

First Strong 1061

Chapter 1061 - Arouse public anger

Although her mind is like this, the imperial fairy will not think so!

In the battle, there was not much time to try to figure out the strange enemy. When I saw a chain flying over, he immediately attacked the past.

Falling a canoe is to save people. It can only be fast, but the strength can't be too big. If it is heavy, it will pull people into two ends.

As a result, who was attacked by the attacker, it was actually pulling the past directly, trying to win her chain!

The combat experience of the canoe is also limited. Now the scene of the hundreds of people's melee is very exciting. When her weapon is caught, she is also an instinctive hand.

An icy air quickly swept through the nebula chain. This is not an ordinary weapon, but a magic weapon produced by the tough front. Immediately, as usual, the ice, strength, and speed have completely changed.

She advanced to the late stage of the transformation of the gods, but also the first shot, and that opponent is to be in the middle of the lower level of the realm.

Ever since, the nebula chain that he caught at one end immediately became a lifeline. When he was expecting to take the chain, the whole person was caught up and immediately frozen and petrified!

These changes are almost always done in an instant. Shen Lang, a few of them, looked at the past.

With their half-sexuality, want to stop, it could have been done.

However, there are a few that I did not expect. The first one is Wei Qingcheng and Huoshan elders. It can be seen that the canoe is a rescue, but it does not mean hurting people, but I did not expect that people will go to the chain.

It is said that they also recognized the canoe, and also found that the canoe was much more advanced than the original.

The second thing I didn't expect was the power of the nebula chain!

I thought that even if it was snatching, now the strength of the canoe is stronger, and the chain is taken back by force. In this way, the sawing of the other ones has also saved the followers of Shen Lang, and it will not directly enmity with Shen Lang.

It is Shen Lang himself, but also underestimates the power of the Nebula chain that the current canoe is showing.

Therefore, when they see the consequences, it is too late to rescue them. The disciples of the immortality in the middle of the realm of the gods are frozen and petrified.

"I... I don't want to..." The canoe was tense, and quickly released the chain and took it back.

However, the aggressive magic weapon produced by Tang Cheng Tingfeng, behind the "providing technical support", it is the famous Qiu Lin Jianzong, the power is not the same. Even if she has already withdrawn, that person has not killed.

If it is an opponent with her strength, of course, it will not be the end. Even if you are embarrassed, you should be able to return a life.

Now the tension of the canoe, in addition to killing people, also understand that this is directly involved in the sinking of the waves!

Originally, it was just a matter of saving people. In the end, it is not the earth, but also the blood and sea enmity. It is not a matter of swaying. But now she has directly killed a very important doorman of Yuxianmen, and Liang Zi has been settled.

“Nothing, he asked for it.” Shen Lang comforted.

Immediately, his gaze looked at the Pope, and he was quite dissatisfied.

Just the Pope’s sentence, deliberately alarmed a few of them, that little trick, that little thought, how can you get through the waves?

The Pope, who successfully brought in the Shenlang, did not feel proud, but looked a bit harsh. For the eyes that Shen Lang looked at, he did not evade, but faced it seriously.

The time when I just spoke, there have been some changes in the scene, and one side of the number has turned into a state of evenly matched. And because the opponent’s masters are more, when the siege, it is easy to be broken one by one as they have just been.

Similarly, the disciples of Yuxianmen in the city have already come closer. After joining in, they will not kill a few, at least they can hold nearly a hundred. Those masters in the middle and late stages of these realms will have more room to play.

This is tantamount to asking for help from Shen Lang with his eyes. He hopes that Shen Lang will see that everyone is a part of the Earth and help.

“Yes! He is looking for himself. You attacked. He should be strange and stand still!” Huoshan snorted. “Jing Confucian style is also self-seeking. Seeing that you should confess your mistakes and dare to take revenge for you, you should end up like this!”

Obviously, at this moment, Huoshan has already understood the situation inside the spacecraft.

In the past half an hour, dozens of disciples of the Emperor Xianmen were tortured by torture. And Huoshan’s disciple, Jing Rufeng, was even more exhausted.

It’s just that the one who has just been killed by the canoe, but also the apprentice of Huoshan...

At this moment, he is already angry, and directly regards the comfort of Shen Lang as a slap in the face of being cheap and selling.

“Mr. Shen... I really don't want to be against you.”

Wei Qingcheng sighed, his unwillingness, naturally not because of the original friendship, nor because of the practice taught by Shen Lang. But Shen Lang now has the strength to fight against the court, and Shen Lang has two powerful friends!

The situation is different now. The people in the spacecraft can be said to have been done by others. Everyone has not seen it.

But just now, that is what he saw with his own eyes It is also something that other people can notice. It is the woman of Shenlang who killed the doorman of Yuxianmen. If he still does not declare war, why should he serve the public?

For the strong in the middle and late stages of the realm of the gods, it is the most basic ability to see the six directions. Especially now is a wide-ranging melee, they must pay attention to the surrounding situation, so that they will not be attacked by people, and if they have the opportunity, they can also attack others.

The result is that dozens of people have noticed that scene, one of their own brothers and brothers has been frozen and petrified!

In the case that Wei Qingcheng and Huoshan elders have not yet expressed their direct attitude, the people of Yuxianmen began to worry.

“This group of lower humans, killing us!”

“Remove them to revenge!”

“killing!”

Originally, I was a high-profile person who looked down on the earth's monks and dared to kill them!

Shen Lang, in turn, analogizes that Jingrufeng will not feel empathy, but now that his own people have been killed, they immediately feel the same.

A large number of disciples who have already arrived in the vicinity of the early days of the realm of the gods, they will burst!

Originally, it was possible to maintain a close match, and as a result, their masters ran away, and a large number of new forces joined in, and the number was also flattened.

The earth side immediately began to lean toward the disadvantage.

One, two, three, a few of them, have been helped by the injured, simple treatment. The recent World War I also gave them self-knowledge, wanted revenge, and did not have much ability to continue fighting, but may have more situations.

And just because of them, they have already involved the sinking waves that they don't want to blend in!

So they immediately put down their hatred, but they did not take it again, but they withdrew the back of Shen Lang.

Chapter 1062 - Pull left and right

The Pope's face was a bit ugly.

Because of his little guidance, the people of Shen Lang were involved, but they did not directly fight against Shen Lang, but it was to make Yu Xianmen's madness to others...

The grief and indignation of one's own loss caused morale to rise, and Wei Qingcheng and Huoshan elders were also affected in turn.

"The defender, I don't want to be an enemy with you. You just saw the situation just now. It is indeed what he asked for. As for the elders of Huoshan, he said... Hey! Jingrufeng is really looking for himself, if not Give you two faces, he is a dead body...not directly ash!"

The words in front of Shen Lang are still relatively moderate. It is also comfortable to hear Wei Qingcheng. But later, it is a bit ugly.

I just didn't say that, but Jingrufeng... Even if it's really looking for it, it's not to say that it's giving them face, or else it's going to be frustrated.

Is this for face? Is this clearly a threat warning?

"The disciples of Yuxianmen made mistakes, and we will naturally educate them.

He is now angry at Shen Lang.

Playing the dog depends on the owner!

The last time Shen Lang's shot on Jing Rufeng was because of everyone's occasion, it's not clear that Jing Rufeng is his disciple, and because Shen Lang has the value of using it.

But now I know that Jingrufeng is his disciple, but to face is to take all the mental power out!

This is simply to hit his face intentionally!

Originally, the disciple climbed up from the place where he fell, and he made a quicker breakthrough. He is still very pleased and is very optimistic about the future of Jingrufeng.

