

## First Strong 1071

Chapter 1071 - Reverse the situation

Because of the sparsely populated area, there are not many people in the city, but the area of the flip is very large.

Although the Golden Valley is named after the “Valley”, the scope is also very large. The narrow “Golden Valley” is the core of a valley area. The generalized “Golden Valley” is to count that mountain range. Inside.

Now this map given by Wei Qingcheng is a map of the Jinshan Valley in the broad sense. The place where the text is marked is the narrow Jinjiu Valley area.

According to his remarks, the resources around the Golden Mile are very rich, and the more things you can get, the more you have, the greater the danger.

The dangers include some natural dangers, steepness, cliffs, suffocating or something. There are many more beasts living there, and there is not too much development there, it is a paradise for their survival.

The adventurous human warriors, of course, pursue the rich and dangerous, but generally they will do their best. If the strength is not enough, or feel the real difficulty of the Golden Valley, it will generally stop at the periphery.

If you rush into the core area of the Golden Mile, there is often no safe return.

When Wei Qingcheng briefly described it, Shen Lang also checked the memory of Jing Rufeng and found some details of the changes, but in the end it was generally correct.

After all, the purpose of Wei Qingcheng is to want them to go to 300 people, and then want to have 300 people left in the Golden Mile.

Therefore, when he was telling, he simply skipped the periphery and focused on the core area of the Golden Mile. There are some good things to show there, such as jade peach and Yuan Lingshi, and if you find it, it is not a two, but a huge harvest that can't be finished.

While painting the pie, it also dilutes the danger inside, and wants them to go as far as possible because of greed.

Shen Lang saw it and broke it, as if it was really attracted.

“This is the map we collected about the Golden Valley. I am not afraid to tell you. The reason why I can give you generously is because I am very familiar. We also go to the Golden Valley many times, otherwise we are there. More resources!”

Wei Qingcheng also feels that his way of telling is too one-sided, so good, but you don’t go, don’t you doubt?

So he deliberately added a sentence, indicating that many of their resources are from the Golden Mile. I hope that I can move the waves more, and then Shen Lang will influence other people.

“This is a map from here to Jinjing Valley. Although it is simple and simple, it also has a general reference value.” He also found another map for Shen Lang, which is a road map.

When Shen Lang took both maps, his eyes were on the eyes of Wei Qingcheng.

“You don’t want to hang me.”

“Where can you? How do you help me?” Wei Qingcheng smiled.

Shen Lang also laughed, of course, it is impossible to believe his words. For a person who has just taken five jade peaches, three Yuan Lingshi, and eight hundred fine stones from his hand, he can blame without resentment!

“This spaceship...”

“My! You have seen it. We have so many people. If you want to go to your Golden Valley, you can’t walk. So if you want to redeem, I won’t sell it.”

Seeing that Shen Lang said that he was serious, Wei Qingcheng smiled and smiled: “Well, then it is for Mr. Shen. No, your spoils!”

Obviously, he is very reluctant to get into the flying magic weapon. In turn, you can see that the spacecraft is worth a lot!

And it is possible to sneak three hundred people, including Shen Lang, into the Golden Valley. Then he will report it. He does not mind losing the spaceship.

Negotiating to this part, basically finished, and the two came out together from the spaceship.

Wei Qingcheng is still very particular about going around, indicating that he will not attack the earth monks.

Shen Lang directly drove the spacecraft over the hillside and said to the earth monks: “Everyone is on board now, let’s leave and say. The guards have come up with great sincerity and dare not say that everyone is satisfied. But it’s better to fight it now.”

But when he spoke in his mouth, he heard the anxious sound of the canoe in his ear!

“Wei Qingcheng is doing it! Just the conversation you have in it has just been passed outside, everyone has heard it!”

Hearing this, Shen Lang frowned.

When Wei Qingcheng entered the cabin, he manipulated the spaceship. At that time, Shen Lang did not care. He naturally thought that he was going to isolate it and not let the outside people steal the conversation inside.

I did not expect Wei Qingcheng to spread the information inside to the outside to hear!

In the case of public disclosure, the materials given by Wei Qingcheng can be said to pay attention to the contribution of the door. The first-out map of the Golden Valley, which was not the secret of Yuxianmen, was not a sale, but instead introduced the enemy into a trap.

Under such negotiations, there was a direct differentiation between Shen Lang and other earth monks.

Win directly!

The monks of the earth have different attitudes toward Shen Lang. Originally, it is not like the disciples' unconditional belief in the head. In the process, Shen Lang is directly seeking benefits for himself. It is hard to hear that it is collusion with Wei Qingcheng and sold out the overall interests of the earth's monks!

“Master Shen! You have to benefit from the other, only to give other partners a three or two Lingshi, it will be, you have great strength; you help others to persuade us to leave, or you, you take people as friends, put We are good people. But you can't unite others to harm us!”

Pope Constantine V made a big drink.

He is not in front of the front, but not far from the people who are in the boat. Obviously, when the voice came out, they should want to inform Shen Lang, but they were controlled by the Pope.

“Pit people don't care, just don't hang you up... Master Shen, this time really disappoints us!” Paul also made a long sigh.

Shen Lang is an idiot. If he is not in this attitude, can he get more information and things from Weiqingcheng?

However, he did not explain anything After all, this is his own intention.

Eyes patrolled again, nearly three hundred earth monks, in addition to his own nine people, monks from other countries abroad, looked at the waves with irony and contempt.

The oriental monks, when he looked at him, avoided gazing at him. Obviously, he is extremely dissatisfied with his recent actions, but he is not willing to show it directly.

The enemy's imperial confucius, who had listened to the dialogue before, seemed to have been arbitrarily turned around, and it seemed to be quite ruthless.

But now, when I look at this situation, I will wake up immediately. The head is amazing!

Their two strongest guilty, no matter who wins or loses, can no longer cooperate sincerely, it will not be the opponent of the head and Huoshan elders. Destroy them and take revenge!

"So, what do you want? Almost all the hostages are controlled by me. I want more, what is the problem?" Shen Lang looked at the Pope sneer.

Chapter 1072 - Guilty, scared

The Pope said faintly: "There are all hostage prisoners now, I am in control, including you, and I control. I want you to hand over everything, is there no problem?"

Originally, Shen Lang did not explain any negotiation strategy. Anyway, he had a clear conscience.

Now I heard the Pope threatening to take the canoe and other people, and I couldn't help but be angry.

"Is Laozi's biggest contribution. What happened to him alone? In addition to me, these hostages also won a thousand fine stones, and less? Which one of you can get it?"

I used to think that Shen Lang was not kind. After listening to this, I feel that it makes sense. A thousand fine stones are indeed a huge harvest.

Feeling less, nothing more than because there are so many people, the average is less in everyone's hands. According to the average, even if you lay down the Imperial Gate, if you fall to the third of the hand, there will not be as much as you think.

"Don't confuse the concept! I said, you have no problem, you have great merits; you are willing to help others to convince us to leave, there is no problem, it is your choice. But you can not put everyone in danger, this is a pit Everyone's life!"

Before the Pope, he was very unwilling and depressed. The two strongest enemies were blocked by him. Shen Lang Ming Ming is using his tricks to take advantage of it, but it has become the biggest credit and has become the representative of everyone!

Now that I have the opportunity to carry out Shen Lang, and still stand on the moral high ground, he is certainly willing to say so.

“Buy in the rich and the rich! Since you have all heard it, you have just known the benefits he said. I also went together. Why do you think that I am colluding with others?”

Shen Lang disdainfully glanced at it: “Where will come here, what kind of situation will you have? Do you have any points in your heart? When we first came, did we feel that we had a holiday trip? You last time No danger?”

