

First Strong 1001

Chapter 1001 - Trouble in the city

As a result, the blue sea chase is not connected!

This makes Shen Lang a little depressed, the river city is so big, if they can not contact, where can he go to find Bihaihuan?

He is actually familiar with these few, even if the Holy Ghost can find the address of the Bihai family, find it, others will think it is an enemy.

Just as he was pondering other programs, suddenly a holographic picture appeared in his mind.

“You are... the psionic master Shen Lang?”

I saw the whole picture of the blue sea chase, but he seems to be a little unbelievable. At this moment, I should be looking at the environment of the Shenlang side and confirm whether it is Shen Lang himself.

“Yes. Chasing the son, I can’t contact Bihaihuan, I can’t find it in Fengyuegu, I have to find you.” Shen Lang’s faint guest set.

“It turned out to be Teacher Shen! Please forgive me for being rude!”

Bihai chased immediately became respectful, the world is very respectful to the psionic masters, so he is comparable to the prince’s blue sea family son status, but Shen Lang is not an ordinary psionic master, then that is the power of one person to change The battle, directly killed the dissident generals!

“Don’t be polite with me. Does Bihaihuan have any troubles?” Shen Lang went straight to the subject.

“It turned out that the teacher felt the safety of the sister, and I was very grateful to help you!”

Shen Lang frowned, and his familiarity with Bihai was not as good as Fengyuegu, but he had no interest in chatting with him. At this time, I was not sure about the situation of Bihaiuan, and I didn't even bother to talk.

Bihai Chasing apparently noticed his expression changes, and immediately respectfully said.

“It is indeed a trouble, it is difficult to say a word. In order to save time, I will arrange for the battleship to pick you up, and then report to you in detail?”

Hearing the blue sea chasing into the topic, Shen Lang nodded.

Since there is trouble, he must stay to help, and sooner or later he will pass, he can arrange it first.

In fact, he instinctively felt that the holy armor can reach the high mark of Twenty Mach on the earth, and it is sure to be faster in the city.

However, the territory here is too big. If it is misunderstood as an enemy in the middle, it will not be very good to encounter attacks from various military fields.

He also experienced the degree of spaceship battleships before, and he will be more comfortable and stable.

Bihai chasing is just a matter of spending a while, probably reading the position of Shen Lang now, and then arrange another warship to pick up people. Then I immediately connected with Shen Lang, and then began to tell the specific situation.

The troubles of Bi Haihuan are not her personal troubles!

It is not even the trouble of the blue sea family, but the trouble that the whole river basin has encountered! big trouble!

The degree of science and technology in the city of the river basin will be called big trouble. Naturally, it is not a trivial matter.

But what surprised Shen Lang, this trouble, actually still a little familiar!

In the process of Bihai chasing the story, some of the information was directly shared without reservation, so he also saw a lot of confidential information.

Let the watershed city state headaches are some extraterrestrial demon!

These are called the extraterrestrial demon, and the magic that was called the trolls on the earth not long ago, is like a singularity!

For these extraterrestrial demon, the river city has more information and understanding.

It is said that this is an aggressive race in the universe, and their evolution is the process of plundering the outside world. It's not necessary to say that the exotic flowers and the gravel spirits are displayed, and they are directly engulfing other races!

So in their original world, resources have been exhausted, and it is very common to have a group of scorched earth in the Yellow Sands. Other ethnic creatures are extinct, and the remaining demons will kill each other and swallow the same kind to grow themselves!

Under such circumstances, the final result is likely to be all finished. So when they got to the back, they began to expand outward. Some of them were powerful to the ultimate demon. They had the magical powers, forcibly breaking through the space barriers and crossing into other worlds.

In countless years, they all continue in this way. When they arrive in a world, they will not consider the long-term, they will only plunder as much as possible, from the most valuable beginning to the end, looking for a way to leave and go to another world.

Species that have little residual value before they find a way out will also be swallowed up. After a long period of time, it will become a waste star!

The world in which the rivers are located is a huge world. Apart from the watershed city-states, the distant plates and their city-states. Including another huge world of islands that seem completely different, and this is the same world.

The vast space, in countless years, naturally also has the time when the devil breaks through the space barrier. For the demon, so happy, it is like a flock of sheep encountering a vast fertile grassland; like a hungry wolf has encountered countless fat sheep.

However, the river-states are not vegetarian. In history, there have been many confrontations against the extraterrestrial demon, and they have all won, and other city-states have similar experiences.

River basins continue to delve into science and technology, their respect for the psionic masters, the exploration of the Central Fairy Island, etc., in addition to the inevitable exhibitions, there are also concerns about such enemies as the extraterrestrial demon.

A few months ago, there were extraterrestrial magicians. It is a matter of great importance, and the major families that dominate the river-states are very attached, and immediately dispatched elite troops to encircle them!

The Bihai family is also one of the strongest families, and certainly cannot be absent.

Bihaihuan, which began to shine in the past year, has risen strongly since the last time! Shen Lang directly helped her to upgrade several levels and reached the peak of the virtual world. This allows her to pass a lot of general psionic masters, plus identity, military skills, etc., so that she became the best choice for the Bihai family to be the mainstay!

In the picture that Bihai chased, there is a picture of frontline combat. Those extraterrestrial demons are even bigger than the trolls that appear on the earth. They are tens of meters apart, and some even reach a few hundred meters!

Similar to the troll, the larger the volume, the higher the evolutionary realm, not only without bloated, but the strength and degree are very abnormal!

The watershed city-state has sent various warships and armor attacks, and the firepower is not sinful, but for the extraterrestrial demon, unless it can be successfully killed in one time, or not, then it is very serious!

Power and the violent energy Many mechs and even warships are being smashed!

What's even more troublesome is that even the energy of the artillery can be swallowed up and absorbed. If it can't be killed, it may provide energy for them, so that they can fight back more powerfully.

Bihai chasing them also suggested that Bihaihuan contact Shenlang to help, but Bihaihuan vetoed, this is her work and responsibility, how can I just trouble the teacher?

But after she went to the front line, Bihai chasing still tried to contact Shen Lang, but only in the earth world, the holy armor could not be contacted. He also thought that it was Shen Lang that closed the holy armor system and could only give up.

Suddenly, today, Shen Lang took the initiative to contact, making him a little unbelievable.

Chapter 1002 - Go straight to the front

Listening to the process of telling, Shen Lang is a bit uncomfortable!

Although the strength of Bihaihuan is worse than that of Bihai, it may come up with prestige, but after all, it is much younger and the combat experience is far worse.

In the face of such a big enemy that makes the whole world pay attention to it, actually let a girl be the master to go out, really no other thoughts?

In the eyes of their fathers, including the other high-rises of the Bihai family, Bihai Chasing is the successor of the key training, and it cannot be broken. And Bihaihuan is a girl after all, can play the best role, if there is anything, it may be better than the loss of the blue sea!

Unhappy is not good, after all, it is the family affairs of others, and the strength of Bihaihuan is not forced to go.

And no matter what attitude the blue sea chasing is, it is not convenient to get angry from him!

If he loves his sister, then this is the family order. He can't resist it, and it is useless to humiliate him.

If he doesn't care about his sister's life and death, then it will make him angry, but it may make it worse! Now Shen Lang does not understand the situation. If he is used to the road, it will hurt Bi Haihuan.

Anyway, Shen Lang is only concerned about the life and death of Bi Haihuan. Now the most important thing is to find people.

If you can, help them fight with the extraterrestrial demon, help the blue sea to celebrate the famous merits; if the situation is really terrible, big deal take her to the earth, this mess they who love to pack and clean up.

Bihai chasing is obviously hope that Shen Lang will help the war, so sharing the secret front line will also convey all the information of the war report without reservation.

The reason why I can't contact Bihaihuan and Fengyuegu is because today, they want to launch a big fight! In order to avoid being affected and distracted, in addition to the on-site combat personnel, the outside contact was disconnected.

