

## Firmament 1971

Chapter 1971: The Plan Was To Implement [Supplement 14-7]

Heavenly Emperor Glaze's face turned cold, "My son-in-law is ye Xiao, the Lord of the Sovereign Pavilion, ye Xiao. Do you know that you've already gotten a good deal?"

Ye Hongchen laughed out loud, "That's what I said!" "However, your daughter didn't marry my son, but my grandson, who knows how many generations... Liuli, in the future, when you see me, remember to call me something nice. You Don't have to call me old ancestor. Just Call Me Grandpa."

Heavenly Emperor Liuli flew into a rage. "F \* CK Your Grandpa!"

Ye Hongchen felt that he had taken advantage of Heavenly Emperor Liuli. He was overjoyed and did not feel offended at all, he turned his head and narrowed his eyes at ye Xiaoxiao. "Is this all you have? Is there anything else that you don't want to hide? Is there a mistress hiding in a golden house? Let's do it together when the time comes so that we don't have to suffer the remaining grievances. If we really miss this wedding of the century, we won't come again!"

Ye Xiao stared at Ye Hongchen with his mouth agape and his heart full of speechlessness. This was the first time he saw such a funny side of this old man who had lived for hundreds of thousands of years.

Could it be any more melodramatic and stupid?

Could it be that they could continue to play happily!

"Well... since you've decided to make a big deal out of it, see if there are any suitable ones in your family. Beautiful ones, gentle ones, virtuous ones, generous ones..."Ye Hongchen turned his head and looked at the Seven Golden Lotus. "Pick a few and send them over. "The more, the better. Let your family benefit from it."

Ye Xiao finally exploded.

"What the F \* ck is this? !"

"How can there be such a forceful arrangement..."

"Who do you think I am? A tool for trading benefits, or... something like that!"

"Objection Overruled!"Ye Hongchen, the seven golden lotuses, and the glazed celestial emperor, Purple Dragon, and Golden Phoenix announced at the same time. All the peak experts were happy to suppress ye Xiao, who was a newbie, with a united front.

However, many experts, especially ye Hongchen, knew that he had gone too far after he felt the kindness in the eyes of the mysterious ice monarch, Ying Lian, and the other ladies. He decided not to add more unnecessary candidates, after all, the lethality of the mysterious ice monarch, Ying Lian, Wen Renchu, and the other ladies was obvious. Even someone as powerful as ye Hongchen, the glazed celestial emperor, would be terrified if they were to be torn apart. He did not dare to underestimate them at all!

This matter was decided in such a ridiculous way.

The main purpose of this secret meeting was to resolve the catastrophe of the mortal world beyond the heavens. However, under the influence of these people, the tone gradually changed. First, they decided on the wedding of the century without any warning, then, it turned into an unprecedentedly heated discussion about how to organize the five-party Alliance's dome to seize the sword. Everyone was in high spirits and drooling.

Naturally, no one knew that this event, which was created solely for the purpose of scamming people, would become the starting point of the true pinnacle battle in the millions of years to come. The world would belong to the most authoritative place.

And this action, which was full of clowns in the bones, actually became the starting point of a new era that was publicly acknowledged by the world in the future!

As long as there were people in the world, there would be jianghu.

There would be conflicts.

There would be power.

There would be ambition.

There would be war.

There would be kings.

There would be leaders.

There would be leaders. Naturally, there would be five-way alliance to snatch the sword!

Who was the number one in the world? Come here and compete.

Who was the Lord of the world? Come here and snatch it.

..

That night.

An unexpected visitor came to the East Heaven Emperor's residence.

One of the Seven Golden Lotuses, Yue You, elder Yue.

"One month later, at the Supreme Mountain, the five-sided alliance will compete for the sword. They will determine the number one in the world and become the ruler of the world!"

The East Heaven Emperor was stunned.

"This... number one, what does this mean? Who allowed it?"

"The second is... that F \* cking Supreme Mountain, where is it? Just a name is useless, at least tell me how to get there!"

The Eastern Heavenly Emperor was really confused.

"The Supreme Mountain only exists in the future..." Yue Youyou smiled mysteriously

“F \* ck, Yue Youyou, you big joke, why didn’t this emperor see that you were so funny in the past? !”The Eastern Heavenly Emperor, Bai Yutian, was directly angered to the point of laughter!

It had to be said that Yue Youyou’s popularity was still very outstanding. The diplomacy of the hanging leaf was basically related to this big shot, and she was actually familiar with East Emperor Bai Yutian!

Yue youyou could no longer maintain her mysteriousness, broken smile said, “I’m not joking anymore. However, the so-called supreme mountain does still exist in the future. In the next month, all the experts in the world will work together to build a Supreme Mountain in the boundless sea and the current battlefield.”

“That is the Supreme Mountain!”

“It has gathered 9,999 high-level cultivators above the eternal realm and used their own Yuan Qi as the foundation stone to build the Supreme Mountain. The Supreme Mountain, which combines the spiritual essence of many capable people as one, can not be destroyed anymore!”

“To destroy the Supreme Mountain, one needs to have the power that surpasses the combined power of 9,999 cultivators of the eternal realm. Only by condensing the supreme power into one point and releasing it into an instant destruction can it be done!”

“Otherwise, the Paragon Mountain will be eternally indestructible and will exist forever!”

“And the legend of the Alliance of the five directions and the legend of the sword snatching in the dome will also exist forever!”

After she finished speaking, Yue Youyou nodded and left with a smile.

She only left behind one sentence, “If your Majesty is willing to send out 2,000 eternal realm experts to participate in the creation of the Paragon Mountain, then gather the manpower to participate in the grand events of the world and establish the foundation of this world. If you are not willing, then don’t force it. There will be other people who can make up for it!”

Yue Youyou had just left when the East Heaven Emperor flipped the table and smashed the Teacup.

“Damn it, you guys are conspiring together for such a big thing, but you didn’t call me!”

The East Heaven Emperor was furious. “It’s fine if you didn’t call me, but you actually came to inform me after the discussion! What do you take me for? !”

Meng Huaiqing was also very dissatisfied. “This ye Hongchen, Xuanyuan Liuli, and that kid ye Xiao are really too much!”

Then, he asked, “Then, are we going or not? Are we going or not?”

“Yes! Why aren’t We Going? Not only do we have to go, but we also have to choose experts to show off the might of the Eastern Sky!”The eastern Sky Emperor stood up, he stood up, he said loudly, “Watch this daddy obtain the number one position in the world for them to see! I want them to completely submit to my feet! When I win, I will slap them one by one! Tell these arrogant fellows that they have worked hard and plotted everything; when they arrive, they will only be a wedding dress for me! Wahahaha...”

Just a moment ago, he was still roaring with anger, but now, when he thought of how proud he was, he couldn't help but laugh into the sky.

Meng Huaiqing couldn't help but roll his eyes at the side.

After so many years, he really couldn't understand how such a Joker managed to ascend to the position of the Heavenly Emperor.

Chapter 1972: Young Master Bai's Acting Skills

Tempest House.

A chessboard in front of young master Bai was currently in deep thought as he calmly placed his stone.

And the person in front of him was precisely Xiong Er.

Mm, that terrifying devil of the Spirit clan.

These two were actually playing chess here. They looked extremely comfortable, and the atmosphere was extremely harmonious.

Wan 'Er and Xiu 'er who were standing at the side didn't know at all where young master had invited this Mister Xiong Er. He didn't even give a single word before occupying a high position in Tempest House, and now it was even better.., they had to discuss everything with him as well..

And the name of this 'Mr. Xiong Er' was really..

Why did ye Hongchen's Mr. Ye seem so elegant and grand! !

However, 'Mr. Xiong Er's' tuba sounded awkward no matter how they heard it. Basically, every time they heard the young master use a gentle tone to call him 'Mr. Xiong Er'.., the two girls could not help but feel the urge to laugh.

The most intuitive feeling they had was that the young master was toying with Mister Xiong Er.

However, no matter how they looked at the young master's face, eyes, or the expression and reaction of Mister Xiong er, they could not tell anything. It was as if the two of them were overthinking things! In fact... When Xiong er heard the young master call him Mister Xiong ER, he was very satisfied. The two girls really could not understand why they were so satisfied when they were called by such a funny name!

For example, at this moment.

"Mister... Xiong Er..." young master Bai held a white piece in his hand. "If this hand falls, your dragon will no longer be able to escape the fate of being cut in half by me. On My side, I only need one piece to connect. The two eyes will be connected and the game will come to life. This round, there is no doubt about the outcome. In other words, you have lost."

Mr. Xiong er was still sitting upright. He frowned and stared at the chessboard. After a long while, he scratched his head and said, "I'll connect the chessboard first. I Won't let you cut it off."

Bai Chen said, "Then... why don't you try?"

Mr. Xiong er really made a move and connected the two pieces into one. However, this was equivalent to sending the other piece of black chess under the butcher's knife!

Bai Chen took one stone to close the gap and then used another to slay the dragon, completely destroying Mr. Xiong Er's large piece of black chess!

Wan 'Er and Xiu 'er were speechless..

There was actually such a stinky chess basket in the world. It was actually throwing itself into the trap and seeking its own death..

As for this stage, any other person who knew some chess skills would have long admitted defeat in the middle of the game..

Even those who were more shameless should have admitted defeat in the second half of the game.

Even those who were the most shameless should have thrown their stones and admitted defeat when they were officials..

However, this Mister Xiong er had clearly lost the upper hand in the middle of the game, yet he still bitterly pondered, seriously thought, and persevered. In the second half of the game, he was already at his wits'end, but he still had to hold on bitterly. Moreover, in the final stage, his chess pieces had already been drawn out with a large blank space. It could be said that he had completely lost, completely lost..

However, at this moment, Mr. Xiong er actually started to place his chess pieces in the blank space that had been drawn out..

If that was all, it could only be said that Mr. Xiong Er's skin was too thick. However, he had inexplicably constructed a robbery that would never end, and he kept on robbing the chess pieces. In the end, he actually killed his only piece of live chess... he had blocked one of his eyes!

Even a beginner Go player should know that live chess lived by two eyes, and one piece would definitely die!

Finally..

The entire chessboard was filled with white pieces, and there was no place for a black piece to land. The remaining empty spots were also filled with the eyes of the black pieces. Only then did Mr. Xiong er let out a long sigh, his voice was heavy and serious as he said, "I lost. In the end, I was still one move short."

Wan 'Er and Xiu 'er were dumbfounded.

There wasn't a single black piece left on the entire chessboard, and there wasn't even a single empty spot left. Just how thick of a skin did you have to be to say that you were 'one move short'?

Was this a move?

Young Master Bai Smiled. "Victory and defeat are common occurrences in war. As the ancient saying goes, the outcome of a chess game is reversed. If you lose a game, you just have to start all over again. Only after going through hardships can you become a hero among men; only after going through

hardships can you grow into a towering tree. Xiong er... Mister, this game was just a careless move and you were careless. There's no need to be discouraged. Come, come, let's play another game."

