

## First Strong 1161

Chapter 1161 - Dead city harvest

Ji Qiancheng will choose to enter the entrance to the Golden Valley. Of course, the last time it was opened, Ji family came in. And there has been some exploration of one of the dead cities, something has been done, and the experience has been summarized.

So this time, like Mutianhai, they are ready to pick up the peaches.

The difference is that the Mutian family has made a mistake, and Mutian has nothing to gain. And Ji Qian took three people, but it was very smooth, and he got the treasure of the previous generation to explore the road.

Of course, smoothness is also relative, and three people must have made great efforts.

As a result, when they came out of the dead city, they were stared at by the emperor.

Huangfu decided that they had gained something in the dead city. Ji Qiancheng was denied.

In this regard, Huangfu has no way to do it. Even if he has a mental calculation, he can't swallow it in the case of three-on-three. It can only be tightly bitten, followed by dead skin.

As a result, I don't know if it's good luck or bad luck. I met three people from the Mutian family who fled from the Valley of the Wind.

The nothing that has been won is the unfortunate feeling of being in the same breath as the emperor. Two people are on the eye, hit it off and hit the Ji family's idea together. It is also a very cost-effective deal for them to divide the harvest of the dead city.

Ji Qiancheng certainly understands what is going on. No matter how stressed it is, it can only be used to rush away.

The escape from the perspective of Huangfu is equivalent to proving that he really has a heavy treasure and naturally pursues it.

Before they stopped here today, they have been chasing each other for a long time.

If it weren't for Shen Lang, Ji Qian took the fate of three people, and like a few of them now, they would become buried in the body. When the next time someone comes in, maybe it will be awkward.

So for Shen Lang, Ji Qiancheng is really grateful.

In addition to popularizing the information about the meditation domain to Shen Lang, they also took out the things that they took out from the dead city directly.

In order to prove that he did not hide, he also invited Shen Lang to check his storage space.

Ji Qiancheng's harvest, which was remembered by two groups of people, is still quite a lot. There is a spiritual vein, and there are five parts of Yinquan, a box of Yuanling Stone!

"The biggest gain is even this kind of spirituality. It is very useful. These yin springs are also collected there. It was formed in the millennium for thousands of years, and the effect is far better than the average. For some negative exercises, it is very suitable. These Yuan Lingshi should be the legacy of the past."

Ji Qian took a look at it one by one. His expression was very calm, indicating that he did not hide any more, and he could let Shen Lang search.

Compared to Shen Lang in the tomb of the suspected war sorrow, I got an iron bar. This is really a big harvest, and it can be used by different people.

"Shenlang Xiaoyou, today you and me are not only cooperative allies, you have saved our lives. So, pick it first!"

Ji Qiancheng promised half of the harvest, and now it has been taken out, and it is simply generous to let Shen Lang choose first.

Because he just broke the identity of Shen Lang, it really surprised him. Even the characters of the Mo Feiliu lord, who has not been able to come out for a long time, can not be underestimated, no matter what magical heads are behind them.

Since you want to express sincerity, then simply be generous and let Shen Lang choose. He also felt that Shen Lang would not be greedy and insatiable.

Of course, Shen Lang also understands that the most important thing is the spiritual pulse – you can see the importance of the king. There is only one thing in this matter, there is no way to divide it.

As Ji Qiancheng said, the Yinquan of the Ming Dynasty is stronger than the outside world and stronger than the Earth. For the canoe and the rain, it is definitely an excellent resource.

It's just that the words of the spiritual veins are excellent, and the spirits can be used by anyone. The other people in Yinquan can't use them. So even for him, it is still much more important.

However, before in Jingui Valley, he had already got a spiritual vein. It was Lu Feng's unsuccessful one. Now, look at Ji Qiang's attention.

Shen Lang feels that he is also a good person. If someone else hangs him, he will double the counterattack; others will respect him, and he will of course be polite.

So he pointed his finger at the pulse, "this..."

Ji Qiangcheng still maintains a polite smile, but obviously has a little helpless smile.

"...Give you, I want these few."

Shen Lang then pointed to the five yin springs.

Ji Qian took a look at it. “What do you mean... Do you want these yin springs? Their effects are excellent, but the scope of action is very limited.”

“Oh, this is what your family has paid for. I can’t take advantage of it. But if I don’t take anything, it’s not fair to me. You won’t believe it. After all, we don’t know it before, or the transaction is clear. Better, so I want this.”

Shen Lang was not injured anyway, and did not pay much, and five copies of Yinquan were also unexpected gains. If it is not for his meeting, he is also embarrassed to see the human team to kill and rob!

“Small friends are so derogatory, they really touched the thousand!”

I thought that Shen Lang must have a spiritual pulse – in his opinion, who would choose this way, he was even ready to accept Yinquan and Yuanling Stone. As a result, Shen Lang only took Yinquan, which really touched him.

“My old brother, I will not be polite with you, but you should not be polite to me!”

During the speech, he pushed the box of Yuan Lingshi to Shen Lang.

The value of the spiritual pulse is to be over half, but it cannot be divided, even if it is half, and the Yinquan and Yuanling Stone are half.

Shen Lang looked at the Yuanling Stone in the box, a total of twenty.

He handed a roll and rolled out the ten inside, and joined Yinquan together.

“Okay, I am not welcome. This half, just when I give you a gift.”

“Good! I am not welcome.”

Ji Qian took a smile and accepted it. He was able to bring back the spiritual pulse, and he was satisfied. Of course, if Shen Lang really wants to take the pulse, he will bring back the

Yinquan and Yuanling Stone, and he can also make a difference. After all, it is much better than being killed by the treasure.

Now Shen Lang has given up half of Yuan Lingshi. Of course he is even more happy. He also feels that this young man is really good. It is no wonder that he can get the attention of Qiu Lin Jianzong.

Everyone is very polite and has a good atmosphere. Of course, he also hopes to draw closer.

Afterwards, the shield was removed. The other two families have already finished the body and collected all the items they carried.

Shen Lang saw it a bit disappointing. Whatever the weapon, of course, it doesn't mean anything. If you take it out, others will recognize it, but it will be suspected.

In other respects, the four weaker carrying bags are extremely small, placing food and weapons.

The storage space of Huangfu and Mutianhai is much larger, and they do not collect the resources that their team has harvested. However, a rough inventory, such as the Lingcao elixir collected in the Golden Mile, they did not harvest in the meditation.

And I don't know if I have confidence in their strength, or I am afraid that I will not lose it, and I have not carried any high-level magic weapon.

However, after all, it is the medicinal materials collected by the two teams. The actual number of people like the Mutian family is far more than three, so the number is extremely large. For Shen Lang, there is no surprise, but a lot of real gains.

Before I said that he wanted it, Ji Qiancheng did not ask and did not check.

Chapter 1162 - Returning from the meditation domain

Shen Lang got two gains, Ji Qian took them to a catastrophe, and the price paid was lower than expected, and they were all happy.

Shen Lang has limited understanding of the meditation domain, the forbidden land in the Golden Valley, and the entire Han Dynasty. From Ji Qian, you can learn a lot.

Ji Jicheng, because of the identity of Shen Lang, has the heart to make friends, so everyone is also a hit, become a new companion, and slowly return to where you come.

These are the local preparations, and there are some public information that can be used to refer to the approximate orientation.

Shen Lang has the detailed trajectory of the sacred armor, which can be accurately and accurately returned. Time is all right, and there is no hurry.

