem. The heritage of the two masters is actually a blessing to me.

"With these techniques, the Monarch's Hall can truly become one of the super forces... We are complete now.

"Eighteen years later, I will give the two honorable masters a real divine transformation. For the coming eighteen years, I will borrow these martial arts to build an empire that belongs to me alone!"

In the Boundless Space, the two Supreme Masters had entered the transmigration, which meant they were not in this world anymore.

Ye Xiao was sitting in the Boundless Space, looking at the two chairs that the two Supreme Masters had sat on. It felt like a dream to him.

After checking out the martial arts in the pendants, he was extremely shocked and overjoyed. After the gladness, he was deeply lost in thoughts for a long time.

Ye Xiao didn't spend a long time staying with the two Supreme Masters, but he was filled with admiration for the great men's personality, power, cultivation, and disposition. He had met many powerful men in the world, including the Seven Golden Lotuses, the Purple Dragon King and the Golden Phoenix King, the Red Fire Lord, the Flower King, the King of Poisons, and Meng Huaqing, Queen of the East Sky, master of Yue'er. These people were all much more powerful than Ye Xiao, but only the two Supreme Masters had truly impressed him.

That was why he trusted the two Supreme Masters very much, and also felt confused at the same time!

The two masters said that he was something beyond the Heavenly Dao, which meant a variation!

Variation meant anti-stability!

It seemed he was a horrible variation!

First of all, he reduced the restraint power of the town for the descendants of the two Supreme Masters and gave the two masters a chance to reunite after one hundred and eighteen thousand years...

These were the two things that had just happened. Ye Xiao recollected the memory of the past, his rebirth truly had brought many unexpected results to the world. When something was bound to end one way, his appearance always changed it to the other way...

'They couldn't see my future... So they believed I was the one who would eventually reach the position of the true Supremacy. Is there any proof anyway?' Ye Xiao was deep in his thoughts. His eyes lit up.

'What happened just now seems to be proof... The two masters didn't know I could help them enter the transmigration, and I did, so I have changed the end of the whole thing again...'

'The Heavenly Dao follows no rules. They could or couldn't see my future, or I can or cannot reach the position of Supremacy... I will keep going forward on the path of cultivation anyway.'

'I will keep going until the end of my life stops me. I don't care what is ahead of me. I will keep going ahead even if the Supremacy is already under my feet.'

Ye Xiao looked decisive. *'I won't lose my original heart just because of somebody's words.'*

'I am still me!'

'I won't change!'

'I won't retreat!'

'I helped the two great men enter their next lives, so this line in my life paused. When they find me, or when I find them again...'

'I will let them know that what they have done is right.'

'See you in eighteen years! Ji Qingxiao and Ce Xingchen, the two great Supreme Masters of the world. I wonder if you will still remember all this. I wonder what your names will be.'

'I do believe that we will meet again.'

'See you again!'

After that, Ye Xiao suddenly laughed out loud. Perhaps, he had been so shocked when he saw the appearance of the two Supreme Masters that he forgot he had actually seen people who were much more powerful than these two figures!

In the rocks array formation of the Mountain of All Medicines, he had seen the peak of sword art, the supremacy of saber art, the extreme power of dragon and phoenix, the limitless ocean of flower, Master Tianji, and Master Ji Mo. These people were all much more powerful than the two Supreme Masters!

If he told the two masters that he had met many people who were much more powerful than the Supreme Masters, would they feel upset or angry about it? Maybe they wouldn't. They were two generous and broadminded men after all.

Anyway, Ye Xiao was spirited.

The two jade pendants with all the martial arts inside meant as much as a timely rain while he was suffering drought for a long time!

With all those martial arts, the Monarch's Hall was finally in complete shape.

The weakest part was fixed.

The cultivation techniques of the people in the Monarch's Hall were feckless in the Human Realm Upon Heavens, so they improved pretty slowly. With these cultivation techniques, things were totally different...

Ye Xiao was excited about it.

When he left the Boundless Space, he was surprised that Yue Shuang, Yue Han, and Xuan Bing were still talking. They seemed to be enjoying the conversation. The three ladies had ascended to the Human Realm Upon Heavens at the same time, and they all had to restart cultivating in the new world. They had so many things in common to talk about.

As they finally got the chance to talk, they wouldn't easily stop.

When Xuan Bing was not with Ye Xiao, she was still the cold and impassive great Elder Xuan Bing. Most of the time, she just listened to Yue Shuang and Yue Han, the two young elders.

Yue Shuang and Yue Han didn't mind. They were simply enjoying the time.

For a long time, they couldn't even find one person who would listen to them!

When Ye Xiao was out, he heard Yue Shuang asking Xuan Bing, "Sister Xuan Bing, what level are you at right now?"

Apparently, the two sisters couldn't see Xuan Bing's cultivation level.

Xuan Bing blandly smiled and said, "It must be about level six of the Saint Origin Stage. It really isn't that good..."

The two ladies exclaimed in shock and stared with their eyes widely open. "The Saint Origin Stage? Level six? Oh my heavens! Isn't that good enough? Come on! Help me!"

Yue Han was obviously upset. She lowered her head and said, "We must be a burden on our brother's shoulder. We have been cultivating so hard, and because we cultivated side by side, we are improving twice as fast as usual. However, we have only reached the seventh level of the Divinity Origin Stage. How come you improved so fast, Sister Xuan Bing?"

Xuan Bing knew that she was abnormally fast in cultivation improvement. She breathed a sigh and said, "Sisters, you are both expert cultivators. I am not going to lie. I have no idea why I improved so fast. Nothing special ever happened to me... I don't have any treasures that help me. I just rise so unbelievably fast... It scares me as well... I have been worrying... It could be a problem for me. Your brother and I have done some research on it, but we can't explain it."

"Now, as I see you two, I am sure about one thing. A talented cultivator should improve just like you two." Xuan Bing said, "Don't worry. You two have improved incredibly fast already. You are doing much better than others in the Human Realm Upon Heavens."

Ye Xiao heard what she said and nodded.

