

First Strong 1043

Chapter 1043 - I don't want to face.

Gao is a little helpless, their intentions are very clear, but obviously also brought benefits.

Just praising their eyes, it can be seen that Master should have said that he is not seen.

But what if Master is what Master wants?

His eyes looked at the sacred, and he wanted to discuss it with him.

Ruan Sheng said resolutely: "Master has no time to see guests. If you really have any thanks, let us hand over."

After he finished speaking, he had extended his hands.

Qiao Yuxian immediately stunned, the gift must be prepared, but that is very obvious, is the hope to move the waves. If it is now to let the sacred sacred collection, will it be timely to pay to Shen Lang where you still don't know, once you miss it, then give it away!

However, he used the name of "Xie Li" who saved them last time. If he did not give it, it appeared to be hypocritical.

Gao Li shook his head: "It's still like this, Master should not know that everyone is coming. I will check it out, if Master is free, come back and inform everyone."

"Very good, very good, there is a high brother." Qiao Yuxian thanked him.

Others are also a little relieved. If the gift is given, everyone will feel unwilling.

At the time of the high departure, another person immediately struck the sacred sacred and sacred.

Just two of them represent two attitudes, although I don't know if it's insulting, but if they are the two of them, then the sacred follower will inevitably affect the decision of Gao Li.

The possibility of letting a person go in and pass to Shen Lang is relatively large.

Just as Gao Li had just landed on the rock outside the illusion of the valley, he heard a sentence in his head: "Let Joan Xianxian come in."

Upon hearing this, he understood that Master had already paid attention to the situation here and immediately stood and turned.

In addition to holding the sacred, the others looked at Gao Li, and when he saw him returning to the door, he suddenly turned around and waited to see what he was going to do.

"Joe brother, Master just ordered and invited you to go in."

Qiao Yuxian is most worried about what will change. When I hear this, I am relieved. It turned out that Shen Lang had already paid attention to it and had already ordered him to go in.

Now that so many people are here, only let him go in alone, this is the face!

Of course, everyone would have elected him, but I came here to eat a closed door. In the past two days, his face was also a bit untenable. Now it is moved back.

"I will come here!"

Qiao Yuxian agreed, and turned back to others to nod, saying that he would try to convince Shen Lang, and then followed the high into the hidden valley of the Tianshan Jianzong.

There is still a distance from the mouth of the valley to the inside of the sword court, but the realm of Shen Lang can know what is happening outside, and of course can know the words and deeds on their way.

Therefore, Qiao Yuxian maintained a very good attitude, did not inquire about the situation of the high waves, did not inquire about the gifts of the Western monks, so as not to make the waves unhappy.

Gao Li took him to the Jiange Pavilion and went to the room of Shen Lang and informed him.

After getting permission, he opened the door and led Joe to enter, and then consciously left.

“Joe brother, please sit down, you are welcome.”

Shen Lang has prepared a pot of tea, indicating that he is sitting down to drink tea.

“Shen brother, what do I have to say, I believe that with your cleverness, it must have been guessed.” Qiao Yuxian sat down and saw the door open.

“You also know that I am not convenient, so I refused to contact on the mobile phone, but also closed the door.” Shen Lang is also very calm.

“I understand that it is the Western sects who invited you in advance. This is our failure. We are all in one country, but let others take advantage of it. But we are really sincere...”

When Joe said, he immediately took out a box and placed it on the coffee table.

“Haha, I am not hypocritical to say thank you, I hope to invite you to the sincerity, but also hope to accept.”

Qiao Yuxian said: “The sinking brothers must know better than me. They are different from my family. They need you to lead the way, so they will be very respectful. Once they have no use value...”

“I will not say anything. If they have the heart to do yours, we can help you a little.”

This is what they have studied before. Western giants have taken the lead, and what they can do now is to differentiate. After all, everyone is a compatriot, naturally close to a few points.

Shen Lang smiled faintly: “You also said, I have the value of using it, or you will not come to see me.”

“This...” Qiao Yuxian was awkward.

“So no one will move me before I come back. After I come back, as long as there are people thinking about going next time, it won’t make people move me.”

“The words are correct, but in case they control you, extract your memory?” Qiao Yuxian said very seriously.

Of course, this kind of Shenlang has also been considered. After all, some people have already done it. Pinochet was originally thinking like this – perhaps it is not necessarily from the Pope’s inspiration.

But since the sneak attack did not harm him, how can he give them another chance after having experience?

For the Pope including Archbishop Paul, he is also wary.

More importantly, the strength of Shen Lang is now hugely different from that of the beginning of the year. It is no longer afraid of anyone.

“never mind.”

Shen Lang didn’t tell him in detail, and didn’t say anything ugly—I wonder if none of you think so?

From this attitude, Qiao Yuxian saw the inadvertentness of Shen Lang, which made him a bit disappointed.

Although it was only after Joe's family knew Shenlang, it took nearly a year to add up, but together they experienced danger and saved several times, making him feel close to Shenlang.

Then he secretly smiled, young and energetic! It's his own, in his twenties, but after practicing for a few years, it's stronger than some decades of cultivation or even a hundred years. Is there any reason to be unconfident? How can I listen to the old-fashioned reminder?

"Since the Shen brothers have already decided, then I will not say more, please accept this gift."

Shen Lang is a little helpless: "If I accept it, don't let everyone go, don't you want to be stinky? And bring you Joe brother, of course, there is nothing. If you want to bring dozens, it will be excessive. After all, this is The team of other people just invited me to participate, not my team."

"But I can't even send this gift, no face to go out and see people." Qiao Xiaoxian smiled.

Shen Lang is a bit speechless, you have to face, I don't want to face! I have moved you, your face is there, my face is going to be stepped on by others...

"Let's say that."

Shen Lang said, directly opened the box and pointed at the gift inside.

"Look, can you get it? Is it sincere?"

Qiao Yuxian opened his eyes: "This, this can be worth a lot!"

Chapter 1044 - gossip

What is in the box is the fine stone of over 100!

