

First Strong 1341

Chapter 1341 - Reversal of the situation

Many people even have a suspicion that this Mo Feifei is not a fake, or else it is impossible to explain.

The signboard of Qiulin's Jianzong is not the average person who dares to fake. Besides, the strength can't pretend that it can reach this realm, and it must be a big man, and it won't fake the fly.

This makes the atmosphere very different.

Mo Feiliu, the legendary old predecessor, is so respectful to Shen Lang. It is no wonder that Shen Lang can disdain Tianjia, Huangfujia, Chaotianmen, etc. This is bound to have great dependence.

Just those who wanted to help Zhou Yucun, and then regretted it, and fortunately did not really do it, or else there is no room for manoeuvre.

After the introduction of Mo Feiliu, the atmosphere became cold.

Then he did not ask Zhou Yucun what identity, but looked at Lu Yang: "Do you say that Mr. Shen is a murderous demon?"

"me....."

Lu Yang's entire face is dark, in his style, if you know that this is the head of the Qiulin swordsmanship here, where dare to say such a big talk, has long been shrinking.

I will be in the first place, because I don't need him to be in the first place. I just need to ignite it. In the early days, Zhou Yucun and Mu Tian yelled at them.

Now Mo Feiliu means that this is to point the finger at him.

“What kind of person does Mr. kill you?”

“no no.....”

“Who do you see who killed Mr.?”

“no no.....”

Lu Yang really can't say that at this time, he dare not say that Shen Lang has won the spirituality that Lu Jia can get.

Zhou Yucun and Mu Tian Dawei, who could have answered the first question, they were really killed. But the second question is asked, and they can't interface.

Because even Zhou Yucun did not see Shen Lang killing Zhou Wei. If they want to drill this hole, they can't give evidence.

However, listening to this, Zhou Yucun and Mu Tianda are a bit wrong.

What does this mean? It is clear that the Qiulin swords are more powerful, and the strength of Mo Feifei is stronger to press them?

“Mo Zongzhu, you are a predecessor, and you have been admired for a long time. You have to see it today, but you are not as famous as you are! You are a helper to help you?”

Zhou Yucun immediately followed: “Yes! He personally admitted it! Anyone on the scene can testify! Seniors can not use their identity to suppress people?”

Xu Haoyue stepped forward, and Gujing said nothing.

“Mo Zongzhu naturally will not do anything. But there is no door to the old, but it is only a nuisance to Qiu Lin Jianzong. If Mr. really kills you, I believe that you must be the first to kill him. Who wants to find Enmity, let me come!”

Mo Fei streamer is the identity to live in everyone, Xu Haoyue and Count Dracula's strength is also there, now Mo Feiliu has not expressed his position, Xu Haoyue said directly to pick up the past, what other people dare to say?

There are some big immortals who want to clear up, but they still leave a little bit of Mutian Daxie and Zhou Yucun, and then look at the waterfall and the waterhole, but Yu Guang pays attention to the situation here.

This is a good excuse for them not to intervene.

Just a hard wave of Mu Tianda and Zhou Yucun once again helpless.

Now, in this case, at most, the two of them have joined forces.

Zhou Yucun has already seen it. When he encountered a strong enemy to do it, Huangfu Jiayi, Lu Yang and others ran faster than anyone else, and now it is even more impossible to count on them.

The superficial strength of Xu Haoyue and Count Dracula is not inferior to the two of them, and there is no way to fight. Not to mention that even if there is no statement, the tendency is already obvious.

"The predecessors said that I have Qiu Lin's pulp, and we also believe that Mr. Shen will definitely not kill innocent people. Therefore, I am not in the identity of Qiu Lin Jianzong, as a personal identity, but also willing to pick up under."

When this statement came out, everyone was shocked again.

The shadow of the human name tree, the name of Mo Feiliu, represents the meaning and influence, has a great enhancement effect, just like Lu Yang changed before and after he knew his identity.

His voice, the effect is much stronger than Xu Yuyue's words.

Moreover, there are many layers of meaning in this statement. Both of them said that they are guests. He called Xu Yuyue as a “predecessor”. It is obvious that they are not the guests of ordinary friends, but they have a lot to come.

Even Mo Feifei must be called a predecessor. How old is it and how old is it?

And this is a predecessor, and is also respectful to Shen Lang!

Even if Mo Feiliu let go of the identity of the sovereign, the individual is also the only surviving figure in the high morality. He even uses his personal reputation as the platform for Shenlang. It is also determined that the killing of the squad is because of the killing!

At this moment, all of them secretly breathed a sigh of relief, and felt that the waves became a mysterious giant and could not see his background.

“It seems that I still underestimated this kid, but it is quite a bit.”

When Xuan Nuo heard the words of Master, she could not help but nod.

The scene just now really gave her a feeling of being overwhelmed.

I thought that Shen Lang would be a group of people in the big fairy. It would be a miracle to escape invisible. I didn’t expect someone to come to him, and a few people who came here are not the attitude of ordinary friends. The legendary old patriarch of Qiu Lin Jianzong is so attitude.

She can’t describe her shock, and it is normal for Master to be able to look at it.

Mu Tianda and Zhou Yucun two people, this time is difficult to ride the tiger, their most worried situation appeared, Mo Feiliu also directly expressed his strength. Doesn’t he represent the patriarch of Qiu Lin Jianzong, is there any difference? His personal strength is an insurmountable mountain!

When Shen Lang and their confrontation, the situation was one-sided, when Shen Lang was a weak party.

Now, on the other hand, it is a bit of a one-sided, but the Shenlang side is strong.

This situation is not to the extreme, but to the extreme. Now that Mutian Dayou and Zhou Yucun are two, I don't know what to do.

If you fight, you will lose no doubt. If you are old, you will not find death.

If you don't fight, the reputation can't be saved. Although such a situation can be worthy of understanding, it is still being shameful.

Although Lu Yang did not directly face the front, but now it is also nervous to die, Mutian yells at them, how much can still withstand, if you want to move him, it will be easy to kill!

And before Mo Fei asked him, instead of Zhou Yucun, there was also a clear meaning of killing chickens and monkeys. He will be the one chicken! So he always has the idea of running away, but he can't run, where can he run?

At this time, someone whispered "Breakout"!

Originally, most people have already looked at the waterfall pool, and they all saw this picture for the first time. When I heard this, Zhou Yucun and Mu Tian, who had been riding the tiger, and Lu Yang and others, secretly sighed with relief.

Finally have a chance to avoid the war!

Chapter 1342 - Fairy-known fairy palace

Rarely, "God" gave such an excuse. Mutian Daxie and Zhou Yucun certainly took hold, and immediately turned to look at the waterfall pool, more focused than anyone else.

The eyes of Shen Lang and Mo Feiliu were also attracted by the changes there.

This waterfall is a large fan shape from 270 to 300. From the height of the cloud, the water is rushing. But just now, as if it had been shut down, it suddenly stopped flowing.

When everyone looked at the past, half of the 6th continued to fall into the pool. The pool that was originally rushed by the rushing crash also quickly calmed down.

Everyone was holding their breath and staring at the middle of the pool.

Sure enough, as the legend shows the temporary interruption of the waterfall, will there be a passage in the ancient fairy palace?

Is this fairy palace under the waterhole? Still above the waterfall?

Just when everyone was expecting it, the middle of the pool was suddenly a rainbow-like halo circle!

“go!”

“It must be!”

“fast!”

“Imperial Palace entrance!”

Everyone screamed, and then rushed to the rainbow circle and flew over.

At this time, who is advanced and who is going forward, mainly depends on the speed of the degree, but in fact it is more related to strategy.

