

First Strong 1081

Chapter 1081 - Force information

Perhaps it is because the signs of the Yangcheng Mutian family are hard enough, and no one is moving them. Perhaps they are usually in the greenhouse, and they ran out for the first time.

Judging the enemy's situation, they have made a great mistake. And now the battle scene is stunned, it is even more taboo!

They were one, two, three, four, but they took a sigh of relief and spent a long time trying to express themselves in front of Shen Lang. Just lost a shot, let them feel that there is no room for manoeuvre, so this blow can almost be said to be desperately killing!

Although their strength is basically the same, but four to three, it is already a great advantage. The inferior side, also lost the opportunity, almost could not hold for a few seconds, and was quickly won by one two three four.

“Give me a slap!” Shen Yi originally wanted to kill them directly.

But just after the canoe shot, it has been given the inspiration of Shen Lang, and she just tied people, and did not directly strangle, so Shen Yi did not dare to rashly decide to kill before he was clear about the use of the waves.

However, the other party's rudeness still has to be punished.

So this time, when the three of them were left behind, in addition to the four simultaneous pressures, they directly kicked the knees of the three people.

The three masters of the Master Mutian, who were controlled, slammed into the boulder, and the pain was inevitable.

“You, you are a big dog...” The young master of the day, even if the pressure has made him sweaty, but there is still a swearword.

“No matter who you are! As long as today, I admire Tian Zhengde will inevitably annihilate your entire sect!”

“There is so much nonsense in the dead!”

Shen Yi’s unruly foot stepped on the past from the back, and the young master who claimed to be admired by the gods was degraded on the boulder, and immediately got a nosebleed.

“Don’t move the young master! I…”

The stronger one, seeing this scene directly roared, but he was ***** by the nebula chains, and he was struggling to struggle.

Seeing that he wants to say something, Shen Si gave him a slap in the air and made him almost coma.

Shen Lang nodded to the falling canoe and signaled him to put the man.

The canoe immediately recovered the nebula chain, and the man fell to the ground.

“Don’t move your young master, it doesn’t work, but you need to cooperate…”

The words of Shen Lang have not been finished yet. The man opened his arms fiercely, and the raging power rushed directly to the 1 2 3 4, and wanted to save the three of them.

He also made a wishful thinking. When necessary, the other two can be used as victims. As long as they can delay a little time for the young master, they still have the magic weapon and other preparations.

But what he couldn’t think of was that Shen Lang was just a casual beckoning, not only his offensive was completely invisible, but the whole person immediately flew to the front of Shen Lang.

The next moment, he felt that his body could not move at all.

At this moment, he really felt desperate!

I just tied him up in a canoe, but I was a little unwilling. I thought it was because of the sneak attack, plus a very good magic weapon. If he is fair, he will definitely not be recruited.

But now he is doing his best, but the other party is just moving his fingers!

“Do you want to put him to death?” Shen Lang’s fingers moved, and he flew out with a hurricane. When he took time, he cut off one of the arms of the admiral.

When Mu Tianzheng screamed and screamed, Shen San had already taken a mud mass from the pit below and stuffed it into his mouth accurately, avoiding loudly attracting the beast.

“Stop! I don’t move, I won’t move again!”

Just the scene, shocked him directly!

In the past, whether they pressed Mu Tianzheng to the ground, they still kicked their faces and the whole face was still slightly injured.

In his view, these people only express their stance through humiliation, but they still do not dare to fight with the Mutian family.

But this is different now, the arm that is cut, there is no way to repair it, it is directly disabled. In contrast, the mud inside the mouth is nothing.

He didn’t dare to take risks. In case of his resistance, the other party killed the young master directly. Even if he lives alive, going back will be worse than death.

“Excuse me... How do you want to let the young master?” His tone has already collapsed, and he added a word: “If you can let go of the young master, you can kill me!”

“You said this, it seems that your life is as valuable as your young master’s life?” Shen Lang tweeted.

“I didn’t say that, of course I can’t compare with the young master... Can you help the young master to stop bleeding?”

He was anxious, and if he could move, he would go to the treatment of Tian Zhengde in desperation.

Shen Lang nodded to them a few times, indicating that they stopped the blood at the broken arm of Mu Tianzheng, and pointed to the mouth, to get out the mud.

One, two, three, and quickly got alive.

Although they don’t know what the intention is, but as a beater, they don’t need to understand the boss’s intentions. Just do it.

Mu Tianzheng just screamed because of the pain, but also because of suddenness. It’s been a while now, even if it hurts, it’s just awkward, there’s no hysterical shouting.

However, one of his arms was broken, the blood was all sprayed, and his face was half-faced by nosebleeds, which looked very miserable.

“What do you want to do... What are your enemies with the Mutian family...”

When Shen Lang moved his finger, he let his arm break, and the arrogant and rude master of the heavens finally realized the power of the enemy and never dared to be tough.

Shen Lang made an arrangement for some of their girls. After the canoe and the rain, they went on to pick up the snow-fruited fruit. The three people of Dorothy went to the heights of the trees.

Of course, they don’t really need to be sent to the whistle. It’s just a reason. Otherwise, let them watch the cruel scene of torture and torture It may be a bit unbearable.

“You two said together, tell me the situation of Jin Daigu one by one, or else...” Shen Lang pointed to the other two followers who were scared to speak.

I don't know if it is Shen Er or Shen San, decisive shots, and learning Shen Lang, directly knocking out one of the entoured arms!

The blood was sprayed directly onto the face and body of Mu Tianzheng, so that he felt the temperature of the blood, and the whole person was not good.

The entourage who had been cut off his arm, clenched his lips and did not dare to make a sound, and the whole person shivered.

Another follower, the two people who watched together were cut off their arms. How to see him could not be spared. It is very likely that he would cut his arm in the next sentence.

At this time, they were given blood to stop them, and they were not so tightly restrained. Let him hurry to the top of the boulder and smash his head.

“Please spare us! What you want to know, we must say, say!”

Chapter 1082 - What do I want your dog to do?

These two followers, of course, will not know too much, can have value, it should be this bodyguard and this young master.

However, at this time his desperate gimmicks also directly shake the hearts and minds of others, not to mention the two who have already broken the arm.

I am afraid that Shen Lang will continue to shoot the young master, and the bodyguard will quickly tell him about the situation he knows.

Mu Tianzheng did not stop anything, he was spitting in the mouth – there was a lot of mud in his mouth. Perhaps in his view, the information of Jin Maogu is not a secret at all.

After waiting for the bodyguard to finish, Shen Lang's hand was moved, and Mu Tianzheng flew to him.

“What do you want to do? Didn’t he tell you anything?” Mu Tianzheng was taken aback.

Shen Lang smiled and looked at him. “I don’t believe him. Now I want to listen to your supplement.”

“I, I don’t have anything to add, I don’t know as much as he does.”

Although he was awkward before, he was a little far away from Shen Lang and only needed to raise his sight slightly. But now that he is in front of Shen Lang, he has to look up and look up, which makes him very unaccustomed.

“I won’t believe you. When you are finished, take your memory and check it out. If anything is hidden. Hey, you know.”

Originally, Mu Tianzheng was caught in front of Shen Lang, and he was already very nervous. After listening to this, he immediately became secret.

He thinks that Shen Lang wants Jin Haogu’s information, but it is an excuse. The fundamental reason is that he wants to read his memory and understand the information of the Mutian family!

