

First Strong 1281

Chapter 1281 - Gathering into the hair

After all, Lv Yang is not a general generation. With his age and generation, if he is stubborn and stubborn, he is now in this realm.

His innuendo projection was naturally intentional. On the one hand, it was for the spirit to export gas, and Lu Feng came to ridicule the waves.

On the other hand, I also want to test the relationship between Shen Lang and Ji Jia!

Just came over and he saw it clearly. Shen Lang was with the people of Ji family. And now also found that the strength of Shen Lang seems to be stronger than Lu Feng described.

Now Shen Lang directly hard to come over, and Ji family did not persuade and so on, which makes Lu Yang a little scruples.

What if this is a group with the Ji family? Not to mention whether he is a family member, and simply offering a thread is enough to shield any sect.

If Ji Sheng opens the round, Lu Yang will follow the steps. But now they have not spoken, but let Lu Yang have more suspicions!

Therefore, Lu Yang did not turn her face, but just snorted, as if to give Lu Feng face, through this step.

His purpose is to test the relationship between Shen Lang and Ji Jia. If you really want to do something, of course, you won't be shot here in public. After entering Zhoushan, especially after entering the ruins, you can always find opportunities.

At this time, another older elder of Lu's family smiled.

"Little friends don't mind, my elder brother is stubborn, and a little bit more. For you to save Lu Feng in Jin Daigu, we are really grateful to us."

He smiled and talked, came to Shen Lang and made a close attitude.

“It is true that Lu Feng has worked hard and finally did not get the pulse. It is regrettable. We also admit it. But this can’t be angered to Xiaoyou. The little friend wins the spirit from the king’s beast. In addition to envy, we admire very much!”

Lu Feng also briefly introduced it before. This is called Lu Zhong, and his generation is also his uncle.

Basically, the configuration of Lujia, like the Ji family, the contemporary homeowner and the future successor, did not come to take risks, it is related to the family roots. But it must be taken seriously, and it is the mainstay of the generations of the family, plus two Mesozoic generations.

Chaotianmen and Zhou Yucun, the heads of previous generations, may reach the level of Daxian in the realm. The Ji family and the Lu family should also have such an old and famous place. According to the truth, they should come before.

After all, even if you are a patriarch of one or two hundred years old, you have not encountered the last ruin, and you can’t wait for the next time. You will not miss this opportunity.

Shen Lang suspected that the various elders of various factions might go to a more in-depth area, so they would not walk with other people.

For Lu Zhong’s show, Shen Lang also smiled and accepted.

However, his heart is like a mirror, Lu Zhong and Lu Yang, but it is a singer with a red face and a white face. This kind of routine is too common on earth!

Lu Zhong’s current position is estimated to be the most that Lu Feng can believe. The spectators of the Ji family are clear, and they should all be able to guess. He probably regards Shen Lang as a young man in his early twenties. He is still relatively good at flickering, so let’s show it first, let Shen Lang think that it is just Lu Yang’s personal extreme to dispel the alert.

Shen Lang will not say anything, and will not kick in the face. In fact, let alone the people of Lu family, even if he is a person of Ji family, he is still on guard.

When Lu Zhong expressed his enthusiasm, Lu Yang greeted Ji Sheng in the past. They are almost the same age, even if they are not friends, they have seen it on some occasions for decades, and they will be acquaintances.

I saw that the atmosphere had eased, and Ji Qiang, who had been inconvenient to interject before, joined the conversation with a smile and was active.

In summary, from the simple contact, Ji family has already known the things of Shen Lang and Lu Feng, and can also guess the attitude of Lu. Although Lu did not understand the friendship between Shen Lang and Ji Qiancheng, he also knew that the relationship between Ji Jia and Shen Lang was not normal. They were not just together at the same time.

After half a day, two more sects arrived. So there are four teams, and everyone has decided to go in from the entrance first.

When you get here, everyone will not be completely worried, but the information on the road is still willing to share. After all, the ruins are the target. If there are problems on the road, the ruins will not be able to reach.

In this respect, Shen Lang is not interjected. Although he has some relevant information from the memory of Zhou Wei and Wei Yangzi, others are also fully prepared. What he needs is to understand more.

His younger advantages are reflected. The Quartet is a big talk of Ji Sheng and Lu Yang, and he will not feel how much Shen Lang knows.

After some time, Shen Lang also got more understanding. From this entrance, it can only be regarded as entering the area of the Zhoushan Mountain, and there is still a long way to go from the ruins.

The specific location of the relics is one place or more, and there are several entrances, which are not certain. You can only follow the experience of old people and follow the general route to search inside.

The reason why Zhoushan is not the edge of the Han Dynasty, no one has successfully crossed over, on the one hand because it is extremely wide and extremely towering. On the other hand, there will be a lot of mystery, and people will go in and be confused. Southeast and northwest can't find the way forward, and can't find the way.

This is why it is impossible to enter on the broad side of the border, to enter this "entry" and to follow a route. This is an experience that has not been known for thousands of years, but it is full of danger. But at least still able to return along the way.

Shen Lang is not difficult to understand, nor has it been mysterious. He has been to the overseas continent, knowing that this is a huge island, and the entire mainland of the island is covered with huge incomparable formations.

No matter how big the mountain is, it is also a mountain on the mainland of the island, so it will be possible to cover the magical array of thousands of miles.

Think about the house that I met on the edge of the core area of Kimi Valley that day, so that everyone can not get out of it inside. This is not a hundred million times more than a mountain! Once caught in it, there is no ability to pass the sky, you can only be trapped inside, until you die!

These are the lessons that have been learned in different periods in history. Basically, people who don't believe in evil and challenge are not famous. They are famous genius figures, but in the end they have no news and no bones.

For example, the battles of more than two thousand years ago, and finally the choice to go to the meditation, and can not cross the mountains and other areas.

Therefore, now the factions are not listening to the ancestral training, but here is indeed the best way to explore it from generation to generation.

Up to now, Shen Lang has understood that He Lan's smile should really respect the two Optimus Prime, because it represents the pioneering and sacrifice of the ancestors!

A group of nearly 20 people, entered between the two Optimus Prime, went deep into the hillside, the wind and snow is getting bigger and bigger, everyone's speed is not slow, and soon I can't see the entrance.

Chapter 1282 - Snowman's sniper

The reason why they want multiple sects together, but will not wait for dozens of sects, in fact, is essentially the same as the distribution of Shen Lang in Jin Daigu.

If there are too few people, you can't cope with the danger. If there are too many people, you may be alarmed by some dangers that would not have been touched.

On the other hand, it takes several sects to work together, because each family has its own circulated and summarized maps, which can be used to cross-reference and correct some mistakes and mistakes and get out of the best route.

More than a few dozen sects, theoretically more information, can analyze more accurate data. But they are not handed over to computer computing. There are many human factors. Several people want to unify their opinions. Naturally, it is much easier to unify the opinions of dozens of people.

Now they have four sects, basically the strength is quite the same, the number is four or five, and everyone is still in a relatively friendly state.

Entering the range of the mountains, even if it is only an extreme edge, but also has significant changes.

The wind and snow have become bigger, only the most representative changes, and the perception and direction have begun to deteriorate. However, they have carefully studied information and maps, even if they come for the first time, they can grasp a general.