Thereupon, Mister Xiong er started the next game in high spirits..

Once again, he entered a new journey of being abused in high spirits..

These two people's cultivation levels were high, and they had already played such a game for three days and three nights. Not only were they not thirsty or hungry, they did not even have a lack of spirit. As long as they were willing, they could continue on endlessly.

However, the people watching could no longer bear it.

Wan 'er and Xiu'er retreated to rest with splitting headaches.

To the two of them, watching such a confrontation was torture in itself. No, it was torture!

"What exactly is young master thinking?"

"I don't know. I really don't know."

"This... I don't understand either. This Mr. Xiong er is really... a stinky chess piece..."

"Don't trample on his stinky chess basket. The so-called stinky chess basket also knows the outcome of victory or defeat. How can he be like that Mr. Xiong er who doesn't have any sense of superiority? Young master playing chess with him... is clearly an invincible national player playing chess with a newbie... yet, the two of them can still play with such an earth-shattering joy. Just the final situation alone can reach the point where it's all the same... it's really amazing and awe-inspiring..."

"I feel the same way... if I continue to watch them play go like this, I'm afraid that my understanding of go will be overturned..."

"I'm not even as good as you. I feel that my understanding of Go has already been overturned..."

"Those who get close to the ink will be red, those who get close to the ink will be black..."

"Don't spoil the ink, it should be those who get close to the ink will be black, those who get close to the pig will be stinky!"

"It makes sense, I feel the same way..."

"But young master's behavior also makes me unable to understand it..."

"I don't think so. Instead, I feel that young master is playing a big game of chess, the very, very big kind!"

"Is that so? Why Don't I feel it? Tell me in detail..."

At this moment, someone suddenly came to report.

"Reporting to young master, Mr. Ye has sent someone here. He said that he has something important to see young master."

Wan 'Er and Xiu 'er were startled when they heard that. "Who is the person who came?"

“The person who came is Guan Shanyao, who is ranked first among the seven golden lotuses. This person seems to have come with ill intentions.”

“Wait a moment. Wait for us to report to young master. Young Master, please decide.”

..

Bai Chen frowned. “Guan Shanyao came? ! What is he here for?”

Wan ‘er answered honestly, “I don’t know why he is here for the time being. It seems like he is here with bad intentions.”

Bai Chen pondered for a moment and said, “Invite him in.”

Xiong er said from the side, “Do you want me to leave for a while?”

Bai Chen said indifferently, “There’s no need to go through so much trouble. Mister is the second most important person on our side. It’s appropriate for Mister to stay here. If there’s really anything, you can help me think of an idea and weigh the pros and cons.”

Mr. Xiong er nodded his head in relief.

He had been worried that Bai Chen might have done something secret behind his back. His scheme had always been related to the future of the two races, so he had always been paying attention to the thoughts of those who were not of his race, but now that Bai Chen was willing to let him stay here and participate in this matter, it meant that he had no ulterior motives. At least, it would be difficult for him to play any tricks!

Moreover, Bai Chen’s frank attitude made Mister Xiong er feel a lot more at ease.

It seemed that this Bai Chen was very ambitious. He really wanted the position of supremacy in the world and was well-versed in the path of gains and losses. With this as a foundation, he was afraid that he would really follow me wholeheartedly..

With this thought, Mister Xiong Er’s mood immediately became even more excited.

Before long, Guan Shan Yao entered this place.

“Greetings, Young Master Bai. However, after not seeing you for a short period of time, young master’s cultivation has actually improved by a lot. This is really something to congratulate,”Guan Shan Yao said.

Bai Chen smiled and said, “Elder Guan is too polite. Bai Chen is only a junior. Even if he has improved a little, how can he enter the eyes of a top-notch expert like elder Guan? I wonder if elder Guan is here to teach me something?”

Guan Shan Yao said, “I don’t dare to teach you anything, but there is a major matter that concerns the well-being of all the people in the world. I have come under orders to discuss with young master.”

Bai Chen said with interest, “Oh? Concerns the well-being of all the people in the world? Elder Guan... This sentence has surprised me a little. Why Don’t you tell me in detail so that I can acknowledge your wisdom?”

Guan Shanyao laughed and said in a deep voice, "It's more or less the case..."

He pondered for a moment and seemed to be considering his words, a moment later, he said, "During this period of time, my Mister Ye deeply felt that in the battle for hegemony in the world, it was only for personal benefits and honor, but it caused the lives of the people to be plunged into misery and suffering. His heart truly couldn't bear it. After some thought, he looked for Lord Ye of the Dao Sovereign Pavilion, His Majesty the Heavenly Emperor, and His Majesty the Heavenly Emperor of the east to discuss countermeasures."

Young master bai frowned and said, "Can't bear to see people suffering and suffering? This..."

His gaze met with Mister Xiong ER's.

Mister Xiong er also had a look of surprise on his side. He then gave Bai Chen a look, meaning that he should listen to him.

Young master Bai nodded imperceptibly and said, "Mister Ye is compassionate towards the heavens and the people. He has a heart for the lives of the world and is truly a role model for us. However, I don't know what decisions will follow. I'm all ears."

Guan Shanyao smiled and said, "Under the discussion of the various tycoons..."

Young Master Bai suddenly cut in and asked, "The various tycoons discussed? Why didn't they call me? Could it be that the so-called various tycoons didn't include me? or could it be that the various tycoons didn't take me, the leader of a region, seriously?!"

This sentence could be said to have come out of nowhere.

The dissatisfaction in them was unconcealed.

Guan Shanyao was at a loss for words, he said with difficulty, "Regarding this... I really don't know what to think of it. I think it must be young master and His Majesty the East Heaven Emperor... It's... cough cough, it's more like... His Majesty the East Heaven Emperor has already agreed... which is... also... not..."

Bai Chen's face was filled with anger, he angrily said, "This matter is simply absurd. No matter what our private relationship is, this matter is related to who belongs to the great power of the world. He clearly said that all the magnates had gathered to discuss this matter, yet he turned a blind eye to this Bai, the Master of the tumultuous cloud pavilion. Could it be that in the eyes of all the elders, this Bai is still not a hero of a region? "If there's such a consensus, then it's fine if I don't listen to such a decision! "Lord Guan, please go back!"

His tone was firm and decisive, as if there was no turning back at all.

Guan Shanyao was instantly dumbfounded.

This... The logic in the script didn't seem to come from this..

Why did this guy suddenly become uncooperative?

How should this matter continue?

Originally, with Guan Shanyao's shrewdness and steadiness, he shouldn't be at a loss. However, this matter was originally Bai Chen's earliest draft script. His arrival should have been within his expectations, and he should have been even more highly cooperative. What kind of situation was this now? ! Could he still perform happily? !

For a moment, he was caught between a rock and a hard place. He mumbled, "This... that..."

Mister Xiong er chuckled from above, he said in a gentle voice, "Young master, please calm down for now. Why Don't you let Old Mister Guan finish his sentence?". However, old Mister Guan, what were you discussing over there? It was indeed... too... lacking in consideration, right? "My Young Master is now the world's most powerful person. He destroyed the Northern Sky Army in a single night. Such power is unparalleled in the world. He dares to say that he is one of the top three overlords in the world! "You guys are talking about something, but only our young master is left out... this is really not right."

Mr. Xiong er felt that this was the time for him to make his appearance!

Besides, he was also curious about the decision made by Ye Hongchen and ye Xiao. Naturally, he quickly came out to support him.

Bai said with a dark face, "Xiong er, don't talk too much! Such an arrogant person is bullying me too much! Guan Shanyao, you have already done it, but you still want to come here and Bully Me? This is too much. I, Bai Chen, am not someone that can be controlled by others. Even if I, Bai Chen, work together with all of you, no matter if it is a round-robin battle or a full-on encirclement, I, Bai, will take it."

Mr. Xiong er smiled apologetically, "Young Master, please take a break from your anger for now. Why don't we listen to their discussion first..."

Xiong er really did not expect that he would actually take a hot fart in order to smooth things over. He could not help but feel a little embarrassed on his face. He thought to himself, this little fellow's temper is really big... however, back then, that Brat Bai Chen was clearly weak, yet he still did not give in to him. In fact, he even forced him to make a big oath. He was originally a ruthless character who did not tolerate sand in his eyes.., it was not surprising for him to have such a performance, and it was even less surprising!

Bai Chen, on the other hand, took advantage of the situation and said coldly, "Fine, I'll listen to what tricks you people can play on account of Mr. Xiong Er."

Guan Shanyao let out a long sigh of relief and cupped his hands sincerely. "Thank you for taking care of me, Mr. ER, but I don't know who you are. If we are fated, I will definitely invite you to get drunk together."

Mr. Xiong er waved his hand in satisfaction. "You're welcome, you're welcome."

Mr. Xiong er felt very proud after giving such a huge face.

"After our... ahem... discussion, I always feel that this world is the world of the people. The world should be people-oriented. All parties should fight together, Wasting People's money and lives. Countless

people have died... therefore, all parties have decided to hold... a decisive battle between experts to determine who belongs to the world.”

Guan Shanyao coughed, after some deliberation, he said, “To put it more bluntly, Young Master Bai, your side will fight in the name of the Northern Heavens while Mister Ye will fight in the name of the Western Heavens. Monarch ye Xiaoye will fight in the name of the southern heavens while the heavenly emperor of the eastern heavens and the heavenly emperor of Veluriyam will still fight in their original identities.”

“In this way, the world will still have five sides and the Five Emperors will compete.”

“The specific rules of the final battle are as follows: each world can have three people participate in the battle, and there will be no more than twenty spectators. “The participants will be decided in advance or adjusted at random. Other than the few rulers, there will only be three people. Including the Five Heavenly Emperors themselves, the heavens will battle and seize the sword from the dome.”

Guan Shanyao said, “And the final Victor will be the supreme ruler of this world, the common ruler of the mortal world.”

Bai Chen was still muttering to himself when Xiong Er’s eyes lit up when he heard this.

‘isn’t this... isn’t this what I want... ?’

‘that’s great! Wahahaha...’

..

Chapter 1973: The Anxious Xiong Er

“As this battle is the final battle of this world, before the battle begins, the five heavenly monarchs must combine the fate that originally belonged to this world with the essence of metal to create a sword of Destiny!”

“Using fate, Fate, destiny, Heavenly Fate, Heavenly Dao...”Guan Shanyao’s expression was solemn. “To create a sword of destiny. Simply put, it was a competition between five heavens and earth for the ownership of the Paragon Sword. Whoever could win in the end, the Paragon Sword would belong to the person. This world would also belong to that person. And the heavenly fate of this world would also belong to that person.”

“In the end, this battle was jointly named by Mister Ye and the others: Five-way alliance, dome-shaped sword snatching; sword name: Paragon, Heavenly Fate.”

