

First Strong 1191

Chapter 1191 - Huge sales

Luo Fatzi is leading to continue to go upstairs, not in the lobby on the second floor.

Shen Lang is also not polite. Just after coming all the way, many people have followed the onlookers. If it is on the second floor, there will be many people coming over in the name of the guests.

Luo Fatzi gave him a higher reception, and there was no problem. After all, the popularity he had just picked up, let the whole street know, and will soon spread throughout the city. He came to the store and the heat was brought directly.

Although this heat may not all be converted into passenger flow, the incoming passenger flow may not necessarily consume much, but for shops that are full of competitors. It is naturally very rare to have such an opportunity for publicity.

The third floor is a different room, specializing in VIPs, whether it is a good thing to sell, or to buy, will not be widely traded. A distinguished and privacy effect can be achieved in the VIP room alone.

These rooms have also been protected and will not be eavesdropped.

Luo Fatzi, with a few people in Shen Lang, went directly to the “office” of his general manager.

He is back first, and naturally he is ready to receive the waves. So come in at this moment, the table and chairs have been prepared, and the refreshments are prepared.

“Mr. Shen and a few friends, let’s sit down and have tea, and soon the results will come out.”

Luo Fatzi invited them to sit down, and then put away a smile, a little heavy.

“I was very sad about the experiences of previous friends, and I am sorry. Who can think that Zhou Shaojun will actually fight here, and the shot is too fast, I want to stop it too late.”

Shen Lang waved his hand: “It’s none of your business. I won’t let go of the enemy, but I won’t be a good person. He is strong and weak, and he will kill if he strikes. It is because I can’t stop it.”

“Mr. Shen is really rational!” Luo Fatzi praised: “After all, I am the place to do business, so several bodies are not convenient to be placed on the second floor. So the arranger has also cleaned up and has already arranged. Going on, there will be someone to deal with the matter soon. I don’t know...”

Shen Lang shook his head: “Look at the rules and environment here, find a place to bury it.”

At this point, he does not need to show any sadness, or to bury them.

They are also sighing, and in this different world, only everything can be simplified. One, two, three, four is the same, the same seven or eight before and after the death and injury, and then dozens of dead animals before the tide, even more things have not been dealt with.

If one day they die, they should be buried on the spot. There is no one who is willing to bring it back to Earth.

“No problem, everything will be properly arranged, please rest assured, I personally arrest.” Luo Fatzi immediately stated.

Of course, in his capacity, he said that he personally took it, that is, he personally arranged and personally asked questions, and he could not really handle it personally.

After talking about the one-two-three-four in a heavier tone, Luo Fatzi restored the true character of the businessman. Before he helped Zhou Shaojun to speak and persuade Shen Lang, he did not feel embarrassed at all, as if nothing had happened.

He also wants to inquire about the origins of Shen Lang, but it feels a bit abrupt. Before in the ring, when it was able to show off the limelight, Shen Lang was not as public as Zhou Shaojun, which of course made him feel good.

Therefore, his conversation is based on resources.

It is a great asset for Shenlang to sell so many herbs and replace them with Lingshi. If you continue to spend here and buy other precious herbs, they will earn two commissions instead of others.

Shen Lang is rude, saying that he can't look at the general resources. This store is not expected to have what he needs. Tomorrow's auction, and the trade fair after eleven days, will be his goal!

Luo Fatzi immediately said that when he arranged it, he must take out the treasure of the current town store, and maybe he could touch the waves.

Qiao Yuxian three of them, in fact, this month has a lot of gains, but just now all the way is tangled.

These take-backs can be left to the descendants of the family, but now they are a bit sloppy for them personally. If you can sell it, exchange for better items, and help them to go further, will it be able to earn more resources in turn?

I learned that Shen Lang sold everything here, and they finally made up their minds and sold them!

Not to mention that they can still go further, returning the medium medicinal resources to a high-quality resource, so that they can become a town house heirloom.

And from the perspective of the glory, this is also more cost-effective. Because the medium medicinal materials are brought back, it will inevitably be consumed slowly little by little. In a few decades, everyone knows that they are desperately brought back. How many hundred years later?

Leaving the heirloom, it will not dissipate the consumption. After a few hundred years, everyone knows that this is what they brought back.

At the age of them, and there is a millennial family is not the impact of life for decades, but the influence of the generations of future generations.

After the decision, the three big shackles are also a little embarrassed to talk to Shen Lang, and then go down the second floor, but also to deal with them.

They are all smart people, go to other stores, certainly not as good as this store! Because there are Shenlang has opened a reputation here, and it is necessary to seize the present and Shenlang together, or else wait for the next time alone, others may not recognize.

Qiao Yuxian, they harvested a lot less than Shen Lang, and Shen Lang was scraped from several Moron, they really collected hard for a month.

So this time is more careful, not to believe in the store, but still choose to see it yourself.

When Luo fate came back, there was still only one person in the dark.

“Mr. Shen, your medicine has been completely counted. This is the list, and the estimated price, please look over.” Luo fat child presented a long list.

Although it is busy with multiple counters, but it can be completed so quickly, it is the result that Luo Fatzi urged.

Shen Lang simply glanced at him, and he himself did not have a rough estimate of these. Just from the attitude of Luo Fatzi, it should not be pitted in this respect.

So he mainly looks at the value aspect.

The price of the unit price and the single item, Shen Lang did not calculate. In fact, he does not need his calculations. As long as he scans, the holy armor has already verified all the data immediately.

Shen Lang is concerned about the total price. Anyway, he put it all out, just to sell it for packing.

But seeing the huge total price, he still surprised him!

The total price actually reached 98,000 fine stone!

Chapter 1192 - Town store treasure

The harvests of Moron, Li Tianqing, Mu Tianhai, and Huangfu were all collected, including their other ethnic disciples, and the harvest of the four or three of them.

The number is huge, and all of them are deep in the core area, which is even higher than the quality of the earth monks. Like the Mutian family or more than a dozen people, the value is bound to be small.

However, Shen Lang did not think that the total price reached 90,000 fine stone.

After all, this amount is too great. Now all the stones on the earth add up, and it is estimated that there is no such amount.

He carefully scanned the unit price and found that many high-quality medicinal materials were not low in price. The high-grade medicinal materials that are rare on Earth today, that is, the low-end levels obtained outside the Golden Valley.

But in terms of this price comparison, even if it is relatively low-end here, the price is still higher than on the earth.

The reason is not hard to guess, nothing more than the rich resources of Lingshi here, so the overall price is much higher.

This is the same as the difference between big cities and small places. Even if the big cities are rich in material, the absolute price is often much more expensive than the small places. But there is still a relative, nine thousand eight thousand fine stone, may not be able to get the whole earth now, but here, the huge amount is not astronomical.

If you don't send the money you have earned in a big city back to a small place, the effect will be less, because consumption will be higher.

With such a thought, Shen Lang will be indifferent.

Then he looked at Luo Fatzi, the ninety-eight thousand fine stone, it would be a bunch, how would he pay?

Is it replaced by Yuan Lingshi? In exchange for Yuan Lingshi, according to the ratio of one hundred to eight, it is nine hundred eight, and the volume is much less. However, the multi-lingual stone is also not seen by Shen Lang.

I thought about it in Yuxianmen more than a month ago, knocking a few Yuan Lingshi in Weiqingcheng, then I was satisfied. Now think about it, Yuxianmen is still very poor!

It seems that even in this vast and sparsely populated world, targeted business is also promising. It acts as a circulation, and it is much easier to earn resources than to collect resources.

At this time, Luo Fatzi gave a plate that looked like a jade material, about the size of a playing card, and the thickness was a few millimeters.