Everyone has a semi-fairy realm at the lowest level. The quality of the whole team is quite high, and it still maintains a relatively high state in the speed of travel.

Shen Lang followed the road and knew the information, including the stories of all parties, as well as Chaotianmen and Bao Puzong. It can basically be overlapped and there is no ignorant state.

Just a little bit makes him quite embarrassed.

He has been waiting for Ji's family here for a few days. The first batch of people who entered the first Helan Yixiao, Hongdian Sizi and Huangfu family, is now the third. I thought I could follow the traces in front of me. I didn't expect any traces to be found!

On the one hand, everyone's realm is high, and in many cases they are flying fast and occasionally borrowing to rest. The higher the height, the bigger the snow, and soon a little trace will be completely covered.

"It's going to be dark! We must rush to Death Valley before dark!" The Shangguan Tianyuan of the town of Yuanzong was a little dignified. After reminding everyone, his speed accelerated a lot.

Ji Sheng, Lu Yang and others also sipped a bit and let their own people keep up.

Shen Lang is a bit strange.

He has been to Zhoushan for several days, and he has some understanding of the environmental conditions here. For example, when it is dark, it is basically fixed, even if it is an error, it is about half an hour.

Now, after coming in, it's still two or three hours away from normal, but when you look at it, it's going to be dark for at most half an hour.

Is it because the snow is bigger? Or isn't the situation in Zhoushan different from the edge?

If it is the latter, is it going to be inside, the more it will be blacker?

Everyone has not said much, speeding up the pace.

Up to now, everything that you see is related to the information and maps of all parties, and you can find the reference object to travel.

Death Valley is a place where you can rest and rest.

After entering the mountain, it is not recommended to travel in the dark, because the more you refer to the reference material, the more you need to identify clearly. Once there is a deviation, it will go further and further, you can't reach the relic, or it is secondary, and then you can't return safely. Is the biggest problem.

So at their current speed, you can't go further afield, and you have to rest in Death Valley for one night tonight.

The death forest has an entrance entrance called Death Valley. They hold the transmission array and collect the tickets of the various spirits. Death Valley here, of course, will not have any relationship with it.

It will be called the name of Death Valley, and of course it is basically linked to the danger. According to the description of the rumored information, once in the night, there will be a monster called a snowman, they will attack insanely!

As soon as they enter the Death Valley, they will not enter, and after the dawn, they will leave.

From the description, Death Valley is actually a refuge. I don't know if there is a space that I would have had, or a protective array that my predecessors could do.

Shangguan Tianyuan took the disciple of Zhenyuan Yuan, and rushed to the forefront, while the other dozens of people followed closely. Everyone was flying fast. Because the area around the mountain is too big, the reference object of this road is actually a mountain, a valley, a peak, a boulder, etc., and it will be a very large area to be seen. The error will not be the difference between a few meters and a few feet.

After everyone kept this speed for more than ten minutes, the sky became darker.

“accelerate!”

Shangguan Tianyuan once again showed the police. This time he did not even say that he himself was directly accelerating. Others followed closely.

Now everyone is still moving at the speed of the individual. If Shenlang is equipped with the driving force of the holy armor, it is still a breeze to fly fast.

However, just as everyone does not use magic weapons, the environment here is actually not allowed, and it is necessary to maintain observations on all aspects. Shen Lang can fly crazy supersonic speed one day and one night, because it is necessary. On a distant road, as long as one big direction is right, you don't need to take care of the other. If you are wrong, you can adjust it.

Now this environment cannot be done.

It wasn't long before everyone accelerated, and there was a roar in the distance!

The roar seems to come from the roar of some kind of beast, and the sound is very loud, and it is far away. It also forms some chain reactions, which directly cause some small avalanches.

snowman!

Although it has not yet been seen, the area close to Death Valley is approaching the darkness, and this vision has emerged, which reminds everyone of the snowman.

The monster is already ready to move, and everyone does not need to urge it again, and naturally accelerates again.

In the front, Shangguan Tianyuan was pushing his hands out and screaming: "Open!"

Although Shen Lang was interrupted by everyone, the eyes were still very sharp. I saw a mountain above the front and a batch of snowmen fell!

Because it keeps a fast hurry, Shangguan Tianyuan is ready for a spell attack, or else it will be too late.

When they approached, the snowmen who fell from the top of the mountain almost reached the height of their flying, and they rushed directly to them!

From a distance, it looks like an avalanche. It was discovered in a close look that some beasts with whitened skin and white hair are similar in shape to cockroaches, so they have the name “snowman”.

However, the heads of these snowmen are basically three or four meters, far better than the average human being, and they are very fierce and not close. They have felt that a whole piece is a fierce killing. They seem to only tear people apart. If you eat it, you can stop it!

Chapter 1283 - Snowman army

Shangguan Tianyuan showed his strength. Although he only waved at the high speed, the first snowman who fell down in front of him was directly separated by him and fell to a few feet. !

He himself, who has followed his town Yuanzong disciples, has worn the past.

The latter person is a little passive, because there are companions in front of them, can not attack in advance, only after the arrival, and then attack the snowman falling around.

These snowmen have basically fallen to their height at the same time, so it is too late to attack the air in advance.

“accelerate!”

When Ji Sheng opened his mouth, he directly protected the entire area so that everyone could speed up and leave. The snowmen who had bitten over were all close to everyone’s feet and were blocked by invisible hoods, as if they were roaring through the glass.

Just a few seconds before and after, everyone has passed this paragraph, the snowman who fell behind does not stop, but quickly rushed to catch up.

There are still snowmen falling down, and in a short while, dozens of snowmen are chasing after everyone.

On the way ahead, there are still snowmen. They have their way of communication, but also the way of induction, and perhaps the king is commanding and driving in the back, they can rush to their route from different directions.

Of course, the bigger possibility is that these two days have already passed two rounds. The snowman has been alarmed in front. They have not gone far and are waiting nearby.

Watching more and more snowmen rushing from the front side, chasing them from behind, everyone wants to solve them first.

“Don’t be in love!”

Ji Sheng shouted and let everyone speed up.

This reminds everyone to follow the information that was previously familiar. The number of these snowmen is huge and it is impossible to kill. Especially after dark, they will be more mad.

So the best strategy is to quickly pass through this area during the day, and it is now close to the dark, so they have come out to hunt, but not yet when they are best played.

Now everyone’s speed of advancement is somewhat limited by the bucket law – the short board determines the water level. Ji Sheng Shangguan Tianyuan, their strength is strong, the speed can be faster, but it is necessary to protect the disciples like Ji Qiancheng.

Therefore, if they are weaker, they must play at the best speed, and if they are strong, they must wait for them. Otherwise, the strongest ones will go first, and the weak ones will be more easily trapped here.

Shen Lang did not shoot, he kept the speed that would not fall behind, and would not be particularly out of the limelight.

Now it is only the first battle that has come in the mountains. It has not yet reached the point where he is forced to exert his strength. Everyone should be able to support the past.

Shangguan Tianyuan is in front, there is Ji Sheng and another martial art in the middle. After Lu Yangdian, the four elders of the two have played the role of a big brother, protecting everyone well and giving full play to the “no war”. The style does not require weak shots such as Ji Qiancheng and Lu Feng.

