

First Strong 1231

Chapter 1231 - Goodbye

Luo Fatzi quickly helped Shen Lang get it.

The vultures they bought and upgraded are all valuable medicinal herbs, all sold in a unified manner, and also sold a lot of Lingshi, plus the more than 10,000 of the finest stones, and the remaining in the jade. All, a total of 50,000.

The one that was given to Shen Lang was a five hundred yuan Lingshi. It was able to get so many Yuan Lingshi at a time. It also shows that Luo Fatzi's business is indeed rich and rich.

“Master Shen, is this... ready to leave the day?”

After two conversations, it was also helpful to help Shen Lang, so that everyone's relationship is closer than other people, Luo Fatzi also tried to ask.

This sign is already obvious. Although the Han Dynasty can be used in general, if you want to hide and practice, it is of course more realistic. The Shenlang will be converted into Yuanling Stone, which is more like running.

Shen Lang nodded and smiled: “Do you not recommend me to go?”

Luo Fatzi smiled a bit: “Of course I only suggest that it will not interfere with your decision. But from my point of view, I should have left. After all... there will be many more variables in one day.”

He did not say more straightforward, but the meaning is already obvious.

“I am leaving, and may not come back. You have no return on your help to me. Is it not lost?” Shen Lang smiled and asked.

Luo Fatzi laughed: “Since I am making friends with Master Shen, of course, I will look at the long-term. If I don’t bend, the future will be difficult to say. I can grow up to be a towering giant. I am optimistic that one day the king will return!”

Shen Lang smiled and said, “Take your words.”

Of course, the words of the businessman can only be heard. For businessmen, there are no friends forever, only forever.

When Shen Lang came last time, he directly gave him commercial profits. The total price of 100,000 yuan, one or two percent of the benefits, is one or two thousand. With dozens of people behind, he even saw the commercial potential.

In comparison, this time Zhou Shaojun has nothing to consume, of course, he will tend to sink.

But this is nothing but private. Before the collapse, did he openly persuade Zhou Shaojun? When he came over at Chaotianmen, he could be the one who stood there.

“From the perspective of hospitality, I should be passionate about retaining you. But in the past few days, the days have been broken, and Master Shen has left soon. I will not retain more.” Luo Fatzi is the color.

Shen Lang nodded and said that he had a deep look at Luo Fatzi.

Last time, Luo Fatzi was close to the relationship. This time it was a “master” and more a bit of courtesy and respect. This should not only be because I know the identity of “Shen Lang”, but it may be through the chaos of these days!

Every day is so big, there must be all kinds of friction on weekdays. But like these days, Zhou Shaojun and others, who were first in Chaotianmen, and then Bao Puzong were detained. The matter of Mutian Songtao last night may have spread.

These are big movements, others may not associate these with Shen Lang, but this Luo fat child is not sure.

There are no channels for Shen Lang, and there is no way to understand the movements of the outside world. Many of them are the feelings they see when they eat and walk, and the story of Ji Qiandao yesterday.

Luo Fatzi and other local forces, there must be more detailed information, including the information of the Earth's heroes that Shen Lang has not paid attention to.

Now Luo Fatzi is superficially friendly, and of course Shen Lang will not care about it. After a set of guests, he will leave without saying goodbye.

Yesterday, Ji Qiandao was afraid that Shen Lang was not happy, and did not say more about Zhou Shaojun and others. Shen Lang did not know whether their bodies were still in the ring, or someone had cleaned them up.

Or did you save Zhou Shaojun who became a waste person on the same day?

Now I have to leave anyway. After the swells come out, I walked straight to the end of the street and prepared to see what the situation is now.

Everyone on the way was concerned about Shen Lang. He was concerned about his walking. People who were idle, followed him far away to see if there was any new excitement.

Waiting all the way to the front of the ring, everyone is a bit speechless. Is this the one who wants to see the body?

Look at a lot of Shen Lang, but there are not many followers, but from the business, they have been moving forward, and they have followed the fun, which in turn has formed a herding effect, so that some did not want to follow. I am thinking about whether something is going to happen, so I have joined it.

The result is from one or two, three or four, and by the end of the street, there are already twenty or thirty.

Twenty or thirty people are not too many, but all of them are followed together, and people who do not understand in the distance think that something has happened.

Ever since, I have seen one or two following the Shenlang and didn't want to be together. Now I look at so many people, and I rushed over, and I don't even know the situation nearby. As Shen Lang walked all the way, more and more people followed, and that must be what happened.

The result is that from the end of the street to the point on the edge of the platform, it immediately became dozens of people, and there are more people to follow. The platform has been cleaned up, there is no body, even the blood is cleaned up.

"That... the body on the stage, some people have cleaned up. After all, it has not been affected for a long time."

"Someone who does this kind of business freezes the unclaimed corpse and freezes it for a long time."

Some passers-by boldly and Shen Lang explained the situation here.

Some people actually do the business of collecting corpses? Shen Lang is also a bit surprised.

Tiandu City is so big, although there may not be people who often go to the stage to fight, but there are also a lot of private grievances. People who come to the north from the south, once they die – such as being killed by vultures, they can't catch up with distant relatives and friends who want to collect their bodies.

Someone freezes them and waits for relatives and friends to claim the fees. It is also a good business.

It's just that this won't be dead every day. No friends or relatives will die, and it's impossible to sell high prices. Can this business really do?

But then again, there is no technical content in the collection of the body, only the need to freeze, to do a hail can be used repeatedly, it can be considered as no business. For ordinary people, it is very cost-effective.

“You are today... is it going to have a duel with people?” Someone dared to ask.

Everyone is paying attention to Shen Lang’s answer. If there is a duel, then everyone will have to grab a good position. If you just look at the traces of that day, there will be no excitement to watch.

Shen Lang has not spoken yet, and there is already a voice to answer.

“He is not going to stage a duel, he is going to die here today!”

This is a direct provocation and offense, so that everyone was taken aback, originally close to Shenlang, have avoided a little distance, watch the excitement can not be smashed and pond fish.

Chapter 1232 - Peak half

Everyone didn’t know where Shen Lang came from, they quickly looked around, and then they were close to Shen Lang, and the instinct flashed aside.

Soon, everyone discovered the source of the sound – on the platform!

When Shen Lang came over, everyone saw that the platform was empty. The previous body was cleaned up, and no one else ran on it.

But after the words were just finished, there are already a few people standing on the stage.

There are some high-level ones that can be better distinguished. When the sound came, it was not in the ring. And it is changing, so everyone doesn’t know where it came from.

In fact, someone should talk when they are moving fast. When they are finished, people are on the ring!

This point is very clear, if someone comes to him, he will naturally be very alert. Even if it is not against him, there is an abnormality around him, and he will be alert as well.

The speed of the other party’s appearance is very fast, almost keeping the speed of sound!

Now looking at the ring, there are two people, two people are staring at the sinking waves, and at the same time, the field has been used, the surrounding areas around the ring and even the neighborhood are controlled!

Half fairy peak!

Seeing the two, Shen Lang has clearly realized the realm of the other side.

Being able to reach the semi-immortal world is almost unparalleled in the contemporary world. In this high-level self-cultivation civilization, there are many more cents, but here is also a high-level comprehension.

Half-small does not have a distinction between the early mid-term, but there is a half-six peak.

The semi-Xianfeng peak is still in the semi-fairy realm. Some people are stuck there and cannot break through to become a big fairy. However, the strength is already far superior to the average half-sex, and it is respected as the half-six peak.