“This is the circulation of the Union Chamber of Commerce. It is all in the Han Dynasty. It is yours. It is yours. I have put together an integer, which is a 100,000 fine stone.”

Luo fat child said that he handed over.

Shen Lang was a bit puzzled. Listening to his words, I felt that I had searched for Moran’s memories. Only understand this transaction, there is really such a way!

To put it bluntly, it is similar to bank cards or items such as ancient silver tickets. Large commercial banks have joined the joint chamber of commerce and can be universally exchanged.

In ancient times, more was the era of copper coins. Copper coins are punched, and the money is strung together. In theory, a thousand coins and money are consistently money, so you have to wrap it around your waist and carry it on your shoulders.

Therefore, “the waist is full” describes the rich, that is the ten million yuan of copper coins, where the waist is wrapped up, completely flooded no one can.

Later, after the development of silver-smelting technology, silver ingots became the mainstream of block trades, and they used copper coins for daily transactions that were more fragmented than broken silver. But even if it is a silver ingot, there are 37.5 grams (one pound and sixteen 600 grams), which is a hundred thousand two, that is, thousands of kilograms.

The ancient traffic was not convenient. A big business was a year and a half, and even a few years were very common. Carrying thousands of pounds of tens of thousands of pounds of silver was very inconvenient and very unsafe.

Therefore, there are beginning to have currency, such as exchange notes, silver tickets and other similar currency. In modern times, all aspects have exploded, and banknotes are inconvenient. When you buy a company, you have to pay a few dollars, and it becomes a more convenient account number.

The development of the mainland China and other overseas city-states is taking a completely different path, which is far superior to the technological civilization of the earth. Here is the cultivation of true civilization, but other aspects are still like ancient times.

The key people are still few, and the rule of the self-cultivator has also curbed the technological development of ordinary people.

But even if you are a self-cultivator, there will be a lot of inconvenience with the circulation of goods. Lingshi has more than one degree, and it can be used for cultivation. As a hard currency, once it is too much to carry, it is very troublesome.

The union of the Chamber of Commerce has gradually become popular. Like Tiandu City, it is a big business city from the south to the north. This street is a big one, but even if there is a reserve stone, it is impossible to have unlimited. Most of the time, it is still used.

After Shen Lang started, he injected a spiritual mark, and immediately saw that the number showed 100,000.

Luo Fatzi gave him an integer and added two thousand fine stones directly. He had to say that he was still discouraged. For the earth, that is a huge resource. For this, it is also a two percentage point of profit.

Seeing that Shen Lang didn't talk, Luo Fatzi didn't know that Shen Lang was remembering and digesting the information. He thought he had opinions and was busy laughing.

"Mr. Shen, you can check it one by one, you can check it, we will never be short of it; we can also go to other firms to compare, our price is also..."

Shen Lang shook his head: "I believe you. What I just thought is, if I want to convert all of them into Lingshi, can you get it?"

"This..." Luo Fatzi was just relieved and stunned. "That... 100,000, we are still redeemed, but it will make us nervous. Are you really going to convert into a stone?"

Shen Lang laughed. He is like a bank small network that wants to withdraw one million, or a branch to withdraw one hundred million. Such a large amount will generally allow you to make an appointment in advance, or affect the daily circulation of people.

"Let me ask, take me to see what you have here. I hope there are good things, so I will spend the Lingshi I sell here."

"Haha! You are a big customer, it is definitely the best thing for you. Please come with me!"

Luo Fatzi is relieved, and he certainly hopes that Shen Lang will continue to spend here.

Immediately with Shen Lang came to the third floor of a tightly guarded showroom, not only the master guards, this wall is specially made, all-round protection.

"I know that your eyes are high, I will not sell them one by one, let you see the treasure of this town store directly!"

Luo fat man directly crossed a lot of items displayed, directly to the innermost, there is a layer of protective counters, and then open it, revealing the inside.

“This is...” Looking at the items inside, Shen Lang is also a bit puzzled.

Not only has he not seen it on Earth, but in the memory of Moran and Li Tianqing, he has never seen this thing, not to mention Jing Rufeng.

“Jade Emperor Ling Dan. A unique treasure of the town shop!”

When Luo Fatzi said this, his eyes were still on the item, and his eyes revealed his fascination.

Chapter 1193 - Jade Emperor Daxian?

Jade Emperor Ling Dan?

Shen Lang quickly searched for memories. His own memory is very clear and certainly has not been heard. Moran’s memory is, after all, someone else’s. Even if they extract the fusion, they still seal most of them, so as not to interfere with themselves. When they need it, they will recall.

It is just certain that they have not seen this thing, but the name has been heard, and both Moran and Li Tianqing have heard it.

Jade Emperor Ling Dan, it is said that about two thousand years ago, a remedy called the Jade Emperor Taixian refining the remedy, it is said that people can have the effect of reborn. ——It’s not the ordinary mortal who has the potential to cultivate the truth, but the physical potential of the comprehensible, there is a qualitative leap.

What’s more, saying that Yuhuang Lingxuan Dan can help people enter the realm of Daxian!

There is also a combination of saying that if a person reaches the semi-scented scene for a long time, and then can not break through, and is determined not to be a problem of exercises and resources, then it must be qualified. If you take Yuhuangling Virtual Dan at this time, you can improve your qualifications and potential. After hard work, it is not impossible to enter the realm of Daxian.

Of course, these are just legends. After all, it is a long-term event. Even if someone is successful in the legend, they are historical figures and cannot be verified.

Shen Lang recalled the legend of Yuhuangling Virtual Dan, saying that it is not the same as the general medicinal medicine. If it is invisible, it gives a dreamy feeling.

Now it corresponds to the object in front of you, and you see it in a transparent medicinal bottle, which is like a gel.

This makes Shen Lang a bit speechless, can make the jelly-like gelatinous, so embarrassing, not a “legend”. Luo Fatzi does not say that this is Jade Emperor Ling Dan, let him remember how, and will not be linked together.

Looking at Luo Fatzi’s obsessive attitude towards this thing, it’s not like pretending it. Shen Lang asked.

“Jade Emperor Daxian’s Jade Emperor Ling Dan? It is a character of two thousand years. Is there really a drug that has been passed down to the present? Even if it is true, it will be out of date!”

Although Shen Lang is slightly ridiculous, there are some truths.

Like some spirits, it lasts longer. Of course, the longer the year, the stronger the effect. However, if it is collected, it will gradually weaken. If the medicine is collected, it will be dried up to maintain a longer period of time.

The medicinal herbs that have been trained, if not protected, are completely possible. Even if you save it, the longer it will take, the effect will be a little weaker.

After two thousand years of medicinal medicine, after many times of circulation, it is impossible to guarantee the initial seal.

After listening to the words of Shen Lang, Luo Fatzi was slightly surprised, and then laughed.

“Mr. Shen misunderstood. This jade emperor is not a jade, but it was not left by the Jade Emperor, two thousand years ago. It has been used for a long time. This is the alchemy of the later generations, according to the jade emperor Re-training.”

“That is a replica.”

Shen Lang is interested in it. Originally, he did not have much interest in the jade emperor. However, he was a little curious. Is there any connection between this jade emperor and the Jade Emperor in Chinese legend?

According to legend, the Emperor of the Jade Emperor is also a mortal immortal, leaving the allusion to “one person gets the dog to the sky.” Didn’t he come to this world through other means two thousand years ago?

Hundreds of years ago, when the crack in the space appeared in the sea, because of the aggression, it was the road to the heavens and the door to the immortal. The people who went there didn’t have any news, and it was only from the Tiangong fairyland that it became a warning to the innocent sea.

