

First Strong 1111

Chapter 1111 - Arrange for retreat

In fact, they are left behind, and they really want to let the women of Shenlang leave one or two to make them really relieved.

But no one dares to open this mouth. This is tantamount to being a disguised hostage. If you say it, you will directly offend the waves. No one dares to say it.

Fortunately, Shen Lang left one, two, three, and let them continue to practice here. There are also a few of Qiao Yuxian, Nanliuchuan, and Liu Yuchang. Before watching him send them to scales, they have a natural relationship.

All this is the case, everyone can only choose to believe in the waves.

After the decision, everyone is taking a break, and what they need to confess with the sects and the family, you can also take time to explain, and wait until dawn to leave.

After dawn, the spacecraft magic weapon was once again opened, and nearly one hundred monks boarded the ship.

Shen Lang also gave them a vaccination, saying that they might not be able to fly back quickly, but also need to verify the route, especially in the foggy space.

And there is no time difference between the two worlds. Everyone is inexperienced and has not checked. So let everyone practice here, don't worry, don't be impatient when you don't see him returning.

Then Shen Lang will take the spacecraft magic weapon to leave.

He certainly has no problem with the route, because there is a detailed trajectory of the sacred armor, which can be accurate to the specific position according to the trajectory of the route.

However, the position they are in now is a little different from that of Yuxianmen. Now it is necessary to go through the crack in the space. Of course, there is no need to go from Yuxianmen, but to go around.

There is a trajectory target of the sacred armor, and it is completely no problem to circumvent the strange route. It may even save a little time.

The big cockroaches inside the cabin are a bit sigh of emotion, and they are also in batches to see the scenery at the stern of the bow.

They left because of the psychological gap, and of course there was fear of death. The scene of hundreds of thousands of beasts yesterday made them think.

However, since I chose to go back, I naturally no longer have to ask for Shen Lang to bring them over.

As for everything in this world, even if they walked around, they still have no clue. They can't replace Shenlang at all, and can't come again.

So, now I can see a little bit, how much is a memory, and maybe I can brag about it.

All the way, there is nothing to say, they are also a peace of mind to practice, not wasting an hour.

The Han Dynasty is very vast. There is a relatively remote place on the side of Yuxianmen. It is very normal to have no people in a thousand miles or hundreds of miles.

They did not meet a group of people on their way back. After all, except for Yuxianmen, people from other places have a low probability of appearing here.

All the way to the crack in the space, Shen Lang did not ask if anyone regrets, and directly entered with everyone.

In the fog of the chaotic space, a few hours of sailing began.

For Yuxianmen, how do you know that someone is in the chaotic space, but also accurate to the specific seat, Shen Lang is still full of curiosity.

Maybe you can look for Wei Qingcheng in the past, but Wei Qingcheng may not say it.

The chances of encountering other world monks in chaotic space are even smaller, and it is completely a foggy world where you can't reach your fingers and can't transmit sound. Even if you really meet it, you won't know.

As soon as it came, zoom in and confirm the trajectory and try to make no mistakes.

Shen Lang did not let them lose their perception once, so that if someone was left behind, they would never find it. He went directly to the ship's magic weapon and took everyone back to the Pacific Ocean from the return of the sea.

Returning to the earth, even if there is a significant gap, but everyone still feels very kind. It's just a day away, but it's like the feeling of being separated.

These "weaker" powerhouses are only relatively weak. They are basically above the beginning of the realm of the gods, and they can fly personally. But that can only be a short-distance flight. It is still very difficult for them to leap into the Pacific Ocean.

Of course, it is difficult to return. If it is forced to do so, it can still be done. Just like the two times before Shen Lang, it is only a hassle to fly back and forth slowly.

Now there is this spacecraft magic weapon, Shen Lang good people to do the end, simply continue to fly back and send everyone back to Haishan.

However, although the earth is not a city-state, it is also very developed. The various satellites are captured by the whole world.

So from the beginning, Shen Lang displayed a large protective cover, avoiding the reconnaissance of scientific means, and joined the disguise of the cockroach, appearing in the satellite image, which is the same as the micro cloud.

It's so far away, it's a long time to fly, and it's a very strong one.

In the offshore area near Haishan, I stopped at the sea, and everyone thanked Shen Lang and then left.

Qiao Zhantian, Nanliushui, they are familiar with each other, but they have a few more words, saying that if Tianshan Jianzong encounters any problems, they will stand up and help for the first time, so that Shenlang does not have to worry about it.

After all have gone, there will be a few of them, and the spaceship can be reduced to a small ship.

Originally, it was normal to go home, and this will leave for a day or two, and Shen Lang will not have to go back to anything.

However, she left the canoe and said that she also went back. On the one hand, there was no official in the ice palace. On the other hand, she also brought back the vast resources of this harvest. And she has been to the world twice, enough.

However, Shen Lang directly rejected her suggestion. The Ice Palace is not a big sect. It is also a hidden retreat in the depths of the Tianshan Mountains. There will be no big things in daily life.

If you want to talk about resources, you don't have to wait for urgent use. It will take a long time to bring back. Therefore, there are two kinds of canoeing and falling rain. You should focus on improving your cultivation.

He also did not suggest and discuss what made arrangements directly for them. Bring them into the space of the world of heaven, let them retreat inside!

This is why it is not with the return of one, two, three, four, after all, it is still outsiders, the benefits can only be given to the general. These are the real people who can enjoy the best.

Here, as long as Shen Lang does not have an accident, it is an absolutely safe place, no one will entertain, and will not be disturbed. A hundred times of time difference is even more powerful weapon. And they all have enough resources to support them to close the long-term.

They are all people who voluntarily follow Shen Lang. Since Shen Lang made arrangements, of course he will obey.

Yesterday, they also saw the scenes of countless fierce beasts. They saw the mighty beast of the king's beasts. They didn't have enough strength to help the waves. They really needed to hurry up and practice, so that they could keep up with the pace of Shenlang.

Returning these people today is a vivid example. Not strong enough to keep up with the pace of others, you can only leave in vain.

They don't want to be swept away by the waves...

Chapter 1112 - Goodbye sea

After they settled in, they could do it alone. They didn't need to use the spacecraft magic weapon to fly directly with the Serie A supersonic speed, and returned to the non-returned sea prison at a very fast speed.

In addition to speed, he also felt the need to save the spacecraft.

After all, in Yuxianmen, this is also used in large-scale outings. Usually, you can't use it if you don't go far.

The most important thing is that the power of the holy armor is the Lingshi. The Shenlang only needs to replace the Lingshi. He does not lack this. If there is any problem with the spacecraft, he does not understand the maintenance, Jingrufeng and the disciples. All have the memory of driving.

When preparing to enter the sea of no return, Shen Lang suddenly remembered one thing.

That is the underwater world below!

The last time the Haizu put the man down and gave him a gift. The result was that he promised a condition, which was equivalent to hiring him to absorb the excess cosmic energy.

At that time, the high priests of the Andes and the deep Dale of the seas did not have detailed requirements for him. They had time to come once in three or five years, and they could stand up for a long time.

It's only been more than half a year now, and it's no problem to say that he doesn't go.

However, I will not run here in peacetime, and I will go to the mainland of the island without knowing how long it will take. He decided to visit it first.

Now the realm of Shen Lang is much higher than the previous one, and it also has clear goals, and it goes directly to the bottom of the sea.

But what surprised him was that he went deep into the sea, but couldn't find the "mountain" on the bottom of the sea!