Feng Yuegu is also a deputy who assisted Bi Haihuan. As Shen Lang guessed, they are all in one place, so neither of them can be reached.

Bihai chasing is behind, so you can contact him.

However, now Bihai Chasing can not contact Bihaihuan, can only contact the front line of the command, determined that it is still in a state of war, he can only wait for results.

He also asked for the meaning of Shen Lang, did he send him to the front line.

This is not nonsense!

Shen Lang is a hunch that Bihaihuan may have troubles. Is it still necessary for them to receive entertainment from the Bihai home?

And since he has been out for a long time, he suddenly feels today. It is very likely that he has not encountered danger before, and now he is in danger!

Therefore, the meaning of Shen Lang is to speed up the battleship he arranged, and rushed over to pick him up as soon as possible so as not to delay the incident.

For the person of Shen Lang, the Bihai family has naturally investigated and asked Bihaihuan. In the case of Bihai Huanhuan, there are few clues that can be investigated.

The strength of the show, far from the general psionic masters, let them all guess that the Shenlang is from the Central Xiandao!

I couldn't contact me before. I suddenly came out and contacted them today. Bihai is also a very smart person. I immediately guessed that the teacher had sensed that my sister was in danger!

Therefore, his attitude has been very good, and he has shared all the information, and he has also arranged for people to rush to the fastest speed.

After the contact was negotiated, Shen Lang did not wait for a long time and saw a warship coming over.

There is nothing strange about this. The commanding authority of Bihai Chasing is very high. It does not need to be transferred from the Bihai family or from his current residence. It can be directly dispatched from the nearest military area.

Last time, Fengyuegu was not so fast, because Fengyuegu was on the front line.

After the battleship, the officers maintained their respect, but did not talk to Shen Lang, and did not know how to drive the track route.

Bihai chased down and contacted Shenlang again. It was very embarrassing that he could not rush to the front line, but he was very worried about his sister's safety, so he could only send the Shenlang first.

He also said that he had already communicated with the frontline command. After Shen Lang passed, he would receive the treatment of the general of the Bihai family. No one would question him.

Shen Lang did not polite with him, hang up after the connection. He closed his eyes and consciousness began to manipulate the armor.

When he was waiting for the battleship, he had already tried the induction. It was the same as the troll. These extraterrestrial demons could clearly sense the address and obviously felt much stronger.

But the location is very general, to be accurately positioned, or a simulated map that needs to be coordinated.

Before on Earth, he slowly simulated himself. Now is the city of the river basin, the Holy A can use more functions, do not need his trouble, a variety of analog maps, just choose.

All he needs now is to make his simulated map of the sacred armor coincide with the picture he sensed.

After some confirmed brain positioning, it can also be found that the warship is flying in that direction, and the speed of movement is also very fast.

The invasion of the demon outside the country may have just appeared in one place and was trapped by troops. There may also be some devils scattered into other places, which may be annihilated, and the possibility of hiding in the watershed city state technology is even smaller.

The induction of Shen Lang is the same data. They are gathered in a base camp, which is the front line of the battle.

The officers of the warships did not understand the specific identity of Shen Lang, but since they were the characters who were chasing the sons of the public, they naturally did not dare to neglect and directly drove to the fastest speed.

Before the arrival, the officer also respected Shen Lang and made him a preparation.

Shen Lang has always maintained the overlap of the inductive and simulated maps. There is nothing wrong with determining the direction. At least the blue sea chasing is not a ghost.

And now the distance is near, he also released another layer of induction That is the induction of the comprehension!

The territory here is too big, and I am afraid that my head will “crash the machine”. Before Shen Lang, I only dare to sense the troll. Now to determine a small range, the difficulty is not great.

In this area, the number of comprehensions is also quite large. It seems that all parties who have gone out are carrying some psionic masters.

However, the level is too weak, and only one of the spots is brighter!

With most of the psionic masters here, this is probably the best of the world.

“Don’t slow down! Don’t go to any command, give me this place!”

Shen Lang went directly to the cab, zoomed in on the light curtain and clicked on the specific place.

“This...” The driver of the battleship is very embarrassed.

The officer on the battleship is also very embarrassed: “Respected psionic master, chasing the son...”

“Let’s do it!”

When Shen Lang said this, they all felt heavy pressure and immediately sweated on their foreheads.

The officer did not dare to defy, nodded the driver's authorization, and gestured to follow Shen Lang.

At the speed of the warship, although it has just begun to slow down, it will be a very quick thing to go.

The officer who was a little relieved suddenly became serious and then nervously said to Shen Lang.

“Master of Psionics, just received the ground warning, we are in front of the field of the devil's battle zone, we can't go any further, or it will be very dangerous!”

While saying that he also waved his hand, let the driver slow down and change direction.

Shen Lang frowned.

But did not say anything, these are temporary acquisitions to send his warships, and did not prepare to fight the extraterrestrial demon. Even if he wants to take care of the blue sea, he can't let others risk his life.

Chapter 1003 - God-like existence

At the request of Shen Lang, they paused in the air and opened the hatch. He jumped out of the air directly!

Shen Lang is not the use of the sacred armor, it is flying by personal force, and then a turning point is already used..1a

This scene saw the officers and drivers on the battleship, and so on!

Although I know that this is a psionic master, it deserves their respect, but I did not expect that there is such a magical ability. This is powerful that they have never seen or even heard of!

When they received the ground warning, they quickly turned around and left, and the officer quickly reported the information to the chasing son.

Not only they, but also in the command, they also monitored this picture, and analyzed it through different angles to confirm that it was really done by people, and they were all dumbfounded.

The sinking waves at this time have already followed the positioning, and quickly reached the top of the positioning in the air.

The base camp where the demon gathers outside the world is a huge rift. The two ends have been successfully intercepted, and the top of the ground is also fire suppression. In this way, the extraterrestrial demon will not be allowed to come out of the rift.

But they are very powerful, very sensitive to energy, moving very fast, and flying from a long distance into a huge rift, but they are also unable to hit. If the intensive missiles passed, they would be attacked and detonated by the air before they entered the rift.

Now, above the rift, you can also see traces of a lot of artillery.

And along the edge of the rift, it became a scorched earth, apparently affected by the violent energy of the aliens outside the domain.

These situations are chased from Bihai, and Shen Lang has already known a little and maintained a stalemate.

Now close-up view, naturally understand, Bihaihuan their battle today, it should be assembled in the rift to attack the devil outside the domain!

Shen Lang did not stop to observe, and flew directly into the rift.

This scene makes the command of the remote monitoring to the screen scream!

Their attack today is all about the elite of the elite, the driving armor is the best performance, there is also a sacred armor of the micro-combat system, and each one is still a psionic master.

In this way, it also requires teamwork that everyone covers each other.

Now this person is alone, without any protection, so fly directly into the Rift Valley!

The officials of the command department are also composed of people from several major families. The Bihai chasing was just greeted, but it was also arranged to arrange a psionic master to protect Bihaihuan.

They knew the news and waited for Shen Lang to go to the command. Now people in Bihai's family saw this scene, which was a headache. Don't be so dead, you don't have to go down to the bottom, you will have no bones.

This is how they confess to the chasing son, Miss Huan!

The warship that just completed the delivery has no need to go to the command post and is returning. This time, it has been prepared by the headquarters to become a black pot...

This rift is very huge and very deep.

In the process of sinking into the sky, Shen Lang also learned the following conditions through the eyes and the sense of God.

At the bottom of this rift, a large-scale melee is under way, and the number of demons outside the region has reached hundreds of giants. In the city-state coalition, there are also hundreds of mechs, divided into multiple teams, and are attacking the battle.

Although they are well-versed, everyone's driving skills are also very good, and the firepower is also very fierce. But for these powerful and fast extraterrestrial demons, it is still difficult to have too obvious effects.

On the contrary, if they are slightly inadvertent, they will be hit by the extraterrestrial demon!

