

Firmament 1951

Chapter 1951: War!

On the other side.

The 3,000 eternal realm experts of the sovereign pavilion all moved at the same time. "Brothers, Charge!"

"Who dares to kill those who come to our sovereign pavilion!"

"Since they are here, they must be our brothers from the Sovereign Pavilion. Those who harm our brothers will not rest until one of them dies!"

"Brothers, Charge!"

In the dark night, this chaotic battle was earth-shattering.

The huge fire that had just been ignited was instantly extinguished!

In the dark night, there were only blade lights, sword lights, and blood lights..

"Brothers come, Enemies Go!"

These words were undoubtedly most suitable for the two camps that were currently fighting!

Countless people rushed out and started a huge battle!

This battle actually started on the night that ye Xiao gave his promise!

However, after the battle had started, it was impossible to tell who was the traitor and who was one of their own.

Some of the people who were fighting with the enemy had no idea what was said, but suddenly, a group of people were captured. The cultivation level of the captives was clearly much higher than the enemy, yet they were defeated in the blink of an eye. Then... the group of captives obediently followed the people in the sovereign pavilion and retreated, there was no need for any forbidden techniques such as binding, shackling, sealing of meridians, blocking of air, and so on. Since I was defeated, I naturally had to accept my fate and go to the sovereign pavilion as a captive!

As the war continued, the reinforcements from the sovereign pavilion continued to block the front lines. They came from the Southern Sky Army, and there were too many of them. They were like swimming fish as they swiftly broke through the defensive line of the Sovereign Pavilion and arrived at the back of the Sovereign Pavilion.

Originally, if they really "Charged" through the defensive line of the Pavilion of Lords, it would be a good thing for the Southern Sky Army. However, they did not really "Charge"... instead of saying "Charge" .., it was more appropriate to say "Drill". Yes, to drill through..

The battle continued, and everyone gritted their teeth. However, the battle situation was not very explosive, and there were not many casualties on both sides. They basically held their weapons and shouted. After shouting for a while, many people unknowingly disappeared..

That night..

It was a catastrophe for the Southern Sky Army camp.

They continued to kill their own people, continuously enforce the law, and continuously..

But in the end, even a portion of the law enforcement team's manpower ran over as well.

As for the pavilion of the monarch, it was filled with people overnight!

It was not just the people from the southern sky side. Even the manpower from the other worlds also took advantage of the night to seek refuge.

After all, ye Xiao's call affected tens of thousands of miles of the boundless sea. It was not strange for the people from the eastern sky, the northern sky, and even the glazed sky to hear it. Of course, the glazed sky was full of demons, it was also the only side in the heavens that had not come to seek refuge!

It was also during this night that more than half of the 500,000 soldiers and horses closest to the center of the battlefield disappeared! Along with the soldiers and horses in charge of guarding the flanks, there were also hundreds of thousands of people missing..

It was daybreak!

The monarch's pavilion was leisurely burying pots and cooking rice. Smoke rose from the pots, and it looked very relaxed.

In truth, who could participate in this unification battle? Everyone had their own spatial equipment, storing large amounts of food, water, pills, weapons, and other natural treasures..

The so-called "Burying the pot to make rice" was just an adjective.

But now, they were using this adjective to put on an act. This made the upper echelons of the southern sky army who saw this scene so angry that their stomachs were about to burst!

The other side was having a lively breakfast, and when they looked at their own side, two-thirds of the camp was empty!

They were so angry that they were full. How could they still have the mood to eat.

"Your Majesty... the loss of troops is serious... This is my negligence, Please Punish Me, Your Majesty!" When he reported to Emperor Nantian, the law enforcer's face was full of shame, and his heart was nervous.

"Loss is serious? How serious is it?" Royal Dragon's heart jumped.

The southern Emperor had long expected the loss of troops. After yesterday's incident, it would be unreasonable if there were no defections, but Royal Dragon felt that he treated his soldiers well, at the same time, he also believed that the law enforcers under him would definitely be able to restrain the defections under the double restrictions of coercion and inducement!

However, he was surprised to hear a serious report about the loss. If hundreds, thousands, or even thousands of people were to be lost, the law enforcers might not even report it. After yesterday's

incident, the loss of personnel had become a taboo in the southern sky army camp! Could it be that the number of people lost was really high, more than 10,000 people? !

“The frontline troops probably lost... about 60% ...”the law enforcer’s face was full of sweat. “Even my law enforcers... also... lost... 30% ...”

“Lost... 60% ? ! Lost? Lost 30% ?”The southern sky emperor’s eyes were as wide as bells, he could no longer maintain his calm demeanor, suddenly, he shouted like a thunderclap, “When someone else’s subordinate runs away, does that mean he’s lost? When your subordinate runs away, does that mean he’s lost? What a grand statement. He’s really my personal law enforcer!”

The law enforcer kowtowed as if he was pounding garlic, “Your subject deserves to die! Your subject shall die ten thousand deaths!”

“You deserve to die! You shall not be forgiven even if you die ten thousand deaths!”

Emperor nan Tian could not contain his anger. With a wave of his hand, he sent the law-enforcer flying tens of thousands of feet away, turning him into a pile of meat paste.

Everyone was silent in fear, not daring to speak.

Everyone knew that what happened last night was not because the law-enforcer did not do a good job, but because the content of his report was something that the Emperor could not accept!

“I don’t believe that the troops that I have been loyal to for so many years would betray us!”

“I don’t believe that my army, my soldiers, would abandon their homeland and join the enemy!”

“My Lords, follow me to the barracks to see what’s going on!”

The emperor suddenly stood up.

All the civil and military officials had solemn expressions as they followed the emperor into the air.

..

The Southern Front’s military camp was actually completely empty at this moment!

The ‘sixty percent loss’ reported by the law enforcer was already a discounted figure, because after royal dragon arrived, all he saw was... not a single hair on his body! The entire military camp was completely empty. The military flags were scattered on the ground, and there were traces of trampling all over the place..

Actually, this was not something that the law enforcer had hidden in his report. In fact, when the law enforcer left, almost one-third of the soldiers and horses were still there. However, with the law enforcer’s departure.., the Law Enforcer’s law enforcement force was reduced by a few percent. The more the sergeant thought about it, the more afraid he became, especially the middle-ranking officers. As long as they thought about the fact that 60-70% of their soldiers and horses had escaped, it would be difficult for them to settle down..

How could their subordinates escape in large numbers? When it came to the strict military laws, how could their crimes be so easy! ?

After thinking about it, the only conclusion was that waiting for death was the only way out. If they still wanted to live... the only way out was to simply go all out and escape together. That would be their only chance of survival..

Moreover, he was a middle-ranking member of the Southern Sky Army. If he went to the Pavilion of Lords, he might even be treated fairly well!

If this was the best way to survive or the best way to survive, why not leave? !

If the officer ran away, what would be left?

Everyone just swarmed over and surrendered in unison..

Therefore, after the arrival of the southern sky emperor, all they saw was an empty military camp..

“Where are they? !”Long Yutian’s eyes were about to pop out of their sockets!

He angrily waved his palm, and hundreds of tents flew up into the air. It was a mess inside, and there was almost everything except for people, there were even people who took a dump in the tents before they left... it seemed that there were quite a number of such people..

Yellow and white objects were everywhere, and it was a complete mess.

Emperor nan Tian was so angry that his entire body was trembling.

In his entire life, he had never suffered such humiliation as these two days!

The humiliation the day before came from ye Xiao and ye Hongchen. The former was hard to reach, while the latter was hard to reach. However, the source of today’s humiliation was his own soldiers, those small characters that he was not even worth mentioning in normal times, ants!

However, it was those ants that once again pushed the great humiliation onto his head. How could emperor Nan Tian endure it? !

Long Yutian grabbed the neck of vice commander Huang Wuchi and asked angrily, “Where are your soldiers? Tell me, where are they?”

Vice Commander Huang was dumbfounded. “Your Majesty... This...”

Actually, he really wanted to say something. “My Soldiers? Don’t you know, Your Majesty? The reality is right in front of your eyes. You can see it at a glance!”

However, he really couldn’t say this big truth. He didn’t dare to say it..

“Is this still a war?”The southern sky emperor looked at the military camp that was in a mess, but there was no one there. “Is this a war? Huang Wuzhi! Tell me! Is this a war?”

Vice Marshal Huang’s forehead was covered in sweat, and his face was pale. “Your Majesty... I . . . I . . . I . . . I . . . Deserve Ten thousand deaths...”

“Kill all of them!”Emperor Nan Tian was furious. “Exterminate all the traitors! Kill all of them without mercy!”

“Inform the entire army.” Emperor Nan Tian was silent for a moment before he finally said, “Tomorrow... We will fight to the death!”

“Nan Tian Ren, nan Tian Ming, nan Tian Hun, will you return after tomorrow?”

“Let’s see who wins and who loses tomorrow!”

After saying this, Emperor Nan Tian let out a long sigh.

Grand Tutor Fang Zhenyun and Prime Minister Su Mohun also let out a sigh in their hearts.

Tomorrow was not a good time for the final battle. His Majesty’s State of mind was unstable due to repeated setbacks, and there were hidden dangers. His battle strength was inevitably incomplete. Once he faced ye Hongchen, it would be difficult for him to win! However, His Majesty’s decision could be said to be the best choice under the current circumstances. As time dragged on, the effect of ye Xiao’s bewitching strategy would become greater and greater, and the number of people defecting would inevitably increase... it was likely that they would not even need to fight anymore.

Tomorrow was the final battle. Although the timing was rushed and it was difficult to be thorough. However... for the Southern Sky Army, it was already the best time. At the same time, it was also the moment when their combat strength was relatively stronger!

Early the next morning.

Emperor Southern Sky personally led the expedition and gathered all his strength to charge toward the monarch pavilion’s camp.

However, outside the battlefield, he was stopped by Ye Hongchen and his men.

“The decisive battle is set for three days later,” ye Hongchen announced unreasonably.

“Bullsh * T!”

Long Yutian roared in anger, his eyes turning red as he ordered, “Everyone, move out! Charge!”

The true final battle had begun!

The cries of dragons and phoenixes resounded throughout the sky, and the roars of experts shook the heavens.

Ye Xiao was currently checking the number of people. In just one night, the number of people who had defected and joined the Pavilion of Lords had already exceeded three million. This number was probably just the beginning, and the strength to return from now on would definitely be even greater!

However, while ye Xiao was still thinking about what to do next, he suddenly felt that the entire earth was shaken.

“Lord!”

The Scout came in a hurry to report, “Emperor South Heaven has initiated the decisive battle. Mister Ye has already led his men to take the lead!”

The decision of South Heaven to make the decisive battle was not expected even by South Heaven's headquarters. The other factions were even more difficult to predict. If not for ye Hongchen's super experts acting quickly and intercepting them forcefully., even if the pavilion was not defeated, it was inevitable that they would be at a disadvantage. Strictly speaking, the soldiers of the pavilion were all gathered because of benefits. It would be fine if they were in a favorable situation, but if they were in a disadvantageous situation., other than those who were determined to follow the old arrangements of the pavilion, the other people who joined later might not have too much loyalty!

Ye Xiao understood the stakes involved. He was shocked when he heard the newspaper, but he immediately ordered without hesitation, "All the eternal realm cultivators and above that belong to the pavilion immediately go to the battle and support the falling leaf with all their might!"

"The rest of you, reorganize your troops as quickly as possible. We must kill our way up to support him within the shortest time possible!"

Before he could finish his words, Ye Xiao had already charged out.

Chapter 1952: I Refuse To Accept This!

A Ray of purple light flashed in the air and disappeared!

By the time it shone again, it had already arrived in the middle of the battlefield.

"Soldiers of the southern sky side, listen carefully! Jufan has the intention to join our Lord Pavilion's camp. As long as he carries the head of a southern sky general, he can be used as a general in the Lord Pavilion!"

Ye Xiao's thunderous shout made long Yutian, who was currently fighting with Ye Hongchen, so angry that his mouth was crooked and his eyes slanted!

Now that both sides had begun the official decisive battle, this guy actually did not forget to recruit my men!

F * CK, was this the trend of recruiting people to the end? ! ? ?

Emperor nan Tian suddenly moved and continuously threw out hundreds of palm strikes as if he did not care about his own life. The power of the Dao was so tyrannical that even ye Hongchen had to temporarily avoid its peak. Taking advantage of this rare slight gap, Long Yutian hurriedly got up.

However, in a battle between experts, the difference between an instant and death was the difference between life and death. This was especially so when long Yutian's opponent was Ye Hongchen. The moment Long Yutian forcefully used his palm to fight for an opening and rose to his feet, he himself was also exposed, ye Hongchen was such a person. How could he let go of a good opportunity to heavily injure his opponent? He launched seven consecutive attacks and found an opening to enter.

Originally, with long Yutian's cultivation and strength, if he were to simply deal with these seven attacks, he would still have some leeway. At most, he would be forced into a disadvantageous position by Ye Hongchen. In fact, that was what Mister Ye's original intention was, however, at this moment, Emperor Nan Tian seemed to have gone mad. He allowed the seven attacks to hit him. Even though he was

injured from the impact, he wanted to use the momentum to increase his speed and directly charge towards ye Xiao!

Furthermore, at this moment, Emperor Nan Tian had completely gotten rid of Mister Ye Hongchen's entanglement!

"Ye Xiao!"

"Hand over your life!"

To the current Emperor Nan Tian, he did not even want to say a word.

In his heart, there was only one obsession: Kill ye Xiao!

As long as he killed ye Xiao, the so-called crisis would be immediately resolved!

The southern sky emperor's judgment could not be wrong.

Indeed, as long as he killed ye Xiao, most of the things would be gone... at the very least, the source of the crisis in front of him, as well as the grievance and depression that he had suffered during this period of time, would all be reduced to ashes.

The southern Sky Emperor had come all the way here. His momentum was matchless, and his extremely powerful force killed all the thousands of experts regardless of whether they were enemies or allies wherever he passed!

This was not done on purpose, but under the circumstances of the heavenly emperor risking his life to attack, the power of Heaven and earth was instinctively brought about!

Ye Xiao's pupils suddenly constricted.

With his current cultivation, he immediately judged that he actually had no way to dodge this move and could not not receive it.

Even if he could avoid it, this move would still land in the army of the sovereign pavilion behind him. The consequences would be disastrous!

With ye Xiao's character, he naturally would not allow his own people to be used as scapegoats for him. He suddenly gritted his teeth and cried out sternly, "Don't tell me that only you know how to fight with your life. Can't this seat fight with my life? ! ?"

The voice was still ringing in his ears, but ye Xiao stuffed the two pill cloud divine pills into his mouth. Following that, the sovereign sword appeared, and like a rainbow in the sky, he rose up to meet Long Yutian head-on.

Ye Xiao's counterattack at this moment was no small matter. He actually used the purple qi east arrival sword technique and the purple extreme famous sword head three moves, all of them in one go. At the same time, he also brought out the Golden Soul Pagoda that Ling Wuxie had given him that day.

In the past battles in the boundless sea, the Golden Soul Pagoda had already blocked too many attacks for ye Xiao. It was truly invincible and indestructible!

The Golden Soul Pagoda that Ling Wuxie had given him back then was indeed a first-class spiritual treasure. However, its outstanding characteristics were reflected in its high adaptability. Even if ye Xiao's cultivation level was as low as that day, he could still use it freely, if the power of the Golden Soul Pagoda had stopped at the very beginning, this treasure would not have been suitable for high-level cultivators in battles!

However, under the constant refinement of ye Xiao, who had fused countless precious natural treasures, gold, and strange iron, the Golden Soul Pagoda was also like the sovereign sword, transforming into an elegant numinous treasure that was not inferior to any protective magical treasure in the world!

The golden light shot up into the sky, looking extraordinary.

The sword light from Emperor Nan Tian was neither too fast nor too slow as it crashed into the Golden Soul Pagoda.

With a loud explosion, the Golden Soul Pagoda exploded on the spot.

The Golden Soul Pagoda, which had previously blocked the full-force attacks of many eternal realm experts without suffering any damage, did not last more than half a move under Emperor Nan Tian's attack. It was instantly shattered into pieces and no longer existed in the world!

The powerful explosive power that followed also cleared out the surrounding area of several thousand feet.

What a terrifying attack. This attack was actually unprecedentedly shocking. It was so terrifying that it made one's heart tremble and shudder in fear!

While the southern sky emperor destroyed the pagoda with his sword, his attack did not decline and became even more vigorous. His left sword and right palm met ye Xiao's sovereign sword.

The three moves of the purple extreme famous sword moved together and directly drained all of ye Xiao's spiritual power. Even the spiritual power in the endless space was also drained by a lot.

With ye Xiao's current cultivation level and the support of the endless space after many transformations, the power of these three moves were equally shocking and earth-shattering!

Boom.

The two of them faced each other in the air, facing each other head-on.

Ye Xiao spat out a mouthful of blood, and his body fell back rapidly like a kite with a broken string. He fell like a meteor.

On the other hand, Emperor South Heaven's body only swayed for a moment, and a dark red flashed across his face. Then, without any sign of slowing down, he chased after ye Xiao, intending to kill him.

Long Yutian was also heavily injured by this attack.

However, he took an extreme approach and used his life force to suppress his injuries. He wanted to kill ye Xiao first, even at the risk of endless sequelae in the future.

It was clear that he hated ye Xiao to the bone.

“Stay!”

Ye Hongchen’s sword flew over.

Ye Hongchen was extremely quick-witted. When he saw Long Yutian take his seven consecutive attacks without caring about anything else, how could he not know that Long Yutian was determined to kill ye Xiao? Yet, he used all his strength to block this sword attack. If Long Yutian dared to do it again.., it was not impossible for him to sever his soul with one sword attack!