In terms of these, if it is a martial art, even if the foundation is deep, it will be hollowed out. It is impossible to offer so much in order to go to the sea without jail. It is natural for everyone to join together. With-dream-.lā

However, when he came back half a year ago, Shen Lang opened the price and said that he could search for the rescue of these unsold cockroaches. The asking price was a five-class spiritual stone.

For example, Bagan was the first to come to him after the press conference, which brought artifacts and important clues.

Some of the other sects are honestly given to the wind, and some are waiting to see, or have other ideas. After the people were saved, they thought it was not the case.

Now I still want to continue to follow Shen Lang in the past, and I don't want to collect sincerity. At least I haven't given Lingshi before, and I have no face to come back.

Therefore, most of the nearly 100 fine stones are actually made up by them! Of course, it may be re-equalized, but the meaning of Shen Lang is still the same. It is really a thank-you before. ..

“Why did I send Lingshi before?”

The sudden problem of Shen Lang made Qiao Yixian stunned: “Because the sinking brothers are broad-minded, they share the same world.”

“There is no one to believe that when I say it. It is because I have a lot of spiritual stones. I can't use it myself, so I don't mind sending out a part, Bo is a famous name.”

Shen Lang directly admits that it is for the name, let Qiao Yuxian believe that this is the truth, to say that complete selflessness is difficult to understand.

“The problem is here. I am not lacking in Lingshi, just as the rich are not short of money. You can't represent sincerity when you send money.”

Qiao Yuxian secretly smiled, the rich are not short of money, but who would be too much money?

Even if you can't use it, you can also use it as a hard currency. In many cases, you can trade some rare items that you can't afford.

But the meaning of Shen Lang, he has already understood.

Just send the Lingshi, it is not sincerity, you must send something that can touch him!

This also makes Qiao Yuxian a bit strange, saying that those foreigners should be less aware of our thinking habits, how do they rather understand the mind? What are they sending?

It is a pity that at least everyone knew that there were a lot of Western monks on the sunset peak. How to talk to Shen Lang and what was sent, but no news flowed out.

“The Shen brothers said that it makes sense. I will bring them back for the time being, and discuss them again with everyone. But... Look at my old face, can you tell me?”

Qiao Yuxian is a big man, but now he must be cheeky and accompanied by a smile, he is also very helpless.

Shen Langzheng said: “Joe brother, you should be my excuse for this. In fact, you don't understand the situation over there. Let you go again, even if you are fully prepared, you will be able to get it all.” Victory?”

“This.....”

Qiao Yuxian once again picked up.

This is why we didn't take the lead in finding the waves. After all, no one is sure. But the problem now is that the big guys in the West have to start, and they have to keep up, so that they don't have to eat leftovers.

It's just leftovers! In the unlikely event of the great influence of the West, the world will gain a lot, and after the return of the triumph, it will directly affect the pattern of the earth's forces. It is not impossible to kill the Chinese parties at that time.

So this is a competition, a competition that affects all parties in the world.

“You should understand my style.” Shen Lang said another.

“What do you mean...?” Qiao Yuxian did not understand what style Shen Lang said.

Shen Lang smiled: “I have never been a selfless person. I used to fight for the rescue of the people in Yuxianmen. In fact, the bigger reason is because of you acquaintance friends. Of course, it also includes the canoe, although she insists on it. Stayed.”

This is an understatement, but it is serious, so that Qiao Yuxian was greatly moved.

Yes, according to the style that Shen Lang has always shown, he will indeed ask for benefits and will not sacrifice himself to save the heroes of the world.

“When you are trapped in the underwater world, I will go there again and say that I have to collect the rewards of the five fine stones. Although many people have not given them afterwards, I will still be able to take advantage of them after all.”

This situation is also known to Qiao Yuxian. At that time, Shen Lang was letting Qiao Zhantian and Nanliushui take the lead, but they did not actually want them to be a few spiritual stones.

“I said this, I really want to tell you, I promised their invitation, but I was responsible for leading the way, taking everyone safely and coming back. There are any problems in the process, I will not intervene without interest. You, too, too. !”

Speaking of this, Qiao Yuxian naturally understands this. If they still insist on going along with them, then when something happens again, Shen Lang will not be rescued!

“Thank you for your brothers to tell the truth. But you also know that when they go, we are passive. If they are killed there, it is the sorrow of the Western parties, but we will not. I am not sure about the invasion. If they are back in strength, it will be hard to say.”

Qiao Yuxian sighed: "I will discuss it with you again."

He did not stay too much, brought those Lingshi, and immediately went out.

Shen Lang informed the Gao Li, let him call back the praises and other people, do not need to entertain them outside, let them be free.

At the time when the outside world was in an emergency meeting, they praised them for coming back. The news that the two elders were promoted to the realm of the gods was made public, and both of them were full of joy.

A year ago, the ally of the Masters Alliance, a powerful person in the realm of the gods, allowed Tianshan Jianzong to flee, and finally the two elders were heavily wounded, including the ice palace to help the boxing.

Now, in addition to the unfathomable strength of the elders, there are two elders who have reached the sacred state and are no longer afraid of being bullied.

The wind has not been cleaned up and put into work. The information accumulated over the past few days has been quickly analyzed and sorted out, and then filtered and collected to Shenlang.

Those who got the Lingshi were all sinking. This can be felt by Shen Lang, but it is weakening day by day.

Those who did not get the spirit stone are behind the dark waves, saying that he is to please foreigners, pretend to be generous, and many of their own countries do not give.

These people who do not have the power of faith, Shen Lang does not care about them, it does not matter to smear, anyway, his true intention is not for fame.

However, there is another piece of information, but it makes Shen Lang pay attention to it.

The outside world has already proclaimed that Shen Lang is a traitor, not only to please the foreign comprehensions, but also to unite with the major forces in the West, intending to invade the Chinese factions!

Chapter 1045 - Send another gift

This is just a rumor that Shen Lang can not care.

