

First Strong 1151

Chapter 1151 - Spoiler

Ji Qiancheng is of course also experienced in life and will not be so easily fooled.

Now that I have given them to them, can I really leave safely?

If you leave safely, wouldn't it spread their activities?

Wouldn't it be possible to return to Jijia to move to find them to seek justice?

Since it was robbed, even threatened by life, the emperor and the envious of the two sides will certainly not let this information spread.

In other words, even if he gives it honestly, they will not let him go, and they will kill them in this field!

Now saying this, to make such a promise, I am actually afraid that he will ruin things! Once they were surrendered, they were not scrupulous and directly killed the killer.

"Of course, the emperor brother added me, can you still believe it? Everyone is a person with identity, of course, will credibility." Mu Tianhai immediately answered him.

Ji Qian took the ridicule and said: "Is it? Just someone is still saying that the name is notorious. Once you see it, it is nothing but something outside your body. You are worried about the credibility?"

Huangfu was not angry at all, just looking at the two people next to him: "Ji Qian, now is not the time for you to talk to us. We will let you go if you said that you will let go. If you don't want to believe You have to stubbornly stick to the end, then we can only deal with these two Ji family first!"

This statement is a direct threat, not against Ji Qiancheng, but two other Ji family!

This makes Ji Qiancheng also a gas knot, but I don't know how to attack it.

With his own dignity and the truth that he has seen through, he must stick to it. But it is not him who threatens him now, but his two sons, which are different.

Just as Mu Tianhai said just now, his screen still has a chance to escape, but the other two, if Huangfu and Mutianhai have a heart to kill, there is no way to live!

"I am a family boy, can you be threatened by you? I will not give up the harvest, you will kill us, deliver all the harvest, you will still kill us. Why don't I fight blood?"

"Blood battle in the end!"

The other two family members, who followed the big drink, made preparations for a deadly battle.

"Thousands of brothers, you have to think clearly..." Mu Tianhai is a little emotional.

"Mu Tianhai, you have to think clearly! As long as I squat down the Ji family, I will be able to escape. At that time, the Ji family will be able to avenge them and kill you!" Ji Qiancheng in turn threatened One sentence.

"We are dead, we can pull them both backs!" Ji family alone, but also revealed a crazy look.

Their goal cannot be that Mu Tianhai and Huangfu can only be the other four of the same level.

"Hey!" Huangfu sneered a little and did not put the two people in his eyes.

Mu Tianhai sighed: "Ji brother, Ji brother, you Ji Jia Er Lang no matter, there are only two, four of us here are enough to kill them. I am with the emperor brother, you really ran? "

This made Ji Qiancheng's face a bit awkward, and the two Ji family were desperate to be desperate.

Because the other party is a two-way cooperation, the strength is directly doubled, how can we crush them. If it is in the outside world, Ji Qiancheng still has the opportunity to escape, but here, it is impossible to move infinitely to the far side, but also to go back and forth.

Ji Qiang was silent for a moment and said slowly: "I give up half..."

"You give up half, let us divide. Do you want to provoke me and Mu Tian's guilt?" Huangfu faintly laughed and directly rejected this suggestion.

"When you go out from here, give another half! I have to confirm the safety." Ji Qiancheng said that he was interrupted.

Huangfu still can't accept it: "Impossible, once I left here. You will no longer fulfill your promises, and even when you meet other people, you will lie about how many good things we have, and cause us trouble." ""

Ji Qiancheng's face is even more ugly.

Since Huangfu is worried that they will expose to other people, it means that after getting things, they will definitely destroy them!

Then it's only a fight.

Just as the situation became imminent, a voice passed down from the top of the mountain.

"really interesting."

When I heard someone talking, the nine people at the scene were taken aback and couldn't help but look up.

This is in the scope of the universe, a total of such a large range, there are dozens of people coming in, and they are scattered. This has gone to several different cities with a few people. Without any contact, you can still encounter the same, the chance is too small.

So when they first arrived, they didn't even know if there were any people nearby, as long as there was no big danger.

However, they did not see anything, even just instinctively looked up, and immediately received it back.

Because Ji Qian took three people, of course, I want to take advantage of this change that I don't know where I came from, and I will immediately find a chance to leave.

The other six people are prepared to guard against the three of them taking the opportunity to leave.

Therefore, it immediately became the same confrontation before, but everyone had a little shadow in their hearts.

Judging from the situation that everyone came in before, there are still people here, so it will not be one, at least one group.

Who is this group of people standing on?

This is a spoiler!

For the Huangfu and Mutianhai, they stand on the side of the station, and the two sides are evenly matched. It is not good to do it; if they stand on their side, it is also a group of people who come to share it, or it is not good.

Ji Qian took three people, but they didn't have reliable friends. The biggest possibility is or help the stronger opponent, then they really have no chance to escape.

Even if the other party is willing to stand on their side, it should be a plot, can it be a simple help?

When everyone kept confrontation, Shen Lang had already collected the mysterious stone, and fell directly from the top of the mountain and landed near them.

Under this circumstance, whether you want to turn your head deliberately, everyone will see the people coming.

There is only one person to come. From the situation he appeared on the day, it seems that he is not familiar with everyone!

However, this is the analysis of Huangfu and Jijia, and the three people of the Mutian family are not good at their faces.

“Shen... sir, are you okay? It’s really gratifying!” Mu Tianqiu slammed his smile and made a greeting to Shen Lang.

Shen Lang glanced at him faintly: “There are a lot of people who want to kill me, and you are not missing one. And you want to kill me, and I am often killed by me!”

A simple conversation between the two of them, one after another, immediately caught some information from Jijia and Huangfu.

It seems that they know each other, and they are in the sky, they have pitted this person, and even thought he was dead. Now that this person has come alive, can they still have no resentment for them?

Chapter 1152 - Left and right situation

The atmosphere at the scene was a bit nervous. Because of the arrival of Shen Lang, everything was full of variables. Everyone analyzed him and waited for him to express his position.

“The friends of Ji family, you seem to have encountered troubles that cannot be solved. I have no complaints with you and the friends of the emperor’s family here. However, Mu Tianhai has pitted me in the past few days and almost killed me. .and so.....”

When Shen Lang was talking, everyone listened carefully and read his attitude.

Needless to say later, this is very obvious. He showed that there is no grudge with Ji Jia and Huang Fu’s family, but it will be against the sky!

If he took over the sea, then the emperor would not be sure to get Ji Qiang.

However, I will choose this time to come out, I will choose such a statement, the meaning is also very obvious, this is to see if there is any benefit!

They are all old age. They are very familiar with human nature. When the interests are sufficient, people can help strangers regardless of danger. If the interests are large enough, the grudges can be written off, and even the enemy can be turned into friends.

Now that Shen Lang's words are halfway, this is waiting for the price of both sides to be offered!

For Huangfu, the appearance of Shen Lang is very uncomfortable, and now it is equal to the smashing of the smash!

If he promised, it would be difficult to accept a one-third of the plain. And this trouble is Mu Tianyu Haiyao, really want to solve the benefits of the Tianzhuhai Sea.

Mu Tianhai is also a headache. He did not expect that Shen Lang can not only get out of trouble, but also wait for them here. The strength of Shen Lang's display in the channel of the Deadwater River and the Wind has made him quite jealous.

For the three of the Ji family, it is already a dead end. If you don't hand over things, it's all dead, you can only fight hard.

The appearance of Shen Lang is a variable for them. If they stand on the other side, they will only die faster!