In general, however, the two sides are still evenly matched, forming a stalemate. Outside the world, the devil is running hard, and it is difficult to destroy the mech.

The battle of the coalition forces should have been going on for a long time. If there is no obvious effect, it will continue to fight, obviously it is also trying to drag the other side.

When physical fitness is not enough, it is their chance to come.

The rift valley is even more terrible, not only scorched in the ground, but also everywhere being smashed.

Shen Lang looks at the whole situation, the sensory induction, plus the sacred reconnaissance for some angles of the close-up, quickly grasped a situation!

These extraterrestrial demons are deliberately forming a stalemate!

Probably trapped here, but also make them very anxious and helpless, without more energy to swallow, directly attack the gunfire!

The large-scale missiles with huge lethality are not dare to swallow directly, but can only be detonated in advance. But when the mechs are melee, they will be selective. For some less intense attacks, they are directly swallowed up.

If the coalition forces find their own attack and become feeding, they will soon withdraw. Therefore, they must maintain such a large-scale melee situation, in order to fish in troubled waters, and let the coalition forces see hope, so insist on not retreating.

The result of this is not to exhaust them, but to feed them even stronger!

When they feel enough, these hundreds of mechs will all be killed, and then start to counterattack outside!

The information that Shen Lang came down, the headquarters did not dare to inform Bihai Huan here. A little carelessness will be dangerous, of course, dare not disturb.

But Shen Lang is trying to contact Bihai Huan!

He himself has confirmed and locked the armor of Bi Haihuan, but in the fast battle, the sound is too late to track, and the connection with the holy armor may affect her operation.

Therefore, his contact is directly into the brain consciousness of Bi Haihuan through a powerful spiritual force.

“Don’t be afraid! The teacher is here, I am above you.”

Suddenly this consciousness appeared in my mind, which shocked Bi Haihuan. The mech operation was also delayed, and I was almost hit by the extraterrestrial magic!

However, Shen Lang not only told her early warning, but also did not hurt her spirit, but also soothed her spirit, so that she immediately remained calm.

Immediately afterwards, Bi Haihuan continued to attack, and began to evade upwards. Then he read the picture above and saw that the teacher was alone. Without the protection of the mech, the volley came, and she could not help but be enchanted by her.

Shen Lang connected her consciousness and immediately connected the line with the sacred armor, and then sent the close-up picture of the sacred armor to the blue sea.

Then he evacuated from the consciousness of Bi Haihuan, let her fight with all her heart, and then talked to her through the Holy Grail.

“You counted! They are using your battle, both to observe and understand you more closely, and to absorb some of the attack energy. The result is that you leak more information and feed them more powerfully. retreat!”

When I said this, Shen Lang didn’t have time to talk anymore.

Because the demons outside the domain, like the trolls, can also sense the strength of the comprehension. The cultivation of civilization here is very weak, relying on technological civilization, so their induction is not very useful – a master of psionics whose fingers can be pinched to death, but with the mech, they can deal with them.

Therefore, they need to have a deeper understanding of this side, but it has become very powerful just after the swell of the waves, so that they are all aware and valued.

However, it is not enough to let hundreds of extraterrestrial demons besieged the waves together. The most powerful ones did not come. They only scored a dozen to leap over and attack him.

This is just a less than one-tenth of the combat power. The extraterrestrial demon who had left the strength, with a little bit of strength, can continue to contain the hundreds of mechs, so that they can not help, or as before the melee .

Bihaihuan got the hint of Shenlang, and then saw those pictures, immediately stopped the attack, while dodging, while following this line of thought, quickly scouted the picture of the entire battlefield and found that it was exactly the same as Shen Lang said!

She was worried about the safety of Shen Lang, and she could not let the coalition continue to be used. It immediately spread this information, including the coalition squads and headquarters.

Because she is the daughter of Bihai, and the strongest psionic master, the general leader of the scene today is her, sending out pictures and analyzing information, so that everyone can understand the situation, so as not to circumvent. Then I ordered the retreat!

After the order, she was the first to fly above!

In exchange for the usual, as the general leader, she will not be the first to leave even if she does not insist on the last one. But now she is worried about the safety of Shen Lang, but she does not care so much. She must hurry to help.

A few hundred people in the coalition forces insisted that they did not fight for a long time and kept a highly nervous state of combat. In fact, they were also very anxious and impatient. Hearing the retreat command, he was relieved and quickly flew up.

As a result, in the mech, they, like Bi Haihuan, saw the picture that made them scared!

From the combat power, several of their mechs jointly besieged an extraterritorial demon, and they can barely remain undefeated. According to the information of the team leader

just starting from the sea, it is still the intention of the other party to release water, otherwise they are not opponents!

But now what they saw!

In the air in the rift, there is a person who may have a sacred body protector but there is no mech, no more equipment, so volley.

And before they fought with them for a long time, the extraterrestrial demon, but there are more than a dozen leap to attack him!

Their one-on-one words are absolutely dangerous to be killed at any time, and they are attacked by more than a dozen extraterrestrial demons... This means that the person in the air, unless it has the combat power of more than forty armor, will be dead!

But then the figure of that person disappeared!

Relying on the advanced technology of Mech Armor, through slow playback, they can capture the trajectory of Shen Lang. He did not disappear, but at a very fast speed, he continued to reach more than a dozen extraterrestrial demons. Before the attack, kicked one by one on their heads!

It's too late to say it!

Slow playback plays a clear trajectory, which is the picture of the biological light brain in the brain, and their eyes are to see the dozens of extraterrestrial demon, one by one, quickly fall to the bottom! ..

Everything happened between a moment, so that they all closed their breath, unbelievable.

This scene also makes Bi Haihuan very excited!

The teacher is amazing!

Just the scene, it is just the existence of God!

“Retreat!” She once again emphasized the order.

The teacher does not need assistance, but the coalition soldiers, may be the burden of the teacher! .

Chapter 1004 - Turn the tide

A few hundred people in the coalition are also waking up as a dream, and quickly drive the mech to the top of the rift..lā

Below are hundreds of extraterrestrial demons. If you really dragged them intentionally, then if you want to counterattack now, they will be in danger!

And in fact it is!

When they sensed the power of the deep waves, they sent more than a dozen extra-territorial demons to sneak into the air, but did not expect that Shen Lang actually kicked them back to the bottom at a subtle speed.

Those are huge bodies of tens of meters, and they quickly fall into the ground, causing vibrations. Under the strong kicking of the sinking waves, they are also caught in the ground and do not turn so fast.

But other extraterrestrial demons are catching up with the mechs. When they see this picture, they all come to the waves!

Dozens of huge extraterrestrial demons gathered together, just like all the floors of a community were flying. The scene was very spectacular and very terrifying.

The speed of the mech escape is very fast, but the size of these extraterrestrial demons is too large and fast, and the time has already arrived.

Although their goal is to sink the waves, but the armor of these roads will not be polite!

Dozens of extraterrestrial demons have all released the raging energy of destruction!

Shen Lang is very familiar with this. They are now bigger and the power of those violent energy is definitely stronger.

If it is a comprehension on the earth, even if it is a real thing, it will not be lucky, and it will die!

But the psionic masters here are very weak, at most equivalent to the level of returning to the Yuan Dynasty, they rely on technology. It is not certain now that their mech can be defended!

In addition to the mech, there should be a sacred armor, but after the mech was slammed, it would be too late to explode. Even if you don't die, if you can't escape, you will be swallowed up by these extraterrestrial demons.

Shen Lang does not know these hundreds of coalition forces. He cares about the blue sea. ..

Although Bi Haihuan was the first to come up, but he saw his great demeanor, he was also worried about his safety, coupled with the command, and did not continue to evacuate.

So now she is not the last one, nor the top one. In a few hundred, it is in the middle.

In this way, Shen Lang wants to take her alone, and there are also a lot of obstacles around.