The space of the sea is in the hollow interior of a sea-mountain mountain. There is a pyramid inside, and the top is facing the top of the mountain, just opposite the middle of the sea.

But now this is completely different. There is no mountain at all. He has been sinking to the bottom and lighting up with the sacred armor. He has not found any traces before.

The first reaction of Shen Lang was that there was a big change here, so that the underwater world collapsed.

But I immediately denied it.

The sea can hide in this long period of the Pacific Ocean, and it will not happen in just over half a year. More likely they are hiding themselves!

The last time, it was discovered by so many earth monks, and later discovered by Shen Lang, the sea people must have a sense of crisis.

And finally Shen Lang also directly told them that he could not order other people, how complicated the people were, not his men. Even if you promised that you will not be offended again, there will definitely be someone coming to the interests.

Probably after they left, they used the same method as the array to hide the mountain of their whole world, or moved away from it. This is the self-protection of the Haizu.

I haven't thought about the seas in the past six months, and I haven't found him to explore here.

They can not be afraid of Yuxian, not necessarily afraid of the sea, maybe someone is looking for it, can not find the entrance, can only give up!

Then Shen Lang remembered the token they gave before leaving. At that time, he had to input his voice and name. It was a double verification. He said that when he came back, he would say his name to the token.

“Shen Lang.”

Shen Lang took out the token and shouted his name.

Soon, there was a strange wave of energy that came from the token and made him feel fluctuating around him.

Then a trace of anomaly around him was originally at the bottom of the sea. He also forced the surrounding seawater away, and the deeper the pressure, the greater the pressure. But now it is rapidly dissipating, and soon after, there have been changes around.

Shen Lang discovered that he had arrived at the last underwater world!

He still drifted slowly from above, still the same as last time.

It now appears that the underwater world is hidden. If you don't have their “password”, you can't find it. Once it is right, within this range, the token will be twisted and sucked in.

“Shen Lang, you are a believer, and it's like an appointment!”

When the Shen Lang landed in half, the Andean high priest had already appeared in the air to meet him.

“Does the high priest come innocent?” Shen Lang said with a smile.

For the sea, he is still full of goodwill. Although Neptune deep Dell is not as good at him as the Andean high priest, but his last time here is not too small!

The most direct is to absorb a large amount of cosmic energy, he can make great progress, others think it is the harvest of the Nakajima world, in fact, the harvest here is very huge. And the last eight gifts they sent were heavy gifts.

Three deep sea yin springs were given to the canoe and the rain fell. It was also possible to use a copy of the river, and later...

Three copies of Lingzhu also played a very important role, so that the two old apprentices can be completely removed from the old wounds, return to the peak, and finally break through the realm of the gods. There is also a sacred lord who wants to burn out the lights, and also succeeds in renewing his life.

Two hundred thousand years of deep sea mysterious turtle Nei Dan, he took one, plus the underwater energy absorbed under the pyramid, with a year of retreat, broke through the semi-sacred.

So he is still grateful.

Everyone has seen one side, and there is not too much friendship. It is just a simple chill, and then the Andean high priest came to their temple with Shen Lang.

“Have you come here, I don’t know what to teach?” The Andean high priest asked a little cautiously.

Shen Lang was dumbfounded. The previous agreement was that it would be three or five years, but the slowness could be delayed for a long time. Now it is so quick to come, but it is doubtful.

“Don’t misunderstand. The gift from the High Priest and Neptune has helped me a lot. I am very grateful, so come over now and see if I need help.”

Shen Lang did not converge on his own breath, although it will be suppressed in this temple. But just outside, Andes should feel that his strength has grown.

“It turns out! Your lord really came as a covenant, but it was the heart of my villain.” The Andean high priest directly admitted that he really doubted it.

“Shen Lang’s strength is great It’s really gratifying, we just helped a little.”

After the guest set, he directly mentioned the business.

“After the last time, I have added some, but it is still not enough to make us affected. But since you are here, please help absorb some of it!”

Shen Lang nodded. Last time they made it clear that this place relies on the energy of the universe. It only absorbs too much. If they use it, they will have problems.

Three or five years can be no problem, now half a year, certainly far within the scope of security.

But I don’t know when the next time comes, Shen Lang will accompany him, once again come to the space under the pyramid, and then run the “Yin and Yang Bozhengzheng” to absorb the cosmic energy gathered here.

I have to say that the sea gods together are very powerful. They are super-powerful people. The world of this arrangement is a world that absorbs the energy of the universe. It is half a year, and it also reserves a lot in addition to supply.

Chapter 1113 - Great change

Shen Lang is now in a higher realm. There is also experience here. Plus the current reserves can not be compared with the previous one, so the process of absorbing the energy of the universe is very fast.

After the completion, the Andean high priest re-accompanied Shen Lang in the temple.

Shen Lang really came to help absorb the excess cosmic energy, and there was no other attempt to let the priests of the Andean high priests disappear.

“Shen Lang, this time, come by, is it passing?”

Originally, Shen Lang thought that he wanted to set a few words, and he was ready to cope with it and left. I did not expect this sentence to be very clear.

“Haha, it doesn’t matter, I really can pass it. I won’t come here usually. Since I am here, I can see if I can help here.”

Andean asked again: “You may also be worried about not knowing when you will be free next time?”

“You can say that. But rest assured, you can persist for three or five years, I will definitely come over.”

“I mean... you are going to go far.” During the conversation, the Andean high priest pointed his fingers up.

If he is just a chat, Shen Lang will not care, but now a sentence is deep, it seems to have a deep meaning.

“It is true. Does the high priest have anything to say? But please make it clear.” Shen Lang bowed his hand and made a gesture of asking for advice.

The Andean high priest looked at him with a smile: “How do you want to know? Or... do you really believe me?”

“Of course. I respect the high priest very much.” Shen Lang said seriously.

Shen Lang is now very much attached. The Andeans should have not wanted to disclose it to him. It is to see that he really fulfills his duties as a contract and wants to remind him.

He vaguely felt that this should not be a simple matter, and it was related to no return to hell!

“You passed through it, but I know it.”

Shen Lang nodded. They were hidden in this seabed. They don't know how many thousands of years, and naturally they know the surroundings. The emergence of hundreds of realities will inevitably be discovered and paid attention to.

“Are you from the top to the other world?” The Andean high priest did not pretend to be high, but asked again.

“Yes.”

Shen Lang did not hide: “A few hundred years ago, the strongest group of people on land had gone in from here, but never returned. The last time we went to a group of people, I was fortunate enough to be back. This time again I went to more people together, I just sent half of them back.”

The Andean high priest nodded. He obviously didn't have much interest in the world there, just wanted to confirm it.

“That's right. Let's just say...”

After speaking, he paused for a while, as if he was finishing the vocabulary.

“This special situation in the above seas...”

“It should be regarded as a space door, a space crack.” Shen Lang added a bit.

“Well, the door to space. Simply put, the door to this space is created because of our sea!” Here, he pointed to the direction of the pyramid.

Shen Lang's pupil shrinks slightly: "You mean... because you are here to gather the cosmic energy of the sea, and it has been going down all the year round, causing space cracks?"

The Andean high priest thought for a moment and nodded: "I don't know how to express it, but it should mean this."

"It is like this..."

Shen Lang murmured, thinking in the brain quickly. The seabed world established by the Hai people, how long it may be that Andeans themselves have no concept, but at least for a thousand years.