However, reality once again exceeded ye Hongchen’s expectations. Although Emperor Nantian did not ignore Mr. Ye’s soul severing sword attack, he only paid attention to a part of it. While avoiding the fatal points, he forcefully shifted his body.., he was willing to be cut off by that sword attack, but he still continued to pursue and kill ye Xiao relentlessly.

Just as long Yutian was about to pursue ye Xiao, a golden dragon shot out from the sky. Its tail, which was several thousand feet long, slammed across the path of Long Yutian’s pursuit like a mountain pressing down on him!

The Golden Dragon had long been instructed by Ye Hongchen to pay attention to ye Xiao’s safety. Once something went wrong, it would immediately rush over to help!

Originally, Imperial Dragon had been pestered by Ye Hongchen, and there were no more experts on the southern sky side who were stronger than the Golden Dragon. This life-saving talisman could be said to be absolutely reliable, however... at this moment, Imperial Dragon, who should never have appeared here, launched a continuous attack on ye Xiao. Even though the Golden Dragon knew that its true strength was not only inferior to imperial dragon, it still stepped forward to intercept him!

At this moment, Royal Dragon, who was already red-eyed with killing intent, saw that the Golden Dragon was blocking his way. Without any hesitation, he charged forward and slammed his palm onto the Golden Dragon’s huge tail. After a loud bang, the Golden Dragon let out a miserable shriek and soared into the sky, dragon scales that were the size of a house flew all over the sky randomly. It was so painful that his entire body was trembling.

All of this happened too quickly. Royal Dragon did not care about his own safety. Even if he was injured, he still wanted to get rid of Mister Ye’s entanglement twice. He wanted to kill ye Xiao in one fell swoop. Although the Golden Dragon had been paying attention to ye Xiao for a long time.., however, Long Yutian’s arrival was too fast. He did not even have the time to unleash his full strength when he tried to stop Long Yutian. This reality undoubtedly caused the difference in strength between the two sides to be quite large, and the difference was even greater

This was especially so for long Yutian, who had completely gone mad. He had thrown his entire cultivation base into this battle. It could be said that he had unleashed 120% of his strength, or even exceeded the limit of 120% !

Under such circumstances, how could the Golden Dragon not be at a disadvantage?

At this moment, ye Xiao only felt that his internal organs were on fire, and his entire body was weak. Just now, when he had clashed head-on with Emperor Nan Tian’s full-strength attack, his internal organs

had almost been shattered, and a few of his tendons and bones were also damaged. If it was not for the miraculous purple qi east arrival technique.., just now, he had consumed two pill cloud level healing pills. His condition was probably even worse. Even so, it was still difficult for him to even move!

Only at this moment did ye Xiao finally experience the strength of the strongest person in this world. Indeed, he lived up to his reputation. He was indeed the peak of this world. He could not even compare to him!

Although he was impressed, ye Xiao could already feel emperor South Heaven's determination to kill him. He also saw Long Yutian coming from behind. He was like a crazy demon that was pressing down on him. Endless killing intent was locked onto him. Ye Xiao saw that he was unable to dodge, he suddenly gritted his teeth and pulled out another trump card.

A white figure appeared and flew over at high speed.

The long-lost idiot finally appeared on the battlefield.

His small body released a shocking power that looked down on the world. He actually met the emperor's thunderous charge and crashed into him!

"Meow ~ ~"

The Idiot cried out and his small body flew back like a silk ball. However, he did not return to ye Xiao's embrace. Instead, he flew to an unknown place and flew for dozens of miles before he regained his clarity, he twisted his body and returned to space.

Long Yutian's body suddenly trembled. He suddenly raised his head and spat out a mouthful of blood. His face instantly turned purple-gold.

The Idiot rammed with all his strength. Long Yutian felt that his Dantian was on the verge of shattering. His divine soul actually shook for a moment and seemed to be on the verge of collapsing.

However, as he spat out blood, he rushed forward. He actually turned the blood he spat out into an attack weapon. Blood splattered everywhere. It was actually able to pierce through gold and crack rocks. It was indestructible.

Immediately after, golden light flashed. The advancement was completed, and the wind and Thunder Golden Eagle also appeared. Its two claws, which were so powerful that they could tear apart the heavens and earth, carried the power of wind, thunder, and lightning as they flashed out in a chaotic manner.

"Die!" Royal Dragon roared and struck out with both of his palms. The golden eagle, which was so powerful just a moment ago, suddenly let out a mournful cry and was sent flying.

There was no longer any obstruction in front of him. Royal Dragon was just about to capture ye Xiao, who was right in front of him. Unexpectedly, he felt a sense of absent-mindedness in front of him. It was as if he had unknowingly fallen into a brand new world?

His eyes were filled with a vast expanse of white snow, but he could not see a single person.

Even the earth-shattering battle cries had completely disappeared at this moment.

“Illusion?”

Long Yutian bit the tip of his tongue and roared with his soul power, “Break for me!”

In the space, three-foot-red suddenly trembled. The vines that formed the space of ice and snow immediately broke into dozens of pieces.

Although the three-foot-long red was one of the four great spirit plants in this world, it was still not enough to face the crazy southern sky emperor.

However, it was only a momentary delay.

It was enough for two white shadows to intercept long Yutian and ye Xiao.

One was like ice, and the other was like snow!

One was magnificent, and the other was beautiful.

The two people had two swords. One was extremely cold, and the other was extremely cold. Both of them were like a thousand mountains of snow and an eternal glacier that descended from the sky.

Long Yutian roared loudly and chose to fight head-on once again.

With two soft groans, Xuan Bing and Jun Ying Lian spurted out blood and retreated. On the other hand, the Great Emperor of the southern sky, Long Yutian, was heavily obstructed and attacked. It was difficult for him to maintain his extreme cultivation state. His body suddenly trembled and he took three steps back, he spurted out three mouthfuls of purplish-gold blood in succession!

Although his entire person was still as imposing as a rainbow, his face had already turned as pale as paper.

With a flash, Ye Hongchen tore through space and appeared in front of Long Yutian. His face was filled with frost as he said, “Long Yutian, you’re courting death!”

He was about to make his move.

The feeling of an iceberg collapsing behind him was that of Bai Feng charging over with killing intent.

Not far away, ye Xiao had already stood up and took a deep breath. His eyes once again became bright and lively. The sovereign sword in his hand also became dense with purple mist.

Although it was only a short delay, ye Xiao had already recovered a considerable amount of battle strength.

The Sovereign Pavilion’s Hall of life and death’s reputation had already spread throughout the entire beyond Avalon of mortals. As the Hall Master of the Hall of Life and death, it was not worth mentioning that he had the ability to recover!

However, this reality also meant that it was impossible for him to kill ye Xiao today.

As Emperor South Heaven obtained this clear understanding in his heart, he felt extremely indignant. He suddenly looked up at the sky and let out a long howl. His eyes seemed to be dyed with blood and his eyes looked as if they were about to explode!

For a moment, the southern sky emperor felt as though his chest could explode at any moment!

“Your Majesty!” Su Mohun and Fang Zhenyun appeared behind him covered in blood.

Their eyes were filled with clear despair.

The battle had not lasted for long. However, in such a short period of time, all of the southern sky higher-ups had the urge to commit suicide.

This was because apart from their own trusted aides, the majority of the troops under their command did not put in any effort at all!

There were also quite a number of people who did not put in any effort at all. They displayed a mentality that they were afraid of enmity with those who killed the sovereign pavilion. They showed mercy at every turn!

Their mentality was even more obvious: If I were to kill them, I would definitely end up doing something terrible if I were to seek refuge with them. Therefore..

‘Is this still a war?’?

‘Is this still a war?’?

At this point, not only the Great Emperor of South Heaven, Long Yutian himself, but all the generals of South Heaven were feeling extremely aggrieved!

This was the first time in their lives that a war had turned out like this!

If they had a choice, they definitely would not encounter such a situation again. Instead of feeling so aggrieved and wanting to die, they might as well be killed by the enemy. They would still be able to die a clean and happy death.

Long Yutian faced the sky and let out a long howl. The emotions that almost tore his chest apart and exploded were clearly transmitted into everyone’s hearts!

“I refuse to accept this!”

Long Yutian let out a violent roar that shook the sky and earth. Those with weaker cultivation bases immediately had blood seeping out from their facial features and internal injuries.

Chapter 1953: Breaking Through The Emotion Barrier

Ye Hongchen’s eyes were filled with a complicated expression.

That’s right, no one would be willing to submit to such a situation.

Ye Hongchen asked himself, if he were to encounter such a situation, his state of mind would definitely not be stronger than Long Yutian’s. In fact, it might even be worse!

Not far away, Ye Xiao, who had just recovered, was now standing there like a wooden statue.

In fact, ever since he was severely injured by Long Yutian, Ye Xiao had already fallen into this state.

The moment ye Xiao was hit by the Southern Sky Emperor's Golden Soul Pagoda, the Golden Soul Pagoda shattered on the spot. The Golden Soul Pagoda, which ye Xiao had poured a lot of effort into refining, was practically a natal magic treasure that was second only to the monarch sword, the instant of annihilation had a great impact on ye Xiao. If it was not for the fact that ye Xiao had the Purple Qi east arrival divine art to protect his heart meridian, and the vast amount of purple qi surging out from the endless space to enter ye Xiao's meridians to protect him.., ye Xiao was afraid that he would fall into a state where his soul would be damaged and his body would regress!

However, fortune came from misfortune, and misfortune came from fortune. The annihilation of the Golden Soul Pagoda caused ye Xiao's state to reach its current lowest point, but it also caused the self-feeding mechanism of the Purple Qi east arrival divine art to reach its limit for the first time.., the Purple Qi of extreme extreme bliss was abundant in the sky. In a trance, ye Xiao actually felt an inexplicable and indescribable subtle feeling surging out from the depths of his soul.

This subtle feeling reached its peak when he saw Xuan Bing and Jun Ying Lian standing in front of him without any hesitation and forcefully fighting against the Great Emperor of South Heaven, Long Yutian.

In the next moment, the barrier in ye Xiao's heart also shattered!

At this moment, ye Xiao had an epiphany. His purple energy east arrival divine technique had suddenly undergone a qualitative change at this critical moment!

And to be able to have a relationship with two women at the same time, it seemed that there was only one thing left — the love barrier!

The difficulty of the love barrier had been since ancient times.

What was the love barrier?

Love was based on the heart; however, a person's love was not just based on the heart.

The Love Barrier was mutual!

You could sacrifice your life for me, and I could forget my death for you.

Only when two people were in love with each other would they be willing to sacrifice each other; only when they were willing to sacrifice their life for each other and forget their death would they be able to get a response from each other. Only then would it be considered true love.

The foundation of the love barrier could not be unrequited love.

If it was unrequited love, then it would be the way to cut off love, be heartless, be heartless, or be suitable for some people. However, it was definitely not the path that ye Xiao had traveled all the way!

Originally, ye Xiao's love barrier had already been broken in half when he found Jun Yinglian after young master Bai sent the letter. When he left the ice heaven realm, Ye Xiao felt that the love barrier was already on the verge of breaking down, it seemed that it could be broken at any time.

Ye Xiao subconsciously thought that the remaining broken barrier was not enough to be a threat. It would only take a period of time for it to be completely resolved, so he did not pay much attention to it after that.

Unfortunately, this barrier that could collapse at any time was always stable, but it refused to completely collapse until now.

Only on such a life-and-death battlefield did he finally break this last barrier.

In the eyes of outsiders, ye Xiao had probably consumed the miraculous elixir and quickly recovered from his heavy injuries. This was the benefit of the people in the sovereign pavilion. As the Hall Master of the life and Death Hall, ye Xiao himself was naturally an expert. It was not surprising at all!

Little did they know that the situation that was so good just now was because the barrier had suddenly been broken and the level of spiritual power in his body had suddenly soared, forming an illusion, however, this illusion had really healed the serious injury that ye Xiao had suffered because of Emperor nan Tian!

However, the unexpected advancement of the Purple Qi east arrival divine art had also caused ye Xiao to stand there in a daze for a period of time. This was because the inside of his body had truly undergone an earth-shaking change!

After that layer of barrier was broken, the Purple Qi east arrival spiritual energy that was flowing in ye Xiao's body instantly soared. Then, it immediately retreated like a tide. His entire body became like a bamboo that was empty. He was practically an ordinary person.

If Ye Hongchen had not arrived in time just now and allowed Long Yutian to catch ye Xiao, no, he did not even need to catch her. As long as he came into contact with her, he would even be able to spit out a breath onto ye Xiao's body.., at that point in time, ye Xiao would have turned into a pile of dust, becoming dust with the sky!

Emperor nan Tian was still an expert at the peak of this world. Every move he made and even the breath he spat out contained a considerable amount of power. At that moment, ye Xiao could only use the most basic self-defense mechanism. The purple spiritual energy from the east was completely restrained, and it was instantly annihilated.., it was within reason!

Fortunately, ye Xiao's empty window only lasted for a moment. A moment later, dense purple qi east arrival spiritual energy flowed through his entire body!

However, this time, ye Xiao clearly felt that the spiritual energy that surged once again was different.

Previously, the Purple Qi might have been surging and surging like a great river, but it was still a kind of Qi feeling. However, the Purple Qi that grew this time had a tangible feeling as if it had taken form.

It was an indescribable and wonderful experience.

If it was said that the Clouds and mist that filled the sky filled the meridians before, it would be tangible but not tangible. However, the Purple Qi was now thin threads! Pure purple threads!

Purple threads surged through ye Xiao's meridians and filled ye Xiao's Dantian..

In an instant, ye Xiao felt his entire body filled with power, but it was a warm and silent sense of fulfillment.

Previously, when ye Xiao experienced the breakthrough of the Purple Qi east arrival divine technique, he always felt as if his entire body was about to explode. If he did not control it properly, he would be countered. Even if his body successfully broke through, he would still feel as if he had to spit it out, he needed to use an extreme battle to express himself, so that he could truly control a whole new realm.

However, this time, he only felt a warm feeling and a comfortable atmosphere.

It was as if... his entire body was wrapped in the hot spring water, and it was indescribably pleasant.

A breakthrough in the emotion barrier was actually... the realm of emotion fusion!

Golden symbols suddenly appeared in ye Xiao's mind. It was... The chant for the fifth level of the East Purple Qi divine art!

In the greater world, all things were in harmony, the Purple Qi was in full circulation, and the Great Dao was eternal..

Even though it was just a school of pure grace, ye Xiao had memorized the contents deep in his heart, and he seemed to have understood something.

It didn't matter if it was the purple clouds from the east or the purple clouds sovereign king from before. However, even if it was a sovereign, even if it was a sovereign, even if it was the lord of the world, it didn't mean that all of the love barriers of these sovereigns could be passed.

Even a sovereign would have regrets.

Even a sovereign would have to taste the bitterness of love.

And at this moment, ye Xiao had broken through the love barrier. He had completely broken through the love barrier and reached an unprecedented new realm. He had truly reached the pinnacle of the realm beyond the mortal world.

When ye Xiao opened his eyes again and saw the greater world, he actually felt that this world was greatly different from before!

It was as if every blade of grass and every tree was so cordial.

As the saying went, one's roots were the same as the heavens and earth. Sharing the Sun, the Moon, and the breath was nothing more than that.

He suddenly opened his eyes. The person was still the same person, and Ye Xiao was still ye Xiao. It was just that his state of mind was different, and his perception of the world had also changed.

Right now, he did not even know what level his cultivation base had reached.

..

The moment ye Xiao opened his eyes, everyone, including the southern sky emperor, Long Yutian, who was in the midst of a raging rage, felt it at the same time..

Ye Xiao seemed to be right in front of him, but he also seemed to be no longer in this world!

It was probably such a wonderful feeling.

A person was right in front of you.

But, it was not in your eyes, not in your divine sense, not in your perception!

Such a strange feeling was shocking!

And Ye Hongchen and Long Yutian, who had the highest cultivation, were even more shocked.

Because... the realm that Ye Xiao was in was clearly the current realm of the two of them!

Peak realm!

Ye Xiao actually broke through at this critical moment! ?

Long Yutian suddenly shouted loudly, "Ye Xiao!"

These two words came out of nowhere, like a sudden thunderclap in the clear sky!

It shook the heavens, the earth, and everyone present!

The three realms of Heaven, earth, and man were all shocked. Even those with profound cultivation such as golden dragons, White Phoenixes, and seven golden lotuses could not help but feel their hearts shaken.

Meanwhile, Ye Hongchen, who had the highest cultivation and was also affected by the lower cultivation, was furious. He was above the seven emotions!

This was because Long Yutian's explosive roar was famous — Yin-yang Howl!

Although it seemed like a simple roar, it was actually infused with all of Long Yutian's spiritual power. It focused the power formed by the roar into one point and poured it all into one target!

Even if one's soul was already wandering in another world, once one heard such a mysterious cry filled with soul power, they would immediately sense it.

In other words, if your strength, your level, and your cultivation were breaking through, then this yin-yang Howl would definitely interrupt your advancement!

If the target's cultivation was slightly weaker, it could even cause one to go berserk and be doomed forever!

One would never forget this earth-shattering howl for the rest of their lives!

One would be entangled by this heart-wrenching roar for the rest of their lives!

"You're courting death!"

Ye Hongchen subconsciously wanted to make a move.

There was no other reason than the timing of the Great Emperor Long Yutian's roar was too shameless!

This was human nature, and it was also the difference between people on the same side and outsiders. Ye Xiao was already so shameless previously, poaching people at the last minute to buy their hearts. Ye Hongchen would only praise someone for their brilliant strategy and application, it was natural for one

to do anything on the battlefield. However, now that Long Yutian roared and wanted to disturb ye Xiao, he was shameless..