Under such a process of catching up with the containment, everyone finally rushed through the area and left the hundreds of snowmen chasing them behind.

“There is a mountain in front, and going around in the past, it should be Death Valley!”

Shangguan Tianyuan said excitedly in front of him. His speed did not slow down, although the hundreds of snowmen behind him did not catch up, but the sky was darker and almost completely black.

Everyone has no words, follow him to the direction of the mountain.

As the saying goes, “Wangshan runs dead horse”, the area that is not Zhoushan is vast, even if the mountain is not far from the front, the distance is not short, and continues to go higher in the snow, everyone is not afraid Easy and careless.

Finally, with everyone’s rush, I finally reached the summit before completely dimming. However, they still can’t relax. They fly all the way. It won’t be downhill much faster than going uphill. Whether it can enter the Death Valley before it is completely dark is still uncertain.

When we reached the top of the mountain, everyone flew forward and observed the surrounding reference objects to determine the specific location of the Death Valley.

Now it will be completely dark at any time, time is limited, and you can’t stand the turning point. You must arrive in the fastest line.

But under the wait and see, everyone took a breath!

I saw the snow from the mountains and the mountains and the mountains!

These snowmen don’t know where they came from, nor do they know when they are here. From their perspective, it seems that they are preparing to besiege the Death Valley!

But as a group of them appeared on the summit, there was a snowman near the summit. After looking back, I immediately got up.

In the twinkling of an eye, the rapid and rapid relay spread, and all the snowmen in the mountains and plains were all looked back.

Probably it was discovered that so many humans, let them burst out immediately.

Immediately there was a fierce atmosphere that could be clearly felt, spreading rapidly from the top of the hillside and these snow people have already rushed to the top of the mountain and rushed over!

Ruined.....

Everyone involuntarily stopped, and the scalp was a bit numb.

Because these snowmen are different from the snowmen that attacked them just now, not all of them are two or three meters in size, and some have reached seven or eight meters high! And they are fast and the jump is very high.

Under such a huge number of hundreds and thousands, if a group of people wants to fly by force, they will only completely turn themselves into targets, and they will be directly hit and torn.

Pulling the height higher than the height of their vertical jump is a solution. But the problem is that they are not only going to cross the hillsides, but to enter the Death Valley, which is below the hillside and is their target.

Shangguan Tianyuan and Jisheng, they also exchanged a quick look. At this point, even the words are too late, and everyone can feel the other side's meaning with one eye.

Basically, there are two strategies. One is to go back, and they are still not in front of them. From the side of the mountain, they will go around and see if they can succeed.

The other one is direct rushing!

The former strategy basically has no time, returning to the back, and then detouring, and not to mention whether the snowman will be blocked, the sky alone will be black, and then it will be more passive.

So in fact, there is only one road, relying on everyone to go forward and give them more power in the dark, and quickly rush to Death Valley with the shortest route!

“Shen Lang!” Ji Qiandao exclaimed.

Several big sisters only talked with each other, and the time spent was in seconds, but before it was decided, Shen Lang had already rushed out!

Chapter 1284 - Light of the waves

When Ji Qiandao screamed, other people immediately saw the situation, including several big eyes of eye contact.

“on!”

Ji Sheng immediately ordered it.

They have just confirmed it. There is no way to do this. It takes a second to delay a second. If you rush out like Shen Lang, you can shorten the distance to Death Valley in a minute or two.

I have to admit that Shen Lang’s decisive decision is correct, but as the youngest one on the scene, Shen Lang did not wait until they ordered it to make their own opinions. This made the parties somewhat uncomfortable.

Of course, at this time, I don’t go back and pursue anything. I don’t have time to discuss the problem. Everyone must hurry up and catch up. Otherwise, the front wave may be shredded because of the greatest pressure. The people behind may also Not enough time and limited to the predicament.

It was at this time that they saw a surprise scene!

The front of the wave, do not know what magic weapon is used, vaguely seeing the hands forward, then the left palm shines a large piece of dazzling light, the right palm has a more glaring white light, washed out to the front.

The sky is already very dark, as if it is completely black at any time. At this time, the big light shines, and there is a sharp contrast, so that a large piece of the front is illuminated. The snow people swarming in the mountains and plains, scattered to the left and right, and the white light area formed a separate passage.

The other glare of white light is a direct attack. The snowman that shines is often directly penetrated!

“Follow!”

Shangguan Tianyuan immediately screamed, indicating that everyone followed Shen Lang.

Although the magic weapon of Shen Lang did not completely clean these snowmen, it is very rare to get them to open a road. This will greatly facilitate their progress.

But the problem has also come out. The snowmen are not really cleaned up, just escaping to both sides. The result is that the snowmen on both sides are more dense, and they are still rushing to bite!

In this way, they follow the words behind Shen Lang, and can follow the light, leaving a little distance, will be attacked by more snowmen!

Before I knew the information here, and after I saw the snowman just now, Shen Lang compared the brightness and the behavior of these snowmen. According to the legend, after the dawn, these snowmen will not appear, and after dark, they will be mad, and all aspects will be greatly increased.

This made Shen Lang think of the legend of traditional vampires. Before meeting Dorothy, he thought that vampires are a kind of monsters afraid of light, and scientific explanations are the magic of porphyria.

These snowmen should be very sensitive to the light source. All of them only dare to appear when they are near the dark and very weak light, and once they get into the night, they are the opportunity to play.

Of course, in this area of the Zhoushan area, there are possibilities. It is also possible to prohibit the ban so that they cannot appear during the day and only appear at night.

Since it can't be proved, Shen Lang can only try. It's impossible to know and challenge the rules of Zhoushan, but he can still be artificially made!

When he first rushed out, he was ready to send the glare directly to the sacred armor and illuminate a large area. Although it is not natural light, it is very intense and may also have a role for the snowman.

On the other hand, he prepared the magic weapon of "White Rainbow" and attacked it directly.

After illuminating, I found that the snowman madly fled to the two sides without light. This trend immediately made Shen Lang understand that they are the first reason – photophobia!

This may have problems with the body mechanism, and it may also have the same mentality as a wild beast.

And Bai Hong Guan, not to kill the snowman, is to shoot with the light of the holy armor, let those who can not escape, or desperately pounced. So I shocked the other snowmen and made them think that this is the role of light.

Everything was fast, and the waves were already a few hundred meters away, and the others immediately followed, but the snowmen that had squeezed on both sides, after the light of the Shenlang passed, naturally attacked the people behind.

"You go first!"

After knowing that the light is effective, Shen Lang has already made a big decision. He snorted quickly, and he flew higher above it, shining forward with one hand, and the other hand turned on the light below everyone.

Under the leadership of Ji Sheng and others, while speeding up to keep up with the deep waves, while resisting more and more snowmen around, the bright light shines, except for the glare that makes them feel obvious. It's the impact, but part of it has retreated, and some of it is mad!

However, some of the retreats also made everyone feel that the pressure was plummeting. In addition, the front of the wave has already opened a road. Except for Ji Sheng, who opened the snowman, everyone else accelerated to the front.