The emperor, the Moron, Li Tianqing, and the vultures that were killed last night were all half-sex. But the two that come now are far more than their semi-Xianfeng peak.

For many who cannot be accurately identified, they may even think that they are Daxian.

Tiandu City Crouching Tiger, Hidden Dragon, there will be half a fairy peak, Shen Lang is not strange. But these two people are obviously directed at him, and it will not be an ordinary person.

At present, the possibility of Mutian Songtao and vultures will be very small, and the greater possibility is Chaotianmen and Baopuzong.

Could it be that Zhou Yucun?

On the third day, they rushed from Chaotianmen and Baopuzong respectively. Is it a magic weapon, or is it a human being?

Shen Lang has already prepared for the perfection, these two are indeed enemies!

The gap between this high level is not a sneak attack or a skill tactic can be solved. He can easily kill more than half of the fairy because he himself is much higher than the other semi-precious worlds, plus the physical strength and magic weapon, so it has a miraculous effect.

But the two now come, but they are much stronger than him.

If you also use the initial, middle, late and peak to subdivide, then Shen Lang's own realm is probably the mid-term level, the comprehensive can play the late level, the enemy he encountered is only the initial level, so you can win.

Now these two, but they are real peaks, if they are not limited by talent and age, in time, it is possible to become a big fairy.

Besides, this time Shen Lang did not expect the enemy to come so fast, but the other party controlled the field once, even if the attack, Shen Lang has no way to attack.

Even if he first controlled the field, the other party could easily reverse his field like he reversed Zhou Shaojun that day.

In the face of two joint forces that are stronger than him, Shen Lang also gave up the luck, but asked calmly.

"how do I say this?"

The people around them felt that the atmosphere was not right, and the field did not limit them, but the kind of solid atmosphere still made them feel as if they could not breathe.

So look at the dozens of lively people, unconsciously slowly back to the back, not afraid to be close to the ring. I am rushing over to see the lively people and seeing that this is not the right situation, and I have not come close.

“Don’t dare to do it? Your bad deeds, do I need to re-list one side?” This voice is the voice that just spoke.

Now I can see that it is a strong man on the left. He looks like a middle-aged scribe, but he can’t be middle-aged.

When he spoke, he pointed his fingers from the stage, and he was not looking at the masses in the back. As long as he was behind the Shenlang, as if the fingers were pointing at them, it seemed that the gods who were above them were blaming.

This allowed them to move back quickly and quickly, and soon formed a large circle of encirclement, almost all relying on the edge. The strangeness here also makes more people run over to see the excitement.

At the end of the Tiandu City Center, this square has once again appeared a big move
What is evil? “Shen Lang is still not humble.”

“I still want to deny it!” Another man who kept his face from the back shouted.

The man on the right, looks like a sixty-seven-year-old, looks like a face from the face, faintly like Zhou Shaojun.

Isn’t Zhou Yucun, just Zhou Wei?

Zhou Yucun, who told Luo Fatzi to swear by warning, is really the realm of Daxian?

“Okay, don’t play riddles. You didn’t do it directly to me. It’s not self-proclaimed, but you want to wait for more people to watch, so let me judge it publicly! Now, let’s talk about it.”

Shen Lang spread his hands and indicated that there were already many onlookers around the square.

Unlike the last time everyone was crowded around the ring, everyone is now on the edge, and the squares around the ring are empty. They pressured everyone to push back a bit. Of course, they didn't want to be onlookers, but they avoided avoiding accidentally hurting more people.

"Everyone!" The black-faced man sighed: "The old man Chaotianmen's contemporary head Zhou Wei, two days ago, the seven inferior people in Tuen Mun, because the skill is not as good as people, on this platform, was killed by this in public! One was slowly tortured to death, but fortunately, the righteous man was killed and saved, and he had to save the waste."

Hearing his own words, Shen Lang confirmed that he was the head of Chaotianmen's contemporary head. He thought that Zhou Wei was also a semi-sacred place. I didn't expect it to be a half-sex. It seems that Zhou Yucun is a big fairy. !

In the latter case, Shen Lang was also known. At the beginning, he let Zhou Shaojun wait for his death, or someone rescued him in the name of the corpse. However, it does not make sense. There is still a life. Perhaps Zhou Hao is slightly pleased, but for Zhou Shaojun, even if he can continue his life, it will become a waste person.

Chapter 1233 - Madden 3 heavy material

"So a bad thief, shouldn't you kill?!"

Zhou Wei is a slap in the face, and he has complained in tears. Moreover, he is very clever, and he is talking about seven disciples. He does not emphasize his son, and he is not good at technology. This can give everyone a vicious impression of indiscriminate killing.

However, most of the people around the scene watched the scene the day before yesterday.

Although it was not as good as people, it was originally a duel between the two sides, and the enemy of the Tianmen Gate was seven enemy ones. And some of them know that it is the Chaotianmen that promotes this duel and let everyone see it.

Things have been fermented for a long time in the sky, and everyone is almost gossip. Basically, I know the antecedents. It is said that because Zhou Shaojun did not want to line up the items for sale, he killed the other four followers in a word, and then called it to the stage.

So for Zhou Shaojun and others, everyone thinks that it is their own death, bullying people kicked the iron plate, others are revenge.

Zhou Wei was just coming over. It was not a local influential person in Tiandu, and there was no home court bonus. Playing this emotional card can't be touched by anyone. This is a loud drink, but no one responds to him.

This made Zhou Hao's old face a bit awkward, but fortunately, the middle-aged scribe next to him, promptly joined the show.

"The kill!"

"This viciousness is far more than this! Just after killing the seven disciples of Chaotianmen, this son also ruined me to hold the Park House, causing several deaths and injuries!"

When he finished, he gave everyone a little bit of digestion time.

"Bao Puzong? Destroyed the park of the house, isn't that mysterious giant?"

"The mysterious giant is also this young man? How is it possible!"

"Is this really done by the same person? It's amazing!"

To really count, the fact that Bao Puzong was attacked, because they don't understand the situation, everyone is worried that it is a random attack of aliens. Everyone has the opportunity to become a target, so the fermentation is bigger than the Chaotianmen.

Then, yesterday, Bao Zong even closed the business, and let everyone guess a lot. I thought about it now when I said it, and I immediately talked about it.

After everyone understood, the middle-aged scribe continued.

"Yes! Everyone saw the mysterious giant who attacked me Bao Puzong. It is this! I am holding the sword of the survival of Park Jong-soo, and personally prove that he is!"

“You may be wondering what kind of grudges he has with us! When you know this, you know why. This is the direct ransom of the 200,000 fine stone of Bao Puzong! The fine medicine of my refining system. It’s looted! There are countless losses!”

“According to our multi-party discussions, this is not a human being. The so-called giants are also not seen by a long distance. In fact, he is an adult-shaped behemoth, a king beast that is mixed into the human world!”

His shots are much more sharp than Zhou Wei. The successive exposures are explosive and directly shocked all the onlookers on the scene.

Wan Jianliu is the general manager of Bao Puzong in Tiandu City. He is still stationed in Tiandu City, and many people still know it. The strength of Wan Jianliu can survive, and everyone believes. Since Wan Jianliu is a testimony, it should not be a fake.

Everyone hasn’t recovered from the shock of Shenlang or the mysterious giant. The back of the 200,000 fine stone, all the medicinal herbs of Bao Puzong ransacked, once again shocked everyone!

Although Tiandu City is generally peaceful, there are still a variety of minor problems, or other places, there will be robbery and the like. But an alchemy-like faction like this is a one-time looting of hundreds of thousands of fine stones, which is really the biggest case in years.