The Westerners who asked him to cast a contemptuous look at him did not dare to look at him.

“Since it is spread out, then I will say a few more bad things. Do you want to come to Yuxianmen, is it really for revenge? Or do you want to \*\*\*\*\* the resources occupied here? You have already played against each other, and I have not intervened. If you have a few cents to win?”

“Going to a dangerous place to hunt for treasure is that I am going to harm you. Is it a direct battle with people, is it Kangzhuang Avenue?”

These words are really a bit ugly. In the course of the battle, everyone was very strenuous, and it was obvious that Yuxianmen was in the upper hand. The same is true of the Pope, and the combination of the master and the elders directly suppressed him.

If there is no shot of Shen Lang, then their defeat is only a matter of time.

“Still, you have lived on the dog when you are old, and the Terran is not afraid. The beast monster will not dare to go?”

Shen Lang scolded a meal, no one exported the argument, because he said that it is reasonable, not a strong word.

Then he put his gaze on the Pope.

“Constantin V, when I just went to the negotiations, I also relied on you to host the overall situation. You turned my people back, deducted my spoils, and sprayed my face? I got a little benefit. Is selfishness; isn't it shameless to \*\*\*\* it like this?”

“...”

As a pope, Constantine V has always been a high-ranking person. He speaks in front of people and is slow and maintains majesty. It's as exciting as it was just now, that is, it's necessary to build momentum during large gatherings.

Even if Shen Lang is not respected by him from all walks of life in the West, it is at least superficial. Suddenly, I was so welcome. I didn't know how to say it. I wanted to spray it back, but I couldn't pull it down.

“And! Are you a pig brain? They asked me to talk about the conditions privately, and let the process go out to you, and I want to leave us. You really cooperate! You start to squat directly!”

The reprimand of Shen Lang was directly told to the Pope, but all the earth monks on the scene felt hot on his face.

is not that right? This is obviously a divergence! Shen Lang... In addition to asking for a single benefit, it seems that there is no particular excess.

As for the style of what he wants to benefit, do you not understand it long ago? It's not a sudden change. It's always the case. The process of coming here is to ask him to give him benefits.

The Western monks felt very embarrassed. It was really a strange wave. Losing myself is still a contempt for reason...

The monks of the East are very happy under the guise. Fortunately, they have always expressed implicitly, and did not directly reveal the contempt for Shen Lang.

“Come on! You don’t need to threaten me any more, just come and fight with me! We two fight you to die, and the two super masters, clean us three hundred. The last pot is here!”

Shen Lang swindled the Pope and looked like a duel.

Constantine V is now a little bit ugly.

The words of Shen Lang’s resentment made him speechless.

If it is an impatience, it seems that it really makes sense. He also regrets a bit. If he is not willing to be taken advantage of by Shen Lang, he will not rush to turn over.

Those who are in the canoe and so on are always vigilant.

Only they are basically in the late stage of the gods, that is, Dorothy is stronger In front of the Pope, there is no chance to turn over. Fully prepared, nothing more than delaying for a while, unlike those of the same level, the imperial masters were so fast.

On the other side, Weiqingcheng did not have a schadenfreude. In fact, when they were guilty, he was communicating with Huoshan’s elders.

This pit is of course he intended to dig into the waves, and he took advantage of the familiarity with the spacecraft magic weapon.

But when he dug the pit, he still didn’t know so much information. Later, he knew that Shen Lang was actually the one who set off in Tangcheng. So in the back, his attitude changed, and he also forgot to dig a more straight pit in the face.

Looking at the glue on the side, Huoshan’s elders were very satisfied with his plan, but he secretly smiled and said this relationship.

Two friends before Shen Lang, the attitude towards Shen Lang is very respectful, and the two of them are enough to eat a pot of Yuxian.

Now the two people have been recruited to the Tanglin Jianzong in Tangcheng and even in the Han Dynasty. What if there is anything in Shenlang...

The elders of Huoshan are naturally very annoyed. This is the shame that Yuxianmen does not know how many centuries have not been. And it is also related to the injury of so many people, you must discuss a statement.

For Wei Qingcheng, he was very helpless. Now, after all, it has already paid the price of Lingguo Lingshi. Normally, the doormen can be exchanged, and then the two maps can lead them away.

If there is nothing, it will lose money. But if they are guilty and cause Shen Lang to be killed, even if they take the opportunity to kill all these outsiders, they can't change this situation. At that time, Yuxianmen may be buried for Shen Lang!

Chapter 1073 - Bow down

Therefore, when Shen Lang directly yelled at the Pope, Huoshan and Wei Qingcheng were immediately ready.

In case they really fought, then the two of them joined immediately, and the three men besieged the pope!

Anyway, you must not let Shen Lang have an accident at Yuxianmen.

The Pope did everything for the benefit. On the one hand, he used to be the boss, and on the other hand, he also deeply understood that only the boss can get the most benefits.

Just like the Shenlang, he went to represent the negotiations, he can take a separate one, others are divided.

But those who value the interests will calculate the gains and losses very much!

Shen Lang pressed him, he could not get the biggest head. However, if you fight with Shen Lang, it will only be a situation of both losses, which will destroy the entire earth monks.

Although he and Shen Lang have the strongest strength, the team of 300 people is a powerful battleship!

He alone, or he and Shen Lang, can not bother with Yuxianmen, and at most it is both the Weichengcheng and Huoshan. But with three hundred people together, you can make Yuxianmen lose both sides, even if you operate well, you can defeat Yuxianmen.

In a word, he and Shen Lang can't do it!

Although I just turned my face, I just wanted to force the sinking into the air. I didn't expect the Shenlang to be reasonable and strong, so that he couldn't get it.

Archbishop Paul, who was the deputy of the Pope for many years, immediately understood that the Pope was riding a tiger.

At this time, it is time for his deputy to come out of the round. His face is important again, and there is no importance of the Pope. He must quickly set up the ladder.

“Master Shen! This is something I misunderstood you! Not only misunderstood you, but also misled the Pope, so that everyone thought that you and Yuxianmen colluded and sold us. Oh, it's my lack of knowledge, for you. Insufficient trust.”

Paul's face was ashamed and pious, and he bowed deeply to Shen Lang.

“I am here to apologize to you! You and the Pope are the core of our team, just like the sun and the moon in the sky, you are indispensable. If you fall out because of misunderstanding, it is our loss. Please forgive me! Pope Of course, you won't really control your people. You see everyone is good.”

Paul stood up, and of course others were awakened. However, the average person can only follow up, and those who have not reached the ones are afraid to come out.

“Shen brothers, it is really a misunderstanding. The old saying goes: the soldiers do not deceive! This is our eastern tactics and tactics, the wisdom of negotiation. We all believe in you, but the friends of the West have not responded because of cultural habits and so on. I believe that the Pope is absolutely not malicious, just to worry about everyone.”

Qiao Yuxian, like Paul, must come out to lie.

What do you think in your heart? It doesn't matter how you look at it. The enemy is still watching it! This must be resolved immediately.

The people on both sides were sent to the ladder, and everyone also attached to ease the atmosphere.

The Pope also knows that this is the best chance. If he is deadlocked, it will not end well.

He has his identity and naturally will not explain and apologize. Just flew away and returned to the front of many earth monks and Yuxianmen.

This is tantamount to his statement, and Shen Lang has also accepted this situation. It is boring if he does not care.

"Misunder a game, just say it. Don't forget one thing. There are about one-third of the people on the scene. I saved your life! The second time is the hard work to save you, first. I replaced you with myself."

The words of Shen Lang said that the earth monks on the scene were even more embarrassed and did not dare to look at him.