Some strengths are fast, but don't want to eat crabs first, let others try them first. Some people will worry that this rainbow circle does not know how long it will disappear. If you wait and see for a long time, you will miss the opportunity.

Of course, some people feel that it doesn't matter. Since it has been proven that it will be true, let others be advanced. If you miss it, it is just a summary of the time, and then go in after an hour.

Shen Lang has limited understanding of this place. Xu Haoyue and Count Dracula came from the earth like him. He would not know more than him.

So this time I looked at Mo Feiliu.

Qiulin Jianzong was founded by Gao Hanqiu and Lin Biao hundreds of years ago. His history is not long. No seniors have experienced the last ruins. However, after all, it has long been a foothold in Tangcheng. It is the center of the world, the convergence of information, etc., and the sky is far behind.

Moreover, Tangcheng itself has some long-established martial art, and some old sects have been destroyed by Qiu Lin Jianzong, so their background is poor, but for hundreds of years, the information base and other aspects have been caught up.

Mo Feiliu did not have a lot of guest sets, and nodded directly to Shen Lang, indicating that he could enter.

And the three of them came together, and they should have known the situation before.

So the four of them also flew past.

Zhou Yucun and Mu Tian yelled at them. Because they avoided embarrassment, they were the first to go after the fear, but the rainbow circle has a limited scope, and two or three people can enter. More people can only wait.

When they were flying over, they had already squeezed into the rainbow circle. Whether it was a half-sex or a big fairy, they couldn't help but let them enter, let them enter first.

Shen Lang and others are also polite and directly plunged into it.

In the moment of entering, Shen Lang immediately figured out that this is a space portal!

After being sent in, no matter what happened, everyone will immediately observe the situation around them. What you see is a bright world, then there is a street, a building, etc., but the architectural style is a bit odd.

This should be the ancient fairy palace!

The architectural style of Xiangong is different and normal.

But Shen Lang is stunned!

Because this gives him a familiar feeling.

I have not been here, but the architectural style here reminds him of a place – the Bihai family.

The place where the Bihai family lives is far larger than the palace, and the city is at the center, with great protection around it. The outer ring is a tall building with different families living in it, and the middle of the house where the owner lives is a huge ball building.

Inside the ball is like a simulated small world. The inner wall above the ball is the simulated sky.

Now it is the same here. Seeing the bright sky, it is a similar inner wall. Combined with other surrounding conditions, this may be in a giant enclosed building or an underground city.

At this moment, he even suspected that he was relieved of vigilance and let the system successfully control the holy armor, which actually affected him and showed him some pictures of the virtual watershed city-state.

“How do you feel?” Shen Lang asked casually, and let them describe it.

As a result, Xu Haoyue and Count Dracula from the Earth felt very strange. They learned more about Count Dracula after joining the WTO and even said “the sense of science fiction world.”

At this point, Shen Lang has basically confirmed that, regardless of whether it was the era after the watershed city, Bihaihuan, at least this is a relic of ancient scientific and technological civilization, it can be confirmed.

This also made him not expect much from this “Ancient Palace”.

If it is a underground city of technological civilization, then there will be no comprehension resources like the buried research institute that has been in the past.

However, there is evacuation and evacuation. If there is no such thing, perhaps in Lingshi, there will still be some gains.

“We also search for it, this fairy palace is estimated to be a bit exaggerated.” Xu Haoyue laughed.

“Divisional action! Can expand the scope of the search.” Shen Lang agreed.

“Just...” Mo Feiliu was a little hesitant Before he came here, he didn’t know that Shenlang would be here, but since he met, this is a respected friend of Master, and he must be well protected. So he can not care about his personal reputation, but also to support the waves.

Now that I have entered this “Xiangong”, the environment is much more complicated than before. If they are separated, Shen Lang will encounter them in Zhou Yucun, and they may not be able to rescue them.

“Do not worry! Have your reputation, it is enough to hold them. Really encountered, may not dare to kill me.” Shen Lang smiled: “Moreover, I also have life-saving means, it is not so easy for me to die. ”

Xu Haoyue nodded and said: “I believe this. I can’t be sure that we can be on time, and there must be another trick.”

For Shen Lang, he is also deeply admired. Therefore, before Shen Lang is still in the realm, he can be respectful. Now that I can grow to this level, I dare to be alone in the past. He is absolutely confident and confident.

Mo Feiliu did not have the confidence that he was as fascinated as Shen Lang, but since Shen Lang said, he still obeyed the arrangement, but he felt that he was paying more attention to it. Once the current wave was dangerous, he immediately rushed over.

Of course, Count Dracula has no problem, and he can handle it separately.

When other people came in, they moved forward as they watched, so after they decided, they began to separate from each other.

Shen Lang is the last one. He is separated. To put it bluntly, he is to be beaten because he still has his own secrets.

If everything is true, he is the “world god”, as long as the control system is found here, his authority should be directly controllable.

Chapter 1343 - Energy zone

“How are you alone?”

When Shen Lang was about to leave, the mysterious girl and her master came in.

Probably the relationship between women and women, do not want to squeeze with other people, so they wait until the end to come in again, if you can't get in, just wait for the next time.

So when they appeared, many people who came in after Shen Lang had left, and he was left.

“I am used to one person.”

Shen Lang said a faint sentence.

The mysterious girl was speechless for a while. She said that she was alone. It was said that there was no Mo Fei flow to protect them, and they might be chased by Zhou Yucun and others.

However, she was a little gratified. Before she put her face down and actively stalked the waves, he was so disgusted. Now it seems that it is not aimed at her, but it may be a personal style habit.

“Young man, who is your master?”

The master of the mysterious girl asked me.

“Why tell you?” Shen Lang directly asked one.

What about Yaochi? He doesn't have any special feelings. Even compared to how a mysterious woman is still a young beauty, her master is really an old woman.

Therefore, since the attitude of the other party is not very polite, he responded even more unkindly.

The mysterious woman was anxious and anxious, and explained it quickly: “Shen Lang, this is my master Liu Yunxian.”

“Oh.” Shen Lang promised, and he directly left.

“It's too rude...he has always been like this...” Xuan Nv's explanation with Master.

Flowing Cloud Fairy touched the head of the mysterious woman and said nothing.

If Shen Lang is just a deep wave, she will be angry and sneer at this attitude. However, even before, Mo Feiliu was respectful to Shen Lang, indicating that this kid is a proud capital.

Therefore, she did not care about the attitude of Shen Lang, but she was only worried about her love.

As a disciple of Yao Chi, there is little contact with men. This time, the mysterious female tells the story. After the accident, she knows that she has been on the same schedule with

Shen Lang's group of people for more than ten days. Others are middle-aged and old. The waves are the same age.

Once again, the two people are also mutually supportive. The apprentice has unconsciously already had feelings, or else he will not care so much about his comfort and will not be nervous because of his attitude.

Unfortunately, in the eyes of the other party...

Liu Yunxian can not say this layer, can only expect everyone to go back safely, no contact in the future, may forget, this time is a life experience.

Shen Lang just did not go, but also because of searching for information. By scanning the architectural style here, the rainbow circle that has entered, etc., is compared with the information of this ancient era.

Just left directly, I don't want to be entangled with mysterious women. Now she is not only one, but also one more master. This is really a senior, and it must be more savvy.

The data has been compared. According to the clue, this ancient fairy palace is a large resource reserve warehouse. It was built deep in the mountain and was externally blocked. This is for the preparation of the city-level war.

But why is there a rainbow circle space portal coming in, there is no information, after all, the warehouse will not be such a portal.

Shen Lang did not know if this was later, or when the information was recorded, there was no work yet.