The man was very savvy, and directly doubled the 100,000 that Shen Lang took, and the shocking effect was obvious. (Of course, 200,000 and all the remedies may also be swindled by Wan Jian.)

The scene can be idle for the first time to see the excitement, of course, it will not be a big businessman, not an important person like Ji Qiandao. Whether it is a small trader or a younger one, after all, there are characteristics of insufficient financial resources.

At this time, the value of hundreds of thousands of fine stones is enough to make them very shocking. What a great resource!

If a person robs so much, isn’t it robbing the rich and helping the poor, is there any reason?

Shocking and the effect of hatefulness, it will evoke everyone's emotions.

Waiting for them to break out, the third bomb is coming again!

This is not a human being, nor a giant, but a behemoth that turns into a human being. It is a powerful king beast!

It can be said that the shock effect is stronger than a wave, which is more effective than the previous one.

For a time, everyone was nervous and excited to talk about it.

"I will say it! There is no trace of the whole city search. Where can a giant hide?" It turned out that the adult shape is hidden between us!"

"Hey! Look, he is so young, his strength is already so strong. He used an enemy seven, and easily attacked and killed the Tianmen disciple. How could it be!"

"That is, if it is the human form of the king's fierce beast, it seems to be younger. It is also possible. After all, the beastly beast, the understanding of our human race is still limited."

"You look at his clothes, and his hair! It's different from us This is not a young man's unconventional, exotic clothes, it is clearly the king's beasts do not understand humans!"

"The trough! Do you still remember his dozens of followers? Then listen to the command, act in unison! And the hair of the costume is strange."

"Yes! It seems that those who are not doing well are the beasts of this king and cast them into human beings!"

"So many fierce beasts are mixed in the city, everyone must be careful!"

The surrounding talks are all carried out at the same time. To the level of Shen Lang, they can also absorb these sounds at the same time.

“This is the name of Bao Puzong. How do you call it? There are two rumors, a rumor that pushes me to the entire Tiandu City, even the opposite of all Terran.” Shen Lang smiled lightly.

The middle-aged scribe pointed to Shen Lang: “The enchanting! Hugh and sophistry, I don’t change my name, I don’t change my name, but I don’t want to change my name.”

Weiyangzi?

Shen Lang searched for memories. In Moran’s memory, there seems to be such a person. In the case of Bao Puzong, he is a predecessor. It’s probably Wan Jian’s uncle, but it is also in line with his identity.

“That’s so much, it’s your personal conspiracy rumors! What about the evidence?”

“When you have a mouth, I have robbed you of hundreds of thousands of fine stones, and became the incarnation of the king’s beast. I also said that you have robbed me one million of the finest stones! I also said that you are my son. Anyway, there is no evidence anyway. Right, how do you prove that you are Bao Pudong?”

Shen Lang’s counterattack has made some people think about it. It’s justified. Although the exposure was very explosive, it’s just that there’s nothing in this, but there’s no evidence. Even if he’s not Bao Pu’s son, there’s still no proof. .

Chapter 1234 - Invisible?

“Hey animals! No matter how clever you are, we must have received you today, let you show the original shape!” Zhou angered a sigh.

Weiyangzi also said: “You are optimistic. When we take the shot, we can’t resist this, and we will definitely reveal the original shape. Everyone is prepared to avoid being injured!”

Zhou Wei’s words are only his personal anger, and when he did not say it, he made everyone nervous.

The two super-powerful shots may indeed be able to force the king's fierce beast to the present shape. When the time comes, everyone will watch the lively around, and may have suffered.

However, as they retreat to the edge, more and more people are coming quickly, and they are rushing in the back. It is not bad to be able to hold back without being pushed to the front. It is very difficult to retreat. Unless you fly directly away.

It's a rare excitement to leave everyone. If it is really a king beast, it is really an eye-opener. Most of the kings have never seen the beasts, let alone the adult-like kings.

So even if the risk was told, everyone just kept alert, but still insisted on watching the fun.

Both Weiyangzi and Zhouyi can keep calm, even the extremely angry Zhou Wei, there is no first time to do it, in addition to standing in the matter, in fact, it is because they have secretly shot!

The dual field control is equivalent to a double insurance. Don't say that the realm of Shen Lang is not as high as them. Even with them, it is difficult to break the double field unless Shen Lang is Daxian.

And the two of them, no matter who spoke, the other one kept the absolute vigilance, and did not give Shen Lang any chance of sneak attack.

Now I am not afraid of the rushing waves, and I am not afraid of sneak attacks. Of course, they create momentum.

The words just made, although not for everyone to believe, but most have already believed. After all, everyone is willing to listen to the news of the blast, and for Wei Guangshan, they will doubt that for ugly, they tend to be convinced that they have no wind and no waves.

For Weiyangzi, he has mastered the paradox, and any further moves will be very smooth. It is obvious that Zhou Wei also got his persuasion, suppressing the anger of revenge.

Now that the opportunity has matured, it is time to start their hunting!

The cooperation between the two of them is actually perfect for each. Zhou Wei wants the life of Shen Lang, revenge for his son and other disciples; Wu Yangzi will return to the items of Shen Lang, and further is the memory of Shen Lang!

Therefore, they do not have internal competition at all, but when they reach this realm, even if they are not familiar with it before, it is very easy to cooperate. When the level is up, the tacit understanding can be natural, without a lot of running-in training.

Now two people don't need a word reminder, they are naturally ready to shoot!

"And slow." Shen Lang began to stop: "You have already set me up in the network, not bad for this time, can you ask me two questions?"

"Hey animals! You want to seduce people again!" Zhou Wei directly drank.

"What else do you have to say? Soon we will be able to make you look the way. What do you say is useful? I advise you not to be as funny as a strange hand!" Weiyangzi did not want Shenlang to say so much.

Shen Lang mysterious smile.

"Since you made up the human form of the king's fierce beast, did you make up this plot... Can this king beast be invisible?"

Everyone is listening quietly, including Zhou Wei and Wei Yangzi, both of whom want to hear what he says. Anyway, if there is any disadvantage, they have to get it.

The king's fierce beast... invisible?

Everyone heard this, it is a bit inexplicable, is there a kind of king who has a stealth ability, or is it a king-level beast, can have invisible talent spells?

Wu Weizi and Zhou Wei were immediately aware that something was wrong!

It is impossible for Shen Lang to talk about invisibility for no reason, and it has just been clearly controlled by their field, but they are not in a hurry. Is there any fear?

The two of them immediately reacted, and in addition to the field locked firmly, it was also a strong ban on the waves, and at the same time flew from the stage!

When others look at this posture, they can't help but feel the spirit of it. What is invisible is not invisible. Now it is necessary to see that they are surrendering this suspect is the "king of the king."

Everyone wants to see how Shen Lang will respond. Is it really going to become a giant or a behemoth? Is there really a real body?

The two people in Weiyangzi's attention were concentrated to the highest level, and the attention of others was also at the highest time. Shenlang did not evade and did not counterattack, but suddenly disappeared out of thin air!

Invisible!

The onlookers could not help but scream.

"It's really invisible! Actually there are such spells!"

"Is this the ability of the king to be a beast, or a spell?"

"Oops! I don't know where he is now, if it's invisible, if it's next to us..."

After everyone screamed began to panic.

There is an extremely dangerous person who is suspected to be a beastly animal of the king. So he is surrounded by it, but he can't see it. I don't know where it is. Who can not panic?