In order not to be read and remembered, he must block this excuse, so that Shen Lang has no reason to move him!

Therefore, compared to the bodyguard just now, Mu Tianzheng was quick to tell the information he knew about the Golden Mile, one by one.

As a result, Shen Lang has four sources of information. Among them, Jingrufeng and Weiqingcheng can prove each other, but they are few. Now the two of them can also prove each other, but the amount of information is much larger.

Among them, Mu Tianzhengde said that it is more than this bodyguard knows.

“All said, this is all I know, I can swear! If I have a hint of concealment, let me not die!”

After the completion of Mu Tianzheng, the courage and the swell of the waves.

“Do you dare to swear? Read my memory, not to blame the information of our family?”

In the end, it is a child of a big family. Even if you are jealous, you have not lost your duty. If you are involved in family secrets, you still dare to resist. Of course, it is also because it has not yet reached the lifeline.

Silent waves are dumb, no wonder this Mutian Zhengde has just cooperated!

From the expression and the emotions of his speech, as well as the speed of speech, it is not like editing. After all, it is very difficult to make a reasonable and unreasonable logic error, especially when it is quickly told, it is easy to get stuck. Unless it is a professional liar that is used to it.

It is now known that Mu Tianzheng has misunderstood his intentions.

Mutian family? Turn off his ass!

When Mu Tianzheng was hard-pressed, the other three people were nervous. In the style that they had just expressed, they would not have more warnings and would be directly shot.

“Good. I don’t read your memory.”

When they had not had time to breathe a sigh of relief, Shen Lang laughed again: “What should you do now?”

“What, what do you mean?” Mu Tianzheng looked at Shen Lang inexplicably.

Shen Yi is still more likely to try to figure out. At the beginning, he also took the lead in relying on Shen Lang.

At this moment, he has already seen it. Shen Lang wants only the information of Jin Daigu. He has no interest in the Mutian family. Just looking at it, it should be possible to confirm the authenticity – Mu Tianzheng does not feel more important. .

That is no value now!

“What? What did you say? Let’s leave all the receipts, and then get out!”

As soon as I heard this, Mu Tianzheng’s face changed.

He just took three people to go deep into the adventures of the Golden Mile. Of course, there are pictures. But if you come here, no matter if you come in from that place, you will definitely gain something.

Now that the two men have broken their arms, it is already a great loss, and they have to hand over all the harvest. It is really unwilling!

“It’s also rude to our lady, extremely disrespectful!” The one just said, by the unwelcome, the arm of another entourage was also cut off!

This has no sign of hands-on, almost scared Mu Tianzhengde!

Staying in Castle Peak is not afraid of not burning wood, now it has broken one arm. If you break your arm again, or even put your life here, it will be a big loss!

At the time of his life, he decisively gave up resources and quickly struggled to hand over a storage bag.

“This is my harvest, and... everything I bring. I hope that you can speak and believe, let us die!”

The other three people felt the pressure was sent, and the strongest bodyguard couldn’t take care of the other. He quickly handed over the storage bags on his body. The other two have no space storage bags.

Now they have one person left to be in good condition – in fact, it is also injured, but it is the internal injury caused by the nebula chain, there is no direct disability.

“Can you leave the same magic weapon, and some healing drugs, or else they can’t hold it for a long time!” He held Mu Tianzheng, and then ran his head to Shen Lang.

Mu Tianzheng and the two broken arms of the followers have been stopped, but if they do not take the medicine in time, they may still be infected.

Shen Lang looked at the two storage bags, and with his much higher realm, he directly cut off the spiritual connection between their original owner and the storage bag.

“Do you have a letter? I said that I will spare your life?”

This words fell in the ears of three people, could not help but look pale!

Just said that let them hand over the proceeds, it seems that the old and old followers said that this young man really did not directly promise!

“You, you, you...” Mu Tianzheng trembled and couldn’t think of the young master of his family. He would be so teased.

The death of a fierce battle, but also got a name, now it is being played and still die, too humiliating!

“Just kidding Don’t be afraid. What do you want your dog to do? Kill you and throw it here, and pollute the land!”

Seeing that Shen Lang laughed, and seemed to disdain to kill them, the four talents were relieved a little.

“But it won’t, and soon there will be a beast to come over and eat you bones...”

The bodyguard who supported Mu Tianzheng, could not help but fall, and both of them fell on the ground.

They are completely desperate!

It is no wonder that these people are not afraid of the Mutian family. This is in the Golden Valley. The body was later eaten by the beasts. There is no trace at all. Naturally, the Mutian family is not afraid of revenge.

At this time, Shen Lang looked at the canoe. They had already finished the Xuelinguo, and they dropped a flying magic weapon inside the storage bag, and a variety of small drugs, and they took them away.

The four people who were just desperate, couldn't imagine, this ups and downs... Mu Tianzheng directly grabbed a pill bottle, squatted at the broken arm of a follower, and screamed and screamed, only to believe that this is not a dream.

Chapter 1083 - Harvest and shadow

“You put them like this? Are you afraid of their contact revenge?”

After leaving, the wind couldn't help but ask a sentence, which is also a reminder.

One, two, three, four, they are the same idea, just dare not ask.

Shen Lang can't smile: “Did I really be the big devil now? These people are rude and rude, but they are all injured and disabled. This punishment is enough. There is no harm and no hate. Alright.”

“I don't mean this, I mean...” Feng Wuji is a little embarrassed and busy explaining it.

“Okay, I understand what you mean. This is what you admire. It must be a great source. If you don't kill him, the Mutian family will definitely retaliate.” Shen Lang is also getting right.

“But, don't forget. We are not the same as Yuxianmen. We don't have a fixed foothold. We still have to go back to Earth. Now we are in this Jinjiu Valley area. Where are they going to find us? ?”

The wind has nothing to say: “Also, since it is impossible to retaliate and get us, there is no need to increase killing.”

“Moreover, even if this is not a good family, I really want to take revenge, I have nothing to worry about.”

The current Shen Lang, already not the person who wants to take advantage of the situation in the past, has enough enthusiasm.

For those who are offended, killing and not killing is just a matter of thought.

“Right, they have these gains, you have to divide it!”

Shen Lang took all the things in the two storage bags out.

They are a group of four people, and they don’t have a lot of harvests, but obviously those outside the lower value are not harvested. Only after waiting for this relatively deep area, they have collected some.

These are still not the eyes of Shen Lang, just like the ones they just picked.

The wind was no good and the canoe was not polite, and it was immediately distributed. In addition to them, it also gave a part of one, two, three and four. Their efforts and loyalty are also visible.

Shen Lang himself is the same magic weapon that has left Mutian Zhengde!

Now he looks carefully, it should not be an algorithm treasure, but a substance.

This thing is like a small stone, but when it is taken out, it immediately covers up everything around it. Just like the scope of their ten people now, it seems to have become a big stone, and you can’t feel the breath of the living.

It is because of this thing that they just hid under the Baiping boulder, and even Shen Lang was on the boulder, and they were not aware of it. He didn't notice until the shot cleared the mud.

It is also estimated that the beasts who passed by before, because of this, did not notice anyone under the boulder.

Mu Tianzheng did not say that Shen Lang did not extract his memory, but it can be analyzed that this should be an reliance he dared to come to this Golden Valley!