There is no time to consider so much between this electric light and flint. Shen Lang can only make a decision first, and the safety is the first to be safe. All the coalition forces including Bi Haihuan will be saved together!

Shen Lang immediately centered on himself and formed a field around the top and bottom, including all the mechs.

The entire field is with him, so that as long as he is fast enough!

At the moment of leaving, Shen Lang also distracted and controlled Bihaihuan. Through her command to the command post, the shells were fired!

Bi Haihuan and others seem to feel the time and space solidified, and the surroundings seem to be still, and the next moment, they found the top of the rift and flew in the direction of the command.

At the same time, the extraterrestrial demon also leapt from the rift!

The fall of the violent energy attack, coupled with the disappearance of the dangerous target of Shen Lang, let them not wait any longer, directly take advantage of this opportunity to counterattack and kill a path!

On the other side of the command, there was already a missile ready. Originally, it was a cover for the frontline commando of the coalition forces. Once they were dangerously withdrawn, they were covered with missiles.

Just under the command of Bi Haihuan, even if the headquarters was worried that they would be accidentally injured, the commander decisively pressed the bombardment button as agreed.

As a result, when the missile flew over, Shen Lang took hundreds of mechs and left the rift at an incredible speed and returned to the headquarters. And the extraterrestrial demon that caught up with it became the target of the missile!

In addition to being evaded by the slamming, other extraterrestrial demons quickly sank. By turning the rift, you need a little more time to avoid the missile.

The command also took over the front line, and as before, the firepower suppressed them and prevented them from coming up.

For a time, from the rift, there was a loud roar!

At this time, the hundreds of mechs of the coalition forces have returned to normal, but each of them is very shocked.

Just in the short time, they obviously fled in the armor, but the surrounding was abnormal, the speed became very slow, and thought it was caught up by the extraterrestrial demon.

But obviously everyone's speed has become very slow, but in an instant they have escaped far away, and now they are already in front of the headquarters!

However, all other instruments have not failed, and the same environment can be detected. It can be known that the devils in the field are chasing after, and when they leave the rift, they have just encountered shelling.

It can also be seen that among the hundreds of mechs, there is a small figure alone, which is the mysterious person who saw the sky descending from the sky.

Look at this, everything just happened, it is probably caused by this person!

"Everyone has worked hard! The armor has not failed. Finally, my teacher helped push everyone. Let's take a break and discuss the gains and losses and prepare for the next battle!"

"Yes! General Bihai!"

Entering the headquarters camp, Bihai simply encouraged the coalition armored fighters and immediately rushed to the side of Shenlang and came out from the mech.

"Teacher!" Bihai saw Shen Lang very excited, almost want to put his arms.

However, there were hundreds of coalition mechs who had just returned together, and some officials of the headquarters also greeted them, so that she could only hold back.

"Not bad! The repair is improved. It seems that the general is still rising?" Shen Lang smiled comfortably.

He is not searching for the memory of Bi Haihuan, but just to inform the command, but also into her thinking, knowing that the command side is calling her "General Bihai."

It can be seen that in the past year, she has jumped from the previous colonel to the major general.

At the age of her, even the children of the Bihai family should be miraculous! Estimated to be a few years faster than her brother Bihai.

“That’s all because of the help of the teacher. How come you? And come here directly?” Bihaihuan resisted the embrace of the waves, but still ignored other people, just talking to him.

“I sensed that you might be in danger, just come over. Can’t find you, can’t find him...”

Shen Lang gestured to stay in Fengyuegu, which had just arrived at the headquarters.

“Then I found your brother, he said the situation, and arranged for someone to send me over.”

“Respected Master of Psionics!” Although Feng Yuegu was not in the front line, in the command, the pictures of all angles were more clearly seen. For the strength of Shen Lang, it was once again shocked and became more Awe.

Chapter 1005 - underestimate

With the commanders of Fengyuegu coming together, they are all generals, and several major families have arranged for elite participation. For the extraterrestrial demon, all major forces are very important, and they are related to the big problems of life and death in the city.

Although they don’t understand Shen Lang, they have just seen it with their own eyes. Even if it is difficult to believe, at least it can be confirmed that this is definitely not a general psionic master.

“General Bihai! Are you okay?”

Let’s greet Bihai and see if she is injured or not. After all, unlike other armored fighters of the coalition, she is the Miss Bihai family, even if she is willing to go to the battlefield, but it is really going to happen, and they are not good enough to explain to the sea.

It is precisely because of this that they are grateful for the Shen Lang who brought everyone back.

“The teacher arrived in time and helped us a lot. I have nothing. How is the situation now?”

Bihai shook his head and did not forget to mention the credit of Shen Lang.

“Do not worry! It has been suppressed.”

As everyone spoke, they went to the fast-moving belt and went straight to the command center.

The identity of Shen Lang is a bit special. Before the blue sea chasing, I have already greeted him. I just helped everyone. Even if there is no name, everyone still feels that he is qualified to enter the core command center.

This time, it is a joint operation of all the families. In addition to mutual assistance, there is also a balance. Now, without any problems, no one is willing to stand up and anger the blue sea.

So it seems as if I have forgotten the identity of Shen Lang and go with them. Of course, if there is a situation here and it is necessary to smash the black pot, it will definitely be said that the Shen Lang is brought in by Bihai Huan.

When they came to the command center where the layers of protection were strictly guarded, they immediately saw a comprehensive simulation picture on the front three-dimensional light curtain. The extraterrestrial monsters that had just been chased out were continuously bombed and suppressed to fall to the bottom.

This huge rift, both in height and width, is also a protective barrier.

Although I don't know much, Shen Lang can guess. With the technology of the river basin, it is impossible to have no weapons like “nuclear weapons.” The reason why ordinary missiles are suppressed and no destructive weapons are used should be to consider the wide-scale pollution of the environment.

Perhaps the coalition forces here have already prepared weapons of destruction. If they are likely to fall, they will explode directly. They will never let the extraterrestrial demons out of the world affect the world.

However, there is still a possibility that regular combat is to use this opportunity to practice training!

They have developed into such a high degree of civilization. Once a war occurs, the impact and devastating nature will be very large, and a balance will generally be reached. The management of several major families in the city, like several superpowers, maintains competition and maintains checks and balances.

Like the last time General Chang's war on the military field, it was only a small-scale local war that would not affect the overall situation.

But it is very likely that there will not be many such wars. After all, an excuse is needed and a price will be paid.

The emergence of such extraterrestrial demons is now an excellent excuse for all major forces. The action of the coalition forces is itself a close understanding of the strength of other families and an opportunity to showcase their own strength.

The extraterrestrial demon is the public enemy of all the human beings in the city. There is no problem in playing the big devil. Everyone can enjoy the training.

Otherwise, for such a violent and powerful extraterrestrial demon, it can be suppressed for so long.

After trying to understand this, Shen Lang secretly frowned.

Hundreds of mechs on the scene, underestimating the strength of the extraterrestrial demon, but he did not underestimate the major forces of the city.

They are not at home on the spot, maybe they can't find it. But through their high technology, the headquarters can see the situation on the battlefield in all directions.

To have a global overall, the details are detailed. It's hard to imagine that no one has seen it!

The joint commanders of the command center did not propose that they withdraw their troops. What did they explain?

Explain that this time the battle into the enemy camp this time is still only a training.

Even this is a process of spying data!

This information, on the one hand, is about other families, and on the other hand, about the extraterrestrial demon.

The battle materials for half a day today will definitely be viewed and analyzed in detail by the major families. Even now, all parties are looking at them from a distance.

Mech warriors sent by other families, including mech performance, combat style, etc., are important materials. And the greatest power of the extraterrestrial demon, it should be what they all want to know.

The films, literary works on the earth, and the depictions of the government on the earth are all secret warships and aliens obtained by secret research. Get more advanced technology from above, including using manipulation for my use and more.

The scientific and technological civilization of the river basin is undoubtedly very advanced, but these simple and ruthless extraterrestrial demons may bring new leap to the river basins in terms of biotechnology and genetics!