Guan Shanyao told all the relevant information in one breath. After all, the atmosphere just now was too awkward. Even though he knew that young master Bai might be acting on purpose, Guan Shanyao still did not want to experience it again.

Bai Chen was still deep in thought, while Xiong er, who was beside him, was trembling with excitement. He was actually overjoyed and beaming with joy.

He really didn’t know if it was because he had been imprisoned in his own cage world for too long. Once he came to this world, he would devour the souls of the peak experts and a group of peak sub-peak

experts, after a few days, he met a target who could help him fulfill his wish. After a friendly negotiation, the target very happily reached a consensus with him and established an alliance, then, such a good thing came knocking on his door!

This was basically a good thing that someone gave him a pillow when he was dozing off and a pie fell from the sky, okay? !

As long as he won in the five-party Alliance, would he be able to directly obtain the worldly realm beyond Heaven's will?

The Supreme Sword formed by fate, Fate, Destiny, and the Heavenly Dao was definitely the symbol of Heaven's will in this world. There was absolutely no room for faking it!

This matter was too good

According to Xiong ER's prediction, if they continued to fight like this, they would probably not be able to finish this battle of the century in another ten or eight years, not to mention there were too many variables.

However, this battle of the Supreme Sword, seizing the sword from the dome, was equivalent to resolving everything in this battle. With him holding the fort on Bai Chen's side, how could Bai Chen Lose?

Xiong ER's heart was filled with joy and he almost agreed on Bai Chen's behalf.

Bai Chen pondered for a moment, only then did he open his mouth and say, "Elder Guan's words are pleasant to hear. The World is the world? ! Go and fool a three-year-old child with such lofty words ! We are all people who have reached the peak of this world. If we really intend to win this battle, we will put our thoughts on the table. The so-called agreement actually doesn't inform the parties concerned to make their own decisions. Do you think I will give in so easily ? The five parties'fates are gathered together. Although we can obtain the fate of this world, if one party is missing, it will be permanently incomplete. If I don't participate, what will happen to Your Dao ? ? !"

Guan Shanyao was about to catch his breath again. Young Master Bai, Young Master Bai, let's not play like this, okay? How am I supposed to accept your words, Brat? If you don't participate in this battle, it will become a joke, okay? ! Can I really tell the truth? !

More urgent than Guan Shan Yao also bear two, he almost pounced over, forced White Childe quickly under this god-given opportunity!

Guan Shanyao laughed bitterly, "Young master Bai is worrying too much about this matter. The so-called saying that the world is under the rule of the people is a bit grandiose, but it is also true from the bottom of my heart. Now that the heavens have entered the battle, the battle has dragged on for a long time. Up till now, the losses can not be described with astronomical numbers. If the battle really goes on for a long time, the final Victor will only be a mess. Why Bother? "!"

Young master Bai said coldly, "I still feel that something is wrong with this matter... the so-called losses, the so-called people in the world, the so-called suffering of the people, but the survival of the ants is a trivial matter. If the other leaders all have such thoughts, I will really hehehe!"

When he said this, Xiong er immediately became suspicious. Indeed, how could such a good thing come one after another? Could there really be something wrong? What if there was a conspiracy or a trap? He couldn't help but hesitate.

Guan Shanyao laughed bitterly again. "Young Master, you're thinking too much about this matter. Just think about the identities of these five heavenly emperors. They are all the most respected figures in the entire beyond heavens of the mortal world... how could they join hands to set up such a trap to deal with you? "This, this, this... it's impossible for so many people to be so shameless just for your sake..."

Guan Shanyao's words were really spoken at home, and it was the truth, because the target was really not Bai Chen.

But Mr. Xiong er was beaming with joy when he heard it.

These words were not bad at all!

The people in the lead of the heavens were all figures of great status, and each one of them cherished their feathers to the extreme. How could there be so many veteran experts who would be so shameless just for a mere Bai Chen?

This matter, if anyone thought about it, would be impossible.

This sentence was actually deep in their bones: 'You, Bai Chen... Who Are You?'' 'how many rulers are working together to lie to You?'

Bai Chen hesitated and said, "That being said... but how could such a thing suddenly happen? This matter... is just a little too sudden..."

Guan Shanyao said helplessly, "Young master Bai, I'll tell you the truth. Actually, the person who made this decision was your father. I don't know if His Majesty the Eastern Sky Emperor had some fortuitous encounter recently, but he's extremely confident in his own strength and took the initiative to challenge the other three days... even if the others have some thoughts, your own father wouldn't set you up, right?"

When Xiong er heard this, his words seemed to make a lot of sense. Since this matter was initiated by young master Bai's father, everything was logical. It seemed that there was indeed nothing strange about this matter..

He saw that Bai Chen was still hesitating. He curled his lips and said, "This is a matter of belonging to the world... it's not uncommon for father and son to kill each other..."

Guan Shanyao was speechless.

Damn, Bai Chen, young master Bai, who the hell are you? Are you addicted to acting? !

Mr. Xiong er was really anxious. He hurriedly interjected, "Young master, I think this matter..."

Young Master Bai turned to look at him. "What? Do you also think it's inappropriate?"

Mr. Xiong er slapped his thigh, he said, "How is this inappropriate? Just like what this old Mister Guan said, the world belongs to all under heaven. If the competition between the heavens continues like this,

it will only bring endless destruction. Snatching the sword from the dome is truly... truly a great thing that can prevent the lives of all living beings from being plunged into misery. Young master should be helping the cause..."

"Moreover... it was young master's father who initiated it... this, if you don't cooperate... It Won't make sense."

Chapter 1974: I Will Make Up For The Deficiencies

Young master Bai frowned and said with a pensive look, "Let me think about it again..."

Mr. Xiong er said, "Aiya, what's there to think about with such a good thing... Such a good thing..."

Bai Chen stood up and paced back and forth thoughtfully. He said, "The five-party Alliance, the dome seizing the sword... The Supreme Sword name, the mandate of heaven... Well, this matter... his..."

Mr. Xiong er looked as if he was about to die of anxiety. He stared at Bai Chen, who was pacing back and forth.

His expression was so anxious that he almost rushed up and Tore Bai Chen's mouth open to agree on his behalf.

Bai Chen pondered for almost half the meal time, and Mr. Xiong er was so anxious that he almost had a heart attack.

"Since things have come to this... then it's settled!" Bai Chen finally agreed.

Mr. Xiong er wiped the sweat from his forehead and heaved a long sigh of relief.

This master's biggest problem was that he was too thoughtful. It was clearly a heaven-sent opportunity, yet he still had to be cautious and complete..

Although it would be very safe to be with such a person, sometimes he would really die from anxiety..

"Since young master has agreed, then I'll talk about the relevant details." Guan Shan Yao said, "This time, everyone needs to work together to complete the dome-shaped sword snatching, so young master needs to personally participate in the competition. Not only does young master need to participate in the creation of the Supreme Sword, but the Supreme Mountain also needs young master to send 1,999 cultivators above the sixth stage of the eternal realm... to jointly create this place."

Bai Chen was instantly enraged. "Looks like elder Guan is here to toy with me today. It's fine if I personally cooperate, but where am I going to find 1,999 experts of the sixth stage of the Eternal Realm and above? Is he clearly making fun of our lack of strength?"

Guan Shanyao had long since rolled his eyes in his heart. He thought to himself, 'you, Bai Chen, don't have that many experts on your side?'? 'Are you kidding me?'?

However, he said, "This matter... if young master is unwilling, then there's nothing we can do about it. If you can't gather enough high-level cultivators to contribute to the establishment of the Supreme Mountain, then this heavenly fate contest will have to be carried out by the four families."

Bai Chen said angrily, "What kind of statement is this? Is this a threat to me? This is such a BULLSH \* t gathering. So what if I don't go? This young master will really not go!"

Mister Xiong er hurriedly came forward. He didn't want to go? If he missed such an opportunity, the real opportunity wouldn't come again. However, he said confidently, "Young master, don't worry. As long as I have time, I can help young master... make up for the number of experts."

Bai Chen said in a flustered and exasperated voice, "Mister Xiong er, it seems that I've accepted the Northern Sky's forces, but the high-level cultivators have only accepted a few people. The number of experts at the sixth sky of the eternal realm and above that the cloud toppling rain house has is only around a thousand people. The difference is almost half. How can they find so many eternal realm experts in such a short time? How can it be created out of thin air?"

Mister Xiong er leaned on Bai Chen's ear and said, "There's really no harm in that... young master, please agree to it first. I'll solve the problem of lacking experts..."

A heavy expression appeared on Bai Chen's face, he transmitted his voice in a low voice, "Mister Xiong ER, I also know that the Battle of fate is not a trivial matter. It must be fought. However, such a huge difference in numbers is not... it's not a joke..."

Xiong er replied confidently, "Young master, don't worry. I have a way to solve it."

Bai Chen turned his head and said, "Alright, this matter concerns the people. In this world, I will agree! I only hope that there will not be any unexpected changes."

Guan Shan Yao said, "Young master, please rest assured. This time, everyone's life and reputation are all on the line. No one will make a single mistake. As long as young master can gather enough experts, that will be enough."

Bai Chen snorted. "When will this world begin?"

Guan Shanyao said, "1,999 experts at the sixth sky of the eternal realm and above must rush to the boundless sea, next to Lord Ye's residence, within half a month. Then, the five heavens and five directions, a total of 9,999 high-level cultivators, will work together to set up the heaven-revolving star Dou formation and begin to cast the Supreme Mountain, the Supreme Summit..."

"In half a month's time, we will build the supreme mountain into the most indestructible divine mountain in this world. The gathering of the leaders will be held in a month's time. The five heaven and Earth will meet at the Supreme Summit to compete for the sword."

Guan Shanyao had a smile on his face as he floated away. However, there was an aftertaste. "When the time comes, we await young master's arrival."

Bai Chen nodded. At the side, Xiong er finally said impatiently, "Don't worry, we will definitely go!"

In the blink of an eye, Guan Shanyao had already left without a trace.

It wasn't that Guan Shanyao was so impatient. It was just that a certain old lady admired a certain young master's acting skills. This was definitely the acting skills of a best actor. If Guan Shanyao didn't know the inside story, he would almost... almost believe it!

As he watched Guan Shanyao leave.., young Master Bai's face was as dark as water. "Mr. Xiong ER, the time you intervened just now was really not the right time. Although the number of eternal realm sixth pin and above experts on our side isn't as few as I said, there is indeed a gap of several hundred people. Even if we send all of them out, it's still greatly insufficient. We only have half a month's free time, so how can we make up for it? Moreover, they would need to make two preparations. If they couldn't leave behind a considerable number of people as backup, how could they feel at ease? Sigh..."

However, Mr. Xiong er had a look of confidence, he said, "It's fine, it's fine. Leave everything to me. Young master only needs to give me an accurate number later. How many people are still lacking will do. Leave the rest to me. I guarantee that when that day comes, there will definitely be 1,999 high-level cultivators of the sixth stage of the eternal realm and above for young master to drive!"