Now let his old face go where?

But in the end, they are a bit true, and some are acting, only they know.

Because when the Huoshan elders were in the opposite direction, Wei Qingcheng tried to reconcile.

"Mr. Shen, looking at the past sentiment, just the thing, I can not care. As long as you are on the side, it is best to leave first. It is to eat tea and drink in the city. How?"

Wei Qingcheng opened this condition and let the Pope frown.

He just braved to make the swell of the waves, that is, to join the swells, if you leave, then nearly three hundred monks on the earth, it is likely to fall short!

Everyone just came over the first day, and they will run away like this. If you can escape, what is your face back to Earth! However, at this time, Shen Lang heard the words of Wei Qingcheng, but did not feel that it was a summation, but a harsh taste.

Let them leave, just can not care about things, on the other hand, if they do not go, then Wei Qingcheng will be settled?

Still afraid that they will not succeed?

Shen Lang is also going to face. You are also speaking in public. If you agree, don't you feel guilty?

However, after all, Shen Lang is still a rational person. In such a place, the decision will not be affected by what does not matter.

Anyone who can influence his decision is either directly provoked by him or benefited!

"Yes, I am watching the fun. But now I am a little bit too close to me, I will make it clear, how are you going to do?"

"What?" Wei Qingcheng is a bit puzzled.

"I am leaving to stay, it is to see your attitude towards me." Shen Lang added a sentence.

Wei Qingcheng is still pondering what this means, and the Pope has understood it very well. Shen Lang is talking about conditions!

Before that, he regretted not binding Shen Lang deeply. At that time, he felt that Shen Lang exaggerated the strength of Yu Xianmen, and felt that there was one more powerful person, and that he would be divided into the boss.

Like now, he is the strongest one, and must be the one that can divide the fattest first.

It's not too early to talk about the separation of Yuxianmen. If you don't take it over, don't say it, don't be divided by others, you have to look at luck!

Just thinking about the inconvenient and open conditions, I just took the people of Shenlang into the water. Since Shenlang directly opened it, it would be easier.

"Master Shen! This way! As long as you join us and take down Yuxianmen, all the good things, you pick one! I made this decision for everyone!"

When the Pope said this, Wei Qingcheng also wanted to understand, the original Shen Lang is the meaning!

However, for Shen Lang, after listening to it, he was a little uncomfortable.

We have not treated you badly, nor have you directly hatred with you. Instead, you have just killed and wounded us. As long as you leave, you will never be jealous. This is already responsible.

Actually still not satisfied, but also want to benefit?

The Pope's words made him understand. It turned out that Shen Lang did not work with these people, but now it is forced to help him get involved.

However, I want to understand that I understand that he does not have the time to feel the truth of Shen Lang, but he feels uncomfortable first.

"What do you think? Actually, I thought about attacking our Yuxianmen branch. Even if you join hands, why are we afraid?" Huoshan elders have already angered.

This time, the Elder Huoshan did not endure any more, and did not wait for the decision of Shen Lang. The Pope Wang directly approached the past!

Shen Lang was directly driving the ship's magic weapon flew directly from Yuxianmen.

This change, let the hesitant to hesitate to attack his Wei Qingcheng.

Actually... just ran away?

I thought that I would join hands with the other party. I didn't expect it to be so embarrassing.

However, Wei Qingcheng felt that it was reasonable. After all, the strength of Shen Lang was very clear. He even broke through a level here.

Now even if the strength is big, the comprehensive is definitely not as good as his, and it will be wise to choose to leave. I just asked for the benefit, or I felt that this person (the Pope) did not give it enough, or just said a scene.

Since Shen Lang left, Wei Qingcheng was satisfied. Compared to the survival of the entire Yuxianmen, it is not a loss to lose a flying magic weapon.

Besides, as long as these foreign invaders are arrested, what are they counting when they are nine people? Unless they ran wildly from now on, they could still get back and take back the magic weapon.

"The person you are counting on has been scared to escape! Now it is your turn to be awkward!"

The words of Wei Qingcheng were directly spread and allowed to be heard by hundreds of people at the scene.

The speed of the spacecraft leaving is fast. When starting the acceleration, it still takes a little time. Plus the volume relationship, the movement is still very big.

Everyone saw that Shen Lang really did not interfere, and with his woman and servant, he ran away!

Western big brothers, they all despise Shen Lang too. The Easterners also felt that he was not loyal.

The Pope is undoubtedly a surge in pressure and has become the most stressful on the scene.

Chapter 1063 - Shen Lang killed back

If there is time, Pope Constantine V, can't wait to smash a wave!

Can't disassemble this way, let's go early. If you want to watch the excitement, you will continue to watch the excitement on the side, and you can borrow a little more.

What is the current escape?

But now he can only pass by, and there is no time to be annoyed by the anger of Shen Lang, because a Huoshan elder is no less than his semi-immortal, and now with a Wei Qingcheng, he is not tempered directly. .

They are all squares. They don't need to shoot to know the details of the other side.

At this time, the Pope could not help but hope that Wei Qingcheng would assist the people to get the nearly three hundred earth monks, so that although everyone would lose faster and lose more, he only had to face the Huoshan elders.

In that case, he can take the opportunity to leave, and can bring Paul to go with him, and everyone else will be fine.

And as long as they catch up with the surging waves, without these cumbersome, they will join hands and will certainly be able to harvest huge benefits in this paradise-like world. When I go back with Shen Lang, the three strongest masters of the earth are gone. The Holy See does not say that the world is dominated, at least it can rise!

But Wei Qingcheng is not stupid!

Now Yuxianmen has always prevailed, and he does not need him to accelerate. It is a good opportunity to train. What he has to do now is to work with the elders of Huoshan to kill this threatening goal.

Shen Lang drove the spacecraft to another hill and then stopped to overlook the situation of Yuxianmen.

“You are optimistic, the key is that they will play against each other! They will all show their own fields, and realize the power of the field, which will have a great effect on your combat effectiveness and future improvement.”

Shen Lang’s quick opening pointed out a sentence, so that they did not have to watch other people’s melee, focusing on the battle of three and a half.

Although in terms of difficulty, it will be very difficult to see them three, and even many of them will not understand. But that will have more gains, and the key is that such a battle opportunity is rare. After this village, there is no such store.

A few of them fell into a light boat and they immediately became serious.

In fact, when you reach the realm of the gods, you can begin to understand the power of the field, such as the original owner. But it doesn’t mean everyone will, and it doesn’t mean that the field power is the same.

Just like the current Shen Lang, the display of the field, the power is not as strong as the time of the gods.

Whether it is the fall of the canoe, or the rain, there is no master of the gods, and they naturally do not understand these, let alone study and study. Not to mention Dorothy.

So now the reminder of Shen Lang is to let them start to figure out this aspect.

As for the two, two, three, a few of them, can you move, can you comprehend, it is to see them personally, and Shen Lang will not pay more for them.

Just now he will drive away from the spacecraft below, of course, not a smashing, smashing escape. He is worried about the field of Huo Shan and the Pope!

Once their field is deployed, they must control the surroundings, including the spacecraft and several of them.

Of course, Shen Lang is not afraid of himself. He will not be controlled and can be broken, but it will be different with other people. So his departure is to send a few of them to a safe place. The other earth monks below can't manage that much.

After arriving now, in addition to licking other people, he immediately began to kill again!

The attitudes of Huoshan and Weiqingcheng have already become more obvious. Although they have not directly torn their faces, they are not likely to be friendly.

Therefore, Shen Lang directly chose the conditions of the Pope!

