

Firmament 1941

Chapter 1941: Ye Hongchen's Decision

Ye Xiao was silent for a moment before saying, "Yes. I understand what senior means."

Blood River nodded but did not say anything else. Instead, he began to focus on bandaging the wounds on his body. The process of recuperation was roughly... he first aligned the broken bones, then pursed his lips slightly, and with a "Ka", he aligned them, then, he circulated his Qi to speed up the process of the broken bones combining..

This healing process caused the corners of ye Xiao's mouth to Twitch.

He silently took out two bottles of pill cloud divine pills and placed them in front of Blood River and the others. Without saying anything, he slightly nodded his head in acknowledgment and then took a step forward.

"It's actually pill cloud divine pills?" Blood River picked up one bottle and looked at ye Xiao's back.

Ye Xiao did not seem to think much of it and said, "Even if it's a pill cloud divine pill, it's nothing more than a medicinal pill that can heal injuries. At this moment, it's just right for senior to use!"

Blood River and the other four laughed together and said, "How can pill cloud grade spirit pills be easy to obtain? I'm afraid there are only a few that exist in this world. How easy can a child like you make it sound? If we continue to shirk away, it would appear to be pretentious!"

After saying that, they generously distributed the spirit pills. Each of them had exactly three pills. One was for healing and the other two were for backup.

Ye Xiao laughed and said, "Goodbye."

They walked up the mountain.

Along the way, they distributed six bottles of cloud level spirit pills before reaching the peak.

On the peak, Ye Hongchen and the Azure Dragon Bai Feng looked at ye Xiao's actions as he walked up the mountain. Their eyes were filled with gratification.

"The descendants of the Ye family have a successor!"

Bai Feng leaned against ye Hongchen's chest and said softly.

"That's right..." ye Hongchen nodded with a smile.

Azure dragon said, "Big Brother... The reason why you allowed the ye family's military families to be exterminated was because of this kid, right?"

Ye Hongchen smiled and did not answer. After a long time, he said, "Not exactly."

While the three of them were talking, ye Xiao had already arrived at the top of the mountain.

Ye Hongchen asked warmly, "What's Wrong?"

Ye Xiao was silent for a long time before he asked, "Why did you watch the Ye family army being destroyed? Why did you let all the members of the Ye family die?"

This question came out of nowhere. It was so unexpected that the expressions of the dragon and Phoenix changed drastically. Although they could vaguely guess ye Hongchen's thoughts and train of thought, as the ancestor of the Ye family, Ye Hongchen had watched his descendants being destroyed, no matter what kind of considerations and difficulties he had, it could not be justified, especially since ye Hongchen had the ability to prevent the ye family from being exterminated!

Ye Hongchen's pupils contracted as he said lightly, "Are you questioning me?"

Ye Xiao said in a deep voice, "So what if I am? Shouldn't you be questioning what you are doing? Shouldn't I be questioning?"

Ye Hongchen said, "I have my considerations, but I don't need to explain this to you! You really shouldn't ask, because you are your ye, not my ye! The matters of my ye family have nothing to do with you!"

Ye Xiao was speechless for a moment.

The two looked at each other, and their faces were as cold and hard as usual.

The Azure Dragon and the White Phoenix were both speechless.

The Azure Dragon and the White Phoenix had just discovered that ye Hongchen and ye Xiao's personalities were actually so similar.

Bai Feng let out a long sigh, "Silly child, how could Hong Chen not feel pain in his heart when he made such a choice and watched the hundreds of thousands of years of spawns being wiped out? But... didn't he do all of this for you..."

Ye hongchen shouted softly, "Bai Feng!"

His voice was unprecedentedly stern and stern.

However, Bai Feng had already finished speaking.

Ye Xiao's body trembled for a moment. He turned his head to look at the foot of the mountain, avoiding the expression in his eyes from being discovered by others. Only then did he coldly say, "To sit idly by and watch the descendants of your descendants being massacred while you stand by and watch, such a heart, isn't it..."

Bai Feng said with slight anger, "The entire clan of the branch of the leaf that reaches the heavens has long been destined to be exterminated. However, it's only a matter of time. Now that all of them have perished in the hands of the enemy... it's still better than you wiping out the entire clan one by one in the future, right?"

Ye Xiao immediately fell silent upon hearing this.

Bai Feng's words could be said to be extreme. It was even more obvious that the horses and carriages were questioning the killing intent of ye Xiao for not taking any action. It seemed to be unreasonable

and arbitrary. However, ye Xiao asked himself, if he really unified the world, then.., the entire branch of the leaf that reaches the heavens would be exterminated by his own hands.

Because these people, no matter which one of them was unconvinced by him.

Only they themselves were Orthodox!

How could a person with the surname Ye who didn't belong to the Ye family dominate beyond Avalon?
How could they be convinced?

At that time, the members of the Ye family would definitely rise up to rule the world. No matter how strong they were, they would find it difficult to resist the temptation to dominate the world. This result would only lead to chaos in the world. As the ruler of the world.., in order to convince the masses, even if he did not want to be too calculative with these people, he would have to eliminate the majority sooner or later..

Ye Hongchen watched coldly from the side and watched as his family members were wiped out. It seemed that he was so cruel that it made people's hair stand on end, but in reality, he had eliminated the hidden dangers in his future ahead of time and avoided the problem forever!

However, even if ye Hongchen did not mention this, ye Xiao would not guess in this direction.

After all, ye Xiao had always thought that his ye was his ye and not... The Ye of the sky!

Ye Xiao felt that she had made a clear distinction in this section. She also felt that ye Hongchen would make a decision after what he had said earlier.

However, Ye Hongchen's decision was beyond common sense and unexpected!

Bai Feng's words were earth-shattering, but it also caused the four people on the mountaintop to fall into an awkward silence.

"You said that the situation has changed. It's not good for you, and it's not good for me. What's the reason?" After a long time, Ye Hongchen finally sighed and took the lead to change the topic with a gentle tone, breaking the current awkward situation.

Ye Xiao seemed to have broken free from this awkward atmosphere, he sighed in relief and said, "Based on the recent war, I suspect that there has been a change in the east sky. "And it's very likely that... Master Bai, the Master of the overturning clouds and Raindrops Pavilion, has become one with the east sky and has become the strongest force among all the current forces."

Hearing this, Ye Hongchen frowned and looked in the direction of the east. After a long while, he said in a low voice, "Is there any concrete evidence to support this matter?"

Ye Xiao said, "Not yet. It's just a feeling."

Ye Hongchen was silent for a while and said slowly, "A Feeling?"

Ye Xiao said, "To be more precise, it should be intuition!"

Ye Xiao emphasized the word "Intuition".

He believed that ye Hongchen could understand it.

Intuition was an intangible and unpredictable feeling for ordinary people. However, it was already a life-saving weapon for people with their level of cultivation!

Ye Hongchen understood it, and he understood the significance of his words.

Ye Hongchen's expression changed again, but he said faintly, "I understand."

Ye Xiao stood for a while and said, "I've made it clear. I'll go back now."

Ye Hongchen said, "Thank you for coming... HMM, your cultivation is now eternal?"

Ye Xiao said, "Middle-level eternal."

Ye Hongchen nodded in satisfaction and asked again, "The peak of the middle level?"

Ye Xiao said, "Yes."

Ye Hongchen said, "It's really not bad. You can go."

Ye Xiao did not say anything else and left the mountain.

Ye Hongchen stood at the top of the mountain and did not move for a long time.

Chapter 1942: Probing

The Azure Dragon and the White Phoenix were completely confused.

Although they felt that the words spoken by the two could only be understood and could not be conveyed in words, but... They were still confused and could not make heads or tails of it. Even if they heard it, it was no different from not hearing it at all.

"Big Brother, what do you mean?"The Azure Dragon finally could not help but ask.

Ye Hongchen did not say anything. He only smiled slightly.

This smile seemed to contain many meanings... in any case, it was an exceptionally relaxed smile. It was as if he had put down all the heavy responsibilities.

In the next moment, Ye Hongchen suddenly opened his mouth. A gush of air was about to be exhaled. However, it shot out a round transparent hole in the sea of clouds that filled the sky. He said softly, "Hongchen has ordered that the seven golden lotuses, together with Blood River and the others, and a total of twelve peak-level experts, join forces to attack the overturning cloud and rain tower and kill as many high-level cultivators as possible

"However, if there is any intervention from the east sky side, all of you must retreat immediately. Do not suffer any damage in this battle

"This is our top priority!"

"Yes!"

..

“The seven golden lotuses attacked together and attacked the overturning cloud and rain tower!”

“Not only the seven golden lotuses, there are also several peerless experts attacking together. There is a huge gap between our strength and the enemy’s. There is nothing we can do!”

“Young master, our side is on the verge of collapse. Our defensive line might collapse at any time and we will lose.”

“Do you want to use your hidden strength?”

“Young master, based on the current situation, even if we use the hidden strength of our experts, I’m afraid... We won’t be able to withstand the sniping of the group of seven Golden Lotuses. Could it be that this group of people have gone mad? They didn’t care about their status and used the strong to oppress the weak. It’s one thing for them to rely on the strong to oppress the weak, but they actually used their numbers to win. They were clearly weaker than them by more than a notch, yet they still needed two or three people to join forces to end their opponents as soon as possible. They’re really too shameless!”

“However, this tactic is very effective... another person died in battle...”

“Young Master... Yuming died in battle!”

..

The battle reports kept coming in. Most of them were bad news, news of death, and news of death..

Bai Chen’s face was as calm as water. Finally, he raised his head slightly and said, “We can’t go on like this. Let the three of us Take Action! Block the seven Golden Lotuses!”

“Let us take action personally?” Wan ‘er was clearly confused by young master Bai’s decision.

The overturning cloud and raindrop tower still had hidden cards that they had yet to use. They could also send a signal to request for reinforcements from the Eastern Sky. Either option could immediately alleviate their current predicament. There were clearly other ways to resolve this.., why did Young Master Bai decide to let the three of them take action personally? One had to know that young master Bai and the other two were the three giants of the overturning cloud and Raindrop Tower. Taking action personally would definitely boost their morale, but on the other hand.., it also faintly indicated that the overturning cloud and rain pavilion’s strength was only at this level. Even the Big Boss had no choice but to fight personally. In this way, it seemed like the loss outweighed the gain!

“We’ll take care of it ourselves!” Bai Chen’s gaze was dark and cold. “We won’t use any other strength.”

Before Young Master Bai could finish his words, his body suddenly lengthened. The white figure disappeared from the spot with a ‘Whoosh’, leaving behind a cold breeze.

Wan ‘Er and Xiu ‘er looked at each other and silently disappeared. When they reappeared, they were already 3,000 kilometers away on the battlefield.

The twelve experts, including the seven Golden Lotuses, had transformed into an invincible, life-reaping steel blade. They were recklessly charging back and forth within the camp of the overturning cloud and rain tower.

The people of the overturning cloud and rain tower relied on a strange formation. Apart from unleashing the power of transformation, dissipation, disassembly, and neutralization, they were trying their best to resist the enemy's wild attacks, at the same time, they were also trying to trap their opponents outside of the army.

This formation was undoubtedly very effective. The attacks of the Seven Golden Lotuses and the others were clearly restrained. However, no matter how mysterious the formation was, it required a certain amount of strength to be used in order to suppress and win, furthermore, the combined strength of the Seven Golden Lotuses and the others was simply too strong. It far exceeded the limits of what the overturning cloud and rain manor could deal with. Even with this formation, it was still difficult for them to unleash its full potential. Furthermore, under the prolonged battle, they were gradually being broken through by their opponents bit by bit, once this set of formation was completely broken through by the opponent, then the overturning cloud and Raincloud Pavilion's many super experts, who were currently relying on the formation to contend with the enemy, would be effortlessly killed by the opponent after breaking through!

There was already a huge gap between the peak of the eternal realm's nine soaring heavens realm and the half-step eternal realm, and there was an even greater gap between the half-step eternal realm and the true eternal realm!

Among the twelve people, nine of them were true eternal realm experts. And among the remaining three, only one of them was at the ninth sky of the eternal realm, and the other two were half-step eternal realm experts!

In other words, the weakest among the twelve people was almost the strongest in the overturning cloud and rain tower. Faced with such a lineup, no matter how deep the overturning cloud and rain tower's foundation was, with the support of the Marvelous Array Formation and Bai Chen's many trump cards.., they were still unable to make up for the difference in quality between the upper echelons!

In fact, the array formation operated by overturning cloud and rain pavilion could be said to have reached the level of excellence. The structure of the formation was superb, and even if someone who had studied the Dao of array formations like ye Xiaoren personally witnessed it, he would still be amazed. However, the person in charge of the main array in the overturning cloud and rain pavilion's current situation.., his control over this set of array formation was extremely shallow, and he could barely be considered proficient. At best, he could only display one-tenth or two-tenth of the profoundness of this array formation, and it was just this one-tenth or two-tenth of its power.., yet, it was able to withstand the violent attacks of the seven golden lotuses.

