

First Strong 1021

Chapter 1021 - Bihai Fengtian

The blue sea is like a wind, and this is already a loss for him. The threat to the edge of his death is already very serious. He is offended by the blue sea family. Does his sister actually apologize?

However, he is arrogant because of his identity, but not without a brain.

If there is no such thing, he is not in a good position, and Bihai Ruyu will let him apologize, which will only make him even more angry.

But now, he already knows the situation. If he is tougher, it will really kill him!

Although this possibility is not very big, not to mention the background of the Bihai family, there is no deep hatred, just because the words are not good, it is dead, this is also evil.

But he can't take his own life and gamble on this sin. What if?

Even when the family avenged him, he couldn't bring him back to life.

So for a minute or two, he immediately apologized.

"Big, Master... Sorry, I am disrespectful..."

An apology is not something that the sea is good at, and the tone is obviously very blunt, but the gesture is made.

Bihai Ruyu also showed a bit of awkward, nervous and flattering smile on Shen Lang.

"Master, you see... or will I teach him another lesson?" He said that he raised his hand again and made a move to the face of the blue sea.

The blue sea moved like a wind, and I wanted to dodge, but I still hold back, and I waited for a slap in the face.

According to the normal situation, the posture of Bihai Ruyu has been put so low, and it will generally be given up. Therefore, she slaps her hand and looks like it. When she rises up, she waits for Shen Lang to stop.

However, Shen Lang did not express his position, so she looked at her.

Her control of power is naturally not as good as that of trained masters. This slap in the face, of course, does not have much strength. I did not think that I really hit it, and naturally stopped in the air.

awkward!

The time of the whole silence, but for a second, but the ambiguous atmosphere has already made the face of Bihai Ruyu hot.

She can only bite her teeth and re-raise her slap. She has no strength at all, and her fan is on the face of the blue sea!

This slamming, directly hitting the blue sea like a wind to the side, people also forgot the pain, incredible squinting at his sister.

Bihai Ruyu is very helpless. I knew that Shen Lang would not stop. At that time, I should slap it to the end, so I didn't use much strength.

Everyone looked at her and stopped. This is not a sincere statement. It can only be compensated by the increased strength.

The blue sea is like a wind because of this pause, thinking that it will not be hit. Originally, the scalp was prepared to be beaten. Just after it was relaxed, it came awkward and directly snored.

“Teacher, if the wind is not intentional offense, he is just a habit of talking everyday, you should not be angry...”

Just a little while, Bi Haihuan is also very tangled. If you are a brother and sister, you can support the teacher. But after all, this is a cousin, the impact is not the same, she had to come out round.

And the situation has already been made this way, and it can no longer continue to deteriorate.

Shen Lang smiled and said: "I am not angry, Miss Bihai wants to educate her brother, I am not convenient to blend. Go, let's eat! I want to take a break."

With what strength he shows, where do you need to rest?

Already so obvious, the accommodating orders, Bihai Ruyu and Bihaihuan looked at each other and dared not say anything.

"Excuse the master."

Fear that the blue sea will continue to say that he is offended by the waves, Bihai Ruyu quickly pulled him and took him away.

"Teacher..." Bi Haihuan is a bit overwhelmed.

Shen Lang shook his head. "You go, I am not angry, just don't want to socialize with strangers. If you come back, you still need to go through the past."

"Yes. I will be back soon." Bihaihuan had to agree.

Then she quickly followed the blue sea and they left.

Just like the blue sea, but the wind was scared, and was hit by two slaps in the blue sea, such as jade, will be counted on the head of Shen Lang, and inevitably go back like an uncle, crying. She must rush to explain in the past, and she is on the scene, encountering oil and vinegar, can also clarify.

Of course, Shen Lang is really not angry. This is a small role, that is, a small punishment, not qualified to make him angry.

After sending them away, the leisurely waves are taking time to straighten out the power of faith absorbed in these days.

There are a lot of spiritual stones on the earth, and there are many accidents that have been contributed by the people of the city. The number is not small, but it is still relatively easy to accumulate.

But that day, nearly a hundred extraterrestrial demon, but it was quickly absorbed in a short time, so that Shen Lang also has the feeling of support.

Now straightening out, in fact, it is also trying to compress too much of the power of faith, and then release it when the realm of the realm can withstand greater.

The practice of the Holy See is also to make Shen Lang curious. If you can collect the power of faith, present it in a highly concentrated and concise state, and then use when you need it, it will definitely be much better.

Now he has to be all hard and hard, and it is only a matter of expediency. If the amount of harvest is too large, it is not appropriate to get more concentrated, it is dangerous.

It didn't take long for Shen Lang to stop compressing.

Because someone came over and bothered.

This time, it was the father of Bihai Ruyu, Bihai Fengtian.

Bihai Fengtian will come in person, no doubt, it is the blue sea just like the wind has gone back to cry. Bi Haihuan did not come along with it, it should be her mother or Bihai Ruyu and others.

Shen Lang does not have to worry about Bihaihuan. With her current momentum, there is absolutely no problem in the Bihai family.

At this moment, it is calm and calm, waiting for Bihai Fengtian to come over.

Bihai Fengtian is not alone, and a middle-aged person accompanied him. This middle-aged man plays the role of a bodyguard guard, apparently a psionic master who is not weak.

However, Shen Lang did not pay much attention, because his strength is not as strong as the current blue sea.

“The respected master of Shen Lang Lingeng, Bihai Fengtian came to visit.”

After Bihai Fengtian two people’s micro-aircraft arrived at the balcony, Bihai Fengtian first personally informed the inside, and then waited for the answer of Shen Lang.

This of course comes directly to his children and looks polite. However, after the conflict occurred in the past, the present courtesy is a bit false.

“This is the Bihai family. You are the masters. You don’t have to be polite to me.”

Probably from the blue sea, such as jade, has already played a vaccination, Bihai Fengtian did not mind because of this unkind words, but smiled and began to step.

“Then I took the liberty to bother.”

Chapter 1022 - You are not eligible

After Bihai Fengtian brought the man in, the man was low-key walking in the side, and did not stare at the sinking waves, as if it was an inconspicuous guard.

However, Shen Lang was aware that the other party was secretly investigating him.

“General Bihai, is it for the sake of his son?”

Bihai Feng Tiancai just saw Shen Lang personally, and when he was preparing to speak, he did not expect Shen Lang to pick it up and let him burst into a while.

“The words of the masters really make Feng Tian stunned. I actually apologize for the generation of dogs.”

Said, he looked a whole, and then seriously bowed to Shen Lang.

“The dog is as rude to the master as the wind, but it is not strict with the family. The master does not care about him. It is his blessing. Fengtian will inevitably strictly discipline and live up to the opportunity that the master gave him.”

Shen Lang was a bit helpless, and his posture was so good that he couldn't say anything.

“Okay. General Bihai does not have to apologize to me. If you don't say whispers, what can you say?”

“...”

Bihai Fengtian once again picked up.

Just as the blue sea is like the wind, he is already prepared, so he can show his sincere attitude with ease. But now, this is not how to deal with him.

Is it straightforward to say: I am coming to draw you, you will help me in the future, I will give you a lot of benefits?

This is too stupid!

Generally speaking, it is necessary to talk directly about conditions and have a certain foundation of trust.

“Come and ask me to go to your house to eat?” Shen Lang joked.

“Yes, yes. The brothers and sisters are not at home, and they are not chasing children. Only the blind and the joyful children are not enough to be grand. So I will make my own ideas and set up a banquet to clean the dust for the master!”