After all, it is natural danger that you can avoid it with care and caution, and you will do what you can. If you really can't resist it, give up. The greatest danger is, on the one hand, the deeper and more powerful beasts, and the other human beings who come here to take risks.

With this mysterious substance that hides itself and does not reveal any breath, it can greatly avoid danger.

Just like, just if it wasn't for Mutian Zhengde who wanted to come out and search for the waves, but to keep hiding underneath, they would naturally leave after they took the snow-capped fruit.

So the two sides will not meet at all, they will not be injured, and will not fall to the present.

However, after studying it, this mysterious stone seems to be covered with a strong and powerful stone, covering everything else, just like petrifying everything around, but it can't be hidden in itself!

Therefore, Mutian Zhengde, they can not stand by to watch the beasts rushing, must be hidden under the boulder, and also blocked with mud.

Of course, this is not so important. If you can cover up the atmosphere, you can still hide. Such a good thing, even if there is not a lot in the mainland of the island, at least it will not be the level of Mu Tianzheng.

When Shen Lang studied this, they were quickly assigned.

Falling in the canoe and falling rain did not take so much, because just in the pit, they got dozens of high-level snow Linguo, which is very suitable for the Ice Palace.

So it was hard to give Zheng Yu Meng a part, then the wind is no Ji, and one two three four.

“Do we have to go forward?” They all looked at the waves.

The memory of Jingrufeng does not know, but Wei Qingcheng said that the situation here, as well as the story of just two of them, everyone heard it together.

Especially Mu Tianzheng, he said the most information, many of which Weiqingcheng did not say.

For example, the reason why everyone dare not come here casually is because there is a king-level beast in the Golden Valley, and it is probably not a one!

Some people have seen different king-level beasts here, but no one knows how much there is, and the degree of danger is extremely great. Generally, the children of the restricted door cannot go anywhere.

But it is precisely because of this relationship that there is a lot of resources for such a forbidden land, and there is no one to mine, and there is often a long year.

Mu Tianzheng this time, I am not here. The ones that are getting now, for them, are just appetizers by the way. What he really wants to harvest is to go deeper into the area and get the elixir for more than a thousand years, even thousands of years!

Without him, nature is to speed up cultivation, in order to be able to leap quickly.

King level beast!

This is not a strange concept for them, because more than a year ago, when they went to the dead forest with Shen Lang, Nan Yiye, and Qiao Shuyu, Shen Lang discovered that there might be a king beast.

At that time, the fierce beasts who were thousands of miles away listened to the call and went to worship, showing the deterrent power of the king's beast.

At that time, Xu Haoyue, who was like an old ***** in the eyes of everyone, was also a bit scrupulous about the beasts of the king. He decided not to go out with Shen Lang and stay and watch.

Later, other people only met Xu Langy with Shenlang, but did not talk about the death of the king of the dead forest. I don't know what happened.

Today, everyone saw the murderous beasts in droves. It is already very shocking. I know that there are more than one king beasts in front, and I am even more worried.

Are the fierce beasts commanded by the king's beasts?

The king's fierce beast can be sensed for humans, or all other breaths, can be hundreds of miles and thousands of miles?

All the way to here, including the recent harvest, is a huge harvest for all of them. Far better than the original dead forest, but the danger ahead is irresistible.

Although they have been advancing for more than a year, no one has yet reached the realm of the gods. It can be far from the level of Xu Yuyue.

The king's beasts, for them, still have a hint of shadow.

One two three four does not seem to understand, but can see the reaction of several of them. As the weakest group, they are even less daunting and bold.

Chapter 1084 - Former king of the beast

Shen Lang is of course a long-term care, the king is a beast, he certainly wants to find out!

I met in the dead forest last time. He was too far away at that time. He didn't have this strength at all. He naturally didn't dare to force it and leave quickly.

It is different now, he is already strong enough. Even if there is more than one, there is full self-protection ability.

In addition to exploring the strength of the king's beasts, I also want to see if there is a big difference between the king of the mainland and the dead forest.

After all, the system here is different, and the whole is much higher than the earth. Perhaps the king of the beast here is far better than the king of the earth.

It is precisely because of such concerns that he can only go alone and cannot bring them all.

If it is only a few of them, it is convenient to bring them directly to the world of Tianshu. It is inconvenient to be one or two.

The place that made him a little hesitant is because of the mysterious stone that he just got from Mutian Zhengde!

The effect of this thing is very good, if he carries it, you may be able to hide near the king's beast. If you let them take it, you can hide it safely in one place and wait for him to return and meet again.

There is only one thing...

When they asked, Shen Lang was determined!

"I decided to go and explore. The king's beast is not so easy to meet, maybe it has an opportunity for me."

When Shen Lang's words were spoken, a few of them settled down. Even with a little psychological shadow, since Shen Lang is going, they will definitely go with them.

Shen Lang then said to Shen Yi, the four of them: “You four will go back along the way, and wait for the confluence to the place where you landed.”

“Yes!” They agreed in unison.

“Don’t mind, there are not good things that don’t carry you. It’s very dangerous. Your strength is weaker. I don’t care so much. As for them...”

He didn’t say it, Feng Jiji had already smiled and helped him finish: “Even if we can’t escape the danger, we are willing to die with him.”

Listening to the safety of Shen Lang at 1234, the mood is a bit complicated.

The first is to feel relieved. If it is really dangerous, then they are the weakest, and certainly the most dangerous. Just like the monks who were chased before, the weakest ones will be first torn and swallowed by the beasts.

Secondly, there is a sense of exclusion. In the end, it is not a reliable person who is a sturdy person. It is treated differently.

But after listening to the words behind, the four people are very comfortable.

Shen Lang did not reject it, but said that their strength is not good, it is embarrassing, but it will not be multi-hearted.

And it is also obvious that for them, they will definitely take care of them, and the four of them will not take care of them.

Feng Wuji said more straightforward, they are willing to die with him. Frankly speaking, the four of them can’t do it.

“Understand, we will be cumbersome to follow. You can rest assured that we can safely return to where we are, waiting for you to triumph!”

The four of them immediately stated their position.

Shen Lang nodded and was recognized. I will just take care of their emotions. I am already giving face, and of course I will not say anything more.

The deeper and insecure here, the more people have seen it, so let's say goodbye and quit along the way.

Even if you quit, you still have to be very careful. If you come back to the herd, you still have to escape.

“Okay, I know that you are a bit worried about the king's beast.”

Shen Lang smiled and said: “Now there is no outsider, I will just say it! I will hide you first. You only need to cultivate with peace of mind. It is much easier for me to visit the king's beast.”

He showed everyone the same mysterious material as the stone, and explained the effect of it with them.

This is something that everyone didn't think of. I just thought that it was the target of those snowing fruit. It was too shocking and neglected to check the surroundings. I didn't expect such a strange thing.

Their original concern, on the one hand, is the fear of super powerful beasts, on the other hand, it is also afraid of dragging the legs.

Now these sinking waves are settled, and there is still a cover for this thing, so rest assured.

The place where Shen Lang wants to take them, they have all been there. It is only in time that the canoeing and falling rain are relatively short-lived, but they are the earliest early adopters.

They also understand the proportion of time in the world of Tianshu. When Shen Lang brought them in, everyone began to prepare for cultivation.

Originally, they also had supplies, and today they have gained a lot, and there is no need to worry about insufficient resources.