The Shenlang at the top is also keeping the same speed as everyone. The hands are like searchlights, giving you a road, and also using Baihong, the constant "point shot", let some fly Pick up the snowman who wants to attack him and drop it.

With such a convenient condition, everyone is flying faster and faster. After a while, most of the past has passed, and Death Valley is already in sight!

And by this time, the darkness has come safely! Except for the light shining from the waves, the surroundings are almost dark!

These snowmen are as good as they are, running faster, jumping higher, and each attack is more fierce. Their eyes began to glow in a secluded green light, and they were even more surprised.

And just this time, let them have some adaptation. The snowmen in the mountains and plains will always have some more fierce and fierce. They will rush to attack the crowd regardless of the glare. There are also some directly smashing large stones and rushing over, both for blocking light and for weapons!

In addition to these, they also realized that Shen Lang is a light source, so most of them went to attack it!

The attack on Shen Lang is also diverse. There is a large group of direct shackles, and then overlap each other. When the back is running, the snowman piles up and a lot of attacks hit the higher waves.

There are also two of them to cooperate, while jumping up, one step on the other side to borrow strength, and then pounce on the waves.

Shen Lang is not only a light source, but also shining on others, while he himself is completely in the dark. So in addition to his higher air, there is no scruples, and there is also a lack of resources for protection and teammates.

If someone is watching from afar, you will see hundreds of snowmen, leaping into the air through various cooperation, and rushing to the waves!

Chapter 1285 - Dazhan Shenwei

Although the front of Death Valley is close, everyone is also the fastest speed, but there is still a little distance.

Now that the snowmen have adapted and become more fierce, if Shen Lang withdraws the light source, there will be countless snowmen immediately, and block the distance from them to Death Valley!

Because they rushed down from the summit, most of the snowmen in the mountains and plains rushed to them, but because of the speed, there are still quite a few people who are near the Death Valley.

So after they crossed a half distance, those who had not been able to rush past were directly defended in place.

In addition to the rapid rush, Shangguan Tianyuan and Jisheng, both of them attacked the snowman from both sides and above, while paying attention to the situation of Shenlang.

When they found that most of the snowmen were cooperating with the attacking waves, they were anxious. This is not the time for personal feelings. If there is no “magic” lighting for the waves, then everyone will be trapped in the quagmire near the Death Valley!

It is these peaks and half of them that can rush over, but the other half of the fairy, still very entangled by snowmen, the number is too big!

It's Lu Yang, and I can't watch Shen Lang's death here. The Lingmai hasn't figured it out yet. If it's still on his body, it's inevitable to find a way back!

Just as they were preparing to separate people to protect the sinking waves, suddenly, there was a dazzling flash of light, so that their old eyes were almost hedgehog!

Shen Lang has always kept a cover for everyone. For the snowman who attacked him from all angles, he turned a blind eye and did not even use Bai Hong to turn around. There is no way to do this. The light source of the holy armor is in the palm of the hand. If he raises his hand and uses the white rainbow, it will make the following people lose their light protection.

In the eyes of everyone and the snow people, it is not a blind eye, but there is no way to sacrifice themselves to fulfill everyone.

But in fact, Shen Lang is already ready!

The speed of his journey is also very fast, so there are some snowmen flying up, but they are also empty, and some are hit each other. But there are still hundreds of different degrees close to his body.

When it was said that it was too late, the scene was a huge difference at zero and one second. At this time, Shen Lang manipulated the armor to send a flare!

Shen Lang did the best calculation through the Holy Grail, the height was lower than he is now, and then glided in the direction of the Death Valley in front.

The illumination bomb is of course illuminated from the light source to the surroundings without any difference. If it is launched too high, the half to the top is wasted.

At the moment, around him, there are a lot of snowmen who are approaching. They have no fear of attacking the waves. It is only a matter of height. Now there is a glare of glare, the more close you are, the more intense the glare!

These snowmen who are afraid of light, even if they have strengthened a lot in the dark, have been caught unprepared, not only the body is unbearable, but the eyes are even stabbed to see everything!

In this way, they are all lost in the air, Shen Lang does not need to deal with it, but the field with the protective cover, from the intensive attack circle worn in the past!

The poor light ignited the old-eyed Lu Yang, could not help but sneak in the sinister, actually did not remind myself.

Fortunately, they have reached this realm. Even if they are glared, they will be filled with discomfort for a while, but they will continue to move at a normal speed. Others did not look at the Shenlang, but found that from a bright light, to the whole film is as bright as white.

Those who have not been affected, of course, are accelerating their speed.

The sparkle of this flare has also affected all other snowmen. Because they have already determined the darkness, they did not expect to suddenly change things, so that they are all lost for a moment, the instinct of the instinct is low.

The general lighting bullet can illuminate for about half a minute, and the lighting bullets of the armor equipment, Shen Lang knows that it can last for one minute according to the parameters. However, to achieve the glare of the glare, that is, just after the release, the back is illuminated.

The reason why he did not use this first is that he is afraid of adapting. It's only used until the critical moment, and with a minute or so left, everyone should be able to grab the Death Valley.

After launching the flares, Shen Lang did not continue to shine on them, speeding up directly, surpassing them from above and going to the Death Valley in front.

Ji Sheng and others saw that the waves were fine, but they were relieved. The light of this time, they don't know how long they can last, but watching Shen Lang go ahead, let everyone catch up as soon as possible.

Shen Lang did not use the super-sonic flight of the sacred armor, but landed on the ground after surpassing them. The white rainbow has already been collected, and the iron rod appears in the hand.

At this moment, he used the “Heaven and Earth Domineering” and “Da Shou Mi Long Xiang Shen Gong”, the heavy iron bars flying fast, flying the snowman around the road like a scarecrow!

At the same time, his feet also displayed “Phantom Meteor Step so that even if you are on the ground while fighting, the speed will not be slower than others flying!

The people who flew behind and looked at the brave side of Shen Lang could not help but sigh.

Just now he dared to rush out first, saying that he was also a ruthless person, and he was arrogant by the magic weapon. Therefore, everyone is also admired for his courage and responsibility, not strength.

But now he is leading the way, in front of helping everyone to remove obstacles, the momentum is really a husband and wife to sweep the army, so they have to serve.

Shen Lang is certainly not a coward, and it is not a selfless self-denial.

He will do so, of course, to stand up!

In the current team of nearly 20 people, his two friends are just the end of the food chain, let alone two other sects, even Ji and Lu, Ji Qiancheng and Lu Feng, There is no right to speak.

Not to mention that Lu Yang and others in the Lu family still regard him as an enemy.

To be respected in this team and to gain the dominance, you must show enough strength!

From the outside, Ji Sheng and others should all recognize him, but his age will still make people doubt whether this level is really true.

Today’s World War I is the battle of Shen Lang to them!

Of course, he played very well, and the last time he was so happy, he was still a big army on both sides of the Deadwater River.

However, the output and the strength of the show have already been shown. Shen Lang has not cleaned up so cleanly for them. Instead, before the lighting bullets went out, they accelerated into the Death Valley one step ahead!

After entering Death Valley, Shen Lang observed the environment for the first time, but did not control the situation behind.