However, in the next moment..

Ye Xiao's calm voice suddenly rang out, "Long Yutian!"

These three words were exactly the same as Emperor Nan Tian's Long Roar.

Before the lingering sound of ye Xiao's two words could fade away, Emperor Nan Tian's parapsychic sense reached its peak in the sky. Ye Xiao's three words suddenly shook the sky.

Yes, it shook the air, not out of it

Shake!

The entire space was shattered into pieces.

Everything in the space had been turned into dust. Then, everything in the space was replaced by my voice!

Long Yutian felt a wave of discomfort in his heart. It was as if his internal organs had been severely injured at the same time. For a moment, he lost his footing and took seven or eight steps back. He suddenly looked up at ye Xiao and shouted, "You..."

Before he could finish his sentence, he let out a "Wah" sound and spat out another mouthful of purplish-gold blood!

Originally, based on the cultivation level of the southern sky heavenly emperor, he might not be inferior to the current ye Xiao. However, the timing was just right. The original intention of using the yin-yang Howl was to cause ye Xiao, who was at the moment of her breakthrough, to lose his mind and be distracted, the failure of the breakthrough was only the most basic assumption. If ye Xiao was possessed by the devil because of it, or if her soul was injured and her body was devoured by the backlash of her cultivation, it would be considered long Yutian's intention to destroy her. After all, the southern sky heavenly emperor hated ye Xiao deeply at this moment, it was incomparable!

It was precisely because of this that the yin-yang Howl that he used at this juncture could be said to have used all of his heart and soul, all of his cultivation in his life, in order to complete his work in one strike. If he had been able to finish it in a few dozen breaths earlier.., he might have succeeded..

Unfortunately, his howl was unable to catch up with ye Xiao's final breakthrough. Instead, it collided with ye Xiao, who had just completed his breakthrough and was in a great state of mind. It did not cause any harm at all!

Furthermore, Long Yutian's drum used its full power to unleash the yin-yang Roar. His strength, cultivation base, and defensive spiritual power all fell to their lowest point. At the moment when his roar reverberated to its highest point.., in reality, it was also the moment when his body was at its weakest. Ye Xiao just happened to launch a counterattack at this moment. At that moment, ye Xiao condensed his voice to its peak and let out an explosive roar. His mind was injured and his primordial soul was damaged!

Ye Xiao's explosive shout had actually completely cut off Long Yutian's divine soul!

However, the difference of a few dozen breaths had caused the difference in the situation to be like heaven and earth. Everything could only be attributed to one word — luck!

It was very obvious that Ye Xiao had this thing called luck, while the Great Emperor of South Heaven, Long Yutian, had none!

The Great Emperor of South Heaven, who was spitting out large mouthfuls of blood, managed to stabilize his footsteps and tried his best to regulate his breathing. He wanted to calm down the chaotic internal breath and suppress the serious injuries to his divine soul, but..

He had sustained multiple injuries previously. He had suffered one strike after another from Ye Hongchen, and he had also received three strikes from Ye Xiao's purple extreme sword technique, the Golden Dragon Block, and the combined attacks of the two ladies, the mystic ice monarch and Ying Lian. The accumulated injuries were extremely heavy, at this moment, with Ye Xiao's explosive shout, all of his injuries were unleashed. He could no longer suppress his injuries!

Long Yutian, who had failed to suppress his injuries and suffered the backlash from the chaotic spiritual energy in his body, looked extremely defeated. He actually took another dozen steps back. He staggered and found it difficult to stabilize his body. Soon after, he suddenly spat out two mouthfuls of blood!

These two mouthfuls of blood were not purplish-gold like before, but pure black!

After spitting out two mouthfuls of blood, Long Yutian's face had turned as pale as a sheet.

He had never thought that Ye Xiao, whom he could easily injure just now, would be injured to this extent by a mere shout. Even if all sorts of coincidences were put together, he should not have been injured to this extent!

How could this shout have such power? ?

Ye Hongchen also looked at Ye Xiao in shock, feeling a little lost.

Ye Xiao clearly needed his protection just now.

Why... did a shocking change happen after he was seriously injured?

This... This kind of thing had never happened even in the entire beyond Avalon of mortals for hundreds of millions of years..

Ye Hongchen looked over in surprise. Long Yuantian was also shocked and raised his head at the same time.

In front of him, Ye Xiao raised his head proudly.

The two gazes were like two chilling longswords, piercing toward him.

Mr. Ye and Long Yuantian both had a feeling that as Ye Xiao raised his head this time, it seemed to be... an inexplicable aura that was still rising steadily..

..

Chapter 1954: Challenge! He Had Already Lost

Before this, ye Xiao's imposing manner was like a rainbow.

However, whether it was ye Hongchen or long Yutian, they could tell that ye Xiao's imposing manner could only be considered as a kind of support. At the very least, when he was facing them, he was completely vulnerable.

Even though he was sharp, even though his momentum was matchless, he was ultimately not as thick and solid as someone at his level. His foundation was endless. Once his imposing manner was compared, as long as his sharpness was thwarted, he could easily suppress ye Xiao's imposing manner.

But now, ye Xiao's aura had returned to its original state and completely transformed into a different form!

When facing the two of them, Ye Hongchen's gaze was calm and peaceful. There was not a hint of sharpness in his gaze, but he was truly on par with them. He was not at a disadvantage at all!

If the aura that ye Hongchen and long Yutian gathered was like the tide of the ocean, then ye Xiao's aura was like a wave that could turn the sky upside down!

Moreover, it also carried a strange and free-spirited aura that was different from theirs!

Ye Hongchen's eyes narrowed, and his heart suddenly trembled.

"Emperor Long, you've suffered setbacks time and time again, and you think that I'm the one playing tricks and using countless tricks. Are you feeling sullen and depressed? Even though the situation is clear now, you're still not convinced, right?!" Ye Xiao smiled and asked in a deep voice.

Long Yutian was furious. "Shouldn't I be?!" "You despicable brat. Even though you have the upper hand in ye Hongchen's favor, what's there for you to brag about? However, you've succeeded because of someone else, and you still want me to admit defeat because of your despicable tricks. Bah!"

Ye Xiao's expression turned cold as he slowly walked forward until he was in front of Long Yutian.

Long Yutian's eyes flickered as he watched ye Xiao approach him step by step.

He could feel an unprecedented pressure as ye Xiao approached him.

This situation left him aghast!

However, the pressure that ye Xiao was giving him was no less than ye Hongchen's!

This... This was undoubtedly the highest evaluation!

In the short time that ye Xiao was approaching him, long Yutian felt like he wanted to retreat or be forced to lean back.

What was going on?

He had almost blasted this brat into smithereens with his full strength just now!

This was something that everyone had witnessed with their own eyes. How could it be that... the other party seemed to have become another person now?

Even if this fellow had made a breakthrough at the last minute, he should not have improved so much. It was as if he had been reborn. Such an improvement was truly inconceivable. It was hard to imagine?

But when had there ever been such a treacherous thing in the world?

“In the world beyond the mortal world, there has never been true fairness. It doesn’t matter whether you submit or not,” ye Xiao said indifferently. “Not to mention, that this is a specific time to contend for hegemony. What a contender needs has never only been martial strength, but also intelligence and resources

“Right now, I have a lot of resources that anyone can see, touch, and get their hands on. I use them as a medium to divide your troops and strengthen myself on the basis of dividing you. That is my advantage and my ability. “You know that this is the reality, but you are still unwilling to admit defeat. It is your choice to fight with all your might. It is understandable and understandable! “However, there is indeed a gap between you and me. This is a reality that can not be erased whether you admit it or Not!”

Ye Xiao’s cold gaze landed on Long Yutian’s face, causing long Yutian to feel as if he was being ‘looked down upon’.

Being looked down upon!

Being looked down upon!

This feeling of being at a disadvantage made long Yutian, who had been at the top for a long time, feel even more stifled. He could not help but want to explode. He narrowed his eyes, and a fierce light flashed in his eyes. He leaned forward and said ferociously, “What if I can kill you?”

Ye Xiao chuckled, “Your majesty, I can’t believe that you still can’t see the situation clearly. Did you say that you want to kill me? ! You might have been able to do it just now, but now...”

He smiled meaningfully, “... do you think that you can still do it?”

Long Yutian snorted coldly, “What’s the difference between just now and now? If it weren’t for ye Hongchen protecting you with all his strength and pestering me several times, you would have long turned into the soul of my subordinate!”

Ye Xiao narrowed his eyes, “It seems that Emperor nan Tian is very determined to kill me. In that case, I wonder if your Majesty would dare to have a bet with me?”

Ye Hongchen knew what ye Xiao wanted to do the moment he heard it. He could not help but be shocked and shouted, “Ye Xiao!”

He was about to speak up to stop ye Xiao.

Even if ye Xiao had made another shocking breakthrough and reached the peak of this world, he could be on par with the six great experts of this world. However, he was still a rising star, how could his cultivation be compared to an old expert like Emperor nan Tian who had been around for hundreds of thousands of years?

The bet was a battle between two people. No matter how high the cultivation level of the third party was, they could not get involved. If anything went wrong, they would die instantly and be annihilated

Ye Xiao laughed loudly and said in a deep voice, "Don't worry, Mister Ye. The southern Sky Emperor is already in a desperate situation. How can we not fight such a desperate dog?"

This sentence immediately caused the Golden Dragon and White Phoenix to roll their eyes.

It was true that Emperor nan Tian's current situation was not good. However, the only one who was qualified to say such words was Ye Hongchen. How could you, Ye Xiao, have the right to say such Big Words, he had almost beaten him to death just now..

When Long Yutian heard this, he was stunned. His expression became more and more unsightly. However, he turned into a vicious smile and said, "Ye Xiao, do you want to bet with me?"

Emperor South Heaven clearly wanted to confirm the wager before ye Hongchen succeeded in stopping it. Once the heaven and earth witnessed and the wager was established, then even ye Hongchen could only watch helplessly, unable to intervene!

It was precisely because of this mentality that long Yutian let ye Xiao off lightly, even though ye Xiao described him as a drowning dog, just to confirm the wager as soon as possible!

In the eyes of the southern sky emperor, Ye Xiao was the leader of the monarch pavilion. He was also the source of countless panaceas and endless resources for the monarch pavilion. Once ye Xiao was finished, the so-called "One billion monarch" declaration of the Monarch Pavilion would immediately go bankrupt, no matter how unstable the morale of the southern sky army was, the soldiers would have nowhere to go. This would fundamentally resolve the situation of the collapse of the Southern Sky Army!

Therefore, as long as he killed ye Xiao and immediately withdrew his troops to return to the southern sky, he would at least be able to protect the southern sky and himself!

Regardless of how they fought to the death on this side, it had nothing to do with him. Even if the world was unified in the hands of someone, the southern sky would still be his. This was enough!

Almost no one present could not see Long Yutian's intentions. Ye Hongchen said angrily, "Long Yutian, you are the Celestial Emperor of a region and an expert at the peak of the world. How dare you do such a shameless thing!"

Long Yutian sneered, "It was ye Xiao who said that there was no true fairness on the battlefield and in the sky. He was the one who asked for a fight and sought his own death. What does that have to do with me?" "Ye Hongchen, the time when you preached the so-called 'breaking the sky' for a long time is the real joke. On the way here, when have you ever carried out the so-called 'breaking the sky'? You have repeatedly forcefully interfered in the war between the Emperor's Pavilion and me. It is the most shameful thing. Rather than saying that people are Shameless, why don't you ask yourself how your actions are?" "!!!"

Ye Hongchen's expression turned solemn, he said in a deep voice, "Long Yutian, since you mentioned the time of breaking the sky, you also said that I have never fulfilled the promise I made a hundred

thousand years ago. Why not fight with me here? ! Let's see if my time of breaking the sky really lives up to its name!"

Long Yutian snorted when he heard that, and his face alternated between red and white.

If it was before he came to the boundless sea, Long Yutian would definitely not have any scruples. As long as Ye Hongchen invited him to fight, he would definitely gladly go to the battle. In his self-assessment, even if he was not certain that he could win against ye Hongchen.., he could still be expected to have the upper hand!

This was the confidence of a super powerhouse towards himself.

However, after coming to the boundless sea and seeing the current ye Hongchen, this confidence had long disappeared without a trace.

Between Peak powerhouses, there was no need for them to fight seriously. Just by sensing each other's Qi dynamics, Long Yutian knew who was superior and who was inferior. Even if he was at his peak, he would most likely lose badly against ye Hongchen now. Moreover, he was already heavily injured, his soul and Yuan Spirit were damaged, and his cultivation was greatly reduced?

If he fought with Ye Hongchen now, not only would he be asking for it, he would also be asking for death!

He shifted the words that ye Xiao was asking for death onto himself!

"There's a first come, first served basis. It's the same for the challenge. After I finish the challenge with Ye Xiao, if you, Ye Hongchen, still insist on asking for death, I don't mind sending you on your way!" Although he did not dare to accept the challenge in his heart.., however, how could long Yutian be at a disadvantage with his words? Especially at this moment, he could not lose his morale even if he lost everything!

Ye Xiao looked at long Yutian and laughed out loud, "You are so fierce on the outside but weak on the inside. Your Majesty, the Southern Sky Emperor, is really full of pride!"

The moment these words were said, the faces of the few generals under the southern sky emperor turned red.

Everyone knew that their emperor was fierce on the outside but weak on the inside. Who would not be able to tell?

Su Mohun and Fang zhenyun instinctively lowered their heads.

An embarrassed look flashed across their eyes.

The Lord humiliated the subject and the subject died.

Emperor nan Tian's series of actions made these high and mighty experts feel an extreme sense of humiliation.

Facing a weak challenge, they had to accept it immediately. They were afraid that the other party would go back on their words and decide to fight to the death!

However, when it came to facing a challenge from someone stronger than him, he was clearly afraid of the challenge and avoided it. Yet, he still had to coax the other party and put on an act.

This... This was the unrivaled hero that we had pledged our loyalty to all our lives! His Majesty, the Southern Sky Emperor?

Ye Hongchen laughed loudly. His laughter was filled with undisguised mockery.

Long Yutian flew into a rage out of humiliation, but in the end, he did not dare to provoke ye Hongchen anymore. He was afraid that Ye Hongchen would act first without caring about anything else and that his wishful thinking would immediately fall through, he turned to look at ye Xiao and said, "Sovereign Ye, you are a junior, so why don't you decide how to Gamble?"

Ye Xiao said lightly, "You have been complaining about how unfair it is. You keep saying that you are not convinced, and you are sullen. Since that's the case, I might as well give you a fair chance! You and I will fight one-on-one, and the winner will be the King!"

Long Yutian said fiercely, "One-on-one?"

Ye Xiao nodded, "One-on-one is a life-and-death battle! If you lose, the army of Nantian will automatically surrender to me. If you win, we will immediately turn back and not come out for 100,000 years!"

Another "100,000 years" agreement!

Ye Hongchen's body suddenly shook, and an extremely complicated look appeared in his eyes. Even the Golden Dragon and white phoenix beside him were shocked.

Why were all of them eyeing 100,000 years?

Could it be that ye was planning to go up against "100,000 years"? !

Royal Dragon's eagle-like eyes looked at ye Xiao, he sneered and said, "Ye Brat, your wishful thinking is too loud, right? If I lose, all of Nantian's subordinates will have to surrender? And if you lose, you'll just retire for 100,000 years? How is this a fair victory? !"

Ye Xiao said coldly, "Do you think this gambling battle is unfair?"

Long Yutian took a deep breath. "Forget it, I'll just use Monarch Ye's method for this battle. I'm a senior, so so what if I let a junior like you take advantage of me? !"

Although Emperor Nantian was clamoring, how could he not understand the current situation? Right now, the army of Nantian did not have the will to fight, and they would not have the will to fight. In one night, hundreds of thousands of elite soldiers of the front army defected. And today, in the fierce battle.., there were millions of defections on his side..

The entire army had almost completely fallen apart.

If they continued to fight, the only result would be that the southern sky army would fall into an unprecedented defeat.

In terms of strength, he was absolutely no match for ye Hongchen. The peak strength below him was also no match for the Seven Golden Lotuses. Not to mention that ye Xiao's sovereign pavilion was also here..

This battle was already a foregone conclusion. No matter from which aspect, he was at an absolute disadvantage!

The only way to survive now was to fight with ye Xiao. As long as he was defeated, there was still a way to turn back. It was no longer a luxury to strive for hegemony in the world. It was only for the overlord of a region to be rich!

Ye Xiao took a deep breath, he said, "Since the southern sky emperor said that I took advantage of you, I will give you two more choices. The first is naturally to start the final battle now. It would be better to meet the sun and understand this battle as soon as possible. The second option is to make an appointment three days later. In the morning, the sun will be shining all over the land, and we'll have a life-and-death battle!"

Long Yutian said very straightforwardly, "Since monarch ye doesn't want to take advantage of me, then let's make an appointment three days later to have a life-and-death battle. "Monarch Ye, you're still young, yet you can't help but die. Make arrangements for your funeral in advance. This war is chaotic, and if you don't prepare the coffin in advance, you'll inevitably die in front of people. That won't Be Pretty!"

Ye Xiao laughed. "Emperor Dragon, you're too kind. It's the same for both of us. Especially since the southern sky army has come from afar, it'll be even harder to prepare the coffins!"

Instantly, the whining of gold resounded throughout the entire boundless sea.

The southern sky emperor, Long Yutian, led his generals and quickly retreated like the tide.

Ye Xiao's pavilion also retreated at the same time.

The Pavilion of Lords sent out a total of seven million troops this time, but after they retreated, they actually withdrew a whopping thirty million troops!