When I heard the dialogue between Shen Lang and Mu Tianhai, Ji Qiancheng immediately realized that this was an opportunity and an ally that could be won.

When Shen Lang made a public statement, he did not wait for Mu Tianhai to save, and immediately expressed his sincerity!

“This friend, you are right, I am very clear about the current situation. So, as long as you help us, you can get away today, and my Ji Qiancheng will definitely receive half of the reward in the dead city!”

Just if they both can only take half of them, Ji Qiang is still willing to pay for his life. However, the meaning of the other party is very obvious. Since they have robbed them, they cannot let them spread the news. Since it is necessary to kill people, it will naturally be all.

The same is the general pay, compared to the two sides chasing and killing, he is of course more willing to use to win an ally to save lives. The former is humiliating and seeking for mercy, while the latter is willingly asking for help.

Mu Tianhai reacted very quickly. When Ji Qiancheng spoke, he had already reacted.

“Shen, we used to explore the alliance. We were in danger at the time. We were also out of fear of death instinct. We didn’t mean to hang you. We are just a small misunderstanding. It is better to join us today. The matter has been solved, what about deliberation? Of course, your participation will inevitably bring you one point of benefit!”

Although Mu Tianhai has been saved, it represents the benefit of Huangfu’s promise of Shen Lang.

However, Ji Qiancheng is not worried about it, and does not say whether it is really pitted. They only count by force according to their power. If you play by sliding, then he will become one-seventh. .

In comparison, Ji Qiancheng promised half, and that is obviously much more. Such a simple calculation, which one should be chosen naturally has no suspense. Unless it is a sentimental point, the other party is not only without human feelings, but also has a resentment and reduced points!

However, Ji Qiancheng still does not dare to care about it, although it is considered that he gives more benefits, but Shen Lang helps them, it can maintain a draw at most, and may even be a loss for everyone; but if you help each other, then the ratio One is to crush them easily.

In other words, one-half of the one he gave was difficult to get, and it was difficult to get himself into it; the highest third of the other party was at your fingertips. On the price/performance ratio, the other party is also likely to convince.

So at this time, he immediately added a sentence: "Little friends! They want to win the treasure, but also kill us. If you cooperate with them, don't worry about making a skin with the tiger! Will they be willing to give up one-third?" One in seven may not be willing. I am afraid that you will spread today's affairs. Once you kill us, the next one will deal with you jointly!"

In the identity of Ji Qiang, I will not be able to take care of it at this time, and carefully analyze the consequences. I also specifically emphasized that there may be only one-seventh of the benefits.

Mutian Songyun and other six levels of the peak of the realm of the gods, in fact, the age is not small, usually it is a big fight. But at this moment, they didn't even have a mouthful!

And Ji Qiang, Mu Tianhai, their strongest in this level, now they have to look at the face of a young man like Shen Lang, the whole situation is dominated by his own attitude... These all make them very embarrassed.

Of course, Huangfu is not willing to let the profits come out, but when he promised the promise of the sea, he did not say anything, he was playing this idea, everything can be solved, and they can't be allowed to unite.

At this moment, I heard that Ji Qiancheng said that he couldn't recover it. If they want to win, they will not trust, and if they don't, they will be secret.

So at this time, Huangfu directly stared at Shen Lang.

"Young people! This drowning is not something you can do. Don't lose your life for the benefit of the district! Your most wise choice now is to take advantage of us here and hurry to leave. After that, everyone will not make river water. Otherwise, you Know what the consequences will be."

The tone of Huangfu is still very indifferent, and it is not changed at all because there is more than one spoiler.

But what is said now is a direct threat! Let Shen Lang have to leave immediately, otherwise they will not let him go.

“You are this... warning me?” Shen Lang asked with a smile.

“No, it is a threat.”

The tone of the emperor is very dull, but the attitude is very domineering, and direct recognition is a threat.

“Ji’s predecessor In addition to the benefits you said, I will kill them all the time. I will take half of all the items on them, how?”

Shen Lang looked at Huangfu, and asked Ji Qiancheng.

Ji Qiancheng waited for the final statement of Shen Lang, and when he heard Zhang Wang, he could not help but be excited and excited. This is to promise to do it with them!

“Oh, Xiaoyou is too polite! Kill them, all their belongings, all by the little friends, how? We don’t!”

Ji Qian took advantage of the quick addition, and I didn’t expect them to have much money on them. If they had the resources, they would not be so chasing them, so they sent them a smooth ride.

The envy of the enemy is cool!

Chapter 1153 - War 綦泮

Rao is a calm and calm one, and when I hear this, it is also a fire!

This is actually in front of them, after discussing with Ji Qiancheng to kill them, how to divide all their items!

Will they be six dead people?

Even if you and Ji Qiang join forces, they are still four to six, still at a disadvantage.

“The big words are not awkward!” Huangfu colded his face.

When Mu Tianhai came to this moment, it was also seen, and it was impossible to be good with Shen Lang.

The mausoleum, he led the Shenlang cooperation, with Shen Lang to go, and when the last stone scorpion appeared abnormal, he pushed the Shen wave to the top, and then ran with his own people.

These are added together, and it is obviously impossible for Shen Lang to believe that this is a misunderstanding. I will definitely think that I was deliberately setting up a bureau. I wanted to murder him for revenge for Mu Tianzheng, for the humiliation of the valley in the past!

Originally everyone is an enemy, it is for the sake of the interests of temporary cooperation. Now the new hatred is added together, want to resolve, it is better to take the opportunity to kill him!

Three people from the Mutian family alone can't get rid of Shen Lang. Now there is cooperation with the Huangfu family, but it may not be impossible.

Therefore, at this time, Mutianhaihai intentionally made a sigh and deliberately guided everyone.

“Shen Lang, I didn't expect you to hate us so much! I took you to the tomb of the war on the same day. I wanted to help each other. But we don't know enough about the mausoleum, plus you are the first to win the treasure, unless the agency, we face The danger cannot be saved, it is a last resort...”

Deliberately paving the way, and then the front turned, “Since you have come out safely, you must have got the treasure of the tomb of the war. Young people, should learn to be content, but also want to plot a little bit of harvest in the dead city?”

When he was talking, he caught everyone's attention. When we finally finished, everyone had their eyes shining, and then watching the waves filled with complex looks like envy and jealousy.

"Two thousand years ago, the martial arts that disappeared in the meditation of the meditation?" Huangfu could not help but confirm.

"Not bad! In the past, I beat all over the country, and I was a few incompetent. I was called a war. I was later alleged to be defeated because of loneliness, so I went to the meditation area and wanted to find an opponent in the ancient ruins of the meditation. Then I will not There is no news in the news."

"A few hundred years ago, we had a predecessor who came to the meditation area to explore the mausoleum. Now there is no direct evidence, but from the age of construction, it is not an ancient vestige, but for more than a thousand years. History, combined with analysis, is very likely to be the tomb of the war priest!"

"The guardian of our generations, the last time I decided to dissipate the seal. This time I went to the expedition, because I was worried that the strength was not enough, I invited Shen Lang to go with me. When I was in danger, I took two sons first. Escaped. I thought that Shen Lang's lord..."

"Now I see that the living of Shen Lang's health is alive, and the treasures left by the tombs of the War Memorial have already been harvested. Thank you!"

Of course, Shen Lang knew from his opening that he was playing an idea. He wanted to convince everyone that he also had a heavy treasure. In this case, Huangfu would be more desperate, and even Ji Qiancheng might have other ideas.

