

First Strong 1301

Chapter 1301 - Relics

I haven't been close yet, and I have already seen the general situation far away. It is a peak that can't see the top in the sky. The top has completely disappeared into the sky, and the surrounding area can't see the margin.

It seems that this is not the main peak of Zhoushan, but also a very important mountain. This is where they are going, the goal is to be on the mountainside.

All the way has finally arrived here, everyone is very excited, speeding up to rush.

However, this road is still very far away. In the place where I can see it, with their degree, it still flies for a long time.

When I finally got to the ruins, Shen Lang looked at the data of the holy record.

There is no sea level data collected here, and naturally it is impossible to calculate the altitude. It's just that after a lot of places, a relatively rough plain data was calculated as a reference object, and it's already two or three kilometers compared to the edge of the mountain.

And all the way to here, although there are climbing peaks, downhill into the valley, but the overall is continuing to go up, until now, the entrance to the ruins has been tens of thousands of meters.

This makes Shen Lang look at the huge peaks beyond the margins. Shen Lang is also a bit of emotion and awe. The height of the present is far more than the number of times in the earth. I don't know how much this is not the case. high.

However, he is not interested in exploring now. The mountain peak cannot be infinitely high. Since countless predecessors of the Han nationality are capable of crossing the mountain, there must be a huge seal prohibition.

Shen Lang will not, and there is no need to waste time on the road that others prove to be unworkable.

His talent is absolutely from the past life, placed on the earth, is already the first strong, but here, it can only be regarded as a genius among his peers.

The history of this world may be longer. If you think that all the geniuses in the history of the river can be powerful, it is undoubtedly arrogant.

The thoughts of Shen Lang are all in front of you. This is a long-standing relic, even if it is a thousand years, it may still be full of dangers.

When you look at it in the distance, this is a small point in the huge boundless mountain, but now it is at the relics. From this perspective, there is another scene.

Now they are faced with a huge gap. People are above the mountain and the angle is integrated. It seems that the mountain is being dug up.

Of course, he is only a sigh of emotion. This is a huge difference from the myth of the work of the workers. The ancient mythology of working together to touch the mountains is to let the world fall, so the west is high and low.

“There are more than one ruin. This is the first place. You can look for it again, or you can enter this ruin.”

The representative of Shangguan Tianyuan said a bit.

The meaning is very obvious. The team of four or five martial arts families, just from the entrance of Zhoushan, to the group here. After arriving here, everyone can be disbanded, willing to enter this entry, willing to go to other relics and go.

Enter the ruins, you can also team up with each other, or enter alone.

Needless to say, the pros and cons are also analyzed before everyone comes. This first relic has no doubt that the past generations have entered the most people, and other farther relics have entered less.

More people have gone, meaning that they are being opened bigger, and the remaining benefits may be less; but in turn, more people have gone in, which means that more organs are exposed to danger and relatively safer.

This depends on the choices and decisions of the parties.

After Shangguan Tianyuan finished speaking, he looked at Ji Sheng and others.

He did not have a particularly good relationship with the former group of people. In comparison, the temporary allies who have recently joined together in the same boat are also closer to each other. If he can, he still wants to go with them.

Everyone exchanged their eyes.

On the way to the present, everyone cherished the time. For example, the mysterious woman walked for a while and made everyone dissatisfied. It felt like she would grab something.

But now that I have reached the entrance to this ruins, I have really seen the status quo and it is calm.

They rushed from the martial art to the entrance of Zhoushan, almost half a month, from the entrance to here, almost ten and a half months. Therefore, from the time when the relics were opened, the time was almost a month old, and the huge snow and snow did not hide many traces.

Now I can't see how it happened, and I don't know how it will disappear in the future.

But the entrance to the ruins that light now shows is a huge mountain gap.

Obviously, this is a huge ancient relic, not a tree full of fruit, and will not be picked up by people first. This scale and time make everyone feel that the previous races are against each other. In fact, it doesn't make much sense.

The previous one was advanced for a few days, and now I have been caught up. I was also very anxious. Now I look at this scale and it is calm.

When everyone communicates with each other, the meaning of each other is very obvious. You don't need to say it. It may be a bit unnatural to say it. It's just a little more implicit in understanding the eyes.

They are not dragged, and they have a general direction. Soon everyone made a decision.

The previous person who caught up today decided to go to another relic!

In fact, no one can say clearly Another vestige entrance is another ruin, or another entrance?

But it is nothing. From here, there is no need to travel for another ten days, so they all decided to move on, looking for another entrance to the remains of this huge mountain.

In fact, the mind is also very simple. Some people have advanced in the past. The earliest come in, it is very likely to choose this place. And looking at the official Tianyuan they seem to choose here, then they are better to change one.

The four martial arts families along with Shen Lang may have similar ideas, but since they decided to go to the second one, everyone gave up.

"I wish you good luck!"

After blessing each other and cherishing each other, the group continued to move forward, and a large group of them began to prepare to enter the relics.

"I am very happy to continue with everyone..."

When Shangguan Tianyuan was enthusiastic about a few words, he was interrupted by Lu Yang.

"Everyone has already fought together the danger, there should be no danger inside the relics. Then let's go!"

Lv Yang arched the door to everyone: "Does anyone have to go first? If not, we are not welcome."

Everyone did not expect that he would want to leave in batches, but I think that everyone is not a close relationship, just a temporary partner.

This road comes in because there is no interest, only danger, so everyone can cooperate. After entering the ruins, it may not be possible. In the event of any good things, how do you divide them? Unequal distribution, or someone's greed, first hit it up?

Lv Yang took the lead, Ji Jia, Jiuxian, including Zhen Yuanzong, did not want to form an alliance again. Each encounters their own luck, good luck is not afraid of people to grab, and luck does not have to blame others.

Chapter 1302 - Not good

Since they are scattered, everyone has entered.

Shangguan Tianyuan still maintained a good demeanor, letting their three sects go first, and Zhen Yuanzong went to the end.

It's already here, and there's not much difference, and no one else has to say anything.

According to the original meaning, Shen Lang is still going with the Ji family.

After all, this time, Ji family took the risk of holding off Pu Zong and Chaotianmen to take him off. He is reading this love.

However, before entering, Ji Sheng asked a little bit about how to ask Shen Lang.

Shen Lang is not really a young boy, I will understand it.

He has already demonstrated his strength on the road, and he has been recognized by Shangguan Tianyuan and Yu Mingxun. Everyone thinks he is at the same level.

It is said that Ji Sheng should welcome more such a strong support. Even if it is not as good as him, it will be stronger than Ji Chuan, Ji Qianlong and Ji Qian. The performance of Ji Sheng in these days also shows that he is also recognized.

But now Ji Sheng means, but there is a point that he does not want to walk with Shen Lang.

This is obviously receiving the influence of Lu Yang.

Originally, if everyone had a dozen or so people and the four sects helped each other to guard against each other, then the Ji family would certainly not be a master.

However, Lu Yang's dissidents suggested that this concern be directly revealed. They have the benefits, they don't want to fight with others; if they are in danger, they don't want to be counted, so only their own talents are reliable.

Such a distraction, the "benefit" of Shen Lang and Ji Jia will be gone, "bad" is, in case of encountering resources that he and Ji Jia want?