"I am not the person who invited me. I said this sentence, I want you to understand. Although I am not a perfect saint, but not a villain?"

"How come? Master Shen is in my heart, just like a saint!"

"Yes, you are really selfless! If it weren't for you, we didn't have a chance to live."

Everyone immediately applauded warmly.

However, Shen Lang understands that it is a slap in the face, because almost no one has produced the power of faith.

Since the Pope has already let it go, Shen Lang has not been delayed again. He is not daring about the Wei Qingcheng and Huoshan elders.

It's just that he didn't think about it. Just because of their "tiger", he actually wanted to help him, fearing that he had an accident...

"Bring your people back!"

With a wave of Shen Lang's hand, the dozens of disciples of Yuxianmen who were stunned by the mental energy, quickly flew up and fell in their direction.

Huoshan moved across the air so that they would not fall down, fall to the back, and have their own disciples to catch.

"Mr. Shen really believes in it!" Wei Qingcheng applauded, and then explained: "Just... I really didn't have the heart to dig you, I almost made you a conflict, I am sorry."

In this case, he got hundreds of eyes!

Who can believe that he is sincere? Don't say that people on earth don't believe it, it is Yuxianmen. It also feels like a scene after seeing the failure of guilt.

"Aoyama does not change the long flowing green water, and will meet again."

Shen Lang smiled, this is his own negligence, resentment can not defend Qingcheng. – Everyone is not a friend, but it is even more an enemy. How can you blame the enemy? He will not miss it if he has the opportunity.

"Everyone is coming up, leave here and say."

Shen Lang first paid attention to a drop boat, Zheng Yumeng, etc. Make sure they are not injured, just be assured.

Under his greeting, nine of his own people took the lead. Then there were the Eastern monks such as Qiao Xixian brothers and Nanliuchuan brothers who took the lead. Others would not be embarrassed and quickly followed the spaceship.

Staying here is not safe.

The Pope was finally on board, looking at the waves that remained in the bow, and reminded me coldly.

“Check it out and see if your friends have other hands and feet!”

Of course, this does not require him to remind, Shen Lang himself has checked in advance, after everyone boarded the ship, he immediately drove the spacecraft magic to leave.

Before the Shenlang was here and left, for the Yuxianmen side, as well as to the Tangcheng all the way, there are traces of the holy armor record, but also the largest range of pictures.

In Tangcheng, it is also possible to collect the map of the Han country that can be found and sweep it into the holy armor.

Two simple maps of Weiqingcheng have been imported into the Holy Grail. The comparison between the big map and the screen trajectory gives him the exact position. Now you don't need to take a map study, you can fly directly to the direction of the Golden Valley.

In the previous battles, everyone did not suffer much, but in order to avoid embarrassment, they all closed their eyes and raised their spirits.

Shen Lang drove the spacecraft away for about five hundred miles and stopped.

“Okay, let's open a meeting now. The benefits I got, you all heard it. Now it's time for everyone, I won't be less. As for going to Jincha Valley, you still want to kill. I went back to the carbine and discussed the decision. I won't ask for anything.”

Chapter 1074 - Landing in the Golden Valley

Shen Lang did not know because everyone knows it. I am embarrassed to take it. It is what he took. Five jade peaches, he did not take out the points, and did not even show them to them!

However, before everyone just heard the words and did not see it, Shen Lang did not say that this is a jade peach. From the mouth of Wei Qingcheng, I only know that it is a unique spiritual fruit here. Shen Lang seems to have seen and eaten before.

Although other people are also itchy, I really want to see and understand what it is. However, no one has the heart of occupation. After all, it's only five. How do you divide it? If you cut a small piece, it will be meaningless.

Yuan Lingshi has opened the eyes for everyone, but there are only three, and it can't be divided.

Paul came forward to suggest that Shen Lang left himself. If there are extra Lingshi, he will make up the points for everyone, but not even.

Yuan Lingshi Shen Lang certainly does not want to give it, although he has not seen it before, but the obvious effect is much better, even if he does not use it, it will be very useful to other people around him.

As Paul said, he is of course very angry. In accordance with the number of requirements, he has supplemented another two hundred, a total of one thousand superior stones.

Everyone in the room is a big man, and no one will be like a low-level monk. However, a whole thousand of the finest stones piled up together, the scene is still very spectacular, and they are also quite impactful.

Just like for some people with good family conditions and high income, 10,000 is not a big deal. But putting together 10 million in cash is enough to shock them.

However, it is necessary to divide it. Because there are too many people, there is not much difference. There are three more and four are not enough.

Shen Lang did not make any suggestions on the way of distribution. Anyway, the one he took has already been taken, and the others will be discussed.

This time, it was Qiao Yuxian who represented the monks of the East and came out to make suggestions.

“The split is the best, but the split is actually average, not equal to fairness. Everyone will count, three for each person, and there are about a hundred remaining. I suggest that you take three of them and give them to the Pope.” After all, the Pope is very big, and one person has held down the two strongest masters of Yuxianmen!”

The proposal of Qiao Yuxian immediately received enthusiastic support from Western monks.

Similar suggestions, Paul also wants to mention, but he is not suitable. Originally, I wanted to suggest that the acquaintances mentioned it. I didn't expect Joey to mention it. It seemed more fair and let him vote with gratitude.

The monks in the East also have no opinions. After all, most of the strength is still quite the same, and the rest are not qualified. And the Pope who is far better than theirs is indeed an important person like Shen Lang, and it is worth more.

Otherwise, if you are in danger, what can people do for you?

If you care about each other, you will be in trouble if you are weak.

And Qiao Yuxian will come out with this head, in fact, it is also a retribution to Paul.

Before the Yuan Lingshi of Shen Lang, Paul stood up and proposed to be accepted by him. If there is a spiritual stone, it will not be added.

In this case, they are inconvenient to open the boat, and it is not convenient for Qiao Yuxian to be familiar with Shen Lang. Paul said that everyone would not object.

Therefore, he also took the initiative to send a person to the Pope, and hoped that the Pope would benefit from it, and he could lift his heart with Shen Lang.

After all, these two big shackles are needed to stabilize the overall situation.

After allocating this benefit, the next step is to go to the Golden Valley.

The benefits of Golden Mile, they all heard from Weiqingcheng, but everyone started to think that it was the collusion between Shenlang and Weiqingcheng, so don't think about the good side.

Now it is starting to analyze, and Shen Lang's claim to wealth is the purpose of their trip. Ben came here and took a huge risk. Wanting to replace Yuxianmen is also a huge risk of losing both.

If this gold valley is really rich in resources, it is not impossible to go there.

Their discussion, Shen Lang did not participate. Because he has his plans, even if everyone decides not to go, he will go there.

The Pope did not participate, and he was alone in the corner, as if everything was handed over to Paul.

After the analysis and discussion of the Eastern and Western monks, we feel that we can go ahead and look at it.

What level of resources is the resource, and the degree of danger is dangerous. Before the information is unknown, it is not appropriate to rush to go in, or not to go.

After the decision, Shen Lang continued to drive the spaceship and sent everyone to the Golden Mile.

He also thought about the road, do you want to collect their "tickets"?

After all, this is not within the scope of the agreement. Now the ship's magic weapon is that he grabbed it in the hands of Yuxianmen, but it is not public.

But in the end, I still didn't say it. After all, everyone hasn't gained anything yet. He is the biggest one, and it is too embarrassing to go through the plucking.

When it came to the Jinshan Valley, Shen Lang flew the spacecraft a little higher and looked at it carefully, but the whole area was too big to see only one edge.