But he didn't know the information about the tomb, so he didn't interrupt it, waiting for Mu Tianhai to finish his words.

Now I understand the fact that it is not an ancient tomb. The undead may only be two thousand years old. From the point of entry of the law enforcement agencies, as well as the door, the passage, the stone plaque, etc., it is more likely to be around two thousand years.

In the mausoleum, I did not get any treasures, only one iron stick magic weapon, which is also in line with the style of the "war".

And the scorpion king of the Deadwater River is a bit of a scruple for him, perhaps through the iron bars, and the shackles of the year are connected!

Listening to the self-destruction of Mu Tianhai, the eyes of Huangfu have changed a little. The current situation, Mu Tianhai is because it has been grabbed by others, not willing to make a wedding dress for others, only exposed.

This kind of unwillingness is more authentic and credible! Combined with their two recent conversations, it is not like a temporary compilation.

For Huangfu, this is another big fat sheep!

Originally, they didn't have much to gain. They took the Ji Qian by them and swallowed them. Now there is still a door that has received the treasure of the war cemetery. It is really lucky.

Ji Qiancheng has nothing to say at this moment, and it is the right thing to be able to keep the peace of his three people!

In his heart, he actually didn't believe that Shen Lang got the treasure. If he really got the treasure, just like them, it would be a shame to avoid other people, and wait for the low-key time to go out.

How can you take the initiative to appear in front of a group of people who are exposed to robbers?

He suspected that Shen Lang was sinned inside, but there was nothing to gain, and he would come out to help them with the hatred of Mu Tianhai. If you don't have this hate, you will be safe first and may not come out.

So at this time, he is decisive!

“Little friends! Whether you are going to the tomb of the war, whether you have anything or not, it is yours. Older brothers, we must fight with you in the end! These shameless people who are jealous of others, we Resolutely resist!”

Of course, this is a deliberate statement, but under the influence of the other two sides, Shen Lang is still very satisfied.

Shen Lang said with a smile: "Ji predecessors, then let's say so, do them!"

During the speech, he has already taken a polite shot!

It has just been a state of arrogance, but because of the admiration of the sky, let everyone temporarily shift their attention. But no matter who they are, they dare not relax.

Now Shen Lang said that he shot his hand and immediately let everyone prepare for the enemy!

But no one thought of his attack target...

According to the strength of Shen Lang's performance, coupled with his resentment, he felt that his goal would be to admire the sea, and secondly he might attack the other two people in the Haitian family. The third place would be Huangfu.

So Ji Jiqian is also ready to deal with Huangfu.

No one thought that the target of the Shen Lang attack was actually the other two weaker ones of the Huangfu family!

This is how it will be the best goal. Now it suddenly becomes the first. These two are going to be with the Mutian Songyun. They are both smashing the Ji family. The mutation makes them unable to react. Huangfu was too late to rescue, and he could only watch Shen Lang reach the two of them.

Fortunately, these two are also the strength of the peak of the gods, plus always keep the alert, immediately exercise the body, while the weapons in hand, put on strength, crazy to greet Shen Lang!

The shadows flashed!

Chapter 1154 - 1 hit 2 off

In the eyes of both of them, Shen Lang is even higher than them, but the temporary sneak attack, pay attention to is fast words, generally will not swing 100% strength.

Therefore, as long as they protect their bodies and at the same time attack, they will be able to survive even if they are injured.

As long as they dragged the blow, Huangfu and they could come over and rescue.

There is even a expectation that they are not actually the target of the attack, but that Shen Lang deliberately pretends to be a scorpion, and wants to let the emperor and the scorpion accident, and then attack both of them.

However, all the thoughts, the defense of full attack, are between the shadows, there is a difference!

When the black shadow touches their weapon, when they touch their body, they are like a knife passing through the tofu, without any resistance, and completely through!

When Shen Lang attacked both of them, Mu Tianhai was secretly glad, and Mutian Songyun didn't even have to say it. I thought they would be the target. I didn't expect it to be the most impossible attack. The two.

Even the united allies still have a close relationship with each other. Mutianhaihai must protect itself first.

Therefore, immediately after the attack on Shen Lang, it was also the first time that Huangfu rushed over. Mutianhai was protecting the two of them, and then attacked Ji Qiang on the other side!

He is smart, and he is the only one who knows Shen Lang's "bottom details". He knows that Shen Lang's body is likely to have many magical magic weapons brought by Qiu Lin Jianzong. To really fight against Shen Lang, the possibility of losing is too.

Not to mention that Shen Lang still has resentment against him, and the shot will not be merciful, so it is best to let Huangfu go to the gunshot of Shen Lang, he chose to play with Ji Qiancheng.

The eyesight of Huangfu is certainly not bad. I have just seen that something is wrong, so I can't take care of it so much. I must hurry to save people.

As a result, when he passed, Shen Lang had already retreated far away!

Under the attack, Huangfu looked at Mutianhai and had chosen Ji Qiancheng. Of course, he could only continue to fight with Shenlang. However, when chasing the waves, I still looked at my own two.

This eye is to shock him and anger!

I saw that their soldiers had broken into two pieces, and the bodies of the two people were broken into two pieces!

The break is not the flatness of the sharp edge, nor the flesh and blood, but it seems that the middle of the air is a bit less, it looks very strange. Seen from the upper and lower fractures, it seems to be strongly corroded.

This is just a stroke from their waist, they ignore their defenses and bodyguards, causing such a serious corrosion, what evil weapon is it?

Just admiring the heavens and the sea and talking about the battle sorrows, at this moment, the emperor and the princes naturally entered the sacred soldiers left behind.

“you wanna die!”

With the roar of the emperor, the Mutian family and Ji Jiazheng were trying to attack the six people who were attacking. They all took a look at this side and saw that the two people who had broken into two sections and had one less in the middle could not help but have a little scalp. hemp.

The two people who have just finished well are directly killed by Shen Lang, and it is still such a strange way!

The key two are only relatively weak, and the real strength is not bad. In front of Shen Lang, it is so vulnerable!

The effect of Shen Lang's shot immediately caused a chain reaction!

Originally in accordance with normal thinking, they will fight together at the same level of the four, and the six weaker fights together. However, Shen Lang did not follow this established thinking. He directly killed the two weaker families.

For Ji Qiancheng, of course, it is very exciting, and directly cut off the other's advantage, from six to four, pulled back to four to four.

On the other hand, Shen Lang's shots are not merciless, and they are very heart-wrenching. They are also fortunate. Fortunately, they have been dragged into their own camp. If they are in the enemy camp, the two who are killed at this time should be the two of Ji's family.

For the three people of Mutianjia, it is a huge haze!

Even the Huangfu family who met for the first time and did not have any complaints, after confirming the enemy and me, Shen Lang can immediately kill directly. The Mutian family who has had a few grudges, can you go where?

According to this style, the next step is to kill the two of them.

There is no need to say that Huangfu is full of anger. At the same time, it also proves that there are treasures of the battlefields in Shenlang, so that he must take the Shenlang!

When it was said that it was too late, all the effects on the situation and the psychological and imposing manners of everyone were only a momentary change.

Waiting for Mu Tiansong and the two policemen to wake up, now avoiding the Shen Lang's attacking waves, it's not far from their two sides!

On the same day in the valley, they were struck by lightning waves, and at that time they felt that they were being attacked. Now that I saw the consequences of being attacked by others, I realized that I was alive at the time, and it was already under the mercy of others!