There are conversations on the road, and Shen Lang can't show people who are not in this world, so it is only the young people of the future generations, humbly listening to the attitude of the seniors to tell the experience, from Ji Qiancheng to understand some situations.

The information is not very comprehensive, but he does not have a special place to inquire about it, so he does not care. Anyway, he listens, and it is useful to write down.

They were four people, and they came back to where they came, and saw that a few people had returned.

When they went to the valley before, they had already waited for a long time. Even if they were not familiar with each other, they knew each other after they reported to each other. Only Shen Lang is the last to come, and there is no self-introduction.

So at this moment, Ji Qian can still greet others one by one, but whether it is Ji Qiancheng himself or someone else, everyone has made a dejected look, saying that this trip has come a long way, no reward.

For them, Shen Lang will not believe it, but they may not believe each other.

Whether it is really nothing, or full of income, you know that the money is not white, or else it will be troublesome to be stared at.

When Ji Qiancheng came out of the dead city, he was stared at by Huangfu. At the beginning, it was also denied.

However, no one is going to take a closer look at this time. Everyone is performing tacitly and is also properly guarded.

Now that I have reached the entrance and exit, it is not just a group of two people. Even if I really don't have any gains, I don't want to play other people's ideas.

The more people there are, the more complicated the situation is, the inability to contact Qi Duofang. The result is that it is likely to kill everyone in the name of justice.

When I came in, everyone saw the "last arrival" of the waves, but there was no exchange. Now that I have to go back, I can relax, and Shen Lang is together with Ji Qiancheng, and I can't help but know.

Ji Qiancheng is more familiar with other people. At this time, he also played an introductory role. He introduced Shen Lang to everyone and introduced his identity.

Before the Tangcheng's group activities, mainly the younger generation, and some strengths still exist in the real world. Like them, they are already in the semi-fairy realm, and they are big family sects. Of course, they will not waste time to join in the fun.

Will know that Shen Lang, is the exaggerated spread of the news in the next few months, and the intentional spread of Qiulin Jianzong will let them hear.

However, even if I heard about Shen Lang, and Lu Feng, Mu Tianhai and Ji Qiancheng, everyone basically pays attention to Qiu Lin Jianzong and Mo Feiliu. It's too young for Shen Lang's people.

Mu Tianhai's jealousy against Shen Lang is because he has seen his "magic weapon" in the announcement of the Dead River and the Wind.

Ji Qiang is not the same. He has seen Shen Lang and soon killed several people in Huangfu, and suppressed Mutianhai. That is not taboo, but true awe!

Although he still does not know what the Shenlang has, he can not respect the Mo Feiliu, but the performance of the individual is enough to make him look up.

But these people don't know about these situations, and he can't say it. Therefore, his enthusiasm and closeness, falling in the eyes of others, are a bit disdainful, I think Ji Qiancheng is an indirect Bajie Qiulin sword.

Other people have also come back in advance. Basically, like the first-time ones, no one will admit what they got.

The same is waiting to open, but when you come, everyone is full of energy, ready to go in and out. Now that everything has settled, it is naturally not so strict.

In the case of a more active atmosphere, that door appeared out of thin air!

In fact, in addition to Shen Lang can be accurate to specific points through the positioning of the sacred, other people rely on memory and reference, can only return to the approximate place.

So after the door appeared, everyone quickly rushed over and found that Shen Lang was the nearest one at the door, and was slightly surprised.

After entering the door, it was returned to the empty room before, and then everyone was transferred to the yellow sand.

I felt the yellow sand flying, and everyone flew back to the side.

When the yellow sand falls back, there is no change in the middle. Naturally, the transmission array through the meditation domain has also been closed again. According to the law, this place can only be opened again after several decades.

The monks at the scene did not have the excitement to celebrate the return of security, but they were all silent.

In fact, when waiting for the door to appear, everyone has found that both the Huangfu family and the Mutian family have not returned.

But as long as the door is not open, there is still time.

Who knows that people are not coming back Or because the harvest is very afraid of everyone, deliberately not showing up?

At the speed of all of them, waiting for the door to open, then fly over, perhaps still have time.

So everyone noticed it at the time, but no one mentioned it, and some got nothing, even a little jealous.

When the gate is opened, there is no thought to control others, and they will leave before the door disappears. Who will wait for the emperor and Mutian to see if they have arrived.

Now everyone has come out, and the yellow sand has been settled, the portal has been closed, and there are still two groups of people, Huangpu and Mutian, who can understand one thing. They are not because of the big gains, but because Really late.

“The Emperor’s family, the Mutian family... I don’t know if I was in danger in the meditation, or I lost my time. It’s impossible to come out again in a short time. I hope they will be a good person, so I can come out again when I next open it!”

Silence for a while, someone was sighed.

Everyone understands that the last blessing is just a blessing. It is basically impossible. No one has been able to come back in the meditation for decades.

However, the atmosphere of silence is only a short time. After all, everyone is not in a relationship with the emperor and the emperor family. The general nod, the silence is already a rabbit’s death and sorrow.

Besides, there are deaths and injuries in the squatting field, which is very common and will be there every time. It is generally a weaker and more deadly injury, and the two groups are less likely to appear.

Chapter 1163 - Disappeared detector

After someone started, others followed him and blessed a few words, and then everyone left.

From the bottom of the valley to the first line of the road, everyone did not rush to fly, but slowly went out.

Because everything has settled, and when it is outside, everyone will leave, so this short period of time is also a rare social time.

It's the same as when you open the door in the meditation, but at that time everyone will be more alert, and now it is more relaxed.

Those who are familiar with each other, look pleasing to the eye, and just chatted over there, will be more likely to get together, and then sigh and ask for mutual visits.

Everyone's socialization is also based on level and generation. Like these semi-fairy, they will communicate with each other. Other peaks in the realm of the gods are exchanges between "late generations" and "late generations."

Only one person is the exception, and that is Shen Lang.

Because of the huge gap between the environment and resources, the same age here is much higher than the realm of the Earth monks. Like Yuxianmen, there are a large number of disciples of the sacred gods. Jingrufeng is similar to them in the south of Qiao Shuyu. The strength is in the middle of the realm, and later in the later period.

Now these semi-fairy places are about the age of Qiao Yuxian and Nanliuchuan; and those who are in the peak of the gods are similar to those of Nanyingying.

But even in accordance with the normal state here, Shen Lang is still the youngest one on the scene. In his early twenties, he can take a level with Ji Qian, and he is still a savage genius.

Therefore, even if the attention of Qiu Lin Jianzong Mo Feiliu is put aside, it is enough to be associated with them. Others still set aside with him.

Shen Lang is a simple coping. He has limited time here and it is a waste of time and energy to socialize.

From the first line out of the valley outside, everyone began to bid farewell, Shen Lang also directly with Ji Qiang.

Originally, Ji Qiancheng also hoped to go out of Jinyu Valley with Shen Lang. If nothing else, it is best to invite Shen Lang to visit.

However, Ji Qiancheng is also understanding the mind of Shen Lang, after all, Shen Lang has the biggest gain! Some of the parts from him, as well as the items of Mu Tianhai and Huangfu, may have gained in the suspected martyrdom of the war... so much, it is him, and he is eager to leave alone.

Understanding is understood, my heart is still a little regrettable.

After all, the ability of Shen Lang's actual combat is so terrible. With him walking together, Ji Qiang can be much more secure.

Once separated, he has to leave as soon as possible. People are separated from the belly, who knows that people who have just returned to the cold, will you block you?

More than a dozen people quickly disappeared from the valley.