Seeing that the defensive line was on the verge of collapse, the hundreds of experts who participated in setting up the formation and sharing the pressure were all bleeding from their mouths and noses. Their faces were mournful.

It was obvious that the great formation's load had reached its limit. It was on the verge of collapse and could collapse at any time.

Guan Shan Yao suddenly let out a long cry. A strange greenish-white light circulated in his hand, and a layer of clear radiance flowed out from his thin face. It was obvious that he was about to launch a fierce attack.

This time, when he unleashed his ultimate move, he would definitely shatter this great array!

This was a common thought in the hearts of everyone present, regardless of whether they were friends or foes.

However, a light chuckle sounded from the horizon, and a white figure appeared in mid-air elegantly, with a hint of a relaxed smile, he said, "Mm, seven golden lotuses. As expected of an old-brand powerhouse. His cultivation is enough to shake the heavens and earth, but he lives up to his reputation!"

Guan Shanyao was shocked by his ultimate move. He raised his head to look at the source of the sound and saw a handsome young man in white suddenly appear in the air. His eyes were filled with a warm smile as he looked at Guan Shanyao from afar.

The Man in white clothes fluttered in the wind. At first glance, he looked extremely weak, but Guan Shanyao, who looked like a person, could clearly feel that the energy contained in the body of this white-clothed young man was unexpectedly enormous!

"Bai Chen? Young Master Bai?" Guan Shanyao let out a long cry and raised his arm. His clothes fluttered in the wind, and his figure had already appeared in the air.

"It's Bai Chen." Bai Chen smiled faintly. "Old Master Guan's temper is a little too big... how can I, Bai Chen, who has just created a small family business, withstand old master Guan's efforts?!"

Guan Shanyao said, "Oh? Then do you mean that we should just sit back and watch the sky-reaching leaf and the few heavenly emperors' family businesses all be tormented by you?!"

Chapter 1943: The Game

Bai Chen laughed, "The final battle of the world is in the ascendant. As a junior, Bai Chen should be honored to accompany the last seat, but the waves of the great river are stronger than the waves before. Bai Chen is not willing to accompany the last seat. He wants to contend with the heroes of the world and live up to his life."

"Yes, I understand what you mean... are you trying to say that you, the last wave, can already kill Bai Yutian on the beach?" Guan Shanyao's pupils contracted rapidly.

At this point, Bai Chen's expression finally darkened. He said in a deep voice, "Old Master Guan's words are a little too much."

"Too much? You, Bai Chen, are so unscrupulous. You used all kinds of methods to overturn the clouds and the rain. How can you only describe it as 'too much'?" Guan Shanyao said.

"What Does Old Master Guan Want to say?" Bai Chen asked.

"Right and wrong depend on strength. Justice is only in the hands of the subordinates!" Guan Shanyao said, "At our level, these two sentences should be understood most clearly."

Bai Chen nodded slowly and agreed, "Senior Guan, your words are indeed correct."

"Then, how do you want to comment on the right and wrong this time, senior Guan?"

Guan Shanyao said, "It's still the same saying. The bigger the fist, the greater the reason. "You, Bai Chen, set fire to all sides recently, and we let it go for now. We turned a blind eye to it and missed it. Now, the dust is filling the sky, and the cloud toppling rain house has already reached a point where it's enough to make the old man and the others look at it in the eyes. Therefore, we naturally have to give young master bai the corresponding respect."

"So the seven golden lotuses are here today to test whether my fist is big enough or hard enough?" Bai Chen said with a smile that was not a smile.

"That's right." Guan Shanyao's eyes shot out a sharp divine light.

"Since that's the case, then please draw a conclusion, senior guan. How do we determine the winner? Who is it that will fight with me? We will determine the winner and loser? !" Bai Chen placed his hands behind his back and said proudly.

When this question was asked, the ten or so people on the side of the seven golden lotuses were all eager to give it a try.

Guan Shanyao said indifferently, "Who is willing to play with young master Bai?"

"Me!"

"I'll do it!"

"It's still me!"

"I think I'm suitable."

"My cultivation is shallow. I'm willing to explore the way for the Big Brothers."

"It's better for me to make a move and kill this pretty boy early. Won't the clouds disperse in one day..."

The crowd below was in an uproar. Everyone was fighting for this spot.

Bai Chen's handsome face was always filled with a carefree smile, but a strange light flashed quickly in the depths of his eyes.

Guan Shanyao's expression suddenly darkened.

The dozen or so peak experts below suddenly stopped talking in unison. The entire place was silent.

Guan Shanyao said, "Yue Youyou!"

Yue Youyou walked out from the crowd and said leisurely, "Big Brother Guan, it's my honor to have the chance to learn from the fourth prince of the Great Emperor of the East Heaven!"

Bai Chen smiled faintly and said, "I originally decided that if someone other than the seven golden lotuses came to fight, I would let my two handmaidens fight! However... Since Patriarch Yue was willing to come personally to teach him, Bai Chen could only bite the bullet and fight Patriarch Yue. "This is a show of respect."

All the heroes on the side of the seven golden lotuses were in an uproar.

Maid?

As soon as Bai Chen said these words, a burst of brilliance suddenly appeared in the sky.

It was plain and elegant, as white as cotton, and extremely holy. It was azure, as clear as the sky for ten thousand miles, and as boundless as the sea, shimmering with a shimmering light.

As the white and blue light appeared, the figures of two women also appeared in midair.

The two women were graceful and elegant, their magnificence unmatched in this generation. Their boundless glory made people not dare to look at them directly. However, even if it was just a fleeting glance, they would still fall for them!

The two women saluted in mid-air at the same time. Their voices were clear and elegant, "Graceful in the clouds, a beauty from the heavens, pays respect to all the heroes in the world."

After they finished speaking, the two of them stood in mid-air, one on the left and the other on the right, peaceful and calm.

"On the left, there is the beauty of the clouds, and on the right, there is the beauty of the Heavens!"

A look of admiration appeared in Yue Youyou's eyes as she said, "Young Master Bai, with such a peerless beauty accompanying you, you are indeed a romantic figure of the generation!"

Bai Chen chuckled, "Elder Yue, Please!"

Yue youyou said, "Young Master Bai is a dragon among men. His cultivation level is high and he is the strongest among the nine heavens. Please show some mercy. I'm afraid that Yue Youyou's old bones will not be able to take on young master's divine might."

Before she could finish her words, Yue Youyou's body suddenly froze. A sword appeared in her hand and abundant sword qi shot up into the sky. The dark clouds in the sky were immediately scattered by the boundless sword qi and were cut into pieces, the brilliant sunlight was revealed.

Bai Chen smiled. He flipped his wrist and revealed a flute.

A white jade flute.

The entire body was emitting a hazy white light. This white jade flute seemed to be wrapped by a cloud of mist and it was impossible to see clearly.

The flute was an extraordinary weapon, and did not fall into the common list of eighteen types of weapons. It did not have the sharpness of a blade or a sword, nor did it have the solidity of a staff or a mace. Furthermore, it did not have the might and vigor of a mighty being. However, for cultivators who used this type of weapon..., their cultivation would definitely not be bad, and there must be something else going on!

For example, ye Xiao had met young master Xiao. Young master Xiao's cultivation was only at the initial stage of the sacred origin realm, but he was a third-rate cultivator. However, he was famous because his flute skills and skills had considerable achievements, and he had extraordinary effects!

However, what kind of magic did young master Bai's flute have? ?

Bai Chen waved his hand, and the sound of a whimpering flute suddenly came from all over the mountains and plains. Bai Chen said in a deep voice, "Elder Yue, please forgive me!"

His body flashed, and he turned into a streak of white light as he descended from the sky.

The tens of thousands of people present only saw a figure flash in the air, but the ground had already rung with the sounds of an extremely intense battle.

Young Master Bai's flute seemed to have turned into millions of people as they fell down from the sky one after another.

Every single shadow contained a shocking power that was enough to shatter one's soul.

Yue Youyou did not slack off either. Her sword light similarly had a myriad of light and shadows as it accurately shattered the fragments of Bai Chen's flute. Every time a strand of Bai Chen's flute shadow was shattered, a large patch of white clouds in the sky would shatter.

In the dense forest around them, there were also countless towering ancient trees that withered at this moment.

In the blink of an eye, Yue Youyou unleashed tens of thousands of swords with her hands. Her power was not inferior to Bai Chen's preemptive strike, and it was even more powerful!

The two of them started the battle sequence from the ground, but they fought all the way from the ground to the sky.

As the fierce battle between the two of them continued, a majestic hurricane rose up into the sky.

Young Master Bai's flute music continued to resound throughout the sky. However, Yue Youyou's majestic sword light filled the entire sky.

Although both sides had their own styles and auras, those with higher cultivation could see that Yue youyou already had an absolute offensive advantage. Although Bai Chen was still holding on, he could still hold on, but.., it was very tiring to hold on.

Originally, with Bai Chen's age and status, it was already rare for him to be able to fight with Yue Youyou, one of the old seven lotus experts. Moreover, it was a fierce battle to this point. Anyone would be amazed.., however, this was a life and death situation. The winner would live and the loser would die. It would not be changed because of other factors!

However, even though the battle was abnormally intense, the expressions, temperament, and aura of these two people did not change at all.

Bai Chen maintained his calm demeanor, while Yue Youyou was as leisurely and carefree as usual.

After a long while —

"9,999 Swords!" Yue Youyou let out a long cry and floated down from the sky.

Bai Chen was still standing in the sky, his handsome face still smiling.

“Young Master Bai is indeed a dragon among men, a hero of this world!” Yue youyou said, “This battle is over, and tonight’s battle is also over. What do you think, Young Master Bai?”

Bai Chen bowed deeply. “Bai Chen thanks senior for showing mercy with your sword.”

Yue Youyou looked at him deeply, she said, “Showing mercy?”? ! If I really showed any mercy, I’m afraid that I would have been defeated a long time ago. If this battle continues, young master Bai will have no room for mercy in the end. Only then will he encourage his own defeat and bring disgrace upon himself ! The early end of this battle is to save my face. Young master Bai is graceful and magnanimous, and he lives up to his reputation

Bai Chen smiled and said, “It’s elder Yue who is too modest.”

Yue youyou laughed loudly and returned to her team.

Guan Shanyao let out a long howl and said, “Since this battle is over, we will meet again in the battlefield!”

With a wave of his hand, more than ten brothers retreated.

Bai Chen waved his hand and said with a smile, “Seniors, have a good day. We will meet again in the battlefield and experience your grace.”

Wan Xiu and Yue Youyou also gave the order to stop the pursuit of the overturning cloud and rain pavilion. Seeing the seven golden lotuses and the others leave, Bai Chen’s face showed a slightly heavy expression.

..

“How is it?” Guan Shan Yao asked.

“Bai Chen... has already reached the undying body!” Yue Youyou said with a heavy voice.

“Yes, he has already fused his life into the mountains, rivers, and mountains, the Universe?” Guan Shan Yao said.

“That’s right.” Yue youyou said, “Don’t look at me as if I have the upper hand, but in fact, all my attacks have been wasted. No matter how I attack, it’s meaningless. Human strength is sometimes limited. If I try my best to attack the Mountain River continent, it will be futile, and I might even suffer. After all, this world not only has the mountain river continent, but also the wind, clouds, Thunder, lightning, Magma, and Fire Sea.”

Guan Shanyao took a deep breath. “It really is...”

“Of course, but his current cultivation hasn’t reached... the next step.” Yue Youyou said in a deep voice, “If he has cultivated to the great success stage, then attacking him is the same as attacking the universe... if it really reaches that step, then... no one in this world can defeat him!”

The worry in Guan Shanyao’s eyes didn’t diminish at all. He sighed and said in a deep voice, “I didn’t expect Bai Yutian to have such a son. Is It Really Heaven’s blessing on the east? !”

..

“No one from the east has participated in the battle?” Ye Hongchen was slightly surprised.

“Yes, even though the cloud toppling rain pavilion was almost destroyed in the end, there was still no movement from the east. No one intervened in this battle.” Guan Shanyao said.

“Bai Chen has reached the eternal realm?” Ye Hongchen frowned.

“Yes. Not only has his cultivation reached the eternal realm, but he also cultivates the legendary immortal body that can fuse the sun and the Moon in one breath,” Guan Shanyao said.

“Bai Chen fought and won against Yue Youyou in the end?”

“Yes, but both sides knew that the key to victory was to stop there. Seventh admitted that he was too late and admitted defeat.”