Now the opponent in front of them is the two of the Ji family, which could have been quite equal. There is a strongman who is higher than their realm and more magical weapons. They may sneak up on them at any time. How can they still fight?

Mu Tianhai is also a bit flustered. In addition to defending Ji Qiancheng, he must also guard against Shen Lang's attack on Mu Tiansongyun. Otherwise, the two emperors are living... not right, **** examples.

“Who is looking for death? When you threaten me, isn't it crazy?”

Shen Lang smiled easily, but people are flashing fast.

And as he flashed, the three people of the Mutian family followed suit and did not dare to approach him. Huangfu is also moving fast, he wants to chase down the waves!

As a result, Ji Qiandan, who was originally a dangerous center, is now the safest.

However, in the current situation, they do not dare to care about it, or maintain a high level of alert.

Shen Lang can weaken each other's strength by killing weak ones and irritate each other. The emperor and the envy of the sea, may also kill the Ji family two weaker, after all, they are all prepared to destroy all.

Just as the Shenlang flashed, Ji Qiancheng suddenly had an angle to face him, and he gave him a look.

Ji Qian took a heartfelt move. Although everyone was unfamiliar, I still didn't fully understand what it meant, but I was ready to cooperate.

At this time, Shen Lang took a black shadow and quickly attacked the past with Mu Tianhai!

The black shadow that hit the emperor's house before Everyone didn't see what the weapon was, but the consequences were serious, but they were all clear.

Therefore, as soon as I saw this offensive, Mu Tianhai was highly alert, knowing that this was the moment of life and death, and one accident could be pitted by this kid!

Fortunately, in addition to his all-God preparations, Huangfu is also chasing after the waves, they can form a pinch!

Chapter 1155 - Heads-up

Mu Tianhai did not dodge, but prepared for full defense.

He used himself as a bait to create a chance to kill the waves in the back of the emperor!

He is very aware that it is difficult to get rid of the deep waves. This time, the angry Huangfu, together, may have this opportunity. If they cooperate with each other, if they can get rid of the waves first, then the other side Ji Qian rides them and returns to the previous state.

Otherwise, today is really not good.

In his opinion, Ji Qiancheng is not a good bird. At this time, Shen Lang is attacked by both of them. It is unlikely that he will give up his life to help. The biggest possibility is that he will immediately escape with the Ji family!

There is no problem in escaping. As long as they get the two waves, they can quickly catch up with Ji Qian.

What he needs to do now is to make himself only a bait, not really sacrificed...

At this time, Ji Qiancheng also instantly understood, this is the intention of Shen Lang just to his eyes, he must grasp the good opportunity!

Shen Lang is equal to a person, holding them two masters, creating an opportunity for Ji Qiancheng, so that he can first kill the other two of Mu Tianjia.

For Ji Qiang, of course, there is another option, that is, regardless of the situation at hand, the two people with their own family rushed to escape.

Escape from the front, escaping from the distance, and then waiting to open again, when there are other forces present, even if you can't pull allies, you can make the other person scruple, basically no longer have life. Worried.

However, just when they were in the line of life and death, the emergence of Shen Lang gave them a turnaround. Now they have helped them to defeat two enemies, and they have attracted two main forces by themselves.

At this time, if you ignore your allies and live and escape, it is too unrighteous.

Even if you can safely and comfort yourself, you can say that Shen Lang is not selfless help, but it is shameless. What if Shen Lang survived? Isn't that the same as the recent Mutianhai? The reputation of Ji's family has also disappeared.

The human nature of life, let Ji Qiang in that moment, still thought of taking his own people to escape.

But he still restrained and put the righteousness ahead. No more hesitation, seized the fleeting opportunity, and immediately rushed to the two people around Mutian Songyun!

Just Shen Lang's attack on Mu Tian's sea, Mu Tian Song Yun's two are of course very nervous, but their strength is destined to be inaccessible, even if they want to help, in addition to the chance of being killed, It is very likely to help.

Therefore, they can only retreat a little further and maintain a safe distance, so that Mu Tianhai can swing himself. Seeing the pursuit of the next Huangfu, they are also relieved, there are two people combined, even if you can not kill the Shenlang, at least security is no problem.

However, I did not expect that the Tang Ji Ji Qiang, even learned to bully, actually attacked them!

Their attention was all in the sky, but they did not give up their guard. However, after all, there is still a difference in strength. If the other two of the Ji family attack with them at the same level, even if they are sneak attacks, they can calmly deal with them.

However, the strength of Ji Qiancheng is higher than them. Under such a sneak attack, when they want to defend and counterattack, they have been greatly restricted around them, and their degree has slowed down.

The other two of Ji's family, although weaker in strength, did not understand the hint of Shen Lang. The reaction was to take a slow half-shoot. But they are followed by Ji Qiancheng, and they saw Ji Qiancheng's two hands on Mu Tiansongyun, and of course they immediately followed.

Within the field controlled by Ji Qiancheng, Mu Tiansongyun was limited, and the two Ji family were assisted. Under this trend, the four people who were equal in level had obvious changes.

Moreover, Ji Qiancheng did not idle himself, and he immediately started to work on Mu Tiansongyun. The other two people also attacked the rest of the Mutian family.

Mu Tianhai is now in a state of tension and can't help but get nervous. I didn't expect Ji Qiancheng to sneak up on the junior! The three of them joined forces, and the two of them had no room for confrontation.

However, at this time, he wanted to rescue too late, and even did not dare to distract, because the attack of Shen Lang has arrived.

Because he knows more about Shen Lang, attaches great importance to it, and has long been prepared, under the control of the field at this moment, how many restrictions can be imposed on Shen Lang. After Huangfu, as long as he does not drop the chain, there is basically no problem.

And he himself, to this time, has also completed the task of bait, once the control can not hold the waves, attacked in front of him, he decisively back!

At this time, he already wants to retreat to save his own people, just waiting for the emperor to give Shen Lang a blow!

When it was said that it was too late, the scene was just a moment.

Just when Mu Tianhai thought that the overall situation had been fixed, the deep waves trapped in his field were fiercely killing a carbine!

The black shadow in his hand is of course the dead water whip. Originally, I wanted to attack the Mutianhai Sea. At this moment, it was a quick turn, and the imperial concubine who followed immediately followed me!

Before turning around, he also used the sacred armor to bombard the sea of Mutian!

The field is able to control the entire space, including the shells of the armor. However, the field control can be adjusted, just like Ji Qiang is trying to limit Mutian Songyun, but it helps both of them.

Just the field of admiring the sky, is to hit all the ability to limit the waves, after all, everyone's strength is quite, even if it takes the lead, if you can't go all out, it is difficult to control the sinking waves. Even if you go all out, it will only slow down a bit and create opportunities for Huangfu.

However, in this way, the shells that had been smashed out by the sacred armor had a lot of space, but the moment of the smashing was affected.

But this is the degree of shelling after all! The distance between the two sides is so short, even if it is a little slower, it is immediately in front of the admiration of the sea!

They want to pinch, can't you know? He is completely calculating and creating opportunities for Ji Qiancheng.

At this moment, when he replied to Huangfu, was already full of God's alert.

Because they are at the same level, it is basically impossible to defeat the defeat of this distance. It is necessary to go all out.

Therefore, at the moment, the emperor was holding a long gun in his hand and infusing 10% of the vitality. When he had not attacked the Shenlang, the edge had already approached.

The tragic death of just two family members made him angry, so it is necessary to make a big hole in the waves!