Chapter 1286 - Yao Chi Xuan

The real situation in Death Valley is actually to make Shen Lang stunned.

This can't even be regarded as a valley, just a corner of the valley. It is more like a cave. If it is not the entrance of a few huge stones, it may even be suspected that it is the wrong place.

However, as soon as it entered the Death Valley, the snow and the cold were not there. The contrasting warmth made the speciality here.

In addition to warmth, the inner walls of these boulders are also faintly light. If the outer flares are not extinguished, the contrast should be more obvious.

Without the cleansing of the waves, other people followed in soon. After all, they still have a dozen people, and the strength is not weak. In the last paragraph, the snowmen are only a small part if they are piled together, and the brightness of the flares still affects them.

After everyone came in, the flares were extinguished.

“There is no wrong place, here is Death Valley. Is it much smaller than you think?”

After coming in, I was looking at the situation inside. Shangguan Tianyuan was not surprised.

Shangguan Tianyuan this time against Shen Lang, reported his appreciation of the eyes: “Ji Jia this friend, it is really unstoppable! Just now we have lost a small friend!”

Shen Lang is in the same position as Ji's family. Apart from knowing more about Lu's family, the other two factions later are not clear about the details. Shangyuan Tianyuan of Zhenyuanzong, who had previously discussed with Ji Sheng, regarded Shen Lang as a rising star of Ji's family.

This made Ji Sheng listen, both a little happy and a little embarrassed.

I am happy that Ji Qiancheng and Ji Qiandao have a vision, and the Ji family also has a chest. As a result, I got a good helper. What is embarrassing is that this is not a person of Ji family. It is considered to be the representative of Ji's children.

Shen Lang nodded: "Everyone should do their part."

Shangguan Tianyuan nodded. "Yes! We are already a team. Everyone must do their part to make a trip to the ancient ruins of this mountain."

"The strength and responsibility of Ji Jia Xiaoyou, we all saw it. If you are grateful, you will not say more, everyone will learn!"

After Shangguan Tianyuan's simple guest set, he led everyone to go inside.

Shen Lang played well and was recognized by everyone. As a friend, Ji Qiancheng and Lu Feng are of course happy. It is also very embarrassing. People are so younger than them, but they are far from them.

Lu Yang is secretly cold, and the more the Shen Lang is showing strong strength, the more he makes him unhappy!

This is not jealous, but according to Lu Feng's description, Shen Lang is certainly stronger than him, and there are more magic weapons and the like, but the strength is still limited.

But now, and Lu Feng is not a level, in his view, this must be the use of the pulse of Shen Lang, in order to make rapid progress in such a short period of time.

Therefore, the stronger the Shen Lang, the more it is said that the spirit is consumed more, it is difficult for him to recapture, or the recapture is also ruthless.

On the other hand, the stronger the Shen Lang, the less likely he wants to pursue it.

But now that he has just come in, he is not in a hurry to start immediately, and naturally he has not shown anything.

Everyone followed the Shangguan Tianyuan and went inside. The light on the wall was just a shimmer, so he still took a luminous bead to light the illumination.

In fact, some of them want to let the swell of the waves. Because he can illuminate very far at the moment, in this cave, you can directly illuminate all of it.

However, they don't know much about what it is. It seems to be a magic weapon. Can't you let the home use treasure to illuminate it?

Shen Lang is observing and studying the situation in this Death Valley!

The comfort of the environment is only the embodiment of the appearance, which can make the snowman not dare to offend, and there must be deep things.

However, whether it is the moment of coming in, or the experience in which it is now, Shen Lang does not feel the existence of the formation.

If it is not the protection of the strong array, the snowman will not enter the border so that it will not come in. If it is a strong presence, the snowman should not be too close.

As everyone walked inside, the space was significantly larger, but it did not show the appearance of the valley, still the feeling of the cave.

“who?”

When everyone felt the end, they found that someone was there.

At the end of the Death Valley is a large hollow, which is not a shimmer, but a brighter light.

In this big cave, there is a man sitting on a stone. Watching them come in, listening to their openings, did not get up.

“It seems that someone has arrived first. The old man Yuanzong Shangguan Tianyuan, do not know the girl is Hemen He faction?” Shangguan Tianyuan called a greeting.

Seeing that someone is inside, everyone will be clear. It seems that the snowman gathered in the mountains and the outside is not only the alarm of the front, but also someone who passed by not long ago, causing their gathering attacks.

Everyone also saw it clearly. Sitting on the stone was a woman in black, and her face was covered with black crepe.

Shangguan Tianyuan’s age and strength are all there So I took the initiative to introduce myself first, and then ask the other person’s identity, this attitude has been very polite.

The other party obviously understands this, so I didn’t want to take care of it, but I still can only cope with it.

“Yao Chi, mysterious girl.” She responded faintly, but her eyelids were still drooping and did not open her eyes.

When I heard this, most of the people on the scene were slightly moved.

There is nothing unexpected about Shangguan Tianyuan, which seems to have been guessed.

However, it is not surprising that the world is a male-dominated world of comprehension. It is harder for women to receive the same resources and is generally not as good as men. Just like the ruins of Zhoushan, the sects seen in front of Shen Lang and the four genre families nowadays are not a woman.

This is of course related to danger, and risks can coexist with opportunities. There are not so many opportunities, female monks, how can there be more opportunities for superiors?

But this woman, I don't know when I came in, and it's still a person. It seems that it's not coming in from the common "entrance" of everyone. It's obvious that it's incomparable!

And when it comes to the past, the strength of the above-mentioned official Tianyuan, can not see the depth of the other side, but also see the mystery of the other side's exercises.

Therefore, with his age, he will be so polite. Because there are so few martial art schools with such powerful women, there are very few genres.

Like the martial art she reported now – Yao Chi.

Yaochi is a place and a name for a martial art. Their speciality is that the disciples are all women. Because of the lack of appearance in remote places, Yaochi always gives the impression that it is mysterious.

And their disciples born in the world are always extraordinary in strength, so the second impression is – powerful!

Chapter 1287 - close up

Hearing the name of the martial art "Yao Chi", Shen Lang has nothing to be surprised about. There is nothing surprising about this "mysterious woman".

However, he is also a bit curious, how can this mysterious woman come in alone?

He has been waiting at the entrance for several days, and it is entirely certain that the mysterious woman did not enter from the entrance, and it seems that she has just arrived here soon.

Of course, there is still a possibility that the mysterious woman laughed at him and Helan, and the four sons of Hongdian, and they came to the entrance earlier.

But why did she stay alone after she came in and could not explain it. It should be said that it should have already penetrated into it, and may even arrive at the ruins.

There is another point that makes Shen Lang surprised, that is, he can't see the depth of this mysterious girl!

Of course, he is also vigilant about such a person. It is also seen that the politeness of Shangguan Tianyuan is also for similar reasons.

“It turned out to be the fairy of Yaochi.”

Shangguan Tianyuan held a fist and then continued to politely say: “The fairy first came here, originally we were inconvenienced. But the environment here, I think the fairy is also clear, we can only take the liberty to stay together for one night.”

After that, he did not expect the other party to answer him. The attitude has just indicated that she does not want to talk more.

So he led the others directly and went to another corner.