Bai Chen said, "HM? Why do you say that? This is not something to be trifled with!"

Xiong er sighed. "What's there to be trifled with? "You still remember that I devoured the northern Sky Emperor and the others, right? "The power of those people will be freely controlled by me. When that time comes, I will only need to transfer a portion of it out, and I will be able to easily create a large batch of high-level cultivators. In any case, the purpose of this batch of high-level cultivators is to use their own power to construct the Eternal Mountain Peak, and not to engage in a real battle of life and death. Right, since you want to leave behind some backup, why don't you draw out all of your subordinates' high-level Combat Power? I will make up for the deficiencies myself."

Young Master Bai came to a sudden realization. "I'm impressed by your exquisite skills, Mister Unexpected."

He then asked worriedly, "But will it damage your own strength? If it affects our grand plan, then the loss outweighs the gain!"

Mr. Xiong er said conceitedly, "More or less, it will affect us a little, but in the end, it won't affect the overall situation. I'm still confident about this."

Bai Chen let out a sigh of relief. "That's good. I'll leave everything to you, sir."

Chapter 1975: So Eager To Be Scammed

Xiong er suddenly asked, "Oh right, that old man mentioned that the initiator of this matter was your father, Emperor Dongtian. Is it young master's plan?"

Bai Chen's heart sank, but he remained calm, he shook his head and said, "This is also beyond my expectations. I had a battle with my father before and proved to him that I have the strength of a peak expert. We haven't met since then. I don't know why my father planned this, but it is clearly an extremely disadvantageous situation!"

Xiong er was surprised: "Adverse, how adverse law?"

Bai Chen revealed a wry smile, "Mister, although you are an extremely powerful person and are unrivalled in the world, your knowledge of this world is limited. Ye Hongchen and ye Xiao, who have taken the throne of the western and southern heavenly monarchs respectively, may seem like two clans with distinct barriers, but in reality, they are of the same lineage and originate from the leaves hanging in the sky. If that is all, they have the power of two days while my father and I also have the power of

two days. We are roughly equal and it is difficult to determine the victor. However, although the lord of Glazed Heaven, Xuanyuan Liuli, is the leader of the demi-humans and does not seem to be involved in the conflicts of the human race, she is actually on good terms with Ye Hongchen. It is highly likely that the three clans have formed a tacit understanding in this incident. The five-party Alliance is actually three against two, defeating my father and I in one go. Furthermore, Ye Hongchen and Xuanyuan Liuli might even be working hard to elevate ye Xiao to the throne and become the heavenly fate lord of this world!"

Xiong er suddenly came to a realization when he heard that. He chuckled and said, "I see, I see. After hearing what you said, I have really connected all the dots!"

Bai Chen subconsciously let out an "OH", but he really did not understand where Mr. Xiong ER's so-called "All the dots" came from!

However, he heard Xiong er explain, "Ye Hongchen, Ye Xiaoliu, and heavenly emperor Liu Li's plans must be as you think. As for why your father suggested this on his own, I think it's very likely because after the battle with you, you broke through your original limit and reached a higher level. It must have also given birth to the idea of unifying beyond Avalon in one battle. However, who would have thought that you would fall into the scheme of the other three people. And those three people were clearly afraid that you would see through it, so they came to inform you after everything was finalized. Even if you knew that there was a trap, you had no choice but to do it. This was a terrible situation that could not be helped, and you had no choice but to accept it. But now that young master has me, he has the capital to play along with the trap. Those who calculate others will eventually be calculated. Indeed, the Heavenly Dao has its basis, and retribution is not happy. Indeed, even the heavens are helping us, making this situation happen out of thin air!"

Bai Chen's heart was filled with excitement and excitement. F \* ck, what kind of person... What kind of ghost... What kind of spirit was this? There was obviously something fishy going on everywhere. There were suspicions everywhere, but there were no suspicions at all? This imagination skill was too overbearing. He could actually use his wishful thinking to such an extent. His generation was not as good as his generation!

However, getting this devil to spit out all the power he had devoured was also the most urgent matter at hand. At the very least, it had weakened quite a bit..

In the future, the great plan to slay the devil would be even more effective.

What was even rarer was that this fellow was so eager to be scammed. If he didn't really get scammed, he would be letting himself down too much.

Bai Chen honestly and unceremoniously withdrew his original high-end power and let Mr. Xiong er forcefully increase his strength to replenish his new power..

Naturally, when the day really came when he started to forge the sacred mountain, he would still have his own high-end strength to take action..

For a few days in a row, young master Bai made Mr. Xiong er so tired that he stuck out his tongue and panted like a dog.

Finally..

Mr. Xiong er stuck out his tongue and ran in with a pale face. His face was covered in sweat and he looked so weak that he almost fainted. "Young master, fortunately I didn't fail you."

Bai Chen nodded and said gently, "Thank you for your hard work. For the sake of our big plan, nothing must happen to you."

Mr. Xiong er suddenly felt like he was being relied on. He patted his chest and said, "Don't worry, young master. Such a small matter is nothing to me!"

Bai Chen nodded.

Mr. Xiong er went down to rest.

He almost dragged his legs down.

It was obvious that this 'effortless effort' had exhausted Mister Xiong er quite a bit. He had almost run out of fuel..

He didn't expect that the gap on young master's side would be so big..

This time, he really made a loss. Sigh, however, as long as he could succeed, this small sacrifice was still worth it..

..

Seven days passed.

Amidst the surrounding mountains, there was surprisingly a flat land.

The two thousand high-level cultivators above the sixth stage of the eternal realm who belonged to the Pavilion of Lords had already lined up neatly and were quietly waiting here.

Opposite the two thousand high-level cultivators of the Pavilion of Lords were the high-level cultivators of the demon race that Liu Litian belonged to. They were also on high alert.

On the left was the manpower of Mr. Ye Da.

On Mr. Ye Da's side, although there were many peak experts, the number of low-level high-level cultivators was relatively limited. The requirements for the two thousand cultivators above the sixth stage of the eternal realm were far from enough. The lack of manpower.., in reality, it was the sovereign pavilion's side that made up for it. Neither ye Xiao nor ye Hongchen would care about this aspect.

Auspicious colors suddenly appeared in the sky. The troops of the East Heaven Emperor, Bai Yutian's side, arrived as if they were flying.

Upon reaching their destination, they did not hesitate and headed straight east, occupying the East's position.

Bai Yutian placed his hands behind his back and looked at the troops of the three sides in front of him with a pair of eagle-like eyes.

Although he had already expected that the strength of his troops would be inferior to the three groups of people.

However, his eyes were looking down at the world from above!

They were filled with arrogance.

When Ye Hongchen and heavenly emperor glaze saw Bai Yutian arrive, they stepped out of the crowd to welcome the Eastern Heavenly Emperor.

“Ye Hongchen! Xuanyuan Liuli!” The Eastern Heavenly Emperor walked up with great strides.

His old friend and rival who had been separated for 100,000 years had actually reunited at this moment.

Bai Yutian looked over and was surprised to find that not only was his face full of pride, but Ye Hongchen, who was opposite him, was also full of pride.

Heavenly Emperor Glaze was also full of smiles. It was as if the whole world was in his grasp. If it wasn't him, who else could it be.

Were these two crazy?

“Bai Yutian, it seems that you are in a good mood because your state of mind has suddenly opened up. Even your cultivation has improved.” Ye Hongchen chuckled.

Bai Yutian touched his beard reservedly and pretended to smile indifferently. “You two, we are old. So what if we make a breakthrough in cultivation? This world should belong to the young people...”

Ye hongchen sighed and said, “That's true. We are indeed old.”

Bai Yutian was actually saying that his son, Bai Chen, was worthy of inheriting my legacy and was even stronger than me. It could be said that he was showing off the fruits of his labor.

Unexpectedly, not only were the two people opposite him not showing off, they also showed off that they were proud and excited..

Chapter 1976: A Gathering Of Heroes

Bai Yutian rolled his eyes, he said in a deep voice, “Sigh, that useless son of mine is still young, and his actions are not perfect. Even though he has such a huge force like the overturned cloud rain house, he still needs me to help take care of him... we of the older generation have already worked all our lives. When we get there, we still can't avoid supporting our descendants. I feel really tired from all the effort.”

Bai Yutian was still showing off and showing off his good son, Bai Chen. After all, in Bai Yutian's eyes, his son was the strongest among the descendants of the five heavens monarch!

Ye Hongchen once again expressed his deep sympathy and said with a sigh, “That's right. We seniors are really tired...”

The corner of Bai Yutian's mouth twitched, finally, he could not help but directly ridicule, “What are you tired of? “Not only did your son die a long time ago, even the Ye family's original family members are no

longer alive. Even if you want to worry about the future generations, you have no reason to do so... look at what I said. This emperor is really old these days. I always like to tell the truth. Don't blame me... without the future generations as a burden, it is truly relaxing. This emperor is very envious of the true happiness..."

Ye Hongchen looked troubled, he looked up to the sky and sighed, "Brother Bai, you're not lying. I really don't have a son right now. Even the sky-high ye family doesn't exist anymore, but there are still people with the Ye family's bloodline. Ye Xiao is the direct descendant of the Ye family's bloodline. That Kid has built such a big foundation now. If I don't help him, I'll be deceived by some old fools who are talking nonsense seriously. That would be the real bad thing!"

Bai Yutian was shocked. "Ye Xiao? Ye Xiao is actually a direct descendant of the Ye Family? Ye Hongchen, are you serious?"

Ye Hongchen looked extremely distressed, he sighed. "Back then, I was able to save the Ye family's old mansion and not save it. My original intention was to give up this burden, and from then on, I was at ease. However, I didn't expect... that kid, Ye Xiao, is really a direct descendant of the Ye family... tell me, how can this kid be so torturous? In the beginning, he was just a junior who ascended to the lower realm and had nothing, but now, he actually tortures such a big sovereign pavilion... I'm also very speechless about this."

The corner of Bai Yutian's mouth twitched twice, but it was his turn to be speechless.

You're Speechless? You F \* cking still dare to say that you're Speechless?

If even you're speechless, won't this father be even more speechless.

F \* CK, is there anyone who can show off like you?

You F \* cking ye Xiao is a descendant of your ye family, you should have said so earlier... you actually hid it all the way until now; you even snatched away my wife's precious disciple..

How could you say that.

To be honest, Bai Yutian really liked Yue'er. Not only did Yue'er have extraordinary talent to enter the saint realm, but she also had a sincere heart that would last till death. The Eastern Heavenly Emperor Empress would most like for Su Yeyue to marry Bai Chen, they were absolutely a perfect match, a match made in heaven!