Ji Sheng feels that he is not sure that he can hold down the waves!

Such a strong bond will become a strong enemy, even if he can protect himself, Shen Lang will read Ji Qianlong's old feelings, Ji Qianlong, Ji Chuan also trouble.

This is not impossible. After all, they are not very clear about the details of Shen Lang. Not to mention that this is a long-standing relic of the millennium, and huge benefits are likely to change.

Rather than having such risks, it is better to separate them from each other and there is no problem. You can still think about it.

Shen Lang immediately grasped the helplessness of Ji Sheng, so he took the initiative to open his mouth. "I thank Xi Jia for all the way, and enter the ruins. I have less experience and less information. I am afraid to drag everyone's hind legs, or go alone!"

"Shen brother, how can you drag your legs? I will be the one who dragged my legs!"

Ji Qiang is a little anxious. He has already made it clear these days. Shen Lang is better than him. It is stronger than the original in the meditation, perhaps using the relationship of the spirit.

Of course, he does not want the family to lose such a strong support, and it is more dangerous to sink the waves alone.

“Thousands of times, Shen Xiaoyou has his own plans, we are blessed, everyone still has a chance to see you again.” Ji Sheng said with a smile, Ji Qiancheng, which is equivalent to Ji Jiading.

“Goodbye!”

Shen Lang is also a smile, after the completion, directly flew into the gap in the mountain.

Ji Qiang was a bit puzzled, but since Shen Lang offered it, Ji Sheng did not retain it, and he could only sigh.

Shangguan Tianyuan looked at it, but it was interesting.

For the young man of Shen Lang, he still appreciates it. If Ji Jia is advanced, then he must try to recruit him and form an alliance with Zhen Yuanzong.

After Shen Lang entered, he did not pay attention to the situation of Ji Jia.

This is also a good gathering, although the Ji family did not actually help him, this is more than ten days, he is also valuable. But this personal feeling is what he remembers. If he has a chance in the future, he will still return it to Ji.

But apart, for him, of course, it is better, no need to carry a burden. – Ji Qiancheng, Ji Qianlong will inevitably be a burden!

As a family of Ji, encountering danger Jichuan Jisheng is not likely to give up both of them. This is also the Mesozoic generation that Ji's family took out to exercise, but Shen Lang did not have this obligation.

Of course, there are also places that are not so convenient, and that is information about the remains.

However, this relationship is not so big, and the four sects together will have more information. Just with the Ji family, there is more than one piece of information, and people may not be willing to share it.

In the days before the entrance waiting, Shen Lang had already screened the memory of Zhou Wei and Wei Yangzi, including Li Tianqing and Moran's memories. The valuable ones have already been left, and the others have given up.

So just like that person, there are some sinking waves that are also recognized.

Now he has a little bit about the memory of the ruins.

According to the information collected by Chaotianmen and Baopuzong, there will be a long way for the mountain gap of the entrance to the ruins to enter. After completely reaching into the interior of the mountain, it is a world without a hole, not a dark underground world.

The understanding of Shen Lang does not really enter the interior of the mountain that is not Zhoushan, but may be an independent small world, that is, the place where it is connected, there will be cracks and coincidence, resulting in natural passage. And after a certain amount of time, it will close because of some movement.

However, it is a small world of another space, or it is not important in this huge and incomprehensible interior.

He just needs to make sure that he follows this path to the end of , and there will be no other roads.

After entering the interior of the mountain, the light is getting dimmer, and one section is dim. Later, it is faintly visible in front.

As Shen Lang speeded up, he rushed to the place where the light was, and saw a huge gap, but he had a flaw.

Similar to his analysis, this should be the small world where the remains are located, and the place where the mountains meet!

No matter what the reason is due to the intersection, now you can go through the ancient ruins! And inside, there should still be somewhere to come out.

Now that there is a new Kunlun mirror in the door of the Three Realms, Shen Lang is actually not so worried about it.

So when I saw this connection, he had no worries and rushed straight. However, when I was about to approach, I slowed down again and looked at the side.

In the depression of a stone wall next to it, there are four people hiding in the house of Lu!

They should have used mysterious stones, so before they approached, they were like a stone. In front, there was a nine-sect of the sect. You can see the situation in the front, and Shen Lang did not examine it carefully.

It was just near the time that the gods discovered them.

“Shen brother...” Seeing Shen Lang look over, Lu Feng screamed a little.

Lu Yang did not have any embarrassment, flying directly to the side of Shen Lang.

“Isn’t that our genius boy? Why didn’t you join the Ji family? It would be better to form an alliance with our Lu family!”

“Okay.” Shen Lang showed a smile.

The person who comes is not good, the good person does not come. Since Lu Yang is here to wait for him, naturally he wants to count the accounts of the spirit! It's not easy for people to endure for half a month.

Chapter 1303 - Intimidation

Lu Yang has undoubtedly restrained Lu Feng and others, so this time it is immediately coming to the casual wave of Shen Lang, basically forming a ring encirclement.

Shen Lang had just fallen, but it didn't stop, so it was the time for this exchange, and everyone rushed to the front of the intersection.

After rushing in, the world is suddenly bright!

Suddenly, there is no cold and low temperature, but a suitable temperature for spring and summer. I have not seen the height of tens of thousands of meters, and I can't see the margins and the heights are not seen.

Everyone seems to be on a grassland.

Shen Lang is here, Lu family, these people are also there, and there is no seeing the intersection of the space around it.

In this regard, Shen Lang has had a lot of experience in the past two years, and has done analysis before, without any surprise.

His analysis is that this small world is not fixed and fixed. Maybe it is like a revolution of the earth. It may also be affected by this inconsistency and operate in some form. So every time a rough cycle occurs, there will be a gap in the intersection of the cracks, and then gradually close again.

If it is such a way, and this small world is huge, then different time comes in, naturally it will be transmitted to different places!

Of course, there is also a possibility that every time you enter, it is transmitted randomly.

Shen Lang is more inclined to have regularity. If this is the case, then everyone coming in and out, even if it is separated for a while, will not be too far away. And many people who came in a few days ago, He Lan, and so on, will have a long way to go.

However, the earth revolution reaches 29.8 kilometers per second, and the rotation is 466 meters per second. It is impossible to refer to the calculation here.

Therefore, Shen Lang does not pay attention to these things. Can you meet other people, whether it is random or random, it doesn't matter.

Lu Jia first came in, but he was waiting at the intersection. He waited until he came. Naturally, he probably knew such a situation. Only when everyone came in at about the same time would they be in the same place.

It has also been proven now.

"Okay, there are no other people here. You don't have to worry about Ji Jia supporting me. Is it trouble to find me?" Shen Lang took the initiative to break.

Lu Feng was very embarrassed and avoided the eyes of Shen Lang. He felt that he had no face to face the waves. But he was a member of Lu, and he was the weakest one on the scene and had to follow Lu Yang's orders.

"Very good, since you are so refreshing, we don't circle any more. Bring it!" Lu Yang said with a smile.

"What?" Shen Lang asked a question.

"Crap! Lingmai! The pulse you took from Lu Feng!"

Lu Yang's face is gloomy: "Lv Feng's strength is not as good as you, so I can only bully you, but don't think that we have no one in Lu's family! Now I will preside over justice for you, and you will hand over the spirit that should belong to him. I can let you go!"