If you have all the resources of Yuxianmen at the time, he can pick one first, which is quite attractive.

I didn't want to get involved in it. Now I can't get rid of it, so try to get a little more profit.

The people of the three and a half fairy realms are naturally extraordinary, and the speed is far better than ordinary people. In an instant, three areas appeared on the top of Yuxianmen, and they overlap each other.

Including them, this is a time to wait. Many people around, immediately found out that something was wrong, some had to dodge to a farther place, and some were too late to be directly involved in the field.

When Shen Lang came back, the main gate of Yuxianmen, Qingcheng, and the great elder Huoshan, had been stacked in two fields, and directly surrounded the Pope of Constantine V.

Although it is invisible, the Pope himself has a very deep experience!

Even if he has a strong cultivation, but the other two are the same door, the exercises are from the same origin, the daily practice is familiar with each other, so they merge together and become a common one against him. increase.

The Pope also thought about flashing into the scuffles and grabbing the disciples of Yuxianmen to threaten.

But I have already killed one, and one less is not a thing. It is such a threat, it may not have any effect, but it can make the other party with the enemy.

He can only support it now, relying on the field and strong mental support, but still have to look for opportunities to leave.

At this time, the Shenlang, which had already gone far, once again fell from the sky!

In their realm, Shen Lang has not yet approached, and already feels it, everyone's reaction is also different.

After Shen Lang took the spacecraft away, he returned again, and that was just not to escape.

Wei Qingcheng and Huoshan did not promise anything. The conditions for the opening were the Pope. Now that Shen Lang has returned, it is natural that it is directed at the Pope's promise.

“Good! I will never quit!”

The Pope was excited and deliberately emphasized it quickly. Let the two superpowers of Yuxianmen understand that Shenlang is helping him.

Under the spirit of the spirit, he did not think about running away. If there were two of them, they would not even say that they had turned over, and at least they could be leveled. The final result is likely to be Yuxianmen talking with them.

In this way, although you can't get all the things of Yuxianmen, you can get a chance to stand on the ground and there should be other compensation.

Wei Qingcheng and Huoshan elders were obviously affected, and their fields have also changed. They were supposed to be superimposed together, to crush the field of the Pope, and at this moment they were separated.

Obviously, they are all ready to split the two sides and can't let Shen Lang sneak up on them.

“Mr. Shen! If you stop now, the conditions can be talked about!” Wei Qingcheng quickly spoke.

Compared with the current hundreds, Shen Lang is a “transaction” once, the last transaction is satisfactory, Wei Qingcheng still hopes to continue trading with Shen Lang.

Chapter 1064 - Second break!

It has already been fought, and this time it was time for Shen Lang to sit on the ground.

However, Shen Lang did not do this, but decided to cooperate with the Pope!

In the end, it is also a matter of interest. The earth's monks represented by the Pope are coming together. Even if there are plans and calculations, at least they still need to rely on Shen Lang to bring them back.

So in the end, the question is how much the benefits are divided. As the strongest two, even if the Pope does not suffer, he can completely give some contribution from others to Shen Lang.

The imperial gate is different. The earth monks are aggressors, or the invaders of the low-end world they look down on!

Once the Pope and hundreds of monks on the earth have been turned over, Wei Qingcheng and Huoshan may have let go of the waves?

It's not going to be thundered!

Conscience, credibility or something, will they have a conscience for them as a beast?

At this point, Shen Lang wants to stand by and the other side will not let them go. Unless they are now, they will leave Yuxianmen and go to Tangcheng and other places.

However, since there is an opportunity to turn over Yuxianmen, Shen Lang does not mind trying it out.

“The Pope! You support it first, I will clean up their jealousy so that more people can help you!”

Shen Lang seems to be descending from the air to their battlefield, but it is directly transmitted to the Pope. At the same time, under the state of Weiqingcheng preparing for negotiations and attacks, a rapid turn was made.

what’s the situation? Is Shen Lang going to help them?

Wei Qingcheng’s heart is a happy one. If this is the case, then of course it will be much easier.

Although it is a bit weird, but the time-conscious person is Junjie, obviously they are in the upper hand, and Shen Lang will want to help him to annihilate these fellow practitioners, and it is not impossible.

Pope Constantine V, this time is very depressed, can not wait to stink a few words.

This is to give him a pit!

Even he didn’t want to drag Shen Lang into it and ran himself. Shen Lang actually let him continue to resist two super strong people, and ran to the weak!

However, he was depressed and depressed. He didn’t even have time to sneak in. He had to keep his full attack, or he would have been turned over at any time.

Shen Lang has been rushing to do a relaxing life, he has to hold on, once he can’t hold it, not to mention the whole picture, first of all he is in trouble.

Fortunately, just after the transfer of Qingcheng, he gave him a little more opportunity. Under the momentum, the power of the field immediately suppressed Huoshan's elders.

The swells of the waves fall into the edge of a strong man of Yuxianmen. It is a master of predecessors and predecessors, and the strength is equivalent to the peak of the gods.

Such a strong, Yuxianmen is also one of the few. But in today's melee, there is absolute dominance, and in the earth's monks, there must be more than enough to hold him.

Although the earth has come to nearly three hundred people, but the end of the realm of the gods, the peaks are less than the Yuxianmen, can only rely on the number of piles, the multiple stages of the middle of the gods.

Yuxianmen's lack of practical experience has been raided and prepared insufficiently. Otherwise, even if the Earth's monks prepare weapons and weapons, they will not last long.

Now the emergence of Shen Lang, in the simplest and most rude way, directly grasped the head of the peak of the realm of the gods, and before he had time to react, he quickly took his mental power completely!

Seeing the emergence of Shen Lang, the earth monks could not help but call.

Originally, they also regarded Shenlang as a passer-by, but before on the spacecraft, through the contrast of Jingrufeng, they realized that the Shenlang was so powerful, and then recalled that he had previously hunted the troll's grace, and naturally had great expectations.

Just this hand, the enemy that they have been struggling to support has been dried up in an instant, and it is even more admirable.

“Stop! Your opponent is me!”

Wei Qingcheng screamed!

He also hoped that Shen Lang would help them. He did not expect to directly work as a general. Looking at this situation, it seems that he is prepared to attack other people with a weak and weaker dimension.

This is because he is not angry, he is shameless!

He and Huoshan are two people who are far better than those in the low-level world, but are they weaker? They are also looking for opponents of comparable strength.

“Lord, you don’t get the old man, the Elder Huoshan may be in danger, and you will have no chance at all!”

Wei Qingcheng wants to chase Shen Lang, but the speed of Shen Lang is very fast, and it keeps flashing, and he also gives a message to him.

Wei Qingcheng paid attention to it and found that without his help, Elder Huoshan was indeed in a disadvantage.

Originally everyone’s strength should be similar, it should be just the impact, let Huoshan elders mentality out of balance, and the other side seized the opportunity.

He also understands this truth. If he and the elders of Huoshan are together to get the old man together, then everything is not a problem. Shen Lang can only escape and can’t cope with them.

Conversely, if there is any mistake in the elders of Huoshan, then if he keeps the other doormen, he will not escape the waves and join the team. The final situation is that they are defeated!

As a last resort, Wei Qingcheng can only put down the waves and go back to attack the Pope.

The Pope, who just took the upper hand, immediately complained that he could only hope that the speed of the wave would be faster.

The speed of Shen Lang is actually far faster than they think!

The peak of the sacred world has always been a super-powerful existence, but there is no room for rebellion under his full force.