Bihai Fengtian quickly followed this step.

This is of course an excuse, but it is not blunt. Bihaihuan is nothing more than a teacher called him, but also returned together.

But the lady of the blue sea, talking about her identity, is comparable to the kingdom and the prince of a country. Even if there is no old-fashioned feudalism, it is still a bit inappropriate to come out to receive strange young men.

Bihai Fengtian is the elder of Bihaihuan, and it is also a man. From his appearance to the bureau, plus his family, everyone is different.

Shen Lang directly said helplessly: “General Bihai. Not that I don’t give face, but I really have things. Besides, I am only familiar with Bihai, and I am not familiar with everyone. I don’t understand the rules of all aspects. It’s a arrogant person. I’ve just offended the son, and if I’m not happy with other people, it’s boring.”

Having said this confession, it has blocked the back road of Bihai Fengtian persuasion.

The person who came with him, can always be with him. Bihai Feng Tianyi apologized without evading him, it is confident.

And they should have said it on the way, and there is a stalemate at the moment, and this person is immediately on top.

“Master Shen Lang, General Feng Tian is a person of love. Knowing that you are helping Miss Huan, I am very grateful and willing to help the Master achieve greater results.”

Shen Lang taunted and looked at him: “What do I need for my first husband? The Bihai family is a royal family. You make me want to do more, is it suggesting something?”

That person is awkward, this is a worry!

The most taboo of the royal family is this kind of intention!

Whether it is the power of Shenlang dyed to the Bihai family, or Shenlang helps Bihai Fengtian to seize the family power, this is a taboo for the right to seek power.

“I don’t mean this...” He hurried otherwise, instead of saying more specific conditions: “I heard that Miss Huan has gathered a lot of high-grade spar for the master, and some spar. It is obvious that the master is also lacking some resources. If you follow General Fengtian, the general will meet any of your resource requirements!”

Shen Lang’s mouth is so powerful that he is already a teacher. I dare not say more, honestly said the conditions straightforward.

If Bihai Fengtian is inconvenient to drop the truth, he can help to say it. What is the problem, that is, he is thundering.

“Follow?” Shen Lang asked a question.

When he said the word, Bihai Fengtian had already frowned, but it was not convenient to correct it. Instead, it became an emphasis. He could only hope that Shen Lang did not pay attention.

Now I heard the question of Shen Lang, and I couldn’t help but smile.

“Shen Lang master is a **** man, Feng Tian is a man, and he dares to follow. It is a chance to cooperate with the master. More accurate, I hope that the master will help bring one or two.”

Already this is the case, he can only personally admit it.

The psionic master listened and secretly surprised. For his spoof, General Bihai actually made the words!

This is also a bit more popular than the popular, he can become the heart of the sea, naturally because he is a very high-level psionic master.

However, compared with the ability to show on the battlefield, he is far from being able to look back. It is no wonder that the attitude of Bihai Fengtian is different.

Regardless of the heart, at least the attitude of the sea and the sea has been put down very low, even if Shen Lang can not promise him is not cold words.

“You should investigate... or inquire about my situation. I should know that I don’t want to participate in any business in the river basin. I will participate in it, just because of the blue sea.”

This time, Shen Lang said that he was a little euphemistic, and he gave him face.

There is a clear disappointment in the face of Bihai Fengtian. It is only through his children that there are many explanations. He personally came over and said this way. In fact, on the other side of the sea, there will be a knot.

Even if the Shen Lang is only helping the blue sea, in the eyes of the blue sea, this is also the behavior of digging the wall. And Bihai Fengtian digs a strong help, the goal is self-evident!

If the digging is successful, it may be a change in the future for him; if there is no successful dug, there will be a gap between the brothers.

At this time, the person that Bihai Fengtian took, suddenly asked the opening.

“Excuse me, Master Shen Lang, are you from Xiandao?”

Shen Lang glanced at him and pondered his words. It was Bihai Fengtian who arranged him to ask in advance, or did he want to ask himself.

Judging from the expression of Bihai Fengtian, it is more like this person feels that there is no chance in the future, and he asks himself.

“Do I need to answer you?” Shen Lang faintly asked.

“Is it not answered, or can’t you answer?” The man took a breath and took the courage to ask again. There is a little light in his eyes, probably trying to pass the attitude of Shen Lang to prove the answer.

“You are not qualified.”

Shen Lang proudly finished, just looked at him more, that is almost the psionic master who is still the peak of the virtual world, and then I felt the fear from the bottom of my heart, the whole person is about to collapse, and sweating.

Chapter 1023 - Blue sea

Although Bihai Fengtian did not personally feel it, but he could see it, he quickly quit, and then left the man with a sneak peek.

Shen Lang did not care, he was a passing passenger in the city.

I didn’t want to come to Bihai’s home before, but I didn’t want to be socialized, and I didn’t want to be drawn. It seems that it is time to leave as soon as possible.

Bi Haihuan is the heroine of today’s banquet, and Shen Lang is the leading actor. There is no such thing as an “outsider”, although they can be more harmonious, but Bi Haihuan is also unwilling to eat.

In fact, after the past, she has arranged for people to order a lot of meals, so that they can be sent to Shenlang as soon as possible.

She also quickly finished eating, and she did not have time to pay back.

Her mother also followed, and came over to formally see the side of Shen Lang.

The lady of the sea, of course, is graceful and luxurious, and the mind is also good. For the intention of the Bihai Fengtian family, it is completely see through what to say.

Shen Lang refused to the two like the wind and jade sister, and refused to Bihai Fengtian. It is very gratifying to connect the Fengyan. In her opinion, Shen Lang wants to express his attitude to their homes and will not approach the sea.

From the perspective of women, she will not take the initiative to talk about the topic of wooing, but also hope that Shen Lang can become a son-in-law!

For this godly psionic master, there has been information before, and now I am close to contact, and the more I look at it, the more satisfied I am, the more my daughter can be with him.

It's easy to wait until she leaves, and Bihai has a long breath.

"It's hard for the teacher, and it's still not good to come back." She apologized to Shen Lang.

Not to mention the uncle's family, that is, the mother, she can also see other intentions, the teacher is looking at her face to cope.

"Let's hurry up. Let me help you improve!"

Shen Lang is not wasting time anymore. Bihai Chasing and Bihai are sure to be on the way back. This time it is a great achievement. The patriarch Bihai Chuntang is expected to encourage the award of Bi Haihuan and will definitely bring him.

So he wants to improve the strength of Bihaihuan as soon as possible, and then leave.

Bi Haihuan bites her lip. After the completion, the teacher must leave. She is of course reluctant. But the teacher is not used to it here, she also feels very embarrassed.

She gave the spar Nedan, and the ten rewards of the coalition forces. Shen Lang took them out together and tried them on her.

Bi Haihuan did not have a polite relationship with Shen Lang, and immediately made a report to her mother to learn and practice, and asked for a closed door. Then she opened the defense of her building and prevented the launcher from coming in directly.

Of course, her mother is very happy. Like the request of Bihai Fengtian, she can't refuse even if she knows it. Now Shen Lang refused the family, and there may be other people coming to win. It may annoy him several times.

Now that she has an excellent reason, she can be a bright and thankful guest, and can urge her husband and son to come back soon.

The strong support that the daughter brought back must be used by the family.

For the blue sea joy that has already existed in the real world, Shen Lang is also very pleased, except for his previous help. Obviously, she has worked very hard for nearly a year.