This was the result of a war that had gone on for thousands of years. It was one thing for the number of troops to increase, but to actually be able to increase their total military strength by several times was truly unimaginable and shocking

And seeing this situation, Long Yutian, who was retreating high up in the sky, almost spat out another mouthful of blood..

A feeling of 'the tide has turned' rose up helplessly in his heart.

"Could it be that our southern sky elites... really..." the southern sky emperor's face was pale as he looked at the sparse troops that had already withdrawn. Many of them were still looking back as they walked..

It seemed like... They were a little unwilling..

“Your Majesty...” Su Mohun looked up at the sky and let out a long sigh. “In this battle... I, southern sky, have already lost.”

Chapter 1955: Before The Final Battle

Fang Zhenyun’s thin face was also gloomy, but he did not speak.

“In the entire southern sky, for 100,000 years, the upper echelons did not move... the suppression on the promotion of all the officials in the southern sky is indeed immeasurable.” Su Mohun sighed. “In the past, the situation in the heavens was all true, forming a blind spot. We did not notice it at all. Even if there were occasional rebellions, it was immediately suppressed the moment the troops appeared.”

“Now that I think about it, in the past 100,000 years, who knows how many talented and wise people have failed to rise to the top despite being burdened with a great power.” Su Mohun sighed. “Now, ye Xiao is using such conditions to recruit them, and there are countless life-saving panaceas as the inducement. This kind of battle tactic is certainly impossible to replicate...”

“It’s even more impossible to crack!” Fang Zhenyun said with a dark expression.

“Therefore, the outcome of the battle three days later is of utmost importance!” Su Mohun looked at long Yutian, he said, “If His Majesty wins and ye Xiao Falls, the Great Temptation of the sovereign pavilion will be put to rest from the root. Naturally, everything will be calm and peaceful. All those who defected before today will certainly receive the most severe punishment. However, the governance of the southern sky officials still needs to be changed and re-planned. If not, how can we really achieve long-term stability...”

“But if His Majesty is defeated... The consequences will be unimaginable.” Su Mohun shook his head and smiled bitterly. “The entire Great South Heaven will fall apart at any moment. All the rules and laws... will fall apart at the same time!”

Everyone was silent.

Long Yutian took a deep breath and smiled faintly. “I have fought countless battles in my life. In the past 150,000 years, I have never experienced defeat. The battle three days later will not be an exception.”

“Your Majesty is Mighty!”

Su Mohun and the other ministers shouted together.

“Three days later, I will definitely chop that ye Xiao into pieces in front of all the heroes in the world and annihilate his soul!”

Long Yutian’s eyes flashed with a fierce light.

..

“Ye Xiao, your previous challenge was too reckless!” Ye Hongchen had not even sat down yet, he started to complain, “Victory is clearly within our grasp. Why did you make such a challenge? ! ? After this battle, your life and death will be secondary. However, the ownership of this world will change because of this battle of yours. It’s really too childish, too thoughtless?”

Under Jun Yinglian's service, ye Xiao removed his cloak from his body before sitting down. He looked at Jun Yinglian's graceful figure hugging his cloak and put it down with a calm expression. It was as if he did not care about ye Xiao's upcoming battle at all.

Xuan Bing, who was at the side, also had a smile on his face. He was not worried at all.

"The two of you..." Bai Feng could not help but feel incredulous when she saw the situation. She asked Xuan Bing in a low voice, "Ye Xiao is about to battle with the Southern Heavenly Emperor and the extreme peak expert. Why aren't the two of you worried at all?"

Xuan Bing smiled and said in a low voice, "Why should I be worried?"

"..." Bai Feng was speechless for a moment. She was tongue-tied. "Could it be that... Ye Xiao is not your man?"

Xuan Bing smiled and said, "It's precisely because he is my man that I'm not worried."

"..." Bai Feng was stunned.

What kind of theory was this?

"This battle was proposed by my young master..." Xuan Bing smiled. "He never fights battles that he is not confident in. If he doesn't fight, he will win. If he fights, he will win."

The Golden Dragon and White Phoenix ye Hongchen's eyebrows twitched.

He never fought battles that he was not confident in. If he didn't fight, he would win. If he fought, he would win

Did that mean that he would only fight when he was confident in winning?

He was the kind of person who was said to bully people for fun..

"Is it really okay to be blindly optimistic now..." the Golden Dragon's face showed extreme surprise. "In the battle just now, your young master was seriously injured by Emperor South Heaven... you saw it with your own eyes, right? Everyone could see the gap between them. Even if he had a breakthrough at the last minute, could he really eliminate the gap?!"

What he meant was: How could he be confident?

Just a moment ago, he was almost killed by the other party, but now, he could definitely win?

There seemed to be no such logic in the world, right?!

Xuan Bing hesitated for a while and pursed his lips into a smile. "I'm not sure about that. In any case, I have confidence in young master."

The Golden Dragon was stunned and speechless.

He really did not know what to say. Faced with such unreasonable confidence, any doubts would be in vain!

Ye Xiao smiled and looked at ye Hongchen's puzzled gaze, he said softly, "The reason why we have this battle agreement is because of the battle just now. Thanks to Emperor Nan Tian, I managed to break through the love barrier despite being heavily injured. Since I have received such great favor from Emperor Long, how can I not repay him?!"

Break through the love barrier!

Ye Hongchen's body suddenly trembled. He was dumbfounded and speechless.

These four words were like a bolt from the blue. They were directly wedged into ye Hongchen's mind, causing even someone as calm as him to feel a wave of dizziness.

One had to know that even ye Hongchen himself had not broken through the love barrier.

Now, ye Xiao had actually broken through the love barrier, and it was at such a critical juncture!

No wonder ye Xiao dared to challenge the southern sky emperor alone.

When it came to someone like ye Xiao, breaking through the love barrier all of a sudden was undoubtedly a qualitative improvement, but the power that could be unleashed was unimaginably huge. As a peak expert, ye Hongchen naturally understood the difference between the two!

This was no longer a matter of love barrier, but... a leap of a great realm!

And it was a great leap forward from the Star Universe to a smooth path!

"Breaking through the love barrier, it's actually breaking through the love barrier..."the moment he walked out of the residence of the Sovereign Pavilion, Ye Hongchen finally couldn't help but look up at the sky and let out a long sigh of relief.

The golden dragons and white phoenixes that followed ye Hongchen were silent.

Behind him, the eyes of the seven golden lotuses flickered with a strange color.

It was no wonder that these great experts, great cultivators, and almighty experts were all shocked and lost their composure. It was really because ye Xiao's performance was too stunning!

Since ancient times, countless years had passed. In the history of the cultivators in the realm beyond the mortal world, no one had ever been able to break through the love barrier.

Whether it was the north-south supreme in the past, the current five celestial emperors, or Mr. Ye himself, no one had ever broken through this barrier!

The Love Barrier, a forbidden barrier for cultivators that every cultivator knew of, was permanently placed on the other end of the cultivation path, waiting for the cultivators to arrive. However, the vast majority of cultivators had already stopped before they even had the chance to touch the love barrier in their entire lives.

To those cultivators, this was indeed a misfortune, but it was also a great fortune!

The so-called misfortune was naturally the difficulty that the cultivators would definitely come into contact with if they did not have the cultivation base and had no chance to come into contact with this cultivation path. However, it was also a difficulty that was difficult to overcome!

The so-called great fortune referred to those cultivators who did not have sufficient cultivation base to come into contact with the love barrier. At the same time, they avoided the trouble that was difficult to overcome!

After all, people like Ye Hongchen, the seven Golden Lotuses, the golden dragons and white phoenixes... including the eastern heavenly emperor, the glazed heavenly emperor, the southern heavenly emperor, and so on... these people who stood at the peak of the peak of the world, all stopped in front of the love barrier.

When the seven Golden Lotuses touched the love barrier, the beauty who built it for them had already passed away. She was no longer there, so there was no way to crack it.

Even though they knew where the key to this barrier was, there was still no way to crack it.

The Five Heavenly Emperors had been in high positions for far too long. The love barrier in their hearts had already deteriorated over a long, long time. There wasn't even the love barrier itself, so how could they crack it? !

There were also two Great Northern and southern paragons. Strictly speaking, they had an advantage over the five heavenly emperors and the seven golden lotuses. However, fate played tricks on them, the grudges and entanglements between them caused their conditions to become unconditional!

There was also ye Hongchen. Originally, Mr. Ye's love barrier was the one with the greatest chance to break it. His lover was also one of the few experts in the world. The two of them fell in love with each other, and it could be said to be a good story. However.., the entanglement between them, the entanglement that they did not dare to face, was a problem that seemed like they would never be able to overcome. If they were unable to overcome this problem, they would not be able to solve it and would not even have the prerequisite to breakthrough the love barrier.

The same problem also appeared on Mister Bai. Although Mister Bai was as intelligent as the sea and had an unparalleled mind, he was also in the same situation as Mister Ye. It could be imagined that if Mister Bai was unable to break through this problem.., he, a newly advanced peak level expert, would also break his halberd and sink into the sand before the love pass!

Even so many old brands and newly advanced peak level experts had all stopped before the Love Pass. Ye Xiao, this young man whose cultivation had yet to reach the peak of the world, just had to do it.., he had broken through an unprecedented difficulty!

Mister Ye, the Golden Dragon, the White Phoenix, and the seven Golden Lotuses had witnessed this miracle. How could they not be shocked and silent!

..

"The love barrier."Guan Shanyao sighed softly. "Big Brother, it seems that this love barrier... is more concerned with opportunities."

Ye Hongchen said, "HM?"

"Ye Xiao's true age is extremely young, but he managed to break through the love barrier. It's not just rare. Perhaps... it's precisely because he's young that he has the opportunity to break through the love barrier..."

Guan Shanyao sighed as he said this, but it caused everyone present to be shocked.

Not everyone could have a wife who was as powerful as Mr. Ye and had an endless lifespan. With this point alone, most of the old-brand powerhouses had lost the starting point of the Love Trial!

Guan Shanyao was silent for a long time, and then he said in a deep voice, "After the world is settled... I plan to... Disarm my soul and reincarnate to re-cultivate."

Hearing this, Ye Hongchen's body suddenly trembled, and a trace of desolation appeared in his eyes. He sighed slowly, but did not say anything.

All the way to the foot of the mountain where everyone was resting.., ye Hongchen then said slowly, "At the moment, it is true that only by reincarnating and re-cultivating can one have the chance to break through the love barrier... If you have really decided, I suggest that you find ye Xiao and ask him for help when you reincarnate."

Ye Hongchen said faintly, "Looking around the world today, only he can help you."

Hearing that, everyone was overjoyed. "Thank you for your guidance, Big Brother."

Three days later.

The sky above the boundless sea was filled with multicolored lights and auspicious rainbows. Countless experts gathered here to witness the battle at the peak of this world.

Clouds and mist rolled in the east. The Emperor of the east, Bai Yutian, arrived in his carriage. The accompanying people were all the upper echelons of the east.

In the north, the Emperor of the north, Han Jianghai, had already taken his seat.

Amidst the roars of dragons and phoenixes, the glazed celestial emperor appeared in the sky. He was majestic and looked around freely.

The demon emperor, the glazed celestial emperor, was the one who suffered the least loss in this century's war. It could even be said that he did not suffer any losses at all. In the other four corners of the world, Ye Hongchen, Fu Yunfu, Yu Lou, and the Pavilion of Lords, they were fighting with each other. However, the glazed celestial emperor did not make any movements.

Some "Thoughtful people" even made a seemingly reasonable judgment. As the saying goes, 'those who are not of our race have different hearts'. Previously, all sorts of wars were launched without any clues, leading to a great war between the various factions in the heavens, causing the lives of the people to be ruined! However, the demon race, as the major faction that suffered the least loss, had already stood out. Could this be used as proof that a certain race had sufficient motives to provoke this century's Great War!

If it wasn't for the fact that the leader of the various heavenly factions had a clear understanding of the current situation, there would probably be people who suspected that the current situation originated from the arrangements of the glazed tile heavens. With this, they couldn't help but sigh. The thoughts of humans were truly too terrifying.., there was absolutely no such thing. To be able to connect the dots just by thinking about it, how ridiculous!

Little did they know that the current situation made the glazed tile heavenly emperor feel inexplicably depressed.

"What the F * ck is this? "Could it be that I've brought hundreds of millions of troops all the way here just to watch the show "Ye Hongchen, you're really good. Back then, I was the one who made a deal with you to break the heavens. Now, you're killing all over the place just to not fight me. There's really no one like you!"

After all, before the start of the battle, almost everyone, including Heavenly Emperor Veluriyam, had guessed that once the Battle of the century began, Veluriyam would be the first to bear the brunt. Back then, Ye Hongchen had retired from the jianghu for 100,000 years, it was precisely because of which battle he had lost against the glazed celestial emperor.

The so-called sky-breaking battle was the most direct and most fundamental. The number one opponent would definitely be the glazed celestial emperor. There was absolutely no one else!

However, after waiting for so long, the entire battlefield had been shattered hundreds of times. The glazed celestial emperor's side was actually unharmed. There was no battle at all.

Not to mention looking for trouble, Mr. Ye Da of the hanging sky did not even glance at him.

When the sound of the sky breaking was still ringing in his ears, it seemed to be empty words and a joke that was definitely not a joke!

Ridiculous, it was too ridiculous!

"This is really strange."

"It's one thing that none of them came to look for me, but why did they set a hundred thousand-year battle date with that Long Yutian instead?"The glazed celestial emperor scratched his head and muttered to himself, "Could it be that this kid named ye Xiao is actually ye Hongchen's son? His actions are exactly the same..."

Beside him, the Purple Dragon and Golden Phoenix looked at the sky in front of them with excitement. They looked as if they were about to cry, which caused the glazed celestial emperor to be surprised. "My dear ministers, what is the reason for this?"

When he turned his head to look, he saw that there was a brilliant golden light and thousands of auspicious colors. Waves of dragon roars and Phoenix cries that were similar to his previous ones echoed through the sky.

A purple-gold dragon and a seven-colored Phoenix were playing in the sky.

The purple-gold dragon was about a thousand feet long. The Phoenix and the purple-gold dragon were about the same size. When they spread their wings, they were also no less than a thousand feet long.

With one leap and the other straight, the light reflected off them became interesting. Two shadows were playing in the sky, chasing each other, at this place where the battle was about to begin, waves of happy and satisfied laughter came from the place.

Such a huge creature playing in the air did not make the spectators feel disgusted. Instead, it was the naivety and innocence that made the hearts of all the spectators feel cleansed.

That one dragon and one wind was the leaf emperor, Ye Huang.

Chapter 1956: The So-called Destiny

At this moment, although Ye Di and Ye Huang were still in their infancy, their growth rate was extremely fast. The body of the Dragon and Phoenix was originally a race favored by the heavens. Ye Di and Ye Huang also possessed supreme innate talent, and they also had the help of Ye Xiao's endless space, for ordinary people who yearned for a particularly difficult pill, to the two of them, it was just a snack that they were fed up with!

In particular, the two little ones still had the super cheat, the idiot, to teach them from time to time. The two great spirit plants, the void vine, and the helpers of the three feet secular world, the speed at which the two little ones, Ye Di and Ye Huang, had advanced..., they had really reached an unimaginable level.

At this moment, the two little ones actually possessed the cultivation of the third sky of the eternal realm. Their true combat strength was estimated that even an expert at the fifth sky of the eternal realm might not necessarily be able to defeat them. They were truly formidable!

However, the two little ones' minds were still like two little children. They were innocent and pure. Their hearts were filled with innocence.

The two little ones had been cultivating in the endless space during this period of time. Although their cultivation speed had increased by leaps and bounds and they were able to travel tens of thousands of miles in a day, the two little ones' minds were still immature. In the past, Ye Xiao would at most release them out of the endless space, however, they were still restricted by the Hall of Life and Death Tree Fort. It was difficult for them to play to their heart's content. Today, Ye Xiao had taken the initiative to release them and allowed them to play freely in the sky. This was an unprecedented treatment. The two little ones were happy with their freedom. How could they not play to their heart's content!

The two of them chased and chased each other in the sky, enjoying themselves to their heart's content. They completely turned a blind eye to the hundreds of millions of experts surrounding them.

With my father by our side, even if all the powerful existences in the world were gathered here, what did we have to be afraid of?

Since there was nothing to be afraid of, it was not time to enjoy ourselves. What more when? Their eyes could not help but be filled with dragons and phoenixes, enjoying themselves to their heart's content!

Looking at Ye Emperor Ye Huang's innocent and carefree play, and the powerful might that was naturally overflowing around her, the Purple Dragon King and the Golden Phoenix King, as parents, naturally felt inexplicably excited. If they had not tried their best to restrain themselves, they would have almost burst into tears.

Back then, if they had left their children by ye Xiao's side, it would have been their limit to be able to reach the first or second grade of the sacred origin realm within such a short period of time, no matter how much effort they put in to nurture them.

However, the two little ones had only stayed by ye Xiao's side for less than two years, and they had already reached the third level of the Eternal Realm!

This was undoubtedly a miracle that the two of them did not even dare to dream of.

The glazed celestial emperor looked at the Ye Emperor, Ye Huang, who was frolicking over there, and looked at the excited purple dragon and Golden Phoenix. He seemed to be deep in thought., he said indifferently, "Chi Huo's cultivation has greatly improved now. I'm afraid that he has already broken through to the eternal realm. Back then, one less old man died, but unexpectedly, he was able to obtain another opportunity and break through the shackles!"

When the Purple Dragon King heard that, it was as if a bucket of cold water had splashed down in his head. He immediately became alert and said in astonishment, "En, Chi Huo actually did not die? !"

The glazed celestial emperor smiled and replied with an "OH", but didn't say anything else.

However, the Purple Dragon and the golden wind were both nervous.