After he finished speaking, the tone eased a bit and said easily.

“Not only can you let go of you, we can also form an alliance. In this incomplete relic, we can protect you, you can take you out and make sure that you will be safe! You know, it is very dangerous, you are Leave the Ji family, do you have information?”

He believes that he has already approved the lifeblood of Shen Lang.

Originally, I wanted to wait until Ji Jia and Shen Lang came together, followed everyone in a place, and then looked for opportunities. I didn't expect Shen Lang to go alone alone, which made him very happy.

Now that I am here, I don't need to worry about it anymore. I don't need to find another opportunity to directly press Shenlang.

“Lv Feng was fighting with me. I know how strong I was at the time. I met this time. Did I improve? In such a short time, what do you think is caused?”

Shen Lang seems to laugh and laugh at the sentence.

This does not need him to say it. The strength of Shen Lang is not the same as that of Lu Feng. Lu Yang has already guessed that he used the spirit.

It is just a short time. It is estimated that it has not been used up. It is better to return some of the defects.

“Of course, we can also change one way.”

Lv Yang looked at Shen Lang's “satisfied” look. He guessed that if there was a surplus, he should have used a lot. Fortunately, he already has another plan!

“Your tower, if you give it to me, I can smooth it out.”

When the Ba Tian Tower used to blame the strange fish, it made a great contribution. Otherwise, everyone said that they must not only sacrifice a magic weapon, or even more than one.

And he also noticed that when they dealt with the two iron armor, the mysterious woman shot down the red pterosaurs, and Shen Lang also absorbed them all!

This made Lu Yang think deeply. Those flying fish were forced to do so. These red pterosaurs are already dead. They don't want to waste, but they also broke through the inner medullary fluid. How can they be included in the tower?

Obviously, that would be another effect!

He claimed to be the Heavenly Tower, but it looks like a tower, it is a legendary artifact that can refine everything!

Although Lu Yang didn't know much about it, but according to Shen Lang, they all collected the red pterosaurs, and analyzed that they might be able to make them into a drug like so he can't get the pulse now. It is also a good compensation to get this suspected tower.

This is what Shen Lang didn't think of.

Asking for the spiritual pulse, although a bit of a strong word, but it is still awkward, it is indeed Lu Feng first spent a lot of thoughts planning, he is not grabbing Lu Feng, but also considered to be cheap.

But now I am directly asking for his tyrant tower!

"Lv Yang, I am now your face is really thick enough. I owe you? I still want to take my tower, do you want the old face?" This time, Shen Lang was not ridiculous, directly and satirical.

In addition to Lu Feng is still very embarrassed, the face of several people in Lu family has changed.

"Kids! Don't toast, don't eat and drink fine wine, good health talks with you, not because the old man has scruples, purely because of the feeling of taking care of Lu Feng, looking at Lu Feng's face."

Lu Yang is angry and angry: "Now, I will give you a last chance!"

They had already discussed it already. Now that he said this, the other three people are all prepared according to different directions.

Including Lu Feng, he is helpless, but he can only obey the arrangement.

Shen Lang nodded. "Since I gave Lu Feng a face, I also gave him a face. If you want to explore the remains first, there are a lot of good things in this ruin. You need to hurry up. There is no need to fight. You are alive and dead, really hate me, you can wait until you leave!"

Shen Lang is really giving Lu Feng face, because when Lu Feng left, he gave him a token and invited him to have time to play in Lu.

When he said this, he took the token and threw it to Lu Feng.

Lu Feng silently picked up and understood the meaning of Shen Lang.

Chapter 1304 - See also stealth

Lv Yang misunderstood the meaning of Shen Lang.

When he heard it, Shen Lang wanted to delay the time and then found an opportunity to marry them.

There are all kinds of possibilities in the ruins. If everyone is delayed, then there will be no time to take care of him. It may even be attacked by this kid.

So he sneered directly. "It's not a long time to deal with you. It doesn't matter, we still have a lot of time to explore the ruins."

"Shen brothers, or whether it is still worthy of peace. The ruins are a thousand years, and there are countless treasures inside. As long as you can get anything, you can make up for everything. We can still win."

Lu Feng was also persuaded.

He is very clear about Lu Yang's character, can let him abolish so many tongues, has reached the limit of his endurance, and then will not accept any bargaining, then it is necessary to directly.

Even if Shen Lang got the help of the Lingmai, the strength got a big refreshment, how can he be stronger than Lu Yang, let alone they still have three people.

In short, Lu's face is at least twice the strength of Shen Lang.

Lu Fengzhen blamed, can not betray the family, and now the persuasion of Shen Lang, is already to help the face of friends, I feel that it is good for the waves.

Shen Lang shook his head. "I know that you have a lot of time, so I am reluctant to kill you. I mean, when the exploration is over, how many of you can find a little treasure, when I kill you, at least I can still take it. It's not a waste of time to get rid of you.

Lu Yang is extremely angry

I have seen arrogant, I have never seen such a madness.

This is still to be regarded as a tool for treasure hunt, and then come to harvest again.

He really wants to repeat the words of Shen Lang, but still feels that there are many night dreams, and it is safer and more reliable to kill directly.

"Come on, see how many pounds you have."

"Wait, you have too much nonsense. Give me the opportunity to see you."

During the speech, Lu Yang and others who are about to take the shot suddenly disappeared and disappeared.

The place where they are now is a large piece of grassland. Don't look at the margins at first glance, at least with their eyes, not to determine the far distance.

Even if the Shenlang is too fast, and there is a strong flying magic weapon, there will be a shadow. Now it is disappearing out of thin air and it is gone.

Then think about "too much nonsense, give me the opportunity", Lu Yang could not help but scream.

"The area is blind and stealth, and dare to show up in front of the old man."

He had already restrained the surrounding fields, just to attack the waves and protect the Lu family, but now it is used to find out where the waves are.

In his view, this should be the use of "stealth spells", stealth spells are essentially blind, but high and low, because people can not really disappear completely, but can not see.

So the first time, he blocked the surrounding, and other people also cooperated with each other, so as not to interfere with his search, while maintaining a high degree of alert.

The countless grasses on the ground are all upright, as if they have gained the support of energy, and they are no longer individual individuals, but they seem to be one piece.

At the moment, Lu Yang's peace of mind can clearly sense all the subtle changes around him. If Shen Lang wants to leave when he is invisible, he will feel it the first time.

Because if you want to fly away, it will inevitably cause fluctuations in the air; walking lightly and gently will also alarm the grass on the ground.

Now a large area around the area is controlled by the Luyang field, and even the wind can't get in. He is equal to the environment, and there is no interference from other people. Only a little change is needed, and it can be made.

The other three, all maintaining a high level of alert, although not convenient to move, but the eyes, ears and gods are still constantly exploring the surroundings.

Originally, Lu Yang felt that he was so alert, even if it was a mosquito or an ant, he could feel it. But the reality is that it's a face. They all waited for half an hour and didn't have any movements.

Lu Feng, the three of them are a little better, Lu Yang wants to open the field, to feel the slightest change in the wide range, and then confirm the analysis, in fact, it is more difficult than the battle state.