However, Su Yeyue had a special liking for her, and Bai Chen also had a partner in his heart. He would not be moved to another person. No matter how unwilling the Eastern Heavenly Emperor Empress was, there was nothing she could do. Bai Yutian and Meng Huaiqing secretly criticized ye Xiao in all sorts of ways, the equal path little girl was like a fresh flower stuck in cow dung. Even the best cabbages in this era had been stolen by pigs!

Unexpectedly, not only did ye Xiao establish the awe-inspiring sovereign pavilion, Hall of life and death, but even the most famous immortal doctor, the Supreme Alchemist, was only a small side character, just by mentioning his battle record of killing the Southern Heavenly Emperor, Long Yutian, in front of everyone, he was now one of the Five Heavenly Emperors. He was also the only successor of the

hanging sky leaf. No matter which aspect he was compared to, he was actually slightly superior to Bai Chen!

At this moment, Bai Yutian looked at Ye Hongchen's posturing. He was obviously overjoyed in his heart, but he still had to frown and sigh. Bai Yutian almost could not catch his breath.

Bai Yutian tried hard to suppress his anger, but he turned his head and saw heavenly emperor glaze, who was watching the show at the side. He was smiling so widely that he did not even try to hide it. Bai Yutian became even angrier, he said angrily, "You Old Vixen, we are showing off because we have an outstanding descendant who can inherit our mantle and everything we have. What are you showing off for? Do you have such a descendant?"

Heavenly Emperor Glaze Sighed, he said, "Weren't you guys still worried about your descendants just now? "Me too. You guys don't know about my son-in-law. In a short period of time, he had unknowingly accomplished a few great things in the world. I was just worrying about what to use as a dowry. For ordinary things, let's not talk about whether my son-in-law likes them or not. I can't even give them to him... at that time, I might have to send the entire glazed sky over to barely get by..."

Bai Yutian was shocked. "Your son-in-law? Who is your son-in-law? Why didn't I know that there was such a talent in beyond Avalon?"

Heavenly Emperor Glaze Glared at him. "Bai Yutian, are you trying to be stupid? Didn't you hear old ye mention it just now? "It's that kid, ye Xiao... sigh, that little guy... Sigh, this is my son-in-law... sigh... What a pain, my old bones... are naturally tired..."

He actually repeated what Bai Yutian had just said with a sigh and a shake of his head.

Bai Yutian was completely stunned.

Damn it!

There was actually such a thing!

No wonder these two old geezers looked like they were about to wake up from a dream with laughter, he said resentfully, "It's still unknown who will be the victor. Don't be complacent too early. This emperor's cultivation has advanced in recent years. Who will be the number one person in this world is still uncertain!"

Heavenly emperor glaze shook his head. "Is it really too early?" "Why can't I See It? Just the Five Great Heavens and earth alone, we already occupy three sides. You and your son only have two families at best." "Let's not talk about the destruction of the upper echelons of northern sky. The northern sky that your son obtained is at most an incomplete northern sky. Take your eastern sky as an example. I heard that my son-in-law's other wife is your wife's favorite disciple, the only successor. Guess Who Your Wife will help when the time comes? ! I heard that your wife loves this last disciple the most..."

Bai Yutian was so angry that his mouth was crooked. "Shut up, you shut up! !"

Bai Yutian was truly furious at this moment. How could he bully others? was there such an all-round, three-dimensional attack? !

Just as the three parties were in an unprecedentedly heated atmosphere, they suddenly saw smoke and dust billowing from the north. The people from the overturning cloud and rain house swept up the wind and clouds and arrived in an aggressive manner.

With a clear whistle, ye Xiao stepped out from the crowd and directly stepped on the wind and clouds.

“Young Master Bai, it’s really been a long time.”

Young Master Bai of the Overturning Cloud and Raincoat Restaurant was right in front of the team. He was dressed in white and looked handsome. On the left was a graceful figure in the clouds dressed in white, while on the right was a heavenly beauty dressed in a blue dress.

Young Master Bai’s eyes were filled with a playful smile. He looked at ye Xiao and said calmly, “Monarch Ye, it’s really been a long time. Your Elegance is still the same as before. Congratulations.”

Chapter 1977: The Supreme Mountain Was Formed [Supplement 14-10]

Although his tone was not heavy, as if he was greeting old friends who had reunited after a long time, anyone could tell that there was a hint of coldness hidden in his voice.

When people heard it, they would naturally feel a sense of creepiness and creepiness.

Ye Xiao said, “Why does young master Bai look like he’s in a bad mood? Now, young master Bai can be said to be world-shaking, famous in the secular world, and has a high position and power. I wonder who else would dare to provoke young master Bai to be angry? Are they tired of living! ?”

Bai Chen said with a cold smile, “Ye Xiao, in front of a wise person, there’s no need to beat around the bush. Don’t you know the reason for this. “If you’re in the mood to be insincere and do these things, this young master disdains acting with you. But there’s one thing you must understand.”

Ye Xiao smiled, “Young Master Bai’s words are gold. Please enlighten me.”

Bai Chen said calmly, “The cycle of justice will never let anyone go. What should be yours, you take. It shouldn’t be yours. If you take it, you will have to pay a price. There will be a day when justice will be sent to you.”

Ye xiao nodded and laughed, “Alright, I will wait for that day to come. Let’s see who can send me to justice.”

As Ye Xiao spoke, her body floated up into the air and landed on the ground. Her white robes fluttered in the wind, and she looked indescribably carefree.

Bai Chen coldly snorted and waved his hand. Over two thousand people from his side landed on the ground.

Mister Xiong er was currently hiding in young master Bai’s camp. He coldly stared at ye Xiao, but he realized that the fate in ye Xiao’s body was too powerful. Not only was the fate in her body, but the aura of the Heavenly Dao surrounded her. With just a raise of her hand.., he displayed the bearing of a king in this world. It was as if the majority of the fate in the five directions had already gathered within his body.

“As expected, it’s this person.” Mister Xiong er secretly said in his heart.

At the same time that he became even more fearful, he also felt a sense of relief in his heart.

As expected, after being exposed by him to the current reality, Bai Chen’s heart was indeed filled with resentment.

Especially his resentment toward monarch ye, it really broke through the horizon and could no longer be concealed.

And now, the battle for hegemony in the world would only fall between these two people.

They were mortal enemies!

“Both of you don’t like each other...” Mr. Xiong er laughed sinisterly in his heart. “That’s more like it... What people who know you best are your greatest enemies, and what people who appreciate each other are just the fantasies of the storybook authors. They’re just daydreaming...”

..

Ye Xiao and Bai Chen stood side by side.

In the eyes of outsiders, one was elegant and elegant, and the other was elegant and elegant; one was refined and refined, and the other was refined and refined; in any case, no matter who saw it, their eyes could not help but light up.

What a pair of beautiful people, they were so beautiful for a moment!

The only difference was that ye Xiao’s body was more upright and full of the smell of sunlight; and although Bai Chen’s body was also full of brilliance and charm.., it was more or less heavier and more sinister.

One was an unrivaled hero, while the other was an unrivaled hero.

This was the first feeling everyone had when they saw these two people, or rather, it was a consensus!

And in the entire mortal world and beyond heavens, these two people had the most luck.

And the supreme sword that had yet to be born had to be constructed by these two people with their own luck, the power of heavenly fate, the Heavenly Dao, the essence of the world, and the power of creation!

Even the other three heavenly monarchs could only serve as a foil to this point.

“Heavenly Star Battle Formation? Heavenly Dao, fate, and Destiny to refine the sword? Solidifying the heavenly fate? is that what you mean?” Bai Chen said.

“That’s right, that’s it. If not, how will it last forever?” Ye Xiao smiled calmly.

Bai Chen looked at the direction and smiled. “This array... seems to be... different from what I know!”

Ye Hongchen, who was arranging the array, was stunned.

This sentence was not only abrupt, it was also strange.

The heaven-revolving star battle array was one of the supreme arrays passed down from the heavens beyond the mortal world. It was unpredictable and powerful.

Ye Hongchen had immersed himself in this formation for tens of thousands of years. He believed that he was the number one person in this world, so there was no mistake in setting it up.

However, Bai Chen was not someone who spoke without thinking. Since he said that there was something wrong, then there must be something wrong.

Although ye Hongchen was confident that his attainments in formations were not weaker than anyone else in this world, he still did not dare to underestimate the words of peak experts of the same level.

Since Bai Chen said that it was not the same, there must be something different.

This battle had to be completed. As the key person who had facilitated this battle, Bai Chen's suggestion could not be ignored. With that thought in mind, Ye Hongchen turned to look at ye Xiao.

Ye Xiao rubbed his nose and smiled. "Young Master Bai, you have good eyesight. I have changed the trajectory of the power of heaven and earth in this formation a little. At the same time, I can trigger the power of the resonating Heavenly Dao."

Simply triggering the heaven and earth energy and further triggering the resonance of the Heavenly Dao Energy were two completely different concepts.

Everyone present was an expert at the peak of the world. Everyone knew this!

Ye Hongchen sucked in a breath of cold air and said, "..."

He really had nothing to say. Ye Xiao was actually able to modify the ancient array, causing its power to be even greater. Yet, Bai Chen could see through it with just a glance. Just these two points., even if he thought that he was the number one array master in this world, he was already somewhat unworthy of his title.

Mm, this was not the main point at the moment. The main point was what ye Xiao had just said, "The power to trigger the resonance of the Heavenly Dao!"!

What kind of concept was this?

Wasn't this a little too high and mighty? !

At this moment, even the heavenly emperor of the east, Bai Yutian, heavenly emperor glaze, and Bai Chen subconsciously looked deeply at ye Xiao.

However, no one said anything.

Ye Xiao rubbed his nose and smiled unnaturally, but he did not say anything.

Ye Xiao now felt that he was too embarrassed. There was really no way to explain this matter. Was it difficult to directly say that he had a heaven's legacy array diagram with a mysterious origin?

Wouldn't that make it even more unexplainable.

Under everyone's gaze and ye Xiao's extremely awkward atmosphere, this chapter was flipped over!

Bai Chen, who was supposed to be the most hostile towards ye Xiao, did not speak. Ye Hongchen, Xuanyuan, and Liu Li naturally would not speak either. As for Bai Yutian, the other three did not speak. Even if he wanted to speak, he did not seem to know what to say!

Although the array formation's foundation had been slightly altered due to ye Xiao, the specific arrangements were still left to ye Hongchen's personal manipulation. Under ye Hongchen's guidance, the five parties had a total of 9,999 high-level eternal realm cultivators, they mobilized their own eternal realm qi dynamics and worked together to form an eternal yuan qi field, forming this array pillar. Then, they moved all the nearby Target Mountains and rivers over, condensing and compressing them, gradually, the main peak of the Supreme Mountain was formed.

Chapter 1978: You Die Of Pride

At the top of the Supreme Mountain, a sharp pillar was formed.

Then, at the top, a dome was built.

Ye Xiao and Bai Chen were standing on the dome, one on the left and the other on the right, looking at each other.