The glazed celestial emperor was forthright and straightforward. He could be said to be extremely magnanimous and was a rare wise ruler.

However, the dragon and Phoenix Kings couldn't help but have doubts... if the two of them continued to hide the matter between the two of them, it would inevitably leave a grudge in the Great Emperor's heart.

"That Dragon and Phoenix..."the Golden Phoenix king coughed, and a rare hesitation appeared on his usually bright and beautiful face.

Heavenly emperor glaze laughed, "That dragon and Phoenix are indeed very handsome and outstanding."

The Purple Dragon King braced himself and said, "That Dragon and Phoenix are actually my... son and the Phoenix King's daughter."

The glazed celestial emperor's eyes were half-closed, he said, "I have long guessed that this is a private matter between your two families. It is not wrong to be selfish for the sake of your children. As a parent, how can I not understand this?"

The Purple Dragon King's heart immediately relaxed. He simply recounted what had happened that day and then apologized again and again.

After all, Ye Hongchen and ye Xiao were public enemies of the heavens, but the direct descendants of the two of them were following ye Xiao by his side. No matter what their original intentions were, they could not be described in a good way!

"In just a short two to three years, you've really improved so much..."the glazed celestial emperor's eyes suddenly widened as he looked at ye Emperor, Ye Huang, who was chasing in midair, his eyes shone

with a strange light. "This ye Xiao really has the ability to pierce through the heavens and the earth. Not only does he have the ability to resurrect the dead and prolong life, he also has the ability to train people like this."

"My two beloved ministers, if you tell us frankly, it is enough to show that Chi Cheng, I have no reason to take offense. Furthermore... I have never been a heartless person." Heavenly Emperor Glaze said a sentence that did not make any sense and suddenly sighed again.

The Purple Dragon King and Golden Phoenix King were completely confused.

What's Wrong With Your Majesty? We have never questioned your words from the beginning to the end!

Little did they know that heavenly emperor glaze actually meant something else. At this moment, he was even thinking in his heart: Your Sons and daughters are with him? 'what is that??' 'My Daughter... isn't she with him as well...'

'your son and daughter are just enjoying themselves at his side, but my daughter... seems to have been charmed by him. She's stuck in the mud and can't extricate herself.'

'she's about to be kidnapped... do you two clueless people understand my reluctance to part with her...'

Thinking of this, heavenly emperor glaze couldn't help but sigh heavily again. He had a conflicted look on his face..

He felt as if he had raised a beautiful cabbage in his house, but it had fallen into the pig pen and could be eaten by a pig at any time... that feeling.

Even if that pig was very outstanding and excellent, he was still in a bad mood..

"Sigh..."

This sigh was filled with emotion.

Golden Phoenix King and Purple Dragon King looked at each other. Their hearts, which had been relieved, were raised again. However, both of them were familiar with heavenly emperor glaze's character. If he said that he did not mind, he would definitely not mind. He would never settle scores later! Perhaps he had thought of something else because of today's incident? !

White light flashed in the sky, and a red cloud rose up. Mr. Ye Hongchen had a golden dragon on his left and a white phoenix on his right. Stepping on the red clouds that filled the sky, he appeared above the battlefield.

"Ye Hongchen!" The glazed celestial emperor saw ye Hongchen and suddenly shouted sternly, "The sound of the battle promise is still ringing in my ears. Why isn't it you who fights with me today?"

Ye Hongchen laughed, "When all the dust has settled, there will be a day when I will have to fight with you. However, right now, it is a battle of who belongs to whom in the world. The meaning of fighting with the two brothers is obvious. When that time comes, I will find you and break the sky!"

The glazed celestial emperor snorted and scolded, "Bah, how can I be blessed to have a brother like you!"

The resentment in his tone could be said to be deep, but he no longer hesitated to continue the challenge.

The Eastern Heavenly Emperor, Bai Yutian, looked over from afar. A deep suspicion flashed through his eyes.

The Northern Heavenly Emperor, Han Jianghai's expression also darkened. He looked coldly at heavenly emperor glaze, he said darkly, "Heavenly emperor glaze and Mister Ye are indeed worthy of being the parties involved in the gambling match back then. They are actually much more familiar with each other than us."

Glazed celestial emperor chuckled and said, "Who I am familiar with, is none of your business? !"

Han Jianghai said coldly, "Who you are familiar with naturally has nothing to do with me. However, you have joined hands to deceive the heroes of the world for 100,000 years, but it is not only related to me, it is related to everyone in the world."

Glazed celestial emperor laughed loudly. "So what if it is related? If you are not convinced, come and hit me..."

When heavenly emperor glaze said this, the entire boundless sea instantly fell into a strange state of dumbfoundedness and speechlessness..

There was no other reason. It was because this heavenly emperor glaze's words were really too explosive.

Was this something that his majesty, the Heavenly Emperor of the generation, could say?

Even if it was a hooligan or a scumbag who roamed the jianghu... it didn't seem like there were many people who were as cheap as him..

Ye Hongchen laughed out loud, "Liu Li, don't forget the agreement between us. There's no need to be so serious with those people. If you don't have enough combat power then, wouldn't that ruin the nature of our duel?"

Heavenly emperor Liu Li grimaced, "I don't have the time to care about you now. Call Me Liu Li when you need me. When you don't need me, pretend to be more than half-hearted!"

Ye Hongchen was immediately dumbfounded. He turned from joy to anger and said, "What the hell did you say?"

Glazed celestial emperor ignored a certain person and turned around to leave.

Ye Hongchen said angrily, "Glazed celestial emperor, you B * Stard! I'm going to kill glazed celestial emperor! beat him to death!"

Everyone was dumbfounded.

What kind of agreement did these two mighty figures have? It didn't sound like the hundred thousand year retirement bet..

..

At this moment, a white cloud suddenly appeared in the sky. The entire sky suddenly became pure and holy.

A white-robed figure seemed to appear out of thin air as he strode out.

The person had a calm smile on his face. Anyone who saw him would subconsciously have a good impression of him. Beside him, there were two beautiful women beside him.

Young master Bai and graceful cloud.

Bai Chen, Wan 'er, Xiu 'er, and the three magnates of the overturning cloud and rain tower came together!

"Ye Xiao challenged the great emperor of the southern sky, Long Yutian, head-on. What a great show..." Bai Chen smiled calmly, however, he was thinking in his heart, 'with ye Xiao's shrewdness, he must have absolute confidence in taking the initiative to challenge me... I can take this opportunity to see how ye Xiao's current strength compares to mine.'

At this moment, only the three of them had come to the overturned Cloud Rain Pavilion. The number of people could be said to be much smaller than any of the factions present. However, when young master Bai opened his eyes and swept across this area.., that powerful and domineering aura gave everyone present a feeling that they were on par with the four corners of the world.

Under the suppression of such an aura, the two sides by his side naturally became empty. The division of factions was clear.

Young Master Bai, who had just arrived, could not help but focus his gaze on ye Emperor and Ye Huang, who were flying and playing in the air. His expression was unprecedentedly solemn.

"These are the rumored ye Xiao's dragon son and Dragon Daughter? They are indeed extraordinary!"

Young Master Bai stared at Ye Emperor and Ye Huang for a long while. A strange light suddenly flashed in his eyes. "The talent of this dragon and Phoenix is actually so extraordinary?"

Wan 'er said in puzzlement, "How did young master know that their talent was extraordinary?"

Young Master Bai snorted, "However, I know a little. Back then, the Purple Dragon Golden Wind pursued and killed divine lord redfire more than four years ago. However, the cause of this matter was that redfire stole their dragon-phoenix eggs and caused damage."

"That incident, the Dragon and Phoenix Kings came with great fanfare and finally gave up. If there wasn't a corresponding turning point, how could this be? In fact, from then on, Ye Xiao had a dragon son and a phoenix daughter. This explained the problem in the first place!"

"After linking up the cause and effect, it wasn't difficult to come to the truth. Scarlet Flame didn't really kill the dragon and Phoenix Egg back then, or perhaps it was because ye Xiao thought of a way to save

the Dragon and Phoenix Egg that there was a follow-up.”. “From that time onwards, the dragon and Phoenix Egg hatched and was born. Until now, it has only been four to five years. In these four to five years, the dragon and Phoenix Twins’ cultivation from the beginning of their descent to the present third stage of the eternal realm wasn’t easy. No matter how excellent the cultivation atmosphere was, no matter how carefully they were nurtured, it would be impossible for them to have such achievements without extraordinary talent!”

Young Master Bai’s gaze was deep. “The future accomplishments of this little dragon and Little Phoenix are almost predictable. If such existences can not be killed at the speed of lightning, then the only thing that can be done is to befriend them.”

“That’s because they are already legends now. After that, they will only continue to write legends and create myths!”

Young Master Bai Sighed lightly, his handsome brows slightly furrowed as he said, “In my life, although I’ve encountered countless setbacks, I’ve always been able to avoid danger and reap blessings from misfortune.”

“My fortune is undoubtedly very thick, and I’ve never seen anyone with better luck than me, with better fortune than me. That’s why I’ve always thought that I was the destined one. But now it seems...”

Young Master Bai looked at the Dragon and Phoenix, then at the camp of the Pavilion of Lords, and said in a deep voice, “Ye Xiao is actually more like the destined one than me, the person favored by the fate of Heaven and Earth.”

Young master Bai said coldly, “But... my destiny has already been verified. Why... is there an existence like ye Xiao? What is this god doing? What does he want to do? !”

Chapter 1957: The Great Battle Against The Southern Sky Emperor!

Towards this question, Wan ‘er and Xiu ‘er could only stare blankly, completely unable to express their opinions.

After all, this question was too high-level. Even Young Master Bai himself was mystified, let alone Wan ‘er and Xiu ‘er!

Of course, young master Bai was only immersed in his thoughts and casually said that. He didn’t expect to obtain any answers from Wan ‘er and Xiu ‘er. As his thoughts flashed, he once again focused his gaze on the arena.

At this point, all the qualified spectators had arrived.

The only thing that was lacking was that both sides had yet to arrive.

Based on the current lineup, it could be said that those who were qualified to watch the battle here were all the top experts in the entire beyond heavens realm of the red dust realm. Not a single one of them had missed, and they were all wiped out in one fell swoop!

Those whose cultivation base was below the eternal realm simply did not have the qualifications to watch the battle here.

Even if they were just watching the battle, they still needed to have a considerable amount of strength. Just the aftermath of the battle between these two experts was enough to blow experts below the eternal realm into dust, as if they were dust in the sky.

If they were too far away, they wouldn't be able to see it. If they were too close, they would be blown to death before they could even see it..

In this place, it was no longer an exaggeration to say that someone would be blown to death in one breath. Instead, it was just a trivial matter!

The spectators all had their own thoughts and plans.

Finally, the Sun Rose High in the sky. The sun shone down on the vast expanse of land and covered the mountains and rivers..

Following a long whistle, a majestic voice was heard saying, "I didn't expect that so many old friends would gather here for today's battle. This has truly surprised me. What a pleasant surprise! What a pleasant surprise!"

It was the Great Emperor of South Heaven, Long Yutian, who was the first to appear.

With a smile on his face, he walked over leisurely and confidently, as if he didn't care about the upcoming battle at all. It was as if victory was in his grasp.

He greeted everyone around him and then turned his sharp eyes to the side of the Pavilion of Lords, he said indifferently, "Why, hasn't monarch ye arrived yet? Could it be that he was scared out of his wits and ran away? "Why is this necessary... I am still an elder, so how can I really care about a junior who doesn't know the immensity of Heaven and earth? As long as monarch ye admits defeat, I will naturally be lenient with him!"

A certain emperor's dominance style was becoming more and more ample. Regardless of whether one knew it or not, at this moment, they all realized that Long Yutian was announcing a declaration of victory in advance!

On the side of the monarch's pavilion.., chi Huo said coldly, "My Lord Monarch is invincible under the heavens. To deal with a mere southern sky emperor is as easy as killing a chicken with an ox knife. However, it's as easy as flipping a hand! "On the other hand, His Majesty the Dragon Emperor has surprised us greatly. We are not surprised by His Majesty the Dragon Emperor's nonsense. After all, we are on the verge of death and are daydreaming. It's normal for us to talk about wishful thinking. However, His Majesty has arrived so early, which really surprises us. Could it be that he knew that he was going to die, so he decided to come a little earlier and let the pain go?"

Emperor nan Tian's expression turned cold as he sternly said, "Chi Huo, you little yellow-mouthed brat actually have a sharp tongue!"

This sentence caused everyone to collectively laugh.

Looking at Chi Huo's aged appearance, he was actually called a little yellow-mouthed brat. It was indeed a little... that.

However, Emperor Nan Tian was a veteran expert from over a hundred thousand years ago. Compared to him, Chi Huo was really incomparable in terms of age. Even... The word 'little yellow-mouthed brat' was a little too big..

Chi Huo did not show any signs of weakness. "Don't Tell Me That Only Your Majesty the Dragon Emperor is allowed to fart continuously and not allow me to speak a few words of the truth?!"

Emperor nan Tian could not contain his anger as he floated up, a sharp glint flashed across his eyes. "Since ye Xiao is cowardly and has given up on the battle, I will first kill you, a scumbag who is wagging his tail and shouting in order to establish my authority. An outdated veteran cultivator is still an old man after all. I can not be considered to have suppressed the younger generation too much!"

At the side, Ye Hongchen was about to make a move. He had originally planned to stir up trouble and fight on ye Xiao's behalf. It didn't matter if ye Xiao advanced to the eternal realm or broke through the emotion level, there was still a short period of time, it was inevitable that he would make some mistakes when facing an old veteran peak expert like Long Yutian. If possible, Ye Hongchen still felt that it was better to end long Yutian himself!

Just as ye Hongchen was about to make his move., a long laugh shook the sky. "So, Long Yutian is just a person who bullies the weak and fears the strong. He doesn't dare to fight with me and will only kill my subordinates. Could this be the demeanor of the so-called strongest expert in the world? He's really awe-inspiring!"

A white shadow seemed to have materialized from thin air and quietly appeared between Chi Huo and Long Yutian.

It was ye Xiao.

Compared to Long Yutian's equipment, ye Xiao's attire was more casual. Long Yutian had at least a layer of armor on him. On the other hand, ye Xiao was dressed in casual attire without any protection.

He stood between heaven and earth with his bare hands and his white robe. A cool breeze blew and his white robe fluttered. His black hair fluttered in the wind and his entire person was like a jade statue. He was handsome, elegant, and outstanding.

He was a handsome young master of the Zhuo Shi clan, a handsome young man.

And at the moment he appeared, not only the southern emperor, but also the Eastern Emperor, Bai Yutian, the Northern Emperor, Han Canghai, and the glazed celestial emperor, Xuanyuan Liuli, all of these top-notch experts had their gazes focused on him!

Young Master Bai's eyes instantly widened as he stared fixedly at ye Xiao.

These few people were not the only ones who lost their composure. Even Mister Ye Hongchen, who had just seen ye Xiao a few days ago, widened his eyes as he grimaced in pain.

The current ye Xiao was merely standing in the air, but he was as vast as the vast ocean. His entire person seemed to have completely fused with the entire universe.

He could no longer be separated!

His sleeves seemed to be fluttering with the wind. However, in the eyes of peak experts like Mister Ye da, the Five Heavenly Emperors, and the other peak experts, it was the wind of the entire universe. Ying ye Xiao's sleeves were fluttering, and it was not just the wind, but also the clouds, as well as the entire universe. The mountains, rivers, and mountains were one breath in total, and the universe and the Earth were with him.

Such a mysterious realm was something that countless cultivators who had searched for the Great Dao for millions of years in the mortal world and beyond would not be able to obtain even if they spent their entire lives.

However, the moment ye Xiao appeared, this transcendent realm appeared just like that.

Long Yutian's pupils suddenly constricted. He stared at ye Xiao and said in a deep voice, "Ye Xiao, I have underestimated you."

Ye Xiao said in a bashful manner, "In the eyes of the Dragon Emperor, where has the existence of the world's heroes ever existed?"

This sentence was actually a form of praise from a certain point of view.

Long Yutian was one of the five heavenly emperors, and he was publicly recognized as one of the peak experts in the world. He had the ability to look down on all the heroes of the world!

However, at this moment, along with ye Xiao's previous words of recruiting people, it immediately changed. It became that the Great Emperor of South Heaven, Long Yutian, did not take the heroes of the world to heart at all.

Not taking them to heart and not taking them to heart were two completely different things.

Long Yutian snorted, he said, "Monarch Ye, today is the battle between you and me. This kind of empty talk will only increase your power, or will it increase your chances of winning? Or is it because monarch ye does not have confidence in this battle and is trying to boost his own courage?!"

Ye Xiao laughed out loud. "It seems that there is really no point in talking too much. Your Majesty, Please Give Me a move!"

A cruel look immediately appeared in long Yutian's eyes as he slowly pulled out his sword, "Ye Xiao, today, I'll let you experience my sword of the South!"

Ye Xiao said in surprise, "Eh? What do you mean by that? Don't Tell Me That Your Majesty, the Dragon Emperor, actually needs to use a sword when facing a junior like me..."

As soon as ye Xiao said that, the crowd of spectators started to jeer. Long Yutian's expression immediately changed — what ye Xiao said was truly not wrong. Even though ye Xiao's cultivation progress was astonishingly fast, even though he was the leader of a region.., he was still a little kid deep down. His true age was not even comparable to the last two in long Yutian's lifespan. With his status as the Dragon Emperor, it was indeed beneath him to draw his sword before they even exchanged blows!

Long Yutian was immediately stunned by ye Xiao's words. For a moment, he did not know whether he should directly draw his sword, put it away, or let ye Xiao draw his sword as well!