Because of the obvious goal when fighting, just surround the enemy.

There are no traces of enemies, but it is certain that there are enemies, and the enemies are invisible. They may escape at any time and may attack them at any time. Therefore, it is necessary to take into account any slight change, whether it is the slight change of the airflow in the field, or the shaking of the crawling grass of the insect, it must be locked in analysis.

After insisting for half an hour without results, Lu Yang could only end up in the ground, confirming that Shen Lang had left, said a few words, let everyone be careful, and then leave here as soon as possible to explore the remains.

Shen Lang is of course hiding in the space of Tianshu. After entering, he is actually boring. Because of the time difference, he had to spend a hundred minutes in the outside for a minute.

In the realm of Lu Yang, stealth surgery can not hold him, and will inevitably insist on searching, then he must prepare them to search for an hour of heat.

So the Shenlang has simply cultivated it But now it has just entered the ruins, and nothing has been seen yet, so that he can't feel peace of cultivation.

It's hard to stick to it for two days. Shen Lang decided to go out. The outside world should have been around for half an hour. Lu Yang and others should still be on alert, but they can also kill them.

As a result, he reappeared, but there is no one on the scene.

However, Lu Yang's field has been blessed for half an hour. The impact on the surrounding environment has not been eliminated, so that Shen Lang can judge it. They should have just left.

This result made Shen Lang very satisfied. He did not speak big words just now. Lu Yang has already pushed him to this position. If you meet again, Lu Yang will definitely not say anything more, and will directly start.

Therefore, he will certainly not be merciful to Lu's family, even including Lu Feng.

However, the ruins are too big, and many of them have been explored by the predecessors. He can explore the scope is still limited, let Lu Jiaxian explore some, after getting things, then to clean them up, in order to gain another.

Therefore, even if he can't stand it, he thinks that he will attack one or two first and not kill them.

As for the separation, you can't meet it again. Don't worry, because Shen Lang is throwing the token back to Lu Feng. It is both a clear expression and a cover, and a miniature. The tracker passed his body.

At that time, Lu Feng was a bit embarrassed and helpless, and her attention was on the token, and she did not pay attention.

This tracker is no more than the ones in the Golden Mile, and those miniature detectors can detect the sound picture. And now, it's really tiny, it's just a positioning tracking.

Chapter 1305 - Giant building

Now I've tracked it through the G-3, not only to locate their current position, but also to move the trajectory.

In fact, they did not leave for a long time, but they went very fast.

Shen Lang does not rush to close the net, and now follow them, it does not mean anything, just need to find them before leaving.

Now Lu family is like a spy who he released. The area they explored will be reflected in the trajectory, which can help Shenlang improve the map. And from the time they move, pause, etc., you can analyze which are the roads, which are the rest, and which are likely to stop exploring the treasure.

This will broaden his map of the ruins and save him a lot of time.

Now, Shen Lang left directly in the other direction.

Although this grassland is vast, it is not innocent. Shenlang alone can use the sacred armor to accelerate. Although it does not advance at the supersonic speed, it can quickly cross the grassland.

However, there was a bit of Shen Lang who did not think that everything on the grassland was warm and beautiful, but when it left the grassland, it seemed to enter a completely different area.

It is also bright here, and there is no darkness or fog, but it is like the yellowing of the sun at sunset, and the source of the light is unknown. The whole color is so colorful. It has formed a strong contrast with the grassland of the blue sky, white clouds and grass.

Shen Lang immediately stopped, landed on the ground, and began to observe while slower speed.

Observing is that you can't see the sunset, you can't see the sunset, you don't know the source of the light, but everything around it is yellowish, it's still a bit strange.

However, after a while, I found more differences.

Not only the color of light, but the earth on the ground is also dry, and the trees are also yellow. It seems that just from the spring, it has entered the fall.

Shen Lang continues to move forward, allowing himself to maintain a full range of alert. The environment is very different and often accompanied by various risks.

At this time, in front of his side, I saw a circular mound, and immediately rushed over and looked at it, it should be a grave!

Around the grave, like the road that came over, there are dry leaves that are not stacked on the ground, and some are already decaying. There are some weeds on the grave, but they are also yellow.

Shen Lang observed the entire grave, but did not see a tombstone.

He spread again, and there were no other similar graves around him, which made him not sure whether it was a grave or a mound.

However, if it is a grave, it may not be an ancient ruins, but it may be a predecessor who entered the ruins in history. After all, the last time I entered, it was a thousand years ago, and it will be very old.

Of course, he did not have the interest in digging graves. Since there is no clue, he chose another direction and continued to move forward, but the speed was much faster.

Along the way, Shen Lang discovered a similar tomb, and as he walked behind, there were more and more graves!

He began to realize that this is not just the tomb of the predecessors, there should be the tomb of the ancient gods!

However, there is no special prohibition on those seen in the past, and he is not interested in moving. After the emergence of much more, I began to observe and pick it up. If there is a majestic construction, there is a special prohibition, it should be able to dig out good things.

Continue to go all the way, Shen Lang also tried several graves, no results, but also quite disappointed. However, the appearance of this ruin does not know how many thousands of years, tens of thousands of years, even if the scope is large, randomness of entry, it is possible that someone has come here to explore.

Only on the first day of the day, Shen Lang was not in a hurry and continued to move forward.

Finally, the scene in the front has changed. Although it is still the color of the yellow and the sun, it is not like a mountain forest, but it is like a huge square!

This is a square. It is said to be a plain. The scope is roughly sketchy. It is as big as a city in a third-tier city!

In the middle of this square is a huge cube building. The wall is very smooth. I don't know what the material is. It is more like the modern glass of the earth. From the design shape to the material, there is no vicissitudes of quaintness. There is a sense of future science fiction.

It is not surprising to see such a huge square in the ancient ruins of Zhoushan, but this huge cube building is somewhat inconsistent with the environment.

However, the interest of Shen Lang is coming. Since it is abnormal, it must have its special features.

He did not rush too quickly, but from the edge of the square, gradually to the middle cube building, eyes and ears are watching everything around, the Holy Ghost is also a full scan.

However, there is nothing special about it, until it is close, and there is no abnormality.

I have seen this cube building before, and I feel that it is very huge. It is because the square of the whole city is set off. Now it is close to the cube. It is even more majestic. It is roughly estimated that it should be several hundred meters high. The height of the floor.

Such a sudden cube building, appearing in the middle of this square, must have a role.

According to the general style this must be a very important place, the most common is the religious places like the church temple.

Such a big building, combined with such a place, has already made Shen Lang very excited. You don't have to go anywhere else. It is enough to explore the great treasure!

He immediately began to explore, but the first reaction was a bit strange. Because such a building, since it is very important, can still stand for many thousand years without change, it must be protected by a strong array of laws.

It is the array method, it should be able to achieve energy self-circulation, in order to be unbeaten for countless years.

But now there is no awareness of the existence of the formation!

For the surface of the building, which is hundreds of meters long and wide, it seems to be a whole, overflowing with streamer, as if it were a huge mirror.

Of course, it won't be glass, but it doesn't know what material to do.

Shen Lang tried to strike, and did not make any sound. In the face of such a huge artistic building, he could not bear to use iron bars to strike, or use a sword to try to scratch.