Xuan Bing was more knowledgeable than Ye Xiao in cultivation. She had improved incredibly fast. As a preliminary estimate, he believed it was the negative power which was caused by the Ling Xiao Ice Art that fortunately became the dynamic power. As for Ye Xiao himself, the Boundless Space, all the treasures, and the legendary experience he had been through had helped him rise to his current position.

When Yue Shuang and Yue Han reached the Human Realm Upon Heavens, they were in the low level of the Faery Origin Stage. Within less than two years, they had already reached the seventh level of the Divinity Origin Stage. They definitely improved much faster than most people!

Except those who were lucky like a leading role of a novel, nobody, not even the great talented youngsters of the great clans, could improve as fast as the two ladies!

“But we are still too weak...” Yue Shuang looked upset. “Sister Xuan Bing, you are both so far ahead of us. We can’t even see your back now...”

Xuan Bing softly smiled and said in a low voice, “What are you talking about? Your brother has a lot of incredible medicine that can definitely help you improve... He used to have quite a lot, and now he has even more... Isn’t it easy for you to improve faster with his incredible materials? As long as you can handle the dramatic increase in power, it won’t take long for you to catch up with me.”

Yue Shuang and Yue Han both lit up their eyes. They nodded and said, “That’s right. Sister, you are right. When we were in the Qing-Yun Realm, our brother’s dan beads helped us so much in cultivation. If not, we wouldn’t even have the power to join the battle against the demons... In that case, we wouldn’t be able to ascend to this world... Oh, right. Sister Xuan Bing, have you noticed something else? It is about our mind state!”

Xuan Bing was surprised. She asked, “What is about the mind state? Feel free to talk more, sisters.”

Yue Shuang and Yue Han looked at each other. It seemed they were thinking of the proper words. Yue Shuang was the first to speak in the end. “Since we arrived in the Human Realm Upon Heavens, we haven’t improved as much as you or our brother, but we know we are improving fast... When we broke through the barrier between two levels, we never met any difficulties in our mind state. That is weird.

“We have talked about it a lot, but we never reached a conclusion. Our power is incredibly firm and stable with us. The only explanation is that we have the mind state which is way beyond the cultivation level we are at. You have been worrying about your fast improvement, and our brother has an incredible amount of dan beads. It reminded us of something. I guess even if we eat a lot of supreme dan beads to improve ourselves, we wouldn’t have any side effects. We would love to improve faster with the help of the dan beads, but still, it is not an ordinary way to improve. Sister, can you give us some guidance?”

Xuan Bing was surprised when she heard Yue Shuang. She closed her eyes for a while to think, and then said, “Sisters, what happens to you is beyond my imagination. However, I don’t see why it can’t happen. I am improving extremely fast, and according to our analysis, the side effect of my original martial art must be the reason. Fortunately, the power of the side effect becomes something good that pushes me up to high levels. Well, that is my case. My mind state never stops me from improving.

“Your brother has a similar situation. He just keeps going up to new levels, and his mind state has never become a problem in his way... I guess our mind state is much stronger than the cultivators in the

Human Realm Upon Heavens because we are from the lower realm. In other words, our mind state will possibly become a problem only when we reach a pretty high stage... I have no idea what this stage is, but I do know that none of us has reached it yet!”

Yue Shuang and Yue Han were both expert cultivators. They thought for a while after listening to Xuan Bing and then nodded. They said, “Sister, you are right. It happens to you, our brother, and us. It doesn’t seem like a special case. Well, I guess we can rely on the dan beads as much as we want from now on!”

...

Ye Xiao quietly returned to his tent after listening to what the ladies said.

He agreed with Yue Shuang and Yue Han’s conclusion. Since the ladies could sustain the fast improvement of power, he would love to help them with every dan bead he had. Yue Shuang and Yue Han were both improving fast but still much slower than Xuan Bing and Ye Xiao. Day after day, they would become weaker than Ye Xiao and Xuan Bing, which would definitely hurt their feelings. If high-level cultivators had negative emotions all the time, it was easy to get into the wrong infatuation, which also meant a devil in the heart.

If a devil in the heart existed, it grew day by day, and it could cause a negative impact on cultivation.

Using dan beads to assist cultivation was a shortcut, but Ye Xiao had another shortcut that could help Yue Shuang and Yue Han better. The jade pendants given by the two Supreme Masters came up in his head. They were two incredible treasuries of martial arts in the world. He could find a cultivation technique that suited the two ladies better.

Why wouldn’t he just make good use of the pendants?

...

[Realms In The Firmament](#)

Chapter 1724: The Thousand Poisons Clan!

Before Ye Xiao got the jade pendants, he thought the high-class martial arts from the Qing-Yun Realm were still unique and powerful. However, after he looked through the martial arts in the jade pendants, he realized that the martial arts of the Qing-Yun Realm were much weaker than the martial arts of the great clans, great sects, and the royal forces of the five Sky Kings, although they were better than ordinary martial arts!

He had talked to Xuan Bing about what they had learned in the new world. Besides, he had seen the Art of Cage of Ji Wumou. He realized that he was wrong about the martial arts in the Human Realm Upon Heavens. Cultivators in the Human Realm Upon Heavens didn’t know how to use the power of the Tittle Phase, but they were brilliant at the technique of the Cage Phase.

In the Human Realm Upon Heavens, people mastered the Cage Phase at different levels. In the battle in the Monarch’s Hall, when the people of the Seven Lotus Clan used the technique of Cage Phase, they weren’t so good at it. In fact, Ye Xiao and Xuan Bing could do much better than that. Meng Huaiqing was quite good at the power of the Cage Phase. When Ye Xiao was still a weak cultivator, he was shocked by Meng Huaiqing’s incredible power, but he didn’t know what it really was.

Now, as he recollected the past... What Meng Huaiqing used was exactly the technique of the Cage Phase. She actually mastered the power to a precise level. With a thought in mind, she could move herself to exactly the place she wanted to go. That was how she arrived in the Land of Han-Yang and used some of her great power without drawing the heavenly punishment over. She had perfectly mastered the technique of space manipulation. It was impressive!

