

## Making friends

### Tamara's POV

I have gained a lot of new members to my Pack. As Dean is attacking the other Packs, more and more are coming to join us. We are making new friends every day. We have made friends with the gypsies that are living around us. And we are supplying the food while they supply us with clothing. I love the gypsies as they can provide us with clothing that will not tear when we shift. They used their magic to help us do that. The gypsies are very friendly and have become great friends with us. We do not think they are not cunning, and many people do not trust them. We trust them because we believe that they are some of the best allies you can have. Our gypsy friends have only been good to us. They are also children of the Moon Goddess. The gypsies are also helping Mariam with her magical wolf. We are all glad that her magic is not as chaotic as it used to be. We were afraid that Miriam would hurt us whenever she did magic. Now we are not that afraid anymore. She still gets her magic wrong, sometimes. And we have to run for our lives.

"Alpha, we found some other wolves in the woods, and they asked if they could join us. I do not know then, and I do not know if they are from any of the packs around here. They say they are coming from the city, but I do not know if we can trust them," Mikey says. Mikey is not using his classes

anymore. His wolf has helped him improve his eyesight by training with him daily—the same with Steven. Steven started talking again. He is no longer stuttering, as he has learned to trust his wolf. His wolf will speak on his behalf sometimes. But most of the time, it is Steven talking. I am so proud of how far all of my wolves have come. Kevin and Tom have become much more reliable when showing directions. They do not get lost anymore, as I have also learned how to trust their wolves to take them to the right place. That is all it took his little bit of attention and a little practice to turn your worst wolves into some of the best. 1

"We cannot show anybody away. We will have to learn how to trust people. We will have to learn to trust our wolves. If our wolves tell us that it is okay, we must trust our wolves to show us the right people. How does your wolf feel about them?" I ask.

"My wolf doesn't seem to have any problem with them. But I want to come and see for yourself. They look like wealthy people. Your uncle and aunt are also in the woods with your cousin, and I do not know if you want to save or kill them. We did not go near them as we don't want them to come near you if they were going to upset you." Mikey says. Elize has joined us and is our pack doctor, as she knows about medicine.

"I will go with you. We don't want our Pack to be revealed. One never knows when Dean was sent spies, and ensuring they are not spies is better. I do not want them to know

where I am. I still don't know what you want from me. I wonder why he chased away my uncle and aunt. I thought he was in love with Maureen. I guess he doesn't want her as his mate because she does not have a wolf. I am glad your mother changed me back to my parents and that I was not like Maureen. I would have been my aunt and uncle's child if your mother had not changed me. I wonder if my aunt realized her mistake. She now has a human daughter, while I am an alpha wolf. Well, we will also have to see what they are up to. I do not trust them and do not want them near our Pack," I say.

"I do not think they will suffer much longer in these woods. The vampires have become much more active. They are walking around that night. We can hear him, but we keep. But we keep all our wolves inside. We do not want to fight them right now. I wonder why all the vampires are here. Dean must know something because he has trained and prepared his Pack for war," Mikey says.

"The gypsies told me the originals have moved in, and I wonder why and what they are doing here in our part of the world. I wonder if Dean knows, which is why he is preparing the Red River pack for war. I bet that is what it is, which is why he is preparing the Pack for war. Ask the Alpha of the Red River Pack Dean will know what is going on around him and in his area. I must give it to him. He is a good Alpha. It's a shame that he does not see the potential of all his wolves. Look at us. We have grown stronger over the last two weeks. We have learned to trust our wolves," I say. I go with

Mikey to see the new wolves that want to join us. I want to ensure they are friendly and not spies for Dean. We do not have to run far before we get to the sorry-looking Pack of wolves. They have children and older wolves with them. I feel they are not dangerous and will not spy on us.

"We fled the city, Alpha, because the vampires are all over the city. The city used to be our hope, but now it has become a very dangerous place. And we have lost many wolves to the vampires. We cannot stay anymore, and we cannot even work there anymore. We came here looking for Alpha Dean, but they told us that Alpha Dean was not taking in older wolves. We cannot leave our elders behind, and neither can we leave our children behind. We were Pack in the city, but our Alpha got killed by the vampires. Will you please take us in? We have no way to go. We heard about you, and that is why we are here to seek a place to stay where we can be safe," You're one of the older wolves says.