If the extra-domain sorcerer's super-competitive combat power can be transplanted to the warrior, and can eliminate other side effects. What a terrible thing would that be?

Once you have such a team, what is the psionic master? The city of a unified river basin is not a dream! Raiders other city-states even take the island, is not a dream!

Although this is the conjecture of Shen Lang, he does not think that only the politicians of the earth have ambitions. From the point of view of Chang Yi, the situation of the city-states in the basin is the same.

In the eyes of the big men behind the scenes, in order to get some important information, even if hundreds of mechs are damaged, it is nothing. Even if they are elite in the elite, but compared with the future information of these relationships, it can be consumed!

Shen Lang cares about Bihaihuan. He can't look at Bihaihuan as a "depletion consumable".

When the center commander of the rotation is about to introduce the situation to everyone, Shen Lang is opening his mouth to Bihai.

"I have come in a hurry, a little hungry. You should take me to eat something!"

Of course, Bihaihuan didn't think much. When I heard this, I was a bit embarrassed: "The teacher really broke my heart for me..."

"The Master of Psionics is our guest, and it has greatly encouraged our morale. It is worthy of our treatment. It is better to have trouble with General Bihai."

"Yes, yes, the Master of Psionics is our hope, the confidence of our entire army, and the news must be good."

The other commanders have not yet waited for Bi Haihuan to finish, and have been enthusiastically attached.

Bihaihuan frowned a bit, and Feng Yuegu nodded to her at this time: "Miss first take a break with the master, there are us watching, there will be nothing."

"Well, then I will not be polite with everyone, and I will work for you!"

Bihai Huanjia set a sentence, and then left with Shen Lang.

Under the leadership of the commanders, all the sergeants in the command center applauded the squad, except for the concentration of the sergeants. The previous pictures, they all saw it.

Chapter 1006 - Windfall

From the command center, Shen Lang's face is with a smile..lā

Before he came, he was waiting to receive the power of faith. Suddenly I felt that I was worried about the accident and I didn't think about the other. ..

But in fact, he originally considered a problem, that is, in other worlds, he can still accept the power of faith.

The focus of the previous year is to let Bi Haihuan return safely, but in fact it also has feelings.

When he arrived in the city, he could still accept the power of faith on earth!

This is very wonderful.

Shen Lang and the two are human beings. The previous world had a huge amount of practical experience. This world has developed concepts for hundreds of years, including concepts in science and technology and science fiction.

But in addition, he can't explain very well how it is done.

Of course, it was unclear how it was achieved on the earth, tens of thousands of miles away, and beyond the transmission of mental power.

But it doesn't matter, just like how electricity is sent, and how many processes are sent to thousands of households thousands of miles away, he is not very clear. But open the gate and know how to use electricity.

Now this verification has also made a conjecture of Shen Lang indirectly verified.

The gods who created the great religions in history are likely to be able to receive the faith of the believers!

When they completed the “sowing the fire” in the world, they died normally. But like Gao Hanqiu and Xu Yuyue, they can survive in different environments for hundreds of years. Those real gods should just “leave”.

Regardless of “Shen Kingdom”, “Xianjie”, “Heaven”, “Nine Heavens”, “Thirty-three-day Heaven”, “Three Thousands of Thousands of Worlds”, etc., from a modern perspective, these superpowers have gone to a very advanced Civilization space.

They may be the local gods of the earth, or they may be descendants of high-dimensional civilization, the purpose is to cultivate believers. Toshi, Xiafan, etc., is just a saying.

After the millennium, the religions they created have hundreds of millions of believers, and each day will provide God with the power of faith that does not know much!

This is their foothold in the realm of the gods and the world.

It's not very appropriate to make a match. Years ago, there was a section of Yongping's boss who set up an electronics factory in the southern country. After starting a cordless phone and a VD player, he retired early and became a chairman and went overseas.

Ten years and twenty years later, Xiaocheng is already a factory in the world. The electronics factory directly and indirectly hatched brands such as BBK, PP, VIV, and Ijia. It has done in many fields such as dot reading machines, telephone watches, and smart phones. The first few in the world.

If you compare this to the creation god, the equity gain is the power of faith. He does not need to be on the scene, and it will continue to be absorbed.

Of course, for thousands of years, there are countless gods, and the real success is rare. It is just like the success of doing business.

This is still within expectations, but it is just verification, not enough to make Shen Lang smile.

What really surprised him was that he just felt a lot of new beliefs!

Because of the close distance, he can feel the specific source more clearly. On the one hand, it is the hundreds of mech fighters, and on the other hand, part of the staff of the command center.

The commanders are all strategists, and the enthusiasm is superficial. The mechs, and other work sergeants, may not have such deep calculations. They really feel the magic of Shen Lang, feel the power of his own, and bring back hundreds of elites.

In this world that was originally worshipped by the psionic masters, Shen Lang's performance as a **** made him gain a fan of fanaticism.

Although their strength is weak, but the victory is pure, it is an unexpected harvest for Shen Lang.

"How is the teacher so happy?" After the outing, Bihaihuan, the mind was placed on Shen Lang's body, a little curious.

"I am happy to see you."

Shen Langshun said a word.

Bi Haihuan's face was red, and then full of joy.

Shen Lang also reacted. This is a bit embarrassing. He coughed and coughed: "Look for a place to talk!"

"Yeah." Bihai replied with a sigh, then took the Shenlang and went straight to her dormitory through the fast conveyor belt.

Shen Lang is not the first time, she does not avoid it.

After arriving at the dormitory, she had already eaten and drank through the Holy Grail, and people sent it.

“You just got a little upset?” Shen Lang asked when she fell into the water.

Bi Haihuan sighed slightly: “They clearly don’t want the teacher to be in the command center, so when you open your mouth, you will immediately be enthusiastic, and you will be so nice, a group of hypocritical people.”

Shen Lang laughed, she turned out to be angry.

That is not to distrust him, but also to look down on his identity, she is maintaining him!

Later, it became obvious that she accompanied Shen Lang to leave, and Feng Yuegu of course quickly promised to be looked after by him.

It’s an excuse for Shen Lang to be hungry, and he is not eager to talk to her, nor is he wanting to contact privately.

“Actually, I don’t need to be at the scene. I fully understand your situation. I don’t have to waste time in the virtual and the snake.”

“Ah? You just came over...”

Bi Haihuan was a little surprised, but immediately nodded again and again: “The teacher is a **** man, and I must see through all the situation at a glance.”

“Haha, you don’t have to tout me. I am just a bystander, and as an irrelevant outsider, I have no respect for all the generals and the big families. I don’t mind thinking about them from the worst perspective.”

“The most... bad?” Although I saw Shen Lang excited let Bihai Huan is not enough calm, but IQ is not completely off the assembly line.

“Is it not the first time in a battle like this today? But you are leading the team for the first time. Is it?”

“Well! The teacher really left.” Although the topic was transferred, Bihaihuan was very supportive.

“That is, all the mech fighters in the first-line battles are all released to train, and they also know each other’s military affairs. It is also used to get close to the trolls... Hey, the extraterrestrial demon.”

“What do you mean...?”

“In other words, they can be sacrificed when necessary! So there won’t be you before, today should be your own request!”

If there is her before, it should be no danger, or else there should be a hunch.

Bihai nodded noddedly: “We have attacked several times and have no effect. Today is the largest one. As a master of psionics, I am the strongest one at the coalition, so I asked to lead.”

“What is your purpose? Other commanders should think that you are trying to show off the limelight, but I know that you are not such a person.” Shen Lang looked at her.

Bi Haihuan smiled slightly: “They really have such an idea, or the teacher knows me. I don’t really want to go out of the sky. Once you leave the Rift Valley, the city will be very dead and wounded. If you want to kill, you must pay a huge civilian casualty! ”

Chapter 1007 - Left and right

“You are such an idea. Frontline fighters should think like this, even if they sacrifice themselves. But the big guys behind you may not be. It is more important to understand the strength of other families, to get more value from the extraterrestrial world, sacrifice. You don’t care.”