The massive convergence of the cosmic energy in tens of thousands or even tens of thousands of years will affect the space barriers, gradually weaken, and finally cracks!

This reminded him of another place, Pingxi Li Cao County!

That ordinary place, hundreds of young people because of his robbery there, too much movement, have led to weak space barriers, so that the other world's trolls found the opportunity to invade.

In terms of combination, the Andes said that it is not impossible. The impact of cosmic energy is not obvious, but it can't last for tens of thousands of years.

"So, the high priest wants to tell me that this area will become bigger and bigger in the future?" Shen Lang asked seriously.

According to Andeans, the occurrence of cracks in the past few hundred years should be a qualitative change that has occurred in a thousand years, and will be affected in these hundreds of years. That should be seen now, no return to hell, the region is wider and bigger than the era of the cold autumn!

However, he did not worry too much. After all, the time span of tens of thousands of years has been too great. In a few hundred years, the earth science and technology may also develop to the extent of the river basin. Perhaps ordinary people can use technology to develop and utilize it. The aura resources.

“No.” Andean shook his head.

“The concerns mentioned by your last Shen Lang were also considered by us. Later, some people have come again.”

Although Shen Lang did not understand why he shifted the topic, he still said: “Hey, I really can’t bind to anyone. Humans...or all species, there will be greed.”

Andeans did not care: “It makes sense. If our seas have strong enough strength, they may also be on the mainland to compete for resources. Therefore, we can’t blame anyone. Since we can’t destroy it, we can only prevent it.”

Shen Lang pointed to the top: “So this time I came, I can’t find it anymore. When they come, it should be like this.”

“Yes. That’s why the last time I gave you the token relationship directly. Only through the password can we introduce you. But this is just a matter of clarification. What I really want to say is change!”

“Variety?”

“After all, we have passed down from generation to generation and have not personally verified it. Therefore, after re-doing this change, we have found that the absorbed extraterrestrial energy has become significantly weaker.”

I heard this Shen Lang could not help but secretly breathe a sigh of relief, thought it was going on!

It turns out that the speed of energy absorption in the universe has weakened. It is not difficult to understand. They are now equal to adding a protective cover, and the signal is definitely weakened. Then this is to maintain balance in the future, do not need him to come again?

“So, as far as this change is concerned, it is easier for us. It is not known that the effect is getting stronger, or we are weakening. Anyway, we can maintain a good balance anyway.”

“Congratulations! My token can also be returned. I don’t need to bother in the future. It is the gift you gave, but I have already used it.” Shen Lang smiled and took the token out.

The Andes was not polite, took over, but continued: “Another change is related to you. Simply put, the door to the space above will gradually shrink and eventually close!”

“...”

Shen Lang was speechless, not only came back, but the results were more exciting than he expected...

Chapter 1114 - Countdown starts

“Is it confirmed?” Shen Lang asked slowly.

In fact, he already believed in his heart.

For the Andes, it doesn’t matter if the sea is said to be inconsequential, and it is not necessary to make up to deceive him. Another is that they are under the sea every day, and they can observe changes at any time.

The Andean high priest nodded: “From last time to the present...”

It seems that their timing is a bit different, Shen Lang added: “According to our years, about half a year.”

“Well, half a year or so, it has already shrunk significantly than it was at the beginning. You didn’t feel it because the overall scope is still relatively large.”

Shen Lang nodded slightly, the most important thing is that he did not think about this possibility at all, so he did not say that other people, that is, himself, the number of times to go back and forth, and did not pay attention to the changes in this sea area.

It has been here for hundreds of years, and there has been no change. Who can think that there will be changes in less than half a year!

“The high priest, according to your inference, how long can this last?”

The Andes was silent for a while, then sighed. “In fact, I just discovered this trend. If you are not here, I will continue to observe. At present, there is no strict data.”

“General guess?” Shen Lang understands what he said, which has no exact effect on them. Observation is also a change in the energy of the universe, just a by-pass.

“Probably...oh, your time...about three years.”

Andean looked at Shen Lang deeply and seemed to say, “I understand that I am looking for you to talk about this intention now?”.

“Thank you for the reminder of the high priest. Otherwise I may stay for a long time, and may not be able to come back again!” Shen Lang solemnly thanked.

This is really a small human condition. Although this time, Shen Lang may not stay for a long time, but did not pay attention to this problem. When it was delayed, it would be troublesome.

“Don’t go over!”

The important things have already been negotiated, the solution Haizu will not provide, and will not even allow them to engage in things on it, so Shen Lang also immediately quit.

The Andes did not retain him, and Shen Lang had no value for them. This time, I did not harm it, but also gave a message. It is already extremely kind. Of course, it is impossible to treat Shen Lang as a VIP.

After the Andes sent Shen Lang out, they could no longer see the underwater world, and it was difficult to find the entrance again.

The sinking waves immediately rose to the surface of the sea.

For the film of no return to the sea, Shen Lang has a deep understanding of it. The last time I searched for these missing people, I searched carefully around it.

Traces of the door to the space, there are observations and detailed records in the holy armor. It was the time to come back a few days ago, and when I went back, there were also observations.

I didn't even think about it before. Now that I know the change, he immediately re-examined and observed it.

Then adjust the previous data comparison.

It is invisible to the naked eye on the sea, and it can only come out of the sensing range through the aura. The observation data of the holy armor comes from this.

However, in contrast, it can be displayed directly in the form of a graphic area.

After comparison, and detailed data is listed, Shen Lang found that the situation is similar to that of the Andean high priest.

The current area has been reduced by nearly one-sixth before the Haizu has changed.

In fact, the change in this area has been very large, but because the previous base is very large, and this time, the number of people has increased nearly two times, and it has not been noticed that the scope has become smaller.

Shen Lang is a detailed comparison of the time, time, and current data, look at the changes in these days, and then compare the data for half a year.

Fortunately, it is basically the same speed as the previous half, and it has not shrunk faster and faster.

However, due to the unfamiliar commemoration method or the error of simple arithmetic, the Andes is reduced by one-sixth in half a year. According to this speed, the remaining time is not three years, but about two and a half years!

Confirmed this result, making Shen Lang a bit awkward.

Originally, the last return, so that everyone found a new way, although not a road to heaven, but it is a back door to the advanced world.

With this in mind, for a long time in the future, it will bring a lot of resources to the earth, let the gradual decline of the earth's cultivation of civilization, regain its glory, and even go one step further.

The top power of the earth will not only be the only way out to meet the catastrophe in the future, but the cultivation of the world in the mainland of the island.

But now, the vacant portal for hundreds of years, but it may be closed after two and a half years, has to be said to be a powerful regret.

Who can blame?

Blame those who sneak back and want to develop and plunder the sea?

When they came, the Haizu had made a change.

Blame the sea? The news flowed out, and it was smashed by the land monks. If it does not change, the eternal life of the people will be destroyed!

It can only be said that when their group discovered the secret and sneaked into the bottom of the sea, they had already planted the cause. Today is the result of the butterfly effect.

This result makes Shen Lang stand on the sea for a long time.

From the perspective of interests, after confirming it, he first thought about it, and there is no way to expand it.

Since it was because of the relationship between the energy of the universe, if you continue to maintain the energy of the universe to the previous intensity, can you maintain a constant balance?

But this is only an idea, but there are no feasible measures.

On the one hand, the sea people can't do it now, the high priests of the sea king can't do it, and they don't know that there will be this change – otherwise they won't wait until they are forced to do so, and they will do it directly.