After that, the two Supreme Masters was pretty good at it as well. They had used all their power onto one particular place and kept the place guarded under their overwhelming power. They even let their descendants freely use the power inside the space. It was like a miracle!

After Ye Xiao looked through the martial arts in the pendants, he learned that the power of the Cage Phase was called the Power of Space in the Human Realm Upon Heavens. It was something known as incredible power in the top-level cultivators' hands. Ordinary cultivators never had the opportunity to reach it. When the top-level cultivators mastered the technique, they would simplify it and teach their descendants the simplified technique. That was how the family clans created and developed their unique martial arts!

Because of the difference between their martial arts, the discords rose among different forces!

Ye Xiao didn't really care about all these anyway. All that mattered to him was the cultivation techniques of his own people, including Yue Shuang and Yue Han. The special technique of the Qiong-Hua Palace that the two ladies cultivated was a high-level cultivation technique even in the Human Realm Upon Heavens. However, it was not top-class. The two ladies would never reach the top with this technique.

Ye Xiao knew that the East-rising Purple Qi was definitely a top-class cultivation technique. He had been through so many things that could prove it. Xuan Bing's Ling Xiao Ice Art was also a top-class cultivation technique. He didn't know the origin of this great technique, but as far as he was concerned, it must be some incredible martial art.

Li Wuliang's Great Infinitude Art was also a mysterious martial art. Erhuo regarded it highly. If Li Wuliang didn't have such an incredible cultivation technique, no matter what strong will he had, he would never survive the torture of the Ghost Ganoderma's two different powers. He had even absorbed the powers as his own in the end!

These three cultivation techniques were the only top-class cultivation techniques Ye Xiao knew.

The others, including Jun Yinglian, Xue Danru, Han Bingxue, Ning Biluo, all cultivated second-rate martial arts.

Ye Xiao stayed in the world of all those incredible martial arts for one whole day.

The next morning, when everybody was ready to get back on the road, they were surprised that Ye Xiao was so quiet. When they came to find him, he was sitting in meditation. They decided to wait.

When the darkness of the night was about to fall, Ye Xiao finally woke up with a big smile.

As he opened his eyes, he saw three pairs of beautiful eyes.

Xuan Bing, Yue Shuang, and Yue Han were worrying about him.

"Well, come over now. I have something to say."

Ye Xiao told the Flower King and the King of Poisons to come over.

Ye Xiao thought for a while and said, "There are a few cultivation techniques. I think they can help you improve faster and better. Bing'er, your martial art is powerful enough, so you don't need anything else. The rest of you should get what I found and spend some time on them. I have picked one for each of you."

Xuan Bing nodded.

"Brother Flower King, your martial art is definitely not a top-class one, but it is quite special. I can see the trace of the great Dao in it. I don't think you should change your major martial art. Just keep the Art of Flower Rein for some time. When you reach the Undead Stage, you should have met the limit of this good martial art, then you can change your major martial art."

The Flower King nodded. He was impressed. "Lord Monarch, you are right. My martial art can't be dropped halfway. My power is all about flowers. If I don't carry this martial art to the top level before picking up other martial arts, my power will be ruined."

"So, the King of Poisons, Shuang'er and Han'er, you need to change your major martial arts." Ye Xiao said, "King of Poisons, are you cultivating the Art of Divine Poison? The unique martial art of the Thousand Poisons Clan?"

The King of Poisons was shocked. "You knew who I am!" He felt ashamed and frightened.

The Art of Divine Poison was the unique martial art of the Thousand Poisons Clan. When the Art of Divine Poison was running, it stayed extremely quiet. Nobody could sense the energy flow. Even the old cultivators in the world couldn't see it.

However, Ye Xiao did, even though he was young!

Ye Xiao nodded and smiled.

'I didn't know. After reading the martial arts in the pendants, I have learned so much about the ladies' martial arts and the secret arts about poisons. I just made a guess according to what the King of Poisons did earlier!'

[Realms In The Firmament](#)

Chapter 1725: The Worldly Poison Art

"The Art of Divine Poison is the most valuable treasure of the Thousand Poisons Clan. It is the best poison technique in the world. You shouldn't need to cultivate a second martial art if you do well enough. However, I don't think you have broken the limit for it. Otherwise, you should have been much better than this now." Ye Xiao said.

"Lord Monarch, you are such a wise man. That is true." The King of Poisons was shaking. It seemed he was grieved, so his eyes turned red. "That is the shame in my life. I thought I could bury it deep in my own heart forever... Well... Guess I can't..."

He breathed a long sigh and said, "My ancestor was the third branch of the Thousand Poisons Clan. Our people went out for a mission and died. My mother survived, and she was pregnant. My birth was such

hope for the third branch, but I wasn't good at the Art of Divine Poison... My family clan kicked me out..."

Ye Xiao was surprised. "The Art of Divine Poison is extremely difficult to cultivate. Less than one of ten thousand people could master it perfectly. However, you can always fix it with some medicinal materials. I don't think you have to be that talented to cultivate the martial art. Why did they have to kick you out?"

Tears in the eyes of the King of Poisons finally rushed out. He said, "The conflict among my brothers and I in my clan was the reason. The third branch was weak, so I didn't really care about getting a high position in the clan or anything like that... However... My mother stole the medicinal materials from the storage for me, and they caught her... She was beaten to death..."

"The only reason why I am still alive is that I have to avenge my mother someday! However, day after day, I am still so weak..." The King of Poisons was in tears.

Ye Xiao nodded and said, "You can do it. As long as you are willing to work hard, I can make you powerful enough to avenge your mother!"

The King of Poisons was shocked. He raised up his head and looked at Ye Xiao. He said, "Lord Monarch, if that is what you will do to help me, I..."

The King of Poisons wanted to make a vow to pledge his loyalty, but he was already Ye Xiao's follower. He should always be loyal to Ye Xiao.

He stopped and didn't know what to say anymore.

Ye Xiao blandly smiled and said, "People in the Monarch's Hall are all kings in the Limitless Ocean. Everybody wants to be king, not only me. King of Poisons, you are one of us now. You should be aiming at the peak of the Limitless Ocean as well!"