But now there are Huaxia factions outside, and this rumor appears to be a bit subtle.

This should not be the underlying suspicion, then these big names put out such news, the intention is very obvious – the best way to clarify rumors is to cooperate with the major factions!

Such rumors are not broken, they will also help anger.

But this is deliberate rumor, and then use rumors to put pressure on Shen Lang, forcing him to submit!

This of course would make Shen Lang very uncomfortable, but he was not influenced by emotions, but calmly thought of another possibility.

The Western parties, including the Pope, have come personally, and naturally it is a must. It is not difficult for them to guess the worries and thoughts of the Huaxia factions. Including them, after the emergence of the sunset peak, will inevitably cause a chain reaction.

At this time, they released such a rumor that it would inevitably make Shen Lang resent the Chinese people, and there would be no cooperation.

Although these two possibilities, there are no clues for the time being, just speculative analysis. But from the perspective of their interests, this is all possible.

After hiding in the network, it seems that it is safe, but it is ok to get it out, but it is related to a problem of time and cost.

“Do you want me...”

Feng Wuji has not said her suggestion, Shen Lang has already waved.

“No, let it be!”

“Yes.” Although Feng Jiji is a bit puzzled, he still obeys the arrangement.

Her experience and ability are not bad, but the height of standing is not the same, so I still can't think of what Shen Lang thinks.

Shen Lang thought of the first possibility, then the second possibility, and then turned to the other side's body to think!

If you release a rumor, you can only be a person or a few people. It is impossible for the group to discuss it, and it will certainly be rejected. Then they can only think of their own favorable side. After the news spread, other people can certainly think of another possibility.

If there are people from various Chinese schools, others will naturally worry about anger and sorrow; if not, they will also think that it may be the separation of the West.

If the West is telling someone to leave the news, others will worry about angering the waves; if not, they will also worry that the misunderstanding of Shen Lang is their separation.

Therefore, this news spread, it was originally unfavorable to Shen Lang, it is necessary to ridicule or eliminate the impact, which is exactly what Feng Wuji is prepared to do.

However, the height of Shenlang Station is different. Now when both parties are asking for him, they are afraid of offending him. So no matter which party has used such a radical approach, people on both sides will be nervous and jealous, but there are other people to mend.

Under such preconditions, if Shen Lang took the initiative to clarify the rumors, it would fall down.

For this matter, it is necessary to keep an eye on it but ignore it. If necessary, take the opportunity to beat both sides!

Sure enough, as he imagined, it wasn't long before Joe Shuyu contacted him.

Qiao Shuyu's expression was very indignant. He said that he also knew the news. Qiao's family immediately arranged for someone to trace the rumors. They are all aware of Shen Lang, and they are determined not to allow such news to smash him.

He represented Qiao Jialai, and Qiao's family represented the factions.

Shen Lang was undecided, did not express anger and did not express gratitude, as if everything was expected.

After the expression of Qiao Shuyu, Shen Lang is no longer able to pick up the phone, and can only hang up the video call. However, Shen Lang's attitude will definitely be immediately reported to Qiao Yuxian, which will be known to other parties.

Archbishop Paul also contacted Shen Lang shortly after. He was shocked to hear such rumors. It is said that this is someone who wants to frame them and build up a wave. They are very friendly to China.

In short, it is also the surface of the side. This is not their own people. They are friendly and cooperative with Shen Lang. Everyone is a compatriot of the big family of the earth. There will be no aggression and so on.

Shen Lang is still maintaining a cold attitude, and he is not convinced of his clarification.

After that, the news collected by Feng Wuji has no rumors about this. It is obvious that some people exert influence in the back.

Probably afraid of long night dreams, Paul's side is not only good, but also said that after five days, he will go out to sea and sea. Like the last time, the passenger ship from Haishan City to the high seas.

On the other hand, there was no leisure, and the gods and gods left, and they left from the Tianshan Jianzong, and then discussed in a meeting. Finally, Qiao Yuxian and Nanliuchuan came together to visit Shen Lang.

Old Joe is probably a person who feels pressure, and Nanliuchuan and Shenlang know each other earlier, pulling a little more face.

“Shen brother, tell you clearly. Before there was a rumor that you colluded with the West, we were afraid of people to investigate thoroughly. It was not the news of which of us was released. I don’t know which one did not receive the stone.” Or someone in the West deliberately put this kind of news, let you misunderstand us.”

After entering the room, Qiao Yuxian first seriously stated his clarification.

“Shen brother, this should be true, you think about us, all of them are seven, eighty or even hundred years old, how can it be so naive.” Nan Liuchuan said.

Shen Lang shook his head: “I personally care about it, don’t say it.”

His attitude let them both look at each other, dare not say it again, but it is a bit embarrassing.

Shen Lang did not investigate, of course, did not know the truth, what he needs now is to maintain a skeptical attitude!

“Get out of the way, they are almost ready there, and they will go out in a few days.”

When this word came out, Qiao Yuxian looked awkward, and then he couldn’t care about it, and quickly went straight to the point.

“Time is tight, and we don’t know what to use to represent sincerity. This is something that can be raised for the time being.”

Qiao Yuxian took out three boxes and placed them in front of Shen Lang.

The last time Shen Lang followed Qiao Yuxian and went with the name of Joe’s family, so everyone felt that he had a good relationship with Shen Lang and naturally became a representative.

Nanliuchuan, who has had a secret to the watershed city-state adventures with Shenlang, is now assisting him.

“Shen brothers, everyone is really doing their best. If these sincerity is not enough, you can wait for the gains there, and let you pick them first.”

It is not easy to make such a gesture with their status.

Shen Lang looked at the two brothers, but also soft, no longer refused, but directly opened the three boxes of people.

Just toward the attitude of both of them, as long as the things given can be said, Shen Lang decided to bring them!

This is also the reason why he did not express his views on both sides when he talked about the Western tactics of the Huaxia factions. If there is a need, this is also a reason for the West.