This is the Tongtian array method that was created by the previous Poseidon, and the Shenlang can't be arranged. Now, I can't feel the convergence of cosmic energy on the sea!

Of course If the Haizu gave him the opportunity to study, he might find a way. But this is impossible, and it also pulls out another aspect.

The sea is not allowed!

If Shen Lang can receive a large amount of cosmic energy on it, it will directly destroy the law of the seas. The result is probably the collapse of the sea world.

Even if this is only a “may”, they will not allow it. If you really want to try, it is not clear whether there is any effect, you must first fight with the sea people.

From the current strength, Shen Lang is not afraid of them, but the best result may be the destruction of the seas – no return to the sea.

The Andeans have already kindly told him about this change, and avoiding him from falling in the mainland of Nakajima can't come back. It is impossible for Shen Lang to make acts that harm others.

In other words, before there is no exact way to ensure safety, he can't try it casually. It can only be used for two and a half years, and the countdown begins...

Chapter 1115 - Raytheon is angry

At this point, Shen Lang can only take a step forward.

Fortunately, there are still more than two years, and it can be regarded as a buffer. If you take the time to engage in resources, there is still a lot of room. As for when it is time to choose to stay on the earth, or to move to the mainland of Nakajima with people around you, you will see the situation at the time.

Shen Lang once again entered the sea of no return, but this time he alone, but did not go to the road of Yuxian, but along the way, landed on the ground of chaotic space.

Follow the previous trajectory and take the path that you started the most.

The last time I was groping for the road ahead, now there is a road map trajectory. Naturally, it can be much faster. Shenlang also uses the spacecraft magic weapon. This magic weapon is optimized for the mysterious fog of chaotic space. It can fly in the thick fog above, and the fog is lighter and faster.

This road has been back and forth twice. Now, once again, it is necessary to see if there will be any change in the next half year.

Another important reason is that Shen Lang is doing it now!

He stopped in the minefield and then directly invested in it.

Two times before, I was going to take the canoe and the Fuyang real person. He was stepping on the thunder in front, so that they could follow safely.

But this time is not the same, his purpose is to thunder, is to lead lightning!

The strength of Shen Lang is bigger than before. It is also clear about the approximate distance. It is not necessary to save it, so he is flashing at random in the minefield, so that the intensive thunder and lightning are constantly chasing him!

The last time he had passed thunder and lightning, the body was very strong. However, this time I met the king of the dragon, there are hundreds of thousands of beasts, so that Shen Lang thinks, can still become stronger!

The last time I killed the inner beasts of the fierce beasts, Shen Lang himself was useless. For him, the effect was a little lower, and it was more wasteful for him to use. Therefore, they are given to them, so that they can use them as much as possible in the world of the world.

But he also has the 100,000-year-old deep sea mysterious turtle Nei Dan given by the Haizu. The last one gave him a lot of help. Now there is one left, and this time he will not directly regret it.

Then, while refining and absorbing, it absorbs lightning for its own use. Under the solid foundation of the last laydown, come to a more comprehensive quenching!

In general, the process of refining the internal Daniel must be very careful, not to be disturbed by the outside world, and all are retreats.

Now Shen Lang is tempering the body with countless lightnings at the same time, and it must be said that it is extremely risky.

But what he wants is this effect!

There is no artificial disturbance here. It is just a thunderbolt. If he is distracted, he can still bear it. And through the lightning strike to promote the absorption of Nedan, and through the effect of Nedan, to alleviate the thunder of lightning, so that you can meet more lightning strikes.....

The constant change of Shenlang moves, does not step on the place where it is stepped on, and constantly attracts new lightning strikes. Thousands, millions, and hundreds of millions of thunder and lightning have been completely enjoyable, and feel the power of lightning!

At the end of the day, he felt that lightning was getting less and less, not because all of them had passed, but it seemed to be controlled, and “rejected” gave him more.

This is a very intelligent lightning strike, and found that killing him, will reduce waste, and perhaps it is ok.

After he moved a lot and tried more places, it seemed as if he felt a consciousness appear in his mind.

This is a very light layer of meaning, the content is also very simple, that is, expressed that he is not welcome, let him quickly leave!

This makes Shen Lang a little bit sorrowful, is this... the will of this minefield?

That is called...Raytheon?

The minefield is obviously not a person, nor a god. But for countless years, there will be wisdom and will, and it is possible.

Since the minefields have already annoyed him, and the order has been ordered, Shenlang is not good enough to continue. If you don't continue, you don't mean anything. If you want to fix him, you can still do it.

It has already gained a lot, and he has not stopped yet, crossing the minefield as soon as possible. Then continue to leave from the front, and finally enter the mainland of the island from that waterfall.

After he came out, he also visited the tomb of Fuyang real people.

There is still a long way to go from Yuxianmen. With the trajectory of passing the verification, the map of this side has been made a lot, so it can be calculated directly.

From here, you don't need to go to Yuxianmen, and you don't need to go to the direction of the crack in that space. You can go in another direction to go to other places.

No one else, of course, he still flies past the super-sonic speed of the sacred armor, and when he is about to arrive, he will fly from himself.

The road has also been considered clearly, these are the elites of the Earth, and there is no direct competition with him. So there is no need to hang them, and there is no need to hide them, so that they can cherish the last two years.

When Shen Lang flies by himself, the speed will not be so fast, and it doesn't need to be too fast. However, after the gods examined the past, he let him speed up and fly over!

When I left the first two days, everyone was on the top of a mountain, all gathered there, and there was no danger around them.

Originally, when he came back and waited for him to come back, time will pass very quickly. They have so many people, and they have several people to take turns to send their whistle. There will be no problem.

But now that Shen Lang is back, they find that they are no longer at the peak!

With the search for further spreads, it was discovered that all of them were hiding in a narrow valley, and there were people on the hills around them, more like pushing them in!

Even in the cold war era, when the troops retired, the valley was a big taboo, especially in the valley without the back road, which is often the last refusal.

Now they are some masters of comprehension, they can fly in from the air to fight, even the negative resistance can not do!

The Shenlang speeds up and flies past, settles on a higher mountain around a valley, and quickly observes other situations.

The reason why it did not fall on the highest mountain is because there has been some entrenched on it. It is obviously the head of the group of people who have surrounded the earth. Shenlang is far and near, there is no convergence before. Naturally everyone found his arrival.

As he observed the surroundings, the people on the surrounding peaks were also observing his situation.

After the observation, Shen Lang is very helpless. The actual number of the other party is not much. On the highest peak, there are only five people. Every other mountaintop is only guarded by one person, and it adds up to ten people.

This is equivalent to saying that the other ten people will drive away the remaining hundred monks of the earth in this valley!

There are about 300 people in this line of the earth. They are crushed by the beasts and the weakest ones. Then they have gone a while. The rest is the strongest group and the elite of the elite.

At the beginning of the transformation of the realm of the gods is a minority, most of them are in the medium term, and there are a few who reach the end and even the peak, and the Pope is not inferior to the semi-fairy realm.

How can one of the other party's people push this one?

Chapter 1116 - Not good

However, Shen Lang soon understood, because he inquired about the situation inside the valley, did not find the Pope and Paul Archbishop!

Although I don't know where the two of them went, but he is not there, when the pope is not there, people who come to a semi-fair realm can really suppress it.

Just like the beasts of the Golden Valley, if all the thousands of beasts are added up, the king's beast will not be an opponent, but the gap between the individual and the individual will be enough to make the king's beasts suppress thousands of people.