After settled in them, Shen Lang was really worried.

He carried the mysterious stone and accelerated it to continue deep inside.

With his current realm, if you use the “Phantom Meteor Step”, the speed can really be fast. However, Shen Lang is only a lot faster than when they went forward together, and did not reach the limit speed.

After all, he does not have an accurate goal, even if he knows that there is a core area in the Golden Mile, which is the gold valley in the true narrow sense. But it is not clear how much to deepen, and I don’t know the exact direction. If it’s too fast, it’s not beautiful.

And in the end, he is also for resources. Don’t care about the front, but the resources don’t look good, too lazy to waste time.

But as it gets deeper and deeper, the level of resources will become higher and higher, and nature will pay attention to it.

A dime on the ground, you don’t bother; a dollar, too lazy to be ridiculous; but if it is a thousand, ten thousand, and there is no danger, of course, do not mind bending over and picking up.

The speed of the advancement of the whole wave is still very fast. It didn’t take long before we found that there was no trace of the animal tide!

Shen Lang compared it with the sacred armor, from where he saw the beasts, to the detailed distance here.

I immediately found a problem – the herd is not alarmed!

Their group went slower Other monks are speeding forward in order to grab resources. However, most of them are still in the early days of the gods, and they have to constantly search for resources to search for resources, and it is impossible to hurry at full speed.

Therefore, even if it exceeds the sensing range of Shen Lang, it is far from limited.

Now, all the way, from the place where the herd is encountered, to the place where Mu Tianzheng is met, it has already gone deep into the place, and now there is no trace of the beasts trampling, it is a long distance.

In other words, they can't get here, and the round-trip time is not enough, but the herd is gathered from here.

This means that the beasts have discovered the traces of human beings in advance, and then assembled thousands of them together to rush the past!

The beasts generally have their own sites, and they are each in power. It is obviously unlikely that they will quickly gather to meet the enemy.

That is only the command that may be the king's beast!

In other words, the king's beast should be not far from nearby...

Chapter 1085 - pond

Shen Lang immediately slowed down the speed, and took the reconnaissance of the holy armor and the induction of the gods, and then proceeded forward after confirming the safety around.

The distance of light is only a few hundred miles away from the periphery. It should not be very deep. It has already begun to have traces of the king's beasts. The scope of the Golden Valley should really be more than a king.

He is only cautious and has not reached the level of fear. In fact, my heart is still relatively easy, because the scope of his investigation is very far, just like the herd just now, there is still a reaction time.

The only worry is that the king's fierce beast can sense the human breath from a great distance. If you hide and leave in advance, there is no way.

Now the mysterious stone can cover up the breath, which is very beneficial to him.

When Shen Lang continued to move forward, he found a pond with an area of more than 1,000 square meters, about three basketball courts.

There are pools in the mountains, not a strange thing. That is, they have just come all the way, but also have encountered streams, rivers, ponds.

But now that Shen Lang is cautiously looking for the beast of the king, it is even more heart-warming for this pond.

He instinctively felt that the pond was weird, and that the king's beast was hidden in the pond!

So he further slowed down and then focused on the situation of the pond.

With more and more close, the detectives of the gods and the investigation of the holy armor have more detailed data feedback. On the surface, it is an ordinary pond with fallen leaves, calm water and wind blowing.

But he did not dispel doubts, if the king's beast is inside. It certainly won't be stirred like a cow bathing in the water, and it can lurk in the bottom of the water.

Shen Lang continued to move forward, of course, did not forget to observe the situation around him. If the judgment was wrong, he was paralyzed by accident.

When he was close to the pond and was less than a kilometer, he still did not see any changes. He had already made a decision, that is, he would try it out directly!

With the decision, the speed of the Shenlang speeded up a bit and went directly to the pond.

At a distance of five hundred meters, I suddenly found that something was wrong next to me!

Shen Lang immediately moved to the side and looked at it quickly.

I go!

In the big tree next to him, there is a big rock underneath, and a pit is dug under the big stone. One person is committed to it.

When he looked at the past, the other party was staring at him.

Both people immediately understood that there was something hidden in the other side!

It is the mysterious stone that I got from Mutian Zhengde. This person also has it, so I hide it under this stone, so that Shen Lang is not aware of it at all.

However, the person only noticed that there was movement, or that he was already clear about the whereabouts of Shen Lang. Shen Lang was uncertain.

Because he did not find it, the other party was there first, and it was motionless under the stone. He is different, he has come all the way, and the speed has been accelerated in the last few hundred meters.

Even if you can cover up the breath of the body, but at such a close distance, God's detective can also be found.

However, Shen Lang did not show hostility!

Because this is someone who ambushes here first, whether it is discovered in advance or not, he can attack him when he is close. But the other party did not do this, indicating that others are not malicious.

When the big eyes narrowed his eyes, the man raised his finger and made a squeaking gesture, then pointed to the front.

Shen Lang can understand his gestures, just like on earth, it means letting him not talk. But the front of the finger... the biggest possibility of the target is the pond!

In addition to a few hundred meters in front of the pond, there are regular mountain trees.

However... there may be a ambush here, and it is possible to lie in the second and third person!

If they are like this person, hiding the atmosphere through the mysterious stone, you can hide it in the stone or even the earth.

Shen Lang also made a gesture to ask what the other party meant.

He will not be close to the past until he has figured out the identity of the other party.

That person still refers to the hands and feet, not words, even gestures are as light as possible, afraid of what will be alarmed.

Shen Lang is a little impatient. If the king's beast is in the pond, he will just be alarmed to see how the king's beast is.

At this time, the sound of water suddenly appeared!

Shen Lang's knowledge and sacred armor did not stop observing for a moment. At this moment, the sound of water was heard. Of course, I immediately observed it.

The sound of water can be transmitted to a few hundred meters away, of course not a small wave of water can be reached.

But the pond has set off a big wave, and the water in the pond has risen directly to a height of more than ten meters!

The spirit of Shen Lang is alive, sure enough! The king's beast is hiding in the pond!

He now has no time to pay attention to the man hidden under the stone, just beware of whether he will attack him, and his attention is placed on the pond.

“Run!”

What he didn't expect was that the man under the stone quickly quickly came out of the pothole he had dug, and when he yelled at Shen Lang, he turned and began to run backwards!

Run the wool!

If you don't have the strength, dare to lurk before the bed of the king's beast?

Shen Lang despised him and looked more at the changes in the pond.

Then he found a scene of surprise!

Just now, it was not clear how deep the pond was, and it was not certain whether there were any beasts hiding inside.

But now it is clear to see – the water in the pond is completely raised in the air!

What is the king's beast?

There is almost no water under the pond, just like the draining of the pond quickly, and the water is not scattered, but is strangely raised in the air.

“The fool runs!”

The man before the moment was already a few tens of meters away, but he still kindly reminded Shen Lang.

The next step is to understand why the man ran away because the water in the pond rises in the air, it is already very embarrassing. Now the changes are the same, and all the water comes directly to them!

Shen Lang asked himself not to be slow, so he looked at the change and did not retreat immediately. He just prepared himself or stared at the front.

It is now visible to the naked eye. The water in this pond is like a twisted monster. It swiftly swept through the air. After a while, there are less than a hundred meters left.

After this period of deformation, Shen Lang discovered that it is no longer a “pile of water,” but began to appear.