Shen Lang, who came over for the first time last year, found that they were leading to another world. Moreover, the chaotic space is likely to connect with countless spaces, and it is completely clear. This is another world, but the environmental resources are far better than the earth. From this perspective, it can also be said that the fairy world.

Then came to the Qiulin sword, found their traces of the cold autumn, and finally reunion. It was confirmed that a large number of earth monks at the time were in this world.

Later, it was basically confirmed that Han and Tangcheng had obvious names with Chinese characteristics, because earlier Chinese monks came here.

Of course, it is not necessarily from the Pacific Ocean, but there may be other “gates to the fairy”.

That is to say, some of these “indigenous peoples” in the world may be descendants of the sects who were founded by the great gods who came early.

This time, Shen Lang has been exposed to more, such as the formation of the same alley, such as the last time I have seen nine times Zijinlian, this time I saw the jade peach tree, etc., now I heard the Jade Emperor, he will I think it is probably the legendary Jade Emperor!

Whether it is the Tiangong gods or other various myths and legends, it is slowly formed over a long period of time. Some are exaggerated and deified, while others are traceable to the original shape.

If this is true, then you can be sure that this world is really the legendary Tiangong fairy world!

This makes Shen Lang still a bit embarrassing. After all, the last fall of his previous life is the failure of the robbery and flying-up. After the robbery, the ascendant is the fairyland.

In modern terms, it should be that the power of the individual has transcended the limits of this space world, so it triggers the laws of nature and suffers from punishment. If you can't pass, you will fall and it will not harm the space. Being able to surpass the ascent is to open the door to space and reach a more advanced world.

However, Shen Lang's own success in robbing and flying has not been successful. He has not succeeded in history, so he does not know where to go. If the robbery flies and rises, it is this "fairy world" that comes, and now it is really a shortcut.

"It can't be regarded as a replica. After all, this is not unique in painting and calligraphy. Jade Emperor Xianxian can't have only one or two refining. The descendants only need Danfang and have the ability to practice. That is Jade Emperor. Ling Dan."

Listening to Luo Fatzi's explanation, Shen Lang turned back.

"Yes, after all, this is just a name."

Luo Fatzi just said that it is not a copy of the cottage imitation, but it seems to be mass-produced, and quickly explained.

"Although it is not the jade emperor's master, but this is also the work of the famous alchemy master, and it should be really won the Dan Fang. This batch of jade emperor

virtual Dan, now we have a sale. Others, even if they are still there, are not willing to come out.”

Shen Lang secretly laughed, Luo fat child is just the true color of the businessman. If he does not question, but is a thick and thin person, then Luo Fatzi will certainly promote this is the only one left by the Jade Emperor.

Climbing the origins of a tall, and then said that it has been out of print, in order to make people buy. Maybe he bought it just now, they will come up with a “one-of-a-kind” and continue to be here as a “treasure of the town shop.”

Chapter 1194 - Bargain

“This jade emperor is a virtual dan... what is the price?” Shen Lang reveals the way of interest.

Luo Fatzi immediately took the bottle and handed it to Shen Lang’s hand for him to check it carefully.

Because the bottle is transparent, the inside is gel-like, and you can see a slight change in shaking, and you don’t need to open it.

“This can be said to be the treasure of our store’s town store. For the average guest, we just show the tour. We have this strength, but we don’t really ask for the price. To say that in order to make money, then this street has every month. Several auctions, you can take it out.”

Shen Lang revealed the color of disappointment: “It turned out that it was my abruptness. The treasure of the town store still can’t move...”

“No, no, that’s someone else!” Luo Fatzi quickly persuaded him: “Mr. Shen, you are not an ordinary person. Your performance in the ring today is enough to show your strength. Even if you are low-key and unwilling to publicize, you will definitely It will be spread throughout the country in the coming months. For you, it is a sword to give a hero!”

“Give me? That’s a little embarrassing.”

Look at the surprise of Shen Lang, Luo Fatzi’s dry cough: “Cough! I just want to make an analogy. The sword is a hero. This good thing should be given to a buyer who is worthy of

it. It is sold to others. Collecting and hoarding, to Mr. Shen, you will certainly help you break through the realm of Daxian in the future!”

He is so enthusiastic about promoting, of course, is to expect a seller who can afford the price, where may be given. In fact, he is already secretive, and he can't be too greedy... The medicinal materials he sold, he has already given away two thousand fine stones at the best price!

“So, its price...”

This time, Luo Fatzi did not dare to go round again, lest the Shenlang misunderstand, and quickly said the price.

“In fact, for you, this is not a lot of money, just a 10,000-a-year spiritual stone.”

Looking at Luo's smiling face, Shen Lang is a bit speechless.

Ten thousand? District?

If it weren't for just selling so many elixir, he wouldn't have the same 10,000 stone.

Although I am getting 100,000 fine stones now, it is a night of wealth, but in this world, there are still a lot of expensive things, can not be used casually on a jade emperor.

Ten thousand fine stone, such an expensive price, but let Shen Lang believe that it can not sell. Those who really have 100,000 Lingshi will not shoot. Therefore, Luo Fatzi needs to make his impulsive consumption in the excitement stage of his just riches!

“You, you...”

After looking at the quotation, Shen Lang directly put the bottle back to him, so that Luo Fatzi was a little stuttered, but he still did not give up.

“Mr. Shen, you still have a good look, this is the real jade emperor, I am guaranteed by personal honor, absolutely authentic! At your age, the qualifications and potential are

undoubtedly very good, and will become a big fairy in the future, just Time problem. But if there is a jade emperor, you may be able to save you decades of training!”

The time card is the easiest for two people. One person is an old person. There is not much time. I really feel that time is life. Qiao Yuxian and other old people, willing to go to the sea of innocence, because of a lot of age, advance to hopelessly beat.

The other is young people. Young people always feel that there is limitless possibilities in the future, and they can create the future. Let them spend a few decades doing one thing, and they will be big when they hear it.

Luo Fatzi is quasi-according to this point, so that Shen Lang is so young, there is now the cultivation, it must be a rush of leaps and bounds. Such juvenile geniuses are inevitably unwilling to accept long-term in-situ steps. If they can save decades, they will certainly be heart-warming.

Unfortunately, he is facing Shen Lang.

From the state of mind, Shen Lang and the two are human beings, enough to be calm, and will never be easily confused. From the point of view of insight, in the contemporary world, in terms of business models, etc., there is no way to lead here and lead the ancient times.

His marketing method is only a daily level on the modern planet. You go to buy a mobile phone, the sales clerk will blow the brand with you once blocked the bullet.

“Nothing, I am still young, and I am still trying to lay the foundation.”

Shen Lang has already stuffed the bottle back to him, no longer accepts it, and then starts to look at other things.

Luo Fatzi frowned, he just started to look at the expression of Shen Lang, it seems that he is still very interested, only to make more vigorous publicity. The result is that there is no interest in the price...

However, he is a businessman, he will not turn his face, immediately piled up a smile, followed, and then told Shen Lang about other items.

In the exhibition room on the third floor, there are indeed some relatively advanced medicinal materials. The price is basically above the five hundred fine stones. Many of them are over a thousand. Of course, the most expensive one is the 10,000-year-old jade emperor. .

In the direction of their operation, it should be based on the first floor, and the second floor is a small customer with small profits but quick turnover. The third floor is famous, indicating that they have expensive things, as long as you can afford the price.

These things are definitely not worth the price, they don't expect this to sell much, they have to pay more to buy.

Of course, this can't be said that one can be one, but one "one penny, one for three yuan." This is also adapted in the modern society of the earth .

Two thousand mobile phones are bound to be stronger than a thousand mobile phones, and four thousand are stronger than two thousand. But more than 10,000 special mobile phones will be twice as powerful as the four or five thousand flagships? No, but not sensitive to price, don't mind paying for the extra advantage.