The cave inside this cave is very big, let alone less than twenty people, even two hundred people, can also stand. Now Yao Chi Xuan female sat casually on a stone. In order to keep the meaning of offense, they deliberately went to the farthest place to sit down.

I could still plan another trip tomorrow, but now there is an outsider, and it is inconvenient to say more.

Under the instructions of Shangguan Tianyuan and Jisheng, everyone rested and prepared to hurry tomorrow.

And they are four big sisters, and together, they communicate with each other to discuss things.

Everyone is meditating and rejuvenating, restoring the energy consumed by the road and the battle.

Shen Lang is free to lie down and sleep on a stone.

He was lying down, but he was still curious about the mysterious woman, her eyes naturally smashed into a gap, paying attention to her movements.

Being able to come alone alone is not Zhoushan, Yaochi is enough to be assured of her, indicating that her strength is certainly very strong!

However, it is also possible that they have come to a team of several people, but because they did not enter from the “entry”, entered from other areas, suffered unexpected events, and finally left her to find and flee to the Death Valley.

This can also explain why she is not willing to talk to people.

When I was guessing, Shen Lang discovered that the mysterious woman was not scorned by the black yarn.

“You kid! It’s rude to peek at others. Did your parents not teach you?”

A voice passed over, naturally it was the mysterious woman.

It seems that she is still relatively keen, just for a while, I feel that Shen Lang is stealing her. However, she was voiced, indicating that she did not want to make a big noise, but the tone was very unpleasant and there was a trace of disdain.

Shen Lang is a bit speechless. He is only curious about Yao Chi. It is said that it is like licking her beauty.

Please! Even if you haven’t seen a beautiful woman, at least you have to see if you are a beautiful woman. You don’t see your face. Who can marry you?

He didn’t want to say more, too lazy to explain so much, and turned directly to the direction of her.

However, her attitude is to make Shen Lang have a slight reversal.

Doesn't that mean that I am not polite? Then I will look more!

He doesn't need to turn around now, use his knowledge, and he will definitely be discovered by her. But he still has the holy armor!

Through the reconnaissance function of the Holy Grail, he does not need to turn around, and he can detect everything in the entire cave.

Now it is more direct to the mysterious girl!

Just now, whether it was Shangguan Tianyuan or other people, everyone was polite. After all, the most "young" of them, Ji Qiancheng and Lu Feng, who are also forty or fifty years old, do not have much interest in female color.

Everyone is also respectful of the mysterious and powerful martial art of Yaochi. They are not willing to provoke any right and wrong.

So everyone didn't look much, just a simple look. The same is true for Shen Lang. Just sneaked over there, it is also curious.

Now it is really a close-up observation of the close-up, and immediately found that her skin is very smooth, even if the state of the high, good maintenance, at least not too old people.

Then he re-evaluated the layer of black yarn through the sacred armor, and then restored the face with the effect of infrared rays. It should look like a twenties, and it looks good.

However, this is the effect of the sacred armor mediation. The true content under the black crepe is still not clear.

In the analysis of Shen Lang's close-up, he saw that the other party continued to frown, but the mysterious woman could not blame him. He himself had already avoided it, and he did not have any knowledge.

It seems that she should still have a feeling of being peeped, but she can't tell where it came from.

In the end, she raised her eyes slightly, squinting at the back of Shen Lang with a slight lack of anger. It seems that he is licking him in the belly, and he suspects that Shen Lang is still thinking about him.

It's just funny to see the completely observed Shenlang.

However, he was watching in close-ups and found that this slightly raised his eyes, showing that his eyes were quite beautiful, and the more his face was like a beautiful woman.

It's just that Shen Lang didn't care too much. After all, he didn't see any beauty.

Now I have observed and analyzed. For the origin of Yao Chi or Xuan Nu, this time why I have been alone here, there is no answer, only the inquiry can know.

Shen Lang is not interested in continuing to investigate.

The reason why everyone chooses to cultivate is to maintain the best condition. And also keep the alert, in case people can rush in, then they need to be able to get up and fight right away!

But only Shen Lang is a person who is really lying and sleeping.

Because he is still confident about this death valley. Although the last ruins were opened thousands of years ago, this is the first stop after the entrance, the first "rest point".

After a thousand years, it is certain that some people will come in for adventure. When you can't get deeper, this station should be accessible to many people, so you can rest assured.

Besides, if these snowmen can come in after the dark days, they just lost their flares after they came in. They should be rushed in immediately, and there is no need to wait until midnight.

So he can completely sleep, rest well, and go on the road tomorrow.

Ji Sheng, Shangguan Tianyuan, they discussed what, Shen Lang did not manage, anyway, they are amnesty, let them discuss. He has already demonstrated his strength and really encountered big problems. Everyone will respect his opinions, but ordinary affairs are unnecessary and he is not interested.

Chapter 1288 - Night visit to the mountains

One night of tranquility, the snowman did not rush in, and their group and Yao Chi Xuan was also in peace.

When the next morning, the mysterious woman jumped up and went outside the cave.

Others immediately followed “waking up”, time is precious, if the snowman has retired, then you must seize the opportunity to leave. After all, you can’t hurry at night, and you have to race against time during the day.

Everyone is a little slower than the mysterious girl, but when they came to Death Valley, they could not see her!

It’s still snow and ice dancing outside, but all the snowmen have disappeared. I don’t know where they came from, and where they are hiding.

The traces of the battle last night, the tramples that were trampled on, and the snow-capped snowmen, the snowmen were all broken into pits, and the snow in one night was not enough to eliminate them.

Otherwise, everyone even suspects that last night was an illusion.

“The others have gone, let’s go!”

Shangguan Tianyuan smiled lightly, then stepped out from Death Valley, identified the direction, and began to hurry.

Of course, other people are rushing to keep up with the fact that people in Yaochi’s women can do it, and a large group of old men can’t be compared.

The next day is a full day of rushing, you can feel the pressure of not Zhoushan, like the wind and snow, the more you go up, but everyone has adapted, and overall, the speed is even faster. .

I didn't see the black-faced girl again on the way, and I didn't see the traces left by her. Occasionally, however, there are traces of the battle. From the depth of the traces, it is not the mysterious woman in front, but the group of people in front.

It is not known what the specific dangers are, but they are very smooth, and there is no danger in addition.

In the process of rushing to the road, there was another resting place similar to Death Valley, which was planted by the predecessors to cool the descendants.

Basically, there will be one point of rest for about half a day. In this case, it is naturally much safer. But the more you get to the back, the simpler the rest, often not a cave, a simple stone house built of boulder.

But these breaks are fixed protections that won't let them encounter attacks like snowmen.

There is no darkness in the evening, they have already arrived at the third rest point, even if there is still a little time, they can't continue to hurry. If they can't reach the fourth rest before dark, they can only be trapped in the darkness. It is.

When I entered the stone house, I saw the mysterious woman again.

The mysterious woman walked first, and the speed was fast, but it was also impossible to get to the next rest point, and I could only wait here. This time, I know that Shen Lang and others will follow closely. She chose a corner and tried to avoid getting close to everyone.

But now the space is much smaller than Death Valley, and everyone's distance is much closer.