Others also rushed to the stern of the bow and looked crowded.

Shen Lang himself finished reading, no matter whether they are going to line up and take turns to land directly in the outer area of the Golden Mile Mountains.

“From now on, everyone should be careful! I will collect the spacecraft and release it when I leave. After I have finished, I will find the reference object!”

On the way, everyone has already made a decision. First explore the periphery for a few hours. If the ratio of danger and resources can be received, continue to explore the core of the Golden Mile, and take a three-day deeper adventure.

If the danger is too great and the harvest is too small, then forget it, and think of another way.

After coming down from the spaceship, everyone was refreshed.

With their age and generation, they are very pampered on the earth, basically mastering the greatest resources of the family martial art, all of which can be given priority as long as they want.

For a long time, the state of mind makes them feel like water, and there is no passion for enthusiasm.

Why did you encounter humiliation last time, and you will be keen to return to hell. In fact, there is a reason for breaking their boring life!

The freshness and unknownness here have made their minds active. No matter what you encounter here, you need to face the challenge.

Simply put, it is the attitude of adventure.

Adventure is a young mind!

When a person maintains an adventurous attitude and is willing to jump out of the comfort zone at any time, he must be a young mind, full of vitality, hard work and creative mindset.

The same is true for a city and a country. The newly-emerging metropolis that has been rising for decades can turn a thousand-year-old city. The two-hundred-year-old country can surpass many countries with two thousand years.

Now these big brothers seem to have returned to the young age, and now they are full of passion for the trial adventure.

This long-lost feeling makes them very excited, and each has a bit of gear.

The map of Shen Lang, also given to Paul and the Pope, is to give them a copy of the West, he remembered it.

Now everyone just needs to determine a general direction and know the approximate scope of the periphery. Anyway, everyone is not scattered, but a team is moving forward.

The team of three hundred people is actually a bit big and quite full of taste.

However, there are no other figures in the mountains and plains. It is just that they are placed in a large area and there is not much eye-opening. And there is no fixed road, everyone does not go away, but they can walk separately, not crowded, no need to line up.

From the place where I landed, I walked in less than ten minutes and heard the cheering voice!

Yes, the old guys cheered like young people. The reason for the cheer is because I saw a large number of exotic flowers and plants!

Many of these are spirit herbs, some are also found on the earth, and many of them have never been seen before, but it is just a look at the appearance and feeling, and also knows that the year is a very good medicine.

Many big sects have their own medicine fields. Because it is now based on wild medicine, basically no high-grade medicines are available. Your own medicine field will guarantee a pure, and it will be difficult to find dozens of years.

But here, just a lot of big movies, many of them are better than their own, than the auction has seen everyone instinctive began to grab, for fear of being dug by others.

When I first came, everyone was ready to go back without any good things. This time, the preparations are sufficient. In addition to the weapons and other protective weapons, the storage ring and the storage bag are carried. It should be as large as possible, and it is ready to bring back many things.

Just a little while, as if a large-scale locust swept past, a large piece of exotic flowers and grasses were dug up!

Looking at the excited big brothers, Shen Lang could not help but sigh: "You guys, can you have a good time? This is the outermost, these qualities are the most common. You are now full, wait for good, then Throw it?"

Everyone listened a little embarrassed, but more excited and gratified. Who knows if you will encounter it later? Dig first and then say, the bag is safe!

"Well, whatever you want, but try not to dig up, leave some!"

Shen Lang shook his head and continued to move forward.

Chapter 1075 - Harvesting along the way

In the process of moving forward, the monks from the earth are just as excited as the children of the New Year. Along the way, there are all kinds of exotic flowers and even strange treasures.

Even if Shen Lang let them stay in the seed, it has no effect, and it is almost all the way.

They are all “poor and scared” psychology. These things that the world’s monks may not be able to see are very valuable in their eyes. And there are three hundred people in this trip, you don’t do it.

Some people began to scruple about quality, but found that they did not pick themselves, others picked more and joined them.

After all, the benefits that were given to everyone before, are also three superior spirits. There is no limit here, as long as you pick and dig it, it is yours, and it is enough for them to divide.

Of course, Shen Lang did not join in. This is not because of restraint, but because he does not look. These are also the depths of the dead forest, but only a larger number and more dense.

Of course, if there are nine levels of Zijinlian and Yuhuatao, he will not be obsessed with face and decisive.

Qiao Yuxian and other big sisters, are also put down the body to grab. After all, they all have a big family and a big sect. Even if they don’t use it, the more they keep the reserves, the better.

The Pope did not rob, he should not be able to see it, so he can remain reserved.

In the people of Shen Lang, Dorothy and Zheng Yumeng can still be calm. Dorothy is not in need of these, she is her own system. Zheng Yumeng is a white one, and he can’t recognize much.

Falling in the canoe and falling rain, cultivated from the river, has been understood for many. When I went to the forest of death, I also opened my eyes at Xu Yuyue.

They also have ice palaces that need resources. Think about them for the sake of a snow spirit, that is, the guardianship of many batches for many years, showing the lack of resources.

Feng Wuji is also poor, and the resources are very demanding. They don't have to say one, two, three, and if they are not for resources, they will not come here.

Seeing the thoughts of all of them, Shen Lang did not clear up, indicating that they would pick it up casually.

They are all masters, and they are rushing, and the speed is still very fast. But after all, there are many people, and they don't have to go all over the place. They also need to search. The overall promotion is not fast.

Shen Lang is a combination of maps, as well as the situation seen in the air, and now the surrounding investigations, try to use a sacred arm to promote a map.

With a little deeper, more information can be found and the map can be improved a little bit.

As we went to the Golden Valley, everyone began to feel different. The aura that was already full was more intense, and the number of exotic flowers and grasses began to decrease significantly!

The beginning is to let everyone whisper, according to the fact that the edge should be mined more, the number will be less, the more in-depth the more.

Is it true that the people here are really high-eyed, and those who have just grabbed them all can't enter the eyes of others?

But even if there is a little embarrassment, no one will give up. Others don't see that it is someone else, bringing back their family sects, but the role is huge.

But soon, they are even more excited!

Although the quantity is less and not so dense, but the quality encountered is even higher!

The simple contrast is that from the hundreds of years to a few hundred years of elixir.

Contrast is to step up, like Shen Lang has a lot of good things in his hand, today he has harvested jade peach, of course, not to see the medicinal materials for decades.

But for other people, the front digging is much better than that of the earth. Now, the quality that has been encountered is higher.

But now there is a problem, that is, the number is not so much!

Intensively appeared before, it is easy to find, and the quantity is many. So everyone walks a little farther and doesn't need to \*\*\*\* each other directly.

The number of occurrences has dropped sharply, and the quality has soared, so that everyone can't control it. It's boring to find a fight and fight. Of course, spread a little wider range and look for what others haven't encountered yet.

In this way, even if Shen Lang bound them, they could not gather them, let alone Shen Lang did not pay attention to it.

The result is that the team of three hundred people is very dispersed, they are all masters, and the speed is very fast. In order to take the first step, there is no politeness, and soon there are some distances that have been pulled into a few miles.

The confined waves are only the ones that fall into the boat, the rain, the wind and the wind, and there are no more than one, two, three, four. This is to let the three of them together. Once they are unintentionally separated, they will let Zheng Yumeng and Dorothy go.

So long after moving forward, Shen Lang has seen an hour from the time of the Holy Grail, and has gone deep into the 20th and 30th from the landing.

This made him a bit puzzled. Wei Qingcheng constantly encouraged them to come. It was obvious that they wanted to harm everyone. With the memory of Jing Confucian, there are obviously many dangers.