Luo Fatzi has been so enthusiastic, Shen Lang will not give a face, so he bought a few thousand Lingshi items. Although it is not urgent, it is better to buy it first, but it is better than selling it before.

But the rest of the more than 90,000, he decided to keep tomorrow's auction, and a large auction after ten days.

"Master Shen, this... Jade Emperor Ling Dan is still?" Luo Fatzi personally sent it to Shen Lang's hand, and he couldn't help but ask again when deducting money.

"It's too expensive. It may not be useful to me, or leave it to someone who has a chance." Shen Lang smiled and waved.

Luo Fatzi actually understood it, and the focus was "too expensive." "I think you are a good person. That's it! You say a price."

Shen Lang can also see that the value of this thing is definitely true. Luo fat can not take the reputation of people, the key is the price issue. This is not a single one, but it is not a natural resource that is everywhere in the Golden Mile. The high price is the willingness to fight.

“That’s 10,000.”

“Ah?” Luo fat is a bit strange, his offer price is 10,000, is it that the beginning of Shen Lang just heard the mistake?

“Add 10,000 together.”

Shen Lang added one sentence. I just bought a few thousand, plus the number of additions of two thousand, together with 10,000, is actually equal to the jade emperor virtual Dan cut a half price.

After listening to Luo Fatzi, he immediately counted the account and his face was a bitter smile.

Chapter 1195 - Luo Fatzi’s deep meaning

Look at him like this, Shen Lang smiled and said: “Just kidding, joking, in fact, I can not bear this. It is still a town store!”

Luo Fatzi, who was originally entangled, looked at Shen Lang’s resignation and said quickly: “But! Just press the price you said!”

He took the smashing of Yulang, and said how to use it. He changed the number inside to 90,000, and then both sides verified and confirmed it, and then gave it to Shen Lang.

“This jade emperor is imaginary, I can only say that it is true, and the effect is very good. Your price is definitely earned. If I can afford it, I will definitely buy it.”

Shen Lang took over and gave a nod to the perfunctory smile.

If it is not just getting rich, how can he buy this thing! How can merchants say that they have made a big profit? Bargaining merchants often say that they are selling at a loss.

“I am not kidding!”

Luo Fatzi is serious: “Shen Xiaoyou, if you take it yourself later, you will know that I have not lied to you, or even exaggerated. I emphasize that I am afraid that you feel indifferent and give away!”

Shen Lang came to the interest: “How can you be so sure? After all, from this appearance, it has not been opened, and if it is a single one, it should not have been seen who took it.”

Luo Fatzi smiled faintly: “Now it is a single one, it does not mean that it has always been a single one. I will not say more specifically, you will thank me later!”

“Thank you. Thank you, Mr. Luo for his enthusiasm.” Shen Lang generously thank you now.

Luo Fatzi did not pay attention to it. Obviously, the present is only a routine guest, not a sincere thank.

“You must think that I am a profiteer, or why I recommend you the most expensive, and I have accepted the price of thousands of dollars, and I have definitely opened a very high price. What I want to say is, no!”

Luo Fatzi said very seriously: “Let’s say it! I hope that after you get the jade emperor, you will find a place to hide as soon as possible, and retreat yourself into a big fairy!”

Shen Lang smiled and sighed: “General Manager Luo, you have too much confidence in me? Even if there is a jade emperor, you think I can quickly cultivate into a fairy?”

“There is always a lot of opportunity. This is not a suggestion, but a warning.”

Seeing that he has been very serious, Shen Lang also put away a smile.

“What do you mean, Zhou Wei of Chaotianmen will find me to take revenge?” Shen Lang’s tone is plain: “If he wants to come, let them come!”

Luo fat man stared at him for a while, then sighed.

“Shen Lang, you don’t want to say your origins, but you can have such achievements, and there are so many followers, there must be a lot of things. So, don’t be afraid to tell you the truth, I don’t want to be hurt!”

There are no other people here. Shen Lang’s strength is not under him, so Luo Fatzi tells the truth and does not feel lost face.

“Before I wanted to persuade, but also because I didn’t want to be hurt. You and I, I don’t want to offend and be tired. I am just a businessman, we are a drugstore.”

“Speak a little, you are still too young! You know Zhou Wei, Zhou Wei’s strength, you may also have the confidence to match, so do not mind. But Chaotianmen is a special martial art, their heads are all Zhou Hereditary, Zhou Wei’s father... Zhou Yucun, the former generation’s head, is still alive!”

“To do this, I believe that Xiaoyou must understand people. I don’t need to say more about it. You are so young, I don’t want you to have an accident. I don’t want to be hurt because of your accident, but also hope to make friendship. You will be ours for the next 100 years. Guests.”

The merchants here, making friends, are looking for a century-old future. I have to say that this is still very different.

The other information he revealed makes Shen Lang ponder.

Zhou Shaojun is now the equivalent of the peak of the realm of the gods, and in the next few decades, it will certainly be able to break through to the semi-fair realm. His father Zhou Wei, now should be half a fairy level.

In the Golden Valley, in the meditation area, Shen Lang has killed four and a half cents, of course, will not be on the mind. Besides, the world is so big, it takes a long time to send the news one after the other. When the time comes, Zhou Wei comes to look for it, maybe they have already returned to Earth.

But when I heard that Zhou Yu's father Zhou Yucun was still alive, it would be different.

According to Moran's memory, Zhou Wei is the same generation as theirs, and their age and level are almost the same. Zhou Yucun is a generation higher than them, and his age and cultivation are both stronger.

Moran, they only have a general understanding of Chaotianmen, so Zhou Yucun retired from the position of the head, and Zhou Hao took over the Chaotianmen. This is what they all know. But Zhou Yucun is still alive, he has no concern at all.

Just Luo Fatzi's words gave Shen Lang a confirmation message.

Think about it, it is completely reasonable. In the semi-sexual situation, Shouyuan has already increased greatly. In addition, the resources here are far better than the earth. There are a lot of spiritual medicines to keep going, and renewal is a common thing.

As long as the qualifications are enough, it will not be a magical thing to use a lot of resources and time to become a big fairy. As a big fairy, Shouyuan will increase.

The outside world will have the illusion of death, just because it is a long time, just like Mo Feiliu.

The general thing is definitely to deal with the contemporary head Zhou Wei. But now not only kills six disciples of Chaotianmen, but also the grandson of the Zhou family – the name of the lesser head means that no matter how many sons Zhou Wei has, they have already been hand-picked and Train him to be the successor to the future.

Luo Fatzi just revealed it here, but there should be more unspoken words. After all, he is doing business, well-informed, but also look at the wind, and now will reveal to Shen Lang, it is very good.

Now that Zhou Shaojun is still not dead, he is still waiting to die in the ring. If they have any secrets, they can pass on the message of burning life. Or if a passerby collects money to pass on information for him, then the Tianmen will know faster.

If Zhouyu Village of Daxian level is coming over, it will definitely be faster!

Shen Lang thought of this, the right color of the boxing ceremony.

“Thank you, Mr. Luo, since you are doing it for me, then I still have to make up this Lingshi...”

Luo fat man patted his shoulder and stopped him from talking.

“Little brother, you will come to our store today, you will meet Zhou Shaojun here, and this step is now. It can be said that it is also a method of marriage. If you go to another store, you may not have this. “”

“So, whether it is more than two thousand Lingshi before, or my enthusiasm and initiative to introduce Jade Emperor Ling Dan to you, including the ability to promise this price now, including our meaning of compensation. And just just me Say, I hope that you can be healthy, and everyone will be able to do business for a long time.”

Luo Fatzi smiled and expressed his attitude. He is a bit gratified now. At the very least, a good intention has reached the goal of charity, rather than being treated as a profiteer.