Under the multiple flashes, the power of Yuxianmen is equivalent to those who are in the late stage of the gods and the peaks of the peaks. All of them are drained by his spirit!

This is the super rich experience of Shen Lang!

If it is purely hard, even if he has the absolute leading strength, but the lower level, how much can still support a little time.

But now, I don't give the opportunity to the other side at all, and directly exerted his strong spiritual strength.

Absorbed a lot of the power of faith, the singular waves of the extraterrestrial demon mental power is actually far more than half of the realm, so you can break them quickly.

But others don't know!

They have personally experienced the horror of these powerful people. If the pope does not shoot, they can't resist at all. It's Paul's level, and they can only fight against the late stage of the gods. Reluctantly support it.

Needless to say, in the early and middle stages of other geniuses, you can fully understand it.

Therefore, the rapid and second break of Shen Lang's gods caused their direct pressure to disintegrate rapidly. The early days of the transformation of the gods were also relieved. Everyone felt that Shen Lang was too strong. The power of faith spreads instantly!

On the contrary, it seems that the Pope and the other side have no effect, because they have not reached the realm, do not know the pressure and danger, Wei Qingcheng and Huoshan, did not directly threaten their heads.

If the Pope knows everyone's minds, of course, he will secretly vomit blood... Two strong enemies let him alone, and the name of brave help to make Shen Lang get.

Chapter 1065 - 0 hostages

After Shen Lang quickly solved the strongman of the middle and high level of Yuxianmen, his body movement did not need to be shot, and he had already let a large number of Yuxianmen in the early and mid-level of the realm of the gods scare to avoid it!

Their masters, teachers and uncles, have been easily killed, and it is not easy to kill them.

The new force who had already joined in, was also the power of Shen Lang, and was so scared that he was indifferent.

Before and after, but for a while, the earth's heroes have become imposing, and excitedly followed the battle of the waves, and the situation was reversed by the downwind. However, the overall situation is that the earth's monks have the upper hand, but under the attack of Wei Qingcheng and Huoshan, the Pope has already fallen behind and is struggling.

At this time, Shen Lang made another decision that everyone did not think of!

In the early and middle stages of these transformations, they can be reserved for the earth's monks who have a number of advantages. He should help the Pope against Weiqingcheng and Huoshan. This is the key point in winning this battle.

However, Shen Lang did not do this, but quickly collected the imperial masters who had just been drained and lost their spirits, and imprisoned them, and took a group of people to fly over to the spacecraft!

This scene is of course very spectacular, and everyone is a bit puzzled. What is this?

The Pope's darkness is a pit and there is no more words.

Wei Qingcheng and Huoshan are also very strange. I don't know what Shenlang is doing.

But soon, everyone will understand!

The Shenlang people have not arrived yet, and they have already sent them to the people who have lost the boat, and they took out all the hostages in the spaceship first.

Coupled with such a large master hostage that Shen Lang had just captured, they were placed on a hillside outside Yuxianmen.

“Stop! There are nearly a hundred of your doormen here. If you want them to be safe, just hurry and stop.”

This voice quickly spread throughout the Yuxianmen, so that everyone heard it, and everyone’s eyes looked over.

Seeing this scene, those weaker earth monks are secretly relieved. Just Shen Lang solved those strong people, they have less sense of danger, but they still have to fight fiercely with the same level of opponents, and everyone is injured in the process.

Now if Shen Lang can pass the hostages of nearly one hundred and force the imperial concubine to come to the van, then they will not need to kill and kill.

When the Pope heard this, his heart was quite unwilling. His purpose was to kill the Yuxianmen, but it was not a truce.

But now he is the most stressful one on the spot. If the enemy is desperate, he may hang up first. I also have to support this decision of Shen Lang.

Shen Lang will make this decision, and of course he has made a trade-off.

Although he can quickly sweep all the masters under the semi-sacred, but only under the semi-sacred, replaced by Wei Qingcheng and Huoshan elders, even if he has the grasp of winning, it will inevitably take some effort.

There are two Wei Qingcheng and Huoshan, which can completely copy the route he just took. As long as one person restrains him and the Pope, he can immediately kill other people.

If the disciples of Yuxianmen are killed a lot, they will certainly kill and continue. The two and a half of the violent, relying on him and the Pope alone, can never be stopped.

It is only the Western big men who want to kill. Shen Lang will not care, but it is obvious that among the three hundred people in the earth, his women are the most easily recognizable.

For security reasons, he decided to use the mass discussion.

Anyway, he and Yuxianmen are not considered to be hateful, and it is not necessary to destroy Yuxianmen. Originally, I also did a good job of watching the lively mentality, and I was able to get benefits. It is not a problem to bother.

Wei Qingcheng and Huoshan elders are also a quick analysis.

Now that the board has been put out, the comprehensive strength is definitely stronger here, and there are advantages such as geographical advantage. However, because of the first wave of Shen Lang, a large number of hostages have been captured. One hundred are a bit exaggerated, but the number is also quite large.

So now, it is the earth monks who have the upper hand.

If they really want to continue, they can only level with the Pope and Shen Lang. There are still nine shots in Shenlang, and after joining, it will inevitably clean up the other gates of Yuxianmen.

In such a situation, the threat of hostage life is put aside, and in order for Yuxianmen to fail, they can only summon.

“Everyone stops! You, let people go!”

Wei Qingcheng flew into the air, shouted and made a unified arrangement.

Without his siege, Huoshan and the Pope can be peacefully separated. On the earth's monks, a few have reached the late stage of the realm of the gods. At this moment, they feel that they are a little regretful.

In the early and middle stages of the transformation of the gods, they are still supporting, and they are willing to stop.

The face of Huoshan's elders is a bit gloomy. In those hostages, there are several disciples who are not careful about Jingrufeng.

He is strong and his age is high. Those who are equivalent to the late stage of the gods and the peaks are his apprentices. Just let him be very angry, but now all in the hands of Shen Lang, if you want to kill, he really can't stop it.

Whether it is from his own point of view or from the perspective of Yuxianmen, it is not easy to cultivate a level above the late stage of the transformation of the gods, but it also takes a lot of resources.

If Jingrufeng was killed, it was a major loss to the martial art, and he himself did not have the heart to re-cultivate.

Not to mention Wei Qingcheng, he must consider the problem from the entire sect.

"Guardian, you are too simple to say. These are my prisoners of war, I don't kill prisoners of war is out of humanitarianism. Rest assured, although you don't treat us as human beings, but we I will still see you as a person."

Shen Lang is on the hillside, and the airspace continues to say: "But to put the prisoners of war, according to the rules of what, should we have to cut the ground to compensate for anything? You see what willing to pay, and exchange them back?"

Wei Qingcheng's face has become more ugly.

He is the gatekeeper of Yuxianmen, the most authoritative person of this generation. Now, in front of all the doormen, he is forced to ask how to redeem those hostages, which is undoubtedly a very shameful thing.

And if the offer is not satisfactory, and the public bargaining, it will make Yuxianmen lose face.

However, he had to face up to it, or else everyone was watching. There were less than one hundred people and dozens of people who contributed to the division. If the teacher does not care, why not let everyone be chilling?

“Mr. Shen, we have had too many contacts before. You know that I am a credible person. What do you want, everything is easy to say, can you let me go first, let’s talk about it separately?”

Chapter 1066 - How much do you want?

Shen Lang said faintly: “Do not talk about the credibility of this kind of thing? For all of our partners, they have a humiliating experience in Yuxianmen. Although the bad things may be done by the following people, you do not know. But I don’t think they will trust you. It’s best to pay the money in one hand.”

“Yes!”