With the power of his gun, it is possible to directly pick a hill and break the boulder. Only at this moment, Shen Lang is in the field of Mutian, and his guns are also affected. If you want to hit the Shenlang, you must also push forward and use the gun to really hit the waves!

Chapter 1156 - Shen Langwei

Although Huangfu was resentful, he did not lose his mind. He was also very jealous of the weapons used by Shen Lang.

But now the Shen Lang attacked the sky and the sea, it is his chance, as long as he can hit the Shen Lang from behind, then no matter what his weapons.

And just as he watched the tip of the gun hitting the sinking wave, a black shadow came over and rolled over his rifle!

Huangpu did not control it. He still managed to smash the past with a strong force. If he was to deal with ordinary people, it would be enough to defeat the army!

His rifle, of course, is also a magic weapon. He believes that even if he is encountered by the strange magic weapon, he will not be cut off. As long as you stick to a few more seconds, you can kill the waves.

But the reality still gave him a head-on blow!

The shadow like a whip, after the rifle was rolled up, quickly melted it and lost the gun!

At this moment, the gun head flew out and continued to shoot in front. The emperor, together with himself, holds a half-handle and keeps his forward posture.

Sudden interruptions also made his strengths a bit of a barrier, but for his control, there is still no such thing as shackles.

However, the situation in front of us, let the courageous forward together, have to quickly withdraw and retreat!

This magical whip can blow his weapon if he touches it. If he whipped him, it would be the same as the two families!

At this moment, he has come to realize that the ending of the two men was not only because of the sneak attack of Shen Lang, but also because their strength is not enough, but the weapons used by Shen Lang are too strange.

Shen Lang certainly won't let him run, and the sideways have already avoided the gun head that continues to rush, and the dead water whip chasing the past, and the body directly to the emperor has rolled over!

At the same moment, there are two things that are born at the same time.

One thing Ji Qian took three people, almost killed the two people at the same time!

The other one is to see that Shen Lang is going to be killed. He is about to leave the Mutian Sea, and he is directly bombarded and flies out!

Everything is a big event, but everyone is not afraid to distract themselves, or to take care of themselves.

Huangfu had no time to manage the three people of the Mutian family. He himself was retreating quickly, and he used a gun to pick up the black whip that was attacked.

As a result, the result of picking up is that the long rod that touched the whip is directly blown. After picking twice, he has left half of it in his hand!

“Kids! You are doing evil with the magic weapon left by the war princes! People in the world can't allow you!”

The emperor rushed back as soon as he retired.

In an emergency, he wants to control the field too late, and once he stops, he will be hit immediately. Therefore, he can only continue to retreat, and at the same time, he will shoot out with one palm and one palm. Even if he can't hurt the Shenlang, he can delay the Shenlang.

And even if he didn't have time to pay attention to it, he also saw the end of Mu Tianhai, which should have been hit by Shen Lang. It is estimated that death is impossible, but how much will be injured.

Next to it, there are Ji Qian's tigers!

Such changes in the situation have made them, who have prevailed in the six to four, become evenly matched, and now they are clearly at a disadvantage.

Continue to fight, it is likely to drag him to death!

Therefore, his retreat is actually a step by step in the layout, looking for an opportunity that can be quickly and far-reaching.

"is it?"

Shen Lang sneered, this dead water whip is obtained from the king of the king, it is unlikely to be embarrassing. If the tomb is awkward, then the iron rod with the same gold rod is more likely to be awkward!

So in the sneer, in the other hand of Shen Lang, there was already an iron bar, and it was directly waved to the emperor.

The imperial concubine held a small half of the gun in his hand. It didn't make a big difference at this time. He went straight to the iron bar and it was a temptation.

Fortunately!

This thing is not as strange as the black whip, but just a metal stick. The moment of collision is to shoot his half of the gun.

Since it is not so weird, he is relieved. When the iron rods were waved again, while holding the Huangfu, who was going backwards and retreating, he reached out and grabbed the past.

His idea is very simple. Since this iron stick will not corrode everything, his strength can be fully grasped. It doesn't have to be taken over. He can grab the iron stick to pick the black whip, so the loss is the weapon of Shen Lang!

As a normal rule, his strategy is not a problem. The strength of the two people is similar. Even if the strength of Shen Lang is greater, it will strike his hand at most, and there will be no major damage.

But when his open palm is about to grab the iron bar, the iron bar has grown bigger and longer!

It has become longer, the impact is not too big; when it gets bigger, the effect is completely different!

I dared to catch it because the palm of my hand grasped the past and hollowed the iron bar. But now it has grown a lot, and when it comes to his palm, it is like a pillar. The open palm has been unable to grasp the iron rod, and even the force points from the flat palm to the curved finger...

It has long been through the sinking of giant rhinoceros beasts, swallowing scorpions, and iron armor red dragons. In terms of pure power, it is not just about the same, but far better than the same level and leapfrog fighting!

The lack of an estimate of the change in the iron bar suddenly turned into an iron column, coupled with the lack of prejudice of the strength of the swell wave, directly let the great power, hit the fingers of the emperor!

Although his reaction was fast enough, he quickly opened the gripping position into a palm, and pulled his hand back as soon as possible, but the degree of Shen Lang was not

slow, and the iron rod was already as big as a pillar, even if he smoked Opening a little, it doesn't help.

For a time, the five fingers had broken bones and the palms were broken from the wrists!

Ten fingers and even the heart, even if it is a semi-immortal, the pain of that is inevitable, but of course it can be temporarily sealed.

From the two families were killed to their own long guns, and then to the palm of the hand broken, the phalanx broken, so that the emperor's anger increased even more.

But reason also told him that this young man is not good!

Where there is life, there is hope. This is in the meditation domain. If it is killed, it will be dried up. The family does not even know who they are in their hands. Only by retaining your life, you will have the opportunity to avenge yourself in the long run.

So after the injury, he did not desperately, but instead no longer looking for any opportunity, and turned away and flew away!

At this time, he hopes that the life and death of the unfortunate Mu Tianhai, can attract the attention of Shen Lang, delaying him for a little time.

He retired very decisively, but did not know that Shen Lang had been locked by the sacred armor, and slammed the five guns and tracked away!

Chapter 1157 - Kill

The idea of playing with Huangfu is very simple and rude. As long as he retreats quickly enough, he can open a certain distance before Shenlang reacts and chases. It should be safe to everyone's level.

Unfortunately, he encountered Shen Lang!

Shen Lang's combat experience is much richer than him, and this little trick is completely broken. And now there are too many things that can be used now. When he wants to escape, the continuous shelling makes Huangfu a mess!

The situation of Huangfu was a little different from that of Mutianhai. Before that, Mutianhai completed his task of eneming the enemy. Later, Huangfu came together to solve the Shenlang.

Now, together with Huangpu, it is a runaway with Shenlang's positive pk. Of course, it is highly alert to the attack behind, so even if it is a continuous five-gun, it will still flash him.

But what surprised him and was very headache was that the Shen Lang bombarded the shell that was tracked by the heat guide. After locking in his target, he did not hit and did not fall into the distance, but immediately turned around and continued!

This is true of the five shells. As long as they are not shot down, if they are dodged, they will continue to hit the target again and again.

This made it impossible for Huangfu to escape safely. The attack net formed by the shells directly trapped him.

Of course, even if he has not encountered such technological means, but as a magic weapon such as flying swords that are driven by the waves, they know that once they are defeated, they lose control.

