

## First Strong 1351

Chapter 1351 - Killing the enemy

The beast gods are actually also under pressure. After all, these great immortals are not inferior to them. Although they have physical advantages, the great immortals also have the advantages of magic, and some have magic weapons.

But for them, this is a rare opportunity for the millennium, no matter what.

Now I still want to continue to pursue both of them. If I hear the words of the waves, the two beasts will immediately attack Zhou Yucun!

Wisdom makes them very clear, even if the second fight, the other party can still hold on, it is likely to be deadlocked for a long time, there is still a chance to escape.

Already ran two, the gods are reduced the difficulty, if you let go, it will be troublesome.

So now they have changed to three dozens, and the other one is arrogant with Mutian, and immediately changed the attack mode. From the fierce attack before, it became a containment, and promised not to let Mutian sprint, waiting for them. After the three have packed up Zhou Yucun, come back and help!

Zhou Yucun's pressure shock, the combination of the three beasts, there is no suspense, it depends on how long he can last.

Shen Lang! Have the ability to fight with me alone!

Zhou Yucun screamed wildly, and he felt very wrong.

It was hard to find the enemy. The result was not successful three times, but now it is going to be destroyed by the enemy.

you're so dumb! Who is alone with you? I have repeatedly stated that your grandson will kill me first, then your son, yourself, you will kill me, I can't sit still. Since you can't put it down, then I have to give you a ride!

Shen Lang would not have been more nonsense with him, but now the three beasts have joined hands and have already let Zhou Yucun's left and right, and his dialogue is a disturbance. For this level, it's a little influence on a little god. Change the situation.

Of course, if you kneel down and beg for mercy, I can still consider letting you go. If you are obedient, you can't return it to you.

You are dreaming!

Zhou Yucun could vaguely realize the intention of Shen Lang, but the son of the grandson mentioned above made him difficult to calm down. Now he has asked him to beg for mercy, and you can't help but believe that the anger has soared.

After a while, the time has passed for a minute, and Zhou Yucun is in a hurry to attack, and immediately let the three beasts find the opportunity!

Three beast gods who made the iron armor of the Red Dragon have a space of calmness and a successful high-temperature flame, completely enveloping Zhou Yucun!

The claws of the giant crane also successfully penetrated into the flames, hitting the descendants of Zhou Yucun, and an unknown beast, and hit Zhou Yucun at the same time.

Such an attack could have been avoided by Zhou Yucun. However, under the joint attack of the three parties, there was no way. The attacks by the three parties did not avoid it. The whole person vomited blood and flew out.

After the fire, the iron armor, the dragon, had already explored the claws and directly grasped the body of Zhou Yucun. The big mouth passed at the same time and swallowed him directly!

They were able to attack successfully because the three sides were similar to the field, and the Zhou Yucun's defense was completely disintegrated. The Ironclad Red Dragon now looks like an ordinary claw bite, and virtually everything is blocked.

Paying attention to this scene, I have been looking for opportunities to escape and I can't help but admire, this time, no matter what, even if you spell it, you must escape!

The result was hit by another unknown beast, and the body quickly flew forward!

But what he didn't expect was that there was an iron rod with the great power of the mountain cracking stone. It had already been thrown out in advance, and when he had just left the house, he squatted directly on his back. He fell from the air!

After the iron armor Chilong swallowed Zhou Yucun, he did not dare to neglect. This is not the general prey food. In addition to the sharp fangs, the same throat is constantly blowing out the flame, and the mouth is closed. The flame was digested internally and tempered directly to the injured Zhou Yucun.

Mu Tianda wanted to escape, and the result was knocked down by a god, which also stimulated the beasts. In addition to the one who played against him, the other two also immediately caught up, three together, let the admiration Big day, no chance of rebellion, directly killed!

After the killing of Mutian, the serpent returned, and there is no doubt that he has caught up with Huangfu Jiayi and Lu Yang.

Soon, in addition to the swallowing of Zhou Yucun's iron armor, the dragon \*\*\*\* beasts did not dare to care, the other four were turned into human figures, and fell back in front of the huge stones.

Very good, what are you asking for?

Shen Lang kept the alert of flashing people at any time, and continued to talk to them in the tone of the gods.

He suspected that it should be a spiritual pulse. If one person is one, he is still willing to give it. After all, they have taken out his enemies.

The appearance of the gods, the sowing of the roots, is the blessing of me. With such a chance, I hope to get the gods!

One of the beasts respectfully said their intentions.

The gods appear, sowing the roots?

Shen Lang is slightly wrong Then I understand it. Feelings are all the way to throw away the fifteen ruined spirits. After they are present, they think that it is the gods who are spreading seeds.

However, it is really strange to think about it. I don't know how many thousand years of tree gods will occupy five spiritual veins. These beasts are estimated to be nowhere to go. He throws fifteen, and others think he will continue. It.

And the sprinkling is the only spiritual remnant of the roots, of course, it is like planting. Even the spirit can be planted, even if it is human, it can be regarded as a god.

Everything is clear about Shen Lang. In fact, no matter whether it is a beast, a beast or a monster, it is just a different name. The wild and ferocious is the beast. When you are young and dependent on human beings, it is called the beast.

There is one more thing about the beast, that is, psychic!

Psychic nature is due to the training and guidance of human monks during the maintenance process.

These have become the limits of the beast gods, so it is necessary to transform the adult shape and imitate the cultivation methods of the human beings to enter a higher existence.

It is not a beast that has been raised from a young age. Even if it is a beast that is forbidden in the outside world, human beings cannot point to the method of cultivation. There are fewer opportunities here, and it is only possible to have humans once in the millennium.

Therefore, these beast gods can be used as his beating hand, and they are expected to get his points.

Since it is encountered, it is your chance. listen!

They have all reached the level of the beast and have extraordinary wisdom. If they are outside, they may even become adult, and they are posing to the human martial art, or this can be regarded as a fairy.

Therefore, Shen Lang is willing to give them some basic methods of cultivation. As for how much insight they can have, they will see themselves. At least here, they have great advantages in terms of environment and time.

#### Chapter 1352 - Return

For the beast gods, it is enough to not account for Shen Lang in the end, whether it is a god, can have such ability, and can teach them to practice the secret law.

Shen Lang teaches in fact very basic, but it is very important for the beasts who have not systematically studied. Because the avenue is simple, the law is universal, and with their cultivation and wisdom, what is required is systematic and general, which is more suitable than the advanced method.

After listening to them, they respected the ceremony and they retired. In this vast valley, they each have a site, which of course is to go back to their place.

Looking at a lot of mess, the waves are a bit awkward, this is the land of the tree god, and now the tree \*\*\*\*\* is also finished.

Yes, the tree gods still have a kind of spirituality, and they don't know who they are. If they are in Zhou Yucun and Mutian Datun, they will let the beasts eat it.

However, Shen Lang does not matter, he still has 20 intact threads, and will not care about this one.

Originally facing the four great immortals plus one and a half cents, and the peaks and half cents, he can only find the opportunity to do one and leave. Now, with the power of the five beasts, the enemy can be wiped out, and it is already an accident.

Shen Lang did not have much interest in this valley. It was originally retreating, and now it is accelerating.

After he came out of the valley, there was a bit of tangling, did he leave directly, or continued to explore in this ruin?

Ben came here to harvest resources. He got more than 30 spiritual threads, and there are more than 20,000 Yuan Lingshi. It is already a huge harvest. Maybe other people can't match it. You can go back. It is.

Both Mutian Daxie and Zhou Yucun have been killed, and there is no need to worry about the enemy.