Then Shen Lang began to walk around in all aspects, and observed every aspect of every inch and every inch, and also recorded it with the sacred close-up.

Finally, Shen Lang flew to the height of the kilometer, looking at the cube and the entire square from above.

This further confirms one of his speculations, like the underwater world of the seas, and the mysterious house of the Golden Valley, which should also be a big combination of the whole!

The square of the whole city, even the world of the sun and the sun, is a part of the law, and the core of the supply is this cube building!

Chapter 1306 - No solution

But what makes Shen Lang a little helpless is that even if he feels that he has seen through this big pattern, he can't see the specific clues.

No matter the aerial bird's eye view or the observation of all the details, no signs of opening can be found.

On the ground around the giant cube, he tried to strike with an iron bar, and it was confirmed that the deep section was a stone like a surface.

This means that it is unlikely that you want to “dig tunnels” from the side, and people have already prepared for it.

Judging from the current state of affairs, he estimates that even if he uses a large force to use iron bars, he may not be able to open the building.

Because now it seems that this has been connected as a whole, the five sides of the cube visible, the area has reached hundreds of thousands of square meters, if all is solid, the volume will reach tens of millions of cubic meters!

Not to mention the connection to a large square in a surrounding city, and deep underground. It is even possible that everything that comes in from him is connected, so that it cannot be violently destroyed.

Shen Lang continued to swim around for a few laps, faintly recognizable, in the vicinity of the ground, there are signs of destruction, and these should be caused by the marching monks.

Perhaps this building has also been violently destroyed, but even the traces have not been left, only the ground stones have left traces.

This also makes Shen Lang secretly secret, not that he is smart alone, others can come here, you can also guess that there are treasures inside, but others can not open it.

There is no good way, and no violence can be broken. It is a time of delay. Once you have tried too many days, others may shift. You would rather go to other places and look for other treasures.

However, Shen Lang is now the first day to come, and for this unbreakable building, the more his fighting spirit, the more challenging he is.

Shen Lang's brain quickly searched for memories.

The memory of Wei Yangzi, Zhou Wei and others about the ruins of the ruins is not about this giant building. It can be seen that the people who come here, even if there are, will not be too much, so there is not much information to bring out, and it does not form a wide-ranging disclosure.

Then he recalled the various ways he had dealt with the formation, including the death forest, the hundreds of millions of ring arrays, and some experience in the Golden Valley, in the meditation, and even the past, and carefully screened.

There is no doubt that there is an inspiration for the situation here.

Any array of methods will have a line of sight. Any institution will definitely have a starting point, but the cleverness will be well hidden.

Since this is an ancient relic that does not know how many thousands of years, it can be passed on to the present, it must be extraordinary.

The feature of this array is “big”, and the place that opens is likely to be farther away from here!

Thinking of this, Shen Lang thought back all the way, and did not see a special place. Those graves are also unlikely to be related, so he decided to circle the square around the square to see if there are any other clues.

The square has reached the size of an urban area, and it has to be found along the circle around it, and the scope is large. And it's a carpet-style search, and the speed can't be too fast, and it will still take a lot of time.

However, it is just to explore this. Naturally, there are no ready-made treasures to collect, and the time is also common in months to years. It is precisely because of this that they sent the rain back to them.

Therefore, Shen Lang is not in a hurry, patiently began to search for a circle and circle, and constantly expand the scope.

Two days, two days a day...

Shen Lang directly spent time on the huge cube of this huge square. It has been used for four or five days, and it has completely searched around the front, back, left and right. It is not a clue.

This made him inevitably frustrated at the end. I think the predecessors who came here before are estimated to be equally depressed.

Seeing that it may be a Baoshan, it is impossible to enter the mountain gate. It can be wasted more time and can only be left first.

Shen Lang has already used all the methods that can be used, so there is still no clue, and he can only give up.

Although he has studied the battlefield in his previous life, it is not a world after all. It is almost the heavenly fairyland in the legend of China. It is a higher-level comprehension civilization. Even if many of the predecessors here are “flying” from the earth, it is their late stage. Many studies have no chance to pass back. The earth is gone.

For example, Gao Hanqiu and Lin Biaozi, who left from the peak period, fought and cultivated here, and the results of hundreds of years in the future, of course, are in the Qiulin swords, and may not be the inheritance of the Tianshan swords.

After another thousand years, the gap between Tianshan Jianzong and Qiu Lin Jianzong will only grow bigger and bigger.

Looking at the long river of history, the peak of Shen Lang’s past life, and far from the first person, the knowledge does not dare to say that it has surpassed the world. Just like he is now the first strongest person on the planet, but here is just a young genius.

There is no way to do this. In addition to the innate environment, there is still a problem of time development. The history of self-cultivation here is also longer than that of the earth, just as the technology of the river-state is far better than the earth, and because it develops earlier.

Such a gap has determined that even if Shen Lang is ten times or a hundred times longer, it will not solve the mystery here.

The gap in strength can be compensated by more time training This technological gap accumulated by generations of wisdom cannot be completed by closed doors.

A primary school student, giving it ten years, does not say exercise, naturally grows up to have the power of college students. However, if there is no one to guide and there is no new learning materials, it will depend on the accumulation of primary schools.

If it is useful to pile time, Shen Lang is easy, because in the world of books, he has a hundred times to grind.

Finally, he still can only decide to leave first.

Shen Lang chose a direction and left at a faster speed. These days have been delayed for a lot of time, he really is not interested in carpet search, go straight away quickly, and skip a lot of unimportant.

After two days of rushing, there was no big gain, and no abnormal situation was seen.

On the third day, it was already out of the “autumn sun” environment. There are no specific targets ahead, and Shen Lang pays attention to the situation of Lu.

The route of the route they took, the place where they stayed for a long time, the holy armor and so on have clear statistics, and on the fourth day, they are fixed in one place!

It's not that fixing a place doesn't move, so the biggest thing is that the tracker is falling, but the tracker is moving in a small range, and you can judge that they are stuck in one place.

Shen Lang did not care before, just as he himself stayed in one place. But now, they should have been staying for three or four days, and that should be developing treasure!

Without the target, Shen Lang directly took this as a target. The long line was to catch big fish. Now, I will go straight to the high speed straight line.

Chapter 1307 - Forwarder

When rushing to the place where Lu is located, Shen Lang could not help but look at it!

What is the luck problem, or is there a clue to Lu Jia really?

What they found was a building that opened the door!

I knew that I would follow them directly, and I wouldn't waste time.

Shen Lang did not feel much depressed, and quickly checked the situation nearby.

As for the positioning of the tracker, they entered the building, which means it is safe.

However, Shen Lang still has to master the situation himself, so that he can be assured.

This is a building that is not too tall. It is about three or five stories. I don't know if it's been destroyed, or it's not protected after it's opened. It's quite degraded, and it feels like it's going to be demolished.

After he checked all the surrounding conditions, he immediately went inside.

Carefully zoom in and fast forward the data of the tracker. After they got here, they should have gone upstairs and then went to the basement! It is still explored below.

It is also understandable that this is already the case, there should be nothing above. But if you come, you must first understand it to avoid any mistakes.

The same is true for Shen Lang. First, from the ground up, search the top layers.