At the same time, he was still exercising in the army and completed the promotion of the general. It is obvious that there is almost no rest time. If he is in the same way as he was at the beginning, hard work is not difficult. It is even harder to be a big lady who is a county magistrate.

Like the blue sea, such as jade, it is obvious to take another route, using identity, body, and at most, it is like a snack.

Now because of the belief in the contribution of the entire city-state people (especially in the Bihai family area), the Yuanshen of Bihaihuan has been greatly expanded invisibly, and it has greatly improved her realm.

With enough support from Nei Dan, plus Shen Lang to help absorb the use of the fine Lingshi, and then help her with the help of hands, progressing a thousand miles.

Now in my own home, Bihaihuan will not have any interruptions. I can completely meditate and practice. In a few days, I have completed two leaps and reached the level of the late stage.

A little need to slow down later, you need to prepare more resources.

Outside, she also had multiple contacts with her.

“My father came back and wanted to ask for a teacher...” Bi Haihuan said directly to Shen Lang.

Shen Lang nodded, and the sea is the master here. This can't be avoided. It always has to be seen once.

“Nothing, you need to take a break.”

After receiving the answer from Shen Lang, Bi Haihuan lifted the defense status of the whole building and then informed the father and brother that they could come in.

Bihai Chengtian and Bihai Chasing have already come back, and when they receive the notice of Bihaihuan, they will come here immediately.

“Master Shen, I haven't seen you for a long time! I really miss you very much, thank you very much this time.”

The coming is that the sea and the sea are chasing two fathers and sons, and no one else is accompanying them. As soon as I met, Bihai chased the enthusiasm and said hello. By seeing it before, it was not much different from the age.

“This is my father.”

Bihai is not going to shake hands with Shen Lang, but is very serious, standing deeply against Shen Lang.

“The generals of Bihai are too heavy.” Although I was so polite but Shen Lang did not avoid or stop.

Bihai sighed with sincerity: “Master Shen, this is what it should be. It is a tribute to you. It is all right. I thank you for saving my daughter. If it is not for the master, maybe there will be a joy.” It's dangerous; second, thank you for saving countless people near the Rift Valley. The coalition forces will certainly not let the extraterrestrial monsters harm the entire city, but it's hard to say that the people will not be beaten.”

In his capacity, he is of course also a gesture, or a performance.

However, even if it is also the performance of the performance, Bihai Chengtian one show, obviously more than Bihai Fengtian is more than one.

The sincerity of Bihai Fengtian is manifested in personal interests.

The two points that have just been emphasized, and the two points that have just been emphasized, have nothing to do with the interests. I did not thank Shen Lang for killing the merits of the Tianmo, but thanked her for saving her daughter and saving the innocent people who might be affected by the Tianmo.

The former is the performance of the father, and the latter is the heart of the big man.

He should have studied it too, knowing that Shen Lang was shot because of Bi Haihuan, so it clearly shows the importance attached to his daughter.

Seeing through all the waves, of course, will not be touched by his performance, but the impression is still good.

“Happiness, you are the pride of your father, the pride of the Bihai family!” When Bihai looked at her daughter, she praised it without hesitation.

It is a little exciting and gratifying to be able to get a very demanding father to praise directly.

“I estimate that the city’s media are all lined up to interview you, but they should be stopped by the two generals. The public image is still needed. You should go to bathe and change clothes and interview.”

Shen Lang suddenly smashed Bihai Huanhuan, so that the three people of Bihai Chengtian and his son were surprised.

Chapter 1024 - Create a super strong

As analyzed by Shen Lang, when Bi Haihuan came back, both the Bihai family and other large media in the family were sincerely applying for interviews.

After all, the extraterrestrial magic is a major event that has not happened for hundreds of years, and the heroine who shakes the entire city-state has not known how long it has been in history.

Everyone rushed over to Tiancheng, even if they didn't get the exclusive, they couldn't get the first wave and could directly interview them. It was also a great news point.

However, Bihai has already exerted influence, and stopped the interviews of journalists. The reason is that Bi Haihuan has just returned from the front line and needs rest and rest.

But the actual reason is that he is afraid that Shen Lang does not want to let Bi Haihuan show his face.

So now I heard that Shen Lang suddenly said this, and he and Bihai were both surprised. Is this the opposite?

Bi Haihuan is a bit strange, but she thinks that the teacher wants to send her away, and communicates with her father and brother alone!

Think about it too. If she is here, Shen Lang has to take into account her feelings. Some of them are not too straightforward to say, so it is not good.

"Okay, then I will go up first." Bihaihuag replied, and then told her father and brother to leave, then she went up to the floor where she lived.

She has been practicing for a few days, upgrading twice, and the body has ruled out a lot of impurities. I really need to bathe and change clothes.

Bihai immediately nodded to Bihai and asked him to arrange it immediately.

Although he didn't know what Shen Lang was doing, he said it, of course.

When Bihai chased a contact arrangement, Bihai Chengtian and Shen Lang sat down.

“The general has some words, so I don’t have to say it. In fact, the last time I said it, I will not interfere with the city state. I just come for the blue sea. I don’t want to repay it. The general gave me the sacred armor. Stone and other resources have already been thanked.”

If Shen Lang directly opens his mouth, he will first block the words of the sea.

However, Bihai Chengtian also predicted this result in advance, but just did not expect to say it directly.

“Understand. I am very respectful to the master. If you say so, of course I dare not be abrupt.”

He did not show regret, but kept a smile: “I am very grateful to the young girl for the care of Master Shen. The Bihai family will always be a supportive master.”

As long as Bihaihuan and Shenlang are related, he can be assured. So don’t mind directly making a “forever” promise in the name of the Bihai family.

“The development of Bihaihuan, of course, is still arranged by the general. As a father, you will definitely think about her. The reason why I let her interview is not interference, but I feel that this is an opportunity, and it is a pity to miss it.”

Shen Lang did not say a word of saltiness, let them understand this arrangement, and there is no special purpose.

Of course, what he really does not want to let Bihai Huan miss is not the opportunity of fame, but the opportunity of faith!

People are emotional, the threat of extraterrestrial demon disappears, and the shock that they see on that day will gradually fade away. In addition to harvesting a part of the fans, most people will no longer have the power to believe.

So now that the heat has not disappeared, the hot iron will be fired again.

In the eyes of the blue sea, Shen Lang cares about her daughter so much, of course, she still has the opportunity to be together. Of course, he does not need to be anxious.

After all, he is different from the sea that he wants to change. He is in power, and now his children are all going on, they don't need radicalism, they need stability.

They also have no topic, and Shen Lang's talk is not high, so he simply talked a few words.

Bihai chasing is arranged very quickly. Even if he is not active, he will play this role at this time, actively looking for topics, enthusiastic and Shen Lang.

Then they also sent a gift!

Hundreds of spar!

Before the blue sea joy to Shen Lang, she personally collected this year, this is the handwriting of the Bihai family!

The last time between the temporary, Bihai chasing is also a collection of resources to get more than a dozen, this year is also a heart to collect, but did not have time to send to the front.

This time, Shen Lang brought great influence to the Bihai family. It was impossible to make up for the money, and they also knew that they did not have much value for the inner-crystal spar, and they accepted it all.

There was no one-on-one exclusive interview in the interview with Bihai, but a press conference-style public interview.