At this moment, the heavenly star formation was formed, and the Qi of Heaven Dao blocked everything.

Only the two of them stood on the entire dome.

At this moment, even if ye Hongchen and all the other peak experts joined hands, they would still be unable to detect any movement from ye Xiao and Bai Chen.

It was only at this moment that Bai Chen was finally able to truly let out a long sigh of relief. However, the last trace of gloominess on his face had also disappeared. He smiled from the bottom of his heart, he looked at ye Xiao and said, "Ye Xiao, do you know that I have never hated a person as much as I do now? I have also never felt so at ease with a person as I do now."

Ye Xiao also smiled amiably. "This person must be me."

Bai Chen laughed heartily, appearing extremely delighted, he said, "However, the method that you guys came up with is indeed... it makes me feel that it is unassailable. It is only after seeing this formation that I feel that there is hope for us to survive this apocalyptic calamity!"

Ye Xiao said sternly, "The only thing we can do now is to put in all our effort and maximize our advantage. However, our layout design... whether or not we can truly destroy this monster, we still don't have much confidence."

Bai Chen's expression gradually became heavy as he slowly said, "How confident can you estimate? Is it thirty percent?"

Ye Xiao was stunned when he heard this. He said in surprise, "30% ? You Don't have to be so pessimistic. If everything goes smoothly, we might have a 60% chance!"

Bai Chen said firmly, "60% ?? To actually have such a high probability of success, isn't that a little too optimistic? That spirit race devil, other than his own strength being unimaginably strong, his own special ability is even more unique. No matter how I calculate, our chances of winning shouldn't be so high!"

He smiled faintly, and his gaze suddenly became sharp, he slowly said, "I've long prepared for the worst. Even if I only have a 50% chance, I still have to try my best. "If I have a 10% chance, then it's a gamble with my life. "If I have a 20% chance, then I can create a situation where we both perish together. If I have a 30% chance, then I can leave behind a backup plan. I hope that once the torch is passed down, the day of a comeback, a 30% chance of winning is already the highest chance I've predicted. You actually evaluated this battle to have a 60% chance of winning. How did you come up with this?"

Ye laughed, "Your evaluation of our chances of victory is only 30% at most. It probably only calculated our intentional calculation and the fact that all of our forces are working together. If that's all, then it's true that we only have a 30% chance of victory. But what if I have the means to restrain or even seal the demon's black fog form? What if I have the means to completely destroy the spirit race demon's main body?" "!"

Bai Chen was overjoyed when he heard that. "Brother Ye, are you serious? Do you really have a method to restrain the Devil's Black Fog incarnation, or even a method to destroy the Black Fog's main body? !"

Ye Xiao laughed out loud. "Not only do we really have such a method, but we have already gone through actual combat experiments. Now, Young Master Bai, do you believe that we really have a 60% chance of defeating the devil? !"

Bai Chen said happily, "With a 50% chance, we will be in an undefeatable position. As for a 60% chance, we will definitely win! "If we still lose even with a 60% chance of defeating the devil, then we can only return to Heaven's will and not be on the side of the humans. Only the devil is rampant, and there is nothing special about it!"

Ye Xiao laughed out loud, "If it wasn't for this apocalyptic calamity, we wouldn't have to spend so much effort to plan this five-party Alliance and snatch the sword from the dome."

Bai Chen smiled, "It's a good plan. Even if I arranged it myself, it would only be so-so at most."

The two of them looked at each other and laughed. Even though they had been enemies from the start, even though they had turned to work together due to some coincidences, they had always acknowledged each other as enemies.

It was also because of this that the two of them had never thought of each other as friends.

But at this moment, the two of them actually had a feeling that they could not go against their hearts. With such close friends, there was no harm in letting them die.

Ye Xiao asked, "If we are unable to destroy that spirit race devil in this battle, Bai Chen, what will you do?"

Bai Chen did not immediately answer. Instead, he was very cautious and thought very carefully for a moment, he smiled bitterly and shook his head. "Based on my usual personality, or from a rational point of view, if the two of you are unable to destroy this devil in the end, I might cooperate with that Devil and seize the position of the Overlord of the world beyond the mortal world, becoming the ruler of the world. After that, I will slowly plan to destroy the devil in another way!"

He laughed softly and said, "But... emotionally speaking, I should die together with the devil. Or rather, I would rather die than surrender. Those who are not of my race have different hearts. How can it be human's duty to cooperate with the Devil?!"

Bai Chen smiled faintly. He raised his head to look at Ye Xiao and said, "Ye Xiao, if there is really no hope, what do you think I will choose?"

Ye Xiao said without hesitation, "You will choose to fight to the death. You will never be so-called rational and slowly plot for the clouds."

He said quietly, "Even if you die, you may not be able to cause any damage to the devil. Even if you die, the Devil will still devour the entire world... But... I believe that you would rather choose to die. Rather than bend your heart and become the slave of the Devil! "As the saying goes, taking a step back is like taking a step back into the vast sea and sky. It will never be like this!"

Bai Chen suddenly burst into laughter. He laughed until he bent down and could not breathe. He laughed until tears flowed out.

Then, he sat down.

Just like that, he sat on a flat rock without any form.

He tilted his head and looked at Ye Xiao. "I always knew that you, Ye Xiao, would be my greatest enemy in my life. But I also always knew that you are my lifelong confidant, my only confidant."

"Although we've never really sat together like this, I've always believed that you're the person who understands me the most in this world."

Bai Chen said, "The facts have proven that I didn't misjudge you."

Ye Xiao also smiled gently. "I've also never misjudged you."

Bai Chen laughed loudly.

His eyes were even purer. He laughed loudly and said, "You can guess my final choice, but can you guess why I made such a choice?"

Ye Xiao pondered for a moment and said very seriously, "You didn't do it for the common people of the world, nor did you do it to save the realm beyond the mortal world. You chose to die in the end only because of yourself."

Bai Chen said, "Oh?"

Ye Xiao said, "Because, with young master Bai's prideful character, he would never allow himself to be a servant of a demon. "Whether it's a demon, a ruler, or even the god who created this world in the Void... you will never be his servant! "Even if it's just for a moment, even if you have the chance to counterattack in the future, you still won't choose to compromise

"Even if you die, you have to live up to your unyielding character and your original intentions."

Ye Xiao made his decision.

..

## Chapter 1979: The Paragon Sword

This time, young master Bai did not laugh.

He quietly looked at ye Xiao and narrowed his eyes. After a long while, he finally smiled gently and proudly. He said softly, "En, even if that's the case, don't you know that I'm feigning civility right now? Or rather, isn't this contradicting your assertion?!"

Ye Xiao snorted, he said, "There's no contradiction. Your relationship with that devil now holds the upper hand. You're still enjoying the feeling of stirring up the clouds and stirring up the clouds. The pleasure of completely controlling the existence of a world's most powerful being, be it a demon or a god... how can such a feeling be compared to the time when you were forced to kneel at the feet of that devil?!" "I believe that if you see this fellow die under your design, then I think you will be very happy. You will be able to defeat the strong with the weak and calculate the death of an unparalleled expert. This will definitely bring you supreme pleasure and boundless satisfaction!"

Young Master Bai laughed loudly once again. After laughing for a moment, he fell silent again.

He let out a long sigh and said, "Ye Xiao... after exterminating the devil, I won't let you off."

Ye Xiao said, "How can I let you off? At the summit of the Paragon Mountain, there will definitely be a battle between us!"

Bai Chen said seriously, "At that time, I will go all out!"

Ye Xiao said word by word, "I will also not slack off in the slightest. Against You!"

Bai Chen smiled.

After a long while, young master Bai stood up. Ling Feng stood at the edge of the dome, and the void beneath his feet was tens of thousands of feet wide. He said, "Ye Xiao, if I win the final battle, I think I'll kill you."

Ye Xiao smiled faintly and did not speak.

Bai Chen said, "But if I lose... I'll ask you for a favor here."

Ye Xiao said, "Just say it. I'll definitely do it."

Bai Chen said, "You still don't know what I'm asking you for. If you give such a promise, isn't it too early to agree?!"

Ye Xiao said firmly, "No matter what it is, I'll definitely do it. Anything!"

Bai Chen smiled and said, "It seems that not only are you certain that nothing will be difficult for you, you're even more confident that you'll win this battle!?"

Ye Xiao turned his head and said seriously, "That's not it. If I win, I'll do something for you, or I'll help you do it! But if I lose, you'll do it yourself."

"I'm only saying that if I win, I'll help you."

“If I lose, all of this is equivalent to nothing.”

..

Bai Chen was silent for a moment, and then suddenly said, “Ye Xiao, do you know what the Luckiest Thing in life is?”

Ye Xiao said, “The luckiest thing? This thing varies from person to person. For example, my luck is most likely different from what you expect.”

Bai Chen laughed heartily, but he did not continue to dwell on this topic.

It was just that at this moment, young master Bai no longer had his usual sense of control. His wisdom was in his heart, and everything was in his grasp. His entire person looked more like a bright, Big Boy next door.

Ye Xiao was also smiling happily.

The two of them stood side by side and looked down at the world. It was an extremely beautiful and harmonious scene!

After a long time.

Ye Xiao said in a deep voice, “Let’s not delay. Let’s begin.”

A moment later, the countless metal essences in the sky were transported into the formation by the combined efforts of 9,999 high-level eternal realm cultivators. Countless metal essences flickered with seven-colored lights and were magnificent and resplendent, they were dazzling.

Bai Chen said, “Begin.”

The two of them looked at each other and smiled. Each of them stretched out a hand that was as smooth as jade and faced each other from a distance.

As their palms faced each other, countless Heavenly Dao power, fate power, heavenly fate power, and cultivation power... followed the trajectory of their palms and surged out violently.

As time went on, all kinds of intertwined mysterious power gradually transformed into a light ring that intertwined with each other in the sky.

Once the light ring was formed, it spread out like ripples.

The metal essence in the air continued to fall and gradually fell into the light ring, but it was instantly melted and evaporated. Some of it was directly evaporated without a trace, leaving only a little gas, some of it evaporated, leaving only a speck of dust-like light spots..

It was just that the remaining things were slowly accumulating..

Even if there were only a few specks of dust, due to the large number of things, the accumulation of things was increasing.

From small specks of light to blobs of gas, they gradually formed specks of light the size of a grain of rice. Then, the grain of rice turned into the size of a grain of corn..

This process seemed to be extremely slow, but the process of increasing in size was continuous..

Many eternal realm experts were still being transported.

Meanwhile, more eternal realm experts were running in all directions. They moved every mountain that they could see into the Supreme Mountain.

Those mountains that were originally as tall as the clouds turned into a piece of rock on the Supreme Mountain after being transported.

At most, they would turn into a relatively large rock.

The power of creation within it left people dumbstruck and incredulous.

Even Ye Hongchen and the others, who were the initiators, couldn't help but click their tongues when they saw this scene.

This feat was truly unprecedented before this.