But is this world the world of the city? Why should the watershed city-states, which are supposed to be empty at the same time and in different regions, become ancient vestiges that were not 80,000 years ago?

These problems are still plaguing Shen Lang.

He finally decided to continue to explore the world to see if there is more information.

Eighty thousand years have changed the world, but buildings such as the Sacrifice Project still exist. Some buildings buried in the ground are still intact, so Shen Lang believes that he can still see a lot of information.

This is half a month!

In the half-month period, with the cooperation of the ancient maps, Shen Lang is almost a relic that is now presented, almost gone one time!

During this time, he also discovered some similarities like the mysterious valley, but he did not go in for exploration, but more to find the remains of that era more than 80,000 years ago.

The final result is no result!

Like the tens of layers of buildings in the underground, there are still many such buildings, but there are no traces of anyone. I don't know if there was any problem at the beginning, so that the huge population has migrated, or because 80,000 years have passed, people have not even existed.

Not every place, there are also the existence of intelligent machines. After all, the grades are not high enough, even if there are supercomputer systems, there is not necessarily an energy reserve that can sustain 80,000 years of energy supply.

Of course, the people of that era, Shen Lang did not have any feelings, only the blue sea Huan.

According to the existing information, Bi Haihuan never saw him again, and then spent all his life, becoming a goddess-level powerhouse, founded a religion, regarded him as the world's great god, and used technology to travel through time and space...

I didn't say anything about men and women. Shen Lang's love for Bi Haihuan is also quite emotional. Going back will inevitably turn to the city.

Now I know that she will be such an ending, although I can't understand why time and space will differ by 80,000 years, but I can't bear to see her in the future.

No matter how this ancient ruins are, they appear in the mountains. Of course, they are only a small piece, not a whole huge river city. It is a continent that may be bigger than this island.

Now Shen Lang only wants to go back, and then go to the river city to see.

The world has been dying for more than 80,000 years, and the return of his "world god" has no practical significance. So according to the time of the road, Shen Lang supersonic flight back to where it came.

It has been a month since I entered the present, and Shen Lang has also closed the "two years". It feels like it has been a long time, and it is not clear how many people have gone back.

Like the Ji family, when they came in, they separated and never met again. He Lan smiled and the four sons of Hongdian. After the day, they didn't see it again. They didn't know if they went out.

But it is still so big here, and after a long time, Shen Lang is certainly not likely to find them. After checking the surroundings and finding the space crossing point, I joined in.

Passing through the layer of blurred space, once again appeared in the channel of the mountainside.

The cold breath immediately surrounded the Shen Lang, and his spirit was also a vibration.

From the channel standing on the mountainside of the main peak of Zhoushan, there are already tens of thousands of meters in height, looking at the sky and snow, Shenlang time and heroic.

When he came, his strength was only comparable to that of Ji Sheng and Lu Yang. There are still a lot of scruples. It is different now. There is no embarrassment for the road ahead, and some are only reconciled.

Going back is of course much easier than when it came, because it has already passed once, and other people may still be worried about being affected by this environment. It is necessary to carefully distinguish and follow the rest points left by the predecessors.

However, Shen Lang does not need to, the Holy A has a detailed running track, he can return in time according to the time. Moreover, the sacred armor has also recorded images along the way, and even if it changes, it can be found immediately.

Now it is also directly driving the holy armor, from the height of tens of thousands of meters, directly dive down.

When passing through the valley that had been fought before, there was still a king-level armored red dragon rushing out, but even chasing could not catch up with him, and it was directly opened.

He has seen the iron armor and the dragon god, and there is no curiosity at the level of the king.

All the way to a fast flight, the rest points are skipped one by one, and have been to the glaciers. It can't fly from above, it can only come down.

The last time here, he has absorbed the strange flying fish that do not know millions, but now, it seems that there are flying fish in the sky.

On the edge of the glaciers, there is now a group of people, and it seems that they are trapped here.

After all, these flying fish can be pierced by swords. If there is no safe protection, it will be very severe if they encounter hundreds of thousands and millions of attacks.

After the sinking of the waves, it has been clearly seen that there are quite a few acquaintances in the people who are parked here.

Chapter 1353 - Acquaintance acquaintance

“Shen Lang?!”

The strong appearance of Shen Lang also brought everyone's eyes together, because it came too fast, and the wind and snow interfered, so when he fell, he saw it clearly.

Shen Lang smiled.

Before he came out, he also thought about the Ji family who came in together. Now I saw that they came in the group. Ji Jia, Zhen Yuanzong, Jiuxian School, and He Lan Yi Xiao and Hong Dian Si Zi.

There are still a few that I don't know, and I don't know the previous batches. It is estimated that I will go in.

“It turned out to be you. It seems that everyone is safely back!”

“I am relieved to see you are fine.” Ji Sheng said on behalf of Ji Jia.

Shangguan Tianyuan and others also smiled and said hello.

He Lan smiled directly: “Shen brother, we all haven’t seen you again, and thought you were harmed by the Lu family. Come back, just come back!”

“Thank you for your concern.”

Of course, Shen Lang is too lazy to boast that he has already killed Lu Yang and others.

“I have experience with this river. Would it be better to let me go first?”

“That’s good! We are all embarrassed.”

Hearing Shen Lang took the initiative to say so, He Lan smiled and had not seen it a bit puzzled, Ji Sheng and others were directly applauded.

Shen Lang was able to concoct in the same way, holding the Ba Tian Tower, and drifting directly from the glaciers.

Watching countless flying fish smashed into the surrounding waves, they saw a sweat for the first time.

In a circle, a large number of flying fish have disappeared, and although there are still distant supplements, the number has plummeted.

“Let’s go!”

Shen Lang then covered everyone and passed the glaciers.

This time, the flying fish collected is a little less than the last time, but the whole number is also huge.

The glaciers are a difficult road on the way back and forth. It has been much better in the past. Although there are beasts and monsters such as mountains and snowmen in the back, their forces of such scale, as long as they are not dragged into the night battle, basically have no problem.

Therefore, Shen Lang did not leave with everyone slowly. After the past, he immediately left his words and then flew away!

Looking at the back of Shen Lang, everyone was stunned.

“This swell... It seems to have changed a lot, how do I feel... seems to have a breakthrough in strength?”

“I also have this feeling, but if it breaks, then is he... not so fast?”

“Who knows, this ancient ruins, some have nothing to gain, and may be filled with people.” &1t;

“People don’t want to walk with us. It is estimated that there is a lot of gains and they will leave as soon as possible.”

“Now Shen Lang is back. Lu Yang and his party have no shadow. You said that you will... oh!”

“Don’t talk about it, this kind of thing that no one sees.”

Shen Lang had already gone far. It took more than ten days to get there. Now he goes back, but it takes only half a day.

However, when I arrived at the first resting point of Death Valley, it was already dark.

According to this degree, even if he adds away, he may not be able to go out before dark.

For the snowman who has seen the mountains and rivers that I have seen last time, Shen Lang is certainly not afraid of being alone, and can fly out. However, this is not very special. Zhou Xuan and her party, when they arrived at Death Valley, left her alone, and did not elaborate on what happened. It is dangerous to do it well.

After considering it, Shen Lang stopped, and the snowman did not appear. He went to Death Valley first, and took a rest for a night. It was not bad.

He quickly entered the cave of Death Valley in the past, and immediately there was someone inside.

“Hey! Acquaintances.”

Shen Lang smiled and said hello, then went straight into it.