Speaking of it, he didn't really expect much. After all, it was in a hurry, and it was easy to get together the money. He had to take out the good things from his collection, but few people wanted it.

But when he looked at it clearly, he was surprised!

Chapter 1046 - Change decision

The three boxes that Qiao Yuxian took over are no longer the rejected stone, and there are three things in it.

Inside the first box is a radiant bead, the color gradient from time to time, looks very beautiful.

What is placed in the second box is a stone-like thing, but it has no special features.

And the third box is filled with something familiar with a sword – a rusty broken sword.

This sword was originally found in Shenlang at the Tangyuan Fair. It was recognized by the Qiao family that they pursued the three generations of the Xianjian sword, and finally exchanged with him using the Flying Method Yunyun and Juyuejian.

“Joe brother, what do you mean by this?” Shen Lang slightly frowned, and the box of Xian Xianjian flew to the front of Qiao Yuxian.

“Shen brothers don’t misunderstand, I don’t have any opinions on you. The reason why I will return the swords and swords back is that when we exchanged, it was actually that our family was taking advantage of it; on the other hand, it was also the research of this year, I found that I can’t control it, and I’m in your hands to get the most out of it. The so-called sword is a hero...”

The words of Qiao Yuxian have not been finished yet, and Shen Lang has been interrupted.

“Maybe the sword is more valuable, but Juyue sword is also worth a lot, and there is a cloud disc. That transaction is also a win-win situation. For me at that time, Juyue Jian and Yunyun are much better than the sword.” “”

Shen Langzheng said: “In my position at the time, compared with the identity of Qiao’s family, Qiao’s family did not take advantage of it, but used fair trade, which is very much admirable.”

Speaking of this, the Nanliuchuan next to it was slightly stunned.

He remembered that at the time they were injured and they needed Urdan recovery. Shen Lang is also a generous transfer, the South is to give a set of chicken ribs silver magic.

Although they were arranged by Nan Yuying and Nan Qilin at the time, they finally represented the eyes. It is no wonder that Shen Lang would follow Chaucer.

“Hey, I can get the evaluation of the Shen brothers, my old face is red.” Qiao Yuxian is really a bit embarrassed.

At that time, they did not think about the pressure of the waves, but it was because of the growth potential of this young man, so it was a fair deal, so as to be a human. But I still

didn't expect the growth rate to be so fast. After one year, Qiao's family didn't say it, but also needed to rely on it.

"This sword is your wish, and your feelings are priceless. If you give it back, don't you hit my face?"

Shen Lang shook his head: "The time is short, you can see that you are no better."

Qiao Xiaoxian smiled bitterly: "Yes. Time is too short, we don't know what can represent sincerity. Or listen to Shu Yu, you said before with him and one leaf, like something that others think is special but tasteless. So"

He pointed to the other two. "This is a temporary collection, but the value is real... So I want to add the sword, who made me promise to be the leader?"

The sleek bead, and the unpretentious stone-like objects, are naturally special, but they don't know exactly what the role is. The collection has no effect, and it can't sell too many spiritual stones.

Shen Lang sighed: "Your old brother has forced this to happen. If I insist on it, I will not be too loyal. I will take it back, and I will take it back."

"But... these two values..."

These two values, estimated to be up to five ten high-grade Lingshi, then the sky is over, less than one tenth before.

"These two values are limited, but your brother's sincerity and infinite value. Not to mention the face of both of you, it is also of great value to me."

Shen Lang said this and let Qiao Yuxian and Nanliuchuan feel a bit of a flattering feeling.

In their identity, their age, at least for decades, this feeling has not been felt. Putting it on a young person is simply unimaginable and weird.

But now they don't feel it at all. With the influence that Shen Lang is showing now, it is a glory to give them face.

The last time the top-ranking Lingshi was not refused to take it, now let alone this point. After conversion, the sincerity of Qiao Yuxian and the faces of both of them have been worth hundreds of fine stones.

Not to mention whether or not to force the outside, they will be touched by themselves.

“Shen brother! I don't say anything. If we get something over there, everything will give you priority. I made this master for all of them!”

“Not bad! Shen brothers give us face, we can't shame, it must be!”

For the two big statements, Shen Lang generously waved: “I will talk about it later. I am still the same sentence, don't be so optimistic, you have not seen the strength of others, safety first!”

“Yes!” Both of them agreed seriously.

That Yuxianmenguang is a master of the realm of the gods. It is estimated that there are one or two hundred. It was a direct hard battle and it was also able to suppress them. Not to mention their heads, elders and the like certainly the strength is unfathomable.

This also makes them more curious about how Shen Lang escaped.

“The time is urgent, I will not leave you a guest. Go back and prepare now! I have to find ways to communicate with those in the West.”

After Qinan and his two were grateful, they left and left. There is not much time left, they need to inform other people, and they are prepared, and there is really no time for them.

After they left, Shen Lang re-examined the two things.

In the eyes of Qiao Yuxian, he just did not hide his surprise, naturally because he saw the sword.

But actually in Shen Lang here, it is because of these two things and surprised!

Qiao Yuxian was able to put a few generations of 戮仙剑, which really touched him, and the faces of both of them also accounted for a part. But these two things are not dispensable, but also one of the reasons for moving the waves!

In the original transaction, Qiao's family offered the same great value as the Juyue Sword, plus the Flying Law Cloud Disc. And the rewards given by the South, the swordsmanship inside is not worth mentioning, the set of silver needles on their chicken ribs, but it is very valuable "Eight Moon"!

The South family thought it was cheaper. In fact, Shen Lang is more cost-effective.

This is precisely why he told Qiao Shuyu and Nan Yiye when they said that there are special and tasteless items. Can be collected by the big sects and big families, naturally it will not be rubbish, and the chicken ribs are nothing more than knowing what is useful.

The experience and insights of Shen Lang's previous life are far from being comparable. At that time, there was no "big break" caused by going to the sea without jail, and a lot of information was circulated more, maybe it would be treasured from the chicken ribs of others.

Today, both are the case!