Not to mention that these people who are not very strong in watching the lively are the two people, Weiyangzi and Zhouyi, who are also sinking in their hearts.

Just after a moment, it was really amazing to them.

Because they can all be sure to lock the Shen Lang, and did not feel any struggle, the target suddenly disappeared!

If it is really invisible, no matter what way it is done, the hidden is nothing but the “form”. The ontology still exists, physically still in that space.

So normally, even if the waves are invisible, just let them, let everyone not see it, or in the control of their field, they can still know his specific location according to the feedback of the field, and continue control.

The attack that two people have rushed to should also be able to attack the invisible target normally.

But the feeling just given them is that the target suddenly disappeared, not simply invisible, but the real vanity disappeared. Including their attacks, they all fell through.

This is terrible!

Explain that the other party has the strength to break away from the control of their field, and can also move quickly and easily to other places while invisible.

The shape has been hidden, and the control of the field has been lost. It is impossible to know where the target person has arrived.

So in the next moment, both of them immediately made a heavy defense against themselves to avoid being attacked by invisible waves. Then the two formed a back-to-back approach, and then used a variety of searches, such as eye, ear, and field.

Chapter 1235 - Batch half a fairy?

The result is self-evident, neither of them found anything!

Looking around the bustle, I already had the idea of fear. When I saw the appearance of the two enemies, they realized that it was not only invisible, but also out of the control of both of them!

Zhou Tian, the contemporary head of Chaotianmen, and Weiyangzi, who is Bao Puzong, are now like this. How can they guard against the excitement?

For a time, everyone became very nervous, and began to retreat as much as possible, and some even leapt directly to the back.

“Maybe they made a mistake, and people may not be the king of the beasts at all. This is purely a resignation.”

“Yeah. We can see things that are lively. It is still objective. Of course, this is not our business. Don’t bother us.”

When someone leaps to the back and runs away, it will be chaotic, and the people behind will quickly disperse and retreat. If you can’t get back, try to stay calm, and say something that tends to sink.

Who knows that invisible, will it be around, of course, can not be angered and tired, or else do not know how to die.

It is also difficult for them. If it is just a person, it may directly whisper for mercy, just like the ordinary people passing through the graveyard. But now there are so many people around, they can’t be too embarrassed, and they can’t let the Weiyang children hear them loudly, so they can only emphasize the objectively.

In fact, Weiyangzi and Zhou Wei at this time, where are the minds to pay attention to what all the onlookers say, they are always on high alert, and always pay attention to all the changes around, try to expand this range!

Most of the others are passers-by. If Shen Lang has a chance to attack, it is impossible to attack unrelated people. It must be attacking them two!

If there is no chance, no strength, then it will do, it should be a mess.

Therefore, they must use all their spirits to search for the waves. If you run away, then you want to catch it again, it will be difficult. And when the other party is in the dark, if they are in the bright spot, then the other people who are facing Tianmen and Bao Puzong are in trouble!

It is a pity that no matter how they searched, the strength of Banxian Peak was brought to the extreme, and there was no gain. The disappearance of Shen Lang disappeared as if he had left the surrounding!

The swell of this time, of course, is in the world space of Tianshu.

After feeling the strength of the other two, Shen Lang has already made this decision. With his current cultivation, there are also various magic weapons that are used well. If you play with all your strength, you will have an unbeaten grasp with the peak and the half.

But it is unbeaten. It is much harder to win, and “unbeaten” may also be the result of both losses.

He didn’t have to take this risk, and the other party came directly to the two peaks and half cents, or took the lead in taking the lead, then he basically did not have to head.

The best result of sticking to a war is to see if you can escape from their hands. It is very difficult to hurt them. In this case, it is better to enter the space of heaven directly.

The invisibility he just said is actually ready and goes directly into the space of heaven.

The Book of Heaven is an independent space, but from where it enters, it will still be in that place and cannot leave. It’s like a person, you can’t walk on your own.

What he needs now is to stay in it for a long time!

Because the speed of the passage of time is not the same, to ensure that the other party will not stay on the scene, at least one day, then it must be a hundred days in the world of the book.

However, Shen Lang does not matter, he originally left Tiandu, is to find a place to retreat. No matter where he goes, he will enter the world of books.

It's just ahead of time, and I haven't chosen a place where no one left.

As Shen Lang entered, the girls recovered from the state of cultivation and saw what happened to him.

From the time of going back, Shen Lang arranged for them to practice in the Tianshu space. After he returned to this side, he did not let them stop practicing.

It has been more than a month before and after. According to the time of 100 times inside, they are equal to retreating for ten years!

In terms of time, it is already very long. Fortunately, they spend it in the process of cultivation, and it is not a normal feeling, as if it will soon pass.

Shen Lang looked at them, everyone has a huge change!

When I retired, I didn't say that the combat power was stronger. After all, it was related to experience and exercises. In terms of realm, the special Dorothy is leading all the way, and it is also equivalent to the late stage of the gods.

The falling canoe was the last time, while the falling rain and Zheng Yumeng had a natural advantage, and they all reached the late stage of the transformation.

Only the wind is not weak, but it also reached the beginning of the realm of the gods.

Now, after ten years of retreat and hard work, and enough resources, they have all made a leap.

Dorothy does not occupy other resources. She is absorbing the blood of so many beasts that she has condensed last time. More importantly, in the battle with the king of the dragon, she is trying to **** the blood!

The blood of the king's dragon is much more overbearing. Now ten years, all of this absorption and refining, so that she has already reached the equivalent of the semi-fair realm.

“Dorothy, you are very good, did not let me down. This is for you!”

Shen Lang gave her the blood of the real dragon she got last night.

“This is...?” Although Dorothy didn't know the specifics, her induction was obviously much stronger, even though it was clear through the closed bottle.

“Buy, it is said that the blood of the real dragon. May let you go further!”

Shen Lang does not know that she is still a vampire now, after so many evolutions, certainly not the same. If you refine this dragon blood and evolve again, it is estimated that you can abuse the Count of Dracula.

Dorothy was very excited and nodded hard against the waves.

There is no need to thank them between them. What they can do is to improve themselves as much as possible. When necessary, they can help him, and will not drag his hind legs. Otherwise, he will not be able to follow his footsteps.

Look at a few of them, falling rain, falling canoe and Zheng Yumeng, are basically synchronized, have reached the peak of the realm of the gods. Ten years of retreat, not only let them leap to the same level at the same time, in fact, has reached the edge of the semi-celestial!

“The cultivation of your three is already very strong. Normally, you can try to hit a higher realm. You have not succeeded, you dare not do this because you don't understand.”

“In fact, your mental strength is enough. After some time, the mental power of the last undead should be refining. I will give you some more things. If you combine them, you will break through and reach the semi-prestige. That is to catch up with me and the Pope!”

Chapter 1236 - Yuxi Tao, Lingxu Dan

If anyone sees it, it really is to be amazed. He turned out to be able to create a batch of half a fairy? That is the head, the door owner did not dare to say so.

But in fact, Shen Lang really has this confidence!

In addition to the fact that they have accumulated to a high degree, Shen Lang is also a targeted resource.

Falling rain and falling canoe two, this time has used a lot of high-year snow Lingguo collected in the Golden Valley, and now Shen Lang wants to give them, is five parts of the yin yin spring!

When Shen Lang got the Yinquan near Qiao's home, it was far better than the one that was in the Cao Cao Middle School. The deep sea Yinquan presented by the Hai people is far better than the Yinquan.

This time, Ji Qiancheng took out the Yinquan in the dead city, not to mention, the place where the light has always been – the meditation! Dead city! It is enough to explain its properties.