However, what ye Xiao said next shocked everyone present, it almost made the Dragon King's nose crooked. "Otherwise, why would the Dragon King be so prescient? I thought that I was the only one who knew that I could deal with you with my bare hands. "It turns out that the Dragon King came to a similar conclusion, but we think alike."

Ye Xiao smiled. "However, under the circumstances where the gap in strength is too great, it is not something that can be improved without mental preparation. "Just like the Dragon Emperor, to me, there is no difference between using your fists and using your sword. All of you are completely unable to withstand a single blow!"

Ye Xiao paused for a moment before saying, "Therefore, I have also decided to use my bare hands to experience the Dragon Emperor's superior moves. Or, I can let this battle of cornered beasts last for a little longer. If I end this battle too soon, I would be letting down the audience who are eagerly looking forward to it."

Ye Xiao was all smiles. "Please, please make your move."

Long Yutian's face was filled with blood after hearing ye Xiao's words. He was so furious that his hair stood on end. "Ye Xiao, die!"

Before he could finish his sentence, his entire person and his sword had already transformed into a massive ball of sword light as he rushed over with incomparable momentum.

Long Yutian was very clear that he was definitely not a match for ye Xiao in terms of bickering. No, even in the entire beyond Avalon of red dust, ye Xiao's bickering skills were the strongest. There was no one like him. Rather than continuing to entangle himself.., he might as well cut the Gordian knot. He would start the battle right away. As long as he killed ye Xiao, everything would be over.

"Long Yutian's state of mind is in a mess! His state of mind is actually in a mess? !" Bai Yutian sighed deeply. "In a battle between top-notch experts of the same level, he has only just started the battle, and his state of mind has already been affected by his opponent. This is practically the same as announcing the outcome of this battle in advance. This... This is simply..."

He shook his head and did not continue.

The few heavenly monarchs who were watching the battle also let out a sigh when they saw this.

Young Master Bai's eyes flashed and he snorted. "Long Yutian is indeed worthy of being the overlord of a region. He deliberately pretended to be enraged and brandished his sword to kill. He perfectly solved the problem of having a cheap weapon in his hand. He is truly brilliant."

"As a party in a life and death battle, his actions are understandable. It's just that... although his actions seem to have gained an advantage, he did not know that he was already at a disadvantage in his heart. This was because the moment he did not choose to put down his weapon, he had already admitted that he did not rely on his advantage and that he was not strong enough to compete with his opponent. In fact, he even thought that he was not strong enough. "Since he already had this kind of mentality, how could he have the confidence to press forward and win!"

"In a battle of this level, losing the confidence to win is equivalent to losing confidence in oneself. This is the true fatal losing trend!"

Young Master Bai Sighed deeply. “Long Yutian has no chance of winning this battle. His performance has disappointed me to the extreme!”

Wan ‘Er and Xiu ‘er were flabbergasted.

The Great Southern Sky Emperor was determined to be defeated by young master before he even made a move?

The two of them turned their heads and saw ye Xiao raise his right hand. He drew a wonderful arc and suddenly swung out —

Bang!

Ye Xiao’s ordinary-looking palm blade accurately struck the sword of the Southern Sky Emperor, which was so brilliant that it was impossible to see the trajectory of the attack!

As expected, when the palm and the sword came into direct contact, a circle of invisible ripples suddenly spread out in the air.

The southern sky emperor turned his body and borrowed the force to turn the momentum. The long sword suddenly slashed down forcefully, but this attack used the long sword as a machete and directly chopped down with the top of his head.

Ye Xiao flipped his body and threw his left hand backward. He pressed his thumb out gently and coincidentally met the blade of Long Yutian’s sword. In this exchange, one of them took advantage of the situation and attacked with even more power than before, the other person seemed to have acted casually and coincidentally met the attack head-on

In any case, the pure white thumb and the shiny blade clashed together.

One side was fair and delicate, while the other side was cold and sharp. Such a strong contrast was shocking to the people watching the battle.

However, in the seemingly disproportionate second exchange, the two people’s figures trembled for an instant... and they were evenly matched!

Everyone present was still shocked by the scene at the beginning of their exchange. However, ye Xiao and ye Xiao did not take a break. With the snap of a finger, the two sides had already exchanged more than a hundred moves in midair.

In everyone’s eyes, there seemed to be hundreds of ye Xiao and Emperor Nan Tian engaged in a fierce battle in the sky.

Different figures and different movements.

Ye Xiao used his right hand to strike the longsword horizontally.

Both sides retreated and flipped out..

Ye Xiao’s left thumb casually pressed out..

The instant the sword tip came into contact with ye Xiao’s finger..

Ye Xiao's finger pressed against the tip of the sword and kicked out. Emperor nan Tian's right leg was used to receive the attack..

As both parties were sent flying back by the impact of the force, a spatial crack appeared at the point of impact..

This scene was caused by the extremely fast movement speed and the fact that the person who made the move contained the essence, energy, and spirit of the person who made the move, leaving an afterimage in the air as he broke through the spatial restriction.

When all the spectators saw this scene, their hearts were shaken and their souls were shaken. They faintly felt as if they were suffocating.

From the beginning to the end, ye Xiao had appeared calm and composed. The offensive and defensive techniques he displayed were also the most common and most basic elemental energy usage. There was no need to talk about subtle or profound mysteries at all. It was the same for the southern sky heavenly emperor's side.

Although the battle mode of the two of them was unprecedentedly intense, they had already exchanged over a thousand moves along the way. However, they did not see a single move or half-move. They were all simple and straightforward moves.

"Both sides fought with a steady and steady fighting style, just like a dignified teacher and a righteous flag. They definitely would not take risks and hope for luck."Ye Hongchen nodded. "Although Long Yutian is probing, ye Xiao is also waiting. "After such a long time, both sides have yet to unleash their true strength. The steady attitude of these two people has exceeded my expectations."

Bai Feng smiled sweetly, "Long Yutian is an old-brand powerhouse, a heavenly emperor of a generation, and he also holds a divine weapon. He has lost all his face after being unable to take down ye Xiao for such a long time. However, he has always maintained a steady and steady strategy. Although it is unexpected, it is within reason. "However, ye Xiao is still so young, but he can still maintain his composure. This is truly unexpected."

Ye Hongchen smiled faintly and said, "Feng 'er, you misunderstood my meaning. What I said was unexpected, and not just what you saw."

"Oh? I have to ask for Master Ye's guidance on this!" Bai Feng said.

The couple had a very close relationship. They would occasionally play tricks, but Golden Dragon, who was standing beside them, had his mouth full of dog food!

While the two of them were talking, ye Xiao and Long Yutian had already launched hundreds of attacks each.

The sound of the air being torn apart by the force was getting louder and louder.

Ye Hongchen and the other two continued to look at the battlefield while communicating with each other.

"What I said was unexpected. Although Long Yutian is able to keep his cool, ye Xiao is not just playing it safe."Ye Hongchen smiled.

“Oh? Other than a slow and steady fight, what else is there?” Bai Feng was really puzzled this time.

“A strategic strategy.” Ye Hongchen said, “This strategic strategy is the key to determining the final outcome of the battle. The longer the trial period lasts, the more difficult it will be for Long Yutian to recover from his defeat.”

“Big Brother means that the current battle situation is the result of ye Xiao deliberately creating or even deliberately maintaining the situation!?” This time, not only Bai Feng, but even the golden dragon beside him was also puzzled.

“You are all great experts in cultivation, but you have also made the mistake of being blinded by a leaf. This was deliberately created by ye Xiao to temper your atmosphere.”

Ye Hongchen said lightly, “He has just broken through the emotion level. Although his cultivation has improved greatly and he has reached the peak that cultivators in this world can reach, it is precisely because he has suddenly reached the peak that his own strength, martial arts, experience, and other aspects outside of cultivation are difficult to reach the same level. He may not even be able to use it easily, let alone control it as he pleases.”

“Under such circumstances, it’s not impossible for him to defeat Royal Dragon. However, even if he manages to win, he will have to pay a heavy price. Perhaps, his cultivation base will be severely damaged, and it will be difficult for him to recover. However, this battle is inevitable. If he misses it, Royal Dragon will immediately return to the southern sky and fight against the southern sky. Then, he will have no choice but to go to the base camp of the Southern Heaven and earth people. He will not be able to gain the upper hand in any aspect.”

Ye Hongchen said, “This was supposed to be a dilemma, but ye Xiao managed to find a way to solve the dilemma and lengthen the battle as much as possible... with a super powerhouse like Long Yutian feeding him moves, allowing him to gradually familiarize himself with and gain full control over his sudden increase in power, and then winning the battle, it would undoubtedly be the best solution. The current ye Xiao is a peerless divine blade that has just been forged. “On the other hand, Long Yutian is not only a hard grindstone, but also a huge hammer at the same time. Through repeated tempering, hammering and hammering, this sword that is already at the divine edge level has been hammered into the final impurities!”

Ye Hongchen said, “If I’m not wrong, after another hundred moves, ye Xiao will most likely fall into an unprecedented disadvantage, and he will only have to struggle to hold on for a while.”

He smiled faintly, “Now is the stage of forging impurities with a sledgehammer. We are at a stalemate, and it is difficult to tell who is stronger. The next step is to hold on for a while to sharpen the edge. No matter how different the texture is, if it can not be sharpened, it will still be a useless piece of trash! Only after sharpening and sharpening will it become a world-shaking sharp sword.”

The development of the situation was just as ye Hongchen had expected. After nearly a hundred moves, ye Xiao’s original calmness disappeared.

Faced with the South Heaven Emperor’s storm-like attack, ye Xiao gradually found it difficult to deal with it. Bit by bit, he fell into a disadvantage. He could only parry and no longer had the ability to fight back. He fell into an unprecedented passive position.

As he gradually fell into a disadvantage, ye Xiao also tried his best to turn the situation around. However, when faced with the experienced South Heaven Emperor's vast and dense attack, which was as vast as mountains, seas, and the sky, and the earth., ye Xiao's counterattack was like a moth flying into a flame. It flashed for an instant before it could no longer continue, sighing helplessly.

In the audience's view, ye Xiao, from the beginning, had both offense and defense. Slowly, he became more on defense and less on offense. After that, his entire person was like a small boat that had sunk into a violent ocean, he was bobbing up and down in the turbulent waves, struggling with all his might. He was in danger of capsizing at any moment!

The breathing of all the spectators could not help but become a little heavy.

The people from the sovereign pavilion's side were even more worried. Only Chi Huo, who had the highest cultivation, could vaguely guess something, but it was difficult to be certain. His expression was uncertain, only Xuan Bing., even though he saw that ye Xiao had fallen into a complete disadvantage, he was still filled with confidence in his young master. However, this confidence came from blindly following, and Fei Guan had really seen through some trick!

Jun Yinglian watched the battle calmly.

There was no shock, no anger, no joy, no sadness.

To Jun Yinglian and Xuan Bing, everything was acceptable. If ye Xiao won, everyone would be happy. If ye Xiao lost, he would die. In that case, they could just return together.

He had always been prepared to walk the same path in life and death. Instead, he was even calmer.

Although Emperor South Heaven's face was still as calm as ever, he was already feeling extremely happy deep down. If he did not try his best to restrain himself, he would have roared into the sky. After all, he had been feeling depressed and humiliated all this time, after being humiliated for so long, he had finally gained the upper hand today. How could he not feel happy.

However, Long Yutian was still a peak expert of the current generation. He knew that ye Xiao was not a weakling. For an expert like him, falling into a disadvantage was not the end. As long as he had the slightest bit of spare time, he could turn defeat into victory unless his opponent died, otherwise, any advantage would only be temporary. It would only be an illusion!

As such, the more southern Emperor had the upper hand, the more steady he became. Every move and move he made, he would never relax. He would seize every opportunity and relentlessly pursue ye Xiao. He wanted to turn his advantage into victory and completely suppress his opponent, so that ye Xiao would have no chance of turning back!

Ye Xiao's situation was becoming more and more precarious.

Chapter 1958: Victory In Battle

The glazed celestial emperor's brows gradually furrowed, he muttered, "How can this be? How can it be like this? This match was ye Xiao's suggestion. Since he was the one who challenged first, how could he dare to bring it up without a certain level of confidence? However, since he was confident, how could the situation have evolved to this point? Could it be that ye Xiao was blindly arrogant and misjudged

long Yutian's strength? Or was it that he was too inexperienced in facing the enemy and had overexerted himself, causing him to be unable to recover in time... ?"

Although the glazed celestial emperor was also an expert at the peak of the world, he was not ye Hongchen after all.

Other than knowing ye Xiao very well, Ye Hongchen also knew that ye Xiao had broken through the love barrier. Only then did he see the subtle guesses that appeared in all of ye Xiao's actions and the crux of his current situation. However, the others were one after another, they were all puzzled after thinking about it for a long time.

Don't look at how black ice was always full of confidence in ye Xiao. He only believed because he believed, not because it was a matter of judgment!

There was also Chi Huo. Chi Huo understood ye Xiao's ability to turn the impossible into the possible. Every time he was amazed, he would vaguely guess something based on the current situation and his own experience, but he did not dare to be sure in the end, there was a mixture of sadness and joy, and both of them went to extremes. He was hoping that he would be right, but he was also afraid that he would be wrong. His mood was fluctuating, but no one present could compare to him!

"Actually, considering ye Xiao's age... to be able to hold his own against an expert like the southern sky emperor for three thousand moves in a head-on battle is already very difficult. It can even be said that... This kid is from beyond the heavens of the mortal world. Other than Bai Chen, he is also a peerless genius that is rarely seen in billions of years... but he is still too young, and his edge is too exposed. He has no eyes for anyone else, and it is inevitable that he will be defeated."

The Heavenly Emperor of the east, Bai Yutian, let out a light sigh as a relaxed expression appeared on his face.

After all, once ye Xiao was defeated, the Ye family army would basically have nothing to do with the future of beyond Avalon of red dust. With just ye Hongchen and the seven golden lotuses, even if their individual martial strength was extraordinary, it would still be difficult for them to affect the overall situation.

As the situation changed, beyond Avalon of red dust would become a huge cake, quietly waiting for their son, Bai Chen, to eat it one bite at a time..

Wan 'Er and Xiu 'er also had worried expressions on their faces. Looking at the battlefield, they could be considered to have quite a good relationship with ye Xiao. Even though they were enemies, enemies and not friends, they still hoped that ye Xiao would win in the current battle situation.

Furthermore, if ye Xiao was defeated in the end, would it mean that... the five heavenly monarchs were still the peak of this world, the peak that no one could shake, overpower, or surpass? Ye Xiao was just like that., was young master Bai also... Just Like That?

Bai Chen furrowed his brows. There was a contemplative look in his eyes as he said softly, "There's something strange about this matter... since ye Xiao is favored by fate, he definitely has a way to turn the tables. Let's just see if he can turn the tables..."

"I don't know why, but I just feel that something is very wrong." Bai Chen looked at the scene and muttered, "I seem to have already sensed the scent of a conspiracy, but..."

"Ye Xiao, this emperor always feels that you are a talent that can be created. If you were to be annihilated for a while, it would be a pity. If you surrender now, then there will definitely be a place for you in the Great Hall of South Heaven!" Long Yutian's voice rang out slowly and majestically, "Below one person, above hundreds of millions of people, you can afford it!" How about it

Ye Xiao's face was already covered in sweat. When he heard Long Yutian's words to persuade him to surrender, he gritted his teeth and snorted coldly, "In your dreams!"

After saying that, his body suddenly flipped, and the Purple Qi around his body suddenly soared. "Long Yutian, take this sword of mine!"

A magnificent purple qi shot out like a long rainbow. Ye Xiao's attack had actually increased by almost ten times in that instant!

The might of this sword was shockingly unprecedented. Could it be that ye Xiao's period of disadvantage had already ended? !

"Hahaha... struggling on the brink of death!" Long Yutian let out a long laugh. "I've long thought that you would have this move. If ye Xiao still has any other abilities, you can use them one by one. This emperor will let you use them to your heart's content so that you won't be unsatisfied with your defeat!"

With a horizontal slash of his longsword, long Yutian actually blocked the purple rainbow sword head-on. He forcefully faced off against the purple extreme famous sword that ye Xiao used as a sword with his palm. It was like a tsunami that blocked ye Xiao's vigorous counterattack. He completely blocked it!

Ye Xiao tried his best to counterattack but to no avail. The more he saw, the more he was drenched in sweat. However, his hands were not slow in the slightest. Another series of attacks came in succession. Purple clouds rose into the sky. Although he did not have a sword in his hand at this moment., however, the purple extreme famous sword that he used his hand as a sword was still filled with sword qi. The entire battleground, the sky, and the ground were filled with purple clouds. The purple atmosphere filled the sky.

Sword Wind shot out in all directions. Everyone present felt that their bodies were overflowing with waves of a cold chill.

"Ye Xiao indeed has a backup plan to turn the situation around. It can only be said that... only a veteran expert like the southern sky emperor could have so many trump cards to completely suppress ye Xiao's counterattack... if he was just a little weaker, he probably wouldn't have been able to do it. However, ye Xiao's counterattack was within long Yutian's budget, and his defense could be said to be watertight. As the saying goes, if you go all out, you will fall again, and if you go all out again, you will be exhausted again. It is impossible for ye Xiao's counterattack to remain in such an extreme state. Once ye Xiao's attack falls back, it will be time for long Yutian to launch a large-scale counterattack. At that time, I'm afraid that it will be the moment of ye Xiao's defeat..."

In a corner, Ling wuxie followed behind a leisurely purple-robed middle-aged man. As he listened to the purple-robed middle-aged man's comments, he silently nodded.

Ling Wuxie himself admitted that if ye Xiao was facing him in the current battle situation, he would have turned the tables long ago.