“Then why didn’t Bai Chen launch a counterattack against you?” “He has the cultivation of the eternal realm, and he has the immortal body as his backing. Therefore, he should launch a counterattack against you. Even if he can’t kill all of you, as long as he can kill any one of you, it will be a great harvest.”

“This... perhaps he is afraid of the might of our combined force and is not fully confident of winning?”

“Something... is really wrong!” Ye Hongchen pondered, “Since ye Xiao said that the current situation is not right, then there must be something unusual on Bai Chen’s side. “But... up to this point, there are still no clues, but why?”

“Big Brother, the most fundamental reason is that...” Guan Shanyao said softly, “We don’t want to have a death grudge with Bai Yutian!”

Ye Hongchen sighed slightly.

Then, he asked, “Based on your assessment, which of the two is stronger?”

Guan Shanyao carefully weighed it for a long time, he said, “It’s about the same... in terms of subordinates, the combat strength that we saw at the moment is inferior to that of the monarch pavilion. “In terms of the leader’s wisdom, it’s about the same, or perhaps the sovereign pavilion is slightly inferior. “But in terms of pure strength... Bai Chen’s cultivation is probably on par with Bai Yutian’s. Ye Xiao is definitely not his enemy...”

Ye Hongchen frowned.

“Seventh brother said that if he fought Bai Chen to the death, he would be on par with him within a hundred moves. Perhaps he would have the upper hand. “After three hundred moves, he would gradually fall into a disadvantage. However, he could still ensure that he could come and go as he pleased and escape unscathed. “However, once the fierce battle reaches two thousand moves, and his battle strength falls to a certain level, he would have no way to escape. He would definitely die!”

Guan Shanyao’s voice was very heavy when he said this.

Ye Hongchen was silent for a moment before he said, “If that’s the case, then the current Bai Chen is still inferior to Bai Yutian

“However, since the descendants of Bai Yutian have reached such a stage, Bai Yutian has already achieved his goal, and he won’t think about anything else...”

Ye Hongchen said, “With the situation like this, we have to change the direction and destroy the north and south for two days!”

“Let East Heaven and Liu Litian ignore it for now,” ye Hongchen said softly, “This is a game...”

“Game...”

Guan Shanyao was stunned.

A game in which people suffered a great loss?

Chapter 1944: The Northern And Southern Battlefields

Following the thoughts of ye Xiao and young master Bai, the northern and southern heavenly emperors quickly sensed the change in the situation. It was as if the entire world was filled with malice towards them.

The originally chaotic battlefields that were filled with chaos had gradually become more distinct. It was even more orderly than the simple chaos!

The two factions that had suddenly appeared seemed to have formed some sort of tacit understanding. At almost the same time, they started to do their own things.

If it was easy to understand that they were doing their own things, then using the word “Doing their own things” to describe these two factions that were fighting to rule the world would be ridiculous. However, the current situation was so realistic. Doing their own things was more appropriate and more vivid than doing their own things.

After absorbing the remnants of the heaven and earth forces and strengthening their own forces, the overturning cloud and rain pavilion began to turn and encroach further towards the northern sky.

Although the two sides had yet to engage in a head-on clash, the constant harassment from the overturning cloud and rain pavilion caused the dispute between the two sides to intensify. What made the northern sky even more fearful was that although the forces of the Eastern Sky were still holding their ground., the sharp edge of their troops was already turning to the right. In the midst of some seemingly ordinary military movements, it was gradually forming a predatory stance. It gave people a very strange but very practical feeling: the Eastern Sky’s forces could launch the most ferocious attack against the northern sky’s army at any time!

However, after the battle against the Tempest Pavilion, the combat strength of Ye Hongchen did not take any further actions. Instead, they quickly gathered their elite troops and formed a huge and powerful fist., he ferociously swung it at the army of the Southern Celestial Emperor!

And the pavilion of the sovereign, led by ye Xiao, grew bigger and bigger like a snowball during this period of time. Especially the Western Heaven Army, which had gathered tens of millions of troops!

As such, under the leadership of the pavilion of the sovereign’s twelve divisions, they launched a continuous wave of attacks at the Southern Heaven Army!

Just when everyone was caught off guard, the battle situation in the boundless sea suddenly changed, and in a very abrupt manner, it split into two parts: one south and one north, splitting the battle situation into two parts.

The white and heavy building of clouds and rain, backed by the great power of the Eastern Heaven Emperor, continued to march north without stopping, relentlessly pursuing and attacking the northern heaven people and Horses!

Meanwhile, ye Xiao's pavilion of the monarch, with the assistance of Ye Hongchen's power, also began to launch a fierce attack on the southern heaven without the slightest bit of slack!

Just like the foreword, each had their own duties, each doing their own thing. There were no empty words!

Based on the atmosphere of the battle formation, the actual situation on both sides of the battlefield was naturally extremely tragic. Corpses were like mountains, and rivers of blood flowed. It was no longer a description, a metaphor, but reality! !

At this moment, ye Xiao and Bai Chen both had an obsession in their hearts.

They had to first wipe out their own rear while the other party, their greatest enemy in their lives, was dealing with his side of the tie. Then, they would have a life-and-death battle with the other party without any worries, and compete for the world!

It was precisely because of this mentality that during this period of time, a situation of no one paying attention to anyone and acting on their own was formed.

And after the southern Sky Emperor Long Yutian and the northern Sky Emperor Han Jianghai were confused for a period of time, they finally understood one thing.

Or perhaps they understood a reality!

This..

The reality was no longer that the five heavenly monarchs were ganging up on Ye Hongchen!

The current battle situation was already the new red dust realm beyond heaven shuffling their cards. After this battle of the world, they would decide the emperor of the world!

The entire glazed sky was filled with demons and had its limitations. The final winner of this battle was to look at the four corners of the world and see who would have the last laugh!

And now, the Western Heaven was the first to be destroyed. The Eastern Heaven worked hand in hand to turn over the cloud and rain pavilion. Father and son worked together. Mister Ye hooked up with the sovereign pavilion. The Two Ye's worked together, one north and one south against the northern and southern two days. Their Wolf's heart was clear!

After understanding this reality, the two heavenly emperors were immediately enraged!

They attacked with all their might!

You want to wipe out the north and the south? ! Sharing the same taste, sharing the same taste, sharing the same food for two days, do you have such good teeth? !

Do you think you are the north and south supremacies of the past?

“You are absolutely white, I will kill ye Xiao! First kill the little one, then target the old one!”

Long Yutian directly sent a message to northern sky emperor Han Jianghai, and Han Jianghai only replied with one word: “Good!”

And from this day on, the battle situation between the two sides suddenly became more intense than ever!

The southern and northern Sky’s rear lines also began to urgently call for reinforcements. The countless experts in the rear who were supposed to stay behind to provide backup were urgently ordered to rush to boundless sea to participate in the battle!

For a time, the entire beyond heaven of the Red Dust World was in a tumultuous state!

The actions of the two days were the general call-up order of the heavens. Previously, they had worked together for five days to encircle and annihilate leaves in the sky. After five days of working together, they were confident that victory was within their grasp. Naturally, they could not help but have other plans in mind, for example, if they did not put in the effort, they would put in less effort and reduce the loss of their battle strength. The losses would be borne by the other heavens and earth, leaving more of their strength in the heavens. It was precisely because of this mentality that the high-end battle strength of the Great Western heavens appeared so weak, the Great Western Heaven’s Lord Meng Tianluo’s divine soul and original soul being accidentally damaged was the main reason for the Great Western Heaven’s annihilation. A portion of the Great Western Heaven’s main battle strength did not participate in this battle, which was also a big factor!

Everyone had the same thoughts, and the Southern Heaven’s Lord and the Northern Heaven’s Lord also had the same thoughts. The current situation was clear. If they held back and did not use their strongest strength to participate in the battle, they would probably follow in Meng Tianluo’s footsteps, the two sky lords naturally gathered the remaining forces of the southern sky to come to their aid at the first possible moment!

It could even be said that the flames of war only truly spread to the entire beyond Avalon of red dust at this moment!

For a time, the battle strength of the northern and southern sky increased by an unprecedented amount!

However, the increase in battle strength seemed to affect one person in the slightest

Ye Xiao swept through the army of ten thousand horses with a single sword. Sometimes, he was in the middle of the army. Sometimes, he would charge forward. Sometimes, he would enter the enemy camp. Sometimes, he would fight for eternity..

The experts in the pavilion of monarchs were constantly losing people, but they were also constantly adding more experts!

Ye Xiao had started from the boundless sea. In the eyes of the people of the boundless sea, he was a true local force of the boundless sea!

This identity could be said to have a natural sense of familiarity.

For more than a hundred thousand years, the boundless sea had been excluded from the five great worlds, becoming a Pure Land of the jianghu. At the same time, it had completely cut off these people's path of advancement.

No matter how astonishing one's battle prowess was, no matter how pure one's cultivation was, but... one was just a good man of the pugilistic world! A reckless hero!

With such an identity as the foundation, it would never be recognized by the officials of the heavens.

This consensus had always been the pain in the hearts of the people of the boundless sea!

There was an ancient saying: "Learn civil and martial arts, goods and Imperial Family." However, this saying surprisingly did not establish the boundless sea!

Now, with ye Xiao's sudden appearance, the people of the wilderness saw hope. For themselves, for tomorrow, if they did not help ye Xiao, who would they help? Especially with a life and death guarantee, how could they not do their best!

The strength and scale of the Lord Pavilion of ye Xiao were expanding at a terrifying speed!

It was precisely because of this factor that the situation of the Lord Pavilion's forces would often appear like this: today, Ye Xiao was fighting against the Southern Sky Army, a 100,000 strong army that could only maintain an equal status of the Lord Pavilion's branch. But by tomorrow.., it had become an overwhelming combat strength.

There were many times when such a situation occurred: when both sides were in the midst of a fierce battle, there were suddenly a few inexplicable forces of the boundless sea that suddenly entered the battlefield and participated in the battle. They even launched a frenzied attack on the Southern Sky Army!

This was not an incomprehensible situation. It was just a sign of allegiance.

The Monarch Pavilion definitely liked this pledge of allegiance, but the Southern Sky Army definitely did not like it!

Very much!

This was no longer the first or second time such an incident had happened. It was so frequent that it made one's hair stand on end. Right now, the southern sky army had to leave behind one or two reserve forces at the start of the battle to guard against such an accident that they did not know when they would enter the battle!

Ye Hongchen's high-end combat power, such as the seven Golden Lotuses, did not seem to have any connection with the pavilion on the surface. However, wherever ye Xiao pointed, there would definitely be experts from the older generation of the Ye family!

Now, even if ye Xiao or Mr. Ye came forward to clarify that the ye family had nothing to do with the pavilion, no one would believe it. Did they think that they were blind?

The current battle situation had soared to another level, but it had completely exploded because of the death of one person!

The mentality of both sides had also evolved from a struggle for hegemony to an irreconcilable feud!

The Crown Prince of South Heaven, Long Aoyun, brought the crown princess and his family to the boundless sea to provide support. At that time, ye Xiao was leading his men to attack. Long Aoyun was confident of his powerful cultivation, so he did not care about dissuasion and directly attacked, he wanted to destroy ye Xiao's attacking army.

"Crown prince, don't be Rash!"! Ye Xiao was powerful and his cultivation had already reached the peak. Even an early-stage eternal realm expert wasn't his match. It was rumored that one of the Great Western heavenly pillars, Dean Chang Kong, was killed by this guy..."

"Hahaha... What a joke!"! It was all a ridiculous joke! However, it was just a rumor. How could you so easily believe the rumor that ye Xiao was bragging! Who is that headmaster Chang Kong? He is one of the oldest powerhouses in the world. How could he lose his life in the hands of a yellow-mouthed child! How Ridiculous!"

"Your Highness, that... that is not a rumor!"

"Haven't you always said that he is only in his twenties?"The crown prince had a wise look on his face and his eyes were filled with ridicule. "Have you ever seen or heard of an eternal realm powerhouse in his twenties?"

Everyone was speechless.

The crown prince's words seemed to make a lot of sense.

An eternal realm expert in his twenties? Never mind seeing such a thing, even in the legends, even in one's dreams, one would probably never dream of such a ridiculous thing.

Thus, the crown prince went out to battle valiantly and valiantly.

"Wait until I take action to kill ye Xiao and break this absurd rumor to ease the morale of our troops!"

The crown prince laughed out loud.

He didn't know whether he should say that his luck was particularly good or especially bad. In short, he charged through the army of ten thousand horses and smoothly met ye Xiao himself!

Ye Xiao saw that many of his subordinates had been killed by the people who came, so he was naturally furious. Facing long Aoyun who brought three sons, one crown prince consort, three side concubines, and eighteen concubines, he charged up at the same time, ye Xiao gave him face and used his purple Qi from the east!