Shen Lang also watched the broadcast. Bi Haihuan had also received training in this aspect. Before she took the stage, there should also be a special person to give her the content of the manuscript. However, in addition to the various responses to the image, she still did not forget to mention the merits of Shen Lang, emphasizing that this time is still the main wave, she is only assist.

Because Shen Lang is not threatening, Bihai is also happy to see her daughter say this – because it seems to others, she will feel humble and courteous.

Shen Lang is also happy to see. After all, he has no influence on the popularity and identity here. It is more short-lived than Bihai Huan. Now the emphasis of Bi Haihuan has restored the part of the belief that has gradually subsided.

After that, the sea was full of days, and it was also a feast for the banquet. Shenlang did not waste more time, and continued to let Bihaihuan begin to practice the next day.

This time it will be more risky to raise her to the realm of the gods. It is up to the end of the real life, and then let her slowly stabilize.

However, from the initial stage to the middle and later stages, it is only within a few days, and the process is already very fast. It has been shortened a lot from the last time, but now the realm is high and the impact is relatively large.

Therefore, it takes a little more time to upgrade to the peak of the real world.

Shen Lang decided to use the world of Golden Heaven!

This is also his own attempt to see if the Golden Heaven Book has left the Earth, and can't have a world that has passed by.

Bi Haihuan naturally obeys his arrangement completely, and told the parents to re-close the door again, and also opened the defense to avoid being disturbed by accident.

But when Shen Lang took her to a magical world, even if she always felt that the waves were omnipotent, she was shocked again.

What she did not think of was that this time, Shen Lang did not mention leaving, but accompanied her to retreat for half a year!

With a hundred times of time, Shen Lang was more calm, and after spending a month's stability, she was pushed to the late stage. Then it took another four or five months to stabilize, and finally it was promoted to the beginning of the transformation.

Of course, resources are also a constant source of embarrassment, Lingshi is not lacking, the inner stone of the spar, there are also a large number of reserves, directly used 30 before and after! One hundred of the blue sea family sent, one third of which was first used on Bihaihuan.

With such a big deal, you can make a big superpower directly! It also has to lose a lot of the power of faith she has recently received, or even if there are resources, half a year is not enough.

Chapter 1025 - Patriarch

When I return to the real world, Bihaihuan has a feeling of being separated from the world.

“Teacher, you are really happy to help me with my cultivation and accompany me for half a year.” Bi Haihuan said sincerely.

I met with Shen Lang several times, all of which came and went in a hurry, so her requirements are not high, not like the average girl, I hope to be able to accompany the play, to be with me, to see him, very Satisfied.

Shen Lang smiled and said: “You can really rest assured that you are now strong. In the Master of Spirits, you should be regarded as a strong one.”

Hearing this, Bihaihuan did not feel excited because of the skyrocketing strength, but it was a little sad.

The last time Shen Lang came, I was worried that he was in danger and immediately rushed to the theater. This time, the extraterrestrial demon, let him directly into the battlefield.

Now that she is able to reassure her, it means that she will not be so vulnerable in the future, and that he will not be so easy to appear.

“Teacher, this time you have delayed your so much time, will it affect your arrangement?” She did not think for herself, but also considered for Shen Lang.

Shen Lang shook his head: “Look at the current date.”

Bi Haihuan immediately checked the time and date, and could not help but stay.

“It’s only... two days?”

She is very unbelievable, obviously watching the time is half a year, how can it become two days?

“Is this a dream?”

“It’s not a dream, but I took you to a place that has been extended by a hundred times. We practiced there for half a year, but in reality it only lasted for two days. There is nothing wrong with it, you remember correctly, just after coming back, time And the date has just been calibrated.”

“This is too incredible! But the teacher is the fairy from Xiandao, everything is possible!” Although she was in the dead forest, she encountered a savage wave like a wild man, but she already believed that Shen Lang was It came out from Xiandao.

As for why this was the case, and the situation of Xiandao, she was very interested in not asking.

Shen Lang added: “This is another secret, only the secret you know.”

“I understand that I will not live up to the teacher’s trust.” Bi Haihuan solemnly promised.

Knowing the secrets of Shen Lang’s more and more, she is actually very happy, representing the trust of Shen Lang, and also represents the closeness of two people.

All the secrets of Shen Lang, if you tell the family, will definitely be a great achievement, it will be a great harvest for the family, but this will directly affect the Shen Lang, and may even cause him to have an accident.

So she made up her mind, except for permission, any other secrets are hidden in her own heart.

This time, Shen Lang will enter the world of Tianshu for two days. He also considers that they have something to look for directly, or they can see the monitoring here.

So before he started, he put an isolation method around him, not only unable to detect the outside world, but also unable to enter.

Of course, this is just a handy work, and it is not too deep. If you encounter a strong self-cultivation, you can still crack it.

After he just came out, he also carefully checked it, and sure that no one has touched it.

“...”

Shen Lang has just opened his mouth, and Bi Haihuan has already asked for it first: “Are you leaving again?”

Even if I have been with each other for half a year, I still can’t bear to leave.

Especially now that he says he is not worried about her safety, there may be fewer chances to come back.

“I have been here for many days, and it is time to leave. But what I am going to say now is that your father has come over and should have something to look for.”

Shen Lang’s sensible sense of their arrival also confirmed his previous conjecture. Bi Hai Chengtian is definitely able to monitor the situation here. It was isolated before, now it was isolated and removed. When they saw both of them, they immediately rushed over.

“Oh. Then I will go bathe and change clothes first.”

This time, she did not need to tell her, she would avoid leaving, and wait for them to discuss anything directly.

After Bi Haihuan left, Shenlang also went to bathe and change clothes.

In the end, it's been half a year. Even if it's been in a state of cleansing, you don't need to eat and drink, but it's been half a year. In addition to helping the blue sea and joy in the past six months, he has been working hard to cultivate.

When Shen Lang came back, Bihai had been sitting and waiting for a while, and Bihai Chasing did not come together.

"Master Shen, taking the liberty to look at Haihan." Bihai became a gift to Shen Lang immediately, and his expression was quite anxious.

"Say it." Shen Lang naturally sat down.

After Bihai Chengtian discovered that they had gone out in person for the first time, it was naturally urgent.

In two days, there are many things that can happen.

"This is the case, Master Shen's help to the little girl, and the contribution of this city-state. Not only I personally, our Bihai family is very touched. My father, the current patriarch of our family, is also very touched and wants to be personally Thanks to the master. I don't know..."

Shen Lang thought that something had happened. It turned out that the patriarch wanted to see him.

That can make the blue sea so anxious, it should not be just mentioned Maybe yesterday, even the day before yesterday, he has been unable to drag on.

"General Bihai, these days, I have done my best to raise Bihaihuan to a very high level. I can't speak the city. I don't dare to speak. But like the level of your cronies yesterday, she can already wave. Destroyed."

Shen Lang said irrelevant words, let the blue sea smashed into the sky.

But I immediately understood that Shen Lang should have completed the help of Bi Hai Huan, and should want to leave!

Before Bihaihuan's strength rose sharply, he was very clear about this year's change, but it was only a level that was slightly higher than his cronies.

The days of Shen Lang's days will enable her daughter to "splash" the psionic event. To be honest, he does not believe it.

But at this time, you must be polite.

"Thank you, thank you for your great love, and you are truly grateful. If the master has what he needs, I will do my best!"

Although he said it is very sincere, it should not be a lie, but he will take the blue sea to the present height, and his family business can satisfy all the requirements of Shen Lang.