However, seeing ye Xiao fight against the Heavenly Emperor alone with his own eyes, Ling Wuxie's heart was also filled with great waves.

Who would have thought that this ant-like little shrimp that he had seen in the frigid sun continent back then would actually be able to fight against the peak of this world, the Heavenly Emperor, alone, in front of him today? !

Even if ye Xiao was not a match for the southern sky heavenly emperor, even if he died here, he was truly much, much stronger than him..

Ling wuxie sighed in his heart.

As the battle continued, as if confirming the judgment of the purple-robed middle-aged man, ye Xiao's counterattack had no effect at all. A large amount of spiritual energy was used up, and the situation was getting worse and worse. It gradually turned into a situation where he was being completely suppressed, he could not even deliver a single counterattack.

The majestic figure of the southern sky heavenly emperor filled the entire sky at this moment. He was completely suppressed by the wind and had an overwhelming advantage.

Ye Xiao was still struggling, but wounds were already starting to appear on his body.

Blood was slowly flowing out.

Anyone could tell that ye Xiao had no way to turn the situation around.

He would definitely lose.

The situation was set in stone!

Emperor nan Tian's heart was already filled with excitement. One had to know that before he made his move and even during the early stages of the battle, he was still under a lot of pressure. Ye Xiao was so arrogant, yet he didn't even use a weapon, furthermore, his aura was so strong. If he did not have a trump card, how could he be like this? Today's battle would not be easy to fight..

Emperor nan Tian had always been very careful in his battle. Every moment, he was on high alert, afraid that any loopholes would appear. He did not dare to be the slightest bit careless.

After all, he still had injuries on his body and had not fully recovered. Once a flaw appeared, the situation would be irreversible!

However, he did not expect ye Xiao's combat strength to be even weaker than his!

Long Yutian, who had initially come to this conclusion, still did not dare to believe it. However, the battle situation had continued to this extent. It could be said that everything was under his control. There was no turning back anymore. Only then did the southern sky emperor dare to be truly certain, the heavens were actually still looking out for him. He was clearly at the end of the road. He was clearly at the end of the road, but there was still this precious turning point in front of him!

This was really Wahahahaha..

The current Southern Sky Emperor was no longer in a hurry to kill ye Xiao. Instead, he acted like a cat toying with a mouse. He toyed with ye Xiao to his heart's content and wreaked havoc, continuously creating wounds on ye Xiao's body..

The Joy in Long Yutian's heart at this moment was really hard to describe. It was simply too exhilarating!

"Ye Xiao!"The Great Emperor of the southern sky, Long Yutian, let out a long roar that shook the sky. "As the saying goes, the sins of the heavens can be forgiven, but the sins of the self can not be lived! If there is a next life, you must remember to act according to your abilities. There are some people that you can not afford to offend! Hahaha..."

Amidst the loud laughter, the southern sky sword in his hand shone with a pitch-black luster that was even darker than the night. It was as if he had moved the Netherworld into broad daylight. "Go to hell!"

The pure black sword light was like the Yellow Springs of the Netherworld, charging straight for ye Xiao's heart.

Long Yutian was still a celestial emperor. Intentionally torturing his opponent in front of everyone's eyes not only did it seem too ungentlemanly, but it would also incur the disgust of the other experts present, especially ye Hongchen. He really was torturing and killing ye Xiao.., there was no guarantee that ye Hongchen would disregard his status and position and attack him. To be able to play ye Xiao to death today was already a complete accomplishment, so there was no need to create additional complications. Therefore, although he still felt that he was not done yet, he still chose to kill him, completely eliminating any potential dangers.

At this moment, ye Xiao felt very sad in his heart. He sighed helplessly, but there was nothing he could do.

He had put on a lot of pretense in order to continue this big show. However, even though he had already achieved the level of best actor, it was still not enough. Why did long Yutian think of killing him? He had not loved being tortured enough yet? Why did he not continue?

Well, it was not that ye Xiao had a special habit of not being tortured enough. It was just that someone was still one last step away from being able to completely master it.

However, at this juncture, Royal Dragon, who had been very cooperative and had been torturing him so much, actually gave up and killed him..

"Useless Thing!"Ye Xiao cursed in frustration, "Your Face... how much is it worth? !"

Ye Xiao, who was clearly at an absolute disadvantage and had already fallen into a dead end, suddenly turned around like a white horse in the blink of an eye. In the nick of time, he moved at an extremely fast speed, and with a 'bang'sound, his left hand.., he actually struck the tip of Nan Tian's sword!

Long Yutian, who was about to taste the blood of his enemy, suddenly felt an unmatched and powerful force coming from the tip of the sword. The power of this powerful force was simply too terrifying, it was more than ten times the strongest force that ye Xiao had previously displayed!

When Emperor Nan Tian saw this sudden change, he could not help but let out a cry of surprise. No matter how steady and determined he was, his entire body shook violently as if he had been struck by lightning. He actually could not move at all.

Boom!

As for the divine weapon that Long Yutian had bragged about being nan Tian's sword, it was shattered into pieces by ye Xiao's punch!

The shattered pieces carried the light of the sword qi and scattered without a trace. They were like dust in the sky.

This sudden change was not only unexpected, but it was also out of everyone's expectations. Ye Xiao was clearly in a desperate situation just a moment ago, and it was difficult for him to deal with it. Why did he suddenly counter-attack forcefully? In fact, he even managed to counter-attack with a single strike, he shattered the top-grade divine weapon that Long Yutian thought was the Great Wall, the Southern Sky Sword!

Under everyone's stunned gazes, ye Xiao's counterattack did not stop. Instead, it became more and more intense

The Purple Qi on ye Xiao's body seemed to have solidified. After that sudden punch, he spun around, and his left foot followed an unpredictable trajectory and ruthlessly kicked long Yutian's lower abdomen!

Long Yutian let out a miserable howl. His entire body was bent backward, and he was sent flying like a yuan treasure by ye Xiao.

Ye Xiao's body flashed, and he closely followed long Yutian's body that was sent flying. His pair of feet continuously kicked out with an unbroken momentum. In just a few breaths., however, over a thousand feet had already landed on Long Yutian, the Great Emperor of South Heaven, without the slightest bit of pretense!

Boom!

The Great Emperor of South Heaven's protective armor followed in the footsteps of the Great Emperor of South Heaven's sword strike. It was directly kicked into pieces and no longer existed.

Royal Dragon's heart was filled with chaos at this moment. His mind was filled with shock and confusion, but he had already completely collapsed from ye Xiao's crazy attack.

There was only one thought in his heart: How... How is this possible? How could he do it? I clearly had the upper hand, I clearly didn't want to continue this one-sided torture and killed this bastard. How did it suddenly become my defeat? How could I lose? ..

Suddenly, he let out a roar, and a burst of energy erupted from his body. It was Emperor Nan Tian who had used his entire cultivation base to explode his ultimate strength. Such power was tyrannical, and this ultimate move was extremely powerful. If he were to face it head-on., even if an expert at the peak of the world was struck by it, he would have to pay a heavy price. Even if he did not die, he would still be heavily injured!

At this moment, whether it was one of the other five heavenly emperors or Mister Ye, they had to temporarily avoid its peak and give way to its edge!

Once this technique was unleashed, ye Xiao was indeed forced to retreat. The continuous attacks were immediately restrained.

Long Yutian's ultimate technique was unleashed, forcing ye Xiao to retreat. Just as he was about to heave a sigh of relief and open his mouth to say something, ye Xiao unexpectedly took a step back and advanced again. An ordinary fist came straight at him, and it was completely unbiased.., it landed squarely on long Yutian's throat!

PFFT!

Long Yutian's burly body fell back in the air and tumbled backward. He opened his mouth and spat out not just a few words, but pieces of his internal organs and large mouthfuls of blood.

Ye Xiao did not pursue.

This attack was enough. Previously, Long Yutian had suffered over a thousand consecutive kicks from ye Xiao, and his injuries could not get any worse. When Long Yutian was in danger, he used all his strength to push ye Xiao to his limits. Although he successfully forced ye Xiao Away.., in reality, his body was already on the verge of collapsing. Otherwise, with the attainments of the peak of the southern sky great emperor, how could he not be wary of ye Xiao's retreat and advancement? Reality was just that he had the will but not the strength, he knew that ye Xiao would definitely attack again, but he had no way to respond. That was why he was hit in the throat by ye Xiao!

And Ye Xiao's last attack had completely destroyed long Yutian's remaining Yuan Qi. It marked the end of the battle!

Chapter 1959: South Heaven Belongs To Me!

As Ye Xiao withdrew his hand, the Purple Qi east arrival divine art that was originally released turned into a protective treatment for his injuries. As he circulated it, the many wounds on his body quickly disappeared without a trace. With another thought, a white robe appeared in the air, draped over his body..,

ye Xiao actually managed to calmly tidy up his appearance. He took out a mirror and looked at it. After tidying up his hair, he nodded his head in satisfaction and put the mirror away.

His demeanor was that of a handsome man who had just returned from a spring outing. He brushed off the dust on his body.

After his actions, he was still as elegant as ever. He was still as handsome as ever. He was still... extremely cocky.

His eyes quietly looked at the southern Sky Emperor, who was still rolling in the air and unable to control himself at all. There was no expression in his eyes at all.

The entire place was completely silent!

All of this had happened too strangely, too suddenly, and too suddenly. All of this had happened in less than thirty breaths, so how did it end up like this? !

Everyone could not believe what they were seeing. They stretched out their necks, stared with their eyes wide open, and gaped at the scene in front of them..

It was like a collective nightmare. The eyeballs on the ground were bouncing wildly.

Even Ye Hongchen, who had expected this battle, did not expect this battle to end in such a way! Ye Xiao's counterattack was so sharp and unstoppable!

Emperor nan Tian, who had the upper hand a moment ago and was killing himself in pain, had fallen into a situation where he did not know whether he was alive or dead in the blink of an eye!

The person who had ended this battle had been killed by his opponent in the blink of an eye. What the hell was this? !

A huge question mark appeared in everyone's hearts. How could this be?

This was especially so for the experts of the Southern Heaven and earth. They felt as if they had fallen into a five-mile dream. They did not dare to believe it at all.

However, it did not matter whether they did not dare to believe it or not. The truth was clear in front of their eyes. Emperor nan Tian had lost!

This was too obvious a fact. Even if they did not want to admit it, but... how could it be fake under the eyes of so many people?

All of their faces were filled with despair as if they had lost their parents!

In the distance, Emperor South Heaven's body, which was rolling non-stop, suddenly trembled. A round blood fountain, which had never been seen before, suddenly spurting out from Long Yutian's mouth and shot into the sky..

After a long while, Long Yutian's body finally stood still after a series of swaying movements.

However, everyone knew that Southern Heaven's great emperor was finished!

At this moment, not only was Southern Heaven's great emperor's body destroyed, even his primordial spirit was no longer condensed. Although he could still stand and speak at this moment, his essence was already a dead person!

It was only because his last breath of vital qi, which he had cultivated for hundreds of thousands of years, had yet to dissipate. That was all. It could not even be considered as a return to the afterlife!

Although his body still looked tall and sturdy, it was actually just an empty shell.

His internal organs had all been spat out along with the blood arrow just now.

Other than the last bit of vital qi in his dantian, which had yet to dissipate, this body had no more vitality left.

With such an injury, he was bound to die!

Even if ye Xiao was willing to save him, even if he had to take out all the heavenly materials and earthly treasures in the endless space and the Dan Cloud Divine Pill, he would still have to sigh helplessly. This was because the body of the Great Emperor of South Heaven, Long Yutian, was no longer even the most basic element of the human body. How could he prolong his life? !

Ye Xiao solemnly watched as long Yutian stabilized his body. Then, he quietly watched as long Yutian floated towards him from afar. He did not move at all.

“I’ve lost this battle.” Long Yutian’s body stood in the air in front of ye Xiao. His eyes were dull and lifeless. There was not even a shred of life in them.

Ye Xiao nodded and sighed, “Yes, you’ve lost.”

As the person involved, ye Xiao naturally knew that the person standing in front of him was actually just a corpse.

Long Yutian was already dead.

The only thing that came to talk to him now was the last bit of his unreconciled soul, a little bit of obsession.

The last bit of Long Yutian’s soul was obsessed with his muddled defeat. He came over to ask ye Xiao about the truth of the matter. Perhaps after he finished asking, or perhaps before he finished asking, this little bit of soul had already dissipated and no longer existed in this world.

“Why? Why Did I lose?” Long Yutian asked mechanically.

Ye Xiao said in a low voice, “The reason is very simple. The situation where you had the upper hand previously was just an illusion. I can create an illusion! “My real cultivation base has already far surpassed yours. It has even surpassed the two supreme figures of the north and south in the past. I have been suppressing my cultivation base to fight with you previously. “I need to use you to temper myself so that my cultivation level, which has grown too quickly, can be used by me.”

“Originally, if you hadn’t killed me, this show would have continued for a while. However, since you’ve gone to the extreme, I naturally won’t hold back anymore. In any case, my goal of training is almost complete.”

Royal Dragon heaved a sigh of relief as if a heavy burden had been lifted off his shoulders. “I see. This is the truth. Everything I saw was an illusion...”

After a pause, long Yutian asked, “So you’re saying that you’ve already reached the supreme-being realm?”

The moment he said this, everyone’s ears perked up.

Ye Xiao sighed and shook his head. “Not yet. I’m not a supreme-being yet.”

Long Yutian smiled comfortingly and nodded. “So you’re not, not yet...”

After saying this, Long Yutian's body suddenly transformed into a stream of light with a 'boom'. After his body exploded and scattered, he actually disappeared. It was as though he had just melted into the air.., not a single drop was left.

At the level of a grand cultivator like long Yutian, his original body had long been refined into a special existence like physical spiritual energy. It was difficult for ordinary people to be injured, and even if they were injured, they could quickly recover. However, once their foundation was not restored.., for someone like Long Yutian, even his internal organs had completely erupted out of his body, and the rest of his body would naturally melt into this world..

Ye Xiao took a light breath and retracted the words he had yet to finish.

"... I am indeed not a supreme-being, but I am even stronger than the legendary supreme-being realm in the realm beyond the mortal world. Perhaps, there shouldn't be a supreme-being realm in the realm beyond the mortal world..."

He did not say it.

Because Royal Dragon was already dead.

His soul and spirit had been completely extinguished.

He could no longer hear it.

Ye Xiao did not want to tell anyone else either.

..

Just like that, the intense battle came to an end.

Everyone present still looked as if they had fallen into a dream and had yet to wake up.

"Nantian has lost!"

Ye Hongchen, who had the highest cultivation and had long expected this battle, was the first to wake up, he shouted, "I wonder, Nantian Lords, where do we go from here? Do we follow the Great Emperor's agreement and belong to the sovereign pavilion, or do we choose to leave and return to our homeland?"

Prime Minister Su Mohun and the number one person of the Southern Sky Army, Fang Zhenyun, had ashen expressions on their faces. They were at a loss and did not know what to do.

For top-tier experts like them, such a situation should not have happened. However, it also proved that the unexpected death of Long Yutian had dealt a blow to them. Their spiritual pillar had been destroyed, and they were all at a loss and could not adapt to it!

Ye Xiao smiled and said, "Everyone, feel free to leave. Ye Xiao will not force you. I only hope that in the future..."

He smiled meaningfully.

Su Mohun raised his head to the sky and let out a long sigh. He bowed respectfully to ye Xiao, he said, "The Great Emperor was defeated. I should have followed the agreement between the Great Emperor and the monarch to serve the monarch... However, I am already old and disheartened. Therefore... I want to return to South Heaven and settle the emperor's affairs. After that, I will live in seclusion and never come out. "Please allow us, your Majesty."

According to the battle agreement between Long Yutian and ye Xiao, they were now ye Xiao's subordinates.

That was why su Mohun spoke in such a lowly tone.

This was naturally not servile, but... he was still loyal to the Great Emperor of South Heaven, obeying and personally carrying out the last order of the Great Emperor of South Heaven, Long Yutian.

Ye Xiao closed his eyes and said, "Permission granted."

"Thank you, my Lord, for your help." Su Mohun seemed to have aged a thousand years in an instant. His originally rosy face was completely gone. His face was full of wrinkles, and he looked old and frail. His back was hunched, and even his steps seemed to be staggering..

This was not an act, but a complete death of his heart.

His heart was as dead as Ash!

Fang zhenyun let out a long sigh and stepped out from the crowd. "Prime Minister Su and I have made the same choice. We wish to return to our homeland and send the Emperor on his final journey. From now on, he will never appear again." He raised his head, his gaze was firm. "When the Emperor is buried in peace, my soul will be destroyed in front of the emperor's tomb. "The Emperor was a hero for his entire life. Today, he died in battle and is still a ghost hero. There are brothers who will follow him. The Netherworld is far away. How can we let the Emperor travel alone?"

Ye Xiao said in a deep voice, "Allow!"

Following that, Lu Buyi stood out shakily, "This old man will return with Brother Zhenyun. The Great Emperor has fallen, and the throne is false. However, he is still my brother. The words of life and death that followed me back then are still ringing in my ears. Please allow me, Your Majesty."

Ye Xiao nodded, but in his heart, he felt an endless sense of desolation.

Although Long Yutian had many things that people criticized, he was still worthy of being one of the five celestial emperors. He was an outstanding person in the world.

Even if he were to fall, there were still so many brothers who were willing to follow him in life and death. Even if they were to die, it would not be in vain!

Following that, hundreds of people from the southern sky camp stepped out one after another to resign. Ye Xiaoxiao allowed them to do so without any grudges.

This group of people finally bowed deeply to ye Xiaoxiao. Then, they completely ignored the countless experts who were watching the battle. They turned around and left as if they did not see anything. As

for their own subordinates, they were willing to follow them on their own accord, hence, they followed them. They did not force those who were unwilling.