“Hey?...The name of Shen Lang, I seem to have heard of it. There are too many people coming and going here, but I must have heard of it...”

Chapter 1196 - Avoiding it?

Shen Lang just smiled and didn't say much.

After all, his reputation on this side is that Qiulin Jianzong intends to release it. It's okay for someone else to brag about it, and it's not good to brag about it.

Before I went from Lu Feng to Mu Tianhai and then to Ji Qian, they could quickly think of Shen Lang. This fat man who is doing business has not talked about it for so long.

In fact, it is normal, as he said, there are too many people coming and going!

Because of the vast and sparse relationship, many sects are on their own sites all the year round. Generally, there will not be many big new things. When there are clouds and

friends passing by, they will spread some important things in the field, and there is generally a lag. Sex.

Luo Fatzi is different. This is Tiandu City. It is the city with the largest population mobility and the business capital that has gathered everywhere. So no matter what the gossip news, it is always the fastest and the most.

When there are frequent gossips from all over the world, the natural update is very fast. They are in the center of the capital and the area with the most passengers. Luo Fatzi heard the gossip of Shen Lang, naturally the earliest wave of six months ago.

As they listened to more guests bragging, naturally they are not so keen on these news. For a time, they would never have thought that this was the protagonist of a gossip six months ago.

In addition, there is a very important point, that is, the current Shen Lang, and the rumored Shen Lang, there is already a big difference!

The legendary Shen Lang, although a genius boy, can open a forum in the group at a young age, but it is said that there are three or two friends. After the trouble in Tangcheng, the last thing was to get the photos of Qiu Lin Jianzong.

But now the Shen Lang he saw is a semi-celestial master who is not inferior to him. And just in the ring, the following dozens of obedient followers leap out. What a style!

Among the associations of Luo Fatzi, they are all young talents who search for the big family and the big door. Where would they think that is the deep wave.

After the transaction was completed, he promoted the purpose of Yuhuangling Virtual Dan, and also explained to Shen Lang, then there is no need for everyone to continue in this exhibition room.

Come back to his room to drink tea, and then wait until Joey is coming back.

It can be seen that all three faces are full of excitement, and the price of selling has exceeded their expectations.

Luo Fatzi gave Shen Lang a face, and there was no such thing as a thin one. They took them to the exhibition room on the third floor and asked them to look at these higher-grade herbs.

The three people of Qiao Yuxian originally sold the medicinal materials harvested this month, and they got a lot of Lingshi. They all floated, and felt that the hard work of the previous month was worth it. But after reading the price of the third floor, it was immediately poured by cold water and restored to reason.

They are still very poor compared to the consumption here!

However, they also gave them a lot of motivation. There are still many good things that they have not seen or heard. If you have enough property, you can buy them and help yourself. It is not impossible to go further!

After they came back, Shen Lang gave a speech and took them away.

“Shen brother, have you seen the price there? It’s so expensive! We have sold more than a thousand of the finest stones, which is far more than the resources accumulated by our family.”

“But these good things on the third floor, we can afford a maximum of one or two!”

After they came out, they couldn’t help but smile and vomit.

More than a thousand of the finest stones are really exciting for them. It is a huge fortune. It can be brought back for hundreds of years without worry.

However, the gap created by the comparison is still a bit of a concern.

Shen Lang smiled and said: “It’s normal, the world... We understand it according to the heavens. The gods in heaven are sure that the expenses are bigger than our earth!”

“Ha ha ha, it makes sense!”

Shen Lang said that it was really sentimental, but when they heard it, they felt that Shen Lang was also after seeing it, and felt that the price was too high.

After all, the price of 100,000 fine stone, they do not know.

However, through their speech, Shen Lang also learned. Luo Fatzi also opened a joint trade association for him as a big customer. Their relationship may not be too big, it is a spiritual stone.

In this regard, they are also very satisfied, because in addition to the exchange of a part of the fine stone, the firm also asked them what they mean, most of them are exchanged Yuan Lingshi.

This thing is good, Shen Lang's extortion in Weixianmen against Weiqingcheng, everyone heard it, just a few. Now they can have it, which has made them very excited.

Moreover, there are very few high-grade Lingshi on the earth. Yuan Lingshi basically has not heard of it. The value of bringing back is even worse than that of the fine stone. It is something that can really be a family treasure.

After hitting Shen Lang before, there is no chance to talk more. When I came back from the ring, I came directly to the business and it was not convenient.

Now they have the opportunity to carefully understand the next two or three things. After listening to the long story of Shen Lang, they are all a bit angry. This Zhou Shaojun is too overbearing, what is the counter, is the arrangement of the firm, what should be found in the business. And actually killing people directly, Shen Lang revenge is entirely appropriate.

After their time in the business, the previous collapse has spread more comprehensively. When Shen Lang went back on their way, many people were far away from watching and pointing.

If this is in the modern world, Shen Lang estimates that many people are cautiously taking photos and making videos.

He also didn't care much about it calmly walked back to the inn.

Of course, the news was also passed to the inn. Many of the guests in the lobby were excited about it. Suddenly they saw Shen Lang coming back, and they didn't dare to speak. The fear of disrespectful words annoyed him.

Waiting for the three people to go back to the room, they dare to lower the voice discussion.

The inn knows that the man who used to scream in Tiandu City today actually lives in their inn!

For a time, they were all busy, and they quickly thought about countermeasures. They must not let the people not believe that they had offended him. And for them a group of people, all aspects must be the best.

These sinking waves don't know, he is still thinking about Zhou Yucun.

If a big singer is coming over, it may not be able to stand up with his current ability. Although there are many monks in the earth, they can still rely on many people to deal with half a fairy. For Daxian, there is no chance at all, dozens, hundreds of cannon fodder!

This made him decide to change his mind. He had been here for half a month. Now it seems that the next auction will not have to wait any longer. After attending the auction tomorrow, whether it is harvested or not, he will leave immediately!

Avoid it!

There is a gap in the strength of everyone, and avoiding the big fairy is not a shameful thing.

The world is big and big, as long as they leave Tiandu City, Zhou Yucun is much less likely to find them. As long as they have a little more time, they will be fine if they go back to Earth.

Others should have no opinion. They must have gone out today. They have also seen the consumer price here. The auction will be shocked tomorrow. I will definitely think about it or let it go...

Just as Shen Lang thought about things, there was a noise outside. There is a earth monk who is crying: "Shen Lang? Come out!"

Chapter 1197 - Kick the secret

Hearing the sound outside, Shen Lang was a little surprised.

Although he is not too familiar, and does not recognize who is the voice, but can be sure that it is the monk of the earth, but also the Chinese compatriots.

Except for Qiao Yuxian, a few of them are familiar and called him "Shen Brother", and everyone else is respected and called him "Shen Master."

Now this person directly calls him "Shen Lang", and let him go out, the tone is not so respectful.

This makes Shen Lang a bit puzzled.

They respect and disrespect him, he will not value it. But how to count, he is not sorry for everyone, but also has a lot of gains. The sudden change of attitude of this person is sure to be something.

"Glu Ting! Lao Ge! What is your name? What happened?" Qiao Yuxian has already gone out.

His voice was pressed, and the name of the person should be the name of the person. After the person was stopped, he was whispered to remind him of his attitude.

That Gelu Pavilion, but did not press the voice, attitude is still a little proud.

"Qiao Yuxian, Shen Lang? I have something to discuss with him!"

"Are you okay?" Qiao Xiaoxian was a bit surprised.

If Ge Luting is a careless person, then after he has stopped drinking, he should calm down. It is still this attitude, although it does not fall to the extent of the face, but it is a bit disrespectful to Shen Lang.