Someone took the lead and shouted, and many people shouted together.

At this time, everyone has been clearly divided. The owner of Yuxianmen, in the base of the Imperial Palace, which destroyed the wreckage of the wall, the earth monk is close to the hillside of Shenlang.

After a large number of hostages in the hands of Shen Lang, from the absolute number, the earth monks prevailed; in terms of relative strength, the earth monks also prevailed.

Let these aborigines be very angry!

If it is a powerful sect in other parts of the Han Dynasty, this situation will happen, but now it is some low-end world that they look down on, and they are forced to submit.

“If it is not for our doormen, it will be ***** in the end!” Huoshan said coldly.

This slogan makes Yuxianmen follow up and they all want to continue fighting.

Shen Lang is laughing and laughing: “You have just said that our Pope has just said it. We are all tortured by you as a farmer. I want to fight blood.”

Although the Pope has always kept a low profile, the shot has already made everyone aware of his existence, including the oriental monks who are not so familiar with the Holy See.

But now, the situation is very natural. Everyone is respected by Shen Lang. It was only a sinking wave of passers-by and became the spiritual leader of everyone.

The Pope, who should have acted as a spiritual leader, seemed to be a top-ranked thug... it made him very depressed.

Now he is also among the group of nearly 300 people. Everyone is also centered on him, but the deep waves on the back hillside are undoubtedly the focus.

“I, alone, come over and talk to you. Face to face and talk alone!”

Wei Qingcheng has no choice but to make further concessions.

It is conceivable that this group of people has come so much, and it is prepared, and the appetite is certainly not small. There are so many people who have been arrested, including a group of masters.

Wei Qingcheng has already prepared for the big bloodletting. Of course, it is best to talk alone, at least on the surface, to maintain a little face and dignity.

After that, he pointed to the magic weapon of the spaceship that fell behind the mountain, and went there to discuss it in detail.

This requirement, in fact, both sides understand, and the earth monks can accept it. Even with such a double interview, it is very likely that Shen Lang will benefit from the next part of the game, but after all, today is the biggest credit for Shen Lang, and it proves that it is the strongest one.

The first batch of people who have come, the ambitions have been ruined, and the idea is to get the benefits as much as possible. This time, only after a simple melee, I fully understood the cruelty of reality.

Here, they are passers-by, not the one on the earth before.

“I can accept it, but... do you agree to let me negotiate on your behalf?”

“Agree!” Everyone has psychological preparations. Under the leadership of the Eastern Qiao Yuxian and others, everyone agrees with them.

Only Pope and Paul, as well as some people who have a good relationship with them, are a bit mixed.

However, the current situation of Shen Lang has already become a success. Even if Paul comes out to raise the banner for the Pope, he may not be able to get half of the support, but it is not generous enough.

“Okay! Then I will do my best. I have to trouble everyone here. Pope, you will be the most important part, the opposite Elder Huoshan, but will stare.”

The words of Shen Lang, naturally commanded, although the tone of politeness, but the Pope is not a thug, but also became a deputy role.

But what about him? Competing for the right to negotiate with Shen Lang will only allow others to share their guilt!

Think of Shen Lang, this person has never suffered a loss. At the beginning, one person can live in Yuxianmen. Nowadays, it is not the same as before, the strength is superb and the prevailing advantage, it is entirely possible to talk about more benefits.

In order to show that he would not attack, Wei Qingcheng intentionally stalked them from the side, bypassed the hillside, and first arrived at the spaceship magic weapon.

Shen Lang also passed immediately.

After two people entered the cabin, Wei Qingcheng immediately steered the spacecraft.

“Now no one will hear us talking outside, what are your requirements, you can come up.”

Shen Lang smiled and said: “You made a mistake. Just now I asked you what price you would like to exchange for. Don’t say that I am blackmailing you.”

“...” Wei Qingcheng’s face was black.

Is this not called blackmail? Is it called extortion?

However, he put down his stance in order to solve the problem, of course, he also seeks common ground while reserving differences, not thinking about such awkward words.

“Your world should be very low-level and very poor. It is nothing more than gold mining.”

As soon as Wei Qingcheng raised his hand, there was a fine stone in his hand.

“I use Lingshi to exchange. This sample-level Lingshi, one hundred!”

“Lingshi is also very good. After all, if we want to distribute it, it will be more convenient. But are you sure that one person will give one hundred?”

Wei Qingcheng’s face has become darker: “It’s one hundred for everyone!”

The resources here are much better, and a hundred high-spirited stones are really not a big loss. However, the concept of ransom is very humiliating. One is humiliation, the more you give, the more humiliating you are.

Shen Lang looked at them with surprise: “These people are in your heart, is a person worth a spiritual stone?”

“How much do you want!” Wei Qingcheng said with no anger, he is asking for a price, waiting for the price of Shen Lang to repay, can you still open a lot?

“You are right, our resources are poor, but we are more human. If we change back to the door, it is impossible to give a Lingshi price.”

Shen Lang did not brag before he went to save everyone, the price is also a five Lingshi. Although I am willing to give it, I will not give it back.

“How much do you want?”

“If that’s the case, we don’t mind bringing them all back. It’s good to be detained like you, and it’s good to go and visit the tickets...”

“How much do you want?” Shen Lang did not directly counter-offer, so Wei Qingcheng was a little bit tolerant. “Three times? Five times? Or do you really want a hundred times?”

One by one, naturally the offer price is low. But you have to counter-offer! To be one hundred and one, it is really crazy, too exaggerated.

“I think talent is the most important thing. For example, my four followers, they are from another world. Everyone is tortured and killed by you. They are left with us and can only be regarded as my followers. No one is terrible...”

I heard that Shen Lang continued to reason, and Wei Qingcheng was so mad that he was a little bit mad: “How much do you want! How much you have to open a price! You don’t say how I know your psychology.” What is the price?”

Chapter 1067 - appetite

Seeing Wei Qingcheng really have emotions, Shen Lang did not tease him again, and he got serious.

“This time they are coming. The one who has just started with you has great power and prestige. Their goal is to destroy the Imperial Gate and replace you!”

Shen Lang suddenly said such a serious statement, so Wei Qingcheng did not respond.

“What do you mean... Are you forced to helpless?”

“It doesn’t matter. I don’t explain anything to you, I am willing to do it, I have to be on them in a boat. After all... I will deal with you with them, and only afterwards how much benefit; if I annihilate them for you, Oh, the next step is that you have killed me.”

“Mr. Shen, you misunderstood. Our cooperation was very happy before, you know that I am not such a person. We can continue...”

Wei Qingcheng felt the goodwill of Shen Lang and quickly explained it. If you can win the Shenlang...the two of them together, killing from behind, and the Huoshan elders leading people in front, must be exhausted!

However, his imagination has just begun, and it has been ruined by a wave of water.

“I tell you, their appetite, they want the whole Yuxianmen! Now take half of you and one third of the people? The bottom is not counted. If you do not give a satisfactory price, If you start the war again, it will be both loses!”

Wei Qingcheng snorted: “You...or they seem to have the upper hand, but it is mainly because of your sneak attack. If you want to face a battle...”

“Your powerful doormen are already my hostages, no.”

“Even if this is the case, we have not yet displayed it. If you want to continue, you are likely to be destroyed! Even if both sides are hurt, is it interesting?”

Shen Lang looked at him like a smile: “Plus me? Plus those of me?”

“...”

Wei Qingcheng was stunned, and Shen Lang is undoubtedly a huge variable. It was just because of his relationship that it reversed the situation.

Plus him, plus those of him, will only make the balance more inclined to them!