However, his expression was still anxious at this moment. Apparently, his mind was still on the invitation of Bihai Chuntang.

"After that, I will leave for a while. Since the patriarch wants to see me, I am not good to refuse. Let's go."

Shen Lang said that it is not good to refuse, of course not because of fear of the forces of the Bihai family. In the end, it is also the grandfather of Bihaihuan. Unlike the uncle, you can not give Bihai Fengtian face, or give Bihai Chuntang a little face.

The current patriarch is also a real big man who can decide the future of Bihaihuan. In addition, he also wants to talk to the real power of the Bihai family about a condition!

Chapter 1026 - Royal palace

The place where the patriarch Bihai Chuntang lived was the core of the Bihai family.

Compared with the tall buildings around it, the middle core is a huge spherical building. From the outside, you can't see the inside. The outer layer should also have any materials to prevent various technologies from prying.

It is like a palace, receiving the most stringent protection.

Bihai Chengtian took the micro-aircraft with Shenlang and came to the entrance of this huge ball. The guard took his aircraft and replaced it with a short-distance transmitter.

Because it was brought by Tianhai Tiantian, naturally there would be no guards to follow. After entering, they were two of them.

When Shen Lang was outside, he did not use the gods to inspect the ball. Now, if you come in, you can see it directly.

There is a hole in the huge ball building. There is also a building with different heights and a large space above the roof. The spherical inner wall is transformed into a sky by technology.

Looking up from the inside to the bottom, it is not even felt in a large building, which is very realistic.

It will be designed like this, it should be from a safety point of view, perhaps there will still be assassinations, attacks, etc., so the patriarch of the Bihai family directly lives in this sphere building.

It is also conceivable that the thickness of the inner wall of the outer wall is very large and the material should be able to be bombarded.

Shen Lang is a person of interest. He does not have any intention to replace this royal family. He will not spy on their secrets.

Unrelated secrets, information, knowing too much has no benefit.

In his current performance, Bihai Chuntang summoned him, and he could only be wooed, not murder. And in his current realm, even if anyone really wants to murder him, he can easily kill the bleeding road.

So along the way, he was as calm as water, calmly followed by the sea. No matter how many people monitor and view his every move, there is no more to ask.

In the center of the sphere, it is a palace-like building. After they quickly approached here by the conveyor, the blue sea will come down in the sky and climb the stairs with Shen Lang.

At the gate above the steps, there are also guards who bow to the blue sea.

The guards here must be extremely loyal and reliable, but they should not be eunuchs.

After entering the main entrance of the palace, Shen Lang feels better. Although the appearance looks like a palace, it is not like the palace on earth, the style is not so majestic.

There are already people waiting to come up, and come up with the blue sea, and then take them to the back.

After following the past, it went straight through the palace to the garden behind.

If you want to go to the garden, you can just go around and the conveyor will be faster. However, if you want to walk down and walk through the palace, it is estimated that you are also interested in highlighting the identity of the king of the Bihai family.

After arriving in the garden, the person who led them in, retired and left, and continued to be carried by the sea.

This garden is also like the Imperial Garden of the Royal Palace. It is really big, the location is limited, and it is not much better. But for a personal courtyard walk, it is a big one, like a small park.

In this garden, there are also many exotic flowers and plants that have never been seen before. In addition to this unique, it should also be a rare variety transplanted in the city.

Under the big tree, the seat was almost ready, no one was waiting, and an old man sat.

“Father, Master Shen Lang came.” Bihai became the first two steps in the sky and returned a message to the old man.

The old man who was enjoying the flower seemed to find someone coming over, turned his head immediately, and then showed a warm smile.

“Shen Lang master! It can be regarded as seeing the truth.” Bihai Chuntang said standing up, passionate but still maintaining the majesty of his identity.

Shen Lang nodded and did not humble and nodded: “The Bihai patriarch should have been summoned as early as possible, but before he was practicing with Bihai, he did not come in time.”

Hearing his words, Bihai was obviously relieved. He invited Shen Lang to be weak, and he was already very anxious. Shen Lang can readily agree, and he is not good enough to let Shen Lang help him explain.

Now the sentence of Shen Lang is equal to the side to relieve him.

“It doesn’t matter, the master is very grateful and happy.” I am very grateful and gratified.”

Bihai Chuntang did not pose in front of Shen Lang, just like an elder’s attitude, invited Shen Lang to sit down and chilled a few words.

The blue sea is a dark smile. When he saw Shen Lang on the same day, he maintained this attitude. At that time, his son Bihai chased him to play the role of warm-up.

Now he is his father, and he is very polite to Shen Lang. As a son, he can only find a topic to warm up next to him.

After simply drinking tea, Shen Lang said directly: “As a patriarch, looking for me will not just be a thank you? If you have anything, please say it.”

Bihai Chuntang must have got the information from the two sons here, and has been confident in dealing with Shenlang.

“The master is more concerned. You are the teacher of Huaner, the person of our Bihai family, so we will not have any disrespect, and there will be no attempt. This, I hope the

master can rest assured Shen Lang smiled. “So very good. I have already promoted Bihaihuan to a very strong realm. It is time to leave.” ”

Bihai Chuntang smiled slightly, his politeness, is the hope to pull closer and then slowly affect. Can leave soon...

“So, please say anything, I will have a request later.”

When I heard Shen Lang say this, Bihai was immediately interested in replacing his father and asked: “What are the requirements of the master? Please say that our Bihai family will not deny it.”

As long as there is a picture, there is room for negotiation. The most helpless thing is that nothing is needed, then it can't be drawn. Their only entrance now is the blue sea. Hearing his request, it was a spirit.

“Bihai Gongzi arranged for the battleship to pick me up. It was also the place where General Feng Yue went to pick me up. I fully trust the Bihai family and hope to be respected by the Bihai family.”

Shen Lang said that it is more implicit. In fact, the Bihai family must have already investigated it. There should be arrangements for investigation in these days, but there is still no gain.

He has confidence in the hundreds of millions of ring arrays, but this is a more civilized technology that has to be guarded against. This is a request, and in fact it has the meaning of reminders and warnings.

Bihai immediately exchanged a look with Bihai Chuntang.

After receiving the permission of the father of the patriarch, Bihai immediately said on behalf of the Bihai family: “Master please rest assured! We have blocked the news in the past, and will certainly be blocked in the future. The Bihai family will not, and will not let the sergeant of the shuttle leak any news. And, it won't be bothering!”

The last time was Fengyuegu. This time, Bihaihuan arranged the warships near the military field. He specifically mentioned the sergeant who was picking up the Shenlang, that is, if there was a case, one more.

Chapter 1027 - Creative education?

Whether it can be traced or not, Shen Lang does not want to be tracked by them.

Of course, when they made this request, they also agreed, but it is not true that it will be difficult to say. He just expresses his attitude. When they still value his value, or are afraid of angering him, they should be scrupulous.

Behind the blue sea, I found a topic for a while, and saw that Shen Lang did not speak and left, and Bihai Chuntang raised a key point.

“Have Master Shen thought about the secular development in the city-state?”

“The patriarch should say straight.” Shen Lang is not salty and not a light one.

He certainly has no interest in the development of the secular world in the river basin. It is just that Bihai Chuntang, as the patriarch of the Bihai family, is comparable to the identity of an imperial emperor. He will mention this point and must be thoughtful and can only listen to him. come out.