After a while, the “water” in the air quickly landed and stayed in front of the tens of meters in front of the waves.

The water in all the ponds is gone, and it is no longer a sly picture. What appears in front of him is a human figure!

The reason why it is said to be “something” is because although there is a person’s shape, but there is no soul, it feels like a puppet.

Chapter 1086 - Bullying the hard king?

Because this thing has just changed from the water of a large pond, the human figure that is now landing is like an ice giant.

Shen Lang just did not leave, now looking at this situation, of course, did not immediately run away.

The person I just discovered is already a hundred meters away, and then stopped to look at the situation here.

He has a relatively safe distance, plus a sinking wave in front, it really has to conflict, and someone can block it. This allows him to watch the fun with peace of mind.

“Oh...” The ice giant’s water-shaped monster made a sound.

“Roll! This is not where you come from!”

In this sentence, Shen Lang is not directly heard, but more like it is sensed. When the water-shaped monster screams, its meaning is conveyed to Shen Lang and directly into his thinking, just like the simultaneous interpretation.

“This is your site? I am not targeting you, just passing by.”

In the same way, Shen Lang also conveyed the meaning of this sentence while speaking.

Of course, this is also a habit. Otherwise, the realm of both sides can be communicated through consciousness, and it can be sensed without making a sound.

“Roll!” The water monster once again simply expressed his meaning.

Not much is needed, this is naturally its territory, it is also a king beast. The attitude is naturally not good, but for this level, this is already rare.

If it is not the strength of Shen Lang, may it be his attitude towards him?

Shen Lang smiled slightly, he will come here, just to find out the king's beast. Although it is not necessarily possible to kill it, take its own Dan, and so on, but also want to know the strength of this king beast.

Therefore, for the embarrassing expulsion of this water-shaped monster, he has a slight provocation.

“Since it's not your territory, it's easy to do. I don't have to leave, either by special intention or by passing.”

When I passed this meaning, I said that the momentum of Shen Lang is also rising, and it is completely a good attitude!

Such a provocation is undoubtedly very unpleasant for the king's beast.

So it immediately stretched out and gave a long, long sigh!

This time, Shen Lang did not sense the meaning, obviously this did not aim to let him understand.

The human being, who is 100 meters away from him, has changed his face.

“Come on! It’s a summoning beast!”

How far its intention can convey, in what way, the waves are unclear, but he just wants to know the king’s beast.

Summoning a group of beasts, causing a beast wave, isn’t it one of the means of the king’s beast?

“You leave first!”

Regardless of the identity of the person behind, everyone is just a meeting, and it is obvious that the arrival of Shen Lang has broken the lurking plan of that person.

Under such circumstances, the other party did not blame him for killing him by the knife. Instead, he repeatedly reminded him that Shen Lang had a good impression.

But just as his voice passed, the ice giant that had just finished smashing turned into a countless water shape again!

For the big guy who can trigger thousands of beasts, Shen Lang certainly does not dare to neglect.

In addition to the whole God’s alert, Liu Yejian appeared in his hands.

This is also the sword that was used before in the past life, but the old buddy still understands it tacitly. When playing against, it will be more handy than others.

What surprised him a bit was that the king’s beast after the water was swiftly swept away from the tens of meters above him.

The goal is the human being behind a hundred meters away!

Behind the horse, there was a mutter that didn't hear clearly. He also knew that the man was cursing with his heel.

That person must be an indigenous person on the mainland of the island. He can feel the distance so close to the pond, and he must have a great understanding of the king's beast and a plot.

After being harassed by the smashing wave of the king's beast, he was rushed to leave, whether it was the first reaction or the continuous reaction in the back!

Regardless of the original goal, leave and make another plan.

I just stopped to look at it, but also because there are Shen Lang in the back. Anyway, beating is also a sneak peek, he has the opportunity to leave.

I watched the excitement for a while, now the fire is burning on his side!

If the king's fierce beast turned over the waves and came back to him, he would definitely run without saying anything.

But now it is the king's fierce beast and Shen Lang exchanged a few words, actually bypassed the Shen Lang, directly attacked him.

what is this?

Is bullying hard?

The beast will also bully and fear that hard is normal, this should be the instinct of all living things. The issue is.....

Is he the soft one? !

This makes people very upset.

Why is he the soft one?

Just because the kid stood still, he just ran away?

The feeling of being despised by the king's fierce beast made him feel that he should retreat, but his temper also came up.

“Is this going to challenge me? In the end!”

The man had already prepared the weapon, and it was directly in his hand. It was a long line. As he shakes, the entire long rope becomes a reddish color in addition to the grip!

The long cable immediately screamed with a strong hurricane, and went straight to the water-like beast that had already reached the air in front of him.

The long cable that has flown out of the air has turned from redness to burning flames, and the length is also extended. Without a person approaching, a huge object can be bound.

The tail of the long cable accidentally touched a big tree on the side, but the simple curved shape passed over, and the crown of a big tree was completely cut, as if the tofu was crossed!

The place that was cut was burned quickly, and the entire falling canopy was blazing and the top of the trunk was burning.

The power of this long cable can be seen.

But the king's beast, but not yet as an ice giant in front of Shen Lang, still is still water.

Water is intangible and can be ever-changing!

Therefore, even if the speed is fast and the power is amazing, it is impossible to lock the king's beast, so much water, directly from the circle of the long cable.

This person is very clear that this water is the embodiment of the king's beast, so there is no need to tie it up. As long as it can tear a part of the water, it is also a wound to the king's beast.

It is a pity that since this water is part of the body of the king's beast, of course, if you want to swim as you like, you can avoid it with a long and easy way.

The Shen Lang, who is guarding the body of the sword, is already a hundred meters away. Seeing that they have had dozens of fights in an instant. That long cable is like a small fire dragon, because the speed is very fast, far from the point of view, it is not a circle, but a fire net!

But those waters are alive. Through the change of size and size, they easily and easily avoid the attack of the flame.

“Go together!”

However, for a few seconds, the man sent a request for a joint attack to Shen Lang!

Chapter 1087 - This embodiment

Shen Lang is hesitating.

The confrontation with the king's beast and the beast, at least to make the king's beasts have scruples, did not dare to attack him directly.

But this is not a human feeling, it is he who has this strength.

The king's fierce beast has just summoned a group of beasts. If it waits for a thousand beasts, it will be hard to say.

Therefore, in terms of interests, it is almost unnecessary to judge, cooperate with that person, and get the king beast before the arrival of the group beast is the best choice.

The hesitation of Shen Lang is whether this person is reliable!

Just reminded him to leave, he is also sympathetic. However, the other party did not leave after being stopped for a hundred meters. Obviously, there is also the meaning of waiting for the fishermen to profit.

He will be invited to join forces now, because it is not fixed. But what if he ran away after he shot, but the other party borrowed him to drag the king's beast?

However, at this time, there is really no time to think about it. Shen Lang is also very confident in himself, so after hesitating a little, he immediately flew over to them.

A hundred meters away, for the strength of Shen Lang, it is less than one and a second, so at the same time as flying, his hand willow sword has already shot!

People have not arrived, the sword is coming first!

The sword of Shen Lang directly blocked the whole one, and the sword net that the sword woven was followed, and the two sides that were entangled were all wrapped together.

The long cable is not afraid of being attacked. As long as it can attack the water shape, it is not a problem to attack the weapon of that person.