The purple extreme famous sword move that he had not seen for a long time was extraordinary. Without a direction, the purple sword Qi was like a purple curtain that hung over the sky. With a wide

range of attack, it enveloped Prince Long's family in all directions. Then.., prince Long's entire family did not even have the time to let out a scream before they collectively turned into minced meat!

At that time, ye Xiao didn't know who he was killing. To him, it was just a strange thought.

After all, everyone in the Southern Sky Army seemed to know that his battle prowess had killed an eternal battle record. How could there be a cultivator who was only at the peak of the eternal realm who rushed forward to die with such a valiant and fearless aura, moreover, he even brought his entire family to die together..

This was really too strange, too strange, too weird to say..

Ye Xiao continued to fight until the end of this battle and returned with a great victory.

On the other hand..

The southern sky emperor, Long Yutian, went completely crazy!

Unlike the other heavenly emperors, Long Aoyun was the successor that he had groomed for many years and was about to take over.

Just looking at the cultivation base of long aoyun, who was already at the peak of the eternal realm, it could be seen that long Yutian had always been very confident and proud of his son. With his son Zhuyu in front of him, any other crown prince or prince in the other heavens.., were not even worth mentioning!

This time, they came to the battlefield. In essence, it was the Heavenly Emperor's ultimate battle to train his son.

At the same time, it was also to show the other heavenly emperors. Don't think that only the son of the Eastern Heavenly Emperor, Bai Chen, had grown to be a person who could take charge of his own affairs! The Crown Prince of South Heaven was not weak either. Not only was he not weak, he was also an outstanding figure among the descendants of the Five Great Heavens and earth!

Before the war, the Great Emperor of South Heaven had thought that when the war ended, his son's cultivation base, which was already at the peak of the eternal realm, would definitely advance to the eternal realm. As long as his son advanced to the eternal realm, his cultivation base would be stable.., he would retire and pass the throne to the crown prince.

However, who would have thought that his son would die before he could even meet him after traveling thousands of miles to this place!

Dying at the hands of ye Xiao was not simply a matter of fleeing for his life. That would mean that his soul would be destroyed and he would never be able to recover. After all, ye Xiao had a certain meow by his side. The previous Meng Wuzhen was an example, but how could long Aoyun be an exception? !

The great victory of the sovereign pavilion was not only a joyous occasion, but it also allowed his own strength to be further strengthened!

Apart from recruiting the enemy's scattered troops as usual, there were also the boundless sea sects, itinerant cultivators, and jianghu visitors who took the initiative to join the Sovereign Pavilion. Everyone was in jubilation.

However, at this very moment, hundreds of millions of troops suddenly pressed down from the southern sky side. Behind them, there were even billions of reserve-duty soldiers ready to charge onto the battlefield at any moment.

This kind of stance not only shocked ye Xiao, but also ye Hongchen.

After all, the formation that the southern sky side had arranged was the stance of a decisive battle!

Although the battle between the two sides continued to escalate, and although the casualties on the southern sky side were even more severe, the battle situation on both sides was not truly out of balance. Although it was not five or five waves, the overall situation was still maintained at six or four waves, the southern sky side had the strength to back them up for a day, and delaying the battle was the most ideal tactic. Why did Earth Dragon Royal Heaven suddenly not think things through and put on such a battle-to-the-death stance?

Even though both sides knew that the situation would eventually develop to this point, at this stage, it was not the time for the southern sky forces to have no choice but to adopt a battle-to-the-death mode..

Comparatively speaking, both sides should not be happy with this final battle mode. The Twin Leaf Alliance army had the upper hand in terms of combat strength, but they lacked the basic manpower. The best strategy was to nibble away at it bit by bit and strengthen themselves bit by bit, it was also a strategy that walked on a tightrope. As long as they failed once, they would be attacked by the southern sky side. Hence, the southern sky side maintained a delaying tactic and waited for the right time to appear. It was also the best strategy! Why would they suddenly change their strategy and take the most extreme stance? !

But no matter what... The Southern Sky Emperor, Royal Dragon, was already charging forward aggressively. Furthermore, he was launching a hysterical and extreme attack. This was not a false move at all. In reality, so what if they had the best strategy? !

In the battle formation, everything could be lost. Only the morale could not be lost. Faced with the terrifying attack from the Southern Sky Army, the other party would naturally not be outdone!

Ye Xiao quickly made a decision. "I'm not afraid of him going crazy, I'm not afraid of him going crazy, I'm just afraid that he won't Go Crazy! This way, even if there's more bloodshed, we can speed up the pace of the end of the war by a lot. Why Not? !"

"Let's face it head-on!"

"The entire battlefield, the priority is to start the decapitation operation!"

"In terms of overall strength, our side doesn't have the advantage; in terms of head count, we can't even match up to them. But we have more experts than the other side! Let's first defeat the other side's commander and turn the other side into a headless fly!"

“Let the battle begin!”

“Let the battle begin!”

Ye Xiao took the lead with a single sword strike and led the eight halls of the Sovereign Pavilion in an upright formation, brazenly accepting the battle head-on!

Ye Xiao’s decision gave ye Hongchen a shock as well.

Chapter 1945: The Southern Sky Army Was In A State Of Confusion

It was indeed an indisputable fact that you had more experts than the other party, but... the other party also had quite a number of high-end battle prowess, especially when the other party still had the Almighty Long Yutian and many veteran experts to hold the line! Could you really gain an advantage by recklessly using the decapitation tactic? !

... This decision was too rash! !

Ye Hongchen naturally could not sit idly by and watch ye Xiao fall into a desperate situation. Even though he had no other choice, he had no choice but to use all the power in his hands as well.

Little did he know that this was the result that ye Xiao wanted.

After a while the day before yesterday, ye Xiao found out that he was of great significance to Ye Hongchen and was also the true hope of continuing the ye family. He absolutely could not allow anything to happen to him, so he chose to face the battle head-on at this moment, he had planned to drag ye Hongchen’s side into the battle as well!

As a large number of high-level cultivators attacked, the surrounding environment was completely destroyed. First, the countless mountains, mountains, and mounds in the battlefield shattered with a loud bang. Countless cracks suddenly appeared on the ground and gradually spread out. Then.., countless Mountains broke out from the ground and rose up. The devastated ground was covered in dust and sand. A large hole suddenly appeared on the ground on the other side and was filled up in the next moment..

The so-called vicissitudes of life and death were nothing more than this.

The Extreme War began. This battle was different from the previous one where they had tacitly withdrawn their troops after finishing the battle. It was a continuous battle that would not stop until one of them died. Looking around, blood splattered all over the place, it was like a raging fire, filled with blood..

A 10,000-man team was still undefeated a moment ago. In the blink of an eye, they were completely annihilated. Meanwhile, more battle forces continued to pour into the battlefield. The battle between 100,000 people was still in the ascendant, and the battle between a million people had already begun, the former was completely engulfed by the latter. Before the corpses of the previous batch could be moved away, they were already covered by the corpses of the other batch. The so-called mountains of corpses and seas of blood could no longer describe the current tragic situation..

At the beginning, everyone was still unable to accept the death of Pao ze by their side, but later on, everyone had become accustomed to it.

On the battlefield, killing and being killed was actually so common.

However, the more it was like this, the stronger the recovery ability of the sovereign pavilion's side. Those life-saving pills that could bring back the dead and extend the life of the dead became even more precious. They were so precious that it made people envious, jealous, and hateful.

Just think about it... just now, they had clearly killed the enemy with their own hands until they were dead and heavily injured. Their bones and tendons were injured, and their stomachs were cut open. It was obvious that they wouldn't be able to live any longer, then, not long after, he saw this person charging over with full vigor..

How could such a visual impact and such a cruel reality not cause the person involved to collapse!

However, this kind of incident had happened not once or twice, but hundreds, thousands, or even too many times. As long as you did not die, you might be able to see it more and more times!

No matter how determined a person was, his heart could not help but waver. He could not help but think, if I am also a member of the Sovereign's Pavilion? 'wouldn't I... Wouldn't I be able to gain countless lives just like this?'

In such a dangerous situation, not to mention such heavy injuries, even if their injuries were slightly severe, they would be immediately given up. On the other hand, they could completely recover after a night. What kind of disparity was this? !

When no one had a life guarantee, no one would think too much. A person only had one life, so who was afraid of risking their lives? If one was worth it, then two were worth it!

But when you discovered that you used your own life to risk the lives of countless others..

There was no need to mention that grievance!

Everyone's cultivation level was clearly about the same. I used all my strength to create a situation where both sides suffered heavy losses. If I was seriously injured, you would definitely die. This business was undoubtedly worth it! But Tomorrow... You, who was clearly supposed to die, recovered and attacked again. Secondly, I was still in a seriously injured state and there was no relief. This wasn't a worthwhile business, it was simply losing money to the point of losing everything..

"This is really too unfair!"

Countless experts from the southern sky shouted in frustration. This was the voice of everyone.

"How can there be true fairness in this world? Fairness is not something that can be given to you. However, it is not difficult to have a few more lives. As long as you come to our side, there will naturally be many lives. It is that simple!"

"The sovereign pavilion is currently recruiting troops without restraint. Come over, you don't need to worry about being heavily injured!"

"The sovereign wants to unify the world and needs talents. The path of the dragon is right in front of you. Why are you still hesitating? !"

“If you want to come over, then come over. If you don’t come over, then continue fighting. It is even simpler...”

“I see that you are a talent, that’s why I am telling you this. If you don’t know what’s good for you, then you are inviting death.”

“In any case, your life belongs to you. You only have one life. I... I’m someone death can’t find. If you’re not satisfied, come and fight me!”

“You can continue to fight with your life. Death is beckoning to you. I can fight for a long time and live on!”

“This is the difference. Now You’ve experienced who’s Afraid of who, right? Hahaha...”

The Monarch Pavilion had long formulated a strategy of exchanging injuries for life, saving one’s life, and continuing the battle. It was a strategy that could not be imitated, and it gradually played an unimaginable huge role on the battlefield.

As time passed, People’s minds changed, and their fighting spirit became unstable..

In the Southern Sky Army camp, it was unknown when it started, but disharmonious voices started to appear bit by bit.

“What are you all doing? Why aren’t you preparing? The war is about to start, why are you all sitting there? Are you all waiting to die? !”One by one, the generals came out and scolded.

Seeing that they were all dead and listless, the generals flew into a rage.

Initially, the scolding from the generals was not considered excessive. That soldier had never been scolded by his superior before. It was truly a trivial matter.

However, at this moment, with this question, a huge problem was revealed —

“Start a war? What War is there to start... we can just wait for death. They can still live even if half of their heads are chopped off. We can just touch them and they will die... They will live 17 to 18 times... still want to fight? Fight my ass!”Someone rolled his eyes.

“That’s right. I Don’t care how you fight and kill them. They have medicine! Take one and they’ll be resurrected on the spot with full health! F * ck, how are we supposed to fight them? !”Someone chimed in angrily.

“Actually, who doesn’t know that those priceless treasures and elixirs that are placed properly for the recovery of holy medicine are usually hard to come by in a thousand years. However, at this moment, the monarch pavilion seems to be giving them away as if they don’t care about money. The few pills that they have... how can we have such treatment...”someone sighed.

“What you’re saying is nonsense. You know that this is a divine medicine that is hard to come by in a thousand years. Even if there is such a thing, would it really be your turn?”Someone curled his lips.

“Who doesn’t understand the logic behind it... but reality is just that melodramatic. The few fellows that I hacked down a few days ago, each of their cultivation levels were below mine... I personally witnessed

it with my own eyes... I hacked them down like a bloody person, and they were carried away... then, the numbness came again the next day..."

"This is nothing new. I've encountered it before... I always say that my memory is good, but I wish my memory wasn't that good at that moment. I almost fainted when I saw it. F * ck you, didn't I kill this guy twice already? "Why is he charging at me again..."

"Twice is nothing... ever since the start of the war, I've killed that guy seven or eight times. Every time he sees me, he fights me with his life. In the beginning, my cultivation level was far higher than his, and I could easily injure him. However, after every encounter, his cultivation level increased significantly. The day before yesterday, although I won by a fluke, I'm not sure if I'll be able to return the next time we meet..."

"Sigh, saying a thousand things is like saying ten thousand things. Sovereign ye of the Sovereign Pavilion treats his brothers and subordinates as his own people... No, he treats them as his own brothers! "On our side... F * ck, we are cannon fodder..."

"Cannon fodder is cannon fodder, so what if we die together? What's The Big Deal?"

"F * ck... I also have old and young people in my family! I also have a whole body of cultivation, so why should I wait for death? Why should I be cannon fodder?"

"You don't wait for death, you don't want to die. Is it useful to just say it? You have to have a way to count it..."

"... HMPH!"

These kinds of words were rampant in the southern sky army and filled the ground. The officers were helpless and didn't even dare to pressure them. This pressure at the moment would only incite a further mutiny..