“The origin of the master, the whereabouts of the master, of course, we are inconvenient to ask more. But after all, Huan is a master student. As she becomes more and more dazzling, more people will dig the master’s origins because of her, not as good as us. Get ready first, let Huaner become the spokesperson of the master in the secular.”

When I heard half of it, Shen Lang wanted to refuse, but when I heard the last one, it was a move!

The Bihai family naturally believes that Shenlang is from Xiandao, and that move is to have a relationship with Xiandao! Even if Shen Lang does not provide any information, they will provide a mysterious set.

The watershed city-states can’t be seen through the fairy islands. They can only be based on the mystery and myth of tradition. The emergence of Shen Lang can prove the myth of

Xiandao on the side, and package it into a worldly development, just like the messenger of God.

As a student of Shen Lang, Bi Hai Huan also appeared and fought together, naturally being the best spokesperson. The people of the Bihai family have become the secular spokesperson of a certain sect of Xiandao and a great god, and will undoubtedly bring incredible influence to the Bihai family!

Although Shen Lang does not need to pay anything, just authorize an image to give them a platform, but the advantage is that they have it, naturally it is not willing.

I can hear the last, but I can't help but feel it. Isn't this just creative?

Most of the great gods of creation are all self-evident messengers, the incarnation of God in the vulgar world, to lead the mortal.

Now the Bihai family is not a packaged god, but also a messenger of God. And Xiandao is a general, concrete visualization, that is, he and Bihaihuan.

In this way, those who believe in them in the future will naturally contribute to their faith. Even if they don't believe in them, they still can't get rid of him when they believe in Xiandao. He is the representative of the mysterious fairy island.

On the earth, there is no such opportunity. Shen Lang does not want to trouble, and fundamentally never thought about creating his own.

In addition to understanding this layer, and also some time ago, he did not have more ideas.

But now it is different. In this city with a technological civilization far better than the earth, there are indeed immortals in the world that cannot be explored. It is not a myth and legend, it is based on facts, and it is a huge mainland of China.

Therefore, on the premise, we have the genes and foundations for creating education. In the specific implementation, there is a royal family of blue sea to promote, do not need to worry about trouble, but do not need him to worry about anything, everything will naturally be arranged.

What Shen Lang needs is to empower the individual's reputation and image.

After Bihai Chuntang said one sentence, he paused first and looked at the reaction of Shen Lang.

The blue sea should also be instructed first, so it will be added naturally.

“Father is mainly caring for joy, joy can have today's achievements, relying on master support. When the master is not there, you need the addition of master influence... Of course, the master has what needs in the future, our Bihai family must cooperate fully “”

This is very skillful, saying that it is not for family interests, but for the sake of the sea. Shen Lang stressed that it is just a lot of love for the blue sea, this is the right medicine.

In addition, the promises that follow are said by Bihai Chengtian, and they are different from Bihai Chuntang. Although Bihai is already very authoritative, it really involves core interests. Bihai Chuntang can also deny on behalf of the family.

However, this has no effect on Shen Lang. He was originally here to help Bi Hai Huan. The fate of the year has had a great impact on both sides. For the Bihai family, he did not think about what to compete for.

When both of their father and son stared at it, Shen Lang did not reveal a change in expression.

Although it was only a moment, the sea was already a little bit stunned.

I thought this was a young man in his early twenties, and it was better to deal with it from the island of Xiandao. It was better to deal with it. I didn't expect it to be worse than any old fox.

“Master, would you like to help you? Or what can we do?”

Shen Lang certainly can't show a very happy look. After deliberately losing his appetite, this point nodded ! As long as I can help the blue sea, I am still very willing, can help the blue sea family indirectly, of course, better. As for the specifics, I am personal, do not involve more, others will arrange it, I believe it will not discredit me. ”

“Where and where, we are grateful, and the break will not discredit the master!” Bihai heard the waves and promised, and could not help but be excited.

Bihai Chuntang also showed a gratifying look.

This time, he will rush to find Shen Lang personally, that is, to seize the opportunity, and let go of his identity to express sincerity.

Shen Lang's “authorization” is a personal image. Listening to them in their ears means that Shen Lang is inconvenient to represent the teacher of Xiandao. After all, he is still young and has not returned to discuss.

But for them, it doesn't matter, Shen Lang can be enough for them to pack.

In fact, to fight for this “authorization” is to fear that he will know that he will turn his face in the future, and he is even more afraid of the involvement of Xiandao forces behind him. Since it promised, everything worked fine.

It's just a wave of people, and they work better for them. After all, Shen Lang has been publicly exposed, and it has already had great influence. The area of Xiandao is just a background. It is just a good disclosure. There is no more content and more mystery.

Originally, Bihai Chuntang thought it would be more difficult to talk about it. It prepared for the various resources of Shenlanghui, and even the lion's big opening of the site, and Bihai was afraid that it would collapse.

Now I can have this result and make their father and son very happy. This agreement of light is enough to make the Bihai family continue to prosper, and even to a big step!

When they reach this position, they are not considering the power of the individual, but the family's future decades and centuries.

Chapter 1028 - return

After Shen Lang, I sneaked a little bit again. Bi Haihuan took him to play in Haotiancheng. After all, they met each time before, not in battle, or in taking her leveling. There was not much leisure time.

In addition, he also checked and debugged all aspects of his sacred armor and upgraded to the latest state. All in all, she is hands-on, to avoid the family stealing information from the sacred armor, or to implant monitoring programs.

This is one of the things she can do for Shen Lang, so she is very serious. She wants to come to her father and the family has asked her to inquire about the information of Shen Lang. They are all rejected.

The Bihai family wants to make God. Of course, it is necessary to seize the current vent, and when the heat is reduced, it will get twice the result with half the effort.

However, in the time when Shenlang has not yet been seen, Bihai Chuntang has already started planning for Bihai, and now it will start to operate immediately. It also allows Shen Lang to record a paragraph of the platform.

Others dare not ask him too much, they are all playing, Bihaihuan is of course inevitable, and she is God's spokesperson.

How does this process work, and Shen Lang did not understand so much. But the effect he is directly felt!

Originally, the power of faith was weakened day by day. Bihaihua's media interviews showed his merits, and it was only a short time to pull back, but then slowly declined.

But now it seems to have bottomed out and started to climb steadily.

The power of the original faith is obviously exciting. Because at that time, I saw the process of annihilating the demon outside the domain, so that they were very excited and infinite reverence.

It's not so exciting now that it's starting to increase, but it's starting to be like a belief.

Shen Lang is very satisfied with this effect. He has already verified that even in different spatial regions, it will not affect the reception, and the effect may be weakened, but as long as it is not wasted.

So you can return to Earth with peace of mind.

Shen Lang returned to the earth through the space portal that was covered by hundreds of millions of ring arrays.

It's not been half a month since the time. He is now rushing back to the sunset peak of Tianshan, and he still has time to send Lingshi to everyone.

Shen Lang is not so much motivated now. The unexpected harvest of these days in the rivers and cities has greatly surpassed the power of these beliefs collected on the earth.

It is completely unexpected there. There are hundreds of thousands of spirits going out here. In contrast, of course, not so enthusiastic.

Besides, the Bihai family began to make gods. In the future, he will continue to accept the power of faith in the massive base, and he does not need to bother to "bribe" the power of the believers.

But when he is back, he can't go to the mountains to play with water. Nothing else, he still has to go back and deal with it.

The first is to open the phone, check the latest situation, look at the more than ten days of leaving, there are no other important things happen, if not, then go back to Tianshan.