These more than one hundred earth monks, all together, may not be able to fight, but did not reach that step, still can not fight.

The same day in Yuxianmen.

The earth monk is here because he understands the situation of everyone, so he did not see the pope and knew where the problem was.

However, on the other side, before the close observation, it is still unclear how the specific strength is, and it can only be determined that there must be a stronger than half a cent.

His arrival also allowed the eyes of the other ten people to focus on him.

The reason why Shen Lang stayed on the top of the mountain was to understand the situation first. Now it is clear that it is flying and falling.

“Shen Lang Master!”

“Shen Master is back!”

“Shen Lang Master, you are finally back!”

Just now everyone saw Shen Lang coming back, but before Shen Lang didn't come down, they didn't have a direct statement. When he came down now, he was excited to cheer.

When Shen Lang has not yet landed, he has already heard that Qiao Yuxian and Nanliuchuan are both talking to him.

“Shen brother! You are going, these people are coming to you! They are strong, the pope is not there, and then go to the Golden Valley, so no one can contend with them.”

“Shen brothers, they are looking for you, now push us here, just waiting for you. You leave first, they should not let us know.”

Shen Lang nodded to both of them and said that they had received their information.

Although it is just a few simple sentences, it also gives him a lot of information.

The enemy here, that is the number, the enemy in Tangcheng six months ago, it is impossible to find it right here.

The imperial concubine is that he and the pope. If he finds it, he and the pope are not there. It will only make everyone think of ways to catch the pastoral park.

There will be grudges and also indicate that you are looking for him. There is only one possibility.

Yangcheng Mutian.

On the day in the Golden Mile, the young masters who met the sorrowful singer, said that they are the Yangcheng Mutian family, it seems that there is a big deal. Shen Lang felt that there was no big grievance, and finally they were released, and there was no killing.

At that time, it was Mu Tianzheng's three entourages who ran to Jinyu Valley forbidden places. Normally, even if Mu Tianzheng returned to Yangcheng and cried after the report, the Mutian family arranged for people to come over. Shenlang had already left here.

However, I did not expect that a group of people would ask to go back, and this time it was delayed for a few days. The Mutian family may have been looking for Tian Zhengde, so I found it here at a faster speed.

The Mutian family can be ranked as the strongest in the semi-fair realm, and it can be seen that the identity of this admiration is extraordinary. From the perspective of personality level, it is not a singularity, it should be a very popular line.

“Do not worry, everything is fine, they have been sent back.”

The emergence of Shen Lang has actually made everyone very excited and relieved.

I was worried that he would never go back, and they would be very difficult no matter whether they had a local strongman to seek revenge.

Now that Shen Lang is back, let them feel at ease. This young man has long since become the backbone of everyone.

Without the Pope, almost no one can challenge the authority of Shen Lang.

Now that people who know their own family have been safely sent back to Earth, everyone is more reassured. Even if there is a vigorous and vigorous battle here, it will not affect the succession of the family.

As for those who have not seen the canoe and others, they think that they are like others, and they choose to stay on the earth.

Not waiting for everyone to start chilling, the ten strong locals, from the different peaks around, quickly swept down. Landed directly in the direction of Taniguchi, not far from the sinking waves.

Among the five people at the peak, one of them is obviously the leader of the old man, full of majesty.

“Is it hurting my people?” One of the middle-aged people asked.

“Yangcheng Mutian family? How to call it?” Shen Lang faintly asked.

Now ten people are down, and at a close distance, he is very aware of it. This old man, the strength is comparable to half a fairy, is the strongest person from the Mutian family.

Among the other nine people, four are almost equivalent to the peak of the gods, and the other five are equivalent to the late stage of the gods.

This is like a trump card with four, four A, no wonder the earth monks are completely paralyzed.

“My name is Mutian Songyun...”

The man just introduced himself to the name and immediately reacted, so he became passive, and then immediately sighed.

“Boy! Did you hurt me to admire the Tianzu?”

“Song Yun.” The old man screamed at him, and then said to Shen Lang: “The old age is the Yangcheng Mutian family admires the sky, dare to ask this friend, my grandson Mu Tianzheng, how to offend in the Golden Mile Has your car been brutally torn off his arm? And three or four people have been tortured?”

Others have heard this before.

Before I asked the other side to ask questions, I could only be sure that Shen Lang had offended them, but I didn't know what it was because they would not say it at one or two.

What Mu Tianzheng remembers is of course the culprits of Shen Lang. There are no detailed memories and descriptions for several crickets. They are mixed among hundreds of people and have not been smashed out.

But basically it can be guessed that it happened in the Golden Valley Now that I heard this, I know that Shen Lang has torn the arm of the grandson.

Everyone did not feel that it was great. On the one hand, Shen Lang himself, of course, he stood on his own side. On the other hand, with their realm, young people offended them. It's kind of broken hands and can be extinguished. kill!

It's just that Shen Lang seems to mention the iron plate now...

They also have a wealth of life experience, and they immediately reacted. If you leave according to the established formation, you will definitely not be able to meet these people.

This is already the case, and it can only be faced.

Shen Lang nodded. "Mu Tianzheng is right. I spared the lives of four of them. I also left flying tools and drugs. Are you thanking me?"

When this statement comes out, don't say that the other side's face changes greatly, that is, the earth is crowded, and it is also full of black lines.

Big Brother, you are a salty provocation of the wound!

Chapter 1117 - Do you have it?

Mu Tiansong Yun will immediately worry about it, but Mu Tianhai still raised his hand to stop them.

“According to the four of them, you are trying to force all kinds of information from Jinde Valley from Zhengde’s mouth, so they used torture and finally ransacked their harvest.”

Mu Tianhai seems to be the first ritual, first to make clear the truth, let yourself occupy the moral high ground.

“If you have just said it, it is equal to recognition, right?”

Shen Lang looks like a smile and smiles at Mu Tianhai. “How about admitting?”

“Let’s go! Dare to be so black to the people of the Mutian family, you are looking for death!” Mu Tiansong Yun immediately screamed.

Mu Tianhai did not stop this time, indicating that this is his attitude!

“You think that the Mutian family is very strong, and others should naturally respect it. Offending the Mutian family is an act of looking for death. But what about people? For example, offending you, is not the same as him?”

Shen Lang said slowly, and here it began to be severe.

“The strength of the district’s Mutian Zhengde is not worthy of my shoes! I dare to offend me, is it a behavior to find death?”

Mu Tiansong’s words were used for a moment, and he just took him and Mu Tian’s comparison. He couldn’t say that offending him was the same as offending the enemy’s price.

“The weak people are disrespectful to the strong, and they are really offensive. But Mu Tianzheng has already confessed to the information of Jin Maogu. You have also taken away all the things and also ruined the four people. Is it too weak?”

Mu Tianhai has more experience, or thinks of Shen Lang will say so, or calmly deal with it.

“You ten come to me for a trouble, is it bullying?” Shen Lang asked.

Mu Tiansong Yun Yun came out with a sentence: “That is why you are not right!”

“On the same day, Mu Tianzheng is not right. He does not offend me, I am guilty of him?”

Shen Lang pointed to the back: “We are so many friends, which one is not stronger than Mu Tianzheng? Is he worthy?”

Shen Yi couldn’t help himself, and cried at the back: “Your master of the heavens, you must be a word for you! He is disrespectful to our masters, and disrespectful to our several hostesses, leaving their dogs, is our master. Kindness and morality!”