“What do you want...”

It has already made him understand when he has gone around. Whether it's a hands-on or a peace talk, Shen Lang is the most crucial part!

“I have a proposal, don't misunderstand my extortion, just a proposal.”

Shen Lang's kind smile is falling in the eyes of Wei Qingcheng, but it seems to be a conspiracy.

“Please say!” He remained vigilant and prepared to try to analyze every word of Shen Lang.

“You give me a sincerity that can touch me. I can help you to deal with the other 300 people. The appetite of one person and three hundred people, you know which one is easier to satisfy. Then, find a place for them to stand on. Take them away.”

“You know, our world is barren. As long as they have good resources, they will not come to fight your ideas. After that, everyone will be safe.”

Wei Qingcheng listened to Shen Lang and said nothing.

All he wants is a simple and straightforward price tag. How many people are spiritual, everyone thinks it is OK, then exchange.

Now Shen Lang said this, more and more complicated.

A person's appetite is theoretically easier to satisfy than three hundred people. But how many other 300 people can achieve the same influence? That is the other pope.

This satisfies you, but also meets him, but also meets the other three hundred people!

However, the complexity is complicated, and when he thinks calmly, he thinks that there are certain reasons for Shen Lang.

After all, these are the desperados who come to risk gold rushing, barefoot is not afraid to wear shoes. If you can't send them well, even if you give the ransom this time, you will have the next time.

Only by letting them have a stable foothold will they not remember Yuxianmen.

"Can you please Mr. Shen clearly, how big is your appetite? Or if you have something you like, I can't guess at the same time, but I also hope that I will not refuse if I can."

Shen Lang could not help but secretly, and in the case of Wei Qingcheng, he did not directly ask for it. It's not that I am embarrassed to speak, nor is it completely teasing him. In fact, I don't know much about Yuxianmen.

There is only one chance. He doesn't want to miss it. Of course, what he wants is something unusual. If it's just a Lingshi, unless the quantity is large, you still can't really appreciate much interest.

After Shen Lang's seriousness, Wei Qingcheng's mood was also quite peaceful. At this time, he also guessed the thoughts of Shen Lang, and tried to speak.

"This flying magic weapon is worth a lot. In addition to being difficult to build, there is also a special design of this door. I will give it to Mr. Shen..."

"This?" Shen Lang pointed to the cabin: "What joke are you doing? Like those people, this is my spoils. You gave me my spoils?"

"..."

Wei Qingcheng almost vomited blood, how can this become your spoils!

"Like this, you give me something unique. I only need one point, I don't need to share it with you. We will trade here first, and then I will discuss it with you."

Shen Lang can only say this, if Wei Qingcheng is still not satisfied, then it will be converted to Lingshi.

Wei Qingcheng reluctantly pressed down just a breath and said slowly: “Our Yuxianmen is remote, resources are relatively poor, or else it will not catch people. In addition to giving a little Lingshi, we have nothing to give you.”

“How can you find someone in the chaotic space? It’s not far from here, but not close.”

Wei Qingcheng directly eyes, this is the big secret of their imperial door, even if the disciples who perform the task, but also know it I do not know why. How could he let him know this outsider and the enemy?

“Okay! You can’t say this. Then I take a step back. You have raised so many other world comprehens before, and you should have collected a lot of spiritual bubbles. I want a hundred copies.”

“Abose! How is it possible?” Wei Qingcheng looked disgusted: “Do you think it’s so easy? Everyone has let us catch it? You talk about your world, how many people have come? We got that, too It’s all used up, it’s easy to raise them. You think there is a lot of it!”

Shen Lang certainly feels that there should be a lot of inventory. After all, they have a lot of people before, and that is not a one-off.

But listening to him saying this, it seems a bit reasonable. Although there is more than one world, it is not easy for any world to break through space barriers. Just like the space crack in the sea of infinity has appeared for hundreds of years, this year is the second wave of Earth’s visit.

“Then why do you have to send me some natural treasures, or at least the weapon magic weapon produced by the tough front?” Shen Lang did not say good. This is not the case, there is no, what are you doing?

Chapter 1068 - Horror background

“Tough front? How do you know the tough front?”

Hearing the complaints of Shen Lang, Wei Qingcheng first stunned and then reacted suddenly and looked at Shen Lang with surprise.

“Yes! The weapon used by the Miss Miss just now is made by the tough front? No wonder! You actually went to Tangcheng...”

However, even if it was a surprise, it was not too shocking. After all, the sinking waves and the canoe were far worse than him, but there were two super masters who were able to go to Tangcheng and it was completely normal.

But soon he had thought of something, could not help but double eyes!

“It’s you!”

“what?”

“The foreign master who was speaking in Tangcheng six months ago is you! It is said that he has also engaged in the storms of the city, and he has offended many of the big sects. There is no such thing as the tyrannical leader of the tough front. It is said that Qiu Lin Jianzong Protecting you...”

Wei Qingcheng said more and more surprised.

Like Jingrufeng, there are some unknown information, he knows.

Only the way of transmitting information here is relatively primitive, and the entire mainland of China is extremely huge, that is, the territory of the Han Dynasty is very huge. Therefore, some information transmission will be slower, and many of them are passed on by people and friends, so it is difficult to cross-validate.

Wei Qingcheng did not remember whether he mentioned the name of Shen Lang, but before he heard the news anyway, he did not contact Shen Lang.

After all, it is very far away from Tangcheng, and they rarely travel, so I listened to gossip at the time and did not pay attention to it.

Just as Shen Lang spoke to the tough front, let him think that the nebula chain that was used to see the canoe was very extraordinary, and then it was linked to the tough front of Tangcheng's weapons store.

Then the more you think about it, the more you will be.

"Fortunately, my two friends have stayed in the Qiulin sword. I have to lose a lot of help from Qiulin Jianzong, or else I can't make it so fast."

Shen Langshun said a word and pushed the miracle of his leap to the sword of Qiulin.

This is reasonable!

The suspects that Wei Qingcheng had been unimaginable before were explained. Qiu Lin Jianzong is one of the best sects in Tangcheng, and there are many inscrutable predecessors. Although he did not directly, but these common sense still know.

Qiu Lin Jianzong will not take care of him in a other low-level world for no reason. The only explanation is to win over his two friends.

I think that Xu Xiaoyue and Count Dracula, who came to Yuxianmen at the beginning, did not meet with him. It was the meeting of Huoshan elders. Afterwards, Huoshan's elders said that they could only be sure that they were not under him. The specific depth was still not visible.

It is precisely because of this, they have to go, Yuxianmen did not dare to stay strong, and did not dare to arrange people to follow.

With the foundation of Qiu Lin Jianzong, perhaps it can't be called, just recruiting. After all, Tangcheng is the core of the Han Kingdom, and there are many big forces in the gates. It is much bigger than their remote competition.

Of course, Wei Qingcheng's impression of Shen Lang here was that he was a wizard and had a wealth of knowledge. Many things may only be theoretical, but many of them cannot match this theory.

I still wanted to stabilize the situation first, and then I had the opportunity to kill those people from other worlds.

It is now found that Shen Lang has already established itself in the Han Dynasty, and it is likely to have a very thick thigh. This makes Wei Qingcheng secretly cold and sweat, and immediately dispelled this immature thought.

With this relationship, it is considered that today's situation is at a disadvantage, and he has to deal with it carefully.