Five copies of Yinquan directly gave them two. In any case, the two exercises are the same. In the relationship between the two of them, whoever uses a little less, will not compete for care, so there is no need to allocate them well.

Basically, it should be a better gift for the rain, two for the boat, and three for the canoe! After all, Master has been biased to let her use more good things over the years, so that the sisters are also normal.

This is the best thing for their exercises and physique, and it is even wasteful for others.

Shen Lang then looked at Zheng Yumeng.

In fact, it can be seen that many of Zheng Yumeng's current cultivation is desolated in the main control. Because she mainly relies on talent for eating, and recently there is no suitable resource for her. With the general resources, it is naturally a sword ***** like Desolation to keep up with the progress.

“I haven’t found a suitable one for you recently, but...”

Shen Lang took out all the jade peaches, the one that was obtained earlier, plus the five pieces obtained from Wei Qingcheng, and the five that were later obtained in the array of the Golden Valley.

It can be seen from the reaction of Wei Qingcheng, not to mention that the earth is almost a legendary good thing. In this world, it is still the elixir of the level of heaven and earth. This is directly taken, it can bring great benefits to people, scattered to alchemy, can improve the quality of many medicinal drugs.

The legend on the earth, the jade peach can directly upgrade a level. However, this is also to see the level of the level, to their current level, a jade peach, has not been enough.

But now a pile of eleven jade peaches, all given to a person, placed on the earth, can only be bragging, YY things, there is no head here, the family is so proud.

“I will not live up to your expectations!” Zheng Yumeng firmly said that she also knows the value of these.

They confessed one by one, and finally went to the wind.

Because everyone else has already confessed, Shen Lang also naturally understands their strength, and finally she is left, everyone is watching, let the wind without a little jealousy.

“I am the least useful... the weakest...”

This can’t blame her. Before the resources were limited, they could be cultivated to the real world. The qualifications themselves are already very good. The step-by-step promotion to the early stage of the transformation of the gods is already something she could not believe before.

Just follow Shenlang’s side, especially the resources of this world. Everyone’s progress speed is chasing after you, so that the wind is not squandering.

Why are their qualifications not bad, but also very hard work, the gap between the two realms, how easy to catch up.

Even after ten years, she just caught up with the first level. Now it is the end of the realm of the gods, and it is about to break through the peak of the gods.

Shen Lang smiled and shook his head: “Don’t say this, your current strength, placed on this team on our planet, not including them, it must be in the top 10. It is almost the world’s top powerhouse. It!”

It can be seen that they have talents far better than her, some have racial superiority, and some have gone very far, so she can’t catch up with her desperate pursuit. In ten years, it will inevitably accumulate a great inferiority.

Shen Lang’s current encouragement is to let her eliminate this inferiority, or else it will become a psychological barrier and prevent the advancement.

Feng Wuji is looking straight at Shen Lang. In his eyes, he sees sincerity, not just making her happy.

“Yeah, wind sister, how hard you tried, we all saw it. But we don’t know how to help, or everyone will help you.”

“Our realm is higher because we have got a lot of resources from Shenlang, so you can keep up with a little more resources.”

Everyone will also agree, and immediately comforted.

In the eyes of the wind, there is also a glory.

Yeah, although it is the bottom of them, it is because they are too good, and there is always someone at the bottom. Compared with the world, I imagined what I saw during the Yuxianmen War. Even if I had insufficient experience, the combat power was close to the top ten.

Even the top ten of this line can't represent the top ten of the earth, but it is also comparable to the heads of those big names and the elders.

When I think that she was in the realm of the past, the realm of the gods is a legendary existence, and all need to look up. Now it is just following the Shenlang, and seeing more of the realm of the gods, I feel that this is not the case.

Her efforts were recognized by Shen Lang and others, and she was finally relieved to breathe a sigh of relief.

“Reassured! Just like what they said We will help you, I just prepared the right things for them. Don't look at the most dreams, Dorothy is the most expensive, but your possibilities It is the best.”

Shen Lang smiled and took out the jade emperor.

Listening to him is so magical, everyone is curious to surround and look closely.

“This one is called Yuhuangling Virtual Dan. It is said that the Danfang of a Jade Emperor, one thousand six hundred and seven hundred years old, although it is not refining the Jade Emperor, but according to his Dan, the effect can make people reborn. It can even enter the Great Fairy from half a fairy!”

“Jade Emperor... Great God?”

Except for Dorothy, everyone has widened their eyes and thought of the Jade Emperor.

“Like you, no matter the Jade Emperor, the Jade Emperor, I also thought of the same one. And in terms of time, it is similar. But the more you know about this, the more you feel that this world is probably our legend. skyline.”

Shen Lang said the situation with them, because Shen Lang had told them secrets in Haishan, and they had seen the cold autumn, so there was no shock from them. Everyone is very excited, after all, this is the world of the gods!

“Is there a question that has been told to you? When I came back, I went to the sea world...”

Shen Lang also told everyone that the non-return to the sea may be completely eliminated after more than two years. This made everyone realize that they need to hurry.

It may be the “Jade Emperor’s Spiritual Dan” passed down by the Jade Emperor. It should be used in the wind, and it is of course very exciting for her. There are a few other people who don’t have any embarrassment, because Shen Lang has given them the most suitable and best, and this is also to help the wind to improve to a level with them.

Chapter 1237 - Domineering spirit stone

All kinds of resources were allocated, and everyone immediately invested in retreat.

Shen Lang does not know how the effect of “Jade Emperor Ling Dan” will be. Since he decided to let the wind take it, he naturally needs to guard her and help him to complete it.

The good things he received on this road were given to them, including this time they bought them at a high price.

But on the one hand, these may be just the icing on the cake, giving them the best effect. On the other hand, he also has his own, such as the one or two thousand Yuan Lingshi!

These Yuan Lingshi are of great value, and he is also prepared to practice the heaven and earth domineering, and see if the combination of “Yin and Yang Bo Ruozhen” can break through to the eighth!

And he still has a thread! That is the thing that the king is guarding the dragon, and perhaps the thing that makes the king. It is also the biggest gain of Ji Qiancheng in the dead city of the Ming Dynasty.

Anyway, the time is a lot, Shen Lang is not in a hurry, first for the wind without a Guardian, let her take the jade emperor, and then he is monitoring the whole city.

Soon, even if it is not a personal experience, Shen Lang also felt the hegemony of this drug!

Even the wind that has not yet reached the peak of the realm of the gods has not been able to withstand the medicinal herbs that almost reached the level of “Xiandan”, as if a group of fierce fires, almost melted her!

However, there are still waves, of course, will not let her accident.

Originally, she has already cultivated into the late stage of the transformation of the gods, and will soon break through the peak. Ten years of retreat has also laid a solid foundation. Now Shen Lang helped her guide, and reminded her to use the part of the undead that was absorbed last time, and to use her mental strength.

The result is that it quickly broke through the peak of the realm of the gods, but for the peak of the realm of the gods, the jade emperor is still an unbearable hegemony!

However, Feng Jiji still suffers bitterly. She knows that this is an opportunity for her own transformation. If she succeeds, she will be reborn. If she fails, it may be a farewell!

But this way, she has to go by herself. Shen Lang has just helped her through a dangerous relationship. If she supports her all the way behind, then she will be able to survive in the end, and she will certainly not be able to break through the semi-scented situation – the state of mind will not reach!

“Shen Lang, let me come by myself. If you are bitter and dangerous again, you must have to go through it yourself. You have been holding it and letting go, I don’t dare to ride a bicycle.”