Inside the Death Valley cave, there are already four people here, both in different directions.

Two of them are mysterious women and her master, Yunyun Fairy, and the other two are the two great immortals who escaped from the beasts of the beasts in the mysterious valley that day!

After a lapse of more than half a month, they also came here, and it seems that they should continue to search everywhere.

“Shen Lang? You are still alive!” Mysterious girl saw Shen Lang, surprised to blurt out.

Liu Yunxian is crying coldly: “In order to live for yourself, everyone can be pitted. It is not normal for people who are unscrupulous to live.”

Her ironic, of course, is the thing that Shen Lang did in the ancient warehouse, shutting down the lights and letting them all explore.

The other two great immortals, seeing Shen Lang again, are emotionally complex.

In terms of strength, even if Shen Lang has reached the realm of Daxian, they have two, and they still have a chance of winning. However, Shen Lang was able to command the five beast gods to attack them. The scene was so shocking that it must have been extraordinary.

This made them dare not act rashly.

At this moment, although the Yunyun fairy is openly ironic, the mysterious woman is obviously a friend with Shen Lang. The people in Yaochi may not help them, and may also help the waves.

Under the trade-off, one of them first opened his mouth.

“Shen Daxian, you and Zhou Yucun, Mu Tian Dawei their grievances, in fact, have nothing to do with us. We are only relying on the loyalty of our friends to support them, now they are not here, everyone is going to be a jade, how?” &1t;

“Although we stood with them, we didn’t directly work with you, and there was no other grievance.”

When I heard the two of them, especially the scruples in the two people’s words, it was said that the flow of the fairy and the disciples were shocked. They are called Shen...Da Xian?

Shen Lang faint smile: “Don’t worry! I don’t have a narrow mind to be sure to report You didn’t directly offend me, even if you have a heart to try me, but for various reasons, there is no hands-on, so you can ignore it. Otherwise I won’t let you go that day!”

This said, the previous content, let them both breathe a sigh of relief, but really afraid that this kid must be desperate, but the last sentence makes them a little embarrassed.

Flowing clouds fairy and mysterious girl listened, it is even more shocking!

Shen Lang actually used the word “released” for the two great immortals!

Shen Lang is not afraid to start with them now, they are afraid to turn their faces, so he does not mind to continue to say.

“Your friend’s loyalty, I have already seen it. Zhou Yucun and Mutian Daxie, have not had slag. People die and hate, hope their family, martial art, no one will come to me to die Let’s go!”

The Yunyun Fairy and the Xuan Nu, who have been shocked twice, did not expect to be even more shocked.

Listening to this meaning, Shen Lang killed Zhou Yucun and Mu Tian Da, and the two great immortals were able to get out, because they had ran away without loyalty!

How did he do it?

If it is said that Mo Feiliu and the two people shot together, naturally there is no chance for Zhou Yucun and Mutian to live their lives, but if this is the case, now Mo Feiliu and others are absent, and the two of them should immediately avenge themselves. what.

Look at them, it seems that it is not Mo Feiliu, that is, Shen Lang himself?

Chapter 1354 - Does not matter

Shen Lang said something to this, they have no face on both sides. If you want to debate again, blame Shen Lang can command the five beast gods, but it is equivalent to helping the Shen wave tout.

As for Zhou Yucun and Mu Tianda, they were all present on the same day. If they didn't go, they would be the end, and naturally there was no accident.

Flowing clouds and fairy sneaked into the waves, there is no irony before, and in vain has increased a lot of awe. Because of their two expressions, it basically equals the default of Shen Lang.

Recall that Shen Lang can trap everyone in the ancient fairy palace, and the mysterious woman told the glaciers, etc., apparently proficient in many things that everyone does not understand, this is not easy! Before you get it, you are playing pigs and eating tigers!

Up to now, she did not dare to say anything irony.

The two great immortals were silent for a while, then one of them sighed.

“When is the time to report, the end of the grievances will end here! We will not disclose this information, their martial art family will not find you again. I believe that the fairy tales of Yaochi will not say more.”

Flowing Cloud Fairy shook his head and shook his head: “It’s irrelevant to us.”

Shen Lang laughed and said: “It doesn’t matter. If you go out, you will kill two big celestials, and there will be a large half of the fairy, the peak and the half. I guess it will soon be famous all over the world!”

“...” The two great immortals were speechless and helpless.

is not that right? Just telling him to go out, whether it is his personal killing, or driving the beast \*\*\*\*\* to kill, will make him famous. Can drive the five-headed beast god, and even more let others think that he is far better than the general big fairy.

And if you want to say it, you will go straight to them and talk about it without loyalty. How can you mix it later?

If they were not told by Shen Lang, they would rather take the initiative to express their interests. Leaving here, of course, I will not say to the Mutian family and Chaotianmen.

When it comes to this part, it is enough. If Shen Lang continues to talk about it, it will be a little deliberately humiliating. People are also the top powerhouse of the Daxian class.

So he nodded and said that he would not pursue this matter again.

Then he did not find another corner, but came to sit next to the Yunyun fairy and mysterious girl.

If you come in when you come in, the attitude of the fairy will naturally be different. She will give Mo Fei a face, but she will not give Shen Lang a face. This is a young man with her apprentice.

But with just some exchanges, I know more behind the scenes she doesn’t know, and I don’t dare to ignore this young man.

Maybe... this kid is just looking young on the surface, actually a hundred-year-old monster! How else can you make Mo Feiliu respectful?

Think about the characters that Mo Feiliu can respect, she is polite, not to bow.

“Shen Daxian is a real person. I have been taking care of the little ones before. I would like to thank you. The place where the old words are disrespectful is also hopeful!”

Liu Yundao thanked and apologized, but it made Shen Lang a bit surprised.

In fact, this is the place where she is savvy. The two great immortals have already been paralyzed. The secret she knows, although not offended, may not be comfortable for others to see. So now in front of them, bowing to Shen Lang, it is also an initiative to show the side, so everyone is the same.

“Don’t say that. Mysterious women and I walked together and helped each other. And when everyone was beaten by Zhou Yucun on the same day, the fairy could remain neutral, and Shen Lang was also grateful.”

The stream fairy is a bit awkward.

To say that it is helpful to the mysterious girl, it is of course a polite word. Most of them are Shenlang who helped the mysterious woman. At most, she can only count the waves to the valley. It is the message of the mysterious woman.

On that day, her neutrality was actually a side-by-side look, and she did not say a fair word. Moreover, when she was in the ancient fairy palace, she actually had the meaning of putting pressure on the waves.

“According to the mysterious woman, there are a number of sisters coming together, and finally she is left. If you can’t bring back some resources, you can see the Yaochi...”

When I heard the words of Shen Lang, the mysterious girl was a bit safe, and the fairy who was in the clouds was quiet, and secretly analyzed the deep meaning of Shen Lang.

“Don’t be tomorrow, everyone may not have the chance to see you again. Since I have been on the road, I am willing to give my income to a mysterious woman.”

Shen Lang and Liu Yunxian, it is really only polite, she is completely acting. The mysterious woman is really out of the concern of a friend, and he advised him to leave quickly.

As he said, after a long time, he may not see each other again. He does not want to owe his slightest feelings. It does not matter if others owe him.

So after I finished speaking, I took a bunch of Yuan Lingshi out of about 500.

This pile of Yuan Lingshi, let the Yunyun fairy and the other two big fairy, are all bright.

In their realm, of course, the role of Yuan Lingshi is also limited. It is really necessary to help cultivate, and it takes a lot of quantity. The best is of course the spirituality.