"Since you don't want to tell me your name, I guess I should just call you Poison King. I hope that the Monarch's Hall will have a brilliant King of Poisons, king of kings!"

"Here. There is a martial art." Ye Xiao took out a purple-color jade pendant and said, "It is the Worldly Poison Art. Have you heard of it before, Poison King?"

The King of Poisons heard the name of the book and started shaking. Suddenly, his face turned red and he was obviously too excited to stay calm. With shaking lips, he said, "The... Worldly Poison Art?"

Suddenly, he burst into tears and said, "Mother! Finally! I get an opportunity! I will avenge you!"

When the Flower King heard the name of the martial art, he was shocked as well.

'All poisons are in the human realm; the most poisonous one travels the world!'

It was a legend in the Human Realm Upon Heavens. About one hundred thousand years earlier in the Human Realm Upon Heavens, there was a legend that almost reached the top of the world.

The Worldly Poison Art was The most powerful poisoning technique in the Human Realm Upon Heavens. It was the unique martial art of the great man, Du Shan, who was the most powerful subordinate of the Supremacy of the North, Ce Xingchen.

People who knew about this guy would call him the Supremacy with Poisons. His poison was the best in the world. The entire Human Realm Upon Heavens was in awe of his incredible poisoning skills.

He never wanted to be called the Supremacy with Poisons because he only recognized Ce Xingchen as the Supremacy. He only accepted the title of Poison Lord!

In the end, the Poison Lord died in Ji Qingxiao's hands. The incredible technique of this Poison Lord was missing afterward!

Ji Qingxiao always said that the fight against the Poison Lord was the toughest fight he ever had. He was so much more powerful than the Poison Lord in cultivation, and that was why he could win the fight. If he was a little weaker, the Poison Lord would have become the true Supremacy of Poisons!

The Worldly Poison Art became a mystery. After a hundred thousand years, the world didn't forget about the legend. It was still touching for the powerful cultivators in the world.

Nobody expected that Ye Xiao actually got the book.

After all, whoever got this martial art would eventually become another Poison Lord, even the Supremacy of Poisons!

The Poison King looked at the jade pendant, and he started shaking. He couldn't stop the tears in his eyes. The next moment, he got down on his knees and humbly kowtowed nine times to Ye Xiao. In the end, he took over the purple jade pendant carefully.

His spiritual mind entered the pendant for a while, and his eyes turned red. He was overjoyed.

As he looked at Ye Xiao again, his eyes were full of respect.

'I will spend my life to serve the great Lord Monarch! I swear!'

The Poison King didn't say it out loud, but it took root in his heart already.

He had sworn to the heavens already!

"With your current recognition of the great Dao of Poisons, you know how to improve yourself. I am a layman, so I don't have any instructions for you. However, there are two words I want to give you—work harder!" Ye Xiao peacefully said, "It all depends on human efforts. I won't interfere with your family issues. You must fight for yourself. When you are powerful enough, you will put an end to it!"

"Thank you, Lord Monarch!"

The Poison King stood up solemnly. As he spoke to Ye Xiao, he was sincere and humble.

"Right. It is your turn now, girls. You must be anxious, aren't you?" Ye Xiao happily smiled and touched the ladies' heads gently. "I have given some deep thoughts, and I am sure your Dual Hearts Moonlight Art isn't the best martial art for you..."

[Realms In The Firmament](#)

Chapter 1726: The Heart of Star and Moon

Yue Shuang was spirited up. She said, "Brother, do you have a better cultivation technique for us?"

"As a matter of fact, the Dual Hearts Moonlight Art of the Qiong-Hua Palace is a great cultivation technique. It was perfect for you two to cultivate together. Normally, it would be difficult to find any better martial art for you."

Ye Xiao said, "However, although Dual Heart Moonlight Art fits your pure Yin attributed bodies, it doesn't help you improve faster. I have something else. When you cultivate together, you can cooperate better. One leads the progress, while the other assists. You can take turns to play the leading role, so the other can rest at the time between two levels. As long as you cooperate well, you should improve ten times faster!"

Before Ye Xiao stopped talking, the Flower King was already too shocked to stay calm. He said, "Master, is that the Divine Heart of Moon and Star?"

The Flower King slipped it out in an extremely loud voice!

As he spoke, he was surprised by himself, and he was actually shocked by the name that came out of his mouth!

"Brother Flower King, you are a knowledgeable man. You actually know about this martial art." Ye Xiao was more interested in this technique now. He found it in the jade pendants. All he knew was that this one fit the ladies very well. He hadn't read anything about this technique in any ancient book.

Ye Xiao knew that this martial art was perfect for the ladies, but he didn't really know it.

"I more than just know it! This martial art used to be the first incredible martial art in the Human Realm Upon Heavens. The rise of the two Supreme Masters was the end of the legendary story of this martial art..."

"As it is said, it is extremely difficult to cultivate the Divine Heart of Moon and Star. First of all, there must be two cultivators to cultivate it together. It would be better if the two people were twin virgin girls!"

The Flower King took a cold breath and said, "The most important thing about this martial art was the tacit cooperation. Twin sisters with pure Yin attribution always have strong mind connections... This is the first condition to start this martial art!"

"This is just the first?" Ye Xiao was surprised.

He had looked through the basic requirements of the martial art but didn't read it carefully. After all, he knew that those conditions wouldn't be any problem for the two sisters. However, now he knew how difficult it was!

"That is the first, and the basic one. There are some difficult conditions! Lord Monarch, you have mentioned the main cultivating method of this martial art already. The Divine Heart of Moon and Star has two parts, the Moon Scroll and the Star Scroll. However, one may think that each of the two cultivators should choose one to cultivate, but that is not true. Either of them has to cultivate both

parts, and the two of them must cultivate it in turns. When one is cultivating the Star Scroll, the other cultivates the Moon Scroll. After a cultivation cycle, they switch. Both of them can absorb the energy from the moon and the stars, and the two flows of energy would accelerate each other. That was the only way to keep the two of them improve quickly at the same time, so it can be ten times faster than usual!