In fact, most of the lower-level officers also held similar opinions. "MOTHERF * cker, if an officer is injured, there will be panaceas to heal him. If I'm injured, I'll give a pack of knives and create medicine to send away beggars..."

"If a talent like me were to go there, I would at least be a high-level cadre... why would I be so cowardly? F * ck!"

"General, don't blame us. The problem is that the difference in treatment between the two sides is too big... the other side is happily risking their lives for their future. Originally, it wasn't a big deal on the battlefield, but now the problem is that their lives can't be risked... But if we risk our lives once, we will really be finished..."

"He's the one who's truly risking his life for his future. What are we risking our lives for? It's nothing!"

"Our brothers are filled with resentment. How are we going to fight this war?"

They complained and complained. Before they could finish complaining, the attack from the sovereign pavilion came again.

And so it was another big battle..

After the big battle, the complaints escalated again.

“Did you see that? “That kid who was almost cut in half by me the last time... Today, he fought with me again... He’s so full of spirit and vigor! “I’m really F * cking F * cked up. If it wasn’t for my good luck, I would have been cut in half by him...”

“You F * cked up? I’m F * cked up! “D * mn, that Guy wasn’t my match during the great battle the day before yesterday. He was beaten up by me until he spat out large mouthfuls of blood and almost vomited to death. But today, he rushed up and forced me to take three steps back with a single slash. Other People’s medicinal pills can not only heal injuries, but also save lives and increase cultivation! “Look at how I was beaten here... how I was hacked here... F * ck, give me a medicinal pill to heal my wounds as well...”

“You’re suffocating to death!”

“Why don’t I really suffocate you to death?” Hu Laosan howled as he rushed forward. In the end, his old opponent directly chopped off his head... I saw it with my own eyes. “His opponent had been beaten and crippled by Hu Laosan seven or eight times in the previous battles, but he came back again and again to fight. Today, Hu Laosan was defeated once and lost his life. Didn’t I tell him that when we meet again, I’m really not sure if he can come back again...”

“Not only Hu Laosan, but even Han Laowu’s body has been trampled into minced meat... my heart feels like it’s going to be cold for the rest of my life...”

“There are dead people over there too, but there are dead people over there, so we’ll retreat! We’ll be able to charge up again tomorrow... unless we’re dismembered on the spot... otherwise, we’ll definitely be fine!”

“Sigh... I’ve also lost an arm to my old rival. It’s a pity to lose it. Say, brother, you might not be able to reattach this arm. Now that you’re disabled... Even if you join us, your combat strength won’t be as high as before, and your treatment will also be different... D * mn... I’m disabled... and even more worthless...”

After days of continuous battles, the morale of the southern sky side was getting lower and lower.

On the other hand, as long as the people from the sovereign pavilion were on the battlefield, they would feel like they were participating in a feast of gluttony. Their eyes would light up and they would be in high spirits.

To them, as long as they saw the naked envy and hatred in the eyes of their enemies, they would feel extremely good!

To be more specific, it was as if they had crawled into a warm bed in winter and poured a bucket of cold water on a hot summer day!

In any case, they would feel as good as they wanted!

Based on this “Twisted” mentality, basically everyone who went to the battlefield would deliberately look at their old opponents, familiar faces, and deliberately look at the envy, jealousy, and hatred on their opponents’ faces..

Because of their new opponents... They didn't know who they were, so how could they show off their superiority? !

The higher-ups of the sovereign pavilion naturally didn't advocate this, but everyone did it on their own accord... This evil trend of comparison couldn't help but become more and more intense. In the end, when some of the people from the sovereign pavilion rushed over.., some of the people from the other side were so aggrieved that they wanted to retreat.

There was no way to fight this battle anymore. Even if they just met some people face to face, they would be so angry that they would die.

On one side, they were getting more and more aggrieved, while on the other side, they were getting more and more excited. Under the weakening of morale, the morale of the southern sky army started to waver, and it became more and more intense. It was uncontrollable.

On this day, on the main battlefield, amidst the Battle of a million soldiers, a sudden long howl shook the sky!

Everyone was shocked and raised their heads to look at the source of the sound.

They saw an elegant white figure quietly appear in mid-air.

The person was dressed in white and looked elegant and dashing. Although he was on the battlefield, he was wearing a light robe. He looked like a rich young master who was traveling around the world. He was as beautiful as jade and was unparalleled in the world!

At this moment, everyone was shocked by the demeanor of the white-clothed person who appeared in mid-air.

There was actually such a person who was like a banished immortal in this world? !

The white-clothed young man seemed to be standing on solid ground as he leisurely walked in the sky. He stood with his hands behind his back. There was a faint smile on his lips as he said faintly, "Lu Buyi, do you dare to show yourself and fight with me, Ye Xiao?"

Chapter 1946: The Promise Of The Three Swords

The white-robed young master's voice was calm, and there was no tension in his tone. Even the tragic atmosphere of the promise of a battle was nowhere to be seen.

There was only gentleness, gentleness, and gentleness.

However, this calm voice spread throughout the entire battlefield. Everyone present clearly heard this sentence: Lu Buyi, do you dare to come out and fight with me, Ye Xiao?

Lu Buyi, who was in the main tent of the southern sky camp, was instantly put in a difficult position!

As the number one person in the military, there was no reason for the other party not to fight.

If they really did not fight and avoided the fight, then the already low morale of the southern sky army would be reduced by a thousand miles!

However, if they really came out to fight this time, they would have no confidence at all

Everyone could not help but think: If ye Xiao, who was the leader, did not have the confidence to win, why would he come out to fight?

In front of tens of millions of troops, he openly challenged them to a battle!

Not to mention, there was the battle record of one-on-one killing the veteran expert, Chang Kong, in front of him. It would be difficult for Lu Buyi to win this battle!

Ye Xiao quietly stood on the spot and waited. There was no surprise or joy on his face, only calmness.

It seemed that... no matter if Lu Buyi came out or not, he did not really care about it.

A moment later, Lu Buyi did not show up.

“Haha...”Ye Xiao shook his head and smiled faintly.

He turned around with his hands behind his back, as if he was riding on the wind, wanting to leave.

He did not say anything else.

However, the people from the Pavilion of Lords below suddenly erupted with thunderous cheers, as if they had won a huge battle!

As for the Southern Sky Army, everyone’s faces were filled with dejection.

Lu Buyi, the Grand Commander of the Southern Sky Army, actually did not dare to fight? !

Ye Xiao’s originally towering figure slowly descended, his expression as calm as before. However, just as he was about to land on the ground, a thunderous roar suddenly sounded in mid-air, “Ye Xiao!”

Ye Xiao, who was slowly descending and about to land, suddenly stopped. With a whoosh, he abruptly returned to the sky.

In everyone’s sight, there was still his slowly descending figure. It was so real.

However, in the sky, his corporeal figure had long stood erect like a mountain.

Lu Buyi, who was opposite him, had a solemn expression, and his gaze was even more complicated.

“Sovereign ye, if you want to fight, then fight. Why do you have to play such tricks to lower your status!”

Ye Xiao smiled casually. “Commander Lu’s words really surprised me... on the battlefield, it’s normal to use all means to win; how come I, who challenged commander Lu directly, became a schemer? These words should be baffling and disapproving to anyone else! “To put it bluntly, even if I have 100,000 experts by my side and set up a trap to kill Commander Lu, it’s just the use of strategic tactics. It can’t be said to be too excessive... why is it that the fair battle that I’m asking for is actually so difficult for commander Lu?”

Ye Xiao’s words clearly reached the ears of everyone present, and everyone felt that it was reasonable.

That's right, this was a battlefield, a place where war was imminent and life and death could be at any moment. Ye Xiao's challenge was really too open and aboveboard, and Lu Buyi's tone was actually slanderous and unreasonable.

Ye Xiao's eloquence was thanks to Zuo Wuji's training, and it was rarely matched. Lu Buyi's eloquence in front of him was just asking for humiliation, and he was committing suicide!

General Lu, who was enraged from embarrassment, shouted angrily, "Ye Xiao, come and fight!"

Ye Xiao smiled, "I am here to fight with General Lu. If not for the sake of a fight, why would I come here?"

Lu Buyi did not waste any more words and shouted loudly. His long sword struck out, and everywhere he saw, there was a flash of green light, and his momentum instantly soared.

On the other hand, ye Xiao was at ease. He slowly took out his sword, but he did not make a move to respond. Instead, he lowered his head to look at the blade of the sword, he said indifferently, "Lu Buyi, I have the battle record of killing Dean Changkong. If I were to fight you head-on, I would be bullying you. How about this, as long as you can receive three of my sword strikes, the monarch will withdraw from the world's Strife!"

The moment these words were said, everyone present was shocked!

Three sword strikes! ?

Was this a joke, or was it just boasting, or was it just wishful thinking? !

Even if ye Xiao had successfully killed a veteran expert like ye Xiao, he couldn't be so boastful!

Many people had done a detailed investigation of the battle that day. It was a fact that ye Xiao had killed ye Xiao, but there were many twists and turns in the process. Not to mention the special environment of the battle that day, not only did ye Xiao have a peerless divine weapon as support, there was also the mysterious Ice Lord Ying Lian, the two female helpers. It was said that if Dean Changkong had not been anxious to rescue his own army, his will would not have been stable. With his cultivation that far surpassed ye Xiao's, the result of the battle definitely would not have been as it was that day!

All the unfavorable factors were placed on Dean Changkong. The defeat was natural, but ye Xiao's victory was even more fortunate!

And who was Lu Buyi? Besides his own cultivation that had already reached the eternal realm, Lu Buyi had already become famous hundreds of thousands of years ago. How could his strength be easy to deal with? I believe that even if he was a heavenly emperor..., it would be difficult for him to defeat Lu Buyi with three strikes, right?

Lu Buyi became even more furious and shouted angrily, "Ye Xiao, how dare you look down on me! I will definitely kill you with my sword today!"

Although Lu Buyi said this with fervor, his heart was filled with caution.

Based on his understanding of ye Xiao's life, especially the comparison between ye Xiao's cultivation when he fought against headmaster Changkong back then and the current situation, since ye Xiao dared to say this in public, then he must have the confidence to defeat him with three strikes!

The speed of ye Xiao's cultivation advancement had long exceeded the scope of understanding of a grandmaster. Previously, it had only been a few days since he defeated the dean, but ye Xiao's cultivation had shockingly increased by a lot compared to then. Therefore, this agreement of three strikes.., was very likely to be the most difficult battle of his life!

It was even to the extent that there was a very high chance that he would die here on the spot!

With this realization, how could Lu Buyi not be scared? !

Ye Xiao maintained a faint smile on his face as he stared at the sword. He ignored Lu Buyi's raging fury and said in a low voice, "First Strike!"

For some unknown reason, the tens of millions of soldiers below were watching. What kind of clamor should there be? However, when ye Xiao said these three words, it suddenly became quiet. It was so quiet that one could hear a pin drop!

Even those who were seriously injured forgot to moan at this moment. They were all focused on watching the battle in the sky. They were quietly waiting for the world-shaking three swords!

"Purple Qi comes from the east and I am the King!"

Ye Xiao let out a long cry and his body rose up without any license. At this moment, the spiritual energy in the endless space was like a vast ocean that was instantly sucked dry. It gathered a huge amount of spiritual energy in one strike!

The sovereign sword also gathered all the wind and clouds in the sky in an instant, turning them into a huge crown that connected the heaven and earth!

At this moment, everyone within a radius of thousands of miles felt a suffocating feeling at the same time.

They could no longer feel the existence of any spiritual energy around them.

To cultivators, the existence of spiritual energy was even more so than air. Without Air, they wouldn't die for a moment. However, without spiritual energy, they would lose their lives. It was precisely because of this.., all mortal cultivators were exceptionally sensitive to the fluctuations of spiritual Qi in their surroundings!

And with ye Xiao's sword strike, he actually seized all the spiritual Qi in the surrounding earth realm. What kind of power and how overbearing was this!

The tip of Emperor Ye Xiao's sword rested on the Qi condensation crown, and he softly shouted, "Go!"

The Qi condensation crown flew out slowly.

It was slowly approaching Lu Buyi, but its speed was not very fast!

But anyone could see that even if Lu Buyi had great ability, he could not dodge or avoid this sword!

Because this crown of Qi condensation was really too big, so big that it was unimaginable!

No matter how fast Lu Buyi moved, it was always difficult for him to escape the scope of this crown!

The next moment.

Boom!

A silent explosion sounded in everyone's hearts.

Everyone felt their hearts tremble violently.

A bright light shone in front of their eyes. It was as if the entire universe, all the stars, had been completely destroyed in front of them at this moment!

The Qi condensation crown exploded!