However, for a martial art and a family, Yuan Lingshi is a core resource and an important cornerstone for the survival of future generations.

Looking at this amount, Shen Lang said that it is part of it, obviously he still has a part!

However, those two great immortals, of course, can only secretly sigh can not really grab the waves, and even suspect that this kid is deliberately revealing, to lead them to start, and finally there are means to smash them.

The fairy who is a fairy godmother is the master of the mysterious woman. It is the party that accepts the gift. Of course, it will not be greedy and insatiable.

“How does this make? So many Yuan Lingshi, you are not easy to come, or...”

Instead, it was a mysterious woman. It was not too pleasant. Although it was covered with a veil, my eyes seemed to be sluggish.

Her point of concern is not Yuan Lingshi, but Shen Lang's saying, "Don't see tomorrow, no chance to meet."

"You're welcome." Shen Lang interrupted her words and told the Yunyun fairy to close it up. He doesn't give much, he just doesn't want them to be jealous. Five hundred will make them think that he has one or two thousand, can't do it. If he guesses that he has tens of thousands, then he still has it.

"Then I would be more respectful than my life, and on behalf of the female repairs from Yaochi, I would like to thank Shen Daxian. You are still young, and there are still many opportunities for goodbye in the future."

Flowing Cloud Fairy understands that she does not have this face. People are giving it to the apprentice. Of course, it is a matter of pulling down the relationship.

"Thank you..." The mysterious girl said softly.

She is in a complicated mood and does not know how to describe it. Although it was the first time I met here on that day, I basically didn't communicate. Until the underground building, she began to wrap him decisively. But the time to get along with it is just one day.

After that, they were trapped in the ancient warehouse. After Shen Lang went out, they were retired on the 7th. After leaving for half a month, they will see you again.

But this is strictly calculated to get along with one day, but she has left a deep brand. For more than 20 days, she is worried that Shen Lang will be chased.

#### Chapter 1355 - Yaochi Legend

The fairy in the cloud looks in the eyes, and the heart is a sigh.

Even if the disciple moved his heart, in her eyes, the area is not worthy of the mysterious woman. However, the appearance of Mo Feiliu and others in the back has already shocked her once, and with all the other things, she is helpless.

Now is not the problem that this Shenlang is not worthy of the Yaochi disciple, but whether the family can see the problem of the mysterious woman.

But the light of this pile of Yuan Lingshi is a good beginning. If you have no feelings about the mysterious woman, you should not send it, and all this will go with the flow.

“You haven’t seen it for a long time, and you may have to go to work tomorrow. It’s better to go to the outside of the mouth to tell the old.”

Flowing Cloud Fairy has just said that there is still the possibility of goodbye in the future. Now, it helps the apprentice to find a chance to be alone with Shen Lang.

The space here is so big, even if she and the other two great immortals close their eyes, the two young people will feel embarrassed.

Death Valley is actually the mouth of the cave. It is not far from the distance. They can hear the words directly. But at least not in front of you, you can be natural.

The mysterious woman hesitated, and Shen Lang looked at the other two great immortals who had closed their eyes and agreed. If you don’t speak alone, then he will lie down and sleep.

Seeing that Shen Lang stood up, Xuan Nuo followed him out.

“Actually, you don’t have to help me so much.”

The mysterious girl broke the silence. No matter how he killed Zhou Yucun, they all have the strength of calling Daxian, and they don’t want to please Yaochi, so the Yuanling Stone just can only help her.

“never mind.”

Shen Lang really does not matter, he has more than 20,000.

“In front of the waterfall, in front of Zhou Yucun and others, you remind me to leave, I want to thank you.”

It doesn't matter if it doesn't matter, Shen Lang doesn't want her to misunderstand. He doesn't have any thoughts about her.

"Nothing. I didn't help anything."

During the talk, two people have already arrived at Death Valley.

It's already dark outside, warm and snowy, just across the line.

This Death Valley is the place where they first met, and it is now the last time they met before.

"You...what is the martial art? Have a chance to see you." The mysterious girl broke the cold field again.

Shen Lang shrugged slightly: "There is no door to send. It has a better relationship with Qiu Lin Jianzong!"

"Oh..." In the eyes of the mysterious woman, this is not willing to say more to her.

"You Yaochi... It seems very mysterious." Shen Lang shifted the topic.

I don't think that everyone's friendship is much. Before being in the ruins, I still get tired of her entanglement. If you have a few words, go back to sleep and wait for the day!

"Well. Our Yaochi is less likely to go out and go out with the general sects. We are..."

Xuan Nun wanted to say where Yao Chi is, perhaps expecting that one day Shen Lang will go to be a guest. But I don't know if it is the voice of the fairy in it, or she wakes up.

When I got to the lips, I still didn't say it. Their location is still mysterious, not to outsiders.

“...we have had it a long time ago, and it has a long history than the various sects you know.”

“So powerful?” Shen Lang was a little surprised.

Although the various parties will boast of exaggerated history, others do not dare to say that they are the oldest, which is equivalent to demeaning everyone to raise themselves.

The mysterious woman had an interest and began to talk about herself.

“According to each other, our ancestor fairy in Yaochi met the real goddess. We got the goddess’s point, and then created the Yaochi dynasty. We are witnessing the whole world from the barren land to the present Han Dynasty. “”

“Goddess?” Shen Lang laughed: “Then you should respect the goddess as the founder, not the other founder.”

“No, goddess, that is the real god. It is the founder of the ancestors, and can only look up, but only got the point of inheritance of the fur, not qualified to become a disciple of God.” The mysterious woman said very seriously.

This is in their Yaochi, and I don’t know how old the legend is, but she is still very respectful.

“Is there... Is there really a \*\*\*\*\* in history?”

Shen Lang muttered, he thought that he himself was honored as the world god.

God is also a super strong; or is it super-powered?

The revision of the truth is to change the life against the sky, ask the heavens, the quality of God, it is not a big rebellion.

“At least, our ancestor fairy has met the real god.”

“Which world is that god? Your ancestor fairy, and later went to the world of God?”

“No. It is said that the goddess is looking for a true god, a world god. So she will not stay in one place for a long time, always wandering the world...”

“...”

Shen Lang’s eyes widened!

Goddess, nothing. The female repairs of Yao Chi are respected as fairies and may be just a respectable name.

But the goddess is looking for a true god, the world god, and still wandering the world. Is this a bit coincidental?

“You...have the ancestors circulated the goddess, or the clues of the world’s great gods? The name is what The mysterious woman did not notice his change, just shook his head.

“When the ancestor fairy got the goddess inheritance, it was a long time since I had the strength to create Yaochi. At that time, it was not enough to follow the goddess. Of course, the knowledge is limited.”

The tide of Shen Lang is ups and downs.

How long has Yaochi been? Ten thousand years, 20,000 years?

The goddess encountered by the fairy tales of Yaochi is the blue sea joy?

Was it 80,000 years ago? Or has she been crossing time and space, the legend has searched for “world gods” for tens of thousands of years?

But it doesn’t make sense!

Not to mention the origins of the ruins, no matter what happened more than 80,000 years ago, let the world of the river basin run to the mountains, no matter how much range ran.

In the late Bihaihuan period, the power of “God” has already been acquired, and it is also possible to master the ability to travel through time and space through the Sacrifice Project. Then count the dead forests, the city of Talo, and the hundreds of thousands of ring points are closed, and there should be opportunities to reach the earth.

But soon, Shen Lang reacted!

She can't go to the earth world, she just can't find him!