“At the beginning of the Tangcheng group, I heard that Mr. opened the lecture, which attracted the attention of the high-ranking parties. Even the masters of the official famous forum, Zhian Master, bought tickets and won a lot of Lingshi. It is no wonder that you can't see the Lingshi. ”

Under the sigh of relief, Wei Qingcheng began to feel heart. It is said that at the time he opened the lecture, some people wrote it and resold it. People of different levels saw that it was not very rewarding.

I think that Shen Lang had solved the problem of explosives and robbing for them. Now, after half a year, there are some verifications. At least not to fool them. The theoretical knowledge of this kid is very solid.

If you do a good job, you can get some exercises directly from him, and the benefits are incalculable.

“So, you don't want to be covered with me. Although I am from a barren place, I have seen the world in your Tang Dynasty in Han Dynasty.”

After Wei Qingcheng knew the background of Shen Lang, his attitude had already made a big change, and he did not dare to offend, but thought about how to climb.

“How do you look at this fruit?”

There was another thing in Wei Qingcheng's hand, and Shen Lang looked at it.

He is a bit familiar with this thing because he still owns one.

Jade peach.

At the beginning, it was in the Thousand Grottoes, and the jade peach obtained from the west gate was killed by the strange insect.

According to legend, Yuxi Tao is able to directly upgrade a level, regardless of the original repair, can be barrier-free.

Therefore, this thing is regarded as a treasure. After all, any other heavenly treasure can only provide a powerful boost, but it cannot guarantee that it will be safely upgraded.

And they have the jade peach, which is also provincial. After all, if you use it too early, it will be wasted. It is the most cost-effective to use it later when it is difficult to practice.

The level of Shen Lang at that time was not high enough, and it was the same mentality. I felt that it was a bit wasteful, so I kept it first.

Later, he continued to gain a variety of resources, and gradually improved his strength. Although I don't forget this thing, I still think that I will stay behind and use it.

However, until now he is half-fairy, it is estimated that even if you take the jade peach, it only adds some repairs, and it is impossible to follow the first level. After all, there is a limit to the things of God. The legend is so magical, it is said by the monks who are not high enough.

In other words, he was not willing to use now it is not effective.

Wei Qingcheng pays attention to the gaze of Shen Lang and sees his changes. He can't help but sigh.

"This kind of fruit is only available on our side. I believe that your original world is not, but should you see it in Tangcheng or Qiulin?"

Shen Lang is a little surprised, actually it is a specialty here?

In fact, think about it, the name of the jade peach will be used to beautify the deification, indicating that it is as magical as the peach of the Heavenly Palace.

Is it from the world?

In the past, when I had the power to go to the world, I went back and brought back a lot of things. Did the power deify myself, or did others deify his description?

“Yes, I only have one fruit, not as much as Lingshi.”

“...” Wei Qingcheng is a bit speechless, you think this is casual!

Chapter 1069 - Continue to compensate

Wei Qingcheng originally wanted to show off. If Shen Lang didn't understand it, he would brag about it and give this “Tianmu Dibao” to Shen Lang.

But now Shen Lang said that there is already one, and naturally he understands, and he does not dare to talk loudly.

“This fruit is not common. From flowering to maturity, it takes a long process of thousands of years. The effect is of course extraordinary...”

Wei Qingcheng's words made Shen Lang secretly funny, and sure enough, the peaches in the myths and legends that have blossomed for thousands of years have been similar.

“This spirit can make people's strength grow forward. On the basis of your steady practice, there is no problem in basically upgrading one level. Of course, if you are taller, you will lose control.”

After finishing this sentence, Wei Qingcheng immediately added it.

“Of course, this is also to look at the strength. Like Mr. Shen is now as high as the realm, and want to upgrade another level, it is not a spiritual fruit can be achieved.”

Shen Lang nodded, indicating that he knew these characteristics.

It's not difficult to analyze it. The effect is similar to other heavenly treasures, but other needs refining and absorbing, and then you can improve it. This can push you a big step forward and then go beyond the scope.

This feature also makes it limited: the strength is too low to draw, too wasteful; the strength is too high, the effect is limited, the attraction is general, and the value can only be maximized when applied at the appropriate time.

However, this feature has an extraordinary value, that is, sudden!

This is also the reason why Shen Lang has been used up and not used. He will consider the use of life and death. As he was not strong enough at the beginning, he had to use the "blood-induced madness" method to complete the battle with Chu Yuxiong. If it doesn't arrive in time, it may hang up.

Therefore, he has always kept the jade peach. If there is such a dangerous moment, or if you encounter an enemy that cannot be resisted, you can use it.

Last year, if it was not for the harvest in the dead forest, plus the moon, etc., he opposed the powerful lord at that time and considered to use the jade peach to improve.

"But this thing for your son-in-law should still be effective. This is not to mention expensive, that is, we are here, it can be regarded as a treasure."

Wei Qingcheng sent the jade peach to the front of Shen Lang.

Shen Lang can vaguely feel that this jade peach is better than the one he owns.

It's not surprising to think about it again. If it's really owned here, it's going to the earth and it's going to the Thousand Grottoes. I don't know how many years ago. After picking, the effect will definitely fade over time.

“Give one?”

When I heard the words of Shen Lang, Wei Qingcheng opened his mouth and said, “How much do you want?” He did not say it. He was really afraid of the lion’s mouth.

“You also said, can give it to my son-in-law. Far away, there are five in front of you, you give me one, I sent one of them, what about other people? This is not to create contradictions for me! ”

Having said that, Shen Lang still picked it up. Yuxi peach is a good thing, and one is better than nothing.

And from the expression of Wei Qingcheng, you can also see that there is definitely a reserve for this thing, but it will never be as common as Lingshi.

Wei Qingcheng wants to beat himself a mouth. Why do you want to say that it is appropriate to send a son-in-law? This directly gave him a few excuses!

However, he is still very decisive, and now it is only five for the son-in-law. If you bargain again, count the four followers, or have friends and family, it is even more difficult.

“I don’t really have much, I am giving it to you!”

Wei Qingcheng gave Shenlang three jade peaches.

Shen Lang immediately picked it up and frowned. “Five people give me four. Do you think anyone is worthy of me?”

“I don’t mean this... you, do you have one?”

Shen Lang is secretly funny, one is my own, can you still be too much?

“Using the brain, do you think that I can upgrade to the current strength, have you not eaten any spiritual medicine?”

Looking at the white eyes of Shen Lang, Wei Qingcheng made up his own brain: Shen Lang has one, but has taken it!

Give him a willingness, give four to the pain, and give one more, more tangled.

“Or else you tell me where I can pick it, can I pick one myself?”

Wei Qingcheng’s face is stiff, and these five are still not satisfied. I want to harvest more myself.

There is such a place. If there is a fruit pick for you, will you really pick one?

“I don’t know where it is. These are the collections we have collected for hundreds of years. I have given you these, I am very sorry for the founder...”

It’s awkward, but he still gives another one, lest he raise the price again.

“Really there is no! This is to hollow me out!” After Wei Qingcheng finished, he said very firmly, lest the waves continue to squeeze him.

“Well, OK, I am very good at speaking. Everyone is a friend, I am helping you.”

Shen Lang smiled and collected all the jade peaches.

Of course he is satisfied, and he was led by the benefits. Although the value is not big, the things sent by the East and the West are tasteless, but it is what he needs, it is already a win-win situation.

This time, I first harvested a route, a spacecraft magic weapon, plus a huge amount of spiritual power, from Jingrufeng to the one who had just voted. Shen Lang has already eaten a lot of mouthfuls when others are unknowingly ignorant. These five jade peaches are even better things that can’t be met.

Wei Qingcheng is a little bit awkward, is this a friend? Will friends talk about interests?