It is only in this realm that he does not need to carry a lot of weapons and magic weapons on a daily basis. The long guns have been ruined by Shen Lang, and now they can only fight with their hands.

When he applied the field, he immediately diverted the five shells and then forced them into one place to make them collide with each other.

He didn't know that it would explode after the impact. He thought that they would hit the ground, so that they got the time to escape. Once they opened, even if the waves were manipulating these weapons, they could not catch up with him.

However, he was busy in the air for a while, even if the total time did not last long, for Shen Langlai, it has more than enough to catch up. Not to mention the degree of Shen Lang, it would have been better than many of the same level.

So... When Huangfu gathered together five shells and waited for a collision, he just fled and fled, but the side was a big stick!

“Fuck!”

At the same time that the emperor was smashed, it was too late to want to dodge. He could only stretch out with another hand, and the palm of his hand hit the iron column that came over, and borrowed it to retreat.

I don't know if Shen Lang is counted, and I don't expect a stick to kill him. The angle of this stick, let him borrow the direction of dodge, it is the collision of five shells!

Huangfu has no choice but to avoid it. It will be good to avoid it. For the five shells, he felt that even if he was nearby, he could step on and leave, and he would not be able to track them again.

So... When his body flew over, it was the moment when five shells hit.

The strong impact completely greeted him!

Before the admiration of the sky, the sea was bombarded, and now the emperor was directly bombarded with five guns!

Although he has a half-celestial body and has not been killed, the power of the five-gun combination is naturally far better than a shot!

His vitality was hit by the impact of the seventy-eight, the clothes were directly destroyed, the body is also scarred, and the body also fell to the ground.

The long-awaited Shen Lang will not give him another chance to leave. He has already stepped on the “Phantom Meteor Step” and appeared next to him. The stagnant water whip passes and completely dissolves his entire neck. Now!

On the other side, when Shen Lang and Huangfu were in a crazy confrontation, Ji Qiancheng also seized the opportunity, first killing two of Mutian Songyun, and then immediately smashed it in the moment when Mutian Bohai was bombarded. past.

Mu Tianhai was beaten by surprise, so the impact was not small. Although it was not directly hung up, it also gave Ji Qiancheng great convenience, directly pressing him.

The other two of Ji's family, just under the help of Ji Qiancheng's field, both joined forces to kill one. At the moment, after confirming that both of them have been killed, they also attacked from the side, and provided assistance for Ji Qiancheng while keeping the target from being hit and not caught.

Because Ji Qiancheng has taken the lead and the upper hand, and pressed Mutian to the sea, the two of them are safe. It is completely disorderly, so that Ji Qiancheng can control the situation more calmly.

Because of the ease, let Ji Qian take three people, you can compare the calm distraction and observe the battle between Shen Lang and Huang Fu. Now Shen Lang is killing the emperor, so that they are even more morale.

Mu Tianhai is hard support. He hopes that Huangfu can kill Shenlang and save him, but at the moment when Huangfu flees, he will know that it is finished!

Huangfu is not an opponent of Shen Lang, and once he is in danger, he will not control his "alliance" of this temporary combination.

But the situation is already like this, he has no way to change!

He is very regretful, or underestimated this sinking wave! I knew that when he appeared, he should leave with the children of Mu Tianjia.

However, he felt that there was a last chance, that is, to escape before Shen Lang killed the Huangfu!

The emperor is sure to die together, and after he has done it, Shen Lang will certainly not let him go. But now Ji Qian, maybe there is still a chance.

So when Shen Lang was bombarding Huangfu, he immediately passed the sound to Ji Qiancheng.

“Thousands of brothers! Before the imperial concubines, I also helped to persuade. Can you leave me an old life? I am willing to take the proceeds of our trip, including the income from the Golden Mile, completely, only for one life. !”

Ji Qiang listened and felt very funny.

Before the admiration of the sea, it was persuasion, but it was not to persuade the emperor to stop killing them, but to persuade them to hand over the death city!

Now falling into the wind, I can say this in such a big way.

Ji Qiang doubled his concentration and couldn't let him escape. Then he returned to him.

“Mu Tianhai Hai Just now we are willing to hand over the death city, and you have not spared us a life. You all know that you want to destroy the mouth, of course we have to destroy it. Besides, the little friend also said After killing you, everything has to be done. I also said, I don't want anything about you, don't think about leaving us!”

Ji Qiang, just a short time ago, also experienced the feeling of being pressed on the edge of a cliff. Now, if you listen to the strong desire of the sea, you will not have any kindness, just feel very cool, and the retribution is too Soon!

Since all the things are taken casually after killing you, why do you need them?

Just like this to them, now they are the same way to admire the sea!

Chapter 1158 - Calm

When the conditions were unsuccessful, Mu Tianhai could only fight to death, and his attack target went straight to the two Ji family members who were walking next to them.

However, Ji Qiancheng is prepared to guard against it. Under the control of his field, even if he can't kill Mu Tianhai in one fell swoop, he can still hold him back.

The two people of the Ji family also have self-knowledge, and retreat decisively after the intention of admiring the sky and the sea.

At this point, the winner is in the grip. They just don't delay, they just help.

The next moment, the shock of the five guns, attracted everyone's eyes.

The horror of the Huangfu, everyone is very shocking, this does not know what firearms, can actually blow these powerful realm like this!

I have just felt the arrogance of a sea of people who have personally experienced a shot.

The emperor is finished!

Shen Lang will definitely be able to pull over soon...

Even now, even if he can break out from Ji Qiang's hand, he will not be able to escape. – He will not forget the degree of the wind in the passage of the wind. If you want to chase him, it will not be a problem.

After Shen Lang wiped the neck of the emperor, he immediately rushed to the air and appeared above the battle between the two of them.

“Shen Lang's fortune! Look at the Qiu Lin Jianzong's share, spare me a life!”

As soon as this was said, Ji Qiang couldn't help but slammed the attack and suspended the attack, thinking about the connection between the Mutian family and the Qiulin sword.

Mutianhaihai, what is needed is this opportunity.

When Ji Qiang took a break, he did not take the opportunity to escape, and did not take the counterattack, but decisively received the work, then plopped and fell to the ground!

“Shen Lang’s lord, Qiu Lin Jianzong is a famous sect of the world. You are the guest of Mo Zongzhu, and you are honored. I hope that you don’t care about such a small person like me. Please spare me a life. I am willing to offer everything!”

Mu Tianyuhai lifted the signboard of Qiulin’s Jianzong, deliberately emphasizing that Shen Lang is a guest of Mo Feiliu, and dwarfs himself, so as to frame the Shenlang, and he is embarrassed to “bulk the weak”.

Even if he personally does not care, at least can not be tired of the reputation of Qiu Lin Jianzong is not?

This is the last life-saving means that he can think of. The self-dwarf and pleading for mercy has been done. Even Mo Feiliu has been carried out. Is it ok?

Next to Ji Qiancheng is actually not aware of the identity of Shen Lang, although from the days of Mu Tianhai, know that this young man is called Shen Lang, did not think much.

So I just heard “seeing the face of Jianlin Jianzong”, and thought that Mutianhai and Qiulin Jianzong have anything to do with it.

Now I heard the details of Mu Tianhai, which is associated with it. It turned out that this young man is the Shen Lang who made a big splash in Tangcheng six months ago!

Shen Lang still holds an iron bar in his hand and falls from a height, not far from the sea.

Seeing his attitude, the heart of Mu Tianhai was slightly settled down. It seems that the right medicine was successful. He quickly prepared to deliver everything.