However, it is confirmed that after this era, Shen Lang has a bit of interest. Since it is a large resource reserve warehouse, it will certainly not be as simple as food and bullets. It should be the most advanced technology at that time, or the best resource.

For example, Lingshi, known as crystal ore, should be a large number of fine stone reserves.

Shen Lang quickly found the system entry point and then connected to the system. Sure enough, he has the highest authority, even here, can control all.

After the information docking of the intelligent system here, Shen Lang immediately understood the layout of the warehouse in this giant mountain.

The reserve resources inside are divided into different regions, occupying a large area, and are the core materials such as spaceship warships. When they are ready, they can be put into production soon. Secondly, the core materials of some high-tech weapons, just like the atomic bombs on the earth, must be stored in uranium.

After a cursory review, Shen Lang ruled out most of the materials. If you bring it back to Earth, you can make earth science and technology, especially military industry, have an epoch-making leap.

But for cultivation, it has no effect. For him, of course, it is equivalent to a batch of scrap iron.

Someone should have been here before, just hit the rainbow circle to open, just for a lot of warehouses inside, can not open the door, or occasionally open the door, seeing things are incomprehensible, so it came out of the ancient fairy palace statement.

These things that are not understood may be regarded as high-grade materials by them.

Shenlang pays attention to the energy warehouse. There are also many high-precision energy reserves in the energy warehouse, and one of the branches is crystal ore energy.

Can be included in the reserves here, a certain level is relatively high, only one category, a large number, Shen Lang estimated that it should be the upper class. There is also a similar category, called the source of crystal minerals. I don't know what it is, but the quantity is not big. It should be rare.

After confirming, Shen Lang directly avoided other warehouses and went to the energy warehouse area.

But what made him a little speechless was that he watched the surveillance screen and found that many people had gathered in the energy warehouse area!

It seems that in the past days, especially in the last two thousand years, some people have already explored the energy warehouse area, and many others are not used, but Lingshi... not right!

Shen Lang immediately reacted, and read the information again Zoom in and compare. Sure enough, not the fine stone!

The crystal ore is the Yuanling stone level! The source of crystal ore is the pulse!

This is right, the fine stone, even the Yuan Lingshi, where can attract these big immortals. Spirituality is their goal!

In other areas, many people are trying to see if they can open the warehouse door and look for something new.

Shen Lang looked at the warehouse in the energy district again, and one of them was opened. These warehouses are all kind of special materials seamlessly built, so this opened, and of course opened by external violence.

It seems that it is useful to cut the weapon of the gods, and the things inside, regardless of the Yuan Lingshi or the Lingmai, have already been empty.

So now other people feel there, just to open other warehouses.

Although they have not used the means of violence for the time being, since they are prepared, they may all have the weapon of the gods, but everyone wants to wait for others to come.

This is the use of Shen Lang, he has the authority to control everything, if this is really the world created by Bi Haihuan, he does not say half of the master, at least it is more intimate.

So you can't see them preemptively destroying the capture.

After thinking about it, Shen Lang also went over there, and when it was about to reach the energy zone, the control system opened the nearest material warehouse!

The material warehouse is the same building, but because the area is much larger than the energy warehouse, there will still be some movement when it is opened. The most time inside is half a fairy, and nature is very powerful. When you hear the sound and immediately explore it, you will know what it is.

When we found out that there was a large house with a gate open, everyone immediately rushed to catch up!

Chapter 1344 - Great harvest

They can find it here, and there must be information clues.

But no matter what the clues say, this is a clue before the millennium. And other areas are not explored. In comparison, now that there are other places open, of course, I have explored it before.

The open warehouse is very large and attractive to everyone. If anyone wants to go first, then it can be a little more time. They don't know how this is opened, they will close again, and they must hurry.

After they left, Shen Lang immediately appeared in the energy warehouse area, opened the warehouse that everyone just surrounded, and then immediately went in and closed the door again.

In the warehouse, there are still heavy boxes that are heavily sealed. I don't know what materials are used. It doesn't look worse than stainless steel.

If the violence comes in, it is necessary to open the box, and naturally it can only be broken by the weapon of the gods.

However, for Shen Lang, it is just a command remote control.

Inside the warehouse, there are four large boxes. After opening, all of them are Yuan Lingshi!

The walls of the box are very thick and may not only be anti-theft, but also prevent energy loss. But even if the interior space looks much smaller than the outside, there are still a large number of Yuan Lingshi.

Shen Lang adjusts the data, this box is two thousand Yuan Lingshi!

Because the box mentioned is too big, the sinking wave that I want to directly receive the box, or the eight thousand yuan Lingshi alone into the storage space.

Yuan Lingshi is already a huge wealth. The warehouse that has been broken is not expected to be taken away by one person, but it is enough for a group of people to divide up and make many sects rich.

The source of the crystal mine is a small box, and the Shenlang is also directly opened.

The inside is really the spirit!

The number of spiritual veins has reached ten!

The importance and rarity of the Lingmai, look at Lu Yang has always been willing to eat Shenlang will know. This is a very good resource for Daxian.

There are already five in the hands of Shen Lang. Together with these ten, there are fifteen spiritualities.

These incomes have already made him feel that this trip is not empty.

By looking at the information, the energy district has a collection of Yuan Lingshi and Lingmai warehouses. There are four in total, one is broken, one is now, and two are.

These are already satisfied, and it is really a bit of a desire to move others, leaving them to future generations.

However, when I think of the people who are coming in now, there are Zhou Yucun, Mu Tian Da Yu, and Lu Yang, Huang Qi, Chiayi and other enemies. If they have a weapon of the gods, take them away, then it's not good. .

He is willing to leave it to the descendants of a thousand years or two thousand years, but he is not willing to give these bastards!

After considering it, he immediately came out and went on to the other two warehouses. He took the Yuanling Stone and the Lingmai.

In this way, the light is Yuan Lingshi, Shen Lang will receive 24,000! There are also thirty-five of the spirits!

He is now, if he is known, will definitely be the target of all attacks.

Even if it is Mo Feiliu, it can't be kept, because the interests are too great, it is worthwhile for everyone to risk the crime of Qiu Lin Jianzong.

Mo Feiliu, Xu Yuyue, and several counts of Dracula, Shen Lang did not want to test human nature, not prepared to tell them in detail.

When the last warehouse was opened, Shen Lang immediately saw two people in front.

Flowing clouds fairy and mysterious girl.

"You...you can open all the ancient organs!" Xuan female snorted.

This is already the third verification. It is a coincidence that it is absolutely impossible.

However, in her opinion, this should be some of the lost organs in the ancient times. Shen Lang should know this kind, so it can be opened.

Shen Lang shrugged: "Unfortunately there is nothing inside. Do you have any gains?"

Liu Yunxian looked at him and did not say anything. He quickly entered the warehouse, and the mysterious woman was a bit embarrassed, but she still went in.

Shen Lang was a bit helpless, but they still waited for them to check it and did not shut them down.

However, he had a clear goal and opened the box directly. After the time was taken, the box was closed again.

At this time, they finally got in. Of course, carefully look at all aspects, and want to find a way to open the box, this can not be immediately out.

But if Shen Lang left the empty box for them, it should be suspected that he had already taken something.

“Shen Lang! You are so powerful, the institution that can open the door, should you be able to open the box?”

The mysterious woman did not have a polite relationship with Shen Lang. She always wanted to enter the cube building. Now that she is in this place, if she can go to the resources left by the ancients, she can not go there.

Shen Lang shook his head.

“I know that you must do it, and as you said, other people know that the method will not work, only you. Can you open it for me?”

Flowing Cloud Fairy is active: “We want one, the rest are yours! But you can be advanced, close the door, we slowly open, don’t let other people show up.”