Feng Wuji passed this idea to Shen Lang, using a simple example of learning a bicycle, explaining the situation and expressing her own determination.

Shen Lang thinks that it makes sense. He just had to intervene, but if he intervenes too much, she will not be able to temper and will only become harder.

At this time, both the canoe and the falling rain came over.

Although everyone is practicing, but the wind has no movement just too much, they have been alarmed.

“I believe in the wind sister!” Although they did not hear her thoughts, but this situation can also be realized.

After all, they seem to be smooth, but the state of jumping again and again, in addition to the accumulation of resources, itself is subject to tremendous temper.

“We should be able to help a little.”

Two people, the left and the right, are on the side of the wind.

Then they did not speak, and with their luck, the ice palace’s practice immediately let them chill out. In particular, they want to absorb the Yinquan in the Ming Dynasty, which is even more extreme.

Shen Lang will understand, he still remembers the first time he met the hand of falling rain, she just let him feel the ice cold.

Although they can’t directly help, they can provide a better environment around the wind, and the cold can make her not so easy to escape.

With the help of both of them, they did not delay their respective cultivation, and Shen Lang was relieved.

He himself left the distance a little further, because he didn’t know if there was any big movement when he was practicing. If he was shocked, they would be bad.

Shen Lang was the study of the domineering temperament of the heavens and the earth last night, and then combined with the familiar “Yin and Yang Bo Ruozhen”, began to engulf the aura inside the Yuanling Stone.

He now has more than a thousand Yuan Lingshi, which is a huge wealth and a huge resource.

Now it’s even more straightforward to put these in front of you and keep them ready.

On the day of the sunset, he sent spiritual stones to the self-cultivators from all over the world, mainly the elementary stone, so piled up a table, it is already very spectacular, and it is also envied by everyone.

What is now stacked in front of him is the precious thing that is equal to one million elementary Lingshi from the theoretical price, the Yuanling stone that has not been seen on contemporary earth!

Yesterday he tried it, an elementary Lingshi, about a minute or so, directly sucked dry, and later simply tried other Lingshi, and finally got a general understanding.

Based on the elementary Lingshi, although the price of the exchange is about 100, the degree of aura is about 30 times, but the speed of use is about three times. It is estimated that it has always been The default is about a hundred or so floating exchange, because of this implied and utilization speed.

To put it simply, it takes one minute to absorb the elementary spirit stone, thirty times the medium spirit stone is thirty minutes, but the speed is about three times, so it is about ten minutes.

The other basics are also of such a degree that they are slightly floating and have little effect. It takes a hundred minutes to absorb the fine stone, and Yuanling Stone is a thousand minutes!

A Yuan Lingshi, it takes a thousand minutes, and it will last for almost seventeen hours. At first glance, it seems that time is not short, but think about other comprehensions, may not absorb a Lingshi in ten or eight years!

For example, it may take decades for the Yuanyuan to completely absorb an elementary spiritual stone; it may take decades to absorb a medium spiritual stone; it may take decades to absorb the fine stone. It takes a few decades for the gods to **** a spiritual stone...

Therefore, Lingshi can be passed down from generation to generation, and it can be hard currency, because it can only help people, and not many people can use it like Shenlang. This is also why the high-year elixir, or the refining of the lingo, and the inner dan, the value of many Lingshi, the use of better.

It is Shen Lang. It used to be far from this utilization rate. For a long time, he gave up using Lingshi cultivation, but he became a hard currency.

Now, he will challenge this most direct way of overbearing! In exchange for so many Yuan Lingshi, it is not used to play.

Only he has to prepare for the tough battle, one for seventeen hours, seven for seven days, one for seventy days, and one for seven hundred days! This is to prepare for a two-year retreat...

Chapter 1238 - Big breakthrough!

The time inside the book space, the day after day. Shen Lang and the other six people are constantly practicing, practicing, and practicing.

So day after day, there is no day and night cultivation. In fact, it is also very boring. If someone is there, it is really suffocating.

But everyone is practicing, and time is being re-interpreted.

Just like when I go to work or work, I feel very difficult day by day, and it is very long on Friday. But when it's changed to a holiday, it will pass in a day. It seems that the five-day holiday has not been done yet.

The relative nature of time, so that they are not aware of it, will not feel long and difficult.

Hurrying past, two years have passed!

Shen Lang is really the energy that has swallowed a thousand Yuan Lingshi!

A thousand Yuan Lingshi, that is 100,000 fine stone, 10 million medium spirit stone, 1 billion elementary stone...

This is not a simple cultivation, it is simply the resource wealth of a planet! With the current level of resources of the earth, all the sects add up and cannot make up this number.

After Shen Lang was used to this boring cultivation method, he slowly changed.

With his body, it seems that the energy of Lingshi does not play much role. But what kind of Lingshi should be seen, as well as the “concentration” per unit time.

If it is in the way of ordinary people, that is, there is a bonus effect, and he can ***** a primary stone in a minute.

The aura contained in a Yuan Lingshi is 27,000 times the elementary stone! The absorption rate is twenty-seven times. If you absorb Yuan Lingshi, it is equal to the aura of the elementary Lingshi. It only takes more than two seconds to dry.

The concentration of such a unit of time is beyond imagination.

Humidification with a humidifier, the humidity is not fast, but with a high-pressure water gun, it is not a humidity problem, but immediately can make the room soaked.

Shen Lang is using such a speed, has been maintained for two years!

This time, he has no treasures of heaven and earth, and there are no other adventures. It is purely based on the aura of Lingshi. Heaven and Earth domineering and “Yin and Yang Bo Ruozhen” continued for two years of absorption, let him break through the “Yin Yang Bo Ruozhen” eighth!

And the huge effect superimposed by a thousand Yuan Lingshi directly makes Shen Lang steady to the semi-Xianfeng peak!

As far as the state of mind is concerned, Shen Lang does not need to worry at all. In terms of mental strength, he is also a far-reaching winner.

Therefore, compared to the wind, there is no such thing as a ruin, and this time he has arrived smoothly without any danger.

In two years, several of them have made great progress.

It can even be said that they all completed the retreat first, and later they were still concerned about Shen Lang, worried that he would have an accident.

Including the wind and no Ji.

When Shen Lang calmly opened his eyes, he immediately saw that they had come over.

He looked at them one by one, Dorothy's entire temperament has changed a lot, completely unafraid of the temperament of the vampire, perhaps the true integration of the evolution of the real dragon gene!

Her strength is profound, Shen Lang is also a bit incomprehensible, the semi-prestige realm is definitely there, the semi-Xianfeng peak should be comparable, and then high can not see through now.

Falling in a canoe, falling rain, Zheng Yumeng, and Feng Wuji, all four of them have reached the semi-central, and should have reached a long time, and there are many improvements.

If there are also four small realms subdivided, they have reached at least the mid-term level.

"Fortunately, I don't want to die. I passed, although it is still my weakest, but the gap with everyone is not so big." Feng Wuji reveals a charming smile.

She was the last breakthrough, but she also felt that she was a big realm with everyone, which removed her inferiority and added confidence.

Shen Lang checked the time through the Holy Ghost. The good guy, it has really passed more than 700 days. It really has been two years.

"Very good! Very good! You are very good, I am very pleased."

"Then we can go out to play? Please, we have been retreating here for more than ten years, I have become an old woman." Zheng Yumeng immediately took the arm of Shen Lang and spoiled it.