“Come in and talk! Don’t tell people to laugh.”

Shen Lang said a faint sentence. A few of them heard it and hurried over.

In addition to Qiao Yuxian, Nanliuchuan and Liu Yuchang, there is also an old man.

This is also a bit familiar, everyone is a team. However, Shen Lang and he did not have much contact with each other and were not familiar with it.

“Shen brother, this is the master of Ge Luting of Luofu Danzong. He seems to be in a hurry to discuss with you.”

Qiao Yuxian immediately introduced the origin of this person, so that Shen Lang does not know, and he is also rushing to say that there is an urgent matter, so as not to sink into the waves.

“Look! Master Shen! I don’t have any impression of the unknown soldier like us, but we have to be respectful!”

Ge Luting’s words were full of irony, and all three of them frowned.

But because it is not a familiar friend with Ge Luting, I don’t know what happened to him. I don’t know how to persuade.

Shen Lang looked at this Ge Luting’s appearance as a little villain, and couldn’t help but laugh.

“How? Look at your meaning, I have always been dissatisfied with me, but there is no way, I have to succumb to me, so a respectful look. Now, is to find a new backing, to show me?”

When Shen Lang's words came out, I was a little surprised by the three of them.

Everyone is not familiar with this side, this city is the first time this city. Only Shen Lang has just been a famous earthquake in the city, where does Ge Luting find what is the backing?

Ge Luting was a little surprised.

The reason why he came in with arrogant attitude is to make everyone stunned, that is, to let everyone persuade him to respect the Shen Lang, to see the waves are not good, this time before the power.

Now Shen Lang directly said it, as if he had seen his tricks, let him feel a little punched.

"You, you... nonsense! What new backing, are you our backing?"

"Let's say! Want to come to me and play with the prestige?" Shen Lang smiled and shook his head: "A younger age, like a child."

When I said this, let Joe marry them a few, and I feel a little funny.

Ge Luting's face turned red.

In fact, he did not have any personal complaints about Shen Lang. Just before he came, everyone was asking for the waves and making gifts again and again. When I arrived, I was the leader, and the result became the leader of everyone.

A young man in his twenties is the leader of everyone, but there is nothing. After all, save everyone. But what are you doing when the Golden Dragonfly beasts are surging? You just saved yourself, others don't care!

It's always a little bit of accumulation. I feel that Shen Lang has not taken care of them. I have encountered dangers, have not harvested them, and I don't want to blame them. I think that this leader should help everyone more.

Now, he finally has the opportunity to raise his eyebrows. He wants to come over to Shen Lang in the first time.

Just said by Shen Lang, he also felt a little childish.

However, this is the end of the matter, he can only support it, do you apologize to leave? That is not white!

“You don’t deserve to be the leader of everyone!”

“Glu Ting, what do you say!” When he said this, Joe and his three people whispered and asked.

Ge Luting sneered, and then placed a soundproof cover.

“You have all been deceived by him! He has already known everything about this place, but he has not told us the truth. Blocking the news is to use information asymmetry to let you know him! At the critical time, you, us. Everyone is his cannon fodder!”

“Well, how can I fool you?” Shen Lang said faintly.

Ge Luting proudly said: “I know it!”

“What do you know?” Nanliuchuan said with no anger.

“A few hundred years ago, the group of self-cultivators who entered the sea without jail did not go back. They came to this world! This is our legendary fairyland. These predecessors have come here. and re-create the glory! Now many of the sects here are created by our predecessors!”

When Ge Luting was talking, it was a little excited, not only because of the opportunity to smash the waves, but also because of the big secret!

Qiao Yuxian three of them, they were very helpless, I don't know what Gelu Pavilion is doing, and now I'm surprised to hear this news.

"Hey, your sinking brother, didn't tell you this news? Because I told you, you can't be so respectful, but you will find the ancestors of your family!"

Ge Luting mocked the three of them, and then looked at Shen Lang proudly, and kicked the ugly face of Shen Lang.

"What are you talking about? Where did you hear such madness?" Nan Liuchuan replied again.

Although they are still skeptical, the news has already made them very shocked.

Nantian family, Beihai Qiaojia and Yumo Liujia are all rich millennial families. The expedition hundreds of years ago, they also have ancestors. So, let's make them think about it.

If the ancestors of the family really created a new foundation in this world, these centuries must have developed very well. If you can recognize each other, then the ending is very beautiful.

"Insane? Why do you forget the people here are amazed at the reputation of Shen Lang? I thought it was his last name! It is because a big door here Qiu Lin Jianzong gave him a momentum! Why did Qiu Lin Jianzong help him? Because of autumn The founder of Lin Jianzong is Gao Hanqiu and Lin Biaozhi! Has Gao Hanqiu heard of it? The Tianshan Jianzong was the ancestor of ZTE hundreds of years ago!"

Ge Luting continued to expose.

Chapter 1198 - Questioning conspiracy?

At the time of Yuxianmen, Wei Qingcheng was surprised by the identity of Shen Lang. Later, Mu Tian was also a sea, but they all thought it was the reputation created by Shen Lang for two months.

Although it is difficult to understand, Shen Lang has always been a miracle. Now I listened to the sum of Ge Luting, but it seems that it is reasonable.

And when I heard this, they could hardly think that Ge Luting was a mad talker, and Qiu Lin Jianzong and Gao Hanqiu said it.

When Shen Lang heard his exposure, it was a bit strange. How did Ge Luting know so much?

Now, when I hear this, I can basically confirm that Ge Luting should really know the local people and enter the deep communication to get this information.

“So, you met your ancestors in Tiandu City? Luofu Danzong, what a big man has appeared in a few hundred years, there seems to be no Luofu Danzong here.” Shen Lang’s words, let Qiao Yuxian they can not understand, I do not know this is confirmed The words of Ge Luting, still follow his words.

The three of them looked at each other slightly, and did not drink Graubing to maintain the waves, but to wait and see.

Ge Luting did not be questioned by the tension, but instead showed a proud look.

“You know a little bit of information, it’s secret. I won’t be like you, so listen, I tell a message you don’t know yet! Except for the massive non-return of the sea, hundreds of years ago, one Thousands of years ago, two thousand years ago, there have always been the gods of the immortals, and the robbing and flying to the world!”

This made Joe a few of them, and even more incredible.

Shen Lang’s eyebrows are moving. This information is also known to him, but it is still confirmed today from the Jade Emperor. Ge Luting will suddenly know this, only the insider told him.

He recalled Luofu Danzong. Although he did not know very well, he was not very famous. However, according to his name, he should be from the southern Luofu Mountain and be famous for alchemy.

The answer is ready to go!

One thousand six hundred and seven hundred years ago, there was a great **** Ge Hong who had a Taoist name, and he lived in Luofu Mountain to cultivate alchemy. Ge Hong is also considered to be the most famous alchemy teacher. He has made great contributions to the immortal system and to the inner Dan.

Luofu Danzong, even if he did not die, Ge Hong's personal creation, should also be his discipleship. It's just because it's biased, and there's no outstanding talent, so it's a bit low-key.

However, the last time they were able to get the opportunity to participate in the non-returned Hell Development Conference, it can be seen that it is still the famous door recognized by the comprehension community, which is higher than the Tianshan Jianzong and the Ice Palace.

If Ge Hong's **** came to this place like the Jade Emperor, and seized the site, a better environment, and a longer life, he decided to pass on his disciples again. After more than a thousand years, it was normal to have a martial art. .

It is really the door of Ge Hong's great god, which will be more clear to the history of the Han Dynasty for more than a thousand years. For the massive migration hundreds of years ago, it is certainly understandable.