After Shen Lang left, he first stopped looking for a place.

When I came here, I didn't know the specific situation. Now it is disappearing for seven days. I must understand the situation of the earth monks.

He divided a total of eleven micro-detectors. In addition to the ten squads, there was one Pope, and the Pope soon had no signal. In the next ten days, he detected the existence of everyone.

But now the detection, found that has disappeared one more!

Shen Lang is a little frowning. In seven days, in this Golden Valley, anything can happen. It is really possible to encounter danger or loss of detectors.

What makes him frown is the one that has been confirmed, and now disappears, it is precisely the one of acquaintances such as Qiao Yuxian!

To be honest, if you are an unfamiliar person, you are really in danger and he will not feel anything. Just like the last time you lost 70 or 80, it has no effect on him.

But Qiao Yuxian, Nanliuchuan and others are the friends in this group. If they are all finished, Shen Lang can hardly imagine how much thought will be used to pull this team.

Calculating the days, it is almost a month, and you must pull everyone together.

When I first met for the next month, it was difficult to get it back in order to avoid separation too far. In addition, it is also the exchange of experience, mutual discussion of gains and losses, and so on.

Shen Lang did not say, but the heart is clear, even if those weaker sent back, the rest are above the realm of the gods, there will still be the risk of damage.

Especially in the valley, these ten groups of local powerhouses were found. The really weakest ones are the peaks of the gods. In addition to so many fairy tales, they must also have teams in this area.

Once the encounter is reached, this danger is even worse than the beast!

Now that I saw Qiao Yuxian they have disappeared, Shen Lang decided to start the convergence plan immediately.

Because there is no exact map, it is impossible to agree on the location of the specific confluence. It can only go in one direction in a wide range. Finally, Shen Lang comes to find everyone. This is why it is only divided into ten teams. The more you go, the more you go. Hard to find.

Now that we have tested it, everyone has different levels of in-depth and different speeds, but without exception, it is far more than the area where he is now. After all, he was seven days before.

He wants to confirm the gathering point, of course, to choose the place where the most teams are close, so that it can be faster and avoid more people to catch more roads – not worried that they are tired but worry about big The scale is rushing to meet the fierce beasts.

This is easy to find out by positioning the display.

But the problem is, because Shen Lang himself disappeared for seven days, in the middle of the meditation, it was completely interrupted with this side. Therefore, the holy armor can record the movement trajectory of all the detectors, and there are seven sky missing in the middle.

The other nine vacancies will be vacant, and the current seat will be fine. But the group that disappeared, can't find where they disappeared, and recorded the trajectory only seven days ago.

In this way, whether it is the urgency or the principle of proximity, Shen Lang can only postpone the convergence plan first, first to find out about them.

Fortunately, it has not reached the deadline of one month, and everyone will not wait for him anxiously.

After such thinking and planning, Shen Lang is going to go to the place where Qiao Yuxian's team was located seven days ago.

Just when Shen Lang wants to speed up, he feels that someone is close!

His knowledge immediately spread out and soon discovered that not only people were close, but also a large number.

Two groups of six people, two of the local monks who had previously separated from the valley.

It's not too long for everyone to separate. It's not surprising that there will be two groups of people leaving together or meeting him. But the problem is that they are not fast, and it is only closer to him that he found out!

The answer came out – they should have used the substance of the mysterious stone to cover up the breath and approach him. Do you still use the purpose? If you meet with each other, it will not be long before you need to be so careful.

Chapter 1164 - Off your ass

Shen Lang secretly sneered, and there was already a hint of killing in my heart.

Before everyone was gracious on the surface, he was a bit insincable to him, and he felt that he relied on the reputation of Qiu Lin Jianzong and Mo Feiliu.

This point of Shen Lang knows well, there is nothing to care about, originally he is here is a nameless pawn, can make these big sisters have heard of it, it was originally the merits of Qiu Lin Jianzong.

He and Mo Feiliu are nothing. This is undoubtedly the instruction of Xiaogao. He is a sentimental. When necessary, Qiu Lin Jianzong's attitude is equivalent to his amulet. Others generally do not dare to move him.

With the realm when he left here, it really needs such a talisman.

But if these people, because of Ji Qiang's attitude, guess that he has gained something to follow the ambush, or simply want to rob him of this order, he will not be polite!

Before Shen Lang concentrated on the location of other teams in the Holy Grail, and did not pay attention to the surrounding, so they are slowly approaching.

Now his gods are directly inspecting the surroundings, and the four peaks of the gods are unaware of it, but the two half-landscapes have some feelings.

It was discovered that Shen Lang had discovered them, and the two did not continue to hide, but suddenly accelerated. The other four people of course quickly followed.

“Where is Shenren a person here?” When he appeared in front of Shen Lang, one of them said hello.

Shen Lang recalled it, remember that Ji Qiandan introduced it to him. The one who just spoke was Li Tianqing from Qingyun School, and the other was Moran from Yungong.

“think about life.”

“...”

Obviously, they will be ready to come over, just a cliché, what Shen Lang said, they have prepared to answer.

But what is the “thinking about life”?

“You look for me?” Shen Lang asked.

“Oh... we are a companion to leave the Golden Valley, just to find that Shen Lang is here... well, thinking about life, so come over and say hello.” Li Tianqing was a bit helpless.

Shen Lang nodded: “Very good. You have a good trip, I continue to think about life.”

Li Tianqing and Moran exchanged a look without words.

They tracked all the way, but it wasn’t really passing by. I wanted to set up a near-first-come-first-handled soldier. This made them unable to continue, and they could only go straight to the point.

“That... This is in the core area of the Golden Mile. It is still dangerous. Do you want to leave with us? Can you take care of each other?” Li Tianqing asked with a patience.

Shen Lang shook his head: “I don’t need people to take care of them, and I don’t want to take care of others.”

“...”

This made them all look a little bad, and mutual care is just a superficial gesture. Do they still need six of them to take care of them?

“Shen Lang is so confident, he must be very strong. Admire!” Moran arched the guest.

“Good to say.” Shen Lang directly received his courtesy.

“Directly say! We are actually looking for your own, as for the reason, it is related to the Huangfu family and Mutian.”

“Continue to say.” Shen Lang nodded faintly.

“This is the case, Mu Tianhai is my good friend, and Huangfu is a friend of Li Xiong. I want to come to you very clearly, Huangfu brother and Mu Tianxiong should have died in the meditation, can’t come back?”

Shen Lang looked at Moran: “What do you want to say?”

“Oh, since you are confused, then I will make it clearer! When you came over that day, Mu Tianxiu was avoiding you. I found this and I asked him by voice. He told me For a moment, you have a grudge!”

When Moran said this, he stared at Shen Lang and seemed to want to see the change of Shen Lang’s expression.

There is no discoloration in any of the waves, he can only continue to say.

“When we got there, when we all left, we finally admired the three people and the lord. It is known that you are together. Later, some people met the Mutian family and the Huangfu family. As a result, they all No more...”

Moran said that he raised his voice and screamed: “We suspect that the three people of the Mutian family and the Huangfu family have been framed by you Ji Jiqian!”

Li Tianqing sighed and sighed with a softer voice: “Lord Shen Lang, we have no enmity, we don’t want to doubt you like this. But the facts are in front of you, why do you want to harm them? Not children. Now, can you have any resentment that can’t be opened!”

From the words of Moran, Shen Lang is convinced that he should have a relationship with Mu Tianhai, and it should be a voice exchange. But all kinds of things in the back of the field are just speculations.