In fact, this space is very strange, except for a hundred times time, others do not need to eat and drink Lazarus to sleep. It's more like time is being dialed up, just feeling no change. Therefore, after more than a decade of retreat, it is actually outside normal time, which is about one and a half months.

For this level of comprehension, one or two months do not need to eat and drink Lazarus retreat, completely very normal.

In their more than ten years of retreat time, their realm has had several leaps in the realm, directly to the realm of the present half-sex. The appearance is not only not getting old, but also all aspects of temperament and skin, have to become better.

Shen Lang smiled and touched her. "If you want to play, aren't we just here? Everyone is free to play together, why should I go out to play?"

When I saw his smile, everyone understood it and smiled.

Shen Lang is of course joking. He really wants to go out.

But it's not fun, it's time to go out and get back to the game!

"In the past," he met Weiyangzi and Zhou Wei under the ring. He knew that he was not an opponent, so he used invisible shackles, and then retired for two years.

But in the outside world, what happened in this "year" is actually nothing more than seven days ago Zhou Wei, Weiyangzi, they may still be in Tiandu City.

Shen Lang is now advancing with strength, and they are also all capable of going forward, not going out to find the scene, I am sorry for the retreat for so long.

"Before going out, let me tell you about the situation."

Shen Lang started from the beginning of the Golden Mile, but there are some of them known to Kim Jong-Gu and the meditation, which can be a bit simple. Later, I talked about

the various things that went to Tiandu City. There are mainly a few, one is that they were killed by one or two three, and that Ge Luting found the secret of Bao Puzong's secret, the other is the auction and The enemy's, they simply said it.

These situations are said to prevent them from going out of their "twelve years" and going out of their eyes, at least to understand the reasons. Just as Zheng Yumeng now let the bleak out to help "fighting", it will also let people know about a possible cause and effect.

Although they are girls, but the strength has leaped into several realms, and whoever wants to actually experience it, to see how big the difference is. Since Shen Lang has enemies to look for, they are of course eager to try and be his beating.

Tiandu, Laozi is back!

When Shen Lang returned, it was naturally the seat that had disappeared before. He did not believe that Weiyangzi would have been inactive for seven days. After all, no one knew that he was still in the same place, and he thought that he had already left invisibly.

This is a square where people come and go. It is not convenient to "change" a group of beautiful women.

So he appeared first, at his speed, out of thin air, and before he noticed it, he quickly left and left, and then found a place where no one was, so that they all came out one by one.

Chapter 1239 - Inquire about the message

After Shen Lang took them out, everyone was very curious about everything around them.

Only after the canoe was followed by Shen Lang in this world, stayed in Tangcheng, others for this city, also a bird's eye view of the small city of Yuxianmen.

Now I see the surrounding houses and buildings, all kinds of shops and pedestrians, I feel very interesting, it feels like entering the film and television city that is making a costume drama.

Shen Lang let them go shopping first, anyway, their current strength, let alone self-protection, there is no problem in the sky, there is no need to worry about being harassed, bullied and the like.

He himself is ready to go to Ji Qiandao first to find out the changes in the situation on the 7th.

Of course, there is no doubt about the arrangement of Shen Lang. This is not on earth, everything must be important. They are not ordinary girls, they will not be entangled in shopping.

Feng Youji especially agrees with this arrangement, so that when they are against the enemy, they can maintain the advantage of being in the “dark place”. Otherwise, if you sway through the market together, the enemy must be prepared.

After the separation, Shen Lang followed the last route directly to the house where Ji Jia was here.

Of course, he will not report anything. After the gods searched for the seat where Ji Qiandao was located, they passed directly.

“What?” After I found someone coming to the door, Ji Qiandao in the house asked a little unpleasantly.

Shen Lang directly opened the door and went in: “It is me.”

Ji Qiandao was surprised to see: “Master Shen?”

The place where he is now can be regarded as a study, what book he is looking at. After all, it is the successor of Ji family training. In addition to being put out to exercise outside, all kinds of social management can not be less, and if you want to let yourself grow, you must learn.

“You, how are you... come back?” He quickly got up and greeted, apparently did not expect Shenlang to come here.

Shen Lang indicated that he was not polite, and he sat down.

“It looks like you should have heard about the day in the square.”

Ji Qiandao nodded: “I heard that, when I know that I have rushed over, you have left invisibly. I didn’t expect Chaotianmen to come so fast, but I didn’t expect that Bao Puzong would deduct you such a big hat.”

He smiled a bit and said that Shen Lang was the king of the beastly, and he certainly did not believe it. Not to mention that he personally touched the whole day, and Ji Qiancheng went to the adventures of the meditation, and the support of Qiu Lin Jianzong.

Shen Lang is in a very relaxed mood. “At that time, Zhou Wei and Wei Yangzi, I did not fight, so I left invisibly. How about the situation in the next few days? I just came back, I want to come to you to inquire, after all, here too Only you are a reliable friend.”

Ji Qiandao heard this and had a hint of excitement.

After getting the story of Ji Qiang, he met with Shen Lang that day, and he made more careful engagements. Whether it is Shen Lang’s personal strength, possession of power, or the background of Qiu Lin Jianzong, it is worthy of a long-term relationship.

This is similar to Luo Fatzi, but Luo Fatzi is to maintain a long-term big customer with Shen Lang, Ji family can have more in-depth friendship, cooperation and so on.

Now I heard the words of Shen Lang, saying that only one of his reliable friends is undoubtedly an approval.

Ji Qiandao, taking into account the news, did not ask people to prepare refreshments, he sat down directly and told Shen Lang about the situation on the 7th.

The strangeness of Shen Lang disappeared that day, making the scene almost a mess. Seeing the excitement, they rushed to escape, for fear of being trapped, and being taken hostage.

The two people, Zhou Wei and Wei Yangzi, had been on the scene for a long time, but there was no clue. That is, they did not find the position after the invisibility of Shen Lang, and they could not determine in which direction he fled.

In the end, there are two of them left in the square. The others are far away from the shop houses. The two of them can only give up. I feel that Shen Lang should have escaped.

Then they didn't stay there, but left quickly.

Look at the crowds, and then talk about it. Such things are rare. Everyone, as long as they are okay, are relishing the gossip.

Shen Lang, the sudden appearance of the man, has become even more mysterious.

Is Bao Puzong destroyed by him? If not, there is no need for Bao Puzong to force him to attack him.

How did he do it alone? There were also giants that some people saw at the time.

Most people have not seen the scene, they are all circulating news, and they are transmitted from low strength, so they may also deviate from the truth.

Whether it is his personal ability to become a giant, or a giant beast, is a topic. Moreover, it is easy to disappear under the siege of two superpowers, Weiyangzi and Zhouyi, which is another huge topic.

With this hot debate in the city, more information about Shen Lang was also gossip. After all, in Tangcheng, there were also a lot of foreigners rushing past to join the crowds.

I don't know the information that was discovered and transmitted from there. The name of Shen Lang did not go away, but also combined with the information supported by Qiu Lin Jianzong.

This is of course a new variable. If he is really a swell, it is the one who is the martyr of the Qiu Lin Jianzong. At the beginning of Tangcheng, he publicly taught many people, and then the king's beasts, but this level has not been reached.

Everyone went to the waves, the gossip to Tianmen and Bao Puzong, and then more information broke out.

According to an insider's exposure, Mutian Songtao of the Mutian family, because of the sweep of the face at the auction, so the high price invited the killer vulture to assassinate the waves!

The strength of Shen Lang is strong. It is said that three vulture members were killed and the leader of the vulture was injured. This made the vultures anger and admire the heavens and pines. In a rage, they killed Murtian Songtao!