Shen Lang secretly eyes, you are interested! But I can open it, why should I divide you one? It’s like what you are now.

“I tried it, I can’t open it.” He shrugged his shoulders and said he was not interested in going in again.

The two of them just saw Shen Lang open the door inside, which means that he closed the door and drummed inside. I don't want to close the door now. Is it really impossible to open it, or has it been opened, so I know that there is nothing inside?

“Help the mysterious girl! This time, many of her sisters have been damaged. If she can't bring back some resources, she will be very guilty.”

Shen Lang directly wants to swear, even take his own apprentice to play emotional cards. Xuan Nuo was a bit awkward, but also a little expectation, there are some hurts.

“In fact, she doesn't have to feel guilty. After all, you can't bring back any resources, but what about her?”

Shen Lang is bluntly finished, and he will leave when he turns.

The Yunyun fairy is not salty and said: “You are not afraid that we suspect that you are eating alone. If you know that you have already evacuated this place, or even evacuated more rooms, what do you think?”

“Threaten me?” Shen Lang immediately waved his hands: “Then you can find a way out!”

He wants to close the door, of course, just a command from the brain. This wave is just a blind eye, letting everyone think that he is manipulating the organization.

As soon as Shen Lang was about to close the door, Liu Yunxian quickly flew out with the mysterious woman.

They can't go in, and naturally they can't get out. If they are trapped inside, they will be very passive.

Now I also guess that the things inside have been taken away, and there is no meaning to keep them.

Shen Lang sneered away and went to the large warehouse of materials that he started. He did not use too much time to evacuate several warehouses. Inside the warehouse, everyone is still inside to analyze the things inside.

These core materials used to make warships are naturally not ordinary steel, but with their world view, it is impossible to imagine what it is for.

Therefore, in the various views inside, everyone can only be amazed, even if it is not in the general sense of the fairy palace, it is the baby they can understand now.

It's just these things. They don't know what it's for, they don't feel the energy, they're too big to bring back, and they pick up some small ones to go back and study.

Flowing clouds fairy and mysterious girl are followed by Shen Lang.

Chapter 1345 - Press again

Everyone is not an ordinary person. Soon after, this big warehouse has been checked again. Without a clue, they are analyzing each other.

No matter how they are checked, these things are not ordinary things, but they are not sure how they work.

But with their wisdom, they can still guess what tools are used to make them. From the scale of these materials, you can imagine how large the combination will be.

For them, it is shocking and even unimaginable. It is because of this conjecture that they feel that these are not useless, but they do not know how to use them.

So in the warehouse, everyone is very entangled. If you have the conditions, remove all the materials, at least a few pieces of each, and then use hundreds of years, a thousand years to study, you can certainly combine what monsters.

The problem is that many of these materials are huge in size and huge in number. And they can't be sure whether it's the material in the warehouse, you can finish the refining, or it's just a small part.

So this is a difficult problem. Everyone's storage magic weapon has no such big space. At most, it can only be brought back to study with a little bit of small.

At this time, Shen Lang appeared at the door.

The strength of Shen Lang is weaker than everyone else, and it will come here more slowly than everyone else. The Great Immortals are not surprised.

However, there are two people who are different. That is Zhou Yucun and Mu Tian.

That is the pain of killing!

Zhou Yucun is a son, a grandson, and a treasure of Zhenshan. For such a period of time, the accumulated hatred and anger are getting bigger and bigger.

Mu Tianda was only recently discovered that his son was in the meditation area and was killed by Shen Lang. It was the time of anger.

Because of the relationship between Mo Feiliu, they couldn't be hard-hitting, they could only be angered by revenge, and advanced came inside.

Also because of the advanced, there is no stop. When investigating this huge warehouse, it is much earlier than Shenlang. But their minds, still put a glimpse of Shen Lang's body, including after coming in this warehouse!

At this moment, when everyone has no harvest for these and can only analyze it silently, the two of them have seen the situation of Shen Lang because of the relationship of hatred!

"Shen Lang! The door of this warehouse, are you open? I noticed that after we all came in here, you went to open several houses over there, one after another, you searched again. What?"

Zhou Yucun deliberately said loudly that passing this information to others would be known.

Of course, he also wants to catch Shen Lang, to swallow all of him, or to join forces with Mu Tian, is also acceptable.

However, weighed a bit, Shenlang's stealth technique is too strange, the opportunity is only once, the break can not be missed, or open.

Promises can't make people's heart, visible benefits, can make people feel excited.

Hearing this, Shen Lang was a little surprised. I thought that everyone just rushed to grab the treasure here. I didn't expect them to be in Zhou Yucun. I was still distracted to observe him.

Mu Tianda snorted: "This time you don't expect Mo Fei to flow! They have been sent away when you enter the third room!"

Shen Lang was a little surprised, quietly watching the monitoring here, presented in the mind through the sacred armor.

In addition to distracting attention to Shen Lang, they also pay attention to three people, such as Mo Feiliu, because only when they are absent, can they start to Shenbo.

Obviously, Mo Fei will continue to pay attention to the movements of Shen Lang. Therefore, even if the existing waves opened up an energy warehouse, they did not dare to act rashly, fearing that they would be overwritten by Mo Fei.

Mo Feiliu probably wants to come and protect the Shenlang. The three people rushed over after the confluence, but when they were about to arrive, they crashed into a portal like the "Rainbow Circle" and were directly sent away!

Monitoring can not see the "rainbow circle" features, but it should not be a problem of high-definition monitoring, but the scene really has no traces, or else they can not see.

A little troublesome, according to the system's troubleshooting, the just-conveyed portal, including the incoming rainbow circle, is not the original entrance!

This should have been created by the mighty who came here afterwards, and then passed the message.

The information on these portals is estimated to be limited by Mo Feiliu, so just three people crashed into it.

Zhou Yucun and Mu Tian dazzled them, and they may not be clear. They may have witnessed this scene just because they were concerned about Mo Feiliu and others.

The other big fairy, the peak and the half cents, listening to the two of them, already have a general perception.

For the legendary room, they still have no way to open, but Shenlang has already searched three rooms!

They all stared at the sinking waves and came to the door.

“Mo Fei flow they are sent away, it may be outside the waterfall, it may be thousands of miles away, it is possible to leave the mountains. Even if it is outside recently, want to come in again also After an hour!”

“Dear friends, one hour, can we still not take this kid? Just say that he is locked out in the room and can’t get out of it! Even without explanation, how can Mo Feiliu prove?”

The words of Mutian Daxie and Zhou Yucun have already given everyone a reassurance.

Although everyone did not pay attention to whether Shen Lang really entered the room with the pulse, but this time is also quite credible.

Although everyone did not pay attention to Mo Feiliu and others, but before they both sneaked into the face, everyone looked at it. If it wasn’t for Mo Feiliu’s departure, would the two of them dare to scream?

Followed by the flow of clouds fairy and mysterious two, is also standing to watch.

And this undoubtedly makes the people inside, more confident. This is obviously the flow of the fairy is also sinking into the waves, but they are not sure, do not dare to start.

“Get started! Don’t waste time!”

After a person opened his mouth, he immediately swept over the narrow waves at the door.

Shen Lang didn’t speak at the moment. Of course, it wasn’t scary. He just worried that Mo Fei would flow them and didn’t know where it was sent.

With the first take the lead, there are other people who will follow each other immediately. They are all eager to sneak up. They hope to sneak into the waves alone and they can monopolize resources.

They are very fast, but when they first arrived at the door, there was already a horizontal line between the open doors!

The first one to arrive, because it touched, even if it was collected quickly, it was cut off a piece of dough!