Chapter 1047 - Elemental beads, mysterious stone

The radiant beads really don't see anything, and they don't feel any magic. The biggest feature is that above the change of color gradation, the original collection of martial art should be a "collection" role.

So this time, after the development of the idea, Qiao Yuxian encouraged everyone to come up with such a "special chicken rib" and contributed it.

If you really understand that there is any great role, you will certainly not be able to contribute. Even if other sects return to Lingshi, they will not be willing.

But Shen Lang knows this thing!

This bead is actually a magical substance, called “elemental bead”. Its role is very simple, that is, it can use elemental energy to warm up some spiritual things!

Strictly speaking, it is a relatively high-grade, with a certain spiritual magic weapon, can absorb its elemental energy, get nourishment, and may even be leap-forward!

However, this elemental energy is difficult to be directly absorbed by human body cargo. Therefore, simply carrying this elemental pearl around, or absorbing it while practicing, will not help, and the effect is not as good as that of the elementary stone.

Because of this, it will be regarded as a chicken rib, and only those refining masters who refine the magic weapon can understand the wonderful!

The other stone, which looks more ordinary, is also a big one. It is called “Xuantianshen Stone”. It is said to have fallen from the gods. It is said that it is the remains of the maiden scorpion.

These are definitely attached, but they are probably an unknown substance in other spaces of the universe and other worlds.

This thing is generally unknown to people, but there are very few people who know it in the refining industry. In the eyes of the master of refining, the mysterious **** stone has the stone to become the golden second, and it is added to the magic weapon of refining, which can greatly enhance its quality, just like the rare earth in the modern metal industry.

What makes Shen Lang heart is another use: It is said that Xuantian Shenshi is a material that can be used to create artifacts!

Shen Lang doesn't understand and doesn't need to build artifacts, but he now has a broken artifact, if this mysterious stone can help repair artifacts...

Just in order to prevent Qiao Yuxian and Nanliuchuan from knowing the true value of these two things, Shen Lang is not convenient to show too much care. It is not easy to ask which martial art contributes, and whether it is contributed by the same sect.

But from his own point of view, it is most likely from a martial art, and it is an ancient sect that has deep roots in the refining.

Of course, even if this martial art is still first-class, there must be a lot of loss, so I don't understand the use of these two materials, I will be willing to contribute.

Anyway, now that you get these two things, Shen Lang thinks it is more valuable than a hundred fine stones!

The reason why Shen Lang recognizes this is because in the last world, the stalking was too broad, and because of contact and understanding, it was the top figure in all aspects. So even if you don't have a specialized refiner, there are still some insights.

What he needs now is how to make good use of these two things!

The use of element beads, he knows, because it is relatively simple, only need to put the corresponding magic weapon, and put it together, naturally will absorb the fusion. Just the process is slow, the key is needed – time!

This is also the reason why the elemental beads are used as chicken ribs. The descendants who do not understand the principle, even if they can't study it, even if they try to use it, it is impossible to try for a long time in a year or two.

Now Shen Lang has a "time acceleration" method, which can be used as soon as possible to show its effect.

He immediately took a look at the magic weapon he had in his hand, and some of the lower grades were even lower. Even if there is an effect, it will inevitably share the role of the elemental beads, which is not worthwhile.

After considering it, he chose three kinds, one is the Ba Tian Tower!

This is a magic weapon that has been seriously underestimated in the world. Its role is very overbearing. If you upgrade its grade, it will be more powerful.

The same is the same month, when I first harvested it, in the hands of Shen Lang, there have been many key roles. However, the enemies encountered have not yet let him play the full effect of the “eight-needle” technique.

Now his realm is already very high, and he does not need to rely on it, but it will be difficult to say that he will encounter strong enemies in the future, especially in the mainland of Nakajima. He is now at this level, not to say that he is running all over the place, at least not at the top. .

In addition to self-defense, its characteristics also have a good surprise effect.

The last is the magic weapon of the Moon and the Moon.

This was originally obtained from the ally. After that, I met the ancestor of Shuiyue Dongtian in Jingyang City. Finally, I learned from the contemporary head of Shuiyue Dongtian that Yu Bai was separated and kept. Only a part of it was stolen in the past.

In combination with the part of Yu Yu’s offering, it’s the complete white rainbow that can be used to make a difference.

Then there is no return to the sea of infernal, Shen Lang has no chance to use the white rainbow, the other magic weapon of the lord, it is even more confusing.

Now he decides to let the white rainbow pass through and see what the power will be after the promotion. As for the shady, he gave him away. If he is not there, there will be strong enemies, this shady magic weapon, how much can give him a chance.

These three magic weapons, together with the element beads, were brought into the world space of the book, directly let them store and then see the effect.

This arrangement is simple. In addition, the Xuantian Shenshi has to repair the artifacts. It is difficult. The specific method does not understand Shen Lang.

He took the Kunlun mirror and passed it through his blood, and after all, there were traces. If Xuantian Shenshi can make up for it to be perfect, the power must not be the same.

When Shen Lang took the Xuantian stone on the Kunlun mirror, an effect he did not expect appeared!

Kunlun mirror is like hunger encountering food in general, directly began to pick up, at a speed that can be felt, swallowing the mysterious stone!

This really surprised Shen Lang.

The artifact is an artifact! Even if it is like this, it can be so powerful.

However, such a devour of the mysterious **** stone, should be in the ancient refining Kunlun mirror material, there should be Xuan Tian Shen stone.

Since it can absorb it by itself, the Shenlang will not be in control, just sitting next to it.

In fact, the speed is not so fast, you can feel it, just because he is now in a high level, and has a connection with Kunlun mirror, so a little change can be realized.

When the Kunlun mirror stopped to absorb the Xuantian stone, Shen Lang saw that it was already brighter than before. Those defects, those broken marks, have been repaired gently.

The traces of his blood fusion are left with a trace of dark red traces of hair.

And from the sensation, the Kunlun mirror seems to have recovered from a state of weakness and weakness to an energetic state of excitement.