“Yes! From us, we must kill them and vent their anger! Not to mention the destruction!”
Shen II followed.

Mu Tiansong clouded coldly and looked at the past: “There are still accomplices here! You guys, actually harboring accomplices!”

Mu Tianhai is slightly frowning.

He is well prepared. The reason why the siege has forced the earth to come here, but not to kill one person, is because there are scruples!

Mu Tianzhengde said the name of the Mutian family, the other party did not care, and the young and powerful. There is also a large group of people who don’t know the strengths. It is obvious that this must be a big deal.

Before he could figure out the identity of Shen Lang, he kept calm, which is why he just could drink the cloud.

The conversation with Shen Lang just now is to let Shen Lang admit that it is bullying and not letting the Mutian family lose money.

But now Shen Yi's words made him realize a problem, and the baby grandson concealed something and said nothing!

In fact, he can think of his own disadvantages. So I checked with Shen Lang, but because I only saw one of Shen Lang, I didn't even think of the "hostess".

Listening to this now, not only a hostess, needless to say, it is definitely the accustomed Mu Tianzheng who teased this woman.

Shen Lang can see his strength, he can also see the strength of Shen Lang.

Think of a strong person like him, who has been teased by his own woman. Under the young and prosperous, he can endure it and kill it. It can really be considered kind.

This made him secretly complain, and the Mutian family could not stand it.

But think about his baby's arm is abolished, and can't swallow this breath.

"What accomplice! You are to protect the short! Shame your own shameless!" Qiao Yuxian stood up and stood up.

From Yuxianmen to the king of the dragon, and the former trolls, the confidence of others in Shenlang is very large, let alone rely on him to lead the way and go back.

Therefore, the bitterness that had been pressed before, all of them were concentrated and erupted at this time. All of them stood together and shouted.

Mu Tiansong is not simple. He can despise more than a hundred strong people, because his strength is equivalent to the peak of the gods.

But just verbally, his words are more majestic, and together with more than one hundred, there is no momentum.

Seeing that he was going to worry again, Mu Tianhai reminded him: "Song Yun."

Mu Tiansong cloud nodded immediately, like everyone else, no more words.

It can be seen that they are still very disciplined. If they are not allowed to cooperate, Mutian Songyun will not open as any other nine people.

“When we come here, we are not asking for sin. It is to find out that since there is controversy, please ask us to take a trip and confront directly with Mu Tianzheng. Do you dare?”

No matter what, now that people are mixed, one does not express well, and the reputation of the Mutian family is passed down and corrupted. Taking away the waves, whether it is using force or private, can reduce proliferation.

“I want to take me away, you... oh, match?” Shen Lang clearly disdainful sneer.

I was driven to this place before, and I was crushed by the earth-ridden men who could not leave. I wouldn't feel that the waves were arrogant and provocative, but I felt very relieved and very angry.

They have good deeds and immediately screamed: “Do you have anything?”

“Not worthy!” Others followed the interface.

“With?”

“Not worth it!”

After one side, everyone is unanimous, and the old men shouted the majestic momentum of the strong man.

“Not taking away, is an invitation. I am already very polite, I hope that you do not toast and do not eat fine wine!”

Do not face the face of the sky, so many people say that he is not worthy, even if the reason is good, it will get angry.

“Ugh.....”

Shen Lang suddenly sighed with a sigh of relief.

Everyone is quiet The earth is a bit nervous, is he going to give in?

do not! Said to be an invitation, is there such an invitation?

“Invitation” went to their site, isn’t it more disadvantageous?

Mu Tianhai, a group of people, was somewhat relieved. Looking at the meaning of Shen Lang, it seems that there is a soft taste.

“Why are there some scorpions who don’t have long eyes provoke me, why are their elders being arrogant?”

Shen Lang felt a few words, and then looked at Mu Tianhai with a cold look: “I am an arm of Mutian Zhengde. I don’t want to kill Yangcheng one day, and I don’t want to destroy the Mutian family!”

“presumptuous!”

“Hurricane!”

“court death!”

These people who are silent in the Mutian family can’t help but burst out with roar.

Chapter 1118 - That swell

Mu Tianhai also muttered: “Too rude...”

If you don’t give him a face, after all, he is a level, and he is so younger than him. He doesn’t have a super backstage, he has super talents, and he is qualified to be proud.

However, I actually said that I would kill Yangcheng and destroy the Mutian family!

This is really a big mistake. This is not a person, it is a huge offense to a family.

“Kids! You are declaring war on the Mutian family! I can give you an opportunity to apologize.” Mu Tianhai said slowly, the whole person has revealed a murder.

Although he has been angered and worried about the forces behind this young man, but now the other side has insulted the Mutian family, he has been ruined, he must stand up and maintain. Otherwise, how can you raise your head and become a man?

“How about declaring war? Like you, I don’t know how much I have to destroy the waves!” Shen Lang was also unkind to go back.

The words of Shen Lang are to include some of the previous life, and there is no exaggeration.

But when the earth’s heroes heard it, they learned about it, Chu Mofeng Chujia, Xie Daling Xie Jia, Tang Banshan Master League. It is indeed a lot of provokes of the waves, and in the end he was killed!

Then they remembered, a nickname that made them feel disdainful and funny – “the killer.”

I used to collect information about Shenlang. I also felt that it was a relatively arrogant nickname for young people. Until now, when I look at Shenlang, no one will feel funny again.

Mu Tiansong and others are all angry, but this time they can only endure.

The realm of the world is crushing people!

Even if they have the heart to challenge the waves, they do not have this strength. If you really want to shoot, you will only give the other side the momentum of the Mutian family and the face of the family.

This enemy can only be handed over to the world, and their goal is to pack up other shackles.

Mu Tianhai, who has already murdered the murder, has almost been detonated by this sentence.

He has already given the steps, and the other party has not only kept on, but has continued to intensify. This is to bully the Mutian family!

If he doesn't worry about it anymore, it is his timidity to pass it out. It is the incompetence of the Mutian family.

But just as he was ready to start, he suddenly slammed.

"Shen Lang? You said that you are called Shen Lang?" When he asked this sentence, he carefully looked at Shen Lang again.

Shen Lang snorted: "There is no name, but you don't have to worry about it."

The expression of Mu Tianhai's sea is complicated.

After a moment of silence, he slowly asked: "Six months ago, the young man who was in the limelight in Tangcheng, the Shenlang who got shelter from the Qiulin sword, is you? You are the sinking wave?"

Shen Lang did not expect that he would suddenly think of this, but Wei Qingcheng heard that the Yangcheng Mutian family would hear that it would be normal.

"The distance from the Tang City is ten thousand miles. It's impossible to know what happened here. You don't have to worry about it."

Shen Lang disguised his identity and then dismissed it: “Just say it, you and your children, I can kill it!”

Mu Tian’s expression is more complicated, and this sentence is undoubtedly a fire for him.

I know the identity of Shen Lang, so that he can’t worry!

At the beginning of the Tang Dynasty, because of the relationship between the Great Britain, many foreign monks were in Tangcheng, and later they spread throughout the Han Dynasty with their departure.

I personally listened to the limited number of people who talked about Shen Lang. No one even saw him in the upper Qilin Lin Jianzong. Many of them are legends, and the legend will be more and more exaggerated.

When I returned to the foreign city, I didn’t know how many times it was processed and beautified.