“It has to be exactly like this.

“Only twins can have such tacit cooperation!

“Although it has difficult requirements, it is also incredibly powerful. The incredibility appears during the cultivating time... If they both reach the first level of the Saint Origin Stage at the same time, they can run the special Star and Moon Intercourse technique, which will allow them to become ten times as powerful as they are. After that, they will reach the third level of the Saint Origin Stage!”

The Flower King almost couldn't control his emotions. He said, “It means... When you reach level one, you immediately rise to level three! When you break through the barrier between level three and level four, you reach level six!”

“That is awesome!” Yue Shuang and Yue Han's eyes were glittering.

Ye Xiao had an idea and said, “Brother Flower King, why do you know so much about the Divine Heart of Moon and Star?”

The Flower King's face turned dark. He shook his head and said, “I once got a stray piece of the Divine Heart of Moon and Star... I took it as the most precious treasure of mine... I spent over a hundred years studying it. After all, it is one of the most powerful martial art in the Human Realm Upon Heavens. Even if people waste their original martial art and cultivate this one, they could reach a much higher level. However, after studying it, I was led to the conclusion that this martial art wasn't for men. Even if I got the whole piece of it, I wouldn't get any improvement. Instead, I might die because of it.

“In the stray piece I got, there was only a small part about cultivating methods. Most of the information was about the conditions and restraints. That is why I know quite a lot about this martial art, but I have no idea how it works!”

Ye Xiao was so glad. He had the Divine Heart of Moon and Star, but he didn't know everything about it. Ji Qingxiao only took it as his collection because it was precious. Ji Qingxiao didn't know much about this martial art either. Now that the Flower King knew it, it was such great news. Ye Xiao humbly said, “Brother Flower King, please!” He gave the book of the Divine Heart of Moon and Star to the Flower King.

“That's right. This is it. What an incredible martial art!” The Flower King looked through the book and gave it back to Ye Xiao. “Master, this is over ten times more than what I got in the past. The conditions and restraints are exactly what I have read. The first condition is two virgins with pure Yin bodies.”

The Flower King looked at Ye Xiao and paused.

Apparently, he was warning Ye Xiao that the ladies had to meet the conditions!

Ye Xiao coughed. He was too embarrassed to ask the ladies. He was the brother. How could he ask the two sisters whether they were still virgins? He couldn't do it!

Besides, Yue Shuang and Yue Han looked young, but they were quite old... The prime master and the Saintess were strictly forbidden to make love, but the others were not...

Yue Shuang and Yue Han blushed. Their faces looked like red cloth. They were both experts in cultivation, so they understood the importance of the conditions. Yue Shuang humphed and said, "We... We perfectly meet the requirements..."

The Flower King took a breath and said, "The two cultivators must have a special mind connection... It is not easy to judge... I think you can only prove it while cultivating this martial art... If you don't get improvement for a long time then, I am afraid..."

Realms In The Firmament

Chapter 1727: Misfit?

Ye Xiao laughed and said, "That's easy. It doesn't need any tests. They have been cultivating the Dual Hearts Moonlight Art. They always have a great mind connection. I think they don't even need to restart their cultivation from the beginning."

The Flower King apparently didn't know it was such a coincidence.

It was already such a coincidence that the Flower King knew the requirements of the Divine Heart of Moon and Star. Moreover, the ladies were actually perfect to cultivate it! It was some kind of coincidence that could only happen in a novel!

However, the Flower King gave it a second thought. It was a coincidence that he knew about the martial art, but it was not a coincidence that the two ladies fit the martial art so well because Ye Xiao particularly chose the martial art for them!

"The third condition..." The Flower King said, "It doesn't influence your cultivation. It is something about the future. You two have to reach the Undead Stage together. Otherwise, you must remain virgin..."

Special martial arts always had special requirements. When Ye Xiao was cultivating the Pure Yang Martial Art, he had to stay a virgin as well. If he made love, he would be wasted. The Divine Heart of Moon and Star must have the same restriction!

The two ladies nodded and said, "We don't care. There aren't many good men in the world! My brother is the only good man! We want to improve ourselves, only because we don't want to be a burden to him. This martial art will make us stronger. We have to do it!"

After that, Yue Shuang suddenly said "The Undead Stage? What stage is it? Is it higher than the Saint Origin Stage? It sounds awesome!"

The Flower King and Ye Xiao were both speechless.

The Flower King had to teach the two ladies the level systems in the Human Realm Upon Heavens, especially the meaning of the Undead Stage.

After the Flower King's explanation, even Xuan Bing and the Poison King were enlightened. *'It turns out... there are so many things I don't know about the cultivation stages in the Human Realm Upon Heavens...'*

"Wow! The Divine Heart of Moon and Star can reach the Undead Stage. Can we rise to the Undead Stage, even the higher stages? Brother... Give it to us..." Yue Shuang shook Ye Xiao's arm.

Yue Han wasn't restrained, but she stared at the book instead!

The ladies were so thrilled, but Ye Xiao hesitated. After listening to the Flower King, he couldn't make up his mind now.

'They can't sleep with guys before reaching the Undead Stage...'

'If they are slow in cultivation, they are going to be spinsters, aren't they?'

'I want them to live well, so I am giving them a better martial art. What if they can't get married because of this? Am I destroying their lives?'

'They are only at level seven of the Divinity Origin Stage now. There is a long way to go before they reach level one of the Saint Origin Stage. It is certainly an even longer and tougher way to reach the Immortality Stage... and then the Undead Stage...'

'Chihuo, the Red Fire Lord of the Seven Colored Lords, is an old top-class superior cultivator, the most powerful man in the Monarch's Hall! He has spent over one hundred thousand years, but he still can't reach the Undead Stage. He is an Immortality Stage cultivator, also a loser who has been stuck in the Immortality Stage!'

'It has been over forty thousand years, and he just wasted all his time but didn't reach the higher stage!'

'How many years do Yue Shuang and Yue Han need to reach the Undead Stage?'

Even if the ladies just needed one-tenth of one hundred thousand years, Ye Xiao couldn't accept that!