Because there is no expectation, there is nothing disappointing for nothing. And the speed is very fast, and there is no delay.

When I went down the stairs, I compared the positioning trajectory. After the search was completed one by one, I went down again. The whole process was very slow. It is probably in the fifth floor of the underground.

It took almost a day for each layer, but it was not careful. It is estimated that there are any good things that have been searched by them. Of course, if there are any dangerous institutions, they should be stepped on by them first.

Shen Lang did not go down directly to the underground five floors. Anyway, he was going to ambush the Lu family, and they were not afraid to run on it. So still search one by one, nothing to understand the environment.

In the giant building in the past few days, no traces were found, and he was stunned. It's interesting to search now, even if it's empty.

In order not to let the people of Lu family find out, before entering, Shen Lang had taken the mysterious stone and held it.

He didn't have to spend a day on the ground, and the whole speed was much faster. The doors of many rooms have already been opened, which is very convenient for him.

However, the more you check, the more eccentric the face of Shen Lang, and there are quite a lot of incomprehensible places.

Half a day, all the above areas have been checked, and then down to the fifth floor.

Lu Jia has always been on the fifth floor, and Shen Lang also wants to see what they have harvested.

On the fifth floor, Shen Lang was more careful and avoided alarming them.

As a result, he was very surprised. On the fifth floor of the underground, he quickly saw the people of Lu. But the only one is Lu Feng, and the position is on him.

Lu Feng is now in a coma, but there are no other people around it!

Shen Lang inspected the fifth floor with his knowledge, and found no other people!

This result made him a bit surprised. Lu family could not have discovered the tracker. After all, it is a technology product, not a weapon weapon.

And even if it is discovered, whether you want to smash the waves, or you will count the meter, you should just put the tracker down, you can't stun Lu Wen.

They are a family. No matter what the benefits are, or what is dangerous, they can't even throw Lv Feng here.

According to the comprehensive analysis, it should be what attack they encountered, and then Lu Feng was injured and comatose, while others in Lu family continued to explore below. Because I have to come back, I am not worried about leaving him here.

Looking at Lu Feng, Shen Lang hesitated a little.

If you want to know the situation from Lu Feng's mouth, you should still be able to do it. You don't need to be forced. He should also talk about it. But that, it made him feel like betraying the family.

In this case, Shen Lang simply did not let him embarrassed, directly stunned when he was in a coma, mental invasion, and directly read his memory.

Of course, Lu Feng's memory of life is of little value. What is needed now is the days after coming in, especially after these days.

The micro tracker before Shenlang can only play the role of tracking and positioning. The holy armor records the running track and analysis time by positioning. But there is no more function, I can't hear the speech, I can't shoot the image.

So for the situation here, he is also even guessed.

But now I have the memory of Lu Feng, and through the “memories”, I quickly learned the real situation.

On the same day, they kept the reconnaissance of the “invisible” Shen Lang. They spent almost half an hour before Shen Lang returned.

The direction of walking, of course, is decided by Lu Yang. Now only Lu Feng’s memory is still unclear whether Lu Yang has clues or is simply misunderstanding.

On their way forward, they also encountered various environments. After a few days of searching, they came here, and then they went inside to search.

As Shen Lang learned, they first searched the above layers, but they did not get anything. Judging from the traces, someone is in front of them!

If someone came over the last time, it was a thousand years apart, and dust and the like would completely inundate all the small traces. Shen Lang saw traces, of course, thought it was a new trace caused by Lu.

But in fact, in addition to the traces of the Lu family, when the Lu family arrived, there have been new traces!

So while continuing to explore below, they are also guarded.

They are moving very slowly in the track of the tracker. In fact, apart from the detailed exploration, it is because of the carefulness, it is necessary to guard against the advanced people, because it is not sure whether they will attack them if they don’t know who the other party is. .

When they searched for the fifth floor, it was already a few days, but it was followed by others, and they have all been overtaken. There is nothing to gain, and they have to say that they are a bit wrong.

So at the fifth level, they are prepared to stop exploring the sixth layer and go straight down, no matter how many layers, directly down the bottom!

When the results are still not going on, some people come up from below!

Lu Feng was the first to cover the other side. As a result, he was stunned when he had not seen it clearly.

Lu Feng is not clear about the latter things.

These memories make Shen Lang a bit speechless, and the news is limited!

However, after all, it has a role to play. It is certain that more than one person from Lujia has arrived here.

From the analysis of this information, whether it is Lu Jia or Shen Lang, I feel that I may have encountered the first people who came in. Because the second batch went with them, they went to the entrance of other ruins. In the same batch, everyone has come in separately, even if they can happen by chance, the chances of being in front of them are relatively small.

Chapter 1308 - 3 acquaintances

Although Lu Feng's memory has been interrupted, the latter situation should be able to guess.

Lu family still has strength, Lu Feng was stunned, in addition to the raid, but also because his realm is the lowest, Lu Yang and others, must be chasing the past.

Even if there is information on the tracker, the record that has not been moved from here can be inferred from the time when Lu Feng was attacked, but they are all masters. They have to go up. The distance between these layers is up to several seconds. This is not enough. Recorded error.

So Shen Lang is not sure whether they are going up or going down.

From the time he came to the present, he has not found any traces of other people, or he has continued, or has already gone far.

Shen Lang integrated the information, did not pay attention to Lu Feng, and went directly below!

Just like Lu's decision, the details of each layer will continue to sweep down, and there will be no gains. Instead, let the following people explore a larger scope, so they will go deeper into the bottom.

Moreover, Shen Lang does not disturb the people below, and directly explores the gods.

He has to go, the speed is of course very fast, and each layer avoids careful search and exploration, and direct sense of the sensor to see if there is anyone, no one will continue below.

But soon there was another problem that surprised him. The building was far below the ground, far better than the ground!

After going down a dozen layers, there are still no signs of ending, and no other people have been found!

If it is not found that there are new traces, Shen Lang even has to wonder if he is trapped in a repetitive path.

It's just that no one has been found in layers, and he can't be sure if there are any people underneath, or they've already left.

When I walked to the underground thirty-three, Shen Lang only sensed that there were other people!

Although these dozens of layers down, he did not consume too much time, not as much time as the above five layers of flowers. However, the whole process is still very depressing, and people feel that time is very long.

Now that someone is there, he does not care about what he is exposed. He directly walks on the "Phantom Meteor Step" and walks quickly to the place where the crowd is.

At this point in time, Shen Lang has clearly understood the situation on the spot.

Not only are the Lv family three people, but they are too lazy to be both people.

To say that I have seen the long wave that has arrived, of course, I have seen it before. But those who are not familiar with it cannot be considered. Now these two parties, one is the first to come in Helan Yixiao and Hongdian four sons!

The other side is a one who is alone, and is more advanced than them.

The waves were layered down, and of course they were discovered, so now I'm not surprised when I look at him, but everyone's eyes are still on him.

"Kid, meet again! This is your own door to the door! Heaven has a road, you don't go, hell, no door, you are biased, hahaha..." Lu Yang smiled a little smugly.

Shen Lang slightly white eyes: "Although I am not like you are old, but I have seen a lot. There are many scums that have been defeated under the command, but others are self-righteous, like you claim to be hell, really Rare."