But think again, it is the same for yourself. It will talk about benefits, but it will be true and reliable. Otherwise, can people with different levels in different worlds have a friendly friendship?

“That now...?” Wei Qingcheng looked out.

“Now talk about everyone’s compensation.” Shen Lang nodded.

“...”

“Don’t look at me like this I just said it clearly, meet me alone, I will help you to satisfy everyone. Although these people, you can be regarded as a hostage.” If there is no war between them and you, I can hardly do it. After all, I still have to give them benefits.”

“What do you want?” Wei Qingcheng was a little impatient, and sure enough, it was not so good!

“Lingshi, it’s convenient.”

When I heard Shen Lang, this time I only wanted Lingshi. Wei Qingcheng’s face was a little better. I immediately asked, “How much?”

“A total of a thousand. You don’t want too much. You have a lot of people. If you count one person, it will be ten. These people are broken, and the value can be far more than this. And you don’t forget their number. It doesn’t matter if you can’t get four people out of the way, can you let them go, and I have to bother.”

In the case of Shen Lang, Wei Qingcheng also understands that he is too angry. After all, the base is not too much.

However, because the base is large, the total amount still makes him very painful, and the value of the jade peach is also a small witch.

Chapter 1070 - Yuan Lingshi

“I can give you a thousand Lingshi, but to make it clear, you can’t ask for more! If you turn your face, you won’t win!”

Wei Qingcheng's tone is a bit harsh, he can't let Shen Lang make progress again and again.

Shen Lang shook his head: "I said very clearly in front of me, three aspects. The first point, you have already flattened me, I will let people go, and will help you talk. Second, I have to give them benefits, in order to let They left..."

Seeing him mention it again, Wei Qingcheng shook his head: "I can't do it on the third point, I have no place to resettle them!"

"The doorkeeper, you are too rigid. The place where this is placed is not to be placed on the site of Yuxianmen."

On the side of the couch, let others sleep? Not to mention that they are outside, that is, other local forces, and it is impossible for Yuxianmen to sit and watch on his own site.

Wei Qingcheng looked at Shen Lang and pondered the meaning of his sentence.

"what do you mean.....?"

It is definitely impossible to send it to a place far away from Tangcheng. Otherwise, it will be found that it is a lie to them, and then come back to find trouble.

With defense in the future, I am not afraid of finding trouble, but I can't help but destroy it! There are also young disciples with low strength, residents in the city, etc., that is impossible to prevent.

"You are here, many big sects are also divided into territories. But the territory of the Han Dynasty is so vast, basically all the places are geographically sparsely populated, and there are certainly plenty of places to settle down."

Shen Lang inspired him: "You think that the more barren places may be very satisfactory to us. Or there are some places that may be dangerous, although they are rich in resources."

Wei Qingcheng looked at Shen Lang again, showing a smile.

“Mr. Shen, you are really bad. Isn’t this your partner? It’s just a matter of perfunctory. If you send them to a dangerous place, then you will be pitted.”

Shen Lang laughed and said nothing.

Although it can’t be said that the danger is directly proportional to the harvest, if it is just a calm and unwavering hill, it is everywhere, just occupying one place, and the aura is much better than the earth.

But everyone is coming to the gold rush. It is not a foregone conclusion that will not go away in the future. Naturally, these inefficiencies cannot be chosen.

Where there are rich resources, even if there is danger, they are willing to be a blog.

If you want to explore the journey to the sea, you will be ready to go back!

After the communication was completed, Wei Qingcheng quickly gave Shen Lang a thousand fine stones.

He took out a lot, and Shen Lang didn’t polite with him, and counted it seriously. After all, this is for everyone, if the number is much less, it is equal to him to make up. He can give his personal feelings and even bring a little faith. This loss can not be eaten.

The results are counted down, but only about eight hundred!

In the case of Shen Lang number Lingshi, Wei Qingcheng has searched for a map to wait for the seat on the map with Shen Lang.

“The doorkeeper, you will make up a few of them, and the difference is two hundred. I have sold so much. I told them that I would think that I was greedy.” Shen Lang looked helpless at Wei Qing. city.

Wei Qingcheng is also a bit embarrassed. He thought that this pile was enough for a thousand. I didn't expect it to be two hundred.

"That..." He looked at the storage ring. "I don't have so much to carry, or I will take it again, or give you a spiritual stone."

He did not carry so much with him, and naturally there must be a place for treasures. Shen Lang is of course asking him to make up.

However, the latter sentence is noticed.

"Yuan Lingshi... How to exchange?"

I wanted to ask what Yuan Lingshi is, but I will react immediately, and it must be a higher level of Lingshi. If you really ask, Wei Qingcheng finds that he does not know, and will inevitably report falsely.

Wei Qingcheng immediately took out a Yuan Lingshi. "Not fixed? Some people urgently need, the price will float, dozens to more than 100. What is the proportion of Tangcheng?"

He knows that Shen Lang is in Tangcheng. Since even Qiu Lin Jianzong protects him, naturally he will not lack knowledge.

Shen romantically looked at it casually. In fact, you don't have to get started. You can clearly feel that the aura of this Yuanling stone is far better than the fine stone, and it is very well locked. It will not overflow after a long time. .

The finest stone is the best quality in the earth.

This side is also divided according to the level, but this Yuan Lingshi is a high-level stone that is superior to the fine stone, and it is not available on Earth.

If you bring it back to Earth, you may be able to use the mythical way to say it is a spiritual stone from the fairy world.

The deep waves at this time do not need to pretend to be old rivers and lakes, but at least they must show a little market.

“I have never traded in poverty. I heard that it seems to be sixty or seventy.”

Wei Qingcheng frowned slightly: “In general, if not one party urgently needs to exchange. Everyone will take one hundred, which is fairer. But you said that Tangcheng’s market is seventy, then seventy, I will give you three more. Yuan Lingshi.”

He was afraid that the Shen Lang would release the moth, and immediately took out two more and gave it directly to Shen Lang.

Shen Lang said half-jokingly: “It seems that the owner has a lot of Yuan Lingshi. I knew that I would ask for ten or eight...”

“Don’t! I don’t have a lot, this is the bottom of my pressure box!” Wei Qingcheng quickly quit, in order to fear that Shen Lang continued to knock his bamboo bar, and quickly took the map.

“Look, how about this? Give them a good place!”

Shen Lang said that since he received his five jade peaches, he was too embarrassed to ask for more Yuan Lingshi.

“Golden Valley? What a ghost place?”

This map has a clearly marked place, the core of the map, which is the large Golden Valley.

“It’s what you said, dangerous...hey, a resourceful place. That’s a comparison... it’s a bit remote, so it’s still owed to development, and the road is a bit far, but it’s still worth a trip.”

Wei Qingcheng’s unrecognizable expression Although it has been modified, the meaning is obvious, it is a dangerous place.

“Pit people, it doesn’t matter, but don’t give me a pit. Tell me what the situation is. I want to help you convince everyone, and you need to be convincing.”

When Shen Lang spoke, his mind was already searching for the memory of Jing Confucianism.

The memory of Jingrufeng, he read it the last time, those useless are filtered, and the mainland of the island is kept. I read this again and I understand this for half a year.

There is also a disciple who controls the spacecraft, and its memory also has certain reference.

Jingui Valley is not a secret that few people know, and Jingrufeng knows it.

This is a forbidden place about a thousand miles away from Yuxianmen. It is the nearest forbidden place.

It will be called a forbidden place because it is dangerous and it is often fierce to go to adventure. But that’s really a resourceful, well-stocked resource that attracts some warriors to take risks.