Ye Xiao felt guilty for even having the thought of it.

"Shuang, Han... I think... this martial art isn't really perfect for you..." Ye Xiao started to slowly take the book back.

"No!" Yue Shuang and Yue Han both exclaimed. They both tightly held Ye Xiao's arms and said, "This is what we want! It must be the heaven's will to let us have it!"

"Listen to me! Silly girls! Everybody should get married. You two can't just spend all your lives with me! You need to have your own families. You need to find your own happiness... If you cultivate this martial art, I will feel guilty of taking away your happy lives... I have been there before. It was such a pain not to be with the one you love. I did not have a choice, but you do..."

The Flower King was surprised. *'What is he talking about? What choice? What pain? The Divine Heart of Moon and Star is such a marvelous martial art... Does he have to put on such a scene? I do not have the opportunity to cultivate such incredible martial art. If I do, I will cry as loudly as I can to get it...'*

Ye Xiao said, "Let's think of something else. I have so many other martial arts. Maybe there is something even better for you... Let's just give it a second thought..."

“No! This is what we want!”

Yue Shuang and Yue Han’s eyes lit up. They sounded decisive.

Ye Xiao was troubled.

“Brother, listen. We never want to get married.” Yue Shuang blushed and said, “For us, the best future is to stay unmarried... We want to serve you for the rest of our lives...”

“That’s right. If we stayed at the same stage for a long time and can’t get married, we won’t mind staying at home. Will you abandon us if we don’t get married?” Yue Han was frank. “We can stay at home and spend as much time as we need. When we reach the Undead Stage, we can be your concubines...”

“Nonsense!” Ye Xiao was angry. “Silly girls! Don’t be stupid!”

Yue Shuang had grabbed the book in Ye Xiao’s hand and begged, “Brother... Please, just give it to us...”

Ye Xiao didn’t let go of the book.

Yue Han kept begging and begging. In the end, she abruptly bit Ye Xiao’s arm.

Ye Xiao didn’t see that coming. The sudden pain made him let go of the book. Yue Shuang grabbed the book and put it inside her clothes near her chest.

‘I am keeping it on my chest! What can you do to take it back?’

‘Humph!’

[Realms In The Firmament](#)

Chapter 1728: Completion

“Give it back to me!” Ye Xiao was angry.

“No! Come and get it! I dare you!” Yue Shuang raised her head and puffed her chest up.

“Are you going to give it back or not?” Ye Xiao was furious.

“No, we are not!” Yue Han pouted.

“I think you really overestimate yourselves, girls...” Ye Xiao stood up angrily and said, “I am going to beat you up to death...”

Xuan Bing just watched them and breathed a sigh.

She stepped ahead and tried to stop Ye Xiao. “Master, calm down. You don’t have to be so pessimistic. I don’t think the sisters will stop improving. Think about it. They are both expert cultivators. Back in the old days, they weren’t weaker than us at all. After they came to the Human Realm Upon Heavens, without any help, they improved to the seventh level of the Divinity Origin Stage in less than three years...”

“Master Flower King said that the Divine Heart of Moon and Star was the world’s best martial art, and it fits the two ladies so well. I think it must be their destiny to have it. If they can cultivate this incredible martial art with your help, they should improve extremely fast...”

Xuan Bing said, “Master, you told me that you were reaching the Immortality Stage, and I was going to reach it in a few years. What about the ladies? Three years? Five years? I don’t think it will take them a long time to reach the Undead Stage... If the Divine Heart of Moon and Star is truly that good, the ladies should be far beyond the Undead Stage! Besides... The Human Realm Upon Heavens is full of terror. It is not easy for anybody to find the right company in life anyway.

“When they truly meet their men, we will think of a way to help them. Why do you have to let them get hurt right now? You are angry, and they aren’t happy either. You just want each other to be happy. Let’s not do this!”

Xuan Bing’s soft words had calmed down Ye Xiao a lot. However, Ye Xiao was still not happy about it. He just didn’t want to ruin the rest of the sisters’ lives...

‘What should I do?’

Yue Shuang and Yue Han were staring at him with tears in their eyes. They were begging him. Ye Xiao made a long sigh and said, “Fine!”

He sat down.

“We knew you would agree!” Yue Shuang and Yue Han both yelled happily. Even though tears were still on their faces, they were laughing so happily.

Xuan Bing breathed a sigh again.

...

In the next few days, the territory of the black dragon became a resting place for them.

The Poison King was cultivating the Worldly Poison Art. Yue Shuang and Yue Han needed a quiet place to finish the initial part of the Divine Heart of Moon and Star.

Ye Xiao would never be stingy when his people needed help. He gave each of them two bottles of supreme dan beads. For the moment, they settled down at the Black Dragon Mountain.

For the next few days, Yue Shuang and Yue Han kept staying at the highest spot in this place. The wind and clouds were rolling in the sky. The spiritual qi was running quickly toward them.

A few thousand feet below them, countless poisonous creatures were gathering over...

The Poison King was absorbing different kinds of poisons. It was the first phase of the Worldly Poison Art.

The Poison King had a special skill to gather poisonous creatures, which had been helping him greatly these days. Poisonous creatures were gathering over to him all the time...

One wave after another of poisonous creatures was coming...

The Silver-scaled Golden-caruncled Snakes were enjoying the food as much as they wanted...

There were too many poisonous creatures!

Within three thousand miles, all the poisonous creatures, from the sky, the ground, and beneath the floor were coming to him.

He swept all of them!

Three days later...

At dawn.

The Poison King used his special technique to gather more poisonous creatures again. His energy wave went out over a thousand miles... However, nothing showed up after half a day.

Not even a mosquito came to him!

He kept spreading the energy waves but got nothing. With a bitter smile, he looked at Ye Xiao.

“That’s it! Nothing poisonous are within three thousand miles...” The Poison King seemed unsatisfied.

For three days, everything went well, but he still hadn’t finished the basic phase of the Worldly Poison Art.