Others are too fast to catch up, and more or less have damage. This blames them for being too anxious, thinking about catching Shen Lang directly, or else it is just an attack, you don’t need to be close.

Chapter 1346 - come out

“Little thief treacherous!”

“He really can control the institutions here!”

Before Zhou Yucun said that the door of this warehouse was opened by Shen Lang. Everyone still didn’t believe it. They all came in together. How could he possibly manipulate the organs here?

But now I can’t help but believe it, otherwise the beam that can tear people will not appear out of thin air.

This is of course the opening of Shen Lang. This is a security measure. The materials in this warehouse, even if the violence opens the door and touch the security measures, it is difficult to come out.

Of course, Shen Lang is also very clear that these beams that can cut people are at most the level of Bai Hong Guan. I was just able to cut these big fairies because they suddenly appeared and they ran into them.

Once they are fully defended, they may not be able to treat them.

Now that they are not coming out right away, they should be measuring the power of this beam. Maybe they should try it out to see if they can afford it and not let the body do the experiment.

“Goodbye.”

As the sentence of Shen Lang came out, the warehouse door began to close quickly!

And Shen Lang himself, is quickly leaving to leave.

At the entrance of the warehouse, there was a movement immediately. All the monks were fully defended, then rushed outside, and there were defensive magic weapons, which were also used.

The door and wall of the warehouse are integrated, and the materials are very special. They have studied it before and have no results.

It's okay outside, it's a little more time to study it. However, in the inside, you should consider the problem of insufficient air for a long time, and if you can't open it, you will die here. For these great immortals, they are guilty of death.

Followed by the flow of clouds fairy is helpless, originally she is also the mysterious woman's idea, first followed by Shen Lang, when necessary to help a group of him, may be able to share some.

But now Mo Feiliu they are no longer there, others are chaotic again, they will follow, they may hurt themselves.

When Shen Lang was just closed, he was prepared to escape. So he left, and also screened the various items in the warehouse to see if there was anything to defend.

Unfortunately, there is not much that can be used.

Other warehouse doors, he can also open, you can also open security measures. But if he hides in, it is to put himself in a dead end. Even if someone can't get in, as long as he keeps him from going out, he can't afford it.

The warehouse has a formal doorway entrance and exit, but after 80,000 years of change, after opening it, I don't know if I can still get out, and the degree of opening and closing will definitely not be so fast, and I can't stop the big fairy.

So after the trade-off, he chose to rush to the place where Mo Feiliu sent them out!

The portal is invisible. Others have no way of identifying it. He doesn't know it, but he doesn't have it. He can only hit the place where they are gone.

When approaching the moment, he already felt the slight space abnormality, and there was nothing wrong with it. When it was added, the lighting of the warehouse was closed by control!

The lighting system here is different from the previous underground building. It is normally controlled. It should be designed for a long time and can last for a long time.

However, Shen Lang is now no matter, directly shut it down, there is no light source, and see how these big fairy how to find the portal!

At that moment, Shen Lang thought of the mysterious woman, but she did not care so much, although turning off the lights would make them both trapped. However, with the strength of those people, after all, they may not be able to get stuck, just a little trouble.

After entering the portal, Shen Lang felt the body fly over the water mist. Observe it and immediately figure out that it is inside the fan-shaped waterfall. Below is the pool.

The view from the outside is very good, and the scenery from here is even better.

The waterfall did not break, and the rainbow circle did not appear. However, Mo Fei flowed them, but he saw it.

Shen Lang Xun flew past, and the three of them were entering before.

“Mr. is out, we are worried.” Mo Fei sighed with relief.

They just strayed into the portal, and all three people came out, and they couldn’t go in again. Look at this, at least until the next rainbow circle appears, it is possible to enter.

Zhou Yucun and Mu Tian yelled at them, will they seize this opportunity to attack Shen Lang?

They were very worried. I didn’t expect the sinking waves to be very eye-catching. I followed them out so quickly.

As for how Shen Lang found the portal that they accidentally bumped into, they didn’t ask much, anything that happened to Shen Lang was taken for granted!

“I just opened into several rooms and got a little gain. How are you?”

Zhou Yucun is concerned about it, they must also pay attention to it, and Shen Lang will say it.

“Congratulations, we have not harvested.”

“It’s still awesome, so the ancient land can also crack the organs, I really admire.”

Mo Feiliu and Xu Yuyue were sighed again and again, and Count Dracula could not help but ask directly: "How did you do it?"

Shen Lang smiled and said: "Only I can do it, tell you, you can't do it."

Count Dracula directly eyes, this is not to say.

"Do you have to wait for the next time to come in again?" Shen Lang asked Mo Feiliu.

Mo Feiliu was a little hesitant. Just inside, he really did nothing.

Such an opportunity, specially came here, nothing to gain, really do not want to go empty-handed.

Another In addition to the search and analysis, he also pays attention to the situation of Shen Lang. If there is danger, he will help. As a result, Shen Lang didn't know how to find out, and he didn't see how he moved. He could open the unsolvable organs and enter and leave like his own home!

It was also shocking and stimulating to him.

For Shen Lang, he personally has no emotional friendship. All good attitudes are due to his master Gao Hanqiu, Master is respected, and he must be treated as an elder.

But from a personal point of view, a young and so tiring wave, getting Master and Xu Yuyue so respected, is still somewhat unconvincing.

Even if the strength of the meeting was strong, it was not enough to make him completely convinced.

Just now, he still has no clue, and Shen Lang has already cracked it. This positive contrasting stimulus made him unwilling, and he wanted to continue the challenge. He didn't believe that he would be so far away.

"I still want to go in, I don't want to go back first."

After Mo Feiliu finished, Xu Haoyue and Count Dracula also had the same attitude. Their strength is much stronger than that of Shen Lang, but they are not as good as Shen Lang. They feel that they are still a little bit unrecognizable and want to pull back a city.

Without the waves, they don't have to conflict with other people and don't need to take care of the waves.

"But... there really isn't any suitable resource inside. Or I will give you a part of it!" They just tried to make Shen Lang still very moved.

"No, no, we can't accept it. For us, not only for resources, but also a good opportunity to open up our eyes." Mo Fei was busy with resignation.

Shen Lang is speechless, and all the lighting inside is closed, and there is no remote control here.

But since they don't listen, let them go in and eat hard.

Chapter 1347 - Spirit pulse off

After separating them from the three, Shen Lang realized a problem, and finally he must upgrade his strength!

The degree of his ascension has been very fast. He retired for two years in Tiandu and consumed nearly a thousand Yuan Lingshi. He advanced to the semi-Xianfeng peak, which is enough for him to cope with Weiyangzi and Zhou Wei. It is.

From then until now, time has passed in the past month, so before I was not in a hurry to upgrade, it was not so easy to upgrade, it would be too urgent.

I accepted the invitation of Ji Qiandao and went to the ruins to explore. On the one hand, I avoided the troubles of Bao Puzong and Chaotianmen. On the other hand, I was able to broaden my horizons and explore the remains of this millennium.

The people who met on the road, the highest is also in the semi-Xianfeng peak, so whether it is Huangfu Jiayi, or Lu Yang, Shen Lang did not put it in the eyes, put it in the heart, because it can cope with it.

I have been in this valley all the time, and Zhou Yucun has come over. Now I am even more admired, and a big ticket.

This problem is a bit urgent, and it is a reliable way to hide into the space of heaven. But like Lu Yang and Zhou Yucun have been targeted against each other, and more exhibitions, others may not be able to intercept him.

Once intercepted, it is too much trouble, and everything that you have at that time becomes a different property.