If the city in which she lived in the same year was separated from the present for more than 80,000 years, then she could come to Zhoushan and Han, and it was still a barren land. The earth that can be reached is still in the era of ancient times!

The separation of spaces is just a difficult distance.

If time is confusing, it is infinitely possible. Counting her for 10,000 years, 80,000 years, she can no longer meet.

This new suspected clue makes Shen Lang a bit stunned. Now go back to Earth, can you go to the river city? Will it be the river city that was last seen 80,000 years ago?

Chapter 1356 - What is this monster?

Two people together, Shen Lang did not answer, and soon it was cold.

“You... are you in that place?” The mysterious girl asked again.

Because there are outsiders in it, so she did not elaborate, Shen Lang knows what she meant.

When Shen Lang saw that she was still obsessed with the cube building, she responded.

“There is really no resources there, even if you go in, you will be disappointed.”

The mysterious girl is actually just looking for a topic. People have already come out here, and they will be able to leave the Zhoushan area tomorrow. What is inside the ruins is put down.

And after more than 20 days, she and the mentality at the time were completely different.

There is no topic for both people, so they are ready to go back inside.

At this time, there was a noticeable shock!

For a time, not only the two of them, but the three great immortals inside, also amazed!

“There may be a snowman coming.”

The last time my mysterious girl had been hiding in the dark before the dark, they were coming in the night, and they had a big fight with the snowman. Later, I thought about it. It's a snowman all over the mountains. I want to rush to the Death Valley. It should be the mysterious woman!

Now, after he finished speaking, he married the mysterious girl, and she saw her brows. Obviously, for these snowmen, I also learned.

Perhaps... her sisters and sisters were chased down by the snowman.

Immediately, the Yunyun Fairy and the other two great immortals have already reached the hole and watched the front together.

They did not ask more, and they did not know exactly the source of the vibration in their realm. Shen Lang and Xuan Nu should also be unclear.

After a minute, there was another shock, and this time the vibration was obviously much stronger.

Will it be an earthquake?

Although Shen Lang has doubts, there is nothing to worry about. One of the weakest mysterious women on the scene is also the peak and the half of the fairy, and natural disasters such as avalanches, earthquakes, and volcanic eruptions can't hurt them.

The eyes of the five people are now on the top of the mountain.

The source of the vibration seems to be at this mountain. But it is still relatively secret and cannot be confirmed.

It took another minute, and it vibrated again, and this time the vibration was even louder!

Before the more obvious situation emerged, everyone still did not move. Now, in the dark, if you want to go out to the entrance, there is still a long way to go. Even if you are driving at full speed, it will take a lot of time.

Such a dark night, there are various dangers, and it may not be faster to stay on the road overnight.

About one minute of vibration, each time the amplitude is much larger, so after half an hour, suddenly a big shock!

This time, there is no more waiting for a minute, but the mountain in front, suddenly there is a trend of crazy cracking!

Sudden changes in the earth's landslide caused an avalanche around the mountain, and a lot of snow and ice and boulder fell. This Death Valley is below the hillside, and these ones are rolling over here.

Everyone is guarded by God, but still has not moved.

Those ice, snow, and rocks, when they have not rolled to the bottom, shocked the peaks for a while, and the whole burst broke!

At the moment when the mountain was cracked, it was also a huge fire, as if a volcanic lava spewed out.

“Reassured! There is a law of protection here.” Flowing Cloud Fairy whispered a word, so as to prevent Shen Lang and Xuan Nuo from holding their mind.

The fire reflected the night sky, and it brightened everything around. I saw a lot of snowmen, I didn’t know where it was forced out, and I was madly fleeing far away.

Some of them are bulky and faster, and they fled faster, while some were at the top of the mountain, and they escaped from the flames and were swallowed up by the flames.

Is it an earthquake or a volcanic eruption?

Shen Lang is of course still very calm, even if the array of rest points can not be protected, he can leave at any time. The speed of the volcanic eruption can’t keep up with the super high sonic speed.

As for other people, even if it is a mysterious woman, there is also a big fairy guard, and he does not need to worry about it.

At this time, the ice and rocks that had already rolled down during the earthquake have already rushed to the Death Valley. However, the outside snow and snow people were blocked, but these stone ice cubes still rolled in.

One of the great immortals, after coming in with a stone, had already waved gently, so that when he came in, he and the stones that were coming outside would roll away on both sides, so as not to block the cave entrance.

“has a problem!”

Shen Lang called, and the iron bar was already in his hand.

He just felt it clearly, in the depths of the bursting flame, there seems to be a living thing!

The other three great immortals were also discovered one step earlier than the mysterious woman. Everyone is waiting for it.

After a while, the suspense was untied. Inside the gushing flame, like a huge hand, directly pulled the newly cracked mountain, like the two sides, and then a flame giant stood up from the mountain!

It seems to have been curled up in the mountain. Now, as soon as it stretches out, the half body that is exposed is already a lot higher than the mountain!

This time, let Shen Lang could not help but \*\*\*\* a cold breath.

He used to fight over the time and space trolls Pingxi appeared, even if it is the group of extraterrestrial demons that appear in the city, the highest, that is, reach 100 meters, light then You can tear the fighter directly.

And now this flame giant, according to the height of the mountain, Shen Lang estimates plus its feet in the mountain, it should be two or three kilometers high!

It's not so exaggerating to put the tens of thousands of meters on the mountainside, and the few kilometers are just the edge of the mountain. But if it is to be placed in the city on earth, the various towers and various centers Big city landmarks, just to the knees! If you take a big step, you may cross the area from the city to that area!

“What a monster!” One of the big fairy couldn't help but whispered.

The other one is also awe.

Then the two of them, involuntarily looked at the sinking waves. This mysterious youth who can drive the beasts in the ancient ruins may also know.

Shen Lang is also speechless, my ghost knows what monster it is!

The extraterrestrial demon he has seen can also become a fire demon, and this is completely a fire demon, and it is twenty times larger than the one he has ever seen. I don't know if it is the same race.

“I have seen a giant like a fire. It is a kind of extraterrestrial demon race that swallows resources and destroys everything. But I have seen from a few to a few dozen feet. This guy... It is estimated that there are thousands of feet. I am not sure whether The same kind.”

Although Shen Lang was not sure, but the words were spoken, they were surprised by the three great immortals.

This point of view to Shen Lang, is also a subconscious reaction, I did not expect that he actually saw what extraterrestrial demon! Listening to this description, although not so exaggerated, is generally like a class.

Chapter 1357 - Giant shot

Just a few words of their observations, the Flame Giant has stretched more and become taller.

Just when it stood up, both hands were to open the cracked mountain peaks. Now it seems that you want to stretch your feet, and let the huge mountain below be scattered around.

In addition to the snowman, there are some beast monsters. They used to live in the darkness, but now they are all dying, running at the fastest speed and not far away from Zhoushan.

The collapsed mountain brings out a lot of flames, plus the flame of the flame giant itself, so that the mountain is at the center, and the fire can be seen at a great distance.

“The shock just... isn’t it the heartbeat of its recovery?” Shen Lang suddenly had a bizarre thought.

Heartbeat!

Everyone was shocked. It’s nothing to jump in a minute, but can the light heartbeat cause tremors in the vicinity?

However, they are now under the mountain peaks. They are looking up at the angle. It seems that the flame giant is rising into the sky. The hands can tear apart the peaks of several kilometers. What is the shock of the resuscitating heartbeat?

It has not started to act, and if it is walking, it is estimated that it will be a big shock directly!