The opening speech of Shen Lang was blown into the sky and the ghosts and gods, and all the people who heard the lectures were as treasured and smashed, and the day broke through. – This may be due to people who want to sell copies of Shen Lang’s speech records.

As for the shelter of Qiu Lin Jianzong, there is another saying that many sects in Tangcheng want to **** the singer of Shen Lang, in order to fight for him to fight!

In the end, Qiu Lin’s swordsmanship was a strong force, and even the so-called Mo Feiliu, who had not been born for many years and was thought to have died for decades, was said to have personally appeared. Dispel the factions and take away the waves.

Although the rumors are mainly based on the middle-level monks, which are equivalent to the earth’s true state and the early days of the realm of the gods, like these, they are comparable to the semi-fairy realm, and naturally will not believe so exaggerated.

However, while scolding at the same time, it is also very important to pay attention to the waves.

Even if you make a discount, this person must be very extraordinary. Even if it is not enough for Mo Feiliu to re-enter the mountain, he should have really got the shelter of Qiu Lin Jianzong!

Therefore, after Wei Qingcheng knew the identity of Shen Lang, his attitude changed immediately.

The same is true now.

He was originally worried about the powerful forces behind Shen Lang. Now it is a clue to find out what origins are still unclear, but if you only get the shelter of Qiu Lin Jianzong, you can't move!

He is also smiling in his heart, no wonder this kid is so arrogant, it turned out to be a big backer.

And in the legend, he is in a good position, even if he is in trouble in Tangcheng, he is also a young disciple of some martial arts families. He can only say that he is quite insightful.

But now I met and found that Shen Lang was not inferior to him. How could this not be a spurt in the first half of the year?

There is only one possibility – those who disseminate information are too low-end, and at that time they did not understand the true strength of Shen Lang, so their exaggeration is unrealistic, and the real strength of Shen Lang is more than their exaggeration. Much more!

“Smile, you are powerful, but you may not be able to deal with me. It is impossible to kill us. Besides, we don't have your life and death. Everyone is reasonable...”

Mu Tianyu Haizheng wants to ease the atmosphere and then find the steps for himself.

At this time, a voice came from the air in the distance.

“Then add one to me? You are not enough to destroy you?”

As the sound came, the two figures had already swept away.

Pope Constantine V and Archbishop Paul have just arrived from the direction of the Golden Mile.

Mu Tianhai's face has changed. This is another strongman who is not inferior to him!

If the strong man has not arrived yet, he has already set out the horses and horses. He is trying to support the waves and will not hesitate to fight them.

Not only him, but other people in the Mutian family have changed their faces.

They are very clear about the gaps in the realm. In the past, I only needed to sit in the town, and relying on them nine people, I was able to drive over 100 people, because the realm can make up for the disparity in quantity.

Now that the other side has come to a strong one, it is immediately one side of the other direction.

After the Pope and Paul flew over, they landed directly next to Shen Lang, indicating that they were on the same line with him.

The earth is crowded. After the main bone of Shen Lang, it has already gained momentum. Now the Pope is back, and it is even more exciting. Some of them have remained at a distance, shrinking inside the valley, and now they are coming together.

Chapter 1119 - Euphemism

Mu Tianhai's mood was so bad that he never thought that he would encounter such a situation.

After Mu Tianzheng's accident, he will of course come out to find the scene, but before he vents his anger, he should first understand the situation rationally, so as not to provoke people with big backstage.

Now it is indeed confirming his conjecture. In this group of people who don't know the origins, it is actually the deep wave!

This has made him a little headache, not easy to deal with. However, this face is not given a little face, and the tough attitude makes him ride the tiger.

At this time, another strongman of the same level, it is not that he has the steps, but the initiative to be in the other side.

After the Pope came, he only showed support for Shen Lang, and there was no more nonsense. No matter what the reason is, when they face each other, they are faced with one another.

Mu Tianhai faces the pressure of increasing drama, and the whole person has remained calm.

But now the other two people have expressed their attitude. He can't keep silent and must make a statement.

"Two...Shen Lang's lord... We are very friendly with Qiu Lin Jianzong. Since you are a friend of Qiu Lin Jianzong, that is our friend of the Mutian family..."

This is said, let alone the outsiders listen to the funny, he is too ridiculous to listen to.

But what can he do? This is already the most decent euphemism.

Before the gap in strength, it is the glory of the family, and it has to be put aside. Otherwise, he has the chance to escape at most. Mutian Songyun and others will be deducted, or even directly killed!

Mu Tianzheng is the child of Mu Tianjia, breaking his arm, in addition to hurting his personal, it hurts the face of the Mutian family.

But these are also the children of Mutianjia!

It is impossible to take a few lives for an arm, and the loss is too great.

“So?” Shen Lang stared at him with a mockery.

Mu Tianhai feels hot on the face. Before he pressed the other side, the other party was still so tough. Now that the posture has turned over, he can't be tough, he can only ask for it!

“So...is a misunderstanding...misunderstanding...and it should be that Mutian Zhengde has concealed it and said that he should offend you.”

Mu Tiansong and others waited to look at Mu Tianhai and had to say this. He also felt that his face was burning. As a person of the Mutian family, when was there such a shameful moment?

They even have the idea of dying to kill the net, but the gap between the strengths, so that they are desperate, and it is only a small matter for others.

“So?” Shen Lang is still the same tone, the same inquiry.

Mu Tianhai is not stupid, know what this means. The front is to force him to express his position, acknowledging that Mutian Zhengde is wrong.

And now continue to ask questions, no doubt is to let him pay for the price of Mu Tianzheng!

“So... you didn't kill him. It's really magnanimous. I should apologize to you and thank you!” Mu Tianhai said helplessly.

“You are arrogant and arrogant, disrespectful to my friends. Now you are apologizing, is it useful?”

After Shen Lang's words were finished, more than a hundred people immediately called: “Useless!”

Mu Tianhai's face is even more ugly. He wants him to bow to Shen Lang. He can still do it. After all, this can be pushed to the head of Qiu Lin Jianzong. It is not that he is afraid of death, and the strength of Shen Lang is enough.

But now it is too much for him to apologize to this large group of people. Many of these people are far from his realm.

When he hesitated, Shen Lang went on to say: "Apologize is useless, you still give my friends, make compensation compensation!"

Hearing this, Mu Tianhai is a loose, able to solve the problem with compensation, of course, better than accepting his own apology to the weak.

"What you said is justified. Although we didn't hurt people, it was a bit misunderstood before. I sent 30 Lingshi as compensation..."

During the speech, he has taken thirty of the finest stones.

It's already a big deal for Mu Tianhai to use a 30-pronged Lingshi.

However, his words have not been finished, and Shen Lang sneered.

"Thirty Lingshi? Are you asking for food?"

Mu Tianhai frowned, but still forbearing to ask: "What do you mean?"

"Thirty Yuan Lingshi."

"Why don't you grab it!" Shen Lang just said that there is already a person in the Mutian family who can't help but scream.

Shen Lang glanced at him: "If I want to grab it, I can now grab all of you directly and grab everything in you!"

This made them clench their fists, but they did not dare to continue.

Hard to hear, but very realistic.

If you really rob them all, add up to the value of more than thirty yuan.

“Shen Lang, you have too many 30 yuan Lingshi, I can’t get it. You can’t let me go back, right?” Mu Tianhai was helpless.

“Everyone has ten fine stones, which is your rude compensation.” Shen Lang made a concession.

Originally, the 30 Yuan Lingshi was to raise the price. Now this is a real goal.