Shen Lang directly emphasized once again: “You were originally one of the on-site commanders. Sacrificing warriors will not sacrifice you, but you insisted.”

Bi Haihuan also wants to understand, she can imagine, this should really be the idea of father and others.

“That... what?”

“In fact, you don’t have to worry. They can block the Rift Valley, and then they will have no problem if they persist. If there is a real failure, there will be means to annihilate.” Shen Lang comforted.

Since this is a situation that every major family needs, he is not allowed to intervene.

“But...” Bihai happily bite his lip. “Every time the storm is over, the organic armor is falling, and one soldier after another can’t come back. Today, if you suggest that we retreat and help everyone, it will definitely sacrifice a batch.” !”

She looked at Shen Lang a little bit painfully: “Twenty percent of the damage, the commanders feel that they can receive! For them is just a death rate figure, for the coalition soldiers, is the sacrifice of dozens of soldiers! The loss of armor equipment and so on will not be said.”

Shen Lang can understand her mood. Although she quickly reached the position of the general, the experience of the battlefield is still small. She still sees less death and the blood is still not cold.

A dozen or dozens at a time, from the beginning to the present, it is estimated that at least one or two hundred are lost. Only a part of these are the blue sea family, but they are all elite warriors of the city-state coalition forces.

Everyone is also trying to protect the city’s heroic devotees, she can’t stand it, so she personally led the team. Even if you can’t reverse the battle, you can at least advance and retreat with the soldiers.

But before, she thought that it was the extraterrestrial magic that was too strong and could not be sacrificed.

Now that the onlookers of Shen Lang named, they realized that the other commanding generals had reached a tacit agreement. Do not use devastating blows, find all kinds of

excuses, the real reason is to train, understand other family strength, as well as extraterrestrial information.

Although there will be a certain mortality rate, the major families will be able to afford it, and the part that survives will be of great value in the future.

Shen Lang looked at her and asked seriously: “If you can control the overall situation, how would you decide?”

Bihaihuan heard this, first stayed.

Yes!

I didn’t think much about the high level of the family’s tops before, but other generals, including Fengyuegu, had a tacit understanding.

Even if she understands, it is impossible to control the overall situation. Even if you ask questions directly and argue with other people, everyone will think that she is a woman’s benevolence and childish. What they achieve is beneficial to the families and the overall city-state.

After all, now the extraterrestrial demon is still controlled in the Great Rift Valley. Everyone is just nervous and proactive. There is no direct slaughtering of the city. Public opinion will not give them pressure.

“You are right, I can’t control the big picture... Maybe, this time let me come to practice, I want to let my mentality move closer to them.” Bihai smiled bitterly.

“I mean, if you can control, how would you decide?”

Bihai Huan’s face is positive: “I will solve the war as fast as possible! I can’t watch the soldiers’ sacrifices a little, and the teacher also said that the extraterrestrial demon is also retaining strength. They also have wisdom and are using us to attack. The energy is growing.”

She paused and continued: “The commanders also know the preservation of the extraterrestrial demon, but in case the strength of the reservation exceeds everyone’s imagination? Or the speed of growth exceeds the imagination, when they fly to the sky, perhaps With the original blockade and annihilation, there is no way!”

Shen Lang smiled slightly: “I don’t care about the purpose behind each of you, just come for you. If you want to solve them as soon as possible, then I can help you finish!”

Bihaihuan had a surprise: “Teacher... Do you really have a way?”

Then she asked herself and answered herself: “There must be a way! The teacher is so powerful, there must be a way!”

For Shen Lang, she is also curious, because every time, the strength is greatly increased.

But even if she first taught her how to cultivate, she made a big profit, let alone help her break through. So even if it is amazing, she will not have any doubts.

This is the purpose of Shen Lang’s early departure. Tell her clearly about the deep situation. If she has no choice but to identify with her family, she will naturally not be in danger.

As it is now, if there is a chance to reverse the outcome, then help her.

“I will propose to them later, go to the Rift Valley tomorrow. I will be with you, and I will be there to make sure you are safe.”

“Ok!”

Bihaihuan does not doubt the arrangement of Shenlang. Shenlang can protect her. Isn’t that justified? Every time!

As for the other commanders, with the scene just now, there should be no doubt about the strength of Shen Lang.

During the talks, the logistics and catering department of the headquarters of the headquarters has already sent them food and drink.

Eating is just an excuse to find casually, and naturally it is not the point. When I was eating, I asked about the situation of Bihaihuan for almost a year.

According to the guidance of Shen Lang, Bi Haihuan absorbed a lot of energy from the fine stone, relying on himself, and from the peak of the virtual world, training to the level of the early stage of the real world.

This is already a very bad place in the city of the river basin, not to mention that she is still a child of the Bihai family.

Therefore, Bihai has created a momentum for her, so that everyone knows that she is a powerful psionic master, expanding from the reputation of the army to a larger scope. Coupled with other aspects of cultivation and training, it was logical to push her to the rank of major general.

In terms of time, it has been catching up for a few years faster than Bihai, and with the beautiful appearance of princess, she has many fans in the army. This time, the coalition forces involved in the demon outside the encirclement of the demon, also brought a group of elites of the blue sea family.

After the meal, Shen Lang began to teach her mental control directly!

He is going to play a big ticket tomorrow!

Of course he will not be dry, so many extraterrestrial monsters will be his prey.

Bihaihuan is living in this world, and her reputation is given to her.

Although being a young girl is too high, it is also dangerous. But Bihaihuan is not an ordinary person. In the world of the city, the Bihai family is equivalent to a country, and she is equivalent to a princess.

With a strong backing, her rise will make the Bihai family more and more prosperous, not dangerous.

Shen Lang has already thought of a way to shock everyone's eyes. In addition to the trolls, he may also be able to gain a vote of faith!

Chapter 1008 - Crazy proposal

The rumors of the love of the sea, the whole frontline base has heard it!

It is not that the commanders have no confidentiality, but that Bihai Huan has not been negotiated directly with other generals and directly in the lobby of the command center.

Even because of her suggestion, it was too ridiculous, and everyone thought she was too crazy.

It is the two people who go to the bottom of the Great Rift Valley and fight at close range with the Tianmo Demon. It is the crazy move to send the sheep into the tiger's mouth. However, Miss Bihai has a magical teacher, and everyone is still skeptical.

After all, she said that her teacher is a big man from the legendary fairy island!

Today, she is in danger, she arrived in time in a magical way, and brought everyone back together, which has already made everyone admire.

But the content of the blue sea is pleased...

She and the psionic master are two people, but they are not driving each other, but they are manipulating four hundred mechs!

This number scares everyone!

Take one hundred, one to two hundred!

Not to mention other positions, even the most elite mech fighters who fought together before, were also thundered by this proposal.

They are driving a single mech, and in the following battles, they must always maintain a high concentration of spirits. After returning, they feel a little vain.

For Bihaihuan, they are very admired. As the big lady of the Bihai family, they can also be very skilled in the mech manipulation like them, and there is no shortcoming in combat experience. It can be seen that after countless simulation exercises, it is true. I have worked hard.

And on the one hand, the psionic masters are far better than them. In the case of knowing that there is danger, you can still die with them, no matter which one is, you are convinced.

But now it is too exaggerated to say this.

She is strong, can't manipulate two?

Even if it can, the ten will be in the sky. Can the other psionic masters be able to manipulate three or four hundred?

Of course, theoretically and technically, that can be done. Because even if people are in the mech, they rely on the bionic brain-like contact manipulation, and it is too late to rely on hand speed.

Therefore, it is possible to make several or hundreds of units as one contact, and one person can manipulate all at the same time. There is no problem in the handling and simple flight of the unified trajectory, but it is a dead end to fight like the devils in the field!