In terms of information, of course, it is mainly due to the passing of the wind.

This time I knew that he was going to leave for a while, and he didn't say when he would come back. So the irrelevant information, the wind is not crushed, or it is dealt with separately.

But after more than ten days, there is still some information gathered to Shenlang here.

What makes Shen Lang a little surprised is that in the days when the sunset peak sent Lingshi for the first time, in addition to some middle and lower level comprehensors from all over the world, many powerful forces have sent people to come!

The representative one is the Holy See, and the archbishop of Paul, who is quite related to him, will come and visit in person!

Originally, these people contacted Shen Lang through the wind, and they were prepared to visit the Tianshan Jianzong directly. Because the wind did not say that Shen Lang had gone out, it might only be possible to wait until the sunset peak sent the Lingshi, so they retired. And the next preparation is to the sunset peak.

As for their specific purpose, of course, they will not follow the wind and say that they want to talk to Shen Lang personally.

Others are not clear, the purpose of the Holy See, Shen Lang is still understanding one or two, nothing more than wanting to go to the sea without jail.

From this point, plus other forces come together, Shen Lang is still estimated to be this thing, is to ask him to come out to lead.

Shen Lang thought about it, in fact, it can be a wave.

When I first went to the sea of innocence, it was not the following Xu Yuyue and Count Dracula, which was the strongest of the Archbishop of Paul in the late stage of the transformation. Most other people are still at the initial level of the gods.

Shen Lang was also at that time, with the ruins of the real world and the real people of Xiangyang, now he is already in the semi-sexual situation, with a big gap.

Of course, his current realm, in the past mainland China, is also inferior to the past generations of the younger brother, but the gap has also been significantly reduced, and he is also very proud of his time of rebuilding this world.

There is another reason. From the time that everyone perceives it, it is about half a year since the return of the return to the sea.

However, from the personal perception of Shen Lang, it has been many years!

In the time of the world of the book, the time he used to practice several times has been added for many years.

Including the recent trip to the watershed city state spent more than ten days, but in the world of Tianshu to help Bihai Huan cultivation, is half a year.

So from the feeling, I also feel that things have been going on for a long time, and it doesn't matter if I go there again.

There is nothing wrong with other aspects, but it makes Shen Lang feel relieved.

In order to save time, he also used the super high-sonic flight of the sacred armor, and first returned to the Tianshan Jianzong.

Zheng Yumeng and Dorothy are all in Jianzong, that is, there is no wind in the wind, because they have to be busy sending spiritual stones. They are also temporarily living in Jianzong. All the busy contacts are based on the Internet.

The return of Shen Lang is of course a major event for Jian Zong.

They did not say a few women, they are also very excited to go to the high sanctuary, Shen Lang is the person who changed the sword, and they are also recognized by the master, let alone know the secrets of the past.

As long as there are deep waves, they feel that the swordsmanship is like a rainbow. Otherwise, even if no one is offended, it is not so calm.

After Zun Zun took the Hai Ling Lingzhu that Shen Lang gave him, it was also amazing. It is impossible to re-grow his legs, but he has already deteriorated to the point where he has been ruined, but now he has been reborn and revived the second spring.

The sequela of disability was contained, the physical function gradually recovered, and he was confident that he would continue to practice. He had the foundation before, plus the effect of Lingzhu, and other resources, so that he can now recover well.

Feng Wuji reported the latest situation to Shen Lang, because the time half a month ago, I was sure that I could really get the Lingshi from him, so I became very enthusiastic.

Now it is only for her registration, the number has exceeded twice the last final statistics! And the real world has also begun to put the following.

Chapter 1029 - Restricted effect

The Tianshan Jianzong's thoughts on Shenlang's sentimental stone have long been clear, but there are no disciples in private. Shen Lang's unclear, at least high from these Presbyterians, can be seen, both on the surface and in the heart. No comments.

After all, they are very clear that Shen Lang is not a teacher of the Tianshan Jianzong, and there is not much light, but has already contributed a lot of resources to the sword. These are his own, he wants to give other beautiful women, to irrelevant outsiders, they have no right to interfere.

There may be some unwillingness, but it may also be a kind of motivation: even outsiders can give such benefits. As long as they are loyal to Master (the Great Elder), they will definitely get more benefits!

According to the information collected by Feng Wuji, those who said that they want to visit him did not cancel because they did not get in touch with him. They have already come over, and it is likely that tomorrow will really appear in the sunset peak.

Shen Lang does not care, with his current strength, even if a group of people have ulterior motives, it will not have much impact on him.

Judging from the current situation, he said that it is the first strong in the East, and it is not an exaggeration.

And before he continued to kill the trolls, he didn't even need him to make more shots. Bihaiuan Dorothy got it. The big hand of light is enough to shock the world.

Even if some powerful forces in the West are taboo, he will ***** the territory and want to suppress him first. He must first measure enough strength and will not be resisted by the world's comprehension.

There are a few of them in the wind, and they didn't ask where Shen Lang went, what to do.

It's just that these follow him, and they all have skin kisses, and their minds are in his heart. So for his change, I still feel a little clearer.

They faintly felt that after the return of Shen Lang, there was a change in temperament, as if people were more admired, but they were not clear about the specifics.

However, the progress of Shen Lang is so fast that they are all well known, so there is nothing strange.

Because Shen Lang has a good grasp of the chest, it is simply a sum total, and no one else has any concerns.

However, with Shen Lang going to the scene to be responsible, or a few of them, Tianshan Jianzong is still closed, keeping a low profile.

However, he let the wind have no information released first, this time the Lingshi will be doubled on the basis of the last time, but in terms of quantity and time, there will be no unlimited supply.

So to a certain extent, there will be screening, not friendly enough, and may not be obtained.

After this information is released, it goes without saying that it will also cause discussion.

After the last success, many people have already come over. Although they don't have specific data, the approximate range can still be guessed. They all understand that people may reach several times this time.

If only the last time is the base, double the supply, then half of the people may be screened out!

The last time there was no precedent, the specific screening criteria, it depends on the preferences of Shen Lang.

Some people think that Shen Lang can't afford to play, don't exaggerate Haikou, let people come over, but they can't get anything. Isn't it a monkey?

Some people think that this should blame their wait and see. If you come over half a month ago, not only will you get it, you can also enlarge the base of this double.

Since everyone knows that it has increased several times, it is impossible for people to be infinitely unlimited. Don't say that it is twice as long as the last time. Even if you keep the last base, you can't say that you can't afford it.

Outside the discussion, Shen Lang did not understand, those who want to follow the wind and no Jiji, the base is too big to understand.

The next day, Shen Lang took them to the sunset peak.

Can the sunset peak see the beautiful sunset?

The self-cultivators who have come from all over the world have already explored the road ahead of time, but they have no feeling of enjoying the sunset. They have already reached the peak when the sky is still not bright.

Just under the excitement of waiting, I don't even have a mood to see the sun, and I don't even think about the sunset.

Some psychologists have done an experiment, let the mouse try to pull a body, and there is food falling out. Every time the food is the same amount, when the mouse accumulates a little food, it will not pull again.

However, after each pull of the organ, the food immediately falls, and there may or may not be, the mouse will always be full of power. Even after turning the odds down, it is the same.

Shen Lang's current situation, of course, cannot be equated with this, but it can also reflect some human minds.

At the beginning, everyone wants others to go and see, and when they don't get played, they won't have any trouble, and more people are willing to come over.