Countless sword qi mixed with the energy of this world, carrying the aura of a sovereign that ruled the world, surged over!

Every sword Qi was a clear image of the sovereign sword!

It was as if it was an infinite copy of the Sovereign Sword Sea!

Faced with such a fierce attack, Lu Buyi's expression relaxed, and he suddenly thrust out his sword.

Although this attack looked scary, it was obviously too big and inappropriate. If it lost its speed, he would be able to deal with it more than enough.

At the very least, it was indeed difficult to deal with its momentum. It could also cancel out its momentum as soon as it came into contact with it and use the force to retreat. It would not be a problem for him to retreat in one piece!

Clang!

The first beam of Sword Qi from ye Xiao came into contact with Lu Buyi's long sword.

Lu Buyi's confident face instantly froze. He was stunned and his entire body turned cold!

The reason was very simple. The treasured sword that had accompanied him for his entire life, at the first moment that their attacks came into contact, there was a clear and crisp sound. A gap the size of a bean suddenly appeared! "..."

The longsword suddenly let out a mournful cry. It was a weapon that had already gained sentience, and it let out a mournful howl due to the damage to the body of the sword.

At the same time, Lu Buyi's soul was about to leave his body, and his heart suddenly sank!

The opponent's sword Qi was shockingly a sharp golden sword qi that was strong enough to be extremely sharp!

"Ye Xiao!"

Lu Buyi cried out loudly and turned around to quickly retreat. "You tricked me!"

The other party was acting in an open and aboveboard manner as they said that they would defeat the enemy with three strikes. As the person involved, Lu Buyi did not expect that the other party would actually make a fuss about the sword qi and hide such an ambush!

When the hundreds of millions of experts who did not know the truth heard this, they were in an uproar!

After all, from their point of view, when ye Xiao said that he wanted you to take three strikes, there was nothing fishy about it. It was clearly a very simple attack formed from sword qi. Not only did you run away before taking the first strike, but you even said that the other party tricked you?

How was it scheming against you?

How could we not see it?

Wasn't this situation extremely absurd? Did they think that we were blind? !

The situation in the high altitude dueling ground had already changed. Even though Lu Buyi reacted quickly and retreated even faster, he still lost the initiative. Ye Xiao's crown sword Qi had already arrived!

Lu Buyi's initial judgment of receiving the sword was wrong. He thought that he had some leeway and was confident that he could retreat unscathed. Little did he know that he had made a mistake and lost the entire match. Only when he received the sword did he realize that there was something strange about ye Xiao's sword qi.., even if he realized that something was wrong, the distance between the two parties was already too close. There was no way for him to borrow even the slightest bit of strength from the Sharp Golden Sword Qi. When faced with ye Xiao's follow-up move of the purple extreme sword.., there was no way he could use his hasty movements to pull apart the distance?

Millions of Sword Qi arrived in an endless stream, targeting Lu Buyi.

Lu Buyi tried his best to fly back while brandishing his sword. A sword appeared in his originally empty left hand as he tried his best to block the dense and monstrous sword qi.

However, ye Xiao's purple extreme famous sword move, which was activated by the sharp golden sword qi, not only contained the purple extreme famous sword's magical technique, but also had the characteristic of being indestructible. As the two sides continued to fight, this characteristic could be said to be fully displayed, incisive!

Lu Buyi's dual-sword defense only lasted for a short while before the sword in his hand broke. With one sword missing, the originally dense defense line was immediately exposed. His body trembled and a bloody scar had long appeared on his shoulder.

Lu Buyi was naturally not willing to sit still and wait for death. He continuously took out his treasured sword and continuously reorganized the defense line, hoping for the moment when the opponent's attack ended. However, the boundless sword Qi released by ye Xiao was actually endless and endless.

"The 7356th Sword Qi!"

Up until now, Lu Buyi had already lost more than 700 long swords!

This grandmaster of the sword collecting world, who was known as the number one sword collector in Beyond Avalon, was unable to take out any weapon that could withstand an attack.

However, ye Xiao's dense sword Qi continued to come one after another, exterminating everything in its path!

With a roar, Lu Buyi's entire body began to spin rapidly, and a powerful tornado was formed in an instant!

It had to be said that Lu Buyi was still very methodical in responding to the situation. Not only did he form a 360-degree wind wall with no blind spots to protect himself, but he also had more time to deal with it, as long as Lu Buyi had enough spiritual power to maintain this wind wall, he could continue to dissolve the boundless sword qi!

Unfortunately, the following changes were still beyond Lu Buyi's expectations. The tornado wind wall that Lu Buyi had built with all his cultivation had no effect on the wind wall that was supposed to be able to dissolve the boundless sword qi, the boundless sword Qi seemed to be completely unaffected. Qi Qi, who was like a hundred rivers converging into the sea, entered the tornado wind wall.

In the next moment, a world-shaking scream rang out!

Under everyone's dumbfounded and incredulous gazes, Lu Buyi's figure, who was originally blocked by the thick wind wall, appeared once again in the air.

However, the millions of people were completely silent, dumbstruck.

This was because Lu Buyi, who was in the air, was like a worn-out old sack. Blood was spurting out from every part of his body.

From the top of his head to the soles of his feet, his entire body was covered in cuts and bruises. There were hundreds of wounds that were bleeding profusely. The blood was like streams of blood-colored spring water, splattering all over the sky.

However, Lu Buyi did not fall down.

He was still standing!

Although he was covered in wounds and could no longer fight, he could not continue.

However, he still stood firmly in the air, his eyes glaring fiercely at ye Xiao.

Ye Xiao had made a three-sword bet. Lu Buyi could be said to have received the first strike, but it could also be said that he had not received the first strike.

Chapter 1947: Had Fallen Into A Trap!

Now that the Sword Qi was gone and Lu Buyi was still alive, it could be considered as the !

As for the , it was because Lu Buyi had already reached his limit. It was nice to say that he was at the end of his rope, but at the end of his rope, there was still a force left. Lu Buyi had already completely exhausted the air, the reason why he could still remain in mid-air at this moment was because ye Xiao's

purple extreme famed sword had ended. It no longer absorbed the surrounding spiritual energy, and the heaven and Earth Yuan Qi quickly recovered. Only then was Lu buyi able to barely stay.

In other words, at this moment, not to mention a sword strike from someone like ye Xiao, even if it was worth a saint origin realm or even a divine origin mirror cultivator's strike, Lu Buyi would not be able to take it.

A veteran super expert that had stood tall for hundreds of thousands of years was actually in such a predicament? !

Everyone on the battlefield was well aware of this point, but they did not dare to believe it.

Ye Xiao nodded, he said indifferently, "Lu Buyi is indeed worthy of being a pillar of the southern sky. His cultivation is indeed exquisite. He was actually able to receive my first strike. Just this strike alone is enough to prove that commander Lu's cultivation is one level higher than that of the Dean Chang Kong. He is worthy of my invitation to strike three times! "Pay attention. Next is the second sword attack. "Receive the attack. The purple atmosphere is filling the sky!"

As the sword light flashed, a dense purple mist instantly took shape on the quivering tip of the sword. In an instant, the sky and the earth were filled with purple!

As soon as the attack was launched, the sky and the Earth were filled with purple. All the people in the boundless sea territory could see was a thick purple mist. It seemed that they were all wearing purple robes regardless of whether they were friends or foes.

The Sword Qi formed by the Purple Qi filled the heaven and earth, circling and whistling above the entire boundless sea.

The Spiritual Qi that had just recovered within a ten thousand li radius was once again swept away!

Everyone could feel that the power contained in this sword move was far greater than the first sword move.

A trace of sincere despair flashed across Lu Buyi's eyes.

This sword move, he actually couldn't receive it no matter what.

Although Lu Buyi knew that ye Xiao had the record of killing the dean, and also knew that ye Xiao's speed of advancement was extremely fast, and that he was currently able to become one of the top experts in the world, but where was ye Xiao's true age? No matter how fast his advancement was.., there should be a limit to his cultivation. Just based on that move just now, an ordinary top expert might not be able to display such shocking power even if they used their entire lifetime of cultivation, lu Buyi was hugging ye Xiao, or perhaps he was the same as Lu Buyi. They were both at the end of their tether and had used up all their energy in the air. Only then did Lu Buyi manage to stabilize his body and wait for ye Xiao to move. In reality, Lu Buyi was betting that ye Xiao would not be able to unleash another sword!

However, it was obvious that Lu Buyi had lost the bet. Not only did ye Xiao unleash a second sword, the power of this second sword seemed to be even greater than the first sword. Furthermore... This was ye Xiao's second sword.

Even if he could still deal with it, he could still barely deal with it. What about the third strike? ! How could he deal with the final third strike? !

If he couldn't deal with it, would he retreat? Would he flee?

But how could he retreat?

As the commander of the Southern Sky Army, he had accepted the three-strike battle promise of the other party. Now that he was halfway through the battle and had abandoned the battle to flee, putting aside his own face, he believed that as long as he fled.., the entire southern sky army would immediately collapse!

The second sword strike had put the number one person in the southern sky army in a dilemma. If he advanced, he would definitely die, but if he retreated... he would also die? !

The Seven Golden Lotuses and the super experts of the Ye family watched this scene from afar.

Guan Shanyao's face was a little pale as he said, "Lu Buyi is finished..."

Qin menghun sighed faintly, "Can Lu Buyi still submit? !"

The expressions of the others also darkened as they shook their heads.

That was something that was absolutely impossible to happen.

Not to mention that Lu Buyi was loyal to the southern Sky Heavenly Emperor and held a high position in the southern sky, just this person's character was definitely not a person who would surrender.

"It's a pity that there's one less good man in this world."Guan Shanyao sighed.

Yue you smiled faintly and turned her eyes to look at the people below, she said faintly, "In the borderless sea, at least a billion lives have been lost in the past few months alone. Big Brother, guess how many good men are there among these people? "If you really want to Sigh, I'm afraid that Big Brother doesn't have to do anything else for the rest of his life!"

..

A hoarse shout suddenly came from the sky, "Ye Xiao! Send out your second sword!"

It was Lu Buyi's full-powered roar.

Ye Xiao's gaze was calm and indifferent. With a move of his long sword, the purple atmosphere in the sky was about to move..

"Stop!"

With a shout, a figure streaked across the sky like a meteor and arrived in a flash.

The person had a thin face, a deep gaze, a crown on his head, and a bright yellow robe. It was the Great Emperor of the South Heaven, Long Yutian!

The Great Emperor of the South Heaven, who was originally at the back, rushed over as fast as he could after hearing about this battle. He was able to save Lu Buyi's life in time.

“Monarch Ye.” Long Yutian’s falcon-like eyes looked at Ye Xiao and said in a deep voice, “I thought there was no need to continue this three-sword bet.”

Monarch Ye Xiao’s sword flashed in the sky, and the purple atmosphere filled the sky like a hundred rivers converging into the sea. In an instant, all of it converged into the monarch sword and disappeared without a trace. Only then did he chuckle lightly and said, “The reason why I made this bet was because of the Dragon Emperor. Now that the Emperor has arrived, the three-sword bet is no longer of any importance. Naturally, I can drop it.”

Long Yutian’s pupils constricted and he said, “Oh?”

Ye Xiaozhi’s words clearly contained both positive and negative meanings. Inviting people by invitation was not only Lu Buyi, but also the southern sky emperor, Long Yutian himself. And now that Long Yutian was about to arrive., it naturally did not matter how Lu Buyi acted!

This also meant that even Lu Buyi, the most important minister of the southern sky, an old super powerhouse, was no longer in Ye Xiaozhi’s eyes. It was imaginable how big the ambitions of this monarch Ye were!

Ye Xiao’s chuckle did not diminish in the slightest, he said in a harmonious voice, “From the very beginning, I believed that Emperor Long would definitely not sit idly by and watch his capable subordinate be killed by my sword. He would definitely appear. Therefore, the fundamental purpose of my three-sword invitation was to wait for the emperor to appear. “Now, the Emperor has indeed not disappointed me, nor has he disappointed Marshal Lu.”

Long Yutian said coldly, “So what if I don’t appear?”

Ye Xiao said casually, “It’s nothing. The target of the three swords invitation is the emperor, but it’s also commander Lu. If the emperor isn’t here yet, then the person who came to my invitation is naturally another person. What’s the point? !”

Long Yutian took a deep breath, and his eyes flashed with hatred. He said, “Monarch Ye, you’re so scheming, yet you’re so eager to see me. I wonder what’s so important.”

Ye Xiao said indifferently, “Nothing important. I just have a few unpleasant truths to tell the Emperor.”

He paused for a moment, then suddenly pointed at the boundless sea beneath his feet and said with a smile, “In fact, perhaps you have already seen through what I’m about to say. If this battle continues, Nantian will definitely lose!”