Lu Yang's face was black, and he just thought of it.

"What about hell? I just want to end your hell!"

He simply admitted it. Anyway, it was not a public occasion. Then he immediately said: "Helan smiles, and the four sons of Hongdian! I borrowed a favor today, and later helped me to take this kid down. I will definitely Will not forget your benefits!"

Before he had already gotten a steady look, he didn't expect Shen Lang to be invisible, and this stealth technique actually made him unable to find out. This makes him more cautious, preferring to borrow a little more reinforcements, in order to get ten stable!

"This one....."

Helan Yixiao and the four sons of Hongdian are all friends, so now Helan smiles and speaks.

Originally, they were preparing to greet Shen Lang. I didn't expect Lu Yangxian and Shen Lang to go up. Now it seems that this contradiction is not small. With Lu Yang's age, he even wants to borrow money. .

Although he and Miao Zhongtian are also the peaks and half cents, but from Lu Yang, there is still a little gap, Lu Yang and Huangfu Chiayi are the same age and generation, the realm is also a distance from Daxian.

Therefore, before He Lan smiled, he was still polite to his younger generation. At this moment, Lu Yang was directly ordered.

"...Lv seniors, not very suitable, we are friends with Shen Lang. Although we don't know what the two have, we don't help anyone. Of course, now we are among the relics, everyone should help each other, two If the grievances of the bit can be a big deal, of course it is the best..."

He can't offend Lu Yang for the new friend of the side of Shen Lang. It is good to say that they can't help each other.

Upon hearing this, Lu Yang's brow was slightly wrinkled. On the one hand, he did not expect that Shen Lang actually recognized Helan and laughed at them. He could be called a friend, at least he had dealt with it.

But he doesn't think Helan laughs at the loyalty of such a young man. He is not willing to take a shot at this time. It is very likely that he wants to take a profit!

In this ruin, there may still be various dangers, and saving strength is everything! If you don't say anything else, it's just the danger of human beings, you can't help it.

Lv Yang himself is such a state of mind, of course, I guess other people are like this He also quickly passed a look at the mysterious woman, this reflects the selfish woman, it is likely to wait for the cheap !

Before Shen Lang came, he was originally a joint with He Lan, but because the mysterious woman is a woman, she has not pressed her for the time being. If she really touches the interests, she must be directly involved.

In turn, if Lu Jia and Shen Lang lose both sides, the mysterious girl will definitely laugh with He Lan and they will work together!

“Thank you!”

Shen Lang gave a smile to He Lan.

The last time the two sides fought, he humiliated Helan's smile, and the four sons of Hongdian were even more injured. Although everyone said that it was opened, it was a bit of a taste of not knowing each other, but the losing side is not really heartless, but it is hard to say.

Now, He Lan can smile under the direct pressure of Lu Jia, and choose two to help each other. Shen Lang is very satisfied.

He Lanyi and the four sons of Hongdian also bowed their hands.

“Don't ignore him, the old crazy dog, now I don't want to play mad dogs. This Yao Chi girl, you alone dare to appear in front of seven or eight men, not afraid of sheep into the wolves?”

This opening, the atmosphere immediately became even more tense. Mysterious women naturally understand that it is Shen Lang who is separated from them, but she is among them, and it is dangerous.

“Would you like...we should pay attention to the situation here first? If you have any complaints, you can go back and drink a few pots of wine, or you can't solve it again. It's not too late. Don't waste time and energy on these things, explore the treasure together. It is a matter of importance!”

Miao Zhongtian also tried to persuade him, his ability to mediate in this respect, he would be stronger than Helan.

Chapter 1309 - Underground overview

When Lu Yang said that he was an “old mad dog” in Shen Lang, he almost started. However, his qigong skills are still full, and reason still suppresses emotions.

Originally, Shen Lang had that magical stealth technique. He had already lost his hand once. If you want to do it this time, you must hit it in the middle, so you will not hesitate to ask Helan for help.

They add up to eight people, and the environment here is harder than the last time, even if it is invisible, it is not so easy to move away.

However, now Helan smiled on behalf of the four sons of Hongdian, and said that he was a friend with Shen Lang. Can let them postpone his help, not a true friend or ulterior motive.

In addition, the mysterious woman has always looked dissatisfied, and Shen Lang has helped her.

If only the Lu family and the Shenlang conflict, if these six people are turning their backs to Shenlang, then they can round up the three of them!

After all, He Lan smiled at them and gave him the face as a predecessor. The strength may be worse than him, but the five of them are all challenged for decades and are stronger than the normal realm.

Even if he can hold on, the other two people have no choice at all. There are many Shenlang magic weapons, quite mysterious, and the mysterious woman can't see the depth.

So calculated, I was still prepared to get ten stables, and it became very dangerous to be at home.

Safety first, Lu Yang had to endure first, and Miao Zhongtian's words directly gave him a step.

"We and Shen Lang are indeed a bit of a holiday. But... as you said, you can wait for it to go out and discuss it. Now it is still a priority to explore the treasure!"

When Lu Yang said this, he did not relax. He must be alert to the sneak attack.

He Lan Yixiao and Miao Zhongtian two people, immediately sighed with relief.

It won't be the best. If you fight, they will be in the middle.

He Zhongfang, Zhai Zhongzhi and other three people sighed secretly. They are suffering in the hands of Shen Lang, of course, it will not be so easy to open. Miao Zhongtian and He Lan smiled and made a good deal with Shen Langhe. By themselves, there is no way to avenge their revenge.

So just now, they really hope that Lu Yang can clean up the waves. If you can't hear it now, you can't help but regret it.

"Shen brother, Lu predecessor has already let go, you put it down for the time being? Let's search for the treasure together!" He Lan smiled and persuaded Shen Lang.

Shen Lang's mind could not be guessed, and he did not dare to be completely relieved before he promised.

"Okay." Shen Lang smiled lightly. He had to use the Lu family, for example, if they were not allowed to go for a few days, they would not know this place.

"But you can't squeeze me out later. Let me talk about the situation first. You have already got something to fish!"

He Lan smiled and looked at Lu Yang, and looked at the mysterious girl, Shen Lang knows, the relationship is a bit subtle. Seeing that they didn't say anything, he didn't have any inconvenience to say one by one.

Helan Yixiao and the four sons of Hongdian are advanced for a few days, but they are transmitting farther. It was a lot of danger and I found it later.

Soon after they came in, they were the mysterious woman and the Lu family. They found it in different directions.

As for whether there are clues or pure coincidences, he did not say much.

The traces of the first search, of course, are five of them, but Helan said with a smile, they have nothing to gain. They also began to search for several layers more carefully, and later did not gain, it was rough.

Later, it should be that the mysterious woman came in, and Lu Jia came in.

The person that Lu Jia met on the fifth floor – who stunned Lu Feng, should be a mysterious woman, and all the way to the back.

None of them said that they had no gains, and of course the four people who came behind them would not have any gains.

Shen Lang looked at each of them. “Then you are now...? How deep is there?”

When he came down, he continued to see the traces of others passing by, and from that he felt that it was not a cycle.

But now there is another idea, will everyone be cycling?

If they are in the front, they are taking the circular path, then of course he will see traces. Just walking in the forefront, you should be able to see the traces, if no one has passed, there should be no trace.