This kind of change was truly changing the entire world, changing the fate of the entire starry universe!

As the nearby mountains were all moved over, all the eternal realm experts who participated in the transportation began to travel further and further away..

During the process of moving the entire mountain.

The entire sky was filled with a seven-colored light.

In the sky, there was a sun that shone brightly to the east, and the moon that was like water to the west. The sky was filled with stars. Within the seven-colored light clouds, there was a flickering light that existed in harmony..

Neither the Sun nor the Moon could cover up the stars.

The Sun, the moon, and the stars shone down from the same sky. It was a scene that should never have appeared, but now, it did. There was nothing out of the ordinary about it. The only thing that existed was harmony, an indescribable harmony.

On the main peak of Paragon Mountain, clusters of beautiful, unfathomable, dazzling light continued to shine.

Slowly, it seemed that a cluster of inexplicable things was gradually taking shape..

Five days later, that cluster of things gradually took on a shape similar to a long strip.

At a place 30,000 Zhang below the dome, Ye Hongchen, the glazed celestial emperor, and the white jade celestial emperor stood in a triangular formation.

Ye Hongchen was the Sun as the sky, the White Jade Celestial Emperor was the Moon as the earth, and the glazed celestial emperor was the star as the man. Together with the Heaven, Earth, Man, Sun, Moon, and star, the three rays of light gathered,

surrounded by the extremely profound power of the Heavenly Dao, it was constantly being sent up to the dome..

Above the dome..

Ye Xiao stared at the sky. He could see that the amount of metal essence piled up in the sky was getting lesser and lesser. However, the light it emitted was actually even more brilliant than before. It was gradually transforming into the outline of a sword, he said softly, "Bai Chen, what is the highest dream of your life?"

Bai Chen was clearly stunned for a moment when he heard that. He did not answer for a long time. Instead, he began to ponder.

Ye Xiao said, "I don't believe that the end of your life is just to become the ruler of the realm beyond the mortal world. This is not your pattern."

Bai Chen pondered for a moment but did not answer. Instead, he asked, "Ye Xiao, then what is your highest dream?"

Ye Xiao closed his eyes, "I was once fortunate enough to see a cultivator at a higher peak," he said. "With a casual slash of his blade, he destroyed the entire galaxy... I've also seen someone who, with the opening and closing of his eyes, rebuilt the entire world after it was destroyed... I've even seen... a Golden Dragon who, with a casual swing of its tail, caused the entire universe to collapse. A phoenix flapped its wings, causing the world to repeat itself..."

His eyes were filled with longing. "In other words, with just a thought from such a powerful existence, the realm beyond the mortal world that we live in can be instantly destroyed and rebuilt..."

Ye Xiao said in a deep voice, "Bai Chen, do you know how insignificant we are in the eyes of some powerful existences?"

Bai Chen's eyes were shining. "Do you want to become that kind of existence? Or rather, that is the end of the Great Dao in your heart!"

Ye Xiao had an incomparably pious expression as he said from the bottom of his heart, "... Yes!"

Bai Chen fell silent.

He did not ask where Ye Xiao had seen such a powerful existence.

However, he believed that such a person definitely existed.

After a long while.., he said somewhat dejectedly, "I don't have the opportunity like you, to be able to peep at the ever-present peak of the highest peak. Therefore, my goal is not as clear as yours. "I only know that I will continue to walk forward. No matter when, where, and how high I reach, as long as there are higher mountains in front of me, and longer roads, I will walk. "I will walk all the way until... The Day I die."

Ye Xiao said, "Actually, regardless of whether it's Your Road or my road, they will always be forever and never be finished. The so-called goal is just a process. Or perhaps, we don't have an end at all!"

Bai was silent for a moment before saying, "Yes."

"Clang.."

A sword chime suddenly sounded!

A brilliant light suddenly appeared in the sky, illuminating the entire world. Countless sword qi crisscrossed and spread out in all directions. Each sword Qi flew towards a shining star in the sky with a clear goal..

Under the focused gazes of the two people, they saw that a long sword seemed to have been drawn out from the dark clouds in the sky. The inch-by-inch body of the sword was revealed in a dazzling manner.

The hilt, the hilt, the head, the blade, the blade, the body... all the way to... The tip of the sword!

Following that, another clear sword hum suddenly rang out.

This sword hum was clear and distant, as if it had been heard since ancient times until now, at this very moment.

This sword hum, at this very moment, also reverberated in the hearts of all people and all living beings in the world beyond the mortal world!

Buzz!

Everyone had a clear feeling in their hearts —

The Paragon Sword had succeeded!

Although most of the people didn't know what the Paragon sword was or what it meant, a subtle feeling of accomplishment suddenly appeared.

It was as if they instinctively knew that the person who possessed the paragon sword was the master of the entire realm beyond the red dust realm!

At this moment, everyone and all living beings had tears in their eyes at the same time.

Although everyone did not know why they were crying, at this moment, tears flowed down naturally and uncontrollably.

Even Xiong ER, who was not one of the living beings in this world, was also crying at this moment. However, his starting point was his ultimate goal, and he had taken another huge step forward!

Only two people did not shed tears.

Ye Xiao.

Bai Chen.

The two people on the top of the dome were quietly staring at the sword hanging in the sky.

Their eyes were clear and deep.

At this moment, ye Xiao did not know what Bai Chen was thinking. Similarly, Bai Chen did not know what ye Xiao was thinking.

However, both of them felt that whether it was their souls, consciousness, soul, body, spiritual power, or even their divine thoughts... They were all instantly cleansed thoroughly.

“So Beautiful.”

The two of them said in unison.

Beyond the mortal world, the first year of the Supreme Calendar, the second day of the ninth month.

The supreme sword was completed!

From then on, the entire history of beyond the mortal world entered the supreme era.

From then on, the supreme era that had lasted for countless years started from this moment!

After saying “So beautiful,” ye Xiao and Bai Chen laughed out loud at the same time. Their two tall bodies rose into the air at the same time and floated down from the sky.

“In five days, I will fight with you.”

“The five-party Alliance will fight for the sword in the dome.”

“With this battle, I will have no regrets in my life!”

..

At the same time, the people below who were bowing to him all cheered and let out their endless excitement.

“With this battle, I will have no regrets in my life!”

As the only otherworldly being, Mr. Xiong ER had witnessed the entire process. This was the grand ceremony that marked the new era of the realm beyond the mortal world!

For the realm beyond the mortal world to be so solemn, to be so grand, to have so many heroes gathered together, to be so united, to be so highly valued, all they could do was be filled with relief and peace of mind.

These two had once been destined to be with the current destined to be. The reason why they had created such a huge commotion was not a trap, nor were there any tricks. What they really wanted was the birth of the Supreme Sword, as well as the ownership of the sword five days later.

Everyone present was so serious.

If this kind of situation was still an act, then wouldn't everyone be the best actor! !

This absolutely didn't make sense!

Then, this was really great.

Today's matter was complete, but it brought my goal to a step closer.

On the surface, Mr. Xiong er remained calm and composed, and even his expression was abnormally restrained. However, in his heart, he was already dancing with joy. "..."

These humans were really too foolish..

They simply couldn't imagine that all of your efforts in the lead were actually all for the benefit of this spirit. hehehehe..

..

Another five days later.

At this point, the construction of the entire Supreme Mountain was completely completed!

As far as the eye could see, from the originally empty flat ground, a majestic mountain peak that was 9,999 Zhang tall rose out of thin air!

There was a main peak in the middle, with eight peaks surrounding it on both sides. Some were tall, some were low, and some were scattered.

At first glance, this mountain looked ordinary, and even looked unsightly because it was completely devoid of vegetation. In fact, not only was the mountain unshakable, even a small stone was indestructible.

Chapter 1980: The First Duel

From the foot of the mountain all the way to the peak, the main peak was lined with a total of 99,999 flat stone steps. At such a height, even if it was an ordinary person of the realm beyond the mortal world., they could still advance with great success and smoothly climb up.

However, an ordinary person would not be able to withstand the strength of their internal organs once they reached the height of about 3,000 steps. Thus, at the height of 3,000 steps, the first huge platform of the peak was set up, it was also the dividing line between ordinary people and cultivators.

The Paragon Mountain was shared by all living beings in the mortal world and beyond. Ordinary people were also qualified to climb this mountain, but they could only stop at the height of 3,000 Zhang!

This was because going up from 3,000 steps was a territory that only cultivators could enter.

From 3,000 steps above, every increase in the height of 500 steps would increase the gravity by one fold to 6,000 steps, and for every increase in the height of 6,000 steps above, every increase in the height of 500 steps would increase the gravity by ten times.

The nine peaks, including the main peak, were all set in this way.

In other words, if one wanted to reach the top of the peak, they would need to bear a gravity that was hundreds of times higher than the ground to be able to barely climb up.

Almost everyone who reached the top had to carry a mountain to climb up.

At such a peak, other than experts above the eternal realm, ordinary cultivators could not climb up at all!

This was the honor of being a peak expert that only eternal realm cultivators had.

If one wanted to reach the top of the Supreme Dome, even eternal realm cultivators weren't qualified to do so. Only eternal realm experts could reach that top; that was also the supreme peak of this world!

Starlight flickered on the dome, illuminating thousands of kilometers. From Afar, one could only see a boundless divinity!

The entire supreme mountain range stretched for 9,000 kilometers, and was connected to the other two large mountain ranges. From the moment the Supreme Mountain was fully formed, wind and clouds suddenly surged from all directions, and countless clouds whistled as they rushed over, they covered the entire area ten thousand meters above the mountain!

The entire mountain was completely enveloped by the Clouds and mist!

One could only see that it was illusory, as if it was real and illusory!

However, even if the Clouds and mist fell into the eyes of those with discerning eyes, they would still be so sacred and inviolable that respect would grow on its own.

The mountain of Supremacy!

A total of 9,999 experts at the sixth stage of the eternal realm and above were filled with pride when they looked at this mountain. This mountain had been built from a stone by them, bit by bit.

This place, this mountain, from now on, would become the greatest and most sacred building of the eternal realm beyond the mortal world!

The sense of accomplishment and pride that surged from the bottom of their hearts was simply indescribable and indelible.

In front of the Supreme Mountain, there was a humongous stone tablet.

All of the eternal realm experts who participated in the creation of the Supreme Mountain left their names on the stone tablet.

This was the true legacy of the eternal realm. As long as the Supreme Mountain existed and the Supreme Monument existed, this glory would not be extinguished.

Everyone had a look of glory on their faces.

At this point, the Supreme Mountain had completely taken shape and 9,999 experts had returned to their respective camps.

However, despite such a huge project that shook the past and the present, after the completion of the project, it was inevitable that the people who contributed to the project would scatter and return to their respective homes to look for their respective mothers.

In just half a day, everyone left cleanly, and the supreme mountain became even quieter.

The next day, the five parties sent out representative teams to snatch the sword from the dome.