Is it still on the edge of the 20th and 30th centuries compared to the Golden Mile?

Although he has a map, both the road map and the map of the Golden Valley are abstract, just a hand-painted rough map, and there is no detailed reference.

In the same way, it is just that the light has just landed, and it is also a visual observation of the edge of the Jinji Valley. It is not known how much it will be deepened.

Of course, if Shen Lang really wants to investigate, he does not need a large spaceship. He can also use the cloud disc or the holy armor to understand the whole of the Dajin Valley.

However, the level of the mainland of the island is much higher than that of the earth. It can prevent the landing and investigation of the outer city, such as the city, and it is also mysterious and powerful.

Even the aborigines here are recognized as a forbidden place, and there must be special places. Shen Lang does not want to take risks, or take a step by step and keep this state for more than ten miles. Everyone is even more scattered. At this time, there was a shout in one direction!

Everyone is shocked, no matter who they are, everyone is a team. In this place full of unknown dangers, we must unite. If you don't care about others, you will not be in trouble if you are in trouble.

So in an instant, in addition to collecting and mining the elixir, they immediately rushed in that direction.

Shen Langqi, Zheng Yumeng and Dorothy, let the two wait for the boat to come over, and he himself rushed over there.

One, two, three, a few of them, is also very clear about their position, knowing that their strength is limited, it is really dangerous, Shen Lang is also a priority to take care of them.

So even if I rushed to pick the elixir, I didn't leave too far, and I still followed the core of Shenlang.

It was not right at the moment, they also immediately merged with them, and then followed Shen Lang.

## Chapter 1076 - Big situation

Shen Lang is far from the direction of the shouting sound, but his speed is faster than many people are late.

“what’s the situation?”

When he passed this sentence, people had already arrived at the scene, and everything was immediately in the eyes.

“Master Shen, we found a Lingquan! But there is a thousand years of fierce beasts, so I invite everyone to come and kill him!”

The place where Lingquan is located is below the mountain wall in front. Next to a place with a depression like a half cave, there was a beast.

It is not a person who finds this place, but many people find it at the same time. It seems that at least the beasts of the millennium, and the monopoly of a spring, it will not be simple.

In the case of being destined to be unable to eat a single food, I chose to inform everyone to come over.

However, this kind of spiritual spring, plus a beast, for hundreds of people, is still not enough. People who have arrived in succession are not too interested.

The fierce beast that looked at him was just squatting with the monks who were first discovered. It seems that there is still a bit of disdain, and there is no standing. But as more and more people rushed over, it started to feel a bit anxious.

“Master Shen, how do you feel about it?” Paul appeared next to Shen Lang and whispered a little, with a slight taste of the request.

Shen Lang had already noticed that the Pope did not come over. I don’t know if it was any other discovery. I still feel that this fuss can’t attract his attention.

“It doesn’t matter, you decide!”

Although it is not close, but Lingquan has not been artificially banned, it can still sense its scale and purity, and others have found it.

Shen Lang is interested in it, not as good as the scale of Lingchuan in Qingchuan Tangyuan.

Of course, Tang Yuan was created by the ancestors of the predecessors using the “Dragon Balls” method, which gathered the aura of Qingchuan area and accumulated over the years. Moreover, the Masters Union is very strict in control, so that it can reserve so much, but it will be gone after the break.

Here is natural, this beast must \*\*\*\* more. As long as you don’t dig the roots, even if you take all the springs out, you will slowly recover in the future.

Paul nodded and immediately said loudly: “Everyone! The resources here are very good, but the whole is still limited. It doesn’t need everyone to be together, not enough. I suggest the first 30 or the first to be found. Leave, others look for other places, how about?”

His words immediately received a sparse response.

The specific gains, we can also predict that 30 people together, in fact, not too much. So after Paul made a rule on behalf of everyone, many people began to spread to other places.

The first to find and rush, of course, will not go, with the diversion, the last one is also very conscious, and more have to go quickly.

Although the harvest here is not enough, there are beasts in Lingquan, which makes others excited. Explain that there are certainly similar in this area!

For a time, everyone went quickly in different directions.

The harvest is getting bigger and bigger, and no one wants to share it with others. Generally, a small team that is familiar with yourself will encounter the situation and will not inform everyone to come over, so as not to be separated.

This situation makes Shen Lang a little frown. There is no contact information such as mobile phones. The more scattered you are, the less likely it is to regroup. And once you encounter a big danger, it is easy to be broken one by one!

Just like this fierce beast of Lingquan, a person may be struggling or even dangerous, but when he is assigned 30 people to besiege, he will be ten.

If you are ten times more powerful and dozens of times more dangerous, then the small team of three or five groups will be in trouble.

At the beginning, we will ask 300 people to walk together. This is the consideration, and we can take care of each other at any time.

However, everyone has been dissipating very quickly, and the remaining 30 people are also besieging the beast. Shen Lang wants to swear them again, and it's too late.

Besides, these are big-aged identities, not young people who are new to the beginning. They don't need or need to take care of them. They make the best choices for their own interests, and they must bear the corresponding risks.

“No big problem. Let's go!”

The sentence of Shen Lang is said to the nine people who arrived in the canoe.

They are following the Shenlang. When they encounter resources, they certainly want to collect it, but they will not affect the route plan of Shenlang.

Their speed of travel is moderate, except that the 30 people are behind, and there are small groups of people on the road who are developing various kinds of support. As a result, they are still in the middle of the whole.

There is a benefit in maintaining the middle, that is, if there is any danger, it will be encountered by others first. Some people have been thundered and safer.

The bad place is that there will not be many good things left for them. What resources are there, and they are also robbed by others.

So I went on for a long time, and there was no big change along the way.

This makes Shen Lang very boring and a bit puzzled.

Is it true that Wei Qingcheng is out of kind? What Jing Fengfeng learned was a warning that was exaggerated by his predecessors?

Wei Qingcheng knows his relationship with Qiu Lin Jianzong, so he really kindly suggested that they come to Jin Daigu?

No reason! There is really no danger. It is not far from Yuxianmen. They come here to harvest all kinds of resources. Isn't it easier than to go to chaotic space to catch other worlds?

However, Shen Lang is not good at saying anything. I can't hope that everyone will be in danger.

Up to now, there are no other people around, leaving a small team of ten people. Because some are left behind, and scattered to the front, left and right, the speed is very fast, only the more scattered.

At the beginning, many people were still in the scope of the reconnaissance of the Holy Grail. The latter has already gone beyond the scope, and it may spread from within ten miles to dozens of miles and hundreds of miles away.

However, if they are spread out, it is impossible to harvest them like carpets in the past. They can encounter some high-grade Lingcao elixir from time to time.

At this time the picture of the sacred reconnaissance, let the waves stop.

He immediately zoomed in to see the close-up picture in his mind.

There is still a distance from them. It is just entering the scope of the largest investigation of the Holy Grail. It is presented by a group of earth monks who are running back in horror!

“What’s wrong?” They all stopped.

“There is a situation in front.” The knowledge of Shen Lang has spread over the past. The scope of his knowledge of the gods has now surpassed the holy armor, but it is not wasted.

Now, in front of the induction, it has been found that there are more than one group, and there are still many people in the back who are escaping quickly.

Then, Shen Lang saw a shocking scene.

“Great situation!”

Beasts, more than one, roughly look at the hundreds of beasts! Is roaring and rushing to the front of the earth monk!

Chapter 1077 - Prohibition crisis

Shen Lang’s knowledge was examined for a while, and then his face could not help but change.

Not only hundreds of heads, but also a lot of trailing trails behind, thousands or thousands are possible!

This is no longer a herd, but a beastly tide!