“So?” Shen Lang asked with a sneer.

“We must seek justice for the two of Mutian and Huangfu! You must give us a confession,” Moran said harshly.

“I just want to ask a question.”

“What problem?” Li Tianqing asked.

“Turn off your ass!”

“...”

They originally wanted to swindle, or find an excuse to move the waves. Now Shen Lang is so attitude that they don’t need to be patient.

“Li brother It seems that he must have killed the murderer of Mu Tianxiong and Huangfuxiong. We should get justice for them today, for the heavens!”

When Moran spoke, he immediately went aside and the field had already been opened to fight for the opportunity.

The other four people should have already been instructed. When he left, they immediately moved. The four of them occupied a direction, and formed a triangular package with Moron and Li Tianqing.

When Mollen was in action, Li Tianqing did not look at the field. The two people were well-coordinated and directly half of them, and they controlled all the surrounding areas. The other four people joined forces to guard one side, which is a supplement.

“Actually, you are sure that I have gained something in the meditation. Is this an excuse to kill people and win the treasure?” Shen Lang asked faintly.

Seeing this cooperation, it is already well negotiated, just to find an excuse to start.

“Let’s talk nonsense!” Moran gave a low voice and immediately signaled Li Tianqing to work together.

To deal with Shen Lang, of course, the two of them are the main force, and the other four are weaker and can only help together. There is nothing wrong with the strategy. It is not easy for Shen Lang to kill the four peaks of the gods.

In their view, this is already a matter of stability, but I don’t know that before the break of the waves, I really broke the joint efforts of Tian Tianhai and Huangfu!

Shen Lang waited to find them, and they didn’t have the mood to consume them. It’s not like the meditation domain here, it’s not good to provoke the king’s beast. So when they were ready to start, he started the sacred armor and flew at supersonic speed!

Chapter 1165 - Speed invincible

Moran and Li Tianqing have already taken the lead in controlling the situation. I thought that even if Shen Lang and them were at a level, they would only be abused. I didn’t expect that in the blink of an eye, people would disappear!

At such an instant, they couldn’t help but wonder if someone was here...

It is unimaginable to be locked by the field of two and a half centuries and to disappear instantly.

Because this is related to the realm, if it is the gloom of the realm of the gods, it is understandable that the semi-fairy can be relieved. But when Shen Lang is so old, he can be level with them. It is already incredible, and it is impossible to be much stronger than them.

In fact, they are not wrong, the field has not failed, it is really locked around the waves. No matter whether Shen Lang wants to move there, it will be greatly restrained, and the speed will be greatly reduced.

In fact, the speed of Shen Lang has been greatly reduced. It's just that he didn't run on his own strength, but instead used the promotion of the Holy Grail to fly away at the super-sonic speed of Mach!

Under such a state, one second can reach seven kilometers! Even if it starts slowly, plus the strong resistance that is pinned, only half the speed can reach a few seconds in a second.

Originally, the speed of their realm has not been calculated in seconds, and the change of zero and one second can be easily captured.

However, according to the estimation, Shen Lang should be restrained. As a result, it has already disappeared a few hundred meters from zero to one second. It has disappeared and directly blocked them.

And the only thing that really makes the speed discount is the range of the field. Once it is out of range, the speed can be restored! To put it simply, zeros and one second may cause Shen Lang to leave two or three hundred meters, and at zero and five seconds, it is already two or three kilometers away.

So, you don't need to squat for a second, as long as they only react in half a second, Shen Lang has already been far away.

"Chasing!" Moran and Li Tianqing screamed at the same time, and then quickly chased out in the direction of Shen Lang.

In the immediate situation, in their minds, there is already an answer. It is estimated that Shen Lang used some powerful flying magic weapon to break away from their field control and escape.

This is a bane!

If you let Shen Lang run, go back and look for Qiu Lin Jianzong for help. After that, Yungong and Qingyun School, there is no good life.

They will block the waves here, mainly because of the depths of the Golden Mile, even if the Shen Lang is hung here, it can be counted on the head of the king's beast. Even if someone associates, there is no evidence.

As long as you can get the benefits of the domain, it is still worth the risk. The premise is that you must kill!

This is also why they blocked the two direct fields, and in addition to the three-party defense, they are prepared to kill Shen Lang in one fell swoop. Unexpectedly, the layout of these two layers did not exert any effect, and Shen Lang had already left.

Now both of them are very anxious. According to the speed just left, the magic weapon is very simple. If you let Shen Lang escape from the Golden Valley, it will be even harder to catch up!

Or let him find Ji Qiancheng or anyone else, it is not convenient to start, the consequences are very simple.

This allowed them to play to the extreme, and they couldn't attend the other four people. They could only help.

"Be careful!"

Just after chasing a few miles, two people felt strong fluctuations ahead.

The two people who are catching up quickly are quickly avoiding both sides. Needless to say, I can guess that Shen Lang is rushing back by the speed of magic weapon!

In the mouth where they will be avoided, there is an object that does not flash, even in their eyes, it does not see what kind of state it is.

"Oops!"

The two immediately thought of a problem and called it at the same time.

They are chasing in front, just avoiding the left and right, and the back of the sinking waves, no doubt they rushed directly to the back.

And behind them, two other four people are following closely!

The impact of such speed, they are just good to avoid, the latter four people react a little later, or slower, can not avoid.

Moran and Li Tianqing did not dare to neglect, and quickly turned back when they turned around.

Soon, they saw their two younger generations, four of whom were running fast against them!

Haven't waited for them to breathe a sigh of relief, they found something wrong!

The four people who came quickly and quickly became the legs and the body torso still running, and the head fell!

As they approached, the headless body slowed down and then swayed and fell to the ground.

The four of them have completely disappeared from the neck and just continued to run, but because of the inertia of speed. And because there is no support link, the head falls to the back, and the legs rush out for a while before they fall.

Looking at the four headless bodies, and the four heads that fell behind, Moran and Li Tianqing were a little shivering.

This picture makes them very angry. These are their apprentices and teachers. They just want to protect their safety. They also let the four people help each other. When they chase the enemy, they are left behind.

Who can think of The enemy will actually be killed by the U-turn after disappearing for a second or two!

And this speed and impact, even broke them both, and killed four weaker directly to the rear.

Look at this, the four of them are chasing over, there is no time to defend and dodge, they are far better than the speed of their rushing over the waves, directly cut the throat.

And it's not a simple cut-off of the throat, it is the neck of several people completely disappeared.

Therefore, in addition to the anger, they also have a chill!

underestimated!

Even if you repeatedly remind yourself to pay attention to it, it is treated according to the highest specifications. Six people can strike one, but they still underestimate this swell!

“Come out! Don't you just take advantage of the magic weapon? You have a bright future!” Moran snorted.

Li Tianqing quickly released the field and controlled the surrounding environment so that the other party could not get out of trouble quickly.

After Moran yelled, he quickly defended himself.

“Shen Lang! I know that you are nearby, so young, can't you dare to fight in front? Need to be so sneaky? Have the ability to come out and fight!”

The recent encounter has already made them feel that they are not sharing the sky with Shen Lang. It is necessary to kill revenge. It is even more difficult for Shen Lang to leave the letter, so he has repeatedly opened his mouth.

“On both of you, you also have to fight with me. Kill you like killing chicken!”

Upon hearing this voice, both Moran and Li Tianqing quickly prepared for the battle, observing the surroundings, but did not find anyone, it seems that the distance is kept farther.