However, that piece of mysterious stone, but it has already died out, only a small piece.

Shen Lang thought about it and put it directly into the elemental beads, together with the three magic weapons.

Chapter 1048 - Rate the public

After the two treatments were completed, Shen Lang informed the Archbishop of Paul of the decision of the Oriental monks to walk together.

Yes, notice, not discuss with them.

Shen Lang did not explain so much, just told the Archbishop of Paul that Paul decided to inform other people.

Paul did not quit, saying that although he was a bit uncomfortable, he would still respect Shen Lang's decision and would inform everyone else.

Obviously, the previous rumor is a good catalyst.

They are afraid that the Shenlang will misunderstand the news that they are released, and they are afraid that the monks in the East will really believe this news.

Of course, they are not afraid to fight collectively with the monks of the East. In the era of peace, no one dares to provoke the war.

Nowadays, the resources are scarce and the strength is very strong. You can also hope to seize resources through the war. But what if the strength is poor? Then it became a cannon fodder and became robbed by others!

Therefore, the overall peace situation is that no one wants to change. A new continent like No. Heihai is the blue ocean that everyone is happy to explore.

Their trip was with Shen Lang, and they didn't say that there would be huge gains. It's impossible to return for a few days or weeks. If you can stand up, of course, you hope that time will last. At least for a few years, in order to have a big gain.

In such a process of time, if the monks in the East are distracted, maybe they will give the nest of many of them together before they return!

So after the rumors came out a few days ago, they also met to discuss how to deal with the problem. For Shen Lang's decision, there is already some psychological preparation.

I was able to walk along the same time, at least in terms of strength, and took away a group of big men in the East, and everyone can still maintain balance.

Besides, even if it is unwilling and uncomfortable, Shen Lang has decided to open it. They can't give it to this face. After all, they pay the price of asking for the waves, and there is not much. The monks in the East can certainly provide better conditions.

In case the sinking waves are uncomfortable, returning them to them and working with the Oriental monks, they will be passive.

So it's not as generous as it is now, but I've been there before.

The time and place have been confirmed, and Shen Lang also informed the rain and the canoe, and then took Zheng Yumeng Dorothy, including the wind and no Ji, all went together.

Gao Li and Qi Sheng, neither envy them. After all, going there is risky. Before dozens of hundreds of people, they have not been able to come back, let alone the two of them have just advanced.

Just as a high-divided individual, in fact, I still like to go there. After all, Gao Hanqiu is not only the predecessor of Jianzong, but also his ancestor. It is different feelings.

But rationally, he still did not open his mouth. He listened to the arrangement of Shen Lang and everything would be beautiful. With his current realm, Shouyuan can still get a lot of extensions, and there are plenty of opportunities in the future.

In addition to a group of women, Shen Lang has taken a look at it and brought "1, 2, 4, 4".

One two three four is another world. It is the remains of the pastoral garden. Finally, they fled with them. When they came to the earth, they did not settle down. They asked for the sinking of the waves. Finally, they gave the name Shen Yishen, Shen San, Shen San.

After bringing back the Tianshan Jianzong, they were the elders of the guest, and they did not participate in the decision of the Presbyterian Church. They only arranged a place to work in closed doors.

Only when the swordsman is in danger, they need to be shot.

There are four masters of the gods to sit on the guardianship, even if the Shen Lang is often absent, in the past six months, Jianzong is also a peace of mind to practice.

However, this is not cultivated by his own martial art, and it is completely followed by Shen Lang. Therefore, in fact, it is still motivating Gao Lisheng and other elders to work hard to cultivate.

It's just that after the survival of the real world, it's not a few days and a few months of hard work, you can upgrade and change. If you don't have enough talents and resources, you may not be able to improve it for decades.

In the same way, they have been retreating for practice since the end of the year, and they have only repaired the damage in Yuxianmen. It is impossible to make any major breakthroughs.

In any case, Jianzong now has two guardians of the gods, and security is basically no problem. Going to the mainland of the island, but everything is difficult to say, it is high away from them, but also persuaded Shen Lang to bring four big hits.

If it weren't for the future, there would be no return to Hailor, and Shen Lang almost forgot all four of them. It's pitiful to think about it. You can only retreat and practice with them every day.

In this way, let's not say how many people will go to the East, and if you are a private person, you must carry nine people! He felt a little embarrassed himself.

Some time ago, I went back to Pingxi to accompany my parents. This time, I was nervous, so I didn't go back, just told them.

Zheng Yumeng and Dorothy have experienced the death forest together with the falling rain and falling canoe. They have a "revolutionary friendship". They are very welcome to

join them, but they also find that they are a bit of a student. It seems that they are also a bit of a child. .

Feng Wu Ji is one of the weakest of them, and the last one to know Shen Lang. He has always been able to position himself and his posture is the lowest.

Her experience of being a human being is much more than two of them. One can see that they should have something to do with Shenlang!

However, she is not familiar with that part of the not too much to ask, but pretend not to see, try to be active at an appropriate time, not let the cold field.

She heard about the news of the death of a few months ago, but she did not expect to be killed by Shen Lang. In her view, the two of them are a bit alienated from Shen Lang and should be the embarrassment caused by the identity relationship between the two.

After the gathering, they rushed to Haishan, and Qiao Yuxian and other big men, also rushed to Haishan from all parts.

This time, the situation at the beginning of the year was a little different. The last time was the old guys who didn't have any heads in life. They were ready to make a final vote and they were ready to go.

Under such circumstances, of course, no one can carry too many resources, such as a powerful weapon magic weapon, with no go!

It's not the same now, there's a deep wave, and everyone's hopes of coming back are full of enthusiasm. What I am thinking about now is not to go to an unknown place without aiming, but to have a clear goal.

If you kill Yuxianmen, you still can't say it, but at least you can collect resources in the environment around Yuxianmen. In this case, to guard against Yuxianmen, you must be prepared.