Everyone else couldn’t find that far, but looking at the face of Shen Lang, I also knew that the situation was not optimistic.

Shen Lang continued to investigate. Those monks who did not chase were not running in one direction. They ran in other directions, but the number of beasts behind them was too large to run out of chase.

If they are only one, a few, or even dozens of beasts, they can stop and fight hard, and even get excited to seize the inner.

But one-time tens of thousands of fierce beasts are chasing over, not to mention the group that dominated the early days of the gods, that is, the semi-sacred environment like Shen Lang, and it is only the running point.

It is no wonder that Wei Qingcheng will fool them into here. Jingrufeng only knows the danger and knows that there are fierce beasts, but I don't know that there will be thousands of beasts.

At the speed of the two sides running away, they will soon be here. Because the scope is getting bigger and bigger, the direct impact on them may be only a small part, but it may be directly hundreds of beasts.

Thousands of Shen Lang have only run, but hundreds of beasts are not a problem. After all, such a huge extraterrestrial demon, he also confronted hundreds.

But the other nine people will be tired now!

One, two, three, four, they only have the greatest danger in the early days of the gods. The other five are the closest companions of Shen Lang, and of course they can't let them take risks.

Under the current state, it is impossible to save everyone. Even if he did his best, it was too late.

Unless you are flying fast, see one catch one, and put it all in the world of heaven.

But that is the secret of Shen Lang. Now I don't know about the 1 2 3 4, and I can't let other people know. Or do you know when to murder him? After all, even the rivers directly want to replace them.

So now it is not appropriate to bring them nine people into the world of heaven.

All the analysis, but in an instant, the Holy Ghost also scouted the speed at which they came forward.

At this time, Shen Lang has already released the spacecraft magic weapon, allowing them to enter the spacecraft, and then directly drove the spacecraft to the air.

The spaceship is a large magic weapon. Of course, it cannot be as flexible as a cloud disk. It takes time to get bigger and start up. When they boarded the ship, they heard the sound of thunder.

It took a hundred meters to fly on the spacecraft, and it was already visible to the naked eye.

The earth monks who came to watch the peers swiftly swept through the mountains and forests like a dog. The back is a herd that completely destroys the flowers and stones. These beasts are huge, some are super long, some are fast, and some are different in shape.

“Do we want to wait for them?” Zheng Yumeng whispered a question.

Even if she has very little experience, she can see that the current situation is already in crisis. If they want to land, or stop, etc., it is likely to be involved.

However, the “old grandfathers” who came together all naturally let her think of her grandfather. Now they are chased after they have been chased. It is very pitiful. If they don’t care, the consequences are likely to be crushed by the beasts.

“That’s too late.....”

When Shen Lang spoke, they felt that the spacecraft stopped rising.

Everyone is at the bow, looking anxiously below. Although Shen Lang is too late, but to stop the spacecraft, naturally still want to give the following people a chance.

The spaceship was so big that it stopped in the air and they could definitely see it. At this time, the call is useless. After a word is said and then passed, it has already been a big difference.

But what makes them very puzzled is that everyone is still desperately flying forward as quickly as possible, and there is no meaning to go to the spaceship and fly up!

“They...” The canoe was also surprised to ask.

However, before she asked, Shen Lang had quickly answered her and explained the situation to her.

“The spacecraft did not stop deliberately. It could not fly any more. It has been invisibly banned. At this height, not only can’t avoid the beast, but it becomes a conspicuous target!”

Everyone was shocked when they heard it, and then they immediately understood it.

In order to transform the power above the gods, it is possible to fly to a certain extent, but they are all kept flying between the mountains and trees, but not flying from the air to the heights.

It was a bit weird to start watching them. Now I understand that I must have tried it first and found this prohibition. It is a target, but it is not on the ground.

There are many people on the ground, as long as they don’t fall on the last one, there is still a little more chance.

Shen Lang discovered this and understood many mysteries. It is no wonder that Yuxianmen will not come here to explore, because it is equivalent to forbidden flight, the light is on the periphery, the interests are not attractive to them, the deeper and more dangerous, like encountering such beasts, can not fly from the air using magic weapons If you go, it will be a big problem.

It is now a bit late to find out, because from the naked eye, to the distance that can be attacked, it will take a while.

The spacecraft magic weapon is such a giant monster suspended in the air, and immediately became the target in the eyes of the fierce beast!

While the monks continued to run wildly from underneath the spacecraft, some of them continued to catch up, and some directly targeted the spacecraft as a target.

The height of 100 meters is not high, but it is not too low to say low. Many savage beasts leaped up, and they were up to tens of meters in length. They could not be attacked, and they did not stay. After landing, they continued to chase the past.

However, there are still three types of attacks on the spacecraft!

The first category is the flight class. They are the fastest ones to catch up with the beasts. It is also estimated that there are prohibitions on them, so they are also catching up at low altitudes.

The spaceships in the air now mean that they are blocking their fronts. They will not continue to chase the people directly, but will attack the crowd above the spacecraft.

The second type is huge, and some heights reach twenty or thirty meters. The speed of running is not so fast, and the step is large. For the spaceship in the air, the beasts of a few meters will spur several dozens of times, and they will only hit several times as much as they can.

There is another category, which is quite special. They are not so big, but they are very flexible and clever. They ran to the towering trees and boulders, and by the height of their feet, they leaped to the spaceship.

Most of the beasts continue to catch up with the monks on the ground, but because the base is too large, the light is now diverted to attack the spacecraft, and there are also nearly a hundred.

“Go in!”

Shen Lang let them all go to the cabin, and he will face these beasts by himself!

Chapter 1078 - earned a lot

Liu Yejian appeared in the hands of Shen Lang. When everyone went in, he added another sentence to let Dorothy stay.

The reason is not to say more, Dorothy understands naturally.

When it was said that it was too late, for a moment, all the dozens of beasts that attacked the spacecraft, the fastest ones, had already arrived near the spacecraft, and naturally they were the fastest flying beasts at low altitude.

But in a certain range close to the spacecraft, their speed immediately slowed down, as if they encountered great resistance.

This made them scream, but the sound came out, and it was much slower than usual.

At the speed of these fierce beasts, they saw changes, and there was no time to ponder them. It was too late to change. The other beasts that came one after another went slower and slower.

This is the field where Shen Lang released the half-scented scene!

Within this range, everything is affected, and he is not the same, not only does not slow down, but can be faster, almost as far as he can.

Liu Yejian keeps on speeding out the sword with the speed that the naked eye can't see!

The Liuye sword is extremely sharp, and now it is the Shenlang with the half-sweet power of the blessing, no matter how hard the skin of the beasts, they are all quickly torn.

Shen Lang is even more accurate in every sword, and then directly into the heart, and then add a sword, directly dig out the inner Dan.

These fierce beasts, which were originally very powerful, hang directly before they have reacted.

And Dorothy followed him, absorbing the blood beads in the back.

The field of Shen Lang also opened the screen of Dorothy. Although her speed is not comparable to that of Shen Lang, she can maintain the usual speed, and the speed is her specialty.

Therefore, the cooperation of two people is like a pig killing a blood, without causing a little waste.

Those beasts with only a few meters in their heads can be solved with one sword, but those huge beasts of twenty or thirty meters will take a little more effort. But it really takes a little more work...

When the willow sword is tearing the outer skin of the behemoth's heart, the swordman smashes out and crushes the heart!

And Nei Dan, Shen Lang also sucked out of the air to start.

Although the speed of Shenlang is already very fast, after all, there are dozens of beasts that continue to come. Their power is also very strong. The field can only hinder them, making the speed slower obviously, but not really. Fix it in the air.