Each party strictly adhered to the agreement that each party could only send 24 people at most.

Three people participated in the battle, 20 people watched from the side, and one person led the team.

The leader was also the final player in the game.

The Mortal World Beyond Heaven was a blessing for the future, and the moment of the game that would not be easy for billions of generations had finally arrived.

The five sides stirred, and the world was set in stone!

At this moment, the rules of the Heavenly Dao, which were rarely moved, suddenly returned to chaos.

All of this would only end when a new ruler was born in this world.

At this moment, the mortal world beyond heaven, no matter where it was, had become a land without an owner!

Even the officials of the heavens, who had originally held official positions, all of their authority over the realm beyond the mortal world had been completely nullified due to the imperial decree of the Emperor!

This was the power of the Heavenly Dao's forceful intervention, and the natural laws of the realm beyond the mortal world had lost their balance.

All of this could only be restored when a new ruler was born, a new decree was issued, and a new order was established.

As for the Paragon Mountain, the Paragon Order. A few days after the official birth of the dome, it welcomed the first day of saber flashes and sword shadows, and the day of a fierce battle!

..

Ye Xiao's side did not make any special preparations for this battle.

This was because the monarch pavilion had already decided, excluding ye Xiao's three other candidates

—

Jun Yinglian had already reached the intermediate level of the eternal realm; naturally, she was one of them.

And not only had Xuan Bing reached the intermediate level of the eternal realm, he was even slightly higher than Jun Yinglian. Naturally, he was also one of them.

As for the final spot, ye Xiao's original choice was Chi Huo. After Chi Huo came out of seclusion a few days ago, his cultivation had not only stepped into the eternal realm, but also directly entered the intermediate level of the eternal realm. His strength could be said to be the highest among the people in the sovereign pavilion, there should be no objections for him to be selected!

Unexpectedly, Wenren Chuchu volunteered, indicating that it would be the best effect for him to participate in this battle.

First of all, Wenren Chuchu's cultivation was also in the intermediate level of the eternal realm, and her realm was stable. Compared to Chi Huo, who had just entered the intermediate level of the eternal

realm, her battle strength was one level higher. Secondly, it was also the most important reason, the ultimate goal of this dome-shaped sword snatching was to target the spirit race Yimo. Wenren Chuchu was one of the absolute main forces that countered the YIMO, and the mystic yin attribute body of the Mystic Ice Lord Ying Lian could coordinate perfectly with it. It was better for the three of them not to separate, and after the previous battle, when the two devils of the Bear clan found out about Chuchu's existence, they would definitely regard Wenren Chuchu as a thorn in their side, and the strongest line-up would be the best protection. Therefore, Wenren Chuchu's battle was indeed the best strategy!

Regarding such an arrangement, the other people of the sovereign pavilion did not have any objections.

Whether it was the Flower King's step, meeting in Dreamland, or the few big shots of the brotherhood, they would at most feel ashamed, but they did not have any objections.

After all, this battle was related to the future of the monarch pavilion.

It was related to the ownership of the entire world.

Cultivation was never fake. If you could, you could. If you couldn't, you couldn't. It wasn't something that could be changed just because you weren't convinced or didn't fear death.

This was a matter that would last for thousands of generations. There was no room for courage.

For the above reasons, Monarch Ye led three country-toppling and beautiful female generals to the summit of the Supreme Mountain.

The twenty spectators were: Dream Youjiang, Scarlet Flame, Flower King, Poison King, and the nine big shots of the Brotherhood. They chose the top three; Qiu Luo, Monarch of black evil, White Dragon, seven star general; twelve division leaders, they chose Dragon and Tiger division leaders.

The twenty spots were all filled.

Just for these twenty spots, the Emperor Pavilion was about to fall into chaos.

In the end, it was ye Xiaoqian who decided the candidates and settled the dispute.

Those who were selected were triumphant and high-spirited. Those who were not selected were dejected and droopy-headed. They were even more dejected than their father who had died!

..

The three participants on young master Bai's side were Yun Duanzhi Wan, the Heavenly Talent, and Mr. Xiong Er.

There were twenty spectators, and Ling wuxie and his five capable subordinates were all present.

On Ye Hongchen's side, it was Mr. Ye himself. Among the seven Golden Lotuses, Guan Shanyao, juwei, and Yun Duanlu.

The moment ye Xiao saw ye Hongchen's arrangement, he knew that Ye Hongchen had already decided to give up on this battle.

This was because the three people he had chosen were all relatively mild-mannered and were definitely not people with radical personalities.

Mister Ye was not the only one who had given up on this battle. The people that the Eastern Heavenly Emperor had chosen were also people who did not seek merits but only wanted to avoid mistakes.

On the other hand, the Heavenly Emperor Veluriyam had sent out a lineup that could be described as gorgeous. This included the Purple Dragon and Golden Phoenix, as well as the Heavenly Emperor Veluriyam's brother, Xuanyuan Changkong, who was known to be unrivalled in the world of Veluriyam.

At the very least, in terms of the arrangement of the troops, the Heavenly Emperor Veluriyam had put on an appearance of being determined to forge ahead.

This grand meeting also invited another mighty figure, a mighty figure who had the battle results of overturning the dome and seizing the sword — Ling Wuxie's father, the carefree king. This monarch's strength was extraordinary and sage-level, and was not inferior to Mister Ye or the five heavenly emperors, this five-day competition, regardless of which day was able to invite him to make a move, was a definite victory

However, regardless of which party's invitation, this carefree king did not have the slightest room for accommodation and directly refused.

"All my life, I only wish to be carefree. I don't wish to participate in any battles or disturbances. It doesn't matter who belongs to the world, I'll Be Carefree."

"I appreciate your kind intentions, everyone. However, we will all be friends in the future with either party. I'm going to accompany my wife to play. All of you can take your time to battle."

This carefree king was also a wonderful person. After saying these words, he directly disappeared without a trace.

Towards this old friend, whether it was Ye Hongchen, Bai Yutian, or heavenly emperor glazed glaze, they all expressed their heartfelt envy.

To be able to develop one's life to such a carefree and carefree stage, it was truly a rare and precious realm. It was easy to know, but difficult to do.

It was good that I was carefree!

The participants each entered their respective positions on the dome.

When the last wave arrived and the East Heaven Emperor brought his people to their seats, the dome suddenly erupted with an extremely intense starlight. In an instant, the Starlight split into five groups and headed toward the five directions, the five heaven people were instantly enveloped in a hexagram array that was filled with a mysterious aura.

The spacious square in the middle seemed to have suddenly disappeared. What replaced it was an incomparably vast starry universe.

All the participants would be fighting in this starry universe.

In this space, no matter how powerful one's explosive power was, it would be difficult to destroy even the slightest bit of it!

In such an environment, the participants would be able to fight without any scruples.

As for this segment, including the people who set up the formation, they originally didn't know about it.

Therefore, the instant the hexagram formation appeared and the starry sky of the decisive battle appeared, many people present exclaimed in surprise.

A red light suddenly flashed. It was the power of the Heavenly Dao that appeared in the dome.

This sudden red light first appeared in the sky above the hexagram on the side of the Eastern Heavenly Emperor, Bai Yutian, and shot straight into the sky.

At this point, the Order of the participants, who would be the one to fight, and who the opponent would be, was no longer up to them to decide. It was also not up to the heavenly monarchs to take the lead. There were no arrangements, strategies, or tactics.

All of them were randomly drawn by the power of the Heavenly Dao. Whoever was drawn to, two human auras would intersect and start the battle.

As the red light flashed and disappeared, a sword humming sound was heard. An old and heavy voice said slowly, "One person and one sword for 100,000 years. They will be happy for the rest of their lives. The purple clouds in the east are rising towards the sky. I will feel lonely in my drunken dreams."

One person was dressed in purple robes. The hexagram formation flashed with red light. It was the Prime Minister of the East Heaven Camp, Dongfang youmeng, who walked out slowly.

Dongfang youmeng stood in the starry sky, his body shining with Starlight, and the sword Qi in his palm soaring into the sky.

One of the first people in this world was the Prime Minister of the East Heaven.

In the next moment, a Phoenix cry rang out, and a colorful Phoenix appeared along with the Phoenix Cry. White light flashed, and it transformed into the Golden Phoenix King's magnificent figure.

Dongfang Youmeng's opponent was the Golden Phoenix King of the glazed sky.

At this moment, the younger generation present were still amazed at the magnificent manner of snatching the sword from the dome. However, the old brands all had a fascinating expression on their faces.

Even the three heavenly emperors, Ye Hongchen, Bai Yutian, and the glazed sky emperor, were dumbfounded and speechless.

The corners of the mouths of the seven golden lotuses, The Purple Dragon King, and the others twitched as if they had been struck by lightning.

There was no other reason other than the fact that these older generation experts all knew that the Golden Phoenix King and Dongfang youmeng were a pair of resentful lovers back then.

Back then, when the two of them first met, they fell in love with each other and were committed to each other for life. Originally, regardless of personality, appearance, or cultivation level, the two of them could be said to be a perfect match made in heaven, even though the Golden Phoenix King's personality was like fire, and Dongfang Youmeng's personality was more stable and elegant, it still formed a harmonious complement. However, in Dongfang Youmeng, she finally realized that the woman she fell in love with was actually not a human, after she became a phoenix, everything changed.

After a difficult struggle, Dongfang Youmeng finally could not accept the result of the human-demon relationship and left without saying goodbye.

The Golden Phoenix King had a fiery personality and it was rare for him to fall in love. However, once he fell in love, it would be for the rest of his life. He was unwilling to see a good marriage come to naught and chased after Dongfang Youmeng all the way.

When he reached Dongfang world, Dongfang Youmeng still avoided him. The Golden Phoenix King was furious and fought in anger. The Dongfang family gathered all their experts and fought against the Golden Phoenix King for seven days and seven nights.

At that time, the Golden Phoenix King had yet to reach the pinnacle of experts and the Dongfang family was the number one family outside of the Eastern Heaven Royal Family. There were many capable people and after seven days and seven nights of fighting, the Dongfang family suffered heavy casualties, however, the Golden Phoenix King also paid a heavy price. Just as the Golden Phoenix King was on the verge of death due to his heavy injuries. Dongfang Youmeng suddenly appeared and pushed himself to his limits. He risked his soul to save the Golden Phoenix King. Then, he escorted him all the way to the glazed sky..

If they followed the plot of a Chinese novel, Dongfang Youmeng and the Golden Phoenix King should pair up and form a marriage!

However, on the day Dongfang Youmeng sent the Golden Phoenix King back to the glazed sky, he once again left without saying goodbye.

From then on, the two never saw each other again, and the Golden Phoenix King never set foot in the Eastern world again.

And in the years after Dongfang Youmeng returned to the Eastern Heaven, not only did he never marry, he also never left the Eastern Heaven and Earth realm!

Everyone knew of each other's existence.

However, there was still no contact between them.