The king's beast does not know whether it is because of the procrastination of time, or wants to test the human strength, just did not take the initiative to attack, but is just dodging.

But now that Shen Lang has joined, let it not dare to be so casual again!

I don't know the whistling from the water, and it rang through the sky. The water in the air quickly spread to the higher air in the gap between the sword net and the long cable.

However, the sky is also banned here, so its height is about 100 meters.

In the interim, Shen Lang suddenly felt that the prohibition of the sky may not be the innate ban on the geography of the Golden Mile, but may be a ban on the mainland of the island to prevent the powerful beasts from coming out.

In the twinkling of an eye, the Shenlang people have arrived. For the escape of the king's fierce beast, he has naturally waved his sword upwards, and the swordsman has skyrocketed, directly from the bottom to the water!

The human being was not idle, and after a new force such as Shen Lang, his long ropes became more calm. At this moment, the people also followed the leaping, with the long ropes matching the swords of Shen Lang, the water-shaped The king's fierce beast is tied.

At this time, there was a strange smell in the air, and the piece of water quickly changed and condensed, and finally it became a dragon!

Shen Lang's eyes are bright, is this its body?

The beasts, the beasts, the demon, the blame, the fine, the spirit, many of them are just different in the name, and in essence they are some powerful races different from human beings.

In fact, some famous monsters in history can also be regarded as the beasts and spirit beasts of the king.

To reach this realm, not to say that "mana is boundless" is also a powerful force, and it is not surprising that it can be transformed.

Therefore, before seeing the king's beasts turned into a pond water, Shen Lang was only slightly surprised, and later became a humanoid ice giant, it is not surprising.

The appearance of the dragon is now very likely to be its body shape, otherwise it will not be so specific.

After the appearance of Xiaolong, with a long sigh, quickly facing the bottom, it was a huge water jet!

The flame long cable is of course not a product, but the water column that the dragon spurts out, because of the large amount and continuous, in the air on the part, there is a faint feeling of extinguishing it.

But that is also a master, people in the air, manipulating the long cable is not straight up and down, at this moment is immediately adjusted, avoiding the water column, tied to the dragon.

It has an ontology, and for him, there is a clearer target of attack.

Therefore, the goal of more attack on the water column is the swordsmanship of the Shenlang, and then the sinking waves below.

However, in this regard, it is okay to deal with the average person. For the level of Shenlang, it is impossible to have an impact.

This king-level dragon is also very clear about this, so it is just an appetizer, as if a sneeze with a mouthful. Then it flew down directly down, and the tail swept out!

The man's long-eyed eyes had to cover the dragon, but because of its flexible leap, it was spread out in an instant, and at the same time it fell down and it was already in front of him!

The target of Xiaolong's pounce is Shenlang, but the tail is directed at this person.

This person's strength is also not low, and the ability to adapt is very strong. Therefore, even if he faced the dragon near him, he calmly counterattacked, and his long cable was like a whole, changing at will.

This time, when the dragon's tail attacked him, the long cable tied the tail, and his man quickly landed in the other direction. The pressure was pulling, hoping to break the tail of the dragon!

Of course, Shen Lang did not wait underneath, and would not be injured. It was not good to drench the water.

From the water spray to the swimming, it has been confirmed that the dragon is the body of the king's beast, so he greeted the sword directly!

When I said that it was too late, when the man was waiting for the tail of the dragon to pull out, the Liu Yejian of Shen Lang also greeted the dragon!

This dragon is not particularly large, but compared to humans, the scale is also very large, and his claws can directly pinch people.

Shen Langjian has not arrived, Jianman first, but this dragon does not care about the claws directly grab the past!

Shen Lang, the sword that could break the steel, could not break the claws of the dragon. In a flash, the Liuye sword had directly hit the paw.

At that moment, it was actually the sound of the golden stone, the sword that could cut the iron and mud, and directly stabbed the dragon claws, but it was impossible to break it!

At the same time the local strong, also found his long cable, did not cut off the tail of the dragon as expected, even did not even pull the flesh, there is a layer of scales on the dragon, it is not a gun The flames can't break the points!

Xiaolong suddenly showed a sneer of disdain!

Yes, this time in the belly of the dragon, the gap between the body, Shen Lang can not see its head. The local strongman pulled in the other direction in the tail of the dragon, and he could not see the head.

Even the dragon heads that I saw were different from people, but at that moment, both of them faintly felt the sneer of Xiaolong!

Perhaps it was like the fact that it sent the meaning to them before, this is an emotion released by the king's beast, they sensed it.

After the sneer, the dragon, except one paw pressed the willow sword, the other paw directly caught the side of Shen Lang!

On the other hand, his tail trembled and swayed directly with the long cable as the axis, and the local strongman was shaken up...

Chapter 1088 - Too strange

After discovering that the body of this king's beast is a dragon, the degree of attention of Shen Lang has also greatly improved, like he has just come up with a flying sword.

But still underestimate the strength of this dragon!

Relying on its powerful strength, plus the metamorphosis of the body talent, even the claws can directly hold the willow sword!

Of course, Shen Lang also understands that not every part of it is so powerful, the claw is probably the hardest part of it.

But now these are meaningless. The other party will not give him the time to analyze. The two claws are combined and it is ready to shred him directly!

And for the king-level dragon, it can be completely distracted, while killing the waves, while the other tail is more than enough to cope with another local strong.

Compared with Shen Lang, the situation of the local strongman is much better, because he does not directly face the threat.

Although the body is smashed into the air, the long cable is his own magic weapon, and he can withdraw it at any time, so that he can take advantage of the time when he is holding the waves and throw himself away.

Shen Lang is no one to care for that person at the moment, and he is also absolutely vigilant.

Liu Yejian has been bent for a moment, but it has not been broken. Shen Lang is a hand shake, directly let the Liu Yejian shift a few inches, and the fine sword immediately breaks out from the claw seam, facing the abdominal disease of the dragon. Shoot and go!

At the same time, Shen Lang has already run the “Da Shou Mi Long Xiang Shen Gong”, directly facing the other claw in front of him, kicked out with a kick!

After the remote control of Liu Yejian flew out, his palm also went forward and directly attached to the paw that continued to be photographed. A force of lightning immediately hit out...

When it was said that it was late, everything was done in an instant.

Originally, the Dragon King of the Dragon has felt the strength of the two people in Shenlang. It has just been very disdainful. It seems that the Shenlang can be crushed at any time, and then slowly play another one.

I didn't expect it to feel a tough taste between the moments.

That foot is nothing, although it kicked its claws, but it is impossible to hurt it.

But a human being whose claws can be pinched can actually have such power, or let it be taken aback.

The willow sword that flew out, did not penetrate into the abdomen of its abdomen, but the abdomen was weak, and it had already hurt it.

The inexplicable lightning strike that came close to the claws made it even more trembling.

Surprising!

This human is too strange!

Compared to the strangeness of the sinking waves, the other human being that its tail is dealing with is “normal”.

Although the long cable is not small, the scale of its tail is enough to protect itself. Therefore, the smart tail can directly make the other party play, and for a short time, the person has no new killer for the time being.

This time is their positive confrontation, time is counted in seconds, but the king has further confirmed its feelings, and regards Shen Lang as the main enemy.

It is not afraid of a powerful enemy. In this vast area, it is the king. It is the command of the beasts who dare not to follow, which makes its days very boring.