“You are begging for mercy and sincere attitude. I could have spared you a life.”

“Ah? I, I have nothing else.”

It could have been, that is, can’t it now? Mu Tianhai was shocked.

“But you shouldn’t use Mo Fei to suppress me!” Shen Lang said faintly.

“Ah?” Mu Tianhai once again stunned. I asked you to give Mo Zong the main face. Is that counted?

“Who I want to kill, Qiu Lin Jianzong will not interfere, Mo Feiliu will not say anything!”

“me.....”

Mu Tianhai is so depressed, this kid is obviously because of the influence of Qiu Lin Jianzong and Mo Zongzhu, only today has a reputation, this time no one knows in the meditation, even forced to force it!

Have the ability to say this in the face of Qiu Lin Jianzong, have the ability to say this in the face of Mo Zongzhu, see what you will end!

However, he was depressed and depressed. He could only force the squatting and smashing the waves. He did not dare to say this in person, so that he would kill him directly if he was angry and angry.

“Shen, Shen... Lord, I really don’t mean this. I am admiring you...”

“Admiration?” Shen Lang sneered: “You took me to the ghost tomb, just to kill me?”

Mu Tianhai is crying and mourning: “Shen Lang, this is really a misunderstanding. It is really a tomb of our family, and it is considered to be the tomb of the martial arts. We do not know that it is actually a bureau!” ”

He said as he yelled at the ground: “If you know that it is an empty tomb, and there are still dead people, we dare not go. Oh, right? At that time, if you were not in front, the move must be I am.”

“But in the empty undead, you pushed me!” Shen Lang angered.

Mu Tianhai did not dare to look up at him. He could only ask for mercy: “I, I am purely instinctive, I was scared. What I did at the time, I don’t know. You must believe me...”

Ji Qiang was next to him. Hearing the origins of Shen Lang, it was very surprised to correspond to the young man rumored a few months ago.

However, Shen Lang's attitude towards Qiu Lin's Jianzong and even Mo Feiliu's predecessor was not too eye-opening, but even shocked him.

He can also think that Shen Lang may be forced to play in the back, but even if he is forced to play, he must have the confidence. This shows that he is sure that Qiu Lin Jianzong Mo Fei will not anger him.

It can be seen from this that the rumor that this son got the re-emergence of Qiu Lin Jianzong Mo Zongzhu is not false, and its intimacy may have passed the tone of everyone!

He guessed what it was because of it, but it doesn't matter. The key is to get the people who are so valued by Qiu Lin Jianzong, and never sin!

Isn't this a ready-made example?

Mu Tianhai has offended Shen Lang, and he does not need to wait until he sues to Qiu Lin Jianzong. It's just that he is sinking himself, and he has put him up properly!

After listening to their conversations, I realized that the tomb of the war sorrow, which was taken by Shen Tianhai with Shen Lang, was actually an empty tomb, and it was a bureau of the dead! At the time, Mutian Bohai pushed the waves to resist the dangers I ran away.

No wonder the Shen Lang will be angry!

Hearing here, Ji Qian took a heart in his heart, directly condensing his vitality, and the head of Mu Tianhai, who is begging for mercy, is a palm!

In order to prove his sincerity, Mu Tianhai did not have the slightest effort, and slammed his head and asked for the lowest. He also knows that Shen Lang is the focus of persuasion. I didn't expect Ji Qiancheng to be a sudden shot!

When he is not right now, it is too late to want to resist and dodge. However, a few feet away, a level of the semi-celestial level of the strong, to kill a person who does not do any resistance, there will be no suspense.

Chapter 1159 - remuneration

Of course, if Shen Lang wants to save people, with his ability and degree, he can still stop Ji Qiancheng. But why should he save the sky?

In fact, Shen Lang's just questioning and anger are playing a play!

Before the admiration and guidance of Mu Tianhai, it was to let everyone know that he had the treasure left by the war.

Although he is not clear about it, from their reaction, this was a well-known figure two thousand years ago. From the human world to the meditation, just to find an opponent, what a spirit!

Using the analogies of the most common ways on earth, this must have been a deified character. It was called a war, and perhaps it has now been exaggerated into a war god. For his legacy, others will expand indefinitely, guessing that he has collected a large variety of treasures.

The husband is guilty of sin.

Even if Shen Lang has a small reputation, it is just a trouble in Tangcheng, borrowing the momentum of Qiu Lin Jianzong. If you don't do well, Xiao Gao let Qiu Lin Jianzong put his attitude out and create momentum for him. When he comes back here next time, he can walk more conveniently.

But he personally has no record, and the pulpit is just about it. Under normal circumstances, everyone can give Qiu Lin Jianzong face, respect him a few points. But if you know that he is full of treasures, it is different.

Just like the three parties here, Mutian, Huangfu and Jijia should all be strong and strong. Everyone is not young, not a young man who is young, but once he encounters the treasures of the dead city, he will still win. Treasure!

The three emperors and the Mutian family can be eliminated, but Shen Lang can't ruin the Ji family three for no reason!

After all, everyone has had a temporary covenant, and when he went to contain them, Ji Qiancheng had the opportunity to use him and sneak him away, but he did not, but chose a decisive battle.

This is not the same as Mutianhai. Shenlang is reasonable. People don't harm me, I don't hurt anyone.

However, the heart of the victim cannot be there, and the heart of the person is indispensable.

Today's news, Ji family three people, go back to definitely report, the Ji family will know more people, in case someone has mourned, or someone accidentally said leaks. After the spread, Shen Lang will become the target of public criticism and become the object of contention.

If you don't do well, you will be tired of running a lot of people to Qiu Lin Jianzong to find him.

This is what Shen Lang does not want to see, so the deliberately irritated question asked Mu Tianhai, that is, through this process, let Ji Ji, who is next to him, understand that it was only the intentional guidance of Mu Tianhai, actually Shen Lang almost died in an empty tomb set up.

That way, it may not be the tomb of the martyrdom, but the Mutian family may have made a mistake, just as they do not know that it is an empty tomb.

Shen Lang did not get the treasure, and naturally he was not afraid to spread.

Therefore, the anger he showed was to win the letter Ji Jicheng.

Now Ji Qiang took the initiative to kill the first day of killing the sea, naturally for a statement!

Today is the three people who killed the Huangfu family by Shen Lang. If Mu Tianhai is also killed by him, will he worry about Ji's leaking news?

The dead are the most conservative secrets, and the killing is the best choice.

Other than that, it is a complicity.

Therefore, now Ji Qiancheng has killed three people in Mu Tianjia. Everyone has a handle, and naturally they can rest assured that they will not be worried about each other.

"I don't know how to know people, I know him. I have known him for decades. Today is the real face of him. When he is in danger, he can make friends like Xiaoyou harm; when he meets interests, he can let me count as a murderer of the old man..."

Ji Qian took a while, these are superficial, the key is to express to Shen Lang that he does not want to see such a person.

"Ji's predecessors had just left me when I was holding them down. It's really rare, and the character is trustworthy." Shen Lang also smiled and praised.

"Hey, hey!" Ji Qian took a bit of awkwardness.

Then seriously, face this problem.

"To be honest, I also thought of it at the time. Xiaoyou bravely restrained both of them. We can really take the opportunity to escape. But today, we are going to be killed on the eve of the day, it is the appearance of a small friend, give the opportunity for our new life!"

"If a small friend is helping us against a strong enemy, we will run away alone, and it will be a conscience for a lifetime!"