Chapter 1166 - Exquisite

Unexpectedly, the two people immediately spread their knowledge and explored, and found that the figure of Shen Lang is going fast!

As for the two of you, I also want to fight with me. Kill you like killing chicken!

It's really angry to listen to this!

Even more so that they are depressed, Shen Lang did not come out to open a battle with them, let them have full anger, but there is no place to vent.

Seeing that the waves are far away, combined with the words just now, it is simply disdain to fight them. Perhaps killing four younger generations is a punishment and warning to them.

The two have no choice but to keep fighting here.

The four dead are the men of their divisions, and they can't just bury them on the spot, but bring them back to bury them.

“This bastard!”

Putting the body and head together, I found that it was impossible to directly dock, completely missing the neck, so that Moran could not help but scream.

“This \*\*\*\*\* has gone far. He will leave here first. It is estimated that it will destroy our reputation as much as possible.”

Li Tianqing frowned. In addition to the anger in front of him, he also worried that the teacher's door would be affected. Shen Lang was not injured, Qiu Lin Jianzong may not be

fighting, but combined with other sects to pressure, such as the Qingyun faction will also be a crisis.

Moran also frowned.

“We have to be the first!”

“He is so fast, how do you get ahead?”

“From the point of view, this is very proud. It may not be anxious to engage us. We still have the opportunity! Just leave and spread the information as far as possible, and say that he is designed to kill Huangfu in the meditation. Six people from the family Mutian family ambushed us after coming out, and later found that we had nothing to gain, only to kill four people and leave!”

There was a trace of viciousness in Moran’s eyes.

“Yes! The Huangfu family and the Mutian family have all got a lot of treasures. At this moment, Shen Lang’s body is already full of treasures!” Li Tianqing immediately met.

Although this is only their guess, it has not been confirmed, but it is no longer needed. We must spread the things that Shen Lang is full of treasures, in order to attract the world!

If it is the personal income of Shen Lang, even if there is something wrong, you can only envy you.

But he said that he killed the treasures of the Huangfu family and the Mutian family and killed four disciples of Qingyun and Yungong. This is not the same.

As long as the stigma of success, it is a evil thief, the heroes of the world are available!

After all, they all want to face. In the meditation area and in the forbidden place, no one knows it. The murderous and arrogant treasures of the outside world will damage the reputation of the sects and will also cast aside.

With this excuse, looking for Shen Lang to start, it is not killing people to win the treasure, but to help justice!

The two of them originally wanted to get the sinking waves in the core area of the Golden Valley, and dealt with the low-key, and then did not know about it. Now that I can't clean up, I decided to start with a strong hand and smear the sinking waves as much as possible. If they can't get it, let everyone ruin together!

As long as the news spread out, then no matter what the Shenlang, even if there is a platform for the Qiulin sword, others will only think that he is a retaliatory counterattack, and will not believe his words.

The four bodies have already been like this, and it is meaningless to have a bad atmosphere. It is necessary to seize the time to spread the news.

The two took the body and left soon.

“Do we act separately?” Li Tianqing asked.

Of course, it's good to split up, that is, you can spread the message faster. But now in the Golden Valley, even if you don't encounter the king's beasts, what if you encounter Shen Lang again?

“Still go out and talk about it!” Moran was a little helpless.

Li Tianqing also agreed with this view.

The two identified the direction and prepared to leave as soon as possible in the peripheral area.

It was at this time that they felt the volatility again!

Shen Lang is coming again!

This did not have time to say it, the two people could only exchange their eyes quickly and prepare for the battle at the same time.

They are facing the rushing waves. This time they are not ready to dodge. They must fight hard with Shen Lang and never let him leave by speed!

But when they can be sensed, they are actually not too far apart, and under the supersonic speed, they have just had time to prepare for their realm and resilience.

Just under the preoccupation, I haven't seen the dark waves yet. I saw a black spot zooming in and out, and it has turned into a black shadow!

Nearly big and small, the speed is so fast, it is quite normal to go from a dark spot in the distance to the front, so they are also fully prepared to attack this black spot.

But not only the speed is fast, but also not nearly big and small, this black spot seems to be also rapidly zooming in. When it was near, it was already a large black shadow that blocked the line of sight!

When the attack of two people was only halfway, I felt that I was hit by a huge impact and flew back!

The place where they are is the place where the four people were killed before. It is the route that Shen Lang has traveled, and the holy armor can be controlled very well. So he didn't have to worry about it at all. His hands were the iron bars that stood in the battle, and they quickly became bigger.

When Shen Lang rushed over, the front end of the iron bar has also become so big as a small house, so huge and heavy, and then driven by supersonic speed, the impact is very scary!

When I was near, it was almost destroyed and the nearby stones and trees flew. The two of them seemed to be hit by high-speed rails... No, they were hit by missiles!

In the middle of the forest, a channel that was more than ten miles long was pulled out quickly. It was the impact of the big iron bar, and it was also the impact of supersonic speed.

It's been a ten-second push by such a strong impact, but it's only a second... Both Moran and Li Tianqing have been crushed. ..

Losing them in time to prepare for the battle, or else it will be directly crushed into meat sauce.

However, the huge impact also caused two people to vomit blood.

However, Shen Lang only shocked for a second or two, and then quickly stopped and stopped. The iron rod was lost and the two people who were still being repulsed by inertia were directly caught in the soil!

A stick and then a stick...

Shen Lang not only put two people into the soil, but also when they want to turn over, they are even more depressed.

If it is a normal duel, even if it is such a huge iron rod, huge weight, they can still resist for a while. However, under the impact thrust of the missile speed, they were very passive and seriously injured.

So at this time, the waves were directly smashed down with the surrounding ground, and they had no way.

In the last stick, Shen Lang directly used the power of lightning to pass through the iron rod, and immediately put the two people not only to sag more, but also the lightning strikes...

Chapter 1167 - How to deal with

Both Moron and Li Tianqing have the strength of a semi-sexual situation. Of course, it will not be so easy to die. It will fall to the present result. It is also because Shen Lang has just been too fast, so they can't take care of it, and then a series of The blow.

At this moment, it was flattened on the ground of the depression, and it was also sharp and tender, but it was just a coma.

The rest of Shen Lang's foot, the field spread, quickly controlled the two people who had no resistance.

The reason why there is no direct past is that they are afraid of pretend to die, so when the field is controlled, his iron rod is ready for a quick blow.

Passiveness in the field can still be disguised, but if it is completely controlled, you can rest assured.

After the two of them were pulled out, Shen Lang further restrained them.

How to deal with them?

When Shen Lang returned to rush to kill the four people, he had already left a detector on the scene. After he was far away, he adjusted the screen view and waited for the two of them to come back to collect the corpse to discuss the strategy, which is completely synchronized.

If the two men feel fearful and leave low-key, he can also consider letting go. But they are more vicious strategies, and they want to ruin him, which makes him unhappy.

So I came back directly to give them a meal. In normal terms, they should also be killed, just like killing the emperor in the meditation.

However, the situation was a bit different at the time. Huangfu was able to escape at any time. Now these two are already caught.

So they killed them, and although their items can still be picked up, it is still a waste.

The easiest way is to throw them into the Ba Tian Tower and refine them into adult Dan! Two and a half cents, that effect is simply.

Of course, you can also take their spiritual powers on the spot, but that can only be applied to the spiritual part, or a lot of wasted.

Shen Lang does not need so much spiritual power now, because the refining and refining of the undead is 40%, it is already very strong, and now continues to absorb mental power, but he is not going to be able to control himself.

But one thing, he can do it first.