Long Yutian was furious, he said mockingly, “Monarch Ye, you are very scheming and unpredictable. This unexpected confidence is also unexpected. “Right now, our army of Nantian has six billion troops and is pressing on the border. As for your monarch pavilion, your entire family can only have three to five hundred million troops at most! “With the difference in military strength between the two sides, even if you say that you are overestimating your own strength, I’m afraid that you are overestimating your monarch pavilion. Yet, Monarch Ye is still spouting nonsense at this moment, saying that our six billion troops will definitely lose. Doesn’t that make people’s teeth turn cold?”

Ye Xiao laughed, “Emperor Dragon, why do you have to understand what people are saying? The so-called number of people... does it really mean anything? If Emperor Dragon insists on using the number

of people to determine the winner and loser, why not say that when our sovereign pavilion first joined the war, we only had a total of 7,000 people! And the total military strength of the Southern Sky Army is more than seven billion!”

“And now, the number of soldiers of the sovereign pavilion has already... well, even if it’s the three to five hundred million that the Emperor said, the total military strength of the Southern Sky Army is only six billion.” Ye Xiao smiled, “The current war has only lasted for half a year.”

“If it’s another half a year, I wonder how many people the Pavilion of Lords will have? And on Your Majesty’s side, how many soldiers will be left? Someone as wise as the Great Emperor Dragon, you still insist on saying that I’m lying and boasting shamelessly? !”

Ye Xiao’s words caused everyone on the battlefield to feel a chill in their hearts.

Even the Great Emperor of the southern sky, Royal Dragon himself, was shocked.

That’s right, when the monarch pavilion had just joined the battle, there were only 7,000 people.

However, after this period of intense battle, the number of people had rapidly expanded, becoming hundreds of millions of people today!

Just in terms of the number of people, it had expanded by more than a hundred times?

This rate of expansion... If it continued?

“Although my monarch pavilion doesn’t have many people, but... I’m a place that carries the fate of Heaven and Earth, a place that possesses the fate of the Dao of Heaven and Earth!” Ye Xiao saw Royal Dragon’s disdainful expression, he laughed and said, “Judging from His Majesty’s attitude, I’m sure he doesn’t care about my boasting and boasting. However, facts speak louder than words. I’m only talking about one benefit of my pavilion. No matter who joins my monarch’s pavilion, as long as he receives the recognition of my twelve halls, his cultivation speed will be hundreds of times faster than his original cultivation speed!”

“What an absurd statement, isn’t it? “However, this is the truth. With the intelligence systems of the heavens, I believe that they have already gathered countless pieces of intelligence on our pavilion. I’m afraid that the lives of the upper echelons of our pavilion have already been thoroughly investigated. Before they joined the sovereign pavilion, before they became the upper echelons of our pavilion, I believe that they have a good idea of what level they are at. If they want to reach their current level of strength, what kind of cultivation atmosphere do they need to cultivate in order to achieve it? As long as the two are compared, His Majesty the Dragon Emperor will definitely understand!”

As soon as ye Xiao said that, everyone saw the expression of the great emperor of South Heaven, Long Yutian, suddenly change. Although he immediately returned to normal, this change in expression undoubtedly confirmed what ye Xiao said just now!

The hearts of the people of South Heaven immediately boiled. So there was actually such a benefit to being a subordinate of the sovereign pavilion?

That’s right, if it wasn’t for this, how could those old rivals who always dealt with US be able to improve their cultivation by leaps and bounds in such a short period of time? It turned out that other than the

life-saving spirit pills, there were countless other people under the sovereign pavilion! There was actually such a super trump card hidden behind the scenes? !

Help! Just the protection of the spirit pills alone was enough to make us lose all fighting spirit. There was actually such a method of cheating in cultivation, how could we still do this!

“The improvement of cultivation is the number one priority for US cultivators on the path of cultivation. However, this isn’t the only advantage that this pavilion has. Other than cultivation, the most important thing for cultivators is their own safety. No matter how high their cultivation is, once they become impermanence, it’s just a pie in the sky. However, as long as they are under the command of my monarch pavilion, the safety factor of their own life will increase by a hundredfold or a thousandfold. This is because the most famous symbol of the monarch pavilion is the hall of life and death. If they die, they won’t die. If they die, they will live! “My pavilion has countless elixirs and elixirs. The so-called pill cloud divine pill that can bring the dead back to life is like the sand in the ocean to me. There are countless of them. “As long as everyone under my command is not killed on the spot, I can bring them back to life.”

“I believe this to be true. Many of the southern sky soldiers have the most right to speak!”

The southern sky soldiers’ expressions became even more unsightly. We don’t only have the right to speak, we are even envious and jealous of this benefit, okay?

Relying on the strategy of using the elixir of life and death to bully others is the basic strategy of your monarch’s pavilion, isn’t it!

“This lord almost forgot that other than the most basic recovery elixirs, my pavilion still has many elixirs that can raise the cultivation body and cultivation level, as well as loads and loads of sand from the Ganges river. After all, relying on the atmosphere of abnormally abundant spiritual energy to cultivate is biased, and only with the help of elixirs can the cultivation efficiency be the highest!”

Ye Xiao was calm and composed as he said with a faint smile, “Your Majesty, if you ask me, the monarch pavilion has such unique conditions. With such conditions, it shouldn’t be difficult for us to continue expanding the army, right?”

Emperor Southern Heaven’s face turned completely black. He couldn’t even maintain his calm appearance.

If he still didn’t know that he had been tricked and fell into ye Xiao’s trap, then he would have been one of the five heavenly emperors for hundreds of thousands of years in vain!

Chapter 1948: Recruiting Him Face-to-face

Royal Dragon was extremely depressed.

So, ye Xiao had used the bet of three swords to lure him out with Lu Buyi’s life and death. He actually had such an ultimate goal!

And he, on the other hand, had foolishly fallen into the trap of being used as a prop for his greatest enemy.

Ye Xiao laughed loudly, he said word by word, "The number of people that our sovereign pavilion truly needs does not need to be too many. The important thing is to have quality and not quantity. My subordinates can cultivate at a speed that is a hundred times faster than ordinary people at any time and place. They even have the sacred healing medicine that can revive their souls and extend their lives! With just a billion soldiers, it would be a piece of cake for them to wipe out the world!"

Long Yutian let out a long roar and shouted like thunder, "Ye Xiao!"

Ye Xiao completely ignored long Yutian's roar, he continued to shout sternly, "I, Ye Xiao, what my pavilion needs is talent! What it needs is a founding minister! What it needs is someone who has the ability to take charge on his own and release him to the four seas to become a monarch! Once the mortal world was settled, all the people in the pavilion of monarchs would be the subjects of the dragon, the Duke, and the Duke!"

"Do you understand? I want the elites, not the heads of the Feather Dusters!"

"I already have 500 million people, and I still lack 500 million people!"

"Once I exceed this limit, I don't want another person!"

"The army of the Sovereign Pavilion is a true immortal journey. If you join the Sovereign Pavilion, you don't have to worry about dying in battle anymore! You Don't have to worry about the bumpy path of cultivation anymore! You especially don't have to worry about your future being bleak! As long as you join the Sovereign Pavilion, you don't have to worry about anything anymore!"

"If you come early, there's still a place for you in the Sovereign Pavilion!"

"If you come late, I will not accept you, even if you are the heavenly emperor of a generation

"I hereby promise that one billion sovereigns and one billion lives will not be taken by the nether world!"

Ye Xiao's thunderous shout shocked the boundless sea and beyond heavens!

The entire boundless sea fell into an unprecedented silence at this moment!

Even Ye Hongchen and the seven golden lotuses were dumbstruck, speechless, and speechless for a long time!

No one would have thought that ye Xiao's actions would actually be so unbridled. The so-called audacity was not even enough to describe his actions!

Using the three sword wager to lure the Southern Sky Emperor Long Yutian out with the orders of the commander-in-chief was already a very strange method. However, his ultimate goal was to advertise himself in front of the Heavenly Emperor!

Openly and openly in front of the southern sky emperor, he did not hide anything from his men and openly lured them out!

Such an act could no longer be described as audacious and audacious. It was completely deranged. It was so real that it made one's hair stand on end. There was no need to tolerate it anymore!

The southern sky emperor's nose was crooked from anger!

To be fair, Long Yutian had already realized ye Xiao's intentions before ye Xiao said those words. However, he could not do anything to stop ye Xiao's actions!

Everything that ye Xiao said was the truth. The heavenly emperor of Long Yutian's generation could not deny it with his conscience. In fact, even if long Yutian did not care about his face and denied it., what was the point of stopping ye Xiao? These matters had been settled in the hearts of the soldiers of both sides for a long time. They just lacked a suitable time to detonate it!

"Ye Xiao! You are truly shameless to the extreme!" Long Yutian's graceful face was already completely livid. His killing intent was completely unconcealed as it surged out. A fierce light flashed in his eyes as he locked onto ye Xiao.

Ye xiao retorted loudly, "I'm Shameless? !"? Long Yutian, even if you are one of the five heavenly monarchs and follow the law of words, you can't just randomly label an outsider like me, right? ! "I'll only ask you one question. Just say that you are in the southern sky realm. For so many years, other than the already established high official positions, how many other people have the chance to be promoted to nobility?"

"How many people have talent but don't have the opportunity?"

"And how many people have the ability and strength but don't have the opportunity to show their ambition? !"

"You have indulged your old subordinates for more than 100,000 years. How can the people below have the opportunity to stand out?"

"Now, I have given everyone hope and opportunity. What's wrong with that?"

"All of you are old and yet not dying. You are occupying the latrine pit and not taking a shit. You have made all of the people down there unable to do anything for you. You are saying that I'm Shameless? How can there be such a thing in this world? !"

"Or perhaps... who is the shameless one? Who is blocking everyone's future? !"

Below, many of the people from the southern sky side lowered their heads quietly. Their eyes flickered and their thoughts were unfathomable.

It was obvious that ye Xiao's words had spoken to everyone's hearts.

That's right. Every old subordinate of the southern sky emperor was an old-fashioned expert. Their cultivation levels were extremely high. This also meant that each of them would live for tens of thousands of years and a hundred thousand years. It was just a trivial matter. With such a long-lived character blocking them., how could the people below have the chance to stand out?

Even if they had made a great contribution, those people had long occupied all the high positions in the Heavenly Court! A carrot and a pit!

Who could they replace?

Moreover, even if it was a great contribution, it could be compared to the contribution from the dragon at the beginning, as well as the deep friendship between them at the beginning!

When ye Xiao saw that the bewitchment was taking effect, he continued to stir up the hearts of the people. "In today's battle, if your South Heaven side wins in the end, then you will only go back to the old days, forever and ever. Your children and grandchildren will never have the chance to stand out

"But if you come to my side, you will be able to see a new world that you have never seen before

"The sovereign pavilion's goal, my own goal, has never been limited to the southern sky realm! My goal is the entire realm of the Beyond Heavens of the mortal world

"If the entire beyond heavens of the mortal world were to belong to the sovereign pavilion, how many vacancies would appear, and who would be the one to fill them?

"The answer to that question is obvious, so... want to make something of yourself and be the best? Come to me right away!"

"If you want to be a duke, a Duke, a duke,

"Don't think that 500 million is a lot! Waiting to be sold is not for the moment, the opportunity is fleeting!"

"I've already recruited 500 million men in the past six months! It's different from the sneaky recruitment back then. Now I'm completely open to it. A moment of hesitation and a moment of hesitation will only make you miss out on a good opportunity!"

"I hereby announce that from today onwards, from this moment onwards, I will recruit all the members of the Sovereign's pavilion to the world. I will not expand until the number of people is full!"

"I once again solemnly and clearly reiterate one point. Regardless of whether you have the ability or strength, if you are one step too late, there will be no place for you in My Pavilion!"

"One billion sovereign lords, ruler of Beyond Avalon!"

"I am ye Xiao! Laughing Sovereign ye Xiao!"

"This is my promise!"

"This is a good opportunity, I will not wait for it!"

Chapter 1949: Retreat Once You're Done Using It

Ye Xiao's voice shook the heavens and earth, resounding throughout the mortal world. The boundary of the boundless sea that spanned tens of thousands of miles below rumbled and reverberated because of his words. However, in the face of such a commotion, the people on both sides were dumbstruck, absolute Silence!

"Let's stop fighting for three days!"

Ye Xiao's last four words were, "I'll wait for You!"

After saying that, he laughed out loud. Purple Qi spread out from his longsword. With a swoosh, his entire person turned into a purple stream of light and rapidly disappeared in the sky, a loud laugh sounded from afar, "Your Majesty, Southern Heaven, are you finally unable to hold back and want to make a move? It's a pity that it's my turn this time and I don't have the time to accompany you!"

After saying that, ye Xiao's entire person had long disappeared without a trace.