Shen Lang smiled faintly: "In fact, your choice is right. If you escape, I will be killed by both of them. They will continue to chase you, and there may not be someone to help you." ""

“You are right.” Ji Qian took a nod and it was a fact.

“Once again... Hey! If I slaughtered both of them, then you betrayed me, and I should also chase it to the end. You guys are not going to end well.”

Shen Lang said it in a joke, but let Ji Qian take three people to shudder!

Yes, just three of the emperor’s family, he is killing! Mu Tianhai is also controlled by him.

More importantly, he did not go through a day and a half blood battle, and he did not have a long time before and after.

In other words, without the cooperation of the three of them, Shen Lang wants to kill both of them, but it takes a little more time.

If they really ran, it is probably not facing the pursuit of the emperor’s envy, but in the face of Shen Lang’s pursuit!

If he is not doing well, he is here waiting for them to admire them...

“Don’t mind, I didn’t blame you.” Shen Lang patted him on the shoulder: “I just noticed that you barely hesitated, and decisively cooperated with the people I attacked the Mutian family, indicating that you did not consider the gains and losses at all. As you said, the word is the first!”

This made Ji Qiancheng feel a bit flattered and quickly nodded: “Small friends said that when we go out, we should be the first.”

Then he reacted immediately said: “Our harvest in the dead city, I said to give half of the reward, will never renege, and will not delay. Now give it to you!”

After that, he quickly checked the surroundings, and then arranged a soundproof cover, and added a layer of rotating sand.

The sudden appearance of Shen Lang just because they were negligent, did not investigate the surrounding, and now hindered being eavesdropped and stolen.

Shen Lang does not matter, because he came here first, knowing that there are no other people.

The other two people in Ji's family were also very interested. They immediately said that they were going to clean the battlefield, dispose of the bodies, and collect the items from both sides to help them collect the waves.

Chapter 1160 - Medieval

"What is the situation in the dead city? I don't know very well." Shen Lang asked directly.

Ji Qiancheng did not have many accidents. After all, Shen Lang is too young. It can be such a success. It does not seem to be related to the Qiu Lin Jianzong. It is a genius of talents. It is also normal to not understand the secrets of the Ming Dynasty.

He introduced it when he took the item.

No matter how big the whole territory of the meditation domain is, no one knows it. Because there is time limit for the portal to open, no one can go completely.

In history, there are also some powerful ambitions. If you want to explore the meditation domain, you will decide to enter from a forbidden place, and then in the meditation domain, according to the known laws, look for the next opening in another forbidden land. Entrance and exit.

If it succeeds, it will be only a few years.

A forbidden place is far away from another forbidden place, but as long as there is a direction route, the speed of the strong ones is up to several dozen days.

In a few years, it was completely abundant. Even if I took a lot of detours or made a few mistakes, I still had time.

But the law is, after all, a one-way summed up rule. The meditation domain is not adapted to this law, and there is no answer.

None of the strong people who went in for the purpose of this map in history have come out successfully!

They did not come out from different time and place in different forbidden places, nor did they come back from the starting point decades later.

Of course, no one knows the specific reasons.

However, just like the speculation of “there is no return to the sea” in the world of comprehension, I feel that only when I die, will there be no return.

However, it is also because of the dedication of these pioneers that everyone will accept their fate. After entering, they will come back at the opening time of the closure, otherwise they may not come back.

So for up to seven days, the range that can be explored is not infinite.

In order to explore as much as possible, on the one hand, we accumulate experience, share maps with each other, and accelerate the way with flying magic weapons.

The maps shared by everyone are all personally passed. Some of these resources have been harvested, and some have been discovered, but there are still places that cannot be explored.

For example, the Mutian family discovered the tomb of the suspected war prince. They did not circulate, but silently guarded the secret, waiting for its seal to be released from generation to generation.

Of course, it may not be discovered by the predecessors of the Mutian family, but by other people who discovered it. This information was obtained by means of exchange and acquisition.

Sharing is the sharing of information, but it is not a free share.

However, as time goes by, hundreds of years and thousands of years later, there is still some information that will become public sharing information.

The dead city is like this.

The dead city is a special existence in the meditation domain, not a place, but a kind of place.

It is like a city that once had many people living in, but now it has become a dead city. Of course, in the meditation domain, if there is a city where living people live, it is a strange thing, and the site of the dead city is normal.

The area that can be explored in the area to the Golden Valley is also very large, and there will be several dead cities.

This has become a reference for everyone to confirm the direction, because the dead city is fixed.

But this is the dead city that has existed since ancient times, but it does not mean that it is an empty city!

Because exploring the dead city, it is very dangerous in itself, far better than other areas. So not every time you come in, someone will enter the dead city. It is not that you have entered the dead city, you will have a big gain. It may not be safe to come out.

To put it simply, the wilderness and mountains like the two days of dark roads are safe areas, so there is basically no resource – naturally it has been lighted up by others for thousands of years.

The tomb of the scorpion, which hides behind the forest in the valley of the wind, belongs to the area that has not been developed. Because the scope is too large, the same area can only come in once in a decade, once in a dozen or so. Of course, there are many, many places that are not found.

Then there is the place where the dead city has been confirmed. It is similar to the forbidden land. It is known to be dangerous, but it is also known that there are still many resources.

The treasures that the comprehension wants, of course, will not be gold and silver jewelry, but resources that can enhance strength and contribute to spiritual practice.

In the people who entered the dead city adventure, the purpose is divided into three categories.

The first category is the most common, and I hope to find the magic weapon of the ancients.

There are some precedents. Some of them are small sects. They rely on a capable person to bring back a squadron in the dead city of the meditation area. Then they smash the Quartet and expand rapidly, eventually becoming a strong party.

Of course, in addition to the magic weapon, it also includes the secret technique. When the earth was a hero, after a hundred years of fighting, standing in the Han Dynasty, the establishment of the sects like Qiu Lin Jianzong also required a reasonable explanation of origin.

Climbing the celebrities in ancient times, shaping an ancestral master, and that the ancient ruins in some forbidden areas, or in the meditation, have been passed down by some secret laws, so they quickly emerged from the air.

The second category is fewer people, but it is to go to the blood to exercise themselves.

The territory of the Han Dynasty is extremely large, and the land is sparsely populated. It is not easy for the factions to fight each other. In order to exercise the doorman everyone also wants various methods. For example, in the Tang Dynasty's group, the contest in the competition is to train young people from all walks of life.

There is also a good relationship with the martial art, which will arrange for the disciples to fight each other. Some of the representative embarrassers will be sent to various places to squat. In a dangerous environment, go to the deeper and deeper core area, and fight with more and more powerful beasts.

But what about the half-sex situation? A lot can't be used.

Nor can you go to toss the fierce beast of the forbidden land for exercise, which will inevitably lead to the wrath of the king's beastly beast, lead the herd to crush, and even anger the legendary beast.

The land of the dead city of the meditation is a very good place. Just like the previous smashing, fighting with the physics of the undead, the sinister **** exercise, the fighting ability, the mental impact, etc., there will be no sense of guilty killing.

The third category, the smaller number, is also one that can be said and cannot be said.

In the words of the earth, that is the practice of the evil. Similar to the Baiyuemen, collect the undead in the dead city, use it to extract the power of the spirit to strengthen yourself, or to refine the soul and make ghosts, to create shackles and body outside.

This generally decent person does not bother to do this, but also despise. So there are people like this who are secret and not known. But there is always something.