This is not just ruining all the mechs, including people. Because the brain can't afford so many threads of operation, the results of one-hearted use will be dead, let alone single-minded.

However, from the point of view of contact, everyone knows that Bihaihuan is not a sensational person, but also able to be so determined, she can only say that she believes her teacher too much.

For Shen Lang, everyone also had previous admiration and became a bit contradictory. I feel that this person is very happy, hundreds of mechs, that is a huge loss, and that is still the second, if the Miss Bihai is harmed?

Of course, the generals all want to persuade her to take back the proposal. They also said that they should be carefully considered and need to have a meeting to discuss, including Fengyuegu is also very anxious.

However, since Bi Haihuan chose to make an open proposal, she did not want to have a closed meeting, but she was determined to carry it out. In the end, she simply said that if she personally suffered death or injury, she was personally responsible and the loss of the mech was borne by the Bihai family!

When it comes to this, the other commanders are hard to say. Even people from other families are secretly hilarious.

After all, everyone is superficial and actually competes with each other.

Bihai's son, Bihai, is chasing the younger generation and is a very capable one. In the past two years, Bihaihuan has suddenly risen strongly. This year, it is no match for the limelight. It is a bit depressed for everyone to envy.

But the major families can always be balanced. Of course, there are many unwritten tacit understandings. Of course, there will be no assassination of other people's children.

Now it is different. Bihaihuan is steadfastly rushing to the front line, really doing things, or out of the limelight. If it hangs, they will be scolded up by the top, and they will apologize. It is a big favor for the family.

Of course, Fengyuegu quickly reported this information to Bihai Chengtian.

Bihai was also shocked and sent her daughter instead of her son. It is because the son is going to be a partner. It is even more important, but it is also clear that the danger is not great. It will not really make Bihai happy.

After the past experience, it is a great achievement, and she will have a great harvest.

It's already very self-willed to play in person today. I didn't expect to make such a ridiculous suggestion!

For the father, Bi Haihuan is just a simple sentence: believe the teacher!

Her change and strength, the blue sea is more clear than the outside world, and the identity of Shen Lang is completely inaudible and inaccessible, so I believe it is from Xiandao.

In fact, the two places where Shen Lang appeared, they have been carefully examined, but there is no clue.

Since the daughter is so determined, plus the previous picture, Shen Lang does have the strength to take all the mechs away. He also decided to gamble.

At the same time, he solemnly told Bi Haihuan that if there is danger, let Shen Lang save her, the mech loss is not important, the family is responsible for compensation!

I didn't know who it was, but I spread the information out. From the frontline base, I directly gave it to the media. I quickly learned that the entire city can be known!

Originally, the invasion of the demon outside the realm was the focus of countless people in the entire city. Everyone was worried that it would be invaded. Suddenly there is such a shocking news coming out. For a long time unsolved problem, everyone can't help it.

A lot of people attacked Shen Lang and Bi Hai Huan for a time, but the Bihai family control area, of course, is quite a princess, I think Miss Bi Hai will definitely create a miracle!

Shen Lang said that the next day of attack, in fact, is to reserve time to teach Bihaihuan's spiritual control, how can be calmly distracted. As long as you have enough mental strength to drive a mech, you can drive two.

He is not in a hurry to help her improve her strength. Now it is a stable place to live in the early days. It is enough, and it is more suitable than the medium-term situation of rushing promotion. But of course he will inject more spiritual power into her so that she won't be able to bear it.

The changes in the base, including the response of people such as Bihai Chengtian, have all been taken into account. But it is to make everyone feel ridiculous and incredible, it is a great joy, will give them this opportunity!

Other generals may believe that he can save Bihaihuan and will not die, but as long as he sees the failure of Bihaihuan, he is also very happy, and naturally it will promote this.

With this opportunity, you can get rid of the extraterrestrial world. Otherwise, including the blue sea, knowing that Bihai has this determination, she will turn her away.

Chapter 1009 - Double attack

Early the next morning, everyone in the frontline base waited for the crowd if they were not busy with the necessary positions.

However, although the information was transmitted, it was a military secret after all, and no one dared to broadcast it to the media.

However, the outside media, also rushed to the base near the night, trying to find information.

Four hundred mechs have been put in place, that is, everyone fought yesterday. The mechanics team also checked all the repairs overnight. The engineer team is not connected with all the systems.

In this way, the operator can control all four hundred mechs in one of them.

Just let these four hundred units fly, all mechs can do it, but it is difficult to divide into multiple batches of operations. It is necessary to operate each unit individually, but also to fight all the cooperation, but also to deal with the rapid attack of the extraterrestrial Tianmo...

Everyone thinks this is a crazy absurd speech.

Shen Lang and Bi Hai Huan have also been in place.

But what shocked everyone again was that on the mech, only Bihai had one, driving her own mech, and Shen Lang was standing on the side.

It is conceivable that Shen Lang must have a sacred armor. Of course, all the mechs can be manipulated through the sacred armor. However, in the mech, in addition to manipulation, it is also a strong and strong protection.

He will go on like this, not to mention that he will be swallowed by the celestial demon. If these hundreds of machines are smashed and shot, they may be accidentally killed and killed!

“Starting.” Shen Lang informed Bihaihuan with the Holy Grail.

Bi Haihuan immediately started all the mechs: “Go!”

“I wish the generals of Bihai to win the victory, return to the triumph, and annihilate all the extraterrestrial demon!”

There was a commander general who blessed a message. This is a fake guest. In fact, they can come back alive!

Everyone knows this, but can't always say “I wish you can come back alive”, it is like a curse.

So everyone else has quickly followed the sentence.

“I wish the general of Bihai to win the victory! Return to the triumph! Destroy all the extraterrestrial demon!”

Four hundred mechs vacated and flew directly in the direction of the Great Rift Valley!

Shen Lang began to teach Bi Haihuan's spiritual control yesterday, and Bi Haihuan also told him about the operation of the mech.

This shocking suggestion is also a whim for Shen Lang. It is actually very dangerous to want to play a big ticket.

Today's battle is actually a test of his cooperation with Bi Haihuan!

He is strong in mental strength, but even if he can be distracted to operate to four hundred mechs, but the specific manipulation is still very unfamiliar, this is a night can not make up.

Therefore, this piece will be responsible for Bi Haihuan, and Shen Lang will do it to provide her with the mental power so that she can do this.

But the same, Bi Haihuan is not likely to be familiar with distraction overnight, which requires Shen Lang to enter her consciousness, with her two-in-one assistance.

To put it simply, Shen Lang provides four hundred units of control capability for distracting operations. The specific technical operation is from Bi Hai Huan. In order to accomplish this, in addition to learning to make up each other, it is a part of Shenlang who is temporarily integrated with her.

In the four hundred mechs battle group, Shen Lang seems to be very small, so that everyone who has seen through the huge light curtain is secretly sweating.

At this time, the outside reporters are already fully prepared.

The information that they can't enter the theater, the base, and the headquarters can't be intercepted, but in the outside world, the information in the theater can be observed through other scientific and technological means.

Four hundred mechs have been heard, but now there is still a person in the mech combat group, so that everyone is focused on, not to say the result, just this silly and bold spirit is not afraid of death, it is a full News gimmick!

Shen Lang and Bi Hai Huan with four hundred mechs, before entering the Great Rift Valley, the theater is still maintaining firepower suppression, the extraterrestrial demon can only be at the bottom of the valley, as soon as there are signs of flying, immediately flew to serve.

When they flew into the Great Rift Valley, the missiles stopped, but the commander in charge of the rotation, and the personnel who manipulated the missiles, were even more nervous.

Regardless of whether Bihaihuan is stubborn or not, even if it is a decision to find death, they can't really look at it. It is one thing to be able to rescue success. Saving rescue is another matter.

And if they lose four hundred mechs, these intelligent extraterrestrial demon, may take the opportunity to take the two of them as adults, and then fly out, the situation is even more severe!