That is to extract the memories of both of them!

Shen Lang's understanding of the world is mainly based on the last trip to Tangcheng, which was known from the memory of Jing Rufeng. Jing Jingfeng is only a middle-level young disciple of Yuxianmen.

This time in the Golden Mile, from Mu Tianzheng, I just verbally learned a little about the information of the Golden Valley, and I learned a little about the domain. When I came back, I learned more about it through Ji Qiang, but it was not systematic enough, and there were many shortcomings in speech.

On the same day, for Mu Tianzheng De, Shen Lang is not good to directly extract the memory, now for them two, it is not the same, the two sides have reached this level of hatred, there is nothing polite.

After extracting their memories one by one, it is easy to digest with the strength of Shen Lang.

Now, just throw them into the Ba Tian Tower, but he still needs to understand the situation of the Ba Tian Tower.

Last time, in order to be able to walk together, the Chinese monks also got together gifts, Lingshi or something, and were rejected by Shen Lang. In the end, someone looked for two things they didn't understand: Elemental Pearl and Xuantian Stone.

These two things are excellent auxiliary things, the element beads can enhance the level of the magic weapon, and the mysterious stone can repair the artifact.

At that time, Shen Lang chose three things, which were placed together with the elemental beads, namely the Ba Tian Tower, the Lu Yue Lu and the Bai Hong Guan, hoping to improve their grades.

The mysterious \*\*\*\*\* stone is merged with the Kunlun mirror, and he is also put together.

The process was quite long, so the original owner did not test its usefulness at all. He put them in the world space of the Book of Heaven, and with the speed of time there, you can come to a “quick”.

Later, when I went to the Golden Valley, I encountered the king’s dragon and called the beast of the beasts. Shen Lang also took Bai Hong’s use of it.

However, he only tried it before. He didn’t know much about Bai Hong’s power, so he was not sure if there was any big improvement. He still put it in it.

Now calculate the time, there are more than a month before and after, and the Batian Tower is also in contact with the elemental beads for about ten years. According to the reason, there should be a certain improvement.

However, even if the change is not big, Shen Lang is not afraid. The trolls of the same time and the mysterious black particles under the ice palace are finally refining by the Heavenly Tower. These two and a half are thrown in, and it should still be Can’t escape!

Shen Lang immediately took out the Ba Tian Tower, the most direct feeling, it has a different temperament, as if it has really evolved, but how big the change, there is no specific parameter ratio.

Before inhaling both of them into the Ba Tian Tower, Shen Lang took the storage bags of both of them.

At this time, Moran and Li Tianqing both woke up!

“you—“

As soon as they opened their mouth, they found that they were firmly imprisoned. Not to mention the attack, they wanted to move.

“What do you want to do?” When Moran asked, he found that his storage bag was already in the hands of Shen Lang, and he could not help but be more angry.

Li Tianqing was calmly thinking about all kinds of possibilities. He was busy warning: “You have to think about the consequences! To us, we are declaring war on Qingyun and Yungong. Even Qilin Jianzong can’t keep you!”

Shen Lang sneered: “You have to stink me and say that when I got a lot of treasures in the meditation, how can I not think about the consequences?”

“That’s just to talk about it. If you can promise not to pursue it Now let us go, we can guarantee that everyone will not happen anything. After going out, there is not much nonsense. If there is Violation, a thousand dollars!”

Li Tianqing quickly took advantage of the opportunity and made a promise. After all, how about going one step at a time, now let Shen Lang put them first.

Otherwise, look at this posture, this is to kill them both!

When he spoke, Moran also calmed down. Now it seems that the items in the storage bag are obviously coming back, and it is good to save their lives.

“Shen Lang, I don’t think you are killing innocent people. We have already died four people. We don’t want to go any further. Let us go, everyone will not make a well in the river!”

Shen Lang shook his head seriously: “No, you are all very loyal people. They are going to be enemies for the emperor and Mu Tianyu. If I let you go, don’t you want to contact Huangfu and Mutian to find them. I am in trouble?”

“That... we have no evidence, just a simple guess. You can let us go, it is enough to prove that you are not killing innocent people, certainly not with the emperor, admire them, we certainly will not Look at you.” Li Tianqing quickly changed his mouth.

“Really?” Shen Lang showed a smile.

Chapter 1168 -

“Of course it is true, we are all people with identity, how can we go back?” Li Tianqing said busy.

Looking at the smile of Shen Lang, let him feel that the atmosphere is a little easier, maybe there is a turning point.

“I won’t kill innocents, but you are not innocent. So, no matter whether it is true or not, I will not let you go.”

“...”

In the words of Shen Lang, let Li Tianqing and Moran almost vomit blood!

You won’t let go and say a wool! Do you play them?

However, at this time they only dare to belch, or try to calm down and win the opportunity, or avoid it at any time.

“Open a condition! How can you let us go?” Li Tianqing took a breath and continued: “In fact, we have a little gain in the meditation, these can be given to you!”

Shen Lang waved the storage bag in his hand.

“Do you still need to give it? These are already my spoils.”

“...”

Moran bit his teeth: “Even if you grab something, but you don’t know how to use it, it is equal to waste. We can tell you that without our guidance, if you use it indiscriminately, you will definitely fight back!”

Shen Lang shrugged: “Sorry, I have already extracted one of your memories before you wake up.”

Moran and Li Tianqing trembled a bit, this time it was really vomiting blood.

This 廋 actually extracted their memories!

So not only their personal gains, but even the secrets of their martial art are leaked!

“Shen Lang! You are very immoral in doing this. If you spread it out, you will definitely have the reputation of Qiu Lin Jianzong!”

“You stole our memories and confessed the secrets of the Qingyun School and the Yun Palace. Is this Qiu Lin Jianzong going to plot us against us?”

The two people are a little bit guilty and can only exert pressure on Shen Lang through such a form.

Qiu Lin Jianzong Xiong Tang City, if there is no big grudges, it will not be far behind to attack the Qingyun School and Yun Palace. Therefore, they feel that this is just the action of Shen Lang. He personally does not want to make things big.

“What about me?” Shen Lang is undecided.

“...”

“Shen Lang, I know that you don’t care about the outside comments. But you still have to think about it. The Qiu Lin Jian Zongtangtang sect cannot be adversely affected. The Qingyun School and the Yun Palace are not small sects. If there is a conflict, the three factions How many people will suffer from the scuffle!”

Li Tianqing began to bitterly and eagerly awaken Shen Lang from the moral level.

“What about me?” Shen Lang is still the same sentence.

“Good! You kill me when you have a species, kill it now, if I wrinkle my brow, I don’t call Moran! You really killed me, this thing spreads all over the world, when you are defeated!”

It was useless to see the soft beggar, and Moran was tough and showed his temper.

“To fulfill you!” Shen Lang hand lifted, and the Ba Tian Tower quickly sucked Moran into it.

“This...this is...昊天塔?!”

Li Tianqing showed an incredible look.

昊天塔?

Shen Lang is slightly puzzled. The Ba Tian Tower is the magic weapon of the earth. According to the truth, it will not be recognized by people here, just as you will not know the cultural relics of Laos.

However, since Li Tianqing has called out the tower, it should not be casual.

Shen Lang has read the memories of both of them and merged them, so I don't need to ask questions at this time. I directly searched for memories.

The tower of the sky is a legendary magic weapon in this ancient world. It has great power, but it has already been lost. I don't know how long. In memory, this is just a legendary shape, and there are no absolute model traces.