The basic phase of the Worldly Poison Art was to absorb the essence of all kinds of poisons and convert his own body into the divine poisonous body. To complete this phase, his skin should become black and then white several times and eventually return to its normal color. After the basic phase, he could finally start cultivating the Worldly Poison Art.

In other words, he had to absorb a lot of poisons into his body. His body would become black and then become white. It repeated nine times, and then he could truly start the cultivation of the Worldly Poison Art.

The Poison King was talented in poisoning techniques, and he knew how to gather poisonous creatures within three thousand miles...

However, after absorbing everything he got within three thousand miles, he only turned black and white for the fourth time!

“You get nothing else here, but you will get more when we go further!” Ye Xiao stood on the hill and looked at the distance. He said, “This is the Black Dragon Mountain. Five thousand miles ahead, we will reach a new area... There will be more poisonous creatures...”

“We still have time. Don’t worry.”

At this moment, two clear shouts sounded on top of the mountain. It sounded like the chirp of the phoenix.

“Brother, we did it!”

Yue Shuang and Yue Han had worked so hard for three days. Finally, they could start cultivating the Divine Heart of Moon and Star!

Compatibility to a martial art was always the most important thing to a cultivator. No matter how talented the cultivator was, how good the martial art was, if the martial art and the cultivator didn't fit, it wouldn't succeed!

The Flower King believed that the Divine Heart of Moon and Star was almost the most difficult martial art in the world. However, it fitted the two ladies perfectly. They didn't even need to spend time on getting off their original martial art. They could start the new cultivation from the seventh level of the Divinity Origin Stage. The Divine Heart of Moon and Star was just as incredible as the Flower King said!

Over the ladies' heads, spiritual qi kept gathering together and made a vortex. The two ladies were like a dark hole, sucking all the spiritual qi near them. The spiritual qi kept running into their bodies.

[Realms In The Firmament](#)

Chapter 1729: Male Chauvinism

The Poison King, who just stopped cultivating, was jealous of the two ladies.

His Worldly Poison Art was also a top-class martial art, but he improved a lot slower than the ladies. There was nothing he could do though. The Divine Heart of Moon and Star had too many requirements, but it was also incredibly powerful!

The Flower King was shocked too. He knew that the Divine Heart of Moon and Star was powerful, but as he saw the ladies cultivating, he finally understood why. The spiritual qi was gathering to the ladies, rushing into their bodies. Within only a short time, the two ladies had already gained three levels! It was like a miracle!

They were already at the Saint Origin Stage.

The ladies had just started to cultivate the mystic martial art, but they already got such incredible improvement. It was beyond everybody's expectations!

Ye Xiao and Xuan Bing looked at each other. It seemed like they both had the same thought in their heads!

The ladies had gained three levels after three days of hard work. They actually broke the barrier between the Divinity Origin Stage and the Saint Origin Stage. The Divine Heart of Moon and Star had helped them greatly, but it was not the only reason!

No matter how powerful a martial art was, it was limited by the condition of the cultivator. Xuan Bing and Ye Xiao had talked about it earlier. People from the Qing-Yun Realm had a much stronger will than native cultivators. Xuan Bing was already at the top of the fifth level of the Saint Origin Stage. She was never stopped from improving by his mind state. It appeared that the two sisters didn't have a problem with their mind state either!

With their strong minds, Ye Xiao's supreme dan beads, and the great Divine Heart of Moon and Star, the ladies were definitely going to reach an incredible level.

In fact, as long as they still had strong minds, the supreme dan beads, and the Divine Heart of Moon and Star, they could keep improving that fast!

Xuan Bing and Ye Xiao knew it, so they were even more astonished!

The ladies were flying down from the top of the mountain like two little birds.

They rushed into Ye Xiao's arms.

Ye Xiao laughed so loud. He held the two ladies up and said, "Good job! Well done!"

The two ladies were so happy to hear the compliment from their brother.

The most difficult part of picking up the Divine Heart of Moon and Star was to get the cultivation started. The most important thing about changing a major martial art was to make sure the power switched smoothly. As long as it was done, the two ladies would never be stopped anymore. From now on, the two ladies started to rise to the positions of two influential figures in the world.

They were so confident that they wouldn't be a burden to their brother anymore. They could even be a great support to their brother. They felt so satisfied with the situation.

Xuan Bing was smiling.

The two sisters were not young girls anymore. However, when they were with Ye Xiao, they would be thrilled when Ye Xiao said anything to praise them. It sometimes surprised others, but nobody would say anything because they had pure intentions. Nobody had the right to say anything about that!

Ye Xiao also gained a lot in those three days. He had lived a lonely life for almost two years. He had only started to enjoy the pleasure of making love, and then he had to hold his desire down. Finally, he got to do it again. For three days, he and Xuan Bing had done it many times. The lady actually felt weak after three days. She would rather just stay in Ye Xiao's arms and never get up.

The sisters had officially cultivated the new martial art as their major martial art. They were going to improve incredibly fast soon. The Poison King was going to complete the basic phase sooner or later. The Flower King had completely removed the negative impact inside him. Xuan Bing had been improving fast, which was still horrible.

Ye Xiao started to work hard since Xuan Bing was improving so horribly fast.

He had so many treasures to use, so he figured he had to be faster than his woman! That was male chauvinism!

During the days after Xuan Bing met Ye Xiao, she had improved even more. She was now at the top of the sixth level of the Saint Origin Stage. She was going to reach the next level at any moment.

She had been improving fast, and during these days, she had dual-cultivation with Ye Xiao from time to time. That helped her a lot too.

It was horribly fast!

Ye Xiao felt like it was challenging his male-dignity.

He would love to stay under Bing'er on the bed because it was spice... However, he couldn't accept being under Bing'er in cultivation!

In fact, he improved horribly fast as well. A few days earlier, he had just reached the ninth level of the Saint Origin Stage.

It was impressively fast. However, it didn't impress himself.

Compared to Xuan Bing, who used totally nothing to aid her cultivation, Ye Xiao was too slow!

Comparison hurt!

In Ye Xiao's opinion, one step to the sky was also too slow.

The two sisters were jealous as well. After they switched their major martial art, they improved incredibly fast as well.