But the amount that can be obtained has been fixed, and what level can only receive what Lingshi. So after the surprise of "White", there is not much excitement.

It's not the same now, maybe half of them are now going to brush down! It's not that it's hard to be white, but everyone is paying more attention.

Although it is not mentioned on a first-come, first-served basis, the total number is limited. Once the delivery has been completed, there will be no chance in the future.

So some of them started climbing in the middle of the night, and when the sky was not bright, they basically rushed to the top of the sunset.

Although they are in the middle and low level in the field of comprehension but in their own one-acre three-point land, they are also the number one character, even if the younger generation, it is rare to let them get up early.

Some of them are relatively old, but they bring ribbons and steel bars. They are inserted into the ground and lined up with ribbons. Under the large number of people, everyone has also approved such a queuing method.

Just queuing in order, no doubt it is a lot harder. If you are free, you can choose to sit in a more comfortable place, but now you can only stand in line.

This is the peak of the snow peak at the height of six or seven kilometers!

It was a little surprised when Shen Lang came over to see everyone's enthusiasm. He limited the number, but he just wanted to send a little less, not a test for everyone...

When they saw Shen Lang, they immediately gave a warm applause!

These comprehensions who have been pampered and pampered, climbed from the temporary foothold below the mountain peaks overnight, and lined up in the cold wind on the top of the snow peak, and moved themselves first.

At this moment, I was shocked by Shen Lang. I was a little excited. I hope that Shen Lang can feel their sincerity, at least not to screen myself down.

Shen Lang has long understood that they are emotional, and this is a more personal experience, so it is also inevitable to say a few lyrical words, let everyone in the group atmosphere, as much as possible to contribute a little faith.

There was a previous process, and everyone was consciously arranging the team according to the Yuanyuan and the virtual environment. The delivery was generally faster.

But this makes Shen Lang a bit entangled, probably half of the relationship between gains and losses, plus the hard-working waiting for self-movement, let them face the Shenlang, there is a bit of fanatical reverence, there is no reason to brush down.

Chapter 1030 - What are you asking for?

In the end, it is not necessary to say that it is not enough to be delivered!

Some of the people who came for the first time were still bored and wanted to play. This time, the base of people is several times larger. Although some people want to mix one, they are basically enthusiasm like rushing from abroad.

Therefore, eliminating this part does not contribute to the power of faith. There are still many people who are not assigned.

Shen Lang is still better to talk, especially looking at these from abroad. It's not good to say that these are more valuable!

At the beginning of the two wave of trolls in the country, no one had respected him to the point where he had the power of faith, or what these foreigners brought.

Seeing their enthusiasm and longing, Shen Lang did not let them down.

More than doubled Lingshi has been added, basically satisfying all.

Among them, there are nearly twenty monks who have survived the real world, but it is really a big story to say, and the price is really not good.

Because they themselves are respected as masters, they respect each other for the respect of Shen Lang. However, if they want to collect Lingshi, they feel a little lost face, so in the case of entanglement, it is not enough to generate the power of faith.

The ones that were screened out were mainly domestic monks, which made them a little unhappy.

Just whispered on the sunset peak, saying that Shen Lang is trying to buy people's hearts, so the light to foreigners, for the domestic can not buy, will not give Lingshi!

Even if they are whispering, they know that they can definitely hear the Shenlang, so it is equal to the army that will attack Shenlang from the side, so that he can't keep up on his face. Do not dare to directly say that he is stingy, sinister and so on.

However, most of the scenes were received by the scene, especially when Shen Lang was ready to distribute, and a bunch was added later, so that those who were disappointed were regained satisfaction.

So for the criticism, everyone took the initiative to draw a line with them.

Shen Lang is not an ordinary person. Why not filter others and just screen them? It must be their minds, hiding the ulterior motives and the like!

And Shen Lang did not pay attention to them, so these people are also very boring, and they will go down the mountain first, naturally they will inevitably be behind the dark waves.

Other people have seen that they have already sent the package, and they have already collected it, and will not add it any more. I thanked Shen Lang again and went down the mountain one by one.

After the large number of people left, the sunset peak, but did not know when a group of people.

These people are foreigners, and their ages are not small. The cultivation of each is very high, far from being comparable to the monks who came to Lingshi.

The monks who have gone down from the sunset peak have not reached the end of the peak, and they have suddenly found that the clouds are haunting, and they can no longer see the peak.

This is of course a man-made man, and it is not only the block of eyesight, even if someone wants to return to the summit, they can't find a way, and it is difficult to go back unless the realm is high enough.

“Shenlang Master is not only the first strongest in the East, but also a kind-hearted Son! I really admire it! Such a huge number of Lingshi, for me, kill me and I will not give it out. Not to mention people who don't know, different countries at all. Of course, I can't get so much to kill me...”

Paul praised sincerely, but in order not to be too flattering, he joked and excited about the atmosphere.

Shen Lang just glanced at it. It has been confirmed that many of these people have been to the sea of innocence before. Although they do not remember the name and the number, they are still familiar with at least the face.

“Yes, Master Shen is really a saint at the time, a model for all of us!”

“Master Shen has the unparalleled ***** of the world, which really makes us very admire.”

Everyone followed suit.

Although this is a tribute, it is really something that everyone has nothing to say. No matter what the purpose, it is impossible for all of them, as well as the forces behind them, to come up with thousands of spiritual stones.

Shen Lang smiled and said: "I see, you must think that I was rich in that world, so I sprinkled Lingshi. In fact, I have been mindful of the information before me. I should know that these are all earned by me."

He didn't hide anything. These are really earned here. Of course, he still has a lot.

"But what we earned before is mostly our country's self-cultivators. This time, it is to send more friends overseas. So, some people have already had opinions, and there will definitely be a slap in the face of foreigners."

"They have different visions. If we have ventured together in different worlds, we can understand that all the earth comes from our compatriots! Master Shen is fair and unconcerned, and we are all very respectful."

Paul sent a high hat in real time, and it was appropriate to lead the topic to the world.

Shen Lang shook his head: "It doesn't matter, I am free to send, I want to give to whom I decided can't satisfy everyone. But..."

He glanced at the crowd surrounded and then looked directly at the leading Archbishop Paul.

"The Archbishop of Paul, you are not far from coming here, you should not look at my excitement, or just to praise me. So much of it, I have already discussed it, let me talk about it!"

Archbishop Paul was still full of enthusiasm and smiled at other people: "Master Shen Lang is direct, do not follow us around, then I will be welcome."

He put away his smile and looked at the sinking waves. He said seriously: “We want to go on a journey to the sea without a return to hell. To be more careful, we want to go to the world we went to the last time!”

Shen Lang did not express his position, waiting for him to continue.

“That is a world that suits us and is more advanced than ours. Not to mention the foothold there, we can bring back some resources from there and help the earth to ascend.”

“The earth has already had its resources exhausted, but this is our mother star. We will not abandon it. We are going to bring something better from other places to build it and let it continue to be brilliant.”

“Everyone knows that it’s ours, and we can’t live and find resources there. It’s extremely difficult to find the world’s entrance alone. If we just go, it’s likely to be in time and space. Lost in the stream, going to the world without knowing what to do.”

“So we collectively discussed it. Everyone agrees that if you want to form, you must rely on Master Shen Lang! In order to express our sincerity, everyone will come over and ask for your help!”

After he finished his study of the oriental etiquette, he saluted Shen Lang.

The same is true of other people, and they are following the path to Shen Lang.