Just talking, but seeing the change of the head of the flame giant!

Originally it just stretched out, that is, it has a general shape like a human body, so it is a giant of flames, but the head is actually completely flameless and cannot be clearly seen.

It is different now, the head is faintly showing a pair of eyes, the other organs are not appearing, or a flame.

This pair of eyes is of course huge, but everyone looks down and does not feel terrible.

But what is a bit strange now is that after this pair of eyes appeared, after watching it left and right, it landed in Death Valley!

This Death Valley is actually just a small cave under the fixed boulder. With its height of two or three kilometers, it seems to be insignificant. It is not as conspicuous as the snowmen who have escaped.

But that's it, it's still focused on it.

Shen Lang made a snap and reminded everyone to be prepared.

Needless to say, just those snow, rocks, and even volcanic lava and mud, they can easily open, but if you are eye-catching by this flame giant, you have to be careful.

After staring at it, it directly extended a big hand and covered it to Death Valley!

Its hand is big enough, and its strength is strong enough, but the speed is not enough.

Everyone will not sit still, the defense of the array here is probably aimed at the night beasts such as snowmen, and it has no effect on the rocks, let alone the flame giant.

It's all big fairy, and the speed is just what you want. At this time, the fairy will not test the apprentice, but directly pull the mysterious girl.

Everyone is acting together, and it is not a tacit friend. Of course, in the process of flashing, there has been change.

They all left from the front hole, but they flew in three different directions.

Flowing clouds fairy and mysterious female flew to the left, and the other two great fairs flew to the right, while Shen Lang went straight ahead!

After they left, the huge flame hand has covered the foot of the cave.

Under the absolutely powerful power, the array of the great powers of the predecessors was directly defeated!

The huge stone was easily caught by the flame giant, and the cave formed under the boulder, Death Valley, was naturally completely in the snow.

This can cover the huge stones of the cave. It is irregularly long, with a width of several tens of meters and a length of one hundred meters. However, after the flame giant grasps it, it seems to be about the same size as a fist.

Wrapped in flames, the surrounding area melts immediately, and the shards are constantly falling like water, and they are also reduced at a visible speed.

Originally, the Great Immortals also felt that they would have the ability to protect themselves. Now, when they see this scene, they are secretly scared. After feeling the strength of the other side, the two or four people who fled to the two sides quickly flew far away!

The snow people are the most direct, and now they are also decisive to escape.

The sun is going forward, and now it is below the flame arm. This is at least tens of meters, plus a 100-meter arm on the edge of the flame, completely obscuring him. He was under the arm and the Flame Giant could not see him.

That's why he just greeted him, not looking for a dead end, but entering a blind spot.

Now below this, he is a close-up of the situation of the fast-moving mobile phone giant.

In addition to his own induction, it also records all aspects of data through the Holy Grail.

What makes Shen Lang amazed is that even if he is under this arm, he can't confirm whether there is a physical arm!

Before the extraterrestrial demon, there is a normal state, the outbreak of life will be a flame, but now this is the flame.

They had stayed here for one night, and they were very calm just now. They did not feel the signs of a volcanic eruption. From the beginning of the shock to the last appearance, it was only a little more than half an hour.

It seems that this flame giant, before it should be like a dead thing, just when it is shaking, it begins to recover from the heartbeat, and then quickly recovers, only to appear flames. But now Shenlang can not see its essence, I don't know if it is a monster made of pure flames, or a monster with a fire on the body.

After a quick analysis, Shen Lang continued to fly toward the flame giant, and the huge arm became a cover for the sun.

The mysterious woman took her with her master, so that she could still observe the surroundings. When they left in different directions, Shen Lang actually went to the flame giant body to approach the past!

This made her exclaimed: "Master! He won't want to fight this Flame Giant!"

Liu Yunxian does not need to look around, but also knows everything.

“Maybe... can make a miracle!”

If it is before, she will definitely give a comment such as “self-discipline” and “find death”, but now Shen Lang, she has already lost sight of it, can make two big immortals yield, can kill two big immortals, there must be Magical power.

And just because Shen Lang is more calm than them, it is impossible to find himself dead. He dares to fly over there, and there must be his reasons. However, she will not follow the past, even if she does not have an apprentice, she is safe first.

However, she will still pay attention to the situation on the side of Shen Lang. The other two great immortals are also very curious about the trajectory of Shen Lang. It's just that their two moods are complicated. They want to see the miracles and create miracles, and they hope that Shen Lang can be killed by the flame giants, so that no one knows their shame.

Shen Lang flew to the flame giant, using the huge arm to cover it. After the arm grabbed the boulder, it melted and shattered quickly, and then the other wave was not static, so he followed it.

Chapter 1358 - Small and big

The Yunyun Fairy and the other two are Daxian. The speed is undoubtedly very fast. In a few seconds, she has already ruined the Death Valley and flew to the top of another hill next to it.

They were in different directions, but they all stopped at the top of the mountain.

Although from the perspective of the three-kilometre super-flame giant, this is not too far-reaching. It can be attacked by a step and a hook, but for them, it is already a safe distance. If it strikes Now, you can go to the distance, and the mountain will be a little hindered.

They stopped, of course, they wanted to see what they were doing.

The sinking waves at this time have already reached the body of the Super Flame Giant.

His current height is at the peak that has been smashed and smashed, roughly equivalent to the halfway up the mountain.

Shen Lang saw in the eye, this flame giant, the feet are indeed trapped in the volcanic lava, there is a large number of flames of molten squeezing from below.

It is like a fish in the volcano, but does it need to rely on volcanoes and can't leave here?

If it leaves the mountain, without the support of flame-melting, will it turn off?

Or is it... the volcanic slurry here is activated because of it?

Shen Lang uses its huge arm to block the line of sight, so close, in order to collect more information.

However, this flame giant can not only be seen through the eyes on the head, it also seems to know that the sinking waves are below it. So at this time, suddenly lifted the foot and directly hit the Shenlang.

Its leg light is two or three hundred meters thick, compared with the field, it has completely blocked a large space.

When you hit the kick into the sinking wave, you will directly hit the lower half of the mountain that has not been smashed!

Between huge and small, small is easy to be crushed, but it also has a small advantage. For example, humans do not need tools, it is difficult to shoot flies with their hands, and it is difficult for ants to shake off their clothes.

Now a large piece of mountain has collided. If the sun is a skyscraper, it will be destroyed directly. But as a small individual, he leaned directly over the mountain, and then the mountain rushed forward.

At this moment, the mountain became his cover again, and he would not directly touch the giant flames behind him.

However, this flame giant did not let him go, the huge palm of the upper hand directly slammed down, and fell to the mountain part where Shen Lang is located!

When Shen Lang is close, he can't understand more information, but he hasn't given up. Although I don't want to destroy this flame giant, I also want to try to challenge it.

His body can also grow bigger, but at most it will become a giant of twenty or thirty meters. Compared with the current flame giant, it is only one percent, still very small.

His ability is from the gene of swallowing the sky. Although it can't be said that this is the limit, it is estimated that it will not be able to withstand tens of meters to 100 meters, which is incomparable with these kilometers.

The iron bar is also a magic weapon that can become bigger. It can be like a pillar, but for this giant, it is just a little great.

When the huge palm was covered with a flaming flame, the body of Shen Lang also became bigger and the iron rod changed to more than 100 meters.

His feet slammed on the mountain in the flying place, and the iron rod smashed up against the flame palm!

Heaven and Earth domineering and "Da Shou Mi Long Xiang Shen Gong", so that the power of the current Shen Lang stick is not as good as the mountains!