"You are more than welcome to stay with us. We will never show anybody away. There is strength in numbers, and we love that our Pack grows daily. Come with us; we will keep you safe," I say. We take them to the Packhouse and ensure they are settled before we go after my aunt, uncle, and cousin. I take some of my best wolves with me. We went where they last saw my uncle, aunt, and cousin. By now, we know the woods, not the forms of our hands. We know how to move quickly and fast through the trees. We also have bows that make wolves sleep. We got them from the gypsies, that also helped us with weapons. We protect the

gypsies where we can. We know the gypsies are powerful magic creatures, but we still feel we owe them for everything they have done for us. We all know how strong the original vampires are, and we must find out why they are here.

"There they are, and it looks like they are in trouble. Rogues surround them. Shall we save them, or shall we leave them to die?" Mikey asks me.

"Let us first see what is happening," I say. My uncle looks nervous, and my aunt is crying. My cousin slaps one of the rogues, and it is not a very good idea to piss off a rogue.

"Look, the human is being brave, braver than her parents. Aren't you supposed to be wolves? Why don't you want to fight us?" The big rogue wolf asks.

"Ben, you know me. Why are you like this? Isn't I who gave you my beta and his mate?" My uncle asks. We sit in the tree, listening to what they are discussing. I was mad when I realized that this Rogue had killed my parents.

"It was a business deal, and I paid you to deliver him and his mate to me. You wanted them out of the way so that you could become the new beta of your Pack. What happened? Did Alpha Dean kick you out? Did you think he would not realize your daughter is a human?" Ben asks. I'm ready to attack as I realize this Rogue killed my parents. I can kill one of them at one time. Every one of them killed my parents. My uncle sold out my father. I know he helped the Rogue

killed father and mother. I knew my uncle was not strong enough to do it alone. My father would have killed him.

" Well, what do we are here? All my parents murderers in one place. I have been waiting for this day, and I've been waiting to get all of you together. You have admitted to killing my parents, uncle," I say as I jump out of the tree.

"Keep your nose out of my business, little wolf. I will take revenge for you and kill your uncle," Ben says.

"I don't want just revenge on my uncle and aunt; I want revenge on you who killed them. Get ready to fight Rogue," I say. I'm ready to take him on and kill my father and mother's murderer.

"Alpha Tamara, There are too many rogues, and we cannot take all of them on. We do not have enough warriors with us," Mikey says. I know he is right, as I did not bring all my warriors, and I thought I would also have to face my uncle and aunt. My cousin is no problem, as she is not a wolf.

"I am challenging the murderer of my father and mother. I am not challenging the rest of them, and they must stay out of this fight," I say.

"They are rogues, and they do not care about the rules of werewolves. They will kill you if you take them on without all our warriors. Please, Alpha, listen to me. We will be lost without you," Mikey says. He is right, but I do not want to leave this opportunity. When will I find my parents' killer

altogether at one time?

"I am here. We can take them together. I knew your uncle and aunt would eventually admit to killing your parents, and I followed them, and I found you. We can fight them together," Dean says as he enters the opening. I did not expect to see him here, and I did not expect him to come to my aid.

"Stay out of this Alpha dean. I did not ask for your help, and this is my fight, not yours," I say. I do not want his help, and he found me. What the hell is going to happen now? I do not want anything to do with him, and all I want is for him to leave me in peace.

"I have made a mistake, Tamara. I want you to come back home, and I want you to be my mate," Dean says as he looks at me. The Rogue does not know what to do because he has not bargained on having to fight the Red River Pack. I can see the fear in his eyes, and I know he does not want to fight Dean. He tries to run away, but he goes after him. Now is my chance to get away from Dean.

"Let's go. Dean will kill my parents, murderers, and we don't want him to find us. For now, my Pack comes first, and I know he will also take care of my uncle and aunt," I mind-link Mikey. We quickly jump into the trees and move fast before Dean and his warriors can return. I know Dean will be pissed off when he comes back, and I think he thought I would not leave my uncle and aunt.

"You cannot leave us here. We have looked after you your whole life, and you owe us!" My aunt says. I laugh as I disappear between the trees. I know she fears what Dean will do to them after he finds out the truth. I know he loved my father like his own. My father used to train him. I think, like everybody else, I reminded him of my father, which is why he first hated me. I will not go home with him and leave my wolves alone. I love my wolves and know that Dean will never accept them. Do I want to become his mate? I do not know. Dean must learn that everyone has value in this life before I will think of returning to him and his Pack. 1