However, even if Ge Hong's **** really started a sect on this side and left behind his disciples, how could he recognize Ge Luting? How can it be such a short time to put the world into a secret and a big deal?

“So, although there is no Luofu Danzong in this world – after all, there is no Luofu Mountain here, but there is Bao Puzong founded by our founder!”

Shen Lang immediately thought about it, let alone, in the memory of Moran Li Tianqing, Han Guo really has a Bao Pu Zong, a long-established martial art, and is famous for Dan Dao.

Ge Hongdao holds Baozi. He did not use Luofu Mountain to commemorate here, but he used his own name to create a party.

This is no wonder that he is negligent. Han is so big, so many forces, irrelevant, he will not go back and think. Besides, it is not now that Luofu Danzong associates with Ge Hong, even if he sees Bao Puzong, he will not think that it would be the famous Bao Puzi who was founded in the history of China.

Seeing that Shen Lang did not speak, Ge Luting was already proud of it.

In his view, this is finally a prestige in front of Shen Lang.

It is not necessary to do anything against Shen Lang, or to humiliate, but to expose the Shen Lang and shock him, he has satisfied the complacency.

Qiao Yuxian three of them, listening to the dialogue between the two of them, Ge Luting said that it seems to be justified, although it is the news, but it is never like his temporary compilation. And Shen Lang's attitude seems to be the default.

This made them look at each other three, they are a little helpless.

It is definitely a false statement to say no disappointment. For Shen Lang, they have always played a leading role and acted as a close confidant. Even if others would talk like Ge Luting, they would not change their style. There is a need to force the sinking waves, they are all taking the lead, including just looking for everyone to help out.

It is such a total message, Shen Lang still did not tell them, indicating that they are still like other earth monks, and did not regard them as close confidants.

“Nothing to say?” Ge Luting asked again deliberately.

Shen Lang faintly said: “We have only entered the city for a long time, how can you find out what is so clever and the first time you meet, you say so much to your stranger. The big secret? You said that you should have just caught a local comprehension and haven't heard of it?”

This made the three people of Qiao Yuxian and Nanliuchuan shine.

Yes indeed! How long have you been here, almost settled down and strolled around. Then there is the thing of the Shen Lang duel, which has attracted the attention of many people.

Everyone is not a person in this world. They would have been extra careful, and they dared not to talk more and ask more.

If you go out, you should avoid talking about it. How can you get Ge Luting? Can you tell the thousand years of secrets when you meet?

Even if he really said that the Puzuzi ancestor was a figure of 1,670 years ago, the Emperor Baozong here does not know how many generations have been extended. How could he know and recognize another world? relative?

Two to three generations of urban development, often with the poor relatives in the countryside will not come again, unless the wealthy and expensive clothes return home. Not to mention the more than a thousand years, another world, the Ming Dynasty royals hundreds of years ago, can now recognize each other and come and go?

With such an analysis, everyone feels that Shen Lang is rightly questioned. This is probably a conspiracy!

After all, their team of nearly 100 people has been targeted since the beginning of the city, and it is also possible. And to make up this secret, it should be the set of words of Ge Luting.

“You old boy, will not be designed to be a routine?”

“Is it necessary for others to extract your memory, and then according to your information, then processing and fabricating such a lie to lie to you. Let you come here, is to want to divide us to make trouble?”

“Fart!” was questioned by everyone, and Ge Luting was angry.

Chapter 1199 - Ins and outs

As everyone was questioned by conspiracy, Ge Luting did not put a little bit of force on it, but spoke out his experience in one breath.

He was not so familiar with Shen Lang, and did not live in the same inn like Qiao Yuxian and others. However, the number of roads is the same. After you settle down, you will find the inn of the inn, and then go to the center street.

Ge Luting is from Luofu Danzong, and his interest in medicinal herbs is stronger than others. After all, this is a more advanced world. It is impossible for Dan to get it. But if you buy some advanced ones and bring them back to study slowly, you will certainly have a huge harvest.

With the gap between the two worlds, he estimated that Luo Fudan Zong would be the only one in Dan Dao!

So he didn't go with other people, but went out alone, skipped a lot of business, and went directly to a firm that sells medicinal herbs.

The business that sold the drug was similar, and the FIT was on the first floor. Looking around in a circle, Ge Luting found two problems, one is that he could not afford it!

The other one, let him have a familiar feeling, the efficacy and naming of the medicinal herbs, and the way they are like Luofu Danzong!

At that time, he did not think much, but felt that since it is similar, it means that there is a common place, and it is easier to study it when it is bought back. Therefore, I have to go to the place where I have to recycle, and I have to sell the medicines harvested in the Golden Dragon Valley to buy the medicine.

However, he and Shen Lang are completely empty. There are some herbs that they can use in the alchemy, and the earth is scarce. He keeps a part of it and sells it to him.

Originally, they were far less likely to harvest than Shen Lang, and they still had to retain a portion, and the amount of natural sale was less.

In order to be able to buy as much as possible to buy medicinal herbs, Ge Luting thought of another way, that is, to sell the medicinal herbs of Luofu Danzong that he carried!

Luofu Danzong is the alchemy sect. The medicinal herbs are their strengths and the greatest resources. Many of the medicinal herbs prepared by Ge Luting can be taken by themselves and exchanged with other people at critical times.

On the quality, may not be able to compare with the medicinal herbs here, but maybe it will also be purchased as a low-end medicinal drug, he can only change the quality.

The result was to see a lot of medicinal herbs he had taken out. The drug line said it was a big customer and led him to the upstairs.

Ge Luting was flattered at the time and was thinking about selling a big sum of money and thinking about which high-quality drugs to buy back to study.

As a result, the drug dealer came to the highest person in charge to talk to him. Without waiting for him to play, he encountered a plate of ice water!

The general manager's eyes questioned the origins of these medicinal herbs!

Ge Luting did not know why, but he could only say that he had made it himself.

The result is regarded as a thief by the other party, and it is a counterfeit imitation of their remedy! Counterfeit goods, but also dare to sell on the authentic shop, it is really looking for death!

The strength of the other side is far better than Ge Luting, but it is intimidating and intimidating. He really scared him. He quickly explained that this is the Danfang that they have been circulating for more than a thousand years. There is absolutely no imitation.

When the general manager saw that he had a nose and an eye, he took his medicinal herbs, asked him about his formula, and various techniques for alchemy.

Others are more advanced here, and Ge Luting does not feel that he will steal him. In order to prove innocence, he also answered the question one by one.

The general manager finally confirmed it, saying that it is indeed similar to their Dan, but there are many differences between the recipe and the refining method. In short, it is much worse than them.

Besides, from the common sense, they have copied their medicinal herbs. There is no need to sell them at home. In other shops, other places, low-key sales are the right way.

Therefore, under the doubts, continue to ask the situation of Luofu Danzong.

In order to save his life, Ge Luting certainly does not dare to hide. It is said that their founding father is Bao Pu Ge Hong, all Dan Fang are handed down by Master Ge Hong.

Although it has been more than a thousand years, but there is no such outstanding figure as the ancestors, and naturally no one dares to modify the formula of the ancestors, so until now, there is no pure recipe for loss.

Instead of giving the pot to the ancestors, he used more than a thousand years of history to explain the refining methods of these medicinal herbs. "It has been Luofu Danzong since ancient times. There is no stealing, not even imitation." Counterfeit goods.

After listening to the general manager, he was severely severed. He said that Ge Luting described it as not the grandfather of Luofu Danzong, but the ancestors of Bao Zong's ancestors, Bao Pu Ge Hong!

Although this is a history of more than a thousand years, it is not a secret. Just inquire about it. Ge Luting's move was even considered a counterfeit by him.

For the scream of Ge Luting, the general manager chose to read his memory, which is impossible to lie.