The Mutian family is convenient. For the inquiries of various acquaintances and friends, it is said that there is no comment, but no one really sees Mu Tiansong Tao's appearance.

This will make everyone more topics, the auction is a bit uncomfortable, and privately find the killer assassination. This is too shameful, it is simply an act that everyone should be scorned.

Who can guarantee the auction, will not compete with people? This is clearly the norm, and it is not malicious. Open this head, is there anyone who will follow suit?

So when many people spread the gossip rumors, the comments are "damn." Even if the vulture does not vent his anger, wait for Shen Lang to know this behind the scenes, he should also find him trouble.

In addition, Ji Qiandao certainly wants to talk about the information that Shen Lang cares about.

After Zhou Wei and Wei Yangzi disappeared from the square, according to everyone's speculation, it should be two people together, a quick carpet search for the whole city.

However, there is no result. There is no way for the outside world. Even if you don't fly away, you will have a flying magic weapon. You will not leave traces on the way out of the city, and you will not be able to follow it.

Chapter 1240 - Sergeant 7th

After learning about this, Ji Qiandao realized the seriousness of the matter. Regardless of whether Bao Puzong was shot by Shen Lang, now the masters of Bao Puzong and Chaotianmen have arrived, and they are united together!

Although the Ji family can't say that it is an ally with Shen Lang, there is a cooperation between Shen Lang and Ji Qiang, which also gives him a favor, at least as a friend.

At this moment, he is not worried about being tied up, but thinking about how he can help to sink a little.

No one can find the sinking waves. So many people on the scene and Zhou Wei, who are not in the center, have not been able to figure out where Shen Lang went.

Ji Qiandao immediately made a two-handed arrangement. On the one hand, he sent people out to observe the actions of Weiyangzi and Zhou Wei. On the other hand, it is the height of the house. ——If Shen Lang will find a place to take refuge, he may come here, and you can't let other people in the vicinity know.

Looking for the unsuccessful Weiyangzi and Zhou Wei, they were separated after returning to the city.

Wuyangzi was at the site of Bao Puzong, and the house of Bao Puzong was destroyed seven or eight, but the business did not suffer any damage. Closing the door is self-motivated, and now there are strong people who come to sit in the town, and of course they can resume business.

Weiyangzi can't determine the whereabouts of Shenlang. If he has left Tiandu City, he will not have much influence. But if people are still in the city, they will inevitably attack them!

His staying is not only a refuge for other disciples, but also a way to stay alive.

However, Ji Qiandao then inquired, Zhou Wei did not leave immediately, because his son Zhou Shaojun did not die!

On the same day, Shen Lang put the other six disciples directly on the throat to put fireworks. For Zhou Shaojun, it was to make him die, let him inevitably incontinent, and

extract all his mental strength, and complete his cultivation. The destruction, leaving him a half-life.

That was to let Zhou Shaojun torture to death. He couldn't do anything like that. He couldn't stand it. He asked others to kill him.

Then he went back to Luo Fatzi, and he did not care about the situation in the ring. Later, he even had the affair of Bao Pu.

Including the situation that Bao Puzong Wan Jian flowed them, Shen Lang did not go to see it again, but waited until the next day to participate in the auction. Until the third day is ready to go, just take a look at the downfall.

According to Ji Qiandao, it should be that someone in the name of the corpse, saved Zhou Shaojun, who had not died, and then used the best medicinal herbs to continue his life, and then reported the letter.

The territory of the Han Dynasty is very broad. It is of course impossible to rely solely on the strength of the individual to achieve a daily trip. However, if you rely on the flying magic weapon, you can still achieve it without the constant cost of flying.

The person who saved Zhou Shaojun did not know whether it was for the benefit or because of the good relationship with the Chaotianmen. In short, not only for his medication, but also immediately arranged a road report.

Bao Puzong is obviously the same, and he sent a letter to the division door that evening.

After a day and two nights, Zhou Wei and Wei Yangzi, when Shen Lang was leaving, rushed to Tiandu.

However, Zhou Shaojun's situation has been very bad, basically it is a state of sudden death, relying solely on the medicinal herbs.

If it is a normal disciple, such a situation will definitely give up. But he is different. He is the biological son of Zhou Wei and seems to be the only child. According to the rules they have passed down from generation to generation, they will also take over the Tianmen Gate in the future.

Therefore, Zhou Wei has a little bit to save his son at all costs!

He will come together with Weiyangzi, also in order to hold the sequel to the reincarnation of Park Zong, the nine-turn Jindan. Only keep your life steady, and then talk about how much you can recover.

At this time, Zhou Shaojun is inconvenient to move, so he is still healing in the city, and Zhou Wei is of course guarding himself, so as not to attack the waves.

Ji Qiandao heard the information on these two aspects, and then waited for Shen Lang to come and trust. I did not expect to wait for a few days. This of course gave him a sigh of relief and avoided being hurt.

Later, he thought that Shen Lang should have been away from Tiandu, and perhaps went to Qiulin, and he will not come back for a long time, which also makes him feel relieved.

However, for the information on Chaotianmen and Bao Puzong, he also collected. In addition, I also learned that the Mutian family also has high-ranking people, perhaps to find vultures and avenge Mutian Songtao. But who is the specific person, he has not known.

After seven days passed, the limelight was a little overdone, but Shen Lang returned so quickly, or let him not think of it.

“understood.”

Shen Lang nodded: “Tell me about where Zhou Shaojun is raising his wounds, and which firm is Bao Puzong?”

“You...” Ji Qiandao wants to stop.

“Reassured, I have a number.” Shen Lang knows that he is also a good intention.

After all, the identity and strength of Ji Qiandao is also able to know his strength, know the strength of Zhou Wei and Wei Yangzi, and I don't know if I have heard it.

It's just that the third day of the squad is a sneak peek, not the seven-day swell, but the retreat for two years, consuming a thousand Yuan Lingshi!

Ji Qiandao nodded. Since Shen Lang came to him today It should be arranged these days, and I have to grasp it.

One day and two nights can let Weiyangzi and Zhouyi receive the information and rush over. If you fly all the way, you will be able to go back and forth to Tangcheng in seven days. Maybe you have already moved to the rescue of Qiulin.

Besides, he still has dozens of followers, and he is hiding in the city. In these seven days, there should be more formations.

Ji Qiandao immediately took a map of Tiandu City and then circled it in detail.

The map of the Golden Mile Valley given by Wei Qingcheng is really rough and simple. But Tiandu City is different. This is the same as Tangcheng. It is a real big city. Every aspect has developed very maturely. The map is also well-drawn.

Shen Lang does not need to take a map, glanced at it, has been stored through the holy armor.

“Master Shen, how can I help?”

The sensible Ji Qiandao does not want to get involved, but at this time, it is the key time to really establish a diplomatic relationship. Others in the snow will remember that the icing on the cake will not have a good effect.

Shen Lang smiled at him: “It's good to watch the fun. But... I don't know if Wan Jianliu took the opportunity to hang me, or the meaning of Weiyang, saying that I ransacked them and said that I am the king's beastly form. Many people should be more convinced of this. If it is stable, if it is convenient, you need Ji brother to help me take the lead in clarifying.”

“This is absolutely no problem! The matter!”

Ji Qiandao immediately guaranteed it. The situation in these days is unknown. Of course, it is not convenient for him to jump out and say that he has not made a fool. When the dust settles, it is different.

What he just said, let him understand that this is tantamount to acknowledging the things of Bao Puzong.