Because the mysterious woman is still covered in black crepe, and her lower eyebrows are meditation, Shangguan Tianyuan has not greeted her again, and the fight continues to be safe.

Shen Lang is still lying and sleeping at random, others continue to take rest instead of cultivation.

But this time, it was not calm until dawn!

In the middle of the night, the sound of the outside whistling suddenly stopped and it became very quiet.

There is no natural light source in this stone house, so the pearl of Shangguan Tianyuan is not put away, and has always maintained a faint light.

The wind will stop at the snow, it is a normal natural state, but the snow and snow stop should be slowly reduced, and not as fast as the switch is pressed.

So suddenly silent, everyone wakes up, including mysterious women, everyone has been vigilant and fighting.

Everyone's knowledge was explored outside the stone house.

The second rest point and the rest point seen on the road are even simpler than the Death Valley Cave. From the outside, it seems that the snowman is also vulnerable, and you must keep abreast of the situation.

The same is true for Shen Lang. He still keeps sleeping, but he is the first to pay attention to the outside.

Just after the sudden stop of the snow, his knowledge has already explored. But the outside is dark, there is no glimmer, and nothing can be confirmed.

But one thing he can feel is that the snow is just resting near the stone house and quieting down, still in the distance!

So since there is something specific to this stone house.

Obviously, other people are also in a general situation, even if the knowledge extends to the outside, it is not because of the darkness.

Shen Lang stood up and walked to the door.

“Shen Lang! Come back!”

Ji Sheng whispered low and thought that this kid had to go out of his own hands. If he ran out at this time, what should I do if I was in danger? Going out will drag everyone down, and it doesn't seem to be moral.

In comparison, the other three parties can be onlookers, Ji family is difficult to ride the tiger, after all, he is with the Ji family.

Shen Lang turned back and nodded to him, saying that he would not go out.

This stone house is a pile of boulder, in fact, it is not too strict including the door is not, only a large gap can come in. But like Death Valley, there is invisible array protection, and snow and ice will not invade within the scope.

Now Shen Lang is in the doorway, but did not go straight out, but raised his arm, through the sacred armor, sent another lighting to the outside to pop up!

Just half of the others have turned their attention to Shen Lang, and half of them are still watching the outside. Those who are concerned about the outside, such as the mysterious girl, are addicted to Shen Lang.

Suddenly, the outside of the darkness was suddenly illuminated, and everyone focused on the outside, and also understood the purpose of Shen Lang.

Under the illumination of the flares, the situation outside is very clear. As felt before the waves, the snow stopped just around the stone house, and the distance continued to be as usual.

This is of course not a natural phenomenon, but is being manipulated!

Controlling the change, at the moment is just a hundred feet away, standing a huge one-legged monster!

“Hawthorn!”

Someone blurted out and said it.

Hawthorn?

Shen Lang is a little bit strange. He has never seen the foothills. He is familiar with the mountains in his memory. It is a kind of ghost described by the ancient Chinese books of the earth, or a race creature.

“Shan Hai Jing·Hai Nei Jing Juan” said: “There are giant giants in the south, human face long arms, black body hairy, rumors, see people laugh and laugh, lips cover their faces, because they just flee.” It’s the one-legged shackle. It’s said that people eat and say that they don’t eat people.

Then I think about the memory of Weiyangzi, Zhou Wei and others. The mountain that I said here is also a legendary monster. It is similar to the giant giant that Shan Haijing said. It is a one-legged giant who looks a bit like a human.

Chapter 1289 - Stone house

This one-legged giant is standing a hundred feet away because it is almost 100 meters tall, as if it were a bend, it would turn over the stone house.

In addition to a huge one-legged foot, its two arms are also very long. Although the whole person is a bit like a human being, it is still very embarrassing. It looks like a ghost.

Unlike the snowman, the white hair is different. It is long black hair on the body and the skin is dark, so it is difficult to find his existence in the dark night.

When it came over, it stopped the nearby snow. When they found out and the waves released the flares, it took a few seconds, so there was no movement in the mountains.

The flare that just lifted off did not form a fear of it. It is also living in the night, but not as sensitive as a snowman.

However, the sudden brightness also made its eyes attract the past, but it was still a bit uncomfortable. So when the flare flew over it, it directly reached out and took the past, and then flew the flare out, directly into the mountain wall. In the snow.

As the flares were shot and flew out, the night that had just been illuminated was once again dimmed. When surrounded by the snow, there was a glimmer of light, and everyone saw the one-legged giant Hawthorn grabbed it over the stone house!

Everyone has gotten up and ready to fight!

Shen Lang was a person who retired and lay down directly in the place just now.

His attitude made Lu Yang a very uncomfortable one. He felt that he liked the limelight. When everyone did not move, he was going to be alone. When everyone is ready to fight, he has to go back to sleep.

However, even if there is guilty conscience, there is no mood to say anything.

Because everyone feels it, a powerful force directly hits the stone house!

In addition to preparing for the battle, even weapons and magic weapons are ready. After all, this mountain has only heard of the legend, and has not personally encountered it.

Especially this one-legged giant has reached a hundred feet. So Ji Jisheng and others are also vigilant.

But soon, they found out that it was wrong!

Before they came in, the stone house looked like a few boulders on the outside, and they barely called it a stone house. It looked like a snowman could be overturned.

It is precisely because of this that everyone is preparing for the battle, but the result is not the case now. The powerful force hits the stone house and the boulder on the top is not smashed out. The stone house has not collapsed, but it is still stable. !

Then, it was another impact. The outside has been restored to the darkness, and the induction is unclear. However, from the strength of the attack, combined with the observations just now, it can be identified. This should be a one-shot giant punching from above the stone house.

The result was the same. I couldn't fly the boulder from the side, and I couldn't collapse the stone house from above. The whole stone house was still stable.

This result makes everyone secretly surprised. I don't know the great gods who built this resting point in history. What kind of array protection is used, it is so stable.

Then, everyone felt that the mountain monster was full of anger and began to destroy the stone house. Unfortunately, from the angle of the outer skin, it was impossible to destroy the stone house that seemed to be arbitrarily built.

It feels like an ordinary person is smashing a locked iron box, and that one can't break the score.

At the beginning, everyone was on guard and worried that the stone house would be destroyed. After a while, I was relieved a little and confirmed that the stone house was very protective.

But this mountain monster is tirelessly continually disrupted, and it is getting more and more angry, and it makes everyone worry. Even if there is a strong protection, it will be attacked more and more vulnerable, and it will eventually be destroyed.

So after relaxing for a while, everyone kept on guard.

After so much for half an hour, everyone is really relieved to come back. Since it can last for so long, other people who want to come in the past few days may have encountered this situation, including thousands of years ago, or this millennium. There are other people coming in, that is equivalent to bearing the test of how many times I don't know.

At this point, whether it was before the innocent of Shen Lang, or a little opinion on Shen Lang, they began to think that this kid is not simple!

When the mountain is about to start attacking, he can run back to sleep alone, even if he only makes a sleeping gesture, which means that he is far more calm than others.

Where is his confidence?

Is it the trust of the great gods who built the stone house, or is it because he discovered the endurance of the stone house?

Everyone has no answer, knowing that even if asked, Shen Lang will certainly be perfunctory, and can only give up.