As for Mo Feiliu, they never thought about relying on them. Before here, it was a coincidence, and he did not think that Mo Feiliu Xu Haoyue would just appear.

But this is also a burden for others, and it is costly with a group of big stalwarts.

He does not want to owe human feelings. This is the cold and cold autumn. If you owe it, it will be thin.

Zhou Yucun and other big immortals who have a big ticket, it is a matter of time to get out of that warehouse. It is only a matter of time to catch up with him.

Either, returning along the road now, after Zhou Yucun has not found it, leave Zhoushan, big and big, and find a needle in a haystack.

Or, you have to raise your own realm and raise it to fight against them!

Compared to hiding, Shen Lang is certainly more willing to work hard!

This time, if it is not a remnant of the millennium, he will not come and hide.

However, the half-six peaks and the big fairy, there is still a gap. Just like Lu Yang and Huangfu Chiayi are domineering, but in front of Zhou Yucun and other big immortals, they can only shake their tails.

Zhou Yucun and Mu Tian yelled at them. When they faced Mo Feiliu, they had to endure a lot of anger.

This is the gap in strength!

This valley is undoubtedly a place that is very suitable for retreat.

However, this is within the ruins of the past. Once the cultivation has been forgotten, after ten or eight years, if it is not good, it will be trapped in it and will not be able to wait for another thousand years.

Therefore, if you want to practice at a retreat, Shen Lang still has to rely on the space of heaven.

There is a hundred times time there, which can greatly help him.

After considering it, Shen Lang did not go far, directly in the valley, into the space of heaven!

While waiting for the next waterfall to stop the flow of Mo Fei and Xu Haoyue, the faces of both people changed slightly, and then exchanged a look.

“What?” Count Dracula asked.

Xu Xiaoyue smiled a little: “There are many kings and beasts in the valley, even the beast gods. I am worried about Mr., so I have been paying attention to his situation and I have just lost my trace.”

When he was in the forest of death, there was a king of beasts, and he was always waiting. In this world, following the cold autumn, he has made great progress and his knowledge has expanded.

Although there is no direct challenge, but for the king of the beast, it will not be taboo, but the beast god, still let him scruple.

Mo Fei flowed slightly nodded. Although Shen Lang had left first, they were also not at ease. In the case of not being able to escort, at the very least confirm that he is safe to leave this dangerous valley.

He can take care of the progress of Shen Lang, and it has suddenly disappeared.

“I didn’t feel the danger of Mr., and there was no trace of shooting. He seemed to suddenly disappear...”

Hearing Mo Feiliu said so, Xu Haoyue sighed: “Oh, oh, he estimates that we are secretly escorting, do not want to accept, so I disappeared and hid.”

Mo Feiliu also agrees with this view.

After all, people are dignified. Shen Lang is a person who can respect the respect of the teachers. Now they want to protect them secretly, and naturally they will feel unbearable.

“With Mr.’s ability, there should be nothing!”

Earl Dracula listened to their words before they knew what was going on.

He and Shen Lang had known each other many years ago, but the depth was far behind, so I did not think of this layer.

After talking about Shen Lang, after entering the space of Tianshu, he began to prepare.

From an economic point of view, of course, it should be the use of Yuan Lingshi, because he has more than 20,000 Yuan Lingshi. Even if it is ten times more than the last time, it is only 10,000, but it is more than enough.

But in this case, time will be consumed more.

Although his current strength is stronger than it was at the beginning, the degree of absorbing Yuan Lingshi can be faster, but even if it is doubled, it will take five or six times more time and take more than ten years.

Of course, this is more than a month, used in actual time, just over a month. But in this ruin, it is still not as long as possible to delay the time Lingmai is not the same.

A spiritual vein that is not directly taken away from Lu Feng can make Lu Yang's resentment against Shen Lang. In the warehouse energy reserve of the ancient world, the proportion of Lingmai and Yuanling Stone has also been reached. More than eight hundred, it can be seen that it is precious.

Before Shen Lang was not willing to use it, because there was only one thread in his hand, and there was no use. Just like there was only one jade peach in the same year, it was reluctant to use it and wanted to stay at a crucial moment.

It is different now. He has thirty-five threads and can be used open.

The specific effect of the Lingmai is how big, for example, how many yuan Lingshi can be compared, in fact, Shenlang is not accurate.

Because the spirits are already spiritual and consumed, they can be supplemented by a collection of aura around them, unless they are completely consumed in a short time.

This is the place where the spiritual veins are filled, and the aura is full, which is the famous mountains and rivers on the earth, often because of the possession of the spiritual veins. Some large-scale, can gather the famous mountains of many sects, but also have more than one thread.

In Jingui Valley, a spiritual pulse can be a beast of a king, but also because the surrounding environment is also very good, the self-recovery and absorption of the spiritual pulse is equivalent to helping the fast absorption of the beast.

The same is true of the tree gods. They are all long years. The spiritual pulse is the key point, but it is also a medium. A considerable part of the aura comes from the surrounding environment, but the spiritual veins help them.

If Shen Lang is in this valley, using the spiritual veins to practice, it will be such an effect.

But now that he is in the space of heaven, there is no supply, and the energy of the spirit is purely used.

Chapter 1348 - Advance to Daxian

Shen Lang uses the eighth “Yin and Yang Bozhengzheng”, coupled with the domineering of the heavens and the earth, directly using the simple and rude way to extract energy from the spirit.

The whole process is like a whale swallowing a cow, which makes him feel very happy.

The spirit is the pulse!

The superior Lingshi and Yuanling Stone are far behind. The key to its spirituality makes the aura of the sky almost no need to refine it for a long time. It is easy to absorb it for its own use and become a vital reserve.

Shen Lang also felt the vastness of his energy. With his current strength, plus the super-powerful madness, and it is still a day and night, it still takes a month to absorb it.

He can also understand Lu Yang's resentment. With Lu Yang's age and realm, another decade or two, or a few decades longer, there is a chance to become a big fairy. At that time, there was a spiritual aid that would make him feel like a duck.

As for Shen Lang himself, he does not need to save because of abundant resources, and he does not need to wait until the key time. Directly one by one, the spirit continues to input a huge amount of aura.

Finally, after absorbing 15 spiritual veins, Shen Lang felt a full expansion, unable to bear more, and must break through to a higher realm.

Even so, the real breakthrough is to spend a few months intently!

And finally broke through to the realm of Daxian, also let Shenlang have an impulse to want to scream.

Game players, if a full-level number is deleted, have to come back again, starting from the first level a little bit of accumulation, will undoubtedly make people very collapsed.

This can't be done by experience alone, but also has to cooperate with all aspects. The accumulation of various resources and energy is like paying for gold.

Now that I have finally reached the realm of Daxian, I have recovered to a certain realm. I still have no self-protection ability before.

After looking at the time, it has basically been used for two years.

Two years around the clock, it can be a lot of years, and his two years is the unlimited supply of the whole process, far better than the ordinary people of the same level for decades.

After this result, Shen Lang did not continue. The time outside should be another seven days or so.

After he came out of the world of heaven, the gods immediately extended to the waterfall.

The range he can now detect is already very broad.

There was no one there, and I didn't know if Zhou Yucun and others had come out. It's not clear that Mo Feiliu eventually went in.

The massive Yuan Lingshi and Lingmai have already had great gains, and Shenlang has not stopped to stay here.

According to the route of the holy armor, he decided to go back in the direction of the coming.

But he has one thing now.

That is to throw the pulse along the way!

What he threw was a glimpse of the spirit, but its spiritual roots are still there, leaving them in this valley full of aura, perhaps a thousand years later, and able to recover.