But this huge giant of fire, a few kilometers, still has the power advantage of total suppression. When the iron bar was immersed in the flame, it immediately felt the top of the hard object, and then the greater force, directly through the feedback to the giant stick, took the flying waves out!

The Yunyun Fairy and the other two great immortals viewed from the distant peaks, watching the body of Shenlang become bigger, are a bit of surprise. And immediately there will be a result, a big fairy who can become a giant – now looks very small, can not be considered a giant, and was directly shot!

This makes them all have a snack.

However, while Shen Lang's body was flying out, it quickly retracted to its normal size, then circumvented at high speed and turned to the rear of the Flame Giant.

He was just a temptation. He wanted to see if there was an entity in the flame, or a giant formed purely by flame.

The counterattack of that has proved that the flame giant is only wrapped in a flame that may be several tens of meters, and it still has a physical body.

If it is purely a spiritual body composed of strange flames, it is difficult to have a countermeasure to eliminate it, because to kill "a group of fires", it can only be destroyed, but this is a few kilometers tall, plus volcanic lava, whether it is a sky Wind and snow, or any other way, has no effect on it.

Since there is an entity, it is much easier to do. As long as the entity can be defeated and broken, and the flame giant is killed, the flame should be wiped out.

In the face of such a huge volume, Shenlang certainly has the huge advantage of agile and flexible. The speed advantage of Shengjia can also make up for the height difference.

Almost instantaneously, he had already reached the giant's back, and had already pulled up to two or three kilometers, behind the head of the flame giant, and then immediately fired a missile and shelled it against his head!

The giant of the flame is huge and looks awkward, but its clumsiness and slowness are relative to its size. Compared with the scale of human beings, the speed is very terrifying. After all, he is at least one shot. The distance of kilometers.

When Shen Lang went to the rear, it had another hand that had quickly smashed back. Although Shen Lang has the advantage of speed and sensitivity, it is not much slower.

And it seems that there is no front and rear restrictions on the joints, and the hand attacks backwards, as flexible as before!

When Shen Lang won, he also issued a missile time, and the big hand has arrived!

The Flame Giant is also very protective to the head, realizing that Shen Lang specializes in attacking his head in the back. For missiles that are unclear but powerful, they are still blocked with that hand!

Because a large piece of hundreds of meters is a flame, the missile hits the hand, or the hand grabs the missile and detonates the missile. The specific effect is not true.

At this time, the head of the Flame Giant has turned over!

With the arm raised, it seems to have no joint restrictions, the body does not move, just the head turned over!

Then its strange eyes burst into a golden light and came straight to the waves!

Before looking at the Death Valley, it appeared normal eyes, and now looking at the parallel height, it is to look at two large eyes at least tens of meters. The two golden lights, of course, are also large beams of light with a diameter of tens of meters.

Chapter 1359 - Sword

The two golden lights have a large impact surface, and because of the height relationship, it can rotate a large distance as long as the head is slightly moved.

Shen Lang himself has such a magic weapon as Bai Hong Guan, of course, dare not underestimate, the speed of light is the fastest, if it has been shot, it is hiding, can not hide, can only rely on the prejudgment, not yet to the side When you are hiding, you will hide.

When it was discovered that the eyes were golden, Shen Lang had already driven the sacred armor and rushed directly behind the head of the flame giant at supersonic speed.

Almost at the same time, the two golden lights, which have already shined far away, immediately broke the snowy peaks and broke through the deep gullies until they were far away.

Seeing this scene, the big fairy above the peaks on both sides were shocked. If you want to attack them, then the flame giants don't even need to step on their feet, and if they directly come over, they will be able to hit them on the hill!

However, their distance is farther, the light column is straight, the moving traces are well captured, but they are kept on high alert and do not need to escape wildly.

When Shen Lang was at the back, the head of the Flame Giant turned again, and the two golden lights were launched again, and they followed him.

Shen Lang is counted like this, so when it turned around, two shells had banged into the eyes!

The Flame Giant has already felt the power of the missile. Jinguang can only solve the two shells first.

At this time, Shen Lang released the sky mark!

Although not very skilled, but from the memory of Zhou Wei, I also know how to manipulate the sky.

The target of the enemy is so great now that Shen Lang has also magnified as much as possible, as soon as possible, to the top of its head.

Last time in Linyuan, there was a half-story building in Chaotian, so now, Shenlang has already pushed it to the size of a few hundred meters of hills, but this giant of several kilometers is not counted. what.

Probably the impact of the shell, the flame giant's eyes closed, or too late to use the golden light to attack the sky, but raised his hand and took it out.

This became a mountain-like giant print, and it did not affect him at all, and was directly shot and flew out.

The two great immortals, and Zhou Yucun are friends, and of course they have seen the moon in the past. Now I see that in the hands of Shen Lang, it is a bit embarrassing. However, my heart has not finished, and I was shocked by this flame giant.

The treasure of the town of Chaotianmen, playing the sky can be flattened by the hills, it is directly shot by it!

It is now limited to too large a volume, and it is inconvenient to move. Otherwise, if there is no way, they have no place to escape.

This thought has only just begun, and it is found that the other giant foot of the flame giant has also been pulled out from the volcano!

It settled directly to destroy a large number of mountains, and hardly stepped out of the valley. And after it moved, it was not slow!

This time, they dare not look at the excitement again, and quickly fled to the distance.

While Shen Lang has no effect in shelling and Chaotian printing, he also thought about using other magic weapons.

Like a nebula chain, it can be frozen, and it should have been able to restrain this flame. However, the gap between the two sides is too great. The nebula chain can freeze a person and can destroy the flame of several tens of meters. For these thousands of tall flame giants, it is a glass of water.

The dead water whip should of course also be able to corrode this flame giant, but the length of the dead water whip is limited, and the flame of the flame giant's light surface layer is no less than tens of meters, and it does not touch its inner body.

Combined, long-range missile attacks are the most cost-effective method. But just after a few shots, I didn't see any obvious effects. If...the flame giant can swallow up the absorbing energy, it will be a boost to it!

At this point, Shen Lang only left.

He has tried and challenged. This giant is not what he can fight now, unless he cultivates into the realm of the gods.

Anyway, this is not awkward, I don't know millions of tens of millions of miles, even if it wakes up, it's just doing evil here, it won't affect the outside world.

The direction in which Shen Lang chooses to leave is in the direction of Liu Yunxian and Xuan Nu. They are still careful. When they fled, they also chose to go out. The other two great immortals are continuing to go deeper.

With a maximum of half a day left, the snowman and the like are also frightened and fleeing. The flame giant has changed the ecological situation here. Perhaps it will not be more dangerous to leave this evening.

Shen Lang quickly leapt over the hill and caught up with the Yunyun fairy who also began to escape.

“Shen Daxian, you can really have courage!” Flowing Cloud Fairy slowed down a bit and made a greeting.

Shen Lang also sensed that the flame giant did not chase them. At this moment, the two eyes of the golden light are chasing the two great immortals.

The two are the Daxian level, and of course they will not be killed as easily, but the situation is not optimistic.

So they can't stop to chat, just slow down a bit, or distracted to keep an eye on the situation behind.

At this time, Shen Lang and Liu Yun Xianzi were taken aback!

A powerful atmosphere of the vastness of the sky in the sky above the mountains, directly toward the flame giant!

This change allowed them to stop and turn around involuntarily. Even if the sensory induction is more real than the naked eye, they still want to see it with their own eyes.