The only thing that remained in mid-air was Emperor Nan Tian. He was so angry that his face turned green, and the flames of anger that seeped out of his body almost burned the heavens and earth!

Long Yutian was lured out by ye Xiao, but in the end, he only cooperated with the other party to make an !

Moreover, it was... an to help the other party poach his corner!

Yet, there was nothing he could do about it.

Even the thought of capturing the other party to vent his anger had turned into something impossible.

Then what was his trip?

Was he going to stand in the air and be punished?

Was he going to watch the other party give an impassioned speech? Was he going to scold him and poach him?

Then... Then there was no then?

Southern Sky Emperor Long Yutian was so angry that his stomach was about to explode. If his stomach really could explode!

How could there be someone like ye Xiao in this world? !

Did he dare to disregard his face and not be a little bit shameless? How could he, a mighty hero of a region, suddenly rebel and openly poach people? !

Ye Hongchen, seven Golden Lotus, and the others, who were also focusing their attention on this side, were also dumbfounded. Anyone would think that after ye Xiao finished speaking, he would naturally fight with Emperor Nan Tian.

Everyone was already prepared to watch this world-shaking battle.

In fact, Ye Hongchen was even prepared to intervene and save ye Xiao before his defeat was completely exposed. He might even try to kill Long Yutian..

However, no one would have thought that ye Xiao would go through so much trouble to invite him with three swords. After tormenting Long Yutian, he actually spread the word about the monarch's pavilion without any integrity. Then, he left him alone in the sky and escaped..

Where was the integrity that belonged to the strong?

Where was the log-off that belonged to the hero of a region? !

“Ye Xiao!” Southern Sky’s Emperor Long Yutian roared in the air as if he was vomiting blood, “Where’s your face? !”

Ye Xiao’s voice came from afar. “I didn’t expect South Heaven’s great emperor to be a fool. Of course, my face is on my head...”

Long Yutian roared and the sky above him suddenly shattered. He roared furiously, “Ye Xiao, come out and fight with me!”

Ye Xiao’s voice came from afar again, “The southern Emperor thinks too highly of me... with my shallow cultivation, I can only bully commander Lu. How would I dare to go against your Majesty, the Southern Emperor? The reason I invited you out is to let you witness this wave of my ... Now that the target has been achieved, it’s pointless to use knives and spears. It’s a waste of time and effort... Your Majesty, the Southern Emperor, I really don’t dare to steal your limelight. I’ll let you stay in the air alone and accept the admiration of the billions of soldiers from both sides. This way, everyone will be considered to have gained something. I Can’t let you come here in vain, right?” “!”

Long Yutian let out an angry roar as his face turned purple. Suddenly, he cried out, “Ye Xiao, since you are afraid to fight, don’t blame me for being merciless!”

After he spoke, he suddenly spread his arms and gathered all the wind and clouds in between his arms. Immediately, he wildly charged towards the sovereign pavilion.

Emperor nan Tian was clearly really angry. Otherwise, given his status and the fact that the person in charge of the sovereign pavilion was not present, Long Yutian should not have made a move at this moment.

Following Royal Dragon’s actions, a violent wind rose in the sky. The storm of thunder clouds that filled the sky rushed down.

Everyone who saw this scene was shocked. The celestial emperor truly lived up to his reputation! He was indeed an expert at the pinnacle of this world!

This kind of power that could destroy the heavens and earth could be gathered at will and formed with a thought!

If this destructive attack really landed on the pavilion, even if there were countless experts defending together, the shockwave would definitely cause a huge number of casualties!

How could the Heaven Empyrean’s extreme anger attack be a small matter?

At this critical moment, a voice leisurely said, “Brother Long, why are you still so impulsive despite being so old? Is it worth it to make such a big move...”

Following this voice, a jade-green leaf appeared in the air as if it was floating in the air. Following that, it rapidly transformed into jade waves that filled the sky! It was like a tidal wave that surged up one after another. The blue wave rippled endlessly!

It was also this blue wave that lifted up the furious attack of the southern sky emperor.

Block it!

Another tall and handsome figure quietly appeared in the sky. This person was elegant and refined. Three strands of green beard floated in front of his chest. He stood with his hands behind his back. His eyes were filled with a carefree and carefree look.

Beside that person, there was a golden-clothed youth who stood proudly. There was also a white-clothed beauty who smiled sweetly. She was peerlessly beautiful and had a myriad of bearing.

Ye Hongchen!

This Mister Ye who stirred up the winds and clouds in the world and stirred up the mortal world was finally born!

His eyes were filled with warmth and kindness as he looked at Long Yutian. He looked at the furious southern sky emperor without the slightest change.

However, everyone felt as though a huge mountain was pressing down on their hearts. It was as though they were unable to breathe.

Everyone knew that since Mister Ye had appeared, he had officially intervened. If the southern sky emperor was still unwilling to give up, the first thing he had to break through was Mister Ye's interception!

At this moment, Mister Ye had already become a high wall between the southern sky emperor and the Monarch Pavilion's army. It was difficult to cross!

Furthermore, the current situation was extremely disadvantageous to South Heaven. On South Heaven's higher-ups'side, Lu Buyi was heavily injured and unable to continue fighting. The others were clearly not here. Looking at Mister Ye's side., the golden dragons and white phoenixes by his side could all be ranked among the peak experts. They were terrifying existences that were not inferior to the heavenly emperor of a generation!

There were also seven golden lotuses and twelve other experts. They were all peak experts.

Faced with such a lineup, if they really fought, it was inevitable that the southern sky emperor would suffer a great loss. There was even a high chance that he would die here!

This was something that anyone could see.

Ever since the western Sky Emperor, Meng Tianluo, died at the hands of Ye Hongchen, the legend of the Five Heavenly Emperors being immortal had come to an end. Although the southern sky emperor was also one of the five heavenly emperors, if the opponent was really too strong., he would still die and perish!

It was at this point that the southern heavenly emperor's indomitable aura was instantly suppressed!

However, his eyes that were about to explode from anger locked onto ye Hongchen and he shouted angrily, "Ye Hongchen, are you intervening now to fight to the death with me today?"

Chapter 1950: Countless Defections [Supplement 14-4]

Ye Hongchen said indifferently, "If you insist on taking action against the Sovereign Pavilion, I don't mind bringing forward our final battle. Actually, today is a rare opportunity for me. Based on the current situation, letting you die here might not be too difficult!"

"Hahaha..." Long Yuantian was furious. "Kill me? You, Ye Hongchen, can you do that? Do you think I'm the half-dead Dreamsky Luo?!"

Ye Hongchen said lightly, "I don't mind you trying to talk me out of it." He looked up and smiled. "I'm serious. I'm more than happy for you to try. "I'll let you experience for yourself if I can only kill Meng Tianluo in his incomplete state, but I can't kill you, Long Yutian!"

"Your Majesty!"

Lu Buyi, who had been saved by Emperor Nan Tian, was seriously injured. He didn't get much better even after taking the life-saving panaceas, especially when he used the wind wall to resist ye Xiaozi's purple extreme sword. Many streams of Purple Qi came from the east from his body, although he did not die for a moment, the sword Qi had already been hidden in his body and was gradually erupting. Therefore, even though Lu Buyi had repeatedly circulated his cultivation method to heal his injuries, he had only recovered a little bit of his vitality. Originally, in his current state..., exhaling and speaking was an extremely taboo. It was as if he was seeking his own death. However, the situation was critical now, so Lu Buyi did not have any more scruples. He said anxiously, "Your Majesty! You Can't..."

"Your Majesty... Our Everlasting Foundation, Your Majesty, the Supreme Wancheng..." Lu Buyi panted and said hurriedly, "Why do you have to lower yourself to the level of bandits like this? By lowering your status, you're making people laugh at you!"

"Your Majesty, with the might of heaven, if you win, you won't be able to fight. If you don't win, you'll be laughed at..." Lu Buyi choked and coughed.

"HMPH!" Long Yutian looked at Ye Hongchen, his eyes flickering.

Ye Hongchen smiled faintly, "General Lu has set up such a good excuse for Your Majesty, aren't you going to hurry down?"

Beside him, the golden-robed young man laughed loudly, "Big Brother, you keep telling me to use my face as a cushion, I still don't understand. At this moment, I'm suddenly enlightened, I completely understand!"

"Ye Hongchen, there will come a day when you and all your followers will all die under my hands!" Long Yutian shouted angrily, turned around and slowly left.

Emperor nan Tian did not leave quickly, but ye Hongchen did not chase after him.

To Ye Hongchen, this battle was a battle between ye Xiao and Emperor Nan Tian. He had already reached his limit by intervening until now. For this reason, he would rather miss the opportunity to kill Emperor Nan Tian, Long Yutian!

On the other side, the upper echelons of nan Tian swarmed over like dark clouds. They were obviously here to support Emperor Nantian.

The reason why this was a good opportunity was because of the fleeting opportunity. If one could not grasp it, it would disappear in the blink of an eye. If ye Hongchen had attacked forcefully just now, or even joined forces with the Seven Golden Lotuses, Golden Dragons, and white phoenixes., it was very likely that he would be able to kill the lonely and unstable long Yutian on the spot in a snap of his fingers. Now that the upper echelons of nantian had arrived, the overall difference in strength between the two sides had been eliminated. Ye Hongchen had not made a move just now, so he would not make a move now!

The entire battlefield remained as silent as before. One could hear a pin drop.

However, everyone could feel that the southern sky emperor had lost a great deal of face this time. He had suffered a huge loss!

Furthermore, he had suffered an extremely grievous loss!

Even though the southern sky empire had sent out their troops in the end, and their experts were as numerous as the clouds. They had triumphantly escorted the emperor away, but in the end, they could not hide the fact that they had been tricked by ye Xiaoxiao.

He couldn't even hide the fact that he had been suppressed by Ye Hongchen!

Nan Tian's reputation had been completely destroyed!

Pu!

Long Yutian, who had just returned to the temporary hall, suddenly spat out a mouthful of blood before he could stabilize his footing. He panted for a moment, he said word by word, "Ye Hongchen! Ye Xiaoxiao! Your ye family... has gone too far! I, Long Yutian, will not rest until you die! Even if I have to use all of Nan Tian's strength, I will avenge this humiliation!"

All the officials turned pale with fright when they saw this, "Your Majesty!"

Long Yutian snorted, and his manic expression gradually returned to calmness. With a gulp, he swallowed another mouthful of fresh blood that was about to come out of his mouth and took a deep breath, he said, "Prepare the entire army for war! If anyone is found to have left the team without permission, kill him without mercy!"

Those who had left the team without permission.

At a time like this, after ye Xiao placed that , those who leave the army without permission only represented one thing: Deserters!

Furthermore, they were the kind of people who would defect to the enemy's camp!

Long Yutian admitted that ye Xiao's words were extremely provocative!

There would definitely be people who would defect, even if the number of deserters would not be many.

However, as long as such a situation occurred, it would shake the morale of the army!

Once the morale of the army was shaken, the prospects of this battle would be really worrying.

..

Royal Dragon's estimation was not bad.

There were indeed people who defected.

However, his estimation was wrong again.

He estimated that there would not be many people who defected. It was worth a small number.

However, in reality, there were too many people who defected. It was so many that it made people panic. It made people... terrified!

Night fell.

It was pitch black.

One couldn't even see their own fingers.

The people from the sovereign pavilion were ready to receive them in the darkness.

Tonight was the first night of officially welcoming the returning people. Regardless of whether they were sincere or fake, they had to do everything they could!

The people from South Heaven were also ready to kill in the darkness.

When some rustling sounds gradually sounded, when the clear sound of clothes tearing through the air could be heard, there was finally movement. When Sneaky Shadows appeared one after another..

Both sides began to move at the same time!

"Kill!"

A sudden roar resounded through the night sky, and it officially began this night that was destined to be no longer peaceful.

In an instant, the originally dark night sky became daytime!

The law enforcement team from the southern sky side almost killed until their hands went soft.

In front of them..,

the number of heads rolling down had already reached tens of thousands!

However, the number of defectors still increased without any decrease.

The method of killing one to warn the others that had always worked was surprisingly ineffective. Even though they knew the current situation of the defectors' deaths, the defectors were still like the ministers of the river, fleeing one after another!

"Why! Why do you want to Kill Us!"

"There is no hope for us to stay in South Heaven after learning the arts and the royal family. Why are you not letting us go?"

“We have seen where the future lies. Why are you not letting US go there! ?”

“People share the same heart and the same principle! Who doesn’t want to be blessed with a wife, a lovely child, and a life of wealth and honor? Who doesn’t want to live a life of luxury and luxury for tens of thousands of generations? Who doesn’t want to find a good family background for their children and grandchildren? But is it possible in South Heaven?”

“Why are you so unreasonable? You must kill us!”

“The great future lies on the other shore!”