This is also the intentional persistence of Shen Lang. There is no complete refining of the spiritual veins, leaving a trace to future generations.

Considering that you can't stay in one place, it is the throwing along the way.

But his move was to alarm a few beasts!

Beast gods at this level are naturally more sensitive to the spirits, and they can coexist for thousands of years in this mysterious valley, basically having a fixed site. If you want to **** something from other people's sites, you will have a life-and-death battle.

However, the spiritual veins of the remnant roots that Shen Lang just thrown are not the ones on the ground before, but they are out of thin air!

So I found this beast god, I quickly moved, and chased it!

The fifteen spirits of light basically have little effect, and perhaps they are better than Yuanling Stone. The beast **** is not visible at this level, but it can continue to have a detrimental spirit, and it shows that there are still many spiritual veins in him. He is the target of the beasts!

Where did the spiritual pulse come from, and the wisdom of the beast ***** could not be understood. Now I feel this state, but it seems that there is a ***** to spread the spirit, and only after the spoil of the spiritual roots will spread slowly.

If you look for this god, whether you are asking for more spirituality, or getting a little bit, it will be a great chance!

Shen Lang did not know that his idea of staying in the seed would trigger such a chain reaction.

When he left, he hesitated, and asked if he would visit the tree god.

I think that everyone has no friendship, he saved the tree god, and the tree ***** also rewarded him with four threads, and everyone does not owe each other.

However, leaving here, it is estimated that it is unlikely that it will come again. Anyway, it is not a detour. Go back and look at it!

When he had not yet arrived at the tree god, he had already sensed that there were other people there. The gods carefully examined it and could not help but smile.

The road is narrow!

In the tree god, there are a group of human monks, including the Huangfu family and the Lu family, as well as Zhou Yucun and Mutian Daxie, already two other great immortals!

It seems that they have been trapped inside for a while Because the direction of coming in is different, everyone goes back in the same way. Mutian yelled at the three of them. They met Zhou Yucun and others here, so they also took the road and went to the tree god.

The originals of the tree gods were taken away by them last time. Now they can still be entrenched here. It is nothing more than to force the gods to surrender more resources like the spiritual veins.

After all, they are nothing in the so-called “Ancient Fairy Palace”.

If Shen Lang finds them and wants to avoid leaving immediately, it is still too late.

However, he still hesitated, the other side has four great immortals, the strength of the board is still far better than him. But just advanced to the big fairy, the first day to escape, it is too shameful too shame!

Soon, several big immortals at the scene also found that some people were close, and they immediately locked in the waves.

Shen Lang did not hesitate to fly directly to them.

After the past, Shen Lang directly fell on the boulder before, and the situation at the scene was also clear.

The tree ***** is even worse than the last time. Not only the roots and branches are broken, but the trunk that has been opened is only a short cut, and a sword is inserted. As long as he is smashed, Completely extinct.

This boulder, the last time it was opened by Shen Lang, has now moved. It seems that they have also discovered the change and picked it up and checked it. The last thread that was reserved for the tree god, needless to say, has already been taken away.

“It’s your kid! After all, it’s still coming to the door!”

Zhou Yucun’s face was gloomy. After these days, his anger was restrained.

Mu Tianda also immediately angered: “Kid, you want to trap us inside, this is to offend everyone! Mo Feiliu has left, you see who else can save you this time !”

Chapter 1349 - Beast ***** attack

Other people have also shown their anger. It can be seen that in the closed space, Shen Lang turned off the lighting, causing no small trouble to them, especially psychological.

“You have already destroyed the tree god. It is impossible for him to find revenge for you. Do you still need to kill and kill the roots?”

Shen Lang sighed, and the tree ***** has now left the last thoughts. Maybe it doesn’t need to be cut again. If the sword is pulled out, it will be extinct.

“Do you want to come over for him?” A fairy who did not know sneered.

Another ignorant ignorant: “Unfortunately, before you came over, he had already confessed. The five spiritual veins he saved, leaving only one, the other four, were taken away by you!”

“Plus that he took away from our Lu family in the Golden Mile, there are at least five spirits in this body!” Lu Yang immediately added a fire.

This good thing of Lingmai is that Daxian is robbed.

There are four great immortals on the scene, and Lu Yang can only give up. But since he can't get it, he can't be cheaper!

Moreover, the Daxians should be invisible to other resources. The four of them have acquired the spirit. Other things are that he and the emperor are divided.

The most important thing now is to take Shen Lang and not let him run again. That must be motivated by the great immortals to work together, not to be merciful.

Zhou Yucun and Mu Tian Da Yu, the two of them are really enemies, including the emperor Jiayi, they will certainly shoot. The other two great immortals are because they have a good relationship with them and help their friends, but now Mo Fei is out of the way, and may not be so careful.

Now there are five spiritual veins. It is very likely that Shen Lang is still in the few rooms of the ancient fairy palace, and he has got a lot of spirituality and Yuan Lingshi, which is enough to make them feel excited.

For the tree god, Shen Lang has nothing to blame, it has already been tortured like this, and it must be said.

“Of course I have it, but you have to have a life to take it!”

Shen Lang also ridiculed: “If it is not for you, I dare to appear? Tell me the truth! Five of the spirits, I have exhausted, and have been promoted to the Great!”

When the words were spoken, everyone was taken aback.

Surprisingly, it is not that Shen Lang has reached Daxian. They don't believe it, but the spirit is used.

However, even if the five spirits are used together, it is impossible to be so fast. It is impossible to use it at the same time, so this is definitely a lie.

The biggest possibility is that Shen Lang gave the spirit to Mo Fei, and Mo Feiliu used what exercises, gave him a cover, and it seems that it really looks like Daxian.

No one believes that Shen Lang can break through Daxian on the 7th!

Zhou Yucun and others are coming over. They are all talented and still use a lot of resources and a lot of time to break through. Lv Yang and Huangfu Chiayi are also a lot of resources and time, and they are still out of reach.

How can he be a young man, how can he change so much in seven days?

“Yes? If the spirits are used by you, then we will sacrifice you to eat!” One of the big fairy said coldly.

“Even people eat? You are also invincible? What is the difference between this and the beast?”

“Less nonsense! Come on!”

Zhou Yucun rang his son and grandson, as well as the dynasty. I remembered the shame that was flown by Mo Fei that day, and I had to do it directly.

At this time, everyone felt a change, there is a feeling of a strong enemy pressure!

It is Zhou Yucun who has not shot, but to wait and see.

Mo Feiliu!

Everyone has such a thought.

On that day, they had to start with Shen Lang. It was Mo Fei who broke the branches into swords and cut the sky directly into front of them.

Now I have to start with Shen Lang, and there is such a strong pressure, saying that it is not Mo Feiliu, no one believes. Of course, Mo Feiliu is composed of three people, Xu Haoyue and Count Dracula.

The identity and strength of Mo Feiliu are enough to shock them. The last time someone had not arrived, I don't know the specifics. This time I guessed that he came, and I dare not act rashly.

But one or two breaths, everyone is different now.

Shen Lang is also a big head, because there are at least four or five beasts that are powerful to the beast ***** level!

If it is Mo Fei, they are clearly on his side, and of course they are relieved.

Now he is in front of the four great immortals, there are a few peaks and a half cents, a few and a half cents. It's a bit fun to come back to a group of beasts.

However, Shen Lang is not afraid, but has a strange excitement. If they are allowed to do their work, it should be a very tasteful thing?

Lv Yang and Huangfu Chiayi, naturally greeted their people, and hid behind several big immortals. If they were in danger, they would run first.

A few big immortals, but also can not care about the waves, must first figure out what the intention of the beast ***** is.