These people quietly disappeared from this place and headed south.

They did not even return to the temporary camp.

A group of desolate figures gradually disappeared into the horizon.

..

Ye Xiao looked towards the south. When he saw the disappearing figures of the crowd, he gently exhaled. After which, he turned around. However, he was already filled with a heroic spirit. His cold and sharp eyes swept across the surrounding crowd as he spoke with a pause after each word.., he slowly announced, "From today onwards, South Heaven belongs to the Lord Pavilion and to Me!"

The people from the Lord Pavilion immediately broke out into loud cheers.

The Lord Pavilion used the power of this battle to announce that South Heaven and earth would belong to the Lord Pavilion from now on!

It would belong to the Lord Pavilion!

Bai Yutian's face turned pale as he stared at the space where Long Yutian died. He did not say anything for a long time before he waved his hand and left.

Han Jianghai also did not say a word as he turned around and left.

However, just as he was about to leave, he heard a clear voice laughing, "Your Majesty."

Han Jianghai turned around and saw Bai Chen standing a few hundred Zhang behind him. He looked at Han Jianghai with a warm gaze and the person said softly, "Now that South Heaven has changed hands, I wonder when North Heaven will belong to me?"

When Han Jianghai heard that, he felt an extreme tyrannical emotion that filled the entire bottom of his heart. He could not suppress it at all. He said angrily, "You want North Heaven to change? That depends on whether you have the fate or the ability!"

After saying that, he snorted angrily and turned around to leave.

Bai Chen laughed loudly, looking extremely delighted.

..

On the way back to his own base, Wan 'er and Xiu'er had a worried look on their faces.

Bai Chen turned his head and asked in amusement, "What's wrong with the two of you?"

Wan 'er wanted to say something, but she hesitated. After pondering for a long while, she finally said, "Young master... You've always regarded monarch ye as your opponent... but now..."

Young Master Bai was elated and asked, "What's wrong with that now?"

Wan 'er said worriedly, "Now... that monarch ye is no longer the same as before... all I can say is that he has the ability to easily defeat Great Emperor South Heaven... This..."

Young Master Bai smiled faintly. "So What?"

He raised his head and looked at the surging sea of clouds in front of him, he smiled and said, "What I regret in my life is that it is difficult to find an opponent. "Along the way, the opponent that I originally recognized has either died or was unable to recover from the setback. Fortunately, I still have the monarch smile, so I won't be too lonely in my life! At first, I had thought that this opponent's true combat strength was limited and that it would be difficult for me to face him head-on. Now that ye Xiao has grown to such an extent, he is the opponent that I desire the most in this life. Such a great joy should be revealed

"To be able to fight such an opponent, to use the heavens as a battlefield, to use the earth as a chessboard, to use the heroes of the world and the cultivators of the secular world as chess pieces, and to engage in a fierce battle, regardless of victory or defeat, life or death, is a great joy in one's Life!"

Xiu'er's expression turned solemn, she said in a deep voice, "Young master, you should be glad that you have an opponent. However, you shouldn't treat him blindly. You and I both know that ye Xiao is an unworldly alchemy grandmaster. The fact that the pavilion of life and death of the sovereign pavilion has its current situation is closely related to its unworldly alchemy skills. Just by saying that the pavilion of the Sovereign Pavilion has bribed the southern sky division, this method is not only effective on the southern sky division, but it is also extremely attractive to the soldiers of any force in the world. Originally, Lord Ye's actual combat strength was shallow and not worth mentioning. However, now that he has the strength to easily kill one of the five celestial emperors, it can not be taken lightly. In addition, there seems to be some unknown but real connection between Lord Ye and Mister Ye Hongchen. Based on my comprehensive analysis, the current strength of the pavilion of the sovereign pavilion is not inferior to ours..."

Young Master Bai laughed out loud. "Didn't the two of you look down on ye Xiao in the past? Why has your opinion changed after seeing him defeat a heavenly emperor by himself?"

Wan 'er furrowed her brows tightly and said softly, "Young Master, why are you still so indecent? The two of us were worried for young master because we witnessed Lord Ye's combat strength with our own eyes. Yet, young master is acting like this. How is it that the two of us aren't worried? !"

At this point, Bai Chen's expression finally returned to calm, he slowly said, "I understand what the two of you are thinking. Ye Xiao's performance during this battle was indeed stunning, but you only know that ye Xiao's strength is no longer what it was in the past. He was able to win against Long Yutian without a doubt, but how could you not know that my strength is a level higher? !"

His handsome long brows furrowed and he said proudly, "Wan 'er, Xiu 'er, I can say here that if ye Xiao knew that I, Bai Chen, had always thought that he was my opponent, he would definitely be proud of it!"

Chapter 1960: Extremely Strange!

After saying that, young master Bai let out a long laugh and flew out quickly. "At this moment, ye Xiao was one step ahead of us. Everything will be discussed after I have pacified the Cold River Sea!"

..

In the following period of time, ye Xiao entered the state of being a boss.

Firstly, the reception of the southern sky army was very smooth. The eastern sky side did not come to cause trouble, while young master Bai and the overturning cloud and rain pavilion were focused on dealing with the northern sky army and did not have the time to cause trouble. As for Veluriyam capital., heavenly Emperor Veluriyam stood by and did nothing as usual.

The flower king, Poison King, and the others were all very enthusiastic about the work of recruiting the Southern Sky Army. They were all as excited as if they had been injected with stimulants.

After all, to the people of the sovereign pavilion, the results of the current period were simply too gratifying. From the very beginning, everyone was on the verge of death. They were extremely weak and very cautious. Step by step, they had grown into a colossus, they were only one step away from unifying the world!

Everyone's enthusiasm soared to the point of bursting.

The nine big shots of the Brotherhood were also extremely excited. Although they had only joined the sovereign pavilion for a short period of time, they had already washed away the decadence from before, and all the hardships had come to an end!

As for the Black Fiend monarch, white dragon, Qiu Luo, seven star general, Twelve Hall Masters, and the others, their excitement was no less than those of the people above. The old buddies of the sovereign pavilion were all rubbing their fists and rubbing their palms, they did not even bother to hide their desire to have a big fight. The brothers of the Brotherhood who had just joined the Southern Sky Army were all in high spirits. Even the Southern Sky Army who had just joined the army., their eyes were filled with anticipation. After all, they had only been here for a few days and the entire southern sky territory of one of the five directions had already been taken over by the monarch. Such an astonishing efficiency was truly exciting!

Towards these soldiers who had come over, a series of fear and unease settled in their hearts. Regardless of whether it was their identity of betraying their master, their shallow foundation, or even the strength of the pavilion itself, it was still not strong. It was merely the weakest of the powers in the heavens., these many worries, however, after officially joining the pavilion, after going through the baptism of a blood oath and the great formation of the Hall of Life and death, the feeling of being truly acknowledged, as well as the benefits of cultivation that they personally experienced., the pleasure of suddenly cultivating tens of times faster made them feel as if they were in a dream.

And the benefits that the sovereign pavilion gave them were far more than that. The first rule of the sovereign pavilion during wartime was: all brothers who died in battle would receive preferential compensation. The family members would receive a token of the sovereign pavilion's family. With this token, if their family members were to suffer injustice or injustice, they would be able to react beyond their level and pass through without any obstruction. They would be able to face the sovereign pavilion's chief law enforcement officers and complain about their grievances.

During this period of time, those who dared to obstruct them, apart from those who obstructed them, would have to die. Even the entire family of those who obstructed them would have to sit down together!

This iron rule was not to be changed by anyone!

Looking at the specific content of the compensation, to the Southern Sky Army, it was at least a hundred times more generous than the treatment the Southern Sky Army received!

Many of the southern sky army soldiers who had just arrived were stunned just by looking at this piece of compensation.

“F * ck! Even if there’s nothing else, just this compensation alone is worth dying in battle!”

This was basically their mentality. How could they not put in effort in battle and not risk their lives? !

Of course, the conditions for the monarch pavilion to issue the token were also quite harsh. The token was only limited to soldiers who had fallen during the founding war!

In other words, only the soldiers who had sacrificed themselves during the process of pacifying the world would have the right to receive the token and enjoy such treatment.

Under other circumstances, the token would not be issued.

Putting aside the token’s effectiveness, just the origin of the token was already a supreme honor!

Under such emotions, the work of the Pavilion of Lords was in full swing. All kinds of work were done in an orderly manner, and they were all wound up like clockwork. Their enthusiasm was unprecedentedly high.

Well, not everyone in the Pavilion of Lords was working. The chief guardian of the Pavilion of Lords, Chi Huo, who was one of the three most powerful bosses in the Pavilion of Lords, did not participate in the work. Instead, old master chi went into seclusion!

Speaking of coincidences, there was really no reason to talk about it. Although Chi Huo was one of the seven-colored divine lords in the past and was a veteran powerhouse, his cultivation base had stopped at the peak of the immortal-level for tens of thousands of years, he could not break through for a long time and his lifespan was almost exhausted. He had risked his life to steal the dragon and Phoenix eggs and that had brought about a fatal crisis. By right, this old man’s luck was really terrible!

However, he had just joined the sovereign pavilion and his luck was unprecedentedly prosperous. Not only did he easily break through the limits of the immortal-level and advance to the eternal-level, he even broke through one after another in the next few years and rose all the way to the peak of the eternal-level, such progress was indeed rare except for ye Xiao.

Of course, there were a few factors that made it convenient. be it the cultivation atmosphere in the sovereign pavilion that was much better than the Blessed Land Grotto-heaven, the pill cloud divine pills that had passed the test in both quantity and quality, or the large amount of fresh dragon and Phoenix spiritual essence., it would be a miracle if his cultivation base did not improve quickly!

However, the most important factor for Chi Huo's rapid improvement was his own experience, experience, and accumulation of foundation. His cultivation base had initially stopped at the peak of immortal-level for tens of thousands of years and was on the verge of drying up. If it was someone with a slightly weaker will..., he would have long self-destructed and restarted his cultivation. However, Chi Huo had persisted and waited for his turning point, his lover!

That day, when the seven thousand eternal realm cultivators of the Pavilion of Lords came out of seclusion together, Chi Huo's cultivation had already reached the peak of the eternal realm. He felt that he could break through the limits of the eternal realm at any time and reach the eternal realm, however, he was still a little lacking. It was within his reach!

Until the battle between Ye Xiao and Long Yutian a few days ago. Among the spectators, only ye Hongchen, Xuan Bing, and Chi Huo thought that ye Xiao could win. However, Ye Hongchen knew ye Xiao's true strength and believed it because he knew it, xuan Bing believed it because he believed it. Only Chi Huo believed that ye Xiao would win because of his attainments, experience, eyesight, and understanding of ye Xiao.

After this battle, the person who gained the most from this battle was naturally ye Xiao himself. Next was Chi Huo because he directly broke through the bottleneck of the eternal realm and reached the eternal realm based on the comprehension he gained from watching this battle, he had become the second eternal realm expert in the Sovereign Pavilion!

And this temporary seclusion was to consolidate his own foundation so that his cultivation would perfectly match the realm that he had suddenly broken through!

Everyone in the sovereign pavilion was extremely busy. Only Lord ye Xiao and Lord Emperor Ye had nothing to do during this period of time. They were mostly wandering around teasing the mystic ice every day to provoke Jun Yinglian..., he would tease Bing Xinyue, urge Yue shuiyue Han to cultivate, and teach ye Emperor Ye Huang at the same time..

His days were extremely comfortable.

There was a reason why ye Xiao was able to act so comfortably. Although Chi Huo was in closed-door cultivation, the sovereign pavilion's army was rapidly forming. There was no need for ye Xiao to step in. Other external affairs would be handled by Meng youjiang, as for the more trivial matters, Xuan Bing and Jun Yinglian, the Grand Elder of the Misty Cloud Palace, and the Lord of the Heaven Ice Palace were all experts. They were not young ladies who were serious about different matters.

However, everyone knew that as long as their army was formed, regardless of whether young master Bai was ready or not, ye Xiao would immediately go out and conquer the world.

Ye Hongchen watched as ye Xiao used a method that was faster than a snowball to grow his forces from nothing. From a tender bud, he grew into a towering tree in an extremely short period of time, even though he understood the key to it and knew that it could not be replicated, he was still stunned and could not believe it.

It was truly too fast!

Such a speed of expansion was not only unprecedented, it was most likely unprecedented.

..

On Young Master Bai's side, they began to attack the northern sky emperor in full swing. No matter how beautifully they said it, ye Xiao's success this time around still gave young master bai a lot of pressure.

Young Master Bai's attacks were getting crazier and crazier. It was as if waves were surging forward, each wave higher and higher than the last. However, the northern sky emperor was not an easy target. He continuously counterattacked, and the backlash was also becoming more and more desperate, with the example of the southern sky, if they failed, the northern sky would not be able to recover. How could they not try their best to resist.

Furthermore, the overturning cloud and rain pavilion was not the sovereign pavilion after all. Even though the overturning cloud and Rain Pavilion had a new faction similar to the Sovereign Pavilion, they had the allure of serving the dragon, founding the country, and so on, however, they lacked the most direct and obvious life-saving benefits. Naturally, it was difficult to replicate the irresistible poaching tactics of the sovereign pavilion. Hence, the overturning cloud and Rain Pavilion launched many large-scale campaigns, they were unable to shake the northern sky defensive line. In fact, they were too impatient and fell into the northern Sky's defensive counterattack trap. Although the overall battle situation was quite effective, it was still far from being able to take down the northern sky completely..

However..

Everything that was originally in a stalemate suddenly changed overnight!

On this morning, Young Master Bai woke up from his meditation. However, he felt something strange about the outside world. After a pause, he finally understood: why was it so quiet today?

During this period of time, the two sides had been fighting day and night. The sounds of battle shook the sky and Earth, making it difficult for people to sleep peacefully. Young Master Bai, who preferred silence, was even more disgusted. But... But why was it so quiet this morning?

If things were abnormal, there must be something wrong. Young Master Bai did not dare to be negligent. With a thought, he rose into the sky and looked at the other side. He saw that the opposite side was in a complete mess. The billions of northern sky troops that were originally waiting for them had actually disappeared without a trace.

When young master Bai saw this, he was greatly surprised. His body rushed forward like a bolt of lightning as he sped toward the northern land.

This chase had chased him for more than ten thousand Li in one breath. Only then did he see the shadows of the Northern Sky Army fleeing in a sorry state..

Each and every one of them was as busy as stray dogs, as if they were fish that had slipped through the net.

Bai Chen could not help but feel puzzled. What was going on?

The Northern Sky Army had indeed been at a disadvantage against him during this period of time. They had lost six to seven out of ten battles. However, the overall situation was still far from such an

overwhelming defeat. At the very least, it was much better than the situation of the southern sky army that day..

The most important thing was that the northern Sky Emperor, Han Jianghai, had not suffered any damage to his own combat strength. Based on the prestige of the heavenly emperor, it was impossible for him to escape in such a sorry state..

For the first time, Bai Chen, who had always been as intelligent as the sea, felt that his brain was not enough. He was puzzled, but he sped up to catch up.

His powerful divine sense instantly enveloped the entire northern sky army, but an even more unexpected situation occurred. He was surprisingly not met with any resistance at all.

Bai Chen could not help but feel even more astonished.

What on Earth was going on?

If he had done this in the past, his divine sense would always receive a head-on blow at the first moment. The northern Sky Emperor and his high-level cultivators were not lacking at all, how could he allow himself to check the situation so brazenly?

Why was there not even a single counterattack?

What was going on?

Bai Chen frowned as he looked at the Northern Sky Army who did not care about his spiritual sense detection and were only running for their lives. He took a deep breath and decided to directly capture them!

Something must have happened, and this was something that he had to figure out.

Originally, this situation was equivalent to his overturning clouds and Raindrops Pavilion winning a great victory. However, Bai Chen did not want such a muddled victory!

As proud and arrogant as young master Bai was, how could he want such a victory!

The moment he descended, he heard the two people below talking as they ran for their lives. Young Master Bai was shocked and almost fell from the sky.

“Hurry up and run... it’s too scary...”

“I really didn’t expect that there really was a devil in this world...”

“F * ck, I was scared to death when I saw that... how miserable...”

“Let’s cut the crap and run. Even the emperors and generals were killed by the Devils one by one... We are nothing...”

“Right, let’s go, let’s Go...”

“But it’s really strange. How could so many experts be killed in a group and die so miserably...”

“How else could it be said that it was the demons who did it? Normal cultivators don’t have such an ability...”

“When I go back, I won’t come out for the rest of my life. I’ll just squat at home to feel safe... it’s really too dangerous outside...”

“That’s right... It’s fine if I die on the battlefield, but to be killed by the demons like this... to be tortured to death is too...”

“That’s right, that’s right...”

Bai Chen was shocked when he heard that.

Northern Sky Emperor Han Jianghai had died?

He had been killed by the demons?

The higher-ups had been wiped out in a single group?

When Bai Chen heard this news, he almost fell from the sky.

If one were to say that Bai Chen’s mental fortitude could be said to be in the top three in the realm beyond the mortal world, it could at least be said that he was in the top three.

If even he was shocked to such an extent, the severity of this matter could be imagined.

Young Master Bai composed himself in the air. With a quick thought, he simply spread out his spiritual sense without any scruples. Then, he locked onto the positions of the few people with the highest cultivation among the defeated army. In the next moment, he leaped down..

..

After a long time..

With a pensive look on his face, Bai Chen set off on his return journey.

However, a hint of fear could be seen on his usually calm face.

This expression of fear on young master Bai’s face was enough to prove just how terrifying this matter had become!

..