However, the mountain did not leave, even if everyone relaxed, they still maintained a vigilance. Including the mysterious woman do not dare to completely ignore the outside attack.

Finally, after insisting for an hour or so, the mountain stopped the attack, and then did not hear the sound of it leaving, but after a while, the sound of snow and snow reappeared outside.

By this time, everyone is completely relieved. The destruction of the mountains is hopeless, and it has been retired.

After that, everyone kept the state of cultivation and continued to spend the middle of the night.

After dawn, it was the first time that the mysterious woman went out.

It is much better than Death Valley. After dawn, you can see it from the crack in the door.

After the mysterious woman left, Shen Lang and his party also got up, but they did not leave immediately.

“The day before yesterday we met the snowman. Yesterday was the mountain. This should be a period of time. There must be other dangers in front, but it is not necessarily a snowman and a mountain.”

Shangguan Tianyuan had a little bit of an attitude of not being the leader of the entire team. He organized everyone and was the first speaker.

Everyone listened and nodded. All of them had information about it, but the most clear one is the information of the snowman. Because in addition to the millennial ruins of the Zhoushan Mountain, other people have come in the adventures at the other time. .

So the snowman is seen by many people, leaving more information, and then it is more and more difficult, and the information is getting less and less, and the aspects are not the same.

Like the mountain is a legend, but no one is sure to come from the mountains, but did not say that it reached a hundred feet high.

“After these two days, it has basically been determined that the crisis will only happen in the night. So we must try our best to hurry in the daytime. My suggestion is that we are fighting for three breaks today!”

Shangguan Tianyuan said his suggestion.

Chapter 1290 - Help not help

When he said it, everyone immediately understood.

Judging from the current verification, these rest points are basically one in half a day. This is also very obvious, let the day come in, half a day, go fast, slow, in the dark, there is a foothold.

Yesterday they rushed for a day, and they crossed a rest point. When they arrived here, there was a little more time, but it was not enough to get to the next break, so they stayed there overnight.

If you want to catch three rest points today, it is equal to skipping two, and the speed will be 50% higher than yesterday!

Since entering the mountains, the more you go inside, the higher the rugged, even if they are more than half a cent, they can feel more and more invisible pressure.

And actually, yesterday, after they had the adaptation of the previous day, the speed has reached a fairly fast pace. Halfway through today, the pressure is great.

Ji Sheng thought for a moment, and returned a sentence.

“In terms of speed, the space we can upgrade is not too big. The time that can be won is the time to identify the direction.”

Because the road is far away, it is not always necessary to identify the reference object. For example, if a mountain peak is confirmed, it may take a long time to arrive. In a far place, the direction can be confirmed.

But when it comes to specific places, especially if there are some complicated environments, then they need to stop. Based on their own information, several parties check and confirm, and analyze the correct direction and route.

This piece adds up a lot of time, and now Ji Sheng means to squeeze time from it.

“I think this is the case... it’s still the first in safety. It can’t be wrong for the sake of quickness. Once it’s deviated, it’s not a break point, maybe the rest of the rest can’t be found.”

Lu Yang poured a cold water.

“Ji Xiong said that there is reason. Lu brother said that it makes sense. I think so, we are speeding up as much as possible. We can fight for a little more time on the road. In terms of identifying the direction, we can have one more. A little bit of time. If we can reach the third break point today, it means that we have skipped at least one more attack!”

There is also Yu Mingxun, who is a member of the Jiuxian School. He is also a realm of the same status as a few of them. He also has a say at this time.

In fact, everyone understands the truth, but they have different emphasis on the concept. Now, Yu Mingxun's words are to make the problem more thorough.

The explanation was so clear, and everyone had nothing to say, and they nodded in agreement with him.

Just hurry up and identify the direction a little faster, you can avoid more than one attack, or you can get it. It was fine last night, but what if the rest of the rest is not so strong? Or is the monster behind it more powerful?

“If you don't want to be late, let's go together!”

Now that it has been decided, it will start immediately, and Shangguan Tianyuan will make a simple agreement.

The four of them represent four sectarian families, and they have the most information. When they check the direction, they need to work together.

And above the strength, they are also the strongest, if they are dangerous, they still need to be topped.

So next day's hurry, they will be at the forefront, speed up the road, confirm the direction ahead of time and as soon as possible.

For other people's requirements, it is necessary to keep up, not to fall behind.

This is not a play. If everyone is getting faster and faster, once they fall behind, they will probably not be able to keep up.

The most obvious meaning of this confession is to remind Ji Qiancheng and Lu Feng that they are relatively weak, and they are afraid that they will not keep up.

When he finally left, Ji Sheng gave Shen Lang a look.

He is not convenient to speak out in public, so as not to hurt the self-esteem of other old guys, which means that Shen Lang will be in the final face of the team, once there is any problem behind, there is a powerful one to top it.

As long as they can hold on for a while, then the four of them will be able to react.

Shen Lang also nodded and said that he accepted the task.

Then a group of people immediately rushed to the road, and everyone was a man who dared to rush out for the first time. Of course, they could not waste more time.

The group continued to hurry.

This time, probably because I walked faster, I followed the mysterious woman a little closer, and occasionally I could see the traces of her pauses.

Everyone has a mental thought. Since they are all in one direction, the strength of the mysterious woman should not be low, and she is alone, and she can follow their team.

That way she can be safer, they can have one more person, one will not be a burden, but will be a helper.

After all, to Ji Qiang and Lu Feng, although they are forty or fifty years old, they will not be greedy for women, but if there is a woman who is qualified enough to have a grade, it will still feel quite good.

Of course, no one has shown this idea, but everyone is trying to speed up.

Anyway, it is also necessary to speed up the road. If you catch up with the mysterious girl, then everyone can naturally go together. After all, get along for two nights, you can also have a simple trust with each other just go out In less than half an hour, their expectations are fulfilled!

The mysterious woman is in front.

But it is not normal to catch up, but she has trouble!

One-horned giant!

It was the mountain monster that attacked the stone house last night!

It was attacked for an hour last night and it didn't work, and finally it went away. Everyone thought that it would be like a snowman. It was hidden during the day and could only wait until the night to attack again. The one who came across it was the one who came in behind.

I didn't expect this guy to come out during the day, but also know how to think about it. This is on the route that everyone left, leaving a distance in advance and ambushing here!

The first time the mysterious woman left, and rushed in front of everyone, naturally became its prey.

As soon as I saw this picture, I was not close. The Shangguan Tianyuan four people had already reduced the speed, and naturally followed by the speed.

"What to do? Do you want to help?"

"Help, Yaochi is also a righteous person."

"Helping her, we are too late to hurry. Can you count on Yaochi to pay back?"

"This is not helping, it is saving people! A large group of famous people can't look at a woman."

The four of them were quick talkers and they didn't let everyone hear them together.

Lu Yang, who is unwilling to help, thinks that since it is not Zhoushan, it should be the first priority. This mysterious woman is very proud and has a cold attitude towards everyone. Since she is so arrogant, she should bear the consequences.

She is not one of everyone's partners, there is no need to waste time for her.

But after all, only he is the attitude of one person, or only a minority to obey the majority.