Mu Tian’s face is full of bitter smiles. It’s very painful. There are more than one hundred people on the scene. According to one person’s ten, it’s more than a thousand. Thirty times more than the thirty he prepared!

“I don’t want to bargain, more than a thousand Lingshi, I can’t prepare. One person and five... maybe even get it out.”

After admiring Shen Lang, Mu Tianhai said to other people: “If you are friends, we will be disrespectful and have no substantive harm to everyone. I hope everyone understands.”

Originally, he liked compensation, and the Mutian family was rich in money and could solve problems with money. Of course, he did not lose face.

Now the conditions for the opening of the waves make him feel that it is better to apologize!

However, the meaning of Shen Lang has obviously been to knock him out, and now I want to apologize is not possible. Therefore, his words are equivalent to apologizing to others in disguise, hoping that they should not be too demanding.

Of course, the earth's male group does not speak. Shen Lang just apparently is fighting for the interests of everyone. Who would be less?

However, from the heart, they also feel that one person is not realistic. After all, the base is too big. Even if the Mutian family can get it, they will not carry more than a thousand Lingshi.

For the house numbers on earth, they simply cannot get a thousand fine stones.

“First come together! I believe that the Mutian family is so rich, the area is a little spiritual, it should be no exception.” Shen Lang's lightly floating sentence, did not let them go.

“Kids! You are deceiving too much!” Mu Tiansong couldn't help himself.

Shen Lang's repeated attempts to make it difficult for them to feel like this is more embarrassing than their own martyrdom.

This time he can't take care of it, and then he will shoot it directly!

Chapter 1120 - Palm lightning

Mu Tiansongyun is also shrewd. He understands that with his strength, he must challenge Shen Lang and simply won't win, let alone a strong person next to him.

So after he finished speaking, his shot was to the rear of the earth!

And they admire the family, there is also a tacit understanding, and several other people have long smashed the anger of the stomach, when he took the lead, the other eight people followed!

Nine people attacked the Earth together, the purpose has been very clear – catch hostage!

They are not clear about the relationship between these people and Shen Lang, but since everyone did not supply the Shen Lang there, there is not even more information, and Shen Lang is now going to defend everyone, it must be a group.

If they can seize a group of hostages, they will not be so passive. Mutianhai has the confidence to negotiate.

This change made the Earth monks react immediately!

They are all behind Shen Lang and the Pope. When Mu Tian Songyun and others want to attack them, they must first bypass the two people, which gives them enough time to prepare for the enemy.

But what everyone didn't think was that the nine of them were very fast, but when they passed by, they seemed to be solidified!

Around them nine people, there is a layer of looming white light alone, white light shrouded them, directly let their bodies stagnate, just like suddenly becoming slow motion.

Everyone is a spirit.

What is the strength of the Pope? Everyone used to see it in Yuxianmen. It was two people of similar strength. Actually, it was not so gorgeous. Now it is different.

It's like watching two heavyweight champions with similar strengths. It won't be so wonderful, because they are all masters, attacking and fighting are very strong, often relying on technology to win by points.

But if a heavyweight champion fights with a mini-level boxer, the crushing scene will be much more exciting.

However, everyone did not look at the excitement. The Pope only created opportunities for them to make the attacks of these nine people difficult, but they still had to solve them themselves.

Everyone has a huge advantage in the number of people, and there are two super-big rushes, of course, without any tension.

At this time, let everyone once again have an unexpected situation!

Shen Lang actually flew into the scope of the slight white light!

This is really a surprise for everyone, including the world, including the Pope.

Just after their shot, Mu Tianhai is also a kind of acquiescence. If they can really succeed, and they catch a group of hostages, he will be much more convenient.

If they are unsuccessful, he can make up a few words.

When he discovered that the Pope had shot, he realized that it would not be so simple. He was ready to stop at any time. However, I did not think that Shen Lang would actually participate in it!

A strongman with him, “bullying” a few weaker ones, has been a bit too much, and there are more than a hundred people waiting behind. Now come one more and join as strong as him!

This is simply shameless!

Mu Tianhai feels that he is embarrassed to do this for himself. Before he was here, he also suppressed everyone and did not join hands with others.

But now Shen Lang is not only shot, but also very fast. After his shock and resentment, there is already a result here!

Just the slight white light is the unique skill of the Holy See, which is essentially equivalent to the control of the field. In the light of the Holy See, it is through the divine light that the enemy is shrouded and purified.

In fact, because of the control of the field, the speed of the nine people was greatly restrained. The gap in strength, the higher level of sneak attack on the lower realm, so that Mu Tiansong Yun Nine people can not break free.

The rush of Shen Lang’s rush, the Pope was also surprised.

But that is his field, naturally control as he pleases, Shen Lang will certainly not harm him, so he not only does not set limits on Shen Lang, but instead helps him, so that Shen Lang can be faster in the field!

So falling in everyone's eyes, that is, in that space, nine of them are slow motion, and Shenlang is a fast action, a fast and slow contrast, so that the gap is particularly conspicuous.

This gap is as if several of them have been settled, and then the waves are moving at their normal speed.

Shen Lang is so close in the past, just remembering the people who are killing the history of the madman, can't help but wonder if this guy is going to blast his heads one by one...

This also makes everyone squeeze a sweat, after all, an arm has been able to let the other party block the door. If you really make a headshot of nine people, then it is not a dead end.

However, the pictures that followed, but let everyone be surprised, because the waves of the waves, actually there is lightning in the palm!

Almost at the same time, there was a flash of lightning in the slight white light, which was accompanied by successive thunder.

When it was said that it was too late, everyone was watching it. Mutianhai was just reacting. He wanted to shoot and wanted to stop, but after seeing a thunder, nine people were already stunned.

At this time, the Pope had withdrawn his field and placed his attention on the body of Mu Tianhai, preparing him to suddenly attack.

Shen Lang also returned to the original place, facing the Pope and the sea together with the Pope.

The nine men were originally flying forward, and they wanted to attack the earth's heroes. After being attacked by the combined forces of the two semi-prestige circles, they had already landed on the ground. What keeps them stunned is that everyone is thundered and smothered with smoke, and some skin is blackened.

“Shen Lang!”

If you admire the sea, you will only come out at this time.

The statement was already one step late and could not stop him from being very angry. Just that he saw his nine ethnic groups being strangled by two of them together!

“Calm. A few of them have not died yet.”

Shen Lang smiled lightly, and with a hand, nine people who were stunned were attracted and fell to the side of Mutianhai.

This is just the time when they thundered them, and they also blocked nine people.

In fact, there are four of these nine people who are at the peak of the realm of the goddess. Although they can not compete with the level of the semi-central, but they are also very powerful, and not so easy to be controlled.

However, they were first manipulated by the Pope's field, and then they were attacked by the waves, leaving them completely unrelenting.

At this moment, back to the back of Mu Tianhai, Shen Lang has already withdrawn the imprisonment, let them stunned, a little bit sloppy, his skin was hit by lightning, and he could not help but scream.

Mu Tianhai was a little relieved. It was just because of the combination of Shen Lang and the Pope, and then nine people became like that. He was anxious and thought it was killed.

It's good that people are not dead. At this moment, he quickly checked them and confirmed that the other party was under the mercy, mainly skin trauma.

“My people can let the two of you join forces, even though it hurts!”

For the irony of Mu Tianhai, Shen Lang stared at his eyes.

“Do you want to try again?”