In addition to weapons and weapons, there is also a direct increase in manpower. For example, Qiao's family, the last time Joe Qiao Xian went alone, would rather please Shen

Lang this foreign aid, and can not let Qiao Zhantian follow. If there is no return, then both are lost.

The hope of coming back now is big, and Qiao Zhantian will be able to double his strength. The same is true of the South, and the South River is also coming. The other parties are basically the same mind, and the result is that the number of people has doubled more than the last time!

However, there is one more person, and the number of Shen Lang is nine, which is still incomparable.

Chapter 1049 - Shortcut

When I saw Shen Lang, everyone was very polite. No matter what, sincerity and face were all paid by Qiao Yuxian. The price they paid was less than the Lingshi that was collected before.

Going out to the passenger ship on the high seas, I found that there were more people on the deck than last time. Obviously, the Westerners are the same mind.

This time they were gathered in a port in advance, and the sea wave was the second wave here. Then they set off directly and stopped from picking up people from other countries along the coast. Like some in Southeast Asia, there was no chance to go on.

After Shen Lang got on the boat, the gods sensed that there were hundreds of people on the whole ship. Aside from some low-level crew members, they would really go to the sealess, about three hundred people.

This team has indeed grown a lot more than the last time, or under the premise that some national sects have not been invited to join, basically each force has reached more than two people.

The Western monks on the deck, of course, are watching the excitement. They are not welcoming the peers of the oriental monks, and even express their disappointment directly with cold eyes.

However, Shen Lang is an exception. For the most important person in this trip, Archbishop Paul collaborated with several high-ranking amnesties to greet him and accompany him to specially prepared suites.

This also makes Shen Lang a little embarrassed. When he boarded the ship last time, he followed Joe Qixian, plus a weakest Fuyang real person, everyone must be careful.

At that time, I found that there was a big man on the boat, and I almost never came out to meet with you.

This time, the great man who was proud to disdain with everyone, the Archbishop of Paul, is now greeted with a welcome welcoming.

Of course, there is also a big man on the ship who does not come out casually, that is the Pope. But even if he is, Shen Lang does not need to be jealous of anything.

Everything comes from the improvement of strength!

The current Shen Lang is already a pivotal figure on the ship. His every move has also been noticed, and his words and deeds will be analyzed.

In general, even if the West is unhappy, there is no conflict, just separate from each other and keep a distance.

Although there was no such deliberateness in the last time, everyone was not familiar with it, and they were still familiar with each other.

That night, it was another dinner party.

The established facts have already been the case. Even if everyone is clear and clear, after going to the sea without jail, everyone is from the earth and can no longer appear guilty.

Therefore, Paul was also the opportunity to continue the meal, and expressed his welcome to the monks in the East. On behalf of everyone, he made a call for unity.

But these can have some effect, and no one knows.

The most important thing is that you have to look at the waves!

So he then handed over the mobilization task to Shen Lang, and everyone wants to know what to do, leaving less time for preparation.

Shen Lang did not disappoint everyone. After simply repeating Paul's unity and mobilization, he said the point after entering the sea without jail.

The last time including the Archbishop of Paul, everyone will be unconscious because the space impact is too great. They are all scattered, that is, they are alone.

At that time, Shen Lang grabbed the canoe and the Xiangyang real people together, and the two of them were also unconscious. He benefited from the strength of the body far more than the average person, but also made a defense in advance, and put the "King Kong not bad body power" to the extreme, plus the full defense of the holy armor.

Now if you enter again, three hundred people will be together, even if the impact can be even greater, but they are all spread out, everyone's pressure will be much smaller, it should be able to stay awake.

In addition, it is also a detailed description of the thick fog that can't reach the fingers. It can't see the front, and can't hear the sound. God's sense of induction is not good, only the hand is holding it.

Whether it is a theoretical explanation or a detailed description of the method, it is very simple, and everyone understands it.

But because of simplicity, there is something you don't believe!

Last time they might have been arrested for such a coma, but Shen Lang was obviously not with them, but it was a long time later to come to the city of Yuxianmen.

"Master Shen Lang, did you have another way in the last time? Should it be safe to go over there?"

"Right! Are we waiting to be caught in the fog? If there are other roads, you can completely bypass the sect."

“Or, we can also sneak up on them in the past!”

Obviously, for the last Yuxianmen, everyone still has a lingering fear. Even if they are prepared, they will not dare to confront each other.

I have to say that this time, the team of 300 people is basically a strong person in the realm of the gods, and it is already very powerful. Most of the comprehensions, like those who go to the sunset peak, should not know, do not believe that there are so many super strong.

After all, a sacred genre can make the master league alive and have a huge impact. They are legendary in the eyes of the middle and lower monks, not too many.

Nowadays, the powerful tycoons of the world gather together, not only the impact is huge, but the real strength is also very terrifying.

However, they are three hundred people has been the world’s most sophisticated group, not one in a million, not one million pick one, is one of tens of millions.

And the imperial gate is comparable to the gods, there may be one or two hundred, the overall number is not much, it may be one hundred. The gap is huge and there will definitely be a stronger existence.

Besides, without looking at the disparity in the cardinality, it is a direct comparison. Others are the same division, and the training is well-established. They are all over the world, and each sect is not two or three. It is not familiar at all, and even mutually exclusive.

If you really want to fight, even if there is an advantage in quantity, the result of a loose sand will be cleaned up by others and once again closed to the pastoral garden as a farm animal.

Therefore, they all hope that Shen Lang can take them with a safe shortcut, some are not easy to ask, and some are directly open.

Shen Lang glanced at the past: “Yes, I still have this way. But I haven’t been there yet, and I may have died on the road.”

When this is said, everyone does not agree. I feel that Shen Lang wants to enjoy a unique path and is unwilling to contribute.

Although it is not directly stated, all the expressions are not believed. Everyone feels that Shen Lang probably wants to sit on the ground.

“Last time, didn’t you pay much attention to me?”

Everyone feels speechless, not sitting on the ground, is this looking for a place to win face? The last time who knows you are so powerful, now everyone has given you a face!