After all, Mo Feiliu still makes sense, as long as they accept the restrictions, do not start with Shen Lang, Mo Feiliu will not destroy them. The words of the beast, it is likely that they want to engulf a group of them.

After a while, the five-headed beast has arrived!

They flew down from the sky and the tree shrews, and they all fell under the huge rocks that stood in the waves.

From the time they came, they all kept the animal shape, but at the moment of landing, they all became humanoids. They are really adult-shaped, much more natural than the tree gods' only three-dimensional features. However, if you look closely, you can still notice it. It is still a little different from real people.

“You are the beasts here? We...”

Zhou Yucun saw them become adult, but did not attack as soon as they came up. They were relieved a little and felt that they should be able to communicate.

However, when he spoke, the Five Beasts did not pay attention to him at all, but faced the Shenlang together and bowed up.

This is not to say that Zhou Yucun, they are stunned, that is, Shen Lang himself, but also feels inexplicable.

He had a relationship with the tree ***** before, and the front also used each other, followed by mercy, and the tree ***** is a reward.

These five beast gods have never seen them. They don't look at the tree gods. It is obvious that they are not in contact with this tree of life.

“See the gods!”

The five beast gods are called out in a blunt human language and at the same time.

This made the big fairy who had already been stunned, once again stunned.

What's the situation? Shen Lang, this Qilian Daxian realm is Mo Feiliu to help him disguise, how can these beast gods be respected as gods?

How can he be?

Shen Lang is completely ignorant and does not know what they are. If it is the wisdom system, robots and the like in the ancient ruins, it is understandable. After all, he is the only “world god”.

But like this valley, everything should be displayed in the back more than 80,000. It doesn't matter with that. Why do you respect him as a god?

“Take them all!”

Since they are in such an attitude, Shen Lang is immediately rudely ordered, and he himself is ready to be a flash, five beasts, he has no way to deal with it.

Chapter 1350 - Big melee

When he heard the words of Shen Lang, Zhou Yucun and others could not help but sneak up, especially Lu Yang and other weaker ones.

These beast gods that suddenly pop up will be so strange to him. It's good to be stumped. It's as if you ordered the beaters, and they are all gone!

Everyone is guarded by God. I don't know how these beasts will react. They have five, and they are no less powerful than ten of them.

However, Shen Lang can command these beasts, they still do not believe, it is also outrageous.

The result is... these beast gods actually obey the orders of Shen Lang!

When the five beasts quickly turned to face them, Lu Yang and Huangfu Chiayi quickly took people to escape.

Immediately, a beast ***** quickly chased the past. It was originally a human form. After flying out, it turned into a giant snake. The speed of shuttle was much faster than that of Lu Yang, and they quickly caught up with them. It is.

The other four beasts also clearly recognized the strength of Zhou Yucun and others, and did not dare to confront human figures, but revealed the ontology.

They are adult-shaped, in order to facilitate communication, and may also be helpful when practicing. However, when fighting, it is a disadvantage, and the ontology can let them exert their strength to the greatest extent.

They had fallen under the boulder before, although they were not in line, but the distance was relatively close. Now back to the ontology, the block is mostly, so basically it is obvious, and has already targeted an enemy to attack the past.

In addition to the giant serpent, these four beasts are a giant crane, an iron armor, and two beasts that have not been seen before.

These fierce beasts can evolve into such a realm, can be called the beast god, almost the limit of the beast, and the wisdom is not low, how can he obey his command for no reason?

With their wisdom, they should feel that Zhou Yucun and other big immortals, the strength may not lose to them, but they still show that the body has rushed out. Just because Shen Lang “killed them” this instruction!

This one is so strange that Shen Lang can’t explain it. However, they did not pretend to be out, or they did not start to do it for a while, and he would not sneak, but looked at the boulder.

The sword that the tree **** had inserted before did not know whether it was the emperor’s family or the Lu family. When they fled, they had already collected the sword, and the original tree **** was directly hung up.

For the attack of these beasts, Zhou Yucun and Mu Tian dared them, and they did not dare to neglect. They must go all out.

At this moment, Lu Yang did not talk about loyalty, and they did not pay attention to it. Even Shen Lang will run away, and they have no choice.

Shen Lang certainly does not run. Originally, he did not work for four great immortals. Now there are five more beast **** helpers. Naturally, there is no fear.

However, as far as the current situation is concerned, they should be evenly matched.

The great fairy are very powerful, the field, the spell, the vitality, the magic weapon, everything can hurt the enemy.

These beasts have an arrogant physical advantage. They are almost immune to many attacks, and their rampage attacks are heavy hits once they hit the body.

In addition to the physical tyranny, they also have some basic primal spells, but under this level of combat, it is a bit of a chicken. For example, the iron armor of the red dragon can be fire-breathing, but it is almost impossible to attack the big fairy with fire-breathing. It is better to take the time and use the advantage of the body to attack several times quickly.

This neighborhood, the battle with the tree gods before, has been messed up, and now the eight great fairy gods fight in a circle, and soon expand the scope of damage. The trees were folded and the rocks were flying, but in a few seconds, the destruction circle had reached the size of several stadiums.

Here is the site of the tree god, there are no other beasts in the vicinity, so this does not affect other beasts, but the scale of this battle, the influence has spread far, let a lot of strength The bad beasts are far away.

Compared with the even strength here, the peaks of the escape, the half-sex, the half-sweed, facing the giant snake, the pressure is huge.

If it is only the king's beast, so many people who are led by Huangfu Jiayi and Lu Yang, can completely get it. But the beast gods have no choice. All the attacks have no effect on others, and they are slightly slower and are directly swallowed.

They have accelerated their escape, and when they are tracking the beasts, they are desperate. However, a few slower a few cents, under the ineffectiveness of resistance, were quickly swallowed by the giant snake!

As a beast god, this giant snake has no chance to eat people here. Only once in a thousand years, there is a chance to see human beings. They all need to imitate. Now a few humans are falling, and people are making him excited.

After escaping a section, Huangfu and Lu Jia, the remaining Huangfu Jiayi and Lu Yang are still supporting!

This situation, Zhou Yucun and others can also guess. If Huangfu Chiayi and Lu Yang do not run away, they will deal with these beasts with them four. We can still help each other to maintain a balance.

However, a group of them are weaker and ran directly. The consequences will only be hunted by the beasts one by one!

And when the serpent hunted them, the return was the assistance of the other four beasts.

They can maintain balance now because they are generally at one level, and they are good and bad. But if two beasts attack one, they will surely lose, not to mention that there is another sinking wave waiting to make a bad.

Zhou Yucun and Mu Tian Daxie have ***** enmity against Shen Lang, but the other two do not. They are for the benefit. If Shen Lang has five spiritual veins, they can be divided into a spiritual vein. They don't mind doing it.

But now you have to deal with the beast god, and finally fight, it is likely to lose both! Not to mention waiting for a little more than a beast to come back. Whoever is unlucky to be pinched is finished.

So soon, the two great immortals, they retired.

After this thought, they all approached Zhou Yucun and Mu Tianda.

“Zhou Xiong (Mu Tianxiong)! I will withdraw first!”

It seems to be to say to them, in fact, to lead the beast to them, so that I can get a little more escape time!

Zhou Yucun and Mu Tianda both secretly screamed, but the two of them suddenly flew away in different directions, and the beast gods came to their side, no flaws.

“Don’t chase, kill them both! I can meet your requirements!”

Seeing now, Shen Lang has already had an idea in his heart. The beast **** cannot obey his arrangement for no reason, and he respects him as a god. It must be a picture of him.

No matter what, anyway, he has no problem with self-protection, so he promised to start and let them kill Zhou Yucun and Mu Tianda!