The theater headquarters is keeping an eye on all the details after they enter the Great Rift Valley, and the operators constantly adjust the details of each angle to follow them.

The reporters from the outside world, under the release of water, obtained the pictures of the theater through scientific and technological means, and directly spread the people of the entire city.

For a time, hundreds of millions of people are paying attention to the picture here!

With the support of some of the Shenshen gods, Bihaihuan has no tension at this moment, no fear, self-confidence has been promoted to the strongest, full-spirited simulation and ready to fight.

The extraterrestrial demon under the rift, who has been trapped here for so long, is also very unwilling. But the bombs that don't want this are difficult to break through.

If you really want to break the boat They actually dare to fight out, but the reason also let them understand that these opponents still have reservations, once they really want to forcefully leave, there will inevitably be bigger Strike!

One side proof is that they stay behind the bottom of the rift and are not chased by victory. The firepower density of missiles is weakened unless they are coming up.

Therefore, they are also under the premise of self-protection, try to seize the opportunity, absorb energy a little, and strive to become more powerful.

It can be said that the stalemate in the war here is a tacit understanding of some level of the two sides.

When another mech battle group came to the Rift Valley today, the underworld extraterrestrial demons were also excited.

Although they have limited understanding of human beings in this world, because of their strong sensory ability, they don't have to wait for them to come down, they know that there are only two people coming today, and the other mechs are empty!

One of these two people is a powerful human being who suddenly appeared yesterday.

Yesterday, Shen Lang only forced back a dozen of extraterrestrial demons. For the pursuit of the latter, the choice was to help all the mechs of the warriors leave together.

For the extraterrestrial demons, they have the ability to fight them – at least they can bring different threats, but they don't do anything.

This is almost the same as their tacit understanding during this time!

Then, with so many empty mechs attacking today, can you understand that it is sending energy to them?

Yesterday, so many people manipulated the mechs, and they didn't count on them. The other side also understood that there are only two people coming today. Is it still expected to fight with them?

This is by no means goodwill, it should be to use them!

For the extraterrestrial demon, they are unfortunate, this is the mutual use.

Chapter 1010

Open fire!

With the help of Shen Lang's consciousness, Bi Haihuan directly manipulated four hundred mechs and began to attack the wilderness of the extraterrestrial screaming madness!

Those extraterrestrial demons are tens of meters high, and the leaps are already very high, and with their speed and tyrannical body, as long as they can shoot, they can fly the mech.

Yesterday, hundreds of city-state's most elite mechs, the pretentious operation, barely avoided.

Now that two people control four hundred mechs, can they really dodge?

Everyone has doubts.

But soon, their eyes are wide!

The four hundred mechs, like a butterfly, are like a bat, shuttle between all the extraterrestrial demon, each time a precise attack, but will not be hit by any.

There is still a speculation about their plans, that is, in a higher place, remote control of other mechs. In this way, once the danger is reached, the abandonment of the mech can be safely left.

But now Bi Haihuan's mech, does not stand alone on the top, is the same as other mechs, in close combat!

At this moment she was like a brave and incomparable general, directly rushing into the enemy camp to kill.

Shen Lang is acting as a coach, but he does not maintain the distance, the same is flying between the devils outside the domain.

This picture directly allows everyone in the theater base to go up and down, as well as all the city-state personnel who understand the situation through the leaked images, all kicked a wave of sweat!

Bi Haihuan's mech may be hit at any time, but she is also in the mech, even if it is hit, it will not be directly injured, there are protection and a lot of weapons.

However, Shen Lang, but directly in the flesh around the extraterrestrial demon, more than one meter tall, and at least tens of meters of trolls, it is particularly disparity.

He seems to be a swaying boat in the wild waves, and seems to be swallowed by the demon outside the field at any time!

Originally, the devils outside the domain thought that this time they had the heart to send energy and let them grow. Unexpectedly, the mechanization exhibited by these mechs, as well as the firepower, were better than yesterday. There were a number of extraterrestrial demons that were hit and fell.

This irritated the demon outside the field, they all moved to the real, the acceleration of the attack is getting more and more fierce, but also exposed the violent energy, and more incarnation of the fire, the gesture is a strong flame.

Hundreds of mechs, several of which were dodged, were shot down on the ground and directly shattered by troll violence!

This scene was seen by everyone, and they all jumped up and began to pray for the blue sea and the waves. Whether it is an absurd search for death, after all, it is also fighting for everyone.

Bi Haihuan was also affected, but Shen Lang's consciousness made her stable, and did not care about the loss of these mechs and continued the all-round attack.

More and more extraterrestrial demons have joined the battle group, and the scope of the battle is getting bigger and bigger.

When the four hundred machine pairs are on the top ten or twenty, it is a densely enclosed encirclement. When there are four hundred pairs on the hundredth, it is much more scattered.

Last time they were holding for a few hours, if it were not the impact of Shen Lang, it might last for a while.

But today's war situation is very fierce at the beginning, and the latter is directly heated up. No one can believe that support for a few hours, basically in minutes, can support one minute, is a miracle.

The people of the Bihai family and the people in the boundaries of the Bihai family have even shouted out, hoping that Bihaihuan will quickly retreat! Now that she has demonstrated her strength and courage, and then continue, it is brave and courageous.

Every tenth of a second, a mech was hit and fell!

This number has exceeded twenty in a few minutes!

The damage has reached 5 percent! Fortunately, there were no casualties, but it was not terrible.

Although there are so many break rates in the usual wars, it is also a result of several hours. According to the current situation, it will be fully reimbursed in more than an hour!

In fact, as the damage is more, the strength is weakening, and the speed of the subsequent damage will gradually increase!

The whole situation, of course, is under the control of Shen Lang.

The tragic situation is actually deliberately created by him!

Those broken armor are very miserable, but Bihaihuan does not know, this is his intention to let the trolls hit.

Of course, this is even hard to believe in Bihaihuan. After all, one person distracts to manipulate hundreds of mechs, with a slight error, and may have great consequences.

In other words, she can control four hundred mechs, instead of being blown up, it is much more than everyone else, including her own imagination.

Shen Lang intentionally destroys these, is to let everyone realize the power of the extraterrestrial demon, and realize the cruelty of war. Occasionally crashes in a few hours, just like watching a football game, the impact is certainly not as good as a penalty kick.

This time is just right, not too much, so the effect overlaps. It won't be delayed for too long. When everyone hasn't slowed down, they will come soon.

But he is also very clear that the front can not be pulled too long!

The penalty kick is certainly exciting, but if the whole game is a penalty kick then it is boring.

So I looked at it almost, and the waves that had been drifting in the air finally took the initiative!

He condensed into a giant sword of several tens of meters in the air, and deliberately displayed the white light, and then directly smashed the past with a scorpion!

His people also landed directly on the demon outside the domain.

Then he slashed his sword and slammed into the second field!

This sudden "change" is such a huge "light sword" that has shocked everyone who saw it.

Sure enough, it is from Xiandao. Isn't this the fairy magic that the gods have?

While everyone continued to pursue Shen Lang's gaze, it was discovered that when he stabbed the fifth demon outside the field, the first extraterrestrial demon had already crashed into the ground, and the huge body was directly divided into two. It was actually split into two halves by the lightsaber!

This once again shocked everyone, everyone is excited!

The first sword is Shen Lang's public debut, of course, to be as grand as possible, he is actually a three-in-one offense. When the sword is in the middle of the troll, in fact, the moon has already been shot in the brain of the troll, and in a time with the technique of the eight-needle!

Directly, the inside of the brain outside the domain is smashed, but the battle is fierce, and its body is huge, it is also maintained, and no outside world is revealed.

And falling on the troll's body, is to quickly absorb the core magic.

In this way, the most dazzling "white light sword" is actually equal to the separation of the body, the natural effect is remarkable.

But because everything is too fast, the troll's body still maintains inertia. When he continues to attack the fifth demon outside the field, the first one collapses in two halves.