This is because the unwillingness of Ge Luting is not willing. In the face of a strong man in the semi-fair realm, he has no room for resistance, and he is quickly extracted from memory.

After the general manager digested his memory, he confirmed that it was not just the information of Luofu Danzong but knew the secret of the earth!

The next questioning is more like an explanation of the incomprehensible content in his memory, so that the general manager of Bao Puzong is completely clear.

It is because of such a big secret that they have not gone out at all, and they do not know the downfall of Shen Lang.

Then he also said to Ge Luting, Bao Puzong has also been circulated throughout the ages, saying that the grandfather of the ancestors was from another world, and opened here. I haven't thought much about the past, but I feel that my grandfather is great.

It's been a long time, and it's not a serious matter. Hundreds of years ago, many foreign powers who did not know where they came from set off in the Han Dynasty for decades.

After the dust settled, many of the hidden history was hidden, and the beautification was also beautified. However, Bao Puzong, who has not been affected, has comprehensively understood all aspects of information.

They also confirmed one thing – this group of people came from another world, it is the ancestral land of Han!

Not only Bao Puzong, but also many martial art and family in Han Dynasty, have been relocating for thousands of years. It gradually formed the Han Dynasty, as well as the commemorative features such as Tangcheng and Tiandu.

It's just because of the age, everyone has no feeling about the origin, and the direction of development is strong in this world and beyond Xinjiang.

After Qiu Lin Jianzong and other stable footholds, it is also the historical origin of the martial art that made up a high-level affair, trying to eliminate the historical influence of the outsiders – the invaders.

So in these hundreds of years, generations have been more forgotten. There are also some sects and families with a long history and a more conservative style. I also know that there is such a secret of origin.

For the place where the ancestors and ancestors came, everyone called it – the ancestral land!

Chapter 1200 - Homeland

The sect of the conservative style like Bao Puzong is actually a fantasy of the “grandfather” for thousands of years.

Because the ones who came here are the ancestors of the founding sects, all of them are great gods, and it is certainly unusual to be able to produce so many ancestral gods.

Just as we would have felt great about the pre-Qin era of the philosophers, but if we really want to go to that era, it must be inferior to modern convenience in all aspects.

Originally, this was just an ancient legend. I didn’t expect to meet people from my ancestral land today, and I was the same as my own ancestor. The general manager of Bao Puzong was immediately excited.

Because he had already read the memory of Ge Luting, the incomprehensible inquiry was clear, so in the process, he also completed the Graubings.

For example, the awe-inspiring leader Shen Lang, but first came, got the momentum of Qiu Lin Jianzong. The combination of the two sides of the information, it is concluded that Qiu Lin Jian Zongzu master Gao Hanqiu, is also the founder of the Tianshan Jianzong.

The result is self-evident, Qiu Lin Jianzong protects Shen Lang and creates momentum for him because they recognize each other. The leaps and bounds behind Shen Lang should also be the gift of Qiu Lin Jianzong.

For the general manager of Bao Puzong, the “zu” of Ge Luting’s memory – the world called the earth, is far worse than imagined. But he did not feel disappointed!

From the perspective of information, now knowing these is the Qiulin sword, and Bao Puzong knows the news and has value.

From another perspective, advanced is what people yearn for and learn, and backward means better control!

If Bao Puzong can control the entire world of his ancestral land, it is undoubtedly a huge treasure!

Just like the modern earth's competition for the African continent, poverty and backwardness are not problems. Territory, mineral deposits, and population are all resources. In order to seize resources, they can give loans and assistance to them free of charge.

If Bao Puzong has opened up the earth world, it is a big market to sell medicinal herbs. Earth is now resource-poor, maybe it is not the technology of development?

Besides, there are billions of people in the world of light, which is an astronomical figure that is hard to imagine in the whole of China. These mortals use it well and will be a great resource.

He wants to get this, first of all, he must support Glouting!

Let Ge Luting become the new leader, all the people coming from the whole earth can be controlled, or at least can be guided for their own use. The next step is the development of this earth ancestral land!

Therefore, he tore the "mysterious aura" of Shen Lang, let Ge Luting understand that Shen Lang relied on what is today, and with the support of Bao Puzong, such achievements, he is just around the corner.

Then Ge Luting, who was tempted, came here to provoke the waves.

Knocking on these news, let Shen Lang shy away, his purpose has been reached. If Shen Lang is in the process of leaving, what is "accidental", it is more perfect.

Of course, when Ge Luting said the cause and effect, some of his own disadvantages were skipped, as long as there is no mistake or error.

Bao Puzong's plan for further development, he may not even think about it, or he does not want to think more.

In his view, Shen Lang was able to find the back of the same family here, so they opened them far away in a year. So by analogy, as long as he also gets the photo of Bao Puzong, it will certainly be able to make rapid progress!

After this ins and outs, after the end of the story, Qiao Yuxian three of them, there is no more excuses. Even if there is a conspiracy, this should be the truth of the truth.

Ge Luting also calmed down.

“Shen Lang, you admit that you don’t admit it, it doesn’t matter. This is the truth! I am not going to target you. I am like everyone, I am very respectful of you. You saved our lives several times and took everyone to you.” Here, this is where we thank you.”

“But this secret is also related to everyone’s future! You also said that the door to the space of no return to **** is probably only more than two years. Why don’t you tell us the secret at this time?”

“Let us know the secret, we look for the same family, it will not affect you at all. You don’t even need to take care of you, you are less so tired. But you are too selfish! You need us to be yours.” Followers, let everyone ask you and lean on you. This makes me very disappointed!”

“Bao Puzong has a drugstore here. I will enter their business. It seems to be a coincidence, but there is also a connection in the dark. If not, all of us may be harmed by you! Shen – Grandmaster!”

His seemingly bitter words also made Joe a certain degree of mutual sympathy.

Everyone is grateful and respectful, but it is a matter of the future!

Now that I know this news, they still have two years. Even if there is no such thing as Geluoting’s unexpected success, even their ancestors may not have progeny here, but there is still a hope.

If you don’t know the news at all, you can only take it with you and take it back.

“Three brothers, look!”

Ge Luting placed a pile of Yuanling Stone in front of the table .

“We have been working hard in Jinku Valley for a month, and how many Lingshi can be sold by those medicines. I believe that you are very clear, even if you have more harvests than me, there is not much more. This is the brother of Bao Puzong. Part of the gift, enough for us to fight for half a year?”

“You think about it again, although this month is not as big as the previous death and injury, but it is almost finished. According to that chance, half of my chances will be true, but that is all. You still have to defend him and yell at me?”

The three people of Qiao Yuxian are speechless.

Ge Luting said so much, Shen Lang is also digested. From his remarks, he associates with the intention that Bao Puzong did not expressly say that they must be guilty of the earth's world.

However, this is the end of the matter, and Qiao Yuxian's mind has also moved, but it is just because the relationship is not good.

“Qiao brother, Nan Xiong, Liu Xiong, Master Ge said, it is true.”

In the words of Shen Lang, the three of them could not help but sigh and avoid the gaze of Shen Lang.

“Qiu Lin Jianzong is indeed the establishment of Gao Hanqiu and Lin Biao. Perhaps there are other people who have also established martial art here.”

Shen Lang did not have any embarrassment: “I also said that it is not good to listen to the front. This time it was the West who invited me to lead the way. You later added it. I have nothing to do with them. I can't give this information. of.”

A few of them have a glimmer of light. After all, they still don't want to use them. They are more willing to believe that Shenlang has a hard time. Perhaps it is because there are more than half Western monks, so it is not convenient.

"Know that you are profitable, don't you give it to you, you can offer it!" Ge Luting couldn't help but squirt.

"The offer can't be given to you!"