He Lan smiled slightly and smiled: “Here, we met the girl, and a few of the Lu family. As for the number of layers below, I don’t know.”

It seems that they should have had a bit of a dispute, but it was because of the arrival of Shen Lang, which was temporarily stranded.

“Since everyone is coming for the treasure hunt, now it’s smashed together, it’s boring, but let’s see if there is any gain!”

The words of Shen Lang are to make a tone for the current situation in the Quartet.

The most people on the scene are Helan Yixiao and Hongdian Sizi, but Lu Yang is stronger than them, and Shen Lang and Xuan Nu are very mysterious, so they also have their own concerns.

For this suggestion, He Lan Yixiao and Miao Zhongtian nodded their approval, and Lu Jia and Xuan Nuo did not speak the default.

“Helan, you are the most advanced, and you know the most. I just looked at it and I went straight down. So I want to ask, even if there is no gain, you should have observed some. What?”

He Lan smiled a little more seriously and said seriously: “There is really nothing. We are all serious in front of us. It is because the findings are similar, but the layout is slightly different. There is no useful resource at all. Our speed has also increased in the future.”

It’s very unusual to have more than 30 layers underground, but from the top, each layer is almost the same, which makes them helpless.

“But... this layer is a bit different, so we paused here for a little longer, then they came down.”

Shen Lang’s eyes lit up: “What is different about this layer?”

He Lan smiled and pointed his finger at the back.

Because of the depth of the ground, there has been no light source.

When searching for several layers in the underground, Shen Lang was also preparing the light source himself. When the layer was skipped later, because there was no light, the gods could only sense whether there were any living people and could not detect all the details.

Now come, his attention is also on their three sides. The light source here is a bright pearl hanging above. It seems that Helan smiles and puts them, but the whole is not too bright.

Now that He Lan smiled and pointed to the past, Shen Lang only noticed the unusualness behind them.

Chapter 1310 - Dead water breaks again

He Lan smiled and pointed to the past, beckoning to let the pearl hanging in the air fly a little, and make the side more clear.

Now they are in the middle of the 35th floor of the underground. When they come over, they pass through some cloisters and the like, and now there is a space of about 100 square meters. And after He Lan smiled, it was a wall!

A wall is certainly not surprising. The space on this floor is very large. There are a lot of rooms separated by walls. Many of them have been opened before.

But the wall of this wall is a bit special, and the sinking wave is even more visible at a glance. This is the same material as the giant cube building he saw on the huge square before!

“One level down, a lot of rooms, we have all been in. But this room is very special, there are no doors around, we have been unable to open, so ... I think it should be a little weird.”

Shen Lang has seen this material, knowing that it is really unusual. But that is much bigger than this, and it is more integrated with the surrounding. It took him a few days to open it.

He Lan smiled that they would be stumped, of course, it was normal, and it is estimated that they will be used without any gaps. If violence comes hard, it is on the 35th floor. If the entire building collapses, everyone will be buried in the ground.

Although with their strength, even if they collapse, they will not die here, and even accelerate in the process of collapse. But once it collapses, there is no room for exploration below, and there is no way.

Even if I have nothing to gain, I still have a thought.

“Then everyone will explore it together!”

Shen Lang raised his hand and gestured for them to continue exploring. He himself gave up and tried it. It took so long to have no gains, and he couldn't waste production.

He Lan smiled helplessly: "Or you explore! We have already seen a few of them, and we can't see anything at all. Of course, because we can't see it, we feel it is special."

After the Xuan Nu and Lu Jia arrived here, everyone was deadlocked, and then the Shen Lang came over, so I have not had time to check it.

Those who can cultivate to their realm have confidence in their own intelligence. If you don't look at it, you can't feel at ease.

So at this moment, the mysterious girl and Lu Yang, they are not polite, and quickly looked around.

"Shen brother, don't be polite, you can also look at it, we all have hard revelations, maybe you can have something to gain." Miao Zhongtian said with a smile.

This is of course a polite statement. Anyway, they have no choice. Monopoly does not make sense. It has been developed jointly by everyone. Of course, it is generous to invite Shen Lang.

Shen Lang thought for a moment and nodded. "Well, then I will take a look. You can't find a way to know more. I don't think there will be any way."

He didn't want to be too special. After all, even if he had a giant cube building in the square, he couldn't open it, but he didn't want to expose it.

This is far less than the size of the square, the length of the ribs is only a few meters, and the top is covered with a ceiling, the bottom is pressed against the floor, and the five faces that can be seen become four faces.

They searched it all the time, naturally, without any results, and then began to search again.

Shen Lang also looked at it one by one. Like the conjecture, it seems to be completely integrated. It is made of that special material, and there is no opening portal.

However, this is indoors, in the ground floor, where it can be inspected, it is much more than outdoor.

Looking at Shen Lang and retreating to find nearby, He Lan smiled and said: "We have also seen the surrounding, and there is no agency."

Shen Lang nodded, but still checked it again.

Although there is no result, his brain and the data of the holy armor have been analyzed and contrasted in various aspects and angles for this special material building.

Finally he came to one of them and stood still.

He Lan smiled at them and began to look forward to Shen Lang. I want to see if this young man has any good ideas. But seeing him do the same thing as them, the results are the same, and they give up.

Lv Yang is disdainful to Shen Lang and feels that this kid is pretending to be a model.

In my eyes, the mysterious woman is even more loaded, and she does not even talk to other people.

Shen Lang will come to this side, of course, not casual, but after a variety of perspectives.

Before that, in the square, it was so huge, it might be a huge building with hollow inside, or it might be a solid totem building.

Now that this is in the middle of this layer, it should theoretically be used for "use." In this case, there should be a "door" to enter, and this "gate" should theoretically be opened in the most convenient place for more people, or the place that best fits this architectural design.

After careful observation, there is still no result. Shen Lang tried to reach out and touch
The material is exactly the same, and he feels exactly the same.

The last time I was there, he has tried to inject vitality. It has no effect. I believe they have
done similar attempts.

So after stroking the touch, Shen Lang did not try to inject vitality, he took out the dead
water whip!

At the time of the square, he once wanted to use the stagnant water to whip, but aside from
the speciality, it is also a huge piece of art. If it is solid, then the stagnant water whip can
corrode, it does not make sense, but instead Just a scar on this artwork.

This kind of concept makes it difficult for Shen Lang to hold back.

But now this is a small one, and there is, there may be below, you can also try it out.

Although other people do not know the power of the dead water whip, but look at him like
this, I also know that this is the preparation of the treasure is hard!

For a time, everyone's attention has been concentrated, and it is necessary to see if the
damage of Shen Lang has any effect. Of course, this must be a sword like a muddy sword.
If it is a violent destruction of the big movement, everyone will still stop it.

Shenlang's stagnant water touched one of the walls and immediately began to corrode
inward.

This comes from the stagnant water of the meditation domain. After all, it is still
overbearing. This unknown mysterious material is still being eroded!

Shen Lang's plan is to cut the wall out of a door like the one in the mysterious building in
Kanazawa, so that you can enter it and see if there are any treasures in it.

But just after the corrosion, it immediately sounded the alarm!

And the entire wall, this one-piece wall, all sides began to flash red light!