Although there are other kings in the Golden Valley area, it is very boring and time-consuming to learn from this level. It is all water and water.

So I really met a powerful human being, and it is very interesting to have fun.

But a strange enemy, that is different.

Who knows if he has any other strange places?

If you accidentally said it, then the ship was overturned in the gutter.

For the sake of face and for the sake of stability, the king has made a decision, that is, to send the secondary enemy first, and to deal with the main enemy!

Before it avoided the Shen Lang, choose to shoot the local strong, it is unclear the truth of Shen Lang, directly bullying and fearing hard.

But now that everyone has done it directly, of course, it is necessary to kill the strong one first. As for the weak one, you can continue to pursue the return, and the herd is on the way back, you can manipulate them to contain, do not have to run away.

After the decision, its tail quickly slammed the other strong local strongman to the distance, and the tail quickly searched for it, directly letting the fixed cable tied to it lose its target.

Suddenly, I seized the local strongman who was looking for opportunities in the long line, and quickly went out to the distance!

When Shen Lang was attacked by the main force, he also felt a little hesitant. Do you want to run first?

But there is no extra time on the scene, even if it is hesitant, it must continue the battle. Only because of hesitation, he has just grasped the long cable and was dragged on, without more constructive attacks.

At this moment, others quickly fly forward, and as the body is alienated, the heart is also loose.

This is really not his intention to escape, this is completely smashed out!

And everyone is not a friend, even this kid has broken his good deeds, and morally does not need to stay and help.

In fact, he hesitated and hesitated, and Shen Lang would not care.

Whether the enemy is a human or a beast, Shen Lang will not rely on others, he must rely on himself.

Only you are the most reliable and the most controllable!

After the serial attack, the body of Shen Lang has been quickly flipped in the air, not waiting for the dragon to react, has been surprised at the speed, from below to the back of it!

At the moment when the local strongman was taken out, Shen Lang had successfully landed on the back of Xiaolong.

“Roar—!”

Xiaolong gave a scream, and this man actually ran to its back!

This makes it feel a great offense, because there are some beastly beasts, which are tamed by the strong humans, raised and become mounts, which is a great shame for them!

Shen Lang's move, in its view, is to tame it and want to use it as a mount!

So before it was an understatement of contempt, now it is really angry.

During the time, its body began to rise and fall, and turned left and right, as if it were a roller coaster. The height of about 100 meters was enough for it to be displayed. And its tail, more sensitive to the back to sweep, it is necessary to sweep the sinking waves.

But its fast speed jumps up and down and flips, but the sinking waves seem to be firmly on its back, and it won't fall.

On the contrary, the more it moves, the pressure of the waves seems to be getting bigger and bigger!

This is amazing!

With its realm of strength, it is not necessary to use the eyes to understand the situation. So after sensing the condition of the back, I was shocked!

Is this still that person?

The human being on its back is not only getting bigger and bigger, but also getting bigger and bigger. At first it was like a rat riding on the back of the elephant, but now it is like a lion in the back of the elephant.

Chapter 1089 - Zhenlong

This made it suspicious, I don't know how this human being did it. Their beasts can also make the body bigger, but that is a certain range of expansion, for example, it can be doubled.

There is another kind of transformation, just like it was just now, but that is changed, and it will not increase in multiples in terms of weight and strength.

But now this human being, on the back of it feels, it feels that not only is the volume expanded at least ten times, but the weight and strength are equally increasing.

However, for the king of the dragon, there is no time to analyze the reasons. The first thing it does now is to get rid of Shen Lang quickly, or continue to continue this infinitely big, isn't it necessary to suppress it by weight?

The repeated flips in the air have no effect, let it change the way of thinking, and directly hit a nearby mountain wall!

The dragon's body directly drilled a cave in the mountain, and went in from the mountain wall to the top of the mountain. With the huge waves of the giants, I walked through the mountains.

Its purpose is to use the stone inside the mountain to pull the sinking waves. The larger the volume of the sinking wave, the greater the resistance, of course. The longer the body, the more flexible it will be.

And it has a hard scale of armor, no fear of the scraping of the rock.

The actual situation is that when it walks through the mountain, although it feels great resistance, it is still stuck in the waves and can't break free.

What makes it a bit more crazy is that just a head is drilled from the top of the mountain, and the body can't come out!

Its head can come out, the body is definitely no problem, it will be stuck, naturally the giant who is kneeling behind. Now the giant is stuck, but he is holding it.

What makes it tangled is that it wants to shrink the body to get rid of the deep waves, leaving people in the mountain, but it seems to be broken, and when it is reduced, it will be pressed a little, and the result will only make it better. It is even more passive.

Of course, there is still a trick, that is, the formation of water, Shen Lang certainly can not hold all the water, but the formation of water, those are actually part of its body, caught by the waves, part of the body will be missing.

The king is very depressed, but the waves are very fun!

Drilling into the mountain, although it made him a mud, and constantly hit the stone, but this is not a thing for him, still the legs are caught, hands are stuck.

Let the dragon want to go out, just don't let it go. In the end, when his head just went out, he released a hand and grabbed a rock inside the mountain and dragged it directly.

Such a fight is actually not much technical content, purely a force.

However, Shen Lang will come to the king of the beasts, they want to understand their level of strength, know more about them, rather than single-mindedly to kill it.

Therefore, he did not select and test all the equipment one by one, and chose the right one to kill. He just wants to step by step to explore the level of the dragon.

The struggle of the king and the dragon did not have much effect. When it was stuck by the sinking waves, it had to find another way to get out.

Shen Lang immediately summoned Liu Yejian, Yu Jian directly from the outside to the eyes of Xiaolong!

Even if the abdomen can not be afraid of being stabbed by the willow blade, but the eyes can't do it. Of course, when you close your eyes, you can still block your eyes, but you will lose a lot of opportunities when you close your eyes.

In the case where the claw is also stuck in the mountain, it can only be shaken with the head, and the mouth is bitten to avoid being stabbed.

It was held back, and Shen Lang was more calm, loosened a hand, took out the Juyue sword, and went straight to the back. With this heavy epee, he directly blasted its chrysanthemum!

Of course, it can't be really explosive. Now it's stuck in the mountain. It doesn't work when you turn around, that is, you can just use your sword. There is a thick strong scale, but in fact it makes it a bit painful, and it won't have much effect.

But for the king, Xiaolong, this is another means of insulting it!

A sword in front has already made it depressed, and there are still swords to lick it...

As it erupted a long sigh, it began to burst out of its power!

Although Shen Lang can hold it on, he can't stop the power of it. As a result, the body of the dragon twisted and twisted, and the mountain was torn apart. .

After coming out again, it realized that it was just a naive faint!

There is now a feeling of regaining freedom, letting it prepare to quickly catch the little sword that wants to pierce its eyes!

The Liuye sword is already thin, and it is even a small sword. However, this little sword, under the remote control of Shen Lang, is very flexible and rotates around its head.

Like a fly, even if you can't hurt you, it will make you very bored.

Juyue Jianben is a large epee, but Shen Lang is now a giant, in contrast, it is like holding a chopstick, it is not convenient. Just inside the mountain, it was used to poke a dragon and disgust it.

After he came out now, in addition to continuing to control the Liu Yejian, Ju Yuejian was collected.