After a while, the Flame Giant has taken a few steps and has not started running. It is a golden light that can be traced to the two great immortals.

At the moment, it also sensed this powerful atmosphere, which made it nervous and cautious, and did not pursue the two great immortals.

A cold light broke through the sky!

Compared with the light of the flame giant, the cold light is insignificant, and it is a flash. But even with the dazzling range of fire, it can't cover the slight flash of cold light.

It is also impossible to see the realm of the great fairyland of Shen Lang and Liu Yun Xian Zi.

But they all seem to feel clearly, it seems to be a giant sword of a few hundred feet, across the neck of the flame giant!

this is.....

They can't believe that it is impossible to have such a long sword. In fact, there is no physical sword. Even the sword is not good. It is just a sword!

It is almost impossible for a long sword to reach a kilometer, and it is possible to extend the sword to a kilometer. But that is at most a fixed blow, such as breaking the ground against the ground. However, it is difficult to control the enemy's swords in the air.

The meaning of the sword is invisible, and the distance of tens of thousands of meters is only strong in the spirit of the person holding the sword.

Shen Lang did not see clearly, but it was very clear that it was a combination of sword and sword. The mighty atmosphere of the vastness into the clouds is the sword of the sword, and the slight cold light is the sword of the sword!

Chapter 1360 - Great God

The owner of this sword did not arrive, not to mention thousands of miles away, at least a hundred miles away is possible.

It is such a sword that can be so far away, not to mention the great god.

The great \*\*\*\*\* is strong, still with a sword, and has a familiar feeling. Shen Lang naturally has an answer – Gao Hanqiu!

When I said that it was too late, when Shen Lang saw and thought about it, another sword with a sword-like spirit was involved in the middle of the body of the Flame Giant!

This time, the dual role of Jianyi and Jianqi is no longer a pass, but a burst around!

Because of the relationship between the flames, I didn't see any points at all, and the sword was very powerful, and it was basically impossible to distinguish the specifics. If you don't know more about Shen Lang, you can't feel it.

The two great immortals who fled there also stopped. They looked back and saw that the head of the flame giant broke down!

Then, its body began to burst!

Because the flame giant stood up to a height of three kilometers, the disclosure of the break now is like a huge fireball falling from a small hill, and the body that is torn apart is even more violent than the previous volcanic collapse.

From the mighty sword of the vastness, to the collapse of this giant, but a few seconds, and the time to actually kill it, but within a second!

The four great immortals who were forced to escape, including all of them, looked at this scene and were silent.

This is the gap!

The more you cultivate to the back, the harder it is to upgrade, and the ability to break through a big realm is simply a world apart.

Just like a half-sex, and a peak and a half, perhaps it is possible to make up for the difference in the realm by quantity. However, the gap between the peak and the half, and the half of the fairy, is not enough to make up for it.

Emperor Jiayi and others, and Lu Yang and others, add up to seven or eight half-scent, peaks and half cents, and for a while, they were swallowed up by the beast \*\*\*\* of the Great Immortal.

And a few of them, and the peaks of Mo Feiliu, there is already a huge gap, so on that day, Mo Feiliu can be a person who can live with them all.

What is coming now is the real big god-level powerhouse, even if they are these big fairy, it is far from being able to look back.

People have not yet arrived at the scene, they have killed their unbeatable strong enemy with a sword. If they want to kill them, it will be more relaxed.

The flame giant has been killed, the scene is controlled, and the three parties and five people do not need to escape, but quickly gather in the place where the flame giant falls.

This flame giant is so huge that after the destruction, there may be many excellent resources. Of course, the great \*\*\*\* who has not yet appeared must pick it first, but the eyes of others are definitely different. They used to be cheaper in the past.

Even if it is not cheap, the great \*\*\*\* will arrive soon, it will also check the flame giants, they should also wait.

They returned quickly, and it only took a few seconds. The Flame Giants were not enough to collapse completely in a few seconds. When they started to return, the Great God had not arrived yet.

As a result, when they killed the flame giant, they found that there were already people in the air, and more than one!

“It turned out to be the sword of the autumn forest, and it is no wonder that there is such a grand sword!”

“I really admire and admire!”

There are four people in the air, three of which are seen in the ruins. Of course, Mo Feiliu's identity is the strongest and most powerful. Nowadays, one of them seems to be as old as Mo Fei, and no one knows.

Therefore, the two great immortals expressed their admiration directly to Mo Feiliu.

Although everyone just realized that this is the strength of the Great God, but they are not clear about the realm of Mo Feiliu. It may have been the peak of Daxian before, or it may already be a great god. Or they are Qiu Lin Jianzong, on the kendo, there is a very unique and powerful.

But they just finished, Mo Fei quickly shook his head.

“Wrong, just shot the family is a tall god!”

In addition, Xu Yuyue and Count Dracula have also seen it in the ruins. The strength is not as good as Mo Feiliu. Naturally, he will not be his master. The teacher who is now talking about this should be the man who looks like a middle-aged man.

The two great immortals, as well as the yunyun fairy, including the mysterious girl, were completely shocked.

Master of Mo Feiliu is still alive!

How many years old Mo Feifei is, they are not clear, only know that they are a boy, the legendary Qiu Lin Jianzong master, it is likely two or three hundred years old.

Because of his age, he has rarely heard of his tracks in recent decades and has already passed away. So the last time I saw him, everyone was very surprised.

Now, not only is Mo Feiliu still alive, his master is still alive!

The master of Mo Feiliu, the legend is the powerful and powerful \*\*\*\* of the cold and the cold, it is already hundreds of years ago, and it is said that Mo Feiliu is the close disciple of the cold and cold years.

He is still alive!

Gao Hanqiu is still alive. It is not surprising that in the identity of his old god, a distant sword killed the giant flame giant.

When everyone was shocked and unable to speak, Gao Hanqiu did not have any chills with them, but came directly to the front of Shen Lang.

Flowing clouds fairy and mysterious girl came in the same direction as Shen Lang. Now when he comes over, Liu Yunxian can't help but get excited.

"I have seen high predecessors! The younger generation is Yaochi Liuyun Don't say Gao Hanqiu, it is Mo Feiliu, strictly counted, they are all called seniors. But everyone is not a martial art, they are also a big Older fellows are called seniors, others may not be happy, and they are called "the sovereign" and "the great fairy".

However, in the face of the cold autumn, the cloud is involuntarily called the predecessor, this is a historical, legendary figure.

Of course, she has self-knowledge. With her strength, like the other two great immortals, it is impossible to get the special favor of the cold autumn. That will come to her, it should be related to Yao Chi's predecessors.

The other two are shocked by the big fairy, watching is also envious, they can't talk.

As a result, what everyone did not expect was that Gao Hanqiu just nodded slightly, and he was satisfied with her greetings. He stayed in front of Shen Lang!

“Dragon brother is not a wave brother! This is already back to the level of Daxian!”

Before and after a year or so, Shen Lang has returned to the level of Daxian, which really makes Gao Hanqiu very happy.

Because of the last meeting, he also felt that the strength of both sides was upside down. Even if he was very enthusiastic and dedicated to all kinds of help, he would inevitably let Shen Langyi. To avoid this, let everyone's relationship recover before, only the strength of Shen Lang re-goes up, and he is a level.

Of course, hundreds of years have passed, even if Shen Lang can really catch up with his cultivation, everyone just gets along with each other, and he can no longer be like the role of the younger brother.

But how difficult it is to rebuild the Great God, he has a deep understanding!

It's just a wave... It's too bad, how long it's been!