In other words, Li Tianqing saw the tower-shaped magic weapon and absorbed Molen, so he contacted the tower, and there is no exact proof that this is the tower.

However, this connection is also a matter of making Shen Lang feel a little bit moving.

When he was in his previous life, the Ba Tian Tower was also the ancient treasure that was lost. Later, it was discovered in Tang Banshan. However, the reputation of this magic weapon is obviously not so big. Otherwise, Tang Banshan should not be able to keep it – even if he is strictly confidential, at least the lord will rob him.

After that, the Ba Tian Tower was in the hands of Shen Lang and it was very well used. It is also used to enhance it with elemental beads. If the Ba Tian Tower is the tower of the sky here, does it mean that its potential is still far from being developed?

The Tiantian Tower is an ancient magic weapon that has long since been lost. The Batian Tower does not have an exact origin. Will it be brought to the earth by the high-ranking people in the ancient times?

Or in the ancient times, there was a strong earth who came here and brought the tower to the back. Like Yuhuatao, Jiuhui Zijinlian, etc., it is possible to bring it back from here.

Seeing that Shen Lang didn't speak, Li Tianqing smiled bitterly: "It turns out that you really got a lot of money in the meditation, and you have found the tower of the sky... I don't think it would be you who grabbed it from Huangfu and Mutianhai. ?"

"Of course!" Shen Lang sneered.

"Then I straightened out. It should be that they discovered your harvest and wanted to \*\*\*\* your magic weapon. Finally, you wiped them out, and you were sucked into the tower?"

Li Tianqing logic has negotiated.

"If you go in and see, don't you know?" Shen Lang talked, and Li Tianqing was also inhaled into the tower.

After sucking in both people Shenlang did not immediately put the Batian Tower back in place, but observed the situation inside the tower.

Just because he took the lead, they both blocked them. Therefore, it is impossible to move, and it is absorbed and has no resistance.

However, after entering the tower, there was an isolation. Before the iron bar was beaten and struck by lightning, it could not be changed, but his imprisonment disappeared.

At this moment, Moran, who first entered the tower, immediately attacked the Heavenly Tower after he got out of trouble, and wanted to turn it out!

After Li Tianqing entered, he even told the tower to Moran, and both of them were more anxious. If you can't leave in time, in the tower of the tower, everything will be suppressed, and it is very likely that it will be the end of the smoke!

Now that they have felt the suppression of the tower, they must seize the time to get out of trouble, and now they are fully bombarding!

In the end, it is a two-and-a-half immortality. Even if it is injured, it is much stricter than the situation of the previous trolls. The most obvious feeling is that Shen Lang can feel the constant with the Batian Tower. Tremor.

However, with the observation for a while, Shen Lang felt that the Ba Tian Tower was not at risk of being killed. I don't know if it is because of the relationship between the elemental beads, or because it was originally a tower.

Since they will not be freed from them, Shen Lang will be relieved.

However, he did not immediately close the tower, but opened up their two storage bags, throwing some of the elixir they had harvested, and throwing all their brains into it!

This is not to feed them, but to not keep so much, throw them in and refine with them, how much can strengthen the power of a little Dan.

Chapter 1169 - Soul bead

In the words of the two in the Ba Tian Tower, suddenly the face of the face fell so many herbs came in, so that both of them were paralyzed.

What kind of heart is this sinking in the end? Is this going to raise them as pets?

They are also limited in their understanding of the tower. After all, the legend is a legend. After entering the people inside, it is impossible to tell the experience.

Therefore, a lot of spirits and herbs that have been thrown in at the moment have calmed their emotions.

If Shen Lang only traps them through the Tower of Heaven, fearing that they are dead, they will use these elixir to treat them as food, which means that at least they are safe for the time being.

Perhaps Shen Lang wants to use them as hostages, and trade with Qingyun and Yungong?

Think about the situation before, change to them, and dare not stay with Shen Lang, you must kill the mouth. After all, it is the same realm. If you accidentally let the other party turn over.

However, if there are similar magic weapons that can trap each other, they may also consider it. When they find the Qiu Ling Jian Zong asking for treasure trading, they will sell it once. As for the reason, is it not the person who controls the situation casually?

Found that Shen Lang is this mind, they are a little relieved. The attempt has just been experienced. The tower is not so easy to break. They are now attacking wildly and will only consume more.

And once you let Shen Lang think they are dangerous, maybe they will kill them!

Staying in the green hills is not afraid of no firewood, they want to take revenge, the first thing to have life.

Since Shen Lang may want to use them, and ask for ransom with the sects, they will have a chance to live. If they come out, there will be opportunities to avenge them!

Therefore, the most important thing in front of us is not to attack this dilemma in vain, but to preserve the strength and let ourselves come out, and to have the power to kill Shen Lang.

The idea, let them give up and continue to attack the Ba Tian Tower, but began to meditate and practice.

Although there is no aura resource in the tower, the materials they carry are also taken away by Shen Lang. But isn't this the so many spirits that have been thrown in?

These direct takings also allow them to remain undegraded and maintain the basic cultivation needs.

Besides, they were originally injured, and they were hit by huge iron bars, and they fell into the mud, as well as lightning strikes. Of course, it is necessary to rest and heal. Just because the threat of death is greater will attack the tower.

Now that they have confirmed the temporary safety, they have taken some elixir and then meditated and healed.

Shen Lang originally treated these herbs and added them as seasonings. I didn't expect the Ba Tian Tower to calm down and make him a bit curious.

Observing the situation inside the tower, I found that two people are no longer violent attacks, but sit quietly and practice.

This made him a little confused. Is it that they realized that they could not break the tower, so the resilience of the tower against the tower?

I don't think about it anymore, they are also very good now, not to worry that the tower is damaged.

As long as there is enough time, the Ba Tian Tower will definitely refine them!

Shen Lang and the medicinal materials that were obtained from the two sides of Huangfu and Mutian, and the lower grades, were thrown into the Ba Tian Tower. Then the Botian Tower was quickly brought into the world of Tianshu, let it continue with the element beads.

This is also a bit of peace, even if they continue to attack, the elemental beads can make the Ba Tian Tower evolve a little more, but also stronger, and then the time problem.

After doing all this, Shen Lang had time to continue to check the two storage bags.

Obviously, all kinds of elixir are basically picked in Jinyu Valley, but their real big gains in this trip are still in the meditation!

Because of their memory, Shen Lang also knows everything.

Both Morun and Li Tianqing, when they came over, had already negotiated cooperation. And this time they entered the meditation domain, there are also goals.

Their plan, that is, the third type of people who enter the meditation domain – absorb the souls of the souls!

The method is actually not mysterious. Many martial arts understand it, but this is a “evil” practice, so it is generally not advocated. It is just for everyone to study and understand.

Moran and Li Tianqing are negotiating. This time, it is necessary to improve the strength in this way.

They have prepared a Horcrux – a soul bead resembling a hundred ghost gates. This vessel allows them to go directly to a dead city after entering the meditation.

Because it is inconvenient to be bright, so they chose the most remote city, and Ji Ji took them to a place.

In the dead city, they did not provoke a powerful undead, but in the area along the dead city, absorb some of the lower-level undead, and take the souls of these undead into the soul beads through the secret method.

To say this effect, it is similar to the Ba Tian Tower.

The role of the soul beads is for the souls of the dead, able to completely refine them into pure spiritual power, similar to the power of faith, and then absorb these for their own use.

Of course, this is the plan for their two trips. Some will choose to capture a powerful undead, then conquer them, and then find a body, inject the undead into it, and then become a similar avatar that can be controlled as desired.