For a few times, he stumbled over the tail of his back, but because he was too flexible and slippery, he could not hold it.

Therefore, when the king's dragon was once again low-flying, Shen Lang grabbed a big tree and pulled it hard.

Now that he is using it, the tree is handy, as if it is a whip, faucet, dragon, and dragon...

Light is the weight of a tree, it is not enough to hurt the dragon, it will be broken by the tail shot, so Shen Lang is directly concerned about the vitality, and use the "Da Shou Mi Long Xiang Shen Gong", vigorous output .

As a result, every slap in the big tree is not inferior to steel.

Although it is still impossible to reinvent the Snapdragon, it will make it feel pain, especially the heart.

"Coward! You are all cowards! You have the ability to go down with me and fight!"

When the dragon screams, Shen Lang feels this meaning.

"How is it unfair? I am pressing you, it is not fair?"

Shen Lang also conveyed the meaning, and the tree was directly drawn on the mouth of Xiaolong.

Besides, the local strongman, after being smashed out, he is still entangled in the process, the instinct is subconsciously going a little farther.

But he made a decision soon!

If two people don't join hands, it's hard to fight the king's beast. If the young man is killed, the king's beast can continue to chase him again, and he will have no choice at the time.

So he returned to help, and they saw that they burst out of the mountain and saw that Xiaolong was a little hysterical. He saw that Shen Lang had pulled out the big tree as a whip, which made him interested.

Chapter 1090 - Dead water pool

The local strongman was far away after he left it, so when he saw it, he still found it very interesting.

But soon he found that something was wrong. The cockroach body was much bigger than the people. When people came to its back, it could not be this ratio. And the “whip” is not a small sapling, it is a real big tree!

A person’s height is a big tree, from the power, he can also do it easily, but it seems that the proportion is very strange. Now there is no such thing as Shen Lang, whether it is Xiaolong, people or trees, it is a very natural proportion.

That is naturally the smallest “person” in the middle, with great changes.

Originally, he also deceived the king’s fierce beast as a soft one. He was very reluctant. Now that he saw the change of Shen Lang, and he was able to press the dragon with ease, he realized that the strength of the boy was really unfathomable!

Since this ally is even stronger, everyone’s chances of winning are higher, so he immediately rushed back.

At this time, Xiaolong was repeatedly beaten by Shen Lang. Although he was not injured, the incomparable scales gave it a very strong protection, but it was annoying.

Especially the Shen Lang has been riding on its back!

This is the most humiliating place. Every second is as long as a hundred years. The more you can’t take him down, the more it makes you anxious.

Xiaolong can’t stand it anymore. How can it be impossible to get rid of people? It gives up this way, but quickly flies in one direction!

The sinking waves are still on its back, and the trees are constantly pounding toward the top of their heads and backups.

Xiaolong was flying fast with Shen Lang, but this time, it was not that he wanted to let Shen Lang hit the trees, and even the inside of the mountain could not tear him off. These trees could not be done.

Shen Lang does not care where it is going, and what the branches are, it doesn't matter to him. On the contrary, because the current flight is very low, when the big tree in his hand is broken, he will continue to pull one more.

The local strongman has not yet joined the battle group, seeing this dragon to escape, immediately set a rope, tied the tail of the dragon, and let himself roll over the tail of the dragon.

However, compared to the stability of the front waves, he will be much more bumpy.

The deep wave is on the back, which is a relatively stable area, and he is on the tail with much greater flexibility. And he is just a normal person's body, even if you put pressure on it, it is difficult to hold the dragon tail.

For Snapdragon, mouth, claws and tail are the most important ways to attack. The tail is now attacking the waves from time to time, which will drive him to come and go.

However, it is also good to be small. Although you can't hold the dragon's tail, you can directly hold the edge of the large scales with your hands, plus its long cable, although the bumps are large, but there is no flying.

Xiaolong naturally knows that the tail has been hoisted again, but it does not care, but continues to rush to the front faster and faster.

"We have to do it as soon as possible! It is to join the herd! When hundreds of thousands of beasts come over, it will be trouble!"

The local strongman looked at the huge body in front and loudly reminded him.

Shen Lang is experiencing the fun of riding a dragon at this moment, or is excited to continue to whip.

The herd is coming, he is not afraid, it is not realistic to want to do so many beasts, but to leave safely is not a thing for him.

The speed of the king is not slow, this is its territory, with its power, no need to avoid anything, and even want to go to the humans on the back.

Such a rampage directly led to a lot of towering trees being hit and broken. After a while, the sound of vibration was heard faintly, and the beasts that were summoned should be back!

The local strongman behind is also very passive. Although he did his homework, he still underestimated the strength of the king's beast and there was no better way.

At this time, after Xiaolong flew to a hill, he stormed and plunged into it!

Immediately, the surrounding area was obviously darker. It was surrounded by hills and the middle was an abyss. The dragon is now falling into the abyss!

“Well! This is a dead water pool! Rewind!”

When the local strongman was smashed and smashed, he did not forget to observe the surrounding environment. When he saw the surrounding mountain shape, it seemed to be an iron bucket. The narrower and narrower the vertical, the vertical abyss. Place.

When the police were warning to Shen Lang, others had already released the dragon tail, and the whole person quickly flew upwards, seemingly afraid that it was too late.

Shen Lang stunned, time is limited, that person has too much time to say so much, but already full of surface, the following water pool, is not a good place.

Dead water pool?

A pool of stagnant water?

Obviously this will not be a pool of stagnant water that lacks living water. It should be the stagnant water that represents death!

Shen Lang has no more time to analyze, even if it is deep, but under the rapid speed of this dragon, it has already reached the surface of the Deadwater Pool.

The surrounding area has become even more dim. When Shen Lang just heard the warning, he immediately began to analyze and detect the surrounding environment through the Holy Grail.

The Scania scan collects all the data, it is very fast, and the analysis is very fast. People can hardly feel the gap and they already have results.

Only in the absence of contact, without the collection of the following water source samples, its analysis can only be combined with the surrounding environment, and then analyze the possibility of statistics.

Feedback to the brain of Shen Lang, the most likely one is that the water source below is extremely rare and extremely corrosive. It is the extent to which people become white bones after contact!

Xiaolong certainly won't want to die with it, maybe its scales can hold its body, this is to rust the sinking waves!

At the time when the distance from the water surface is momentary, Shen Lang has clearly felt that Xiaolong is ready to flip the body, with the intention of putting the back against the water!

The purpose is naturally to soak the back of the back waves into the pool of dead water! If Shen Lang loses his hand and falls, it will be finished. Otherwise, even if he still insists on most of the body is soaked, it is also half-life.

At this critical moment, Shen Lang first threw the trees in his hand!

He also clearly saw that the newly pulled out trees were not ruined when they entered the water, but were directly disintegrated and dissipated!

The whole tree quickly disintegrated as it sank to the bottom.

It can be seen that the analysis of the holy armor is not 100%, and the general direction is correct.

Of course, Shen Lang didn't have the extra time to look at the big tree. When he threw the big tree, his body had already reversed quickly.

The dragon that fell from the nose with its head down, when it is close to the water, flies upwards like a parabola, and the body flips over, turning it into the back.

But when it flips, the Shenlang turns in the opposite direction. When the back of the back is close to the water, the Shenlang has already turned to its abdomen, and then uses the "Dazu Milong" to slam the giant force. Go on!
