

First Strong 106

Chapter 106 - Great harvest

Time has passed for a long time. The above five martial people can basically use the methods. They really dig the entrance to the place, and then they are far better than ordinary people. Can't dig again.

It was basically their head that entered them, and now they are trapped inside, and there are a few veterans who have given orders.

After some failure in the rescue, the veterans were discouraged. Although they have all seen the last time, they have not personally entered, and the situation inside is not known.

But the last time the Yue family were trapped inside, they were clear, and it really couldn't come out.

All that can be done now has been done, and it is futile to be busy again. So, even if everyone is not willing, but after a few hours, still made a decision to withdraw.

After the main large units left, they still left people to continue to guard. If there is still a chance to come out, they can also support them in time. However, there are not so many left, and one sect will leave two people and have a mutual care.

But even if it's just two people, there are still ten people in the five sects.

Shen Lang is now aware of the fact that the remaining ten people remain in the Phoenix Valley. They are selected, but they are not the most important of the family, because it is dangerous to stay!

What I was able to participate in tonight is an important core selected by the various factions. But even in the core, the importance is sorted. For example, the head of the family and the veteran, they are definitely the most important, followed by the disciples who succeeded.

Those who stayed like them were originally more important than other disciples, but in these people tonight, they are sorted last.

Because in the eyes of the veterans, tonight has lost the most important head of the family, you can not lose more, if there is danger, what is left is relatively free to give up.

As “abandoned children”, they are also very sad, but they can’t argue anything and must obey arrangements.

Therefore, after the departure of the large units, their morale was greatly reduced. The three-and-two scattered seats were on the ground, and there was no more concern for the tomb of the king, but even more afraid of the change. Of course, waiting for the time to pass, no one is too big to sleep.

After understanding the situation, Shen Lang was a little helpless. He didn’t want to go out directly. He didn’t want to face up with them and avoid more casualties. Although most of the time, there are still ten. Do you want to kill them all?

But looking at their state, it should be waiting until dawn will not go.

But soon, the waves will not be entangled, and the sky will not go, let them wait another day!

Anyway, he had already taken time off before he came, and he didn’t have to go to school tomorrow. The headlights don’t need to be on at any time, and the battery can last for a long time.

Just a few oxygen bottles can’t be supported for so long, they are prepared for two hours. Even if there is a lot of budget, the sum of the five people will be more than ten hours. Just when searching below, Shen Lang is also carrying an oxygen bottle.

However, this problem is not big. He is not in the end, just under the entrance, there is not much problem. In addition to being opened, it is impossible to seal until the air does not flow, or the quality is not too good.

Therefore, he is ready to practice here!

Before the cultivation, Shen Lang is now free, ready to take stock of the specific harvest at the Tomb of the King of the Tonight.

The first is his harvest. Li Hang and Ye Shiguang both got from the fourth layer. From the first layer, there is nothing in the first and second layers. The third layer is missing. The key point is that the fourth layer is not Developed.

These harvests are all put together, there is a whole lot!

If there is no plan to disrupt him, these sects will develop normally. Today, the five sects will definitely take more things. Even so, at least they can let them develop two geniuses, almost one hundred and twenty years later. exhausted.

As long as they have not made other disasters, each martial family has no problem for another two hundred years!

Shen Lang counted a bit, with a rough data. Among them, there are one hundred and seventy-two light spirit stones! This is also the most important piece. After all, this is something that will not deteriorate for a long time.

There are also different medicinal herbs, totaling about forty bottles. These are not deteriorated because the seals are stored. It just won't become a year longer with hundreds of years.

There are also some medicinal herbs that have not been refining, but they have been spoiled for hundreds of years and have no value.

There are also gold and silver jade articles and antique calligraphy and paintings. These hundreds of years have come up with a lot of appreciation space, but it is only the value of secular money, not a comprehension resource.

There are also a few weapons, but Shen Lang is not eye-catching.

But there is no secret of the technique. I don't know if it was taken before. For example, Ye's yin palm does not know if he learned from here.

To sum up, in addition to some things that can replace the worldly money, each family can get an average of ten stone, two or three bottles of medicinal herbs.

This is the resource that allows them to stand up. The medicine can directly cultivate talents and can be copied. Not to mention Lingshi, it can be used in many aspects, can not be used up, but can be passed down from generation to generation.

It is precisely because of the accumulation of this generation, so the last secret of the exchange of the palm of the hand, Ye Jia can get five Lingshi, Ye Shiguang who has not yet returned to Yuanjing also has a Lingshi, and Yuejia can also Take out three spiritual stones.

In the eyes of Shen Lang, those gold and silver jade articles and a few weapons are nothing, the medicinal materials are spoiled and thrown directly. The rest are three, medicinal herbs, Lingshi, and antiques!

Yes, there are antiques.

The last incense burner, the aura contained in it, let him directly give the antique incense burner itself to the Yue family. The aura value of these antiques is his concern When Zheng Man chose Phoenix Valley, of course, he did not just find a barren mountain ridge, but this place has excellent feng shui and can store a lot of weather aura. !

After his transformation and the construction of this large underground palace (the tomb of the king of the king), the Feng Shui pattern of the Phoenix Valley has undergone tremendous changes. The aura of heaven and earth gathered here is no longer in the valley, but in the underground palace!

In this way, on the one hand, the feng shui of the Phoenix Valley is used to bless the cemetery of the ruins of the king. On the other hand, the phoenix valley is also bland, and neither the comprehension nor the feng shui passer will be attracted here.

In such an environment, everything is better preserved, and the medicinal materials are also because of the long time separation. And these antique calligraphy and painting, in the long years of aura, the glimmer of absorption contains a little aura.

The aura they contain is not too much, but all together, it is also a big gain.

At this moment, Shen Lang is running the “Yin and Yang Bo Ruozhen”, and absorbs the aura they contain. These are the auras that are cumulatively absorbed, and they absorb very quickly, directly giving him the feeling of “satisfying a meal”.