This time, their two goals were clear, and they didn't waste more time. They went directly to their destinations and began to absorb the undead. [www.mtlnovel.com](http://www.mtlnovel.com)~ These undead are of course not comparable to the suspected wars. That is, it is similar to the undead in the hall of the tomb.

But the number is better!

These undead were originally attacked in all directions after they entered, and the results were taken into the soul by the secret law. Now it is still in the process of refining.

When the refining process is completed, the two soul beads are equal to having a strong belief and can be directly absorbed.

However, these undead souls are all madly attacked when they see a living person. They are full of fierce enthusiasm. If they are absorbed too quickly, even if they can't be beaten, they will inevitably affect their minds.

Therefore, like the Batian Tower, a process of refining is needed.

This made Moran and Li Tianqing not satisfied, even if the harvest is full, they will not be used for a while. For the sake of confidentiality, the four people they carried on both sides did not bring into the dead city. In the name of danger, let them wait outside, and naturally said that there was no gain.

This allows them to start playing other people's ideas when they return to the entry point.

They did not lie, and they were really familiar friends with Mu Tianhai and Huangfu. They also really noticed that Mu Tianhai and Shen Lang finally left.

As a result, I did not see the admiration of the sea, but it was the enthusiasm of Ji Qiancheng and Shen Lang, which has caused doubts.

What happened during the period, they are not known, can only speculate. However, from the results, it is obvious that Shen Lang and Ji Qiancheng are the winners, so it is suspected that Huangfu and Mutianhai have been killed.

Compared to the trouble of looking for Ji Qiang, they certainly feel that a single Shen Lang is a soft persimmon, and there is this tracking.

#### Chapter 1170 - Strange building

Moran and Li Tianqing's abacus played very well. Since the emperor and the emperor, they are likely to be killed by Shen Lang and Ji Qiang, then they will kill the Shenlang and they will not doubt their head. on!

Other people are not fools. They must all doubt how Ji Qiang will suddenly be enthusiastic about Shen Lang. Naturally, it is not just for Bajie Qiulin.

Therefore, Shen Lang has also disappeared. I really want to doubt it, and it is easier to suspect Ji Ji's head.

If they can get another harvest, this time they will make a big profit.

The age of Shen Lang is only so large, it is estimated that there can be current achievements, and Mo Feiliu is carrying him. Even if you start practicing from breastfeeding, you can't go any further.

This kind of big, let them think that Ji Qiancheng is more dangerous, so I chose Shen Lang.

I did not expect to directly put two people in the quagmire!

And just that misunderstanding, I thought that I could wait for the redemption in the “昊天塔”, but let Shen Lang never think of it. This judgment directly gave them a chance to even have a glimpse.

After Shen Lang figured out these, he was hesitant about how to deal with these two soul beads.

This is placed on the earth, and it is also disdainful in the right way. However, unlike the evil method of the cultivating souls of the sacred ghosts, this is the soul of the souls collected.

If you want to let Shen Lang collect it, he will not do it with this soul bead, but now this has been collected, can't put it back? I can't go back.

Giving up is also a waste, so he also decided to accept it.

The best way to make them refining faster is, of course, to be placed in the world of heaven.

There is nothing special about the other. The two of them come to the meditation domain, and they are also looking for resources. They do not carry much resources.

Shen Lang was going to look for the traces of Qiao Yuxian. They were delayed by a lot of time.

Now that the dust has settled, you can leave...

Just when I was leaving, Shen Lang felt locked in by a strong presence!

This gave him a glimpse of his mind, the rapid spread of his knowledge, and he quickly positioned to lock his presence.

This is far away, almost the edge that his gods can sense, and because of this, he waits until he is locked.

And this thing is obviously stronger than Moran and Li Tianqing.

What he is sensing now is only to confirm the specific place, but still can't see the whole picture, but one thing can be confirmed, it must be a king-level beast, stronger than the king who has encountered before!

It is not surprising that he will be amazed by the king's beast. He just flew at a supersonic speed, even if the time was short, and the range was compressed within a few dozen miles, but the movement was not small.

"No intention to offend, leave!"

Shen Lang tried to pass this meaning to the past.

The strength of this king's beast is unfathomable, and it is definitely the strongest one he has ever encountered. But he didn't have any fears. He really wanted to let go of a battle. He still had confidence in himself.

But the problem is trouble!

This is the land of others, the strong place of the king's beast, not only the strength of its individual, but also the ability to summon all the beasts on the site to fight!

Just like the previous king, the dragon, if you want a powerful king beast, there are thousands of beasts, even if you can finally retreat, it will delay a lot of time.

The last time I got a thread, this time I won't be so lucky.

If you don't go to the meditation, you will take a chance to get a sneak peek. Now you are coming back from the meditation area, from Ji Qiansuo, and how many of them are there, and there is no need to take risks. It is.

It is still important to find someone now.

After passing this meaning, I don't know if the king's beast was not sensed, or did not comment on him, and there was no response.

Did not feel that it has the meaning of attack, Shen Lang will be relieved.

Confirmed the direction, Qiao Yuxian where they finally appeared, not in the direction of the king's beast. Of course, their strength is weaker and they will not go to such a deep place.

Shen Lang immediately flew away, in order to show that there was no provoke of offense, he did not use the Serie A supersonic flight.

Of course, when he left, he did not forget to pay attention to the reaction of the king's beast. If it was to be pursued, of course, it would speed up.

Fortunately, this king beast must have a certain scruples against Shen Lang, so after he left, he did not continue to chase it.

Without supersonic flight, the light is flying by the waves, and the speed is much slower. After leaving the distance, Shen Lang will fly away from the cloud.

All the way to find the place where the new number lasted seven days ago.

It is already on the edge of the core area. After a few days, it is not easy to find the trace of the day.

Fortunately, the holy armor can be accurately positioned, plus they are a team of ten people, all the way to be careful is only a beast, for the ground grass, etc., do not need to pay attention. In addition, there is generally no one here, and there is a change in the wind.

So carefully identified, Shen Lang still found their traces.

It can only be found here, it does not mean that it disappears here. The traces that can be seen on the scene are basically normal, and there is nothing messy.

The general direction of their walking is fixed, which also narrows the scope for Shenlang's search .

To search for traces, the speed is much slower.

And there is no signal for seven days. I can't be sure which day I started to lose the connection. I can't skip it. I can only find it a little bit. It still takes a lot of time.

All the way to pursue, in the evening can not go forward, but when they hurry, they will not go at night, the overall is still not biased.

By the morning of the third day, Shen Lang finally found the disappearing place!

The distance from the other nine teams is not so far. Of course, this is the distance when he came out after seven days. In the past two days, other people have traveled a certain distance.

Comparing the average speed of travel from everyone, Qiao Yuxian's time when their detectors disappeared should be around the fifth day. That is two days before he came out, now four days ago.

It is also very strange to be able to confirm the disappearance of the place, except for the absence of new traces!

Follow the traces of the road, go to the front, is a big house!

The front of the house is a flat stone, and there will be no more traces of trampling.

Shen Lang did not move, but scanned all the surrounding areas through the Holy Grail. After careful identification, it was confirmed that there were no traces of dirt and grass around them. It was obvious that they did not go around.

In other words, Qiao Yuxian, their ten-person squad, should have entered the big house in front.

As for the micro-detector losing its signal, it should be shielded from what is inside.

It's just that... on the edge of the heart of the Golden Valley, the emergence of such a human building is itself very strange.