“If there is concern, you will find that I have a companion in addition to Miss You, who you saw later.”

“People in Fuyang?” Shen Lang said this, and Qiao Yuxian reacted and asked.

“Yes, where did he go? Dead! That is the road to very high mortality.”

Chapter 1050 - no guarantee

The last time in the ranks of almost all the gods, the Fuyang real people who are weaker than the canoe can be regarded as the last one. Naturally no one cares about his life and death.

It was Qiao Yuxian, and I didn’t ask much afterwards.

It’s just that everyone is a super master. It’s less than a year’s work. After really mentioning it, I can still think of it. At that time, together with Shen Lang’s on the ship, apart from Qiao Yuxian, they really have a weak strength. I haven’t seen it again since.

Not only Fuyang real people, but also those who want to kill them after the minefield, but they have been killed, and no one has followed and mentioned them. Only their own martial art families will be questioned.

“Just one, can’t you say that the death rate is high?”

“The friend’s strength is also limited, should it be related to his personal comprehensive strength?”

Some people have argued on the side, and everyone feels reasonable.

It’s not surprising that their realm is in the realm and the strength is much weaker. Since both Shen Lang and Canoe can be safely passed, they can safely pass.

The real person in Fuyang is indeed dead enough, but Shen Lang just wants to use his death to express the danger. He is talking about the minefield!

Going back and forth twice, he was smashing in front of him, and they were behind the canoe. They followed closely. One person and two people could also cooperate with the past. Three hundred people, it is really impossible.

By then they will all be killed!

For the chaotic space, the understanding of Shen Lang is also limited, or else it can be like the few people, after the fog falls from the air through the minefield, it is much easier.

Shen Lang went again and grasped the route of the route in the holy armor. But in the dark fog, you can’t see, hear, or trace, there is no way to grasp the degree.

“I am not afraid to say a big word. I am sure that I am stronger now than before. I am sure to bring one or two. But there are three hundred in the room... Oh! My people and my friends add up. Ten, I am not sure, can’t let them take risks.”

Shen Lang said this, and they lost their confidence.

Originally including Qiao Yuxian, they felt that their strength is far better than that of Fuyang, and that they can take the boat and they can follow the past.

Now, the hope has been ruined. There are nine people who are carrying Shen Lang. Even if they are not willing to help others, they are always willing to do it.

If even nine people are not sure to bring the past, then hundreds of people are really finished.

They are not ordinary people, they will not dig into the corners of the horns. After all, from the description of Shen Lang, it can be guessed that it is not because of the danger of man-made, but the danger of nature.

And it is very clear that not many people can help, but more people are more sad.

“Master Shen Lang, your plan must be well thought out, it must be the best, we all listen to you, please continue! What do we need to cooperate with?”

Paul came out to play the round field and also sent a high hat, so that Shen Lang was too embarrassed to lie to everyone.

Others also cooperated with the applause. This is the end of the matter and can only be accepted.

“In that environment, we can’t see or hear, but as long as we hold hands together, we can guarantee that we won’t be in a coma. Then wait for them to catch them, and then take them back and fight back.”

Shen Lang shrugged: “I have not walked this road, and I don’t know the specific situation. I need everyone to adapt to it.”

Everyone else was silent. If they went this way, they were unconscious when they went. They were directly arrested and controlled. And it is also in the large flying magic weapon of others. It is not clear about the specific situation. It is already in the Pacific Ocean.

Everyone looked at Paul.

There is no way to rely on Shen Lang, Paul is the leader of their confidants.

“Then act on the plane! Last time we were caught in a coma, this time there are three hundred people, fully awake, should not fall in the same place? I am confident.”

Paul's words immediately aroused everyone's fighting spirit.

"We also have confidence!"

Since there is only a hard war, they have to face it. This time, we can count the calculations, and with a heart of shame, everyone is really a little confident.

After all, they now have 300 people, and the other side will "fish", how can they not be fully dispatched?

Shen Lang is not familiar with most of them, and naturally there is nothing to arrange. But after this direction comes out, everyone will quickly discuss with people familiar with it.

There are fewer people, but they are more familiar with tacit understanding than they are and must be prepared. The East and the West want perfect cooperation, even if they are not subjectively excluded, time is too late.

Therefore, they all can only start with people they are familiar with, and try to be with acquaintances as much as possible. When encountering problems, and acquaintances have more trust.

It also includes the beginning of a small-scale alliance.

As for Shen Lang, everyone knows that he wants to be close to him. But he has nine people, plus Joe Yuen, Joe Zhantian, etc. It is more difficult for the average person to want to be close. Still good at finding a way out.

After the dinner ended, everyone continued to discuss and contact each other in twos and threes. Paul found Shen Lang and gestured to talk about it alone.

When I came to the suite and isolated the surroundings, Paul asked directly.

"Master Shen, how much do you have this arrangement?"

“I don’t know.” Shen Lang shrugged.

He is really not sure, but dares to come and dare to bring a lot of his own people because there is at least one retreat. Not counting 300 people, but they are only a dozen. There is no problem in crossing the minefield. At most, he only runs a few more, which is not a big problem for him.

Paul couldn’t help but smile. If this is the result, how much difference is it with them? I hope he can bring a safe road.

“You just want to kill the Yuxianmen, revenge and plunder resources. This is dangerous, but it is also the most suitable solution. The other roads are dangerous and positive.”

Shen Lang comforted him.

Paul nodded helplessly and could only think so. However, from the perspective of Shen Lang, it did not mean to use everyone as cannon fodder. This is to make him feel a little relieved.

After Paul left, Qiao Yuxian came again. Undoubtedly he represented the Eastern monks and asked the same question.

“I’m not sure! I have always told you that the risks are high. If you insist on coming, you must be prepared for a dead war.”

If you are in the dark, you can directly let Qiao Yuxian be speechless.

is not that right? It is true to tell them, but they don’t believe it! And it was forced, and had to keep up.

Now I can only ask for more happiness...