Like those giant beasts, they have been leaping vigorously and rushing up, and the impact is stronger than the flying beasts and those jumping powers.

So there are still a few heads hitting the spacecraft, directly letting the spacecraft tremble.

Eight people in the spacecraft, together under the leadership of the canoe, came out together and attacked the huge beast that struck the spacecraft.

They can't look at Shen Lang alone to fight. If they fight with dozens of heads, they may drag the legs of Shen Lang. But now that Shen Lang has dragged on most of them, they are besieging a small number of missing net fish, it is not a problem.

Eight people became two groups, and they were familiar with one, two, three, four, so they cooperated with one attack. The raft was with the rain, Zheng Yumeng, and the wind and no one attacked one.

Their purpose is to help solve a small part of Shen Lang, but after all, there is too much difference between the strength of Shen Lang and Shen Lang.

When they haven't gotten it yet, Shen Lang has solved the other beasts and solved the other monsters that left them and the ship.

However, this is also an opportunity to exercise. Shen Lang does not blame them for not listening to the arrangement, and they are dealing with the giant beast.

The beast that killed the scorpion, without power support, will soon fall from the air. Shen Lang is paying attention to it. First, kick the body of the beast that has been drained of blood.

Dorothy is a little busy, but there is still some time to drain the blood. Shen Lang also helped to add strength and let them stay.

Huge power is able to walk through the field, including dead bodies that have no support, because the weight is not light, it will fall slowly. But only the blood that was sprayed out, the little weight is floating in the field.

Therefore, there is no need to be afraid of wasting, and to collect Dorothy one by one, this is a great resource for her cultivation.

Because it is Shen Lang's shot, although dozens of shots have been destroyed, the whole process is still very fast. There are a large number of fierce beasts that have been chased and run away, but there are also people who have been chasing them.

These are in the back, of course, the slow half-shoot, and there is no strength to attack the airship. But seeing the previous goal has been difficult to catch up, so I paused and looked up and wanted to wait for the attack on the spacecraft.

The bodies that were kicked down by Shen Lang at the moment gave them a big shock.

Especially the bodies that landed down, the blood is gone, and the dryness is too fast to recognize the original shape, which makes them feel a little fear.

A beast that can evolve to this extent, a beast that can be so hordes of action, knows the goal, knows that it is a good skill.

Realizing that this is not a strong enemy they can provoke, they immediately began to retreat.

However, these fierce beasts have no principles and loyalty. For a dead body, a rude one, and then turn around in the direction of the head.

It seems that countless herds have been dispatched. They feel that they have been offended by being alarmed. They should also regard the human monks as prey, and they are prepared to arrest the teeth.

Now these dead beasts are not wasted, but they dare not stop and enjoy.

They lost their heads in the canoe, but they wanted to take Nedan. They were not good at it. It was difficult for girls to open their mouths and not change their colors. So it was still done by Shen Lang himself.

One two three four is obviously weaker. Only the four of them in the early days of the realm of the gods are finally reluctant to maintain the fighting, or under the limits of the field. It is also solved by Shen Lang.

Dozens of powerful beasts of blood, but it is very exciting to make Dorothy earned a pot full, for a long time do not have to worry about no resources.

Seeing that the last corpse fell, the remaining murderous beasts took them together and they didn't dare to stay.

Shen Lang took them down and took the spacecraft magic weapon.

“Other people... Will they be eaten?” Zheng Yumeng looked at the distance with a snack.

Everyone chased away from the direction of the departure, except for the dust that was in the air, it was a mess, and the shadows of the beasts and the crowds could not be seen.

Shen Lang shrugged: "Seeking benevolence. Adventures and dangers year-on-year, this is everyone knows. If you follow the previous agreement, a team walks, not to escape. This is their own choice, self-seeking How blessed."

Although the team of 300 people together is difficult to resist in the face of thousands of beasts, they are all together and can be gathered in the spaceship. Even if he can't fly away, he and the Pope will be undefeated. And as always, by killing chickens and monkeys, repel these wise beasts.

#### Chapter 1079 - Hidden

Everyone is a bit embarrassed, and Shen Lang's argument makes sense. If it's not because of their greed, it's not going to be so out.

It's not very meaningful to continue to chase them now. On the one hand, many people are scattered. Those who have just ran from below and left the road are just a small part of them. There are still many people running away. Different directions.

Of course, a few of them are completely obeying the arrangement of Shen Lang. They are also fortunate that they have enough respect for Shen Lang. If they are greedy and follow other resources, they may be finished.

Everyone looked at Shen Lang and waited for him to make the next move.

Shen Lang hesitated a little and made a decision.

"Go ahead!"

This decision made everyone a bit surprised. Although they are safe, it is because the strength of Shen Lang is shocking, and because only part of them attacked them, there are more left.

Even if they don't know that there are thousands, there are hundreds of them just seen. And there are quite a few who have returned. If you go on, look for what they have encountered...

"It doesn't make sense to go back. It was safer to go through a big cleanup before."

To put it simply, Shen Lang began to move forward.

Others quickly followed, and immediately wanted to understand.

Compared to the majority that just left, only a small part of it was returned, and it was all eaten. It can be said that the obstacles in the front are all emptied. At this time, going backwards, you may encounter the returning herd, which is safer.

They are all based on Shen Lang. Even if they don't understand it at all, they will follow suit. Now they want to understand, and of course they follow it more firmly.

All the way to verify the conjecture of Shen Lang, in addition to being overwhelmed, no more vicious beasts.

They also vaguely know why the intensity of all kinds of exotic flowers and plants is greatly reduced. The herd group like this will not be able to destroy every corner, but it will lead to a sharp drop!

Ordinary flowers and trees can recover very well in a few years, and all kinds of spirits and herbs can not grow out. There is such a danger, fewer people enter the collection, can stay, and of course the year is getting higher and higher.

The beasts probably won't go to the periphery, so the grasses everywhere are everywhere, generally not visible, and they can be calmly waited for them to grow better before someone picks them. Of course, the key is the deeper the environmental factors that are better.

The more you go forward, the more you see the extent to which the forest is trampled, and the more people are scared, you can imagine what it was like here.

Before the Shenlang, which was not interested in picking in the periphery, it is now up to the heart. Apart from all the way forward, from time to time, when the dangers of the gods are inspected, it is convenient to check whether there are any good resources.

In addition, the entire team of Scouts reconnaissance, if there are any resources that have not been trampled on, take the initiative to take them around the road to harvest.

Of course, these resources still let them pick it, and Shen Lang himself still can't see it.

“Yes, there is a good place here!”

Because they were harvesting along the way, they did not travel very fast, and at this time Shen Lang took them to a place.

This is a small pit, although it is also in this film, but because there are huge stones in front, the bottom is a pit, so even if it is not passed from above, running over, it is also on the boulder to step on the borrowing force, directly jumped over Pit.

This pit is not deep, such as a pot-shaped depression, the deepest is not more than ten meters, not a regular circle, the area is about two or three hundred square meters, the diameter is less than 20 meters.

Whether it is the monks or the beasts, they are very powerful, and one can be far away, so the grass in the pit has survived.

“These...all are snow Linguo!”

Two people, the canoe and the rain, looked at the grass in the pit in front of them, could not help but stunned.

In these two hundred square meters of pits, in addition to a variety of unknown flowers and plants, there are dozens of fruit grasses.

“It's a bit similar, but it seems to be higher than Xuelingguo...” The rain whispered.

Shen Lang bid for Xue Lingguo for her, and the snow-fruited fruit that was once guarded by the Ice Palace in the dead forest was also picked by her personally, so she was impressed by both the fruit and the main stem.