However, they were jealous of Xuan Bing too. They knew how Xuan Bing kept rising to new levels so easily, so they weren't satisfied with their own improvement.

The Flower King and the Poison King would kill themselves if they knew what the ladies and Ye Xiao thought!

'People spend hundreds even thousands of years to reach a higher level. You have risen a few levels within only three days! Why are you still unsatisfied?'

'You are... Unbelievable...'

It was quiet. After traveling for thousands of miles, nothing really caused any danger on the road. They met some small beasts and casually swept them off. That was no trouble at all.

In fact, the Poison King alone could deal with all those problems.

However, as they were getting closer and closer to the Rabbit Ear Mountain, Yue Shuang, Yue Han, the Flower King, and the Poison King became more and more anxious.

The Black Dragon Mountain was under the Black Dragon's control while the Rabbit Ear Mountain was ruled by a monster rabbit.

[Realms In The Firmament](#)

Chapter 1730: Return of the Twelve Spirits

The monster rabbit was quite powerful. Many good cultivators died in its hand because they underestimated the rabbit.

The Flower King, the Poison King, Yue Shuang, and Yue Han were powerful cultivators!

However, no matter how anxious they were, Ye Xiao didn't try to console them. He only urged them to move quickly.

After all, Ye Xiao wasn't scared of any monster animals because he had Erhuo.

It was such a great opportunity for Erhuo to show its prestige!

Because Ye Xiao insisted on going through the passes without hesitation, they successfully took down the next three passes easily. The rabbit, the ox, and the rooster were all easily defeated by Erhuo. They actually bowed to Erhuo!

After every pass, they stopped and rest for three days.

In those three days, the Poison King would seize every second to cultivate his poisoning martial art. Tens of thousands of miles around these three passes were swept clean by the Poison King. Finally, because of all the hard work and efficient support, the Poison King had completed the initial phase of the Worldly Poison Art!

However, the Poison King wasn't the happiest one. The two ladies were more thrilled. Within those days, they kept rising up in cultivation from the first level to the third level of the Saint Origin Stage.

The Poison King was pretty awkward. He had finally improved greatly and reached the second level of the Saint Origin Stage, and he should be overjoyed about it. However, compared to the two ladies, who had risen from level seven of the Divinity Origin Stage to the third level of the Saint Origin Stage in over ten days, he truly didn't feel happy at all. He even wanted to cry!

The Flower King had good improvement as well. In fact, it was more like recovery than improvement. After he removed the negative impact of the One Meter of Red, with the support of the supreme dan beads, he had returned to his prime state. All the hidden wounds were cured. Because of his strong will, he had reached the top of the seventh level of the Immortality Stage. That was even better than he used to be.

The Flower King knew that Ye Xiao's dan beads helped him the most.

The Immortality Stage was totally different from the Saint Origin Stage. Whoever reached the Immortality Stage was considered as one of the world's best cultivators. It took ages for an Immortality Stage cultivator to reach a high level. The Flower King ate some dan beads and only spent about half a month to reach the top of level seven. It was unimaginable.

The Poison King only felt upset for a while. After that, he was back in a buoyant mood. The Divine Heart of Moon and Star was known as the best martial art in the Human Realm Upon Heavens with extremely strict requirements, so it was reasonable that the two ladies could improve that fast. Was the Poison King improving slowly? Well, he was only slower than his master, his master's wife, and his master's sisters. He was actually lucky to be improving that fast, and he shouldn't be upset about that, should he?

When somebody got an optimistic attitude, nothing in life was too difficult! After all, he truly was lucky to have the opportunity to cultivate an incredible martial art. How could he still feel unsatisfied?

The Poison King became so excited. He kept feeling his improvement and always kept a big smile on his face. When a man got a divine poison body, he should look vile and dark. However, because the Poison King was so happy, he actually looked like a sunny boy.

Ye Xiao was quite confused. *'Really? Is anything really cheering you up so much?'*

'You are the slowest one. I had given you such great martial art and a lot of dan beads, and you have so many poisonous creatures. After all these days, you only leveled up once! Is there anything else more disappointing than that?'

'You are not as fast as me, or my wife, or my sisters, or the Flower King... Well... There is no one else to compare you with aside from them... Anyway, you are too slow!'

No matter how stupid and pretentious Ye Xiao seemed to be, the others felt more and more confused about Ye Xiao's mysterious techniques.

The great Lord Monarch had been using some mysterious techniques for quite some days.

The enemies were some extremely powerful monsters who wouldn't even show respect to the kings of the demon clans. How come they acted like rats running into cats when they saw Ye Xiao?

They didn't even fight for their survival!

It was so unbelievable...

Why?

Even if he was the main character of this book, the enemies should at least say something or do something to earn their lives. Did they have to just wait for death like that?

Was that necessary? Really?

As they moved further ahead, Ye Xiao became more mysterious to them...

In the Boundless Space.

Erhuo was sitting straight up seriously. Several streams of special qi were getting into its small body. Over its head, there was some purple mist.

After a while, some patterns appeared in the purple mist.

They were a dragon, a rabbit, an ox, and a rooster.

The patterns were as small as a fingernail, which looked so adorable.

If Xuan Bing, the Flower King, or the others saw those images, they would definitely be scared because these obviously represented the four monster animals.

After a while, when the four patterns were clear, Erhuo finally opened its eyes. It seemed to be quite happy about it. It started to pace around elegantly in the Space.

Hawky was looking at Erhuo with envious eyes.

The snakes were all staying down on the ground, bowing to Erhuo while Erhuo paced over them.

Bab disdainfully humphed and then flew back to its Wood Space. It stared at the spiritual plants in the Wood Space with a pair of narrow eyes.

In the Boundless Space, Bab was the only one who wouldn't envy Erhuo.

The Wood Space was all Bab needed.

No matter what Erhuo had gotten, nothing else could touch Bab. It was satisfied with what it already had.

"Meow..." Erhuo shouted with satisfaction.

'These monster animals are not very strong, but they are good enough for me to build the twelve spirits.'

"Twelve spirits, return now."