Shen Lang smiled and said: “Whether or not, this should be the right fruit for your ice palace, and the efficacy will only be high and not low.”

Not to mention whether the variety here is necessarily better, at least the environment here is much better than the dead forest, and this area is almost a few hundred years, and the efficacy is definitely very good.

When they heard their conversation, others understood that since this is suitable for the Ice Palace, they will not pick it, but let the canoe and the rain fall.

This place is still a dangerous area. They are not in a hurry. They nod their heads and go straight to the pit.

“Wait!”

When they leaped, Shen Lang also waved them back in addition to the opening.

Although everyone has limited adventures, they have come here today and have seen the beasts of the beasts. They are also very vigilant. Found it wrong, just look around.

They stood on the boulder in front of the pit, but now it is under the boulder, suddenly there is mud blasting out, and then a few figures flew out!

“Hidden well, I am also careless.” Shen Lang sighed.

After the canoe and the falling rain fell on the ground, they immediately stood guard. Everyone looked at several figures flying up the boulders.

Standing on the boulder, I saw a few young people in their twenties.

This makes Shen Lang a bit unexpected.

Even if he cares about it, he didn’t investigate it, but with his realm, he could not let him find under the boulder naturally it is a super master. It is only a few young people hiding now, and it seems that the strength should be in the early to mid-level of the realm.

Just as they had just arrived in the city of Yuxianmen, the people brought by Jingrufeng were almost the same. That can not let him discover that nature is not the ability to hide, but should be the corresponding magic weapon.

“Where is the shards? Look at you, it is not Yuxianmen. Just now you guys caused the animal tide?” A young man in the middle of the station asked.

During the talk, they are also looking at the waves. There are only four of them, and there are ten on the side of Shen Lang, but they are not panicking.

Just a word, let Shen Lang know a lot of information!

This realm will dare to come here, you can go to this area, know the animal tide, and can also avoid it, also know that there is a Yuxianmen recently, it can be seen that this is a child born in the famous school.

Then the young man waved his hand impatiently: “Give me all the things you have harvested, leave these little chicks, you can get out, the young master spares you!”

Chapter 1080 - Mr. Kitan

Although I can see that this is a child of a famous school, the other party will actually say such a wonderful condition, or let Shen Lang be a bit stunned.

Born in a famous school, he is used to being respected, and he can be arrogant and arrogant. How can you see a certain amount of eyesight, how can you say this to an enemy who doesn't know how many times powerful?

Looking for death?

Because of the stunned words of Shen Lang, one, two, three, four, immediately stepped forward, staring at them four people coldly.

“Now I apologize! You can spare you!” Shen Yi said coldly, and made a murder.

Previously on the spacecraft, they took the initiative to take the shot, but they were directly shot by Jing Fengfeng, so that they all felt very faceless.

Encounter powerful enemies, like the beasts that have just gone, they still need to protect themselves. If little things can't be dealt with, what value is there to stay with Shen Lang?

When they took the initiative to vote, whether they were or everyone, they only knew that Shen Lang was stronger than them, far from the huge gap.

In other words, at the time they still had the qualification to be a thug, and now the gap, even the thugs are not qualified, it really can only be a barbarian to be a slave.

So this time, all four of them were all God-prepared and did not dare to have the slightest meaning.

From their perspective, it can be seen that the four people on the opposite side, three of them are similar to them, and only one may be a little stronger.

But in the age of twenty-something, the experience should be limited, which they can grasp.

"What do you say? Apologize for your humiliation?" The arrogant young man's exaggerated ears listened as if he had not heard it clearly.

"Young Master! They said they would apologize to you!" Another person smiled and cooperated with him.

He sneered: "Hey! Give them a chance, all apologize to the young master! Put on ten eight heads, ring your head!"

"Yes, yes, it's good for you."

The identity has basically been confirmed, the other three people are the followers of this self-proclaimed young master. There is also a stronger one, it should be to protect him.

Now they are on the boulder, the area of the boulder is at least 100 square meters, it is impossible to quit, and it is necessary to slam the head, naturally it is to use the head to slam on the stone.

Shen Yi just like that opening, still want to stay a line. If it is a stronger background than Yuxianmen, then killing them is to cause trouble for Shen Lang.

But now this is even more open. This is not only an insult to them, but also counts Shen Lang and the ladies, they can no longer reason.

The four men joined hands and separated the other four people from Shen Lang and then launched the attack directly!

They came from a place. After the first shot defeat today, when they were harvesting the spirits, they also discussed each other a lot.

So now they are not a single shot, but cooperate with each other, each playing their own specialties!

“Roll! Yangcheng Mutianjia young master is here, how do you want these old husbands?”

Among the other four people, the strongest one screamed, and at the same time, the hands were simply pushed, and immediately formed a protective circle for them, blocking their four attacks directly.

Falling in the eyes of Shen Lang, it is very real. This stronger person is probably equivalent to the middle of the realm of the gods, and it is about to reach the peak of the peak of the gods.

It is really hard to make up for the difference in a realm. Although he is still worse than Jingrufeng, it is still very easy to block their attacks from one to two.

This should also be the foundation of the young master. but.....

The silent wave of silence, suddenly reacted.

Whether in the world or in this world, if you want to cultivate higher, you must take up more resources. And resources are often proportional to status, the more powerful forces, the more resources.

Under the same conditions, such as the same martial art, family, the one that can occupy the most resources is often the one who is in power.

This involves a problem, whether it is the owner, the head, or the elders and elders behind the scenes. In addition to personal talents and identities, you must also be embarrassed, and you will never be young.

In simple terms, it is often older and higher. Because it occupies more resources, it also cultivates a longer world.

So these four people, probably from the beginning, are concerned with one, two, three, four of them. Because they are all a lot of age, according to normal understanding, it will definitely be the strongest.

And Shen Lang and some of their girls, in their view, should be the younger generations brought by these four old guys, so they are ignored and ignored.

Only this explanation can be made, or else it will be arrogant and arrogant, and it will not be a disgusting opponent to provoke an unbeatable opponent.

“Who are you cleaning up?” Shen Lang faintly ordered.

This forced to be too technical, he couldn't read it anymore!

Several of their girls, just beside them, are not idle, and are also paying close attention to each other's situation. Even if they have limited experience, at least they can have a comparative reference.

Now, of course, I know that one, two, three, four can play the other three, but will be the strongest one.

However, Shen Lang did not say who to let, they need to quickly measure.

There is a direct calculation of the canoe, and the wind has no time to advance to the beginning of the transformation of the gods, of course, can not let her. The experience of falling rain and Zheng Yumeng is not enough, and I don't know if it will be dangerous.

The rest is the most suitable for her and Dorothy. This kind of effort is not good for others.

"I come!"

At the same time as saying her nebula chain has already flown out!

The defense in the middle of the realm of the gods blocked the attacks of one, two, three, four, but the realm of the canoe was higher than him. The nebula chain was just as powerful as the magic weapon. It was directly and punctuated, and he had not had time to react. I have already tied him up!

"This, this..." The man couldn't help but look at the canoe with incredible eyes.

Just this shot, he has already let him know that others are much stronger than him, and that his chain is tied with a chill that makes him tremble.

"It's too arrogant, I can't stand it anymore! Please concentrate on dealing with the three of them!" The raft was afraid of one, two, three, and four, and immediately gave them a step.

One, two, three, four did not take care of the embarrassment, and quickly strengthened their efforts, and the other three people quickly attacked the past.

Masters of Heaven, they really disregard Shen Lang and others. Just waiting for the shots of the boat, let them focus their attention, and found that except for a girl, the other can not see the depth of strength!
